

Temptation 851

Chapter 851

No one sympathized with Han Shijing's death.

After Han Yunfei shot Han Shijing, he put the gun away.

He then began to speak.

"My name is Han Yunfei, I'm Xinying's cousin, and I run a security company in Southeast Asia."

The so-called security company was actually a mercenary company.

Han Yunfei's main businesses were twofold: one was the mercenary company, and the other was arms trafficking.

He was also a ruthless person but very tactful, with no intention of opposing Su Fan.

After revealing his identity, Han Yunfei continued, "I fully support Aunt to become the new head of the Han family and hope that the Han family will invest in Southeast Asia in the future."

The "Aunt" he referred to was Han Shiguang's wife, Li Ruo.

With Han Yunfei's endorsement, it was certain that Li Ruo would become the head of the Han family.

Someone quickly came to handle the aftermath for Zheng Chaoxi and Han Shijing.

The people gathered in the hall of Han Shiguang's villa gradually dispersed.

Although Li Ruo's surname was Li and she was not a Han family member by blood,

she was the daughter-in-law of the Han family and Han Shiguang's wife.

So after today, she would also be the Family Head of the vast Han family.

In the end, only Su Fan, Li Ruo, Han Xinying, Han Yunfei, and Lisa remained in the villa hall.

Han Yunfei stayed because he wanted to get acquainted with Su Fan.

He had always greatly admired his uncle, Han Shiguang.

Today's events proved that his uncle's preparations were indeed impressive.

Even though Han Shijing had brought in an old monster like Zheng Chaoxi, he still did not succeed in the end.

After everyone else had left, Han Yunfei got straight to the point and said, "In the Han family's future, will Aunt be in charge or Mr. Su?"

Su Fan replied without hesitation, "Mr. Han did me a great favor. What I did for Xinying and Mrs. Li was to repay Mr. Han's kindness."

"The Han family's businesses will still be under Mrs. Li's name. I will not interfere."

Hearing this, Han Yunfei smiled, nodded, and then took out an exquisite business card and handed it over.

"Mr. Su, this is my business card. If you ever plan to expand into Southeast Asia, I might be able to help."

Su Fan took Han Yunfei's business card and also took out his own to give to Han Yunfei.

After a glance, Han Yunfei's expression became very peculiar.

Because it clearly stated on Su Fan's card that he was the Chief Physician of Traditional Chinese Medicine at Yangcheng Medical University's Affiliated Hospital.

This meant that he hadn't misheard earlier.

Mrs. Li really did call him Dr. Su, not Mr. Su.

Su Fan, a top master in the Qi Condensation Realm, was actually also a doctor.

What Han Yunfei didn't know was that Su Fan's medical skills were even more impressive than his martial arts.

But this was the first time Han Yunfei met Su Fan, and after exchanging business cards, Han Yunfei bid farewell to Li Ruo and the others.

After Han Yunfei left, Li Ruo finally had a chance to ask, "Xiao Fan, are you alright? Are you hurt?"

Su Fan had first fought with Zheng Chaoxi, and then Han Shijing had shot at him.

Han Shijing's shot had missed.

But he could still have been injured during the battle with Zheng Chaoxi.

After hearing Li Ruo inquire, Su Fan shook his head.

"Sister-in-law, I'm fine."

If it had been before his dual cultivation with Han Xinying, he definitely wouldn't have been able to defeat Zheng Chaoxi.

But after claiming Han Xinying and gaining the Great Perfection strength of the peak Qi Condensation Realm, Zheng Chaoxi was nothing more than a paper tiger.

His special physique and the cultivation method that had accumulated power long-term made him unbeatable at any stage.

As long as his enemy wasn't far superior in realm, they were no match for him.

After replying to Li Ruo, Su Fan also looked in a certain direction and said, "Are you still not coming out?"

Chapter 852

Su Fan was not the real backup left by Han Shiguang, but there was no doubt that Han Shiguang had indeed left a real backup plan.

After Su Fan spoke, an old man in a Zhongshan suit also walked out.

As soon as this person appeared, Han Xinying immediately exclaimed happily, "Grandpa Xia!"

This old man was none other than Han Xinying's beautiful bodyguard, Xia Chen's grandfather, Xia Zhaonan.

Xia Zhaonan was also somewhat famous in the martial arts world, known as the "Flying Leg of Xia."

To today's young people, this nickname might seem a bit amusing.

But in the martial arts world, there were only wrong names, no wrong nicknames.

Xia Zhaonan's martial skill was the "Twelve Linked Legs."

Within the Gang Qi Realm, there were martial artists who could withstand his twelve kicks, but they were very few.

After appearing, Xia Zhaonan gave Han Xinying a kind smile.

Then he couldn't help but burst into a fit of violent coughing.

He was old, after all, martial artists were not immortal beings, they age too.

He was even more severely aged, the injuries from his younger years now constantly tormenting him.

The once greatly renowned "Flying Leg of Xia" in the martial arts world, now no longer dared to take action lightly.

Just like this time, if he were to deal with Zheng Chaoxi himself, the best outcome would be kicking Zheng Chaoxi to death, and he would also be completely spent.

Han Xinying was very happy to see this kindly elder.

Li Ruo, however, asked in shock, "Mr. Xia, how did just one year pass, and you... you've aged so much?"

At this moment, Xia Zhaonan already looked like an old man on the verge of death.

Whereas a year ago, he didn't look like this.

Xia Zhaonan smiled wryly, "After a martial artist's vitality declines, all kinds of ailments come up."

"A year ago, I felt my vitality ebbing and retreated to the mountains to attempt to break through to the Gang Qi Realm."

"If I succeeded, I could live for a few more years."

"If I failed, I could spend the rest of my life in the mountains."

"Unexpectedly, I received a call from Chen, and now here I am, the white-haired sending off the black-haired."

After saying this, he turned his gaze to Su Fan and emotionally said:

"Thanks to this young brother's extraordinary skills, Zheng Chaoxi was killed."

"Otherwise, this old body of mine would only have been able to perish together with Zheng Chaoxi."

After Xia Zhaonan appeared, Su Fan had been observing the relationship between this old man and the Han mother and daughter.

Then he discovered that Xia Zhaonan and the Han mother and daughter had a very good relationship.

In fact, Xia Zhaonan's current condition was not that the end was near, but that his injuries were too severe.

This kindly old man must have been a brave and combative figure in his youth.

Now with his vitality declining, he was riddled with injuries.

But Su Fan didn't care about the other's character; as long as he could be useful, he'd save him.

In the future, he would definitely hold Palatiafort to account.

Before seeking retribution from Palatiafort, he needed to gather enough expert fighters around him.

Zhao Chunqiu, already stationed at the Eastern Medicine Headquarters, and now Xia Zhaonan, were clearly excellent helpers.

Once he broke through to the Gang Qi Realm, he'd have five Gang Qi Realm experts by his side, and then he could seek justice from Palatiafort!

After thinking, he spoke, "Mr. Xia, I can treat your injuries."

Hearing this, Xia Zhaonan waved his hand, "I admire your martial skills, young brother."

"But even if your medical skills are equally impressive, my old injuries can't be cured."

Han Xinying quickly interjected, "Grandpa Xia, don't say that, Divine Doctor Su is very skilled."

"I was very sick before, and Divine Doctor Su cured me."

At this moment, Xia Zhaonan suddenly realized.

He was aware of Han Xinying's illness.

But he wasn't a doctor, and he was struggling himself, so he didn't go to Tianhai.

Chapter 853

At this moment, he also realized that Han Xinying's family hereditary illness, if it doesn't occur, it's fine, but once it does, it's a terminal disease!

Su Fan was able to treat Han Xinying, which shows that Su Fan indeed has some skills!

Immediately, he looked at Su Fan very seriously: "Divine Doctor Su, are you really saying my injuries can still be treated?"

Su Fan nodded: "Judging from Elder Xia's complexion and breath, Elder Xia has many, very complex injuries, and was even severely poisoned in his early years."

"However, if we look at each of Elder Xia's injuries separately, they are not serious."

"Treating Elder Xia's injuries is a very complicated and long process."

"I can stay in Tianhai to treat Elder Xia for a period of time."

"After one treatment cycle, Elder Xia can come to Yang City to see me for treatment once a month."

"It is estimated that in one to two years, Elder Xia's injuries will be fully healed."

"In about a year, Elder Xia should be able to break through to the Gang Qi Realm."

Xia Zhaonan's martial arts talent is quite good, otherwise, in his younger days, he wouldn't have made a name with the Xia Flying Kick.

With Zhao Chunqiu and Xia Zhaonan's assistance, once Su Fan himself steps into the Gang Qi Realm and recruits three more helpers, he can go to England's Palia Castle to settle the score.

Xia Zhaonan was very excited when he heard Su Fan's words.

"Divine Doctor Su, if you can indeed heal my injuries and help me break through to the Gang Qi Realm in about a year."

"Then my life will be yours, I will not hesitate to go through fire and water!"

Xia Zhaonan wasn't joking, he really didn't want to die.

He had sought out many famous doctors, but none could help him.

If Su Fan could heal him and help him smoothly break through to the Gang Qi Realm, he would owe Su Fan his life!

Of course, Su Fan could heal Xia Zhaonan, but Xia Zhaonan's injuries were complicated, and the treatment process was very long.

After Han Shijing and Zheng Chaoxi died, Xia Zhaonan also came to the Han family's villa.

The crisis for the Han family was now over.

Next, under Li Ruo's leadership, the Han family's future was to be seen.

By this time, Su Fan's trip to Tianhai could be considered a success.

He successfully neutralized one fire toxin by combining Yin and Yang with the fourth woman possessing the Extreme Yin Physique.

Han Xinying's difficult and complicated illness was also resolved during the process of balancing Yin and Yang.

The current Han Xinying is already a normal person.

As for Han Xinying's mother, she has not yet shown symptoms, so he could not treat Li Ruo.

He still hasn't figured out the roots of the hereditary illness in the Li family of Xingzhou.

Before leaving Tianhai and returning to Yang City, he only had one big thing and several smaller things left to do.

The big thing was to help Xia Zhaonan heal his injuries.

After Xia Zhaonan breaks through to the Gang Qi Realm, he and Zhao Chunqiu can go to revenge the massacre in Dongying, and they could also bring Xia Zhaonan along.

Moreover, the more experts they have when they go to Dongying, the safer they would be.

Afterwards, he stayed at the Han family's villa to treat Xia Zhaonan's injuries.

The main treatment for Xia Zhaonan's injuries was not acupuncture, but taking medicine.

After a detailed diagnosis, Su Fan prescribed a year of Chinese medicine for Xia Zhaonan.

For the next year, Xia Zhaonan would have to drink the medicine every day.

Xia Zhaonan, half-believing, started taking the medicine as prescribed by Su Fan.

On the first day of taking the medicine, he truly believed in Su Fan's medical skills.

Because on the first day of drinking the medicine, he felt much more relaxed.

After resolving the matters of the Han family, Su Fan went to find Bai Jiajia.

He was about to leave, and he wanted to bid farewell to Bai Jiajia.

Although Bai Jiajia did not have the Extreme Yin Physique, since he had been with Bai Jiajia, he would be responsible for her and give her a future.

Chapter 854

Su Fan came alone this time; Han Xinying stayed home to accompany her mother.

Bai Jiajia was also very happy to see Su Fan.

After leaving the villa, she teased, "Busy man, famous man, you finally remembered me?"

She called Su Fan a busy man because he had indeed been very occupied recently.

She called him a famous man because Su Fan had become quite well-known in the high society circles of Tianhai.

The incident of him killing Zheng Chaoxi with just a few punches had spread among the major powers of Tianhai.

After learning about Bai Jiajia's connection with Su Fan, the Bai family seniors urged her to deepen her interactions with him.

Su Fan didn't pay much attention to the outside world; he had been busy treating Xia Zhaonan these past few days.

Hearing these titles from Bai Jiajia now, he curiously asked, "What's this famous man talk about?"

Bai Jiajia was taken aback; she hadn't expected Su Fan to ask about that.

But she quickly said, "You're a famous man because the incident of you killing Zheng Chaoxi has made you famous in Tianhai's high society circles."

"And also..."

Bai Jiajia didn't finish, seeming to find it inconvenient to continue.

Seeing her reluctance, Su Fan immediately said, "I'll spend the whole day with you today. I have to go back to Yang City in a few days."

"Is there anywhere you want to go today? I'll take you."

This time, Su Fan came out driving Han Shiguang's luxury car, a Maserati sports car.

Han Shiguang's death was quite tragic; he had worked hard to amass his wealth but hadn't had the chance to enjoy it before his untimely demise.

Bai Jiajia thought for a moment and didn't refuse, getting into the passenger seat.

Then she said, "Let's go to the place where we went fishing last time."

Despite the danger they encountered last time, Bai Jiajia clearly wasn't someone who would be scared off easily.

The incident they encountered last time was actually very unusual and shouldn't have happened under normal circumstances.

Liu Chuanxiong had already been under surveillance by the Bai family and many others; after Han Shiguang was killed by him, even more eyes were on Liu Chuanxiong.

If Liu Chuanxiong dared to appear again, he might be greeted by armed helicopters from the relevant authorities.

Even the formidable Martial Artist at the Qi Transformation level would be shredded under the machine guns of armed helicopters.

Su Fan took Bai Jiajia to the Seaside Entertainment Center.

Not long ago, Bai Jiawen had severely mistreated Bai Jiajia at this place.

But now, Bai Jiawen was crippled.

He had lost an arm and his spine was broken.

Unless medical advancements in the future could completely restore him, the rest of his life would be spent as a cripple.

Su Fan and Bai Jiajia, familiar with the place, quickly arrived at the Seaside Entertainment Center.

He had planned to spend the entire day with Bai Jiajia, and they had plenty of time.

But he still didn't understand why Bai Jiajia brought him to a villa in the Seaside Entertainment Center.

This was a standalone villa that clearly wasn't open to the public.

After bringing Su Fan here, Bai Jiajia smiled and said, "This entire seaview villa is mine."

Su Fan nodded, "This villa is indeed pretty nice."

As the eldest daughter of the Bai family in Tianhai, it was perfectly normal for Bai Jiajia to have such a villa.

For women of her status, buying a villa was about as significant as an ordinary person buying a phone.

But Bai Jiajia's next words left Su Fan extremely surprised.

"About thirty or so old men from Tianhai's high society have all had their way with me here. Do you want to have a go too?"

In her own villa, Bai Jiajia spoke without any restraint.

Even though she had been quite promiscuous in the past, Su Fan didn't think of discarding her after using her.

Chapter 855

After Bai Jiajia finished speaking, Su Fan looked at the vast sea and said, "Let's turn the page on the past."

"But some things, I've already made very clear to you last time."

"I hope you don't take my words lightly, or the consequences will be very serious."

Su Fan didn't care how many men had been with Bai Jiajia in the past.

He only cared about one thing: after he was with Bai Jiajia, she couldn't get involved with other men.

Bai Jiajia looked at Su Fan, who was speaking to her seriously about this, and couldn't help but chuckle and said:

"Got it, from now on, I'll only be with you, is that okay?"

Saying this, she thought of what she didn't tell Su Fan earlier at the Bai family villa gate.

She immediately continued, "You don't know, those famous people in Yang City who used to be involved with me are now terrified."

"After you killed Zheng Chaoxi, they all asked me about my relationship with you, whether I was your girlfriend or something."

"If I were your girlfriend, they'd certainly lose sleep over it."

Su Fan hadn't thought that what Bai Jiajia wanted to tell him was actually this.

He responded casually, "It wasn't before, but now it is since that night."

As he spoke, Su Fan hugged Bai Jiajia tightly.

This soft body might have been enjoyed by many in the past.

But from now on, only he could enjoy it.

During the trip to Tianhai, Su Fan's strength had elevated to the peak of the Transformation Realm, achieving Great Perfection.

He had also neutralized four out of the nine fire poisons in his body.

In addition, he gained the friendship of the Han family and Lady Li Ruo's friendship.

Then, there was Xia Zhaonan, a potential ally, indeed not just potential.

Once Xia Zhaonan recovered, he could join Su Fan and Zhao Chunqiu in doing some things together.

Finally, he also had two women he liked by his side, one was Han Xinying and the other was Bai Jiajia.

Although Bai Jiajia didn't seem to have provided much help, she undoubtedly brought him joy.

After hugging Bai Jiajia, Su Fan didn't immediately ravish this little minx but sat on the sofa with her in his arms.

From this spot, they could see the boundless sea.

Having stayed in Yang City for so long, coming to the seaside indeed felt refreshing.

But the seaside wasn't always a good place; if they encountered a typhoon or tsunami, it would be very troubling.

After being hugged by Su Fan, Bai Jiajia giggled and said, "Aren't you just going to hold me like this the whole time?"

Su Fan smiled, "What's the rush? You'll be crying later."

Bai Jiajia pouted, "I'm not in a hurry. I'm just afraid someone won't be able to hold back later."

Su Fan didn't care and smiled, reaching out to stroke Bai Jiajia's long legs wrapped in ultra-thin black fabric.

Bai Jiajia immediately giggled, "See, I told you, you couldn't hold back; you men are all like this."

"If you want to have me, just do it. We can talk and do other things once we are done."

"It's not like it's our first time; why be so coy?"

With her words laid bare, Su Fan certainly didn't hold back anymore.

Seeing his eyes change, Bai Jiajia also said, "I'll take you to my bedroom."

She said this and then got up from Su Fan's arms, leading him to her bedroom.

However, as soon as they entered Bai Jiajia's bedroom, they noticed someone else had arrived at the villa.

The newcomers were a man and a woman; the man looked somewhat like Bai Jiawen, indeed Bai Jiajia's elder brother, Bai Jiawu.

Su Fan also stood by the window and naturally saw the two people below.

After seeing this, he couldn't help but ask curiously, "What's going on?"

Bai Jiajia's expression became very peculiar as she said, "The man below is my eldest brother, and the woman is my cousin..."

Chapter 856

Su Fan knew why Bai Jiajia's pretty face turned so strange.

Because the Tianhai Bai family played very dirty.

Bai Jiawu and Chen Lin were technically cousins.

But when the two appeared at the villa entrance, Bai Jiawu's hand was inside Chen Lin's collar, grabbing her soft bust.

The purpose of Bai Jiawu bringing Chen Lin to this place was obvious, he was clearly going to have his way with her.

Bai Jiajia quickly took out a laptop and turned on the villa's surveillance.

While watching the monitor, she explained to Su Fan, "This villa is indeed mine."

"But my brother handles the Seaside Entertainment Center business and asked me to let him use the first floor. Sometimes, he comes here to rest."

"I didn't expect he wouldn't come alone but with my cousin."

Su Fan then sat down beside Bai Jiajia.

Apparently, Bai Jiawu didn't know Bai Jiajia was also in the villa this time.

Moreover, he didn't know that there were pinhole cameras in every room of Bai Jiajia's villa.

Once Su Fan was sitting next to Bai Jiajia, he saw Bai Jiawu's performance.

After entering the room, Chen Lin kneeled in front of Bai Jiawu, preparing to serve him.

Bai Jiawu then pulled out a willow stick from the wardrobe next to him.

In Bai Jiajia's stunned state, he lifted Chen Lin's clothes and fiercely whipped her soft bust with the stick.

Bai Jiawu was also a Martial Artist. Though he held back, a bruise still quickly formed on Chen Lin's soft bust.

Bai Jiajia saw this scene and couldn't help but secretly click her tongue, "I didn't expect cousin liked being disciplined."

Unlike the innocent Han Xinying, Bai Jiajia was an experienced player and understood everything.

Moreover, her cousin Chen Lin genuinely liked being disciplined.

Not only did the soft bust have metal rings, but also small bells attached.

It was unknown if Bai Jiawu put them on or someone else did.

The metal rings on Chen Lin were actually the work of her ex-boyfriend.

After Bai Jiawu found out, Chen Lin became his slave.

In Tianhai, Bai Jiawu's identity as the Bai family's eldest son was very advantageous.

At the same time, Liu Chuanxiong also encountered a new opportunity.

He had originally been a wanted criminal, constantly on the run. Even hiding on an island, he worried about special forces coming to take him out.

He felt elated when he killed Han Shiguang but regretted immediately after.

It wasn't because the Li family or Li Ruo wouldn't let it go, nor was it because he feared Su Fan causing him trouble.

It was because Han Shiguang was the senior vice president of Spruce Global Capital in the China region.

By killing Han Shiguang, he provoked the old giant Spruce Global Capital.

In this world, money can make the impossible possible.

Spruce Global Capital, besides money, has nothing else lacking.

Though there was no bounty on the dark web for him, Spruce Global Capital's trained martial artists were scouring the sea for him.

While Liu Chuanxiong was fretting, he connected with the Liu Sheng family in Japan.

Japan doesn't even have its own military.

But the Liu Sheng family in Japan specialized in weapon manufacturing.

They produced weapons with the American military's permission.

The Liu Sheng family manufactured two types of weapons.

One type is modern weapons, primarily various models of firearms.

The other type is cold weaponry. After wiping out Zhao Chunqiu's family, although they didn't obtain the formula for solar iron sand, they had their formula for mystic iron.

Chapter 857

Yinxuan Alloy, also a type of high-strength and high-toughness alloy, is a very top-tier alloy material.

The firearms and cold weapons manufactured by the Liu Sheng family extensively utilize this high-strength alloy material.

At this moment, Liu Chuanxiong was sitting opposite the eldest son of the Liu Sheng family, Liu Sheng Yilong, and drinking tea.

Compared to drinking tea, Liu Chuanxiong was more interested in the katana in his hand.

But to make Liu Chuanxiong fully committed to cooperating with the Liu Sheng family, Liu Sheng Yilong wanted to make the already skittish Liu Chuanxiong even more nervous.

"Mr. Liu Chuanxiong, do you still remember Su Fan?"

"The Martial Artist who fought with you on the island."

Liu Chuanxiong didn't know why Liu Sheng Yilong would suddenly bring up Su Fan.

He had been drifting at sea for some time, having missed some news.

When Liu Sheng Yilong mentioned Su Fan, Liu Chuanxiong nodded, "Su Fan is the most formidable Tai Chi expert I've met, aside from my master."

Liu Sheng Yilong took a sip of tea, then said, "Actually, Su Fan hid his strength when he fought with you."

"According to the information our Liu Sheng family bought from the dark web, not long ago, the Great Perfection Martial Artist at the peak of Qi Refinement, Zheng Chaoxi, was killed by Su Fan!"

Liu Chuanxiong was usually someone who could remain very composed, but upon hearing Liu Sheng Yilong's words, he stood up in shock.

"What? Su Fan killed Zheng the Old Monster?"

Liu Chuanxiong was not unfamiliar with Zheng Chaoxi; they even had some acquaintance.

This was precisely why he understood better than anyone else what means Zheng the Old Monster had.

Upon Liu Chuanxiong's inquiry, Liu Sheng Yilong nodded solemnly.

"Although the exact process is unknown, Zheng Chaoxi indeed died at Su Fan's hands."

Liu Chuanxiong hesitated for a moment before asking, "Then, Liu Sheng-kun's intention is?"

Liu Sheng Yilong smiled, "Not my intention, but the intention of the Liu Sheng family."

After speaking, he didn't wait for Liu Chuanxiong to ask and continued, "The Liu Sheng family hopes that Mr. Liu Chuanxiong can wholeheartedly serve the Liu Sheng family."

"Otherwise, the Liu Sheng family would not be willing to offend a Martial Artist with such astonishing potential for your sake."

Liu Sheng Yilong was so polite to Liu Chuanxiong because Liu Chuanxiong possessed some things that greatly interested the Liu Sheng family.

Upon learning that Su Fan had the ability to kill Zheng Chaoxi, even if Liu Chuanxiong was dissatisfied with Liu Sheng Yilong's attitude, he could only force a smile and nod in agreement.

At the same time, in the deepest part of the Seaside Entertainment Center's private villa.

While Su Fan and Bai Jiajia were watching a drama, they were also enacting a drama of their own.

Bai Jiajia just felt like her heart was about to be shattered by Su Fan, and she could only plead with Su Fan to let her use her oral skills.

Bai Jiajia's oral skills were very good, even someone as composed as Su Fan felt a bit shaken under her attack.

However, he still didn't submit easily, which made Bai Jiajia even more determined to compete with him.

This time, Bai Jiajia had met her match.

After her cousin Chen Lin was beaten and severely developed by Bai Jiawu, she still didn't gain victory in her battlefield.

When she was almost exhausted, she felt a slight tremor.

Realizing that a volcano was about to erupt, she wanted to quickly evade.

However, it was too late as Su Fan held her by the back of her head.

A large amount of life essence went directly to her stomach, making Bai Jiajia quite full.

Released by Su Fan, Bai Jiajia couldn't help but raise her hand and pummel Su Fan's body twice.

"You only know how to bully me!"

Su Fan didn't mind but took out a tissue to help Bai Jiajia wipe her mouth and cheeks.

Bai Jiajia didn't resist either. Once Su Fan wiped the stickiness off her mouth and cheeks, she reached out to operate the computer.

The screen displayed her cousin Chen Lin's recent spectacular performance.

She originally thought she was daring enough.

Only now did she realize that her cousin was even wilder than she was.

Bai Jiajia curiously asked, "Doesn't it hurt to wear metal rings like that?"

Su Fan casually replied, "Of course it hurts, even getting an ear piercing hurts, how could that not hurt?"

"However, such unique art forms were previously only seen in Western countries, but now it seems to have spread to the East."

After Su Fan finished speaking, Bai Jiajia softly said, "I want to try it too; will you help me pierce them?"

Su Fan shook his head, "Let's talk about it next time, but why would you want to wear it?"

"I came to see you today because I have something important to talk to you about."

Chapter 858

Su Fan had two important matters to discuss with Bai Jiajia.

The first was to say goodbye, as he was about to leave Tianhai and return to Yang City.

The second matter was that he wanted to teach Bai Jiajia martial arts.

Among the many women around him, only Bai Jiajia had the talent for martial arts.

Of course, Bai Jiajia was very curious about what other important matter Su Fan had to discuss with her:
"What is it that you want to tell me?"

Bai Jiajia certainly did not expect what Su Fan was about to say.

She only heard him say, "I want to teach you martial arts."

After hearing this, Bai Jiajia immediately shook her head, "I can't practice martial arts. My meridians are quite blocked, I can't circulate True Qi."

Practicing martial arts emphasizes internal breath training and external muscle and bone training.

If the Eight Extraordinary Meridians and the Twelve Standard Meridians are not open, True Qi cannot circulate well.

As such, it is naturally impossible to practice martial arts.

Su Fan shook his head and said, "Your meridians are not exactly blocked, just relatively weak."

"I can use Acupuncture Technique to help clear them, and then you can practice martial arts."

This news was an absolute delight for Bai Jiajia.

She hesitantly asked, "Really? I can really become a martial artist?"

Su Fan nodded firmly, "Yes."

As he spoke, he also took out silver needles and had Bai Jiajia lie on the bed to start the acupuncture.

Su Fan wanted Bai Jiajia to become a martial artist so she would have more ability to protect herself.

While he wasn't in Tianhai, if anyone tried to overpower Bai Jiajia, she would have the means to resist.

While Su Fan was performing acupuncture, Bai Jiajia asked the same question as Han Xinying:

"Can't you stay in Tianhai? Yang City's economic development is not as good as Tianhai's."

Of course, that was true, Tianhai is an international trade city with unparalleled geographical advantages.

Yang City and Tianhai, or even the entire Qin Province and Tianhai, cannot compare in this regard.

Su Fan shook his head, "My workplace is in Yang City, and it is easier for my company to develop in Yang City."

"Moreover, most of the people I know are in or around Yang City."

"I have already spent a long time in Tianhai this time, it's time to go back."

Su Fan had been somewhat worried that there might be problems in Yang City during his absence.

But with Zhao Chunqiu guarding, there had been no incidents in Yang City.

While Su Fan was thinking about these matters, something extremely infuriating happened to him.

Previously, through Han Shiguang's negotiation, the bounty on him by Paleya Castle had been withdrawn, and Han Shiguang had spent 200 million US Dollars for this.

After Han Shiguang's unfortunate demise, the people of Paleya Castle went back on their word.

While Su Fan was nourishing Bai Jiajia's meridians, the bounty on him was once again posted on the dark web by Paleya Castle.

In Yang City, in the office of the Network Technology Director at the Eastern Medicine Company.

Chen Hanqing was browsing forums, honing his computer skills.

Then a message suddenly popped up on his screen.

After glancing at it, his expression turned somewhat grim.

Immediately, he sent the information about Paleya Castle going back on their word and re-posting the bounty on Su Fan to Su Fan.

In Bai Jiajia's villa, Su Fan was still performing acupuncture on her.

When his phone rang, he took it out and had a look.

After reading the message from Chen Hanqing, he was instantly filled with anger!

Paleya Castle in England was truly pushing him to the limit!

It was as if he had dug up their ancestors' graves, and Han Shiguang had already spent a lot of money to settle this matter.

It hadn't been long, and they had posted the bounty on him again.

There were three reasons for Paleya Castle's bounty on Su Fan.

First, Su Fan had killed their True Qi realm expert, and secondly, there was still profit to be made from Su Fan.

The final reason was that Qi Tian had passed Paleya Castle's new round of experiments, and Su Fan had a blood feud with Qi Tian for killing his father and taking his wife!

Chapter 859 x

In Bai Jiajia's villa, Su Fan was very angry.

But he also understood that anger could not solve practical problems.

He now needed to calm down, make a detailed plan, and figure out when he could solve this trouble once and for all.

"What's wrong?" Bai Jiajia couldn't help but ask when she saw Su Fan's unpleasant expression.

Su Fan didn't hide anything from her and said casually, "Paria Castle in England has put a two hundred million US dollar bounty on me on the dark web."

Although he spoke very calmly, Bai Jiajia was quite worried: "What should we do then?"

Su Fan dismissed it indifferently: "It's nothing. If someone insists on courting death, there's nothing I can do about it."

What he said was indeed not a problem.

After he and Han Xinying joined forces, the fourth fire poison in his body had been resolved.

His strength had suddenly leapt to the peak of the Gang Qi Realm Great Perfection.

Two hundred million US dollars was a huge temptation for experts in the Inner Strength realm.

For experts in the Gang Qi Realm, the attraction was somewhat insufficient.

Starting from the Gang Qi Realm, most transactions between Martial Artists were barter and didn't involve money.

Because many things were extremely valuable and difficult to measure with money.

Some things were priceless and could not be bought even with money.

As Su Fan conversed with Bai Jiajia, he helped her with acupuncture.

By the end of the acupuncture session, Bai Jiajia felt like she had been completely reborn.

Her body felt exceptionally light and relaxed like never before.

Su Fan also sent a set of Inner Strength cultivation methods and an external cultivation method to Bai Jiajia's email.

By the next time they met, Bai Jiajia might already be an expert in the Nourishing Qi Realm.

Su Fan spent the rest of the day accompanying Bai Jiajia.

The next day, he returned to Madame Li Ruo and Han Xinying at the Han family's villa.

This time, he was here to bid farewell to both of them.

Li Ruo and Han Xinying were also aware that Su Fan was about to return to Yang City.

During a meal together, Li Ruo asked, "Xiaofan, when will you come to Tianhai again?"

Su Fan had not thought about this question.

The matter of Paria Castle was like the Sword of Damocles hanging over his head.

His mind was now preoccupied with how to break through to the Gang Qi Realm or find a fifth woman with the Extreme Yin constitution.

As a result, when Li Ruo asked this, Su Fan shook his head: "Sister-in-law, I don't know when I'll be able to come again."

"But if you or Xiaoying encounter any trouble, I'll come to help."

Han Xinying became a bit anxious upon hearing this.

She quickly said, "Divine Doctor Su, if your company develops well in Yang City, why not open a branch here in Tianhai?"

Su Fan pondered for a moment and then said, "I need to discuss this with the others in the company. If conditions permit, it should be doable."

After dining with Li Ruo and her daughter, Su Fan called Chen Hanqing again.

He had a very important matter that needed Chen Hanqing's assistance to investigate.

That was to figure out the exact strength of Paria Castle.

It would be best to also investigate why Paria Castle reneged on their word.

The call was quickly answered, as Chen Hanqing almost always picked up Su Fan's calls promptly.

Chen Hanqing's voice soon came from the other end: "Mr. Su, what would you like to instruct?"

Su Fan got straight to the point: "Can you investigate the detailed situation of Paria Castle?"

"Find out how many experts they have and at what levels?"

"Also, investigate why Paria Castle reneged on their word and continues to place a bounty on me."

After listening carefully, Chen Hanqing said, "Mr. Su, I was already working on these two matters."

Chapter 860

Chen Hanqing is indeed a talented individual, and a very excellent one at that.

The tasks assigned by Su Fan, he can complete exceptionally well.

The tasks Su Fan didn't mention, he would also take the initiative to do.

Even the wisest makes mistakes; no matter how formidable Su Fan is, he obviously cannot cover everything.

It is indeed very fortunate for him to gain Chen Hanqing's service.

Hearing Chen Hanqing say that he was already dealing with these two matters before, Su Fan was naturally extremely pleased.

He immediately continued to ask, "How is the situation?"

Chen Hanqing did not hide anything and said truthfully, "Mr. Su, the defensive level of Paria Stronghold is very high. The information I obtained is quite limited."

"According to my investigation, there are more than ten Martial Artists in the Hua Qi Realm in Paria Stronghold."

"As for the Gang Qi Realm experts, there have been two records of their actions in the past thirty years."

"I haven't found more information."

The intelligence gathered by Chen Hanqing was definitely not good news for Su Fan.

The strength of Paria Stronghold was more terrifying than he had imagined.

No wonder the other party dared to go back on their word and humiliate him so boldly, ignoring him completely.

It turns out that the other party has at least two Gang Qi Realm experts and more than ten Hua Qi Realm Martial Artists.

Even though Su Fan was a very patient and calmly composed person.

At this moment, he also found this matter quite tricky.

In the short term, it was clear he could do nothing significant against Paria Stronghold.

This made Su Fan even more eager to find the fifth woman with an extremely Yin body.

If, at any moment, he thoroughly provoked Paria Stronghold,

And they no longer treat him kindly, sparing no expense to enlist Gang Qi Realm martial artists to deal with him, he would be finished!

After instructing Chen Hanqing to continue investigating matters regarding Paria Stronghold, he returned to his room to rest.

He was now only half a step away from reaching the Gang Qi Realm.

Although this last step was not easy to cross, with his diligent cultivation, he could still make it.

If he could achieve Yin-Yang union with a woman possessing an extremely Yin body, his strength would advance again by leaps and bounds.

The night passed without words, and the next morning, he bid farewell to Han Xinying and Madam Li Ruo.

Knowing he was leaving, Li Ruo personally drove him to the airport.

At the airport, about to part ways, Li Ruo did something Su Fan did not expect, a very bold move.

This beautiful noblewoman embraced Su Fan.

Her breath, as fragrant as orchids, murmured in Su Fan's ear, "Little Fan, thank you."

Su Fan, feeling Li Ruo's soft and boneless body, and her boundless gentleness.

After steadying himself, he shook his head and said, "Sister-in-law, no need to be polite."

After speaking, he continued, "Mr. Xia should still go to Yang City once a month, so I can check and treat him."

Li Ruo nodded and reiterated, "Be careful on the way, and keep in touch after arriving in Yang City."

"Alright, sister-in-law and Xinying, take care as well." After bidding farewell to Li Ruo, Su Fan turned and walked into the airport.

As for some of his other items, like the Jinghong short sword, he couldn't take them on the plane and had to rely on Li Ruo to arrange for someone to send them to Yang City.

After waiting for a while in the departure hall, he boarded the returning plane.

This time, he stayed in Tianhai for about three weeks in total.

The trip to Tianhai was overall good, except for the unfortunate loss of Han Shiguang.

Originally in his plan, Han Shiguang was a very important connection for him.

This meant that, in the future, when his Eastern Medicine Company wanted to enter the international market, the situation would definitely be different with or without Han Shiguang's help.
