

Temptation 871

Chapter 871

After seeing Su Fan, Wang Fei came to Su Fan's room and told him something quite important.

"I remember you mentioned several times before that you wanted to participate in the Chinese Master Doctor Competition."

"Now the Chinese Master Doctor Competition has already started the preliminary round."

Su Fan was originally lying on the bed resting, but as soon as he heard Wang Fei mention this, he immediately sat up.

"What do you mean by preliminary round?"

This was clearly different from the competition rules he had known about.

Because the previous rules were more of a nomination and recommendation nature.

That is, various places recommended some Divine Doctors to participate in the Chinese Master Doctor Competition.

From Wang Fei's words, it was obvious that the rules of the latest Chinese Master Doctor Competition had changed.

Wang Fei roughly understood the confusion in Su Fan's mind and immediately said:

"The rules of the Chinese Master Doctor Competition have undergone some adjustments."

"In order to allow more Divine Doctors to participate and eliminate corruption and favoritism."

"The rules of the Chinese Master Doctor Competition are now divided into four stages."

"Namely the preliminary round, the city-level competition, the provincial-level competition, and the Chinese Master Doctor Competition."

"The Divine Doctors from each place need to pass each stage, and only the top one hundred Divine Doctors with the highest scores in the various competitions can participate in the Chinese Master Doctor Competition."

After listening to Wang Fei, Su Fan understood that the difficulty of this Chinese Master Doctor Competition had increased.

In this kind of competition, there are no entry barriers at the beginning, so most doctors would give it a try.

With many doctors participating, there were bound to be a few outstanding ones among them.

This situation would clearly occur in all provinces and cities.

The gold content of winning the title in this year's Chinese Master Doctor Competition would definitely be higher than ever before.

Thinking about it, Su Fan asked, "How do I register for the preliminary round?"

Wang Fei didn't say directly; instead, she opened a page on her phone and handed it to Su Fan.

Su Fan took her phone and started to look at it carefully.

He then saw that registration for the preliminary round could be done directly online.

Besides the registration method, he also saw the scoring system: the preliminary round had a maximum score of twenty points, the city-level competition had a maximum score of thirty points, and the provincial-level competition had a maximum score of fifty points.

The combined total score of these three rounds was one hundred points.

However, it wasn't necessary to score a hundred points; as long as the score was in the top hundred nationwide, one could participate in the final Chinese Master Doctor Competition.

With such screenings in each stage, those who participated in the Master Doctor Competition were truly great masters, and winning the title would be tremendously difficult.

After looking at it carefully, Su Fan did not hesitate and filled out the registration information.

After successfully registering, Su Fan felt a bit troubled.

He didn't know if he could help Ning Zhengde handle the Ning family affairs before the preliminary round began.

There were only more than twenty days left before the preliminary round started.

The Chinese Master Doctor Competition was something that many doctors were paying attention to.

But the doctors in Yang City were not very interested in this event.

Doctors from other places, if they couldn't shine in the city-level, provincial-level competitions, or the final Chinese Master Doctor Competition, could still show off in the preliminary round.

The doctors in Yang City did not have this treatment.

Because Yang City had Su Fan, and so far, no Divine Doctor had emerged in Yang City who surpassed Su Fan in medical skills.

After completing the registration for the preliminary round of the Chinese Master Doctor Competition, Su Fan returned the phone to Wang Fei.

He then lifted Wang Fei by the waist and carried her toward the bathroom.

Wang Fei, of course, knew what he was about to do, and immediately said, "Let me clean up a bit first."

This time, Su Fan did not refuse and directly put Wang Fei down. He then walked toward the balcony and looked out at the city.

When he reached the balcony, he received a text message on his phone.

The message was from the Chinese Master Doctor Competition's preliminary round organizers, asking him to go to the city's first hospital at the end of the month to participate in the preliminary competition.

Chapter 872

This left Su Fan a bit astonished as the affiliated hospital had better conditions in every aspect compared to the municipal hospital.

Holding such a large event, they didn't even come to the affiliated hospital. He couldn't fathom what the organizers were thinking.

While he was muttering in his heart, Wang Fei also came to his side: "I've cleaned up."

Su Fan nodded slightly: "Let's go."

Saying this, he brought Wang Fei along and they headed to the bathroom together.

Once in the bathroom, he said to Wang Fei: "Sister Fei, kneel down."

Wang Fei hesitated slightly upon hearing his words but still knelt down in front of Su Fan.

Next, Su Fan roughly pried open her cherry lips with his 'dragon vein' and began enjoying Wang Fei's services.

Initially, what happened to Wang Fei wasn't a big deal.

The so-called Qi family was completely vulnerable back then.

But Qi Tian, whom no one thought highly of, inexplicably made a name for himself after going to Europe.

Su Fan and Qi Tian had fallen out to such a degree obviously because of Wang Fei.

However, Su Fan didn't regret it. Whether it was Qi Tian or Palar, sooner or later he'd deal with them.

After enjoying Wang Fei's services for a while, Su Fan made her lean over the edge of the bathtub.

Before long, Wang Fei felt a terrifying intrusion.

The long-lost fullness and tearing sensation surged through her once again at this moment.

At this very moment, Wang Fei's phone rang.

Su Fan glanced at it and saw it was a call from Wang Fei's cousin.

Wang Fei immediately looked imploringly at Su Fan, who then nodded and transitioned from his previously aggressive approach to a tender and slow one.

If he continued like this, it wouldn't be a problem.

But Wang Fei was worried that Su Fan would mess around while she answered the call.

She answered the call anyway: "Cousin, what's up?"

Wang Fei's cousin was named Wang Mingyuan.

This time, he indeed had something to discuss with Wang Fei.

Over the phone, Wang Mingyuan cheerfully said: "Cousin, have you been busy with work lately?"

Wang Fei wasn't very fond of these relatives.

Not because she was mean, but because help among people should be mutual.

However, these family members couldn't offer her any help and often came to her with things to do.

Plus, she was currently leaning over the bathtub enduring Su Fan's assault, making her very uncomfortable.

She replied impatiently: "Cousin, just tell me what you need help with."

"I..."

Wang Fei wanted to speak, but as soon as she opened her mouth, Su Fan's movements inside her made her almost scream.

Luckily, it was just an unintentional move by Su Fan, not deliberately pushing her over the edge.

She composed herself and continued speaking to Wang Mingyuan: "Cousin, let me say this upfront, I've helped your family a lot over the years."

"Unless it's absolutely necessary, I hope you can find your own way to handle things."

"Your family did support us when I was young."

"But over the years, I've repaid that debt more or less."

Hearing this, Wang Mingyuan was naturally furious.

If it wasn't for their family's support back then, would Wang Fei have grown up smoothly and completed her studies?

Now that Wang Fei was living well, their family had a significant hand in her success!

However, with a favor to ask this time, he didn't dare to show his anger, only managed to say with a forced smile:

"Cousin, rest assured, I wouldn't bother you for trivial matters."

"But this time, we truly need your help."

"Your sister-in-law, being a pharmaceutical professional, wants to join your company. What do you think..."

Before Wang Mingyuan could finish, Wang Fei angrily cut him off: "Since when did my sister-in-law become a pharmaceutical professional?"

"Wasn't my sister-in-law an accountant?"

On the other end, Wang Mingyuan awkwardly explained: "That was in the past. You're speaking of my ex-wife. I'm talking about my current wife."

Chapter 873

Upon hearing Wang Mingyuan's words, Wang Fei wanted to hang up the phone.

Wang Mingyuan had divorced and remarried but didn't send her an invitation.

Now he remembered her when he needed a favor to get his wife a job.

However, Wang Fei didn't immediately agree and instead looked at Su Fan.

Su Fan didn't like employees who joined through connections.

Fortunately, Oriental Pharmaceutical was growing rapidly and could arrange a trivial position for the other party.

The company still had some positions with mediocre salaries and simple tasks.

Obviously, Wang Fei could arrange such a position for her cousin's wife.

Without hesitation, Su Fan nodded to prevent Wang Fei from being in a difficult position.

With Su Fan's signal, Wang Fei sternly said to Wang Mingyuan, "This is the first time and also the last time."

"If there's a next time, don't bother calling me!"

Upon hearing this, Wang Mingyuan immediately smiled and said, "Got it, got it. Thanks, cousin."

Although he said this, he didn't take it seriously.

In fact, he somewhat despised Wang Fei.

Even though Wang Fei hid it well, her rapid breathing and soft moans revealed she was being pleased.

But as long as Wang Fei agreed to this, it didn't matter. Lin Jing had promised him that if this worked out, Lin Jing's sister would be with him.

This time, Wang Mingyuan clearly tricked Wang Fei.

Because Lin Jing wasn't his wife, nor his girlfriend, but the sister of a woman he was pursuing.

If it was just that, it wouldn't be a big deal.

The key was that it was a scheme targeting Oriental Pharmaceutical.

Lin Jing was the president of a pharmaceutical company in Weicheng, but the pharmaceutical industry was highly competitive.

Her company was already on the brink of bankruptcy.

In contrast, Oriental Pharmaceutical was thriving.

This made Lin Jing think about Oriental Pharmaceutical.

Instead of directly joining Oriental Pharmaceutical, she created a fake identity and prepared to join through nepotism.

The woman who captivated Wang Mingyuan was not Lin Jing's sister but a third-rate model she hired.

Su Fan didn't expect this to be a corporate battle.

To him and Wang Fei, it seemed like an ordinary case of nepotism.

That day, Su Fan spent most of his time with Wang Fei.

The next day, when they went to the company together, they saw Lin Jing.

Seeing Lin Jing, Su Fan thought Wang Fei's cousin was quite lucky.

Lin Jing looked about twenty-eight or twenty-nine years old, with a tall and well-proportioned body, and her ample bosom was quite prominent.

Her clothes seemed about to burst open at any moment.

Seeing Lin Jing, Wang Fei thought she must be blind to be with her cousin.

However, both Su Fan and Wang Fei underestimated Lin Jing.

This woman who came to the company as Wang Fei's cousin's wife was here to steal Oriental Pharmaceutical's business secrets.

Evidently, Lin Jing did her homework before coming to Oriental Pharmaceutical.

Seeing Su Fan and Wang Fei, she was momentarily stunned before recognizing them.

Then Lin Jing greeted Su Fan and Wang Fei.

"Hello, President Su. Hello, Director Wang."

Su Fan slightly nodded and didn't say much to Lin Jing, heading straight to the Medical University's affiliated hospital to work.

After Su Fan left, only Wang Fei and Lin Jing remained here.

After a moment's hesitation, Wang Fei called her cousin's wife.

"Cousin, did you study pharmacy?"

Lin Jing nodded, "I have a bachelor's degree in pharmacy."

She was lying.

In reality, she had a postdoctoral degree in pharmacy, and her company was a struggling family business.

But Lin Jing knew she couldn't tell the truth; if she did, she would surely arouse suspicion, so she claimed she had only a bachelor's degree.

Chapter 874

The biggest topic at the Affiliated Hospital of the Medical University was the preliminary selection of the China Famous Doctor Competition.

Most of the doctors in the hospital were discussing this matter.

Su Fan hadn't been at the hospital long before he saw Bai Man.

Bai Man had long known that Su Fan had a long-term plan— to win the China Famous Doctor Competition.

When she saw Su Fan, she walked over and asked, "You must have signed up, right?"

Su Fan nodded, "Sister Man, I've already signed up. The preliminary selection will be in just over twenty days."

"Do you have confidence?" Bai Man continued to ask.

Su Fan smiled, "In the preliminary selection, the city competition, and the provincial competition, I will surely clear all the hurdles."

"As for the final China Famous Doctor Competition, I am confident, but I can't be sure what the final result will be."

These words were already very modest of Su Fan.

Bai Man laughed and said, "You're already so confident. The preliminary selection hasn't even started, and you're preparing to compete for good results in the final China Famous Doctor Competition?"

Su Fan nodded slightly, and he wasn't just aiming for a good result, he was aiming to win first place in the China Famous Doctor Competition!

While Su Fan was chatting with Bai Man, Zhang Haitao also came over.

This matter was also a big deal for the hospital.

Su Fan's presence had brought a lot of development to the Affiliated Hospital.

If Su Fan could shine in the preliminary selection, city competition, and provincial competition, the Affiliated Hospital would obviously see further development.

Zhang Haitao took this matter very seriously.

In Zhang Haitao's view, if Su Fan could win the provincial competition, he would have no regrets even if he were to retire then and there.

During his tenure, the Affiliated Hospital had developed rapidly and produced a provincial champion in the China Famous Doctor Competition.

For Zhang Haitao, this was already enough.

Su Fan originally wanted to catch up with Bai Man.

He had been too busy lately and hadn't had a deep and shallow conversation with Bai Man for some time.

His aunt Bai Man, although she seemed like a cold and elegant woman, was actually a little minx inside.

If he didn't take care of those fertile fields, someone else might take advantage.

Of course, with his current prestige in the hospital and in Yang City, normally no one would dare to mess with him.

At Zhang Haitao's invitation, Su Fan followed him to the director's office.

In the director's office, not only Zhang Haitao was there, but also his young wife Zhou Jie.

Zhou Jie was wearing a snow-white lab coat, but underneath she was wearing a skirt instead of pants.

Her long legs were clad in ultra-thin white stockings, and she wore a pair of white high heels.

Because she was nearsighted, she also wore a pair of black-framed glasses.

Her appearance made Su Fan really want to cultivate her, too.

He hadn't visited Director Zhang's home as a guest for a long time; Zhou Jie's fields might have been neglected.

Seeing Su Fan, Zhou Jie was a little nervous.

She had experienced Su Fan's daring behavior; whenever he got the chance, Su Fan would tease her to death.

It was better at her home before; as long as she avoided Zhang Haitao, there was no problem.

But this time was different, this time it was in the hospital, with many people around.

If Su Fan bullied her and someone saw it, things would get really interesting.

After entering the office, Su Fan just smiled and greeted Zhou Jie, then sat opposite Zhang Haitao and started discussing important matters with Director Zhang.

Zhang Haitao lit a cigarette after sitting down, took a comfortable drag, and then looked at Su Fan and asked:

"Xiao Fan, how are your preparations for the preliminary selection of the China Famous Doctor Competition?"

Chapter 875

Su Fan casually said, "There won't be any problems with the preliminary competition. I'm aiming for the national competition of the Hua Xia Famous Doctor Tournament."

This was exactly the confidence Zhang Haitao wanted from Su Fan!

Seeing Su Fan so confident, Zhang Haitao was extremely pleased.

After thinking for a moment, Zhang Haitao said, "Xiao Fan, before the preliminary competition, why don't you stay at my house."

"You should spend all your time and energy on studying medical techniques and preparing for the competition."

"I'll have your sister-in-law take care of your daily needs."

Zhou Jie almost fainted upon hearing this.

Zhang Haitao was truly senile now. What else could it be but inviting trouble?

He was practically offering his wife to someone else.

Su Fan had originally thought that Zhang Haitao had called him over just to say a bunch of meaningless things.

But hearing him say this, Su Fan naturally agreed.

However, remembering that there was still a patient to be treated at Eastern Medicine Company,

and that he would need to handle some matters with Ning Zhengde later, Su Fan quickly said:

"Thank you, Director, but it's more convenient for me to prepare for the Famous Doctor Tournament at the hospital."

"Could the hospital perhaps convert an unused room into a temporary rest room?"

"I plan to stay at the hospital for a while."

Zhang Haitao waved his hand upon hearing this and said, "No need to go to such trouble."

Then he pointed to a suite next to his office and said:

"The room next door is the director's rest room, which was built for the director when the hospital was first constructed."

"But I don't have the habit of staying at the hospital; I always go home. You can stay there for now."

As he spoke, Zhang Haitao also took out a key and handed it to Su Fan.

At the same time, he told Su Fan, "There are two small suites in the rest room."

"You and your sister-in-law can each take one suite during this period."

While talking, Zhang Haitao handed another set of keys to Zhou Jie.

His initial thought was to bring his two sons to the hospital at an appropriate time.

But those two wastrels were completely unreliable.

After much consideration, he decided to have his wife come to the hospital.

He could probably work at the hospital for another four or five years, during which time Zhou Jie could rise to the top of the hospital management.

Once he retired from the director's position, there was a good chance that Su Fan would become the director of the Affiliated Hospital of Medical University.

In such a situation, not only did he need to maintain a good relationship with Su Fan, but Zhou Jie also needed to have a good relationship with Su Fan.

During Su Fan's preparation for the Hua Xia Famous Doctor Tournament, if Zhou Jie could assist with his daily needs, a bond would be formed.

In the future, if Su Fan became the director or rose to an even higher position in the medical system, he would certainly remember their past relationship.

Zhang Haitao's plan was brilliant, yet he didn't know that Su Fan was not as harmless as he appeared.

While he was thinking about future benefits, he didn't realize that his young wife was soon going to be in trouble.

After giving Su Fan some more instructions, Zhang Haitao let Su Fan and Zhou Jie go tidy up the room.

There was everything needed in the two suites, so there wasn't much to tidy up, just a bit of dust to clean up.

Zhou Jie could handle these things alone, but Su Fan stayed to help.

He wasn't in a hurry to take Zhou Jie now.

There were about twenty days until the Hua Xia Famous Doctor Tournament preliminary competition, and during those twenty days, he could have Zhou Jie multiple times each day.

After cleaning up the room and buying some living supplies to put in the suites,

they went to the hospital cafeteria to have a meal with Director Zhang and Zhou Jie, and then Su Fan returned to his office.

But he didn't stay in his office for long, heading instead to Bai Man's office.

Chapter 876

Bai Man seemed to be taking a nap; her office was locked from the inside.

But of course, Su Fan wasn't deterred; he came to the window and observed for a moment.

Upon discovering that the window to Bai Man's office was open and that no one would see him entering through the window,

he nimbly climbed through the window, into Bai Man's office.

Evidently, Bai Man wouldn't have expected anyone to be agile enough to climb the outer wall and get into her office.

Consider her office is on the third floor.

Moreover, there were hardly any footholds on the outer wall.

But for Su Fan, this posed no challenge.

He easily made his way into Bai Man's office.

Just like he imagined, Bai Man was indeed taking a nap.

From her appearance, it seemed like she had been working quite hard recently, and was sleeping soundly during her nap.

He didn't wake Bai Man up; he wanted to give her a scare.

He came before Bai Man, lifted her shirt, and covered her pretty face with it.

One of his large hands covered her mouth, while the other hand lifted her bra and gave her full, ample chest a rough squeeze.

This sudden movement, of course, instantly woke Bai Man up in shock.

But with her face covered by her shirt and a large hand over her mouth, she had no idea what was happening.

She couldn't understand how someone could break into her office when she had clearly locked it.

Despite not being able to see or make a sound, Bai Man struggled violently.

But being a normal person, how could she compete with Su Fan, a master at his level?

Before long, she was overpowered.

As Bai Man grew furious, an intruding force entered her secret garden.

Previously frightened, Bai Man now found herself at a loss for words.

This secret garden had welcomed very few visitors; how could she not know who this was?

The feeling of being thoroughly filled, with a hint of tearing pain, could only be caused by Su Fan!

She immediately stopped struggling, pushed Su Fan's hand away, and removed the shirt from her face.

Bai Man glared at Su Fan and said, "Xiao Fan, are you bored or what?"

As Su Fan continued his slow but steady assault on Bai Man, he laughed and said, "Sister Man, just playing a joke with you."

Bai Man chuckled and then deliberately teased Su Fan, "Earlier, I thought another man got lucky and could have a taste of me."

Su Fan knew that Bai Man was teasing him, but he gave her a hard thrust, making her cry out involuntarily.

He then seriously told Bai Man, "Sister Man, only I can have you, understand?"

Bai Man pouted, "Why? My body belongs to me. Whoever I want to give it to is my choice."

Hearing this, Su Fan leaned in and gave Bai Man a fierce kiss, saying, "Then I'll make sure you're too scared to think of any man."

Startled, Bai Man retorted, "You wouldn't dare! I'm your aunt by marriage, show some respect!"

Su Fan had no intention of respecting her wishes; his response was a storm of relentless, intense thrusts.

All Bai Man could do was cover her mouth and silently endure, unable to utter a single word of surrender.

During his time in Tianhai, Su Fan hadn't been able to please Bai Man.

But this time, the onslaught Bai Man endured would suffice for three or four days, if not more.

Eventually, she couldn't even cover her mouth anymore; instead, she pushed against Su Fan's waist.

If this continued, Su Fan would shatter her heart of passion.

The other doctors in the hospital had no idea where Director Su of the TCM Department had gone.

Chapter 877

However, at this time, nobody was looking for Su Fan.

Many doctors who understood traditional Chinese medicine were preparing for the upcoming sea selection.

They couldn't make a big splash in the national competition of the Huaxia Famous Doctor Contest, but it was still possible to strive for a place in the city-level competition through the sea selection.

Not only did the doctors from the affiliated hospital of the Medical University think this way, but doctors from other hospitals generally thought the same.

Being able to pass the sea selection was a proof of their medical skills.

If they could get a place in the city-level competition, or even the provincial competition, it would be even more remarkable.

Compared to the tense seriousness of the other doctors, Su Fan was very relaxed.

With his medical skills, participating directly in the final competition would be no problem, so there was no need to be nervous.

Bai Man originally wanted to take a nap, but Su Fan's sudden arrival made it impossible for her to sleep.

All afternoon, she was thoroughly developed by Su Fan.

Perhaps it was because he hadn't developed Bai Man for a while.

Su Fan found that the previously smooth path had become much narrower, requiring him to use greater resolve to suppress the entrance.

Otherwise, with the slightest carelessness, the entrance would be breached, depleting the reserves of elixirs.

As Bai Man's entire body became incredibly soft under Su Fan's assault, her pearly teeth and red lips were pried open by him at the last moment.

Even though Bai Man was unwilling, she was still fed by Su Fan until she was full.

Since she didn't open her mouth in time, her face and hair became sticky.

Bai Man immediately looked at Su Fan with a murderous glare.

She even contemplated perishing together with Su Fan and directly stood up, leaning in to kiss him.

At other times, if Bai Man dared to do this, Su Fan would kiss her to death, making her cry.

But now it was different; Bai Man's mouth was still filled with a significant amount of life essence, and Su Fan had no desire to kiss this beautiful cousin-in-law.

More than that, he reached out his finger and lightly touched Bai Man's neck, making her reflexively swallow.

Just a moment ago, Bai Man was planning to spit it out, but now she swallowed everything down.

Furiously, she grabbed a pillow from the sofa and viciously hit Su Fan with it.

Su Fan then embraced Bai Man by the waist and pressed her back onto the sofa.

With a mischievous smile, he said, "Sister Man, do you believe that I can battle with you for eight hundred rounds, making you cry and beg for mercy?"

Bai Man raised her eyebrows, "Dare you! Let me go, it's almost time to go back to work."

Su Fan was only scaring Bai Man and didn't really intend to have an eight-hundred-round battle with her.

He held Bai Man in his arms and took out a tissue to wipe her face.

He was quite content with his current life.

Unfortunately, Palaya Castle didn't want him to have such good days.

At least for now, he hadn't blocked the financial paths of those international giants.

He just wanted to have a happy life with the many women by his side, then detoxify the fire poison in his body, and win the championship in the Huaxia Famous Doctor Contest, that's all.

But Palaya Castle and some other people didn't plan to let him live a peaceful life; they had to make things difficult for him.

If he didn't have enough strength and power, he and Bai Man might be killed by enemies even during their intimate moments.

As for Bai Man and the other women around him, the best outcome would be to be killed as well, and the worst would be to become tools for his enemies to vent their anger.

No one threatening his life or trying to steal his women would be tolerated.

Therefore, he needed to help Zhao Chunqiu, Xia Zhaonan, and others quickly improve, and maintain friendship with Ning Zhengde and Ning Tianhe.

Moreover, if other experts worth cultivating and recruiting appeared, he would have to bring them under his banner as well.

Chapter 878

Bai Man, of course, didn't understand Su Fan's current situation.

Like most others, she only knew that Su Fan was successful in his career and living a glamorous life.

After wiping Bai Man's pretty face clean, Su Fan pressed his cheek against hers.

He also said to Bai Man, "Sister Man, if I win the audition, how will you reward me?"

Bai Man retorted, "With your medical skills, isn't winning the audition a sure thing? You're still asking me for a reward? The most I'll do is treat you to a meal."

Su Fan shook his head, "No, if I win the audition, just let me play for a whole day and night, Sister Man."

Bai Man raised her hand and pinched him, saying, "Get lost! Playing for a whole day and night, wouldn't that take my life?"

Su Fan just disregarded her, continuing, "Sister Man, it's decided then."

After saying this, he reluctantly grabbed Bai Man's chest twice before letting her go.

For Su Fan now, the happiest life would be to completely neutralize the nine fire poisons in his body while having enough strength to protect himself.

With enough money and a spacious, comfortable home, he and his many close female friends could live happily every day, which would be the ultimate happiness.

Given his physical condition and powerful combat ability, he could surely satisfy Bai Man, Wang Fei, Su Ya, Liu Qing, Yin Qian Yue, Jiang Yuan, Han Xinying, and Bai Jiajia.

But this happy life is clearly not achievable now, and it would take a long period of hard work to possibly become a reality.

After leaving Bai Man's office, Su Fan went to treat Ning Zhengde.

He currently had to see many patients, but for people like Mayor Jiang Gao, taking the prescribed medicine was sufficient.

As long as there were no accidents and they kept taking the medicine, they would recover their health to the greatest extent.

Right now, the only person who needed his concentrated treatment efforts was Ning Zhengde.

It was just a few minutes' walk from the hospital to Eastern Medicine Company's treatment room.

Upon arriving at the company, Su Fan saw Wang Fei.

Despite having just had an intense time with Bai Man, upon reaching the corridor corner, he still pressed Wang Fei against the wall and kissed her hard.

Wang Fei naturally didn't know that Su Fan had kissed Bai Man not long ago.

Of course, even if she knew, it wouldn't matter; she could only endure it silently with Su Fan.

After kissing Wang Fei for a while, Su Fan said to her, "Go get busy, I'll go treat Mr. Ning."

Wang Fei nodded and then continued with her work.

Outside Ning Zhengde's treatment room, the first person Su Fan saw was Ning Miaoyan.

As for the Ning family's three Huaqi level experts, they were in the treatment room, guarding Ning Zhengde.

These three were probably not a problem.

If they had any issues, Ning Zhengde might have been taken out at his weakest moment.

Every time he saw Ning Miaoyan, Su Fan felt very regretful.

Ning Miaoyan was also a woman with a supreme yin body, but someone unknown had claimed her first.

As a result, Ning Miaoyan's supreme yin body was broken and could no longer help him neutralize his fifth fire poison.

Seeing Su Fan, Ning Miaoyan greeted him, "Divine Doctor Su, are you here to treat my grandfather or for something else?"

Su Fan said, "I'm here to treat Mr. Ning."

Hearing this, Ning Miaoyan led him into Ning Zhengde's treatment room.

The Ning family's three Huaqi level experts retreated soon after he entered.

This time, Ning Miaoyan didn't leave.

Her staying behind was obviously under Ning Zhengde's instruction.

After Ning Miaoyan closed the door, the previously weak-looking Ning Zhengde immediately changed his appearance.

Although he still needed several more treatments, his condition had greatly improved.

Chapter 879

While Su Fan was giving him acupuncture, Ning Zhengde said straightforwardly, "Divine Doctor Su, I have roughly found out where my second son is."

The second son he mentioned was the Gang Qi Realm expert Ning Tianhe.

Su Fan's hands didn't stop moving while he casually asked, "Where is Mr. Ning Jr. currently being held?"

Ning Zhengde replied earnestly, "On a deserted island in international waters."

Su Fan curiously asked, "Does the opposition have Gang Qi Realm experts?"

Ning Tianhe was a Gang Qi Realm martial artist. To subdue him, the opposition would logically need to send out a Gang Qi Realm expert.

Ning Zhengde shook his head, "According to my investigation, the opposition doesn't have any Gang Qi Realm martial artists."

"The reason Tianhe fell into their hands was because people from the second branch colluded with them."

Su Fan continued asking, "Who are these people?"

A name Su Fan hadn't expected quickly came out of Ning Zhengde's mouth.

"These people are from Fort Palia. Miao Yan's younger sister, Ning Miaoqi, has been brainwashed and controlled by them."

"They used Miaoqi as bait to capture Tianhe."

Su Fan genuinely did not anticipate that this matter would be related to Fort Palia.

However, it also made sense. The people of Fort Palia always appear where others least expect them to.

Su Fan had one last question, "Elder Ning, is this information reliable?"

Ning Zhengde nodded, "Absolutely reliable. I have two very important informants in the second branch."

"All this intelligence was passed on by these two informants."

After he finished, Ning Zhengde quickly continued to say:

"Once my condition improves enough, I'm planning to go rescue him."

"For this rescue mission, I am not planning to bring any other experts from the main branch. I intend to go only with Divine Doctor Su."

Su Fan nodded, "No problem, but why not bring other experts?"

Ning Zhengde said, "I am not sure if there are any informants from the second branch among the main branch's experts."

"Moreover, the more people we bring, the bigger the target, which is not conducive to the operation."

"Divine Doctor Su, it would be best if you could also prepare for the rescue. Tianhe is currently being suppressed by Fort Palia's drugs."

"If Divine Doctor Su can neutralize the drug's effect on Tianhe, with his Gang Qi Realm strength, plus you and me, we could wipe out all the experts from Fort Palia and the second branch on that deserted island."

Su Fan wasn't very interested in killing the experts from Fort Palia or the Ning family's second branch.

He was more interested in whether Ning Miaoyan's younger sister, Ning Miaoxi, was indeed of the Extreme Yin Body and whether she was a virgin.

If she was of the Extreme Yin Body and a virgin, he even considered forcing himself on her after landing on the island.

After neutralizing the fifth fire poison within him, he would be able to successfully enter the Gang Qi Realm.

With the strength of the Gang Qi Realm, he would then have the ability to protect himself against Fort Palia.

The two hundred million US Dollar bounty was very attractive to Qi Realm experts, but held no interest to Gang Qi Realm experts.

Ning Zhengde had just mentioned things that Ning Miaoyan seemed to have known for a long time.

At that moment, Ning Miaoyan was not showing any signs of surprise.

She quickly said to Su Fan, "Divine Doctor Su, for this mission, do you need the Ning family to provide you with any assistance or advance payment?"

Su Fan did not hold back with Ning Miaoyan regarding this matter.

He directly said, "I need two items."

"The first item is the alchemy furnace used by the Medicine King, Sun Simiao, in making medicine."

"The second item is the Qi Huang Medical Canon."

After he spoke, Ning Zhengde said, "The alchemy furnace used by the Medicine King, Sun Simiao, can be given to you."

"But what is the Qi Huang Medical Canon that you are asking for?"

Even Ning Zhengde didn't know what it was, and it was clear that Ning Miaoyan knew even less about it.

Chapter 880

It's normal for the two of them not to know.

Like ordinary doctors, they only know medical books like the Inner Canon of Huangdi.

When Ning Zhengde and Ning Miaoyan looked at him seriously, Su Fan also explained in detail:

"Traditional Chinese medicine originated from the Yellow Emperor, and during the times of the Yellow Emperor and Shennong, there was a group of people dedicated to studying Qi Huang's medical skills."

"This group of people inherited the medical knowledge of the Yellow Emperor and Shennong, and continuously developed it during the inheritance process."

"These people are called the Qi Huang school, including themselves, their disciples, and their disciples' disciples."

"For thousands of years, they have been painstakingly studying medical techniques."

"They compiled their research over thousands of years into the Qi Huang Medical Canon."

"The Qi Huang Medical Canon has a total of twenty-four volumes, each profound and embodying the wisdom of several hundred to several thousand years of traditional Chinese medicine."

"I hope the Ning family can use its resources to help me find the Qi Huang Medical Canon."

Regarding the Qi Huang Medical Canon, if Ning Miaoyan and Ning Zhengde wanted to understand, they clearly could have known.

But whether it was Ning Miaoyan or Ning Zhengde, it was clear that they didn't know before that there was such a thing as the Qi Huang Medical Canon in the world.

However, it didn't matter; now they knew what it was.

It all depended on whether the two were willing to help Su Fan with this.

Ning Zhengde didn't hesitate and directly nodded, saying: "The Ning family will do its best to accomplish this."

As he is still the head of the Ning family, once he spoke, the matter was settled.

Su Fan then continued treating Ning Zhengde.

During the treatment, Ning Zhengde asked: "Divine Doctor Su, how much longer will I need treatment to recover?"

This time, Su Fan could give Ning Zhengde a definitive answer: "Another five days of treatment and Elder Ning should be almost recovered."

Ning Zhengde was overjoyed: "Good, then these five days, I'll trouble you, Divine Doctor Su, to prepare well. When the time comes, we'll go rescue people together."

Su Fan nodded: "Rest assured, Elder Ning, I will do my best to prepare for this."

After finishing the treatment for Ning Zhengde, Su Fan left the treatment room.

For the next five days, he would need to come daily to treat Ning Zhengde.

Ning Zhengde was quite unfortunate, as he was only a small step away from breaking through to the Gang Qi Realm.

Perhaps worried that if the main branch had two experts in the Gang Qi Realm, the secondary branch would fall completely, someone from the secondary branch took action against him.

Now, it had become very troublesome for Ning Zhengde to break through to the Gang Qi Realm.

Ning Miaoyan worked very efficiently. On the second day after Su Fan raised his two requests, she brought him the alchemy furnace used by the Medicine King, Sun Simiao.

On the third day, Ning Miaoyan brought him the first six volumes of the Qi Huang Medical Canon.

These six volumes of the Qi Huang Medical Canon were somewhat useful to him, but not drastically so.

Because he already mastered the first twelve volumes of the Qi Huang Medical Canon.

However, as the Qi Huang Medical Canon has been passed down through ages, it might have some omissions and errors.

Getting the Qi Huang Medical Canon from other sources could supplement and corroborate the medical techniques he already knew.

After carefully reading these six volumes of the Qi Huang Medical Canon, Su Fan indeed made some progress.

His grandfather had passed down the first twelve volumes of the Qi Huang Medical Canon to him, but his grandfather's knowledge also came from just one source.

This time, the Qi Huang Medical Canon he obtained recorded some medical techniques that even his grandfather had not taught him.

In these few days, Su Fan's life remained rather peaceful.

Next, he just needed to cure Ning Zhengde, and then go to rescue people together with Ning Zhengde.

After finishing this, he would then proceed to participate in the preliminary round of the China Famous Doctor Competition.

During the day, Su Fan worked at the hospital, and as long as there were no major incidents, his work was relatively relaxed.
