

Taming the Alpha Female

Chapter 16: Chapter Sixteen – Kisses to come for

{Damon}

It was five in the morning when I woke up. I never slept like this in my entire life. So carefree, my body felt like a feather. I looked at the woman lying in my arms, wrapped like a warm burrito. Her hair was all messy, I can see my markings on her body. Major crush.

Last night was one of my best memories with her. We did not have Sex, but what we did, satisfied my heart. I saw something in her eyes, even if it was for a brief second. I know she loved me; she was just too scared to accept it.

Maybe she thinks, I will also be like her ex, trying to tame her, and make her a baby making machine.

Hell yes, I do want her in my life. I do want to have babies with her. But she is my queen. I am going to worship the very ground she walks on. She should feel loved and cherished beyond her expectations.

I will be the man to whom your father will give you away. I will take care of you, throughout my life. It's a promise to myself.

I was snapped back to reality, when I heard her mumbling water in her sleep. I helped her waking up, grabbed the glass from the night stand, I gave her the water. She sipped it first then drank the water. She came back to her previous position and hugged me tight.

My heart beat stopped for a second when I love you came out of her mouth, for the first time. I know she is sleepy; may not mean it the moment she wakes up. However, I enjoyed her snuggling up to me. I replied "I love you too honey."

I was playing with her hairs, when she woke up. "What's the time?"

"Around five-ten may be." She stretched her arms, pushing me to the corner of the bed. She finally woke up in all her huge long curly hairs. I stood up with her and she hugged me. She looked adorable.

I never noticed her without her stilettos. She is shorter than me, like almost a foot. However, she was looking damn cute like that, rubbing her eyes with her hands, she tip-toed and kissed me softly. "Now that's a good morning."

After having a little snack, both of us went to her gym. After almost two hours, my whole body was covered in sweat and I was panting. After so many days I got a chance to work out and I must say it was worth it. Her gym is basic and thoughtful, just like our office.

Most of the equipment were there. I was scanning the gym while my eyes landed on my girl. She was looking bomb. Her hair was tied in a bun, she was doing pulldown exercise. I can see how her lats were flexing, every time she pulled it and released it.

She had her earphones on, so her concentration was on her workout. The sweat droplet travelled through her spine and got lost in her waist band of the shorts. Muscles are sexy.

I opened the bottle and drank some. Most of it was poured over my body. I suddenly heard her yell and saw other women diverting their gaze away from me. I was loving this cave woman side of hers but I knew I was in trouble.

She threw me my t-shirt and walked away. I took all the gears and followed her to her apartment. The shower was on and she was mad. I didn't want to wait for her to come out and tell her I didn't mean any of it.

As soon as she allowed me to join her, I took off my clothes and walked into the shower. I hugged her from behind and kissed her shoulder blade. I apologized for a mistake which I barely intended. "I am sorry honey; I will take care of it. it won't happen again." I flashed her my puppy eyes, to which no girl is armed.

She turned around, naked. There my friend, I melted like how butter melts in hot chocolate. We are now facing each other. Our naked bodies are close, but not pressed. She cupped my face and run her finger through my lips. "It's okay. I over reacted."

I chuckled and kissed her forehead. I pushed her hair back, so that I can enjoy the view now. She pressed her body against mine and moved her hand on my back. She traced my spine with her forefinger, I looked at her wide eyes and she tip toed kissing me softly.

I smiled in the kiss. Honestly, it was still new, the boyfriend-girlfriend thing. But the way she was kissing me, it felt like; we have been doing this for years. When she came up for air, I confessed my thoughts.

"You were quite a badass there. You sounded like; you will now punch them on their gut."

"You never know, I might have."

With that she started kissing me passionately, I kissed her hard. Biting her lower lip, I wanted to give her all the power and lead she wants, but right now, I will ravish her. I

pushed her back and grabbed her leg. I helped her wrapping her legs around my waist and started moving my hips.

A soft moan escaped her lips as my erection touched her entrance. I lowered my lips and started kissing her ear, biting her ear lobe. God... she is feeling so good now.

I licked her neck where it meets the shoulder. Kissing it, biting it just hard enough for her head to fall back. I grabbed one of her tits in my hand and massaged it. I am a boob guy and hers are just perfect.

I licked the nipple which were craving my attention so much from last night. "Damon please." She whisper-moaned. I massaged her other tit, sucking and licking the other one. She arched her back and pushed her breast further in my mouth.

I felt her body go tense and shiver, I sucked more animalistically and squeezed her ass. Her head fell back and she came, for me. Feeling herself dripping on my manhood hardened me more. She looked me in the eye, so lustfully, I couldn't help but smirk.

"Don't smirk. You are yet to make up for the stunt you pulled up in the gym."

"Is that a direct order My Queen?"

"Yes." She said confidently, and I slid one of my hands between her legs.
