

THE TEMPTATION BEHIND GENTLENESS

Chapter 10 - 10 Genuinely Fond

Wang Fei came for the sole purpose of devouring Su Fan's virginity, and had purposely removed her underwear before setting out...

She was both in pain and embarrassed, reduced to biting her teeth in silence.

Su Fan couldn't care about anything else and had to take charge.

His large hand kneaded and massaged Wang Fei's lower abdomen ceaselessly.

Wang Fei's skin was truly magnificent, smooth and delicate to the extreme. Su Fan swallowed continuously, and his gaze occasionally swept over that enchanting area, where the fertile ground was covered with patches of black grass, and dewdrops like those on an autumn day clung to the entrance of the hidden cave...

Finally, after a few minutes, Wang Fei's symptoms eased.

When Su Fan wanted to withdraw his hand, Wang Fei suddenly grabbed it, and at the same time, her beautiful legs entwined around Su Fan's lower back like octopus tentacles, pulling him on top of her.

"Fei sister, what are you doing..." Su Fan panicked.

Wang Fei said with a giggly smile,

"Today is your sister's birthday, don't you plan to give me a gift?"

"Gift, I, I don't have money, there's nothing I have that could interest you, I'm sorry..." Su Fan said somewhat ashamedly.

Wang Fei laughed even more brightly, her face full of seduction, and with a quick movement, she flipped Su Fan beneath her, straddling his waist and looking down at him from above.

"No, you do."

"I, I have what..." Su Fan was a bit confused.

With a languid look, Wang Fei said,

"You have yourself, and it..."

As she spoke, Wang Fei grabbed hold of the dragon vein.

"Hiss."

The sudden force caused Su Fan to take in a sharp breath of cold air.

"No, not possible..."

Su Fan blushed and was very tempted, but his reason told him that it wasn't right.

"Do you despise me?"

"Think I'm too old?"

There was a hint of loss in Wang Fei's eyes.

So many men coveted her, yet she never allowed any man to touch her. She took the initiative this time yet faced rejection?

She had absolute confidence in her body, appearance, and skills, but age was her Achilles' heel.

Thirty is a threshold for women, and at thirty-one, she was already considered a leftover lady. Meanwhile, Su Fan's greatest advantage was his youth, which was like a thorn in Wang Fei's heart.

"No, no, no..."

Sensing Wang Fei's sad emotions, Su Fan hurriedly tried to explain.

"No, Fei sister, you are beautiful and alluring, and I, I really like you, but, but I'm just a poor boy from the countryside, with no car, no house, no direction in life. I, I can't give you happiness, nor a future, I don't want to hurt you..."

"You..."

Listening to Su Fan's words, Wang Fei's eyes became moist.

She hadn't expected that Su Fan would consider a future with her and think about taking responsibility.

She always thought that men were animals led by their lower half.

Su Fan made her reconsider.

"Silly boy."

"I've never longed for your cars or houses. I might not be a rich lady like Bai Man, nor do I have a profound family background, but after striving for many years, I have a fortune worth tens of millions; I can take care of you."

"No."

Su Fan immediately declared resolutely.

"I am a man, a man of integrity; I don't want to be a kept man. I, I want to make something of myself..."

Su Fan's words even more stirred Wang Fei's heart.

"Every man I have met has only lusted after my body. You're the only one who cares about my feelings. For that alone, I'd be willing to be with you."

"Little brother, you're not hurting me; you're saving me."

"I don't expect you to take responsibility for me."

"I just want, in the dead of night, when I can't sleep alone, for you to hold me tight in your arms, to enter me deeply, and fill my empty heart, that's enough..."

"Fei sister, I..."

Facing Wang Fei's sudden confession, Su Fan, emotionally unprepared, was at a loss.

Sure, he wanted someone as captivating as Wang Fei, but after only one meeting, wasn't happiness coming too suddenly?

He had absolutely no mental preparation.

"Please, be with me, I really like you from the bottom of my heart!"

Wang Fei bowed her head to hold Su Fan's face, staring fixedly into his eyes, her beguiling eyes filled with longing.

She seemed to sense Su Fan's awkwardness.

Wang Fei changed her approach,

"Then, can we start by getting to know each other slowly?"

Hearing this, Su Fan breathed a sigh of relief and nodded nervously.

Wang Fei's hands moved to Su Fan's waist, beginning to remove his pants.
