

Temptation 551

Chapter 551 - 551 Is This Called Being Alright?

Jue Kong had long thought that with Buddha in his heart, one could cultivate oneself everywhere, whether it was atop a mountain or at its base.

If Su Fan's company were such a company, then working for Su Fan's company would likewise be a true act of kindness and accumulation of virtue.

Because, in places he couldn't see, there could be tens of thousands of people being saved by the medicines produced by Su Fan's company.

If, due to the inability to afford those exorbitantly priced medicines, they missed the best treatment window, or even could not receive treatment at all, who knows how many people would have to endure pain and suffering, leading to broken families and separation from loved ones.

With these thoughts, Jue Kong brought his hands together and said to Su Fan with great earnestness,

"Doctor Su, as long as your company continues to seek welfare for the hardworking masses and make honest-priced medicines accessible to everyone,"

"I am willing to stay at your company and work in the security department. This, too, is my practice off the mountain."

Su Fan said with a smile, "It's a deal, that's always been the vision for the development of my company."

"The abbot will be waking up soon; you can go in and take care of him."

Jue Kong nodded, "Alright."

He also prepared to share these thoughts with the abbot.

Given the abbot's profound wisdom, he would undoubtedly support his decision.

After handling things on this side, Su Fan went to Bai Man's office.

The person who needed saving had been saved, and work matters had been dealt with; next, of course, it was time to enjoy life properly.

When he arrived at Bai Man's office, she was still organizing documents.

Su Fan closed the office door and sat down next to Bai Man.

He then said, "Man, what are you busy with? Let me help you."

Bai Man gave Su Fan a look before saying, "I've always been responsible for recording and organizing these documents; if you were to help me, I doubt you'd understand what's what."

After speaking, Bai Man continued, "What do you need me for?"

Su Fan, while reaching out and wrapping his arm around Bai Man's slender waist, said, "Nothing much really."

Bai Man glanced at the creeping hand reaching toward her chest and said meaningfully, "You call this nothing much?"

With the benefit of long practice, Su Fan's skin had become quite thick.

When Bai Man inquired, without hesitation, he nodded and said, "Yeah, really nothing serious to trouble you with, Man."

"Keep working; you do your work, and I'll enjoy myself."

These words, of course, made Bai Man want to hit him—what a thing to say!

Su Fan taking advantage of her was one thing, but to do so and act cute about it!

Yet Bai Man didn't get angry or push Su Fan's hand away.

In fact, when Su Fan kneaded and pressed, she found it rather comfortable.

However, they were in a hospital after all, and Su Fan hadn't locked her office door.

If a doctor suddenly walked in, they would immediately see Su Fan's hand reaching under her clothes.

What's more, Su Fan now edged closer to her, sliding both hands under her clothes.

Bai Man felt a sense of resignation and could only say, "Let's wait till we get home, if someone sees this, how will I face people afterwards?"

Of course, Su Fan would not agree; now was just the appetizer. Once Bai Man finished her work, he planned to soar to the skies with her.

Having been with Su Fan for so long, Bai Man knew his thoughts well.

She could only reply with even more resignation, "You're becoming more and more presumptuous! Behaving like this in the hospital, what do you take me for!"

Su Fan knew that Bai Man wasn't truly angry; in a way, her behavior was playing along with his teasing and scolding.

Chapter 552: The Director's Favorite

Thus, the movement of Su Fan's hands not only didn't stop, but he also captured Bai Man's pearly teeth and red lips with a kiss.

Bai Man didn't refuse, she not only didn't refuse but also began to respond enthusiastically.

As she responded, her firm and full mounds, of course, kept changing shape in Su Fan's hands.

However, at that moment, Su Fan's ears twitched, and he quickly let go of Bai Man.

Understanding the situation, Bai Man quickly straightened her clothes, then continued to focus her gaze on the documents on the table.

Su Fan pretended to be busy, walking over to the file cabinet nearby.

It was Zhang Haitao who had come to see Bai Man.

Zhang Haitao pushed open the door, and upon seeing Su Fan there too, was slightly startled.

But he quickly handed a form to Bai Man.

Then he said, "You two take a look, see which equipment in your office area needs to be replaced and what items need to be added. Mark them down on the form."

Not long ago, the hospital had received a donation of ten million to purchase medical equipment and other hospital facilities.

Zhang Haitao wanted to get a big slice of that pie, and naturally, he was hands-on with the use of that ten million.

Su Fan and Bai Man could both guess why Zhang Haitao was so active in this matter.

But neither of them would say much about it, as anyone else in Zhang Haitao's position would likely do exactly the same.

After handing the form to Bai Man and Su Fan, Zhang Haitao turned to Su Fan and said, "Doctor Su, are you free on Friday, Saturday, or Sunday? If you are, come over to my place for a meal."

After thinking for a moment, Su Fan replied, "Director Zhang, on Friday and Saturday, I think I will have some matters to deal with."

"If it's convenient for you on Sunday, I will come over to visit."

Zhang Haitao laughed heartily, "There's no disturbance. We're all doctors. Although my medical skills are not as exquisite as yours, I have rich clinical experience."

"Come to my place on Sunday. We can taste tea and exchange medical knowledge."

After saying this, Zhang Haitao then asked Bai Man, "Bai Man, do you have time this weekend?"

Knowing that Zhang Haitao was just making polite conversation, Bai Man immediately shook her head and replied, "Director Zhang, I've made other plans for this weekend. I'll visit your home some other time."

Zhang Haitao nodded, "Alright, make sure to visit next time."

He didn't actually want to invite Bai Man; although the issues with Bai Man's family had been resolved, the influence of the Bai family in Yang City and Xijing had plummeted.

Moreover, Zhang Haitao had come to understand that the issues with Bai Man's family were quite complex!

He could get closer to Su Fan but couldn't afford to get too close to Bai Man.

After Zhang Haitao left, Bai Man joked, "Now you're the number one favorite in the director's heart."

Su Fan didn't deny it and even walked over to Bai Man, lifting her in his arms, "Yes, Man Jie, the director is indeed valuing me more and more. Are you happy for me?"

Bai Man nodded and said, "Of course, I'm happy for you. And I know better than anyone that all of this is well-deserved by you."

"Other people might not be fully aware of what you've done for the hospital, but I've seen it all."

"When Director Zhang retires, you might even directly become the deputy director or the director himself."

Su Fan was noncommittal about this, as his contribution to the hospital was significant, and his medical skills were indeed exquisite.

As long as there was a vacancy above, he could immediately fill the spot.

While thinking this, Su Fan also lifted Bai Man in his arms.

In such a position, their bodies could mesh together seamlessly, and it allowed for the most extensive impact upon her pistil.

Chapter 553: Life-saving Straw

At that moment, Bai Man's entire weight was pressing down.

At the same time, fearing she might fall to the ground, she instinctively drew closer to Su Fan and held him tightly.

In doing so, Su Fan was of course able to combine with Bai Man on the deepest level.

However, supporting Bai Man like this while standing drained a lot of energy.

Fortunately, he was now a master of explosive power, so this level of energy consumption was hardly anything to him.

While a hint of pain appeared on the beautiful face of Bai Man, he still thrust as powerfully as a dragon, striking directly at her core.

Su Fan's youthful vigor and strong energy forced Bai Man to master a special skill.

It was the skill to converse with Su Fan while being intensely engaged by him.

Otherwise, they both had a lot of things to do, a lot of work to handle.

Having started a business, Su Fan had become even busier now.

The times she was with Su Fan, he would mostly be tirelessly involving her in vigorous activities.

If she hadn't mastered such a skill, she wouldn't have had time to properly communicate with Su Fan.

At this very moment, while enduring Su Fan's stormy and fierce drive, Bai Man struggled to speak.

"Xiao Fan, I've already made plans to dine with Wang Fei this Saturday, you'll go, right?"

Bai Man had just overheard the conversation between Su Fan and Zhang Haitao, but she didn't know if Su Fan had reserved Saturday for the dinner.

Su Fan nodded, "No problem, Man Jie, I'll join the dinner on Saturday."

Initially, when Su Fan knew he had been betrayed and sold out by Wang Fei, he was extremely angry.

After his anger, he licked his wounds and continued forward.

At the same time, he firmly resolved to make the glamorous and prestigious lady, Wang Fei, into his long-term female slave, his perennial bitch.

This was his punishment for Wang Fei's betrayal and deceit, and she deserved it.

However, Su Fan didn't know that if he actually did this and at the same time helped liberate Wang Fei from Qi Dongliang's control, then he would be saving Wang Fei from misery.

During this period, Wang Fei was living a tremendously fragmented life, constantly teetering on the edge of breakdown.

The very thing she had feared the most had indeed occurred.

The beast Qi Dongliang had indeed forcefully taken her all night long right beside Qi Tian!

They say even a tiger won't eat its cubs, but Qi Dongliang clearly didn't consider Qi Tian at all.

There was something in Qi Tian's food that made him very easily fatigued, and after engaging deeply yet superficially with her, he would fall into a deep, dead sleep.

Qi Tian remained clueless about her being forced to consume a great deal of Qi Dongliang's essence right by his side.

This made Wang Fei even more hesitant about whether she should seek help from Su Fan during the Saturday dinner.

She wasn't sure if Su Fan would or even could help her.

However, with the connections of the Qi family, she had learned most of Su Fan's affairs.

She knew that Su Fan was now the president of the Yang City Martial Arts Association, and she also knew that Su Fan had acquired an office building from Zhou Xueman and had registered a company with a capital of one billion!

Yes, the registered capital of Su Fan Company was a whole one billion, with two hundred million paid-up. The remaining capital would gradually be deposited into the company's accounts over the course of business operations.

Previously, Wang Fei couldn't have imagined Su Fan rising to such heights in such a short period.

If she had known it would be this way, she would have never used Su Fan, betrayed him, or sold him out.

She would have completely devoted herself to serving Su Fan with her body and beauty, with her eager flattery.

After hesitating for a while, Wang Fei decided to seek help from Su Fan.

This was her last straw to clutch at. If Su Fan didn't help her, she would sooner or later be driven mad by the Qi father and son.

In the affiliated hospital, after engaging in deep yet superficial conversations with Bai Man for a long time, Su Fan returned to his office and then waited to finish work.

After work, he took Jue Kong and headed to meet Chen Hanqing and others.

The guardhouse of the Dawn Pharmaceutical Technology Company, which had always been vacant, was now available for Jue Kong to move into.

Chapter 554 - 554 Su Xiaoya is Kidnapped

Dawn Pharmaceuticals Technology Company, the office building.

Although Su Fan had indeed paid two hundred million in capital to successfully register the company,

the company had already employed high-end talent such as Wang Xiaoxiao, Shen He, and Chen Hanqing.

But before that, he had undoubtedly overlooked security issues!

After the company was officially established, Wang Xiaoxiao began recruiting talent online and offline.

Having had experience running Hailin Group, she had no issues managing and operating a startup company for Su Fan.

Utilizing her earlier connections, she soon recruited quite a few talents.

But neither Su Fan nor Wang Xiaoxiao prioritized the company's security at first.

After all, in a society governed by the rule of law, obviously, nothing should go wrong in broad daylight.

But a problem did occur, as Chen Hanqing's thigh had been stabbed, and now blood was continuously flowing.

Not far from him, several little boys and girls were being held hostage by a group of thugs.

Previously, this group had robbed a gold shop, and while on the run, their car broke down.

Then these heartless criminals took many children who had just left their kindergarten nearby hostage and barged into Dawn Company, which lacked security measures.

When Chen Hanqing tried to stop the thugs from breaking into the company, he got stabbed in the thigh with a dagger.

At this moment, a large number of security officers had already surrounded the company.

Learning that their children had been taken hostage by the criminals, many parents were extremely anxious.

Unfortunately, Su Ya's adopted daughter, Su Xiaoya, was also taken hostage by the criminals.

Now Su Ya was just as anxious as the other parents, watching the company building.

Wang Xiaoxiao, Shen He, and Chen Hanqing were also extremely tense.

Because at this moment, they were trapped by the criminals in a large conference room.

Apart from regulated knives, these criminals had firearms such as double-barreled shotguns in their hands.

The five of them were extremely nervous, with some keeping a close watch on the outside, others pointing double-barreled shotguns at the children's heads, and some holding homemade guns with a menacing gaze fixed on Chen Hanqing and the others.

As more and more security officers arrived outside, one of them said, "Brother Biao, Brother Fei, we're done for this time, there are at least thirty cops outside!"

The speaker was named Daya. Brother Biao he referred to was Zhou Biao, and Brother Fei was Zhou Fei, two brothers.

The five of them had been incarcerated before and met in the same prison.

After their release, they partnered up to do some business, but they were unsuccessful and didn't make any money.

Facing tight finances, they came up with the idea to rob a gold shop.

Among them, some had been imprisoned more than once; naturally, their criminal techniques were very adept, and even their escape routes were chosen with care.

But accidents can happen anywhere!

During their escape, the car broke down.

And coincidentally, a security patrol car appeared nearby.

This put them in a difficult situation.

Zhou Biao, having no choice, had each of them take a child who had just left kindergarten hostage and then forced their way into Su Fan Company.

After Daya spoke, Zhou Biao's already fierce expression became even more dreadful!

He forced himself to calm down and then said, "Don't panic! As long as we keep calm, we still have a chance!"

As he spoke, Zhou Biao turned his gaze towards Shen He and said, "Leopard, pull that chick next to you over here."

The thug called Leopard naturally did as Zhou Biao instructed.

At the same time, Su Fan arrived outside the company building with the monk Jue Kong.

Upon arrival, Su Fan's gaze turned frosty.

With so many security officers there, something had clearly gone wrong at his company.

Without hesitation, Su Fan immediately stepped forward to ask for information.

Chapter 555 - 555 Negotiating with the Thug

He looked around the crowd and was very surprised to see Su Ya!

After seeing Su Ya, Su Fan was naturally overjoyed.

He immediately ran to Su Ya's side and asked, "Su Ya, what are you doing here? Has something happened?"

Upon hearing Su Fan's voice, Su Ya turned to look.

Once she confirmed it was Su Fan, she leaned helplessly into his arms and began to speak with a cry in her voice.

"Xiao Fan, something has happened to Xiaoya!"

Su Fan's heart skipped a beat, having sensed that something was wrong when he first saw Su Ya's anxious expression.

Now that Su Ya had said this, he too became anxious.

After calming his emotions, Su Fan looked at Su Ya and asked seriously, "What happened to Xiaoya?"

Su Ya's voice was choked as she began, "Earlier, it seemed that some criminals robbed a jewelry store."

"Later, as those criminals were fleeing, their car broke down on the road."

"Then those people, they took Xiaoya and her classmates hostage."

"Those five criminals are in that house right now, they have guns, what should we do?"

After Su Ya finished, Su Fan understood what had happened.

On one hand, Su Ya was unlucky to encounter this situation, but on the other, it was a societal issue.

In this society, the disparity between the rich and poor is severe, and the prevailing social atmosphere is impetuous and filled with utilitarianism.

This leads some people to take great risks in order to quickly amass wealth!

The criminals who had taken Su Xiaoya and Chen Hanqing, among others, hostage in the large meeting room were clearly such people.

Unfortunately, this path is doomed to failure.

Su Fan consoled Su Ya first, "Su Ya, don't worry, I'll handle it."

Of course, Su Ya had great trust in Su Fan.

Moreover, having already given herself entirely to Su Fan, who else could she trust if not him?

After asking Su Ya to wait there, Su Fan found the squad leader of the public security officers and identified himself.

"Comrade, hello, I am the president of the Yang City Martial Arts Association, Su Fan. What is the situation now?"

The public security squad that had come was led by Yin Zhenhua.

If Su Fan had looked closely, he would have noticed a resemblance between Yin Zhenhua and Yin Qianyue.

Yin Zhenhua was none other than Yin Qianyue's younger brother.

Otherwise, he wouldn't have become the squad leader of the public security squad at such a young age.

Yin Zhenhua, being a Qi-accumulating Martial Artist himself, certainly knew the high status associated with being the president of the Yang City Martial Arts Association!

Yin Zhenhua immediately responded with a grave tone, "President Su, hello, I am Yin Zhenhua, the squad leader of the public security squad from the Wenchang branch."

"The current situation is very dangerous; those criminals are repeat offenders."

"They are armed with double-barrel shotguns and homemade guns, along with some controlled knives."

"In that large meeting room, they have also taken five nursery school children and three executives from Dawn Pharmaceutical Company hostage!"

Yin Zhenhua did not conceal anything and directly informed Su Fan of the situation.

In Su Fan's heart, there was now a flicker of murderous intent.

These criminals were definitely looking for trouble with him!

Right now, Su Xiaoya was like his and Su Ya's own daughter.

Even though she was adopted, both he and Su Ya treated Su Xiaoya as their biological child.

Knowing that these people had taken Su Xiaoya hostage, Su Fan was already very angry!

Only now did he learn that not only had they taken Xiaoya hostage, they had also taken three executives from his company!

After learning these two pieces of information, Su Fan said to Yin Zhenhua, "Squad Leader Yin, let me go and negotiate with the criminals."

Yin Zhenhua naturally disagreed, "President Su, let's wait for our sniper to find an opportunity to take the shot."

Chapter 556: Exchange Me for the Hostage

Yin Zhenhua wasn't doubting Su Fan's abilities, mainly because Su Fan was the president of the Yang City Martial Arts Association and held an extremely esteemed position.

However, the group of criminals had homemade guns and double-barreled shotguns, and he was worried that Su Fan might get into trouble.

Su Fan shook his head, "If too much time passes, I'm worried these people might become desperate and harm the hostages."

"Don't act rashly. I'll go take care of those criminals."

Having said that, Su Fan walked towards the large conference room.

As he advanced, he began to speak.

"Listen up, criminals inside, I am Su Fan, the chairman of the Dawn Pharmaceuticals and Technologies Company."

"You robbed a gold shop, took five children and three of our company's employees hostage, all for money, right?"

"Release my employees and those children, and I will be your hostage instead."

"By taking me hostage, you could not only leave here safely but also get a large sum of money from me."

"What do you think of my proposal?"

When Su Fan's words reached the large conference room, Zhou Biao and his fellows were stunned.

Zhou Biao had already decided to cut off one of Shen He's fingers to threaten the security outside to let them leave safely.

If the security outside didn't comply with his demands, he would cut off one of Shen He's fingers every three minutes.

Shen He, seeing the machete already placed on her little finger, was nearly scared to faint!

Fortunately, at this moment, Su Fan's voice came through.

Upon hearing Su Fan's voice, Shen He felt inexplicably reassured.

At the same time, she also began to worry about her own safety and that of Su Fan; being in the hands of the criminals was clearly a very bad situation for either of them.

Zhou Biao hesitated for a moment, then called out to Su Fan, "Are you really the boss of this company?"

Su Fan replied in an extremely calm tone, "Yes."

Zhou Biao then asked, "If that's the case, why are you willing to exchange hostages?"

"People like you should be very afraid of dying."

"After all, you have everything and just need to enjoy life."

Su Fan chuckled coldly, "You're wrong. I don't just need to enjoy life."

"The existence of our company is to bring down the prices of numerous overpriced drugs on the market!"

"And everything I own is the result of my hard work; you don't need to make snide remarks."

While talking to Zhou Biao, Su Fan had already arrived at the entrance of the large conference room.

Zhou Biao's double-barreled shotgun was aimed at him at this moment.

After hearing Su Fan's words, Zhou Biao didn't fly into a rage but instead said, "Alright, that's gutsy. You're a real man!"

After saying that, he continued, "Mr. Su, as long as you cooperate with us and we leave successfully, I guarantee not to harm a single hair on your head!"

Su Fan, of course, nodded, "Okay, now let these hostages go."

Zhou Biao, however, had no intention of releasing the hostages but instead said, "Mr. Su, you just need to cooperate with us, don't worry about anything else."

As he spoke, he pressed the double-barreled shotgun against the back of Su Fan's head.

The others, seeing Zhou Biao capture such a big fish, were all excited.

The collective weight of everyone in the room quite possibly didn't match Su Fan's.

Zhou Fei, Big Tooth, and Leopard, among others, now gathered around.

After capturing such a big fish like Su Fan, not only could they escape smoothly, but they could also extort a considerable amount of money from him!

Compared to the five kindergarten kids and the three people including Shen He, Su Fan was clearly the best hostage!

In the room, Shen He, Wang Xiaoxiao, and Chen Hanqing were all looking at Su Fan with worried expressions.

Chen Hanqing had lost a lot of blood and was extremely weak.

Chapter 557: Dragging You Down with Me Even in Death

Seeing Su Fan fall into the trap, Chen Hanqing felt a deep sense of helplessness.

Unfortunately, aside from his skills in computing and networking, he couldn't do anything to help Su Fan at this moment.

Wang Xiaoxiao was excessively frightened and could only watch Su Fan with immense nervousness, unable to utter a single word.

The situation for Shen He wasn't much better than that of Wang Xiaoxiao.

On the outside, Yin Zhenhua and his people became aware of the situation here.

Seeing Su Fan held at gunpoint to the back of his head, everyone silently sweated for him!

Many journalists from the news media also arrived upon hearing the news, conducting interviews around the scene.

What was happening here was already known to many people.

Having conducted brief interviews around the area, numerous journalists also understood the gravity of the current situation.

In Yang City's territory, Su Fan was somewhat of a familiar face to various media platforms.

But in the past, Su Fan had made appearances on TV as a doctor.

This time was different, as Su Fan appeared on TV as an entrepreneur!

Many journalists had learned that the wealthy Su Fan, worth over a hundred million, was willing to risk his life to save three employees and five kindergarten children!

He was willing to use himself in exchange for the other hostages!

Upon hearing this news, it was as if a chord struck in the hearts of many journalists, deeply moved by Su Fan.

The look everyone gave towards the large conference room turned into a mix of sober respect.

The many viewers in front of their TVs in Yang City likewise saw a news report related to Su Fan for the second time in one day.

If Su Fan had been on the news before for his superior medical skills, this time it was for his fearless spirit and a sense of responsibility!

On hearing that he was willing to exchange himself for five kindergarten children and three employees, the citizens of Yang City became extremely concerned for Su Fan's safety.

Many were glued to their TVs, waiting for follow-up reports.

On the other hand, in the large conference room, Su Fan also spoke up as Zhou Biao and a few others drew near.

He looked at Zhou Biao and said, "You made the right choice."

Zhou Biao laughed, "Boss Su, I still know how to settle accounts."

"Holding you hostage is much more useful than holding someone else."

Su Fan nodded, "I agree with you, but there's one thing you got wrong."

Zhou Biao was startled, "What's that?"

Su Fan said, "You shouldn't have robbed the jewelry store, and after robbing it, you shouldn't have insanely taken kindergarten kids hostage. And most of all, you shouldn't have come to my company and injured my employee."

His words undoubtedly enraged Zhou Biao and the other criminals.

Thus, Zhou Biao immediately shouted angrily, "Boss Su, are you tired of living, wanting to die?"

"Do you have any idea that I could blow your head off with just a pull of the shotgun's trigger?"

Su Fan smiled and said, "I'm telling you this just to let you know that what you've done is sufficient to get you killed several times over."

Zhou Biao was furious, "Get me killed several times? Ha, what a joke!"

"Who can kill me? Even if I am going to die, I'll make sure you go down with me!"

"Cut the bullshit and behave, come with me!"

Su Fan spoke again, "I'm afraid you won't be able to leave."

This time, Zhou Biao couldn't be bothered with any more useless conversation with Su Fan, simply pressing the gun against Su Fan's head.

Seeing that Su Fan truly had no reaction, he then said, "Boss Su, I'm giving you one last chance. If you don't cooperate, I'll take your life with one shot!"

"I'll count to three, and you better walk with us obediently. As long as we brothers can get away, I promise you'll be fine."

After finishing, he continued, "One..."

Chapter 558: One Person Subdues Five Thugs

"Bang!"

As Zhou Biao counted down, Su Fan suddenly made his move.

The hunting rifle in Zhou Biao's hand also emitted a deafening explosion.

It's just that the muzzle was no longer pointed at Su Fan's head but had been pushed by Su Fan towards the ceiling.

"Bang!"

After firing one shot, a muffled sound came from Zhou Biao's body.

Su Fan's punch, imbued with Tai Chi True Qi, directly turned his heart into eight pieces!

Zhou Biao's entire body immediately bled from seven orifices and fell to the ground, dead!

Su Fan showed no mercy towards the remaining few either!

"Bang! Bang! Bang! Bang!"

A series of muffled sounds followed, leaving four more either critically injured and on the brink of death or with broken bones and torn muscles.

Had it not been for the worry that killing five people at once would cast a negative light,

he would have even wanted to smash the heads of these five bastards with one punch!

Not to see where this place was and dare to run wild.

The gunshot here, of course, was heard by the people in the distance.

But they didn't know the situation in the conference room and didn't dare to approach rashly.

It wasn't until Su Fan threw out Zhou Biao and the others like dead dogs that Yin Zhenhua and the crowd of reporters surged forward.

Soon, the news that Su Fan single-handedly subdued five criminals and successfully rescued the hostages was known to all!

Upon hearing the news, everyone was thrilled!

The surrounding crowd cheered and applauded for Su Fan.

Indeed, Su Fan had handled the situation beautifully this time!

After sending the injured Chen Hanqing to the hospital for treatment, the long barrels and short cameras of the numerous reporters once again completely surrounded Su Fan.

"Doctor Su, you are truly brave! You are the pride of Yang City!"

"Chairman Su, I have learned that Dawn Pharmaceutical Company is your enterprise, is this true?"

Following this reporter, other reporters quickly asked their questions: "Chairman Su, our search shows that Dawn Pharmaceutical is a robust company with a registered capital of one billion and actual capital of two hundred million. May I ask what is the main focus of your company?"

"Doctor Su, weren't you afraid at all when you faced five criminals just now?"

"What made you willing to trade yourself for the hostages? And how did you subdue the criminals?"

For a moment, many reporters swarmed in, asking all sorts of questions.

Faced with everyone's questions, Su Fan gave his answers after careful consideration.

"Hello, friends from the media."

"Some of you may only know me as a doctor at the affiliated hospital of the Medical University, but I actually have two other social identities."

"Some of you might also know that I am the president of the Yang City Martial Arts Association."

"In addition, I am also the chairman of the company behind me, Dawn Pharmaceutical Company."

At this point, many reporters and onlookers showed surprised, shocked, or admiring faces!

Considering how young Su Fan is, it's astounding that he has three social statuses that many people look up to.

Most people knew that he is the associate chief physician of the emergency department at the affiliated hospital of the Medical University.

His previous appearances on television and in newspapers used this identity.

But not many were aware that he is also the president of the Yang City Martial Arts Association and the chairman of Dawn Pharmaceutical Company.

Although previously unknown, hearing it now, everyone was extremely shocked!

Although Yang City is not a martial arts home, its martial arts culture is also very rich.

The martial arts community of Yang City has produced many martial arts celebrities, and even action movie stars.

In such a context, the fact that Su Fan could become the president of the Yang City Martial Arts Association at a young age is truly remarkable.

Not only that, but he also owns a pharmaceutical company with a registered capital of one billion, which is even more astonishing!

Chapter 559: Taking the Opportunity to Hire Su Ya

Among the many onlookers, as well as numerous media reporters, Su Fan also continued to speak, to their great amazement.

"As a martial artist and the President of Yang City Martial Arts Association, stepping forward in times of crisis is simply what I ought to do."

Upon these words, the scene naturally erupted again with cheers, applause, and genuine claps.

As the crowd calmed down slightly, Su Fan continued saying:

"Regarding the founding of Dawn Medical Technology Company, there are three purposes."

"The first aim is to lower the prices of exorbitantly priced drugs on the market, so that when people fall ill, they can afford medicine and seek treatment."

"The second aim is to fully harness the wisdom of traditional Chinese medicine, to self-develop herbal formulations and proprietary Chinese medicines that are less harmful to the human body, replacing most Western medications."

"All medicines possess toxicity to some degree, and many Western medications, despite their effective results, also come with side effects."

"Herbal formulations and proprietary Chinese medicines often can resolve this issue."

This time, the cheers and applause from the crowd were undoubtedly even more vigorous than before.

Because this time, what Su Fan said was closely related to everyone present.

When people fall sick, they must take medicines, but most medicines, while saving lives, also come with some side effects.

Otherwise, some people from higher social strata wouldn't turn to dietary therapy rather than medication after falling ill.

The indiscriminate use of many drugs has indeed led to many peculiar and complex disorders.

Among the approving shouts of the crowd, Su Fan then released a piece of news that was almost like a bombshell.

"The third goal of Dawn Medical Technology is to self-develop drugs for incurable diseases and special medications for treating major ailments."

"To allow most patients suffering from major ailments to recover quickly."

"And for those suffering from incurable diseases, to give them renewed hope for survival!"

When Su Fan uttered these remarks, the surrounding onlookers and the numerous reporters were undoubtedly not just surprised but also impacted and deeply respectful!

Su Fan's enterprise was incredibly meaningful to everyone present, and even to many others as well.

If Su Fan's enterprise really fulfills what he spoke about today.

Then the contribution of this company to society in the future will be immense!

After answering some questions from reporters, Su Fan excused himself and left.

Su Ya and Su Xiaoya were still waiting for him.

He quickly joined Su Ya, and this time Su Xiaoya had not been harmed.

Seeing Su Fan approaching, the little girl cheerfully said, "Uncle Su Fan."

Although Su Fan and Su Ya were already partners, Su Xiaoya was too young to understand this.

However, Su Fan certainly did not mind; he patted Su Xiaoya's little head and nodded.

Then he smiled at Su Ya and said, "Su Ya, I just so happen to have something to discuss with you."

Su Ya was taken aback, she really hadn't expected that Su Fan would have something to ask her.

After Su Fan spoke, she also looked serious and said, "Dr. Su, what do you need help with?"

Su Fan nodded seriously, then pointed to a nearby office building and said, "You must already know this, but this is my company."

"Right now, we still lack a logistics manager in my company."

"Would you be willing to try this job?"

Su Fan was preparing to appoint two logistics managers, with Su Ya responsible for arranging the logistics for him and other executives.

For instance, when they needed to dine at the company, Su Ya would need to handle the arrangements.

Then there was the office area where Su Ya would also be responsible for coordinating the relevant staff to handle cleaning.

To put it simply, Su Ya's job was to arrange and manage logistical personnel.

Moreover, her main focus would be towards Su Fan and the other executives of the company.

Chapter 560: Helping Su Ya Move House

Su Ya was initially hesitant to accept the role, as she had never handled such an important job before.

But after Su Fan discussed the job details with her in depth, she nodded and decided to give it a try.

The key point was that Su Fan told her, because of their relationship, he could trust her without reservation!

This statement evidently struck a chord with Su Ya, and so, despite the job being challenging for her,

she was still willing to work hard and seriously give it a shot!

Having persuaded Su Ya, Su Fan took her and Yaya to the residential area.

The office building Zhou Xueman had provided for Su Fan was quite impressive.

Beyond the office area, there was also a residential zone.

At the company's inception, there weren't many senior executives, so everyone could be allocated an apartment in the residential section.

As Su Fan's partner and the company's logistics manager, Su Fan naturally arranged a set of housing for Su Ya.

After moving in with Su Xiaoya, it would be much more convenient for Su Xiaoya to get to school.

The place was very close to where Su Xiaoya attended school.

Su Ya and Su Xiaoya felt somewhat cramped when they followed Su Fan into the apartment.

The suite was a two-bedroom, two-living room, one-kitchen, and one-bathroom layout.

The environment was much better than the old neighborhood where Su Ya and Su Xiaoya had previously lived.

Moreover, everything in this room was brand new!

Su Xiaoya spoke nervously, "Mom, can we really live here from now on?"

For a moment, Su Ya also felt a bit constrained and couldn't give an answer.

She didn't know if she could handle the job of logistics manager.

Without Su Ya speaking up, Su Fan said, "Of course you can, Yaya and your mom will both live here."

"My room is on the top floor of the residential area, and if you encounter any difficulties, you can always come to me."

After saying this, Su Ya couldn't help but speak up, "Xiaofan, but I'm worried I might not be able to do a good job as the logistics manager. I've never done anything like it before."

Su Fan replied unconcerned, "Don't worry, Su Ya."

"I didn't have experience running a company either. We will learn together."

Regardless of how Su Ya performed, Su Fan was willing to give her the chance to learn and grow.

And the role of logistics manager didn't have a significant impact on the company's operations.

In Su Fan's eyes, Su Ya's abilities weren't bad; she just lacked the learning process.

By providing Su Ya with an environment to learn and grow, her skills would also become stronger.

Having settled these matters with Su Ya, Su Fan thought for a moment and then said, "I'll help you move first and then go visit Chen Hanqing in the hospital."

Speaking of this, Su Fan added meaningfully, "Once I finish handling other matters, I'll come to keep you company tonight."

At first, Su Ya didn't understand, but when she saw Su Fan staring at her full and firm breasts, she realized what kind of company he meant.

Her pretty face couldn't help but flush with color, turning red.

Meanwhile, Su Xiaoya, who was busily surveying their new apartment, had no idea that her mother and Uncle Su Fan were planning to have a vigorous showdown on the bed that night.

There wasn't much for Su Ya and Su Xiaoya to move from their old home.

Running back and forth four times in his car, Su Fan helped them move all their belongings to the new place.

The residential area of Dawn Pharmaceutical Technology, like the office area, had six floors, each with two apartments.

Su Fan lived on the sixth floor, while Su Ya and Su Xiaoya were settled in one of the fourth-floor apartments.

After helping Su Ya and Su Xiaoya move, Su Fan then went to visit Chen Hanqing in the hospital.

Although his company was in the pharmaceutical industry, a talent like Chen Hanqing was very important for his business.

Setting other things aside, what if his company, once operational, faced an attack like the one Chen Hanqing had launched against the affiliated hospital's network system? How would they handle it?

With a talent like Chen Hanqing on board, his company could completely avoid such worries for the future.
