

Temptation 811

Chapter 811

Although Han Xinying didn't quite understand the logic behind it.

She still said, "Then I want to go to the cruise ship with you."

Su Fan wanted to persuade Han Xinying to go back, considering that the environment on the cruise ship, no matter how good, is not the same as on land.

But before he could refuse, Han Xinying continued, "I'm afraid something might happen to Bai Jiajia. I want to help you rescue her."

Su Fan hesitated for a moment but still shook his head, "Miss Han, you should go home first."

"Otherwise, when I rescue Miss Bai, I will get distracted protecting you."

This time, Han Xinying didn't speak because Su Fan's words made her feel very insignificant.

Standing on the yacht not far from Su Fan, the tiny pearls in her eyes rolled down like broken strings of beads.

Su Fan, feeling helpless, said, "Alright then, Miss Han can come with me to the cruise ship and wait it out."

"But once we are on the cruise ship, every action must follow my lead."

Upon hearing this, Han Xinying immediately burst into laughter, one couldn't tell if her tears were real or fake.

Under Bai Dongshan's arrangement, Su Fan and Han Xinying boarded the Victoria cruise ship.

Previously, the Martial Artists of the Bai family had checked and confirmed that the kidnappers were not on the cruise ship.

Everyone believed that the kidnappers would not use the cruise ship to escape.

Su Fan wasn't very sure either; he just couldn't think of any other escape routes besides this one.

Since that was the case, he decided to try the cruise ship as there were no better options.

Liu Chuanxiong was unaware of the situation on the cruise ship.

Before getting on the cruise ship, he didn't plan to have any contact with those onboard.

If any contact with the cruise ship was intercepted, their coordinates would be exposed.

The Tianhai Bai family was definitely formidable.

From the information purchased from the dark web, the Tianhai Bai family has at least five Qi-transforming stage masters.

Even if only three Qi-transforming stage masters came, it would be enough trouble for him.

As time passed, the sky quickly grew dark.

The Victoria was getting closer and closer to the island where Liu Chuanxiong and others were hiding.

Wang Bing excitedly said, "Brother Xiong, our ship is coming."

Liu Chuanxiong grinned, "Act according to the previous plan!"

After he finished speaking, everyone moved, sending the speedboat they had been using to the edge of the island.

This speedboat would not carry any people; instead, it would be set to full throttle for unmanned navigation in one direction!

The purpose of this speedboat was to mislead the Bai family people, allowing them to escape smoothly.

Although the Tianhai Bai family was strong, once they left this sea area, they would be out of the Bai family's influence.

By then, no matter how strong the Bai family was, they couldn't do anything to them.

Soon, the speedboat arrived at the edge of the island and began unmanned navigation at full throttle.

The Bai family's numerous large yachts and other vessels quickly noticed this speedboat.

Immediately, the Bai family people, without any suspicion, headed at full throttle to intercept it.

During this process, Liu Chuanxiong and others quietly boarded the Victoria cruise ship.

This giant luxury cruise ship was indeed enormous.

Although Su Fan and Han Xinying were on the cruise ship, they hadn't discovered that Liu Chuanxiong and others had already brought Bai Jiajia onboard.

Upon arriving on the giant cruise ship, Liu Chuanxiong brought Bai Jiajia to the top deck.

Then, he threw Bai Jiajia onto the sofa.

Bai Jiajia was trembling with fear, her mouth covered, unable to call for help.

Moreover, this was a closed cabin with excellent soundproofing, making any cries for help futile.

Chapter 812

Liu Chuanxiong walked up to Bai Jiajia and casually removed the towel from her mouth.

He had initially planned to take advantage of Bai Jiajia, but as soon as he entertained that thought, blood once again trickled from the corner of his mouth.

This is the terrifying aspect of a Tai Chi master; once injured by one, it results in serious internal wounds.

Su Fan's double-handed strike earlier had disrupted Liu Chuanxiong's True Qi.

His internal organs had suffered significant damage.

He had hoped to spend a wonderful night with Bai Jiajia.

But now, it was impossible. He needed to focus seriously on healing, or he'd risk future complications from hidden injuries.

Bai Jiajia, although still somewhat frightened, tensely asked, "Who are you people? What do you want to do to me?"

Liu Chuanxiong, casually sitting down not far from her to heal himself, replied offhandedly:

"I'm Liu Chuanxiong; you should have heard of me."

Upon hearing the name Liu Chuanxiong, Bai Jiajia's heart sank into despair.

She indeed had heard of Liu Chuanxiong; he's a guy known for kidnapping and extorting ransom.

Liu Chuanxiong has a good reputation in that, as long as the ransom is paid, the kidnapped individuals are typically returned.

However, if he kidnaps a beautiful woman, he always uses her before returning her.

Even so, many people have no choice but to ransom their loved ones. They can't really let Liu Chuanxiong kill them.

Aboard the Victoria Cruise, Bai Jiawen was also present.

Su Fan and Han Xinying had boarded the cruise not long ago, and he and Bai Dongshan had arrived on the ship as well.

He was, of course, very concerned about his sister.

Furthermore, his relationship with Bai Jiajia was more complicated.

Bai Jiawen's injuries hadn't fully healed yet.

He had received the necessary treatment, and is himself a Martial Artist.

Staying on the cruise now posed no real problem.

However, like Su Fan, he had no idea Liu Chuanxiong and his team had already boarded the cruise.

Bai Jiawen sighed and said, "It seems Su Fan was wrong; those kidnappers don't have the guts to get close to the cruise."

"Without unexpected circumstances, those kidnappers would definitely be hiding on some nearby island."

"Tomorrow morning, the Victoria will leave this sea area; by then, we'll disembark and head back."

Bai Dongshan nodded at his words, "I also thought the possibility of the kidnappers escaping using the Victoria was very small."

"Nonetheless, it's possible, and being cautious doesn't hurt."

"Since the kidnappers aren't on the Victoria, tomorrow morning I'll round up Su, the Divine Doctor, and the others, and we'll leave together."

Bai Jiawen had no objection this time; he had now realized Su Fan's hidden true identity.

Clearly, Su Fan's identity as a traditional Chinese doctor was just a cover.

He's actually a martial arts expert whom Han Shiguang had recruited from somewhere.

For unknown reasons, he's using a doctor's identity as cover.

Bai Jiawen was unaware that Su Fan really was a Divine Doctor.

If he had the time to thoroughly investigate Su Fan's background, he'd discover some of Su Fan's activities in Yang City.

This night, the Bai family members were all extremely restless.

Bai Chunlin and others caught up with the unmanned cruising speedboat.

But catching up to the speedboat was of no use.

The speedboat was just a decoy used by Liu Chuanxiong and his men.

The night sea breeze was very cold.

Bai Jiawen stood on the deck and lit a cigarette.

He felt troubled, those scoundrels might do something to Bai Jiajia.

Liu Chuanxiong's reputation was terrible; with Bai Jiajia in his hands, she might even be subjected to gang violence.

While he harbored such worries, he suddenly noticed someone else smoking on the nearby deck.

It was a stranger, but for some reason, Bai Jiawen felt that the person looked somewhat familiar.

Chapter 813

Bai Jiawen stared at the person opposite him, who seemed to have also noticed him in the deck's light, smiled at him, and then continued smoking.

Bai Jiawen couldn't remember why the person looked familiar and didn't pay it much mind.

After finishing his cigarette, he returned to his cabin.

But the moment he opened the cabin door, Bai Jiawen suddenly felt a jolt and immediately said to Bai Dongshan and the others in the cabin:

"Those kidnappers are on the boat! Inform Uncle Chunlin, quickly!"

Bai Dongshan didn't understand why Bai Jiawen said that, but he followed the order, letting someone use the satellite phone to contact Bai Chunlin and the others.

At the same time, he looked at Bai Jiawen and asked, "Second Young Master, how do you know the kidnappers are on the cruise ship?"

Bai Jiawen immediately said, "I was just smoking on the deck and saw a man. He's definitely one of the kidnappers!"

"Previously, they were wearing human skin masks for disguise, but they can't change their body shapes!"

After Bai Jiawen finished speaking, Bai Dongshan started to believe him somewhat.

He quickly said, "Second Young Master, Doctor Su is also on the cruise. I'll notify Doctor Su now."

Upon hearing this, Bai Jiawen nodded, "Good, go quickly! Also, have someone keep an eye on the surroundings of the cruise ship, don't let the kidnappers escape!"

Bai Dongshan quickly followed his instructions and made arrangements.

The Bai family's martial artists were stationed all around the cruise ship.

Bai Dongshan himself went to find Han Xinying and Su Fan.

Bai Dongshan had just knocked on Su Fan's cabin door when his radio received a message from one of the Bai family's martial artists.

"Manager Dongshan, the kidnappers have escaped!"

"They took two speedboats, heading northeast!"

Su Fan didn't need Bai Dongshan to explain what happened; she already knew something was wrong.

Su Fan immediately said, "Hurry, pursue them."

Of course, Bai Dongshan didn't hesitate; he directly took Su Fan to find a speedboat.

This time, Su Fan brought Han Xinying along with him.

He wasn't comfortable leaving Han Xinying alone on the cruise.

The Bai family's martial artists quickly prepared two speedboats, and Su Fan's group boarded the boats, beginning their pursuit of the kidnappers in the night.

The Victoria, which was originally sailing, was also halted through the Bai family's connections.

Numerous types of Bai family boats were rapidly approaching the Victoria, and even helicopters were closing in.

It was unclear whether these helicopters were rescue team helicopters or armed helicopters from relevant departments.

Su Fan, Bai Dongshan, and others were speeding across the sea.

In front of them, two speedboats were fleeing at high speed.

The middle-aged man Bai Jiawen had seen earlier was none other than Liu Chuanxiong's advisor, Li Sheng.

Li Sheng never expected that going up to the deck for a cigarette would lead him to encounter Bai Jiawen.

He was even more surprised that when he had kidnapped Bai Jiajia, Bai Jiawen had only seen his back or at most his profile.

Yet even under these circumstances, Bai Jiawen was able to recognize him.

His clothes had long been changed, and even his disguise mask had been swapped.

But there was no choice; since they had been recognized, they could only flee.

This area was still within the Bai family's sphere of influence.

If needed, the Bai family could even seek help from relevant departments.

Deploying armed ships and helicopters against them.

This time, Li Sheng's decision was very wise.

They escaped at the first moment, making the Bai family chase in vain.

They didn't have to worry about Su Fan and the others chasing them.

Because the other speedboats on the cruise had been tampered with by them.

Bai Dongshan, steering the speedboat, had been chasing for a while when he suddenly started to panic.

"Mr. Su, something's wrong. This speedboat is out of control."

"We can't stop it, nor can we steer it."

Chapter 814

Su Fan frowned slightly when he heard this, "What's the reason for this?"

Bai Dongshan shook his head, "I don't know, it's most likely the kidnappers' doing."

"It seems the second young master's boat is also out of control."

Not far from them, Bai Jiawen's boat had indeed lost control.

If it were just that, it wouldn't be much of an issue.

Shortly after Bai Jiawen's boat went out of control, Liu Chuanxiong and his men arrogantly circled around and approached.

Then, Bai Jiawen on the speedboat was captured by Liu Chuanxiong and thrown onto their other boat.

This wasn't the end. This time, Liu Chuanxiong seemed to be targeting Su Fan.

His speedboat soon started approaching the one Su Fan was on.

Su Fan's speedboat had malfunctioned and completely lost control, so they could only watch as Liu Chuanxiong approached.

Su Fan didn't wait for Liu Chuanxiong to charge at him. When Liu Chuanxiong's speedboat got close enough, he leapt over and landed on Liu Chuanxiong's speedboat.

The two immediately started fighting again on the spot.

Liu Chuanxiong's strength was quite formidable.

The small space on the speedboat made it hard for Su Fan to fully exert his skills.

What worried him even more was that Liu Chuanxiong's other speedboat was now approaching Bai Dongshan and Han Xinying.

Since Su Fan started practicing martial arts, it was the first time he encountered such a powerless situation.

Liu Chuanxiong's strength wasn't overwhelmingly strong, but for the moment, Su Fan couldn't defeat him.

The key issue was the limited space on the speedboat, restricting Su Fan's moves.

Moreover, Han Xinying was in trouble as well.

At first, only Bai Jiajia was captured by Liu Chuanxiong, but this time when they tried to rescue her, they ended up losing Bai Jiawen and Han Xinying as well.

After a few rounds of fighting, Su Fan fainted with a punch, and then immediately leapt over to Han Xinying's speedboat.

As he jumped over, Liu Chuanxiong followed suit and leapt over too.

The speedboat Liu Chuanxiong was on quickly closed in on them.

Wang Bing took the opportunity to transfer Bai Jiawen to another speedboat.

Li Sheng then tried to transfer Han Xinying and Bai Jiajia as well.

Then, Liu Chuanxiong would hold Su Fan off while they drove the other speedboat away quickly.

Of course, Su Fan wouldn't let them succeed so easily.

He suddenly kicked Li Sheng's arm fiercely.

Li Sheng, who was reaching out to grab Bai Jiajia, had his arm kicked off by Su Fan!

"Ah—"

Li Sheng let out a scream as if being slaughtered.

Even though he was a Qi Burst stage expert, he was no match for Su Fan, a Qi Condensation stage expert.

After Su Fan kicked off his arm, Liu Chuanxiong had no choice but to grab Li Sheng and jump to another speedboat.

Although Su Fan didn't have a good impression of Bai Jiawen, he couldn't just abandon him now.

But what he didn't expect was that after Liu Chuanxiong got back on his original speedboat, he took out a rocket launcher!

Seeing this, Su Fan was shocked!

He didn't dare hesitate for a moment; grabbing Bai Jiajia with one hand and Han Xinying with the other, he jumped into the sea.

"Boom—"

Just as Su Fan, Bai Jiajia, and Han Xinying hit the water, a rocket exploded on the speedboat they had just been on.

This time, it was Bai Dongshan, who hadn't escaped in time, letting out a scream.

Half of his body was blown to a bloody pulp, and he could only lie on the speedboat, screaming continuously.

Su Fan didn't dare to surface; under the cover of darkness, he quickly swam away with Bai Jiajia and Han Xinying.

His crippling of Li Sheng seemed to have completely infuriated Liu Chuanxiong and his men.

Chapter 815

At this moment, Liu Chuanxiong was holding a rocket launcher and fired several rockets towards the sea.

Wang Bing also drew out an AK47, continuously sweeping it over the sea, seemingly wanting to gun down Su Fan, Bai Jiajia, and Han Xinying in a flurry of bullets.

The other few people then took out other rocket launchers, firing several rockets at the speedboat that Su Fan and the others had just taken.

Su Fan was a skilled swimmer, and as a master of the True Qi realm, he was at ease even in the water.

Bai Jiajia and Han Xinying were not as proficient as him; both could swim, but at this moment they were barely holding on.

They both had the urge to surface for air, but Su Fan gripped them tightly, preventing them from surfacing.

It wasn't that Su Fan wouldn't let them breathe; it was that if they surfaced now, there was a high chance they would be shot in the head!

Luckily, Liu Chuanxiong and the others seemed to have limited ammunition, and they also feared the Bai family's rescue team.

After firing wildly at the sea for a while, they quickly moved away from the area.

Su Fan then swam towards the nearest island with Han Xinying and Bai Jiajia.

He didn't know what this island was, but once they were ashore, they would mostly be out of immediate danger.

As for Bai Dongshan, Su Fan had no idea where he and the speedboat had drifted to.

Su Fan wasn't even sure if he was still alive.

"Splash!"

After a long trail of splashes, Su Fan finally brought the nearly unconscious Bai Jiajia and Han Xinying to this deserted island.

They had no satellite phone, no fresh water, and no food.

Although they were safe for now, their situation would still be quite perilous if they couldn't get rescued soon.

In Robinson Crusoe, a regular man like Robinson was able to survive on a deserted island.

As a master of the True Qi realm, Su Fan should have no reason to fail in surviving on this island.

If it were in the mountains, Su Fan really wouldn't be worried.

But here they were on a deserted island, and if there were no natural sources of fresh water, he didn't even know how to obtain fresh water.

To make matters worse, Han Xinying had a fever. This young lady had been sick, and after being soaked in seawater, she came down with a fever.

At that moment, Su Fan, supporting the two young ladies, started looking for a suitable place to stay for the night on the deserted island.

Their luck was very bad.

Soon after they arrived on the island, it started raining.

If they couldn't find shelter to avoid the rain, the three of them would get drenched.

Su Fan didn't really care, but Han Xinying and Bai Jiajia couldn't take it.

Luckily, their luck wasn't all that bad.

After wandering a bit on the island, Su Fan found a cave with Han Xinying and Bai Jiajia.

But now the visibility was poor, and they had no idea what was inside the cave.

Su Fan could only release his True Qi to carefully scan the walls around them.

If there were any wild animals or poisonous creatures in the cave, it would be troublesome to take Han Xinying and Bai Jiajia inside.

After a moment of scouting, Su Fan was delighted: "Let's go inside to avoid the rain; there's nothing in there."

Reaching the cave entrance, the three finally had a place to rest.

Bai Jiajia fumbled on herself and then took out a Zippo lighter, handing it to Su Fan: "It should still work. Can you light a fire? I'm feeling really cold."

She could still speak, but Han Xinying had been too cold to say a word for a long time.

Su Fan took the Zippo lighter, flicked some water off it, and tried to light it.

"Click!"

Although a small flame sparked, the lighter didn't catch.

This time, he didn't shake off the water but used True Qi to evaporate the moisture from the lighter.

Chapter 816

If the lighter doesn't work, Su Fan will have to resort to making fire by rubbing sticks.

After the rain, there probably won't be any dry wood on the deserted island, making it incredibly difficult to start a fire by friction.

The moisture on the lighter evaporated quickly. Su Fan tried again, and the lighter could finally be used.

He immediately said to Bai Jiajia and Han Xinying, "Wait here for me. I'll go gather some firewood and come back to light a fire."

Su Fan's figure swiftly moved through the rain.

Bai Jiajia and Han Xinying were touched by what they saw.

After a while of traversing in the rain, Su Fan came back with a sizable amount of firewood, although he was drenched.

Upon returning, Su Fan started to make a fire.

With the lighter, it was easy to light a fire. Soon, Su Fan had started a bonfire.

The entrance to the pitch-dark cave was illuminated.

The cave was quite spacious and had ventilation on both sides.

This meant they could rest in the middle of the cave where the air flowed freely.

Soon, Su Fan led Han Xinying and Bai Jiajia into the cave and built another fire.

The three of them sat around the fire.

While sitting by the fire, Su Fan used his True Qi to help Han Xinying heal and dry her clothes.

Bai Jiajia, feeling a bit troubled, said, "We should be safe for now."

"But we don't know how my brother and Uncle Dongshan are doing."

"And I don't recognize this place at all."

"We don't have a satellite phone with us. Who knows how long it will take for my family to find us."

"We won't be stranded on this deserted island forever, will we?"

After Bai Jiajia finished speaking, Han Xinying nervously looked at Su Fan.

On this deserted island, she and Bai Jiajia were practically helpless.

Su Fan shook his head, "We won't be stranded. I can catch fish for you to eat."

"It's raining now, so we can collect some fresh water."

"Later, I'll check if there's any other freshwater on this island."

Then, he asked Bai Jiajia and Han Xinying, "Do you know how to turn seawater into freshwater?"

He hadn't researched this skill before and never thought he would need it.

Bai Jiajia and Han Xinying thought for a moment and said, "Through distillation."

Bai Jiajia added, "But we only know the theory, we've never done it."

Su Fan was unconcerned, "Knowing the theory is enough. I'll handle the rest."

It was clear the two ladies were not proficient with hands-on tasks.

After letting them sit by the fire, Su Fan left the cave to find something to collect freshwater.

Finding suitable containers for collecting freshwater on a deserted island wasn't easy.

Especially at night, when visibility was low.

But after walking on the island for a while, Su Fan saw the wreckage of a speedboat floating on the sea.

The speedboat was severely damaged, almost sunk by several rockets.

There were traces of Bai Dongshan's blood, but Bai Dongshan was not on the speedboat.

It was unknown whether he had been rescued or had perished in the vast sea.

Su Fan went into the water and dragged the speedboat onto the island.

The speedboat had a survival kit but no satellite phone.

Apart from the survival kit, there was nothing else.

Su Fan placed the wreckage of the speedboat in a conspicuous place.

If the Bai family's rescue team came by, they might notice it.

As he was dragging the wreckage onto the island, he saw a second survival kit floating on the sea.

These survival kits contained food and some survival tools, and even though they might not be useful, Su Fan decided to retrieve it.

Chapter 817

It's best if these things are not needed, but if it comes to needing them and they aren't available, that would be real trouble.

Su Fan hoped that the Bai family's rescue team would see the very noticeable wreckage of the speedboat.

If that's the case, they might be rescued tomorrow.

When he returned to the cave again, Han Xinying and Bai Jiajia were already close to fainting from hunger.

Fortunately, he came in carrying two lifeboat kits, which contained water and energy bars.

The three of them could eat these food items sparingly for a week without an issue.

But hopefully, the Bai family's rescue team will arrive here later or sometime tomorrow to rescue the three of them.

Su Fan took out energy bars and handed them to Bai Jiajia and Han Xinying.

Then he also took out sleeping bags from the lifeboat kits for Han Xinying and Bai Jiajia to rest.

The Bai family's rescue team has worked very hard.

But they still couldn't find the three of them; instead, they found Bai Dongshan.

Bai Dongshan was sent to Tianhai's hospital for treatment. His left hand and left leg couldn't be saved.

His left hand was even directly blown to pieces by a rocket.

Aside from him, the Bai family's rescue team did not find the three of them or Bai Jiawen.

The Bai family executives are very angry about this matter; some have even suggested offering a ten million US Dollar bounty on the dark web for killers to go after Liu Chuanxiong!

But since Bai Jiawen is still in Liu Chuanxiong's grasp, the Bai family executives dared not act rashly.

They still couldn't confirm if it was only Bai Jiawen held by Liu Chuanxiong.

After all, Su Fan, Bai Jiajia, and Han Xinying are still missing now.

According to Bai Dongshan, Su Fan jumped into the water with Bai Jiajia and Han Xinying, while Bai Dongshan was hit by a rocket and fell into the water too.

But he was wearing a life jacket, so he didn't sink.

Based on this account, the three of them should still be alive.

Su Fan, after all, is a Martial Artist at the True Qi level; even if he fell into the water, he wouldn't die so easily.

The problem was that Bai Dongshan drifted a long distance in the sea, and he couldn't tell exactly where he fell into the water.

The Bai family's rescue team searched extensively from where they rescued Bai Dongshan and the surrounding waters but still couldn't find the three of them.

A night passed quickly.

As expected, the Bai family received a ransom call from Liu Chuanxiong.

Similarly, Su Fan was not surprised that he hadn't seen any rescue arrive.

He meditated in the cave all night and felt fairly rested.

Bai Jiajia and Han Xinying slept in the sleeping bags but woke up feeling sore all over.

After being nourished by Su Fan's True Qi, Han Xinying's fever had subsided.

When she woke up, Su Fan started using silver needles he carried to continue treating her.

Meeting Liu Chuanxiong marked bad luck for Han Xinying.

Luckily, Su Fan's medical skills are superb; otherwise, even if Han Xinying didn't fall into Liu Chuanxiong's hands, she would have been doomed.

While Su Fan was treating Han Xinying, Bai Jiajia wandered near the speedboat wreckage.

Like Su Fan, she was eager to wait for the Bai family's rescue team.

But unfortunately, the Bai family's rescue team didn't appear in this sea area, and they might not come at all.

Bai Jiajia returned to the cave after staying near the speedboat wreckage for a while.

Despite it being broad daylight, she was still very scared to be alone on the deserted island.

Su Fan had already used acupuncture to treat Han Xinying and nourished her further with True Qi and his own energy.

Seeing Bai Jiajia come back, Su Fan casually asked, "Did you find anything outside?"

"Is there any way to contact the Bai family's rescue team?"

Bai Jiajia shook her head upon hearing this, "No way, I don't recognize anything about this deserted island; my family might not find this place anytime soon."

"Moreover, I haven't found any fresh water on the island; we're doomed!"

Su Fan felt helplessly amused, "You just wandered around the cave area; of course, you wouldn't find any fresh water."

"You two stay in the cave for now; I'll go out and search."

Su Fan wasn't worried yet; when he found the lifeboat kits last night, he used an inflatable water tank to collect a lot of rainwater.

All this rainwater is fresh water; after boiling it and letting it cool, they'll have clean drinking water."

Chapter 818

Upon the reef, beside the wreck of the speedboat, Su Fan was waiting anxiously for the rescue team.

With his skills, if he were with Han Xinying and Bai Jiajia, two beautiful women, stranded in some remote mountains and forests,

the three of them wouldn't need to worry about anything. They could live very comfortably in the wild.

On a deserted island, however, it's different, especially on one that's neither too big nor too small.

This island, as Bai Jiajia predicted, indeed had no fresh water resources.

To obtain fresh water, they had to rely on rain or boil seawater and then condense and distill it.

They barely managed to find a solution for water, but food was still a challenge.

This small island only had a few small herbivorous animals, and in very limited numbers.

In addition, there were some coconut trees and a plant that Su Fan had only heard about before—the bottle tree, also known as the breadfruit tree.

The fruits of the breadfruit tree can be used as food.

But it's different from real bread; the taste wasn't good, not as good as potatoes.

One could say that if there was really no food, they could collect the fruit of the bottle tree to fill their stomachs.

But he still hoped that Bai's rescue team would be competent enough to get them back as soon as possible.

If that wasn't possible, even a passing ship would do.

Of course, he was also prepared for the worst, which was to build a raft and sail across the sea!

It's a desperate measure; crossing the sea on a raft is highly unreliable.

Though a master at the Qi Condensation Realm was powerful, he was no god who could fly or walk on water.

That day, Su Fan stood near the speedboat wreck, watching, hoping to spot a passing ship.

Unfortunately, it seemed this place was not on a popular route.

He waited the whole day near the speedboat wreck but saw no ships.

It was their second day on the deserted island. With water and food supplies abundant and a master healer of the Qi Condensation Realm in their midst,

their health was naturally in excellent condition.

As night fell, Su Fan lit a bonfire beside the speedboat wreck.

In the darkness, the bonfire served as a very prominent signal.

If Bai's rescue team was nearby, they had no reason not to see the bonfire.

In the cave, Su Fan collected materials from the deserted island and, with some simple processing, made beds for Han Xinying and Bai Jiajia.

Added to the sleeping bags they already had, and with a bonfire burning, they slept very comfortably.

They didn't have to worry about safety since they had Su Fan, a master at the Qi Condensation Realm, with them. They felt extremely secure!

The two ladies didn't seem to be surviving on a deserted island but rather enjoying a vacation.

This cave had two large entrances and many smaller ones.

The advantage was excellent ventilation, but the downside was poor heat retention.

However, sleeping in sleeping bags and with the bonfire for warmth, they didn't feel cold.

At that moment, Su Fan was sitting cross-legged at one of the cave entrances, gazing out at the endless sea.

He thought that from now on, he should always have a satellite phone with him.

If he had a satellite phone, would he need to gaze longingly at the ocean now?

Beside Su Fan, there was also a bonfire burning.

As a master at the Qi Condensation Realm, with marrow like mercury and blood and energy like a rainbow, his body was like a furnace, and he didn't feel cold.

The purpose of lighting the bonfire was still to increase the chances of being spotted by passing ships.

While they could survive safely on the island for a long time, the conditions were too harsh.

Not to mention, they didn't even have a proper bed.

If he wanted to sleep, he had to either sleep on the ground or use a sleeping bag.

While Su Fan was pondering when a ship might pass, Bai Jiajia walked over to him.

Seeing Bai Jiajia, Su Fan couldn't help but ask, "Why aren't you sleeping?"

Chapter 819

Bai Jiajia directly sat beside him, leaned against his shoulder, and then said: "I've had enough sleep."

Su Fan nodded without continuing the topic of sleep.

Today during the day, Bai Jiajia had a good sleep too, so it's normal that she's wide awake now.

Leaning on Su Fan's shoulder, Bai Jiajia giggled and said: "Such a great opportunity, don't you want it?"

She was different from Su Fan. Su Fan didn't want to stay on the deserted island for too long, while Bai Jiajia took things as they came.

Of course, it might be that she was a slut by nature.

Now that things had settled down a bit, she couldn't help but come to Su Fan.

Su Fan didn't hold back with Bai Jiajia either, he directly pulled Bai Jiajia onto his lap, and they sat face to face.

Unlike Bai Jiajia, Han Xinying had a good sleep, sleeping deeply and soundly.

During the day, most of the time, Miss Han followed Su Fan closely, exploring the island together with him.

At this moment, Han Xinying would be unlikely to wake up.

After pulling Bai Jiajia onto his lap, Su Fan's rough hand reached into Bai Jiajia's clothes.

Soon enough, a soft mound was in his grasp.

Thinking about the day Bai Jiajia was ravaged by Bai Jiawen, Su Fan felt a surge of lust, and couldn't help but squeeze the mound hard.

"Ah!" The forceful squeeze made Bai Jiajia cry out in pain, hurriedly raising her hand to cover her mouth.

Su Fan's strength was really too much, Bai Jiajia felt like he wanted to crush her little melon.

After Bai Jiajia cried out in pain, Su Fan gradually relaxed his grip, then began to knead and roll the soft little melon.

In the process, he casually asked Bai Jiajia: "How long do you think the Bai family's rescue team will take to find this place?"

Bai Jiajia admired Su Fan greatly.

Other men would wish to devour her whole at a moment like this, but Su Fan could still talk about serious matters.

Moreover, while chatting about serious matters, Su Fan's other hand grabbed the other soft little melon, attacking from both sides.

Bai Jiajia was panting heavily from Su Fan's kneading, making it difficult for her to speak.

After catching her breath, she said: "I think it might take around a week to find this place, maybe even longer."

"Isn't there plenty to eat on this island? And we have fresh water sorted out."

"We're in this place... Ouch..."

Bai Jiajia couldn't continue speaking, instead, she raised her hand and hit Su Fan's shoulder: "Can you be gentler!"

"If you keep this up, I won't dare to let you touch me!"

Su Fan laughed and said: "Weren't you pretty intense with Bai Jiawen in the adjoining rest room before?"

Bai Jiajia rolled her eyes and said: "So what? Are you jealous? Do you want to fuck me like he did?"

Su Fan nodded: "What if I do?"

Bai Jiajia, completely unafraid, casually said: "Then go ahead, let's see who's better, you or him."

Su Fan didn't immediately start; he instead asked: "Why is your character like this?"

Bai Jiajia didn't expect Su Fan to ask this question.

After thinking seriously, she said: "I don't have a boyfriend anyway, there's nothing wrong with me being like this."

"Besides, sleeping with men, I'm not asking for any benefits from them, and I'm freely letting them fuck me, I'm practically a goddess."

"As for why my character is like this, after I experienced it for the first time, I really liked that feeling."

"Even before my first time, I really wanted to try."

"Then I was half-pushed and half-pulled by that old man."

"Since then, whenever I get the chance, I look for men."

"I'm different from other women; I don't only like a specific type of man."

"For me, as long as the man is strong, it's fine; I enjoy spending the night with different men."

Chapter 820

After saying a lot, Bai Jiajia paused for a moment, then continued speaking.

"Maybe I was born to be a little bitch that a thousand men should ride, and ten thousand should fuck."

Su Fan didn't know why, but when Bai Jiajia was pouring out her heart to him, he instead wanted to slap Bai Jiajia twice.

Although many men like to persuade women to turn over a new leaf afterwards, this matter has always been criticized by women who have fallen into prostitution.

But this time, Su Fan really wanted Bai Jiajia to make some changes.

He thought for a moment and said to Bai Jiajia, "From now on, you can only sleep with me."

Bai Jiajia heard this and covered her mouth with a charming laugh, "Why? My goal is to sleep with at least a hundred men."

Su Fan extended a hand, grasped Bai Jiajia's throat, and threatened, "If you don't agree, I'll take your life right now."

His words were terrifying, but there was no force in his hand, clearly lacking in deterrence.

What Su Fan didn't expect was that Bai Jiajia could still catch his words.

Not only was Bai Jiajia unafraid, she even took the initiative to kiss him lightly and whispered, "If I could be fucked to death, it would be worth dying."

Su Fan couldn't respond to her words.

Although he couldn't respond verbally, he could respond with actions.

Tonight, he didn't plan to let Bai Jiajia rest; he was going to thoroughly use this slut all night long.

So much so that Bai Jiajia wouldn't be able to walk properly for several days.

Even though Bai Jiajia had fought with many famous businessmen in Tianhai, those men, in their youth, were promiscuous.

No matter how well they maintained themselves, because they weren't martial artists, their kidneys had long given out.

Only Su Fan, young and strong, and a martial artist in the Nourishing Qi stage, could fuck Bai Jiajia to her death and bring her back to life.

Bai Jiajia had thought that, even if Su Fan was more powerful than Bai Jiawen, he wouldn't be much more so.

But when Su Fan mounted her, she knew she was wrong, terribly wrong.

First, she was violently pried open, then violently invaded, and filled.

The exceptionally hard, exceptionally full, euphoric feeling brought her the pain of immense tearing while also taking her to the brink of ecstasy.

If it weren't for worrying about waking up Han Xinying who was sleeping not far away, she would have screamed in pleasure.

She was certain that, with Su Fan's endowment, if he wanted to, he could indeed kill her.

But just as she said before, if she were to perish in that process, it would be worth it.

Of course, Su Fan had no intention to be so cruel. Although Bai Jiajia was not an extreme yin physique.

From the moment he entered Bai Jiajia, he had regarded her as his woman, and he already had the idea of fucking Bai Jiajia for a lifetime.

Of course, Su Fan still wanted to develop Han Xinying more.

Han Xinying was the fourth extreme yin physique he encountered, and after merging yin and yang with her, his strength could at least rise to the later stage of the Condensing Qi realm, or possibly reach the peak of the Condensing Qi realm's Great Perfection.

However, things with Han Xinying couldn't be rushed. Their current progress was already quite good.

While Bai Jiajia was being thoroughly used by Su Fan, Bai Jiawen was suffering a brutal beating.

Liu Chuanxiong demanded a ransom of five billion US dollars from the Bai family of Tianhai, but they were only willing to give two billion US dollars.

The direct descendants of the Bai family of Tianhai were not just one branch.

Even in Bai Jiawen's branch, there was still Bai Jiawu and Bai Jiajia.

Unless it was absolutely necessary, the Bai family really didn't want to use five billion US dollars to redeem Bai Jiawen.

They didn't even want to pay two billion US dollars to redeem Bai Jiawen.

The experts of the Bai family in the Condensing Qi realm of Tianhai now just wanted to twist off Liu Chuanxiong's head!

However, since Bai Jiawen was in Liu Chuanxiong's hands, both parties could only continue to negotiate.
