

Temptation 841

Chapter 841

Li Ruo anxiously asked, "Xiao Fan, don't be impulsive. At worst, we can just give up on the Han family's business."

Su Fan shook his head, "Mr. Han has done me a great favor; I still have to give it a try."

"Moreover, the intelligence on the dark web is not necessarily true."

"Even if it is true, I can try to outsmart them."

"Now, Zheng Chaoxi should still be at Han Shijing's house. I'll sneak over to take a look."

"If there's really no chance, then there's nothing I can do."

Although Su Fan remembered Han Shiguang's kindness to him, he did not have the idea of risking his life for the Han family's business.

After talking with Li Ruo and Han Xinying, he went to his room to prepare.

To avoid being remembered by Zheng Chaoxi and subsequently retaliated against, he and those around him.

Su Fan also made himself a disguise mask and changed into a different set of clothes.

After getting ready, he headed towards Han Shijing's villa.

Catching a taxi near Han Shijing's villa, Su Fan then agilely approached the place.

Even though Han Shijing's villa was large, he still found Zheng Chaoxi after some searching.

To his surprise, he did not find Han Shijing in the villa.

On his way there, Su Fan had also developed a killing intent towards Han Shijing.

Since Liu Chuanxiong could get rid of his bounty problem by dealing with Han Shiguang,

then obviously, he could also deal with Han Shijing and see what Zheng Chaoxi would do.

Someone like Zheng Chaoxi probably wouldn't care much about credibility.

Once Han Shijing was dead, perhaps Zheng Chaoxi would be too lazy to complete whatever task Han Shijing had entrusted to him.

But there was nothing he could do; Su Fan only found Zheng Chaoxi in this villa and not Han Shijing.

Currently, Zheng Chaoxi was still engaged in extremely beastly acts.

Han Xinya was tied to a chair, watching Zhou Xueyan being subjected to Zheng Chaoxi's various abuses.

What Su Fan did not know was that more than five years ago, Han Xinya and her mother had already experienced such a scene once.

Originally, Su Fan had planned to strike Zheng Chaoxi dealing a deadly blow; now he saw it as an excellent opportunity.

He only lamented that he didn't have a very powerful divine weapon in his hand.

Otherwise, in such a situation, he really could suddenly assail and kill Zheng Chaoxi on the spot.

Right now, though he didn't have a handy weapon, he still made a move!

The timing of Su Fan's strike was extremely precise!

At that moment, Zheng Chaoxi was violently assaulting Zhou Xueyan, and it was a full thrust to the end.

When Su Fan suddenly struck, Zheng Chaoxi had just reached the moment of floodgate bursting, volcano erupting.

One can say the timing, location, and people were all in Su Fan's favor!

This time, he also used the Banlan Hammer, fiercely smashing at Zheng Chaoxi's back heart.

Even if Zheng Chaoxi was a master at the latter stage of the Qi Transformation Realm, if Su Fan hit him by surprise, he would die on the spot.

"Bang!"

Su Fan chose the timing so well!

His Banlan Hammer hit exactly on Zheng Chaoxi's back heart.

But Zheng Chaoxi's lower body was extremely steady, and he did not fall.

Only Zhou Xueyan suffered a lot, that blow just now seemed to almost destroy her core.

Though Su Fan succeeded with one strike, his heart sank.

His luck was both good and bad!

He came at the right time and made his move at the perfect moment.

But Zheng Chaoxi's heart was different from normal people's; it was not on the left side but the right!

His Banlan Hammer did not cause severe damage to Zheng Chaoxi.

Not only that, but Zheng Chaoxi was not at the latter stage of the Qi Transformation Realm, but at the peak of the Great Perfection stage, half a step into the Gang Qi Realm!

Su Fan did not even have time to escape; Zheng Chaoxi kicked him in the abdomen, sending him flying out the window and landing on the lawn of the first floor.

Su Fan dared not stay; he quickly got up and fled from Han Shijing's villa with a few leaps.

His current strength was only at the early Great Perfection stage of the Qi Transformation Realm, completely no match for Zheng Chaoxi, who had half a foot into the Gang Qi Realm.

He had no choice but to escape immediately and to make Li Ruo give up on the Han family's business entirely.

Facing a master like Zheng Chaoxi, they were now too weak.

Chapter 842

Zheng Chaoxi is indeed very powerful, but Su Fan is also a master.

Although he had kicked Su Fan, by the time he reached the window, Su Fan had already vanished without a trace.

Su Fan escaped from Han Shijing's villa and immediately took a taxi to Han Shiguang's villa.

The helpers Han Shijing found were too formidable; he was not their match for the time being. He could only advise Li Ruo and Han Xinying to give up on the family business that Han Shiguang had built.

After returning to Han Shiguang's villa, Su Fan went straight to Han Xinying's room.

He immediately asked, "Xinying, where's your mother?"

Han Xinying replied, "My mother went out to handle some matters. Divine Doctor Su, why are you back so soon? How are things?"

Su Fan wanted to speak, but as soon as he opened his mouth, a burst of blood spurted out.

His injury was not severe; it was just that his sneak attack had failed, and Zheng Chaoxi's kick had reversed his True Qi flow, injuring his internal organs.

With his recovery abilities, he'd be back to normal soon.

But Han Xinying knew none of this. Seeing Su Fan vomit blood, she was terribly worried.

The young girl hurriedly got off the bed and ran to Su Fan's side in a few steps, asking anxiously, "Divine Doctor Su, are you alright? Are you injured?"

Su Fan waved his hand, "It's nothing serious, just some minor internal damage from the reversed Qi flow."

Then he continued, "But I can't protect the family business that Mr. Han built up for you anymore."

"That Zheng Chaoxi is a top expert at the peak of the Qi Transformation stage."

"Right now, I am significantly outmatched by him."

"Earlier, I seized a perfect opportunity to launch a sneak attack, but still wasn't his match."

"Pack up your things. When your mother returns, I will take the both of you to Xingzhou."

Facing an expert like Zheng Chaoxi, Su Fan had no other choice but to temporarily evade.

As for the family business that Han Shiguang built, it would have to be recovered later.

Upon hearing this, Han Xinying obediently nodded.

But she remained very concerned about Su Fan, "Divine Doctor Su, are you sure you're really alright?"

Su Fan nodded, "Don't worry, I'm truly fine."

"After spitting that mouthful of blood, I'm almost fully recovered."

He wasn't lying; his physique was extremely unique, and he possessed a heritage blood.

Such injuries, for him, were not even considered injuries.

The only unfortunate thing was that this opponent was too formidable for him to help Han Xinying and her mother.

However, he did have a way.

Thinking of this, Su Fan decided to talk to Han Xinying.

First, he closed the door, then sat down opposite Han Xinying, and said,

"Xinying, my physique is somewhat special."

Han Xinying sat opposite Su Fan, listening attentively.

"Somewhat special? How is it special?"

Han Xinying's curiosity was always piqued.

Even in this situation, she was still very curious.

After she asked, Su Fan didn't hide anything and explained everything in detail:

"My grandfather said that I have a very potent fire poison in my body."

"If this fire poison isn't fully resolved within a certain period, I will bleed to death from my seven orifices."

"But this fire poison isn't entirely harmful."

"If I can harmonize with a woman who has a Pure Yin physique, the water and fire will balance each other out."

"In that scenario, the fire poison won't be fatal and can actually enhance my strength."

"Xinying, you actually have a Pure Yin physique."

"If I harmonize with you, my strength would be boosted to the late stage of Great Perfection in the Qi Transformation stage, perhaps even to the peak of Great Perfection."

"At that point, Zheng Chaoxi would definitely be no match for me, and this crisis could be thoroughly resolved."

"The next time I encounter Liu Chuanxiong, he would have no chance of escaping."

Chapter 843

Su Fan treats Han Xinying like a younger sister.

If it weren't for the drastic change in Han Xinying's family and the current dangerous situation, he wouldn't have made this proposal.

Now, however, he has no choice but to tell Han Xinying.

As for how Han Xinying will choose, he won't interfere. He will fully respect her choice and won't force her.

Otherwise, on the deserted island, he could have done it.

At that time, no one could have stopped him.

What Su Fan didn't expect was, when Han Xinying understood what Su Fan wanted to do to her, she didn't feel nervous or scared, nor did she feel much shy.

Instead, she looked at Su Fan very seriously and asked, "Divine Doctor Su, is this true?"

Su Fan nodded solemnly, "Yes."

Han Xinying had no more questions. She bit her lip and said, "Divine Doctor Su, then go ahead."

After she spoke, she obediently lay down on the bed.

Although Han Xinying is a carefree and innocent young lady, she isn't completely clueless.

She is twenty years old. Though she has never experienced the affairs of men and women, she still understands what Su Fan wants to do to her.

After her father met with an accident, the Han family fell apart.

Only Su Fan was willing to escort her and her mother back to Xingzhou, and even willing to avenge her father.

Not long ago, Su Fan went to Han Shijing's villa and fought with the experts invited by Han Shijing, getting injured in the process.

Su Fan is not a wishy-washy person. He moved beside Han Xinying and asked seriously once more.

"Xinying, you have to think carefully. I won't force you into anything."

"Even if you are unwilling, I will still treat you as a sister and take good care of you."

"Although I am not Zheng Chaoxi's match now, someday when I have the ability, I will still help you reclaim what belongs to you."

Su Fan's words were genuine, without a hint of falsehood.

After hearing this, Han Xinying shook her head, "Divine Doctor Su, being with you actually makes me quite happy."

"Without your treatment, I wouldn't be able to live much longer either."

"On the deserted island, if you hadn't taken care of me, I would definitely have died."

"After my father's accident, my uncle and others wanted to tear apart everything my family had."

"They wanted to turn everything of mine into their possession."

"If I can really help you, Divine Doctor Su, to have the ability to solve all this, then I am willing to do anything."

Han Xinying hadn't mentioned one more thing: she heard Su Fan when he was making Bai Jiajia scream on the deserted island.

After all, Su Fan and Bai Jiajia made such a loud noise.

At that time, Han Xinying wondered if they continued to be trapped on the island, whether Su Fan would do the same to her.

But Su Fan was very strong; he seized an opportunity and led them to successfully escape from the island, even solving a group of pirates along the way.

Upon receiving Han Xinying's confirmation again, Su Fan did not hesitate anymore.

Now is definitely not the time to hesitate; either he takes Han Xinying and Li Ruo away from Tianhai to Xingzhou immediately.

Or he combines with the fourth woman with the extreme Yin body to neutralize the fire toxin in him, thereby boosting his strength immensely.

Since Han Xinying is willing, even if he feels heartache for this adorable young lady whom he considers like a younger sister, he must take that step.

Su Fan has always been decisive, but as he pressed against Han Xinying, looking at her innocent and exquisite face, he didn't know how to proceed.

This made him feel a sense of guilt he had never felt before, as if he should never lay a hand on this pure girl, no matter what.

But after hesitating for a moment, Su Fan still took the crucial step.

Chapter 844

Su Fan kissed Han Xinying's cherry lips, and the utterly inexperienced Han Xinying responded with great curiosity.

Su Fan was savoring the taste of this pure and beautiful girl, while Han Xinying was feeling Su Fan's intense heat.

Before long, Han Xinying's untouched peak of sanctity was held in Su Fan's hand.

Han Xinying's small heart began to pound incessantly at this moment.

Waves of wonderful sensations, like electric currents, coursed through her body.

At this moment, she felt a kind of unprecedented splendid feeling.

In her heart, there was also an original desire, a primal longing to fully merge with Su Fan.

Su Fan was gentle with Han Xinying, but even as Su Fan's gentleness faced the fierce dragon, the petite Han Xinying still bit her silver teeth in pain.

Her sensations became even more marvelous, a mix of one part pain and nine parts of ultimate pleasure.

She felt like she was on a roller coaster, continuously rising.

When that thin membrane symbolizing purity was completely pierced through.

She reached an unprecedented peak for the first time.

At this moment, Han Xinying's delicate body couldn't help but spasm.

Her hands and legs tightly embraced Su Fan.

The fire poison in Su Fan's body was also neutralized at this moment.

With the balance of Yin and Yang, a vast power continuously circulated through his meridians, main channels, and entire body.

With every forceful thrust, with each passing breath, his strength visibly increased rapidly.

From the early stages of the Qi Refining realm, to mid-stage, mid-stage perfection, late stage, late stage perfection.

All the way to the peak of the Qi Refining realm, and then to the Great Perfection stage!

With Han Xinying, the pure girl, enduring so many collisions, Su Fan's strength elevated to be on par with Zheng Chaoxi.

As his strength increased, Su Fan confirmed once again.

The nine strands of fire poison in his body didn't seem to be true fire poison, but something inexplicable and mysterious.

Additionally, with the balance of four strands of fire poison, his body continuously transformed and strengthened.

He could palpably sense his limbs, bones, organs, and meridians constantly growing stronger.

Han Xinying's sensations were also exceedingly clear.

Originally, she felt thoroughly filled, but now she felt like she was going to burst.

Because it was the first time, Su Fan didn't torment Han Xinying to an extreme degree.

Moreover, seeing Han Xinying's pure and pretty face, he couldn't bring himself to be too rough.

He didn't charge at Han Xinying with the fury of a storm.

Otherwise, this innocent lady would have certainly passed out from rounds of ultimate bliss.

Su Fan carried Han Xinying to the bathroom for a bath, then cleaned the battlefield adorned with red plum petals.

Afterward, he took a shower in the bathroom and began consolidating his strength.

Now, his strength was on par with Zheng Chaoxi's.

Zheng Chaoxi was at the peak of the Qi Refining realm, and so was he.

The difference was that Zheng Chaoxi had been at this stage for a long time.

But no matter, from his youth, Su Fan had always been building up gradually before advancing.

His foundation was incredibly solid, and the further he progressed, the more formidable his strength became.

In such circumstances, as long as there wasn't a major level gap between him and other martial artists, they weren't his opponents.

After fully consolidating his strength, Su Fan began to familiarize himself with his power.

This process was very straightforward, and he quickly adapted to the domineering power of the peak Great Perfection of the Qi Refining realm.

Chapter 845

Right now, Su Fan could deliver a wild horse's mane strike to Liu Chuanxiong, which would definitely crush Liu Chuanxiong's internal organs and make his death exceptionally gruesome.

As for Zheng Chaoxi, he was no match for him either.

Han Xinying didn't stay in the bathroom for long this time.

After washing up, she came over and sat beside Su Fan.

After a moment's thought, she leaned her little head on Su Fan's shoulder like a dependent little bird.

Besides Su Fan and Han Xinying, no one knew that this famous lady from Tianhai had already been taken by Su Fan.

After their first time, they enjoyed the pleasures of sex repeatedly, second time, third time, fourth time.

As time passed, the Han family's clan meeting arrived as scheduled.

Li Ruo had been busy with affairs and did not know that her precious daughter had taken a significant step forward with Su Fan.

When the Han family's clan meeting convened, not only did Han Shiguang's three younger brothers attend.

Han Shiguang's second uncle, third uncle, and some other cousins also came over at this time.

The Han family wasn't one of the Four Great Families of Tianhai, compared to them, the Han family was just a new upstart.

But the Han family's business empire was also astonishing.

The value of all Han family's domestic and foreign assets added up to nearly a billion dollars.

This was an immense fortune, a kind of wealth that ordinary families wouldn't even dream of achieving even after several generations of development.

Because of this, once Han Shiguang passed away, these relatives immediately tore off their masks of hypocrisy.

Everyone came here today with only one purpose.

To carve up the huge cake that Han Shiguang had created.

When everyone gathered, not waiting for Han Shiguang's widow Li Ruo to speak, Han Shiguang's second uncle, Han Chengming, opened his mouth.

"It was a great tragedy that Shiguang passed away so young; we are all deeply saddened."

"But a country cannot go a day without a ruler, and a family cannot go a day without a head!"

"Under Shiguang's leadership, the Han family developed rapidly."

"Although the Han family isn't a storied family, we are not far behind the Four Great Families of Tianhai in terms of momentum."

"Now that Shiguang is gone, we need to choose a new leader to take the Han family forward."

"I, Han Chengming, am willing to take the helm of the Han family, leading it bravely forward!"

Han Chengming was clearly not scrupulous; he didn't give anyone else the chance to propose a new Family Head.

As soon as he began speaking, he declared his own wish to be the Family Head.

Regardless of whether others agreed or not, he used his seniority to settle this matter by himself.

Han Chengming was a blunt person with nothing apart from the seniority of being an elder in the Han family.

Ever since the old head of the Han family had passed away, he had the highest seniority.

Now that he spoke, the villa's hall fell into a moment of silence.

But was Han Chengming the only one who wanted to be the Family Head?

After a brief silence, Han Chengta also spoke up.

He was Han Shiguang's third uncle, only ranking just below Han Chengming in terms of seniority.

"Second Brother, and everyone in the Han family."

"The Han family's business, both domestic and international, now exceeds a billion dollars."

"This is an enormous empire, developed in just fifteen years."

"I believe that the one to lead the Han family forward should at least be a businessman with some business acumen."

It was obvious that he was mocking Han Chengming.

Han Chengming was a simple man, and his business ventures were failing disastrously. Moreover, he was not even the one managing them directly.

Chapter 846

Han Chengming might lack brains, but he does have fists.

The porcelain cup in his hand was easily crushed by him, startling many people in the hall.

After this, Han Chengming didn't bother with more words. He stood in the middle of the hall and displayed the terrifying aura of a Martial Artist in the Explosive Qi Realm.

After doing all this, Han Chengming scanned everyone in the hall and asked:

"I will be the Family Head. Anyone who doesn't agree, step forward!"

Saying this, he specifically looked towards where Li Ruo and Su Fan were, as well as where Han Chengta was.

His intention was very clear.

If Li Ruo and Han Chengta don't agree, they should stand up and speak.

Seeing Han Chengming's arrogance, Han Chengta trembled with anger.

"Second brother, when facing commercial competition, will you solve it with fists too?"

"Do you believe that there are many people in this world with harder fists than yours!"

Han Chengming couldn't be bothered to say more. He coldly said, "Don't waste words with me. I only ask one thing: I will be the Family Head; who doesn't agree?"

As soon as his words fell, a laugh echoed through the hall.

The laughter came from none other than Han Shijing, who was well-prepared.

Han Chengming, hearing Han Shijing laugh, coldly asked, "Shijing, what are you laughing at?"

Han Shijing was unconcerned by his threat and said lightly, "I think Third Uncle makes a lot of sense."

"Whoever wants to be the head of the Han family must have basic business acumen."

"If you can't even manage a company worth tens of millions, how can you handle Han family's enterprises worth 10 billion US Dollars domestically and internationally?"

"Second Uncle, with your skills, managing a medium-sized enterprise would be challenging enough. Don't meddle in the Han family's industries."

Being ridiculed by Han Shijing like this, Han Chengming instantly flew into a rage.

"You impudent youth! How dare you speak to your elders like this?"

"Today, I'll teach you some manners!"

As soon as he finished speaking, he moved quickly towards Han Shijing, closing the distance in an instant.

Facing Han Chengming's sudden attack, Han Shijing wasn't flustered at all.

A figure of a skinny elder instantly appeared in front of him.

Han Chengming's quick approach towards Han Shijing ended just as quickly.

Without even realizing what happened, Han Chengming was struck and sent flying by Zheng Chaoxi's palm.

"Poof!"

Spitting out a mouthful of blood, the previously fierce and mighty Han Chengming collapsed on the ground like a sick cat.

With an incredulous expression, he muttered, "Half-step to Gang Qi!"

Being a peak Martial Artist in the Explosive Qi Realm himself, he was able to roughly gauge Zheng Chaoxi's strength.

Frankly, nobody cared much about Han Chengming.

The other people present had their own methods to deal with Han Chengming.

But since Han Shijing had invited a powerful Martial Artist in the Half-Step to Gang Qi Realm for assistance, nobody could do anything.

At this moment, Han Shijing no longer bothered to waste words with the others.

He stated directly, "In terms of business acumen, I'm second only to Big Brother."

"After Big Brother left, who else but me should take the position of Han family's Family Head?"

Han Shijing had never experienced such a moment of glory in his life.

At this moment, while he pointed out directions and gave orders, most people in the villa's hall were angry but dared not speak.

Even Liu Chuanxiong, a Gang Qi Realm expert, was overwhelmed by the 1 billion US Dollar bounty on the dark web.

Everyone in the Han family with a bit of skill and ambition, unless they lost their minds, was clearly vying for control over Han family's domestic and international assets.

The best scenario was to take it all. But if that wasn't possible, they would have to share the cake with others.

The sudden emergence of Han Shijing disrupted all of their plans.

Chapter 847

The elite among the Han family's disciples, this time, invited masters of the Hua Qi realm to help with the fight.

But now it's useless. Faced with Zheng Chaoxi, who is half a step into the Gang Qi realm, the only choice for everyone is to bow their heads.

At this moment, there was still one person who didn't bow his head.

That person was not Li Ruo, but Su Fan, who was standing behind the madam.

Zheng Chaoxi, of course, saw Su Fan too, but he didn't recognize him as the one who ambushed him.

The reason is simple, because Su Fan had disguised himself when he ambushed Zheng Chaoxi.

Moreover, when Zheng Chaoxi turned around, Su Fan had already taken the opportunity to escape through the window.

Zheng Chaoxi didn't even see his back, so naturally, he wouldn't recognize him now.

When everyone in the Han family thought that this huge family would move forward under the leadership of Han Shijing, Su Fan stepped forward.

The members of the Han family, of course, didn't know Su Fan.

But this doesn't matter because they could all understand what Su Fan was about to say.

Under the gaze of the Han family members, Su Fan spoke calmly:

"As far as I know, the Han family's business, originated from Mr. Han Shiguang's father."

"And before Mr. Han passed away, he handed over the Han family's business to Mr. Han Shiguang."

"Under the leadership of Mr. Han Shiguang, the Han family's business expanded more than a hundredfold after fifteen years of development."

"The valuation grew from initially over a billion US Dollars, to now exceeding tens of billion US Dollars."

"Mr. Han Shiguang could achieve this great success primarily for three reasons."

The Han family members did not know Su Fan, but no one stopped him as he stood out to speak.

Moreover, Su Fan was standing behind Li Ruo from the beginning.

Many people believed that Su Fan was likely Han Shiguang's backup plan left for Li Ruo.

This was reasonable; such a shrewd person as Han Shiguang couldn't possibly have left without a backup plan.

At this moment, everyone listened to Su Fan as he continued to speak.

Su Fan had just mentioned the three reasons for Han Shiguang's success.

Now he continued, naturally to elaborate on these three reasons.

"First and foremost, of course, because of Mr. Han Shiguang's outstanding business talent."

"Secondly, during the development process, Mr. Han Shiguang received a large amount of early investment from the Li family in Xingzhou, owing to Madam Li Ruo."

"Lastly, it was the collective hard work and effort of the elites in various positions within the Han family's business."

By this point, Su Fan's meaning was very clear.

And the Han family members also understood who was most suitable to lead the Han family forward after Han Shiguang's unfortunate accident.

The elites in various positions within the Han family had not changed.

And for the Han family to continue receiving support from the Li family in Xingzhou, Li Ruo was needed as a link.

Meanwhile, Li Ruo, being the widow of Han Shiguang,

From a legal standpoint, she and Han Xinying should inherit what Han Shiguang left behind.

This reasoning didn't need Su Fan to explain; everyone already knew.

But today, everyone gathered here clearly wasn't just to talk about reasoning. In fact, they didn't come here to talk about reasoning at all, but to talk about fists.

After Su Fan finished, Han Chengming, who had been beaten to the ground, laughed heartily and spoke.

"Young man, you're too naive."

"Don't you understand by now that no one came here to discuss reasoning today?"

"Whose fist is the biggest, whose reasoning is the greatest."

"My fist is not as hard as this friend's fist, so his reasoning is greater than mine."

Han Chengming sometimes seemed confused, sometimes he seemed to understand very well.

Like at this moment, he understood very clearly.

But he still made a mistake about one thing, which was that Zheng Chaoxi's fist wasn't necessarily the hardest here.

Chapter 848

Han Shijing did not interrupt Su Fan earlier; when Su Fan finished speaking, he burst into loud laughter.

He glanced at Li Ruo and said, "Sister-in-law, is this your idea, or is it the idea of this young man who doesn't know his own limits."

Li Ruo felt somewhat apprehensive facing Han Shijing.

This time, Han Shijing had invited the formidable Zheng Chaoxi, and she didn't want Su Fan to clash with him.

She immediately said, "Dr. Su has stated the facts, but I also agree that today's meeting is about strength, not merely reasoning."

With these words, she gave a measured response, while maximally protecting Su Fan.

Previously, Su Fan really did not have enough strength to challenge Han Shijing.

However, after gaining the first blood against Han Xinying, the fourth fire poison in his body was neutralized, and his power surged to the peak of the Transforming Qi stage, Great Perfection.

Now facing Zheng Chaoxi again, he felt no fear.

Thus, he directly spoke, "From now on, Mrs. Li Ruo will become the head of the Han family's business."

"This is true in reasoning and will also be true in strength."

Han Shijing had an inexplicable confidence in Zheng Chaoxi. After Su Fan's provocation, he lost patience as well.

He immediately refused to speak further with Su Fan and directly told Zheng Chaoxi, "Mr. Zheng, educate him with some reason."

Zheng Chaoxi nodded at his words.

His gaze turned extremely cold as he looked at Su Fan.

When Zheng Chaoxi faced off with Su Fan, Han Chengming couldn't help but shake his head.

As did Han Yunfei, Han Xinying's cousin.

In the vast Han family, besides Han Shiguang, there were indeed others of note.

Han Xinying's cousin Han Yunfei was a capable individual.

Han Yunfei didn't do business within the country but rather in Southeast Asia.

This time, he rushed back from Southeast Asia and brought with him a Transforming Qi stage expert to aid in the confrontation.

He didn't expect Han Shijing to be so ruthless as to invite Zheng Chaoxi.

"Mr. Han, we can leave," the beautiful bodyguard beside Han Yunfei calmly said.

This beautiful bodyguard was indeed the Transforming Qi stage expert around Han Yunfei.

Han Yunfei nodded; after all, he couldn't compete with Han Shijing. There was no point in staying now.

As for Su Fan, he was almost a dead man.

Not only Han Yunfei, but all including Han Chengming, thought this way now.

However, what happened next left everyone extremely surprised.

Under the watchful eyes of many, Zheng Chaoxi leaped up and threw a punch at Su Fan!

No one expected that facing Zheng Chaoxi's palm, Su Fan did not dodge but met it head-on!

When Zheng Chaoxi made a move, Su Fan directly greeted him, striking out with a palm!

"Boom!"

When fist and palm clashed, there was a resounding explosion in mid-air.

The imagined scene of Su Fan being blown away by Zheng Chaoxi did not occur.

Su Fan stood firmly in place.

The careless and underestimated Zheng Chaoxi stumbled back three steps before dispersing the terrifying force on his body!

This made Zheng Chaoxi's gaze at Su Fan instantly become much more serious.

At this moment, the entire villa hall was dead silent!

Everyone looked at Su Fan in shock.

Even Han Yunfei, who had been preparing to leave, was stunned and gaped, staying behind.

The beautiful expert beside him was equally astounded.

They obviously did not expect that Su Fan, so young, was already a peak Great Perfection master of the Transforming Qi stage!

Not only that, when Su Fan made his move, he even repelled the notorious Zheng Chaoxi!

In the villa hall, those of too low a level could not reach personalities like "Old Monster Zheng."

But for people such as Han Yunfei and others, they were familiar with Old Monster Zheng.

Chapter 849

They couldn't even dream that in this villa hall, there would be anyone who could compete with Old Monster Zheng.

Let alone others, even Zheng Chaoxi didn't expect that there would be such a master like Su Fan in this villa.

However, Zheng Chaoxi didn't think that Su Fan was truly more powerful than him.

The reason he suffered a loss at Su Fan's hands just now was only because he was careless!

Zheng Chaoxi quickly gathered his True Qi and once again charged towards Su Fan.

Back in Han Shijing's villa, he could kick Su Fan flying with one foot, even making him spit blood.

But now, it was different. When he attacked again, Su Fan only felt Zheng Chaoxi was pathetically slow.

Zheng Chaoxi's skills were entirely built up over time; he himself wasn't particularly impressive.

While Zheng Chaoxi was still thinking that once he got serious, he could spar with Su Fan for a round or two.

Su Fan took one step forward and came right in front of him again.

This time, Su Fan used all his strength, and before Zheng Chaoxi could see anything clearly, he was sent flying by Su Fan's Banlan Hammer.

"Hiss—"

Such a scene caused everyone in the villa hall to gasp in shock.

Overpowering! Overwhelmingly effortless dominance with no suspense!

It was obvious Zheng Chaoxi was giving it his all, while Su Fan seemed casual and at ease.

Such a sight brought an enormous shock to everyone present!

Han Shiguang's death, in retrospect, was an unjust one.

If he had kept a master like Su Fan by his side, there might have been a chance for survival in those crucial life-or-death moments!

However, with Han Shiguang having left such a backup for Li Ruo, all his hard-earned properties wouldn't be taken away from Li Ruo and her mother by anyone.

In the first clash between Zheng Chaoxi and Su Fan, Zheng Chaoxi had only been pushed back a few steps.

This time, when they clashed again, he thought that by being careful enough, he had a chance to win.

But unexpectedly, Su Fan's late but decisive strike sent him flying again!

This made Zheng Chaoxi realize that he couldn't remain any longer, or he'd surely die here today.

Zheng Chaoxi, notorious in the martial arts world, didn't hesitate and immediately tried to flee.

Before he could escape, Su Fan's voice sounded once again.

"Where do you think you're going?"

Against scum like Zheng Chaoxi, Su Fan would show no mercy.

After their skills became equally matched, Su Fan's strength still far surpassed Zheng Chaoxi's.

Within three to five breaths, he caught up to Zheng Chaoxi.

Feeling the evil wind rushing from behind, Zheng Chaoxi could only beg for mercy, "Spare me, sir, I can offer you benefits."

As he spoke, he drew a shimmering dagger from his bosom and stabbed it backward fiercely!

The dagger resembled a short sword; it was longer than a common dagger, yet easier to carry than a longsword.

"Swish!"

His sudden strike was as unexpected as a surprise attack on the battlefield.

Su Fan hadn't expected the man to suddenly turn around and stab with all his might.

The strike came incredibly swiftly and skillfully.

This strike was Zheng Chaoxi's ultimate move, called the Return Sword.

It wasn't just a simple backward stab; every part of his body, every movement, and the flow of his Qi within, were perfectly coordinated in this thrust.

Its only purpose was to unleash this immensely powerful, incredibly lethal strike with lightning speed!

In the past, whenever Zheng Chaoxi encountered danger, he would use this strike.

Those martial artists who dared to hunt him down were all killed instantly by this single stab!

Zheng Chaoxi thought this time would be no exception.

But Zheng Chaoxi was disappointed. Although Su Fan was also stunned by the charm of this strike,

he also didn't expect such an attack to appear.

However, once his strength surged, his accumulated advantage showed through perfectly.

To Su Fan, this seemingly inconceivably fast and sudden strike was still too slow.

This resulted in Su Fan dodging to the side, leaving Zheng Chaoxi no idea how he had dodged the strike.

Zheng Chaoxi only knew that his stab missed, while Su Fan's Grasping Sparrow's Tail landed on his vitals.

He didn't even have time to scream before Su Fan's Taiji Cloud Hand smashed his heart.

"Splash!"

Zheng Chaoxi immediately spurted a mouthful of blood, and his body flew backward like a kite with a broken string.

The evil dragon that had tormented countless women was kicked into a mess of flesh by Su Fan.

At the moment of landing, Zheng Chaoxi, this pay-to-kill madman, instantly died on the spot!

Chapter 850

Zheng Chaoxi would never have imagined that this trip to Tianhai would cost him his life.

He also wouldn't have thought that the person killing him now, Su Fan, was not even a match for him not long ago.

It can only be said that Zheng Chaoxi met his fate through his own wicked deeds; this calamity was destined.

After eliminating Zheng Chaoxi, Su Fan took two items from him.

One item was Zheng Chaoxi's short sword.

On this short sword, two small seal-script characters were engraved: Jing Hong (Surprise Flight).

This short sword, along with Zheng Chaoxi's reverse sword technique, truly lived up to the name of Jing Hong.

It indeed gave a fleeting glimpse of awe, stunning yet deadly, reaping the lives of his enemies.

He just had bad luck encountering Su Fan this time.

Not only did he fail to take Su Fan's life, but his own life was taken by Su Fan.

Another item Su Fan took from Zheng Chaoxi was the Dark Web Crystal Card.

This was a pass for the dark web, commonly carried by those with a certain level of status and position.

After finishing off Zheng Chaoxi, Su Fan returned to the villa's main hall.

Earlier, he had chased Zheng Chaoxi all the way out of the villa.

If someone had covered Zheng Chaoxi's retreat and delayed Su Fan even for a moment, perhaps Zheng Chaoxi could have escaped this time.

Unfortunately, there was no one, so Zheng Chaoxi had turned into a corpse.

When Su Fan appeared in the villa's main hall, he saw a scene that took him completely by surprise.

In Han Shijing's hand, there was now a gun.

And this gun was now pointed at Li Ruo's head.

Su Fan didn't know what had transpired in the villa hall during his absence.

But he understood that the current situation was not going to be easily resolved.

Seeing Su Fan return, Han Shijing fell into utter despair.

What he most hoped to see was Zheng Chaoxi returning alive.

If that was impossible, he would have settled for Zheng Chaoxi and Su Fan perishing together.

However, things didn't go as he planned; not only did Zheng Chaoxi fail to eliminate Su Fan, he himself was easily killed by Su Fan.

"Stop!" Before Su Fan could get any closer, Han Shijing coldly ordered.

Su Fan could only halt; no matter how fast he was, he couldn't outrun Han Shijing pulling the trigger.

It was hard for ordinary people to acquire guns, but for someone of Han Shijing's level, getting a gun was not difficult.

With Li Ruo's life in Han Shijing's hands, Su Fan could only stop and keep his impulses in check.

Han Xinying had just lost her father, Su Fan couldn't let her lose her mother too.

Although Han Shijing had no intention of shooting Li Ruo, he certainly had the intention of shooting Su Fan!

Almost at the instant Su Fan stopped, Han Shijing suddenly turned his gun towards Su Fan.

"No!"

Li Ruo and Han Xinying both cried out in shock.

Many in the villa hall were also utterly stunned.

But there were three people who remained extremely calm.

One was Su Fan; Han Shijing's movements were simply too slow for him.

Before Han Shijing could even aim the gun at him, Su Fan had already made a dodging move.

The other two extremely calm people were Han Yunfei and his beautiful bodyguard, Lisa.

"Bang! Bang!"

Two gunshots rang out almost simultaneously at this moment.

The first gunshot was Han Shijing shooting at Su Fan.

Su Fan easily dodged this shot, but there was no need for him to retaliate against Han Shijing.

Because the second gunshot that just rang out was Han Yunfei blowing Han Shijing's head off.

Han Shijing's body slowly fell to the ground, his eyes wide open with an expression of disbelief.

He had paid such a heavy price, he was only one step away from success.

Just as he was about to achieve success, Su Fan appeared out of nowhere.

Su Fan took out Zheng Chaoxi with only a few moves, and because of Su Fan's arrival, Han Shijing himself reached a dead end.
