

Temptation 731

Chapter 731 - 731

"Qi Huang Life-Continuation Needle, useless," Wang Shuming shook his head as Su Fan applied the acupuncture.

Upon hearing Wang Shuming recognize his technique, Su Fan was slightly surprised.

Yang City's Divine Doctor, Tang Sanchun, although capable of discerning some aspects of his medical skill,

did not know that most of the acupuncture methods he used were derived from the Qi Huang Twenty-Four Needles.

The Qi Huang Life-Continuation Needle he wielded this time was one of the methods included in the twenty-four.

Wang Shuming had been able to accurately identify the technique Su Fan intended to use from the very first needle.

This clearly showed that he was no 'quack' but a true expert.

Su Fan did not communicate with Wang Shuming, nor did Wang Shuming try to stop Su Fan's rescue efforts.

However, after seeing Su Fan administer four or five needles, Wang Shuming's face lit up with joy, and he couldn't help but speak.

"Young man, what formidable acupuncture! But it looks like Zhou Tong really is beyond help, see if you can save Tang Sanchun."

Although Wang Shuming put it diplomatically that it might not work, his true judgment was that death was certain for the patient.

There was another casualty, however, whose condition was somewhat better than Zhou Tong's.

With Su Fan's impressive medical skills, it was possible he might save this other person.

But Su Fan did not hear Wang Shuming's words.

Wang Shuming did not know who Su Fan was, but Su Fan had come with Deputy Team Leader Han Yunhui.

He had no choice but to turn his pleading gaze towards Han Yunhui.

Hoping that through Han Yunhui, he could persuade Su Fan to treat the other casualty who might still be savable.

Su Fan's medical skill had already earned Wang Shuming's high respect.

But Wang Shuming was also absolutely certain that Su Fan was engaging in a completely meaningless act.

If he made the right decision immediately and turned to save the other casualty, there was still a chance to save a life.

If he continued like this, the likely outcome was that both casualties were beyond help.

Seeing Wang Shuming's gaze, Han Yunhui immediately came over and asked, "Mr. Wang, what's the matter?"

Wang Shuming whispered, "Deputy Team Leader Han, who is this divine doctor?"

Han Yunhui was momentarily stunned, "Divine doctor? He's the President of Yang City Martial Association."

Although Yang City was just one of the cities in Qin Province, Su Fan had already gained considerable fame and influence there.

Even within Qin Province, Su Fan was quite well-known.

But Han Yunhui's primary job was a security officer, and coming from a martial arts family, she had limited knowledge of medicine.

Wang Shuming did not expect that Han Yunhui actually did not know that Su Fan was a Divine Doctor.

Given the urgent situation, he could not explain too much to Han Yunhui.

He immediately spoke very seriously, "Deputy Team Leader Han, this young Divine Doctor's medical skill, especially his acupuncture, is even superior to mine."

"Could you please see if you can persuade him to treat Tang Sanchun? Zhou Tong's internal organs are severely damaged, and he's beyond saving."

"Tang Sanchun's injuries are also serious, I've administered emergency treatment, but I don't know if he can pull through."

"If this young Divine Doctor applies his acupuncture for follow-up treatment, there's a good chance Tang Sanchun might survive."

In matters related to the medical field, Han Yunhui obviously followed Professor Wang Shuming's advice completely.

Han Yunhui immediately implored Su Fan, "President Su, can you please first try to save..."

She couldn't finish her sentence before she was unable to continue.

Because just at that moment, Zhou Tong, whom Wang Shuming had declared certainly doomed, slowly opened her eyes.

"Hiss—"

This scene almost made Wang Shuming's eyeballs fly out in shock!

His eyes wide and his mouth agape, he gasped in shock.

The look he gave Su Fan was filled with disbelief.

In his heart, only four words remained: bringing back the dead, and it was a true resurrection.

Chapter 732 - 732

Any other doctor coming here to save lives would have definitely been unable to wake Zhou Tong.

But Su Fan managed to achieve this unimaginably extreme feat, it was simply a medical miracle.

Han Yunhui also looked at Su Fan with a shocked expression on her face; she had faith in Professor Wang Shuming's abilities.

Normally, if Professor Wang Shuming said there was no hope for a patient, then there was definitely no hope.

If even Professor Wang Shuming couldn't save someone, there were hardly any doctors in the world who could.

But now, Su Fan had done it! This was, of course, incredibly impressive and awe-inspiring!

The security officers who had been keeping an eye on the situation from a distance were also shocked by Su Fan's actions.

This kind of thing had never happened since Professor Wang Shuming joined the Qin Province Security Bureau.

One could only say that Su Fan was truly amazing, so young and yet possessing medical skills that surpassed those of Professor Wang Shuming.

After realizing how proficient Su Fan's medical skills were, Han Yunhui hesitated, unsure whether to keep Su Fan back to treat the injured or to take him to the front lines.

After Zhou Tong was treated, Su Fan said to Wang Shuming,

"This patient should continue to be rushed for treatment; as for that patient, you did very well. Send them for continued treatment, and they can progressively recover."

Su Fan also gave considerable affirmation to Wang Shuming's medical skills.

Wang Shuming's medical skills were not inferior; the other patient had actually been saved by him.

However, since the patient was severely injured, Wang Shuming was not sure if they could pull through.

There were certain things Wang Shuming overlooked, but Su Fan spotted the truth at a glance.

As they were talking, the rescue workers arrived with a stretcher just in time, taking Zhou Tong and the other patient for further treatment.

After Zhou Tong and the other had left, Su Fan turned to Han Yunhui and asked, "Where are those four criminals?"

Han Yunhui hesitated slightly and said, "Doctor Su, with your superb medical skills, it would be better for you to stay behind and save people."

What Han Yunhui didn't know was that not only were Su Fan's medical skills extraordinary, but his combat ability was also exceptionally uncommon!

Hearing Han Yunhui's words, Su Fan immediately shook his head and said,

"Vice Team Leader Han, instead of staying behind to save people, I'd rather go to the front lines to fight."

"Once I have dealt with those four international assassins, there won't be anyone getting injured anymore."

This was like Doctor Gatling, who, after realizing the soldiers he treated were getting injured again on the battlefield,

thought that if he invented a very powerful firearm to help them wipe out all the enemies,

then these soldiers wouldn't have to keep getting injured over and over again, right?

And so, the Gatling gun appeared on the battlefield.

The reasoning behind Su Fan's words was the same, solving the problem at its root.

Han Yunhui, of course, had no argument against this.

So she could only proceed with Su Fan.

After walking a bit further, they saw many well-prepared security officers.

At the same time, they also saw Chen Boguang, the head of the Special Action Group at the Qin Province Security Bureau.

Upon seeing Han Yunhui, Chen Boguang couldn't help but ask in confusion, "Weren't you maintaining order outside? Why did you come here?"

Han Yunhui didn't waste any time and immediately, very quickly and concisely, relayed Su Fan's situation to Chen Boguang.

After she finished speaking, even Chen Boguang was stunned for at least a second before he snapped back to reality.

Chen Boguang and the elite security officers around him looked at Su Fan as if he were a strange creature.

Su Fan's strength was of the Qi Manifestation realm.

Su Fan's medical skills had surpassed those of Professor Wang Shuming.

And Su Fan's age appeared to be only around twenty.

If this was not a monstrous prodigy, what else could be?

How many in the entire Qin Province were at the Qi Manifestation realm? And how many were like Wang Shuming?

The result was that Su Fan, at such a young age, had managed to embody both qualities, which was simply unheard-of and unbelievable!

Chapter 733 - 733

After a moment's hesitation, Chen Boguang reached out and shook hands with Su Fan.

Su Fan extended his hand and shook hands with Chen Boguang as well.

At the same time, Chen Boguang spoke, "I am Chen Boguang, head of the Special Action Group of the Qin Province Security Bureau. Welcome, President Su, to join this operation and fight against the ferocious criminals with us."

Su Fan nodded slightly, "I am Su Fan, President of the Yang City Martial Association, at the Qi Transformation Realm. I will do my utmost cooperating with Director Chen and others to eliminate these brutal criminals."

With the addition of Su Fan, a master of the Qi Transformation Realm, Chen Boguang and his team felt much more relieved.

Chen Boguang was also a master of the Qi Transformation Realm, but unfortunately, he was not as strong as Hayman opposite him.

Moreover, none of the elites in the Special Action Group of the Qin Province Security Bureau were enough to deal with the three peak Burst Qi Realm martial artists accompanying the enemy.

Now, with Su Fan joining, they could at least face one of the peak Burst Qi Realm martial artists.

What they didn't know was that Su Fan had come for Hayman, who was at the Qi Transformation Realm.

His foundation was incredibly solid, enhanced threefold by the Tai Chi Jade Pendant, his extremely Yin physique, and his unique physical constitution.

In any realm, he was profoundly deep, often sweeping through peers invincibly and fighting above his level.

Now that he had broken through to the early Qi Transformation Realm, he naturally wanted to confront the most ferocious Hayman.

Just moments ago, Chen Boguang had been preparing to lead another charge.

This time, their target was the trio including Hayman.

Hayman was too powerful to be easily killed.

Though the trio that included Hayman were also formidable, they might still be possible to kill.

After defeating the trio one by one, they could focus all their power to kill Hayman!

In another residential building, Hayman, Cassidy, and Ryan were enjoying their final revelry.

Hayman was a Caucasian man with blond hair and blue eyes, while Hayman had brown eyes.

Ryan was a black youth, who before his current employment, was a mercenary with numerous kills on African battlefields.

Cassidy was the only woman among the four.

She was very beautiful with a great figure.

Before joining, she had been a bodyguard, but her life was unfortunate.

It could be said that her beautiful appearance brought her trouble.

Her employer, overcome with lust, imprisoned her in the basement, invited a group of people, and they gang-raped Cassidy for three long months.

She received only enough food to barely sustain her life every day, and the food contained drugs that kept her consistently weak.

With her hands and feet bound, she couldn't escape despite her prowess.

Ryan, the black man, was one of those invited by Cassidy's employer to abuse her.

After several instances, Ryan invited Hayman and another to join in the 'game.'

None of these three men were law-abiding; after several deep and superficial interactions with Cassidy, they naturally wanted to turn her, previously used by many, into a toy used solely by the three of them.

Then, Cassidy's employer and all others who had abused her were cleanly killed by Hayman's trio.

After being rescued, Cassidy joined Hayman's group and maintained a partner relationship with the three men.

At that moment, Hayman was leisurely enjoying a cigar, while Cassidy was sandwiched between Hayman and Ryan, silently enduring the fierce assaults from both Hayman and Ryan.

The reason they were acting so outrageously was that they all knew they were doomed.

If the elite officers of the Qin Province couldn't eliminate them,

once these officers evacuated the nearby residents, they might even suffer from modern thermal weapons like thermobaric bombs and napalm.

Under the assault of thermobaric and napalm bombs, even martial artists at the Qi Transformation Realm could only turn into a pile of char.

Chapter 734 - 734

Regarding Qin Province, the moment they decided to deploy missiles was the moment they sealed their fate.

The reason the other side hadn't used them was undoubtedly because the repercussions would be bad, the disturbance too large, it would be hard to block the news, and it could easily cause public panic.

Thus, they could only indulge in one last frenzy before death.

Of course, they would still attempt to break out.

However, it wasn't to be a daytime breakout, but a nighttime one.

Howard was stationary now, waiting for darkness.

Whether there were lighting devices or individual night-vision gears,

at night, vision would still be impaired.

By then, they'd obviously have their sole chance to break out.

Howard had already thoroughly contemplated these matters.

Indulge wildly, then try to break out at night, it'd be great if they could escape, but if not, they wouldn't have many regrets.

After Hayman's low howl and final release,

Howard didn't care, he instantly moved in front of Casey, unleashed the furious dragon, and invaded fiercely.

The continuous impact kept Casey soaring high and she never came down again.

On another front, Chen Boguang, along with a group of elite security officers and Su Fan, re-entered the residential area where Howard and others might be hiding.

While the group marched forward, Su Fan glanced at the sky.

He knew that it was about to get dark.

It was already an overcast day, and darkness would arrive even sooner.

Under the cover of night, these international killers would be more likely to escape.

These individuals were too dangerous; they must be completely retained, no matter what!

While everyone was searching for Howard and his group, they didn't engage in any conversation and remained highly vigilant.

Howard's group had already seized some weapons from the security officers, including sniper rifles.

If they weren't cautious enough, they could very easily be caught off guard.

After Su Fan entered the realm of qi transformation, his senses had become extremely sharp.

When they reached a certain building, his eyes unconsciously looked towards a room in the facing building.

He immediately grabbed Chen Boguang and pointed at the opposite building.

Chen Boguang looked puzzled but still used the thermal imager.

Then, everyone witnessed the last crazy acts of these criminals,

In such times, they were even indulging in the release of their primal desires.

Of course, the moment Su Fan and others spotted the criminals across, a sniper bullet also whooshed their way.

But Su Fan and Chen Boguang were behind covers, so the sniper bullet didn't inflict any damage on them.

Chen Boguang didn't waste words and immediately ordered, "Everyone! Move!"

"Follow me, charge through the connecting corridor between the two buildings!"

Having said that, he led the way, approaching the opposite building through the corridor between the two.

Faster than him was Su Fan!

Su Fan's capabilities were even above Chen Boguang's.

When he moved rapidly towards the opposite building, he was like a fleeting shadow.

Three bullets followed behind Su Fan,

Each bullet more off target than the last.

This wasn't because Hayman's shooting was poor, but because the human eye isn't a high-speed camera and has its limits.

The human eye receives signals, sends feedback to the brain, the brain makes decisions, and controls the finger to pull the trigger.

During this process, Su Fan could have moved several meters or even more; how could a sniper complete his shot?

Su Fan drew Hayman's fire, allowing others to successfully pass through the corridor.

Inside the room, Howard pinned Casey down, making her kneel before him to catch his fierce release with her mouth.

At the same time, he looked toward Ryan, who gave him an OK gesture.

They had prepared their escape route the moment they entered here; otherwise, they wouldn't have been so wild.

Chapter 735 - 735

As a surge of warm current suddenly slid down Casey's throat into her stomach.

Casey's face and head also became sticky.

Howard patted her shoulder and then said to the others, "Alright, guys, it's time to go."

After speaking, he took the lead to the rear window, where there were ropes for rapid descent, helping them to quickly relocate.

By the time Su Fan and the others approached, Howard and his team had already descended rapidly.

Chen Boguang carefully kicked the door open and then quickly rolled to the ground.

It turned out there were no explosives or gas leaks in the room.

In the room, there were only copious amounts of clear liquid and a lingering hormonal scent.

Chen, seasoned and experienced, quickly spotted the ropes for rapid descent at the window.

"They ran that way, keep chasing, don't let them get away."

With that, he continued to lead the charge.

Su Fan, on the other hand, happened to see the fleeting figure of the black man Ryan below.

He immediately decided not to continue with Chen and the others, but to pursue Ryan alone.

Ryan and others now ran separately.

Being in a group of four made them too easy a target and harder to escape.

When Su Fan reached the ground, the already dim sky began to blaze with lightning and then rain started pouring down.

The visibility worsened even more at that moment.

Under the cover of night and rain, Howard and his team's chances of escape increased yet again.

Timing, geographical convenience, and human harmony are always significant factors in a gamble.

This time, whether by fate or luck, Howard and his team happened to encounter such weather.

Su Fan's figure rapidly moved through the residential buildings.

His pursuit of Ryan was tremendously challenging.

Ryan was black-skinned and wore an all-black combat suit.

In the extremely dark weather, his skin color gave him a strong camouflage ability.

However, after chasing for seven or eight minutes, Su Fan finally managed to catch up to Ryan.

Ryan, surprised upon seeing Su Fan, exclaimed, "It's you?"

He had already recognized that the person before him was their target for this operation.

However, Ryan was speaking in French, which Su Fan did not understand.

Even though he couldn't understand, it did not hinder him from attacking Ryan.

Su Fan moved swiftly, like a roc spreading its wings, and closed in on Ryan in an instant.

Without a moment's hesitation, Ryan directed the dagger in his hand towards Su Fan's heart, stabbing fiercely.

Su Fan snorted coldly, swung his left hand outward, and deflected Ryan's incoming dagger.

His right fist then shot out, thundering towards Ryan's face.

Ryan, greatly alarmed, immediately executed a judo ground fall, rolling backwards.

This was a very effective evasion technique that allowed one to quickly fall to the ground with finesse, avoiding the opponent's frontal attack.

Had it been a normal fall backwards, even slowly falling could possibly result in a concussion or even death.

However, this judo ground fall technique also dissolved the force while rapidly falling.

Therefore, Ryan was not injured when he hit the ground.

He even continued to use judo in an attempt to lock one of Su Fan's legs with his own.

Then, trying to execute a joint lock technique from judo while Su Fan was off-balance and falling, he aimed to swiftly disconnect Su Fan's leg.

But when Ryan attempted the scissors move, he was completely dumbfounded!

When Su Fan stood his ground, it was as if he took root!

Su Fan had faced this hardship before.

His stable stance was certainly due to practicing the Iron Horse Twelve Postures.

Iron Horse Twelve Postures, firm as iron!

Even if Ryan broke his own legs, he could not shake Su Fan in the slightest.

Chapter 736 - 736

After his leg entwinement proved ineffective, Ryan continued with ground techniques and delivered a kick, targeting Su Fan's left leg.

Su Fan's current fighting stance clearly placed most of his weight on his left leg.

This kick was bound to disrupt Su Fan.

But he undoubtedly thought too highly of himself again; Su Fan stepped forward and then executed a low kick.

"Bang!"

A muffled sound reverberated as Su Fan's kick sent Ryan sliding across the ground, rolling several times before the force dissipated.

The fight between Su Fan and Ryan was entirely one-sided, akin to a brutal beating.

No matter how flashy Ryan's moves were, they were effortlessly neutralized by Su Fan with a few punches and kicks.

Of course, Ryan had realized he was no match for Su Fan, so he tried to escape.

Right then, Su Fan had leaped into the air, using the Crushing Fall technique in pursuit.

If this kick landed solidly, it could have caused Ryan's head to burst open like a watermelon.

At this life-or-death moment, Ryan also exceeded his own limits.

He executed a forward roll to dodge Su Fan's Crushing Fall and, gaining his footing, he drew his gun from his clothes, ready to employ the American quick-draw technique on Su Fan.

In the instant he pulled his gun and turned around, Su Fan's Neck Breaking Hand had, of course, already struck Ryan's neck.

At that instant, Ryan's life reached its endpoint.

His neck was shattered by a single palm strike from Su Fan's Neck Breaking Hand.

Had Su Fan's palm strike been even slightly stronger, an utterly horrifying scene would have ensued; Ryan's head would have been smacked clean off!

Although Ryan's head had not flown off, it hung limply, clearly signifying his death.

After finishing off Ryan, Su Fan continued the pursuit of Howard, Hayman, and Casey.

With the aid of the elite from the Qin Province Security Bureau, these individuals couldn't escape anytime soon.

However, Su Fan's path of pursuit was not an easy one.

It took another five or six minutes before he identified his second target.

An officer's arm had already been sliced off by Hayman with a single cut.

Hayman had done so because the officer had handcuffed their hands together.

As Hayman found the keys on the officer and was unlocking the handcuffs, Su Fan appeared just in time.

Seeing Su Fan, Hayman wasn't afraid.

At that moment, the visible circumstances had taken a turn for the worse.

Upon seeing Su Fan, Hayman was unaware that this was the very person they had been searching for; he only knew that Su Fan was an enemy.

In Hayman's hand was a machete.

This weapon was exceedingly sharp, having effortlessly severed the arm of an officer with a casual swing just moments before.

When Hayman swung his machete, Su Fan directly unleashed an Empty Palm Strike, utilizing Tai Chi True Qi to strike at a distance!

"Bang!"

Hayman swung his machete to block, and Su Fan's Tai Chi True Qi collided with the blade.

"Whiz!"

Simultaneously, Su Fan had also thrown a silver needle, piercing through Hayman's wrist.

Hayman's hand went numb instantly, and he couldn't hold on to the machete any longer.

Unaware that he had been subjected to the Chinese medicine technique of sealing meridian points, he thought he was poisoned at the moment.

Without daring to entangle with Su Fan any longer, Hayman turned around and ran.

Su Fan moved closer in a stride and unleashed a Parting Wild Horse's Mane, sending Hayman flying obliquely.

Although Hayman was struck flying at an angle, the meridian points Su Fan had sealed were blasted open by the True Qi within his own body!

He didn't understand what technique Su Fan had used before, but now that he knew how to counter it, he was no longer afraid of Su Fan.

Hayman didn't continue to flee, leaving his back completely exposed, giving Su Fan a clear shot at attacking him.

He charged forward and delivered a Sky Soaring Backspin Kick, aiming fiercely at Su Fan.

Stationary, Su Fan performed an aerial twist to dodge Hayman's kick while simultaneously performing a Sky Soaring Backspin Kick, sending Hayman careening sideways into a wall.

"Boom!"

Hayman felt as if all the bones in his body had been shattered by the collision.

His gaze towards Su Fan was now filled with wariness.

The fighters were simply not at the same level; Su Fan was butchering him with a heartless dominance similar to slaughtering animals.

This made Hayman determined to pull out a portable vial of Palya Fort's Blood Burst potion and inject himself with it.

Chapter 737 - 737

In the next three minutes, Hayman fought desperately against Su Fan like a battle machine.

As long as his head didn't fall off, he could keep on fighting!

"Puchi!"

Unfortunately, with a flash of the blade, the cleaver he had just dropped was hurled by Su Fan.

The incredibly powerful cleaver pierced through his throat and nailed him firmly to the ground.

Although Hayman was dead, Su Fan had witnessed the ferocity of this blood-boiling drug.

A powerful surge erupted from Hayman's body, blasting his clothes and shoes to shreds.

The already burly Hayman's physique became even more massive.

The True Qi of the Explosive Qi Realm within him, like a volcanic eruption, continuously unleashed terrifying power.

It was just a pity that his brain was already dead, and he could no longer rise to fight Su Fan.

Su Fan didn't bother with Hayman and continued to pursue Howard and Casey.

As Howard and the others fled, Casey had a trick up her sleeve.

She didn't escape to the north with Howard and the others but instead ran in the direction from which Su Fan and his team were pursuing.

This meant that she would either directly encounter Su Fan and his team and be killed first,

or she might brush past them and escape the first wave of encirclement.

As it turned out, Casey had made the right bet!

Chen Boguang and his team actually rushed over the manhole cover where she was hiding without discovering Casey beneath it.

After avoiding Chen Boguang and his men, Casey quickly entered a residential building, changed her clothes, and then began to break out in the opposite direction.

On that side, there was also a siege network.

But as a Martial Artist at the Explosive Qi Realm, it was not a problem for her to avoid the ordinary security officers, even those in the Nurturing Qi Realm.

By the time Howard was encircled, Casey had already reached the outside of the perimeter.

She casually flagged down a car and left the area.

As the high-rise buildings grew distant behind her, she understood that their mission had failed once again.

And those three men, who had been with her body countless times, would remain in this place forever.

Although she was temporarily safe, whether she could escape completely was still in question.

It all depended on how long Howard could hold on and buy her time.

She had also decided not to take post-incident safety measures this time and wanted to conceive a child for the three men, Howard included.

It's just that the three men had all recently planted their seeds in her, and she didn't know whose child she would end up bearing.

Of course, Casey couldn't have known that after three months of abuse and humiliation, it would be very difficult for her to conceive.

Even with three seeds this time, she wouldn't be able to get pregnant.

Meanwhile, Su Fan approached close to Howard.

The one currently exchanging blows with Howard was not Chen Boguang, but a group of peak Explosive Qi Realm security officers.

It wasn't that Chen Boguang didn't dare engage, but he had been injured by a hand grenade.

At this moment, Chen Boguang's back was embedded with countless grenade shards, causing him so much pain that he was nearly unconscious.

If not for the relatively farther distance and the fact that he had practiced a Hard Qi Skill similar to the Dragon Tiger Hard Qi Skill,

the shrapnel flying out during the grenade blast would have penetrated his internal organs.

After Chen Boguang fell, the rest of the elite security officers had to bravely charge forward to surround and attack Howard.

However, Howard was an expert at the Transformative Qi Realm, and they were simply no match for him.

Many security officers were easily injured and crippled by him in the midst of their attack.

When Su Fan arrived at the scene, he first sequentially sealed several of Chen Boguang's acupoints,

then he spoke, "Everyone step back, I'll handle him."

As he slowly stood up, Su Fan's aura surged in an instant!

This was the first time since his breakthrough to the Transformative Qi Realm that he was to engage with a Transformative Qi Realm expert.

There were streetlights here.

Even though the sky was very dim, Howard could still clearly see Su Fan's face.

His expression was similar to Ryan's initial reaction, slightly taken aback, which then turned into a smile.

"Su Fan, we couldn't find you, but you've come running to die," he said.

He didn't speak in a foreign language but conversed with Su Fan in fluent Chinese.

After he spoke, Su Fan shook his head slightly, "I'm not here to die, I'm here to send you off."

Chapter 738 - 738

Whoosh—

Under the night sky, the rain grew heavier, and the atmosphere between Su Fan and Howard became increasingly tense.

Howard didn't keep Su Fan waiting for too long before he suddenly lashed out at him.

If it weren't for Su Fan, he might have had a chance to escape.

Had there not been any major unforeseen events, even with Su Fan's presence, Howard still could have escaped.

But now, a major unforeseen event had undoubtedly occurred.

Their intelligence indicated that Su Fan was a peak Martial Artist at the Bursting Qi Realm.

However, in reality, Su Fan was not at the peak of the Bursting Qi Realm, but an authentic Qi Transformation Realm Martial Artist.

With Su Fan, a Qi Transformation Realm Martial Artist here, Howard had no chance of escaping.

Even if he were stronger than Su Fan, he couldn't possibly defeat Su Fan quickly.

As long as he couldn't kill Su Fan rapidly, he was destined to be surrounded by the elite officers of the Qin Province Security Bureau.

Previously, there were four of them, and yet he couldn't break through.

Now that he was alone, being surrounded would undoubtedly mean certain death.

Under the gaze of many eyes, Howard's foot, imbued with Qi Transformation Realm True Qi, had already pierced through the layers of rain and ferociously struck towards Su Fan.

"Bang!"

This kick was powerful, forceful, and unyieldingly fierce.

A kick broke through the air, creating an explosive sound as it moved through the atmosphere!

The elites of the Qin Province Security Bureau were extremely tense at this moment.

They were uncertain whether Su Fan was really a match for Howard.

But with team leader Chen Boguang severely injured, Su Fan was clearly the only one capable of contending with Howard at this place.

Of course, Su Fan did not let everyone down. When Howard's aerial kick ferociously came at him, he remained unhurried.

As Howard's figure approached instantly, he directly countered with the Tai Chi Cloud Hand!

"Boom!"

Under the watchful eyes of many, Su Fan's right hand, carrying Tai Chi True Qi, slapped onto Howard's lower leg, deflecting Howard's leg.

Then, with a smooth transition, he executed Parting the Wild Horse's Mane, sending Howard flying diagonally.

However, Howard was different from Cain and Hayman.

As a Qi Transformation Realm Martial Artist, his physical qualities were extraordinarily formidable.

Su Fan possessed Tai Chi Inner Strength, along with external skills like the Dragon Tiger Hard Qi Skill, so his physical condition was also extremely formidable.

But when he sent Howard flying, he felt that his attack on Howard didn't have much impact.

Indeed, that was the case. At this moment, Howard roared lowly and charged towards Su Fan again.

Just now, in front of him, the elites of the Qin Province Security Bureau were essentially brought down with a single punch or kick.

But Su Fan, who was combating him now, was obviously not comparable to those officers.

Even Chen Boguang hadn't subjected Howard to such intense pressure.

Although Chen Boguang was severely injured at this time, he and others had already engaged with Howard when they sealed off this area.

Howard's onslaught came again in the blink of an eye.

He was a master of mixed martial arts, proficient in various lethal techniques.

This time, Howard attacked with a flurry of fierce kicks!

His legs seemed not to be legs anymore, but rather hammers of destruction.

With each kick from Howard, Su Fan retreated to dodge.

And then, Howard's kick conveniently snapped a street lamp in half.

With the enhancement of Qi Transformation Realm True Qi, Su Fan and Howard seemed like two humanoid weapons.

Their destructive power was terrifying.

Even just punching through the air, the powerful True Qi of the Qi Transformation Realm could damage walls or vehicles from a distance.

As Su Fan and Howard engaged in combat, Han Yunhui and Wang Shuming, among others, arrived at the perimeter.

The injured Chen Boguang was brought over for treatment.

An officer also concisely briefed Han Yunhui on the situation.

After listening to the report, Han Yunhui understood what had happened here.

Chapter 739 - 739

The situation here wasn't complicated, simply put, it revolved around three things.

First, Chen Boguang was injured by a grenade that exploded mid-air while he was chasing Howard.

The explosion drew the attention of the nearby law enforcement officers.

After the crowd arrived, they attempted to capture Howard.

However, as a Martial Artist at the Qi Transformation Stage, Howard was far too strong.

The many law enforcement officers had no way to subdue Howard.

In front of Howard, all the law enforcement officers were essentially knocked down with a single punch or kick.

Fortunately, at this time, Su Fan arrived.

At this moment, Su Fan was fiercely fighting Howard, and their battle was both violent and dangerous.

Watching from a distance, Han Yunhui couldn't help but worry for Su Fan.

After Wang Shuming administered emergency treatment to Chen Boguang, law enforcement officers immediately transported Chen for further treatment.

It was then that Wang Shuming's gaze also turned towards the two people engaged in combat.

"Vice Team Leader Han, I don't know much about martial arts,"

"Between Divine Doctor Su and that criminal, who has a better chance of winning?"

After Wang Shuming asked, Han Yunhui shook her head: "I don't know, they are both experts at the Qi Transformation Stage."

The value of an expert at the Qi Transformation Stage was exceedingly high.

Normally, a province would only have seven or eight Martial Artists at that stage.

Smaller countries and regions might have only one or two such Martial Artists throughout the entire nation, or even none at all.

As Han Yunhui and Wang Shuming were talking, a law enforcement officer with a very grave expression spoke up.

"The Divine Doctor's medical skills are extremely formidable, but his strength probably isn't a match for Howard."

"We still need to think of a way to help Divine Doctor Su."

It wasn't that the crowd didn't trust Su Fan, it was just that Howard was too brutal, and everyone was worried for him.

Under the continuous attention of Han Yunhui, Wang Shuming, and the many surrounding law enforcement officers,

the battle between Su Fan and Howard became even more intense.

"Swoosh! Swoosh! Swoosh!"

Howard, wearing combat boots, viciously kicked at Su Fan's head.

If an ordinary person were to be kicked by him, their head would definitely explode like a watermelon.

That went not just for ordinary people, but even Qi Nourishing Stage and Qi Burst Stage Martial Artists could not withstand his attack.

However, Su Fan's combat ability was equally strong.

He clearly also had excellent talent in the martial arts.

At the beginning, Howard indeed posed a continuous threat to him.

But as he gradually became familiar with Howard's fighting style, he became more and more relaxed.

Su Fan had completely figured out that Howard's most formidable aspect was his extremely powerful physical constitution and his leg techniques.

Howard seldom used fists, and even on the rare occasions when he used his hands, it was only for defense, not for offense.

This indicated that compared to his leg techniques, his boxing was probably very poor, allowing Su Fan to start engaging Howard in close-quarter combat.

In close-quarter combat, Howard's big and bold leg techniques were utterly useless.

Su Fan's Tai Chi, the Iron Horse Twelve Forms, and the Dragon Tiger Hard Qi Skill,

could be combined during close-quarter combat.

Han Yunhui and Wang Shuming were both very concerned for Su Fan at first.

In the Special Action Team of the Qin Province Headquarters, Team Leader Chen Boguang was also a Qi Transformation Stage Martial Artist.

But Team Leader Chen had suffered a slight disadvantage during his initial encounter with Howard.

Given Su Fan's youth and such high medical expertise,

it indicated that he must have spent a lot of time studying medicine.

Therefore, even though he was a Qi Transformation Stage Martial Artist, his strength among those at this stage was probably not strong.

However, both Han Yunhui and Wang Shuming were undoubtedly mistaken.

Chapter 740 - 740

Su Fan was indeed a Martial Artist of the True Qi Realm, but his strength was absolutely not a jot weaker.

Not only that, his growth rate was especially astonishing.

Next to Han Yunhui, there was also a middle-aged security officer about forty-five or forty-six years old.

This person was also the deputy head of the special operations group, named Chen Zhenye, and was Chen Boguang's uncle.

Although his experience was more extensive than Chen Boguang's, due to the lack of True Qi Realm strength, he was only a deputy head.

"Huff—"

Only after Chen Zhenye saw the current fight between Su Fan and Howard did he finally heave a sigh of relief.

Out of curiosity, Han Yunhui asked, "Uncle Chen, what's wrong?"

Within the special operations group, many security officers usually called Chen Zhenye Uncle Chen.

Han Yunhui, of course, addressed him as Uncle Chen just like the others did.

Chen Zhenye spoke with a grave expression, "This infamous international assassin is very formidable."

"Although I'm not yet a True Qi Realm Martial Artist, I have reached the threshold of the True Qi Realm."

"When I fought with this man before, I couldn't block any of his punches or kicks."

"Not to mention that Boguang was unexpectedly injured, even if Boguang hadn't been injured, he definitely wouldn't be a match for this man."

"Thankfully, President Su of the Yang City Martial Arts Association came to help this time, or Howard might have truly escaped!"

When it came to Su Fan, even Chen Zhenye couldn't help but reveal a deep look of admiration.

Chen Zhenye was a person with extremely high standards; it was difficult for both Han Yunhui and Chen Boguang to earn his praise.

Even within the Qin Province Security Bureau, there weren't many who had been praised by Chen Zhenye.

But at this moment, he couldn't help but openly commend Su Fan, "President Su's martial arts talent is formidable, but undoubtedly, he lacks some experience fighting against experts."

Uncomprehending, Han Yunhui asked, "Uncle Chen, why do you say that?"

Chen Zhenye seriously explained, "When President Su was fighting Howard, his initial response seemed steady but was actually crude."

"It was only because President Su's foundation in martial arts was very solid that Howard didn't get the chance to do anything to him."

"But after a brief exchange with Howard, President Su made a lot of adjustments."

"In the fight against Howard, he was also quickly learning and improving."

"Then came this moment; as time passed, President Su gradually gained the upper hand."

Without Chen Zhenye pointing it out, nobody had really noticed this detail.

After he spoke, of course, everyone also started to notice the changes before and after.

Not far away, Su Fan started chasing Howard and striking him.

Howard wanted to display his great, fierce, and powerful legwork, for which he had to create distance from Su Fan.

But where would Su Fan give him the chance to create that distance? He performed Tai Chi Boxing, and his entire being seemed to shadow Howard closely.

As he quickly followed Howard's movements, his fists continued to bombard Howard's body.

A punch landed on Howard's cheek, and some traces of blood had already appeared.

Not only that, Howard's internal organs had already been injured by his barrage of rapid punches!

This made Howard extremely angry!

"Get lost!" Out of fury and humiliation, Howard used his head to launch a fierce headbutt at Su Fan.

As he suddenly exerted force, Su Fan's palm struck his head; his Tai Chi True Qi stuck to Howard, and then he was violently thrown to the ground!

"Bang!"

With that throw, Howard was brutally smashed onto the ground, creating many spiderweb-like cracks in the concrete floor.

"Ha!"

Su Fan exhaled with force and delivered another great and ferocious punch right on top of it.

"Boom!"

Howard couldn't immediately get up from the ground, nor could he use his movement technique to block the strike.

He could only cross his arms, muster up all his True Qi Realm strength, and block Su Fan's punch.
