

Tamer Family 421

Chapter 421: Annexing Dynasty (2)

“Fine, I’ve already made preparations. I hope that my life is worth some money so that the Li family can keep more people alive, even if they’re collateral relatives.”

Prince Zhu took a deep breath and replied, “I’m the Qing Kingdom’s Prince. I think I can exchange for the lives of a few clansmen.”

“Your Majesty, this old minister will accompany you.”

“Hahaha, good! Today, I’ll take a look at the Li family that was suppressed by the Qing Consortium’s ancestors!” QingZhiyu laughed loudly.

An hour ago.

Outside the Imperial Capital, sitting on the back of a pegasus, Chen Yang smiled and nodded. “I didn’t expect the Qing Consortium and the Li family to have such a history.”

“Then we’ll have to evaluate the Qing Consortium properly. As a large clan that can contend with the Li family, the Qing Consortium’s foundation must be extraordinary.”

“If we can find this foundation, our family’s strength will increase by quite a bit. The Qing Consortium is also very willing to use our family’s foundation in exchange for a chance to live.”

“What you said is true,” said Li Kehui with a smile. “The Qing Consortium does have a lot of good stuff.”

“As far as I know, the most valuable item is a pill recipe.”

“Oh? Pill formula?”

Chen Yang's interest was piqued." Master Li, what pill formula is it that you regard as the most precious treasure?"

"Fourth-grade elixir." Li Kehui smiled.

"Tier 4 aptitude pill!"

Chen Yang took a deep breath. The Qing Clan actually had the recipe for a Tier

4 Aptitude Pill!

As far as Yang Chen knew, in the entire Hidden Dragon Region, other than the Taoist Faction, he had never heard of anyone who had the recipe for a Tier 4 Aptitude Pill.

And the Qing Consortium actually had the recipe for this Tier 4 Aptitude Pill! Looking at Yang Chen's shocked expression, Li Kehui smiled and said, "You must be shocked. When I first received this news, I was even more shocked than you."

"No wonder the Qing Consortium was only a top-tier fifth-rank empire back then, but the number of Daoyuan Supremacies in the clan was no less than that of a fourth-rank faction. So it's because they have fourth-rank Aptitude Pills." Shen Daokong's eyes were filled with shock.

The Shen family had been established a little earlier. When the Li family and the Qing Consortium were fighting, the Shen family was already a fourth-rank clan.

Back then, the Shen family was puzzled as to why there were so many Dao

Origin Supremacies in the Qing family.

In the beginning, the Shen family had thought that the Qing Consortium had received the support of Taoism. After all, only Taoism could make the number of Dao Origin Supremacies in a fifth-rank faction match that of a fourth-rank faction.

Now, it seemed that it was because he had the pill formula for the fourth-grade aptitude pill.

Yang Chen rubbed his hands and asked, "Patriarch Li, I have two questions." "First question, how did you know that the Qing Consortium had this pill formula? After all, the Shen family and the Li family did not know." "If they knew, the Qing Consortium's pill formula would have been snatched away long ago."

What Chen Yang said was true. Even if the Li family was based on benevolence and righteousness, if they knew that the Qing Consortium had a Grade Four Elixirs, they would have taken them.

Perhaps the Li family would give more rewards than the other Rank-4 forces. However, the Qing Consortium still had the recipe for the Tier 4 Aptitude Pill, which meant that neither of the two families had received the news.

"Second, second, question. Since you have a fourth grade aptitude pill recipe how did the Qing family decline?"

This was also a crucial question.

With this pill formula, even if the Qing Consortium couldn't hold onto their original resources, they could still use the Grade-4 Aptitude Pill to exchange for a large amount of resources for cultivation.

The only drawback was that it might be suspected by other forces and they might investigate the pill formula of the Grade 4 aptitude pill.

However, it had already declined. Why did he still care about this? At most he would give the pill formula to the Dao Sect. Perhaps he could even obtain the protection of the Dao Sect.

Even if the Dao Sect had the recipe for the Tier 4 Aptitude Pill, if a force offered a copy of the recipe, the Dao Sect would not refuse.

Putting everything else aside, the two pill recipes definitely had some slight differences. After all, pill recipes were invented by humans.

Everyone's thoughts were different. Although the final destination was the same, the possibility of the route being exactly the same was very low.

Just like the Tier 6 Aptitude Pill, there were six pill formulas that Chen Yang knew of. &

Although these pill formulas could all be used to refine a grade-6 aptitude pill, the materials used were also not too different.

However, the method of refining, the temperature of the flame, and some supplementary medicinal ingredients to increase the success rate would all be different.

If he chose the best and eliminated the disadvantages, he might be able to increase the chances of success.

Just based on this, the Taoist Faction would reward the Qing Consortium with many treasures and even protect them.

Hearing Yang Chen's two questions, Li Kehui thought for a while and then explained, -It's like this. It was purely by chance that I learned that the Qing Consortium had a pill formula."

" Master Chen should know that the Li family has always maintained a marriage alliance with the Qing Consortium."

"That was a marriage alliance 900 years ago. The marriage partner was my

sister and the current Qing Kingdom."

"The servant girl who was supposed to be my sister's dowry heard the Qing

Consortium's Patriarch and Qing Zhiyu talking about a fourth-grade aptitude

pill by chance. That's how she found out about it."

"How is this possible?"

Shen Daokong blurted out," The Qing Consortium's Patriarch and the Qing Consortium's Human Emperor were discussing news. How could a servant girl eavesdrop on them?"

Yang Chen also looked doubtful. This was too unbelievable.

Hearing this, Shen Dao laughed and said," Heh heh, you didn't think of it, and the Qing Consort didn't either."

"The maidservant who was married off at that time had the Wind Spirit bloodline. If nothing unexpected happens in the future, it would be a matter of time before she becomes a Daoyuan Supremacy."

"This Wind Spirit Bloodline is rather useless. It's not helpful in battle at all It's only equivalent to a fourth-grade aptitude.."

Chapter 422: Annexing Dynasty (3)

"However, the Wind Spirit Bloodline can eavesdrop on all sounds within a thousand miles."

"This kind of bloodline has only appeared a few times in the Alkaid World. For my Li family to find it, perhaps this is my Li family's luck."

“So, you planned to eavesdrop on the Qing Consortium’s secrets from the very beginning?” Yang Chen smiled.

Although Chen Yang was shocked that the Li family was able to find such a monster, the Li family had been so bold to send this monster to the Qing Consortium. They had probably already planned to eavesdrop on the Qing Consortium’s secrets.

“Hehe,” Li Kehui laughed. “My Li family had just arrived in the Endless Mountains not long ago. Naturally, we wanted to get information about the external forces.”

“As for the Qing Dynasty, as the only fifth-rank dynasty nearby, my Li family naturally can’t let it go.”

“Speaking of which, I pity that sister of mine. Her aptitude is not ordinary and is stronger than mine. Unfortunately, she had no choice but to marry into the Qing Consortium at the age of eighteen.”

“Oh, so you are only nine hundred years old?” Yang Chen did a simple calculation and then said in surprise.

“Is nine hundred something very young?” “I’ve only lived for 1,600 years,” Li Kehui said with a smile. “900 years is already considered middle or late.”

“No.”

Yang Chen shook his head. “I mean, Master Li, you’re more than nine hundred years old. How can you know so much about what happened more than a thousand years ago?”

Yang Chen didn’t say it explicitly, but Li Kehui knew what Yang Chen meant.

It was nothing more than that he was very clear about the matter of the main faction expelling the Li family.

Li Kehui sneered." How dare we know half of the family's humiliation? If we don't even know this, are we worthy of being a member of the Li family?" Yang Chen nodded. No matter how much time had passed, he had to remember the hatred of his family.

"As for the second question, my servant girl has also found out about it. It was said that the source of this pill formula was not legitimate. It was said that it had an unclear relationship with Taoism."

"If my guess is correct, this pill formula must have been stolen from the Dao Sect."

"Other pill formulas might be usable, sold, or even offered to the Dao Sect. However, how could the Qing Consortium dare to casually use the pill formula that they had stolen from the Taoist Faction?" Li Kehui said.

"I see."

Yang Chen nodded," This is really good for us. Whether we return it to the Taoist Faction or secretly use it ourselves, there are many benefits."

"As for whether to return it to the Taoist Faction or use it for ourselves, let's discuss it slowly."

"As for now, it's better to keep this pill formula in my bag first."

Shen Daokong nodded, obviously agreeing with Yang Chen's point of view.

At this point, the pegasus began to slowly descend, and the Imperial City, which was crawling on the ground like a giant beast, gradually became clear. When they landed, Yang Chen couldn't help but ask," Oh right, what happened to that servant girl? Don't tell me you left him behind at the Qing Consortium?" "How is that possible? After finding out about the pill formula, my Li family recalled that servant girl. This servant girl is my wife, and her cultivation is at the peak of the stage."

"It won't be long before my wife becomes the first female ancestor of the Li family." Li Kehui smiled.

While the two were talking, the Pegasus gradually landed on the ground.

Seeing such a colossal object descend outside the Imperial City, the powerhouses within the Imperial City instantly became alert.

At the same time, many experts rushed to the front of the pegasus. One of them, who was even wearing a golden armor, shouted, "Who is it? How dare you behave atrociously in my Qing Dynasty!"

"Humph! You don't have the right to talk to me. Get Qing Zhiyu over here!"

Seeing how arrogant this person was, Shen Daokong let out a cold snort and released his aura without any restraint.

Sensing the terrifying aura from Shen Daokong's body, the experts in the Imperial City instantly calmed down. Soon after, the golden-armored expert said with a trembling voice, "Please...Please wait a moment."

Thus, the incident in the Imperial Palace occurred.

Time had passed, and after the time it took to finish a cup of tea, Qing Zhiyu and King Zhu had arrived in front of the Imperial Capital.

After sensing the unfathomable and terrifying cultivation on Shen Daokong's body, Qing Zhi hesitated for a moment before he half-knelt in the air and lowered his head. "Greetings, Senior, I'm the Qing Clan's junior."

When Qing Zhi finished speaking, a hearty laugh came from the Pegasus. "Brother-in-law, long time no see."

Hearing this, Qing Zhiyu suddenly looked up and happened to see Li Kehui's smiling face.

Immediately, Qing Zhiyu said in a daze, ""Li Kehui? Could it be that the person leading the team this time is you, Li Kehui?"

"That's right." Li Kehui smiled.

Qing Zhiyu looked at Li Kehui in astonishment. "What? Did the Li Family of Qianyuan reconcile with the Li Family of Mianyang?"

"Brother-in-law, you don't have to worry about that. Brother-in-law, we are guests. It's not good to leave us here to talk."

Hearing this, Qing Zhiyu hurriedly said, "It's brother-in-law's fault. Everyone, please follow me.""

Then, Qing Zhi quickly brought Chen Yang and the others and flew towards his palace.

At the same time, a look of joy flashed across Prince Zhu's face.

If Li Kehui had been the one to deal with the Qing Consortium, then the Qing Consortium might really have been able to survive.

The Qing Consortium and the Li Family of Qianyuan had been connected by marriage for hundreds of years. There were already many people from the Li Family of Qianyuan in the Qing Clan. For their sake, they could not exterminate the Qing Clan.

In the palace, Chen Yang sat on the throne, while Shen Daokang and Li Kehui sat beside him.

Chen Yang had originally wanted Shen Daokang to sit at the head of the table, but Shen Daokang had said that it would help raise Chen Yang's status and allow him to get better things from the Qing Consortium..

Chapter 423: Annexing Dynasty (4)

As expected, when he saw Chen Yang sitting in the main seat, Qing Zhi was a little frightened and said, "This young master is..."

Yang Chen looked at Li Kehui.

Li Kehui immediately understood Yang Chen's meaning and immediately scolded, "Don't ask questions that you shouldn't be asking."

"Yes, yes, yes! I understand." Qing Zhi nodded hurriedly.

Qing could sense that Shen Daokong was a Dao Origin Supremacy. Since he was sitting in front of a Dao Origin Supremacy, his status must be extraordinary.

"Hahaha, there's no need for the Qing Emperor to be like this. I'm just the head of a seventh-rank family. I don't dare to make the Qing Emperor stand on ceremony." Yang Chen smiled.

Hearing this, Qing Zhiyu was even more convinced of his thoughts.

This was because sending the hidden geniuses of the clan to other places to secretly establish a clan was the method that the great clans liked to use the most.

This was because the enemy could not possibly know which of the forces as numerous as the River Carps was founded by the hidden geniuses of the great clans.

After thinking it through, Qing Zhiyu carefully asked, "Sir, why have you come here?"

"If you need the Qing Consortium's help in any way, Milord, please feel free to instruct us."

Hearing Qing Zhiyu's words, Yang Chen smiled and said, "Qing Emperor, the Li family already knows that you colluded with the Netherworld Sword Sect." "Now, the Dao Sect has ordered the Li family and the Shen family to expel the demonic cultivators together. This is the reason why we are here."

"This is impossible!"

After Yang Chen finished speaking, he hurriedly said, "Sir, who spread this rumor? How could the Qing Consortium collude with Fiendish Cultivators?"

Yang Chen smiled as he watched Qing Zhiyu's performance. After Qing Zhiyu finished, Yang Chen smiled and said, "Qing Emperor, if I were you, I wouldn't be in a hurry to cut ties. I would think of a way to preserve the Qing Consortium."

Hearing Yang Chen's words, Qing Zhiyu's expression changed.

After a while, Qing Zhiyu lowered his head. "Sir, how can we let the Qing Consortium off?"

"It's very simple. I want the Qing Consortium to submit!" Yang Chen wiped away the smile on his face and slowly walked to Qing Zhiyu's side.

Then, Chen Yang patted Qing Zhiyu's shoulder. "Qing Emperor, only if you submit completely can I spare your lives."

Qing Zhiyu heaved a sigh of relief.

The Qing Consortium had originally planned to submit, but now it seemed that there was no need to waste their breath.

"The Qing Consortium is willing to submit."

Please wait a moment, Qing Emperor." Chen Yang helped Qing Zhi up." What I want is for the Qing Consortium to submit completely. Do you understand what I mean?"

“This...”

Qing Zhiyu frowned and asked, “Milord, please forgive me for my stupidity, but what does it mean to submit completely?”

“It’s very simple. All of the Qing Consortium’s treasure trove will belong to us. At the same time, your Qing Consortium will swear on the clan’s fate that you will forever be loyal to our Chen Clan.”

“In addition, the Qing Consortium’s Human Emperor needs our approval before he can take over the throne. The Qing Consortium’s Dao Origin Seed must obtain our approval before it can be nurtured with resources.”

“And all the Qing Consortium’s powerhouses above the stage must swear a Heaven and Earth Oath to be forever loyal to us.”

“Only in this way can we be considered to have submitted completely.”

Hearing this, Qing Zhiyu braced himself and said, “Milord, what’s the difference between this and annexing us?”

“You’re right. We want to annex you.” Chen Yang smiled and returned to the main seat. He looked down at Qing Zhiyu and said, “The survival of the Qing Consortium depends on your decision.”

Beside him, Li Kehui also echoed: “Brother-in-law, this is the Qing Consortium’s only chance.”

“If it weren’t for the marriage alliance between the Qing Consortium and the Li family, what would be waiting for you now wouldn’t be words, but our martial arts.”

“This...” “Such a major matter must be decided by the Qing Consortium’s Patriarch,” Qing Zhiyu said hesitantly.

The moment Qing Zhiyu finished speaking, an elderly voice sounded outside the hall." Your Majesty, there is no need to hesitate. The Qing Consortium can submit."

"Ancestor?"

Qing Zhiyu looked at the old man who had just walked in, then nodded with all his might." Alright, the Qing Consortium is willing to submit.."

Chapter 424: With Great Luck, the Treasures in the Qing

Consortium's Treasure Vault) _1

The Qing Consortium is willing to submit."

These few short words seemed to have used up all of Qing Zhi's strength.

After saying this, Qing Zhi lay on the chair, his life constantly appearing in his mind.

I thought I could lead the Qing Consortium to prosperity, but in the end, the Qing Consortium fell to rock bottom in my hands.

Chen Yang ignored Qing Zhi, who was slumped in his chair. At that moment, Chen Yang was watching the Qing Consortium's Patriarch walk into the hall step by step.

The Qing Consortium's Patriarch was dressed in blue. He had a stern expression and white hair, and his body was unconsciously emitting a heart-palpating aura.

After the Qing Consortium's Patriarch walked up to Chen Yang, he first glanced at Qing Zhi before bowing." Greetings, Lord Qing Xingye."

“Supremacy Qing, there’s no need to be so polite. As long as the Qing Consortium surrenders, I can still protect the Qing Consortium’s bloodline.” Yang Chen smiled.

Upon hearing this, the Venerable Qing heaved a sigh of relief.” In that case, the Qing Consortium is willing to become the blade in Your Excellency’s hands and cut through the thorns for Your Excellency.”

“In addition, the Qing Consortium will agree to all of Milord’s conditions.”

“In that case, let’s not talk nonsense.”

Yang Chen stood up and came to Qing Xingye’s side. He smiled and said, “I’ll have to trouble Venerable Qing to bring us to the Qing Consortium’s treasure vault.”

“I’ve heard that there are many treasures that even fourth-rank forces covet.”

Hearing Chen Yang’s words, Qing Xingye took a deep breath.” In that case, please follow me.”

Immediately, under Qing Xingye’s lead, Chen Yang and the other two arrived outside the Qing Consortium’s treasury.

After pushing open the door of the treasure vault, Qing Xingye said, “Sir, this is the Qing Consortium’s treasure vault. If there’s anything you like, feel free to take it.”

“Qing zun-zhe, you’re wrong. What did he mean by ‘whatever we fancy, we can take it’?”

“According to our agreement, this entire treasury should be ours.”

“Yes, yes, yes. This old man was negligent.”

Hearing Li Kehui's words, Qing Xingye quickly said, "Sir, please take away the treasures in the Qing Consortium's treasury."

"No rush."

Chen Yang shook his head. "I hope that Venerable Qing can introduce these treasures to us. If Venerable Qing is willing to cooperate, it's not like we can't give some things to the Qing Consortium."

Yang Chen's words were to tell Qing Xingye not to hide anything and to take out all the treasures he had.

If they cooperated, Chen Yang could leave some worthless treasures to the Qing Consortium.

After all, it was an introductory treasure. How could he cooperate or not?

Qing Xingye was also a shrewd person. He understood the meaning behind Chen Yang's words and understood that Chen Yang must have found out some information. Otherwise, he would not be so confident.

Qing Xingye immediately smiled and said, "If Your Excellency has given the order, the Qing Consortium will naturally cooperate."

"Sir, please follow me."

Qing Xingye brought Chen Yang and the other two to the north of the treasure, next to a bookshelf that contained cultivation techniques.

Then, Qing Xingye turned the vase on the table in front of the bookshelf. Then, the bookshelf creaked and slowly opened, revealing a secret room.

After doing all this, Qing Xingye looked at Chen Yang. "Sir, the true treasure of the Qing Consortium is in this secret chamber. Please follow me in."

With that, Qing Xingye entered the secret chamber.

Chen Yang and the other two looked at each other before following Qing Xingye into the secret chamber that contained the Qing Consortium's true treasures.

There were five treasures in the secret chamber, and the one on the table in the middle was a jade slip.

Qing Xingye picked up the jade slip and hesitated for a moment before handing it over to Chen Yang." Sir, this is the Qing Consortium's most precious treasure, the recipe for the Tier 4 Aptitude Pill."

"With this pill formula, as long as you have sufficient resources, you can mass produce geniuses who have the hope of breaking through to the Dao Origin."

"This is also the reason why our Qing Consortium was able to dominate a region in the past."

"It's a pity that the younger generation is disappointing and can only let the ancestor's treasure be covered in dust."

Yang Chen took the jade slip and injected his spiritual energy into it. Immediately, a huge amount of knowledge surged into Yang Chen's mind.

After a brief examination, Chen Yang nodded." It's indeed the recipe for a Tier 4 Aptitude Pill. Venerable Qing, you've done well. I can leave you 10% of the Qing Consortium's spirit stones and spirit crystals."

Chen Yang knew that if he wanted to get the Qing Consortium's true treasure out of them, he had to give them something as compensation.

As expected, when he heard Chen Yang say this, a look of joy flashed across Qing Xingye's face. Then, he took out a spirit sword." This is a fourth-grade spirit weapon, the Dragon Slaying Sword. It got its name because our Qing Consortium's ancestors used it to kill red dragons."

" After our ancestor died, no one in the Qing Consortium was able to control the Dragon Slaying Sword. Now that you're here, sir, the Dragon Slaying Sword can finally stop staying in this dark place."

Taking the Dragon Slaying Sword, Yang Chen smiled and nodded," Don't worry, I will find a good master for the Dragon Slaying Sword.""

"By the way, the Qing Consortium can keep 20% of the Spiritual Crystals and Spiritual Stones."

Hearing this, Qing Xingye's interest was even higher. Immediately, Qing Xingye hesitated for a moment before taking out a jade talisman from a decorative box in the secret chamber.

Seeing this, Li Kehui revealed a look of admiration.

He didn't expect the Qing Consortium to really be hiding something good. If Chen Yang didn't give him a discount, Qing Xingye probably wouldn't have taken it out.

Qing Xingye stroked the jade talisman a few times before looking at Chen Yang.." Sir, do you know what treasure this is?"

Chapter 425: With Great Luck, the Treasures in the Qing Consortium's Treasure Vault) _2

"I don't know."

Yang Chen shook his head." But I can feel a terrifying aura from this jade talisman. I think this thing is not simple.""

-My lord's senses are correct. This thing is indeed not simple."

Qing Xingye handed the jade talisman to Chen Yang and explained, "This jade talisman is called the Engraving Jade Talisman. It was created by an ancient

blacksmith."

– With the passage of time, there are very few weapon refiners who can create engraved jade talismans now. The Qing Consortium was lucky enough to obtain such a jade talisman."

"And this engraved jade talisman only has one function, which is to preserve a martial art technique of a martial artist. If someone crushed the jade talisman, the martial arts would be completely consumed and released, killing the enemy

for their side."

-This jade talisman of mine is engraved with the full-strength attack of a Void Piercer King. It's extremely precious."

-I believe that with it, Milord's safety will definitely be on a higher level." Looking at the jade talisman in his hand, Chen Yang never expected the Qing Consortium to have such a treasure. This was a pleasant surprise.

-Qing zun-zhe, since such a treasure exists, why do you have to submit? Also, why don't you keep this treasure for yourself?

"As long as you don't say anything, who will know that the Qing Consortium is still hiding such a treasure?" Yang Chen asked with a smile.

Hearing this, Qing Xingye smiled awkwardly. "Your Excellency must be joking. So what if I don't submit? Would the Li family and the Shen family let me off with just an engraved jade talisman?"

"That's impossible."

-This jade talisman is a deterrent to fifth-rank forces, but it's nothing to fourth-rank forces."

"Since I know I can survive, why do I still resist?"

"Qing zun-zhe is quite sensible.'Yang Chen smiled and nodded." What about the second question?"

"As for the second question..."

Venerable Qing hesitated for a moment, then gritted his teeth and said,"Our Qing Consortium wants to become Your Excellency's vassal, not a saber in Your Excellency's hands."

"What's the difference?" Yang Chen asked.

"Naturally, there is a difference."

Qing Xingye said," It's fine if a knife is broken. At most, we can just find a new one." As for vassals, they could grow together with the main family.

"Perhaps one day, with Your Excellency's help, the Qing Consortium will be able to fulfill their long-cherished wish to become a fourth-rank Sacred

Dynasty."

-So, you offered up all of the Qing Consortium's treasures so that the Chen Clan Head would treat the Qing Consortium well?"Li Kehui echoed.

"That's right." Qing Xingye nodded.

Upon seeing this, Shen Daokong, who had been silent for a long time, could not help but ask,""How can you be so sure that Chen Yang can lead the Qing Consortium to become a fourth-rank force? One had to know that the force behind this operation was only Rank-4."

“Supremacy, you might not know, but I have my own confidence.” “Venerable One, do you know about the Heavenly Pilots?” Qing Xingye asked

with a smile.”

“Heavenly Pilots?” Shen Daokong frowned.” I’ve heard that they are a group of people who can measure luck.”

“However, since to,000 years ago, there has been no news of the Celestial Seer in the Alkaid World.”

“That’s right.”

Qing Xingye took a deep breath.” There is a price to pay for speculating the heavenly secrets and probing the fate. For his own sake, those fortune-tellers

could only live in seclusion.”

“Although I won’t be born, my ability to measure the heavenly secrets will

eventually be passed down.”

“And I happened to obtain the inheritance of a Heavenly Adept.”

“Although I’m not capable of measuring the heavenly secrets, it’s not a problem to observe a person’s luck.”

-I saw a dazzling pillar of light from providence on Milord’s body. I’ve never

seen this before.”

“According to my estimation, even the emperor’s luck cannot compare to yours.”

“That’s why I’m certain that as long as the Qing Consortium sincerely follows Milord, their future prospects will be limitless.”

Hearing Qing Xingye’s words, Li Kehui and Shen Daokong nodded.

“I see.”

” I remember that the Qing Consortium’s Patriarch was an unruly person,” Li

Kehui said with a smile.” How could he yield so easily?””

“So the Qing Consortium’s Patriarch has his own abilities. He can see the fate of others, which is why he submitted so readily.”

“By the way, Venerable Qing, can you take a look at my luck?”

“You?”

Hearing this, Qing Xingye shook his head with a smile.” I’ve seen your luck before. It’s not bad. If nothing unexpected happens in the future, it shouldn’t be a problem for you to become a Venerable.”

“Sigh, the past is the past. I’m more curious about my current luck.” Li Kehui smiled.

Knowing that he couldn’t be more awkward than Li Kehui, Qing Xingye smiled and said,””Fine, I’ll show you.”

immediately, Qing Xingye circulated his Holy Qi. His eyes suddenly shot out a ray of golden light, and then he looked at Li Kehui.

Qing Xingye was stunned on the spot. He kept muttering, "This... How is this possible?"

"What?" Li Kehui patted Qing Xingye's shoulder and woke him up. "Venerable One, what did you see?"

Qing Xingye came back to his senses and looked at Li Kehui first, then at Chen Yang. He then said excitedly, "As expected, my guess was correct!"

-Hahaha, the dream of the Qing Consortium's ancestors is about to come true on me!"

"This..."

Li Kehui looked at Yang Chen. His eyes seemed to be asking if Qing Xingye was sick.

Before Yang Chen could say anything, Qing Xingye recovered and smiled, "Please don't blame me, I'm just a little excited.."

Chapter 426: With Great Luck, the Treasures in the Qing

Consortium's Treasure Vault) 3

Seeing that Qing Xingye had recovered, Li Kehui quickly asked, "Venerable One, what exactly did you see? Why are you being so mysterious?"

Hearing this, Qing Xingye glanced at Li Kehui." What do you know? How can the secrets of the heavenly secrets be evaluated by being mysterious?"

"Alright, I won't keep you in suspense any longer. I can see a rich amount of luck on you."

"According to the destiny, you will become a Void Piercer King in the future."

"However, the luck in your body is a little strange. It has two trends: increasing and decreasing. If you were to follow the rising trend, even the Void Piercer King would not be able to stop you. No matter what, you would still be an emperor."

"But according to the trend of decline, your limit is to reach the peak."

Li Kehui was a little nervous.

Good heavens, from emperor to the peak, this difference was a little too big.

"Venerable One, Patriarch, tell me, what's going on with me?" Li Kehui quickly smiled."

"Although the Dao of providence is as hard to predict as the heavenly secrets, it is also extremely mysterious. I don't know the specific situation."

"However, I can tell from your luck that your luck has improved over time."

"Then during this period of time, you must have encountered something that caused your luck to change like this."

"I'm guessing that you met someone with great luck, which is why your luck soared."

Li Kehui subconsciously looked at Yang Chen.

If there was a time when the Li family's future became brighter, it was probably when they met Yang Chen.

However, Li Kehui was still uncertain. After all, he had obtained the inheritance of Yu Sheng. Perhaps it was the inheritance of Yu Sheng that had caused his luck to increase.

"That's not necessarily true. Maybe I've received some kind of inheritance."

"No!"

Qing Xingye shook his head." If you obtain the inheritance, then your luck will definitely be fixed. There won't be such a situation of going up and down."

"Even if the inheritance is leaked, the upper limit of your luck will not change. It's just that there's a bad omen mixed in with your luck."

"However, there are no ominous signs in your luck. That means that you didn't receive the inheritance at all. In other words, he had obtained some inheritance, but no one had discovered it."

"Of course, that's not important. The fact that your luck is changing so much can only mean that you've come into contact with someone with great luck."

"If you befriend this person, your future is limitless. If you stay far away, even if you have some inheritance, your future will only be at the peak."

Hearing this, Li Kehui looked at Chen Yang." In other words, you think that the Chen Family Head is a person with great luck?"

"That's right."

Qing Xingye nodded. "I saw a terrifying fate from you. Combined with your fate, I can conclude that you are a person with great fate."

"This kind of luck will even bring along the people around you."

"If the Qing Consortium follows you, we will definitely become a sacred dynasty in the future."

"Helping the Qing Consortium reach Rank-4 is something even a Rank-4 faction can't do. Do you think the Chen Clan Leader can do it?" Li Kehui smiled.

"Yes, definitely." Qing Xingye said resolutely.

Seeing Qing Xingye's firm belief, Li Kehui secretly made up his mind. In the future, he would definitely be on good terms with the Chen family. No matter what, he would be tied to the Chen family's car.

Even Shen Daokong had made up his mind to find an excuse to stay in the Chen Family and maintain a good relationship with Yang Chen.

What kind of Rank-4 Li family could compare to Chen Yang, who had great luck?

Whether it was Li Kehui or Shen Daokong, they all saw their glorious future in Chen Yang.

What Hundred Lineages Shen Clan could compare to Chen Yang who possessed great luck?

As for Yang Chen, he didn't say a word.

This was too scary.

Chen Yang knew his situation. With the Dao Integration Pearl, his luck was unmatched even in the entire Alkaid World.

Therefore, Yang Chen had never doubted his luck.

Being able to obtain the Dao Integration Pearl was Yang Chen's greatest fortune. However, if they continued to talk, what would they do if they were exposed?

Yang Chen immediately changed the topic." Alright, alright. It doesn't matter if it's luck or not."

"Only by being down-to-earth and improving your strength bit by bit can you become an ultimate existence. What's the point of thinking about those illusory things?"

"Your Excellency is right." Qing Xingye smiled." With such an attitude, you will definitely not let down your great luck."

"It's only a matter of time before you reach the peak in the future."

" Alright, let's not talk about luck. Venerable Qing, let's introduce the Qing Consortium's treasure vault."Yang Chen didn't want to drag his luck away, so he quickly said.

"Yes." Hearing this, Qing Xingye nodded.

At the same time, in the capital of the Qing Dynasty, an old man in gray raised his head to look at the palace.

"What powerful luck. Could it be that the hot shots mentioned in the prophecy have really appeared?"

In the Qing Consortium's Royal Palace, in the treasure vault.

After confirming that Chen Yang had great luck, Qing Xingye did not hesitate to introduce the treasures in the treasure vault.

“Sir, look. This is the fourth grade spirit armor, Radiance Armor. Although it’s not as famous as Dragon Scale Armor, it’s still a good spirit armor.”

“Yes, that’s right. The Qing Consortium can take 30%.”

“Sir, look, this is...”

After Qing Xingye’s introduction, a total of six treasures were known to Chen Yang..

Chapter 427: With Great Luck, the Treasures in the Qing Consortium’s Treasure Vault) 4

In addition to the spirit sword jade talisman and pill formula, there was also a spirit armor, a spirit herb, and a spirit material.

Among them, the ling armor was nothing special. It was just that its grade was high, at the peak of Rank-4.

The main thing was spirit herbs and spiritual materials, which made Yang Chen extremely envious.

Among them, this spirit herb was called the Nine Heavens Mysterious Spirit Fruit. Its effects were incomparably powerful and could help experts on the stage break through three major levels.

Of course, the prerequisite was that the expert who had ascended the first level had to consume it. After ascending the first level, the effect would be greatly weakened.

After a fourth-level expert took it, it basically had no effect.

It was said that this was the restriction of the Heaven Earth Law.

With so many restrictions, there were also many benefits. Other than helping the experts on the first floor to break through to the fourth floor, the most important effect was that there were no side effects.

Raising one's cultivation without any side effects. No matter which faction it was, this kind of spiritual medicine was an extremely precious existence.

It could shorten the cultivation time of geniuses and give them more time to comprehend the Great Dao.

The reason why Yang Chen was interested in the Nine Heavens Mysterious Spirit Fruit was very simple. If Yang Chen consumed it, coupled with the fact that there was no barrier due to the inheritance of the Universe Saint, Yang Chen's cultivation would definitely rise to the stage.

In that case, not only would Yang Chen's strength increase, but the Dao Integration Pearl would also be able to absorb the sixth-grade fate energy in advance. It would be able to nurture a Demon Emperor in just ten years.

At that time, when the Chen Clan advanced to the Sixth Stage, the Dao Integration Pearl would be able to continuously absorb Fate. This benefit was self-evident.

As for the Mystical Material, it was not an ordinary Mystical Material. It was a Mystical Material called Gilded Dark Iron.

As for its effects, those who were suitable for it would treat it as a treasure, while those who were not suitable for it would not even be able to compare to a spirit stone.

This thing was the main material of a body-tempering technique, the Gilded Battle Body.

If this piece of Gilded Meteoric Iron in the Qing Consortium's treasury was sold to someone who cultivated the Gilded Combat Body, it could be sold for 200,000 Spirit Crystals.

Back to the main topic.

These six supreme treasures had been exchanged for 60% of the Qing Consortium's Spirit Stones and Spirit Crystals.

Qing Xingye was already very satisfied with this. After all, because the Qing Consortium had not submitted to the Li family, they could not spend any Spirit Stones they had.

This allowed the Qing Consortium to accumulate a large number of Spirit Stones and Spirit Crystals. Even if it was only sixty percent, it would still be enough for the Qing Consortium to squander for a long time.

More importantly, after submitting to Chen Yang, the Li family naturally no longer had any restrictions on the Qing Consortium.

In other words, the Qing Family could purchase a large amount of resources that they needed. From this perspective, the 60% of the Spirit Stones and Spirit Crystals would be more than twice as useful as all the Spirit Stones and Spirit Crystals they had before.

After putting away the treasures in the treasure vault, everyone returned to the palace.

In the palace, Qing Xingye said cautiously, "Milord, can we discuss some matters?"

"Please speak."

"It's like this. I want to use the spirit stones you gave the Qing Consortium to purchase some resources from the Qing Consortium's treasury. I wonder if that's possible." Qing Xingye said.

Hearing this, Yang Chen smiled and said, "Of course you can. This will be beneficial to our distribution."

"Patriarch Li, I'll leave this matter to your Li family's grand elder and ancestor."

We must sell it to the Qing Consortium at a fair price. After all, from today onwards, the Qing Consortium will be our faction."

“Yes.” Li Kehui nodded.

“Yes.”

Chen Yang looked at Qing Xingye again.” Qing Zun, let your experts swear allegiance next.” In addition, you have to help us occupy the three major chambers of commerce in the Qing Dynasty.”

“Oh right, you have to help me contact the Blackwater Sect and see how to deal with the Yu Chamber of Commerce.”

” After all, the Blackwater Sect has never colluded with any Fiendish Cultivators. Furthermore, they are a vassal of the Li Family. It would be inappropriate for them to forcefully swallow the Yu Chamber of Commerce.”

“Understood.” Qing Xingye nodded.” Don’t worry, Your Excellency. The Qing Consortium will definitely complete the mission Your Excellency has given us.”

When he saw this, Chen Yang looked at Shen Daokong.” Patriarch Dao Kong, go to the stronghold of the Devil Cultivators here and uproot all the Devil Cultivators who haven’t left yet.”

“The Qing Consortium is also cooperating with Patriarch Dao Kong.”

“Alright.” Shen Daokong nodded..

Chapter 428: Longyue Chamber of Commerce’s Platform

for the Sharing of the Harvest

|

After giving all the necessary instructions, Yang Chen heaved a sigh of relief and smiled, "Venerable Qing, do you have time to listen to the array?" "Since the mission is completed, we have to report it to the higher-ups."

"Yes, sir. Please follow me."

Qing Xingye nodded and then led Chen Yang and the others to the location of the Kongwen Array in the palace.

As a fifth-rank faction with a long history, the Qing Consortium still had the Kongwen Array. Not only did they have the Kongwen Array, but they also kept the Child Stones of many large factions.

This was the foundation of the Qing Consortium.

After arriving at the hall where the Kongwen Array was placed, Qing Xingye first helped Chen Yang activate the Kongwen Array and then asked, "Sir, who should we contact?"

Yang Chen thought for a moment and then said, "Contact the Shen family

first."

Hearing this, Qing Xingye rummaged through his storage bag and placed the Shen family's Zi Shi on the Kongwen Array.

Immediately, the Kongwen Formation spun rapidly, and the blue light curtain was pulled open, calling out to the Shen family.

Time trickled by bit by bit. About fifteen minutes later, the blue light screen finally reacted. A middle-aged man wearing a golden crown and a blue jade crown appeared in the light screen.

The middle-aged man looked around and saw Shen Daokong. He immediately half-knelt and bowed. "Greetings, Grandpa Daokong."

“Hahaha, Jianwen, you are the one guarding the Kongwen Array today. Bow, get up and reply.” Shen Daokong laughed.

“Yes, sir!”

After Shen Jian Wen stood up, he asked carefully .””Grandpa Dao Kong, you...”

“You don’t have to ask about that. Ask the family head to come over. I have something important to report to the family head.”Shen Daokong laughed.

“Yes, sir!”

Shen Jianwen immediately turned around and left.

Before long, Patriarch Shen’s figure appeared in the blue screen of light.” Elder

Dao Kong, have you completed your mission?’

“That’s right.” Shen Daokong looked at Yang Chen, indicating for him to tell Master Shen the details.

Seeing this, Yang Chen stepped forward and said,” Master Shen, the mission has been completed. We have captured two Dao Origin Venerables from the Netherworld Sword Sect and the Devil Origin Palace.”

“At the same time, the Chamber of Commerce that helped the two major forces gather resources has been completely annexed by us. As for the Qing Empire, they’ve also submitted to us.”

-Now, we only need to finish up a few things before we can completely wipe out the devil cultivators ‘plan here.”

“Mm, you guys did well. You only used such a short time to sweep away the devil cultivators ‘trap. “How about this? You first stabilize the local situation. As for the specifics, the ancestor will personally meet you.” Master Shen said.

Yang Chen nodded.” I understand.””

After talking with the Shen family, Yang Chen contacted the Li family. The Li family’s attitude was similar to the Shen family’s. They wanted Yang Chen to stabilize the situation first. They would invite their ancestor to talk to Yang Chen personally.

After doing all of this, Chen Yang looked at Shen Daokong.” Patriarch Dao Kong, Revered Qing, next, we have to completely eradicate the Fiendish Cultivators.”

“It might be very troublesome, but I still hope that everyone will do their best!”

“Yes, sir!”

Immediately, under Qing Xingye’s lead, Chen Yang and the rest of the Qing Consortium’s powerhouses charged towards the Fiendish Cultivator’s lair.

Although some of the fiendish cultivators had already run away, most of the fiendish cultivators were still holed up in their nests.

After all, they also knew some news. For example, the Li family had set up an inescapable net outside the dynasty, waiting for the demonic cultivators to fall into the trap themselves.

Compared to escaping, it was safer to stay in the dynasty. At the very least, they could still survive.

The reason why the Fiendish Cultivator thought so was simple. When he was in

Sun City, Shen Daokong’s identity had not been leaked.

In other words, the demonic cultivator only knew that there was a Venerable on Yang Chen's side, but he didn't know who it was. This also meant that he had a fluke mentality.

It was this fluke that caused a lot of trouble for Chen Yang and the others. They had thought that this was just the end, but they realized that there were still many powerhouses.

Fortunately, Shen Daokong was very powerful. There were only two early-stage Dao Origin Supremacies left on the Fiendish Cultivators' side, so they could not affect him at all.

Coupled with the Qing Consortium's cooperation, they blocked all escape routes in advance. Chen Yang and his group managed to take down the remaining Fiendish Cultivators without any mishaps.

Shen Daokong was overjoyed. How many cultivation resources could he exchange for by capturing so many Devil Cultivators?

Even if he took out a portion to vent the Li family's anger. However, there was still a large number of demonic cultivators, especially the three Dao Origin Supremacies, who could make the Netherworld Sword Sect and the Demon Origin Palace bleed.

After taking down the Fiendish Cultivator's lair, the Qing Consortium began to search for traces of Fiendish Cultivators throughout the entire dynasty.

At the same time, with the Qing Consortium's cooperation, the three major merchant associations in Dynasty were quickly annexed by the Longyue Merchant Association.

In short, after another half a year, the Qing Empire and a large number of territories near the Endless Mountains had completely fallen into Chen Yang's hands.

In a certain hall in the Qing Imperial Palace, a celebratory banquet was being held.

"The Qing Consortium contributed greatly to the success of this mission. How about this? I can make the decision to give the Qing Consortium another 10% of the spirit stones and spirit crystals." Yang Chen smiled as he held his wine glass.

“The Qing Consortium thanks you, Your Excellency. By the way, Sir, let’s take advantage of today’s celebration banquet to formally swear our loyalty to you.” Both of them were elites. Qing Xingye himself knew that the Qing Consortium’s contribution this time was far from worth Chen Yang giving up ten percent of the spirit stones and spirit crystals.

Chen Yang had conceded. On the one hand, it was to show his generosity, and on the other hand, it was to treat the Qing Consortium as one of his own.

The question was, since he was one of them, why didn’t he swear allegiance?

Chapter 429: Longyue Chamber of Commerce’s Platform for the Sharing of the Harvest

j

This was Yang Chen’s hidden meaning.

Qing Xingye naturally knew what Chen Yang was implying. He immediately wanted to use the celebration banquet to swear his allegiance.

Hearing this, Yang Chen smiled and nodded.” That’s good. It’s a good thing.”” Immediately, Qing Xingye asked Qing Zhiyu to quickly call over the clan’s experts who were above the stage. After all the experts above the stage arrived Qing Xingye was the first to say,”In the name of the Qing Consortium’s Patriarch and at the cost of the Qing Clan’s fortune, I swear allegiance to Lord Chen Yang.”

“If we go against this oath, the Qing Consortium will be eternally doomed!” After making the clan’s great oath, Qing Xingye hurriedly made a great oath to the heavens and the earth.” I, Qing Xingye, hereby make a great oath to the heavens and the earth. I will be loyal to Chen Yang for the rest of my life. If I violate it, I am willing to die under the wrath of the heavens!”

Under Qing Xingye’s lead, all the Qing Consortium’s powerhouses above the stage took the Heaven and Earth Oath and swore their loyalty to Chen Yang. They all knew that this was the price they had to pay for their survival They did not have any tricks up their sleeves and obediently made a Heaven and Earth Oath.

Seeing that everyone had made their vows, Li Kehui smiled and said, "Forefather, from today onwards, we are all on the same boat."

Hearing this, Qing Xingye smiled and said, "Then I'll have to ask Patriarch Li to take care of me in the future."

"By the way, according to the agreement, the position of the Qing Consortium's Human Emperor requires your appointment, Your Excellency. Then, Your Excellency, who do you think will be the Human Emperor?"

Hearing this, Qing Zhiyu lowered his head.

Although he was unwilling, Qing Zhi knew that this was a condition for survival and he had to abide by it.

The Qing Empire's Emperor had to absolutely obey Chen Yang's orders.

Seeing this, Yang Chen looked at Li Kehui. "Master Li, who do you think will be the next emperor?"

Li Kehui thought about it carefully and said, "Let my brother-in-law do it. He has been the Human Emperor for hundreds of years and is already familiar with the Qing Empire."

"Letting him take on the role will also be beneficial to our plan."

"In that case, let the Qing Emperor continue to be the Human Emperor." Yang Chen smiled.

Hearing this, Qing Zhi hurriedly stepped forward. "I thank you for your trust, sir. Don't worry, sir. I will definitely guarantee the Chen family's interests here!"

At the same time, he looked at Li Kehui. He didn't expect that this brother-in-law he looked down on would be able to decide his position.

All of this was because the Li family had established a relationship with the Chen family in advance.

Thinking of this, Qing secretly made up his mind to maintain a good relationship with the Chen family in the future.

Perhaps the Qing Consortium's Ancestor's wish could really be fulfilled.

After the celebratory banquet ended, Chen Yang first asked the Qing Consortium to help the Longyue Merchant Association gain a foothold. Then he went to a secret chamber with Shen Daokong and Li Kehui to discuss some matters.

Naturally, it was to distribute the harvest of this trip.

Now that the matter had come to an end, they naturally had to distribute the benefits.

In the secret chamber, Li Kehui smiled. "Master Chen, we've calculated the harvest this time. Including the previous harvest, it's about 500 million Spiritual Stones and 500 thousand Spiritual Crystals."

"Of course, the real Spiritual Stones and Spiritual Crystals only account for a part of it. Most of them are all kinds of treasures."

Hearing this, Chen Yang said, "We'll split the Spirit Stones and Spirit Crystals first. As for the rest of the resources, we'll split them too. If we don't need them, we'll give them to the Longyue Chamber of Commerce to sell. Perhaps we can sell them to others."

"However, I still suggest that we hand it over to the Longyue Chamber of Commerce. We must stabilize the market here. Otherwise, how can we do business here in the future?"

Hearing this, Shen Dao nodded, "This old man has no objections."

Shen Daokong naturally had no objections. To be honest, although there were many resources here, they were of little use to Shen Daokong. In the end, he still had to exchange them for Spiritual Stones and Spiritual Crystals.

Shen Daokong felt that it would be a little troublesome for him to find a place to sell these resources.

It was better to hand it over to the Longyue Chamber of Commerce. On one hand, it would save trouble, and on the other hand, it could help Yang Chen stabilize the market.

As for Li Kehui, he didn't have any objections.

If Shen Daokong had agreed to it out of friendship, then the stability of Dynasty's market was definitely related to the Li family's interests.

Li Kehui naturally didn't want such a large market to disappear.

Seeing that the two of them had no objections, Chen Yang nodded." Alright then, I'll leave the specific distribution to the Li family elders." After the distribution is done, just give us our share."

"As for us, we still have some things to deal with."

"Something?" "Is there anything else we need to handle personally?" asked Li Kehui."

"Naturally."

Chen Yang nodded and said," Let's talk about this market. With our strength, can we swallow such a big market?"

"At that time, in order to ensure the safety of the market, we will definitely hand it over to the Shen family and the Li family. Are you willing to give up the meat on your lips?"

“Naturally, I’m unwilling.” Li Kehui said.

“That’s why we have to be prepared in advance.” Yang Chen said.

“Then what do you think?” Shen Daokong looked at Yang Chen.

Seeing this, Yang Chen thought for a moment and said, “I think we can get in touch with the Rank-6 forces here.”

“The specific method is that we can agree to them doing business, but we must rely on the Longyue Merchant Association.”

“The Longyue Merchant Association will take the lead and be in charge of the business between them. Then, we can earn some benefits.”

“Is that all?” Li Kehui shook his head. “What’s the point of that small commission? It’s better to just let the Longyue Chamber of Commerce sell the goods like the three major chambers of commerce in the past..”

Chapter 430: Longyue Chamber of Commerce’s Platform for the Sharing of the Harvest

“And then? If we can’t swallow such a big market, won’t other forces still have to enter in the end?”

“Master Li, you should broaden your horizons. Don’t be constrained by such little gains and losses.” Yang Chen retorted.

“Since we’ve already tacitly agreed to it and we’ve occupied the market here, there’s no need to rush.”

“Letting them do business can stabilize their hearts. It won’t force them to move their forces and cause the market here to collapse.”

“If we want to take their profits, then they have to sell it at a higher price to ensure that they can make money.”

“If it’s the same goods, we’ll be cheaper than them. As time goes by, won’t we be able to slowly occupy the market?”

“When our strength is strong enough to swallow all the markets, they will naturally be eliminated.”

“Besides, even if we don’t have some things, we can’t let the market be empty. “Instead of doing this, it’s better to hand it over to these forces and let them fill the gap in the market. We can also earn some benefits.”

“Isn’t this better than blocking them and preventing them from doing business?”

Listening to Yang Chen’s words, Li Kehui’s eyes revealed a look of admiration, “Why didn’t I think of this?”

Shen Daokong nodded his head in satisfaction. The ultimate goal of this plan was to completely annex the market of this place, but it was much more brilliant than the three major merchant associations, and it was easier for these forces to accept it.

However, Shen Daokong still had a question in his mind.

“Yang Er, your plan is very good. But if one day, you can swallow the market here, what will happen to those forces?”

“They can’t do business anymore, so they’ll definitely think of a way to escape. In the end, you’ll be the ones to lose.”

“I thought of that too.” Yang Chen smiled.

“You thought of that too?” Shen Daokong revealed a stunned expression before he smiled and said, “Then I want to hear it.”

Yang Chen smiled and said, “When that time comes, we can directly do business with them.”

“For example, refining the Meridian Unlocking Pill. We can directly buy the Meridian Unlocking Pill from these rank 6 forces and then sell it.”

“Of course, the price must be lower, but not too low so that they can accept it.”

“And with them helping us manufacture goods, we can save manpower and open up new markets.”

“After the new market is developed, we can do business together, earn money together, and resist the pressure of the Chamber of Commerce outside.”

“I understand.”

Shen Daokong nodded. “It seems like you’re quite ambitious. You’ve already thought about the future and tied these forces to us. They might benefit from it, but we’ll definitely earn more.”

“That’s right. This is good for them and for us.” “With their support, we will have sufficient supplies to expand the Chamber of Commerce.”

“With our Chamber of Commerce, as long as they have enough manpower, they can earn a large number of spirit stones. This is the win-win cooperation that I’ve always talked about.”

“Of course, if we tell them that, they will definitely not agree. After all, we have indeed taken a portion of their interests.”

“So we have to take it slow. We have to influence them and nibble them away in advance. We have to let them know that they can’t leave us. When the time comes, they will have to agree even if they don’t want to.”

This was Yang Chen’s platform business in his previous life. The Chen family built a platform, integrated resources, sold them together, and everyone made money together.

However, they had never interacted with each other before, so it would be difficult for them to accept it in a short period of time. Therefore, Yang Chen planned to take it slow.

“Alright, we’ll do as you say. When are we going to take action?”Li Kehui asked.

“Now, send someone to inform these factions and let the leaders of these factions come to the Imperial City.”Yang Chen said.

“Understood.”

Li Kehui immediately conveyed Chen Yang’s message to the Qing Consortium, and the Qing Consortium volunteered to act as a messenger to convey Chen Yang’s message to the various factions.

After the leaders of these forces received the news, they all set off for the Imperial City.

At the same time, Li and Li also distributed their gains to Yang Chen and Shen Daokong.

Chen Yang counted. There were about 60 million Spiritual Stones and 100,000 Spiritual Crystals.

This was a huge sum of money for the Chen family. After these spirit stones were delivered to the Chen family, the strength of the Chen family would definitely undergo a world-shaking change.

These Spiritual Stones were purely the profits of the Spiritual Stones. Some resources were also sold at the Longyue Chamber of Commerce. After these resources were sold, the Chen Family would be able to obtain a large number of Spiritual Stones and Spiritual Crystals.

Of course, this was only the low-end income, or rather, it was only the surface income.

What really caught Yang Chen's eye was the recipe for the Grade Four Elixirs and the Mysterious Spirit Fruit of the Nine Heavens.

One of them was to improve the aptitude of the Chen family members, and the other was to help Yang Chen cultivate quickly.

These two things might not even be able to be bought with spirit stones.

Its total value was far beyond hundreds of millions of Spiritual Stones and hundreds of thousands of Spiritual Crystals.

As for the jade talisman that was engraved with the full power of the

Space-Breaking King, it was held by the three parties together. When the real enemy came, they would take it out to fight.

Currently, he was also in Chen Yang's care.

As for the spiritual artifacts, they were split between Li Kehui and Shen Daokong.

If one party's treasure was more valuable, they would compensate the other party. In short, this was a distribution that everyone was happy with..
