

Temptation 1161

Chapter 1161

Zhou Zhengliang and his group of six seemed to have vanished without a trace after entering Yang City.

Su Fan's life was not affected by the bounty on the dark web.

He had Chen Hanqing keep an eye on Zimmerman and Mi He, but nothing particularly noteworthy was discovered.

Chen Hanqing, the Dragon Group, the dark web, and the Tianhai Bai family made up his entire source of information.

Zhou Zhengliang and his group's actions successfully avoided these four parties.

This led to Su Fan being completely unaware that Zhou Zhengliang and the six international assassins were eyeing him fiercely in Yang City.

Recently, a new female doctor named Yan Zi joined the affiliated hospital of the medical university.

The affiliated hospital was always recruiting talents, and Yan Zi passed their assessments and interviews.

Her way of joining the affiliated hospital was no different from other doctors.

Mi He's Bloodkill team consisted of six people, four men, and two women.

One woman had the name Xu Ting in China, and the other was Yan Zi.

They were different from past assassins, more professional and more deadly.

Before they acted, they left no flaws.

Su Fan had seen Yan Zi at the affiliated hospital, but he hadn't realized that Yan Zi was a Martial Artist.

This was because Yan Zi used a drug to suppress her martial True Qi, a concoction developed by Palia Castle Science Academy.

By using this drug and mastering some techniques, a Martial Artist could disguise perfectly as a normal person.

Su Fan would not pay attention to every doctor recruited by the hospital.

When he first met Yan Zi, he didn't even know how long she had been at the hospital.

After she infiltrated the hospital, Yan Zi kept records of most of Su Fan's affairs.

While there was a lot of intelligence related to Su Fan on the dark web,

compared to the information on the dark web, they clearly trusted their own observations and records more.

One day, Su Fan received a call from the Emergency Department in the dean's office.

"Dean Su, an old man accidentally fell off the stairs, and his condition is very dangerous."

After hearing the Emergency Department doctor, Su Fan replied, "I'll be right there."

After saying that, he rushed to the Emergency Department.

By the time he arrived, the patient was already in the emergency room being treated.

He wasted no time and immediately entered the emergency room.

Su Fan was quite surprised to find that another doctor was already treating the patient.

"Hmm?"

Seeing the other's superb surgical skills, Su Fan was extremely surprised.

He had thought that the patient's condition required his intervention.

Unexpectedly, there was now a second doctor in the hospital capable of saving this patient. So, he continued to watch Yan Zi's treatment process.

Many doctors would avoid such extremely critical patients.

Although incidents of medical disturbances had greatly reduced in the affiliated hospital,

no one wanted this patient to die under their care, inviting trouble from the patient's relatives.

In these circumstances, Yan Zi's readiness to step forward was surprising.

The key was that Yan Zi's medical skills were also very impressive.

Her hands were steady and nimble, and she used various surgical instruments with incredible dexterity.

Although she hadn't been in the affiliated hospital for long, her experience was very rich.

While others dared not even breathe, Su Fan understood that this patient could indeed be saved by Yan Zi.

This made Su Fan all the more puzzled, with such extraordinary medical skills, why would Yan Zi choose to join the affiliated hospital of the medical university?

With such amazing medical talents, she could join any hospital without any trouble.

Although the affiliated hospital was developing well, it shouldn't hold much attraction for a medical elite of her level.

Chapter 1162

It turns out, Su Fan's judgment was completely correct.

Yan Zi's emergency treatment of the patient was very successful.

After hours of continuous rescue efforts by Yan Zi, the patient was basically out of danger.

As long as the follow-up treatment proceeds, the patient can successfully recover.

After the surgery ended, a visibly exhausted Yan Zi walked out of the emergency room.

Then, to her surprise, she saw Su Fan standing in the hallway.

Initially, Su Fan thought Yan Zi was there for Eastern Medicine.

For a doctor of Yan Zi's caliber, the only thing that might interest her would be Eastern Medicine Company.

But when Yan Zi was saving the patient, Su Fan noticed something unusual about her.

Even though there was no True Qi fluctuation in her, her physical endurance was beyond ordinary.

Despite hours of surgery, she showed no significant decline in condition.

This indicated one thing: Yan Zi was a Martial Artist, and a very skilled one at that.

If she wasn't hiding her warrior identity, Su Fan wouldn't think much of her.

But the fact that she was being so secretive meant she had bigger plans!

Su Fan sighed lightly and said to Yan Zi, "Dr. Yan, let's talk in the reception room."

Yan Zi was very confident in the Palia Castle Science Academy's pharmaceuticals.

She was also quite confident in the logistical abilities of the Sanctuary organization affiliated with the Blood Kill Squad.

Her identity had no issues, and her performance in the hospital was simply that of an excellent doctor.

Therefore, she wasn't worried that Su Fan could discover anything.

If Su Fan hadn't witnessed her entire surgery, he truly wouldn't know he had a potential enemy right under his nose.

As for now, he was pondering how to handle Yan Zi.

In the hospital reception room, both Su Fan and Yan Zi sat down.

Su Fan looked at Yan Zi and asked, "Dr. Yan, how long have you been at the hospital?"

Yan Zi replied earnestly, "Almost two weeks."

Su Fan continued to ask, "How do you feel about it?"

Yan Zi thought for a moment and said, "The affiliated hospital is developing rapidly, but aside from the director, the other doctors' medical skills are just average."

"Additionally, the director's Eastern Medicine Company is a huge innovation in the medical field."

"From the medical records, the effectiveness of most of Eastern Medicine's drugs is very good."

"Simply put, the hospital's development speed and Eastern Medicine are the highlights, but the doctors' medical skills are somewhat lacking."

Su Fan knew that what Yan Zi said was true.

He wasn't someone who couldn't handle the truth; if Yan Zi were an ordinary doctor, he would plan to groom her for a deputy director position.

Unfortunately, besides possessing excellent medical skills, Yan Zi was also very adept at disguising her Martial Artist identity.

Su Fan sighed and asked, "Do you like it here?"

This time, Yan Zi opened her mouth but didn't speak.

Did she like the Affiliated Hospital of Medical University? The answer, of course, was yes.

Although she was trained as a professional assassin from a young age, when she came into contact with medicine, she realized that what she truly loved was healing and saving lives.

But what could she do? She could only treat members of the Blood Kill Squad and the Sanctuary.

As for others, they were either enemies or bystanders.

Under Su Fan's management as the director, the hospital's atmosphere improved significantly.

The problematic individuals were transferred from the First Affiliated Hospital to the neighboring Second Affiliated Hospital.

Under these circumstances, Yan Zi naturally liked it here.

After a moment of silence, Yan Zi nodded.

She did like it here; compared to relentless killing, she preferred the harmonious atmosphere here.

After she nodded, Su Fan's demeanor turned serious, and he asked:

"And what is your true identity?"

Chapter 1163

Su Fan's question made Yan Zi instinctively show a look of confusion.

Although her face was confused, there was a hint of nervousness in her heart.

She had even prepared herself to either make a move or escape at any moment.

"Director Su, what are you talking about?"

Su Fan knew that such probing would not make Yan Zi tell the truth.

So he simply said, "When you were fully concentrated on saving lives earlier, I was watching from the side all along."

"After hours of high-intensity work, your condition didn't decline at all."

"This is something an ordinary person cannot do."

"Yet even now, I haven't sensed any True Qi fluctuation from you."

"Can you explain to me the reason for this?"

After Su Fan said this much, Yan Zi understood that she had made a fatal error.

She had been too focused while saving lives and neglected some details.

This means that she is left with only two paths now: either suddenly strike or make a run for it.

Zhou Zhengliang, Xu Ting, and the five others have been lurking in Yang City for a long time.

As long as she joins Zhou Zhengliang and the others, the six of them together could ensure Su Fan's death!

However, Su Fan presented Yan Zi with a third path.

He calmly said, "No matter who you are, no matter what your past is."

"If you are willing to stay in the hospital as Dr. Yan Zi."

"I would welcome having another doctor who loves medicine and is skilled in it in the hospital."

Yan Zi didn't expect Su Fan to say that.

She didn't intend to choose the third option Su Fan offered and was prepared to escape.

The Saint Hall is an organization spanning the North European Alliance, equivalent to China's Dragon Group but more complex than the Dragon Group.

No matter how powerful Su Fan is, he cannot compete with the Saint Hall.

Yan Zi shook her head and said, "That's impossible because I am a professional assassin, and my organization belongs to the Saint Hall."

Although they had been working under Mi He for a long time, Mi He is a mid-to-high-level figure in the Saint Hall.

Su Fan, of course, was not unfamiliar with the Saint Hall.

North European Alliance's Saint Hall is on par with China's Dragon Group.

Since the North European Alliance is a complex coalition of countries, the Saint Hall, while elite and powerful, is also very chaotic and complex.

He didn't expect Yan Zi's background to actually be from the Saint Hall of the North European Alliance.

Logically, he shouldn't have any grudges with the Saint Hall.

While Su Fan was pondering these matters, Yan Zi suddenly activated her True Qi and ran towards the window of the reception room.

This reception room is on the third floor; she was obviously trying to escape through the window.

Before Yan Zi could break the glass, Su Fan suddenly embraced her.

Because she was also a Martial Arts Grandmaster, Su Fan did not dare to be careless.

While holding Yan Zi, he suppressed her with True Qi and simultaneously used grappling techniques to pin her to the ground.

At this moment, Su Fan and Yan Zi's position was very ambiguous.

Yan Zi's hands were fixed behind her by Su Fan's hands.

Su Fan's body was completely pressing down on Yan Zi.

The two little melons in front of Yan Zi were pressed into flat cakes by him.

His legs were also crossed to hold Yan Zi's legs in place.

Yan Zi's martial arts talent was very high; she looked about twenty-five or six.

But her strength was surprisingly that of the early Martial Arts Grandmaster realm, on par with Su Fan.

This made Su Fan even more cautious, using all his True Qi to suppress Yan Zi.

This position made Yan Zi very uncomfortable.

She wanted to resist, but both being at the early Martial Arts Grandmaster realm, after Su Fan used grappling techniques, she had no room to resist at all.

Of course, Su Fan also needed to constantly suppress her with True Qi without stopping.

Otherwise, she could easily break free from Su Fan's hold and escape, or even kill Su Fan in return.

Chapter 1164

Yan Zi sighed softly and said, "Let me go."

Su Fan smiled and refused, "Do you think that's possible?"

"I let you go now, and then wait for you to come back next time to kill me?"

Hearing this, Yan Zi said, "At least this time, I won't make a move against you."

"If you don't let me leave, once I break free from your grasp, I won't be polite."

Su Fan had no intention of letting Yan Zi go, but rather said, "Then you can try."

As soon as he finished speaking, Yan Zi indeed began to attempt. THIS CHAPTER IS UPDATE BY NOvelFire.net

The mighty and vigorous True Qi within Yan Zi began resisting Su Fan's suppression.

Su Fan dared not be careless and fully mobilized his True Qi to begin contending with Yan Zi's True Qi.

The True Qi of both started to engage in an incessant contest.

The two, who could still speak just now, dared not divert their attention to speak again.

Both of them concentrated fully, exerting all their strength to circulate their True Qi, aiming to completely suppress the other.

Once one side was defeated, the other's True Qi could charge straight through and completely suppress the opponent.

Yan Zi was the youngest Martial Arts Grandmaster apart from Su Fan that he had encountered.

Yet, Yan Zi's strength was surprisingly not weak at all.

If he had just sneak-attacked with the Tai Chi Thirteen Swords, he could have heavily injured Yan Zi with one strike, or even killed her.

But he didn't carry any weapon with him, even if he attacked suddenly, he could only use Tai Chi Boxing.

Doing so might have injured Yan Zi, and eventually, through a fierce battle, could have killed her.

However, since he made a move aiming only to injure Yan Zi, this led to the current stalemate between him and Yan Zi.

His True Qi and Yan Zi's True Qi were consuming each other.

The door of this reception room was locked, and people outside had no idea what was happening inside.

Although Yan Zi did not fall behind in the competition of True Qi,

her chest was being pressed heavily by Su Fan, making her very uncomfortable.

Su Fan's strong body was pressed entirely on her, and her round, full, soft chest was being pressed into two thin pancakes.

But at this critical moment of the True Qi contest, she dared not make any extraneous moves.

This process quickly continued for an hour.

Su Fan's True Qi and Yan Zi's True Qi both showed signs of being somewhat consumed.

Yet neither of them thought of stopping, nor dared to stop.

If either side stopped the circulation of True Qi, they would be completely suppressed.

As time ticked by, three hours passed in the blink of an eye.

By this time, both Su Fan's and Yan Zi's True Qi were greatly consumed.

Zhou Jie had already noticed that Su Fan was missing.

However, Su Fan tended to be sneaky and mysterious, so Zhou Jie didn't worry.

As for Yan Zi, she was just a newcomer doctor, and not many people were concerned about her whereabouts.

Including the first hour, four hours had already passed by now.

Both Su Fan and Yan Zi were exhausted to the extreme.

The direct contest of True Qi felt like a blunt knife cutting into flesh, so uncomfortable.

The True Qi of both sides continued to be consumed at an extremely slow pace.

Be it Su Fan or Yan Zi, a layer of fine sweat had appeared on their foreheads.

Su Fan was still okay, as he was pressing entirely on Yan Zi; Yan Zi, however, was numbed by the pressure.

After a while, as the doctors at the hospital gradually got off work,

when they found the reception room was locked, no one checked it.

As for cleaning the reception room, that was a matter for the next morning.

Thus, the competition of True Qi between Su Fan and Yan Zi continued from daylight into evening.

While their True Qi was consumed, they were also circulating their Cultivation Technique to continuously generate True Qi from their blood and energy.

Chapter 1165

Their contest like this, the speed of the martial arts True Qi's depletion is inherently slow.

While both were expending their martial arts True Qi, they were also continuously using blood and Qi to nurture the martial arts True Qi.

This resulted in them competing from day to night without reaching a conclusion.

This kind of competition did not cause a monumental uproar, yet Su Fan was extremely exhausted.

Originally, he was staring intensely at Yan Zi, but now he lies entirely on Yan Zi.

Yan Zi, devoid of her daytime pride, could only speak with a hint of pleading, "Let me go."

"In the competition of martial arts True Qi, we are equally matched, unable to determine superiority."

Su Fan, pressing on Yan Zi, spoke roguishly, "No, I like being on top of you."

Yan Zi, upon hearing this, said furiously, "Just wait, I will definitely kill you!"

Yet her anger and fury had no effect.

Their martial arts True Qi contest continued from around four in the afternoon until four in the morning, then came to a pause.

During this process, Su Fan's martial arts True Qi continued to restore and deplete.

By now, the True Qi within him is completely exhausted to the last trace.

Yan Zi's situation is exactly the same as Su Fan's.

After being pressed by Su Fan for twelve hours, Yan Zi sneered, "You're dead meat, I'm proficient in various hand-to-hand killing techniques."

"Without martial arts True Qi protection, you're just an ordinary person to be at my mercy."

But she hadn't been glad for long before Su Fan lifted her skirt.

This made Yan Zi greatly shocked inside, "What do you want to do?"

As she spoke, she also resisted fiercely.

Unfortunately, right now she and Su Fan are both heavily drained and utterly fatigued.

Her hands were pinned behind her by Su Fan, unable to exert any strength.

Then in this unusual environment, Yan Zi encountered something she never thought possible.

As a professional assassin, love didn't exist in her life.

She never imagined that one day, the target she was assassinating would take her precious first night.

Su Fan originally thought, given how beautiful and sexy Yan Zi was, even if she hadn't been through many battles, many men must have developed her.

As he armed himself and broke through that thin membrane.

Only then did he know he made the beautiful woman before him transition from innocence to a true woman.

Even though Su Fan was exhausted to the point of immobility, his mighty spear remained exceptionally valiant.

An unprecedented sense of fullness instantly filled Yan Zi.

Yan Zi, for a moment, felt both shame and anger, extremely vexed.

But Su Fan's continuous thrusts made her involuntarily moan softly.

Her exquisite and pretty face turned rosy, her body became uncontrollably hot and sensitive.

Her gaze became dazed, making her very annoyed.

She had absolutely no intention to have a relationship with Su Fan, yet her body was irresistibly drawn to this sensation.

Su Fan, purely relying on blood and Qi, found it very difficult to extract martial arts True Qi.

But now, as he launched a continuous assault on Yan Zi, strands of martial arts True Qi began to regenerate within him.

Yan Zi's martial arts True Qi was utterly exhausted, while his was continuously recovering.

Earlier she was at his mercy, now she's even more firmly in his grasp.

With the advantage shifting in this way, Yan Zi was thoroughly subdued by him.

Su Fan's exhausted body rapidly regained vigor.

His fierce and broad wrath dragon also began to gradually revive, becoming even more terrifying.

Yan Zi soon found, to her astonishment, that Su Fan who previously could only lie on her was.

Somehow, he had revitalized!

Su Fan's previously gentle and rhythmic offensive also transitioned into ferocity as his martial arts True Qi restored.

Chapter 1166

The violent storm began to assault Yan Zi.

As Su Fan's little avatar became more formidable, Su Fan's speed also increased.

Yan Zi fell into despair; she suspected Su Fan intended to finish her off this way.

As time ticked by, already exhausted, Yan Zi grew even more fatigued.

In the harmony of yin and yang, Su Fan became increasingly invincible.

Previously, he needed to cautiously suppress and manage Yan Zi, but now she was completely under his control, toyed with at will.

The tender peaks on Yan Zi's chest, once flattened like pancakes by him.

Now they astonishingly regained shape, constantly changing form in his hands.

Yan Zi's nightmare lasted over two hours.

When Su Fan had fully recovered and released, Yan Zi was left crying like rain-battered blossoms.

This time, Su Fan held Yan Zi in his arms.

He spoke earnestly, "Be my woman from now on; the holy sanctuary of the Northern European Alliance has nothing to do with you anymore."

Even though Yan Zi cried in grievance, she still responded, "Delusional!"

Upon hearing her words, Su Fan laughed indifferently, "Alright, then I'll cripple your martial arts and have you ten times a day, you choose."

Yan Zi said amidst tears, "You're shameless!"

Su Fan replied, "You came to kill me, which makes us enemies."

"When dealing with enemies, there's no need for courtesy."

Yan Zi sobbed in despair, "Kill me then, otherwise I will surely kill you."

Su Fan sighed, "If that's the case, I'll have to destroy your martial arts and keep you as my slave."

Yan Zi continued sobbing, "Kill me!"

Of course, Su Fan wouldn't kill her; now he only wanted to conquer this woman.

It was nearly dawn, and staying in the hospital was clearly impractical.

So Su Fan made a quick decision, taking Yan Zi to a nearby love hotel.

All of Yan Zi's meridian points and veins were sealed by him with True Qi; he had plenty of time to deal with Yan Zi.

In the hotel, Yan Zi looked at the bizarre equipment in the room, sinking into complete despair.

"I'm begging you, just kill me."

However, Su Fan didn't kill Yan Zi; instead, he set up a camera to the side.

Then, he took out silver needles to thoroughly lock Yan Zi's meridian points.

Now, unless Su Fan personally unlocked the seal on her meridians, Yan Zi would live as a regular person.

Still, Su Fan did nothing more to Yan Zi but ask her:

"Do you want to be my woman and follow me forever?"

Yan Zi understood that Su Fan would never let her go nor offer her a quick end.

Next, she would endure all sorts of terrible torment, possibly even horrific punishment.

But, trained as a professional assassin from a young age, none of it truly fazed her.

With Su Fan's question, Yan Zi snorted coldly, meeting his gaze icily.

Seeing her attitude, Su Fan naturally showed no mercy.

Yan Zi's clothes were promptly changed by Su Fan.

Two seductively alluring garments appeared on Yan Zi.

A red rope then securely bound her.

Because she was a martial artist, Yan Zi was now in a split stance, one foot on ground tiptoe, her entire body suspended from the beam.

With a gentle push from Su Fan, she couldn't stand steadily, swaying continuously from the beam.

Yan Zi's body experienced no pain, but her heart suffered a heavy blow.

This suspended split posture left her completely exposed to Su Fan's eyes.

Worse yet, everything was recorded by Su Fan with the camera.

Chapter 1167

Su Fan looked at Yan Zi and once again asked the same question:

"Are you willing to be my woman and follow me forever?"

Yan Zi bit her silver teeth, too lazy to speak to him.

Right now, she only wanted to find an opportunity and end it all herself.

Unfortunately, Su Fan was unlikely to give her such a chance.

Next, Su Fan didn't hold back with Yan Zi, directly approaching her.

Yan Zi wore seamless white pantyhose on her legs.

She originally thought Su Fan would tear or remove these delicate stockings and offend her again.

But she soon looked at Su Fan angrily because Su Fan, confident in his methods, did not behave unusually.

Su Fan chose instead to launch a direct assault on her through that thin fabric.

That thin fabric brought intense friction and stimulation to Yan Zi.

Su Fan hadn't attacked for many rounds before Yan Zi couldn't help but convulse.

Even if Su Fan tortured Yan Zi, she wouldn't easily collapse.

But now, Yan Zi's psychological defenses began to crumble.

Once Su Fan's assault started, it seemed as if it wouldn't stop.

And in this room, there were dozens of strange items.

Deep in her heart, Yan Zi was very certain; if all these bizarre items were used on her, she might as well be dead.

If she were just an ordinary woman, Su Fan would obviously not do this.

But since she was a Martial Arts Grandmaster, and a young, beautiful, and well-built one at that, Su Fan, of course, wouldn't hold back.

Just as Yan Zi had imagined, Su Fan planned to use nearly sixty different tools on her in the time to come.

Yan Zi didn't know how long Su Fan's frenzied assault on her lasted this time.

At this moment, she was continuously convulsing, her body reacting fiercely against her will, streams of clear water flowing down.

Her white pantyhose and the ground she was standing on were completely soaked.

She still maintained a single-legged stance, suspended in a split position.

Su Fan, once again fully released, had already brought other tools over.

Yan Zi's frosty red plum blossoms atop her snowy peaks were quickly clipped by a pair of special clips.

On the clips, there were small bells; even a slight shake could make them ring.

But Su Fan didn't want her to shake lightly; instead, a metal frame seemingly equipped with an impact drill-like device was brought over by Su Fan.

Of course, this wasn't an impact drill; it just resembled one.

Indeed, the function of this device was to impact and rotate.

Moreover, the speed and force of impact, as well as the rotational speed, could be adjusted.

Even the front part could be replaced.

As Su Fan connected a transparent material, serrated surface front end to the machine.

Yan Zi's psychological defenses were pushed to the brink of collapse.

When the machine began to run idle, Yan Zi saw the might of this device.

The terrifying speed of impact and rotation could definitely make her faint.

Before Su Fan used this dreadful implement, Yan Zi could no longer be stubborn.

"I... I'm willing to be your woman, please spare me."

This machine had five gears: weak, ordinary, medium, strong, and ultra-strong.

Su Fan had deliberately set it to ultra-strong during idle to intimidate Yan Zi.

Yan Zi clearly lacked understanding of these bizarre objects, and was directly frightened by him.

Even though Yan Zi had surrendered, Su Fan still had the machine complete its connection with Yan Zi.

The instep of Yan Zi's feet instantly stretched taut, and a few painful expressions surfaced on her exquisitely beautiful face.

Chapter 1168

Luckily, the gear Su Fan is using now is just a weaker one.

Even so, Yan Zi is continuously attacked and tortured by this machine.

After doing all this, Su Fan said, "Tell me the details."

Yan Zi bit her silver teeth and said, "I don't know."

As soon as she finished speaking, Su Fan adjusted the gear from weak to normal.

Yan Zi couldn't help but scream out loud.

Normally, using this kind of interlaced wolf-tooth crystal head, the limit is the normal gear.

Even though Yan Zi is a Martial Arts Grandmaster, without True Qi protection, she's at her limit.

Yan Zi didn't dare to keep arguing with Su Fan, and the little bell connected to the clip on her chest was ringing non-stop.

She could only say, "It's Mi He who wants to kill you, Mi He is one of the leaders of the Holy Church in England."

"We were war orphans adopted by him, receiving the toughest training at various bases since childhood."

"I don't know who my parents are."

"Ever since I can remember, I've lived with many orphans in similar situations."

As Yan Zi said this, the terrifying machine had already left her body.

Dangling in mid-air, maintaining a split position, she was also put down by Su Fan.

As she spoke, Su Fan untied the ropes for her.

This time Yan Zi didn't play tricks, she told Su Fan about the Blood Kill Squad, Mi He, and most of what she knew about the Holy Church.

After she confessed everything in detail, she was also held in Su Fan's arms.

If it was just like this, Yan Zi still wouldn't have any overly special feelings for Su Fan.

But what she didn't expect was that Su Fan actually started to unlock her meridians and hidden points.

Did Su Fan completely trust her, or is he confident due to his skills?

For Su Fan, it's certainly both.

He had already understood most of Yan Zi's past and knew about Zhou Zhengliang and others.

Moreover, he had taken Yan Zi's first blood, giving her a massive output.

So, he decided to trust Yan Zi this once.

If Yan Zi betrayed his trust, then she could only become a dead person.

As it turns out, even if Yan Zi didn't want to become his woman, she could still distinguish between right and wrong and weigh the pros and cons.

Yan Zi now betrayed the Blood Kill Squad, Mi He, and the Holy Church.

As long as these images are transmitted to the dark web, she will be hunted by the Blood Kill Squad, Mi He, and the Nordic Alliance's Holy Church.

Her True Qi, although starting to recover,

but she didn't think she had the ability to steal the memory card from Su Fan's camera.

After she finished telling everything, she looked at Su Fan and asked, "What are you going to do?"

Su Fan instantly replied, "First, kill the other five killers of the Blood Kill Squad, then find a way to kill Mi He."

"If the Nordic Alliance's Holy Church also wants to be my enemy,"

"then one day, the Nordic Alliance's Holy Church will disappear from the world of martial arts."

Yan Zi didn't see much problem with Su Fan's first two statements.

But his last sentence made Yan Zi roll her eyes.

Just as she was about to express her opinion, Su Fan pressed her down again.

This time, Yan Zi had True Qi within her; although not fully recovered, she could still offer some resistance.

Yan Zi indeed fought back, as Su Fan had always been on top of her before, this time it was her turn to be on top of Su Fan.

Su Fan didn't intend for Yan Zi to move by herself, but since Yan Zi wanted to ride on him and move, he didn't mind.

This time, perhaps out of her voluntary willingness, Yan Zi's expression on her beautiful face became even more captivating.

Chapter 1169

Su Fan was extremely delighted in his heart, this time, it was a close call but no danger.

After conquering Yan Zi, he not only gained a Martial Arts Grandmaster-level virtuous wife but also acquired a Western Divine Doctor.

Surgical skills were considered his shortcoming in medical expertise.

He could also perform surgery on patients, but his surgical skills were not as exquisite as Yan Zi's.

While Yan Zi swayed her slender waist, she looked at Su Fan and asked, "How do you plan to deal with Zhou Zhengliang and the others?"

"The two of us together against the five of them?"

After Yan Zi's inquiry, Su Fan shook his head and said, "Of course not."

This time, he planned to invite Bai Zongze and Li Guanyun to join the action.

In this way, they would have four Martial Arts Grandmasters on their side, against the opponent's two Martial Arts Grandmasters.

Zhou Zhengliang and Xu Ting were both Martial Arts Grandmasters; the remaining three were just at the peak of the Gang Qi Realm.

With the four Martial Arts Grandmasters joining forces, Zhou Zhengliang and his crew had no room for resistance.

Zhou Zhengliang and the other five would never have thought that Su Fan captured Yan Zi in a most absurd manner.

Yan Zi had no choice, she sold out the Blood Kill Squad, Mi He, and the Sanctuary entirely.

It was either to end herself or walk down a dark path together with Su Fan.

Su Fan and Yan Zi spent the entire day at the couple's hotel without leaving.

At night, they went out to buy clothes, and Su Fan returned to No. 5 villa in Bai Yulan Villa District to retrieve weapons.

He not only took his own Cold Spring Sword but also brought a Tang Heng Dao for Yan Zi.

Yan Zi's preferred weapon was the Japanese katana.

The katana is influenced by the Tang Heng Dao, making it very handy for her to use it.

Su Fan took out the Tang Heng Dao and handed it to Yan Zi.

Initially, Yan Zi wasn't very concerned.

But when she received the Tang Heng Dao, she was completely stunned.

"Is this a holy artifact blessed by the Church?"

Although Su Fan didn't know what a Church-blessed holy artifact was, he was sure that the weapon from the Bai family ancestral land had nothing to do with the Church.

He immediately shook his head and said, "Get familiar with the weapon first, and we'll act once three more people are here."

Su Fan mentioned waiting for three people, but in fact, five people arrived.

The first to arrive was Grandmaster Bai Zongze, who lived in No. 6 villa of Bai Yulan Villa District.

When Bai Zongze saw Yan Zi beside Su Fan and the Tang Heng Dao in Yan Zi's hand, he was amazed.

He was relatively familiar with Su Fan's situation.

He knew that Su Fan already had a bunch of women around him.

Only now did Bai Zongze realize he underestimated Su Fan.

Not only did Su Fan have many ordinary women around him, but also a young and beautiful female Grandmaster.

After Bai Zongze, Li Guanyun and Wu Yunzhou arrived.

Wu Yunzhou was another branch Family Head of the Wu family and an ally of Su Fan.

Originally, Su Fan planned to gather four Grandmasters to deal with Zhou Zhengliang and the five others.

Now it turned out, they had directly gathered five Grandmasters.

It wasn't over yet; Ning Zhengde, responsible for cleanup work, also brought Ning Tianhe along.

When the two arrived, they were extremely amazed.

Once, it was they with Gang Qi Realm skills who went with Su Fan, fought through the south and north, and traveled to Japan to kill.

However, Su Fan progressed too quickly, now, those alongside Su Fan were all Martial Arts Grandmasters.

Those Gang Qi Realm experts had already been retired and could only work on cleanup tasks.

While Ning Zhengde lamented, he was also somewhat pleased.

With their relationship with Su Fan, the better Su Fan developed, the more benefits it brought to them.

Once everyone was gathered, Su Fan led the group to take action.

Zhou Zhengliang and the others were always in one-way contact with Yan Zi, meaning Yan Zi would contact them.

Since Yan Zi was always with Su Fan, contacting her risked exposing Yan Zi.

Chapter 1170

At this moment, Zhou Zhengliang and Xu Ting were embracing each other in sleep.

They were not lovers, merely satisfying each other's needs.

Zhou Zhengliang and Xu Ting were completely unaware that danger was approaching.

Yet, an unusual noise startled Zhou Zhengliang awake.

"Something's wrong!"

Zhou Zhengliang suddenly rose in the hotel room.

He was too familiar with that sound.

It was the sound of someone falling from a height, often a dead person.

Su Fan had no idea how skilled Zhou Zhengliang was.

He discovered the sentry from the Blood Kill Squad and immediately killed him with one swift stroke.

Besides Yan Zi, five people came from the Blood Kill Squad.

Su Fan killed one upon arrival, meaning only four remained.

As Su Fan prepared to move forward, a muffled sound suddenly came from the night sky.

"Bang!"

As the muffled sound echoed, everyone activated their protective aura.

That muffled sound was clearly a gunshot, and a sniper rifle at that.

"Clang—"

A sniper bullet hit the protective aura of Grandmaster Bai Zongze, echoing like a great bell.

Su Fan's figure swiftly approached the sniper like a fleeting shadow.

"Bang!"

The second muffled sound soon followed.

This time, the target was clearly Su Fan, but the shot missed.

This made the shooter become very impatient, resorting to rapid, probabilistic shots.

"Bang! Bang!"

The gunshots continued, but didn't last long before abruptly stopping.

The five Martial Arts Grandmasters completely overwhelmed these people.

When the gunfire ceased, Su Fan killed another assassin.

The remaining Gang Qi Realm assassin had his throat crushed by Li Guanyun.

Zhou Zhengliang and Xu Ting, attempting to escape, were quickly stopped in their tracks.

Upon seeing Yan Zi with Su Fan, Zhou Zhengliang and Xu Ting were both furious.

Xu Ting cursed, "You traitor, how dare you betray us?"

Before Xu Ting could continue, Su Fan spoke to her, "I'll tear your mouth apart later!"

Zhou Zhengliang had no intention of speaking, even though he didn't understand what had happened.

But it was clear they were in deep trouble.

Zhou Zhengliang thought for a moment and opted to break through once more.

Bai Zongze, Li Guanyun, and Wu Yunzhou decisively intercepted him.

Although Zhou Zhengliang was a Martial Arts Grandmaster and very formidable,

his three opponents all had backgrounds from hidden families.

Let alone three against one, even one-on-one, he wasn't a match for these three elders.

Xu Ting's battle wasn't easy either.

Xu Ting and Yan Zi bore grudges against each other.

Initially, there was another member of the team, who was Xu Ting's secret crush.

But he liked Yan Zi and was killed by a bomb while protecting Yan Zi during a mission.

Xu Ting had long wanted to kill Yan Zi but never found the opportunity.

The opportunity arose this time, yet she couldn't seize it.

Her strength was comparable to Yan Zi, but Yan Zi had a more formidable ally, Su Fan.

With Su Fan wielding the Cold Spring Sword, facing two opponents, Xu Ting couldn't last ten rounds before being injured.

By the twentieth round, Su Fan's Cold Spring Sword, glowing brightly, pierced Xu Ting's heart.

Yan Zi's Tang Heng Dao then swiftly slit Xu Ting's throat.

In a life-or-death struggle, Xu Ting held her ground for twenty rounds against two opponents, which was quite impressive.

Meanwhile, Zhou Zhengliang's body slowly collapsed to the ground.

Facing the assault of three Martial Arts Grandmasters, despite his myriad of skills and abilities, he had no path but death.

Resolving two Martial Arts Grandmasters so effortlessly changed Yan Zi's view of Su Fan once again.

Su Fan couldn't possibly destroy the North European Alliance's sanctuary.

But, under the Dragon Squad's shelter, in Yang City,

Neither Mi He nor the North European Alliance's sanctuary seemed able to touch Su Fan.

Cultivating a Martial Arts Grandmaster requires countless resources.

Yet, in less than half an hour, Su Fan had made two Martial Arts Grandmasters become corpses!

Bai Zongze, Li Guanyun, and Wu Yunzhou's perspectives on Su Fan also changed.

Su Fan was now the indisputable ruler of Yang City!

In Yang City, even a Martial Arts Grandmaster, he could kill at will!
