

## **Tamer Family 71**

### Chapter 71: Heading to Yi City Again

Chen Shou's mouth was a little clumsy. Facing Chen Yang's words, he could only nod his head forcefully.

Before leaving, Chen Yang patted Chen Shou's shoulder." Fifth Brother, don't worry about the consumption of spirit stones.

As long as you become a blacksmith, wouldn't it be easy for you to earn spirit stones for the clan?"

"Yes!" Chen Shou nodded his head vigorously again." Family Head, don't worry.

I will definitely become a Weapon Refinement Master!"

The next day, after settling the family matters, Yang Chen rode the Darkwind Wolf and led the Chen family to Yi City.

There was still half a month before the first batch of Monster Slayers would be selected, so there was no need to use flying demonic beasts to travel.

Originally, Chen Xiao and the others had planned to take a good look at the scenery of the other cities while they were on their way.

However, along the way, there were only disaster victims. Although the food given by the Great Qian Dynasty's royal family had not been used up yet.

However, all the aristocratic families were aware of the crisis and had begun to limit their supply.

As a result, these disaster victims could only get the most basic food to sustain their lives. There were many people with yellow faces and thin skin.

Looking at the miserable state of the disaster victims, Chen Xiao could not help but say, "" Along the way, it seems that the people of Chen City are the happiest." Hearing this, Yang Chen turned his head and smiled." If you want to maintain this happiness, you have to work hard. Only when our Chen family is strong will the people who follow the Chen family feel happy.""

The crowd nodded their heads in a half-understanding manner. They were determined to pass the assessment.

"Seventh brother, if the food given by the royal family is gone, these people won't all starve to death, right?" Chen Xiao could not bear to say this.

"It's true that all of them will starve to death. After all, with the oath binding them, no one will allow their own people to be reduced to 10%."

"Even though Da Qian doesn't allow us to buy food from other states, they didn't stop the big trading companies from sending food over."

"At that time, the food will be a little more expensive. It's even possible to buy it with spirit stones. Even if the aristocratic families were unwilling, they had to buy food like this."

"It's just that many of the disaster victims will probably starve to death. After all, the aristocratic families only need to guarantee that they won't go back on their oaths." Yang Chen said faintly.

Chen Xiao's heart ached when he heard Yang Chen's words. He looked at Yang

Chen with a conflicted expression." Seventh Brother, will we do the same?""

Yang Chen smiled when he heard this." Old Ten, nothing will happen to our Chen Family. You don't have to ask why. You'll know soon enough.""

Hearing Yang Chen's words, a smile appeared on Chen Xiao's face again. He knew that his seventh brother would never lie to him.

Ten days later, the group of people finally arrived at Yi City.

After entering Yi City, Chen Yang and the others went straight to the Demon Slaying Hall. The Demon Slaying Hall was located in an open space in the north of Yi City.

Although only a few halls had been built, they were still beginning to take shape.

The Demon Slayer Hall had reserved the restaurant next to the main hall to accommodate the candidates.

After settling Chen Xiao and the others down, Chen Yang said to them, "You guys rest in the inn now. I'll go out for a while."

"Yi City is full of good and bad people. If there's no need, it's better to stay in the inn."

"We understand." Everyone understood.

Yang Chen nodded and left. Coming to Yi City this time, he had to pay his respects to his master first.

Yi City, Deshun County Prince's Mansion.

As the residence of the most powerful person in Yi City, the street in front of the Deshun Prefecture Prince's Mansion had already been cleared.

There were also guards on both sides of the street.

"Stop. This street is where the Deshun Commandery Prince lives. If you have something to do, please take a detour." Outside the street, the guards stopped Yang Chen.

When Chen Yang saw this, he cupped his hands at the guard. "Hello, I'm Chen Yang, the disciple of Deshun Commandery Prince. I'm here to pay my respects to Master."

When the guard heard this, his pupils constricted, but he immediately calmed down." Young Master, please wait a moment. I'll go and check.'"

"Thank you."

Not long after, an old man in gray clothes with a gray beard came over." Aiyo, the Chen Clan Leader is here. Come in quickly.'"

"And you are?" Yang Chen was puzzled. He had never seen this person before.

When the old man heard this, he explained with a smile,"Master Chen, you might have forgotten that I'm the little butler of the Prince's mansion.'"

"I'm usually in charge of the matters on this street."

"Oh, I remember now." Yang Chen looked enlightened.

In fact, Yang Chen had no idea who this person was. The last time he went to the Commandery Prince's Mansion, the butler he saw was only the Head Butler.

As for the others, they might have met, but Yang Chen had already forgotten about them.

Immediately, under the guidance of the little butler, Yang Chen officially arrived at the Deshun Prince's Mansion.

"Lord Chen, His Highness is currently in the guest hall discussing some matters with the Prefecture Overseer. I'll bring you over now."

"Wait a minute." Yang Chen stopped the butler." Butler, since Master is busy, I can wait outside.'"

When the butler heard this, he hurriedly explained, "There is something that the Chen Clan Leader doesn't know. His Highness said that if the Chen Clan Leader comes, no matter what he is doing, he can be brought to his side." Yang Chen nodded. It seemed that his master thought highly of him.

Then, under the guidance of the little butler, Yang Chen came to the reception hall.

In the reception hall, the Deshun Commandery Prince, who was discussing matters with the Prefecture Overseer, suddenly smiled. "My disciple is here." "Oh? The Chen Clan Head is here?" When the Prefecture Overseer heard this, he subconsciously went to welcome them.

However, just as she got up, the Deshun Commandery Prince pressed her down on the chair. "Look, isn't it the same old habit? You plan to welcome anyone with a little status."

When the Prefecture Overseer heard this, a flattering smile appeared on his face. "The Chen Clan Leader is not an ordinary person. Let's not talk about his bloodline that is equivalent to a sixth-grade aptitude for the time being.

He is your personal disciple. I'm afraid there aren't many people in Da Qian who are more respected than him."

"Alright, alright, stop flattering me." The Deshun Commandery Prince raised his teacup and gestured for the Prefecture Overseer to wait quietly.

Not long after, Yang Chen arrived at the reception hall.

"Chen Yang greets Master and the Prefecture Overseer." After entering the reception hall, Chen Yang respectfully bowed to the Duke of Deshun as his disciple.

Then, he bowed to the Prefecture Overseer, who hurriedly stood up and bowed back.

"Disciple, what are you doing here?" After bowing, the Duke of De Shun asked with a smile.

“Master, I brought my family’s disciples to Yi City to participate in the Demon Slaying Hall’s selection.

The disciple thought that since he was here, he should pay his respects to Master first.”Yang Chen said respectfully.

Upon hearing this, the Deshun Commandery Prince smiled and pointed at the chair beside him.” Sit down first. After I’m done discussing with the Prefecture Overseer, we’ll talk about other things.”

“Yes.” Yang Chen then sat on the chair, motionless..

Chapter 72: Both Sides Think the Other is a Good Person

The Deshun Commandery Prince and the Prefecture Overseer did not chat for long before the Prefecture Overseer stood up and took his leave.

After the Prefecture Overseer left, the Deshun Commandery Prince looked at Chen Yang.” Disciple, I heard that you were in Chen City. Why did you ask the people to work before you gave them food?”

“If you continue like this, aren’t you afraid that this group of people will all run away? You must know that when you established your clan, you all swore a great oath of clan fate. If the number of people decreased to less than 10%, your grade would be cut off.”

Hearing the words of Deshun Commandery Prince, Chen Yang smiled and said,”“Master, you might not know, but the reason why I did this was to keep the people here.”

“Oh? I’d like to hear the details.” The Duke of Deshun was curious.

“Master, think about it. If we give out food for free, what will the people of Chen City think if the food is gone one day?”

“They will only think that my Chen family deliberately did not give them food and used it for other things.”

“So that’s what you’re worried about.” The Deshun Commandery Prince looked relieved. “It’s not easy for you to think of this.”

“But have you ever thought that by doing this, although they won’t hate the Chen family in the future, or rather, they won’t hate them much?”

“But once they run out of food, they will quickly leave, not caring about their friendship.”

“I have a way too.” Yang Chen smiled confidently.

“Oh? How do you plan to resolve this?”

“It’s very simple. As long as we don’t lack food, that’s enough.” Yang Chen said.

“Don’t lie to your master.” Deshun Commandery Prince thought that Chen Yang was just joking, but when he saw the determination in Chen Yang’s eyes, he stopped smiling.

“Disciple, do you really have a way to get food?”

Hearing this, Yang Chen knew that his plan was almost half complete. He immediately struck while the iron was hot, “Master, have you ever heard of brown soil?”

“Brown soil? You found the brown soil?” De Shun Commandery Prince’s eyes were instantly filled with joy.

“That’s right.” Yang Chen nodded.

This brown soil was the scapegoat that the Great Elder had found for Yang Chen. He was really lucky. This brown soil was similar to Yang Chen’s fertilizer in both appearance and function.

No, it couldn’t be said that. There were still differences in functions.

The fertilizer could only help normal rice, but the brown soil was a treasure used to cultivate spiritual rice and spiritual plants.

As for the formation of brown soil, it was somewhat similar to fertilizer. The fertilizer was fermented from feces. As for the brown soil, it was formed by the corpses and blood of demon beasts.

It was also for this reason that it contained rich spiritual qi and could be used as a spiritual field.

Hearing Chen Yang's admission, various expressions flashed across the Deshun Commandery Prince's face." My dear disciple, isn't it a little too extravagant to use brown soil to grow ordinary rice?"

"Master, you might not know this, but after a long period of observation by our clan, we discovered that a stalk of rice can germinate with just a little brown soil."

"A few hundred catties of brown soil can produce enough food for the people of Chen City. The brown soil could produce about 100 catties of Level 1 Spiritual Rice."

"It might not have been worth it in the past, but in this situation, it's still worth it."

Since no one had experimented with it, Yang Chen started to talk nonsense. Moreover, it was recorded in the books that brown soil could really grow ordinary plants.

However, there was no answer as to how much was needed. By then, even if someone experimented, Yang Chen could automatically match the experimental data.

Hearing Chen Yang's words, the Deshun Prince smiled in satisfaction." Not bad. You can use the treasure reasonably and not covet its higher value. Your Chen family should prosper."

"And if you harvest a lot of brown soil, you can sell it to other families. I believe that they will definitely be willing to pay spirit stones to buy it."

“No, no, no.” Yang Chen shook his head. “Why would I need to sell brown soil? I don’t even have enough for myself. I can just sell the grains.””

“I believe that if I force them into a corner, they will definitely be willing to pay spirit stones to buy my food. “However, before that, I still need Master to help me block the external pressure.”

“I can also give Master 50% of the spirit stones I get from selling food.”

“You little fox.” The Prince of Deshun laughed and said, “Your master doesn’t care about your spirit stones. You can keep them for yourself.””

“Thank you, Master!” Yang Chen quickly thanked him.

When Deshun Commandery Prince saw this, he thought to himself, This child is still a child. He can’t even hold his ground with these few spirit stones.

According to Deshun Commandery Prince’s estimation, the Chen Family would not harvest much brown soil. After all, places that could produce brown soil would have powerful demon beasts living there.

Perhaps the Chen family was lucky enough to obtain some brown soil. But Deshun Commandery Prince could guarantee that the Chen Family would never dare to go again.

Of course, Chen Yang’s filial piety still satisfied the Deshun Commandery Prince, even though the spirit stones were a little too little.

Chen Yang also deeply felt the magnanimity of Deshun Prince.

Immediately, the two of them smiled in satisfaction.

After asking Deshun Commandery Prince about some matters related to cultivation, Chen Yang returned to the inn and waited for the selection of the Monster Slayer.

The sun set and the moon rose. In the blink of an eye, five days had passed. The selection of the Demon Slayer Envoy officially began on the sixth day.

After sending Chen Xiao and the others to the assessment site, Chen Yang waited outside for the final results.

According to the rules of the Demon Slaying Hall, the selection had to be carried out in secret to prevent outsiders from disturbing the candidates.

After about a day, the assessment finally ended. Seeing Chen Xiao and the others in a daze, Chen Yang's heart skipped a beat.

Oh no, it can't be that none of them passed the test, right?

"How was it? Did anyone pass the test?" Yang Chen quickly asked.

Seventh Brother, I passed." Chen Xiao said dejectedly.

Seeing this, Yang Chen heaved a sigh of relief. Fortunately, they were not completely wiped out. However, Yang Chen was puzzled. Didn't Xiao Chen pass the test? Why was he still so dejected?

"Old Ten, what's wrong with you? Didn't you pass the test? Why do you look so dejected?"

Chen Xiao heard Chen Yang's words and slowly raised his head. A bitter smile appeared on his face." Seventh Brother, do you think we can only show off in Chen City?"

"Why do you say that?" Yang Chen asked.

Chen Xiao took a deep breath and said,""Today, I saw many descendants of the aristocratic families. Every one of them is very powerful. I used all my strength to pass the test, but they passed it in a few moves."

“It’s fine if they’re at the eighth or seventh grade. After all, their grades are high and they have a lot of resources. However, most of the disciples of the ninth-rank aristocratic families are stronger than us.”

“So that’s what happened.” Chen Yang smiled and patted Chen Xiao’s shoulder, “Our Chen family was established not long ago, so naturally we can’t compare with those old families.””

“However, you don’t have to be discouraged. I swear that it won’t be long before you surpass all the geniuses you look up to.”

“Is there really such a day?” Chen Xiao could not believe it.

“I will.” Yang Chen’s eyes flashed with determination..

Chapter 73: Plunge on the Plunderer

“Old Ten, according to the rules, I can’t accompany you anymore.

But don’t worry, I’ve already spoken to my master and my cheap martial nephew. If you have any matters, you can go directly to the Deshun Prince’s Mansion.”

Before leaving, Yang Chen specially instructed.

Although the Deshun Commandery Prince would not help Chen Xiao to show off, if someone were to target Chen Xiao and trip him up, the Deshun Commandery Prince would not agree.

After chatting with Chen Xiao for a while, Yang Chen rode on the Mythical Wind Wolf and returned to the Chen family with the rest of the people.

Because they were not selected, the remaining people were not in the mood to enjoy the scenery. They arrived at Chen City in a depressed manner.

In Chen City, Yang Chen was planning to return to the Chen Family, but he suddenly saw many people in ragged clothes on the streets.

Immediately, Yang Chen asked the others to return to the Chen family first while he walked up to the group of people.

“Old man, why are you all in such a sorry state? I remember that the Chen family recruited all the people in the city. Every family will have food as wages.”

The old man opened his cloudy eyes and looked at Chen Yang.” Young Master, you might not know this, but we escaped from the famine in Willow City.”

“Willow City has already restricted the supply of food. Although it won’t cause people to starve to death, it will be difficult for them to survive.”

“We heard that as long as Chen Cheng is willing to work, they will give us food, so we quickly rushed here.”

“My son originally planned to find a job, but the Chen family is no longer recruiting, so he can only live on the streets.”

After listening to the old man’s words, Chen Yang thought about it. He originally wanted to take things slowly, but now it seemed that he could only use a strong medicine.

Immediately, Yang Chen returned to the Chen family.

After arriving at the Chen Family, Yang Chen didn’t go anywhere but went straight to the meeting hall.

In the meeting hall, Chen Xuan was dealing with family matters. When he saw Chen Yang return, he quickly went forward to welcome him. How was it? Did those brats pass the test?”

“Our Chen family’s accumulation is still not enough. The only one who passed the test is Chen Xiao.”At this point, Yang Chen was a little frustrated.

Chen Xuan, on the other hand, had a gratified expression." Not bad. As long as one of them can pass the assessment, it's good enough. At the very least, we've preserved the last bit of face of a ninth-rank aristocratic family."

"That's not important. Let me ask you, Elder. Do you know that there are many people in the city who have escaped from Liu City?" Yang Chen asked.

When Chen Xuan heard this, he handed the booklet on the tea table to Chen Yang." Family Head, I was just about to tell you. I originally planned to recruit these people, but after some calculations, we don't have enough food."

Yang Chen took the book and read it carefully." I have some estimates of the refugees on the streets, but it's not too many."

"How about this, let's recruit them all first. With our current food supply, it shouldn't be a problem for us to last for a year."

"Then, we will rent all the fields in Chen City and expand production. When the new batch of rice was ripe, he would rent the fields in the surrounding cities."

We will slowly rent out more grain, and strive to rent out all the land in Nanyang within three years. In this way, we can sell out grain."

"As for those aristocratic families, no matter how unwilling they are, they will still have to fork out spirit stones to buy our food."

Listening to Chen Yang's description, Chen Xuan also saw an opportunity to earn Spirit Stones.

If they really spread it out, not to mention a lot, they could at least earn tens of thousands of spirit stones every year, unless those aristocratic families were willing to drop their grades.

However, there were still some problems."

” Hide or hide? We have allies all around anyway. When we get them to block the news, at least we can hide it for a year.””

“In another year, even if we don’t expand, we will be exposed. Therefore, it didn’t matter whether he was hiding or not.”

Actually, with the help of Deshun Commandery Prince, there was no need to hide anymore. However, the Chen family needed time to rent the surrounding land and grow food.

If the Chen family were to go and rent the land now, not only would there be no rent, but it would also arouse the attention of the other aristocratic families.

When that time came, the other party would be the first to rent the land. At that time, the one who would be restrained would be the Chen family.

With the capital, even if the other aristocratic families banded together and asked the Chen family for food or fertilizer, the Chen family would have the capital to divide them.

Hearing Chen Yang’s words, Chen Xuan dispelled his last doubts.” Alright, I’ll arrange it immediately.””

“Oh right, if you want to be a tenant, you should give priority to the people of Chen City. As for the excuse, just say that it’s building a secret cultivation place for our Chen family.”

Finally, Yang Chen added.

“Understood.”

The news that the Chen family wanted to add more jobs had already spread. Countless disaster victims who had escaped from the famine quickly rushed into the Chen family’s streets.

“What are you doing? Be obedient. If anyone dares to move again, they won’t be given any work!”

A burly man reprimanded these foreigners. Looking at these people's submissive appearance, and even some martial artists who did not dare to fight for it themselves, the burly man was secretly pleased.

After maintaining order, the burly man ran to the stall and said with a flattering expression, "Old Master Chen, everything is settled."

"Yes."

Chen Ming nodded and said casually, "Come over."

"Are you all deaf?" the burly man shouted. Hurry up and go forward!"

Immediately, the victims of the famine in the country stepped forward one by one, waiting for Chen Ming to arrange work for them.

The disaster victims in the line behind them asked the Chen Chengren who was watching the show, "May I ask which old master of the Chen family is in front?"

"Although this is the old master, he is not the old master of the Chen family.

This person was called Chen Ming, a servant of the Chen Clan's Eighth Young Miss. Currently, he was the most respected person in the clan, apart from the Chen Clan."

The disaster victim nodded, and his heart immediately became active.

I don't know if this old master is married or not. If he isn't, I'll marry my sister to him and not treat my sister badly.

Chen Ming didn't know that someone was already thinking about him. He was still seriously completing the orders given by the Chen family.

At the same time, the Chen family had officially arrived at the homes of the farmers in Chen City. They planned to rent their land with food to build a cultivation base.

The rent was naturally grain, and the lease would naturally last until the land was restored.

The farmers were naturally very willing to rent the land. Since they could not grow it themselves, they might as well rent it out.

After renting all the land, the Chen family gathered these people near Chen City to avoid leaking information.

At the same time, the Chen family recruited many tenants to plant their own fields.

After a few days, all the land had been rented. The seeds were planted one by one. They were waiting for the harvest in half a year. Then, they could carry out Yang Chen's plan.

After handing over the farmland to the Second Elder, Chen Yang and Chen Meng went to the newly opened Zhou Trading Company in Chen City to buy a peak Rank-i demonic beast..

Chapter 74: Re-entering the Ruins

"Chen Clan Leader, you also know that the supply of Demonic Beasts is not easy to obtain now. Therefore, the price..."

In the Zhou Trading Company, the shopkeeper rubbed his hands.

Yang Chen saw this and took a sip of tea." Don't worry, the price is not a problem.""

Seeing Chen Yang's words, the shopkeeper's face condensed into a smile like a chrysanthemum flower," It's great. I like doing business with people like Master Chen.""

"How about this, a peak level one demonic beast, 1,000 spirit stones."

“1,000? Isn’t that too expensive?” Hearing this price, Chen Xuan was immediately unhappy.

Chen Yang reached out his hand and stopped Chen Xuan.” It’s fine. A thousand it is. I want to see the demon beast now.””

“Very straightforward. Follow me.”

Under the shopkeeper’s lead, the three of them arrived at a courtyard. In the courtyard, a three-meter-long tiger-type demon beast was roaring non-stop.

“Lord Chen, I’m doing this business with a conscience. Although this Ku Hu was unable to break through to Demon General, if he was trained to the peak, he would still have the battle prowess of Meridian Unsealing Stage Level 1.”

“Although this Ku Hu hasn’t reached the peak yet, he’s still hard to find a match for within the first stage.”

Looking at the majestic Ku Hu, Chen Yang nodded his head in satisfaction.” Not bad, Great Elder. Hand over the spirit stones.””

After paying for Ku Hu, Chen Yang and his wife returned to the Chen family.

On the way, Yang Chen couldn’t help but say,” Master, we can wait for another half a year. After the restrictions are over, we can go to the Endless Mountain Range to capture demonic beasts. Why waste these 500 spiritual stones?””

“Grand Elder, you can’t say that. What we need the most now is time. The sooner Fifth Brother accepts the inheritance, the sooner our Chen family will have an Armament Master.”

“The amount of spirit stones a blacksmith can earn in half a year far exceeds these five hundred spirit stones.”

“Besides, it’s inevitable that there will be casualties when capturing demon beasts. It’s better to spend some spirit stones. Anyway, our Chen family doesn’t lack spirit stones now.”

Ever since he received the reward from Deshun Commandery Prince, Chen Yang’s confidence had increased by quite a bit.

Not only had the cultivation resources of the clan tripled, but they had also become much more resourceful when it came to purchasing resources.

“Moreover, this Ku Hu’s strength is indeed extraordinary. There’s a high possibility that he’ll pass the test.”Yang Chen continued.

Chen Xuan understood. Chen Yang’s words were true. With Ku Hu’s help, it was only a matter of time before Chen Shou passed the test.

In the Chen family.

Looking at Ku Hu in front of him, Chen Shou was so excited that he couldn’t speak.” Home...” Master, you... Don’t worry, 1... 1 can definitely pass the test.”

“Alright, Fifth Brother, there’s no need to say more words of gratitude. I’ll help you take care of the array and quickly refine this demonic beast into a Life subdued beast.”Yang Chen said.

“Yes.”

Immediately, Chen Shou cut open his palm and forced out his blood essence, starting to sign a life contract with Ku Hu.

At first, Ku Hu wasn’t willing, but after Chen Yang and the Flashing Light Eagle’s kind persuasion, he was grateful for the Chen Family’s kindness and chose to agree.

After refining his natal subdued beast, Chen Yang carried Chen Shou and flew toward the ruins.

Along the way, Chen Yang avoided many demonic beasts and went straight into the maze. After passing through the maze, he successfully arrived at the ruins.

In the underground grotto-heaven, Chen Yang took out Chen Shou's subdued beast from his beast bag and handed it to Chen Shou." Fifth Brother, don't feel pressured. Go.""

"Yes!" Chen Shou nodded heavily and pushed open the door to the courtyard that represented the Armament Master assessment.

About two hours later, the door of the Armament Master assessment was pushed open again. An unconcealable smile appeared on Chen Shou's face as he jogged out.

When Chen Yang saw Chen Shou's expression, he knew that he had definitely passed the preliminary test and had officially come into contact with the first stage of the Armament Master examination.

"How is it?"

"Patriarch, I succeeded! Furthermore, after passing the foundation test, I was given an eighth-grade congealing fire martial arts technique. At the same time, it also gave me a lot of insight into weapon refinement." Chen Shou said excitedly.

Yang Chen saw this and continued to ask, "What is the next stage of the assessment?"

"The next stage of the assessment is for me to become a grade nine Weapons Craftsman and successfully refine a grade nine spirit weapon."

"However, there is a time limit." Chen Shou said.

"Alright then, from today onwards, you'll focus on forging. You don't have to worry about the materials."

“Yes, thank you, Patriarch.”

Chen Family.

After obtaining the inheritance, Chen Yang hurriedly brought Chen Shou back to the Chen Family and didn't dare to delay outside at all.

After entering the clan, the treatment the Chen Clan gave Chen Shou could be said to be infinitely higher. After all, Chen Shou was the only clansman of the Chen Clan who could become a Weapon Refinement Master.

After Chen Yang settled Chen Shou down, Chen Xuan brought another piece of good news.”

“Is that so? I didn't expect our Chen family to have a clansman with talent in alchemy...Wait, what did you say? An alchemist appeared in the family?”

Yang Chen was about to laugh when he suddenly discovered a blind spot.

“That's right, he's an alchemist.” Chen Xuan smiled and nodded.

“Hiss!”

Yang Chen took a deep breath of the air in the meeting hall.” Great Elder, what's going on?”

“It's like this. When I went to arrange the matters in the clan, I suddenly felt an explosion nearby.”

“When I rushed in, I saw Chen Die with a dark face, holding a Qi Returning Pill and smiling foolishly.”

“I only found out after I asked clearly that Chen Die had been secretly refining the Qi Returning Pill. Although the furnace exploded, she finally succeeded.”

The Qi Returning Pill was the most commonly seen ninth-grade pill in Da Qian. Its effect was very simple, which was to help a martial artist recover the spiritual energy in their body.

As the pill formula of the Qi Returning Pill was more common and cheaper than other pill formulas, this pill refining class had always used the Qi Returning Pill to teach disciples.

Back to the main topic.

After hearing Chen Xuan’s words, Yang Chen rushed out of the meeting hall and quickly headed to Sister Six, which was Chen Die’s residence.

In Chen Die’s courtyard.

Chen Die, who was cleaning up the remains of the cauldron, suddenly saw Chen Yang and Chen Xuan rush in. She immediately bowed.” Greetings, Clan Leader and Great Elder.””

“Sixth Sister! Do you know how dangerous it is to become a pill refiner? Why didn’t he inform his clansmen in advance? If anything happens to you, even if it’s refined into a medicinal pill, can it save your life?”

Chen Die did not expect that the moment Chen Yang entered, he would criticize her without saying anything.

Chen Xuan, who was at the side, added,”Patriarch is right. This is too dangerous. If an accident really happens, wouldn’t it be heartbreaking?”

“I know I was wrong to call you” Chen Die lowered her head in grievance.

Yang Chen came to Chen Die's side and patted her shoulder," Sixth Sister, I hope you know that your lives are far more important than that useless alchemist.."

Chapter 75: The First Appearance of Prosperity

Hearing Yang Chen's words, Die Chen slowly raised her head. Her eyes slowly became moist and she nodded heavily.

"It's good that you understand. By the way, Sixth Sister, where's the Qi Returning Pill you refined?"

Hearing Yang Chen mention this, Chen Die broke into a smile. Then, she proudly showed the Qi Returning Pill in her hand to Yang Chen.

"Patriarch, this is the Qi Returning Pill I refined."

Yang Chen took the pill and observed it carefully. Then, he returned it to Chen Die. My sixth sister actually has such talent!"

Chen Die's smile grew wider when she heard Yang Chen's words. She seemed to have thought of something and quickly stopped smiling." Master, can I help the family now?"

"Of course, you are the Chen Family's first Alchemist."Yang Chen smiled.

When Chen Die heard this, a smile appeared on her pretty face again." As long as I can help my family. My martial talent is not good. Now that I'm 21, I'm only at the fourth level of Qi Refinement."

"Now that I can help the clan, I didn't waste the clan's resources in vain."

"Sixth Sister, these words are wrong. No matter what kind of talent the clansmen have, the family should cultivate them. There is no such thing as waste."

After correcting Chen Die's words, Yang Chen continued,""Oh right, I'll find you a natal subdued beast so that we can receive the alchemist's inheritance."

“But...” Chen Die was a little worried.” If I want to defeat the puppet, I need a peak Tier 1 subdued beast. I’m only at the fourth level of Qi Refinement. Can I refine that demonic beast?””

“It’s alright. If that beast is unwilling...” Yang Chen smiled like a spring breeze.” Then I’ll kill it.””

“Well, kill it if you don’t want to.” Chen Die also laughed.

Then, Chen Yang and Chen Xuan came to the Zhou Trading Company again.

Seeing Yang Chen, the shopkeeper was stunned at first, then he smiled and greeted him,” Aiyo, if it isn’t the Chen Family Head, what brings you here?”” “Let’s not talk about idle chatter. Shopkeeper, I also want a Dire Tiger.”Yang Chen looked like he was rich.

When the shopkeeper saw this, the smile on his face grew even wider.” Yes, I do. If the Chen Clan Leader needs it, even if I don’t have it, I will go somewhere else to get it for you.”

“Alright, alright, bring us to take a look.”Yang Chen waved his hand, signaling the shopkeeper to wait for them to go and see the demon beasts.

Immediately, under the shopkeeper’s guidance, the group of people once again arrived at the courtyard.

Yang Chen couldn’t help but ask,””Shopkeeper, did you just poke the Dire Tiger’s nest?”

“Hehe, it’s a trade secret. Forgive me for not telling you, Chen Clan Head.”The shopkeeper smiled.

“Forget it, it has nothing to do with me. Here are 1,000 spirit stones. I’ll take this Ku Hu.”

After handing over the spirit stones, Yang Chen brought Ku Hu to Chen Die’s courtyard.

It was unknown if Ku Hu was born smart or something else, but when Chen Yang threatened him, Ku Hu obediently accepted the contract.

Next, he repeated the same actions as Chen Shou, going to the ruins to obtain the inheritance.

However, unlike Chen Shou's reward, the reward given by the Alchemist Legacy was the Qi Burst Pill, a pill that could increase the strength of a Qi Refinement martial artist.

This round of assessment was naturally also the result of the Explosive Qi Pill. Although he didn't get a reward for congealing fire martial arts, Chen Shou didn't have any martial arts, so he could let Chen Die learn them together.

The news of an Alchemist appearing in the Chen family quickly spread. Yang Chen didn't hide much about this.

After all, although alchemists were precious, they could not quickly increase the strength of the family. It was not a big deal to expose them.

Moreover, the Chen family also needed to spread some news so that their attention would be focused on the Chen family and not on the outside of the city.

Time passed bit by bit, and in the blink of an eye, the one year period of relaxation agreed upon by Great Gan and the Endless Mountain Range had completely passed.

In the Chen family's meeting hall.

Chen Yang and Chen Xuan were worrying about something.

The reason for this was that on the first day of the easing period, people noticed that many demon beasts were slowly approaching Chen City.

Although there was no demon wave, it was still a problem for Chen Cheng. At the very least, it would affect the Chen family's farming outside.

"Master, if you ask me, I'll just live in the farm. At the very least, we can stop these beasts from destroying our fields." Chen Xuan said.

"This is not a long-term solution." Yang Chen slowly shook his head. "There are so many things to do in the family. We need the Great Elder to oversee it." "How about this? I'll let the winged tiger guard the farm."

"This way, the Winged Tiger's roar and aura can intimidate the demon beasts. Secondly, the roars of demon beasts mean that these farms are our training bases."

Chen Xuan thought about it. This Winged Tiger was indeed stronger than him, so it was not a problem for him to guard the farm.

"However, before that, we still have to deal with those demonic beasts that are up to no good." Yang Chen put down the teacup in his hand and a murderous look flashed in his eyes.

Immediately, the Chen family led the way and the warriors of Chen City formed a mighty coalition army, heading straight for the demon beasts at the border of Chen City.

"Roar!"

At the border of Chen City, the Winged Tiger let out a furious roar. Under the leadership of the Winged Tiger, the people of Chen City quickly charged towards the group of demon beasts.

The demonic beasts that came this time were not very strong. They were not even led by a demon general. It did not take long for them to be killed by Chen Yang and the others.

Looking at the corpses of the demonic beasts, Yang Chen wiped the blood off his face and ordered, "Bring this group of animals back. Today, Chen Cheng will have a feast."

“Long live! Hooray! Long live!”

When the warriors of Chen City heard this, they all shouted long live. After all, the Chen family had contributed the most in this operation. If the Chen family swallowed the demon beast meat, they would have nothing to say.

Now that the Chen family was willing to share the demon beast meat, even if everyone did not get much, it was enough to make them happy.

Immediately, under Yang Chen’s lead, a group of people used a handcart to drag the corpse of the demon beast back to Chen City in high spirits.

In Chen City, countless people gathered by the side of the road, watching the triumphant return of the people. The refugees who had fled from other places also felt how powerful Chen Cheng was.

Chen Family.

After handing over the matter of splitting the demon beasts to the Third Elder,

Chen Yang and the Great Elder continued to deal with the family affairs.

At this moment, Mo Xingling walked in.” Greetings, Master Chen.””

“Ms. Mo, please sit down.”

Mo Xingling had done a lot for the Chen Family in the past year, so Chen Yang was naturally very polite to her.

Upon hearing this, Mo Xingling did not sit down. Instead, she cupped her hands at Chen Yang and said,””Chen Clan Leader, I am here to purchase some Energy Recovery Pills for the Mo Clan.””

“Now that the demonic beasts have come back, if we can make good use of this Qi Core, we can save Mo Cheng’s life.”

Before Yang Chen could say anything, a guard rushed in.” Family Head, the Li Family, Liu Family, and Feng Family have sent people to buy the Qi Returning Pills.””

At this moment, Yang Chen realized that the prosperity of the Chen family had begun to show..

Chapter 76: Renting Four Cities to Cultivate

“Please.”

As soon as Yang Chen finished speaking, the Liu Family Head, the Feng Family Head Elder, and the Li Family Head Elder entered the Chen Family Meeting Hall.

“Everyone, please take a seat and serve some tea.” Yang Chen pointed at the chairs around him, then picked up the teacup, blew on it, and took a sip.

After putting down the teacup, Yang Chen smiled at the four of them.” I understand why you are here. I can sell you the Qi Returning Pills.””

When the four of them saw this, their eyes flashed with joy and they immediately wanted to thank him.

“Wait.” Yang Chen reached out his hand to stop the four from thanking him.” The market price for this Qi Pill is ten Spirit Stones per pill. You are all friends of my Chen Family, so my Chen Family can sell it to you for nine Spirit Stones.””

“Besides, this Qi Core can be supplied to you for a long time.”

“But...”

This was very important. The four of them were all nervous. The Chen family had given up such a huge benefit. It was impossible for them to not ask for anything.

“Chen Clan Head, please say it. My Mo Clan will agree to any condition.” Mo Xingling said.

” Yes.” The Feng Clan’s First Elder nodded.” My Feng Clan is the same.””

The other two also nodded, indicating that there was no problem.

Things were different now. Without the alliance agreement, this demonic beast might come to their city as a guest at any time. Naturally, they had to prepare some medicinal pills.

This Qi Core could accelerate a warrior’s recovery speed. If it was used well, it could save a life.

Yang Chen listened to their words and smiled,” Don’t worry, I don’t want much. My Chen family will rent the land of your four cities until it is enough to grow rice.”

“Master Chen actually wants the land?”

The four of them were a little stunned. This land was useless, so why did they rent it?

“To tell you the truth, my Chen family has found brown soil. You should all know the effects of brown soil.”

“After my Chen family’s mixing, as long as a small amount of brown soil is added, the rice can grow.” Chen Yang said shockingly.

“What is it? Brown soil!”

Hearing this, the four of them stood up from their chairs in shock, their faces filled with disbelief.

“Everyone, there’s no need to be so shocked.” Yang Chen held the teacup in his hand, his eyes flashing with killing intent.

Immediately, the four of them understood that since the Chen family had said so, they had no choice but to agree.

“Dare I ask, Master Chen, what is the rent?” The Li family’s grand elder braced himself and asked.

“The rent is naturally food. According to the daily quota of two catties per person, it will provide you with a year’s worth of food.”

“As for how to distribute it, it’s up to you.” After Yang Chen finished speaking, he took a sip of tea and waited for the four people’s reply.

The four of them were tempted by Yang Chen’s offer.

To be honest, they were absolutely willing to exchange this land for a year’s worth of rations. Moreover, they had a good relationship with the Chen family. In the future, if they were short of food, they could also buy from the Chen family.

The most important thing was that they could only rent their land to the Chen family. Only then would the Chen family have food for them to buy in the future.

Without thinking for long, the four of them said in unison, “We are willing.”

Seeing this, Yang Chen smiled like a spring breeze. “If that’s the case, then let’s have a pleasant cooperation. However, I can’t give you the food now. No matter what, I can only give it to you after seven months.”

These seven months were the time for the Chen family to plant food and harvest again.

One had to know that the Chen family did not have many grain seeds at the moment. They could only wait for the rice they were planting to mature before selecting seeds to cultivate.

There was still a month before the rice was ripe.

“We understand.”

“One more thing, and that is to ask everyone to help cover up the news. At the very least, it has to be covered up for a year.” Yang Chen suddenly remembered.

Mo Xingling took the lead and said, “Don’t worry, Lord Chen. My Mo Family will not allow anyone to enter the fields.”

“Yes.” The Feng Family’s First Elder nodded. “The same goes for the Feng Family.”

“Don’t worry, Master Chen. My Liu family will send someone to set up checkpoints and definitely stop others from entering the fields.” Family Head Liu said.

“Yes.” The Feng Family’s First Elder nodded. “The same goes for the Feng Family.”

“My Li family is the same. From today onwards, the Li family is willing to be ordered by the Chen family to go through fire and water.” The Li family’s grand elder said.

“My Feng family is the same.”

After discussing the matter of renting the land, Yang Chen didn’t forget the purpose of their visit. “The Chen family has Loo Qi Returning Pills.”

“How about this, each of the four families will have 25 pills. From now on, my Chen family will be able to take out 100 pills every three months.”

These 100 Qi Returning Pills were equivalent to 900 Spirit Stones. This was the first time Yang Chen had experienced how terrifying it was for alchemists to earn money.

One had to know that these Qi Returning Pills were casually refined by Chen Die in order to maintain the feeling of refining pills.

“Thank you, Master Chen.”

After dealing with the matters of the four families, Yang Chen began to think about how to plant the fields of the four cities.

One had to know that Chen City did not have a large population. If they were all taken out to farm, the secret would definitely be exposed.

To be honest, Yang Chen really didn't want to be exposed when he didn't have the capital to stir up trouble.

“If it really doesn't work, we'll transfer half of the people from each city to farm for my Chen family. When the time comes, we'll strictly guard them. There shouldn't be any trouble.”

Immediately, Chen Yang told Chen Xuan his thoughts.

After Chen Xuan heard this, he said thoughtfully, “Master, do you mean to develop them into tenants of the Chen family?”

“You can say whatever you want, but there is still a difference between you and a tenant.”

“As a ninth-rank aristocratic family, our Chen family only needs to hand over 30% of the grain and keep the remaining 70% for ourselves.”

“Furthermore, the tenants don't have to pay taxes. In addition, each tenant can plant at least four acres of land, which means they can produce more than 2,000 catties of grain every year.”

“If we do this, I’m afraid we won’t be able to save up much food.”Yang Chen shook his head.

“Then what do you mean?”

“If you work for our Chen family, each person will plant at least four mu of land. Each mu of land will give you 400 catties of grain every year.”Yang Chen said.

” Yes.” Chen Xuan nodded.” 1,600 catties of grain a year is enough for a family of three.”

“Moreover, every family can have more than one person working for us. With more people, life will naturally become more comfortable.”Yang Chen added.

When Chen Xuan saw this, he smiled and said,“The family head is still kind. If it were me, I would just give 800 catties a year.””

“That’s too much.” Yang Chen smiled and said,“Since we want them to work for us, we must at least ensure that they can survive.””

“If you can’t even live, why are you still working for our Chen family?”

“Patriarch, you’ve thought it through. This old man is ashamed of his inferiority.”Chen Xuan teased from the side.

“Alright, let’s do as planned. By the way, keep an eye on them. If anyone dares to not work or leak secrets, I don’t need to tell you the consequences..”

Chapter 77: Explosive Qi Pill

Chen Yang handed over the matter of renting the land to Chen Xuan. As for himself, he was in charge of the Chen family, handling all the big and small matters in Chen City.

At this moment, Jia Lai reported, "Reporting to the family head, the sixth miss requests an audience."

"Sixth Sister? Please." Yang Chen put down what he was doing and tidied up his clothes, waiting for Chen Die to arrive.

After seeing Chen Die enter, Yang Chen immediately stood up to welcome her. "Aiyaya, Sixth Sister, you can come in directly. Why did you report?"

"Patriarch, etiquette cannot be abandoned." After Chen Die performed a simple clan bow, she continued, "Patriarch, I want to try refining the Explosive Qi Pill." "Really? Then I'll arrange it immediately." Yang Chen said happily.

Chen Die was originally a ninth-grade alchemist. It was normal for her to spend nearly half a year to learn a ninth-grade pill.

However, this was related to Chen Butterfly's acceptance of the next stage of the inheritance. Chen Yang had to take it seriously and immediately arranged everything.

In Chen Die's courtyard.

Yang Chen stood guard at the side, ready to save Chen Die in time if an accident happened.

The other elders had also prepared healing pills to ensure Chen Die's safety.

Chen Die took a deep breath and opened her palm. A ball of flame rose. Then, Chen Die's delicate hand swayed, and beads of spiritual medicine were thrown into the alchemy furnace.

"Hah!"

After putting down the five spiritual herbs, Chen Die let out a delicate cry.

Then, she slapped the flame in her hand into the alchemy furnace and began to refine the spiritual herbs.

As time passed, the essence of the spiritual herbs was refined. As Chen Die slapped a few more flames, everyone's attention was attracted.

Everyone understood that it was time to start condensing the core.

In the alchemy furnace, as Chen Die slapped the flame, the essence of the spiritual herbs slowly condensed together and gradually condensed into a rough pill.

Seeing this, Chen Die didn't relax. Instead, she became even more nervous as she slapped a ball of flame.

As the flame entered the pill furnace, it began to tremble. The remaining spirit herb essence gradually stuck to the pill, replenishing the incomplete parts of the crude pill.

"Ha!"

Chen Die let out a delicate shout and then slapped the pill furnace. The lid of the pill furnace was lifted off and a pill that was flashing with light shot out from the pill furnace.

Then, Chen Die moved her feet and jumped, grabbing the Explosive Qi Pill with one hand.

"Patriarch, I didn't fail you!" Chen Die came to Yang Chen's side and opened her palm.

Looking at the Qi Bursting Pill in Chen Die's hand, Yang Chen smiled and said, "Okay, sixth sister, in the next month, you don't need to refine the Qi Returning Pill."

"A month later, I'll bring you to the ruins to receive the second stage of the inheritance."

“Understood.”

The news of Chen Die refining the Explosive Qi Pill was quickly spread out with Chen Yang’s tacit approval.

This time, not only did the four surrounding families send people to buy the Explosive Qi Pills, but the ninth-rank families of Nanyang County also sent people to buy them.

This Explosive Qi Pill was different from the Qi Returning Pill.

However, for Qi Refining martial artists, it was a medicinal pill that could save lives.

Yang Chen only had one sentence for these aristocratic families who wanted to buy pills. Next time, next time for sure.

Only by whetting the appetite of these aristocratic families would the Chen family be able to obtain higher benefits. According to the normal price, a Qi Burst Pill could be worth 80 spirit stones.

However, if it was done properly, Chen Yang estimated that there would be aristocratic families willing to buy it for 100 spirit stones.

Just like that, Yang Chen kept these people in suspense for a whole month. It was not until Die Chen was completely familiar with the Explosive Qi Pill that she called everyone to the reception hall.

“Everyone, let’s take a look at the goods first.”

Chen Yang was not in a hurry. Instead, he asked his guards to hold the Explosive Qi Pill and show it to the people of the various aristocratic families.

After everyone had checked the Explosive Qi Pill, Yang Chen smiled and said,“Everyone, the quality of my family’s Explosive Qi Pill is not bad, right?”

Everyone looked at each other. Then, it was the Li family's first elder who replied, "Chen Clan Leader, I have used the Explosive Qi Pill before. I can tell that the quality of this Explosive Qi Pill is not bad."

"The alchemist who refined this pill is definitely not as simple as someone who has just entered the ninth grade."

Hearing the words of the Li family's First Elder, everyone heaved a sigh of relief.

Although they all knew about this Explosive Qi Pill, they still believed that this person had personally consumed it.

"Since Elder Li has said so, then I won't stand on ceremony."

You all know the current situation. The demon beasts in the Endless Mountain Range are eyeing them covetously. This Explosive Qi Pill won't be so cheap." Yang Chen picked up his teacup and waited for the others to reply.

These people first whispered to each other, then said in unison, "Chen Clan Leader, please bid."

When Chen Yang saw this, the corners of his mouth curled up into a smile. He then put down his teacup and said, "In that case, I'll bid. 100 Spirit Stones for each Explosive Qi Pill. That's very reasonable, right?"

Hearing this, everyone nodded. To be honest, although this price was very high, it was still within their acceptable range.

After all, this was not a peaceful time. The terror of the demon horde was still vivid in their minds.

"Moreover, each family can only buy one Explosive Qi Pill per month. After all, my family's alchemists still have to learn other pill formulas." Yang Chen continued.

"No problem."

“That’s right, the Chen Clan’s alchemists are incomparably honorable. To be able to refine pills for us is already our honor. How could we dare to delay your esteemed pill refiner?”

“My family agrees too.”

Seeing that the aristocratic families were so sensible, Yang Chen continued to smile, “Since everyone has agreed, then it’s settled. As for the specifics, you can look for our First Elder.”

“Oh right, if my Chen family has any requests from you in the future, please do not refuse.”

“As per the Chen family’s orders.” The group did not even hesitate and immediately agreed.

The Chen family was so powerful, what else could they ask of them? He might as well agree to it and form a good relationship.

After handing over the remaining matters to the Great Elder, Chen Yang took the alchemy furnace and the herbs and carried Chen Die to the ruins.

However, it was tough for Chen Xuan. Not only did he have to deal with the matters of the various large families, but he also had to pay attention to the planting of rice. This was planting rice in five cities at the same time, so he could not be careless.

Moreover, there were still matters of all sizes that needed Chen Xuan to deal with. In the next few days, he probably did not need to sleep.

In the underground grotto-heaven.

“Sixth Sister, don’t be nervous after you go in. When refining medicinal pills, one also had to put one’s own safety first. At most, they would come again next time.” Yang Chen instructed.

"Don't worry, Patriarch. I understand." Chen Die nodded and entered the courtyard with the storage bag.

"I wonder what the reward this time is..."

Looking at the giant moth at the top of the cave, Yang Chen fell into a fantasy. Yang Chen was not surprised that Chen Die could pass the test.

The most important thing now was whether he could obtain powerful pill formulas, especially those that could help martial artists cultivate.

This was because only in this way would the cultivation speed of the Chen family members soar..

Chapter 78: An Unexpected Discovery

"Trial participant, please refine the Explosive Qi Pill."

In the Alchemist Inheritance Courtyard, a mechanical female voice sounded in Chen Die's ear.

Chen Die took a deep breath.

Then, he opened his storage bag and took out the alchemy furnace and the spirit herbs needed to refine the Explosive Qi Pill. He placed them in the courtyard.

Then, Chen Die spread her jade-like hands and a ball of flame bloomed from her palm. After placing the spirit herbs and flames into the furnace, Chen Die began to refine the pills.

After a month of practice, Chen Die had completely familiarized herself with the Explosive Qi Pill. Even if it was not a high-grade pill, refining it was not a problem.

After an hour of refining, Chen Die lifted the furnace lid and held the Explosive Qi Pill in her hand. She officially passed the assessment.

“Congratulations, inheritor. You have passed the assessment. Please receive your reward and the next assessment mission.”

Chen Die followed the instructions and went to the side room to receive her reward.

Seeing the pill formula on the table clearly, Chen Die’s beautiful eyes revealed a look of joy, “It’s actually a Tier 8 elixir, the Primary Spirit Pill!”

Although the Primary Spirit Pill was a Tier 8 pill, even a Tier 7 force needed it badly.

This was because the function of the Primary Spirit Pill was to assist Qi Refinement martial artists in their cultivation and increase the speed of their cultivation.

What was even rarer and more valuable was that the spirit herbs required for the Primary Spirit Pill were not too precious. They could be bought with dozens of spirit stones.

As the raw materials were relatively cheap, the price of the Primary Spirit Pill was around 200 spirit stones. Such a high price-performance ratio would naturally attract the envy of the seventh-rank forces.

Of course, Chen Die wouldn’t be so happy if it was just the recipe for the Primary Spirit Pill. After all, having a pill formula was one thing, and whether you could grasp it was another.

The reward this time was not only the pill formula, but also the comprehension of refining the Primary Spirit Pill. With this realization, Chen Die could save half or even two-thirds of her time.

The reward was so profound that the assessment for the next stage was naturally more difficult. It required Chen Die to successfully refine the Primary Spirit Pill within ten years.

After receiving the reward, Chen Die quickly left the courtyard and came to Yang Chen’s side.

When Yang Chen saw Die Chen, he smiled and asked, “Sixth Sister, how is it?”

“Fortunately, I didn’t fail my mission and successfully passed the first stage of the assessment. In addition, this reward was the pill formula for the Spirit Essence Pill.” Chen Die said.

“Primary Spirit Pill?” Yang Chen widened his eyes.

He really wanted what he wanted. He was hoping that Chen Die would be able to obtain a pill that could assist in his cultivation. This was really the reward for this assessment.

However, to be honest, the Primary Spirit Pill was a little extravagant for the Chen family.

Compared to the Spirit Essence Pill, Yang Chen preferred the Spirit Essence Pill. Firstly, the Spirit Essence Pill was a ninth-grade pill, and it was easier for Chen Die to learn it.

Secondly, the spirit herbs required for the Spirit Essence Powder were cheaper than the Spirit Essence Pill. This way, Chen Yang could continue to promote it as a resource for the cultivation of his clansmen.

Of course, it was not that the Spirit Essence Pill was impossible. It just needed time to accumulate before it could unleash its true effect.

“Sixth Sister, you don’t have to force yourself to learn the Spirit Essence Pill. You must focus on your own body.” Chen Yang was afraid that Chen Die would forcefully refine the Primary Spirit Pill.

After all, no matter how important the Spirit Essence Pill was, it could not compare to a living person.

Moreover, Chen Die had a previous example. Yang Chen could only tell Chen Die in advance not to let her do anything stupid.

“Yes, yes, I understand.” Chen Die also knew that this was not something that could be achieved in a short period of time, so she naturally would not do anything stupid.

After settling the matters in the remains, Yang Chen brought Chen Die back to the Chen family.

“Roar!”

“Ye Lui Lui!”

In the sky above the Endless Mountains, Yang Chen was riding the Light Plucking Eagle toward Chen Cheng when he suddenly heard a few powerful roars.

Just by listening to this voice, Yang Chen could tell that this was at least a peak Demon General.

“Wait, this is a place three hundred miles deep in the Endless Mountain Range. Logically speaking, there shouldn’t be a demon beast at the peak of the Demon General Realm.”

“Now that they’ve appeared, there are actually quite a few of them. If it was a coincidence, it would be fine. However, if it wasn’t a coincidence, then it might be...”

Yang Chen kept thinking about all kinds of results, but in the end, he decided to go and take a look.

After all, whether it was a treasure or a demon beast’s plot, he had to see it for himself to be at ease.

“Sixth Sister, put away your aura. We have to go and see what’s going on.” Yang Chen ordered.

“Yes, I know.” Immediately, Chen Die retracted her aura to ensure that she was the same as an ordinary person.

Seeing this, Yang Chen retracted his aura and ordered the Light Flashing Eagle to fly towards the roar.

After flying for a few miles, the Flashing Light Eagle circled around and touched Yang Chen with its head.

Yang Chen understood and looked in the direction the eagle head was pointing.

Below the Light Flashing Eagle, two groups of demonic beasts were fighting. Of course, Yang Chen had already seen it. What shocked Yang Chen was what they were fighting about.

The two races had deliberately avoided the center of the battle.

On the grayish-brown ground, a flower with seven-colored petals quietly bloomed.

H

Yang Chen narrowed his eyes and stared at the flower for a while. Then, he shouted the flower's name, "It's a Seven-colored Lotus!"

Seven-colored lotuses were classified according to their grades. They were sixth-grade spirit herbs. However, to demonic beasts, these sixth-grade spirit herbs were more precious than fourth-grade spirit herbs.

This was because the seven-colored lotus could help the bloodline of demon beasts return to their ancestors, thereby increasing the future achievements of demon beasts.

As for the demonic beasts fighting for the Seven-colored Lotus, Yang Chen also recognized them. They were the Scarlet Flame Tiger and the Flaming Mane Horse.

The bloodlines of these two demon beasts were both demon general bloodlines. But among the demon generals, they were at the top.

This also meant that they could grow to the peak of demon general.

Yang Chen looked at the battle below with interest. "Tsk tsk, these two tribes are going all out. They even sent their cubs to fight."

"Looks like I underestimated the attraction of the seven-colored lotus to demonic beasts."

Yang Chen looked at the seven-colored lotus again. At this moment, Yang Chen's pupils constricted.

Wait, brown soil, could it be...

Yang Chen narrowed his eyes and looked at it carefully. He then confirmed his thoughts, "It's really brown soil!"

Yang Chen had never expected that he would meet the real culprit after letting Tan Tu take the blame.

"To Demonic Beasts, this seven-colored lotus is the most important thing. As for this brown soil, I'm afraid they won't care..."

Thinking of this, Yang Chen's heart skipped a beat. He then urged the Flashing Light Eagle to leave quickly and head to the Chen family as quickly as possible. When they arrived at Chen City, Yang Chen put Chen Die down and said, "Sixth Sister, go back first. I still have some things to deal with here."

After settling Chen Die down, Yang Chen rushed to the farm without stopping. He brought the Winged Tiger back to the place where the Brown Earth was located.

If they could succeed this time, the Chen family would be able to possess the spiritual fields that only eighth-rank aristocratic families could possess..

Chapter 79: Dragon Knight Guard

It was different from the ling fields controlled by an Eighth-rank Aristocratic Family.

If the Chen family really collected a batch of brown soil, the spiritual fields that were piled up would probably only be comparable to the spiritual fields of a seventh-grade force.

After all, brown soil was formed from the corpses and blood of many demon beasts. Naturally, it was not something that ordinary ling fields could compare to.

After flying for two hours, the winged tiger successfully arrived at its destination.

The Winged Tiger had already reached the late stage of the Demon General Realm. If it flew at full speed, even the Light Plucking Eagle, which was known for its speed, would not be able to catch up to the Winged Tiger.

Of course, this was also because the Ruguang Eagle was only an early stage demon general.

Back to the main topic.

After arriving at his destination, Yang Chen looked down and realized that the battle between the two tribes had just ended.

Among them, the Red Flame Tiger, Fang Yi, obtained the final victory and tore all the mature fire mane horses into pieces.

However, the Scarlet Flame Tiger was not in a good state either. According to Yang Chen's observation, there was only one of the peak Demonic General Scarlet Flame Tigers left, and it was seriously injured, so it could not display much strength.

As for the late-stage Demon General, there were still two of them, and they were also injured.

The remaining Scarlet Flame Tiger was not worth worrying about, so he did not have to consider its strength and injuries.

Looking at the Scarlet Flame Tiger that was killing the Fire Maned Horse cubs, Yang Chen's eyes flashed with pain.

What a good horse. If he could tame it, wouldn't it be more majestic than the storm wolf?

Looking at the Winged Tiger, Yang Chen had an idea," Winged Tiger, you and this Scarlet Flame Tiger are both tigers. Maybe you have some relationship with them."

“See if you can tell them that we want the Flaming Mane Horse and that we can give them the Seven-Colored Lotus.”

“Oh right, be polite. We’re here to talk business.”

After hearing Yang Chen’s words, the Winged Tiger nodded and let out a tiger roar, attracting the attention of the Scarlet Flame Tiger below.

Then, the winged tiger slowly descended and arrived in front of the peak demon general Scarlet Flame Tiger. Then, it raised its tiger claw and ruthlessly struck the Scarlet Flame Tiger’s face.

Pa!

With a crisp sound, the group of Scarlet Flame Tigers were about to pounce on him.

However, as the Winged Tiger let out another tiger roar, these Scarlet Flame Tigers trembled on the ground as if they had met their natural enemy.

Yang Chen swore that he really wanted the winged tiger to talk nicely.

However, since the Winged Tiger had already done so, he could not drag him down. Immediately, Yang Chen, who was standing on the back of the winged tiger, emitted the tyrannical aura of a Meridian Opening expert.

Taking this opportunity, the winged tiger roared a few more times.

The peak demon general Scarlet Flame Tiger responded to the winged tiger and let out a few lifeless roars.

Yang Chen understood that the winged tiger was talking to the Scarlet Flame Tiger.

“As expected of my subdued beast. I’ll intimidate the Scarlet Flame Tiger first, then we’ll talk about the conditions. That Scarlet Flame Tiger will probably accept it very easily.”

Under the friendly persuasion of the winged tigers, the Scarlet Flame Tigers chose to compromise and were willing to hand over the brown soil and the Flaming Mane Horse cubs to Yang Chen.

After all, the Scarlet Flame Tigers were now heavily injured. In addition, the pressure emitted by the Winged Tigers belonged to the Demon Venerable bloodline. These Scarlet Flame Tigers had no choice but to compromise.

Moreover, the Flaming Mane Horse and the brown soil were useless to the Scarlet Flame Tiger. If he gave it to Yang Chen, he would not be killed.

Right now, the Scarlet Flame Tiger leader was thinking of one thing. It had to quickly swallow the seven-colored lotus and not cause any more trouble.

After the two sides finished their discussion, Yang Chen let the Scarlet Flame Tigers leave with the Seven-colored Lotus.

As for himself, he waited for the Scarlet Flame Tiger to leave before putting all the brown soil into his storage bag.

As for the Fire Mane Horse cubs, there were still thirty-one left. Under the threat of the winged tiger and Chen Yang, they had temporarily signed a Common Familiar Contract with Chen Yang.

After that, Yang Chen put the Flaming Mane Horses into his Beast Taming Bag and rode the Winged Tiger away.

On the back of the winged tiger, Yang Chen looked at his beast pouch and chuckled.” Fortunately, there aren’t too many Flaming Mane Horses. Otherwise, my beast pouch wouldn’t be able to hold them all.””

The Chen Clan's Beast Imperial Bag was equivalent to a Grade Nine spirit weapon, and the number of demonic beasts it could hold was 32.

Of course, there was a prerequisite for this, and that was that the size of the demon beast had to be below the standard.

As for the standard, it was five meters long, three meters high, and one meter wide.

If it exceeded the standard, the number would naturally decrease. Coincidentally, the size of this Fire Maned Horse cub was within the standard.

Chen City, at the little green mountain.

Chen Xuan looked at Chen Yang in puzzlement. He was handling things well when Chen Yang pulled him here and said that there was something good.

"Patriarch, what is it? You can tell me now."

"Hehe, watch carefully." Yang Chen opened the Imperial Beast Pouch and immediately released the Flaming Mane Horses.

When Chen Xuan saw the Fire-Maned Horse, his eyes immediately widened. This was a fiery mane horse with the bloodline of a demon general!" "Patriarch, where did you get this?"

"Speaking of which, I was lucky. Earlier, I..." Immediately, Chen Yang told Chen Xuan everything about how to obtain the Flaming Mane Horse.

After Chen Xuan heard this, he could not hide the joy on his face." I originally thought that the Flaming Mane Horse was already very precious. I didn't expect the family head to actually find brown soil."

"In that case, my Chen Family also has a spiritual field that can grow spiritual rice?"

“First Elder, be more courageous.” Chen Yang pretended to be disdainful. “You have brown soil, yet you still want to cultivate spiritual rice? Then why don’t we cultivate the spirit herbs directly?”

“Yes, yes, yes. The family head is really thoughtful.” Chen Xuan said subconsciously.

“We have to keep the matter of Brown Earth a secret. We’ll discuss this when we go back. As for the Flaming Mane Horse, we’ll keep it on Little Green Mountain for now. After building a horse farm, he would move it over.”

“Moreover, we can’t casually hand over this Flame Bristled Horse to our clansmen.

My idea is to select a group of people and have them sign a contract with the Flaming Mane Horse. We will form a light cavalry team.”

“I’ve already thought of a name.” Yang Chen shared his thoughts.

Chen Xuan nodded as he listened. After Chen Yang finished speaking, Chen Xuan asked, “Why are they called Dragon Cavalry Guards?”

“These Dragon Riders are the ones I have placed my hopes on them. I hope that one day, the mounts of the Dragon Cavalry Guards will be the famous Dragon Horse.”

“Not this kind of Fiery-Maned Horse that only has the bloodline of a demon general.” Yang Chen explained.

“Alright, then we’ll do as the clan head says. We’ll call them the Dragon Cavalry Guards!” Listening to Chen Yang describe the future, Chen Xuan’s blood boiled.

“We have to settle the matter of the horse farm as soon as possible. Little Green Mountain is too small. I’m afraid it won’t be able to accommodate the three types of demonic beasts.” Yang Chen instructed again.

“No problem.”

After returning to the family, Chen Xuan immediately organized people to build a horse farm outside Chen City. In just half a month, a horse farm with a radius of ten miles rose from the ground.

After all, the Fire Mane Horses ate spirit herbs, so they only needed a flat land..

Chapter 80: Celebrating Zhao Mausoleum’s Arrival in

Chen City

“Patriarch, the horse farm has been built. Should we go and take a look?” Chen Xuan suggested in the meeting hall.

Yang Chen thought about it and nodded.” Alright, let’s go.””

Then, under the lead of the family guard, Yang Chen and Yang Ming arrived at the completed stables.

“Greetings, Patriarch! Greetings, First Elder!” When Chen Xuan saw Chen Yang and Chen Xuan arrive, he quickly knelt on one knee, and a fanatical look of worship appeared on his face.

In order to ensure the safety of the horse track, Yang Chen decided to let Chen Xuan and the Third Elder guard it together.

With Chen Xuan’s bloodline characteristic, it was the most suitable for guarding the horse farm.

“Yes, thank you for your hard work.” Yang Chen nodded and reached out to help Chen Xuan up. Then, he planned to enter the horse track.

Seeing this, Chen Xuan took three steps and quickly arrived in front of the door. He pushed the door open before Chen Yang and the other man arrived.

After entering the horse track, Yang Chen saw the Fire Mane Horse cub running around the track.

When these Flaming Mane Horses saw Yang Chen, they quickly came in front of him and lowered their heads.

Even though Yang Chen had already released the contract, the group of bastards from the Central Committee subconsciously stopped when they saw Yang Chen and listened to his instructions.

“Go play.” Yang Chen dispersed the herd of horses and let them continue running around the track.

“Grand Elder, the matter of the Dragon Riders is about to be brought up. Who do you think is suitable to be the commander of the Dragon Riders?” Yang Chen asked.

“I’ll listen to the clan head’s orders.”

Hearing Chen Xuan’s words, Chen Yang deliberately looked at Chen Xuan and then smiled. “How about this, let big brother be the commander.”

“This... Why don’t we go through a selection?” Chen Xuan did not agree directly. After all, Chen Dao was his son. If he agreed, it would not sound good.

“No, there’s no need for the selection. Big Brother is loyal and has extraordinary strength. He is the best choice for a commander. Most importantly, big brother is the most loyal to the family among us.” Yang Chen said firmly.

When Chen Xuan heard this, he took a deep breath. “I thank you on behalf of my son.”

“Grand Elder, there’s no need to be so polite. This is what big brother deserves.” Yang Chen smiled.

After settling down the Fire-maned Horses, Yang Chen put this matter aside for the time being. After all, it would take at least a few years to nurture the Fire-maned Horses into combat strength.

While Yang Chen was dealing with the family matters, at the northern gate of Chen City.

“Brother Zhaoling, why did we choose Chen Cheng?” A young man dressed in gray looked at the white-robed man before him.

The white-robed man, Qing Zhaoling, said without hesitation, “When the demon horde attacked the city, I could tell that the Song family was not a benevolent family.”

“In the past year, although the Song family provided food for free and helped the disaster victims build houses, they were still able to provide food for the victims.

But Zhao Meng, I don’t know if you’ve noticed, but the Song Clan only treats those who escaped from Chen City.”

“What does this mean? This meant that the Song family’s actions were not out of morality, but purely to target the Chen family.”

“And what you don’t know is that the Song Clan has also seized the land on the banks of the river. If such a clan finds out about our inheritance, they will definitely take it away.”

After hearing Qing Zhaoling’s words, Qing Zhaomeng thought for a moment and then continued to ask, “Then we don’t have to choose the Chen family. Can a mere ninth-rank aristocratic family help the Qing family rise?”

When Qing Zhaoling heard this, he turned around and glared at his lackey. “I don’t want to hear this sentence a second time.”

Seeing that Qing Zhaoling was angry, Qing Zhaomeng hurriedly apologized. “I know I was wrong.”

When Qing Zhaoling saw this, he nodded and immediately explained his choice, “Although the Chen Clan is weak, the Chen Clan Head is extremely talented.”

“In addition, as the disciple of Deshun Commandery Prince, his future achievements are limitless.”

“The victims who fled Chen City only complained about the Chen family’s disaster relief measures.”

“When the demon horde occurred, the contribution made by the Chen family was recognized by even these traitors. From this, it could be seen that the Chen family was a benevolent family.”

“Only such a family would cooperate with me to rebuild the Qing family.”

Qing Zhaomeng pursed his lips in response to Qing Zhaoling’s words.” Brother Zhaoling, we heard everything. Seeing was believing.”

“I know this, but I won’t immediately go see the Chen Family Head. Whether the Chen family can cooperate with me still needs to be considered.” Qing Zhaoling laughed.

Immediately, under Qing Zhaoling’s lead, the two of them passed through the north gate and officially entered Chen City.

As soon as he entered, Qing Zhaoling keenly sensed a slight difference. From the faces of the people of Chen City, Qing Zhaoling did not see a trace of despair.

There was hope for the future.

“It seems that the Chen family has managed Chen City well.” Qing Zhaoling sighed.

The hope on Chen Cheng’s face was something Qing Zhaoling had never seen before.

The commoners of the other cities were also able to eat their fill, but they still could not hide the despair on their faces. This gave Qing Zhaoling the feeling that these people had already lost their goal and were living as long as they could.

But in Chen City, there was no despair in the Mausoleum of Qing.

This was not just something that could be done by ensuring the food supply of the people.

“I’m getting more and more interested in the Chen family now.” Looking at the smiling children on the streets, Qing Zhaoling himself could not help but laugh.

“Brother Zhaoling, why are they all so happy?” Qing Zhaomeng looked at the smiling faces of the commoners and was somewhat confused about the situation.

He could still smile before a disaster?

When Qing Zhaoling saw this, he looked at the child.” You can ask yourself.””

Immediately, Qing Zhaomeng stopped an eight-year-old child and squatted down to ask,””Young Master, can I ask you a few questions?”

The child sized up Qing Zhaomeng, then said with a grin,””Go ahead.”

“Aren’t you worried about the food problem? One had to know that this famine had swept through the entire Jiang Prefecture.”

Hearing Qing Zhaomeng’s question, the child used his sleeve to wipe away the snot that flowed down his face. Then, he shook his head.” Don’t worry. Father said that as long as the Chen family is around, we won’t starve.”

“Is the Chen family really that good?” Qing Zhaomeng asked subconsciously.

“Of course.” The child replied without hesitation,”Father said that the Chen family is the best family. When I grow up, I want to join the Chen family and become a family general.””

After saying that, the child ran away and joined the other children in the chase.

Qing Zhaomeng looked at the children's cheerful smiles and was momentarily stunned.

At this moment, Qing Zhaoling came to Qing Zhaomeng's side." See that? The smiles on these children's faces can't be faked."

"Could it be that the Chen family is really that good?"Qing Zhaomeng began to doubt his own experiences.

In the past, those aristocratic families that he saw, which one of them didn't make the common people fear them like tigers?

Now that he was in Chen City, everything was reversed. Even when the child mentioned the Chen family, he was full of admiration and trust..
