

Temptation 120

Chapter 120 - 120 Yin Qianyue

Su Fan would never do that.

"You want me to sleep with her despite her being my enemy? You, what are you thinking?"

"Her name is Yin Qianyue, she's one of the directors on our company's board and also serves as the executive director. I'm the sales director. She often looks down on me and finds trouble with me. Now, our company is going to promote a deputy general manager, and she is my biggest competitor. So, I want to take her down, understand?"

After hearing all this, Su Fan felt shocked.

Wang Fei was quite scheming, wasn't she?

However, Wang Fei, a girl from rural areas, managed to become the sales director. It obviously wasn't possible without certain tactics.

Besides, hadn't Bai Man also arranged for him to be a spy under Liu Ye?

Alas, the world in the city was truly complex.

Women were even more complex.

But what surprised Su Fan even more was this.

Yin Qianyue, so young yet already a director and executive manager of a big company, was clearly even more extraordinary.

During the time Su Fan had been in the hospital, he had also come to understand some of the pharmaceutical industry.

Baiwei Pharmaceutical, where Wang Fei worked, was a well-known large pharmaceutical company in the province, and its chairman was one of the top ten richest entrepreneurs in Yang City.

After thinking for a moment, Su Fan said.

"Fei Jie, you've been so good to me, I definitely want to help you out, but I don't know this Yin Qianyue at all. A woman like her certainly looks down on others, and I won't even have a chance to get close to her. I can't just rush up and force myself on her..."

"I have a way, I'll show you a video that will shock you."

"She might not be as cold and unapproachable as you think."

With that, Wang Fei opened a video.

It seemed to be taken covertly.

It was shot from outside a window.

A woman was tied up and hanging mid-air.

Although the lighting was dim, and only half her face was shown, Su Fan still recognized her at a glance.

Yin Qianyue.

Because Yin Qianyue's figure was too distinctive and too beautiful, she was easy to identify.

"What, what is she doing?"

"Is someone torturing her?"

However, Wang Fei laughed

"This is not torture, but pleasure. Also, it's not done by someone else, it's her own doing."

"What do you mean?"

Su Fan was totally confused

"Training."

"Have you ever heard of the alphabet circle?"

Su Fan had, of course, heard a bit about it.

"You mean, she, she enjoys being abused, an 'M'?"

Wang Fei nodded her head.

"If I'm not mistaken, that's correct. She only has masochistic tendencies, but hasn't found her master yet, she's a stray dog."

Stray dog?

This term shocked Su Fan for an eternity.

He had just trained Luo Ya yesterday.

But his own antics were clearly not up to the mark compared to these seasoned players.

"So, what you mean is, you want me to become her master?"

Su Fan asked tentatively.

"Indeed."

Wang Fei nodded again.

"She's our company's executive director. It's not just about catching her in a compromising position; I want to control her long-term."

"Because of her special position, she's well aware of many company secrets, which would be a great help for my career advancement, you get me?"

"But, isn't this immoral?"

Su Fan said with some concern.

He had been with several women, but his inherent good nature remained.

In ancient times, which hero didn't have a bevy of wives and concubines? Even emperors renowned throughout history had three thousand in their harem.

But sleeping around is one thing, and one's true nature is another.

Bringing harm to others always seemed somewhat wrong.

"How could that be immoral?"

When Wang Fei saw Su Fan resisting, she immediately launched an offensive, saying with emotion.

"The workplace is inherently full of deceit. In the city, if you don't play some tricks, you'd have been sent back to the countryside long ago."

"Further, it's her own masochistic preference. You're just indulging her taste. Perhaps, you'll even be helping her."

Listening to this, Su Fan was startled.

The logic of women was indeed unique.

Although what Wang Fei said seemed somewhat reasonable, Su Fan still felt like something was off.
