

Temptation 1011

Chapter 1011

Su Fan had always known that his enemies would never give him peace.

But he had adapted to such a life, facing soldiers with generals, water with earth.

As for ordinary times, whatever should be, will be.

Because no matter how anxious or scheming he was, those people would still come to trouble him.

For an enemy like the Liu Sheng clan, whose power was not very strong, he could find a way to wipe them out directly.

But for England's Palleya Castle and the Esoteric Sect's Kutu Temple.

From the intelligence on the dark web, he could not afford to provoke these two forces now.

All he could do was adopt a defensive counterattack.

As long as he didn't leave Yang City, these two forces basically couldn't do much to him.

Su Fan, at this moment, was not focusing his attention on other matters.

Drink a glass of wine before one, what worries can there be from outside?

Moreover, there weren't just one glass of wine before him, but two.

Su Fan had already successfully invaded Shen He.

When he was with Shen He and Wang Xiaoxiao, compared to Wang Xiaoxiao, he preferred to attack Shen He.

Wang Xiaoxiao actually, also liked watching Su Fan attack Shen He.

Not only that, when Su Fan was attacking Shen He, she would definitely help.

At this moment, Wang Xiaoxiao was lying beside Shen He, kissing her with lustful eyes.

Shen He's pair of supple peaks were also in her hand, being constantly squeezed and kneaded.

Her tongue's assault on Shen He, was no less intense than Su Fan's.

With Shen He's defense simultaneously breached on all fronts, she was utterly burning up, with her breath coming in rapid gasps.

The way she looked at Su Fan and Wang Xiaoxiao, other than pleading for mercy, was still pleading for mercy.

But of course, Su Fan and Wang Xiaoxiao had no intention of forgiving her.

Under Su Fan's stormy and fierce charge, after Shen He soared to the skies, she could not come down again.

Moreover, under Su Fan's relentless and chaotic pounding, she climbed to higher peaks again and again.

Waves of extreme pleasure filled every cell of her entire body.

No matter how ladylike Shen He usually was, at this moment, she could only let out wild shouts.

The ceaseless bliss almost made her faint.

This night, Shen He was truly tormented.

Luckily, with Wang Xiaoxiao sharing the burden of Su Fan's fierce onslaught, otherwise, she might not be able to get out of bed for a few days.

A night of madness left Shen He and Wang Xiaoxiao somewhat exhausted and weak.

But Su Fan, however, seemed to have endless energy, continuing his output towards them when they were too tired to move at all.

The whole night, it wasn't Shen He enduring the stormy bombardment, it was Wang Xiaoxiao silently enduring Su Fan's wild pounding.

Throughout the night, they didn't go through hundreds or thousands of assaults, but experienced thousands of fierce attacks.

Su Fan actually wanted a few days of a peaceful life.

But his enemies did not think so.

In the interest struggles between Martial Artists, most of the time it was a game of life or death.

Ordinary people, constrained by law, no matter how fierce the struggle, would not physically eliminate their opponents.

Martial Artists did not have such constraints; blurring the lines of law with literary means, violating prohibitions with their martial prowess.

To the managers of various countries and regions, these unrestrained, highly destructive human weapons, were better off consuming each other.

As long as they did not affect the lives of ordinary people, even if they spilled their brains, no one would interfere.

Fu Zan Master and six members of the Kawabata family, after a period of observation and discussion, had quietly entered Yang City.

Yang City was a city with a population of five million, seven more people in the city would not be noticed by anyone at all.

The plan of Fu Zan Master and the six members this time, was to capture the king to capture the thief, one strike to kill!

Chapter 1012

They didn't plan to make a move on anyone around Su Fan, as it would make Su Fan prepared.

They wanted to act boldly when Su Fan was alone.

In the circumstance of their combined efforts, they would quickly resolve the problem that is Su Fan.

Through observation, they saw that Su Fan had periods of being alone.

Su Fan's life was very routine.

Most of the time, after getting off work from the hospital, he would go to the company.

After spending about an hour at the company, he would head to the Bai Yulan Villa District.

The road from Eastern Medicine Company to Bai Yulan Villa District was clearly the best opportunity to make their move on Su Fan.

Although Su Fan had significant influence and control over Yang City,

at this moment, he still didn't know that so many formidable figures had arrived in Yang City.

But it didn't matter, even if he knew, he wouldn't care.

If he knew where the adversaries were, he could strike first.

But if he didn't know where they were, he would have to remain unchanged and adapt accordingly.

Fu Zan Master and the assassins from the Kawabata family were not only professional but also extremely patient.

After entering Yang City, they seemed to have vanished, having not taken action for a long time.

Days passed just like this, leading to Su Fan's inauguration ceremony as the dean of the university-affiliated hospital.

The inauguration ceremony took place in the report hall of the affiliated hospital.

The one hosting the inaugural ceremony for Su Fan was Director Wei Ming from the city health office.

Most of the doctors and staff from the affiliated hospital attended this inauguration ceremony.

On the platform, Director Wei Ming, dressed in a suit and with gray hair, looked at the watch, ensuring the time was right before he began to speak.

"Hello, medical staff and employees of the affiliated hospital."

"I am Wei Ming, the director of Yang City Health Office."

"After discussion among departments of the Yang City healthcare system, we have decided."

"To appoint Zhang Haitao, the former dean of the university-affiliated hospital, as Dean Emeritus of the affiliated hospital."

"To appoint Su Fan, the former chief physician of the Traditional Chinese Medicine Department, as the dean of the affiliated hospital!"

"The appointment is effective immediately, let's welcome Dean Su!"

As soon as Director Wei Ming finished speaking, the report hall erupted in thunderous applause.

Many doctors had already known about this event two weeks ago.

Now that Su Fan took the stage, many doctors were curious about what Su Fan would say.

The saying goes that a new official arrives with three fires. They wanted to see where Su Fan's three fires would burn.

Under the gazes of many, Su Fan stepped onto the platform.

It wasn't until the continuous applause gradually subsided that he began to speak:

"Hello, colleagues, employees of the affiliated hospital."

"From today, I will work with you all as the dean of the affiliated hospital."

"Looking back, under Dean Zhang's leadership, the affiliated hospital achieved numerous remarkable accomplishments."

"The medical standard of the affiliated hospital is second to none in Yang City."

"Moving forward, I will continue to lead the hospital on our journey."

"Our first goal is to achieve first place in the comprehensive evaluation of all hospitals in Qin Province!"

"But this is merely the beginning, not the end, because our ultimate goal is to make the affiliated hospital a top-tier international hospital!"

"To make the university-affiliated hospital a prominent card for external understanding of Yang City, Qin Province, and China!"

"I am filled with endless passion and confidence for this!"

"I believe that this grand and ambitious goal is possible for us to achieve!"

Su Fan's words left Director Wei Ming beside him, and numerous doctors in the audience, dumbfounded.

It was like a startup in the mobile phone industry suddenly declaring they wanted to take down Apple.

Such bold words sounded almost laughable.

However, there was something different about what Su Fan had just said.

Chapter 1013

First of all, Su Fan is not someone who acts recklessly.

Secondly, he has repeatedly worked miracles in the hospital, bringing the dying back to life.

The Eastern Medicine Company he runs became the number one enterprise in Yang City in a very short time.

Such a highly capable person seems likely to achieve great feats.

So, after a moment of silence, the room suddenly filled with enthusiastic applause.

Director Wei Ming, who took over the microphone, also spoke after the applause subsided:

"The grand blueprint that Dean Su has outlined for the Medical University Affiliated Hospital excites everyone."

"Oriental medicine has been passed down and developed for five thousand years."

"Eastern medicine also holds significant influence in the world medical field."

"However, it lacks a foothold in the world's top hospitals."

"I hope that under Dean Su's leadership, one day the Medical University Affiliated Hospital will become a jewel of Eastern medicine."

"Standing among the world's leading hospitals, thriving for ages!"

Director Wei Ming clearly knew how to speak well; although he thought Su Fan's grand blueprint seemed a bit unreliable,

since Su Fan had spoken with great ambition, he naturally followed Su Fan's direction and continued to speak further.

After his speech concluded, there was immediately a thunderous applause at the scene.

Although some doctors did not take Su Fan's grand blueprint seriously,

there were still quite a few who were inspired to fight hard under Dean Su's leadership!

Many people initially thought this inauguration ceremony was just a very ordinary one.

Now they realized that this inauguration ceremony could be so spectacular.

The events of the inauguration quickly spread throughout Yang City.

The higher the medical level of the Affiliated Hospital, the more beneficial it is to the residents of Yang City.

Under such circumstances, many residents of Yang City were naturally very pleased.

After the inauguration ceremony ended, the Affiliated Hospital officially entered Su Fan's era.

Su Fan immediately convened a meeting with the hospital's management.

Affiliated Hospital, meeting room.

The leaders of the hospital management soon arrived in the meeting room.

Su Fan sat at the head of the meeting room, with the hospital's deputy deans on either side of him.

Apart from the deputy deans, all the department chief physicians and deputy chief physicians were present.

Once everyone was gathered, Su Fan immediately began to speak.

"The Affiliated Hospital will be divided into the First Affiliated Hospital and the Second Affiliated Hospital in the future."

"The First Affiliated Hospital will be the focus, while the Second Affiliated Hospital will train new talent for the former."

As soon as he spoke, except for Bai Man who already knew about this, the expressions of the other doctors changed multiple times.

Everyone understood that Su Fan meant business.

The words he spoke at the inauguration were definitely not a joke.

In the future, doctors who do not meet medical standards will not be able to remain at the First Affiliated Hospital but will instead retire at the Second Affiliated Hospital.

For others, implementing this would be quite difficult.

But for Su Fan, it wouldn't be too hard.

Not only does Mayor Jiang Gao have a special relationship with him, but the leaders of the medical and health system in Yang City will definitely give Su Fan their support.

One of the deputy deans, Liang Changyun, asked, "Dean Su, when will this be implemented?"

Liang Changyun is an honest person in the hospital, very low-key.

Regardless of the occasion, he never seeks attention or the limelight.

However, this honest person's medical skills aren't bad at all.

Chapter 1014

In the affiliated hospital, the most skilled doctor is, of course, Su Fan.

Under Su Fan, the next most skilled doctor is this Dr. Liang Changyun.

Liang Changyun is in his fifties this year; he was a returning scholar with a doctoral degree twenty years ago.

Today, returning scholars aren't as valuable as they once were.

But twenty years ago, in an era when not many even had a college degree, a returning scholar with a PhD was quite a big deal.

However, Liang Changyun's personality is very low-key and reserved, and he never competes or contends for anything.

As a result, he has diligently served as a doctor for over twenty years, gradually becoming the deputy director of the affiliated hospital.

Su Fan has a good impression of Liang Changyun. Zhang Haitao sees him as an honest person, while Su Fan considers him talented.

After Liang Changyun inquired, Su Fan immediately said, "Let's start preparing for this now."

"All the doctors in the hospital can apply to go to the Second Affiliated Hospital."

"Additionally, there will be a comprehensive evaluation every quarter."

"Doctors more suited to the Second Affiliated Hospital will also be arranged there."

"At other times, there will be consultations and discussions with some doctors."

"Let the doctors suited for the First Affiliated Hospital work well at the First Affiliated Hospital."

"Let the doctors suited for the Second Affiliated Hospital go to the neighboring Second Affiliated Hospital."

Clearly, Su Fan is planning to undertake some bold reforms.

Private interactions between people require taking personal relationships into account.

But in a collective environment, only one thing matters, and that is fairness and justice!

For the common benefit of everyone, the capable must rise while the incompetent must descend.

After the meeting, unsurprisingly, some upheaval occurred within the hospital.

However, the reaction of many doctors was smaller than everyone had expected.

Because whether staying at the First Affiliated Hospital or moving to the Second Affiliated Hospital,

everyone's benefits are only increasing, not decreasing.

Since their finances aren't affected, and with the affiliated hospital growing stronger under Su Fan's leadership in the future,

in such a situation, everyone naturally supports all of Su Fan's decisions.

Although he became the director, Su Fan doesn't have the idea of handling everything personally.

Matters big and small within the hospital have been entrusted to Bai Man and Deputy Director Liang Changyun.

As for him, he only needs to make key decisions on major matters within the hospital.

Affiliated Hospital, Director's Office.

Besides Su Fan, Zhou Jie is also present here.

When Su Fan was the head of the Department of Traditional Chinese Medicine, she was his assistant.

Now that Su Fan is the hospital director, she has also become the director's assistant.

In the office, Zhou Jie thought for a moment and still came to Su Fan, earnestly saying,

"Director Su, maybe I should resign."

Her words left Su Fan taken aback.

Su Fan was momentarily dazed before asking, "Why?"

Zhou Jie said timidly, "Because my abilities don't meet the requirements, and I got a job in the hospital because of Director Zhang's influence."

Clearly, Zhou Jie is aware of Su Fan's reforms in the hospital.

In her view, her lack of ability means staying in the hospital would only be a burden.

After she spoke, Su Fan casually closed the office door.

Then he boldly hugged Zhou Jie, and the two sat together on the sofa.

Su Fan then said, "You aren't lacking in ability; just stay and work with peace of mind."

As an assistant to the director, one must be trustworthy and capable of executing the director's instructions.

Zhou Jie clearly can handle these two tasks well.

After Su Fan's words of encouragement, Zhou Jie was reassured to continue working at the hospital.

A beautiful woman like her, Su Fan certainly doesn't want to see her leave.

Chapter 1015

Zhou Jie naturally did not continue to mention her resignation.

In her view, although her work was done carelessly, she preferred to work in the hospital rather than being kept as a canary at home by Zhang Haitao.

Held in Su Fan's arms, Zhou Jie did not resist.

After having been with Su Fan so many times, she had grown accustomed to him.

She was now somewhat curious about how much of what Su Fan said at the inauguration could be realized.

Thinking of this, she simply asked directly, "Can our hospital really become an international first-class hospital?"

Su Fan nodded, "Although it's difficult, it's not impossible."

"As long as we have international first-class medical facilities and the top-tier medical team, it's possible to achieve this."

"However, those are rather distant matters, we can take it step by step without rushing."

"What's more urgent right now are other things."

Zhou Jie was taken aback, "What things?"

She didn't have Su Fan's broad perspective and foresight, and many things that Su Fan could think of were hard for her to anticipate.

Su Fan reached out, grabbed Zhou Jie's soft peak, and said, "Of course, things like this."

His words made Zhou Jie instinctively slap his chest.

But it was clear she could only hit Su Fan once, as the next moment she was pinned down on the sofa by him.

Su Fan didn't give Zhou Jie any chance to resist and directly went into action.

Now, he had gradually become the director.

This meant he had the final say in the entire hospital.

He and Zhou Jie could now be more wanton than before.

That's how Su Fan thought of it, and that's what he did, quickly picking up Zhou Jie and walking towards the office door.

"Don't do this..." Zhou Jie hurriedly tried to stop him.

If they fooled around here, and if a doctor happened to pass through the corridor and she unintentionally made a noise, it would be troublesome.

What she and Su Fan were doing could only be known to the two of them, and not let others find out.

Su Fan, however, didn't listen to Zhou Jie and directly pressed her against the office door to start a fierce charge.

Although generally, no one would come looking for Su Fan at this time.

But after all, he was the director, and some major things in the hospital still required his personal decision.

Zhou Jie was very worried that a doctor below might encounter something very important and come to find Su Fan.

Fortunately, her concern was unfounded, at least this time, when she was limp and nestled in Su Fan's arms, no one came to find him.

Su Fan had no enemies in Yang City anymore.

Even if someone had ideas about him, they couldn't do anything about it.

But in Qin Province, there were still people who were thinking about him.

The Chen family was recognized as the top family in Qin Province, but there were families with overall strength not as strong as the Chen family but not significantly inferior either.

One of the families was the Ma family of Qin Province.

The Ma family of Qin Province was a family that rose and fell, thriving around, fluctuating over time.

They flourished in the late Qing Dynasty and reached their peak during the warlord era in the old society.

Then they began to rise and fall until today.

Compared to the Chen family, which deals in all kinds of businesses, the Ma family specializes in the medicinal herb business.

They purchase raw materials around the world and process these materials into semi-finished products for sale worldwide.

At first, the Ma family did not take the emerging small company Eastern Medicine seriously.

But after the Chen family got involved, the senior executives of the Ma family also discovered the exceptionalness of this small company.

So now, the Ma family decided to step in and take over by any means necessary to acquire Eastern Medicine.

Chapter 1016

Su Fan didn't pay much attention to the movements of the major families in Qin Province.

He was now both the director of the affiliated hospital and the chairman of Dongfang Pharmaceutical, with too many things to handle, leaving him no energy to worry about other issues.

For Su Fan, the Ma family was not the most pressing issue at the moment.

After having a moment of tenderness with Zhou Jie in the office and doing some work, Su Fan waited for the end of the workday.

He customarily stayed at the company for a while before heading home.

There was a long way to go from the Dongfang Pharmaceutical headquarters to the Bai Yulan villa area.

Su Fan had been driving on the highway for a while when he sensed something was off.

The car in front of him seemed to be deliberately blocking his way.

There was also a car following behind him.

An even more dangerous scene appeared at this moment.

Through the rear-view mirror, Su Fan saw an engineering heavy truck full of construction debris rapidly approaching his direction.

This immediately reminded him of Han Shiguang's situation, so without any hesitation, he instantly unfastened his seatbelt.

To ordinary people, unfastening a seatbelt while driving is extremely dangerous.

If a traffic accident occurs without being securely fastened, the probability of death would be very high.

Now, Su Fan had no choice but to do so.

Because he could not ram the two cars in front to evade the heavy truck's perilous collision.

A breathtaking moment officially unfolded at this point.

The heavy truck, already closing in on Su Fan's vehicle, suddenly accelerated as it got nearer.

"Boom——"

A world-shattering crash soon occurred.

The moment of the violent collision, Su Fan's figure escaped through the other car door.

His Land Rover, under this earth-shattering collision, was instantly wrecked into scrap metal.

A large amount of fuel started to leak.

The continuously rolling vehicle created sparks with the ground.

"Bang!"

The vehicle quickly began to burst into flames, transforming from a once-luxurious ride into a massive fireball.

Such an impact, unless Su Fan was driving a main battle tank.

Otherwise, no matter how luxurious the car was, nine out of ten times, it would end in a fatal crash.

This attack was very sudden, but Su Fan's cautious attitude allowed him to escape unharmed.

He never underestimated his enemies, so upon noticing something wrong with the road vehicles, he responded immediately.

Su Fan escaped from the passenger side and reached a hillside.

"Bang!"

Before he could catch his breath, gunshots rang out immediately.

The assassins sent by the Kikutome family were not only martial arts experts but also skilled with firearms.

Su Fan's figure remained in motion at high speed, so the continuous gunfire failed to strike him.

After circling a large loop, Su Fan began to flank the assassins from behind.

"Bang!"

Even though he flanked the many assassins from behind, he couldn't easily get close to them.

Compared to previous enemies, the assassins he encountered this time were evidently more professional and formidable.

Ordinary Gang Qi Realm martial artists might have perished in the first unexpected assault.

After narrowly dodging the first wave of attack, the numerous assassins gave him no respite and began targeting him with sniper rifles.

The sniper closest to Su Fan at this moment was Kikumura Dahe.

He vigilantly watched around.

The surroundings were very suitable for defense, with no particularly good cover.

Logically, Su Fan shouldn't have disappeared from his sight.

Kikumura Dahe's radio soon carried the voice of his teammate.

"This is Kobayashi Zheng, I found no target here, over!"

"Repeat, this is Kobayashi Zheng, I found no target here, over!"

Chapter 1017

Xiaolin is exactly a member of Kikumura Dahe's sniper team. Generally speaking, a sniper team consists of a sniper and a spotter.

But snipers from the Kawabata family are all martial arts masters.

So a sniper team is made up of two snipers and no spotter.

After Xiaolin reported the situation, Kikumura Dahe immediately reported the situation as well.

"This is Kikumura Dahe. I haven't detected the target here. Over!"

"Repeat, this is Kikumura Dahe. I haven't detected the target here. Over!"

Although Kikumura Dahe hasn't detected the target, Su Fan is actually very close to him.

Because Su Fan is now quietly waiting for the opportunity to strike at the base of a big truck.

These people are looking for his location; he is also cautiously observing his enemies.

If he wished, he could suddenly strike and take out Kikumura Dahe.

But he cannot act rashly; the three sniper teams form a triangular distribution.

If he acts against one sniper team, he would expose himself to the sights of four ace snipers.

Martial Artists in the Gang Qi Realm have protective qi that can disregard small-caliber firearms.

But the problem is, Kawabata family's snipers are holding Barrett sniper rifles.

No matter how powerful the protective qi of a Martial Artist in the Gang Qi Realm is, it cannot withstand a Barrett.

All he can do now is wait.

And once he strikes, it's best to take out two enemies.

This opportunity is hard to come by, but there is always a chance.

Xiaolin and Kikumura Dahe and others have now begun to search for him.

Previously, when six people were not moving, he had no opportunity to strike.

Now that these six people have started moving, his opportunity naturally arises.

Su Fan took out the Jinghong short sword he carried with him, a weapon slightly longer than a dagger, very easy to carry and conceal.

His figure slowly landed from beneath the heavy truck chassis.

This time his target is precisely Xiaolin and Kikumura Dahe, who are closest to him.

Although Xiaolin and Kikumura Dahe are both masterful.

But both are merely top-tier masters of the Hua Qi Realm.

Without the Barrett sniper rifles in their hands, they pose no threat to Su Fan.

Xiaolin and Kikumura Dahe are extremely cautious, but encountering such a dynamic master like Su Fan.

Unless they can kill Su Fan in one strike, they will have to pay the price.

Xiaolin and Kikumura Dahe obviously do not fully understand this principle.

While Xiaolin was still nervously observing around, Su Fan's short sword had silently pierced his back.

He wished to give some warning to his companions before he died, but unfortunately, a big hand had already covered his mouth.

Xiaolin could only despairingly accept this fact, as all his strength swiftly drained away.

Then his body softly collapsed to the ground without making a slightest sound.

Kikumura Dahe continued moving forward, Su Fan's movements were too light, his strike too fast.

So much so that when Xiaolin was taken out, Kikumura Dahe remained completely unaware.

Having quickly finished off Xiaolin, Su Fan immediately approached Kikumura Dahe.

At the same time, a sniper from another direction seems to have noticed the situation here.

The opponent did not hesitate at all, raised his gun, and fired towards Su Fan's direction!

"Bang!"

The gunshot shocked Kikumura Dahe.

He turned his head nervously only to see a flash of blade light striking towards him!

"Swish!"

The blade light flashed, and Su Fan slit Kikumura Dahe's throat with one strike.

After taking down Kikumura Dahe, Su Fan didn't pause at all but quickly moved again to conceal his form.

Numerous bullets struck up clouds of dust where he had just stood.

These snipers from the Kawabata family were each highly trained elites.

Their shooting skills were very accurate, and they could swiftly fire without needing to aim for a long time.

As Su Fan was fleeing, he realized there were not just four people targeting him, but five.

Besides these snipers, there was an Esoteric Monk searching for his whereabouts from another direction.

Su Fan didn't know who this Esoteric Monk was.

But he had no choice now; he could only escape into a forest and continue maneuvering against these enemies.

Chapter 1018

An open attack is easy to dodge, but a hidden arrow is hard to defend against.

To anyone, a meticulously organized and premeditated assassination is extremely dangerous.

From the moment the other party made a move until now, Su Fan, although countering and resolving one crisis after another,

the danger was not yet over, and he still needed to face unknown troubles.

After the incident at the Liu Sheng house, the Kawabata family didn't react immediately, not because they didn't take it seriously.

On the contrary, the top management of the Kawabata family took this matter very seriously.

Their lack of immediate response was meant to lull Su Fan into a false sense of security.

To give Su Fan the wrong idea, thinking that they wouldn't pursue this matter.

But in reality, it was impossible for them not to pursue this matter.

So, this time the Kawabata family sent two Gang Qi Realm experts and four peak Transformation Realm warriors.

They planned to join forces with Master Fu Zan of the Esoteric Sect to make Su Fan disappear from this world completely.

The forest Su Fan entered was far from the roadside.

By right, before he entered the forest, he should have been taken out by the snipers.

However, he unexpectedly killed Kikumura Dahe and another person, disrupting the setup of the Kawabata family's snipers.

Coupled with his extremely agile skills, he effortlessly entered the forest.

Watching the direction in which Su Fan disappeared, Kawabata Yuuta decisively said, "Pursue him! Don't let him get away!"

After he gave the order, the remaining three members of the Kawabata family all chased in the direction Su Fan fled.

Master Fu Zan of the Esoteric Sect didn't hesitate either and directly followed.

But Kawabata Yuuta was wrong this time because Su Fan wasn't planning to escape at all; he was waiting in the forest for them to come to their deaths!

Kawabata Yuuta's group quickly entered the forest, but they did not find Su Fan.

Kawabata Takeshi quickly searched the surroundings, then returned to Kawabata Yuuta and said:

"He seems to have already escaped."

Hearing this, Kawabata Yuuta shook his head: "Although I don't know where he is, I'm certain he is hiding somewhere nearby."

Initially, Kawabata Yuuta also thought that Su Fan had most likely escaped.

But coming to this place, he vaguely felt a sense of crisis.

It was a feeling that couldn't be clearly described or explained.

But in numerous past life-and-death situations, Kawabata Yuuta had relied on this kind of intuition to navigate through dangers.

Master Fu Zan of the Esoteric Sect was already a bit impatient by now.

According to Kawabata Yuuta and the others' initial plan, it was highly probable that his involvement wouldn't even be necessary, and Su Fan would be doomed.

But after they actually made a move, the progression of events was completely outside their plan.

Given this, he might as well have a life-and-death battle with Su Fan directly to conclude the matter.

Walking from afar, Master Fu Zan said a bit displeased to Kawabata Yuuta: "What are we supposed to do now?"

Of course, Kawabata Yuuta could feel Master Fu Zan's anger, but he didn't care.

He simply stated with certainty, "We will continue to search carefully around here; he will definitely appear again."

Hearing these words, Master Fu Zan didn't say much more.

The group also began to search the forest with extreme caution.

As time passed by, they all became quite tense.

Their tension was justified; they were now in a situation where the enemy was in the open while they were in the dark, and they could be ambushed by Su Fan at any moment.

The thing they feared the most soon happened.

This time, Su Fan's targets were Kobayashi Sai and Kushiya.

These two were both at the peak of the Transformation Realm, and without the Barrett sniper rifles in their hands, they posed no threat to Su Fan.

Even with Barrett sniper rifles, their threat to Su Fan was extremely limited.

From the moment they entered the forest, Su Fan had been watching them and looking for an opportunity to unexpectedly take them down.

Chapter 1019

Su Fan's strategy was very simple, simple yet effective.

That was to first eliminate all those with guns, and finally deal with the Esoteric Monk's Fu Zan Master.

His dislike for the Esoteric Monk was no less than his dislike for the Liu Sheng family from the East.

If the Esoteric Monk didn't come looking for trouble, it would be fine.

But since they came, they won't be leaving!

Kobayashi Sazai and Kushiyama didn't know that a pair of eyes were secretly watching their every move closely.

After moving a certain distance, Kobayashi Sazai gestured to Kushiyama, indicating that he was about to go forward to check, asking Kushiyama to cover him.

Kushiyama immediately responded with a gesture, and then Kobayashi Sazai entered a dense forest.

Almost at the moment Kobayashi Sazai entered the forest, Su Fan made his move.

He was hiding in a large tree above Kushiyama's head, he leapt down, and the Tai Chi Sword in his hand thrust straight down!

This time, he wasn't using the startling short sword, but the Tai Chi Sword.

This was a divine weapon forged with ancient methods, truly capable of cutting gold and jade, slicing through iron like mud.

Kushiyama's skull, in front of the Tai Chi Sword, was as fragile as tofu.

Su Fan's Tai Chi Sword directly nailed into Kushiyama's head, causing this sniper from the East to die instantly!

"Bang!"

Even though Kushiyama was unable to produce any effective resistance, in his dying moment, he still managed to fire a shot.

This shot, of course, didn't aim at anything, it was purely to use the sound of the gunshot to alert others that Su Fan was in this place.

His self-assured shot ended up helping Su Fan a lot.

When everyone else was drawn to this place, Su Fan could easily find a place to hide.

He was like a hunter roaming in the darkness, ready at the perfect moment to deliver a fatal strike to his prey.

Initially, Su Fan was the prey of the Esoteric Monk Fu Zan Master and the Kawabata family's sniper squad.

Now the roles had reversed, Su Fan had become the hunter, and they had become the prey.

Kobayashi Sazai, Kawabata Yuuta, and Kawabata Takeshi, along with the Esoteric Monk's Fu Zan Master, quickly rushed over.

After they arrived, their expressions were somewhat grim.

Up until now, they hadn't been able to inflict any harm on Su Fan; instead, three of their men had died.

Ordinarily, one might persist against Su Fan out of anger or fear of bearing responsibility for failure.

But Kawabata Yuuta was not an ordinary person; even at such times, he remained extremely rational.

Similarly, he also never feared bearing the responsibility for failure.

Being able to bear the responsibility for failure indicated that he was still alive.

Had he died, he wouldn't be able to bear the responsibility, even if he wanted to.

Without a doubt, this assassination mission had already failed.

Kawabata Yuuta decisively said, "Su Fan is more formidable than we imagined. This operation ends here. Handle the bodies of Kushiya and the others, and then let's temporarily retreat."

Hearing this, Fu Zan Master was thoroughly disappointed with this group.

He immediately left without any hesitation.

Kawabata Yuuta certainly wouldn't bother with this Esoteric Monk; since the other didn't listen, there was nothing he could do.

Su Fan originally wanted to find a chance to continue hunting these enemies.

But as they began to retreat, it became difficult for him to make a move.

However, Su Fan still had no intention of letting these people go; if Kobayashi Sazai and the others could hunt him, he could certainly hunt them down too.

Yet, just as he was about to pursue Kobayashi Sazai and the others, he saw that the Fu Zan Master had not yet retreated.

This made him hesitate slightly, and in the end, he was forced to abandon the idea of pursuing Kobayashi Sazai and the others.

Chapter 1020

Fu Zan was observing all around, trying to find Su Fan and decide the battle to the death.

Even though he wasn't very smart, Kawabata Yuuta was smart enough.

Kawabata Yuuta, who had previously left, soon came back again.

Kawabata Yuuta spoke with Fu Zan Master, but no one knew what was said.

After a slight hesitation, Fu Zan Master chose to leave together with Kawabata Yuuta and the others.

This assassination attempt on Su Fan was more sound than fury.

Su Fan was completely unscathed, while they had lost three elite snipers and suffered heavy losses.

But because they still held a huge advantage, Su Fan did not pursue them, and could only let them leave.

As Su Fan emerged from the forest, a fire truck had already extinguished the flames on the Land Rover, which was burned to nothing but a metal shell.

Then, workers from the tow truck loaded the severely deformed chassis onto the tow truck and drove it away.

When Su Fan arrived at the roadside, a beautiful woman dressed in tight black leather appeared opposite him.

"Hello, Mr. Su Fan."

Su Fan glanced at the woman, not very focused.

Although she was also a Martial Artist of the Gang Qi Realm, she was only in the mid-level.

Moreover, now that he had a better understanding of the martial arts world, he had vaguely guessed her identity.

Sure enough, in the next moment, the young woman took out her credentials.

Department of Security, Dragon Group, Bing Po.

The Huaxia Department of Security is composed of the Department of Public Order, Special Operations Department, and the Dragon Group.

All local security agencies belong to the Department of Public Order.

Various special operations teams and strike teams belong to the Special Operations Department.

Elites from the Public Order Department can enter the Special Operations Department, and elites from the Special Operations Department can enter the Dragon Group.

Therefore, members of the Dragon Group are elites among elites, the ace of aces.

They are generally responsible for the safety of high-level leaders and preventing particularly formidable Martial Artists from causing trouble within Huaxia.

Dragon Group members, whether ordinary members or leaders, all use code names instead of their real names.

Upon joining the Dragon Group, their records are sealed, and even many years after their death, these records remain undisclosed.

Therefore, Dragon Group members seem to appear out of thin air, with no traceable past information.

Su Fan had never interacted with the Dragon Group before, which made him somewhat curious about why they were looking for him.

"Is there something you need?"

Bing Po nodded, her voice exceptionally pleasant and harmonious, saying, "Can we find a place to talk?"

Su Fan did not refuse: "Sure."

Bing Po showed a pleased expression and said, "Then come onto my car."

Su Fan could only nod, after all, his luxurious ride was gone.

Bing Po took Su Fan to a Western restaurant.

After ordering a few dishes, she handed the menu to Su Fan.

Su Fan did not take the menu, instead, he casually said, "Just bring me the same dishes as yours."

After he spoke, Bing Po was slightly startled but then nodded.

While waiting for the food, Bing Po straightforwardly said, "There are two reasons I'm here to find Mr. Su Fan."

Su Fan's expression was very calm, and he asked indifferently, "What matters?"

Bing Po earnestly said, "The first thing is to invite Mr. Su Fan to join the Dragon Group."

"The second thing is to learn something about the Liu Sheng family in Japan."

Su Fan did not expect that she would come to invite him to join the Dragon Group.

For ordinary people, it takes years of studying diligently to pass the entrance exam for a university.

Then, it requires four years of hard work to pass the graduate entrance exam, and continued hard work to pass the doctoral entrance exam.
