

Temptation 521

Chapter 521 - 521 Thoroughly Changed

Since Qi Dongliang had recorded her fight with Qi Tian, he must have also recorded her combat with Qi Dongliang.

These materials, once leaked out, would of course impact Qi Dongliang's reputation, but Qi Dongliang would definitely spend money to smooth over the matter as much as possible.

As for her, she would become a shameless woman who would stop at nothing to seduce the father and son of the Qi family, utterly disgraced!

At this moment, Wang Fei no longer held any pride in her heart, all that remained was boundless pain and regret.

If she had known earlier that Qi Dongliang was such a demon, why would she have willingly jumped into the fire pit?

What made Wang Fei even more desperate was that Qi Dongliang was now opening a drawer, within which lay many torture-like devices designed for women.

And these things, whether they were clamps or dilating tools, would all be used on her by Qi Dongliang shortly.

In an instant, Wang Fei couldn't help the grief that surged up, and tears involuntarily fell, "Chairman, please spare me, I am your son Qi Tian's... fiancée."

She was not talking nonsense, after Qi Tian and Yin Qian Yue called off their engagement, he had entered into a matrimonial agreement with her.

Now, she was Qi Tian's fiancée, the future daughter-in-law of Qi Dongliang.

Even, what should have happened between her and Qi Tian had already happened; she was now Qi Tian's woman, and Qi Dongliang was her father-in-law.

Hearing Wang Fei's words, Qi Dongliang replied indifferently, "So what? Behind closed doors we are all family. If you don't tell and I don't tell, who would know about these things?"

"Of course, if you can't get over it and talk nonsense outside, I won't acknowledge it," he added.

"In the end, the result will simply be that you wanted to marry into a wealthy family, failed to do so, and then became furious with humiliation and went around slandering me."

Wang Fei had already considered such an outcome, which is why she didn't dare threaten Qi Dongliang but instead begged him to let her go.

Unfortunately, Qi Dongliang had finally caught such a beauty, how could he possibly let her go?

In the affiliated hospital, Su Fan was unaware of Wang Fei's tragic ordeal.

His fight with Liu Qing had long since ended.

Not only that, but Chen Hanqing had also sent him the documents he had asked to be investigated packed neatly together.

Through these documents, Su Fan learned of the recent calls and messages between Wang Fei and those people, and he quickly saw the chat history between Wang Fei and Qi Tian.

He even saw the photos taken after Wang Fei and Qi Tian had gotten engaged!

In that instant, Su Fan understood everything completely!

His entire being was ignited with righteous anger.

He understood, he understood it all, he even knew why Wang Fei was willing to endure his outpouring that night.

Because he saw in Wang Fei's phone the life essence report of Qi Tian.

From the very beginning, Wang Fei had wanted to marry into a wealthy family.

Then she used him to hook up with Yin Qianyue.

While he did as Wang Fei told him to do, Wang Fei sold him out even more.

Not only that, but before Wang Fei married into a wealthy family, she even used him one more time, borrowing his seed without him knowing!

Su Fan now doubted all the good things Wang Fei had done for him in the past; all of it was possibly just Wang Fei's manipulation.

This left him with only one thought in his mind, he wanted to take revenge on Wang Fei!

Wasn't Wang Fei married into a rich family and became a distinguished lady?

He wanted to make Wang Fei, as the distinguished lady, also become his eternal bitch—that would be the price of deceiving him!

At this moment, Su Fan's inner emotions were tumultuously turning and transforming.

He had initially thought that Wang Fei's kindness was out of pity and sympathy, and he had always been extremely grateful to her.

Even the smartphone he used now was once bought for him by Wang Fei.

But as much good as Wang Fei had done for him in the past, the revelation of the truth inflicted an equal measure of hurt and change upon him.

If this world was already filled with deception and intrigue, already abounding in darkness and sin,

then why couldn't he become the ultimate darkness himself? To ensure no one could use him, deceive him, let alone sell him out and betray him!

At this moment, Su Fan's mindset was rapidly changing.

Initially, he was a simple and honest man, but everything he experienced in the city sparked in him the idea of "I'd rather betray the world than let the world betray me."

Chapter 522 - 522 Bai Man Delivers Coffee

Wang Fei was in a painful situation, but Su Fan had no idea.

The exploitation and betrayal by the other party left him extremely angry and deeply hurt.

Wang Fei could have asked for his help with things he was willing to do, but she should never have exploited or betrayed him!

The incident made Su Fan realize once again the enormous value of Chen Hanqing.

In front of this down-and-out computer genius, most people were nothing but transparent.

Most of their social activities could be entirely summarized with just a few lists in Chen Hanqing's hands.

He had already been good enough to Chen Hanqing, of course.

Afterward, he would continue to treat Chen Hanqing's parents, allowing the elderly couple to be freed from their chronic illnesses.

He would also continue to treat Chen Hanqing. Chen Hanqing's brain cancer required ongoing medication to keep it under control.

He must grow stronger or further advance his medical skills before he could help Chen Hanqing completely cure this disease.

However, whether it was becoming stronger or advancing his medical skills, it was obviously not so easy.

Thus, what he could do for Chen Hanqing now was to improve Chen Hanqing's salary and benefits.

He had decided to start Chen Hanqing's salary at the rate of two senior network engineers at the hospital.

After all, those two combined were no match for Chen Hanqing alone.

Chen Hanqing had sent Su Fan what he truly thought were business secrets, all handled by automated coding; he had not read a single word.

Otherwise, if he had looked into the relationship between Su Fan and Wang Fei, he might have been able to appreciate what Su Fan was feeling now.

Having experienced this, Su Fan was not utterly disheartened or overwhelmed by grief.

He merely licked his wounds and then continued moving forward.

At this moment, he was even more eager to defeat all the other renowned doctors at the Huaxia Famous Doctors Contest, becoming famous and respected.

He also increasingly wished that his soon-to-be registered company would grow rapidly, become a giant in Yang City, and then expand beyond.

Next, he would take it across the province, throughout Huaxia, and eventually global.

He wanted to reach the zenith where, regardless of the reasons, others could only look up to him, envy him, and be jealous of him, rather than exploit and betray him!

Wang Fei had no idea that her actions had awakened the sleeping giant dragon in Su Fan's heart.

And that dragon would, in the future, show its fangs and claws, tearing apart all difficulties and enemies, step by step forging his own legend.

As Su Fan's mindset underwent a tremendous change in the office, Bai Man came in with two cups of coffee.

She had no idea what kind of change had taken place in Su Fan's mindset in the past half hour.

But as she walked into Su Fan's office with the coffee, she still sharply sensed that something about Su Fan seemed different.

She handed over the coffee to Su Fan and casually asked, "What's wrong? Problems at work?"

Su Fan shook his head, then stood up and closed the door of the office.

After closing the door, he walked over to Bai Man and, to her astonished eyes, he directly picked her up.

The coffee Bai Man was holding naturally ended up on the table.

Luckily, the coffee was sealed; otherwise, his actions just now could have made Bai Man give him a coffee-version of a wet allure.

His arms wrapped around Bai Man's perky buttocks, and Bai Man's legs naturally wrapped around his waist.

Then Bai Man couldn't help but ask again, "What exactly is wrong? You seem a bit strange."

Su Fan shook his head and said, "Man Jie, it's still you who are good."

He meant it sincerely, believing that no matter what happened, Bai Man would not do anything to exploit or betray him.

Bai Man pouted, "Why do you look like you've been heartbroken?"

Chapter 523: Let Me Help You

Su Fan certainly wasn't heartbroken, but Bai Man was clearly bringing up something she shouldn't.

So her fiery red lips were promptly caught by Su Fan in a biting kiss.

Her tender, pink, lilac-like tongue was soon sucked and bitten by Su Fan.

Bai Man's body went limp, but she quickly managed to say, "Not here, we still have to work later, let's wait until we get home tonight!"

Su Fan certainly wasn't going to wait until they got home that night; if anything, he would have her now and then continue tonight at home.

While being passionately kissed by Su Fan, Bai Man tried to dodge, but she simply couldn't escape.

Soon enough, she felt Su Fan's hand already resting on her smooth, flat belly.

She knew what Su Fan's next move would be without thinking.

Sure enough, she quickly felt a pain at her front as her soft, upright, and full breasts were already changing shape in Su Fan's hands.

At the same time, Chen Hanqing, the prodigious talent Su Fan had recruited, had already set up the company's network.

It was Su Fan's company, even though it didn't even have a name yet.

But for Chen Hanqing, this place was as good as his own home.

After completing the tasks Su Fan had assigned, he started reading books in the spartan office.

Su Fan hadn't even decided on a company name, so naturally, the office lacked all kinds of equipment.

However, these were non-issues for Chen Hanqing, who only needed two steamed buns, a bottle of water, and a book to get through his day.

In the past, he couldn't afford many of the professional technical books he wanted to read and had to resort to browsing them in libraries.

But many books were sealed, and he couldn't open them at all.

Now, although he didn't have a lot of money, he could afford books.

Being a rough diamond himself, his professional skills were naturally improving rapidly in the process.

He quickly evolved from a rough diamond into a priceless jade.

With Chen Hanqing on board, Su Fan no longer needed to look for other IT talents.

What he needed now were people skilled in company management, product development, and marketing.

Yet these were things he hadn't quite figured out in the short term.

His current plan was to directly bring over Secretary Wang, who was groomed by Deng Hailin, to help manage the company.

Wang Xiaoxiao's business management capabilities were obviously not lacking.

With Wang Xiaoxiao managing the company, he could focus on the medical field, researching medical skills, and developing medical products.

As for the company's development and product marketing, those could be left to Wang Xiaoxiao and others, not delaying either aspect.

Though Su Fan had a rough idea in mind,

right now, he didn't want to think about all that; he just wanted to completely melt Bai Man with his passion and intensity.

Bai Man was indeed about to melt, as she lay soft and limp against Su Fan's shoulder.

She didn't know how many times she had been pounded, but she felt like her whole body was about to fall apart.

Most people didn't have enough arm and core strength to hold her the way Su Fan did.

This made her entire weight press downward while Su Fan's thrusts were extremely intense, driving up against her.

Such a position made Bai Man's soul tremble.

At this moment, she truly wanted to give in to the onslaught, to die on Su Fan's charging path, of course, a happy death.

Su Fan had no idea how many times he had brought Bai Man to peak after peak.

He was venting his anger toward Wang Fei, except his target for now wasn't Wang Fei, but Bai Man.

After a while, noticing Su Fan's expression becoming somewhat repressed, Bai Man quickly said, "Don't come inside!"

Chapter 524: Starting a Business

Su Fan nodded this time.

Being a doctor himself, he naturally knew that taking medication frequently was not good.

From now on, without protection measures, he planned to minimize watering Bai Man's heart as much as possible.

But Bai Man also understood Su Fan, or rather, she understood men.

She knew that when the river was about to breach completely, it simply wasn't something men could control.

So she blushed and whispered in Su Fan's ear, "Put me down, I'll help you."

Su Fan was puzzled, "How can you help?"

If Bai Man was going to use her hands, he would rather continue in the warm paradise and charge until the last moment before letting Bai Man go.

Bai Man couldn't help but give Su Fan a glare and said, "What other way is there to help?"

After speaking, she quietly said to Su Fan's ear that she was going to perform oral on him.

Hearing this, Su Fan naturally did not hesitate and put Bai Man down.

After a slight hesitation, Bai Man knelt in front of Su Fan, slightly parted her lips and began to suck and lick.

But to her astonishment, Su Fan suddenly reached out, embraced her head, and then began a very fierce thrusting.

In an instant, Bai Man felt a sharp pain in her throat.

It was as if some foreign object had gone directly into her throat.

Not only that, after Su Fan trembled slightly, she also felt a massive warm flow, which slid down her esophagus in an instant, directly reaching her stomach.

When Su Fan finally let her go, Bai Man could only cough while giving him a resentful look.

"Xiao Fan, you've become skillful, daring to bully your sister Man like that?"

Su Fan smiled and then picked Bai Man up again.

But this time, it was not to continue developing Bai Man but simply to hold her and pamper her.

Su Fan took a tissue from the desk and gently wiped the corners of Bai Man's mouth.

Then he handed Bai Man the coffee she had bought earlier.

Bai Man did not throw a tantrum and just took the coffee, snuggling into Su Fan's arms.

She was actually very grateful to Su Fan, whether it was for her own issues or her family's; he had helped her a lot.

No matter how Su Fan treated her now, she would not really be angry with him, at most just a little upset for a while.

And the current Su Fan gave her a completely new feeling.

That was, Su Fan had completely shed his childishness and naivety, now possessing an indescribable dominance and tenderness.

Bai Man did not know when such a change had appeared in Su Fan.

But no matter what Su Fan was like, she liked him.

Bai Man thought that after all, they were in a hospital, and someone might come looking for them at any time.

After Su Fan's mischief, he probably wouldn't do anything more to her.

But she was wrong, letting her recover slightly before Su Fan started another fierce attack on her.

This made Bai Man walk somewhat stiffly when leaving Su Fan's office.

Bai Man decided in her heart that from now on, during work hours, she would not go to Su Fan's office anymore.

The day's work ended in calm.

Apart from the unexpected incident brought by Wang Fei, the day for Su Fan was indeed calm.

The hospital often encountered some extremely troublesome patients, but obviously, they did not happen every day.

After work that day, Su Fan did not go home with Bai Man but drove to Xijing.

He was going to discuss the matter of registering a company with Wang Xiaoxiao and Shen He.

Shen He and Wang Xiaoxiao now both lived in the Hailin Group headquarters building.

Both of them were quite happy to hear that Su Fan was coming.

When Su Fan arrived at the Hailin Group building, he saw the two of them.

Since Shen He and Wang Xiaoxiao were both here, he clearly wasn't going to have dumplings made from dough today.

Chapter 525: The Giant Crocodile Enters the Scene

Su Fan had come to Xijing for serious business this time.

Whether he could have dumplings made from hand-kneaded dough wasn't really important.

He glanced at Shen He and Wang Xiaoxiao's pert, full brows and thought to himself:

"If I really get cravings later, eating the dough directly is also fine."

Shen He felt extremely embarrassed by Su Fan's gaze.

She was a woman who easily became shy, and the thing Wang Xiaoxiao had asked her to do last time still made her feel embarrassed when she thought about it.

However, before Su Fan and the others could enter the Hailin Group headquarters, an elderly man in a suit and leather shoes approached them, surrounded by a group of bodyguards.

The newcomer was the chairman of Longheng Group, and his presence here had only one purpose, to acquire Hailin Group.

After Deng Hai Lin passed away, Hailin Group had suffered a severe blow.

But it was indeed a profitable company, and it could also become a part of Longheng Group's business puzzle, enhancing Longheng Group's competitiveness.

Thus, Yan Henglong wanted to acquire Hailin Group, and this was already his second visit to Hailin Group.

On this visit, he was determined to succeed.

If Hailin Group refused the polite offer and faced sanctions, he would use business tactics to isolate Hailin Group and quickly push it into a survival crisis.

Upon seeing Yan Henglong, the looks in the eyes of Secretary Wang and Shen He turned extremely ugly.

Both of them were aware of what Yan Henglong being here meant.

But Hailin Group had really not yet decided what to do next.

After all, initially, Secretary Wang and Shen He had planned to ensure Hailin Group successfully transitioned.

Su Fan had certainly noticed the change in expressions on Shen He and Wang Xiaoxiao's faces.

These two women were now his.

If anyone dared to bully his women, it meant they were provoking him!

Su Fan immediately asked, "What is going on?"

Secretary Wang sighed and said, "He is Yan Longheng, the chairman of Longheng Group, the leading mega-corporation in Xijing."

"The current Hailin Group is in a huge predicament, although it could overcome this crisis through transformation and upgrades, it needs some time."

"Chairman Yan Henglong has keenly observed this and now aims to acquire Hailin Group."

"This is already his second time here, and if there is no agreement today, he will use legitimate business competition methods to isolate Hailin Group completely."

"If that happens, Hailin Group's already strained financial chain will quickly break, leading to very severe consequences."

Upon hearing this, Su Fan understood.

This Yan Henglong was a business tycoon in Xijing.

He aimed to take advantage of Hailin Group's most difficult time by striking when the iron was hot.

They wanted to acquire Hailin Group at the smallest cost possible.

Su Fan thought for a moment and then asked, "What's their offer?"

Secretary Wang gave a bitter smile, "One hundred and twenty million."

Su Fan immediately asked, "What's the current valuation of Hailin Group?"

Secretary Wang continued, "Roughly around two hundred million."

The difference was a full eighty million, showing how ruthless Yan Henglong was.

The key issue was that given Hailin Group's current situation, when facing a giant like Longheng, they were at a complete disadvantage.

Yan Henglong intended to exert commercial pressure on them, and they had no way to respond.

Su Fan immediately asked, "What are your thoughts?"

This time Secretary Wang didn't speak but looked towards Shen He, since she was Deng Hai Lin's wife and the actual person in control of the group now.

Shen He shook her head, "I don't know, Xiaoxiao and I haven't decided yet."

Chapter 526 - 526 Shadow of the Tree, Name of the Person

While Su Fan and the other two were talking, Yan Henglong and his group also arrived opposite them.

Upon seeing Su Fan, Yan Henglong first paused for a moment, and then, with some uncertainty, he opened his mouth to speak.

"Is this the president of the Yang City Martial Arts Association, President Su Fan, and the number one Divine Doctor of Yang City, Doctor Su?"

Someone like Yan Henglong, a big shot, naturally knew that the martial arts world was an important part of the upper class society.

Moreover, they cherished their lives and health very much.

The emergence of a very powerful Divine Doctor in the neighboring brother city was certainly something that needed Yan Henglong's attention.

The level of a big shot's status could sometimes be discerned from how well-informed they were.

The more informed they were, the stronger their capability to control information and to respond in a timely manner to changes in the external world.

If Yan Henglong had been extremely arrogant and domineering, Su Fan certainly would not have shown him a good face.

But now that the other party was all smiles and greeting him, he could only abide by the rule of not slapping a smiling face.

Su Fan nodded: "I am Su Fan from Yang City."

For a well-informed, significant figure like Yan Henglong, the four words "Su Fan from Yang City" were enough.

Yan Henglong was obviously very clear about the significant deeds Su Fan had done in Yang City.

True to expectations, as soon as Su Fan announced his name, Yan Henglong's attitude immediately became even more courteous.

The many bodyguards by his side, as well as the group of executives behind, instantly became tenser than ever before.

As the president of a city's martial arts association, Su Fan was definitely among the elite experts, a tough nut to crack.

If Secretary Wang and Shen He weren't thinking straight and brought Su Fan here today to use some extreme measure, it could cause trouble.

Luckily, Su Fan showed no signs of flying into a rage; he was extremely calm and composed.

Although Yan Henglong's face was full of smiles, he was actually quite nervous inside.

Standing face to face with a top expert like Su Fan,

was akin to having a sniper rifle pointed at his temple.

If Su Fan wished, he could easily become a corpse.

Yan Henglong really wasn't sure whether his bodyguards could stop Su Fan.

Knowing Su Fan's identity, Yan Henglong thought for a moment and then asked, "President Su, what brings you here?"

Without much thought, Su Fan simply stated, "I'm here to participate in the business negotiations between Hailin Group and Longheng Group."

Hearing Su Fan say this, Yan Henglong instead heaved a sigh of relief.

Is money an issue to someone like Yan Henglong?

His only worry was Su Fan taking drastic action and lashing out on the spot.

If he were killed by Su Fan, what use would his money have?

Therefore, upon hearing that Su Fan had come for business negotiations, Yan Henglong relaxed completely.

Yan Henglong smiled and said, "If that's the case, shall we go to your company's conference hall for talks?"

"This time, Longheng Group has come with sufficient sincerity."

If Su Fan wasn't here, Yan Henglong certainly wouldn't have made the latter statement.

Yet with a human weapon like Su Fan standing opposite him, he wouldn't dare to speak arrogantly unless he was tired of living.

Although Longheng Group's intentions weren't good, the two sides were harmonious for the moment.

Under the leadership of Shen He and Secretary Wang, everyone quickly entered the Hailin Group's conference hall.

There were only three people on Su Fan's side.

Yan Henglong wanted to enter the conference room with only three people, maintaining a tough stance.

But Su Fan's deterrent power was simply too strong; he didn't dare to do so.

Originally, he had planned to lead the negotiations himself, but now the deputy general manager had taken over.

Chapter 527: The Amazing Master Hand

After both parties had taken their seats, Yan Lei, the Deputy General Manager of Longheng Group, was the first to speak:

"We at Longheng Group have great recognition and appreciation for the remarkable achievements that Hailin Group has made over the past decade or so."

"The management philosophy and business model of Hailin Group have many aspects from which we at Longheng Group could learn and draw inspiration."

Of course, these words were all but empty talk, mere pleasantries for the occasion.

Having dispensed with the preliminaries, Yan Lei pushed his glasses up the bridge of his nose and got down to business.

His tone shifted, and he broached the subject directly:

"However, Mr. Deng Hai Lin's untimely death has plunged Hailin Group into an unprecedented crisis."

"The market share of Hailin Group is now continually being eroded by competing companies."

"Not only is Hailin Group unable to hold onto its existing market share, but its very operations are experiencing difficulties to varying degrees."

"We understand that Hailin Group is attempting to transition into the pharmaceutical sector."

"But without any background in the hospital field, this transformation comes with substantial risks."

"Moreover, the cash flow of Hailin Group is likely insufficient to sustain it through the completion of its transformation and upgrade."

"Chairwoman Shen, General Manager Wang, am I correct in saying this?"

Yan Lei paused there.

Although he was speaking to Shen He and Wang Xiaoxiao, he could not help but steal a glance at Su Fan.

Yan Henglong feared Su Fan, and so did he.

After all, they had never imagined that the Chairman of the Yang City Martial Arts Association would be present here today.

Fortunately, Su Fan remained utterly composed throughout the meeting, indicating that this was a business negotiation, not a martial arts challenge.

After Yan Lei had posed his question, both Shen He and Secretary Wang nodded.

Everything Yan Lei said was true; the actual situation was precisely as he described it.

Following their nods, Yan Lei continued: "Chairwoman Shen, General Manager Wang."

"Our previous offer of 120 million from Longheng Group was indeed lacking in forethought."

"After thorough research and discussion."

"We at Longheng Group have decided to acquire Hailin Group at the price of 160 million."

"Chairwoman Shen, General Manager Wang, what do you think?"

Yan Henglong and Yan Lei had originally come prepared to drive the price down!

Because the current situation of Hailin Group had become even more difficult.

According to their plans, spending 100 million should be about enough to take over Hailin Group!

Unexpectedly, Su Fan came into the picture.

The additional 60 million was obviously spent to save face for Su Fan.

This fact, of course, was also clear to Shen He and Wang Xiaoxiao.

If Su Fan had not been present, the people from Longheng Group would certainly have only pressed for a lower price, not offered a higher one.

Faced with the offer of 160 million, both Shen He and Wang Xiaoxiao felt somewhat tempted.

Indeed, the current circumstances of Hailin Group were not good, and critically, Hailin Group truly had no background in the medical field.

Their upgrade and transition could, strictly speaking, be considered a venture into uncharted territory.

Since it was such a venture, selling the company and starting again with substantial capital funds seemed to be the better option.

However, Shen He did not agree outright but, as if possessed, turned to Su Fan and said, "Mr. Su Fan, what do you think?"

Her question made everyone in the conference hall look a bit bemused.

After all, she was the actual controller of Hailin Group, and such decisions were naturally hers to make.

But both Yan Henglong and Yan Lei quickly understood.

It wasn't long since Deng Hai Lin had passed away, and his wife had already been taken by another man. The question was whether Su Fan used her daily or just every few days.

But what Yan Henglong and Yan Lei certainly did not realize was that this had been a clever arrangement by Deng Hai Lin before his death.

Without this masterstroke, what choice would Hailin Group have in the face of a behemoth like Longheng Group? They would have no option but to suffer in silence!

Besides, Shen He was in the prime of her life – if not for Su Fan to utilize, she would eventually benefit some other man.

Under the circumstances, why not entrust Shen He and Wang Xiaoxiao to his lifesaving benefactor, Su Fan.

Chapter 528: What is Your Life Worth?

When Su Fan first met Deng Hai Lin, he didn't perceive how formidable Deng Hai Lin was.

If he had known that Deng Hai Lin was a benevolent person who would offer money, companies, a wife, and lovers, he might have saved Deng Hai Lin's life.

Of course, discussing these matters now is meaningless since Deng Hai Lin has already passed away.

Without hesitation, Su Fan answered Shen He's question.

Smiling, Su Fan spoke, "160 million is not a very generous offer."

"But from the perspective of Longheng Group, this might already be a very sincere offer."

When Su Fan spoke these first words, Yan Lei felt his heartbeat almost stop!

He and Yan Henglong both knew that Su Fan was an explosive master.

What is an explosive master? That is someone who could effortlessly split metal and stone, and could kill someone with just a raise of his hand within a hundred steps!

At this moment, Su Fan simply breathed out, and Yan Lei completely believed that he could penetrate his brow.

Fortunately, Su Fan's next sentence thoroughly relieved Yan Lei's tension.

At this moment, Vice General Manager Yan Lei was somewhat hopeful.

From the look of it, could this matter really be possible?

He just didn't know what Su Fan would say next?

Of course, Su Fan did not let Yan Lei and Yan Henglong wait too long before he continued to speak.

This time when he spoke, he said something that neither Yan Lei nor Yan Henglong could ever have expected.

Surrounded by bodyguards, Su Fan looked at Yan Henglong and said, "Chairman Yan Henglong, we agree to the 160 million price."

"However, I wonder how much Chairman Yan's life is worth?"

His words evidently caused a misunderstanding.

Suddenly, numerous bodyguards surrounded Yan Henglong tightly, fearing that Su Fan, frustrated by embarrassment, might erupt in violence.

Seeing how nervous the others were, Su Fan couldn't help but feel somewhat amused.

He chuckled and continued, "Chairman Yan, lately when you wake up in the morning, do you feel that although you are awake, your body seems somewhat unable to move?"

"Do you need to wait a few minutes to fully awaken?"

"When you go for medical checks, the doctors find nothing wrong?"

"Did they just say that Chairman Yan has been overly concerned and overworked, that the mental strain is high but without proper rest, thus leading to such conditions?"

"If I'm not mistaken, even with the prescribed medication from the hospital, your symptoms haven't improved at all."

"Am I right?"

Initially, Yan Henglong thought Su Fan was dissatisfied with their offer and was about to resort to martial confrontation.

But he hadn't expected Su Fan to do such a thing.

However, he was aware of Su Fan's abilities.

He knew that Su Fan was a supremely skilled Divine Doctor who could discern some issues with his body, which was fairly normal.

Thus, he also spoke with a smile, "Beneath the vast sky, there's no place that does not harbor the learned! Divine Doctor Su truly lives up to his reputation."

"All that Divine Doctor Su just mentioned is completely accurate."

Su Fan continued, "Then, Chairman Yan, have you gone for a comprehensive brain examination?"

"After such conditions arise, there must have been some meticulous doctors who mentioned this issue, right?"

This time, Yan Henglong, who was not initially too shocked, couldn't help but be astounded!

Because his private doctor, indeed, had given him such a recommendation.

His private doctor, a medical expert who had studied in England, had suggested it.

Following the recommendation, he indeed went for a comprehensive brain examination.

After hesitating for a moment, he took out his cellphone to check the examination report online.

His examination report had been available half an hour ago.

But he had been busy with other matters and had not prioritized it.

When he opened the examination report, Yan Henglong was terrified on the spot!

Chapter 529 - 529 Long-term treatment plan

Neural necrosis caused by unknown factors!

The cause is unclear, and there is currently no ideal diagnostic or treatment plan!

If this continues, within three months, all motor functions will be lost.

Whether it will endanger life needs further observation....

Yan Henglong didn't have the patience to continue reading; now, he had absolutely no interest in matters like corporate acquisitions.

He would soon become a vegetable, or simply pass away.

In such a case, what use was money to him?

After the initial shock and breakdown, Yan Henglong quickly thought of Su Fan in Yang City and his medical cases in Xi Jing!

Each of Su Fan's medical cases was miraculous, almost bringing people back from the dead.

Even those who were nearly dead, Su Fan could save.

He wasn't dead yet, Su Fan should be able to save him, right?

Moreover, Su Fan had just explicitly asked him how much his life was worth!

Yan Henglong took a deep breath and then looked at Su Fan, solemnly asking, "Dr. Su, is my illness something only you can treat?"

Su Fan nodded his head, then shook it: "There are always more talented people and higher places in the heavens."

"As far as I know, I am the only one who can treat your illness, but I do not exclude the possibility that somewhere unseen, another Divine Doctor can save you."

With those words from Su Fan, Yan Henglong understood the situation.

Without a doubt, he wouldn't find another Divine Doctor who could save him.

Thus, Yan Henglong quickly made a decision: "Divine Doctor Su, Longheng Group is willing to buy Hailin Group for two hundred million."

"Additionally, I am willing to offer one hundred million in funds, plus my personal friendship, as your treatment fee."

"Like this, is it acceptable?"

Yan Henglong was sincere, so in the matter of the Hailin Group, he didn't continue any tricks but offered two hundred million straightaway.

As for Su Fan's treatment fee, he didn't dare mess around and directly offered an astronomical fee of one hundred million.

Not only that, but he even proposed a friendship with Su Fan at a formal occasion.

This meant that if anyone asked about Su Fan's friends in the future, they would inevitably have to mention Yan Henglong.

Because if Su Fan ever found himself in trouble, he would need help. If someone targeted Su Fan, it would be an affront to Yan Henglong.

Su Fan was quite satisfied with Yan Henglong's sincerity.

So he thought for a moment, then said to Yan Henglong, "It is acceptable."

Having said that, Su Fan continued, "However, your situation is very complicated, and you will need to undergo long-term treatment at Yangcheng Medical University Affiliated Hospital."

"I work there. It would be best if you could visit every other day until the treatment is completely finished."

Yan Henglong, of course, listened carefully to Su Fan.

Hearing Su Fan say this, he nodded vigorously.

He had already decided that during his treatment period, he would work one day and rest the next.

On his days off, of course, he would go to the Yangcheng Medical University Affiliated Hospital to seek treatment from Su Fan.

The following events unfolded with unprecedented smoothness.

Shen He and Wang Xiaoxiao both felt as if they were dreaming.

The two had never thought that they could sell the group for two hundred million so easily.

Not only that, it was the first time both of them realized that treating the illnesses of the wealthy could be so lucrative.

Hailin Group had struggled for over ten years to sell for just two hundred million.

Su Fan's treatment of Yan Henglong, although it included follow-up long-term treatment, earned him a medical fee of one hundred million.

Su Fan, of course, knew that treating these magnates was lucrative.

But these magnates often managed their health extremely well.

To them, pneumonia for the poor was just a case of the common cold.

The chance for him to treat these individuals was indeed rare.

He also had shares in Hailin Group.

However, he did not plan on taking too much; he had already received one hundred million in medical fees, taking just thirty percent from Hailin Group was more than enough.

Not only that, since Shen He and Wang Xiaoxiao had already sold Hailin Group, they might as well go on to manage his company for him.

Chapter 530: The Cost Behind the Glamour

The trip to Xi Jing went smoother than Su Fan had imagined.

He not only successfully had Wang Xiaoxiao and Shen He help him manage the company, but also received a sky-high diagnostic fee of one hundred million from Yan Henglong.

However, curing Yan Henglong's illness was not going to be easy.

Of course, if it were otherwise, Yan Henglong would not have offered a sky-high diagnostic fee of one hundred million to beg for his life.

Medical science has developed to the point where a vast number of diseases have been classified and organized.

Yet beyond these, there still exist a large number of rare diseases and various intractable illnesses.

The neural necrosis caused by unknown reasons in Yan Henglong's case was one such rare disease.

Let's not talk about other doctors—even now, Su Fan had not fully figured out the exact cause of Yan Henglong's illness.

However, that did not hinder him, as he already had a corresponding treatment plan in mind.

It became just a matter of time before Yan Henglong would come to the affiliated hospital of the Medical University to see him for treatment.

Su Fan's work was progressing spectacularly, extremely smoothly. His career was red-hot, and the outlook was fantastic.

Meanwhile, Wang Fei had fallen into a desperate situation; her life as a wealthy lady was nothing like she had imagined.

In the Qi Mansion, the numerous servants of the Qi family already knew Wang Fei was the young mistress.

Whenever they saw her in the mansion, they would greet her with the utmost respect and admiration.

Now when she went to Baiwei Pharmaceutical, she no longer had to take on heavy tasks; in fact, there was hardly any substantial work for her to do.

The staff at Baiwei Pharmaceutical naturally noticed her and Qi Tian being inseparable.

Many of them were extremely envious of this.

Beyond their envy, people also sympathized with Yin Qian Yue.

After all, initially, there was a family marriage contract between Qi Tian and Yin Qian Yue.

To outsiders, they appeared as a perfect match, a pair made in heaven.

With the two powerhouses of Yang City, the Qi family and the Yin family, joining forces, they could almost dominate the business scene in Yang City.

But for some unknown reason, a rift developed between the Qi and Yin families.

Yin Qianyue and Qi Tian ultimately did not end up together; instead, Wang Fei, a pharmaceutical representative from Baiwei Pharmaceutical, rose to the position.

When people saw the radiant Wang Fei, they could not comprehend the painful vortex she was currently in.

And the pain she was now enduring was the result of her own painstaking efforts, the result of her carefully laid plans.

Like before, Wang Fei was attending a dinner party at the Qi's tonight.

The life of Qi Dongliang and his son Qi Tian resembled that of medieval European nobility, extremely luxurious.

The dining area for the Qi family was decorated like a resplendent, regal palace.

This excessive luxury had always been Wang Fei's desire, even something she dreamed of.

From the moment she set foot in the mansion as its future mistress, she indeed ascended to a higher level.

But she was far from being the future mistress of the mansion; saying she was already the mistress wouldn't be an exaggeration.

These days, after being with Qi Tian, she always had to go and receive a new round of "cultivation and watering" from Qi Dongliang.

Initially, she had no idea why Qi Tian slept so deeply.

Now, she knew there was something wrong with Qi Tian's food.

It seemed to be a drug that induced heavy fatigue, causing deep, deep sleep once one fell into a state of tiredness.

She even suspected that if Qi Dongliang were to act on his perverse impulses beside Qi Tian, Qi Tian might not notice anything at all.

Now, during dinner, facing a table full of premium ingredients, Wang Fei found no joy in eating.

All the food tasted like wax in her mouth, flavorless and dull, nothing tasted good.

She really didn't know what she should do at this moment?
