

Temptation 1171

Chapter 1171

Under the desolate night, the killing aura had yet to fully disperse.

A faint scent of blood lingered in the air, reminding everyone of the life-and-death struggle that had taken place here not long ago.

The cold wind howled as Su Fan stood on the rooftop, letting the night breeze caress him.

Li Guanyun, Wu Yunzhou, as well as Bai Zongze and Yan Zi, all stood behind him.

From this moment on, he had absolute control over Yang City.

In Yang City, he no longer had to fear any enemies from across the globe.

Once, Martial Arts Grandmasters loomed like towering mountains, hovering above him.

Tonight, he had personally led the team to kill two of them.

To any force, a Martial Arts Grandmaster is considered high-end combat power!

The deaths of Zhou Zhengliang and Xu Ting would enrage the Nordic Alliance's Sanctum, as well as Mi He.

But it didn't matter; for the time being, they wouldn't know that Zhou Zhengliang and Xu Ting were dead, much less how they died.

Even if they found out and wanted to retaliate, they would first need to understand his strength and capacity.

Yet, it would be difficult for someone as significant as Mi He, and an organization as powerful as the Nordic Alliance's Sanctum, to achieve this.

Under Ning Zhengde's arrangement, warriors from the Ning family were already carrying out clean-up work.

In this area, the Ning family originally had specialized talents.

Because Ning Zhengde was mainly responsible for clean-up work within Su Fan's martial group.

This also made the Ning family's warriors even more skilled at their craft.

Before today, Li Guanyun, Wu Yunzhou, and Bai Zongze, all considered Su Fan an ally.

But in front of the word ally, they would add the word junior.

Though Su Fan's performance was exceptionally outstanding in many aspects, he was, after all, a young novice.

In their cooperation of shared interests, the role Su Fan could play was limited.

However, Su Fan's actions tonight told these three old men.

The world is ever-changing, and his era was beginning.

From now on, Li Guanyun and the others would naturally adjust their attitudes and treat Su Fan as an equal.

Eventually, as time passed, they would no longer be able to match Su Fan and would only be able to follow behind him.

The Blood Kill Squad is a highly elite assassin team.

Their most valiant achievement was even assassinating leaders of small countries.

However, this time they chose the wrong target, causing the Blood Kill Squad to be completely buried in the dust of history.

Su Fan took one last look at the night view of Yang City and then said to the others, "Let's go."

After speaking, he returned to No. 5 Villa in the White Magnolia Villa district.

Li Guanyun and Wu Yunzhou bid farewell to Bai Zongze and left.

Bai Zongze returned to the White Magnolia Villa district with Su Fan, but he went to No. 6 Villa. [READ LATEST CHAPTERS AT !\[\]\(23d9fc146e83b5c3013cfa32c784f8d5_img.jpg\)novelfire.net](#)

Only Yan Zi was brought by Su Fan to the No. 5 Villa.

Although many people already lived there, the villa had plenty of rooms, enough to house even fifty people.

Su Fan swiftly dealt with Zhou Zhengliang and the others, showing Yan Zi his capability and strength.

But once everything settled, Yan Zi couldn't help but worry.

Su Fan knew Yan Zi's heart wouldn't be at peace.

So he led Yan Zi to the rooftop of the villa.

His villa was a three-and-a-half-story design, with a night view room on the rooftop.

Su Fan accompanied Yan Zi to this room and casually sat down on the sofa.

Through the glass wall, they could see the brilliant stars in the sky.

After they sat down, Su Fan gazed at the starry sky and casually said:

"Are you worried about future matters?"

Yan Zi nodded slightly. "Yes."

Su Fan smiled and said, "Actually, you don't need to worry so much."

Yan Zi furrowed her brows and uncertainly said, "Do you have other contingency plans?"

She could only think so, considering that while Su Fan was strong now, he wasn't yet strong enough to disregard Mi He completely.

Chapter 1172

Su Fan's growth speed is very fast, and his ability to establish connections is also quite astonishing.

But if he has any remarkable trump card, it's likely not shown yet.

A young man in his twenties, being able to mobilize five Martial Arts Grandmasters to do something, is already extraordinary.

So under Yan Zi's expectant gaze, he shook his head: "I don't have any more powerful trump cards."

Upon hearing this, Yan Zi wasn't too disappointed and said to him very seriously:

"In that case, you cannot be complacent."

"The Kawabata family of East Ying, the secretive Kuda temple, Palea Castle in England, and the Sanctuary of the Northern European Union."

"Even Mi He, none of them are easy to deal with."

"Your bounty on the dark web is currently twenty billion US dollars."

"This is already an enticing sum that many Martial Arts Grandmasters might be tempted by."

"Your current situation isn't very safe either."

After Yan Zi finished speaking, Su Fan reached out and embraced her.

Though they had been intimate, and Yan Zi even took control once, acting on her own initiative throughout.

Yet being suddenly held by Su Fan, her body still tensed up instantly.

She and Su Fan have known each other for such a short time, after all.

Even if they've been intimate, she still couldn't effortlessly get cozy with Su Fan.

Fortunately, this time, Su Fan didn't do anything excessive; he simply held her and said:

"When I was just a Martial Artist in the Condensation stage, I offended the terrifying Liu Sheng family of East Ying."

"At that time, the Liu Sheng family felt like the sword of Damocles hanging over my head."

"But this state didn't last long; the Liu Sheng family vanished into thin air."

"From that moment, I understood something."

Clearly, Yan Zi was unaware of Su Fan's past.

At this moment, she curiously asked, "What did you understand?"

Su Fan smiled and said, "What I understood is that problems can always be solved, and worrying before they're solved is futile."

"In other words, don't stress too much about things that haven't happened yet."

He is optimistic; he has always resolved all the difficulties he encountered well.

As for his enemies across the world, although he can't deal with them all at once, it's likely they can't do much to him either.

However, Su Fan still said to Yan Zi:

"What do you think the Sanctuary of the Northern European Union and Mi He will do next?"

When it came to this, Yan Zi became more serious.

She thought for a long time before solemnly saying:

"Mi He still can command and deploy other assassins."

"With Zhou Zhengliang and several others dead, the higher-ups of the Sanctuary will be furious; he will get support from some higher-ups of the Sanctuary."

"After investigating your strengths and weaknesses, Mi He will definitely take action."

"Next time, he might even come in person."

Yan Zi was originally speaking very earnestly about these matters, but as she spoke, Su Fan's large hand mischievously slipped into her shirt.

Yan Zi's slender eyebrows slightly furrowed; she didn't continue speaking, but she also didn't remove Su Fan's hand.

In the past, if a man touched her like this, he would definitely end up dead.

But with her and Su Fan, they have a fateful connection; she was thoroughly taken by Su Fan in an incredibly absurd situation.

Now, deep in her heart, she has even accepted Su Fan.

On one hand, Su Fan is outstanding; on the other, she needs Su Fan's protection, or she would surely die.

As Su Fan played with Yan Zi's proud assets, he was also thinking.

He quickly said, "What is Mi He's strength?"

Chapter 1173

Yan Zi said without hesitation, "On the surface, Mi He is at the early stage of Martial Arts Grandmaster perfection." This update is available on novelfire.net

"In reality, six months ago he was already at the mid-stage of Martial Arts Grandmaster."

"In half a year, although he hasn't reached the mid-stage Martial Arts Grandmaster perfection."

"But his strength has definitely consolidated and strengthened at the current level."

Su Fan understood what Yan Zi meant.

In the realm of Martial Arts Grandmaster, each step is like climbing to the heavens.

Even a small difference in level could result in vastly different strengths.

In his fight with Yagyu Jyugong, he crushed him all the way, eventually forcing Yagyu Jyugong to flee by jumping into the sea.

And another of the four Sword Saints of Dongying died at the hands of Mi He.

This comparison clearly shows there is a gap between him and Mi He.

Now he was even more certain that Mi He had a slight edge over him in strength.

This made Su Fan all the more eager to win over Chen Mengfei.

If he could conquer Chen Mengfei, he would obtain the seventh woman with the Extreme Yin Body, resolving the seventh fire poison in his body.

Although the path to the Martial Arts Grandmaster stage is difficult.

If he truly conquered Chen Mengfei, there should be no problem reaching the late stage of Martial Arts Grandmaster.

By then, whether it was Mi He or anyone else, they would only meet a dead end.

However, Chen Meifei was hard to handle, almost impenetrable.

She was the richest woman in Qin Province, lacking nothing in terms of money.

Her family was the top powerful family in Qin Province, wielding both power and influence.

In martial arts, the Chen family of Qin Province had two Grandmasters in one family.

In medicine, the nationally renowned doctor Chen Tangshou, who was in the top ten at the last China Famous Doctors Competition, also belonged to the Chen family.

His advantages were highly lethal to many in this world.

But for Chen Mengfei, they hardly mattered.

The only breach he could explore with Chen Meifei seemed to be through Eastern Medicine Company.

Su Fan was lost in thought, making Yan Zi wonder what he was thinking about.

Yan Zi couldn't help but ask, "Have you thought of anything?"

Su Fan certainly couldn't tell the truth, playing with Yan Zi's full and soft chest while saying he was thinking of other women.

No matter how big-hearted Yan Zi might be, she wouldn't let him get away with it.

Unlike Yan Zi, women like Wang Fei were easy to control with absolute power.

Because Wang Fei had once betrayed him, he could make Wang Fei willingly be his pet, his servile girl.

But with Yan Zi, it was different. If Yan Zi ever showed signs of betrayal, for safety, he could only end her.

Yan Zi was a Martial Arts Grandmaster and also an expert in surgical medicine.

Such a woman must be completely conquered, body and soul, or she'd be extremely dangerous.

Su Fan cleverly responded to Yan Zi's current concern.

He smiled and said, "I was thinking about when to take you to the hotel we went to today again."

Yan Zi's cheeks instantly turned red, recalling everything that happened in the hotel made her want to kill Su Fan.

She retorted unkindly, "If you dare do that to me again, I'll fight you to the end!"

Su Fan was no longer the young man who first walked out of the mountains; he was ready even for such comments.

He calmly said, "Actually, that's just how couple's hotels are; the things that happen there are what normal couples do."

"Weren't you... happy this morning?"

Su Fan's words were half-true.

Some thrill-seeking couples would engage in unimaginable acts.

But those traditional couples wouldn't go to such couple hotels.

Even when going to a hotel, they would choose a regular one, not one equipped with various couple-themed props.

Chapter 1174

Yan Zi was now lying limp in Su Fan's arms, no longer speaking.

If she said she wasn't happy when Su Fan took care of her in the morning, that would be a lie.

Moreover, she didn't know why, but compared to pure physical pleasure, she seemed to prefer those strange things.

Su Fan, of course, had no idea that the beautiful Yan Zi had a few inclinations like Zhen Bingyu.

But for him, this was obviously a very happy thing.

Yan Zi was his medical assistant, and with her superb medical skills, she could perform all the surgeries he was not good at.

In addition, Yan Zi was also a good helper when he faced strong enemies.

Yan Zi's strength was only slightly inferior to his, definitely a top expert.

And in private life, he could train the beautiful Yan Zi as if she were a little pet.

This woman was simply too perfect for him. UPDATE FROM Novel-Fire.net

Yan Zi didn't know much about the intricacies between men and women, so she accidentally said something akin to putting a lamb in a tiger's mouth.

"Next time we go to a couple's hotel, I want to try something different."

Her words left Su Fan stunned.

Su Fan had originally thought that Yan Zi would never go to such places with him again.

And since Yan Zi was a Martial Arts Grandmaster, if she didn't want to go, he couldn't force her.

Now he found that Yan Zi had a bit of a tendency to be submissive, which made him very happy inside.

He nodded his head, then took Yan Zi in his arms and gave her a passionate kiss.

Because Yan Zi was a Martial Arts Grandmaster, when he was intimate with her, he could go all out without worrying about hurting her.

Bai Man, Wang Fei, and Yin Qianyue, on the other hand, were ordinary people.

When he attacked them vigorously, he always held back a bit, otherwise, Bai Man and the others might pass out every time.

Of course, Yan Zi didn't know that while Su Fan was fondling her soft peaks and kissing her, his mind was thinking about other beauties in his harem.

In the following days, things went as Su Fan and Yan Zi had expected, remaining peaceful.

Yan Zi's arrival helped Su Fan a lot.

This woman was indeed very perfect; she was a great helper to Su Fan in martial arts, medicine, and life.

Her presence allowed Su Fan to progress further in many aspects.

As a high and mighty Martial Arts Grandmaster, Yan Zi didn't oppress Su Fan's other women.

Of course, having been trained as an assassin since childhood, Yan Zi liked to be solitary and wasn't fond of making friends.

Zhen Bingyu and Yagyu Kaori had already hit it off, but she had no intention to integrate with them.

In her life, there were only herself and Su Fan.

The news of Zhou Zhengliang and others' death couldn't be concealed forever.

In fact, this news was only hidden for four and a half days, less than five days, before Mi He and the North Europe Alliance Holy Hall Organization knew about it.

In a vineyard in England, Mi He was in the midst of conquering two fair-skinned, stunning beauties with seductive eyes.

The bloody storms of early years had granted him enough wealth and status.

He only wanted to indulge in red wine and foie gras every day, and revel on the bodies of fair-skinned beauties.

He wasn't as considerate as Su Fan, and even the blonde beauties often ended up fainting or crying because of his actions.

Mi He was still on a rapid and fierce offensive, with a pair of twin sisters now at his estate.

In the past few days, he spent most of his time on these twin sisters.

But clearly, his good days were coming to an end.

His phone suddenly rang, displaying the name Augustin on the screen.

Augustin was the highest-ranking official of the North Europe Alliance Holy Hall Organization in England and Mi He's direct superior.

Mi He had no good feelings for this man with a poker face.

And the feeling was mutual for Augustin towards Mi He.

So this conversation was destined to be unpleasant.

Chapter 1175

After the phone connected, Augustine's near-roaring voice came through:

"Mi He! You idiot!"

"Webb and his team ran into trouble; why didn't you report it?"

Webb is Zhou Zhengliang's name in England. These assassins have different identities and names in different countries.

And these identities and names can withstand verification.

Mi He heard Augustine's roar but wasn't very concerned.

He was rhythmically exercising, while toying with the soft and pink tongue of the beauty in front of him, and responding to Augustine's question.

"Mr. Augustine, I don't understand what you mean."

His words made Augustine furious.

Augustine, seething with anger, directly said:

"You useless fool doomed to die on a woman's belly, Webb and his team died in battle about five days ago, did you hear me clearly?"

Mi He was baffled, his eyes full of disbelief.

This news shocked him so much that he impulsively rammed forward.

With that collision, the petite woman in front of him rolled her eyes and then fainted.

Mi He's enraged dragon was completely stuck in the lustful flower, stuck between retreat and advance.

But he clearly couldn't care about this now because Augustine had started a full-blown tirade against him.

The intelligence from the Holy Sanctuary organization was quickly told to him by Augustine.

Mi He then learned something unbelievable; Yan Zi had betrayed him, and Zhou Zhengliang's team of five was completely wiped out!

Although he could still command many assassins, Zhou Zhengliang's team of six was his true loyalists!

Mi He, in that moment, became furious and gritted his teeth saying, "Su Fan! You deserve to die!"

Xu Ting and Yan Zi were both like his adopted daughters.

Xu Ting was picked by him as a young girl and later maintained a lover's relationship with him.

Of course, that slut was practically available to anyone.

Yan Zi was different; he hadn't gotten his hands on her yet. He originally planned to make a move when Yan Zi returned this time.

Who would have thought Yan Zi would dare betray him under the pressure of the Holy Sanctuary organization!

This time, Mi He was completely angry, completely furious.

For Su Fan, this time the wolf had truly arrived!

Just as Yan Zi imagined, Mi He didn't plan to continue sending other subordinates to deal with Su Fan; he intends to take action himself!

Just before setting out to confront, Mi He, unlike other fools, did not loudly announce this message, but kept silent.

He wants to silently slice Su Fan, then throw him into the sea to feed the fish!

Although Su Fan has always been following the Holy Sanctuary organization and Mi He through various channels.

But unfortunately, the Holy Sanctuary organization and Mi He are no ordinary adversaries.

His understanding of the current affairs of the Holy Sanctuary organization and Mi He is very limited.

Yang City, Medical University's affiliated hospital.

That day, two special applicants came to the hospital.

The hospital has been recruiting talent, so there have been continuous applicants.

Yan Zi smoothly infiltrated the hospital because it has been hiring people.

Although Yan Zi's situation allowed Su Fan to unexpectedly win the beauty and enjoy endless happiness each day.

Yan Zi's situation also made Su Fan highly alert.

Since then, every doctor the hospital hires needs to be interviewed by him and Yan Zi together.

This time, the interview was with two candidates, one old and one young.

More accurately, a crippled old man and a paralyzed young one.

The old cripple was hunched over, his spine had obviously fractured, resulting in an injury that left him unable to straighten his back even after recovery.

Not only that, his whole right lower leg was missing, currently tied with a wooden pole as a prosthetic.

Chapter 1176

In front of the old cripple, there was a young man sitting in a wheelchair, looking like he was only sixteen or seventeen.

He could only move his head and hands; the rest of his body had completely lost sensation.

Moreover, both of these people were Martial Artists, possessing martial arts realms that were astonishingly high.

If it weren't for their poor condition, Su Fan would suspect these two were assassins hired by his opponents.

Since they didn't hide their strength, Su Fan straightforwardly asked, "What are you two looking for me for?"

Yi Yaoyang, sitting in the wheelchair, smiled and said, "Principal Su, we are here to ask for your help."

Su Fan frowned, "I have my own troubles, I'm afraid I can't help you much."

It's somewhat unbelievable to say, but Yi Yaoyang and the old cripple behind him were both Martial Arts Grandmasters.

Of course, Yi Yaoyang is not some young genius. He has a strange ailment similar to dwarfism.

If someone has a disease like dwarfism, they could look like a child even at forty or fifty.

Yi Yaoyang has a similar strange disease. Although Su Fan doesn't know his real age, he is definitely not sixteen or seventeen.

After Su Fan spoke, Yi Yaoyang shook his head and said:

"Principal Su, you can help more or less."

His words made Su Fan feel a bit offended, as if he had no choice but to help.

But Yi Yaoyang dared to be offensive because he had sufficient confidence.

Yi Shanhan, who was behind him, began to take something out of a handbag.

Yi Shanhan first took out an ancient text called Dongbi Medical Prescriptions.

The name Dongbi Medical Prescriptions is unremarkable, but this book is absolutely invaluable.

This is because Dongbi Medical Prescriptions is a medical log of a doctor from Dongbi Pavilion.

This Mr. Dongbi has another name and wrote another book.

His other name is Li Shizhen, and the other book he wrote is called the Compendium of Materia Medica!

As long as this Dongbi Medical Prescriptions is genuine, it is an invaluable item for any Divine Doctor.

What's in the Compendium of Materia Medica is all here.

And what's not in the Compendium of Materia Medica, this also has!

Dongbi Medical Prescriptions can be regarded as a compilation of Mr. Dongbi's medical records and insights.

Merely with this item, Su Fan was willing to hear how Yi Yaoyang and Yi Shanhan wanted his help.

However, Yi Yaoyang's sincerity was not limited to this.

After the Dongbi Medical Prescriptions, Yi Shanhan took out An Qisheng's Elixir Record.

The name An Qisheng sounds a lot like Andersen.

But, the latter writes fairy tales, while the former was a famous alchemist during the Qin Emperor's era, supposedly having talked with the Qin Emperor through the night.

One of An Qisheng's identities is as the master of Daoist alchemical arts.

The so-called Daoist alchemical arts are essentially pondering over various elixir recipes and peculiar material formulas.

Like the Yin-Yang Xuan Metal Su Fan previously acquired, which is one of the wisdom crystals of Daoist alchemists.

An Qisheng's Elixir Record clearly documents the various elixir recipes developed by An Qisheng and his disciples and perhaps other things.

However, upon seeing Dongbi Medical Prescriptions and An Qisheng's Elixir Record appear together, Su Fan instead became cautious.

To gain something, one must offer something first!

Yi Yaoyang and Yi Shanhan were willing to stake so much, what they sought was undoubtedly significant!

It was at this moment that Yi Yaoyang revealed his true intentions.

"The Yi family is the first hidden family to be completely annihilated in the new era."

"Of the more than eight hundred people in the hidden Yi family, only Han Uncle and I remain today."

"The ancestral grounds of the hidden Yi family, set up with feng shui and mystery doors, were also completely destroyed."

"Uncle Han and I approached Divine Doctor Su to seek cooperation with you."

"Although the hidden Yi family's ancestral grounds have vanished without a trace, a clever rabbit has three burrows."

"While the hidden Yi family doesn't have three burrows, there is still a place with hidden treasures."

"In fact, most of the good things of the hidden Yi family are in that hidden cache."

"If Divine Doctor Su can help the hidden Yi family take revenge, I am willing to offer the Yi family's hidden treasures with both hands!"

Chapter 1177

Yi Yaoyang straightforwardly explained the situation, but Su Fan couldn't readily agree.

What Yi Yaoyang said was just his side of the story.

Who knows what's really going on with the hidden Yi family?

If there's an issue within the Yi family themselves, helping them would be like aiding the tyrant.

Yi Yaoyang seemed to understand Su Fan's concerns, so he could only smile bitterly:

"Actually, Uncle Bai was the one who asked us to come."

"Uncle Bai knows roughly about the Yi family's situation."

Su Fan frowned, "Grandmaster Bai Zongze?"

Yi Yaoyang nodded, it was indeed Bai Zongze who sent them.

Upon hearing this, Su Fan realized that Bai Zongze saw him bringing several Martial Arts Grandmasters to eliminate the Blood Kill Squad.

Perhaps because of this incident, Bai Zongze realized that he might be able to help the Yi family seek revenge.

Since Bai Zongze was the one who sent them, Su Fan decided to say, "I need to know the whole story."

Yi Yaoyang nodded; he was prepared to tell Su Fan everything.

Following that, Su Fan heard a long story.

The Yi family of Western Frontier originated during the Five Dynasties and Ten Kingdoms period.

Continuously passed down until fifteen years ago, it was obliterated overnight.

Compared to those hidden families with origins dating back to the pre-Qin period, the Yi family was not considered ancient.

But the Yi family, passed down from the Five Dynasties and Ten Kingdoms period, was nevertheless formidable.

Unfortunately, times have changed, and even such a family's legacy has turned to ashes by now.

The Yi family was a lineage of alchemists and doctors, skilled in medicine and alchemy.

Yi Yaoyang and Yi Shanhan, both were experts in medicine and alchemy.

The two climbed out from piles of corpses back then.

If it weren't for their exceptional medical skills and impressive means, they would already be dead.

Even though Su Fan hadn't checked the pulse of Yi Yaoyang or Yi Shanhan, he was convinced their illness was extremely difficult to cure.

It's very likely he would be helpless!

Since the Yi family was a lineage of alchemists, they naturally accumulated a large amount of elixirs and wealth.

These things were also the fuse for the Yi family's downfall.

They had astonishing wealth but lacked sufficient martial strength to guard those assets.

On one night fifteen years ago, the Yi family's retainers colluded with outsiders and looted the Yi family clean.

Yi Yaoyang had already compiled a list of the Yi family's main enemies.

It's a roster of thirty-nine names, representing thirty-five Martial Arts Grandmasters, and four Great Grandmasters!

However, many of the names had already been crossed off, with reasons of death noted.

Like the Great Grandmaster Nie Yanfang, who died of old age three years ago.

Other Martial Arts Grandmasters have also died within the fifteen years.

Some died naturally, some by accidents, some killed by enemies, some perished in duels.

The original thirty-nine names dwindled to twenty-three names.

Those three Great Grandmasters' names have not been crossed off.

The rest are twenty Martial Arts Grandmasters with varying strength.

These Martial Arts Grandmasters come from all over the world, even from chaotic places like Haiti, surprisingly, there's a Grandmaster involved in this affair.

Haiti is a very chaotic place, where people constantly live in dire conditions, struggling even to have enough food.

But still, as they say, gold shines wherever it is.

In such a place where food is scarce and people resort to eating special soil cakes to stave off hunger, a Martial Arts Grandmaster still emerged.

However, this Martial Arts Grandmaster wasn't a good person.

Despite struggling to the rank of Martial Arts Grandmaster, he was involved in the destruction of the Western Frontier Yi family.

Chapter 1178

Logically, Su Fan should refuse this matter.

At least for now, the risks and rewards are entirely disproportionate.

Yet, many names on this list make it impossible for him to refuse.

Because these names originate from the Mithra Monastery of the Secret Sect, some from the Kawabata family of Japan.

Some come from England Palieya Castle, and others from the Nordic Alliance's Temple Organization.

Even Mi He's name is on it.

Yagyu Jyugong's name is not on this list, but his father's name is.

In short, he and the Yi family of the western frontier have many mutual enemies; they are natural allies!

After hesitating for a moment, Su Fan said, "Although I really want to agree to this cooperation, I clearly don't have the ability to oppose these Martial Artists."

Yi Yaoyang said nonchalantly, "With Su Divine Doctor's growth rate, this is only a matter of time."

"And until the matter is completely resolved, the Yi family will provide Su Divine Doctor with the utmost sincerity in martial arts resources."

Su Fan hesitated for a moment and asked, "Do you want me to confront everyone on the list?"

Yi Yaoyang sighed, "Although Old Han and I would love to fight alongside Su Divine Doctor, we are currently unable to lend much help."

Su Fan pondered for a moment, then said, "What if I heal you?"

Upon hearing this, Yi Yaoyang shook his head, "Impossible."

After saying that, he continued, "If Su Divine Doctor could heal Uncle Han and me."

"After the Yi family's great vendetta is avenged, Uncle Han and I will be Su Divine Doctor's vanguard."

Since he's put it this way, Su Fan naturally wants to see what's going on.

Su Fan approached Yi Yaoyang and began to check his pulse.

After a moment, his complexion slightly changed.

The reason Yi Yaoyang is paralyzed is because most of his body's meridians have been shattered.

His secret acupoints are severely damaged.

Such injuries seem to be caused by the unique technique of a martial arts Great Grandmaster!

In addition, Yi Yaoyang has a strange disease similar to dwarfism, which keeps his appearance at sixteen or seventeen years old.

He is relatively fortunate; others with dwarfism might retain a child-like appearance.

After checking Yi Yaoyang's pulse, Su Fan continued to check Yi Shanhan's pulse.

Yi Shanhan's condition is similar to what Su Fan previously assessed; his spine has been fractured.

His injuries are also very severe, with his internal organs suffering substantial damage.

To treat these two, he must use his own precious blood.

It's no wonder that Yi Yaoyang and Yi Shanhan possess extraordinary knowledge but can't heal themselves, only barely staying alive.

Under their incredulous gaze, Su Fan said:

"Although your injuries are difficult to heal, they can still be treated slowly and recovered gradually."

"I can cooperate with you two, but as you gradually recover, and our cooperation deepens."

"I hope to see more sincerity from the hidden Yi family."

For Yi Yaoyang and Yi Shanhan, Su Fan's demands don't count for much.

What they truly care about is whether Su Fan can really heal their ailments.

Yi Yaoyang very seriously looked at Su Fan and asked, "Su Divine Doctor, you're not joking, right?"

"Can you really cure our ailments?"

Su Fan nodded solemnly, "Indeed I can, but it will require at least half a year of treatment for you to recover."

"During these six months, you can stay in the hospital."

Chapter 1179

Yi Yaoyang, this time, exchanged a glance with Yi Shanhan.

Both of them were skeptical, based on Bai Zongze's explanation and their understanding of Su Fan.

Su Fan isn't someone who makes promises lightly, but their injuries should be irreparable.

Even if their medical skills weren't as advanced as Su Fan's, they should still be capable of basic judgments.

In fact, their medical skills were indeed quite good.

In the Huaxia Famous Doctor Competition, if they were to rank the top hundred, both Yi Yaoyang and Yi Shanhan could make it.

However, they were unaware that Su Fan possessed miraculous blood with transformative powers!

With this precious blood, their recovery was not an issue at all!

If Su Fan was willing to go all out, they wouldn't need half a year; at most two months, and the two would be fully healed.

At the Medical University's affiliated hospital now, Yan Zi was present.

As long as a suitable donor was found, even Yi Shanhan's broken leg could be reattached and gradually recovered.

For ordinary people, such recovery would be extremely difficult, if not impossible.

For a Martial Arts Grandmaster like Yi Shanhan, it was entirely possible.

Next, under Su Fan's arrangements, the Traditional Chinese Medicine Department gained two more doctors and two more patients.

Su Fan also conducted certain tests on the two's medical skills.

He then confirmed that both Yi Yaoyang and Yi Shanhan were genuinely skilled.

Even if he didn't have them treat patients in the future, they could at least teach the other doctors in the department.

The arrival of these two gave Su Fan yet another big project to work on in the future.

If he could accomplish it, he could potentially create a hidden family from scratch in the new era!

After arranging for Yi Shanhan and the others to stay at the hospital, Su Fan and Yan Zi went into Yan Zi's office.

Although Yan Zi hadn't been at the hospital for long, Su Fan had already promoted her to associate chief surgeon in the surgical department.

With her exquisite medical skills, being a chief surgeon would not be a problem for her.

When only the two of them were left, they could talk about other topics.

Yan Zi asked with a bit of concern, "Has there been any news from Mi He or the Sanctum organization?"

Su Fan shook his head, "No news yet."

"But if nothing goes wrong, they should be starting to take action."

Upon hearing this, Yan Zi said, "Is there anything we need to do?"

Su Fan walked to Yan Zi's side, embraced her, and said, "No need, we'll just react to the situation as it comes."

"When they were in Northern Europe, I couldn't reach them."

"But if they enter Huaxia or come near, I should be able to learn more about their situation."

Yan Zi nodded, and then asked, "Can those two patients from the Yi family really recover?"

She was also a medical expert, reaching the pinnacle of Western medicine.

Based on her careful observations, it seemed impossible to treat the two from the Yi family.

After Yan Zi inquired, Su Fan nodded and smiled, "You don't believe me?"

Yan Zi chose to speak the truth, "I find it hard to believe that you have a medical solution that could restore them."

Su Fan, hearing this, said, "How about a bet? If I lose, I'll do something you ask me for."

"If you lose, you have to do something for me."

Yan Zi asked with some suspicion, "What do you want me to do?"

Su Fan whispered a few words into Yan Zi's ear.

After he finished, Yan Zi blushed and angrily said, "Get lost! Don't even think about it!"

As they lived together, they commuted to and from work together every day.

What Su Fan had just told Yan Zi was that he wanted her to, every day during their commute, perform oral service for him in the car.

Though Yan Zi was somewhat angry, Su Fan continued, "Don't you have confidence in your own medical skills?"

"According to your judgment, those two from the Yi family should not be able to recover."

"That way, you can't lose. Why don't you take the bet?"

Chapter 1180

Logically speaking, Yan Zi shouldn't fall for such a simple provocation.

But after Su Fan spoke, Yan Zi actually nodded.

However, she added additional terms and directly said:

"I want to use medical equipment to conduct a comprehensive examination on both of them, and only after a thorough diagnosis will I wager with you!"

"If I win, you can't touch or kiss me whenever you want; it must be with my consent!"

Su Fan thought Yan Zi would make unreasonable demands.

Hearing that it was just like this, he agreed very readily.

Moreover, he simply couldn't lose this wager.

Next, at Su Fan's arrangement, Yi Yaoyang and Yi Shanhan underwent comprehensive scan examinations.

Neither of them felt that there was a problem, as Su Fan had long said he would treat their illness.

After receiving their examination reports, Yan Zi confirmed comprehensively.

Yi Yaoyang and Yi Shanhan could not be completely cured.

Medicine isn't magic; with such severe symptoms, unless Su Fan knew magic, it was impossible for Yi Yaoyang and Yi Shanhan to be cured.

If she lost like this, she would be willing to give Su Fan oral every day in the car on her way to and from work.

At the same time, at the Cotoa Temple of the Tantric Sect.

Yagyu Jyugong, who had become the laughingstock of the global martial arts world, had made significant gains during this time!

With the help of the Dalai Master, he progressed further on his path, successfully stepping into the mid-stage of a Martial Arts Grandmaster.

According to Yagyu Jyugong's initial plan, he should now go to Yang City to settle accounts with Su Fan and wash away his disgrace!

Although he had become the laughingstock of the martial arts world, as long as Su Fan died at his hands,

he would be known for enduring hardship with patience and bearing humiliation.

However, just as Yagyu Jyugong was about to act, he received an invitation from Mi He, a Grandmaster from England.

Clearly, not only does Su Fan understand the principle that the enemy of an enemy is a friend.

Mi He, upon knowing Yagyu Jyugong's situation, prepared to collaborate with him.

Both of them are at the mid-stage level of martial arts grandmasters, and together, Su Fan seems doomed to die.

But Mi He, to ensure everything, obviously did not plan to act rashly.

He invited Yagyu Jyugong to England and had other plans.

Mi He is not a friend of the Dalai Master, but is a friend of Banbo Master.

So, Banbo Master supported Yagyu Jyugong's trip to England to meet Mi He.

After losing the battle at Tianhai, Yagyu Jyugong began roaming the world.

After breaking through to the mid-stage of a martial arts grandmaster with the Secret Technique at the Cotoa Temple, he set out again, heading to England.

In the Tantric Sect, inside the Cotoa Temple.

During this time, an unusual phenomenon occurred, that is, a burly monk died of weakness.

Everyone at Cotoa Temple is a Martial Artist, so dying of weakness is something very unbelievable for them.

But the Dalai Master and others confirmed that this monk indeed died due to excess and ultimately died of weakness.

Only no one knew where he used his brute force and essence on which wife.

Only one person at Cotoa Temple knew about this, and that was Lin Lang.

She now has the right to go out for procurement, allowing her time and opportunity to meet more men outside.

Her current principle is that she will not actively seduce any men.

However, if any man wants to have her, she will not refuse, as long as they are prepared to be drained of their life essence.

The burly monk from Cotoa Temple was the first man to indirectly die on her stomach, but he certainly won't be the last!

Su Fan is progressing, Yagyu Jyugong is also progressing, and Lin Lang is similarly progressing.

On Australia Island, someone is regressing.

It's not a regression in power, but a regression in wealth.
