

Temptation 421

Chapter 421: Do It But Don't Talk About It

Wang Xiaoxiao finally understood why Sister-in-Law Shen He couldn't help but shed tears continuously just now.

It wasn't entirely caused by pain, to a large extent, it might have been caused by happiness.

People tend to cry easily both when they are extremely happy and when they are extremely sad.

Wang Xiaoxiao, though she took the initiative to step forward and wanted to bear it all,

was not so tightly stitched together as Su Fan's strength, the delicate balance that she could withstand.

Wang Xiaoxiao, worried that Su Fan would exert his full strength with a sudden force, could only extend her hand to push on Su Fan's waist at this moment.

She saw clearly that if Su Fan used his full strength, which was only halfway at the moment, she was already reaching her limit.

If Su Fan were to use his full potential on her, Secretary Wang really doubted whether she would faint on the spot?

Seeing the pained expression on Wang Xiaoxiao's pretty face filled Shen He's heart with extreme pity.

After all, at this moment, Wang Xiaoxiao was bearing the pain for her.

If it were not for Wang Xiaoxiao taking the initiative to step forward, Shen He would have been the one enduring the vigorous assault right now, not Wang Xiaoxiao.

Thinking of this, Shen He immediately gathered her spirits, preparing to share some of the pressure with Wang Xiaoxiao.

Shen He was an extremely shy and introverted woman, a bashful, delicate beauty.

Compared to Wang Xiaoxiao, she had no skills to speak of, and now that she had come to Su Fan's side, she didn't know what to do.

After thinking for a bit, she prepared to imitate what Wang Xiaoxiao had done earlier and intended to kiss the "angry dragon."

However, before she could act, Su Fan already had her in an embrace.

Once Su Fan held her tightly in his arms, Shen He's little heart began to beat ferociously.

She dared not look into Su Fan's eyes and could only turn her gaze aside.

Su Fan couldn't help but feel a touch of interest, "Are you that afraid of me?"

Shen He carefully nodded her head, but soon she also spoke out tenderly and breathily, "Doctor Su, I'm not really afraid of you, you are a good person, I'm just a bit shy."

Su Fan immediately pretended to ask, "Why are you shy?"

Shen He's pretty face became even more intensely red. "Doing this kind of thing... it just makes me very shy."

Su Fan nodded slightly and continued to ask, "What kind of thing is this 'thing'?"

This time Shen He reached the pinnacle of shyness, "It's, it's..."

She stammered for a long time, too embarrassed to articulate what "this kind of thing" was.

Su Fan did not continue teasing Shen He, as this extremely shy woman with a very thin skin had undoubtedly given him a new feeling.

He also decided in his heart that he would help Shen He and Wang Xiaoxiao to protect Hailin Company.

However, he knew nothing about environmentally-friendly building materials.

If Shen He and Wang Xiaoxiao were truly preparing to transform Hailin Company, he could offer some help.

Su Fan stopped teasing Shen He, but Wang Xiaoxiao began to speak with a seductive smile.

She directly said with a somewhat irregular breath, "Sister-in-Law... after all that's been done, you're still too embarrassed to say it."

Wang Xiaoxiao's words made the already very embarrassed Shen He hide her head in Su Fan's embrace.

At that moment, she felt utterly mortified.

And really, how could Wang Xiaoxiao so casually utter such words?

While Wang Xiaoxiao's words made Shen He unbearably shy, they gave Su Fan an unusual thrill.

Su Fan cleared his throat and immediately said to Wang Xiaoxiao, "So what are you doing right now?"

Wang Xiaoxiao giggled, "Me... I'm not doing anything."

Without waiting for Su Fan to speak again, Wang Xiaoxiao continued, "I am the one being done."

She was, after all, someone who knew how to play, was very open-minded, and was very capable of bringing pleasure to a man.

Chapter 422: Bai Man's Teasing

Although Su Fan was experienced, in front of Wang Xiaoxiao he still seemed somewhat immature.

Everyone is born with certain talents, Su Fan's talents lay in martial arts practice and traditional Chinese medicine.

Wang Xiaoxiao's talent, it seemed, was in pleasing men.

Her every frown and smile, even some of her motions and words, could bring Su Fan a lot of happiness.

At this time, Wang Xiaoxiao also struggled to sit up, reaching out with both hands to embrace Su Fan.

In such a position, Su Fan actually couldn't push forward into the bright, delicate core of femininity.

But Wang Xiaoxiao whispered into the ears of Su Fan and Shen He, "Fuck... me to death."

Upon hearing this, Shen He immediately blushed and scolded, "Xiao Xiao, what are you doing?"

Naturally, Su Fan was greatly stimulated by Wang Xiaoxiao's words.

At that moment, he truly felt like throwing caution to the wind and rushing forth, making Wang Xiaoxiao so overjoyed that she might pass out.

Su Fan, Shen He, and Wang Xiaoxiao didn't continue to waste water in the bathroom.

After obtaining a thorough release on Wang Xiaoxiao, the three of them bathed and then left the bathroom.

It wasn't that Su Fan was incapable of continuing, but he had to go to Bai Man's sister-in-law's house to wait for Bai Man the next day.

After Bai Man and her sister-in-law dealt with Bai Hua's matters, he was supposed to return to Yang City with Bai Man.

Although there was abalone available in Xi Jing, for Su Fan, Bai Man and Wang Fei seemed to be irreplaceable delicacies.

Leaving the bathroom at this time was undoubtedly a very correct decision for Su Fan.

No sooner had he come out of the bathroom than Bai Man's phone call came.

Su Fan didn't know why Bai Man suddenly called him, but he answered immediately.

"Man Jie, is something wrong?"

Soon, Bai Man's voice came through the phone.

"It's nothing serious, thanks to you, things went quite smoothly."

"However, this matter involves a lot of departments, so my sister-in-law and I still have several places to visit."

"Tomorrow morning you should still go to my sister-in-law's house and wait for me while helping to take care of Xiao Lin."

"My sister-in-law and I should be able to resolve my elder brother's matter by tomorrow afternoon, or maybe by tomorrow night."

Su Fan had thought something might have gone wrong on Bai Man's end; it turned out she was actually bearing good news.

Obviously, this was good news, and he immediately said with a laugh, "Man Jie, that's great news."

"Once things here are sorted out, you won't need to worry or feel troubled."

Upon hearing Su Fan's words, Bai Man suddenly harbored some naughty thoughts for some reason.

Perhaps she had always been a woman who enjoyed teasing men, or perhaps her relationship with Su Fan was growing closer.

So, over the phone, she told Su Fan, "Yes, when I get back, I won't need to worry, but being 'worried' is probably inevitable."

As Bai Man said this, she emphasized two words heavily.

Since she was not with Su Fan at the moment, she was very curious to know how Su Fan would react after she had ignited the flame in his heart.

Su Fan was initially stunned but quickly caught on, and immediately he said, "Man Jie, after we get back, I'll make sure you get what you wish for."

Once Bai Man heard this, of course, she understood that Su Fan had caught the hidden meaning behind her words.

Instantly, she chuckled and said, "You wish, don't think about touching me after we get back, hmph!"

She said this, but at that moment, she was outside, missing Su Fan immensely.

After all, during this time in the recent evenings, she would already have been completely filled by Su Fan, instead of feeling empty like now.

What Bai Man didn't know was that although she felt empty, Wang Xiaoxiao and Shen He were not empty at all.

The two of them had their first clash with Su Fan, and even now, they hadn't quite recovered yet.

Chapter 423: Company Transformation

After ending the call with Bai Man, Su Fan also came into the room.

After he arrived, Wang Xiaoxiao took the initiative to bring up a serious matter.

"Dr. Su, I have investigated your background as well as the basic situation of Hailin Company, which I also mentioned to you during the visit to the headquarters today," she said.

Su Fan nodded slightly, not knowing why Wang Xiaoxiao was mentioning this.

But Wang Xiaoxiao's words were clearly not finished yet.

Given that, he naturally let Wang Xiaoxiao continue.

At this moment, Wang Xiaoxiao continued to speak.

"Hailin Company's business relies heavily on the connections of President Deng and Vice President Li."

"Now that President Deng is gone and Vice President Li can no longer remain in his position at the company," she said.

"For Hailin Company to survive, a transformation is necessary."

"Dr. Su, your medical skills are exceptional; I heard that not long ago you created some exorbitantly priced medicine for Yang City's tycoon, Feng Zhenghua," Wang Xiaoxiao said.

"If Hailin Group is to transform into a pharmaceutical company, would you be willing to help us?" she asked.

For Wang Xiaoxiao and Shen He, this issue was obviously very important.

Without Deng Hailin and Li Zhi, if Hailin Company does not focus, it can only decline, eventually facing closure.

But corporate transformation is not an easy matter, either.

If a company lacks a competitive edge and hastily transforms, it's still a dead end.

Su Fan's miraculous medical skills and pharmacological knowledge undoubtedly represent a huge competitive advantage.

With just a little from Su Fan, the transformed company might be able to create a flagship product that could shake the market.

After Wang Xiaoxiao asked, Su Fan did not answer immediately but instead lied down directly between Wang Xiaoxiao and Shen He.

After comfortably lying down on the soft bed, Su Fan naturally embraced Wang Xiaoxiao and Shen He, one in each arm.

Having done all this, Su Fan then spoke casually, "In what capacity are you discussing this with me? As business partners? Friends? Or something else?"

Shen He almost blurted out that they were discussing this as business partners with Su Fan.

But before she could speak, Wang Xiaoxiao giggled and said, "After all we've been through, of course, we're discussing this in the capacity of your women, Dr. Su."

Wang Xiaoxiao was unrestrained in her speech and dared to say anything; hearing her words, Shen He naturally felt her cheeks grow hot.

Even if she had the urge to refute in her heart, she now didn't know what to say.

Su Fan nodded, "If that's the capacity in which we're talking, then everything is easy to discuss."

If Wang Xiaoxiao and Shen He were merely his business partners, then the three of them would surely be talking business.

But if Wang Xiaoxiao and Shen He were speaking as his women, he could certainly help the two of them.

After Su Fan nodded, Wang Xiaoxiao immediately proposed, "How about this for a partnership: Shen He as the majority shareholder with fifty-one percent and Dr. Su with forty-nine percent?"

The terms Wang Xiaoxiao offered were undoubtedly very generous to Su Fan.

The assets of Hailin Company, estimated to be around two hundred million, were no longer considered small.

Although these assets could not be quickly liquidated, Su Fan, by entering the company with his technology and acquiring forty-nine percent of the shares, would essentially own a fortune of one hundred million!

And this hundred million was not like the five million consultation fee from Feng Zhenghua, which would be gone after a single transaction.

As long as Hailin Company was well managed, this one hundred million would only grow more.

Since Wang Xiaoxiao and Shen He were so sincere, Su Fan was naturally not going to be stingy.

Chapter 424: Another Sleepless Night

Su Fan seriously thought about it and came up with a flagship product.

It was a medicinal tea that his grandfather often drank when he followed him in the mountains.

This medicinal tea was made from forty-nine different herbs, combined with high-quality tea leaves.

Not only were the ingredients very complex, but the processing methods for different herbs were also not identical and extremely complicated.

That was not all, as the combination and roasting of the forty-nine herbs were also crucial.

If the herbs were added in the wrong order, the final product would not be a health tea but could actually become poisonous.

In other words, even if other pharmaceutical companies utilized modern scientific technology to analyze all the components of the tea, they would nearly be unable to replicate it.

As long as the recipe and the production process were kept strictly confidential, and misleading measures were taken like processing other herbs at the factory but not adding them to the tea, everything would be fine.

Among the forty-nine herbs, one or two that were easy to process could be manufactured using modern industrial automation equipment for a secret, unmanned production.

After quickly reviewing his idea in his mind, Su Fan spoke up:

"I can give you a recipe and processing method for a health tea."

Shen He and Wang Xiaoxiao both showed some interest.

Even the usually shy Shen He took the initiative to ask, "What kind of health tea is it?"

Su Fan certainly did not hide anything: "It's a tea that strengthens the body, prevents all diseases, and extends one's lifespan."

"And it is made with a special process, not as an actual medicine."

"Even if you drink it every day, there will be no side effects."

"For those who are physically weak and frequently fall ill or catch colds throughout the year."

"If they could drink this medicinal tea every now and then, or even daily, they would basically not get sick or catch colds."

"Not only that, but some old people who are sluggish and muddled due to declining vitality and blood, if they could drink this health tea, their mind would gradually become clearer and not so senile."

"The benefits of the health tea are many, like for those who frequently stay up late, or sit for long periods during work, leading to back pain."

"After drinking the health tea, their aches and fatigue can also be greatly alleviated."

As Su Fan was speaking, Wang Xiaoxiao's eyes began to sparkle.

Even though she had never been involved in the pharmaceutical field before, she understood what such a product meant!

One could say that even if their company only had this one product after its transformation, it would be enough to survive in the market!

An excitement also filled Shen He's beautiful eyes.

She was not clueless; she understood the immense value of the health tea that Su Fan described.

At that moment, Shen He could not help but ask softly, "Is the formula for this health tea complicated? And what about the cost?"

Obviously, these two questions were very critical.

Su Fan smiled and said, "We'll talk about these matters later."

Shen He was slightly stunned and then asked, "Why should we talk about it later?"

Shen He did not understand, but Wang Xiaoxiao did.

Therefore, she whispered to Shen He, "Because Dr. Su wants to have you now."

Almost at the same moment as Wang Xiaoxiao spoke, Su Fan truly climbed on top.

Shen He immediately felt bitter; she was already in dire straits before, not expecting there was still a second half to go.

And Su Fan had just thoroughly released himself with Xiao Xiao, so how could he be ready again now? Hailin wasn't like this, was he?

But now, Shen He could no longer think that much.

Previously in the bathroom, Su Fan's skills were somewhat constrained.

Now it was different; he had the advantage of time, location, and cooperation, and of course, he intended to display all his skills.

Chapter 425: The Martial Arts Exchange Conference Approaches

Previously in the bathroom, Shen He had only covered her charming face with both hands.

Now, she had no choice but to cover her cherry lips with both hands, for if she did not, she feared she would let out continuous screams of agony.

That night, Su Fan had hardly slept at all.

Shen He and Wang Xiaoxiao, of course, also had restless sleep.

Most of the time, people fell asleep, but their bodies got no rest.

Wang Xiaoxiao woke up several times, feeling utterly helpless with Su Fan.

She was already exhausted beyond endurance, yet Su Fan continued to hold her in a frenzied assault.

Su Fan was like a bull that never knew what fatigue was.

Su Fan treated Shen He and Wang Xiaoxiao this way, of course, for a reason.

After his return to Yang City, he clearly would not be able to indulge with Shen He and Wang Xiaoxiao as freely as he wished.

After all, most of the time when there was nothing going on, he was in Yang City and would not run to the western capital.

Unless Wang Xiaoxiao and Shen He could buy a residence in Yang City.

This way, when he was not developing Bai Man, he could come and dote on Wang Xiaoxiao and Shen He.

That night, Su Fan got a complete release.

This also made him remember an important matter once more.

That was the Yang City Martial Arts Exchange, which was to begin in a few days.

According to his previous understanding, the Blood Wolf Gang was very likely to create obstacles for him at the martial arts exchange.

The political, military, business, ancient martial arts circles, and other influential figures constitute the upper class of Yang City and most other regions.

The advent of firearms made martial arts seem like an outdated thing.

But the actual situation was not so.

The control over firearms was very strict, and most people had no access to them.

Even if some had access, they did not dare to use them lightly.

Compared to that, human weapons from the martial arts circles are very useful on many occasions, under many circumstances.

This made real martial arts experts, especially those with high inner strength, an important part of the upper echelons.

The president of the Yang City Martial Arts Association was perhaps difficult for ordinary people to appreciate.

But the influential figures of Yang City's upper class all knew how significant this position was.

Su Fan had previously been planning to secure this position.

Now that his own power had entered the explosive phase, he was even more determined to obtain the presidency of the Yang City Martial Arts Association.

Acquiring this position would undoubtedly bring him a lot of benefits.

And it also provided him a truly stable identity in Yang City.

Using this as a stepping stone, he could do many things.

As he pondered these things in his mind, the sky gradually began to lighten.

Although Shen He had not slept well last night, she woke up as the sky brightened.

When Shen He woke up, she looked at Su Fan with a baffled expression.

Because Su Fan's fierce and rugged dragon was still within the mysterious peach garden.

Not only that, her pair of snowy peaks was also grasped in Su Fan's hands.

While she was asleep, Su Fan had clearly been misbehaving continuously.

She was indeed too exhausted that she could even sleep like this.

Just at that moment, she felt Su Fan's dragon tremble slightly.

Shen He immediately cried out, "Don't!"

By the time she cried out, it was already too late, as a wave after wave of warmth quickly engulfed the delicate flower heart completely.

This made Shen He's eyes widen as she stared at Su Fan, momentarily stunned.

Su Fan certainly did not just leave but leaned in to begin kissing Shen He, fiercely sucking her clove-like small tongue behind her pearly teeth and red lips. Chapter 426 - 426 Haven't Kissed Girlfriend Yet?

More than half an hour later, Su Fan finally went to the bathroom to wash up.

Shen He and Wang Xiaoxiao were too tired; when Su Fan was getting ready to leave, neither of them had the thought of getting up.

However, Wang Xiaoxiao eventually dragged her exhausted body out of bed and walked Su Fan to the door.

Wang Xiaoxiao smiled wearily and then asked, "Are you heading back to Yang City?"

Su Fan shook his head, "I should be going back tonight, but right now, I'm heading to Mr. Bai Hua's place."

His reference to Bai Hua naturally made Wang Xiaoxiao display a curious smile.

After all, Bai Man was Su Fan's aunt by marriage, so it wasn't quite appropriate for Su Fan to call Mr. Bai Hua "Mister."

Wang Xiaoxiao had long noticed that there was something between Su Fan and Bai Man.

Now, hearing Su Fan's way of referring to Bai Hua, she was even more certain about it.

While Wang Xiaoxiao giggled with malice, Su Fan certainly didn't plan to let her off lightly.

Wang Xiaoxiao hadn't had the chance to enjoy her suggestive smile for long before Su Fan sealed her lips with his.

From yesterday until now, Wang Xiaoxiao didn't know just how many times Su Fan had kissed her.

Every time Su Fan kissed her, it wasn't a light peck; he was greedy, fiercely sucking and savoring.

After each kiss from Su Fan, her tongue would feel numb.

Su Fan held Wang Xiaoxiao, not knowing for how long he kissed her before finally letting her go.

Once Wang Xiaoxiao regained her freedom, she wiped her red lips and looked at Su Fan with annoyance, "You always kiss for so long, anyone who doesn't know better would think you've never kissed a woman before!"

Su Fan felt privately moved; Wang Xiaoxiao, that enchantress, was indeed very good at attracting men.

Even her casual remarks could ignite the flame in his heart, making him want to keep Wang Xiaoxiao by his side, ready to indulge whenever the mood struck.

However, Su Fan finally did not do so and instead said goodbye to Wang Xiaoxiao.

"I have to go take care of some things. You and Shen He rest well."

Wang Xiaoxiao nodded, "We will come to find you very soon."

She had already made some plans for the future; after this separation, it wouldn't be long before she and her sister-in-law Shen He went to find Su Fan.

She did this because Wang Xiaoxiao sensed a crisis looming.

Clearly, more than one woman had realized that Su Fan was a man of potential.

Even a proud woman like Bai Man, a gem among women, had lowered her standards to get involved with Su Fan.

If she and Shen He stayed away from Su Fan for too long,

It was likely that they would completely lose their place by Su Fan's side.

Su Fan was surprised to hear Wang Xiaoxiao's words; he had thought that he wouldn't be able to see Wang Xiaoxiao and Shen He for a quite long time to come.

Now, hearing her say this, his mood also improved a lot.

Bai Man, Wang Fei, Liu Qing, Su Ya, Yin Qianyue, and the others, of course, were one tasty dish after another.

But Wang Xiaoxiao and Shen He also represented two irreplaceable feasts that no one else could substitute.

After saying farewell to Wang Xiaoxiao again, Su Fan left Hailin Company.

Outside Bai Hua's villa, Bai Xiaolin got up early to go out for breakfast.

When her family was in crisis before, both she and her mother lost their appetite and couldn't sleep.

Now, although her father may not be able to gain his freedom for a while, he would surely be dealt with very well, ultimately leading to an outcome that would delight the entire family.

Therefore, after putting a lot of effort into her grooming this morning, Bai Xiaolin went out to have breakfast.

She inherited her mother's beauty and a good figure.

Although she was only eighteen or nineteen years old and had not yet reached the prime of womanhood, her figure and beauty were already second to none.

Bai Hua's issues had far-reaching implications.

After Deng Hai Lin's incident, some people chose to back off.

But there were others who clearly still harbored resentment.

Although they didn't manage to completely take down Bai Hua this time, getting back at Bai Hua's daughter was still no problem.

Chapter 427: Bai Xiaolin Kidnapped

Bai Xiaolin was in a great mood as she walked towards a restaurant she often visited when a black business Audi suddenly stopped beside her.

Before Bai Xiaolin could react, the door of the business car suddenly opened.

A man wearing sunglasses stretched out a large hand clad in black gloves and yanked Bai Xiaolin into the car.

Bai Xiaolin was scared witless for a moment, she had never imagined such a thing would happen.

When Luo Feng had grabbed Bai Xiaolin into the car, his eyes also revealed a look of wild joy.

Bai Xiaolin was extremely beautiful, even more so than the photo provided by the employer.

At this moment, she was wearing an off-white knitted sweater, and below, a black miniskirt, her slender legs wrapped in a pair of ultra-thin black stockings.

Her attire was incredibly eye-catching, making her look innocent yet not without allure, extremely dazzling and charming.

Just as Bai Xiaolin was abducted into the business car, Su Fan happened to drive to the corner of the junction.

Seeing this scene, he didn't say a word and immediately chased after them.

Luo Feng and his associates, it seemed, had already scoped out the area well, as they now, without saying a word, took Bai Xiaolin towards the suburbs.

The suburbs of Xijing housed many factories.

Some of these factories were still in normal operation, but others had been abandoned.

The place where Luo Feng and his associates intended to take Bai Xiaolin was an abandoned factory.

Before long, the two business vans carrying Luo Feng and his crew appeared outside the abandoned factory.

Luo Feng was a professional hitman, but this time his employer had not hired him to kill, but to teach a painful lesson to the beautiful girl's family.

After all, if it were not for Bai Man and Su Fan getting involved in this matter, allowing Deng Hai Lin, who was originally expected to die, to speak up again, and now even gathering sixty million to return the ill-gotten gains.

This time their scheme could have completely crushed Bai Hua, dragging down political enemies connected with Bai Hua.

Since Bai Hua's family was not resigning to their fate and wanted to stir things up, they naturally had to give Bai Hua a harsh lesson.

Just moments ago, Bai Xiaolin's mouth was stuffed with a burlap sack, and only now upon arriving at this abandoned factory could she finally speak.

There was no one nearby, so Luo Feng was not worried about Bai Xiaolin screaming for help and being heard.

Moreover, later, when he severely ravished this beautiful girl, if Bai Xiaolin didn't cry out, wouldn't that diminish much of the fun?

At this moment, Bai Xiaolin, terrified, looked at Luo Feng and his men with utmost fear.

Ultimately, she was just an eighteen or nineteen-year-old girl.

She had always been well-protected by her family and had never experienced such a thing before.

She had even never imagined that such an ordeal would befall her.

After all, her family had always been kind to others and had no enemies to speak of.

Bai Xiaolin looked at Luo Feng with extreme fear, her voice quivering with a crying tone, "Who are you? Why did you abduct me?"

Luo Feng grinned, "On the streets, everyone calls me Luo Feng, as for my real name, I've long forgotten it."

"As for why we abducted you, of course, it's because someone hired us to give your family a painful lesson, so they stop causing trouble."

Hearing Luo Feng's words, Bai Xiaolin grew even more frightened.

"Who hired you? I haven't done anything, why would you do this to me?"

Luo Feng shook his head, "Those of us in this line of work can't possibly tell you who our employer is."

After that, Luo Feng continued, "And frankly, this time I also don't know who our employer is."

Luo Feng didn't finish saying, but their entire transaction process was done anonymously; the other side was obviously very careful.

In this way, even if they fell into trouble, it wouldn't be tied back to the party involved.

Luo Feng was a very patient hitman, and if Bai Xiaolin had been a woman of ordinary looks, he wouldn't mind talking with her for a while.

But Bai Xiaolin was an exceptionally beautiful young woman, and that made Luo Feng unable to hold back.

Although he was not lacking in women, such a top-grade beauty, even though he had been on the streets for more than ten years, he had never had the pleasure of tasting before.

From Luo Feng's experience, Bai Xiaolin was definitely still virginal, which made him even less able to restrain himself and wanted to deflower Bai Xiaolin.

As Luo Feng approached her, Bai Xiaolin, knowing it might be of little use, could only scream for help.

"Help, help... someone save me..."

Su Fan had followed Luo Feng and the others, turning left and right until he reached this abandoned factory site.

But he hadn't found Luo Feng and the others, now hearing Bai Xiaolin's voice, his gaze instantly turned in one direction.

Chapter 428: Cut with Scissors

In the abandoned factory, Bai Xiaolin's face had lost all color, her stunning features marred by terror.

She struggled to get away from Luo Feng, but sadly she was fixed to a chair and couldn't move at all.

When Luo Feng approached Bai Xiaolin, his minions also gathered around.

Luo Feng frowned, "What are you doing?"

One of them chuckled, "Boss Feng, the brothers haven't had meat for a long time, let us sip some soup with you."

After he spoke, the others also looked at Bai Xiaolin, chuckling with ill intentions.

Their gazes rudely swept over Bai Xiaolin's towering bust and long, black-stockinged legs.

These invasive stares filled Bai Xiaolin with such despair that she even thought of dying.

She might never have eaten pork, but she had seen pigs run.

How could she not know what these men intended to do to her?

It wasn't just that these men wanted to do something to her; they wanted to gang-rape her.

Bai Xiaolin, who had never even been alone with a man, was naturally terrified to the extreme in this situation.

What was about to happen wouldn't only rob her of her innocence but would also bring her nightmares for the rest of her life.

She had heard that a woman's first time was far from wonderful, and could even be extremely painful.

There were eight men around her; if she were attacked by all eight of them her first time, she might die right there.

Moreover, in her heart, she had already planned to give her first time to Su Fan, the great benefactor of her family.

At this moment, Bai Xiaolin was utterly heartbroken, and she couldn't stop sobbing.

At that time, Luo Feng had already reached in front of Bai Xiaolin.

He didn't start to undress Bai Xiaolin, but instead took out a multifunctional Swiss army knife.

This knife had a lot of small tools equipped, including a pair of scissors.

"Snip, snip!"

Luo Feng swiftly moved the scissors across Bai Xiaolin's clothes, and her knitted sweater was quickly cut into two round pieces of cloth by Luo Feng.

Beneath the knitted sweater and the T-shirt inside, her bra was revealed.

Hanging her head and seeing this scene, the fair face of the beautiful girl blushed deeply, almost to the point of dripping blood.

For now, her bra was still on, but if Luo Feng cut that too, her breasts would pop right out of her clothes.

Of course, that was exactly Luo Feng's intention, and he had already begun his task.

"Snip, snip!"

After several crisp sounds of the scissors snapping shut, Bai Xiaolin felt a chill pass through her.

Luo Feng was exceedingly patient, still cutting slowly; however, his subordinates couldn't wait any longer.

If it weren't for Luo Feng being there, they would have already laid their hands all over Bai Xiaolin's body and savagely taken their turns.

Now, however, they couldn't act as Luo Feng wanted to cut slowly, so they could only wait by the side.

Still, one of them started unbuckling his belt while saying,

"Boss Feng, let me feed her little mouth something first, so she doesn't get hungry later."

As he spoke, he vulgarly patted his groin, clearly suggesting what he planned to feed Bai Xiaolin.

As this man obscenely voiced these intentions, Su Fan finally appeared outside the factory.

"Stop!"

His arrival was undoubtedly just in time.

In just a moment more, Bai Xiaolin's bra would have been cut open, and her delicate breasts would have suffered the cruel treatment of eight pairs of hands.

Luo Feng hadn't expected someone would actually come to the rescue.

Immediately, he glanced toward the direction where Su Fan was.

Seeing Su Fan was alone and appeared to be quite an average young man, Luo Feng lost interest.

While they would only humiliate Bai Xiaolin, they might not be so lenient with Su Fan.

Since Su Fan dared to interfere, they were ready to kill to keep their secret!

Chapter 429: Sudden Attack

When Bai Xiaolin saw Su Fan appear at the entrance of the factory, she was so overwhelmed with emotion that she almost burst into tears.

However, considering that Su Fan was alone, while there were eight ferocious men on the other side.

Bai Xiaolin immediately screamed heartbreakingly, "Dr. Su, run quickly, go report to the security office!"

Although she dearly wished Su Fan could rescue her right then, it was clear he was no match for those men.

After Su Fan fled, these men would definitely assault her, and even take turns abusing her, along with more terrible things happening.

But she could only urge Su Fan to escape quickly, as only if he escaped could she possibly be rescued.

Otherwise, both of them would be doomed.

Due to her status, these people might not kill her.

But it was different for Su Fan, these men really might kill him!

When Luo Feng heard Bai Xiaolin's words, he was somewhat amused, "Run? Can he even run?"

Luo Feng was so confident, of course, for good reason.

They were not just eight men, but twelve.

Four others had been staying behind on this side.

At that moment, Su Fan's escape route was blocked by the four men behind him.

Seeing this scene, Bai Xiaolin also despaired.

If Su Fan couldn't escape, she didn't know what terrible things she would have to endure today!

Moreover, Luo Feng and his men were not eight, but actually twelve people!

Bai Xiaolin didn't dare to keep thinking, as tears continuously fell like small pearls from her eyes.

Upon realizing Su Fan couldn't escape, Bai Xiaolin mustered the courage to say to Luo Feng and others.

"You can do whatever you want with me, but can you let Dr. Su go? He's a good man."

Luo Feng laughed, "A good man? I love bullying good men the most."

While speaking, Luo Feng also looked at Su Fan and said, "Boy, come here."

Su Fan didn't start fighting immediately because Luo Feng and the others were right beside Bai Xiaolin.

Moreover, the knife in Luo Feng's hand was very close to Bai Xiaolin.

He was worried that these desperate men might harm Bai Xiaolin.

Now, these ignorant fools were actually asking him to come over voluntarily.

Su Fan, of course, did not hesitate and walked towards Luo Feng.

As he approached, Luo Feng also smiled and said, "Boy, what's your relationship with her? Lovers?"

From his sleeves, Su Fan had already drawn several silver needles but did not act immediately.

After Luo Feng asked him, he naturally responded, "She's my sister."

Su Fan was obviously bullshitting.

Luo Feng didn't know this, and his voice playfully added, "Cousin sister, or sister by clan?"

"Since people these days play so wildly, how about I help break her in and then let you have a go afterward?"

"You're also lucky to have met me, otherwise where else could you find such a good opportunity?"

Luo Feng's words made everyone around them laugh.

Bai Xiaolin's pretty face turned crimson, and her heart was tense to the extreme.

She didn't know what exactly was going to happen next.

She was willing to offer herself to Su Fan, allowing him to do as he pleased with her.

However, she didn't want Su Fan to see her being casually handled by these rough men around her.

Su Fan had been tolerating Luo Feng for a long time, and after getting close enough, he suddenly made his move!

"Swoosh—"

A flash of cold light streaked across, and a silver needle directly pierced Luo Feng's temple.

Although Luo Feng was a professional killer, his skill was just below that of a top-level fighter with Inner Strength.

At this distance, he couldn't even see what instantly pierced his temple, let alone dodge it.

Luo Feng, who had just been mocking Su Fan and Bai Xiaolin, staggered under the horrified gazes of those around him and then collapsed.

Chapter 430 - 430 Bai Xiaolin Is Rescued

Bai Xiaolin was very close to Luo Feng, which left her completely stunned by what was occurring before her eyes.

All she vaguely saw was Su Fan lifting his hand slightly, and Luo Feng turned into a dead person!

Bai Xiaolin couldn't even begin to imagine how Su Fan accomplished this feat.

Seizing the moment when everyone's attention was drawn to Luo Feng, Su Fan swiftly made his move, quickly taking down all the kidnappers surrounding Bai Xiaolin.

In the face of such a master of Inner Strength like Su Fan, these people didn't even have a chance to flee.

After beating the kidnappers until their bones were broken and tendons were injured with just a few punches and kicks, Su Fan finally went over to Bai Xiaolin, who was tied to a chair, and untied her.

The beautiful girl's pretty eyes were filled with shock as she looked at Su Fan.

The events had unfolded so abruptly that Bai Xiaolin hadn't completely come to terms with what had happened until now.

Su Fan thought Bai Xiaolin was overly scared, and could only reach out to pat the beautiful girl's shoulder.

"It's okay now, don't be afraid, I'm here."

Bai Xiaolin nodded dumbly and then suddenly threw herself into Su Fan's arms.

Considering all the events that had just occurred, Bai Xiaolin couldn't help but burst into loud sobs.

She had indeed been terrified, convinced until Su Fan's arrival that she was surely going to be violated.

Now that the tension was released, she naturally wanted to cry her heart out.

Su Fan could only comfort her hurriedly, "It's okay, it's okay, it's all over now."

As he spoke, he tried to withdraw his hand.

At this moment, Bai Xiaolin was crying so bitterly and clinging to him so tightly that the hand he hadn't completely put down ended up grabbing hold of a lively and surprisingly elastic soft lump.

Bai Xiaolin, whether too heartbroken or still in shock, hadn't yet calmed down.

She clung to Su Fan, completely unaware that her soft lump had fallen into Su Fan's hand.

Although Su Fan found the sensation pleasing, he had no intention of taking advantage of Bai Xiaolin.

She was Bai Man's niece, and although he'd taken liberties with Bai Man, he couldn't very well do the same to her niece.

He immediately spoke up, "Xiaolin, let me go for a moment, I need to call the public security bureau to have these people arrested."

Aside from Luo Feng, everyone else here was just severely injured and hadn't actually died.

Hearing Su Fan's words, Bai Xiaolin quickly released him.

Next, Su Fan took off his coat and put it on Bai Xiaolin.

It was only then that Bai Xiaolin realized something terribly embarrassing – Luo Feng had cut her clothes.

When she had hugged Su Fan, it seemed like her little bunny had jumped right into the palm of Su Fan's hand.

Even more embarrassing was the fact that Su Fan might have squeezed it a couple of times?

Blushing, Bai Xiaolin stole a glance at Su Fan.

Su Fan, on the other hand, was taking out his phone to make a call to the public security bureau.

The call connected quickly, and officers were dispatched to the scene to handle the situation.

Su Fan and Bai Xiaolin were also taken away for investigation.

The incident could be supported by many surveillance recordings, and the identities of Luo Feng and the others were easy to track down.

All of these individuals had criminal records, especially Luo Feng, who already had several lives on his hands.

After all the procedures were completed, Su Fan was not detained.

However, he was required to fully cooperate with the public security bureau's investigation when needed, which Su Fan had no issue with.

After everything was handled, Su Fan and Bai Xiaolin finally stepped outside the public security bureau again.

Su Fan had come by car earlier.

Now, he offered to drive Bai Xiaolin back home as well.
