

Temptation 31

Chapter 31: Peach

"This kid, truly delicious."

After a bath, Bai Man entered dreamland with satisfaction.

But Su Fan couldn't sleep.

He felt ashamed, not knowing how to face Li Jian again.

He was excited, Bai Man was just too enchanting.

He was even somewhat looking forward to it, looking forward to truly entering Bai Man's body.

That must be an extremely wonderful feeling.

He took out his phone, appreciating the "benefits" Wang Fei had left him.

Appreciating Bai Man's craziness.

Suddenly, he thought of Bai Man's words.

"Did Sister Fei really give me the phone with ulterior motives?"

...

The next day, Su Fan was woken up by a knock on the door.

"Thinking of being late on your first day at work?"

It was Bai Man's voice.

Su Fan jumped with fright.

"Right away, right away..."

Su Fan quickly washed up and left the house.

Bai Man was already waiting by the car.

Bai Man sure had a lot of clothes. Today, she wore a white floral-printed long dress, all her hair tied on top of her head, and because she had been greatly satisfied the night before, she looked radiant, appearing to be in her mid-twenties.

Su Fan hurriedly got into the car.

"For you."

Bai Man handed Su Fan a cup of soy milk and two buns.

Su Fan paused for a moment.

"What, afraid I poisoned it?"

Bai Man looked at Su Fan teasingly.

"No, not at all."

Su Fan took the items and said nothing.

He was beginning to not understand Bai Man.

She actually prepared breakfast for him?

What exactly did she mean?

"Hmph."

Watching Su Fan's expressions continually change, Bai Man revealed a triumphant smile.

Training a dog requires a slap followed by a bone.

That's how a dog will listen to its owner.

When they reached a street several hundred meters from the hospital, Bai Man stopped the car.

"Walk in by yourself from here. You'll also need to learn to take the bus. Our relationship must absolutely not be known to anyone, understand?"

"I understand."

"Good, and do you still remember what I instructed you to do?"

"Keep an eye on Director Liu's every move and report to you at all times."

Su Fan obediently agreed, like a schoolchild, which pleased Bai Man.

"Good performance, here's a reward for you."

Bai Man pecked Su Fan's cheek like a chick pecking at grains.

Su Fan was struck by thunder.

"This..."

"Now, get out of the car."

Su Fan got out of the car in astonishment.

It was only after Bai Man had left that Su Fan woke up from his daze.

"Bringing me breakfast and kissing me, does she, does she want to date me?"

The next moment, Su Fan gave a wry smile.

What's Bai Man's status, how could she possibly date someone like him?

Perhaps this was just the twisted pleasure of that deviant woman.

He entered the hospital.

Soon, he arrived at the gynecology department.

Director's office!

Su Fan knocked on the door.

"Come in."

A charming voice came from inside.

Su Fan pushed open the door.

There stood a woman.

She was dressed in a white doctor's uniform, neat and tidy. The wide neckline of her blouse emitted a fresh scent, accentuating her long neck, lending her a more elegant appearance. The sleeves covered her arms just above the knees, just enough to reveal her slender legs, paired with a pair of delicate high heels, she looked even more upright and womanly.

Her hairstyle was simple without sacrificing style, black hair gently falling over her shoulders, loosely spread out, giving a gentle and elegant impression.

Under her clothes, one could see a long necklace that added to her intellectual charm.

It was Director Liu Ye, whom Su Fan had met before.

Bai Man was beautiful, and this woman was no different. She was fatter and shorter than Bai Man, but just the right amount, plump and rounded. Bai Man's advantage was her large chest, while this woman

had a larger backside, perfect for bearing sons. If Bai Man was a top-grade young wife, then the woman in front of him was a super mature woman, one pinch and it would ooze.

Young Su Fan, in the prime of his adolescence, was instantly transfixed.

This aggressive gaze did not anger Liu Ye, but rather made her somewhat proud.

"Little Su, do I look good?"

Liu Ye asked Su Fan with a giggling smile, her eyes filled with a seductive light.
