

Temptation 1021

Chapter 1021

Generally speaking, it almost ends after getting a doctorate.

But there's a joking saying that the end of the universe is taking the civil service exam.

After becoming a doctor, you still need to continue taking exams for positions.

If you want to join a team like the Dragon Group, it will be even more difficult.

However, his abilities and potential have clearly been recognized by the Dragon Group leadership, as they directly extended an olive branch to him.

But Su Fan has no intention of joining the Dragon Group and living off the state fund. He's successful in his career now and doesn't need to join the Dragon Group.

Although he's not planning to join the Dragon Group, he still openly states:

"I'm not planning to join the Dragon Group, but I'm very curious about it. Could you share a bit about it with me?"

Bingpo is a very easy-going woman, so after Su Fan spoke, she immediately said:

"The Dragon Group was established very early, around the 1930s."

"At that time, the Dragon Group's main responsibility was to protect the safety of top leaders."

"After the end of the old society and entering a new era, the Dragon Group had two additional responsibilities."

"Firstly, dealing with dangerous elements within the country, and secondly, those outside the country."

"These people often pose great harm to domestic and international society and are enemies of the world."

"But most members of the Dragon Group are usually stationed near top leaders."

"The number of people who can carry out operations in various places is not very large."

This information isn't confidential.

If Su Fan wanted to, he could also find out this information on the dark web.

After Bingpo finished speaking, Su Fan nodded and said, "You can ask me any questions now."

Bingpo was waiting for him to say this, so she asked, "Was it you who killed Irudi, the king of magic staves in the Philippines?"

Su Fan nodded, "Yes."

Bingpo wasn't surprised by this answer.

She further explained to Su Fan, "Irudi has no criminal record within China."

"Therefore, when he enters the country, we wouldn't stop him."

"Both of you are martial artists; your conflict belongs to the realm of fights between martial artists and is not under ordinary legal jurisdiction."

"Therefore, whether you killed him or he killed you, neither the Philippines nor the Dragon Group would be concerned."

"Of course, if you harmed civilians, the Dragon Group would intervene."

After Bingpo finished speaking, Su Fan nodded again, as he was roughly aware of these matters.

After explaining to him for a moment, Bingpo continued to ask, "Was the incident with the Liu Sheng family in Japan also your doing?"

Su Fan slightly nodded; this matter has already spread wildly on the dark web, and some evidence has come out, so he can't deny it.

Of course, he has no intention of hiding it; he eradicated the Liu Sheng family, which was a major threat in the martial world.

After Su Fan admitted it, Bingpo looked at him with a bit more admiration.

Su Fan is younger than Bingpo.

Bingpo joined the Dragon Group and achieved remarkable results among her peers as a martial artist.

But Su Fan is even more impressive, leading a team overseas and crushing a martial arts family like the Liu Sheng family in Japan.

Bingpo had only one final question left: "What happened recently?"

Of course, she was referring to something Su Fan encountered not long ago.

China is vast and populous, and even the Dragon Group cannot accurately know everything happening at any time everywhere.

Su Fan did not hide anything and truthfully said, "Six elite marksmen from Japan and a tantric master are after me."

"On my drive home, they drove a heavy engineering truck and violently hit my vehicle."

"I realized something was wrong..."

Chapter 1022

Su Fan recounted the thrilling events from not long ago to Bing Po.

Even though Bing Po is an expert in the mid-stage of the Gang Qi Realm, listening to Su Fan's calm narration still made her very anxious.

Gang Qi Realm Martial Artists, although they have body-protecting Qi Gang, have not yet reached the point of being impervious to swords and bullets.

Faced with a Barrett sniper rifle, the body-protecting Qi Gang cannot withstand it.

After listening to Su Fan, Bing Po immediately said, "Since they used firearms, we will thoroughly investigate the source of the firearms."

Generally, Martial Artists entering China do not carry firearms.

Because carrying firearms makes it nearly impossible to enter the country, even if they luckily get in, they are likely to be quickly targeted by the Dragon Group.

Even if they manage to get weapons domestically, they still won't use them.

For instance, people like Irudi did not use firearms.

As long as they don't use firearms and don't harm civilians, after completing their tasks, they might be able to leave freely.

But Kawabata Yuuta and his group are different; since they used firearms, the Dragon Group will pursue the matter to the end.

However, China is vast, and virtually all Martial Artists in and above the Hua Qi Realm have excellent disguise techniques.

Special human skin masks for disguise have hundreds of suppliers on the dark web, and no Martial Artist would neglect this common item.

This time Su Fan and Bing Po met, and they exchanged quite a bit of information.

Su Fan gained a better understanding of the Dragon Group.

The Dragon Group also gained a deeper understanding of Su Fan.

After finishing their meal, Bing Po smiled and said to Su Fan, "Mr. Su Fan, although you haven't joined the Dragon Group, they welcome you to participate in their assessments at any time."

"Moreover, the local Martial Arts Associations are indeed subordinate organizations of the Dragon Group."

"So for some future operations, we may need Chairman Su to participate together."

This was something Su Fan was aware of.

But previously, he was not strong enough, and no Dragon Group agents had reached out to him.

Su Fan nodded, paid the bill, and left the restaurant with Bing Po.

He didn't ask Bing Po to see him off but instead took a taxi back to Villa No. 5 in the Bai Yulan villa district.

After returning to the villa, he made a phone call to Chen Hanqing.

The call connected quickly, and Chen Hanqing's voice came through the phone: "Mr. Su, is there anything you need?"

Su Fan said succinctly, "Hanqing, help me buy a Cullinan; my car was recently destroyed."

Chen Hanqing immediately noted it down: "Okay, Mr. Su."

Su Fan continued, "Yes, that's all; handle this matter promptly."

Chen Hanqing nodded: "Alright."

After the call with Chen Hanqing ended, Su Fan saw Ning Zhengde walking towards his villa.

Seeing Ning Zhengde, he also walked over.

"Old Ning, has something happened?"

Ning Zhengde's expression was somewhat peculiar at this moment.

Because the Ning family's issue was resolved in an unexpected way.

"Ning Qi Yun transferred the assets of the second house abroad and fled with the core executives of the second house."

"Now, the Hangzhou Ning family, Wei Ning Shipping, and Wei Ning Shipbuilding are all under my complete control."

Su Fan did not expect this rather tricky issue to end in this way.

He immediately asked, "What's Old Ning's plan next, returning to Hangzhou for development, or do you have other intentions?"

Ning Zhengde shook his head, "The Ning family will settle in Yang City in the future and remotely command the Ning family's industries in Hangzhou."

After speaking, he continued to say to Su Fan, "Young friend Su, can you find a way for this old man to break into the Gang Qi Realm?"

Though the second house matter of the Ning family is resolved, breaking into the Gang Qi Realm remains Ning Zhengde's obsession.

Chapter 1023

Nowadays, both Zhao Chunqiu and Ning Miaoqi have already reached the Gang Qi Realm, but he is still stuck at the apex of the Hua Qi Realm.

He even thinks that after a while, when Xia Zhaonan and Zhen Bingyu also break through to the Gang Qi Realm, he will still be stuck at the peak of the Hua Qi Realm.

After Ning Zhengde spoke, Su Fan nodded his head, then shook it.

"I can prepare some medicinal tea for Elder Ning, let him try it."

"But I'm not sure if it can help Elder Ning break through to the Gang Qi Realm."

Upon hearing this, Ning Zhengde was not disappointed, as others did not understand Su Fan's medical skills, but he was very familiar with them.

In any case, Su Fan's help is always better than no help at all.

After the matters of the Ning family's second house were resolved, Su Fan encountered no other sudden incidents.

Kawabata Yuuta, Kawabata Takeshi, and Kobayashi Saiki, as well as the Fu Zan Master of the Esoteric School.

Since their last failed assassination attempt, these four had disappeared without a trace, like clay oxen entering the sea.

They didn't come looking for trouble with Su Fan, and Su Fan couldn't find them either.

Su Fan didn't put all his thoughts and energy on these people.

Most of his time and energy were still devoted to the hospital, the company, and his self-improvement.

As time progressed, the city-level competition of the China Famous Doctors Competition arrived as scheduled.

For the city-level competition of the China Famous Doctors Competition, there was no division in Yang City. Doctors from Yang City who passed the preliminary rounds had to go to Wei City's Municipal Center for Disease Control and Prevention to participate in the city-level competition.

With only three days left until the city-level competition, it had become a hot topic among many people.

All hospitals were both expectant and nervous about this matter.

If a hospital's doctor could achieve a good ranking in the city-level competition, the hospital would gain a lot of attention.

Hospitals are places to save lives and heal the wounded, but their staff and doctors also need to eat.

They have parents, wives, and children to support, and they hope to use their professional skills to lead a better life.

So all the hospitals were doing their best to achieve a good ranking in the city-level and even the subsequent provincial competitions.

Compared to other hospitals, the doctors of the Medical University Affiliated Hospital were equally nervous and eager.

Even though Su Fan had excellent medical skills, the doctors who made it to the city-level competition through the preliminary rounds were also very skilled.

Moreover, the doctors in the affiliated hospital had high expectations for Su Fan.

They all hoped that Director Su could continue to win in the city-level competition of the China Famous Doctors Competition!

If one were to win first place in the preliminaries, city-level, provincial-level, and national-level competitions of the China Famous Doctors Competition, they would become the undisputed number one Divine Doctor of China.

This achievement is even harder than the ancient imperial examinations that required winning top honors thrice consecutively.

Since the inception of the China Famous Doctors Competition, only two Divine Doctors have received this honor.

One of them was Su Fan's grandfather.

Although Su Fan's medical skills were superb, everyone was uncertain if he could achieve such an honor.

Compared to the widespread tension, excitement, and anticipation in the hospital, Su Fan's demeanor was quite calm.

During this period, he adhered strictly to expanding the hospital, developing the company, and enhancing his abilities.

Even with the city-level competition approaching, he remained very relaxed.

During this time, he did something else.

He arranged for Wang Fei to stay at Yin Qianyue's villa.

He did this not to make Wang Fei and Yin Qianyue uncomfortable, as both of them had relations with Qi Tian.

But the Qi family and Qi Tian had already become history in Yang City.

Wang Fei and Yin Qianyue both had brand new lives.

Past matters, at this time, can certainly be turned over.

Su Fan had Wang Fei and Yin Qianyue live together because both of them were his slave little bitches.

When the three of them are together privately, they can experience some special pleasure.

Yin Qianyue's bedroom originally had only one not-too-big, not-too-small secret room.

But now, Yin Qianyue's entire bedroom had been transformed into a secret room.

Chapter 1024

At this moment, Wang Fei and Yin Qianyue lie naked on the bed.

At Su Fan's request, they serve Su Fan standing at the bedside, their expressions slightly peculiar.

Two agile tongues continuously lick Su Fan's dragon's head.

Wang Fei and Yin Qianyue probably never dreamed that one day they would serve a man together in such a setting.

No matter if they had thought of such things before, this would become a norm in the future.

In such a setting, Wang Fei and Yin Qianyue both felt a unique kind of excitement.

Moreover, a moderately hard rubber tool was concurrently penetrating the secret gardens of Wang Fei and Yin Qianyue.

As they served Su Fan, they also felt the pleasure brought by each other.

While Wang Fei and Yin Qianyue fully devoted themselves to serving Su Fan.

Su Fan took into his hand the metal clamps from the bed.

These were metal clamps with bolts, aesthetically pleasing and with a small bell hanging from them.

By twisting the bolts, the metal clamps could become tighter and tighter.

Su Fan picked up the metal clamp and, under Wang Fei's frightened gaze, approached her snowy peaks.

Su Fan's target was, of course, the red plum blossom blooming amidst the snowy peaks.

Wang Fei quickly shook her head: "Please! Don't do this!"

Her pleas had no effect, and Su Fan quickly clamped the metal clamp onto her snowy peak and began tightening the bolt.

Tightening the bolt requires a special small tool.

Without this key-like small tool, the bolt cannot be loosened.

Initially, Wang Fei didn't have much of a reaction.

As Su Fan gradually tightened the bolt closer, Wang Fei immediately screamed.

"It hurts! Stop now!"

Wang Fei was about to cry; the originally round cherry was now severely deformed into a cherry cake from the squeezing.

But her pain was just beginning, as Su Fan continued to tighten the bolt.

Moreover, the other cherry didn't escape its misfortune.

For a moment, Wang Fei's face turned extremely painful, rolling around on the bed.

Alongside the pain, she also continuously felt a strange pleasure.

Seeing her in such a state, Yin Qianyue felt a bit scared, yet also a bit expectant, overall more expectant than scared.

Su Fan didn't let Yin Qianyue down, soon her two little cherries also had metal clamps attached.

The electrifying, strange sensation made Yin Qianyue's whole body continue to convulse uncontrollably.

Beside her, Wang Fei was almost the same, the two of them could only hold each other tightly.

As they held each other tightly, the rubber tool connecting the two naturally exerted its might, continuously going deeper.

This caused the sweetly low, melodious moans to continuously come from Yin Qianyue's bedroom.

Clearly, Yin Qianyue and Wang Fei, despite feeling pain, also felt ongoing pleasure.

In the throes of passion, with alluring eyes, the two quickly found the raging dragon that captivated them, beginning another session of licking.

Su Fan's large hand was placed on the two's tender peaks, continuously kneading and playing.

If it were the usual time, this would be nothing.

At this time, however, the two were so pained that tears were about to fall.

Moreover, Su Fan occasionally pulled on the metal clamps.

This made Wang Fei and Yin Qianyue concerned their tender cherries might be pulled off directly by Su Fan.

Originally, with only Su Fan and Yin Qianyue in this bedroom, it was already very delightful.

Wang Fei's arrival increased the delight of the trio tremendously.

Under Wang Fei and Yin Qianyue's diligent service, Su Fan rewarded them with the source of life.

Wang Fei and Yin Qianyue's exquisite faces, mouths, hair, necks quickly became sticky.

Yet the two couldn't go shower, as Su Fan embraced them one in each hand, placing them on the tiger stool.

Chapter 1025

This is a special chair that fixes the body and limbs, and in front of the chair is a machine resembling an electric impact drill.

This machine strikes violently, and while striking, it also rotates.

Wang Fei and Yin Qianyue were soon invaded by the machine on their respective chairs.

Su Fan set a one-hour timer for them, sat down beside them, and began to take out his phone and browse the dark web.

Wang Fei looked at the one-hour time and spoke despairingly, "Xiao Fan, could you set it to half an hour?"

Under normal circumstances, although Su Fan is extremely intense, he merely rampages and impacts violently.

This special machine, however, rotates while striking.

Wang Fei was instantly sent to the sky and remained at a sustained peak, unable to come down.

The chairs she and Yin Qianyue sat on were soon overwhelmed simultaneously, like a flood.

But unfortunately, Su Fan did not agree to Wang Fei's request, saying, "From now on, one hour is the minimum, Fei Jie will get used to it with a few more times."

Upon hearing this, Wang Fei tearfully said, "More times? I feel like I'm going to die this time."

After she said that, Su Fan raised the machine's setting by one level and said:

"Since Fei Jie's endurance is lacking, it requires more training."

His actions caused the barely enduring Wang Fei to only continuously cry out.

"Xiao Fan, I'm begging you, please turn it back, I can't take it anymore."

At this moment, Wang Fei's whole body convulsed continuously, the peak of extreme pleasure making her feel insane.

Su Fan would certainly not listen to her, and moreover, he also increased the level of the machine attacking Yin Qian Yue.

Yin Qian Yue immediately suffered an unexpected calamity, and she, along with Wang Fei, played a beautiful symphony in the villa.

And this symphony will be performed countless times in this room in the future.

Meanwhile, in a manor in Hundred Vietnam, Kawabata Yuuta and a few others breathed a sigh of relief.

After their assassination attempt on Su Fan failed, they left Huaxia immediately.

But they did not return to Japan. Fu Zan, the secret master, also did not return to Kushota Temple.

The four of them were on the move, and came to this manor in Hundred Vietnam.

This place is one of Kawabata family's properties in Hundred Vietnam.

Upon arrival, there was an abundance of fine wine, great food, and plenty of alluring women for them to enjoy.

Arriving here, they were completely safe.

Kawabata Yuuta could have arrived here faster, but Southeast Asia had long been chaotic.

Whether in Hundred Vietnam, Siam, Burma, or Laos, there are undercurrents, some places even under warlord control.

Kawabata Yuuta and his group encountered one of Hundred Vietnam's local bullies trying to take advantage of the situation, seeking to beat them while they were down.

Unfortunately, Kawabata Yuuta and his men weren't so easily bullied, even when a tiger had fallen to plains.

While others enjoyed life by the poolside, Kawabata Yuuta entered the basement.

One of Hundred Vietnam's local bullies, Sa Kun, along with his wife and daughter, were imprisoned in this basement.

The Nipponese are inherently cruel and ruthless, especially after Sa Kun's sudden attack almost took out Kobayashi Sae.

Kobayashi Sae, although not dead now, was blinded in one eye.

For a sniper, this is obviously a fatal blow.

Kawabata Yuuta entered the basement, holding a katana.

When Sa Kun saw Kawabata Yuuta, he immediately trembled, quickly wetting his pants.

Kawabata Yuuta looked at Sa Kun, and his wife and daughter, saying:

"In ancient Oriental culture, there was a torture called lingchi, or 'death by a thousand cuts.'

This punishment has vanished from the stage of history."

"However, you are lucky. Our Kawabata family has inherited this punishment."

"Our record for using this punishment is three thousand two hundred cuts."

"Using a Willow Leaf Blade, an enemy was cut three thousand two hundred times before dying."

"Tell me, who should I cut first?"

Chapter 1026

As Kawabata Yuuta spoke, he put the katana aside and took out a Willow Leaf Blade.

Sakun had already been scared out of his wits and was trembling uncontrollably, continuously begging for mercy.

"Spare me, spare me, it was all a misunderstanding before!"

Sakun never expected Kawabata Yuuta to be so reasonable.

After his plea, Kawabata Yuuta didn't make things difficult for him, but instead, went to his eldest daughter.

Sakun had many women, but he only favored two.

He also had many children, but the most doted upon were these twin daughters before him.

This time, Kawabata Yuuta didn't hesitate at all. He directly used the Willow Leaf Blade to cut open the clothing of Sakun's eldest daughter.

Then, with a quick and decisive stroke, he made a horrifying gash on the young woman's bosom.

Upon witnessing this, Sakun could only desperately beg for mercy.

"Lord Kawabata, I beg you to spare us, whatever you ask, I will agree."

What Kawabata wanted, of course, was this statement.

He immediately stopped using the knife and said to Sakun: "I don't want anything else, I just want one person's life."

"Whether you send your men or find some other way, bring me Su Fan from Yang City."

"From now on, for every hour Su Fan stays alive, I will cut these four women once."

"For every day Su Fan survives, they will have twenty-four more cuts on their bodies. You figure it out."

"Of course, if you think you're capable of killing me, you can let those useless men of yours continue to attack me."

"But if you fail again this time and can't kill me."

"Then not only you five but everyone associated with you, I will have them executed in the most brutal way."

After Kawabata finished speaking, he unshackled Sakun's handcuffs.

Sakun, continually kneeling and kowtowing, said, "Lord Kawabata, I'll arrange it immediately, but please don't use the knife anymore."

His words had no effect; instead, his eldest daughter's bosom received another cut.

At this point, Sakun didn't dare to say more and could only rush to arrange for the assassins, simultaneously posting a bounty on the dark web to deal with Su Fan.

Even if it cost him everything he had, Su Fan had to die.

Otherwise, his two beautiful wives and his pair of young and pretty twin daughters would die at the hands of Kawabata Yuuta.

A strong opponent can always meet a stronger one, and evil meets its match in another evil.

Sakun, as a local tyrant in the region of Bayue, had committed numerous murderous deeds, and this time he was facing retribution.

Su Fan also didn't expect the Japanese to be so despicable.

After failing to harm him directly, these Japanese devised such a vile plan to make his life unbearable.

Sakun's people and the assassins Sakun hired from the dark web.

Even if they couldn't kill him, they could still affect his life.

At this moment, Su Fan was unaware of Sakun's situation.

Three days passed quickly; he was already driving to the CDC in Wei City to participate in the city-level competition of the China Famous Doctors Competition.

Accompanying him, of course, was Zhou Jie.

As he drove, Zhou Jie's head was constantly being pressed down by him, while his angry dragon was continuously licked by Zhou Jie.

Zhou Jie, though unwilling, was just an ordinary woman and stood no chance against a Gang Qi Realm expert.

Luckily, they quickly entered the city, where there were countless surveillance cameras around.

Under such circumstances, Su Fan naturally didn't dare to act recklessly anymore.

After arriving in Wei City, Zhou Jie angrily said:

"If you can't get a good ranking in this city's competition, see if you have the face to touch me again!"

"The competition is about to begin, and you're still messing around like this!"

Chapter 1027: Wei City Disease Control Center

Although Zhou Jie had tidied herself up, there were still some traces left on her neck and cheeks.

As for her mouth, at this moment, it still had the flavor of Su Fan's life essence.

On the way here just now, Su Fan really exhausted her.

Hearing Zhou Jie's words, Su Fan smiled and didn't mind.

He checked the time and then said to Zhou Jie, "Sister-in-law, I'm going in to participate in the competition."

Zhou Jie nodded, with a hint of blush on her face.

Su Fan was casually calling her sister-in-law now, yet when he bullied her before, he certainly didn't treat her like one.

Su Fan had no idea what Zhou Jie was thinking about.

He had already arrived at the Weicheng City CDC, where the city-level competition of the Hua Xia Famous Doctors Contest would be held.

At the CDC, many experts and doctors had already arrived.

The format of this competition was the same as the preliminary round, answering questions on the computer.

The difference was that last time they only needed to answer twenty questions; this time, it was thirty.

The doctors who made it here were basically skillful.

Though many doctors had heard of Su Fan, and even knew his Eastern Medicine Company was thriving.

But some people still geared up, wanting to compete with him for the first place.

As the competition time arrived, under the watchful eyes of experts and staff, everyone entered the competition venue.

Then a male and female staff member stepped forward, and the male staffer spoke to everyone:

"Doctors, first of all, congratulations on passing the preliminary round of the Hua Xia Famous Doctors Contest. Your medical skills have surpassed most doctors."

"We wish you all the best of luck in achieving good results in this city-level competition."

"Without further ado, I will now read out the competition rules."

As he spoke, everyone including Su Fan focused on him.

In fact, all doctors were already clear about the competition rules, but the organizers still reiterated them.

"This competition is the city-level qualifier for the Hua Xia Famous Doctors Contest."

"The top ten doctors in this city-level qualifier will advance to the provincial qualifier."

"After passing the provincial qualifier, you can participate in the national competition of the Hua Xia Famous Doctors Contest to compete for the title of National Medical Sage."

"In this competition, all participating doctors must answer thirty questions from the question bank."

"These questions will comprehensively assess your medical skills."

"The competition will officially begin in three minutes, so please get ready."

As the announcement concluded, everyone below the stage immediately began preparing.

Three minutes passed by swiftly, and everyone started answering questions.

Su Fan also began answering carefully.

Even if there were no direct answers in the Qihuang medical texts, they contained very similar cases.

As long as one's medical skills weren't lacking, it would be very easy to answer these questions.

During the preliminary round, he answered all twenty questions correctly!

This time in the city-level competition, he felt no pressure at all.

Although all the doctors in this venue had passed the preliminaries and were skillful.

During the competition, many doctors appeared troubled.

Clearly, the city-level questions were not so easily answered.

Unlike Su Fan, who answered quickly, many doctors stared blankly at the questions on the screen.

Su Fan performed steadily and answered swiftly, just as he did in the preliminary round.

Again, no surprises this time, except for the last question, which made him ponder, the other 29 questions he answered with a glance.

After a brief contemplation on the final question, he also wrote down his answer.

Upon submitting his answers, the competition system immediately commenced evaluation and grading.

Chapter 1028

In about one to five minutes, Su Fan's results could be out.

Although his results were not yet out, all the doctors in the arena, as well as the surrounding staff, were extremely surprised.

This competition was one hundred and fifty minutes long, but Su Fan was impressive, finishing in less than half an hour!

A staff member uncertainly asked: "Dr. Su, did you click the wrong button?"

Upon hearing this, many people looked over.

There was no way around it, finishing and submitting in less than half an hour was really too shocking.

Su Fan shook his head: "I have already answered all the questions."

As he spoke, he and the competition staff received a text message from the competition system.

This text message, of course, was about Su Fan's results.

To avoid affecting others' performance in the arena, the staff had to suppress their internal shock.

Some of the staff outside the arena began to discuss this event enthusiastically.

Many experts who knew Su Fan's scores were also watching him with shock.

The leaders of the Weicheng City CDC rushed over to meet Su Fan at the first opportunity.

These questions were very difficult. Generally speaking, scoring over eighteen questions correctly was already quite impressive.

Su Fan finished answering in about half an hour and got all thirty questions correct.

If it weren't for the fact that the mayor of Weicheng couldn't find the time, even this prominent figure in Weicheng would have come to see this Divine Doctor, Su Fan.

Su Fan had a brief conversation with the leaders of the Weicheng CDC, keeping it short.

With his current status and position, he didn't need to curry favor with these people; instead, they needed to curry favor with him.

After shooing all these bureaucrats away, he finally saw Zhou Jie waiting outside the arena.

Zhou Jie was playing on her phone at the moment and hadn't noticed him coming out of the arena.

He walked up behind Zhou Jie and gave her a playful pat on the butt, below her pencil skirt.

Zhou Jie was startled, turned around abruptly, and realized it was Su Fan.

She asked in bewilderment: "Isn't the city-level selection supposed to last two and a half hours?"

"It's only been about half an hour, why are you out already?"

Su Fan casually said: "I finished answering the questions, so of course, I came out."

Zhou Jie, upon hearing this, worriedly asked, "How did you finish so fast? How did you do?"

Su Fan took out his phone and showed Zhou Jie the text message from the organizers.

On it was his result, all thirty questions answered correctly—an astonishing score!

Without a doubt, he had taken first place in this city-level competition!

Seeing this score, Zhou Jie happily hugged Su Fan tightly, but then quickly realized something was wrong.

Although there was no one around, this was still a public place.

However, Su Fan wasn't that concerned, directly kissed Zhou Jie on her pretty face, and then took her to the car.

Once in the car, Su Fan casually asked: "Sis, do you want to stay in Weicheng for a few days, or go back to Yang City?"

Zhou Jie replied without hesitation: "Let's go back to Yang City."

Su Fan nodded: "Alright, then we'll head back straight away."

He didn't care much about winning first place in the city-level competition.

But his popularity throughout the entire Qin Province had once again been elevated.

Many big shots across Qin Province were paying more attention to him.

After the city-level competition, he would prepare for the provincial competition next.

If he won first place in the provincial competition, he would become the overall champion of the province!

Securing first place across a province, of course, was a relatively difficult task.

After all, virtually every province had some hidden masters.

Some of these people might even have placed in the national competitions of China's Famous Doctor Tournament in the past.

Chapter 1029

When Su Fan returned to Yang City with Zhou Jie, assassins under Sa Kun's command also entered China.

However, these assassins were merely for show. Although they entered China, they had no intention of going to Yang City to assassinate Su Fan.

Their choice was undoubtedly correct; otherwise, no matter how many of them went, it would be in vain.

In a manor in Bayue, Sa Kun knelt before a woman, continuously bowing his head.

This woman was named Ye Zhaoyi, a mix of Chinese and Bayue descent, originally from Jingnan.

Though Sa Kun was a local mafia boss of Bayue, he was just one among many in Bayue.

In Bayue, there is a saying: Northern Ye and Southern Hu.

In the phrase Northern Ye and Southern Hu, Northern Ye referred to the Ye family.

Ye Zhaoyi is the current Family Head of the Ye family and one of the two largest mafia bosses in Bayue.

Describing her as a mafia boss doesn't quite fit; rather, she should be called one of the two Underground Emperors of the Bayue region.

Ordinary people couldn't afford to provoke the Kawabata clan of Japan, yet Ye Zhaoyi paid them no mind.

Bayue's national power was no match for Japan's, but the Kawabata clan couldn't represent all of Japan.

While Sa Kun was bowing so hard his forehead bled, Ye Zhaoyi said, "Alright, considering that the Ye family once owed your ancestors a favor, I can help."

"But I won't make a move against Kawabata Yuuta and the others. I can only mediate."

"You pay some compensation to the Kawabata family, and I'll have them release your wife and daughter."

Though Sa Kun wanted to kill with a borrowed knife, without Ye Zhaoyi's approval, there was nothing he could do.

When he sought Ye Zhaoyi's help, Su Fan had already learned about the bounty Sa Kun placed on him on the dark web.

Logically, adding the bounty on Su Fan to the Paleyar Fort's bounty, Su Fan shouldn't have known.

However, any valuable information could fetch a good price on the dark web.

Chen Hanqing would buy any intelligence related to Su Fan.

After getting to the bottom of it, Chen Hanqing called Su Fan.

Su Fan had just returned to the hospital with Zhou Jie when he received Chen Hanqing's call.

"Hanqing, what happened?"

Chen Hanqing immediately reported Sa Kun's situation in Bayue to Su Fan.

"Mr. Su Fan, according to the intelligence I gathered."

"The Japanese who attacked you earlier went to Bayue."

"Those people had a conflict with a Bayue local mafia named Sa Kun."

"Under the threat of Kawabata Yuuta, Sa Kun placed a bounty on you on the dark web and dispatched assassins into the country, intending to harm Mr. Su Fan."

"I'll send the detailed information to Mr. Su Fan."

As he spoke, Chen Hanqing also sent a document to Su Fan.

After receiving Chen Hanqing's document, Su Fan began to read it quickly.

The information provided by Chen Hanqing was very detailed.

Within moments, Su Fan learned of the conflict between Kawabata Yuuta's group and Sa Kun.

The issues with the Ning family's second branch have been resolved, and the city-level competition of China's Famous Doctor Contest has ended.

He didn't need to stay in Yang City for the time being.

Last time, Kawabata Yuuta's group escaped, and this time he could take people into Bayue to eliminate Kawabata Yuuta's group.

He might even wait for other experts from Japan to come and take them all out in one go.

With this in mind, Su Fan decided to take a trip to Bayue. The group going to Bayue this time was still the seven of them.

Ning Miaoqi and Zhen Bingyu were assassins trained at Palera Fortress, and they both knew how to use firearms.

This time, he planned to buy some equipment from the dark web for Ning Miaoqi and Zhen Bingyu.

Also, let the Japanese experience what it feels like to be locked onto by a sniper with a Barrett sniper rifle.

Chapter 1030

While Su Fan was still contemplating the trip to Baiyue, the hospital became lively.

The results of the famous Chinese doctor competition, city level, had already been announced on the official website of the competition.

All the doctors in the hospital now knew Su Fan's results.

For a moment, all the doctors became extremely delighted!

"Great! The director ranked first in the city-level competition!"

"First in the preliminary selection, first in the city-level competition, Director Su is truly amazing!"

"With the director's medical skills, he's bound to achieve a good rank in the provincial competition and then participate in the national competition!"

The reason these doctors are so excited is partly because of honor, and partly because of prospects.

Now when they attend family gatherings, or in some other occasions,

just saying they are doctors from the First Affiliated Hospital of the Medical University makes others look at them with admiration.

Of course, if they are from the Second Affiliated Hospital of the Medical University, it doesn't matter.

When reporting their work unit, they can just say they are doctors from an affiliated hospital.

When everyone in the hospital was extremely happy, Su Fan also appeared in front of the crowd.

"Hello, Director."

"Hello, Director Su."

Upon seeing Su Fan, everyone became more respectful and admiring than ever.

It was as if they were witnessing the birth of a master physician of the nation.

Su Fan nodded slightly and then said, "Why is everyone gathered here?"

After his inquiry, Bai Man in the crowd said with a bit of a tease, "It's lunch break, of course we are not at our workstations."

She was joking with Su Fan with this remark.

Nowadays, in the hospital, only Bai Man and a few other senior doctors could joke with Su Fan.

Su Fan chuckled a few times upon hearing this, "I see, I must have been too busy to notice."

At this time, a doctor suddenly asked, "Director Su, do you have the confidence to get first place in the upcoming provincial competition?"

Su Fan casually replied, "Of course, I have some confidence, just not a hundred percent certain."

He wasn't being modest; it's just that a black swan event could indeed happen.

Moreover, the master physician from the last national competition, Chen Tangshou, is also in the Qin Province division.

Spar with Chen Tangshou is tantamount to participating in the national competition in advance.

After chatting a few words with the doctors, Su Fan went to Bai Man's office.

When he went to Baiyue, hospital affairs had to be handled by Bai Man.

Bai Man followed Su Fan into the office together.

Once Bai Man entered the office, Su Fan hugged her and said,

"I need to go to Baiyue. During my absence, all major and minor matters in the hospital are for you to decide."

Bai Man curiously asked, "What are you going to Baiyue for?"

Su Fan was silent for a moment but then honestly replied, "To deal with a few formidable opponents."

Bai Man knew most of his affairs anyway.

It's just that Bai Man is an ordinary woman, unlike Ning Miaoqi and Zhen Bingyu, who are Martial Artists.

So Bai Man could only help him in other ways and couldn't join him in every life-risking battle.

Bai Man frowned slightly and then asked, "Is it dangerous?"

This time Su Fan shook his head, "Previously, they ambushed me on my way home unexpectedly, and couldn't do anything to me."

"This time, it's my turn to surprise them, so there's almost no danger."

He said this to reassure Bai Man not to worry too much.

Of course, without considerable certainty, he wouldn't easily venture abroad.

Within China, many formidable martial arts experts would be filtered by Long Group or even directly eliminated by them.

But once abroad, he would have no protection from Long Group and would have to face all challenges alone.

While chatting with Bai Man, Su Fan began to unbutton Bai Man's clothes.

Under his continuous nurturing, Bai Man's already very good skin improved even further.

One day when he's done with everything he needs to do and all his enemies are dealt with completely,

then he can live a happy life every day with Bai Man, Wang Fei, and all his other women.

By then, besides enjoying life, they can indulge in primal pleasures.
