

Temptation 741

Chapter 741 -

Both of their physical conditions were extremely strong, clashing as if two main battle tanks were colliding violently.

Su Fan worried that Howard, like Hayman, was using that very peculiar potion.

Therefore, he kept attacking aggressively, planning to continue until he hammered Howard to death.

He wanted to avoid Howard suddenly using a potion during the fight, just like Hayman did.

Su Fan's worry was undoubtedly unnecessary, because Howard did not possess the type of potion that Hayman had.

That kind of potion was actually intended for a mutual destruction scenario.

At Palyea Fort, a Martial Artist at the stage of Qi Transformation was also a very important resource.

Ordinarily, Palyea Fort would not allow a Qi Transformation Martial Artist to die in battle.

Although Howard did not have Palyea Fort's frenzied blood potion, he knew a very special Secret Technique.

This Secret Technique was from Mahayana Buddhism, the Weimoji Secret Technique.

Weimoji Bodhisattva is a figure within Buddhism, who, according to Buddhist scriptures, was a Bodhisattva whose understanding of Buddhism was not inferior to that of a Buddha.

Howard had once assassinated a high-ranking monk and snatched this Secret Technique from him.

Once he used this Secret Technique, his power could soar by up to thirty percent.

However, there was a problem—after using this Secret Technique, he would fall into a prolonged period of weakness.

Even though he might have a chance to escape after dealing with Su Fan,

if he were in a period of weakness, he obviously wouldn't be able to flee China.

"Bang! Bang! Bang!"

Worried that Howard might use the frenzied blood potion, Su Fan's fists fell like raindrops.

After hesitating for a moment, Howard still used that Secret Technique!

"Boom!"

A surge of incredibly strong True Qi instantly enveloped Howard.

When Su Fan's next punch came down, it was caught squarely by Howard.

Then, holding Su Fan's fist, Howard violently threw him into the distance.

Previously, every clash between the two had resulted in Howard being thrown by Su Fan.

This time, the roles were reversed with Howard gripping Su Fan's fist and throwing him away.

Su Fan executed a midair somersault and then landed steadily.

The look he gave Howard was filled with more doubt than before.

While keeping his eyes firmly on Howard, Su Fan pondered silently in his heart.

"What's happening here? I didn't see him use any potion. Is this some kind of Secret Technique?"

Although he had some guesses,

Su Fan still didn't know exactly how Howard had achieved this.

He only felt that, in that instant, Howard seemed like a completely different person, much stronger than before.

"Swoosh!"

After using the Weimoji Secret Technique, Howard's strength had increased by almost thirty to forty percent!

His original realm was also a minor realm higher than Su Fan's.

Only after combining with Jiang Yuan and utilizing her extremely yin body had Su Fan just recently broken through to the early stage of Qi Transformation.

Howard's power had just reached the middle stage of Qi Transformation.

Now, using the Weimoji Secret Technique, his burst of power made him much stronger than before.

Howard's speed was terrifying at the moment!

Ordinary people could no longer see his movements clearly, only feeling that he seemed to appear in front of Su Fan in a flash.

Ordinary people couldn't keep up with Howard's movements, but Su Fan still could.

As he continued to understand Howard better, he had been pressing him in the fight.

He even worried that Howard might use a frenzied blood potion like Hayman had, relentlessly attacking and not giving Howard any chance to use a potion.

But what he didn't expect was that Howard was even more advanced than Hayman—Hayman at least needed to use a frenzied blood potion to burst forth,

Howard didn't even need the frenzied blood potion; his Qi Transformation level True Qi had suddenly transformed, boosting his strength by at least thirty to nearly forty percent.

Chapter 742 -

Su Fan had just managed to dodge Howard's attack quite easily.

Now, however, it was no longer easy; even if he withdrew and dodged immediately, it was still a narrow escape from Howard's kick.

Howard was wearing tactical boots, and even ordinary people wearing such reinforced boots could use them as weapons.

With such a martial artist like Howard wearing tactical boots, when he attacked Su Fan with his magic artifact, it was like someone swinging an axe, continually chopping at Su Fan's neck.

Vice Team Leader Han Yunhui, Doctor Wang Shuming, and Vice Team Leader Chen Zhenye had previously thought Su Fan had the situation under control.

They could never have imagined that in just a short moment, Su Fan and Howard would again switch from offense to defense.

By now, several snipers had been positioned around them.

Yet these snipers did not rashly open fire. On the one hand, they feared startling Howard, causing him to flee again.

On the other hand, they were worried about accidentally injuring Su Fan.

Another reason was that Su Fan had been dominating the situation until just before.

If there had been no mishap, Su Fan could have killed the criminal Howard with a thunderous force in one fell swoop.

However, the situation on the battlefield is always in flux.

Su Fan, who had previously been faring well, was now in danger.

Howard's strength was originally at the mid-stage of True Qi transformation, but now he was nearing the peak of that stage.

"Swoosh!"

In the arena, as Su Fan dodged, Howard lashed out with another kick.

Facing his ax-like descending leg, Su Fan did not hesitate and continued to dodge.

This dodge caused a Santana behind him to suffer the consequences.

Howard's kick sent the car door flying over ten meters away.

Of course, Su Fan was not just dodging; when the opponent overextended his kick to the car door, Su Fan's neck-chopping hand struck Howard's neck.

Unfortunately, under the protection of True Qi, his neck-chopping hand had no effect this time.

Su Fan had to switch strategies and resort to winning with the subtle forces of Tai Chi Boxing.

Tai Chi is an internal martial art with two main features.

One feature is 'using softness to overcome hardness', which involves turning the opponent's force against him.

The other feature is 'hitting the cow on the other side of the mountain', which involves using the subtle forces of Tai Chi to directly strike Howard's vitals.

Previously, Su Fan had not expected that facing off with Howard would force him to this extent; otherwise, he would have used the subtle forces of Tai Chi earlier.

But there were benefits to deploying it late.

By now, Howard was not as alert as he had been at the beginning.

If Su Fan had used the subtle forces of Tai Chi from the start, Howard would certainly have noticed it.

"Bang!"

As Howard attacked again, Su Fan countered with the Tai Chi move 'grasping the sparrow's tail', concurrently injecting the subtle forces of Tai Chi into Howard's body.

The subtle forces of Tai Chi were initially hard to detect and seemingly ineffective.

But these forces would continuously accumulate inside Howard.

Once the subtle forces of Tai Chi accumulated to a certain level, they would suddenly burst forth.

The moment of this explosive burst was, of course, Su Fan's moment for a counterattack.

Seeing Howard remain oblivious, Su Fan couldn't help feeling a surge of joy inside.

In reality though, Howard had already noticed his subtle maneuvers but disregarded them.

Since continuing the same tactics would soon lead to Su Fan's demise.

"Bang! Bang! Boom!"

Su Fan's Tai Chi punches rained continuously on Howard, as wave after wave of the subtle forces of Tai Chi gathered within Howard's body.

His situation also became extremely dangerous.

Howard's tactical boots even sliced a cut on his arm.

On several occasions, Howard's True Qi barely grazed past his eyes.

This caused Han Yunhui and Chen Zhenye among others to break out in nervous cold sweats.

Even knowing it was futile, Han Yunhui still prayed in her heart for Su Fan: "May the Bodhisattva bless him! Please, let nothing happen!"

Chapter 743 -

At this moment, Su Fan found himself in an extremely dangerous situation.

When high-level martial artists spar, both parties become familiar with each other's methods after fighting for a certain period.

Recently, Howard had terrifyingly predicted Su Fan's dodging location.

This forced Su Fan to face the attacks head-on.

"Crack!"

A crisp sound echoed, causing a slight change in Su Fan's expression.

Since his battle with Wang Tongshan, this was the first time he had faced such a terrifying fight.

The bones in his right hand were actually fractured!

Fortunately, the battle was completely over at this point.

"Banlan Hammer!"

Without waiting for Howard to kick again, Su Fan struck Howard's dantian fiercely with the Tai Chi Banlan Hammer.

"Pfft—"

The impact was visually stunning!

Howard seemed to be hit by a siege hammer, and the powerful, heavy blow sent him flying backwards.

Furthermore, a stream of blood containing organ fragments spurted from Howard's mouth.

"Bam!"

After flying backwards, Howard struggled to stand up slowly with the support of a nearby lamppost.

At this moment, his whole body trembled as he looked at Su Fan. He opened his mouth but couldn't utter a single word.

Su Fan's Tai Chi had shattered his intestines, kidneys, lungs, and even his heart was damaged.

A large amount of blood continuously flowed from Howard's mouth.

He had just realized that he had fractured Su Fan's arm bone.

With just two more kicks, he could have disabled Su Fan's arm and then swiftly crushed Su Fan, twisting off his head.

But he never expected the Tai Chi inner force to be so powerful.

He hadn't even noticed that such a tremendous amount of inner force had accumulated within his body.

Otherwise, he would have found a way to resolve it or escape outright.

By now, whatever he said was already too late.

In his last moments of life, he reached toward the sleeve of his left hand with his right hand.

Inside the sleeve of his left hand, he had sewn a Crystal Card, which was his identity card on the dark web.

Many things related to him were stored in his personal space on the dark web.

Since he was bound to die, these items obviously couldn't be left for Su Fan.

"Swoosh—"

Before he could crush the Crystal Card, Su Fan had already struck his throat with a neck-breaking move.

Without the enhancement of True Qi, although his physical condition was still strong, it was no longer as formidable as before.

As Su Fan killed Howard, he also noticed the Crystal Card that Howard was preparing to destroy in his hand.

He had never seen such an object and didn't know what it was.

However, that was not a problem; he could just take the item back for Chen Hanqing to examine.

After he finished off Howard, Han Yunhui, Chen Zhenye, and Wang Shuming all came forward.

With great concern, Han Yunhui asked, "Are you alright? Your hand is bleeding!"

Su Fan shook his head, "It's nothing, just a fractured bone."

To ordinary people, a fractured bone was still quite serious.

But he was a Martial Artist in the True Qi stage with precious blood in his body.

Whether it was the injury to the bone or the tear in his arm,

a simple trip to the hospital to clean the wound, not even needing medication, would allow him to recover very quickly.

Judging from the looks of Han Yunhui and the others, they likely hadn't noticed that he had taken the Crystal Card that Howard was about to destroy.

He promptly changed the subject, asking, "These four international assassins, I've killed three, what about the fourth?"

Hearing his words, Han Yunhui and the others felt quite embarrassed.

Su Fan alone had dealt with three international assassins, while they, so many of them, had let Casey escape.

Although very ashamed, Han Yunhui still spoke truthfully, "There is one more international assassin who has already escaped."

"They must have planned a retreat route in advance. Once they escaped the encirclement, we couldn't find any information about this target."

Chapter 744 -

Su Fan had intended to wipe out all these international assassins in one go, having escaped Qi Tian last time, he now faced significant trouble.

Unexpectedly, yet another international assassin had fled this time.

Left with no choice, Su Fan could only say, "Since it's like this, I'll go to the hospital to treat my wounds first."

"If Vice Team Leader Han needs my support, just give me a call."

While speaking, he took out a business card from the hospital and handed it to Han Yunhui.

Han Yunhui took his business card and said, "We could add each other as friends."

Upon hearing this, Su Fan did not refuse, quickly took out his phone to add her as a friend, and then straightforwardly saved her number.

After all this, he was finally able to go to the hospital to treat his wounds.

The injuries on his body were numerous, but aside from the wound on his arm, the others were insignificant.

At that moment, Su Fan went directly back to the affiliated hospital.

At this hour, only a few doctors were on duty at the affiliated hospital while the rest had gone home to rest.

Shortly after arriving at the affiliated hospital, Han Yunhui and others also arrived.

They were not there to see Su Fan, but to bring injured personnel for treatment.

They had their own medical expert, Wang Shuming, with them, so they didn't need the help of the hospital's doctors but only needed to use the hospital's equipment and medicine.

Upon arriving at the affiliated hospital, Su Fan had a nurse help him treat his wounds.

He had several injuries, covered in dust, which needed to be cleaned and disinfected.

As soon as he sat down on a chair, he casually took off his clothes.

After removing his clothes, the sinewy muscles on his body, undulating like dragon coils, naturally appeared before the young nurse.

This made the young nurse's face flush red, and she couldn't help stealing glances while cleaning Su Fan's wounds.

After she finished cleaning and disinfecting his wounds, Su Fan also thanked the young nurse with a smile, "Thank you."

Upon hearing this, the nurse's face immediately turned red and she said, "No need to thank me."

After speaking, she fled the scene as if escaping.

At that moment, Su Fan's True Qi and the vital energy throughout his body began to circulate.

Then, his injuries started to heal quickly.

He now really wanted to return to his company to have Chen Hanqing examine what that Crystal Card was.

Howard had not carried any other special items, just this one Crystal Card, which was certainly extraordinary.

Although Han Yunhui and others were still in the hospital,

but after he took a glance and saw that Professor Wang Shuming's treatment of the injured was going very smoothly, he had no intention of intervening.

So far, Wang Shuming should be, aside from his grandfather and himself, the most skilled doctor he had ever seen.

In most situations, Wang Shuming could clearly manage.

After confirming that his help was not needed here, he directly took a taxi back to the company.

The Eastern Medicine Company still had some offices with lights on, clearly some people were on duty.

At the guardhouse, Jue Kong and a few other guards were on duty.

When Su Fan saw Jue Kong in the guardhouse, he nodded slightly to him and then entered the company.

Jue Kong had now reached the mid-stage of the Martial Artist realm, and his strength had improved a bit more,

but Jue Kong's rate of improvement was nowhere near as fast as his.

Su Fan looked at Chen Hanqing's office, and seeing that the light was still on, he walked directly over.

"Hanqing, do you recognize what this thing is?" While speaking, he took out Howard's Crystal Card.

Upon seeing this Crystal Card, Chen Hanqing nodded and then took out a small box from his pocket.

This transparent small box also contained a Crystal Card.

There is a sequence to the ways of attaining knowledge, and each profession has its own expertise.

Concerning computers, Su Fan had very limited knowledge.

After taking out the small box, Chen Hanqing said to Su Fan, "Mr. Su, this is a Dark Web ID card."

Chapter 745 -

Chen Hanqing told Su Fan what the Crystal Card was, and then went on to explain in detail:

"After registering an identity on the Dark Web, you can obtain this type of Identity Crystal Card."

"This card requires an annual fee, and it serves three purposes."

"One is to browse information on the Dark Web, another is to send valuables to a designated Dark Web location."

"Then, the Dark Web staff will properly safeguard this important item."

"Items stored in the Dark Web's storage are even safer than those in Swiss banks."

"The third function is to use the Dark Web as an intermediary to trade items."

Su Fan had long known that the relics left by a Qi-transformation expert like Howard would be no trifles.

He hadn't expected that these items would be even more interesting than he imagined.

Su Fan immediately asked, "Can you crack this Dark Web Crystal Card?"

Upon hearing this, Chen Hanqing nodded. "As long as we have the Dark Web Crystal Card, it's doable. Without the Crystal Card, the Dark Web account is uncrackable."

As he spoke, he took out a specialized card reader.

Su Fan was seeing this type of card reader for the first time—it looked just like a transparent piece of glass, oozing with a sense of technology.

After activating Howard's Crystal Card, Chen Hanqing began to brute force the login password.

Only after this password was cracked could the Crystal Card be used normally to access the Dark Web.

This process didn't take too long.

Seven or eight minutes later, Chen Hanqing had cracked the password set by Howard. The Crystal Card was now ready for use.

After Chen Hanqing logged into the Dark Web using the Crystal Card, he went directly into Howard's personal space.

Su Fan quickly glanced at Howard's account balance.

He said with a slight surprise, "Is this one hundred and fifty million US Dollars?"

Chen Hanqing nodded, "Mr. Su, should I transfer this money out for you?"

One hundred and fifty million US Dollars, at the current exchange rate, amounted to over one billion seven hundred million Huaxia Coins.

Being an international assassin seemed to be quite lucrative.

Even a company like Eastern Pharmaceuticals that Su Fan established couldn't earn this much money in the near future.

After some thought, Su Fan said to Chen Hanqing, "How can this money be transferred out?"

Without hesitation, Chen Hanqing replied, "I can register a Dark Web identity for Mr. Su and transfer the money into Mr. Su's account."

"Alternatively, the money can be transferred into my account. I can use the cross-border banking financial services to transfer it into our company's account."

Su Fan did not choose the second method, nor the first. Instead, he asked, "Can the money be transferred and kept in your account?"

Chen Hanqing hastily stood up, shaking his head repeatedly, "Mr. Su, I cannot bear such a big responsibility."

He knew that Su Fan's willingness to do this was a sign of trust.

Of course, he had already decided to be absolutely loyal to Su Fan.

But after all, this was one hundred and fifty million US dollars. Having so much money in his account made him extremely uneasy.

Su Fan wasn't testing Chen Hanqing's intentions; he simply felt it was more convenient for future transactions on the Dark Web.

However, since Chen Hanqing was not willing, Su Fan could only instruct him to transfer the money directly into his domestic account.

"Transfer the money into my domestic account."

"Additionally, what else can be seen using Howard's Identity Crystal Card?"

He was extremely interested in the Secret Technique Howard used last.

Money was, of course, very important.

While it can be slowly earned, if Howard's last-used Secret Technique did not have an electronic version left behind, it would be a great pity.

Chen Hanqing straight away called up the items Howard had stored in the Dark Web warehouse.

He then said to Su Fan, "Mr. Su, the owner of this Crystal Card also stored these items in the Dark Web warehouse."

"These items can be taken out directly or you can continue to pay the management fee to keep them stored in the Dark Web warehouse."

Upon hearing this, Su Fan looked over.

He then discovered that Howard was not just ordinarily wealthy.

In the Dark Web warehouse, he had stored many antiques and a large number of weapons.

Moreover, there were some items that even Su Fan did not recognize at the moment.

Chapter 746 -

Through Chen Hanqing's help, Su Fan began to browse the dark web.

Howard's sole surviving member of the four-person team had successfully left Huaxia territory.

The moment she left Huaxia, Casey immediately reported their encounters to the higher-ups of Pareya Fortress.

Upon learning that Howard, Hayman, and Cain had all perished in battle and that Casey had barely escaped,

the higher-ups of Pareya Fortress were immediately enraged!

Even if Su Fan was a Qi Cultivation Realm Martial Artist, they could not allow Pareya Fortress to suffer such huge losses!

Howard was a mid-stage Qi Cultivation Realm Martial Artist, while Hayman and Cain were both at the peak of the Burst Qi Realm.

Although Pareya Fortress was wealthy and had large businesses,

it was not easy for them to train strong fighters.

Training Burst Qi Realm fighters was manageable, but cultivating Qi Cultivation Realm fighters was extremely difficult.

Yet now, mid-stage Qi Cultivation Realm fighter Howard had perished forever in Huaxia!

After confirming Howard's death, Pareya Fortress investigated the detailed circumstances.

The Qin Province Security Bureau, although they had sealed off the news,

there were still some who could deduce some information through various clues.

Furthermore, many people were paying attention to this matter at the time.

There were many tall buildings around that area.

Some relatively advanced digital devices might even have recorded the scenes of the battle between Su Fan, Howard, Hayman, Cain, and others.

Indeed, someone on nearby buildings had very cutting-edge digital equipment and captured some battle footage.

In Yang City, the waters were indeed deep.

There were some Martial Artists whose strength wasn't as great as Su Fan's but still reached the Qi Cultivation Realm or even the Burst Qi Realm.

These people, however, kept themselves very hidden and would not surface unless there was a substantial benefit.

This time, to gather intelligence, Pareya Fortress offered a handsome reward on the dark web.

These Martial Artists were then very willing to sell the intelligence they had gathered.

Subsequently, the higher-ups of Pareya Fortress definitively confirmed two things:

First, Howard, Hayman, and Cain had all perished in battle.

Second, all three of them had sequentially died at the hands of Su Fan.

This completely infuriated the higher-ups of Pareya Fortress, and they posted a sky-high bounty on Su Fan on the dark web.

While Su Fan was browsing the dark web, he saw the trending news about himself.

"Bounty of 200 million US dollars for the life of Qi Cultivation Realm Martial Artist Su Fan from Huaxia, Qin Province!"

This bounty was posted by Pareya Fortress.

In order to exact revenge on Su Fan, Pareya Fortress undoubtedly made a huge investment.

Of course, for an organization like Pareya Fortress, supported by many financial tycoons, 200 million US dollars was a trifle.

But the bounty was indeed very tempting.

200 million US dollars, which is 1.4 billion Huaxia Coins, was enough money to do a lot of things.

Most Qi Cultivation Realm experts would likely be tempted.

After all, most Qi Cultivation Realm Martial Artists were not like Su Fan.

They were only formidable in martial arts and lacked advantages in other areas, unable to make money as Su Fan did.

Even though Su Fan had used his miraculous medical skills to start the promising company, Oriental Medicine,

Oriental Medicine clearly could not generate 1.4 billion Huaxia Coins of pure profit for him in the short term.

Upon seeing this bounty, Su Fan's expression also turned icy.

He had previously only regarded Qi Tian as an enemy, but now he also considered Pareya Fortress an enemy.

While Su Fan looked extremely grim, he also received a message from Pareya Fortress.

They had evidently discovered that he had logged into Howard's account.

Upon opening the message box, Su Fan saw the content of the message sent by them.

Chapter 747 -

"Mr. Su Fan, the development of the situation to this point is something neither of us wanted to see,"

"If you can agree to some of our demands, we can cancel the bounty on you."

The message was in Chinese, and it seemed the person messaging Su Fan was fluent in Chinese.

Upon seeing the message, Su Fan replied very casually.

"Is there even a need for negotiation between you and me?"

The person on the other end received Su Fan's message and quickly replied.

"Mr. Su Fan, you should understand that at the end of the day, every conflict is fundamentally about interests."

"You killed Howard, Hayman, and Cain, causing substantial losses to our Parley Castle."

"If you could pay us three hundred million US dollars and sincerely apologize to us,"

"Once we receive your sincerity, we can remove the bounty on you."

"Otherwise, your bounty will remain on the dark web indefinitely, and you will encounter countless troubles in the future."

Su Fan's expression turned even colder.

The other party was clearly bullying him, sending Howard and three others to China with the intent to kill Su Fan.

After Howard and two others died, and only Casey managed to escape, they even had the audacity to accuse Su Fan and demanded reparations for Parley Castle.

Su Fan did not agree to their unreasonable demands and had no desire to waste words with them.

He simply replied with a short sentence, "Being an enemy to Parley Castle will cost you more than you can bear!"

After saying that, he no longer cared about their thoughts.

He turned his gaze to Chen Hanqing beside him and said, "Can you find out what Parley Castle is about?"

"And also look into what the past bounties offered by Parley Castle were like?"

Chen Hanqing immediately nodded, "Just a moment, let me check."

As he said this, his fingers flew over the keyboard, beginning to search for all the information Su Fan needed.

After finding quite a bit of data and scanning it quickly,

Chen Hanqing earnestly told Su Fan, "Mr. Su, Parley Castle is located on Parley Island."

"Parley Island and the surrounding maritime area are known as the Parley Region."

"This place is a British enclave, a colony of Britain over a hundred years ago."

"Parley Castle is a research institution funded by many European and American tycoons, seemingly engaged in the research of certain special drugs."

Chen Hanqing succinctly summarized the situation of Parley Castle to Su Fan.

Upon hearing about the drug, Su Fan thought about the berserk drug Hayman used before his death.

Although the drug did not achieve its intended effect, it still revealed the research capabilities of Parley Castle to Su Fan.

This situation was an undeserved disaster for Su Fan.

After Qi Tian became an important test subject for Parley Castle, they even sent someone as powerful as Howard from the Qi Realm to deal with him.

Since Howard and the others came to kill him, he was not about to let them escape unharmed.

After he killed Howard and the others, his feud with Parley Castle was irreversibly sealed.

This was clearly an irresolvable deadlock, for if he had not taken action against Howard and the others, they would not have spared him either.

After things had developed to this stage, the other side still thought they could negotiate a settlement under the condition of him making an exorbitant compensation, which to Su Fan was an absolute joke.

Parley Castle was just taking advantage of his vulnerability to bully him!

This made him start to think about whether he should also cultivate his own force of martial artists when developing his company?

Otherwise, the other party only needed to send one Qi Burst Realm martial artist to occupy Jue Kong, and then another Qi Cultivating Realm martial artist could pose a threat to Wang Fei, Su Ya, Su Xiaoya, and others!

Chapter 748 -

Thinking of this, Su Fan immediately made a short-term plan and a long-term plan.

The short-term plan was to move the Eastern Medicine Company directly across from the medical university's affiliated hospital.

Across from the medical university's affiliated hospital was a larger office building.

Not far from this office building was a residential area called Yujing Garden.

The staff of Eastern Medicine could work in the new office building and then reside in Yujing Garden.

He could buy a building directly in Yujing Garden to serve as the living area for the employees of Eastern Medicine.

After moving the Eastern Medicine Company there, if there were any incidents, he could quickly go from the hospital to support them.

Su Fan's long-term plan was to eliminate Parreya Fort, a formidable rival.

This was the most powerful adversary he had encountered so far; the opponent directly controlled a region and possessed an international-class research institution.

Moreover, many financiers invested in them, and the organization also had numerous martial artists.

The opponent's geographical location was even on the other side of the ocean.

Unless his strength could increase by one or two major steps, he probably wouldn't stand a chance against Parreya Fort.

After instructing Chen Hanqing to continue collecting and organizing all information related to Parreya Fort, Su Fan went to find Wang Xiaoxiao and Shen He.

Going to Wang Xiaoxiao and Shen He now was not to engage in a fierce battle fueled by raging passions, but for everyone's safety.

For now, facing Parreya Fort, he could only defend; he couldn't afford to travel to Parreya Fort's headquarters across the ocean to attack.

If that was the case, then he had to make ample preparations.

Otherwise, if anything happened to any of them—Bai Man, Wang Fei, Su Ya, Su Xiaoya, Jiang Yuan, Liu Qing—it would be a tremendous hurt for him.

Inside the room of Shen He and Wang Xiaoxiao, neither was sleeping.

At this moment, Shen He's face blushed as she and Wang Xiaoxiao faced each other with intertwined legs, embracing each other.

Wang Xiaoxiao's tongue kept stirring her tongue, attacking it fiercely.

Not only that, Wang Xiaoxiao's delicate hands harshly gripped her breasts, making them constantly change shape under the grasp.

As Shen He's body became softer, Wang Xiaoxiao greedily put her other hand on Shen He's breast and started to knead forcefully.

At first, Shen He just shyly embraced Wang Xiaoxiao.

But now, almost as if possessed, she too reached out to grab Wang Xiaoxiao's breasts.

Then she, much like Wang Xiaoxiao, began to grip and knead the smooth and white breasts.

She didn't even know what she was thinking; she unexpectedly found herself deeply addicted to this feeling.

While Wang Xiaoxiao was gripping her breasts, she also launched a rubbing attack.

Wang Xiaoxiao kept twisting her waist, causing their secret gardens to rub against each other constantly.

As Shen He became increasingly flustered and her pretty face grew even redder, a knock came from outside the door.

"Bang! Bang! Bang!"

After Su Fan arrived, he didn't press the doorbell, but knocked directly.

Hearing the knocking, Shen He was startled.

Wang Xiaoxiao didn't care and said, "Don't worry, it's so late, it must be Su Fan."

Shen He quickly said, "Knowing he's here, aren't you going to let go of your sister-in-law?"

Wang Xiaoxiao, unbothered, cheerfully replied, "It's okay, when he comes in, I'll play with sister-in-law together with him."

Upon hearing this, Shen He blushed, "Play on your own with him then, better let him take you all night long, so you won't stay up every night to do such shameful things with me."

Wang Xiaoxiao pouted, "Sister-in-law, you also like it this way, don't you? Just last night you were drenched by playing with me."

Chapter 749 -

Wang Xiaoxiao spoke without filters, embarrassing Shen He to no end.

Fortunately, Su Fan was still outside the door, as she couldn't keep teasing Shen He forever. She had to go let Su Fan in.

Shen He was startled and said to Wang Xiaoxiao, "Are you really going to open the door for him like that?"

Wang Xiaoxiao wasn't dressed, and was about to head to the door completely nude.

Hearing Shen He, she responded without turning back, "It's fine, it's not like he hasn't seen it all before."

In Wang Xiaoxiao's mind, it wasn't just that Su Fan had seen it all; he had done it countless times.

Chances were, Su Fan had come to look for them precisely for this reason.

With that thought, Wang Xiaoxiao couldn't help but feel a slight anticipation.

She was different from other women; she was a nympho to the core.

She could go without everything else, but not without men.

If it weren't for Su Fan being extraordinarily vigorous, satisfying her to the point of near exhaustion, she might have already hooked up with other men.

Now she wouldn't do that; every time she was intimate with Su Fan, she wondered if he ever held back, fearing he might literally screw her to death.

After peeking through the peephole and confirming it was Su Fan outside, Wang Xiaoxiao opened the door.

Once the door was open, she and Su Fan locked eyes, then both looked surprised.

Su Fan was surprised that Wang Xiaoxiao was nude when she opened the door for him.

Seeing this, he didn't bother with pleasantries.

He grabbed Wang Xiaoxiao's soft and tender breasts with one hand, and with the other, he smoothly closed the door.

Wang Xiaoxiao was surprised because Su Fan looked somewhat weary and his expression was quite serious.

Even though Su Fan was now fondling her breasts, kneading them fiercely, his eyes still seemed preoccupied with heavy thoughts.

She had known Su Fan for quite a while, and it was the first time she had seen him like this.

If nothing was unexpected, it must be the first time Su Fan had encountered something difficult to resolve.

Right away, Wang Xiaoxiao gently asked, "What's wrong?"

As she spoke, she gave Su Fan a deep and affectionate kiss.

In the past, Su Fan was always their protector. If he encountered any trouble, they would stand by him unwaveringly.

Su Fan picked up Wang Xiaoxiao and headed towards Shen He's room.

Seeing Su Fan carrying Wang Xiaoxiao, Shen He's already flushed face got even hotter.

Without hesitation, Su Fan picked up Shen He too, one woman on each side, holding one in each hand.

Only after embracing them both did he start to discuss matters.

"When I took down Baiwei Pharmaceutical before, I overlooked a minor character, Qi Tian, the second-generation heir of the Qi Dongliang family," he began.

"That guy was nothing but a good-for-nothing playboy, incapable of stirring up any real trouble."

"After the fall of Baiwei Pharmaceutical and the ruin of the Qi family, he fled to Europe."

"Once in Europe, I don't know what he went through, but he got involved with an organization called Pallea Fortress."

As Su Fan spoke these words, Shen He listened intently.

She wasn't very familiar with domestic or international affairs.

Wang Xiaoxiao, however, was slightly surprised: "Pallea Fortress?"

Su Fan was taken aback, "You know of this place?"

Wang Xiaoxiao shook her head, "I don't know much, just that they're also one of the international pharmaceutical giants."

"But they don't research ordinary medicines; they focus on drugs like stimulants."

"Their orders are said to come mainly from the military and powerful forces, and their drugs are primarily used on the battlefield."

"They have very few civilian products, but there is one very famous drug they make, called 'Ninety Minutes.'"

"After using that drug, even a man with premature ejaculation could last over ninety minutes before climaxing."

"That's about all I know about Pallea Fortress," she added.

Chapter 750 -

Normally, if a man isn't a martial artist like Su Fan,

the time he spends with a woman in intense passion usually ranges from fifteen to thirty minutes, mostly around fifteen minutes.

The civilian delay medication of the fortress can enable anyone to last over ninety minutes, which speaks volumes about the company's research capabilities.

These are just the products the fortress has made public. The effects of their unreleased products are surely even more astonishing.

In this regard, Su Fan had personal experience.

Like Hayman before, even though he had already stopped breathing, his body still underwent drastic changes under the influence of the drugs.

After Wang Xiaoxiao finished explaining her understanding of the fortress, Su Fan went on to speak:

"Qi Tian and I have an enmity over my father's death and the theft of my wife,"

"After he got involved with the fortress, they seemed to value him highly."

"Just recently, they sent one mid-stage Qi Transformation stage warrior and three peak Explosive Qi stage warriors to Yang City to kill me."

"Later..."

Clarifying the entire situation, Su Fan explained his rivalry with Qi Tian, as well as his conflict with the fortress to Wang Xiaoxiao and Shen He.

Wang Xiaoxiao and Shen He were his right-hand men in the expansion of the company.

He could completely trust these two.

Moreover, both physically and spiritually, Wang Xiaoxiao and Shen He now belonged to him.

Of course, Su Fan had no need to conceal anything from them.

After listening to Su Fan's complete story, Shen He couldn't help expressing her concerns, "Can we report this to the police?"

Besides contacting the police, she couldn't think of any other solution.

Su Fan shook his head, "The police won't send elite protection for our safety unless we're already in danger."

"By the time we'd be in immediate danger and call the police, it would most likely be too late."

"I plan to move the headquarters of Eastern Medicine Company across the street from the Medical University Hospital."

"There's a larger office building there that, with my current financial resources, I can fully acquire."

"Not only that, there's a residential area nearby called Yujing Garden, which has a very good living environment."

"After moving there, I'll also secure a building there."

"You will be living near the Medical University Hospital and also working nearby."

"If there's any disturbance at the hospital, I can be there immediately."

Upon hearing this, Wang Xiaoxiao and Shen He both nodded their heads.

However, Wang Xiaoxiao quickly asked, out of curiosity, "Can Sister Shen He and I become martial artists like you?"

Su Fan shook his head, "It's extremely difficult. Normally, martial arts training requires extremely high natural talent and starting from a young age to build your physique."

"Starting mid-way and trying to reach the Qi Nutrient state is already incredibly difficult, not to mention the Explosive Qi state or the Qi Transformation state."

"Take Master Chen Tai from the Tai Chi Academy, he has been practicing martial arts since he was a child. Yet when I first met him, he hadn't even reached the Qi Nutrient state."

It wasn't that Su Fan didn't want to teach Shen He and Wang Xiaoxiao martial arts, but rather they lacked the talent, and practicing martial arts would just be a waste of time.

Just like some children who simply don't have the talent for academics.

But if you let them cook or learn to drive or operate excavators, they might do extremely well. Everyone has different talents.

Su Fan's talents were in medicine and martial arts. If he tried to learn computers, even with Chen Hanqing tutoring him hands-on, he could not become an expert on the level of Chen Hanqing.

Knowing that the fortress might target Eastern Medicine Company, Wang Xiaoxiao and Shen He had no objections to moving the company across from the hospital.

Moreover, they currently lived in the suburbs, and moving there would mean living in the city center, which would greatly improve their living conditions.
