

## Technician's Manual - Chapter 20

“Ash Heath, let's go by yourself when you wake up, or it will be over for dinner. No meals for patients are served here.”

Yaxiu, whose eyelids were hot by the incandescent lamp, sat up numbly, and touched his face and abdomen. There was no swelling or pain at all, as if being beaten by Igola just now was just a dream.

It is not the first time that he has seen the healing techniques in this world, but he is amazed every time-his wound stabbed by the blood mad hunter with a sword, in a previous life, I am afraid that he will have to lie in the intensive care unit for more than a dozen. Heaven can't escape the danger, but here it was healed before being interrogated.

It made Ya Xiu think that they wanted to heal themselves first, and then give themselves a whole set of interrogation health care.

He looked around for a week. It was different from the treatment room he imagined. There was no smell of disinfection. Although the environment was clean and there were no blood stains, the colors were mainly gray, black and brown, which brought a kind of vision to the vision. The impression of dirty chaos'.

Not to mention the medical doctor here: wearing a black robe that covers the whole body, wearing a fearsome crow mask, and holding a bright short knife in his hand.

does not look like a doctor, but a cultist who takes Adam as a sacrifice.

The person who was talking to Ya Xiu was a medical doctor who was slightly shorter. He couldn't distinguish between men and women by his voice. The mask seemed to have the effect of distorting the voice, and it sounded even more frightening.

She found that Ya Xiu was looking at herself and asked, "Where is the problem?"

Ya Xiu said smoothly, "I think there is still a problem with my face."

"Huh? I have cured all of your injuries." The medical doctor was a little puzzled: "Is it because the blood vessels inside are broken?"

"I think I am not as handsome as I used to be, have you not healed? By the way, is there a plastic surgery service here?"

Originally, Ya Xiu just chatted and left a good destiny. Later, when he came here for treatment, he could mix a fruit to eat, but unexpectedly, the crow therapist got excited and approached him and said, "Of course I provide! Open your eyes, I can do all kinds of surgery, such as nose bridge adjustment, bone reduction, chin filling, and I can do whatever you want, even if you want to become another race, it's okay! I highly recommend this Katz Lauder technique here, it can be effective  
Expand your eyes..."

Yaxiu pushed the medical doctor away with a look of disgust: "Your crow's mouth is poking me!"

"Ah, sorry, if you want to have mouth plastic surgery, I also have the latest white rabbit candy technique, which can give your lips a natural sweetness..."

Looking at the medical doctor's fanatical appearance of selling insurance, Ya Xiu was a little scared: "I have no money!"

“I don’t want your money, I only want your people!”

Ya Xiu’s body was shocked: “So fast? How long have we not known each other? Wait, are you male or female? Wait, what race are you...”

The medical doctor also realized his slip of the tongue, waved his hand and said: “I mean, as long as you are willing to let me do the operation, it is enough, you don’t need to pay me, it’s completely free!”

“Hmm...” Ya Xiu asked, “Then what if I want you to give me money?”

“Um...how much do you want?”

Seeing the medical therapist really took out her wallet, Ya Xiu quickly stopped her: “Stop, I just ask casually, not really want to put a knife on the face. But are your medical therapists so kind? I don’t ask for anything in return. I see you dressed like this, and I thought you were the type that would suddenly increase prices during the operation.”

Medical doctor: “Ah, isn’t this kind of thing normal?”

“what?”

Yaxiu couldn’t tell whether the kind of thing she said was ‘free’ or ‘increased prices during the operation’.

“So you really don’t plan to do medical beauty?” The medical therapist strongly persuaded: “I am a silver medical therapist with three magic spirits. You can’t find a free and capable medical therapist like me outside. ! You make money when you meet it!”

“What if you suddenly charge for half of the operation?”

“Do you have money?”

“no.”

“Then what are you worried about!?”

It seems very reasonable. As long as I don't have money, you can't cheat my money...Axiu still shook his head: “There is a saying in my industry: Free is the most expensive. I'm greedy for your free bargain. It will inevitably pay the price elsewhere.”

Seeing that Ya Xiu didn't get the bait, the medical doctor had no choice but to say honestly: “Well, if you are willing to let me perform the operation on you, you will take a little risk.”

“a little bit?”

“Well, a little bit.” The medical doctor gestured with his fingers: “After all, I am not very proficient in this area of surgery, so I need to do more operations to increase my proficiency, but I have three magic spirits, enough to ensure that you are not life-threatening...”

Under the explanation of the medical doctor, Ya Xiu finally understood why they were willing to let the patient go for free: because the medical effect of the silver medical doctor is not guaranteed.

Different from the empirical medicine in the previous life, the medicine in this world is developed from Shu Ling, and the most commonly used Shu Ling is the ‘hydrotherapy’ of the Water School faction.

As long as there is water in the patient's body, UU reading [www.uukanshu.com](http://www.uukanshu.com) can activate this magical spirit and quickly regenerate the wounds of patients.

Through bloodletting and scraping the flesh, and then activating the magic spirit to quickly regenerate the body, this is the most common treatment.

It is conceivable that this method of treatment has many flaws, but all Shu Ling has the characteristics of evolution, and this is more obvious in the “Water Therapy” Shu Ling: all diseases that have been treated with the “Water Therapy” Shu Ling , “Spa” will optimize the memory, and the next time you encounter the same disease, you can treat it more efficiently.

Not only that, as long as the medical practitioner has treated enough illnesses, they can even evolve the ‘spa’ magical spirit into a two-winged magical spirit!

Therefore, silver medical therapists are eager to treat patients, but patients would rather spend more to find a better golden medical therapist than silver—the weaker the medical therapist, the worse the effect of the ‘hydrotherapy’, and the patient will have problems. The greater the probability.

Broken Lake Prison is a place in the eyes of medical practitioners. Every day, prisoners who are beaten to death receive treatment. They are very refreshing to learn about their experience here, and the doctor-patient relationship is very stable, even if the patient is treated. There will be no trouble if you die!

Like a medical doctor who talks to Ya Xiu, if it weren’t because of his background, I wouldn’t have had the opportunity to come here to gain experience!

Ah Xiu thought, good fellow, that the Death Fight Club was not only used to instigate the criminals’ conspiracy, but also allowed the prisoners to be used as a renewable resource for the medical practitioners to be experienced babies. This prison is so good at doing business, and they let the prison win hemp. NS.

However, the treatment is actually free, and there is no need to consume the contribution of executed prisoners. From this point, it can be seen that the prison structure is still small, and it is still a little bit worse than that of Asia’s company. The company not only promotes sudden death insurance to Asia, but also directly pays The electricity bill consumed by Yaxiu’s malicious overtime

was deducted here, so that Yaxiu's plan to make money through overtime mining and speculation died directly.
