

## **Tamer Family 411**

### Chapter 411: Speak With Strength? Then Let's Speak with Strength!

In the end, he could only let out an unwilling scream. Then, he was smashed to the ground by the fist shadow. Even the ground was smashed into a deep hole with a diameter of 20 meters.

Seeing this, the referee quickly rushed to the side of the black-robed man. After confirming that the black-robed man could no longer fight, the referee announced the final result.

"I hereby announce that the Longyue Merchant Association is the winner of this battle!"

"The Longyue Merchant Association won the duel with a two-to-one advantage!"

As soon as he finished speaking, the Longyue Merchant Association quickly fell into a state of ecstasy, and the sound of celebration could be heard without end.

" Long live!!!"

"Victory!"

Amid the celebratory cheers, Li Kehui smiled and walked to the center of the battle area. He looked at the three chambers of commerce and said,""Everyone, we won by luck. Please fulfill your bet."

Hearing this, everyone present looked at the three chambers of commerce. Only now did they remember that there seemed to be a bet in this duel.

"Do you think the three major merchant associations can fulfill the bet?"

"How is that possible? This was such a huge piece of meat, how could the three chambers of commerce give it up? In my opinion, there is still a great battle to watch."

“Heh, this is exciting. I didn’t expect that not only would I be able to see a battle between geniuses, but I would also be able to see a battle between experts.”

“Sigh! It was a pity that the Longyue Chamber of Commerce had lost. Even if they had obtained the final victory, so what? In the end, the situation was not as good as they were. They would still lose.”

“That genius is also a pity. If he stands with the Longyue Merchant Association, the three major merchant associations will not let him off easily.”

Hearing the discussions around him, Pavilion Chu frowned. He was not in a hurry to answer Li Kehui’s question. Instead, he looked behind him.” Have you found it?””

At this moment, a scout came forward and said,”President, I know this man. He’s quite famous in the Hidden Dragon Mountain Range.”

“Chen family?”

Pavilion Chu looked at Yang Chen in astonishment.” Is that the seventh-rank Chen family? No! How was this possible? How could the Chen family have such a genius?”

“President, I know you don’t want to believe it, but this is the truth.”the scout said.

Hearing this, Pavilion Chu took a deep breath and sneered,””This is even better. Not only can we swallow up the Longyue Merchant Association, but we can also swallow up a genius.”

“Without a background, wouldn’t a genius be like a treasure? In the end, isn’t he still at our mercy?”

Pavilion Chu could already see that under her coercion, a genius who was regarded as a monster of the current era had to lower his head to her.

If he could take Yang Chen as a slave, wouldn’t he be rich in the future?

Thinking of this, Pavilion Chu took a step forward. Immediately after, a huge aura spread out from her body and quickly enveloped the entire training field.” Hahaha, sir, don’t be anxious.”

“What do you mean?” Li Kehui frowned.” Don’t tell me you want to go against the bet?”

“When did I say I was going to go against the bet?””The three chambers of commerce will definitely fulfill our bet,” replied Pavilion Chu with a smile.”

“I just want to ask, can your Longyue Chamber of Commerce keep this business?”

“There’s no need for you to worry about that.” Li Kehui snorted coldly.

“Hey, you can’t say that.”

Pavilion Chu took a step forward and opened her hands.” This is a blind date for my elders. I can’t let them down. That’s why I want to bring them to test if your Longyue Merchant Association can keep this business and ensure the daily lives of my elders.”

“What an awe-inspiring principle!”

“You just don’t want to fulfill the bet. Why are you talking about this?!” Li Kehui snorted coldly. If you want to fight, we are willing to accompany you!”

Then, Li Kehui clenched his fists. His gaze was like lightning, and he had an aura of wanting to fight to the death.

Even the audience felt sorry for Li Kehui.

Yang Chen smiled and nodded. It seemed that Li Kehui had the potential to be a drama actor.

However, now was not the time to make a move. No matter what, he had to make a move first.

This was the only way to ensure that the Longyue Merchant Association would be able to take over the business of the three major merchant associations without any resistance.

Hearing Li Kehui's words, Pavilion Chu revealed an arrogant smile." Hahahaha, you're right. We won't fulfill the bet."

"The reason is very simple. You are not worthy. In this world, the strong will eventually rule!"

"Everyone, show yourselves!"

As Li Kehui shouted, the experts from the three major chambers of commerce stepped forward one after another, wantonly emitting a terrifying aura.

At the same time, mighty figures also descended from the audience. With so many mighty figures on stage, their auras made the entire Yang City feel heavy.

It seemed that the slightest carelessness would be the end of the world.

And this was not the end. From outside the martial arts arena, figures also flashed out. These figures were all dressed in black, and each of them emitted an invincible aura.

The auras of the two old men in the lead made the Zifu Disciples feel that even breathing was an extravagant hope.

"This... Fifty-five experts, hundreds of Zifu Disciples, and two Daosource Supremacies. The three great merchant associations actually had so many experts!"

"Even Dynasty wouldn't be able to bring out so many powerhouses."

“It’s more than just the white python. With so many experts, it’s more than enough to destroy the dynasty. It seemed that even if the Longyue Merchant Association won the martial arts competition, it would be difficult to change the outcome..”

Chapter 412: Speak With Strength? Then Let’s Speak with Strength!

The president of the Chu Pavilion had a good saying. In this world, it was still necessary to speak with strength.”

Hearing the audience’s voices, Chu Ge felt that he had never been so pleased in his life. He immediately stepped forward and smiled,“”Longyue Chamber of Commerce, I will give you a choice.”

“As long as you swear an oath to the heavens and earth and swear to submit to us forever, we will guarantee your lives.”

“Oh?” “Really?” Li Kehui sneered.”

“Of course it’s true. Oh right, that’s called... Yang Chen, you have to submit to us too.”Pavilion Chu smiled.

Yang Chen didn’t expect that he was involved in this. He immediately stepped forward and stood with Li Kehui. He smiled and said,“”You still want me to submit?”

“Naturally.” Pavilion Chu nodded.” Your talent is not bad. If you follow me in the future, your future achievements will be limitless.”

“I know you. You single-handedly founded a seventh-rank aristocratic family. It could be said that he had both talent and skill. Such a genius, why not find a good source for himself?”

Hearing this, Yang Chen smiled and looked at Chu Ge. His right hand formed a fist, and spiritual energy gradually gathered.” Could it be that following you is a good source?”

“Of course.”“ I’m the president of the Yang City branch of the Royal Chamber of Commerce, so my status is naturally not ordinary. Only by following me can you touch a higher level of scenery.”

“Thank you, President Chu, for your favor, but I refuse.” Yang Chen smiled. Hearing this, the smile on Pavilion Chu’s face disappeared.” Alright, I respect your choice. However, since you rejected me, it means that we are already enemies.”

-When it comes to enemies, I have always pursued the principle of cutting the weeds and eliminating the roots!”

“Attack!”

As soon as Pavilion Chu finished speaking, the group of experts took action. In just a few breaths, they surrounded Yang Chen and the others, as if they would take their lives in the next moment.

When the audience on the wall saw this, their eyes revealed a reluctant expression.

Sigh, a genius had died just like that.

This Yang Chen was both lucky and unlucky.

He was lucky that he had such outstanding talent, but he was unlucky that he had no background.

Without the support of a background, the higher the aptitude, the more it would be a death sentence.

Sweeping his gaze across the surrounding experts, Chen Yang finally focused his gaze on the two Dao Origin Supremacies.

“You’re not going to hide anymore, right? In that case, I won’t be polite! Immediately, Yang Chen shouted,” Everyone! Dynasty and the three major chambers of commerce colluded with the Netherworld Sword Sect and the Demonic Palace, which crossed the bottom line of the Li family and the Shen family!”

“In the name of the Li family and the Shen family, I, Chen Yang, will eradicate the three major merchant associations and Dynasty, clean up the world, and return everyone a sunny day!”

Hearing this, Pavilion Chu subconsciously took a step back and pretended to be calm. She snorted coldly and said, “Humph! You’re slandering me! Everyone, don’t believe his words. He’s trying to sow discord between us and the Li family!”

“Are you slandering me? Won’t you know everything when I capture you?” Yang Chen smiled as he looked at Shen Daokong and said, “Patriarch Dao Kong, I’ll leave everything to you.”

“Don’t worry.”

Shen Daokong nodded his head and flew into the air. He clenched his fists, and a terrifying aura spread out.

At the same time, balls of flames appeared on Shen Daokong’s body.

The flames contained the power to destroy everything.

Sensing Shen Daokong’s aura, Chu Ge was shocked and said in a trembling voice, “Dao...Peak Dao Origin!”

Peak Dao Origin!

Just these four words caused a huge uproar, and cries of surprise rang out endlessly.

“Peak Dao Origin expert! He’s actually a peak Dao Origin expert!”

“A powerhouse like him could be considered the strongest in a fourth-rank force, second only to the ancestor.”

“Not only that, even in a third-grade force, they’re still high-level and an existence that can’t be provoked.”

“The Longyue Chamber of Commerce has such an expert. Could it be that what Chen Yang said was true? Did the three major chambers of commerce and Dynasty really collude with the Devil Cultivators?”

“Hehe, they’re going to be in trouble this time. The Li family’s attitude towards demonic cultivators is similar to their attitude towards evil cultivators.” Shen Daokong swept his cold gaze across the crowd before turning to look at Pavilion Chu. “Guild Master Chu, do you know me?”

“You...You are...”

Chu Ge’s hands trembled as he tried hard to recall this person’s identity. After a while, Chu Ge suddenly remembered and said with a trembling voice, “You are Venerable Lord Huo, Shen Daokong!”

“Since you know my name, there’s no need to hide it. Colluding with Devil Cultivators, hmph! Surrender.” Shen Daokong snorted coldly.

Hearing this, the two Dao Origin Fiendish Cultivators also snorted coldly and said, “Venerable Lord Huo, what do you mean? Colluding with Devil Cultivators? Could it be that I, a Devil Cultivator, am like an Evil Cultivator, hated by everyone?”

“Don’t forget, we’ve also shed blood for the human race in the past. Even now, they were still fighting for the survival of the human race!”

“Venerable Lord Huo’s words have chilled the hearts of those devil cultivators who died for the human race!”

The Daoyuan demonic cultivator’s words were like a sharp blade that pierced into Venerable Lord Huo’s heart. Venerable Lord Huo’s expression changed. Then, he snorted coldly and said, “Don’t confuse right and wrong!” “When have I ever insulted those senior devil cultivators? “However, the contributions of the other demonic cultivators can’t erase the hatred the Li family and the Shen family have for you demonic cultivators!” “To be precise, it’s the hatred towards the Netherworld Sword Sect and the Devil Origin Palace!”

## Chapter 413: Speak With Strength? Then Let's Speak with Strength!

"This is a power struggle between us, so there's no need to talk about past contributions. Which family hasn't made contributions?"

Upon hearing Venerable Lord Huo's words, the Dao Origin Venerable of the Demon Origin Palace snorted coldly and said, "My Devil Essence Palace did not seem to have provoked the Shen clan."

"Why? Just because my Devil Essence Palace is a Devil Cultivator, the Shen family hates us? The Shen family is so mighty."

"You!" For a moment, Shen Daokong was at a disadvantage in the argument and could not say anything.

When Yang Chen saw this, he quickly stepped forward and said, "Ancestor, there's no need to waste your breath on them. Placing your own forces in someone else's territory will be seen as the most serious provocation!"

"Since you've already provoked me, then we can directly take action."

"President Chu has a good saying. In the end, this world is respected by strength. Trying to find loopholes in other people's words is only the work of cowards!"

"That's right!" Shen Daokong continued, "You don't have to pick on my words. You know what I mean."

"If you dare to extend your claws here, this old man can naturally cut off your claws!"

Hearing this, the two Venerable Devil Cultivators looked at each other. Then, the Devil Cultivator from the Netherworld Sword Sect sneered and said, "Venerable Lord Huo, this is the Li family's territory. What does it have to do with your Shen family? Don't you think it's a little nosy?"

Before Shen Daokong could say anything, Yang Chen quickly tugged at his sleeve.

There was a trap in his words, and he could not answer casually.

Seeing this, Shen Daokong swallowed his words and let Chen Yang answer for him.

As for Chen Yang, he smiled and looked at the devil cultivators of the Devil Origin Palace." This is because the Li family and the Shen family are both forces under the Dao Sect. Naturally, they have to help each other."

"Just like the Devil Origin and the Netherworld Sword Sect. Even though the Netherworld Sword Sect has the most business and benefits here, the Devil Origin Palace will still try their best to accompany them and put in the same effort and manpower."

Hearing Yang Chen's words, the demonic cultivator from the Netherworld Sword Sect frowned. He knew that he could not let Yang Chen continue speaking.

If he continued, the Netherworld Sword Sect and the Devil Origin Palace would fall out sooner or later.

Demon Origin Palace was already full of opinions about this cooperation. Now, they were just short of a catalyst.

Immediately, the Venerable Devil Cultivator of the Netherworld Sword Sect snorted and said,""Enough! You sharp-tongued brat, I'll remember you." "The operation here has failed. Let's go!"

Then, the Netherworld Sword Sect and the people from the Devil Origin Palace left quickly.

When Shen Daokong saw this, he still wanted to bend down and chase after them, but he was stopped by Chen Yang." Patriarch, wait a moment. Let's get rid of these demonic cultivators 'minions first before we deal with those demonic cultivators.""

“Good!”

Shen Daokong nodded. He then looked at the people from the three major merchant associations and waved his right hand. Balls of flames quickly enveloped the experts from the three major merchant associations.

Soon after, Shen Daokong’s right hand moved upwards, and the experts who were on the stage were dragged into the air by the flames.

“Spare me! We were wrong!”

“I’m willing to submit, I’m willing to submit!”

“Submit? Too late!” A killing intent flashed in Shen Daokong’s eyes. He clenched his right hand and crushed all the experts on the stage. The flames burned them, and not even their corpses were left behind.

In an instant, Shen Daokong had crushed all the experts from the three major merchant associations, leaving only the three presidents behind.

After doing all this, Shen Daokong said, “It should be easy for you to annex the three major merchant associations.”

“Now, this old man should go find those devil cultivators and catch up!”

Then, Shen Daokong’s figure disappeared.

After Shen Daokong disappeared, the experts from the Longyue Merchant Association quickly surrounded the remaining members of the three merchant associations.

At the same time, the Li family’s ancestor covered the heads of the three chambers of commerce with all his aura, making them unable to move.

Then, Yang Chen and Li Kehui came to Pavilion Chu and said with a smile, "Guild Leader Chu, didn't you say that you wanted to speak with your strength? Fine, I'll use my strength to talk to you now!"

Chapter 414: Annihilation of the Three Major Chamber of Commerce of Yang City

"President Chu, I agree with your point of view. In the end, this world speaks with strength. Then let me ask you, can I use strength to speak to you now?" His gentle face and smile were synonymous with fear in Pavilion Chu's heart.

Looking at Yang Chen, Chu Ge couldn't help but shiver.

He had never thought that the person in front of him would have a relationship with the Shen family, and it was an extraordinary relationship. Otherwise, why would Venerable Lord Huo be beside this person?

Even the number one genius of the Shen family did not receive such treatment.

At this moment, two thoughts surfaced in Pavilion Chu's mind. One was that Yang Chen's aptitude was so high that even the Shen family couldn't remain calm. They had to send experts to protect him.

Secondly, Yang Chen was a genius from a higher level, which meant that this matter was probably instigated by Taoism.

No matter which one it was, Pavilion Chu knew that the three major merchant associations were completely finished. There was no way they could turn the tables around.

Thinking of this, Pavilion Chu fell to her knees in front of Yang Chen and kowtowed repeatedly. "My lord, I was wrong! Lord, please spare my life!"

Since the outcome of the three merchant associations had already been decided, then Pavilion Chu should think about herself and survive no matter what.

He could already tell that Yang Chen was the leader of this group of people. Begging Yang Chen was the only way for him to survive.

Looking at Chu Ge kowtowing to him, Yang Chen had no desire to continue the conversation.

Immediately, Yang Chen turned to look at the Li Family Patriarch.

Seeing this, the Li family ancestor nodded. Then, he flashed in front of Pavilion Chu and ended Pavilion Chu's life with a palm.

"No!"

Chu Ge didn't expect the other party to make a move so quickly. His eyes widened as he died unwillingly.

After dealing with Chu Ge, Chen Yang went to Yang Mo's side.

Seeing this, Yang Mo lowered his head. He knew that Chen Yang would not let him off. Since that was the case, he might as well preserve his dignity.

Just when Yang Mo thought he was dead, he suddenly heard Chen Yang say, ""President Yang, do you want to live?"

"What?"

Yang Mo raised his head excitedly. When he saw Chen Yang's smile, Yang Mo knew that he really had a chance to survive. He immediately said, "I want to live, I want to live."

Hearing this, Yang Chen nodded, " Alright, I'll ask and you answer. If you cooperate, I can let you go."

Hearing Yang Chen's words, Yang Mo nodded like a chicken pecking at rice. " If you ask, I'll tell you everything I know."

"Alright, which sect is behind you?" Yang Chen asked.

"Milord, it's the Black Water Sect in the northern part of the dynasty." Yang Mo said.

"Yes, the second question is, why do you want to participate in this? Logically speaking, your sect is also a large sect, so you shouldn't be lacking in spirit stones, right?" Yang Chen asked again.

This was the question that Yang Chen wanted to know. If the Yu Chamber of Commerce's business was as profitable as the Royal Chamber of Commerce's, then it would be fine.

However, the problem was that the profit from the Spirit Stones that the Yu Chamber of Commerce could generate was limited. Why would the Black Water Sect do something that would not bring them much profit?

There must be something hidden within.

Yang Mo thought for a moment and said, "Sir, you may have misunderstood. The Black Water Sect is in urgent need of spirit stones. The Black Water Sect will not let go of any business that can earn spirit stones."

Hearing Yang Mo's explanation, Yang Chen's interest was piqued. A fifth rank sect would not be able to afford spirit stones? He was not even willing to let go of such a small amount of spirit stones?"

"That's right."

Yang Mo nodded. " Sir, you might not know this, but the Blackwater Sect is currently preparing for war. Naturally, we need to earn any spirit stones we can to increase the sect's combat strength and prepare

for the upcoming battle.” “Prepare for battle? Which sect does your Black Water Sect plan to fight?” Yang Chen was a little surprised. He didn’t expect to find out more information.

“This...”

Hearing Yang Chen’s question, Yang Mo hesitated.

Seeing this, Yang Chen smiled and patted Yang Mo’s shoulder.” President Yang, you have to know that your life is still in my hands.”

Hearing this, Yang Mo no longer hesitated and quickly said,“”Milord, we plan to start a war with the Sky Cloud Martial School.”

“Who is it?”

Yang Chen’s expression changed and he quickly asked,“”Who do you plan to fight?”

“The Sky Cloud Martial School.” Yang Mo looked at Chen Yang cautiously,” Could it be that you are related to the Sky Cloud Martial School?”

“Ah, no, I didn’t.” Yang Chen shook his head,” I’m just a little shocked. After all, the Sky Cloud Martial School is known as the strongest Level Five under the Li family. It’s beyond my imagination that you guys are going to fight against the Sky Cloud Martial School.””

Yang Chen didn’t expect that the Sky Cloud Martial School was involved in this.

According to Zhou Muchun, the Sky Cloud Martial School had something to do with the demons. The Shen family was currently investigating him.

Hearing Yang Chen’s explanation, Yang Mo understood.” Yes, when I found out about this decision, I was also a little shocked.”

“This Sky Cloud Sect is the strongest fifth-grade sect under the Li family. There are peak Dao Origin experts in the sect. How can our Black Water Sect deal with such a force?”

“But our sect master said that dealing with the Sky Cloud Sect is a matter of course. We have to do it no matter what, even if the entire sect is destroyed.”

“Since the sect master has said so, we can only do this. We can try to gather more resources for the sect during the preparation time to increase the sect’s confidence in victory..”

Chapter 415: Annihilate the Three Major Chambers of Commerce in Sun City

“Oh? Your Sect Master actually intends to destroy both jade and stone?”

Yang Chen frowned. It seemed that the Black Water Sect was not ordinary. At the very least, they should know some insider information.

But since he knew the inside story, why didn’t he tell the Li family?

Or could it be that the Black Water Sect was also related to the demons, and this battle was just a dogfight?

Thinking of this, Yang Chen asked calmly, “President Yang, there is one thing I don’t understand. Why does your sect want to start a war with the Sky Cloud Martial School?”

Hearing this, Yang Mo shook his head. “I don’t know either. After all, I’m not a core member, so I don’t know much.”

“However, I have an uncle who is a core elder of the Black Water Sect. He once revealed that the Sky Cloud Sect is doing something shameful, and it has something to do with the evil cultivators.”

“Evil Practitioner!”

Chen Yang’s expression changed and pretended to be nervous as he asked, “Is that true?”

“Really!”

Yang Mo nodded, “Sir, you should know that there is a human territory in the Hidden Dragon Mountains, right?”

Yang Chen nodded.

Seeing this, Yang Mo continued, “The Sky Cloud Martial School will send people to the Hidden Dragon Mountain Range to search for the people.”

“As far as I know, every year, the Sky Cloud Martial School would bring back a lot of local people from the Hidden Dragon Mountain range.”

“I bring it back every year.” Yang Chen smiled and said, “That’s not right. The Sky Cloud Martial School is so far away from the Hidden Dragon Mountain Range. Even a powerful cultivator can’t go there and back in a year.”

Hearing this, Yang Mo subconsciously glanced at Chen Yang.

Soon after, Yang Mo realized that he was a fish on the chopping block, so how could he still look down on the other party?

Yang Mo slapped himself and explained, “Milord, they didn’t just send a group of people to transport the people.”

“According to the statistics, there are 20 groups of people going to the Hidden Dragon Mountain. With so many people, even if there is an accident, they will be able to send the people to the Sky Cloud Martial School on time.”

“I have another piece of evidence. There’s a Great Gan Dynasty in the Hidden Dragon Mountain Range, and their ancestor is from the Sky Cloud Martial School.”

“If you don’t believe me, you can go and investigate.”

Yes, it matched the information inside.

Yang Chen narrowed his eyes. It seemed that the Black Water Sect had been plotting against the Sky Cloud Sect since a long time ago. They even knew about the Great Gan Dynasty.

The problem was, since they had been investigating for so long, they must have obtained a lot of information. Yet, they still did not tell the Li family...

Yang Chen didn’t dare to say that the Black Water Sect was definitely related to the demons, but there must be something hidden.

It seemed that he had to let the Shen family investigate the Blackwater Sect.

After thinking it through, Yang Chen continued to ask with a smile, “How do you know all this so well? It can’t be just because of your uncle, right?”

Hearing this, Yang Mo smiled awkwardly, “Sir, please understand. The reason why I know so much is because I was involved in a major incident against the Sky Cloud Martial School.”

“It’s been a while. At that time, I was ordered by my uncle to send someone to contact the Human King of the Great Gan Lord Dynasty and inform him of the matter regarding his ancestor.”

“At the same time, I promised them a lot of benefits. I will help them train the three masters to take the stage and let them destroy the Sky Cloud Martial School’s operation.”

“In fact, I was right. That Human King is not an ordinary person. In just ten years, he has completely destroyed the Sky Cloud Martial School’s plan in the Hidden Dragon Mountain range.”

“It’s a pity that some of the Sky Cloud Martial School’s people escaped during that battle. As a result, the escorts didn’t go back to the Hidden Dragon Mountain Range.”

“Of course, that’s not the most important thing.

The most important thing is that the Sky Cloud Martial School has a stronghold in the Hidden Dragon Mountain Range. Because of the dynasty’s incompetence, we couldn’t break through that stronghold.”

“But that’s fine. As long as we can destroy the Sky Cloud Martial School’s plan, it will be a great help in the future battles.”

Yang Mo’s story had solved Chen Yang’s previous doubts. That was why the king would go against the ancestor when the ancestor did not harm the family.

It turned out that there was also the shadow of the Black Water Sect.

After figuring out the reason, Yang Chen didn’t plan to interrogate Yang Mo anymore. However, Yang Chen was prepared to keep Yang Mo alive.

This way, Yang Mo was quite cooperative and should fulfill his promise.

Secondly, Yang Mo had been very polite earlier. Now that he had admitted defeat and begged for mercy, he could spare his life.

But the most important reason was his identity.

The nephew of the Blackwater Sect elder. If he was spared, he might be able to get in touch with the Black Water Sect in the future.

Although he didn't know what use it had at the moment, it was beneficial to be able to get in touch with a fifth rank sect, whether it was to spy on information or to be passive.

After completely wiping out the remaining forces of the three major chambers of commerce, Yang Chen looked at the audience who had yet to leave and shouted, "Everyone! The three major merchant associations went against the flow and colluded with the enemy. They have already been destroyed by us."

"I think everyone is worried that if the three major merchant associations are gone, where will you buy your resources?"

"I hereby make a promise that we will not use the resources of the three major chambers of commerce and will continue to sell them to you as usual."

"For the time being, it will definitely not affect you. As for the future, the Li family will definitely participate."

"In short, it will definitely not affect everyone's lives and cultivation!"

After saying all this, Yang Chen looked at Gu Mu, "President Gu, let's go to the three major chambers of commerce..""

Chapter 416: Annihilate the Three Major Chambers of

Commerce in Sun City

"Well first take over the three major chambers of commerce in Yang City, then well take over the other places."

"Yes, sir!"

Gu Mu nodded, then led Yang Chen and the others towards the three major chambers of commerce.

At this moment, Yang Mo finally realized that Gu Mu and Chen Yang had been together for a long time.

Yang Mo was filled with hatred.

I can do it too. I can do what Gu Mu did. Why didn't you come to me?

No, I can't wait to die. I have to take the initiative to attack.

Immediately, Yang Mo stepped forward and said, "Sir, let me take over the Yu Clan's merchants. With me around, I can guarantee that you will not lose a single soldier."

"In addition, I can also communicate with the Black Water Sect and ask them to give the Yu Chamber of Commerce to you."

Seeing Yang Mo being so tactful, Chen Yang smiled and said, "Alright, then I'll have to trouble President Yang. As for who the Yu Chamber of Commerce belongs to, we can talk about it in the future. Right now, I would like to ask President Yang to help us take over the Yu Chamber of Commerce."

"Yes, sir!"

At the same time that Yang Chen and the others took over the three major merchant associations in Yang City, outside a certain mountain range.

The demonic cultivators of the Netherworld Sword Sect and the Demon Origin Palace were all gathered here. The Dao Origin Venerable of the Netherworld Sword Sect looked behind him and said calmly, "No, if we continue running like this, Venerable Lord Huo will catch up to us sooner or later."

"Yellow Mountain, tell the sect about Chen Yang. We'll help you stall Venerable Lord Huo."

When the man called Huang Shan heard this, he quickly refused, "No! "Even if it's to stall for time, it should be me. Elder, go back and report the news."

"Nonsense!"

The Netherworld Sword Sect's Dao Origin Supremacy snorted coldly and said, "You are the only one among us who has mastered the Transformation Art."

"Now that our matter has been exposed, the Li family will definitely hunt us down wantonly, and you're the one with the most hope of getting out of here." "Therefore, this mission must be given to you."

"Remember, this Yang Chen's information is more important than our lives.

An existence comparable to the fiend heir. If he is allowed to grow, it will definitely be a disaster for our sect."

"This is a serious matter. Please don't get into any personal matters!"

"In addition, we might not necessarily die. We have no conflict with the Shen family. There is a high possibility that Venerable Lord Huo will use us to exchange for benefits with the sect."

After listening to the elder's words, Huang Shan nodded his head vigorously and then flashed away.

Seeing Huang Shan leave, the elder of the Netherworld Sword Sect heaved a sigh of relief. Then, he smiled and said, "Next, let's bet on whether Venerable Lord Huo will use us to exchange for resources."

Hearing this, the other devil cultivators gripped their devil weapons. Although their expressions were calm, they could not hide the fear and worry in their eyes.

Not long after, Shen Daokong's figure quietly appeared.

Seeing that these people were waiting for him, Shen Daokong was stunned. He then smiled and said, "Why? Don't you want to escape now?"

Upon hearing this, the Dao Origin Supremacy of the Demon Origin Palace smiled and said, "How could we dare to run away in front of Venerable Lord Huo?"

"Venerable Lord Huo, I have a suggestion. I wonder if Venerable Lord Huo agrees."

"You say it's coming." Shen Daokong said.

Upon seeing this, the Venerable Devil Cultivator took a deep breath and slowly said, "Venerable Lord Huo, although the Poison Hall has a grudge against you, our Yuan Hall and Sword Sect have no grudge against you."

"Since there's no enmity between us, why doesn't Venerable Lord Huo capture us and use us to exchange for resources with our sect?"

"This is much more worth it than killing us. After all, killing us will definitely anger the Devil Origin Palace and the Netherworld Sword Sect. By then, no matter how strong the Shen family is, they won't be able to fight against the three great devil sects."

"If we go and exchange for resources, not only will the Shen family gain more benefits, but we won't become enemies with the Shen family."

"No matter what, we were rude first. Since the Shen family is willing to let us go, how can we go back and resent the Shen family?"

"Venerable One, please consider the gains and losses carefully."

Shen Daokong had to admit that the Fiendish Cultivator's suggestion had moved his heart. This Fiendish Cultivator was not a heretic cultivator, so it was not like he had to kill him.

If they could exchange for some resources that the Shen family needed, it would be a good idea for the Shen family.

But the problem was that the Li family had a deadly grudge with the Netherworld Sword Sect. If the Shen family did this, would it cause a rift between the Li family and the Shen family?

However, Shen Daokong still felt a little reluctant to kill them like this.

Forget it, it was better to capture them first and talk about it after returning.

"I can let you go," Shen Daokong said with a smile. "But you have to cooperate with me and wipe out your stronghold in Dynasty."

"You should be able to do this, right?"

Hearing this, the two Sovereigns heaved a sigh of relief.

Immediately, the Venerable of the Netherworld Sword Sect smiled and said, "Venerable Lord Huo is wise. Since he has spared our lives, we will definitely not reject the remaining conditions."

Shen Daokong nodded when he saw that the demonic cultivators had agreed. Then, he sealed their cultivation with his Holy Qi and trapped them with the Spirit Rope.

After making sure that they wouldn't escape, Shen Daokong took out his natal subdued beast and led them towards Yang City.

Sun City.

The news of the annihilation of the three major merchant associations quickly spread throughout Yang City and spread in all directions at an extremely fast speed.

All of a sudden, everyone was discussing animatedly. None of them had expected that there would actually be a force that could annihilate the three major chambers of commerce.

They didn't expect that the three chambers of commerce couldn't even hold out for half a day.

Was this still the Three Great Chambers of Commerce?

Of course, the discussions of the people in Sun City had nothing to do with Chen Yang. At this moment, Chen Yang was sitting in the meeting hall of the Longyue Chamber of Commerce, counting the gains from this trip.

With the help of Gu Mu and Yang Mo, the annexation of the Yuan Clan Chamber of Commerce and the Yu Clan Chamber of Commerce didn't meet with much resistance.

As for the Royal Chamber of Commerce, although it was a little difficult, with the Li family ancestor around, they did not encounter too many difficulties.

After all, everyone cherished their lives.

In the face of an absolute difference in strength, submission was the only chance for survival.

In addition, those who had died had quite a bit of collection. Their storage bags were also brought back by Chen Yang, waiting to be counted..

Chapter 417: Counting the Harvest and Making a Fortune

"The goods of the three major merchant associations in Yang City are currently being counted. I estimate that it will take some time before we can know the harvest."

“Now, let’s see what the hidden treasures of those experts on stage are like.”

Looking at the storage pouch in front of him, Yang Chen rubbed his hands, his eyes revealing traces of excitement.

This was the private collection of the 4.0 masters on stage. There must be quite a number of treasures.

Even if they left in a hurry, they would at least bring Spiritual Crystals to restore Spiritual Qi. Just these Spiritual Crystals were enough to make Yang Chen excited.

Immediately, Yang Chen picked up the storage bag closest to him and opened it. The treasures inside entered Yang Chen’s eyes.

“Not bad. There are about a thousand Spiritual Crystals and countless other treasures. Forget it. I’ll count them all after I open them.”

Yang Chen sped up the opening of the storage bags after the initial success. In less than 15 minutes, he had opened all 40 storage bags.

Immediately, Yang Chen placed the Spiritual Crystals, Spiritual Herbs, and other treasures in a pile.

After that, Yang Chen began to estimate the value of the treasure in front of him.

After counting clearly, Yang Chen took a deep breath. Good heavens, there were actually so many treasures!”

“There are 38,324 Spiritual Crystals. That’s enough to double the strength of our Chen family.”

“As for the other treasures, they’re worth about five million spirit stones. If there are channels to sell them and buy some cultivation resources that are useful to the Chen family, then the Chen family...”

Yang Chen could already see his family's strength soaring.

"In addition, there's actually still a few grade five spirit weapons. These are good things. Even though I didn't estimate their value, the title of grade five spirit weapon already represents its value."

"I'm really rich this time!"

Chen Yang's gaze was fiery hot as he looked at the grade five spirit weapons that were placed together by themselves. Each of these spirit weapons had their own formidable abilities.

Among them, the highest grade should be a boot-shaped spiritual weapon. The effect of this spiritual weapon was self-evident. It could increase the speed of martial artists.

It was a pity that this Spirit Tool could only be used by experts on the stage. If a martial artist below the stage used it forcefully, he would not be able to control his body because he could not control this Spirit Tool.

However, Yang Chen was not disappointed. It would not take long for him to break through to the Ascending Stage. With the help of this spiritual weapon, even a mid-stage Ascending Stage expert would not be able to compare to Yang Chen in terms of speed.

Under his boots was a spiritual sword called the Snow Cold Sword.

It was a spirit sword that was blue in color, with white blades on both sides. Two real dragons were carved on the body of the sword, and the word 'Xue Han' was carved on the hilt.

From its appearance alone, this Cold Snow Sword surpassed any spiritual weapon Yang Chen had ever seen.

If he sold it to a big force, he would definitely be able to exchange it for spirit stones or spirit crystals that far exceeded the value of the sword itself.

Next was a fifth-grade ling armor called the Dragon Scale Armor. Yang Chen had seen this thing in the Li family.

According to Li Kehui, although this dragon scale armor was a fifth-grade ling armor, its name was known by everyone outside.

The reason was that the material of the dragon scales was dragon armor pulled from the True Dragon Race.

As long as it was related to the True Dragon Race, the value of this thing would not be low.

The truth was as such. Even though the Li Clan had many precious treasures and even a grade four spirit weapon, in Li Kehui's opinion, this Dragon Scale was still the Li Clan's number one treasure.

Li Kehui couldn't be blamed for thinking so. Apart from the source of the materials, the shape of the dragon scale armor was also extremely domineering.

Almost every piece of armor had tiny carvings on it. Looking at it, it was a magnificent story.

On the chest of the dragon scale was a red dragon head with a bloody mouth.

The dragon's head was not an ornament. Putting a Spiritual Crystal into the red dragon's mouth and activating it with Spiritual Qi would activate a barrier in front of the owner to block a fatal blow.

The domineering appearance, the preciousness of the materials, and the life-saving barrier made the value of this dragon scale armor rise steadily.

Li Kehui had once told Yang Chen an interesting story. There was once an auction where a set of dragon scales appeared.

At that time, almost all the forces that participated in the auction joined the ranks of competing for the dragon scale armor.

In the end, a relatively rich fifth-grade force bought the dragon scale armor for 400,000 Spiritual Crystals.

400,000 crystals!

If he successfully comprehended the Great Dao, 400,000 Spiritual Crystals would be enough to nurture a late-stage Dao Origin Supremacy!

Of course, the Dragon Scale Armor couldn't be compared to Yang Chen's Dragon Scale Armor.

Among the True Dragons, the Red Dragon was the lowest level, so the Dragon Scales made from Red Dragon Scales were naturally the lowest in value.

However, even if Yang Chen sold the Dragon Scale Armor at an auction, it would still be worth 100,000 crystals.

It could be said that just this Dragon Scale Armor was worth all the treasures on the table.

After putting the Dragon Scale Armor aside, Yang Chen looked at the Spirit Tool that was inferior to the Dragon Scale Armor.

This spirit weapon was relatively ordinary. There wasn't even a name carved on it. It looked like a relatively sharp spirit saber.

Of course, no matter how ordinary it was, it was still a grade five spirit weapon. If it was outside, it would also be an existence that was sought after by the experts on stage..

Chapter 418: Making a Fortune by Counting the Harvest

The remaining three were all low-grade Fifth Stage spirit weapons. They were a spear, a mace, and a whip.

These three spirit weapons won because they were relatively rare. Otherwise, their value would only be that of an ordinary low-grade fifth-grade spirit weapon.

It was precisely because it was rare that its value was even higher.

Yang Chen made a simple calculation. The total value of these Spiritual Weapons was about 200,000 Spiritual Crystals.

The most valuable item was naturally the dragon scale armor.

When Yang Chen finished counting his gains, Li Kehui also walked in," Chen Clan Leader, the gains have been calculated.""

"I'm telling you, I'll go! What was this? Dragon scale armor?"

Li Kehui was about to check the results of the three major chambers of commerce with Chen Yang when he suddenly discovered that there was a set of dragon scale armor on the table.

Immediately, Li Kehui didn't have the time to report the news. He went to the table directly. He wanted to touch it but didn't dare to. His eyes were filled with desire.

"I found this from those on stage. I didn't expect there to be a dragon scale armor inside."

Yang Chen walked to Li Kehui's side," But it's a pity that it's only made from the scales of a red dragon. If it were a silver dragon or even a gold dragon, its value would be much higher.""

Hearing this, Li Ke looked at Chen Yang in shock," You really dare to dream, silver dragon and gold dragon? Is that an existence that we can touch?"

“Even my Li family or your Shen family wouldn’t dare to provoke the Silver Dragon. As for the golden dragons, even if they were third-grade forces, they had to be careful.”

Yang Chen also knew that he was a little greedy. The boss smiled and said, “Patriarch Li, you came at the right time. Let’s divide the gains this time.”

Hearing this, Li Kehui looked at the dragon scale armor reluctantly and said, “The value of the three major merchant associations in Yang City has been calculated. Including the goods sold, the value is about ten million spirit stones.”

About 10 million.

Yang Chen nodded. It was already very good to have such value.

Although Sun City was the largest city in this area, and the Sun City branch was second only to the main guild, it was still only a city.

It was impossible for the three Chambers of Commerce to place too many goods in Yang City.

“Since the statistics are out, let’s divide the points first. “My suggestion is that we place those goods in Sun City and stabilize the market in Sun City.”

“When the time comes, we’ll slowly sell all of them and distribute the spirit stones.”

“As for the spirit stones in the three chambers of commerce, we can split them. We can also split them later. What do you think, Patriarch Li?” Yang Chen looked at Li.

Li Kehui thought for a moment and said, “I think we should split the profits after the sale. After all, it’s not just Yangcheng. There are other cities. It’s a waste of time if we split the profits in every city we go to.”

“Alright, let’s distribute these things first. “My suggestion is that we each take thirty percent and give the remaining forty percent to Patriarch Dao Kong.” “Patriarch Dao Kong has already agreed. What do you think?” Yang Chen asked again.

“Of course there’s no problem with the Conjugation.” Li Kehui quickly said.

Although the Li family had sent a lot of people for this operation, they were basically just assistants. These enemies were all killed by Shen Daokong. Now that he could give the Li family 30% of the resources, Li Kehui was naturally very happy.

After making his decision, Yang Chen put all the resources into his storage bag. He would distribute the resources when Shen Daokong returned.

After putting away the treasures and Spiritual Crystals, Yang Chen returned to his chair, took a sip of tea, and said, “Patriarch Li, it’s time for us to deal with the merchant associations in the other cities.”

“Otherwise, if they get the news, we won’t be able to earn much spirit stones.” “Then what do you mean?” Li Kehui asked.

“I think we can get those rank 6 forces to help us. We can give them some cultivation resources.”

“Counting those who are neutral, we have thirty-six rank-six forces that we can command. It shouldn’t take too long to clean up the three major chambers of commerce outside of the dynasty.”

“As for the inside of the dynasty, we’ll make the decision after Grandmaster Dao Kong returns.” Yang Chen said.

“Alright, I’ll do it now.”

Li Kehui nodded and turned to leave.

In the following period of time, the entire territory of the alliance underwent earth-shattering changes.

Many Rank-6 forces came out to help Li Kehui attack the Chamber of Commerce.

At the same time, the news that most of the three merchant associations' forces had been wiped out spread throughout the area under the power alliance's rule.

Almost everyone realized that the sky was about to change.

From today onwards, the three major chambers of commerce would no longer have a unified market. Instead, it would be replaced by a brand-new chamber of commerce, the Longyue Chamber of Commerce.

All of a sudden, countless forces became active. They wandered around the entrance of the Longyue Chamber of Commerce every day, trying every means possible to build a relationship with the Longyue Chamber of Commerce.

Even if it was just an attendant in charge of selling, in the eyes of these forces, he was a figure that could not be offended.

This made those attendants know what it meant to be able to ascend to the heavens when one person attained the Dao.

In the past, when had they ever received such treatment?

They had to be careful even if it was a disciple of a rank-nine force. Now, even the leader of a rank-seven force had to be polite to them.

The reason for all this was because of the forces behind the Longyue Merchant Association, the Chen Clan and the Li Clan.

It was because they had defeated the three major chambers of commerce that they had given the attendants their current status.

Back to the main topic.

It didn't take long for the Li family to annex the three major chambers of commerce in the alliance. In just half a year, the Li family had completed their mission.

At the same time, a new Longyue Chamber of Commerce was established in every city.

In order to save time and not destroy the market, the Li family directly occupied the territory of the Royal Chamber of Commerce. Once the signboard was changed, they began to operate.

When the last Chamber of Commerce was annexed, the martial artists under the power alliance found that their lives were not affected.

If he wanted to buy anything, he could go directly to the Longyue Chamber of Commerce.

Seeing this, the martial artists' anxious hearts were once again put down. They lived their lives as they should.

It was as if nothing had happened in the entire Land.

This was exactly what Yang Chen wanted to see. Without causing any damage to the local area, they drove away two demon cultivators. Even if the Taoist Faction came to deal with it personally, it would be nothing.

Sun City, inside the Longyue Chamber of Commerce.

Chen Yang, Li Kehui, and Shen Daokong were sitting in the meeting hall, discussing their next move.

"Clan Leader Chen, the profits from this trip are estimated to be worth 200 million spirit stones. We're really rich this time." Li Kehui said excitedly.

200 million Spirit Stones!

This was equivalent to twenty years of the Li family's income. Even if the Li family only took thirty percent, they would be very satisfied.

One had to know that the Li family's profits had to be distributed to the various clansmen as cultivation resources. A large portion had to be taken out to maintain the business.

There were not many who could enter the warehouse.

The profits this time had completely filled the Li family's treasury.

At the very least, in the next ten years, the cultivation resources of every member of the Li family could be doubled.

The most important thing was the market. If they could successfully occupy it, the benefits to the Li Clan would be obvious.

Yang Chen took in Li Kehui's joy and said with a smile, "Master Li, now is not the time to celebrate. There's still Dynasty and those Rank-6 forces that have sided with the Fiendish Cultivators."

"In the past half a year, although we tried our best to suppress the news, Dynasty must have found out about the destruction of the three major merchant associations."

"I reckon that those who should run will run. Every time they run, they will definitely have their own preparations. The next mission will not be easy to complete."

"Speaking of which, I have a question." Shen Daokong said, "Yang 'er, why didn't we act quickly back then and catch the dynasty off guard?"

Lee Kehui also looked at Chen Yang. He could not understand why Chen Yang would give Dynasty and the Fiendish Cultivators time to escape.

Seeing this, Yang Chen explained, "Because only in this way can we occupy the dynasty and expel the demonic cultivators without bloodshed..""

Chapter 419: The Three of Them Decided Again

"Because only in this way can we occupy the dynasty and expel the fiendish cultivators without suffering any losses."

"Patriarch Li, Patriarch Dao Kong, do you remember what our mission is?" Yang Chen asked.

"Naturally, it's to expel the devil cultivators and remove this nail." Shen Daokong said.

"That's right."

Yang Chen smiled and said, "Since they were expelled, they ran away and were expelled.""

"Think about it. If we launch a sneak attack on them, we can indeed eliminate all these devil cultivators. But what if the devil cultivators resist with all their might?"

"Or should I say, they self-destruct? We definitely can't afford to suffer such a loss."

"If we injure Patriarch Dao Kong or the spirit beast bestowed by the Beast Tamer Sect, how are we going to explain this to the Shen clan and the Beast Tamer Sect?"

Hearing Yang Chen's words, Li Kehui nodded.

Indeed, the mission this time was not to kill these demonic cultivators, but to expel them. If he killed the demonic cultivator by force, not only would he have to bear the risk, but when he handed over the mission, he would also be seen by the Taoist Faction as greedy.

In that case, it would be better to give the devil cultivator enough time to escape.

“And do you think these demonic cultivators can escape?” Yang Chen asked.”

“This place is the Li family’s back garden, and it’s not a joke. If the devil cultivators want to escape, they have to pass through the Li family and their vassal territories.”

“I think that the Li family has long set up an inescapable net outside the dynasty and is waiting for these Fiendish Cultivators. After all, even if we launch a sneak attack, the devil cultivators have a high chance of breaking out.”

“And the Li family has a feud with Devil Cultivators. How can they let any Devil Cultivator go?”

” Besides, doesn’t Patriarch Dao Kong want to use the Fiendish Cultivators in his hands to exchange for resources? The Li family definitely won’t be willing. In order to not affect the relationship between the Shen family and the Li family, we have to leave some Fiendish Cultivators for the Li family to vent our hatred.”

Shen Daokong looked at Yang Chen with admiration.

It was obvious that the Li family was backing them up, but it seemed to give the Li family a chance to take revenge.

At that time, not only would the Li family not blame them, but they would also thank them for giving them this opportunity.

The divine divination of the heavenly secrets was only so much.

“That makes sense.” Li Kehui echoed, “This way, we can complete the mission without any casualties.”

“In addition, we can also hand over the Devil Cultivators hidden in the dynasty to the main faction to deal with. This way, we can let them vent their anger and help maintain our rule.”

Shen Daokong looked at Li Kehui in shock. That was your main bloodline, how could you cheat him like this?

As for Yang Chen, he nodded in satisfaction. Not bad, you’ve improved.

What did he mean by scamming the main branch? This was giving the main branch a chance to take revenge.

“In addition, we have to deal with those rank 6 forces that have joined the Demon Origin Palace. My suggestion is to let them all become the Li family’s vassals.”

Yang Chen put down the teacup in his hand and took out a map from his storage bag. He spread it out on the tea table beside him.

“Patriarch Dao Kong, Patriarch Li, look. These ten factions of the sixth rank correspond to the regions with the richest resources in the Endless Mountains.”

“As long as we control these ten rank 6 forces, relying on these resources and recruiting some Armament Masters and Alchemists, we can completely support the market in this area.”

“At that time, there will be no need for the Shen family and the Li family to interfere.”

“It’s just that...” Chen Yang looked at Li Kehui. “Master Li, can you swallow these ten Rank-6 forces?”

“I’ll swallow it?” Li Kehui suddenly understood. So you planned to let them become our vassals. I thought you were going to let them become the main branch.”

“What do you mean?”

Yang Chen smiled and said, “This place is related to the future development of our two families. How can we give it to the Li family in Mianyang?”

“Not only the Li family of Mianyang, I don’t even plan to let the Shen family interfere. It’s better to keep this kind of thing in our hands.”

“Cough, cough, cough.”

Shen Daokong coughed twice. “Yang ‘er, I’m still here. It’s not good to make up stories about the Shen family like this.”

Hearing this, Chen Yang extended three fingers. “The Longyue Merchant Association will give Patriarch Dao Kong 30% of the profits every year.”

“I feel that we really shouldn’t let the Li family and the Shen family interfere.” “The Shen family and the Li family are big forces after all, and their internal affairs are extremely complicated.”

“If someone takes a fancy to this place, it won’t be good news for us.”

“Moreover, the Shen family and the Li family are not short of such a little benefit. It is better to let us control it ourselves.”

“Senior Shen is right.” Li Kehui nodded.

Because of the inheritance of Yu Sheng, the three of them were undoubtedly bound together. They were even closer than ordinary clansmen.

In fact, they were even closer than family in some aspects.

It was also for this reason that Yang Chen had discussed this matter in front of Shen Daokong and tied Shen Daokong to his chariot.

It was also because of this that Shen Daokong chose to let the Li and Shen families annex this place.

Yes, it was because of this.

“Since neither of you have any opinions, should we deal with Dynasty first or deal with a rank 6 force?” Yang Chen asked.

“Dynasty.” “The Rank-6 forces can’t run away,” Shen Daokong said. “It’s Dynasty, on the other hand. The more time we delay, the more people from Dynasty will run away.”

“If we go over now, the other party might still have the mentality of getting lucky and think that we haven’t found out that they are colluding with the Devil Cultivators.”

“After all, Dynasty didn’t send a single powerhouse for this operation.”

Chen Yang looked at Li Kehui. “Master Li, what do you think?”

“I think so too.” Li Kehui said.

Seeing this, Yang Chen kept the map. “Alright, let’s deal with Dynasty first!”

“But before that, let’s distribute the resources we obtained last time.”

Then, Yang Chen took out the Dragon Scale Armor and other resources.

" I didn't mention this for half a year," Li Kehui rubbed his hands and smiled." I thought you had forgotten.""

"It's because we've been swallowing up the three major merchant associations for the past six months, and we really don't have the time.'Yang Chen smiled.

Afterward, Chen Yang took the lead and picked up the dragon scale armor." Patriarch Dao Kong, Patriarch Li, this dragon scale armor is undoubtedly the most precious item. Who wants it?"

It could be said that just one Dragon Scale Armor was already equal to other resources and Spiritual Crystals. Naturally, he had to treat it well.

Shen Daokong smiled." Isn't that simple? I suggest we give it to you, Yang 'er. We can split the rest of the resources later.""

"Without the dragon scale armor, the distribution of resources should be much easier."

Seeing this, Li Kehui gritted his teeth and said,""That's right, I also think that this dragon scale armor should be given to the Chen clan leader."

A dragon scale armor, or a good relationship with the Chen family.

Li Kehui could still tell which was more important.

"This..."

Yang Chen hesitated for a moment, then smiled and said,""Forget it, it's just a set of dragon scale armor. I'll take it."

"That's right. The Spiritual Stones and Spiritual Crystals that we earn in the future might be enough to buy dragon scales made of silver dragons."Li Kehui smiled..

Chapter 420: Annexing Dynasty

Both of them were willing to give the Dragon Scale Armor to Yang Chen, so Yang Chen didn't refuse.

After confirming the ownership of the dragon scale armor, the remaining treasures and resources could be easily distributed.

After distributing the resources, the three of them did not stay idle. They officially gathered the people they could use and rode on their spirit beasts towards Dynasty.

This mission had dragged on for so long, it was time to solve it.

The Qing Dynasty was the name of the dynasty that Chen Yang had gone to.

In the imperial capital of the Qing Dynasty, within the palace.

The current human emperor of the Qing Kingdom, Qing Zhi, was sitting on the throne. He looked calmly at the purple-robed elder beside him." Prince Zhu, have you arranged for all the geniuses in the clan to be sent out?"

Prince Zhu nodded." All of them have been arranged."

Hearing this, Qing Zhiyu heaved a sigh of relief." That's good. With them around, the Qing Consortium won't be wiped out."

Prince Zhu hesitated and said,""Your Majesty, aren't we being too sensitive? You have to know that we didn't participate in the operation of the three chambers of commerce."

“Even if we are the force behind the Royal Chamber of Commerce, it doesn’t necessarily mean that we are colluding with Devil Cultivators.”

“Zhu imperial prince, you think too simply.”

Qing Zhiyu shook his head.” Now that things have come to this, it’s no longer important whether we collude with the fiendish cultivators or not.”

“We’re the only ones who haven’t submitted to the Li family. Because of the foundation of the Li family, we can survive until now.”

“Now that we finally found an opportunity, the Li family will definitely not let us go. The Li family had to be controlled no matter what.”

“Do you really think that the Li family is a good family?”

“If the Li family wants to control us, let them control us.”“We don’t have to arrange for the geniuses of our clan to be here. We should be prepared for the death of our clan.”“

“No, the Li family won’t let the Qing Consortium off.”

Qing Zhiyu shook his head.” What the Li family wants is the dynasty, not the dynasty controlled by the Qing Consortium. Prince Zhu, you should know this too.”

“After destroying the Qing Consortium, the Li family can find a family that will listen to the Li family’s orders completely and take over the position of the royal family.”

” Letting our Qing continue to control the dynasty will not benefit the Li family at all. After all, our Qing Consortium refused to submit to the Li family from the very beginning.”

Hearing Qing Zhiyu’s words, Zhu King sighed deeply.” If we had known earlier, we would have submitted to the Li family from the start.”

” The Qing Consortium has long since declined, and now they’re still dreaming of becoming a fourth-rank Holy Dynasty. Isn’t this dragging down the family?”

“Prince Zhu, silence! If the ancestor hears this, you won’t be able to bear the consequences!”

Qing Zhiyu glared at Prince Zhu and sighed.” Back then, we competed with the Li family for the fourth rank.”

“Until the Li family became Rank-4, the Qing Consortium suppressed the Li family. However, who would have thought that the Li family would have a proud son of heaven who would become the Void Piercer King one step earlier?”

“Even the Li family has surpassed our Qing Consortium and become a fourth-rank aristocratic family. How could their ancestors accept such a difference?”

“Not to mention that we were driven here by the Li family, so it’s even more impossible for us to submit to the Li family.”

Prince Zhu remained silent for a long time as he listened to Qing Zhi talk about the Qing Consortium’s past.

Back then, before the Li family achieved Rank-4, the Qing Consortium was the family most likely to become a Rank-4 force in this area.

Even the Li family had thought so back then. They had made concessions to the Qing Consortium in every possible way, and they were no different from a vassal aristocratic family.

However, who would have thought that the Li family would suddenly produce a peerless genius?

It was also because of this monster that the Li family had reached Rank-4 earlier and completely suppressed the Qing Consortium.

This sudden change was something that Bamboo Prince had to bear. Even he couldn't accept it and was willing to become a vassal of the Li family.

After all, even if the Li Family had broken through to Rank-4, the Qing Consortium could still break through to Rank-4.

However, who would have thought that the Qing Consortium would be cursed? There were quite a number of experts who had reached the peak of the Dao Origin realm in the clan, but none of them could break through to the Void Piercing realm.

As those geniuses aged, the Qing Consortium was unable to compete with the Li family for cultivation resources. Gradually, the Qing Consortium fell into decline.

Until now, he could barely maintain his status as a fifth-rank dynasty.

King Zhu could only say that it was fate.

Who would have thought that so many geniuses and so many peak Dao Origin experts had not broken through to the Void Piercing realm?

If Chen Yang was here, he would be able to guess what Zhu Prince was thinking.

Yu Sheng had once said that if one wanted to comprehend the Great Dao, one had to get rid of distracting thoughts. The sudden rise of the Li family made it impossible for the Qing Consortium's powerhouses to get rid of distracting thoughts.

The Qing Consortium's powerhouses were not peerless geniuses who could comprehend the Great Dao despite their distracting thoughts, so they naturally had no chance of breaking through the void.

From this perspective, the Li family had personally cut off the possibility of the Qing Consortium reaching Rank-4.

But now, it was useless to say this.

Regardless of whether it was Qing Zhiyu, King Zhu, or the Qing Consortium's Patriarch, what they yearned for was not to achieve Rank-4, but to allow the Qing Consortium's lineage to continue living.

After a long silence, Prince Zhu looked at Qing Zhiyu." Your Majesty, how long do you think it will be before the Li family comes to our dynasty?"

"It should be soon." I'm glad I'm still in the dark

At this moment, a man in armor suddenly ran in." Report! Reporting to the Emperor, a large group of experts has suddenly arrived outside the Imperial City!"

Hearing this, Qing Zhiyu smiled and said,"Look, they're here..""
