

Temptation 1191

Chapter 1191

A normal sword is generally not too long, usually within a meter or around a meter.

Guo Huaigang's chain sword, wrapped around his waist, looks like a whip.

The length of this chain sword is about two meters.

For an ordinary Martial Artist to use such an unconventional weapon, let alone fight, even moving it properly is questionable.

Yet, in the hands of Grandmaster Guo Huaigang, this two-meter-long chain sword is as agile as an extension of his own arm.

While Guo Huaigang retrieved his chain sword, Su Fan was quickly moving towards his Cullinan car.

As Guo Huaigang charged forward, Su Fan also drew his Cold Spring Sword from the car.

Although his sword can be carried personally, it is evidently not as convenient as Guo Huaigang's, which can be directly wound around the waist.

"Clang——"

A clear sword chime rang out, instantly as Su Fan's Cold Spring Sword unsheathed.

Since the opponent used a weapon, it was impossible for him to continue fighting bare-handed.

A Martial Arts Grandmaster's duel, in some ways, is similar to that of ordinary people.

An ordinary person with bare hands might not fare well against many.

But give him a knife, and the situation changes immediately.

So when Guo Huaigang revealed his weapon, Su Fan did not hold back and directly revealed his own weapon!

"Swish!"

In Guo Huaigang's hand, the two-meter chain sword lashed out like a long whip towards Su Fan's neck.

If this strike hit, Su Fan's neck would either be marked with a gruesome gash or be decapitated on the spot by Guo Huaigang.

However, Guo Huaigang did not succeed; his chain sword didn't even strike Su Fan's protective aura.

"Ding!" Google search novelfire.net

A crisp sound rang out as Guo Huaigang's lashing chain sword was parried aside by Su Fan's long sword!

Sparks flew at the moment of collision.

"Clang clang clang!"

Su Fan and Guo Huaigang rapidly commenced their fierce exchange.

The chain sword in Guo Huaigang's hand, like a whip, crazily attacked Su Fan's eyes, temples, ears, back of the head, heart, and other areas.

Holding the Cold Spring Sword, Su Fan neutralized the dazzling barrage of attacks in front of him.

His defense was impenetrable and flawless.

No matter how Guo Huaigang struck, he could calmly counter.

Guo Huaigang's expression remained as cold as at the beginning.

But within, his heart was far from calm.

Su Fan's combat experience was lacking, but his talent in Tai Chi and Sword Dao stirred waves of awe in Guo Huaigang's heart!

His talent was truly monstrous.

A three-foot-long blade in his hand seemed alive.

At this moment, Guo Huaigang's continuous offense was not just to kill Su Fan but also for self-preservation.

Su Fan's defensive prowess was already formidable.

What if he launched an attack?

In gambling, Guo Huaigang was often unlucky and lacked accurate judgment.

But his judgment in martial arts was extremely accurate.

Until now, Su Fan was familiarizing himself with Guo Huaigang's moves.

He clearly saw Guo Huaigang's level through the ongoing battle.

Though Guo Huaigang sought to suppress him with persistent offensives, Su Fan, after blocking another of Guo Huaigang's strikes, initiated his own attack.

Guo Huaigang also knew that Su Fan couldn't always remain defensive.

But he thought that his continuous offensive would definitely leave Su Fan unable to defend at all.

Clearly, he underestimated Su Fan. When Su Fan decided to strike, he could strike at any moment!

This time, the chain sword in Guo Huaigang's hand transformed like a sharp lance, aiming directly at Su Fan's heart.

Before, Su Fan would have chosen to dodge.

This time, Su Fan didn't do so; he directly swung his sword to meet it head-on!

Chapter 1192

"Clang!"

A loud clash of metal erupted, and then Guo Huaigang's chain sword was easily deflected by Su Fan.

Su Fan quickly closed in, swiftly reducing the distance between them.

Guo Huaigang's chain sword had a length advantage, so naturally, he didn't want Su Fan to get close.

Unfortunately, years spent in casinos had drained Guo Huaigang's vitality.

In the ongoing duel, Su Fan's condition showed no signs of decline, while Guo Huaigang's had deteriorated severely.

In a moment of haste, trying to distance himself from Su Fan, he realized he couldn't achieve that.

Su Fan's speed was far superior to his.

One of the major reasons peculiar weapons are rarely used is due to their significant defects!

Like now, as Su Fan quickly closed in, the chain sword, which had been wreaking havoc earlier, instantly became scrap metal.

This made Guo Huaigang too afraid to fight and retreat simultaneously; he simply turned around and ran!

Compared to ordinary martial artists, Martial Arts Grandmasters are more adaptable in times of trouble.

Many martial artists would rather die in battle than flee.

Most Martial Arts Grandmasters are different.

If they can escape, they will never fight to the death.

Once Guo Huaigang started to flee with all his might, Su Fan pursued him relentlessly from behind.

Guo Huaigang isn't much of an impressive figure; he's not Su Fan's opponent.

But the others around him are not Guo Huaigang's match.

As Guo Huaigang's condition was poor this time, having lost his will to fight, Su Fan had to eliminate him.

When Guo Huaigang arrived, he thought he was carrying a bag to collect money.

Only after truly clashing with Su Fan did he realize this money wasn't his to earn.

So at this moment, he can only flee, knowing full well that next time he absolutely won't come alone to trouble Su Fan.

Su Fan and Guo Huaigang quickly entered the back hills of the Bai Yulan villa area.

The terrain here is extremely complex, advantageous for Guo Huaigang's escape.

But the numerous obstacles here made his chain sword increasingly difficult to use.

Su Fan's Cold Spring Sword, however, was almost unaffected in this place.

Thus, when they clashed again, Guo Huaigang was forced to engage with bare hands.

Facing such a formidable enemy, Su Fan certainly wouldn't fight him fairly.

If anyone wants to kill him, he would use any means necessary to eliminate them first.

"Swish! Swish! Swish! Swish!"

Su Fan's Cold Spring Sword isn't cheap merchandise, nor is it a mere artifact, but a divine weapon taken from the Bai family's ancestral land.

When Guo Huaigang previously collided weapons with the Cold Spring Sword, Su Fan's sword didn't show significant advantage.

Now, as Guo Huaigang engaged barehanded, he suffered greatly.

Even with True Qi protecting him, a fierce blood scar instantly appeared on his shoulder!

This made Guo Huaigang more apprehensive and fearful of Su Fan!

He looked at Su Fan with eyes full of jealousy and resentment.

He envied Su Fan's youth and possession of all that he had, resenting Su Fan's relentless pursuit.

But jealousy is useless, and so is resentment.

He must either find an open place to fight Su Fan desperately, or continue to flee.

Guo Huaigang chose to escape, but in Su Fan's hands, apart from the Feiyu Liu Shengteng Palace.

No one else, regardless of their strength, managed to escape.

This time, Guo Huaigang came all the way to Yang City with malicious intent towards Su Fan and his woman, a highly vile matter.

Su Fan would never allow this man to escape.

Guo Huaigang's survival instinct was incredibly strong, but this time he was clearly unable to escape.

When Guo Huaigang stopped, Su Fan swung his sword at him.

Even while Guo Huaigang was fleeing, Su Fan continued to chase him, swinging his sword.

Chapter 1193

Faced with this situation, he could only desperately maintain his protective chi force.

A martial artist using protective chi force drains a lot of martial True Qi.

Martial True Qi is not as boundless as the ocean; it is limited.

As time passed, Guo Huaigang's martial True Qi was swiftly being depleted.

His condition was already on the decline, and now in this chaos, as his martial True Qi rapidly drained, his state became even worse.

In the past, to create a storm on the gambling scene, Guo Huaigang had taken on numerous assassination missions.

Every time he was on a hunt, he experienced a mischievous cat-and-mouse feeling.

However, this time, the tables turned, and he became the prey instead of the hunter.

The pain and fear that his prey had to endure, this time he experienced it all himself.

Although protective chi force is formidable, it's not as tough as aircraft carrier armor.

Under Su Fan's relentless attacks, Guo Huaigang's injuries were mounting.

At this moment, he lost the boldness he had shown when entering the Bai Yulan villa district.

The more arrogant and invincible he had been then, the more pathetic he was now.

But his luck didn't seem to have completely abandoned him.

After a frantic and blind escape, he stumbled upon an open area.

Though his condition was dreadful, he chose to stand and fight to the death here!

"Swish!"

He swung his arm, and the chain sword, about two meters long, lashed out towards Su Fan again.

Here, without any rocks around, he no longer had to worry about his chain sword being obstructed.

"Clang!"

Su Fan blocked with his sword while swiftly advancing.

Guo Huaigang wouldn't let Su Fan get close so easily; missing his strike, he swiftly retracted the chain sword, which then lunged like a serpent spear.

Su Fan sidestepped this time and leaped into the air, bringing his sword down.

Seeing Su Fan dodge sideways, Guo Huaigang's heart leapt with joy.

His chain sword swept horizontally, but as soon as he made his move, Su Fan was already airborne.

Su Fan had precisely predicted his follow-up attack and responded accurately.

It was clear who the ninth-level prodigy was, and who the top-tier expert was!

"Pfft!"

Su Fan's sword light exploded on Guo Huaigang's shoulder.

The resulting sword wound was so severe that Guo Huaigang could no longer continue his assault.

Su Fan, towering above, struck down with his sword.

This strike aimed directly at Guo Huaigang's heart!

"Buzz——"

Guo Huaigang was shocked and quickly raised his protective chi force.

But his condition was truly poor.

The hastily bolstered protective chi force had very limited defensive power.

"Crunch!"

His protective chi force only resisted Su Fan momentarily before he heard a death knell.

The shattering sound of the protective chi force was akin to the tolling of a funeral bell.

"Pfft!"

Su Fan's Cold Spring Sword, sharp beyond compare, pierced straight into Guo Huaigang's heart with unstoppable force.

Guo Huaigang's hand, tightly gripping the chain sword, slowly relaxed at that moment.

At the end of his life, all the scenes from his life began to flash by.

He saw a young man diligently practicing Zha Mabu and standing postures, learning martial arts.

He also saw the sweet-smiling junior sister, and the gentle master-wife embracing her.

Although he had become a Martial Arts Grandmaster step by step, the happiest times in his life were when he first learned martial arts.

If he could start again, he wouldn't go to the casino; he would dedicate his entire life to practicing martial arts.

Sadly, life is irreversible, and his life was finally over.

The one who ended his life was Su Fan, a genius martial artist with limitless potential in the future.

By the time the others arrived, Su Fan had already sheathed his sword and stood there.

Guo Huaigang did not seem very strong to him.

Chapter 1194

Su Fan didn't know whether it was because the opponent was inherently weak or for some other reason.

However, to others, it wasn't like that.

In the eyes of onlookers, it was Su Fan using the early-stage power of a Martial Arts Grandmaster to fight against a mid-stage Martial Arts Grandmaster.

And for the most part, he successfully suppressed the opponent.

In the end, he even chased down and successfully killed the opponent.

The path of martial arts, once it reaches the level of Martial Arts Grandmaster, is like ascending the heavens in one step.

For example, asking a middle school student to answer college entrance exam questions is outright absurd.

Even a minor difference in level among Martial Arts Grandmasters can result in a significant disparity in strength, possibly much greater.

This time, the clean-up work still fell to the Ning family's Martial Artists to handle.

Although Ning Zhengde and Ning Tianhe hadn't returned yet, there were other Ning family experts in the Ning family villa.

Guo Huaigang died, and in a certain sense, Su Fan offended the Yuan family, at least offended Yuan Youzhenhe.

But he didn't care, the safety of him and those around him was his bottom line.

This bottom line cannot be crossed by anyone, not even by powerful families like the Yuan family.

The Eastern place has always been very chaotic.

There, sometimes the Shogun ruled, sometimes the Kanpaku, and sometimes the Daimyo, etc.

But after the Genpei War, the victorious Yuan family remained the Underground Emperor of the East.

In the land of the East, whoever has the most power is called the King of the East.

For a long time, the Yuan family has been the undisputed King of the East.

Although the current Yuan family can no longer influence or rule the whole of the East.

The Yuan family is still the Underground Emperor of the East.

But neither Yuan Youzhenhe nor the current Yuan Shengjing can fully represent the Yuan family.

So Su Fan killing Guo Huaigang only offended Yuan Youzhenhe.

Yuan Youzhenhe having Guo Huaigang deal with Su Fan wasn't entirely a spur-of-the-moment decision.

Because Yuan Youzhenhe has a friend named Mi He.

Mi He wanted to truly ascertain Su Fan's strength.

Guo Huaigang's death certainly revealed a lot to Mi He.

Guo Huaigang was in communication with Yuan Youzhenhe's subordinates.

He carried monitoring equipment, and Yuan Youzhenhe even knew what he said to Su Fan and the others.

His death notice, of course, was known to Yuan Youzhenhe.

Yuan Youzhenhe had already left Australia, heading to South Korea.

For someone like Yuan Youzhenhe, the whole world is his playground.

He can spend each wonderful night with various beautiful women anywhere in the world.

Guo Huaigang's death made him remember Su Fan, but he took no further action against Su Fan.

He only passed the relevant information to Mi He.

Su Fan has been monitoring the movements of the Yuan family through various channels.

Although the Yuan family didn't take follow-up action against him, he remains vigilant to the family.

And indeed, within the Yuan family, someone was keeping an eye on Su Fan.

That person was none other than the Yuan family's prodigy, Yuan Shengjing.

Yuan Shengjing knew that there were geniuses among other top martial arts powers.

But to his knowledge, those geniuses were not of the same age as him.

When those people shone brilliantly, they were all twenty-seven or eight, or even in their thirties.

The recently discovered Su Fan was different; Su Fan was even younger than him.

Judging by Su Fan's current performance, it's very likely that he is not Su Fan's match at present.

This feeling is very unpleasant to Yuan Shengjing!

So he has made up his mind to become the youngest Great Grandmaster of his time!

Once he becomes a Great Grandmaster, he will go to China to challenge Su Fan.

If by that time, Su Fan hasn't become a Great Grandmaster, then he will have to die!

Chapter 1195

Su Fan didn't know that a strong adversary had already appeared in a place he couldn't see.

In the few days after eliminating Guo Huaigang, his life gradually returned to normalcy.

Although openly and secretly, there were still many people who wanted to deal with him.

But as long as he stayed in Yang City, those people would have to think twice, even thrice, before making a move.

The most pressing matter for Su Fan in the days ahead was the provincial contest of the Chinese Divine Doctor Competition.

The competition was coming soon.

With his medical skill, standing out in the provincial competition, even achieving the top five, or top three, would be an easy feat.

But his goal was not to be in the top five or even the top three, but to be first.

He aimed to achieve first place in the preliminary rounds, city-level contests, provincial contests, and the national competition, to win the highest honor of being the first Divine Doctor of China.

However, in terms of medical skill, there wasn't much he could prepare or improve upon.

His medical skills had already reached a high level, and if he wanted to improve further, he needed to study more advanced classics.

As well as conduct independent research, comprehend and create, breaking new ground.

Throughout history, every doctor who reached his level strived to take step after step, enhancing the traditional Chinese medicine system.

While preparing for the provincial contest of the Chinese Divine Doctor Competition, his cooperation with Grandmaster Bai Zongze also continued.

Grandmaster Bai Zongze was very easy to communicate with; since the cooperation began, he had helped Su Fan a lot.

However, it was clear that Bai Zongze was concealing something from Su Fan.

As their cooperation deepened, Su Fan vaguely sensed that Bai Zongze wanted him to go to the Bai family's ancestral land to find something.

But Bai Zongze never explicitly said so, and Su Fan didn't bring up the matter.

In the following days, Su Fan's life completely returned to normal.

Even though he had many enemies around the world.

He was even listed with a bounty of two billion US Dollars on the darknet.

But as his strength continued to grow, all his enemies and international assassins tempted by the two billion US Dollars wouldn't easily take action.

Among them, some international assassins even gave up on the task altogether.

In the office of Yan Zi at the Affiliated Hospital of the Medical University.

Not only was Yan Zi there, but Su Fan was also present.

The first place where they sparked was in the hospital.

Since then, it seemed like they could spark at any moment.

At that moment, Yan Zi was completely embraced by Su Fan.

Of course, Su Fan wasn't just holding Yan Zi; his "divine spear" touched the delicate deepest part of Yan Zi.

Yan Zi had a strong adaptability, though she had remained pure for over twenty years.

Now she was completely used to being wantonly explored by Su Fan anytime and anywhere.

She held Su Fan with both hands, curiously asking, "You don't seem to be worried about your situation at all?"

In Yan Zi's view, Su Fan's situation was truly difficult, with enemies all over the world.

If it were someone else, they might not be able to eat or sleep peacefully.

But not Su Fan; the pressure from every direction had no impact on him.

After Yan Zi's inquiry, Su Fan casually replied, "I was only a bit nervous at the very beginning."

"Back then, I was just a Martial Artist in the Hua Qi Realm."

"After becoming a Martial Artist in the Gang Qi Realm, no matter how surrounded by strong enemies I was, I could remain calm."

"No matter how anxious I am, what's meant to happen will happen."

"Although I am not weak now, and have a group of powerful martial artists around me."

"I still can't completely eliminate my enemies around the world."

"So what I can do is live my life well, do my best to enhance and develop my power."

"I aim to send all of them to hell before they can take me down."

Chapter 1196

Yan Zi listened to him and slightly frowned, saying, "Can you let me lie on the sofa?"

Su Fan casually asked, "Why?"

Yan Zi said helplessly, "It's a bit uncomfortable pressing like this."

Su Fan laughed and said, "I find it most comfortable like this."

Yan Zi rolled her eyes at him and continued, "Change to another position, sitting face to face is also fine."

Even so, Su Fan still did not agree.

Not only did he not put Yan Zi down, but he also held her and walked towards the window on the side.

This action startled Yan Zi: "What are you doing? Someone will see!"

Su Fan said indifferently, "It's fine, the hospital's glass is one-way; you can only see out from the inside, you can't see anything from outside."

After he said this, Yan Zi did not continue to object.

However, Yan Zi soon realized something was wrong, as there was a window that was open.

She promptly said, "That window over there is open!"

Su Fan, of course, saw that the window was open, so he moved a little further away from it with Yan Zi.

At this position, Yan Zi completely dared not move recklessly.

She felt that if she moved even a little, people outside could see her performance.

At the same time, at a vineyard in England.

Mi He was in a very bad mood.

Even though he had met Liu Sheng Jyugong and helped him make a connection with Palaiya Castle.

He still lacked confidence in getting rid of Su Fan.

By now, he already knew that Guo Huaigang had died at Su Fan's hands.

Su Fan's judgment was very accurate.

Although Guo Huaigang was a mid-stage Martial Arts Grandmaster, among all Grandmasters of the same realm, he was a weakling.

According to Mi He's investigation, Guo Huaigang's level was at the bottom among the same-rank Grandmasters.

Even so, he was still a mid-stage Martial Artist.

Su Fan being able to kill him shows that Su Fan's strength is very strong.

Su Fan was either always this strong or made immense progress in a very short period.

Based on Su Fan's previous actions, Mi He completely confirmed that Su Fan's situation belonged to the latter.

This made it even more troublesome for him to deal with Su Fan.

However, Mi He was also determined to completely resolve Su Fan!

To eliminate Su Fan, Mi He not only found Liu Sheng Jyugong but also identified a potential enemy of Su Fan, the Sun family from Yu Di.

Yu Di initially belonged to Shu Di.

With economic development, the administrative status of Yu Di was also improved.

Yu Di also had top noble families like the Chen family of Qin Province, and there were two such families.

The Sun family of Yu Di was one of the two ultra-first-class noble families.

The main body of the Sun family is the Mountain City Pharmaceutical Group.

The name of Mountain City Pharmaceutical Group may be simple, but its strength is extraordinary.

Every market has competitors and leaders.

Mountain City Pharmaceutical Group is one of the largest giants in the Chinese medicine market.

Originally, they had a very high market share and were raking in money.

The development of Eastern Medical, however, has caused significant disruption to them.

Su Fan's Eastern Medical Group currently dominates the market throughout Qin Province.

The brand and reputation of Eastern Medical in the Chinese medicine field have reached the top position in China.

Their medicines have already replaced the vast majority of Western medicines.

While defeating Western medicine, many traditional Chinese medicines and patent medicines were also overtaken by them.

Their medicines from Eastern Medical, with good efficacy, high quality, and beautiful prices.

With these three blows, no matter how capable other peers are, they can't withstand it.

The Mountain City Pharmaceutical Group of the Sun family from Yu Di is the biggest victim.

Chapter 1197

Originally, the Qin Province was also an important market for them, but their medicines and health products have become completely unsellable there.

Moreover, their markets in other regions are also experiencing massive impacts.

This is causing significant headaches for the Sun family in Chongqing, concerning Eastern Medical Group.

In the past, encountering such situations, the Sun family remained as steady as a mountain.

If their products couldn't compete with others, they'd simply buy out the competitor's products or even the company itself.

If the size of the opponent's company was too large, they would acquire interests through holding shares.

Eastern Medical Group is very special.

This company, led by founder Su Fan, holds 67% of the shares and has a unique regulation.

Other individuals and groups cannot own more than 1% of shares, and acquiring shares of Eastern Medical Group is not an easy matter.

The company is not publicly listed, making purchasing its stocks on the market impossible.

Furthermore, it is backed by Su Fan and the top family in Qin Province, the Chen family.

Whether facing blatant attacks or hidden schemes, they remain unafraid.

Unless their products can defeat those of Eastern Medical, the Sun family's Mountain City Pharmaceutical Group will face great difficulties.

Although the Sun family has ample advanced equipment and talent, no amount of superior level talent can match a truly extraordinary genius.

Any product from the Sun family meets the competitive products of Eastern Medical in the market and gets thoroughly defeated.

The current president of the Mountain City Pharmaceutical Group is Sun Ruidong.

Sun Ruidong is not a direct descendant of the Sun family; he comes from a humble background, merely grassroots. His parents are workers in the Mountain City Pharmaceutical Group.

But one's origins are merely a starting point, not the final destination.

After joining Mountain City Pharmaceutical Group, Sun Ruidong spent nineteen years progressing from a regular worker to the position of president of the group.

Nineteen years of striving resulted in today's achievements, something Sun Ruidong can certainly take pride in.

Yet, like many who succeed, he quickly became corrupted after achieving success.

Now, upon reaching forty, he is no longer inclined to continue his pursuit.

As a professional manager hired by the Sun family, he only wants to oversee Mountain City Pharmaceutical Group's domain.

However, the troublesome Eastern Medical continues its aggressive expansion, consistently thwarting Sun Ruidong's desires.

"Hah—"

Feeling frustrated, Sun Ruidong lit another cigarette.

His secretary, Jiang Wenli, sat silently on the floor in front of him, attending to his needs.

Jiang Wenli may be his secretary, but he doesn't require her to do anything; Jiang Wenli simply needs to be 'done' by him.

As president of the group, Sun Ruidong has not just one, but five secretaries.

Of course, his five secretaries basically don't need to do any work.

The reason he has five secretaries is because getting injured while acting as his secretary is commonplace.

Sun Ruidong has a peculiar hobby of violently injuring women during sexual encounters.

The Sun family's hidden executives in Chongqing are aware of his actions.

Although the upper echelons know, they're indifferent.

Sun Ruidong only needs to manage the company well and earn plenty for them; they need a corporate president, not a moral exemplar.

After taking a few puffs, Sun Ruidong said to Jiang Wenli, "Undo the buttons."

Secretary Jiang Wenli could not help but tremble at his words.

Her gaze towards Sun Ruidong was full of fear and pleading.

Because Sun Ruidong wasn't going to touch her gently but intended to burn her with the cigarette.

"Sizzle!"

Soon, a strange sound echoed through the quiet office.

Tears rolled down Jiang Wenli's watery eyes.

Yet Sun Ruidong had no intention of letting her off, instead, lighting up another cigarette with his lighter.

Jiang Wenli knew that such behavior would repeat many times, after which she'd recover from the injuries, replaced by another secretary.

Once somewhat healed, this nightmare would resume again.

She could certainly choose to resign, but with her education and capabilities, anywhere else or even selling herself wouldn't yield her current high salary.

Thus, she could only silently endure the corporate president's abuse.

And at this moment, Sun Ruidong finally made up his mind.

To officially partner with Mi He of England to take down Su Fan!

Once Su Fan is dead, Eastern Medical Group will be nothing but weak sheep.

Chapter 1198

Su Fan didn't know that invisibly he had gained another rival.

This was an unfortunate but necessary situation to accept, because struggle itself is long and complex.

In a struggle, temporary gains and losses are not important.

What truly matters is ensuring you laugh last, becoming the real winner.

Among all his opponents, the one that troubled him most so far was likely the Liu Sheng family from Japan.

Even though this opponent had been thoroughly defeated by him.

But when they were enemies, they would not let go once they bit into him, relentlessly pursuing him, determined to root him out.

If the Liu Sheng family had the strength of the Kawabata family at that time, the fate of both parties might have been rewritten.

No matter how the outside world changed, Su Fan was always on the track he had preset for himself.

No matter what actions the Mountain City Pharmaceutical Group in Chongqing planned to take against him or the Eastern Medical Group.

At this moment, he was preparing for the provincial competition of the upcoming China Divine Doctor Contest.

Many people were quite interested in this competition.

The people in the medical system, needless to say.

They were naturally interested in medicine, and such a contest was something they couldn't miss.

Many celebrities and bigwigs from various sectors of society were also very interested.

Birth, aging, sickness, and death are natural to humans, but those who control vast resources clearly hope to receive treatment from famous or divine doctors when they fall ill.

The true caliber of a doctor.

Can clearly be seen in the provincial competition of the China Divine Doctor Contest.

In the affiliated hospital of the Medical University, Su Fan read through all the medical insights and ancient medical books he obtained from various channels.

At his current level of medical skill, while such activities could improve him, the improvement is limited.

While Su Fan focused most of his energy on the provincial competition of the China Divine Doctor Contest, he received a call from Wang Xiaoxiao.

The Eastern Medical Group was mainly handled by Wang Xiaoxiao.

Although Su Fan held the position of CEO, he was more like a chairman who hardly participated in management, with Wang Xiaoxiao being the true CEO.

Ordinarily, Wang Xiaoxiao would hardly ever contact Su Fan.

But this time, the matter was too significant, and she needed to inform Su Fan about it.

When Su Fan answered the phone, he asked, "What's the matter?"

Wang Xiaoxiao truthfully said, "Our pharmaceutical processing plants in many places have been sabotaged."

Su Fan frowned slightly and continued to ask, "Has an investigation been conducted to find out what happened?"

Wang Xiaoxiao said, "No, these people are very skilled and completely avoided the surveillance."

Those who can entirely avoid surveillance are, of course, martial artists.

The rapid development of the Eastern Medical Group had understandably offended some people.

The market profits they could easily pocket without lifting a finger were now blocked by Eastern Medical, leaving them to idly consume their resources.

If it were a small company encountering such a situation, they could only consider themselves unlucky.

But this time, those facing off with the Eastern Medical Group were obviously not ordinary people.

The opponent's action seemed more like a warning to the Eastern Medical Group.

The implication was that Eastern Medical Group was not simple, and neither were they easily provoked.

Su Fan's judgment was entirely correct.

Sun Ruidong, although president of the Mountain City Pharmaceutical Group, needed the nod from the direct descendants of the Hidden Sun Family to mobilize a large martial force.

Sun Ruidong had accepted favors from Mi He and naturally wanted to ally with Mi He to crush Su Fan in one blow.

But the Hidden Sun Family did not have the intention to fight to the death with Su Fan from the start.

Therefore, Sun Ruidong's plan was not fully approved by the Sun family leaders.

However, the Sun family leaders did take some actions, waiting to see the outcome.

Chapter 1199

Chongqing, Mountain City Pharmaceutical Group Headquarters, President's Office.

Sun Ruidong was extremely angry as he smashed the thermos heavily onto the ground.

"Idiots! Idiots! A bunch of idiots!"

People who accomplish great things, of course, have no reason to get angry easily.

As the saying goes, a general's forehead can let a horse run, a prime minister's belly can support a boat, that's just how it is.

In fact, since becoming the president of Mountain City Pharmaceutical Group, Sun Ruidong had rarely been this furious.

Most of the time, he could suppress his anger deep inside and not let it explode easily.

But this time, he was almost driven mad by the high-ups of the Sun family.

They either disagreed with his proposals or they followed the plan he described.

He long knew that those boorish martial artists lacked foresight.

So this time, how exactly to proceed, he had made it abundantly clear.

Yet, the Sun family high-ups, regarding his application against Su Fan and Eastern Medical Group,

neither completely agreed nor completely rejected but took action on their own.

"Alas..."

Sun Ruidong sighed heavily, sitting back on the sofa.

In such matters, either do nothing, or act decisively!

This time, the Sun family high-ups startled the snake by hitting the grass, undoubtedly putting them at a disadvantage.

The hidden Sun family should either continue to endure or show their stance and get serious with Su Fan.

At present, being noncommittal would only make matters more complicated and harder to handle.

Although Sun Ruidong was not a martial artist, his judgment was quite accurate.

It's very difficult to make something flawless.

Even though the martial artists of the Sun family were elites, they still left some flaws.

And Su Fan's subordinate, Chen Hanqing, happened to be a computer expert.

The Sun family's hackers and the destroyed surveillance and related data by the martial artists of the Sun family had been restored by Chen Hanqing.

Not only that, but Chen Hanqing had also followed the trail, quickly piecing together a rough investigation of the matter.

Relevant departments needed to follow procedures to handle such things.

Chen Hanqing did not; he could do these things at his whim based on his superior technology.

Four hours after Su Fan's call with Wang Xiaoxiao, Chen Hanqing dialed in to report his investigation results.

Su Fan solemnly asked, "Hanqing, how's the situation?"

Of course, Chen Hanqing didn't disappoint him. A diligent genius can reach incredible heights in the tech field.

Upon Su Fan's inquiry, Chen Hanqing laid out the results of his investigation.

"Mr. Su Fan, this was done by Mountain City Pharmaceutical Group in Chongqing."

Su Fan did not previously know about this Mountain City Pharmaceutical Group in Chongqing; he had too many matters to deal with to concern himself with competing companies.

However, rivals are enemies. It's not surprising that they adopted such unfair means in business warfare.

Cutting off someone's financial source is akin to murdering their parents; that's likely how Mountain City Pharmaceutical Group viewed Eastern Medical.

Su Fan did not interrupt Chen Hanqing and continued listening to him.

Chen Hanqing continued, "Mountain City Pharmaceutical Group is backed by the hidden Sun family."

"I have found very little information regarding the hidden Sun family..."

Then, Chen Hanqing relayed all the intelligence he had gathered to Su Fan.

After hearing him out, Su Fan understood that this issue was not an ordinary business battle but a significant affair.

To him now, a loss in profit was not considered a real loss.

Not to mention, Eastern Medical was hard to defeat in the market, even impossible to defeat.

This matter, however, was not that simple as business warfare.

Ordinary people need to follow rules; martial artists do not.

Martial artist organizations are often groups that don't follow the rules.

For this reason, Dragon Unit's management of martial artists and their organizations is somewhat special.

Chapter 1200

Although the Sun family in Yudi hasn't directly targeted Su Fan, he still sensed a signal of danger.

The Martial Artists from the Sun family previously took action to warn, aiming to stop Eastern Medical Group from affecting their business.

After Chen Hanqing finished explaining everything.

Su Fan asked Chen Hanqing to find the phone number and related information of the Mountain City Pharmaceutical Group's president.

To his surprise, the other party seemed to be merely a spokesperson or puppet of the hidden Sun family.

This made him hesitate about whether to call them.

After contemplating, Su Fan decided to communicate, opting for diplomacy before force.

In the president's office of the Mountain City Pharmaceutical Group.

Sun Ruidong pressed Jiang Wenli's head, making her kneel before him and serve him passionately.

With the other hand, he answered the phone.

As the call connected, he heard a notably young voice.

"I am Su Fan from the Eastern Medical Group. Regarding the recent incident, President Sun needs to provide me with a reasonable explanation."

Upon hearing this, Sun Ruidong couldn't help but curse again at the hidden Sun family, calling them a bunch of idiots.

If they wanted to deal with Su Fan, they should have swiftly and resolutely eliminated him.

Not announcing to everyone that they were going to deal with Su Fan.

Since Su Fan traced it to Mountain City Pharmaceutical Company and directly called him.

This meant that making excuses would be futile.

Sun Ruidong didn't reach his position by chance; it was wholly due to his capability.

After a moment of silence, Sun Ruidong said, "How does Mr. Su wish to resolve this matter?"

He tossed the ball back to Su Fan.

But Su Fan had no intention of playing 'ball' with Sun Ruidong.

Though Sun Ruidong has authority in Mountain City Pharmaceutical Group, the Sun family's Martial Artists aren't under his command.

Su Fan straightforwardly stated, "The Eastern Medical Group's prior losses must be compensated by the Mountain City Pharmaceutical Group."

"Furthermore, such incidents must not occur again in the future."

Su Fan didn't mind having more adversaries, but he wasn't inclined to make enemies at every turn.

The Kawabata family of Japan, England Palieya Castle, the Esoteric Kuta Temple, the North Europe Alliance Holy Hall Organization.

These opponents are beyond reach and cannot easily harm him.

The hidden Sun family in Yudi is not the same.

If these people were truly provoked, they might be capable of challenging him.

Su Fan desired peaceful development and fair competition.

However, neither Sun Ruidong nor the hidden Sun family shared this view.

His current generosity led Sun Ruidong to a wrong judgment.

In Sun Ruidong's view, the reason Su Fan was being so conciliatory was likely because he was overwhelmed.

This seemed normal, given Su Fan had adversaries all over the world.

If other Martial Arts Grandmasters had as many enemies, they'd be struggling and extremely anxious.

Throughout his life, Sun Ruidong has made numerous mistakes, but this was undoubtedly his gravest error.

Thus, his response to Su Fan was, "To the hidden Sun family in Yudi, I'm merely an outsider."

"However, I can accurately convey the intentions of the hidden Sun family to you."

"Which is, they hope that you and the Eastern Medical Group keep your hands off things you shouldn't be taking."

Faced with Sun Ruidong's arrogant words, Su Fan remained calm and asked:

"Is this your intention, or the Sun family's?"

Sun Ruidong laughed, "This is both my intention and that of the hidden Sun family."

Since both sides already had bad blood and Su Fan seemed to appear weak, he chose to be emphatic.

The more forceful he was now, the greater their advantage in subsequent negotiations.
