

Temptation 581

Chapter 581: Making Things Difficult for Qi Dongliang

Bai Man certainly wouldn't have thought that Wang Fei had previously done something very unkind to Su Fan, and now she had become Su Fan's lifelong maid.

Everyone has secrets. Wang Fei has them, Su Fan has them, and Bai Man has them too.

As long as Wang Fei didn't behave too abnormally on the surface, Bai Man of course wouldn't pry further.

After the meal, Bai Man and Wang Fei wanted to go shopping.

Su Fan, on the other hand, was supposed to go to the company to handle some matters and then temporarily parted ways with the two of them.

He certainly wasn't really going to the company, but was going to find Yin Qianyue.

His car quickly arrived outside Yin Qianyue's villa, and then he sent her a message.

Yin Qianyue had just finished bathing and was soaking up the sun.

Receiving Su Fan's text, she was somewhat surprised; Su Fan was actually coming to her villa to find her.

After all, lately, Su Fan was a very busy man, constantly popping up on news reports.

Soon after, Yin Qianyue, dressed in fashionable attire, came over to Su Fan's car, opened the door, and took the passenger seat.

In hand, Yin Qianyue was still holding an apple.

After taking a bite, she asked Su Fan, "Busy man, what do you want with me?"

Su Fan smiled, "How did I become a busy man?"

Yin Qianyue pursed her lips and said, "You've been on TV every other day; of course you're a busy man."

Having said that, Yin Qianyue intended to take another bite of her apple.

But before she could bring the apple to her lips, the apple she had bitten into ended up in Su Fan's hand.

"Crunch!"

Su Fan didn't mind that Yin Qianyue had just bitten it, he just took it and ate.

After all, he and Yin Qianyue's relationship had long been one where I am in you, and you are in me.
What's a bite from Yin Qianyue?

Yin Qianyue, on the other hand, was quite speechless, rolling her eyes at Su Fan, "What are you doing?
Snatching my apple, too?"

Su Fan's visit this time, of course, was not to flirt with Yin Qianyue.

He quickly took out a set of documents that Chen Hanqing had printed and handed one to Yin Qianyue,
"Take a look at this."

Yin Qianyue took the documents, with a touch of curiosity, "What's this?"

While eating the apple, Su Fan said, "You'll know when you look at it."

Hearing this, Yin Qianyue immediately started to examine it seriously.

After just a brief glance at the first page, her expression turned to one of surprise.

The further she read, the more astonishment appeared on her lovely face.

So much so that even when Su Fan finished the apple and started lifting the hem of her shirt, beginning to knead her full, soft dough, she didn't react much.

Yin Qianyue had previously worked at Baiwei Pharmaceutical.

Though she had been considering returning to her family's company, especially since the honeymoon period between the Yin and the Qi families had already ended.

But she really had no idea that Baiwei Pharmaceutical had been involved in so many shady activities behind the scenes.

One could say that once the documents in Su Fan's hands were leaked, most of the shareholders and executives of Baiwei Pharmaceutical would be doomed.

She then understood why Baiwei Pharmaceutical was gradually severing ties with her family.

Because the two sides weren't really strategic partners in the truest sense; a significant portion of Baiwei Pharmaceutical's focus was on activities that couldn't bear the light of day!

Yin Qianyue was very clear about the lethality of the documents Su Fan had brought out to Baiwei Pharmaceutical.

But what she couldn't understand was why Su Fan was bringing out these documents at this time and what he intended to do.

After reading all the documents once, Yin Qianyue immediately slapped Su Fan's hand away, "Stop it; I have something serious to discuss with you."

She had let Su Fan touch her just now while she was engrossed in reading the documents.

But not now, she needed to talk business with Su Fan, and if he continued touching her, she simply couldn't focus on thinking.

Chapter 582 - 582 Yin Qianyue Was Speechless

Su Fan, however, didn't care at all and directly embraced Yin Qianyue in his arms,

not waiting for Yin Qianyue to dodge, he kissed her fiercely.

Yin Qianyue's tender pink tongue was, of course, relentlessly sucked and greedily demanded by him at this moment.

Yin Qianyue reached out, trying to push Su Fan away.

The situation today was too significant; she had to clarify these matters with Su Fan no matter what.

But how could her little strength push Su Fan away?

The more she resisted, the more Su Fan wanted to bully her.

As expected, Su Fan's rough hands lifted the hem of her clothing again and traveled up from her flat belly, relentlessly moving upward.

Before long, Yin Qianyue's full "little watermelons" were once again grasped in Su Fan's hand, continuously changing shape.

After much effort, Yin Qianyue still couldn't break free from Su Fan.

Having no other choice, Yin Qianyue struggled to speak out, "Do whatever you want, but at least let me speak normally, okay?"

After finishing, she added somewhat helplessly, "You've kissed me before, why do it every time, aren't you tired of it?"

Su Fan smiled, then kissed Yin Qianyue fiercely once again.

However, this time he didn't greedily take from her or assault her wantonly, so of course Yin Qianyue could speak now.

Yin Qianyue steadied her emotions and was just about to speak when she couldn't help but scream, "Ah!"

It turned out that Su Fan had pinched her "strawberries" hard with his fingernails!

This made Yin Qianyue involuntary stretch out her hand and hit Su Fan, "Touch if you must, but don't pinch me."

Su Fan didn't continue pinching, but he kept kneading them as if they were modeling clay.

At the same time, he jokingly said to Yin Qianyue, "I should pierce them for you sometime."

Yin Qianyue had leanings in this regard, and of course, she understood what Su Fan was saying.

But she still shook her head in fear, "I don't dare, it must be very painful."

Su Fan didn't make any empty promises; he nodded and said, "It does hurt indeed, but afterward it gets better, just like getting your ears pierced."

On her stunningly beautiful face, Yin Qianyue now showed a trace of hesitation.

She was different from most women; she longed to become someone else's slave girl.

If it really was as Su Fan said, after some time, she might indeed be willing to let Su Fan pierce her, after all, she was already Su Fan's slave girl.

However, this time Yin Qianyue didn't continue on this topic but instead asked,

"How did you get these files, and what do you plan to do with them?"

Su Fan didn't tell Yin Qianyue how he had obtained the files.

He trusted Chen Hanqing's skills; Chen Hanqing would certainly handle the matter very cleanly.

But the origin of the files wasn't important; what mattered was whether the files were authentic or not.

So after pondering, he said to Yin Qianyue, "You don't need to worry about how I got the files, just tell me, with these files in hand, how can we cooperate?"

Yin Qianyue always kept an eye on Su Fan's affairs.

Therefore, she was well aware of him establishing Dawn Pharmaceutical Company.

Upon hearing Su Fan's words, Yin Qianyue didn't respond immediately but began to think seriously.

As she pondered earnestly, her clothes were of course thoroughly lifted by Su Fan.

Then those tender "strawberries" ended up in Su Fan's mouth.

The matter at hand was too significant, and Yin Qianyue, despite her full concentration, couldn't come up with any solution in such a short time.

With Su Fan bullying her like this, she naturally couldn't produce a perfect plan even more so.

After some thought, all she could say was, "I'll let you have your way this time, then think about these issues, otherwise, I can't focus."

Chapter 583: Dividing the Cake

Su Fan certainly had no intention of being thoroughly satisfied with Yin Qianyue—doing so would have been too time-consuming.

Wang Fei had now become his bitch. Given the circumstances, he could not possibly let Qi Dongliang and his son Qi Tian continue to use her.

He simply released Yin Qianyue, allowing her to focus her thoughts on these issues.

Yin Qianyue was somewhat surprised at first.

She had originally thought that Su Fan would not waste any words before vigorously taking her, fully releasing.

Unexpectedly, Su Fan just let her go like that.

However, things were clearly not so simple. As Su Fan let her go, he also spoke up, "Give me your leg."

Yin Qianyue rolled her eyes and then placed her legs, clad in stilettos, straight onto Su Fan's lap.

Yin Qianyue was also a tall beauty with long, chopstick-like legs. Compared to those top-flight stewardesses, she was not to be outdone, even perhaps surpassing them.

In the past, Su Fan had never played with Yin Qianyue's feet, nor had he taken a good look at them.

He did not know if Yin Qianyue's feet were attractive or not.

Yin Qianyue wore 10D ultra-thin black pantyhose today, and Su Fan's hand felt very smooth as he stroked her legs.

After taking off her red-soled, black high heels, Su Fan saw Yin Qianyue's feet.

The shape of Yin Qianyue's feet was very attractive, and with the red manicure, her pair of jade feet became even more appealing.

Su Fan held her jade feet, wrapped in black stockings, in his hands and played with them, quite reluctant to let them go.

If some foot enthusiasts saw Yin Qianyue's jade feet, they might consider it a tremendous grace just to kiss the tops of her feet.

Although her long legs were held in Su Fan's arms, Yin Qianyue had, by then, managed to think things through.

"We'll take these materials and deliver them to the responsible authorities to take control of Baiwei Pharmaceutical," she said.

"Following that, the authorities and public security will take Qi Dongliang and others into custody."

"With these materials, the punishment Qi Dongliang and his associates face will be very severe."

"Being the chairman and the largest shareholder of the company, Qi Dongliang is likely to be fined into bankruptcy."

"Afterward, we can use our family's channels to take over the Baiwei Group at a relatively low price."

Reaching this point, Yin Qian Yue looked at Su Fan and asked, "Are you interested in the assets of Baiwei Pharmaceutical?"

Su Fan nodded, "I can invest to acquire all of Baiwei Pharmaceutical's advanced manufacturing plants."

"My company, also in the pharmaceutical industry, could use these advanced production facilities and well-equipped plants."

Yin Qian Yue was not surprised by this.

Although Su Fan had not been to see her recently, she was well aware of his situation.

Su Fan's pharmaceutical company was just getting off the ground.

He obviously needed the advanced pharmaceutical plants of Baiwei Pharmaceutical.

Yin Qianyue then asked again, "Are you sure you don't want the other resources of Baiwei Pharmaceutical?"

She did not know whether Su Fan truly had no interest in other things or if he was giving her special consideration.

After all, the business world is like a battlefield. Even if she were Su Fan's partner, she wouldn't be soft-hearted at the negotiating table.

This time, Yin Qianyue overthought it.

Su Fan was not indeed going easy on her, but rather, the other resources and plants of Baiwei Pharmaceutical, including some storefronts,

to Dawn Pharmaceutical, were nothing more than meager profits and encumbrances.

The target for Dawn Pharmaceutical was the vast universe, and they certainly would not waste time and energy over such meager gains.

Apart from those plants equipped with the most advanced pharmaceutical equipment, Su Fan had no interest in Baiwei Pharmaceutical's other assets.

After Su Fan nodded, Yin Qianyue also nodded solemnly, then said, "Let's hand over this file to the relevant authorities now."

Of course, Su Fan had no objections. He wanted to enjoy Wang Fei tonight, so to bring down the Qi family now would be better than ever.

Chapter 584 - 584 Baiwei Pharmaceutical is Investigated

A shocking event was about to occur in Yang City.

After Su Fan and Yin Qianyue submitted the materials to the relevant departments, they immediately witnessed a tremendous ripple effect.

It had never been a secret that Baiwei Pharmaceutical had some issues; it was simply lacking evidence.

This time, Su Fan and Yin Qianyue delivered the evidence of Baiwei Pharmaceutical's violations directly.

A joint operation from multiple departments unfolded rapidly.

A large number of law enforcement officers quickly departed from various stations, converging on the Baiwei Pharmaceutical Headquarters Building.

The Baiwei Pharmaceutical Headquarters Building was swiftly controlled by numerous law enforcement officers.

The many employees of Baiwei Pharmaceutical were somewhat panicked for a while.

In their panic, many executives were handcuffed and taken away.

Baiwei Pharmaceutical, one of the top ten enterprises in Yang City, completely collapsed at that moment.

The speed of its collapse even exceeded many people's imaginations.

In the Qi family's villa, Qi Dongliang was standing on the fifth-floor terrace smoking a cigar.

His son, Qi Tian, was trembling not far from him.

Before the incident at Baiwei Pharmaceutical occurred, Qi Dongliang had already received advance notice.

After receiving the advance notice, he was powerless to reverse the situation but could still make some arrangements.

He had actually foreseen this day coming.

After all, Baiwei Pharmaceutical had engaged in many shady dealings from its early days.

To rapidly expand over the years, they had stopped at nothing.

He had thought about stopping, but how could he simply stop when the business was bringing in huge profits?

At that moment, while smoking his cigar, he said to Qi Tian with utmost calm,

"You used to be just a prodigal son; the company's affairs had nothing to do with you."

"But after Baiwei Pharmaceutical is gone, everything will be up to you from now on."

"I have an estate in Europe, and your Uncle Tang is making his way there."

"I need you to remember something now, there were two people who submitted documents to various departments."

"One is Yin Qianyue, and the other is Su Fan."

"The collapse of Baiwei Pharmaceutical, the decline of the Qi family, and the hardships you will endure abroad—all of these were caused by these two people."

"You might never be able to take revenge in your lifetime, or maybe, Tang Wei will give you some support out of respect for me."

"Remember, even if you aren't able to take revenge, you must remember, these two are your enemies!"

"Now leave!"

Qi Tian and Qi Dongliang's father-son relationship had always been very poor.

However, even with their strained relationship, Qi Tian still mustered courage and said in a trembling voice,

"Dad... let's leave together; it might still be possible."

Qi Dongliang shook his head: "It's useless, we can't escape."

"I've seen that file; it's our company's top secret, visible only to the top five shareholders."

"Many of the details in there could severely implicate us five shareholders."

After speaking, Qi Dongliang threw his cigar aside and sternly said to Qi Tian again: "You little bastard, remember, you have two enemies!"

As soon as these words were spoken, Yang City tycoon Qi Dongliang leapt from the fifth-floor terrace.

He certainly had committed many wrongs, but in his life, Qi Dongliang had enjoyed sports cars, mansions, luxury watches, fine wines, and young models—he had experienced it all.

Now that the truth had been revealed, he simply granted himself a dignified end.

Apart from himself, no one could judge him!

Qi Tian was a spendthrift; without his powerful family background, he would have just been a parasitic layabout.

But when Qi Dongliang harshly reprimanded him and jumped from the fifth floor, Qi Tian was completely transformed.

Chapter 585 - 585 Encrypted Hard Drive

Qi Tian's eyes no longer held the signs of defeat and panic; there was only hatred, deep-seated hatred!

On this trip to Europe, he would certainly find a way to quickly pull himself together.

The vengeance for the murder of Su Fan and Yin Qian Yue's fathers, the hatred for the destruction of their family, he must avenge it at all costs!

Qi Tian looked at the spot where Qi Dongliang had leapt to his death, knelt heavily, and then heavily kowtowed three times.

After doing all this, he too left the Qi Mansion quickly with his bodyguards.

It wouldn't be long before the Qi Mansion would be sealed, he had to leave!

Not long after Qi Dongliang leapt to his death and Qi Tian left with his bodyguards, a figure entered the Qi Mansion villa.

This uninvited guest to the Qi Mansion villa was none other than Su Fan.

The reason he appeared there was to retrieve the footage recorded by Qi Dongliang.

If those things were to be leaked, all of Yang City, and even the entire internet...

Soon enough, quite a few people would be able to enjoy Wang Fei's vigorous performance.

Shortly after arriving at the Qi Mansion villa, he found Qi Dongliang's residence based on the information he had previously obtained from Wang Fei.

In Qi Dongliang's room, after a quick search, he found an external hard drive.

He connected the external hard drive to the computer and immediately discovered something shocking.

Inside this external hard drive, there wasn't just footage of Wang Fei; there were also other men and women.

These men and women were not ordinary people; they were all prominent figures in Yang City or business tycoons in the area around Yang City.

This material was clearly something that could be exploited.

Although he hadn't decided what to do right away, the hard drive could definitely be taken back for the time being.

Next, he searched through Qi Dongliang's room again.

This time he found another external hard drive, but unlike the previous one, this hard drive was encrypted.

This surprised Su Fan, as Qi Dongliang hadn't even encrypted the previous hard drive.

What could be inside this hard drive that made him use encryption?

If it had been before, Su Fan might have really been at a loss.

But things were different now; he had Chen Hanqing, a computer expert, capable of cracking such encrypted hard drives with no difficulty whatsoever.

Of course, Su Fan's judgment was completely correct.

This task was indeed very simple for Chen Hanqing; he even had more than one method to do it.

After rummaging through Qi Dongliang's room and finding nothing else useful, Su Fan left directly.

Before long, a large number of public security officers indeed surrounded the Qi Mansion villa.

The shareholders of Baiwei Pharmaceutical had been nearly all controlled.

Their goal in coming here was to arrest Qi Dongliang.

But they were clearly too late; upon finding out the damaging evidence had been uncovered, with no hesitation, Qi Dongliang ended his life with dignity.

After he took the leap, there was nothing the public security officers could do but to notify the hospital and funeral home staff to come.

Several hours later, a plane from Western Capital City to Capital City Airport took off slowly.

After a layover in Capital City, Qi Tian would officially be flying to Europe.

His life there was destined to be no smooth sailing.

But no matter the difficulties, he would grit his teeth and persevere, for he had enemies - and he must seek revenge in this lifetime!

Su Fan paid no mind to where Qi Tian had gone; to him, Qi Tian came across as nothing more than a straw man.

Without a highly illustrious background, Qi Tian would hardly differ from those who simply wasted away their lives.

To Su Fan, such a person was hardly worth worrying about.

At this moment, Su Fan had returned to Dawn Pharmaceutical Company, and in Chen Hanqing's office, he found the man himself.

Upon seeing Chen Hanqing, Su Fan immediately took out the encrypted hard drive he had just obtained.

Then, he said to Chen Hanqing, "This is an encrypted hard drive, can you open it?"

Chen Hanqing glanced at the external hard drive in Su Fan's hand and immediately said, "Should be possible, I'll give it a try."

Hearing his response, Su Fan handed over the hard drive to him.

Chen Hanqing connected the encrypted external hard drive to the computer and started to crack it.

He had written a multitude of programs for cracking passwords, and now he simply fired up one of them.

As it turned out, the password for this hard drive was not complicated.

It only took Chen Hanqing seven or eight minutes to crack the password.

Chapter 586 - 586 You Are Freed

Su Fan was somewhat curious, what exactly Qi Dongliang had recorded on the encrypted external hard drive.

After Chen Hanqing cracked the encrypted drive, he took the hard drive back to his own office to review the contents within.

The encrypted hard drive primarily contained three parts.

The first part was about the numerous women Qi Dongliang had kept and the parties where Qi Dongliang and other business tycoons exchanged partners.

In these files, Su Fan saw many flamboyant acts that he had never even imagined before.

The women maintained by these tycoons had completely transformed from normal people into female slaves, like bitches.

What Qi Dongliang and others had done to them was truly inhumane.

Otherwise, Qi Dongliang wouldn't have encrypted and saved these things.

The second part contained more information supplementing the confidential files of Baiwei Pharmaceutical.

However, the confidential files Su Fan and Yin Qian Yue had sent to the relevant authorities were already enough to bring down the higher-ups of Baiwei Pharmaceutical, so this information wasn't particularly necessary.

After a careful review, Su Fan still recognized the value of these materials.

That was to know which companies in Yang City and beyond had ties with Baiwei Pharmaceutical and had engaged in unacceptable activities.

These materials could certainly be leveraged in the future.

The third part detailed the various channels of Baiwei Pharmaceutical's grey industry.

If other companies got their hands on this information and wished to follow in Qi Dongliang's footsteps, they would have the opportunity to become the second Baiwei Pharmaceutical.

On the other hand, Su Fan had no interest in these materials.

He had no respect for Baiwei Pharmaceutical and naturally would not repeat the mistakes they had made.

Su Fan and his Dawn Pharmaceutical Company remained very calm.

But outside, the investigation into Baiwei Pharmaceutical had already caused a sensation in Yang City.

The despicable deeds Baiwei Pharmaceutical had committed in the past were now being exposed by the media.

Such as the use of non-compliant raw materials for drugs, selling unapproved products on the market through various means, and conducting illegal pharmaceutical experiments, among other things.

In the past, the most exposed problem of Baiwei Pharmaceutical was environmental pollution.

Discharging a large amount of substandard, even untreated, wastewater and production waste directly into the environment.

It was only now that all sectors of Yang City realized that compared to these, other actions of Baiwei Pharmaceutical's major shareholders were even more shocking.

Many products that had been best-sellers on the market from Baiwei Pharmaceutical were actually problematic.

Wang Fei was originally shopping with Bai Man when she learned of this significant news.

Looking at the news on her phone, she even felt it was surreal!

"Baiwei Pharmaceutical collapses, Qi Dongliang, jumps off a building!"

"The heir of Baiwei Pharmaceutical, Qi Tian, is missing, with no trace to be found!"

After reading these two news items, Wang Fei browsed through many related news stories.

Then she became utterly certain, Baiwei Pharmaceutical was finished, and it was truly Su Fan who had delivered the crushing blow!

Many media outlets were saying that Su Fan, the CEO of Dawn Pharmaceutical Company, had provided key exposé materials.

As the incident continued to ferment, more and more damning information about the many shareholders of Baiwei Pharmaceutical kept coming to light.

It was only at this point that the people of Yang City realized that Baiwei Pharmaceutical, once one of the top ten renowned enterprises in the city, was actually such a cancer!

Upon learning that Baiwei Pharmaceutical had completely fallen, Wang Fei called Su Fan.

As soon as the call connected, Wang Fei couldn't help but blurt out, "You really did it."

Su Fan knew that Wang Fei was referring to the downfall of Baiwei Pharmaceutical.

With such important files in his possession, taking down Baiwei Pharmaceutical with one slap was certainly no issue.

So he quickly said, "Qi Dongliang is already dead, you're free now."

Chapter 587: Three Vehicles

When Wang Fei heard those words, her heart was filled with satisfaction.

Seeing the news of Qi Dongliang's suicide had given her a sense of avenging a great wrong.

Yet, considering her current relationship with Su Fan, she didn't know if she had merely moved from one abyss to another.

On the phone, Su Fan's voice soon continued, "Come to my company and keep me company tonight."

"Mm, okay," Wang Fei murmured softly, unable to refuse any request from Su Fan nowadays.

To the outside world, they appeared to be friends, but in reality, she was merely Su Fan's bitch.

Dawn Pharmaceutical Company, President's Office.

As Su Fan tapped his desk, he was contemplating his next moves.

Having been through so much, he had long understood that power was paramount.

With power, one could have everything.

Without power, all the wonderful things one possessed could just be fleeting illusions.

Take the incident with Qi Dongliang, for example, if Qi Dongliang had been a Burst Qi expert like him,

he could have easily fled from such a situation.

Capturing a Burst Qi expert is definitely not an easy task.

He saw two main ways to enhance his power.

One way was through women, especially those with an extreme yin constitution.

By achieving yin-yang harmony with nine women of extreme yin constitution, he could not only cure his own fire poison but also greatly enhance his power.

Even if the women were not of extreme yin constitution, harmonizing yin-yang with them would still lead to growth in his power.

The True Qi in his body would be purified in this process, becoming even stronger.

The other method was, like other Martial Artists, to rigorously cultivate and search for various precious natural resources to enhance himself.

His previous battle with Wang Tongshan, though he won and even killed Wang Tongshan on the spot,

was extremely dangerous. Had it not been for the crucial moment when the Jade Pendant shattered, providing him with a significant boost, it was uncertain what the outcome would have been that day.

Moreover, although Wang Tongshan was dead, the issues involving Wang Tongshan were not completely resolved.

Wang Tongshan still had a master, and brothers in his martial fraternity.

It was possible that these people might not come after him, or they could be seeking retribution very soon.

Therefore, he needed to continuously strengthen his own power to always possess the ability to suppress formidable enemies.

Besides enhancing his own power, he needed to continue working at the hospital, get promoted, and accumulate clinical experience.

Once the China Famous Doctors Competition began, he planned to participate and win.

That meant he had to diligently study medical techniques and continue accumulating experience at the hospital.

Only by doing so could he defeat all other Divine Doctors and win the competition.

Beyond continuously improving his power and medical skills, and preparing for the competition, he also needed to properly manage Dawn Pharmaceutical Company.

Dawn Pharmaceutical Company was the seedling of his business empire.

If he wanted to own a vast business empire, he needed to start with Dawn Pharmaceutical Company and lay a solid foundation.

Moreover, developing business, enhancing power, and studying medical techniques were interconnected.

He needed substantial financial resources and assets to better study medical techniques and take care of the many women around him.

His medical skills and wealth were also crucial components of his power.

Going forward, no matter what challenges he faced, he had to overcome them all, ensuring these three pillars continued to drive forward.

The farther these three pillars advanced, the greater his achievements would be.

All his social activities were essentially centered around these three areas.

Chapter 588 - 588 Sister Fei, Please Kneel Down

That day, Bai Man and Wang Fei played together until they finished dinner before parting ways.

After separating from Bai Man, Wang Fei went to Su Fan's company.

Although she had already confirmed her relationship with Su Fan, she still felt a bit nervous about going to his company at this moment.

She arrived at the living area of Dawn Pharmaceutical Company and took the elevator straight to the sixth floor.

There were two sets of rooms on the sixth floor, one of which Su Fan was residing in, while the other was vacant.

Su Fan did not intend to let Wang Fei live in the other room, but wanted her to stay with him in one room.

After Wang Fei pressed the doorbell, Su Fan directly opened the door.

Upon seeing Su Fan, Wang Fei became even more nervous, unsure of how he would treat her.

After closing the door, Su Fan said to Wang Fei, "Sister Fei, kneel down."

Wang Fei had long thought that when it was just the two of them, their statuses were not equal.

Now hearing Su Fan's words, although she felt humiliated, she still knelt down.

Immediately, Su Fan's voice continued, "Open your mouth."

Wang Fei didn't know what Su Fan was going to do but complied anyway.

But she soon found out, because Su Fan did to her what he had done previously in the hotel.

Her mouth was once again completely filled.

She also heard Su Fan's words by her ear, "Sister Fei, we are friends in front of others, but in private, this is how we speak."

Wang Fei could only nod, "Okay."

Her heart still felt humiliated; not to mention speaking this way all the time, even just once in a while, she found it extremely humiliating.

Luckily, this time, Su Fan did not continue thrusting aggressively, or else her throat might have been ruined.

Even so, Wang Fei still felt very humiliated and extremely uncomfortable.

Of course, Su Fan would not care about Wang Fei's thoughts; this was all a result of her own doing.

At this moment, Wang Fei had many questions she wanted to ask Su Fan.

Even though she felt very uncomfortable kneeling and serving him, she couldn't help but ask, "How did you do it?"

"How did you obtain such important documents that knocked Baiwei Pharmaceutical down, unable to get up again?"

This question was not only in Wang Fei's mind; everyone in Yang City who cared about the incident at Baiwei Pharmaceutical probably wanted to know.

But perhaps no one would have imagined that the one who pulled this off was a slum genius who couldn't even afford medicine, Chen Hanqing.

These incidents had made Su Fan realize Chen Hanqing's tremendous value, or rather, the great value of talent.

Therefore, even in front of Wang Fei, he would not mention Chen Hanqing.

For important talents, utmost protection should be provided.

Su Fan shook his head and then said, "You don't need to worry about how I got those important documents, you just need to know that Qi Dongliang is already dead."

"Not only that, the previous Baiwei Pharmaceutical will soon be acquired by Dawn Pharmaceutical Company and New Science Pharmaceutical Company."

Hearing Su Fan speak like this, Wang Fei did not continue to inquire about this matter but asked another question instead.

"Where did Qi Tian go?"

Su Fan shook his head again, "I don't know where Qi Tian has gone, but he must have escaped."

"The Qi family had made a lot of enemies when they were powerful."

"Those people certainly dared not express their anger openly against the Qi family in the past, but now that Qi Dongliang has committed suicide out of fear for his crimes, they certainly will not let Qi Tian off."

"Although I haven't received any confirmed news, Qi Tian has most likely fled the country."

Su Fan was not particularly concerned about Qi Tian, the one that got away, because the Qi family had so many enemies; how much longer Qi Tian could survive was a real unknown.

Having asked these two questions, Wang Fei obviously had nothing else to inquire.

She just knelt quietly in front of Su Fan, seriously licking the lollipop.

Chapter 589: Continue to be a Pharmaceutical Representative

Wang Fei had tried Su Fan's "lollipop" more than once before, but in reality, she didn't actually like it that much.

The main reason she did it was to please Su Fan and thus, make use of him.

It turned out that Su Fan had indeed taken the bait.

Even during her entrance into the wealthy family, Su Fan had played a significant role.

Regrettably, after entering the wealthy Qi family, her dream of affluence had completely shattered.

Not only that, but now even the Qi family, under Su Fan's manipulation, had crumbled to nothing!

Wang Fei's servitude at this moment made Su Fan feel very comfortable.

He had decided to keep Wang Fei by his side, so that she could take care of his "dragon vein" whenever he was free.

"Fei, you should just stay and work at Dawn Pharmaceutical Company," he said.

"On one hand, you'll continue being a pharmaceutical representative for Dawn Pharmaceutical Company."

"On the other hand, you'll also be my personal assistant. Is that okay?"

Wang Fei, of course, wouldn't have a problem, even if she did, she could only nod.

Su Fan didn't have Wang Fei kneel continuously. Wang Fei was to be used, not to kneel.

After finishing his talk with Wang Fei, Su Fan picked her up from the ground.

Then, leaning into Wang Fei's ear, he whispered softly, "Fei, from now on you will live in the same room as me."

"When we're alone, you won't need to wear so many clothes, you might even not wear any at all."

Su Fan's words made Wang Fei feel immensely humiliated.

In her private times with Su Fan, she would mostly be unclothed.

She didn't even know whether her current situation was better or worse than before.

The only difference was that she did feel some gratitude towards Su Fan, and he didn't make her feel constantly on the verge of collapse.

After lifting Wang Fei up, he brought her over to the window.

From here, one could see the sprawling buildings across.

Without waiting for any reaction from Wang Fei, her skirt was lifted by Su Fan, and her stockings were pulled down.

The next moment, Su Fan's "spear" was as fierce as a dragon, and Wang Fei immediately felt an extremely full sensation.

"Xiao Fan, not here," Wang Fei couldn't help but speak out.

It wasn't safe for her and Su Fan to be at this place.

If someone across the way looked over, they would see Wang Fei's breasts pressed against the window glass.

Of course, Su Fan wouldn't listen to Wang Fei, he not only did not listen, but he also started a ferocious attack on her like a violent storm.

Although Wang Fei had been occasionally explored by Su Fan in the past, most of the time, he was rather gentle.

But now it was different, now that she had become Su Fan's "bitch," where was there room for delicacy? He felt like piercing through Wang Fei directly!

Beautiful syllables continuously spilled from Wang Fei's throat.

Hints of pain now tinged her exquisite face.

Her delicate core, which was not used to frequent impacts, was now enduring round after round of fierce pounding from Su Fan.

She even doubted whether Su Fan was really not just seeking pleasure with her but actually wanted to break her or completely subdue her.

As the battle continued between Su Fan and Wang Fei, the sky outside also began to rain.

With the rain getting heavier, Wang Fei breathed a sigh of relief.

Because by then, the outside had become dim.

Even if someone were to look their way, they would not see what Su Fan and Wang Fei were doing.

With the sound of rain as a cover, Wang Fei could no longer endure silently, and she let out cries unrestrainedly.

The louder she cried, the more it stimulated Su Fan's nerves, driving him to be even more ferocious.

At that moment, Wang Fei felt an unprecedented immense force.

Chapter 590: Seed of Hatred

The storm raging outside was nothing compared to the tempest Wang Fei was enduring.

Under Su Fan's fierce thrusts, her delicate core felt as though it was about to completely break apart.

This made her want to escape, but whenever she instinctively moved, Su Fan's solid, strong arms would thoroughly embrace her.

The next moment, Wang Fei began to endure round after round of fierce onslaught.

She no longer knew how many times Su Fan had sent her soaring to the skies, reaching the pinnacle of ecstasy.

But her legs were already weak, her whole body spasming under such intense impact.

The combined efforts of Qi Tian and his father Qi Dongliang couldn't even measure up to a tenth of Su Fan's.

With her body trembling, streams of clear fluid thoroughly doused Su Fan's long spear.

Allowing the furious flame of the dragon to finally be appeased.

But the flames of anger are not so easily pacified.

Thinking back to the recent discovery that Qi Dongliang and his son had taken their turns with Wang Fei, Su Fan had no thoughts of pity or cherishing for her.

At that moment, all he wanted was to make Wang Fei scream, to make her suffer, and even to make her faint from the extreme pleasure.

Meanwhile, Qi Tian's escape was not going smoothly.

His right arm was already gone, and half of the bodyguards left by Qi Dongliang were also lost.

The ones most concerned about the Qi family, aside from the Qi family itself, were their enemies.

As soon as the Qi family fell from grace, their enemies initiated a hunt to kill him.

The bodyguards at his side were all trusted by Qi Dongliang and were also his support in Europe.

But before they could leave the country with him, half were killed, and his entire right arm was cut off, forever robbing him of it.

Qi Tian had already reached Europe, but not yet his intended destination.

He had received emergency treatment earlier and now needed medical care under better conditions.

The family had completely fallen; his father had died from a fall, and he himself had lost an arm.

This chain of misfortunes, had it befallen the former Qi Tian, would have completely defeated him.

But now, Qi Tian remained unshaken.

He still vowed to make a name in Europe, then return to China for his revenge.

Both Su Fan and Yin Qianyue must pay a painful price for all the suffering he endured!

In Yang City, following the news of Qi Dongliang's death, many were watching Qi Tian's movements.

However, Qi Dongliang had made arrangements before his death.

Even if some wanted to take action against Qi Tian, it wasn't going to be easy, unless they were enemies constantly monitoring the Qi family's activities.

Even the enemies constantly monitoring the Qi family could only succeed in severing Qi Tian's right arm; both Qi Tian and several of Qi Dongliang's trusted associates still managed to escape.

All assets of Baiwei Pharmaceutical were seized and confiscated.

Once the case was thoroughly investigated, most of Baiwei Pharmaceutical's assets were to be auctioned off.

However, this time Yin Qianyue had already leveraged her family connections, splitting Baiwei Pharmaceutical with Su Fan.

Yin Qianyue's position within her family had been neither low nor exceptionally high.

Since she had now achieved such a great feat for the Yin family, she became the leading high-level member among the younger generations of her family.

For this, Yin Qianyue could only silently feel grateful to Su Fan in her heart.

Her initial interaction with Su Fan started because deep inside, she sought some excitement in life; she yearned to be a man's bitch.

She had thought that her relationship with Su Fan was just to satisfy her unique tastes, allowing Su Fan to play with her at will.

Little did she expect Su Fan to turn around and grant her such a large favor, instantly elevating her family's power and greatly boosting her position within the family!
