

THE TEMPTATION BEHIND GENTLENESS

Chapter 1 - 1 Secret

"Asshole, you're hurting me, be gentler..."

"Heh, don't you like it rough?"

Having lost his parents young and his grandfather just last month, Su Fan, who grew up in the mountains, had no choice but to seek refuge with relatives in the city. Little did he know that even before entering the house, he would walk in on such a scene, standing at the doorstep, his mouth parched and tongue dry from the noises inside.

His cousin once removed, Li Jian, was just over fifty and worked at a medical university, while his wife, Bai Man, was a doctor at the affiliate hospital, just thirty years old and at a captivating age. It was said her family background was quite complex, and no one knew how she had come to fancy Li Jian, the old codger...

Bai Man had visited the village with Li Jian before, and unlike the coarse village women, she was full of feminine charm, like a ripe peach that would

ooze juice with a gentle squeeze, leaving a profound impression on Su Fan. In countless empty nights to come, Su Fan couldn't help but think of Bai Man, using her as the object of his fantasies...

"I wonder what she's like in bed..."

"Can Uncle still perform at his age?"

All he could think about were Bai Man's long, straight, fair legs; he imagined that the man inside was him...

Finally, he could no longer bear it. He crept to the window on bent knees, peering through the curtain's gap with a craving gaze.

The next moment, a beautiful figure entered Su Fan's sight, tall and with exquisite features. Claiming her a fairy would be no exaggeration. Most fatally, she was wearing only a thin spaghetti-strap nightgown, revealing large swathes of lovely scenery with her damp hair draped to one side, holding a feather duster in her hand...

On the bed was a man with a hood on his head, his hands and feet bound, much like a slave.

"Holy shit..."

"Is this a drama?"

Unable to help it, Su Fan swallowed his saliva. His heart, already on edge, now beat even more furiously. To think that his uncle, aged as he was, got into such kinky play, he quickly held his breath, silently watching.

"Giggle giggle giggle..."

"Don't rush, baby, let me get into my battle gear!"

Bai Man loosened her shoulder straps, and the nightgown slid off in an instant. Faced with the sight of her fullness, Su Fan almost went crazy. Then she bent down to slip a pair of silk stockings onto her long, gorgeous legs. Even through the window, Su Fan felt like he could smell a faint hint of cream.

"She's even a virgin!"

"Absolutely stunning, truly stunning..."

Looking at that bare land, Su Fan's heartbeat quickened more and more, and he began to feel jealous.

"If only I could have Auntie, I'd accept ten years off my life."

At that moment, Bai Man directly straddled the hooded man's face, grabbing the bedstead with both hands, her waist swaying like a willow in the wind.

"My God, this..."

Su Fan, who had grown up in the mountains, had never seen such a scene before and stared dumbfounded...

Suddenly, the hooded man underneath stopped moving.

"Ah, what's wrong with you? Say something..."

Bai Man, lost in the moment, jumped down from the bed to look at the passed-out man, utterly flustered.

"Uncle..."

Li Jian was the only person in this city he could turn to. If Li Jian died, he would have nowhere to go...

On impulse, Su Fan kicked open the door and rushed in.

"Ah..."

Seeing Su Fan suddenly burst in, Bai Man was so startled that she fell to the ground. When she was about to scream, she covered her mouth with her hand, fearing that she might attract more attention.

Su Fan immediately pulled off the hood from the man's head.

"Holy shit!"

The next moment, Su Fan was also shocked.

Because the man was not his uncle, Li Jian, but a young man around twenty-five or six.

Was his aunt having an affair?

And with a young pretty boy?
