

## Tamer Family 621

### Chapter 621: The Final Battle (Grand Finale)

Even if he did not eradicate all the living beings in the Evil Demon Realm, he had to completely cut off their path of advancement. Only then could he completely rest easy.

The Evil Demon World was tens of billions of miles away from the Alkaid World. Even a god took nearly a year to successfully arrive at the Evil Demon World.

Looking at the Evil Demon World below, Chen Yang slowly said, "Array God, what should we do next?"

The Array God thought for a moment and then said, "In my opinion, I naturally want to completely eradicate these demons and make sure that there are no more living beings in the Evil Demon Realm."

"But on the way here, I've thought a lot about it. I keep feeling that the Heavenly Dao is deliberately maintaining the balance between the two worlds."

"For example, in the past, when the demons were weak, the demon race gave birth to a super genius."

"Now, my Alkaid World is weak, and a monster like you has been born. I'm thinking that if we insist on eradicating the Evil Demon World, will the Heavenly Dao punish us?"

The words of the Array God made Chen Yang hesitate. "If that's the case, we'll know after we give it a try."

Immediately, the power of the Great Dao surged out of Chen Yang's body, and this power of the Great Dao quickly controlled the entire Evil Demon World.

In the next moment, all the living beings in the Evil Demon World became illusory.

As long as Chen Yang was willing, the lives of the creatures of the Evil Demon Realm would be wiped out by Chen Yang in an instant.

At this moment, the minds of the Array God and Chen Yang received a warning from the Heavenly Dao.

The Evil Demon World could be suppressed, but it could not be destroyed.

This change made Chen Yang withdraw his power of the Great Dao and look at the Array God at the same time." Array God, you received the news, right?"

"Yes." The Array God nodded with an ugly expression." It seems that the previous generations of gods were right."

"The Heavenly Dao is really deliberately maintaining peace between the two worlds."

"In that case, let's follow the instructions of the Heavenly Dao."

The Heavenly Axiom could not be defeated. Even if the Array God and Chen Yang had both broken through to the God Realm, they were still far from being a match for the Heavenly Axiom.

Seeing this, Yang Chen was a little unwilling to say,"Are we just going to let the Evil Demon World go?"

"Of course not."

The Array God sneered." The Heavenly Dao has already said that we can suppress them. Since that's the case, I naturally have to suppress them properly."

Then, the Array God took out a set of materials from his storage ring. At the same time, the embryonic form of a large array gradually appeared.

Ten years later.

After ten years of setup, a large array that enveloped the entire Evil Demon Realm appeared.

“This is an isolation array. Not only can it isolate spiritual qi, but it can also isolate the power of the Great Dao.”

“Under the isolation formation, it would be quite good if the demons that were able to break through to Godhood were able to break through to King.”

“With this, we have already cut off the possibility of the Evil Demon Clan surpassing us.”

“However, if a monster who can break through to the God Realm under the isolation of the array appears, it will be a disaster for us.”

“Then, leave this to me.” Chen Yang looked at the Evil Demon World with a face full of battle intent. “When that kind of monster appears, I think I can arm wrestle with the Heavenly Dao. Why should I be afraid of him?”

“Yes!”

The Array God swept away the gloominess on his face. “With the Illusory God around, even if another monster appears in the Evil Demon Realm, he will definitely not be our match.”

“That’s right, absolutely not.”

Chen Yang looked up at the sky. What about the demons and the Heavenly Dao?

With the Dao Integration Pearl, who would they be afraid of?

With me guarding the Alkaid World, it will definitely be safe and sound.

After all, I am invincible!

Don't you think so, Heavenly Dao...
