Chapter 521: Entering the Land of Evil Demons (2)

“It is precisely because of this that we built our cities according to the strength of the passageway.”

“Of course, there will definitely be fish that escape the net.

This would require everyone to work together. If they encountered a powerful Evil Demon, they must seek help as soon as possible.”the Mystic Ice King said. After giving Yang Chen a simple explanation, the Mystic Ice King brought Yang Chen into Dao City.

As for Chen Xuan and the others, they were left outside Dao City.

After all, the Mystic Ice King was taking Yang Chen to do something serious, so it was useless for them to follow him.

After entering the city, the Mystic Ice King arrived at the largest building in the

The Mystic Ice King knocked on the door.

After the building’s door opened, the Mystic Ice King took Chen Yang and entered the building.

“Next, I will take you to see the emperor of our Dao Sect. After obtaining his permission, you can go to your own city, “the Mystic Ice King said softly.

Yang Chen nodded.

This was the same as the outside world. If one wanted to be the Lord of a city, one had to report on their work first.

After turning left and right in the building, the two of them arrived outside a room inside the building.

The Mystic Ice King first tidied up her clothes, then carefully knocked on the door of the room.”
Ancestor, the illusory Venerable is here.”

“Come in.” As the Mystic Ice King’s voice fell, an old voice came from the room. After hearing this voice, the Mystic Ice King looked at Chen Yang again and slowly pushed open the door.

Through the door, Yang Chen could see the furnishings in the room.

The furnishings in the room were very simple. There was only a table and a row of chairs on both sides.

This place was obviously not a place to sleep. According to Yang Chen’s guess, it should be a place where Taoism discussed some confidential matters.

In this room, an old man in white, with an old face, with white hair like snow sat on a chair beside the table, holding a cup of hot tea in his hand, smiling and looking at the two people.

After the door opened, the Mystic Ice King entered the room first and bowed to the old man.”
Greetings, ancestor.””

“There’s no need to be so polite.”

The old man waved his hand and signaled the Mystic Ice King to step aside.

“You must be the illusionary Venerable Chen Yang. Your reputation is not as good as meeting you in person.”The old man smiled.

“Greetings, Wood Emperor!” Yang Chen bowed respectfully.

The Dao Sect Patriarch comprehended the Great Dao of Wood, and his strength was unfathomable. Chen Yang naturally had to treat him with caution.

Hearing Yang Chen's words, the Wood Emperor looked at the Mystic Ice King. Seeing this, the Mystic Ice King quickly helped Chen Yang up." Venerable Illusion, my ancestor doesn't like these empty formalities. Let's get down to business.""

"Alright."

Yang Chen nodded and looked at the Wood Emperor." Wood Emperor, I have been ordered by the Taoist Faction to guard the Land of Evil Demons. Please assign me a task.""

"I know your intention. Before you came, I had thought it through. In this case, your Chen family will be guarding City 32."

"Right, before we leave, Mystic Ice King, take the illusory Venerable to take a look at the various buildings of our Dao Sect."

"The most important thing is to look at the Merit Hall. It explains how to obtain merit points and the treasures that can be exchanged for merit points. I think the illusory Venerable should be very interested."

"As for the other places, you can introduce them to us. Alright, you guys can leave.""

Then, the Wood Emperor waved his hand, indicating that the two of them could leave.

After leaving the magnificent building, the Mystic Ice King laughed,""Illusory

Venerable, let me bring you to the Merit Hall to take a look."

"Of course, that's good." Yang Chen smiled.

Just as the Wood Emperor had said, the Merit Hall was the place that Yang Chen was most interested in.

The Merit Hall could be used to exchange for many treasures that were not available in the outside world. With these treasures, the strength of the Chen family would greatly increase.

Moreover, Yang Chen had heard that the Merit Hall in each Evil Demon Land was connected.

In other words, Yang Chen could use his merit points to exchange for the treasures in the Holy Clan.

Of course, the prerequisite was that he had to have enough contribution points. After following the Mystic Ice King for 15 minutes, Yang Chen finally saw the Merit Hall.

The Merit Hall was about 30 meters tall, 100 meters wide and 100 meters wide.

If it wasn't for the words 'Merit Hall' written on the plaque, Yang Chen would have thought that this was a closed martial arts arena.

The Merit Hall was also very solemn. In front of the main hall were two stone statues of demons.

According to the Mystic Ice King, these two stone statues were made by the

Wood Emperor using the corpses of two king-level demons.

Using the evil demon's corpse as a decoration could not only show the strength of the Dao Sect, but it could also show the determination of the Alkaid Realm's martial artists to fight against the evil demon.

At this moment, there were many people in the Merit Hall who were here to exchange their merit points for treasures.

After seeing the Mystic Ice King, these people hurriedly greeted him, and the Mystic Ice King smiled in response.

Obviously, the Mystic Ice King didn't put on any airs of a king. This was also why the Taoist Faction always used the Mystic Ice King to receive other forces.

After entering the Merit Hall, what greeted his eyes was a huge blue screen of light.

This light screen was activated by the formation. On the light screen, there were many precious treasures and the merit points needed to exchange for them.

Next to the blue light screen was a small blood-red light screen.

On the blood-red light screen were written the merits obtained from killing demons of different realms.

Killing a Meridian Unsealing Realm Evil Spirit would give one merit point, while Core Formation Realm would give ten merit points.

By analogy, if an evil spirit's strength was higher by one major realm, the merit points they obtained would be ten times more.

There was definitely something illogical about this. After all, the peak of Meridian Unsealing and the first level of Meridian Unsealing were both in the Meridian Unsealing realm.

However, it was nothing to a battle between two great worlds.

This method of accumulating merit points only changed when one reached the Dao Origin realm.

starting from the Dao Origin Realm, killing a demon at the first level of the Dao Origin Realm would earn 10,000 merit points. The second-level Dao Origin cost 20,000 merit points. &

And so on, in the Dao Origin realm, every small increase in the demon's strength would give him an additional 10,000 merit points.

After reaching the King Realm, there was another change.

This King Level 1 demon was worth one million merit points. With this as the foundation, every level up would give him an additional 1,000,000 merit points.

Further up, when he reached the level of Emperor and Evil Demon, his merit points would climb to 100 million.

Of course, the price of Emperor level and above Evil Demons was just a matter of looking. The scale of this Evil Demon Land wasn't large, and it was already quite good to have King level Evil Demons.

If they wanted to kill the emperor level demons, they could only go to the demon lands guarded by the Saint Clan..

Chapter 522: The Tide of Evil Demons Entering City No. 32

After looking at the corresponding contribution points for each level of demon, Yang Chen turned his gaze to the blue screen.

Previously, Yang Chen had only taken a cursory look around. This time, Yang Chen started to observe it seriously.

It had to be said that there were all kinds of treasures on this blue light screen.

From the top treasures of the Alkaid World to the small Meridian Unlocking Elixir, they could all be seen on the blue light screen.

After taking a few glances, Yang Chen memorized some of the treasures.

Firstly, the Great Dao Crystals that were hard to come by in the outside world could only be exchanged for 5,000 merit points in the Merit Hall.

This was already very cheap.

After all, he only needed to kill five evil spirits.

Killing five demons on stage could be exchanged for a Great Dao Crystal. This was simply a bargain.

Next was the aptitude pill. On the blue light screen, there were various grades of aptitude pills. These aptitude pills could increase the aptitude of the clan members. In the future, they would definitely have to exchange for them.

Other than the Aptitude Pill, Yang Chen also remembered some treasures that could increase his strength.

Especially since there was a sacred pill on it that could increase the cultivation of the Void Piercer King.

If this kind of medicinal pill was placed outside, it would have long been fought over crazily.

After looking at the treasures that could be exchanged in the Merit Hall, Yang Chen couldn't wait to go to City 32 to kill the demons.

"Mystic Ice King, I know what's inside. Let's go back." Yang Chen said.

Hearing this, the Mystic Ice King smiled, "That's good. It just so happens that there's no force in the 32nd city now. You guys should hurry over there so that the demons in the 32nd city won't spread to other cities."

Then, Yang Chen followed the Mystic Ice King and left the sect.

After leaving the city gate, the Mystic Ice King released her spirit beast again and led the Chen family to the 32nd city.

On the way, the Mystic Ice King handed Yang Chen a map." Venerable Illusion, this is the map of the Land of Evil Demons. Take a look.""

Yang Chen took the map. After a moment of hesitation, he spread it out.

The map was filled with descriptions of the terrain. At the same time, each city was marked out.

Soon, Yang Chen found the thirty-second city they were going to.

City 32 was located in the eastern part of the Land of Evil Demons. It could be considered a city that was relatively close to the periphery.

What made Yang Chen even happier was that there was a river outside City 32.

The river ran through the Land of Evil Demons, and the river outside City 32 was the widest part of the river.

This gave the Kun Dragon a place to use its skills.

With the existence of the river, the power of the Kun Dragon could be truly displayed.

In addition to these terrains, Yang Chen also noticed that there was a circle drawn with a red pen outside each city.

These red circles surrounded the city and looked like the division of territory.

Seeing this, Yang Chen pointed at the red circles and said, "Mystic Ice King, what does this red circle mean?"

Seeing Yang Chen asking this, Mystic Ice King smiled, "I was going to explain it to you when you arrived."

"But since you asked, I'll tell you in advance."

"These red circles represent the range of the tunnel above your city."

"Take your 32nd city as an example. With the 32nd city as the center, expand for a hundred miles. This range corresponds to the size of the tunnel above your head."

It was not easy to enter the world from the outside. Generally speaking, after choosing a position, one could only fall vertically."

"And only the demons above the Void Piercer King can change their direction and go wherever they want."

"But demons of this level can't pass through the tunnels above your small cities."

"All in all, once an evil spirit descends, it will be within the red circle."

"When the time comes, you should be able to kill these demons as soon as possible."

Listening to the Mystic Ice King's explanation, Yang Chen also had some understanding of the red circle.

To put it bluntly, these red circles represented the areas where the demons landed. They could use this red circle to wait for the rabbit.

"Oh right, there's one more thing."

The Mystic Ice King seemed to remember something important and quickly said, "If you want to enter a plane from the universe, the minimum requirement is to go on stage or be escorted by a powerful person."

"In other words, there will definitely be some evil demons who will ascend the stage every time they descend."

"So when you patrol, it's best to have a martial artist on stage to guard it."

"Understood." Yang Chen nodded.

This was indeed an important piece of news. If Yang Chen didn't know about this and sent his clansmen with low cultivation to patrol, he would be the one who would suffer.

About a day later, the spirit beast officially arrived at City 32.

What Yang Chen did not expect was that when he arrived at City 32, some light spots slowly fell from the sky.

This made Yang Chen extremely puzzled. What exactly was this light spot?

Immediately, Chen Yang looked at the Mystic Ice King.

What Yang Chen didn't expect was that the Mystic Ice King's eyes were filled with joy when she saw these light spots. "I didn't expect that I could earn some extra money."

"Extra income? What do you mean?" Yang Chen asked.

The Mystic Ice King didn't keep the suspense. "These light spots are demons. It seems that more demons have descended from the passage corresponding to City 32."

“Illusory Venerable, I’ll tell you in advance that these demons are mine. Don’t blame me for not leaving you some soup..”

Chapter 523: The Tide of Evil Demons Entering City 32 (Happy New Year’s Eve, Everyone)

Hearing this, Yang Chen smiled and shook his head, “What are you saying, Mystic Ice King? You’ve worked hard this time, so naturally, you have to give some compensation.””

“Consider this demon as compensation from my Chen family.”

“Such a transformation.” Mystic Ice King smiled and nodded.

Then, terrifying Holy Qi gathered in the Mystic Ice King’s hand.

After the demons landed, the Mystic Ice King slapped them down.

As soon as the Mystic Ice King’s palm print landed on the ground, cold Holy Qi spread out.

Before long, City 32 and the area within a hundred miles were all frozen by the extremely cold Holy Qi.

Apart from the river, no one was spared.

The demons that landed on the ground didn’t even have time to scream before they were frozen into ice sculptures.

Looking at the frozen scene below, Yang Chen couldn’t help but suck in a breath of cold air created by the Mystic Ice King.

Looking at the ice sculptures below, the Mystic Ice King nodded in satisfaction." Not bad. I got 13,000 merit points this time. It was a worthwhile trip.""

Hearing this, Yang Chen looked at the Mystic Ice King in astonishment," Mystic Ice King, this is not even counted yet. How do you know your contribution points?""

"That's because I have this thing."

The Mystic Ice King smiled and pulled open her right sleeve. On her right wrist, there was an item that looked like a watch.

The reason why this thing looked like a watch was because it had a watch chain that was similar to a watch.

More importantly, in the center of this thing, there was a crystal exposed.

A string of numbers was engraved on the crystal.

"Mystic Ice King, this is..." Yang Chen was puzzled.

"This is specially used to record your merits. It's called the Merit Token. It was jointly developed by an Array Saint and Weapon Saint of our Alkaid World."

"I don't know how it works. I only know that as long as I kill a demon within a 100-kilometer radius, the merit token will automatically record it."

Looking at the merit token on the Mystic Ice King's wrist, Yang Chen's eyes twitched.

This was not a token at all. It was clearly a watch. However, there were no watches in this world, so it was not strange for it to have such a name.

Of course, the most important thing was where this thing came from.”

“Merit points? No, no, no. This is a free gift from our sect.” Although this medal is quite powerful, it’s only a ninth grade.” Mystic Ice King explained with a smile.”

“My Dao Sect can still afford to gift some grade eight spirit weapons.”

“As long as you come to the Land of Evil Demons to fight against the evil demons, our Dao Sect will give you this merit token to provide some convenience for everyone.”

As it spoke, the spirit beast descended slowly.

After the spirit beast landed, everyone jumped down from the spirit beast.

Looking at the ground that was still emitting cold air and had been frozen into ice, the Mystic Ice King said in embarrassment, “I’m sorry, I was a little too harsh.”

“However, Venerable Illusion, don’t worry. I’ll be back to normal soon.”

Then, the Mystic Ice King clenched her right hand and absorbed the cold air into her body.

Under the control of the Mystic Ice King’s Mystic Ice Great Dao, City 32 began to recover.

Not long after, it was the same as before.

The only difference was that there were puddles of water on the ground.

As for those evil spirits, they were frozen into powder by the Mystic Ice King and completely dissipated between heaven and earth.

After doing all this, the Mystic Ice King handed Yang Chen a storage bag, "Venerable Illusion, there are a total of 2,001 merit tokens in this storage bag." "When the time comes, send one to your clansmen."

"Alright, I still have something to do. Let's part ways here."

"Have a safe journey, Mystic Ice King."

After watching the Mystic Ice King leave, Chen Yang brought the Chen family and his family to City 32.

City 32 wasn't big. In terms of area, it could at most be considered a small town.

However, it was already wide enough for the 2,000 people from the Chen family.

After entering City 32, Yang Chen walked to the City Lord's Mansion and began to make arrangements.

"Grand Elder, deploy 200 Piercing Guards first and give them to Old Ten and Ming De. Let them patrol the area outside the city to ensure that they can discover the demons the moment they appear."

"As for the others, settle them down first. At the same time, see if there are any stable channels for purchasing food, fruits, vegetables, and meat nearby." Yang Chen ordered.

For martial artists who had opened their Meridians and above, food was not that important. As long as there was something to eat, it was enough.

However, eating was human nature, especially when it came to delicacies.

His clansmen and family had followed him to such a dangerous place. Yang Chen did not want them to be unable to satisfy their appetite.

This was also the reason why there were many chefs with powerful cultivation bases among these 2,000 people.

After listening to Chen Yang's order, Chen Xuan nodded." Alright, I'll do it immediately.""

With that, Chen Xuan turned around and left.

As for Chen Yang, he hesitated for a moment before heading out of the city.

Not long after, Yang Chen saw a river that stretched for hundreds of thousands of miles.

The river outside City 32 was the widest, and it was not without reason that one couldn't see the boundary at a glance.

According to the map, the river region corresponding to City 32 was nearly a thousand miles wide..

Chapter 524: The Tide of Evil Demons Entering City 32

Such a large territory was enough for the Kun Dragon to do whatever it wanted.

Immediately, Yang Chen released the Leviathan Dragon.

The moment the Leviathan came out, it jumped into the river excitedly and expanded its body to its maximum size.

Looking at the swimming Kun Dragon, Yang Chen smiled and said,""Longkun, I have a mission for you. You have to control the demon beasts within a hundred miles in the shortest time possible and make them listen to your orders."

“After doing all this, have these demon beasts monitor the area outside the city to ensure that you can discover the demons in time when they land.”

There were also demon beasts and spirit beasts in this land of demons.

However, due to the influence of the demons, these demon beasts and spirit beasts were cruel and did not have high intelligence. They could only act according to their instincts.

It was very simple to subdue these demon beasts and spirit beasts. He had to beat them into submission and make them feel that their lives were threatened.

It was precisely because these demon beasts were not smart that once they submitted, they would basically not betray and strictly follow the requirements.

Hearing Yang Chen’s instructions, the Dragon Kun floated out of the water.” Master, I understand.””

After saying that, the Kun Dragon continued to dive into the river and began to look for trouble with the demon beasts in the river.

Seeing this, Yang Chen let Long Kun do as he wished and returned to City 32.

Yang Chen didn’t stay idle when he arrived at the city. He summoned all his familiars and had them guard various parts of the city to ensure that the demons wouldn’t come and raid his hometown.

After making all these preparations, Yang Chen was relieved to deal with his own matters.

After everything was settled, the sky darkened.

Seeing this, Yang Chen decided to hold a grand banquet for 2,000 people as a housewarming celebration.

He did it just like that.

Immediately, the group of chefs moved quickly. Delicious dishes were made by them, adding some joy to the gloomy atmosphere.

In the center of the city, Yang Chen deliberately found an empty space and lit a bonfire on it, adding a ray of light to the dark city.

Seeing this, the Chen family members also imitated Yang Chen and lit a bonfire.

For a moment, the originally dark city emitted a hint of home under the illumination of the bonfire.

After that, the Chen family members and generals gathered around the bonfire and enjoyed the delicious food.

Yang Chen and a few elders of the Chen Family were also gathered around the bonfire, enjoying the rare peace.

At this moment, a few meteors streaked across the sky.

This meteor not only pierced through the dark sky, but also dispersed the peace in Yang Chen's heart.

"This damned demon really knows how to pick a good time."

Immediately, Chen Yang twisted his neck and said to Chen Xuan, "Tell the clansmen not to worry.

I'll personally deal with these few demons and let them eat and drink as they please. After today, he would not have such a leisurely time."

Then, Yang Chen left.

At the same time, a Golden Crow also flapped its wings and flew. It circled in the air and stared at the few spots of light.

Under the watchful eyes of Chen Yang and the Golden Crow, these demons landed on the ground.

Seeing this, the man and the beast didn't say anything and charged towards the demons together.

These demons weren't too powerful; there was only one demon on stage and a few Zifu Disciples.

Seeing Yang Chen's figure, the demons subconsciously ran away, but Yang Chen would not give them a chance.

Pure Holy Qi rushed out of his dantian and poured into the Spiritual Sword in his hand.

At the same time, illusory sword shadows appeared beside Yang Chen.

"Flowing Shadow Sword Technique!"

As Yang Chen let out a cold shout, the sword shadows around Yang Chen quickly swept out and instantly pierced through the bodies of these demons.

There was nothing unexpected about using his Daosource to fight against the Zifu Disciples.

As the Spiritual Sword phantoms pierced through their bodies, these demons fell to the ground with a loud bang and lost their vitality.

At the same time, Yang Chen's merit token changed. A number appeared on the crystal screen.

1,600.

“1,600 merit points? It’s more accurate.” Yang Chen smiled as he glanced at the merit token. He then gave the Golden Crow a look.

Seeing this, the Golden Crow spat out a ball of flames from its mouth and burned these demons into ashes.

After doing all this, Yang Chen returned to the bonfire banquet as if nothing had happened.

As for the Golden Crow, it was in charge of the realm.

After the bonfire banquet ended, everyone went to sleep except for the night watchers.

As for Chen Yang, he sat cross-legged in the mansion and began to absorb the energy of the Great Path that the Mystic Ice King had mentioned.

As Yang Chen calmed down, he could sense that there was a hole with a radius of 100 miles above City 32.

In this hole, all kinds of colors of aura poured in from the outside.

These auras were the aura of the universe, also known as the aura of the Great Dao. As for the color, it represented their identity.

The white one was known as the Universal Great Dao Aura. Warriors who comprehended any Great Dao could absorb it and use it to improve their own Great Dao.

As for the other colors, they corresponded to the aura of their respective Great Dao.

The illusory Great Dao aura that corresponded to the illusory Great Dao was purple. Unfortunately, Yang Chen had never seen a purple Great Dao aura before.

Yang Chen had no choice but to absorb the aura of the universal Great Dao.

Following Yang Chen's guidance, the aura of the Great Path slowly moved toward Yang Chen. Soon, the first wisp of the aura of the Great Path entered Yang Chen's body..

Chapter 525: The Tide of Evil Demons Entering City 32

At this moment, Yang Chen suddenly felt his mind clear up, and his comprehension of the illusory Great Dao increased a little.

Feeling the power of the Great Path's aura, Yang Chen opened his eyes. There was an unconcealable joy in his eyes.

"No wonder Old Ancestor Ren Xu said that this land of demons is both a test and an opportunity."

"Based on my current progress, I'm confident that I can advance the Illusory Great Dao to the second realm within ten years!"

Of course, this was only a theory. It was impossible to do it in reality.

The hole above was not big, and the aura of the Great Dao that surged in was limited.

Yang Chen felt that there was more aura of the Great Path because City 32 had been idle for a while.

Without anyone absorbing it, the aura of the Great Dao naturally increased.

However, even so, it was still many times faster than comprehending the Great Dao outside.

After tasting the benefits of the aura of the Great Path, Yang Chen continued to absorb it.

This absorption took a night.

When the sun rose, Chen Yang realized that he had not tried to condense a Dao Crystal.

Immediately, Yang Chen did not continue to absorb the Qi of the Great Dao. Instead, he planned to try to condense a Great Dao Crystal.

After all, the Great Dao Crystal of the Chaosang was worth 5,000 merit points.

This condensation lasted for a day.

When the sky darkened again, a Dao Crystal appeared in Chen Yang's hand.

Looking at this Great Dao Crystal, Chen Yang could not help but sigh. "I didn't expect this Great Dao Crystal to be so difficult to condense. I used almost a day to condense this piece."

"And once it starts to condense, it can't be stopped. Otherwise, everything will be in vain."

"Fortunately, nothing happened today. Otherwise, it would be terrible."

"And most importantly, condensing a Great Dao Crystal is a waste of Great Dao aura. To condense such a Great Dao Crystal, you need at least 1,000 wisps of Great Dao aura."

“And the energy inside is only equivalent to 100 wisps of Great Dao aura.” “Fortunately, those wasted Great Dao auras did not disappear. Instead, they returned to the world. With the accumulation of time, it could condense into the aura of the Great Dao again.”

“Otherwise, it would be a huge loss.”

Although from an energy point of view, there was no loss in condensing the Great Dao Crystal.

However, it couldn't be calculated that way. There weren't any changes in City 32 because Chen Yang was the only Dao Origin.

If there were too many Dao Origin, once they condensed the Great Dao Crystal, it would definitely affect the other Dao Origin they cultivated.

Or perhaps, after the aura of the Great Dao had decreased, Chen Yang alone would not be able to do it.

If he condensed the Great Dao Crystal today, he would not be able to cultivate tomorrow.

“No wonder no one is willing to condense the Great Dao Crystal. This is indeed a loss.”

“Looks like I shouldn't condense Dao Crystals in the future. I'll use merit points to buy them. I wonder how many Great Dao Crystals the Beast Tamer Sect will need to hand over the cultivation technique to me.”

With that, Chen Yang put away the Great Dao Crystal and continued to absorb the aura of the Great Dao.

This cultivation lasted for seven days.

In these seven days, Yang Chen's comprehension of the Illusory Great Dao had grown visibly.

According to Yang Chen's estimation, these seven days were equivalent to a year of Yang Chen's comprehension in the outside world.

Just as Chen Yang was about to continue absorbing, Chen Xuan rushed in."

"Oh?"

Chen Yang ended his cultivation and looked at Chen Xuan."

Chen Xuan's expression was ugly as he said,"Roughly speaking, there are more than a thousand of them.""

Thousands of demons!

For a small city like City 32, this could already be considered a demon tide.

A demon of this scale might not even appear once a year.

On the eighth day of Yang Chen's arrival, he had already met him. He didn't know if he was lucky or not.

Furthermore, a group of demons of this scale would definitely be led by a Dao Origin demon.

He just didn't know how strong this Daoyuan demon was.

"Let's go. Take me to take a look. Also, tell the clansmen and guards to prepare."Yang Chen ordered..

Chapter 526: A Year Later) _1

Land of Evil Demons, City 32.

Looking at the dense light spots that were constantly falling.

Regardless of whether they were from the Chen family or the Jiang family, they could not help but swallow their saliva.

They had not expected that their first battle since entering the Land of Evil Demons would be so large-scale.

They couldn't help but feel nervous. Even the hand that was holding the spirit weapon was trembling.

At this moment, Chen Yang and Chen Xuan also ran out of the city lord's mansion.

When Yang Chen saw the demons descending from the sky, his expression changed and he shouted, "Everyone, don't panic!"¹

"Dragon Riders, follow Chen Mingde and destroy the demons in the city. Pierce the guards and follow Chen Xiao to investigate the demons outside the city!" "Everyone! These demons are here to give us merit points. In this battle, we will wipe them out!"

Following Yang Chen's shout, the Chen family members and family guards, out of admiration for Yang Chen, all expelled the fear in their hearts and followed Yang Chen's instructions with a face full of fighting spirit.

Yang Chen himself was riding on a Golden Crow, his eyes fixed on the specks of

light-

The main thing was the light spots that were about to land in the city.

Although there were many of them, if they were to target a relatively small area, they wouldn't be able to hide.

Gradually, the specks of light landed on the ground, and the evil demons roared and roared wantonly, determined to turn the humans in this city into their own food.

After scanning the city for the presence of the demons, Yang Chen heaved a

sigh of relief.

Fortunately, there were not many demons that landed in the city, and there were no Dao Essence demons.

Seeing this, Chen Yang looked at Chen Mingde." Mingde, lead the Dragon

Riders and destroy this group of beasts!"

"Yes, sir!"

Chen Mingde let out a loud shout and immediately leaped out, rushing towards the demons on the stage in the city.

Seeing this, the Dragon Cavalry Guards mounted their Wind Piao Horses and charged towards the demons in the city.

Chen Xiao did not stay idle either. The moment the demon landed, he brought the Piercing Guard out of the city to search for traces of the demon.

Seeing that the situation was slightly under control, Chen Yang nodded and then looked at Chen Xuan." First Elder, I'll leave the city to you. I'll go find that

Dao Essence demon.”

“Understood. Don’t worry, family head. With me around, nothing will happen to the city .”Chen Xuan said with a serious expression.

Seeing this, Yang Chen leaped out and began to pursue the traces of the Dao

Origin Evil Demon.

As for the Golden Crow, Chen Yang left it in the city to help protect it.

Outside the city, Yang Chen hadn’t walked far when the crystal screen on the merit token on his right wrist changed and a number appeared.

Looking at the numbers on the crystal screen, Yang Chen turned his head to look at the Golden Crow in the city.” I didn’t expect this Merit Token to be so amazing. It can even sense the movements of subdued beasts, and it’s recorded on my head.””

Originally, Yang Chen thought that he would have to kill the demons himself. Now, it seemed that he did not have this worry at all. He could kill without worry.

Thinking of this, Yang Chen released all of his Demon Emperor subdued beasts, letting them search for traces of the Dao Essence demons while killing the other demons.

With the existence of these demon emperors and demons, Yang Chen did not have to worry about his merit points.

In the following period of time, Yang Chen devoted himself to searching for

that Dao Essence demon.

As for the Dao Essence demon, it didn't hide much. In just 15 minutes, Yang

Chen found his target.

It was a demon that was about ten meters tall, blood-red in color, with two sharp horns on its head, a tail on its back, and spikes all over its back.

After seeing the appearance of the demon, Yang Chen revealed its identity, "Bloodthorn Demon!"

The Bloody Thorn Demon was famous and had always been the main fighting force of the demon army.

Every single one of them had a battle prowess that far surpassed their own cultivation base.

Fortunately, the evil spirit in front of Chen Yang was only at the first level of Dao Origin. It was relatively easy for Chen Yang to deal with it.

While Yang Chen was observing the Bloody Thorn Demon, the Bloody Thorn Demon was also observing Yang Chen.

When it sensed the terrifying aura coming from Yang Chen's body, the Bloody Thorn Demon subconsciously tried to escape.

But how could Yang Chen let it escape?

Just as the Bloody Thorn Demon was about to flee, Yang Chen's figure suddenly disappeared. When he reappeared, he was already in front of the Bloody Thorn Demon.

Then, Holy Qi gathered on the Spiritual Sword in his hand. With the help of the Flowing Shadow Sword Technique, he stabbed at the heart of the Bloody Thorn

Demon.

Terrifying Holy Qi flowed into the demon's heart along the Spiritual Sword, destroying it.

After a long time, Blood Thorn Demon's heart was crushed into powder, and at this moment, Blood Thorn Demon only had one breath left.

Looking at the dying Bloody Thorn Demon, Yang Chen couldn't help but smack his tongue." As expected of the demon with the strongest combat strength. It can actually withstand my sword and not die.""

"Forget it. If I don't die with one strike, I'll make up for it with another!

Then, Chen Yang stabbed three times in a row, completely ending the Bloody Thorn Demon's life.

After completing all these, Chen Yang's merit token was also increased by 10,000 merit points.

After killing the Dao Origin Evil Demon, Chen Yang began to chase after the other Evil Demons. With Chen Yang, a seventh-stage Dao Origin expert, joining in, these Evil Demons had no chance of escaping.

In half a day, the 1,000 demons that had descended were all killed by the Chen Clan.

After the battle ended, Chen Yang returned to the City Lord's Mansion.. He looked at Chen Xuan, who had finished counting the casualties, and asked,"Grand Elder, how are our losses?"

Chapter 527: A Year Later) _2

"Not so good. We lost nearly a hundred people and several hundred more were injured. It can be said that our losses were extremely tragic."Chen Xuan said with an ugly expression.

Hearing this, Yang Chen took a deep breath." Our clansmen haven't experienced a big battle yet. Their battle awareness is not enough."

"Alright, properly bury those clansmen and family members who died in battle. Remember their names and find a time to go back and settle their families."

"Understood." Chen Xuan nodded.

In the following period of time, the Chen family officially settled down in City 32. Just like in the other cities, they cultivated, killed demons, and cultivated.

Just like that, a year later.

Yang Chen stood on the city wall and looked down at the demons surrounded by the Dragon Riders. Yang Chen revealed a satisfied smile.

Over the past year, too many changes had taken place in City 32.

The first was the strength of the clansmen. After a year of bloody battles, the remaining 1,700 people could be said to be veterans of hundreds of battles.

Moreover, everyone's cultivation had increased a lot compared to before.

At the very least, he could save his life in battle.

This was also the reason why no one from the Chen family had died in battle recently.

Of course, the current situation was exchanged for the lives of 300 clansmen and family guards.

Yang Chen was helpless against the deaths of these people. He was also unable to protect this 100-mile radius.

However, Yang Chen was already prepared for this. If there was a battle, there would definitely be losses.

What Yang Chen could do was to settle down the families of the fallen clansmen and generals.

Other than the increase in the strength of his clansmen and generals, some basic facilities in City 32 were also built.

Among them was a chamber of commerce that was used to transport food, meat, fruits, and vegetables to City 32.

It was obvious that they weren't the only city in the Land of Evil Demons that had a good appetite for food. There were also some factions that took this opportunity to set up merchant associations.

Although the items in this chamber of commerce were a little expensive, they were still in short supply.

Moreover, this chamber of commerce only sold spiritual rice and demon beast meat. Long-term consumption would also increase one's cultivation, so it was naturally enthusiastically sought after.

Yang Chen had spent a lot of effort to convince the Chamber of Commerce to open a branch in City 32.

Generally speaking, the Chamber of Commerce had never set up a meeting in a small city like Number Thirty-Two.

If there's a need, contact them in advance and they'll send it over in one batch.

If he wanted fresh spiritual rice and fruits and vegetables, he would be dreaming.

However, the merchant association did not expect a seventh-stage Dao Origin Realm expert to exist in such a small city!

With such strength, why was he still arranged to be in City 32?

Shouldn't they be placed in the top ten cities?

They didn't understand the arrangements of the Taoist Faction and didn't dare to ask.

However, they knew that with Yang Chen around, they had to set up a branch in City 32.

This was respect for Yang Chen.

In addition to this Chamber of Commerce, City 32 also had a Merit Hall.

Of course, this Merit Hall was only a branch of the Dao Sect's Merit Hall. There was nothing inside.

If they wanted to exchange for it, they would need to contact the main palace and ask the main palace to send someone over.

Furthermore, it was limited to treasures that were below 10,000 merit points.

As for the treasures that were worth more than 10,000 merit points, Yang Chen and the others had to exchange for them personally.

But even so, the cities below the tenth city were extremely extravagant.

Although there were many restrictions in the Merit Hall, at the very least, he did not have to travel far to exchange for treasures.

After the construction of the Merit Hall in City 32, it also led to the development of commerce in City 32.

After the cities around City 30 learned that City 32 had a Merit Branch Palace, they all rushed there to exchange for treasures.

Seeing this, the Chen family awakened the talent in their bloodline and built inns and restaurants one after another.

This bustling scene was completely unlike the cities of the Land of Evil Demons.

Moreover, there were many spiritual herbs and spiritual materials in this Evil Demon Land. Moreover, due to the enhancement of the aura of the universe, they were even more precious than ordinary spiritual herbs.

As for City 32, it was only responsible for some large-scale merchant associations, providing trading places for the surrounding cities.

All of this was caused by the Merit Hall.

After standing on the city wall for a long time, Chen Xuan walked up.” Clan Master, Sect Master Pei Yuan is here.”

“Oh? Ask him to go to the reception hall first. I’ll be there soon.” Yang Chen said without blinking.

After the Dragon Riders had completely surrounded and killed the demon, Yang Chen tidied up his clothes and rushed towards the City Lord’s Mansion.

City Lord Manor, in the reception hall.

Pei Yuan leisurely sipped his tea. Among the nearby cities, only the thirty-second city had this kind of high-quality spiritual tea.

As he drank this tea, Pei Yuan instantly felt as if he was in the sect.

Pei Yuan was the sect master of the Myriad Sword Sect, which was guarding City 33. His strength was at the third-level Dao Origin.

In the cities of the 30th to 40th sequences, he could be considered the number one expert.

“Hahaha, Sect Master Pei has graced us with your presence.” Chen Yang didn’t let Pei Yuan wait too long.

Not long after, Chen Yang arrived at the reception hall with a smile.

Seeing Chen Yang come over, Pei Yuan quickly put down the teacup in his hand and stood up to look at Chen Yang with a flattering expression.” Greetings, Family Head Chen.”“

“Sect Master Pei, please sit.”

After Chen Yang sat down on the main seat, he smiled and looked at Pei Yuan,” May I know why Sect Master Pei has come?”

“It’s like this. I’m planning to go to Dao City to exchange for some precious treasures, so I’m here to ask the Chen Clan Lord if he intends to go with me.” Pei Yuan laughed.

She was lying about asking Chen Yang, she was more serious about wanting to ride on Chen Yang’s spirit beast.

With a spirit beast as a means of transportation, it would not take much time to go back and forth. Pei Yuan naturally wanted to hitch a ride.

Chen Yang knew what Pei Yuan was thinking, but he did not reject him.

As a result, Yang Chen had accumulated a lot of merit points in the past year. He had a total of 100,000 merit points. He should be able to exchange them for some treasures that would be useful to him.

Secondly, it was more important to maintain the relationship between neighbors.

After thinking it through, Yang Chen nodded. "That's exactly what I'm thinking. Since that's the case, let's not waste any more time. You and I will head to Dao City together." "

"That's great." Pei Yuan said with an excited face when he heard this.

After giving a few simple instructions, Chen Yang and Pei Yuan rode on a Golden Crow toward Dao City.

With the speed of a Golden Crow, it would only take a day and a half to reach Dao City from City 32.

A day and a half later, the two of them successfully arrived outside Dao City.

After putting away the spirit beasts, the two of them planned to enter Dao City.

At that moment, a person suddenly rushed out of Dao City.

Yang Chen recognized this person. It was the Mystic Ice King.

Immediately, Chen Yang shouted, "Dark Ice King!" "

When the Mystic Ice King heard this, she stopped in her tracks and walked towards Chen Yang with a smile. "Chen Clan Leader, I haven't seen you for a year. How have you been?" "

"Fortunately, I've familiarized myself with the matters of the Land of Evil Demons. I'm already on the right track." Yang Chen smiled.

Pei Yuan, who was watching from the side, was completely stunned by the conversation between Chen Yang and the Mystic Ice King.

This was the Mystic Ice King!

A Void Piercer King!

Yang Chen was actually able to stay calm with this Void Piercer King, and it seemed that their relationship wasn't bad.

Could it be that Yang Chen had some other distinguished identity? Otherwise, why would the Mystic Ice King treat him like this?

For a moment, Pei Yuan looked at Chen Yang with even more flattery.

This Chen Yang is obviously not ordinary. If we can build a good relationship with him, wouldn't it be a good thing for the Wan Jian House?

Chen Yang didn't notice Pei Yuan's eyes, but continued to chat with the Mystic Ice King, "Mystic Ice King, what's the matter?"

"That's right."

The Mystic Ice King nodded and said, "I should have told you about it after a while, but since you asked, I'll tell you.""

"The calamity of the Evil Demons is about to descend.."

Chapter 528: The Disaster of the Evil Demons, Chen Yang's Preparing

“Evil Demon Calamity, what is that?” Yang Chen looked at the Mystic Ice King in astonishment.

As for Pei Yuan, his face turned pale when he heard the words “ Evil Demon DisasterHe looked at the Mystic Ice King in fear.”It’s the Evil Demon Calamity!”

Pei Yuan’s performance made Chen Yang even more confused. From the looks of it, this Evil Demon Calamity seemed to be something terrifying.

However, why hadn’t anyone mentioned it before?

Seeing this, the Mystic Ice King sorted out her words and slowly explained,“This so-called Evil Demon Calamity is a large-scale invasion of the Evil Demons.”

“Although the formation set up by the Formation God is impregnable, there are also demons who understand formations among the demons.”

“Although they can’t break the array formation of the Array God for the time being, it’s not a problem for them to tear open a few holes in the passageway that the Array God specially left behind.”

“When they tear open the hole, the number of demons that can pass through the hole is unlimited.”

“At that time, the demons will invade on a large scale, and the array gods will have to guard the array formation. They won’t be able to stop them at all.” “According to the Formation God’s message, he has already sensed that the demons have torn a hole in the land of demons that we are guarding.”

“The only reason why there haven’t been any demons passing through yet is that this opening is relatively small. Therefore, the Array God sent us a message to prepare in advance.”

After the Mystic Ice King’s explanation, Yang Chen had some understanding of the Evil Demon Disaster.

If it was really like what the Mystic Ice King said, then it would be really troublesome.

Even if they had made preparations in advance, they could still foresee the loss of a large number of Evil Demons.

At that time, it would definitely be a mountain of corpses and a sea of blood. "Mystic Ice King, where is that hole?" Yang Chen asked.

"According to the formation god's message, the place where this hole opens is the passage guarded by the 18th city." the Mystic Ice King said.

Hearing this, Chen Yang and Pei Yuan both heaved a sigh of relief.

The 18th city was located in the west and was quite far away from them. This evil demon disaster shouldn't affect them.

They only needed to listen to the deployment of Taoism and send experts to reinforce City No. 18.

Moreover, although this Evil Demon Calamity was a disaster, it was also an opportunity. With so many Evil Demons, it represented countless merits.

It seemed that he had to make preparations in advance.

"Mystic Ice King, do you know when the Evil Demon Disaster will occur?" Yang Chen asked."

"I don't know." The Mystic Ice King shook her head." Although the hole has been torn open, no one knows when the demons will invade."

"We can only make arrangements in advance to minimize our losses."

"Alright, I still have to send a message, so I won't chat with you anymore. Chen Clan Leader, we shall meet again."

Then, the Mystic Ice King rushed out.

Looking at the Dark Ice King's back, Yang Chen said with some

pity, "Unfortunately, I still have a question to ask."

Hearing this, Pei Yuan said, "Chen Clan Leader, if it's about the calamity of the demons, you can ask me. I've experienced the calamity of the Evil Demons, so I know some of the secrets."

Seeing this, Yang Chen quickly asked, "Since that's the case, I won't be polite." "Sect Master Pei, do you know how to repair the hole after it is torn open? If he didn't repair it, wouldn't it open the door to the demons?"

After listening to Yang Chen's question, Pei Yuan smiled and explained, "This, Chen Clan Leader, you don't need to worry."

"The formation of the Formation God can automatically repair the hole that was torn by the evil devil. As long as the evil devil stops destroying the formation, this hole will completely disappear in a few days."

"As for why the demons stopped destroying the entrance, as far as I know, this should be the bottom line of both sides."

"The Formation God can allow you to tear open a hole, but the interval between each tear must be longer."

"Of course, I don't know the exact time interval. This should be a rough interval."

"And once the evil spirit enters the formation for a day, the evil spirit that tore the hole must stop moving."

Otherwise, the Array God would definitely activate the array to kill these demons.”

“This is a tacit agreement between the two sides. On our side, we need an astronomical number of resources to mobilize the array formation to kill the evil demons.”

“As for the demons, they don’t want to lose a large number of them for no reason.”

“It is precisely because of this tacit understanding that the demons only have one day to pass through the hole they tore open.”

Yang Chen understood.

This opening wouldn’t last long. It would only last for a day when the first Evil Demon entered the Evil Demon Land.

Once this time was exceeded, the Array God would make a move.

At the same time, the Evil Demons would not frequently open a hole and allow the Evil Demons to enter the Evil Demon Land for a long time.

Yang Chen also found a blind spot. He only said that he was not allowed to enter, but he did not say that he was not allowed to leave.

If that was the case, didn’t that mean...

“Sect Master Pei, can those demons escape through the hole?” Yang Chen asked.”

This question caused Pei Yuan to be stunned. Pei Yuan then smiled and

said, “Now that you mention it, I really remember.”

“The last time I experienced the Evil Demon Calamity, I personally saw the Evil Demons retreat.”

“And according to what the other seniors said, every time there is a demon calamity, some demons will escape.”

“It seems that there are also demons who are afraid of death among these demons..”

Chapter 529: The Disaster of the Evil Demons, Chen

Yang's Preparing

1

Afraid of death?

Yang Chen narrowed his eyes. It seemed that it was just as he had guessed. This was a training exercise for both sides!

That's right, training!

After such a large-scale battle, the people or demons who survived were the elites of the elites.

This was also the reason why the Array God could reach a tacit understanding with the evil spirit.

They were all training their troops.

As for the reason, Yang Chen also had a guess. That was that the array could not protect it for long.

Both sides were preparing for the battle after the array disappeared.

Thinking of this, Yang Chen took a deep breath." The waters are still a little deep.'"

"What is it? What Deep Waters?" Pei Yuan looked at Chen Yang," Family Head Chen, have you discovered anything?"

"It's nothing. Let's go exchange for some treasures and prepare for the upcoming battle."Yang Chen said.

Yang Chen didn't tell Pei Yuan his guess.

This was all Yang Chen's guess, and it was not certain whether it was right or not.

What if it was really like what Pei Yuan had said, a demon that was simply afraid of death?

Secondly, even if both sides were preparing for the final battle, the Taoist Faction did not tell everyone, so he did not have to meddle in their affairs.

If he told Pei Yuan, other than causing Pei Yuan to panic, he would not be able to do anything. Instead, it would affect the Array God's grand plan.

Seeing that Chen Yang was unwilling to tell him, Pei Yuan did not ask further. The two of them entered Dao City and walked straight into the Merit Hall.

The moment he arrived at the Merit Hall, Pei Yuan could not stop smiling." Every time I come to the Merit Hall, I'm especially excited."

“Looking at the treasures in the Merit Hall, I really want to pack them all up and take them away. Unfortunately, I don’t have enough merit points.”

Then, Pei Yuan shook his head and followed Chen Yang to a place where treasures could be exchanged.

The hall was divided into many areas, and each area had a corresponding number of merit points.

Otherwise, it would be too troublesome if they were all piled up in one place.

The region that Chen Yang and Pei Yuan came from was the region that was worth 10,000 to 100,000 merit points.

While queuing, Yang Chen scanned the blue screen.

Among them, it mainly looked at the treasures in the range of 10,000 to 100,000.

After looking around, Yang Chen found the treasure he wanted to exchange for.

Grade three spirit weapon, Divine Vermilion Bird Crossbow!

It was worth 100,000 merit points!

Yang Chen had some understanding of the Vermilion Bird Crossbow.

The Vermilion Bird Divine Crossbow was forged by a craftsman of the Vermilion Bird Divine Clan. Its greatest power was equivalent to the strongest attack of a first-layer Void Piercing King.

Moreover, the Vermilion Bird Celestial Bow had a merit point token that would convert the demons killed by the Vermilion Bird Celestial Bow into merit points.

It could be said that this was a sharp weapon to reap merit points.

Of course, each time he activated the Vermilion Bird Crossbow, he would consume a large amount of Spiritual Crystals. To unleash the power equivalent to the full-strength attack of the Space-Breaking King, he only needed 100,000 Spiritual Crystals.

100,000 crystals could only be used once.

It was naturally worth it during the Evil Demon Disaster, but it wasn't worth it during normal times.

This was also the reason why not many people exchanged for the Vermilion Bird Crossbow.

At the same time, the Vermilion Bird Crossbow could not be brought out and could only be used in the Land of Evil Demons. This made many people give up on the idea of exchanging for the Vermilion Bird Crossbow.

However, recently, this Vermilion Bird Crossbow was going to be a hot commodity.

At the very least, it would become a hot commodity among the fifth-rank forces.

If he had the Vermilion Bird Divine Crossbow, he would be able to obtain the merit points easily.

Fortunately, Yang Chen had received the news in advance and was able to exchange for the Vermilion Bird Crossbow before anyone else.

As time passed, it was soon Yang Chen's turn.

The person in charge of receiving Yang Chen was a beautiful woman with a graceful figure.

The woman smiled and bowed slightly." Sir, is there anything you need?" "I want to exchange for the Vermilion Bird Crossbow." Yang Chen said. Hearing this, the woman was stunned for a moment before revealing a professional smile," Alright, please wait a moment."

Then, the woman turned around and left.

Not long after, the woman returned and smiled at Yang Chen,"Sir, please follow me."

Seeing this, Yang Chen followed the woman and came to a courtyard outside the hall.

The Vermilion Bird Divine Crossbows were placed in the courtyard, and a rather stern old man sat at the entrance.

After the woman arrived at the entrance of the courtyard, she said to the old man,"Deacon, the lord who exchanged for the Vermilion Bird Crossbow is here."

"I understand. You can go back. I'll take over here."the old man said.

Hearing this, the woman nodded and returned to the hall to receive the others. Chen Yang walked up to the old man." Hello, I want to exchange for the Vermilion Bird Divine Crossbow."

The old man raised his head and smiled." It seems like you have a powerful background. You knew that the Evil Demon Calamity was coming, so you came to exchange for the Vermilion Bird Crossbow."

"Forget it, it doesn't matter who you exchange it with. Give me your contribution token."

Yang Chen followed the instructions and handed over the merit token.

The old man took the token. After a simple operation, the merit points on the merit token quickly decreased by 100,000.

Then, the old man returned the token to Chen Yang." Come in with me."" After the two of them entered the courtyard, the old man pointed at the Vermilion Bird Crossbows and said,"Choose one yourself.

Hearing this, Chen Yang smiled and said,"I have poor eyesight. Please enlighten me.""

The old man didn't stand on ceremony." Since you've asked me, I won't hide anything. These Vermilion Bird Crossbows are basically the same.."

Chapter 530: Yang Chen's Preparing for the Evil Demons 'Rebelation

I

"Even if there is, it's a difference in accuracy. The most accurate one is the Vermilion Bird Crossbow in the center."

Yang Chen nodded." Alright, I'll exchange for this Vermilion Bird Crossbow."" Hearing this, the old man used Holy Qi to drag out the Vermilion Bird Crossbow and placed it in front of Yang Chen.

As soon as the old man used Holy Qi, Chen Yang could sense that he was a cultivator at the peak of the Dao Origin.

But thinking about it, it was normal. Such a precious Vermilion Bird Crossbow naturally had to be guarded by powerful experts.

After handing the Vermilion Bird Crossbow to Chen Yang, the old man smiled

and said,"I'll hand this over to you. I hope you can unleash the might of the

Vermilion Bird Crossbow and kill a few more demons."

"I will."

Yang Chen nodded his head and carefully observed the Vermilion Bird

Crossbow.

The Vermilion Bird Divine Crossbow looked like a vermilion bird hovering in the air, delivering a fatal blow to the enemy at the precise moment.

Of course, Yang Chen didn't have any requirements for appearance.

Yang Chen's main objective was to observe the operation of the Vermilion Bird Crossbow.

After understanding how to operate the Vermilion Bird Divine Crossbow, Chen

Yang put it away and nodded at the old man." Goodbye, senior."

Then, Yang Chen turned around and left.

When Yang Chen left, the old man stroked his beard and laughed,"Tsk tsk tsk,

as expected of a person with great luck."

"Although I'm not good at divination, I can still see a thing or two. Looks like

divination has really found a good helper for Lord Array God this time."

With that, the old man's appearance quickly changed and then disappeared on the spot.

In the Merit Hall, when Chen Yang returned, he found that Pei Yuan had already exchanged for his treasures.

At this moment, he was sitting in the resting area of the hall, waiting for Yang Chen.

Seeing Chen Yang come over, Pei Yuan quickly stood up, "Chen Clan Leader, how is it?"

"I'm done." Yang Chen nodded.

Seeing this, Pei Yuan said anxiously, "Since that's the case, let's go back and

make preparations in advance."

Pei Yuan couldn't be blamed for being anxious. The calamity of the demons was coming at any moment.

If he didn't prepare in advance, how could he resist the effects of the Evil

Demon Calamity?

Chen Yang also had the intention to go back. Seeing Pei Yuan's words, Chen

Yang followed up, "Alright, let's go back."

With that, the two of them hurriedly left the Merit Hall and arrived outside the city without looking back.

Once they were outside the city, Chen Yang released a Golden Crow and the two

of them quickly returned to City 32.

A day later, in City 32.

After he returned, Pei Yuan did not stay and rushed back.

As for Yang Chen, he gathered the elders in the meeting hall.

“Everyone, the Evil Demon Calamity is coming. You probably don’t know what the Evil Demon Calamity is. Let me explain it to you...”

After all the elders had arrived, Chen Yang told them about the Evil Demon

Disaster.

After that, Yang Chen looked at the elders.” How about it? Tell me your opinion.””

Hearing this, the elders looked at Chen Xuan.

“Master, elders, according to what I mean, this is a rare opportunity.

We have to seize this opportunity to earn more contribution points.”

“I suggest that we leave the city and only leave a portion of people to guard the city.”

“I don’t agree. The Evil Demon Disaster isn’t just an opportunity, it’s also a disaster. If one’s strength isn’t enough, then going there would be a waste.”The Second Elder shook his head.

“I think Second Elder’s words make sense. This is a life-snatching talisman.

“Besides, our mission is to guard the thirty-second city. If we lose the city, we can’t bear the sin.”

“Then we’re not going?” The fourth elder retorted, “We warriors should press forward. How could we retreat just because the road ahead is bumpy?”

“Then we won’t be guarding the city?”

For a moment, no one could come to a conclusion.

When Chen Xuan saw this, he gestured for everyone to calm down. Then, he looked at Chen Yang.

Hearing this, Yang Chen thought for a moment and said, “What the elders said makes sense.”

“I believe that for this operation, we should send out at least half of our combat power, and all of our Zifu Disciples.

“This is a good opportunity. As long as we can grasp it, we will definitely be able to obtain a large number of merit points.”

“As for defending the city, don’t worry. I’ll let the Kun Dragon guard the city. It’s a spiritual beast, so it won’t be a problem for it to defend against the demons.”

“In addition, once the Evil Demon Calamity begins, the number of Evil Demons who want to enter the Evil Demon Land through the passageway will definitely decrease, and the pressure on defending the city will also decrease.”

Yang Chen made this judgment based on his previous guess.

Since both sides were planning to train their troops, there would definitely not be such a thing as building a plank road in the open and secretly building a warehouse in the dark.

If the demons really took advantage of this opportunity to invade from the passage, they would be able to escape. Then the next time, the Array God would not allow them to tear open a hole again.

There was no need to mention the next time. Just this time, the Array God might activate the array directly and use it to kill these demons. Obviously, this was something that the demons could not accept, unless they had a way to break the array.

But if that really happened, the Evil Demons wouldn't need to enter the Land of Evil Demons through the passage.

This was also the reason why Yang Chen firmly believed in his own judgment. Hearing Yang Chen's words, the elders nodded.

Seeing this, Yang Chen stood up and said, "In that case, get ready to go."

"Yes, sir!"

Yang Chen spent the rest of the time preparing while waiting for news.

About five days later, the news came.

Yang Chen entered the reception hall and saw Shen Daokong drinking tea. "Patriarch Dao Kong, why are you here?!" Chen Yang asked with a delighted expression when he saw this.

"Why? Can't I come?" Shen Daokong smiled. "Yang Chen, you really know how to enjoy yourself. To think that there's such good tea in a place like this." "If Patriarch Dao Kong likes it, you can take some with you." Yang Chen said as he sat on the main seat.

"Progenitor Dao Kong, why are you here? Shouldn't you be in seclusion to cultivate?"

"I've already broken through successfully.. Why do I still need to enter seclusion?"
