

Temptation 801

Chapter 801

Bai Jiawen was still thinking about whether to go diving or do something else.

When he heard Han Xinying mention going sea fishing, he took out his phone and said, "Hold on, I'll make a call and check."

Saying that, he dialed a manager's number.

After a brief phone conversation, Bai Jiawen said, "Let's go, everything is arranged."

Since Han Xinying got sick, this was the first time she had been out for fun, and she was extremely happy.

As she walked, she said, "Let's see who catches the most fish this time!"

Bai Jiawen laughed, "It will definitely be me. I'm a pro at sea fishing."

"Before I took over the family business, I was practically out at sea every day."

Under Bai Jiawen's lead, the group quickly boarded two yachts.

On one yacht, Su Fan and three others sat alongside two bodyguards.

The remaining six bodyguards were on the other yacht.

These yachts were specifically equipped for sea fishing, with all the professional fishing gear needed.

However, this time they weren't going to be drifting on the sea but fishing on a small island suitable for sea fishing.

As the group headed to the island, Liu Chuanxiong knew that the opportunity had come.

Watching the yachts get farther away, he smiled and said, "These rich brats really have no sense of danger, daring to go to such a remote island!"

Li Sheng laughed, "This is a godsend. We've been earning our living on the sea, and such a deserted island is perfect."

"This time, we might be able to kidnap Han Xinying, Bai Jiawen, and Bai Jiajia."

"These three rich kids all have extraordinary family backgrounds."

"Han Xinying's father is a Senior Vice President at Yunshan Global Capital in the China region."

"Her mother is the legitimate daughter of the Lee family from Xingzhou, with substantial financial power!"

"The Bai family from Tianhai, where Bai Jiawen and his sister are from, is one of the four major families in Tianhai, and they certainly lack for nothing."

"Doing this job, we can live it up in Europe for a few years before considering our next move."

After Li Sheng finished speaking, Liu Chuanxiong nodded and sneered, "Let's go, I can already see billions added to our Swiss bank accounts."

Wang Bing and the others, upon hearing this, followed suit.

They didn't take a yacht but left the Seaside Entertainment Center to find a speedboat.

Then they took the speedboat, quickly approaching the island where Bai Jiawen and the others were fishing, planning to kidnap them and leave!

At the seaside, finding a boat is quite an easy task.

There are many types of boats available in this area.

While Liu Chuanxiong and the others were looking for a boat, Su Fan and his group had already arrived at their destination.

When getting off the boat, Bai Jiajia felt pain and couldn't help but gasp as she raised her leg.

Han Xinying, not knowing what was wrong with her friend, asked puzzledly, "Xiao Bai, what's wrong? Are you not feeling well?"

"If you're not feeling well, you can ask Divine Doctor Su to check on you. Divine Doctor Su is really amazing!"

Bai Jiajia waved her hand quickly, "No, no, I just suddenly felt my leg go numb."

It wasn't numbness; her secret garden was already swollen like a bun.

During the previous meal, she endured two hours of impact without much rest.

She originally thought of sleeping in the rest area the whole day.

But then she thought it wouldn't be proper, so she reluctantly joined the group for sea fishing.

Seeing Han Xinying's high regard for Su Fan made Bai Jiajia more curious about him.

Su Fan hadn't spoken much along the way, so she couldn't gauge him well.

She wasn't sure if Su Fan was genuinely skilled or, as her second brother said, a fraud.

Thinking of this, Bai Jiajia proactively struck up a conversation with Su Fan, "Doctor Su, what is your specialty in Traditional Chinese Medicine?"

Su Fan casually replied, "I have studied all areas of Traditional Chinese Medicine."

After speaking, he thought for a moment and continued, "If you're asking whether I have a way to relieve your back pain, I certainly do."

Su Fan felt that this was most likely what Bai Jiajia wanted to know.

And Bai Jiajia's back pain was mainly due to prolonged bending over.

Most ordinary people either sit, stand, or lie down most of the time. They obviously wouldn't be bending over on the bed for long periods, damaging their backs.

Chapter 802

Su Fan got it right this time, of course.

Bai Jiajia indeed wanted to ask about her back pain.

She rarely had back pain before, because with other men, it never lasted more than twenty or thirty minutes, and she wasn't always lying in bed the whole time.

Bai Jiawen was different. Bai Jiawen was a Martial Artist with incredibly good physical fitness.

Not long ago, Bai Jiawen had her standing on the floor while bending over the bed for almost two hours.

Now, not only is her back hurting, but her legs are also weak.

In the past, when she was with Bai Jiawen, most of the time they would just mildly engage in some oral activities.

After all, her family was very strict, and whenever she interacted with other men, it was under the guise of learning from renowned figures.

Despite Su Fan hitting the nail on the head, Bai Jiajia wasn't embarrassed. Instead, she looked at Su Fan with great interest and said,

"Su Divine Doctor truly has some skills, to even notice my back discomfort."

Han Xinying, not catching the double meaning in Bai Jiajia's words, said innocently, "I told you, Su Divine Doctor is amazing!"

After she spoke, Bai Jiajia added, "Then does Su Divine Doctor know why my back hurts?"

Bai Jiajia couldn't believe Su Fan could also guess the reason for her back pain.

After all, no person would ever think of this reason.

Unexpectedly, without even thinking, Su Fan said, "Miss Bai's back pain is, of course, due to the excessive exertion over the last two hours."

Hearing this, surprise and a bit of nervousness flashed in Bai Jiajia's eyes.

She didn't mind what she did with Bai Jiawen, but it wasn't something that could be accepted by outsiders.

Han Xinying, curious, asked, "Excessive exertion? Weren't you just in the break room eating and taking a nap before? How could you be worn out?"

Bai Jiajia didn't know how to answer this.

It's true that she was eating and sleeping, but Bai Jiawen never took a break.

Even when she was eating, Bai Jiawen wasn't resting.

At this moment, Bai Jiajia worried a bit that Su Fan might spill her secret.

She could only look at Su Fan with pleading eyes.

Su Fan smiled and didn't see fit to say more.

Seeing Su Fan remain silent, Bai Jiajia finally breathed a sigh of relief.

At the same time, she decided to also take down Su Fan and get some secret footage, making him keep her secret!

Otherwise, if Su Fan held this leverage over her, she would always be on edge.

With this idea in mind, Bai Jiajia started thinking about how to proceed.

To her dear friend's question, she casually replied, "I was bored in the room earlier, so I did some exercise."

Of course, it wasn't just a bit of exercise, but rather she was being exercised all the time.

But this, of course, couldn't be said to Han Xinying.

She presented an appearance of purity, while Han Xinying was pure inside and out, like a blank sheet of paper—a sweet and innocent girl.

Luckily, by now, the group had arrived at their destination and could start fishing in the sea.

As expected, Han Xinying didn't pursue the previous topic any further. Instead, she grabbed her fishing gear and headed to a suitable fishing spot.

Sea fishing usually allows for fishing in many areas because there are so many fish in the sea.

However, if you find some of the best fishing spots, the difficulty of sea fishing reduces significantly, making it easy to catch fish and enjoy more fun.

Bai Jiawen, who had worked tirelessly for two hours earlier, seemed completely unfazed.

He went to a fishing spot and started fishing right away.

Han Xinying did the same, casting her line and saying, "Let's see who catches a fish first!"

Although Bai Jiawen had rich experience in sea fishing, catching fish depended not only on skill but also on luck.

So, it was really hard to say who would catch a fish first.

Chapter 803

Su Fan and Bai Jiajia sat down at two different fishing spots at this time.

Han Xinying's fishing spot was on a reef as high as one and a half people.

Bai Jiawen's fishing spot was on the right side of this huge reef.

Su Fan and Bai Jiajia's fishing spot was just on the left side of the huge reef.

Besides Su Fan and Bai Jiajia, the other two were blocked by the reef, unable to see each other, and could only hear sounds.

Xia Chen and the other bodyguards were waiting in the nearby woods at this moment.

This small island could only be reached by boat, and besides the staff, there were no other people on the island, so they didn't have to worry about the safety of Han Xinying and Bai Jiawen.

Su Fan fished right next to the huge reef, where it could block the scorching sun.

He cast the hook into the water and began to circulate his True Qi within his body.

A master at the Qi Condensation Realm can control True Qi with incredible precision.

Now, he effortlessly let his Taichi True Qi extend along the fishing rod.

This process is quite challenging for some masters at the Qi Condensation Realm.

Releasing True Qi into the air and precisely controlling True Qi are obviously two different things.

But for Su Fan, precisely controlling True Qi is also very easy.

His foundation is extremely solid, and his True Qi within his body is also very condensed.

In this situation, he can certainly control his True Qi very easily.

Not only that, he even directed the Taichi True Qi along the hair-thin fishing line into the sea.

At this moment, he had a relatively vague sense of the situation in the sea.

As time went by, this sense gradually became clearer.

When he sensed a sea fish approaching, Su Fan's heart moved. He controlled the hook with True Qi and directly hooked the fish.

Then he lifted the rod and swung it, and a sea fish was caught by him.

Although Han Xinying couldn't see Su Fan who was blocked by the reef, she could see the long fishing rod.

Not only her, but Bai Jiawen also saw it.

Seeing that Su Fan caught a fish so quickly, Bai Jiawen was immediately displeased!

After all, he had previously boasted that his experience was rich and that he would definitely be the first to catch a fish.

Who knew Su Fan had such good luck and could catch a fish by sitting casually in any spot he chose!

Han Xinying was delighted and said, "Divine Doctor Su, is it so easy to catch fish here? You've only just sat down, and you've already had a catch."

Su Fan casually replied, "Maybe it's just good luck."

Han Xinying heard this and laughed, "Then let's see who catches the most fish in the end!"

This time Bai Jiawen didn't say a word. Fishing has a lot to do with luck.

He was worried that if he spoke, Su Fan or someone else might slap him in the face, so it was better to fish first.

Bai Jiajia was initially fishing on Su Fan's left side.

Seeing Su Fan catch one fish after another, she immediately brought her fishing gear and came to Su Fan's side.

Then she gave a sweet smile and said to Su Fan, "Divine Doctor Su, can I fish next to you? It seems like there are more fish here."

Su Fan casually said, "Sure."

With his consent, Bai Jiajia directly sat beside him.

This time, Bai Jiajia didn't actually come just to fish.

After coming over, she casually placed her phone next to her.

Of course, her phone's camera was on.

She intended to lead Su Fan into doing something and record it on her phone.

In this way, she would have leverage against Su Fan.

Although she didn't know how much Su Fan had discovered about her affairs.

She found that Su Fan was indeed not simple. If she could hold something over Su Fan, it would be beneficial to her.

After sitting down beside Su Fan, Bai Jiajia whispered, "Divine Doctor Su, tell me, what's the cause of my waist pain?"

Chapter 804

She needed to confirm once again whether Su Fan knew something or if he was just making random guesses.

Su Fan chuckled softly and whispered, "I am a Martial Artist. The soundproofing in the lounge is very good, normal people indeed can't hear anything, but I heard everything I needed to hear."

"Do you know why your waist hurts?"

Hearing this, Bai Jiajia's heart skipped a beat.

She now fully believed that Su Fan knew most of her secrets.

She hadn't expected that Su Fan was actually a Martial Artist.

After thinking for a moment, she nervously asked, "Will you tell anyone?"

Su Fan casually replied, "I'm not that bored, I won't go around sharing these things."

His words left some room for interpretation.

If it was just aimless gossip, he certainly wouldn't do such a boring thing.

But if he needed to accomplish something, and needed the help of Second Young Master Bai or Third Miss Bai, then this newfound secret could obviously come in handy.

When Bai Jiajia heard Su Fan say this, she breathed a sigh of relief.

After thinking for a while, she moved closer to Su Fan and then grabbed his left hand.

Su Fan did not pull his hand back, instead, he continued fishing with his right hand.

Seeing that he didn't reject her, Bai Jiajia couldn't help but feel a bit proud.

Men's guard often lowers in front of women, especially beautiful women.

Su Fan clearly hadn't noticed that there was something wrong with her bag and phone placed beside her.

He wouldn't have guessed that her phone, placed upright in the bag, was recording.

At this moment, Bai Jiajia was wearing a champagne-colored jacket and a warm white skirt.

On her legs were ultra-thin white pantyhose that appeared to be only 5D, very transparent.

If one's legs weren't well-shaped and the skin wasn't good, they wouldn't be able to pull off such an outfit.

Pantyhose generally have the effect of accentuating the legs and covering imperfections.

But these white pantyhose didn't, they only made her legs look smoother.

Of course, Bai Jiajia's skin and leg shape could handle the white pantyhose.

She had perfectly shaped legs, her skin smooth like milk and silk.

As Bai Jiajia held Su Fan's hand, an invisible thread of True Qi had already spread from Su Fan's seat to Bai Jiajia's bag.

Bai Jiajia's phone was silently turned off by Su Fan.

He had long noticed Bai Jiajia's little tricks and roughly guessed what she was planning.

After what happened with Wang Fei, he was always on guard around beautiful women, sometimes even doubly so.

Not only had he turned off Bai Jiajia's phone, but he had also turned on the recording on his own phone.

Bai Jiajia's whispers just now were all recorded by him.

Thinking she'd succeeded, Bai Jiajia held Su Fan's hand and placed it on her leg.

Su Fan had encountered many long-legged beauties before. A woman's long legs and delicate feet could indeed be very appealing sometimes.

Like Nalan Xue's legs, they really made him want to sling them over his shoulders.

Bai Jiajia's legs were just as beautiful.

Bai Jiajia looked at Su Fan with pride, her heart filled with silent mockery.

What if Su Fan was a Martial Artist? Didn't she still easily find his weakness!

As Su Fan enjoyed caressing her long legs, Bai Jiajia whispered with a playful tone, "Does it feel good?"

Su Fan casually replied, "Not bad."

Bai Jiajia covered her mouth and giggled, "Just not bad?"

She then leaned closer to Su Fan and whispered in an even softer voice, "Those famous men in Tianhai loved kissing my feet and legs when we were together."

"Do you want to kiss them?"

Chapter 805

Su Fan shook his head, "Not interested."

"Hmph!" Bai Jiajia snorted and said, "You don't mean that!"

"Are you sure you really don't want to screw me?"

This time, Su Fan didn't deny it. Instead, he lowered his voice and said, "Wanting to screw you and wanting to kiss your legs are two different things."

Bai Jiajia snorted softly, "If you don't kiss my legs, no screwing."

This time, Su Fan just chuckled and didn't reply.

Bai Jiajia, however, boldly took Su Fan's hand and moved toward a secret garden.

But just as Su Fan's hand got close, she suddenly wanted to stop him.

In the past, she loved teasing men like this, capturing their souls.

But today, it was different. The intense pounding from the past two hours had turned what was once smooth ground into lofty hills. Who knew how long it would take for the swelling to go down—it even hurt to walk right now.

But it was too late to stop now.

Su Fan's fingertips felt a wonderful sensation.

This surprised Su Fan a bit.

The feeling was tender, slippery, and clean-shaven.

Certainly, it wasn't naturally hairless but meticulously shaved with a hair removal device.

The shape was perfect, a flawless line between water and sky.

The key point was, Miss Bai wasn't wearing any crucial intimate clothing.

Apart from an ultra-thin pair of white silk pantyhose, there was nothing else.

Su Fan had originally wanted to explore Bai Jiajia, and her outfit only intensified his desire to do so.

But on this island, it was clearly impossible.

The island wasn't too big or too small, but there was no suitable place to make a move.

What they were doing now was about the limit—at most, he could experience Bai Jiajia's oral skills again.

At first, Bai Jiajia worried that Su Fan would be as rough as other men, and if so, she'd be in trouble.

Under normal circumstances, rough pulling and tugging were nothing to her.

But this time, she was injured. Even if Su Fan pulled gently, it would hurt a lot.

Fortunately, Su Fan didn't do that. He just stroked her very gently.

Bai Jiajia immediately nestled close to Su Fan like a little bird.

This spot was ideal—neither Bai Jiawen nor Han Xinying would know what the two of them were up to.

They could only hear sounds but couldn't see anyone.

And Bai Jiawen and Han Xinying were currently engrossed in fishing, completely oblivious to whether Su Fan and Bai Jiajia were up to mischief.

While enjoying Su Fan's gentle stroking, Bai Jiajia plucked up her courage and moved her small hand toward Su Fan's abs.

While Su Fan's clothed body looked proportionate,

Bai Jiajia's random touch made her feel a jolt of surprise!

For no other reason, Su Fan didn't appear exceptionally strong, yet every part she touched was solid muscle.

A man's muscles are his armor, giving women a sense of security and reassurance.

Their fondness for men's muscles is akin to men's admiration for supple curves.

Miss Bai's soft little hand kept exploring Su Fan's powerful muscles.

His muscles were impressively developed, akin to Bruce Lee's.

This made Bai Jiajia a little reluctant to let go; she longed to be fiercely conquered by this strong physique.

Her curiosity about Su Fan's "capital" grew even stronger.

She tentatively reached closer, keeping an eye on Su Fan's reaction.

Seeing that Su Fan didn't refuse, she boldly moved in.

The moment Bai Jiajia touched the raging beast, she nearly exclaimed aloud.

She had thought Bai Jiawen was already incredible.

But after touching Su Fan, she realized that there's always a higher peak; Bai Jiawen was nothing in comparison.

Chapter 806

Bai Jiajia at this moment, became even more expectant.

What kind of happiness would such a Divine Artifact bring to her, she couldn't even dare to imagine!

She even somewhat wanted to lean over, in this tense and exciting environment, to display her oral skills to Su Fan.

In this world, many people are extraordinarily talented, having unique advantages over others in certain matters.

These people are usually teased as having a certain Holy Body.

And she, without a doubt, is the Holy Body of oral skills.

Completely self-taught, and extremely proficient, able to draw out a man's soul.

As Bai Jiajia wanted to take things further, the sound of helicopter rotors suddenly came from one side of the island.

Soon after the rotor sound was heard, bodyguards' startled cries immediately followed.

The first to speak was Han Xinying's bodyguard, Xia Chen!

Only Xia Chen's voice was heard saying, "Be careful! Suspicious personnel approaching! Those speedboats look unusual!"

Shortly after Xia Chen spoke, several speedboats quickly approached the island.

Liu Chuanxiong led the charge onto the island, and seeing the hostility of the visitors, Xia Chen and his group rushed forward without a word to intercept.

Xia Chen was a top master at the peak of the explosive Qi stage, but upon encountering Liu Chuanxiong, he was still sent flying with a single punch, coughing up blood!

Han Xinying's bodyguards immediately had only three left with combat capability.

The Bai siblings' bodyguards, though still had six who could fight,

but among those six, the strongest was merely at the peak of the explosive Qi stage.

Facing Liu Chuanxiong in the transforming Qi stage, they were completely unable to block.

At this moment, Liu Chuanxiong's other subordinates had swiftly landed on the island.

Liu Chuanxiong's strength was extremely formidable!

He often kidnapped wealthy merchants for ransom, a significant portion of the substantial funds was used to enhance his strength.

This continuously boosted his power, making him a top master among martial artists of the same transforming Qi stage!

Han Xinying's bodyguards, along with the Bai siblings' bodyguards, all turned into helpless chickens and dogs in front of Liu Chuanxiong.

Liu Chuanxiong charged straight towards Han Xinying.

His main target this time was still Han Xinying.

For two reasons: one being Han Shiguang's immense wealth, and the other being that Han Shiguang's Han family was not a martial arts family like the Tianhai Bai family.

Although Han Shiguang could also hire top experts to retaliate against him, those he hired were obviously less reliable than the Bai family's own experts.

Of course, if he could also kidnap Bai Jiawen and Bai Jiajia while kidnapping Han Xinying, he wouldn't hesitate.

In no time, Liu Chuanxiong had already arrived here.

Upon approaching the area, without any hesitation, he leapt and reached out to grab Han Xinying.

Seeing Liu Chuanxiong strike down Xia Chen, Han Xinying cried out in fear.

At this moment, seeing Liu Chuanxiong charging towards her, she was frozen with terror.

Aside from crying, she couldn't even escape or call for help.

In her eyes, Liu Chuanxiong in the transforming Qi stage was like a deity.

With just a few punches and kicks, he had knocked Xia Chen and others out.

Then, with several leaps, he appeared in front of her from a very far distance.

Seeing Liu Chuanxiong approaching, Bai Jiawen, knowing he wasn't a match, still spoke up with gritted teeth.

"Sir, I am Bai Jiawen of the Tianhai Bai family. Are you sure you want to make an enemy of our Bai family?"

Liu Chuanxiong laughed aloud, "You, a mere ant in the nurturing Qi stage, dare to use the Bai family to threaten me?"

Speaking, he unleashed a palm strike from a distance.

"Boom!"

This palm strike was forceful and powerful!

With one palm, Bai Jiawen spat out a blood arrow and collapsed to the ground, unable to get up again.

Chapter 807

At this moment, Su Fan naturally couldn't afford to enjoy Bai Jiajia's graceful legs.

When Han Xinying felt utterly desperate, Su Fan descended from the sky, standing right in front of her.

Then Han Xinying finally came to her senses and said something that left Su Fan both crying and laughing.

Miss Han Xinying said to the fierce Liu Chuanxiong, "Don't hurt anyone anymore, can we surrender?"

Miss Han wasn't stupid; she simply couldn't think of a better word to say.

She also didn't know what Liu Chuanxiong wanted to do. As soon as he appeared, he knocked Xia Chen and others to the ground.

Rushing in, he gravely injured Bai Jiawen with a single palm strike from a distance.

Worried, Han Xinying saw Liu Chuanxiong raise his hand and strike Su Fan, causing him to spit blood.

In desperation, this innocent lady even suggested surrender.

If Su Fan were Liu Chuanxiong, he would definitely say "Surrender is not allowed" to tease Han Xinying, but Liu Chuanxiong clearly lacked Su Fan's sense of humor.

At this moment, Liu Chuanxiong said nothing and threw a punch at Su Fan.

He didn't know Su Fan's strength, but he didn't care.

He wanted to send Su Fan flying into the sea with a single punch!

Su Fan didn't know Liu Chuanxiong's intentions, but as the punch came, he easily leaped into the air and kicked.

"Bang!"

This kick, powerful and domineering, imbued with a full dose of Tai Chi True Qi, slammed into Liu Chuanxiong's chest.

Moments before, Liu Chuanxiong, who had been rampaging, was directly sent flying by Su Fan's kick!

This startled Liu Chuanxiong: "An expert at the Qi Condensation level!"

Although surprised, Liu Chuanxiong executed a carp flip and sprang to his feet.

There may be a gap between him and Su Fan, but it wasn't insurmountable.

He was kicked away because he underestimated his opponent.

As Liu Chuanxiong attacked again, Su Fan naturally didn't back down, facing him head-on!

The two started fighting on the island, under the watchful eyes of Han Xinying and others.

Su Fan's movements were effortlessly graceful and highly impressive, embodying the style of a Grandmaster.

Liu Chuanxiong's approach was mixed martial arts, incorporating a variety of combat techniques and traditional martial arts.

Some of Liu Chuanxiong's moves, Su Fan was seeing for the first time.

Having taken a kick from Su Fan earlier, Liu Chuanxiong now executed a series of three kicks in mid-air.

Each kick was more powerful than the last.

If kicked onto a steel plate, the steel would certainly deform!

However, the three kicks powered by Qi Condensation did not hit Su Fan, who effortlessly dodged them.

As Liu Chuanxiong's three kicks missed and his old strength was exhausted while new strength hadn't yet emerged, Su Fan swiftly closed in.

As Su Fan approached, Liu Chuanxiong immediately realized the danger!

Sure enough, one of his legs was easily seized by Su Fan, who then used his shoulder's force to execute a Wild Horse Parting Maneuver.

"Boom!"

The overpowering Tai Chi True Qi exploded on Liu Chuanxiong's body, sending him flying back.

This time, in mid-air, Liu Chuanxiong somersaulted to dissipate the force.

Having successfully neutralized the force, Liu Chuanxiong attacked Su Fan once again.

Upon realizing Su Fan was a Tai Chi master, he immediately adjusted his strategy.

Against Tai Chi masters, an open and close approach wouldn't work.

It was easy to fall into the opponent's trap and then face lethal moves like cannon hammer, grasping the sparrow's tail, or neck-breaking techniques.

He adjusted very quickly and, coincidentally, started using Tai Chi himself, just like Su Fan.

Interestingly, although Liu Chuanxiong practiced mixed martial arts,

his first and most important mentor was a descendant of Yang-style Tai Chi!

Thus, he was no stranger to Tai Chi!

Chapter 808

When he first started practicing martial arts, Liu Chuanxiong trained in Yang-style Tai Chi for fifteen years.

There is a saying, "Tai Chi doesn't show results for ten years, but once it does, it can easily kill."

With fifteen years of Tai Chi foundation, Liu Chuanxiong now seems quite skillful when performing Tai Chi Boxing.

Su Fan struck with a palm, and Liu Chuanxiong deflected it with a cloud hand, then used the borrowed force to return a palm strike towards Su Fan.

Su Fan was slightly surprised but remained calm, easily raising his palm and pressing down his wrist, neutralizing Liu Chuanxiong's strike.

While neutralizing the strike, he immediately used Qinna Hand to grab Liu Chuanxiong's wrist.

Inside Liu Chuanxiong's body, Tai Chi True Qi was also fluctuating, shaking off Su Fan's grip.

However, Liu Chuanxiong didn't have time to feel proud before he was greatly shocked!

Su Fan seemed to be using Banlan Hammer earlier, who could have expected that he would suddenly switch moves and directly go for Double Peaks Piercing Ears!

"Boom!"

"Boom!"

Two muffled sounds almost connected in a line.

Even with Tai Chi True Qi protecting his body, Liu Chuanxiong's throat felt sweet, and blood immediately flowed from his mouth after being struck in the head with such force.

He was evidently affected by Su Fan, causing a mistake in the flow of his True Qi, resulting in internal injuries.

But at this moment, Bai Jiajia suddenly let out a scream.

Then Han Xinying exclaimed, "Something's wrong, Little Bai has been captured by them!"

As Han Xinying's words fell, Su Fan also saw Bai Jiajia thrown onto a speedboat.

He felt somewhat helpless.

Their opponents came prepared, and they were caught off guard, suffering significant losses.

Now he had to keep Liu Chuanxiong occupied and couldn't attend to Bai Jiajia at all.

Liu Chuanxiong initially wanted to quickly deal with Su Fan, but after being caught off guard and suffering a major loss,

he didn't linger and immediately fled.

Seeing him escape, Su Fan hesitated for a moment but ultimately didn't recklessly pursue.

If it was a trap to lure him away, Han Xinying would be in trouble once he left.

Fortunately, at this time, one of Han Xinying's bodyguards had already brought rescue personnel over.

These rescue personnel were experts from the Bai family at the Seaside Entertainment Center, including a True Qi expert!

After arriving, they sought out Xia Chen to understand the situation.

Upon learning that Bai Jiajia had been captured, the True Qi expert from the Bai family didn't hesitate at all and immediately chased after them using the speedboat they came on!

Han Xinying and Bai Jiawen had already been protected by this time.

The medical team also arrived beside Bai Jiawen, beginning to treat this second young master of the Bai family.

Although Bai Jiawen was vomited blood by Liu Chuanxiong, Liu Chuanxiong ultimately had no intention of killing him, so his injuries weren't too severe.

As more and more rescue personnel arrived, Han Xinying and Bai Jiawen's hearts gradually relaxed.

Surveillance on the island, although only covering certain areas, was immediately retrieved.

Unfortunately, the things visible on the surveillance were very limited.

The exchange between Su Fan and Liu Chuanxiong could only be seen once, with Su Fan using Wild Horse Parts Mane to strike Liu Chuanxiong and sending him flying.

But this scene greatly shocked the rescue personnel.

Because the Bai family had roughly investigated the identity of the kidnapper.

Even though the kidnapper had a very delicate Human Skin Mask, his striking characteristics were too evident.

The Bai family's martial artists had largely determined that the kidnapper was Liu Chuanxiong!

His usual martial arts included mixed martial arts, and he was also a very formidable Tai Chi master, specifically authentic Yang-style Tai Chi.

Remembering how Su Fan used Wild Horse Parts Mane to send Liu Chuanxiong flying,

everyone was naturally in awe of Su Fan.

But the Bai family's person in charge at this place was still very urgent as he spoke.

"Sir, hello, I am Bai Dongshan of the Bai family from Tianhai."

"Could we ask you to assist the Bai family of Tianhai in rescuing our third young lady?"

"Regardless of the outcome, the Bai family of Tianhai will offer substantial gratitude!"

"The person who just chased after them is our third master, Bai Chunlin."

"Afterward, more experts from our family will come to support and join forces with you to deal with the True Qi expert suspected to be Liu Chuanxiong."

Chapter 809

After Bai Dongshan spoke, Han Xinying also quickly pleaded,

"Divine Doctor Su, can you defeat that bad person?"

"Can you help them and rescue Bai?"

"I'm so worried about Bai, and I don't know what those people will do to her!"

Bai Dongshan's face, and even the face of the Bai family in Tianhai, was of no use here with Su Fan.

Su Fan wanted to rescue Bai Jiajia mainly because of the partial intimacy they had shared not long ago.

Now that Han Xinying had spoken, there was naturally no problem.

He thought for a moment and said, "You follow them first and move to a safe place."

Han Xinying heard this and immediately nodded, saying at the same time, "Divine Doctor Su, be careful. Those people seem too scary, and I don't know what they're up to."

Su Fan nodded slightly and said, "It's okay, you just move to a safe place. Don't worry about me."

After saying that, he looked at Bai Dongshan and said, "Arrange a speedboat for me."

Bai Dongshan was overjoyed when he heard this, "Mr. Su, it's already arranged. I'll go with you."

He was also a Martial Artist and a formidable one at that.

However, a Martial Artist would be of little use against someone at Liu Chuanxiong's level.

Just like when Hayman and the others faced Su Fan, they were easily taken down by him.

Before long, Su Fan and a group of people, including Bai Dongshan, boarded a speedboat.

Then Bai Dongshan used a satellite phone to coordinate with Bai Chunlin and the others, while instructing the person steering the speedboat on which direction to pursue.

Liu Chuanxiong and his people were very experienced at living at sea.

Even though Bai Chunlin and the others immediately gave chase, they lost them.

On the vast open ocean, they had no idea which direction the enemy had gone.

Su Fan and Bai Dongshan's speedboat soon reached their vicinity.

At the same time, two large yachts and several speedboats also quickly approached.

Bai Chunlin boarded one of the large yachts and said to Bai Dongshan, "Use radar to search. They couldn't have gone far!"

"Sweep the area along this stretch of sea. I suspect they are hiding on an island."

Bai Dongshan nodded upon hearing this.

He then invited Su Fan to also board one of the large yachts.

The large yacht was equipped with very advanced radar to understand the surroundings.

But it seemed that Liu Chuanxiong and his people really had gone to hide on an island, just as Bai Chunlin had guessed.

Although the Bai family in Tianhai were martial arts experts, they also made their living at sea.

However, their business wasn't in kidnapping or similar activities, but in shipping and fisheries.

They were also very experienced at sea.

This time, Bai Chunlin's guess was right. Liu Chuanxiong's group, along with their speedboats and men, had hidden on an island.

They were all Martial Artists, so it was very easy for them to move the speedboats to the island.

Not only that, Liu Chuanxiong had also contacted his ship to come and pick them up.

Liu Chuanxiong had a ship, a luxurious cruise ship that had traveled around the world for years.

He had arranged the route for this business deal long ago.

In just about an hour, his group would be boarding the ship.

The luxury cruise ship had many passengers, among them people of high status and prestige.

No matter how powerful the Bai family in Tianhai was, they wouldn't dare to tangle with such a luxurious cruise ship.

Based on Liu Chuanxiong's past experience, the Bai family might not even think that Bai Jiajia had been kidnapped onto a luxury cruise ship.

This time, it seemed even heaven was helping Liu Chuanxiong. His Victoria cruise ship was sailing smoothly and faster than he had expected.

This meant that in about fifty minutes, his group could easily board the ship.

Once on the luxury cruise ship, it would be his territory.

If he found the right opportunity, he could extort ransom from the Bai family in Tianhai.

Of course, before asking for the ransom, Liu Chuanxiong wanted to enjoy himself a bit with the young Bai family heiress.

The experience of Liu Chuanxiong and his team was too perfect.

Hiding on the island really stumped the Bai family's rescue team.

The radar showed only the Bai family's ships, without a trace of the targets.

As for the surrounding islands, it was impossible to tell which one had people on it.

The large yacht Su Fan was on now saw Liu Chuanxiong's Victoria cruise ship.

Several Martial Artists from the Bai family boarded to communicate and search.

But since Liu Chuanxiong and his men had not yet boarded the ship, the search was futile.

Chapter 810

On the boundless ocean, Su Fan was contemplating where the kidnappers might be hiding.

Bai Chunlin's judgment was probably correct.

Liu Chuanxiong, Wang Bing, Li Sheng, and others were likely hiding on a certain island.

If Su Fan and Bai Jiajia had no connection, it would be another matter.

But now, to some extent, Bai Jiajia had already fallen into his hands.

In such a situation, Liu Chuanxiong and others kidnapping Bai Jiajia was clearly an affront to him.

It was a pity that despite the Bai family having so many experts and elites, they still couldn't find where Liu Chuanxiong and his men were.

He didn't have a surefire way to find Liu Chuanxiong either.

However, after some thought, Su Fan still said to Bai Dongshan, "Can you arrange for a few people to stay on the cruise with me and search for them?"

Bai Dongshan asked, puzzled, "Mr. Su, why search on the cruise?"

After hesitating for a moment, Su Fan said, "If I were the kidnapper, I would definitely sneak Miss Bai onto this cruise silently."

"With so many yachts and speedboats of the Bai family patrolling these waters."

"If they continued to use speedboats to escape, they would be easily detected by radar."

"If they don't want to hide on a small island like savages, they would certainly try to sneak onto the cruise ship."

"With the skills of a martial arts expert, this would be very easy."

Though Bai Dongshan thought Su Fan made sense, he still didn't believe Liu Chuanxiong and the others would act this way.

He immediately said, "With the Bai family's influence, it won't be a problem to get you on the cruise, Mr. Su."

"But if the cruise leaves this sea area, we would need you to leave the ship and continue assisting us in rescuing Miss Bai Jiajia."

"Regardless of the outcome, the Bai family will express our utmost gratitude to you, Mr. Su."

Su Fan nodded, "No problem."

He wasn't particularly interested in the Bai family's sincerity.

After all, no matter how sincere the Bai family was, they couldn't help him attack Pallea Castle in England.

Therefore, the Bai family's material gifts wouldn't attract him.

Compared to material gifts, Bai Jiajia was more attractive to him.

While Su Fan was conversing with Bai Dongshan, he unexpectedly discovered that Han Xinying had also come.

As one of the four major families in Tianhai, the Bai family had incredible resources.

In a very short time, they had gathered three martial arts experts!

At this moment, Han Xinying was following one of the Bai family's martial arts experts, coming over together.

On another large yacht were another Bai family expert, Bai Jiawen, and Bai Jiajia's older brother, Bai Jiawu.

In unseen places, the Bai family likely dispatched more rescue teams to save Bai Jiajia.

But Liu Chuanxiong, Wang Bing, Li Sheng, and the others were truly formidable.

Having engaged in kidnapping and extortion on the sea for years, they had an incredible amount of experience.

Despite the Bai family sending out so many experts, they still couldn't locate these men.

Upon seeing Su Fan, Han Xinying immediately asked, "Divine Doctor Su, have you found Bai Jiajia?"

Su Fan shook his head, "Not yet. The kidnappers are hiding somewhere. Why are you here?"

Han Xinying replied, "I was worried about Bai Jiajia, so I came over."

She then continued, "Where are you going now?"

Su Fan pointed to the distant ship Victoria, "I plan to wait on that cruise ship."

"Of course, I don't know if the kidnappers will do what I suspect and escape using the cruise."

"In my opinion, using the cruise is their only choice."
