

Temptation 891

Chapter 891

Su Fan nodded, but he still couldn't help planting a kiss on Ning Miaoqi's lips.

The group of people researching gene science and life science at Palieya Fort are basically beasts.

But it must be said, both Ning Miaoqi and Zhen Bingyu, having undergone multiple genetic optimizations, are breathtakingly and unbelievably beautiful.

The beauty of North Korean women is mostly achieved through plastic surgery.

While the beauty of Ning Miaoqi and Zhen Bingyu comes from their genes being optimized, making them progressively prettier.

After a passionate kiss with Ning Miaoqi and savoring her soft tongue, scraping and sweeping.

Su Fan whispered his secret in Ning Miaoqi's ear: "The reason I can solve your problems is because my body is somewhat special."

"I have nine strands of fire poison in my body, and if I don't fully resolve them before they explode, I'll bleed from every pore and die."

"Conversely, if I resolve the fire poison, I will gain great benefits."

"Every resolution allows me not only to save my life but also strengthens my limbs, bones, internal organs, meridians, and the twelve main channels."

"To resolve the fire poison, I need the help of a woman with an extreme yin body, and your physique happens to be an extreme yin body."

"My current strength is at the peak of the Transformation Realm Great Perfection, and if I resolve a strand of fire poison, I can break through to the Gang Qi Realm."

"Whether it's to deal with Hoffman and others or to face the upcoming retaliation from Palieya Fort."

"I need the strength of the Gang Qi Realm to protect myself and provide assistance to you."

After saying this, Ning Miaoqi paused and then said: "I'm sorry, I misunderstood you earlier."

Su Fan shook his head: "No problem."

This time, Ning Miaoqi truly relaxed.

Su Fan soon arrived at the secret garden, a thin barrier quickly shattered under his effort.

In that moment, Ning Miaoqi clenched her delicate fists in pain and couldn't help but gasp.

In the tent, Ning Miaoqi endured the pain without making a sound.

Her endurance is extremely impressive; since it was her first experience, Su Fan didn't act too intensely or create chaos.

Otherwise, no matter how strong Ning Miaoqi's endurance is, she couldn't withstand it.

As she lay in the cold tent, she soon felt a warm body pressed against her.

Su Fan pried open her lips and teeth.

Once more, her little tongue was savored and scraped by Su Fan.

This time Ning Miaoqi didn't refuse, but began to awkwardly respond.

Unlike her bestie, she wasn't seasoned with experience or skilled in oral technique.

Although she's been through many events, she is still an innocent girl.

Su Fan now, couldn't help but harbor a wicked thought.

About having the twin sisters, Ning Miaoyan and Ning Miaoxi, along with Zhen Bingyu outside, the three women on the stage.

As he pondered these thoughts, the fifth strand of fire poison in his body was finally resolved.

Pure True Qi began to emerge continually, swiftly flowing through his body.

In the process, his peak Transformation Realm Great Perfection strength also finally advanced further.

In no time, he successfully became a Gang Qi Realm Martial Artist.

Gang Qi Realm is a very powerful realm.

The key feature of this realm is the possession of protective qi armor!

Protective qi armor is the release of refined True Qi outside the body.

The Martial Artist at this realm can use protective qi armor to fend off bullets from small firearms.

Both pistols and most rifles cannot pierce a Martial Artist's protective qi armor.

As the strength of the Martial Artist grows, the intensity of the protective qi armor will continuously increase.

Chapter 892

Su Fan's astonishing physical transformation was not only felt by himself, but also by Ning Miaoqi.

Ning Miaoqi, who had been enduring silently before, couldn't help but reach out and hold Su Fan tightly, preventing him from moving erratically.

At the same time, Ning Miaoqi's long legs also fixed Su Fan's waist in place.

She felt like Su Fan's "little friend" seemed to have swelled a bit.

Even just like this made her feel like she was close to tearing apart.

If Su Fan continued to attack, even if she was a peak expert of the Gang Qi Realm, she would cry in front of Su Fan.

Su Fan felt gratitude and tenderness towards Ning Miaoxi; without her, he couldn't have broken through to the Gang Qi Realm so quickly.

After the two had close physical contact, he naturally wished to use all his strength to take care of and cherish this beautiful girl.

Ning Miaoxi's feelings at this moment were also quite peculiar.

She felt a primal joy coming from the base genes, while she somewhat wanted to ask Su Fan if he was done, yet was reluctant to let Su Fan leave.

Ning Miaoxi's mood was complex but happy.

This novel sensation made the young girl shy and enchanted.

Although she still felt a bit afraid, she couldn't help but say to Su Fan with hazy eyes, "Harder."

These two words were undoubtedly a huge encouragement to a man.

Previously very restrained, Su Fan immediately threw caution to the wind.

A stormy onslaught quickly sent Ning Miaoxi soaring to the clouds.

Moreover, one wave after another of intense peaks made this inexperienced young girl unable to stop her spasms.

At this moment, Ning Miaoxi experienced the first true extreme pleasure of her life.

As the fifth fire toxin in Su Fan's body was resolved, Ning Miaoxi's physique also received immense nourishment.

However, the side effects caused by Palia Castle Life Science Academy when optimizing their genes were not resolved.

Individuals like them, who have gone through genetic optimization, can only connect with Su Fan.

If anyone else can't control their desires and wants to do something to Ning Miaoxi and the others,

then what awaits them can only be extremely painful death.

While merging souls with Ning Miaoqi, Su Fan discovered that, although Ning Miaoqi's situation was very special, it was not without solutions.

But since he only learned half of the Qihuang Medical Canon, he always felt something was missing.

In the future, after obtaining more of the Qihuang Medical Canon from various channels, he might truly solve the problems of Ning Miaoqi and Zhen Bingyu's bodies.

In the final moments of the river bursting, the volcano erupting, Su Fan couldn't hold back and approached Ning Miaoqi's pretty face.

Ning Miaoqi was clumsy and didn't know what to do, ultimately uncertainly opening her cherry mouth.

Su Fan, unable to control himself, thoroughly fed this beautiful girl with an angelic face.

After Su Fan had fully released, Ning Miaoqi, cheeks bulging, neither swallowed nor spat, unsure of what to do.

At this moment, she happened to hear the footsteps of her good friend.

Helplessly, Ning Miaoqi could only choose to swallow.

Then Zhen Bingyu, who had been standing guard outside for them, walked in.

Seeing the gleam hanging at the corner of Ning Miaoqi's mouth, she couldn't help but smile.

As a seasoned Sea Queen, she naturally knew what that was about.

Simultaneously, she thought with emotion about Ning Miaoqi's purity and how Su Fan dared to act.

What Zhen Bingyu didn't know was that Ning Miaoqi was already the second girl of this type Su Fan had encountered.

If counting Bai Man's niece, even the third.

With the precedent set by the first two and the trials along the way, Su Fan already felt little emotional disturbance regarding such matters.

Chapter 893

Ning Miaoqi knows that Su Fan has already broken through to the Gang Qi Realm, but Zhen Bingyu does not.

But she will soon find out because Ning Miaoqi needs to confirm it.

To see if Su Fan truly has a deadly fire poison in his body urgently needing resolution, or if he is just craving her body and seeking excitement.

Ning Miaoqi therefore looked at Su Fan and asked seriously, "Is your current strength at the Gang Qi Realm?"

Zhen Bingyu didn't know the special circumstances of Su Fan, nor did she know Su Fan's previous level of strength.

But when Ning Miaoqi spoke, she was extremely surprised.

She really hadn't expected Su Fan to be a Gang Qi Realm expert!

Su Fan nodded slightly, and then, an aura of black and white, resembling yin and yang fish, condensed around him as body protective qi.

The body protective qi can spread outside like a light shield.

It can also be like a thin film, enveloping the body, having many wonderful uses.

The body protective qi means powerful defense—in dealing with a Gang Qi Realm martial artist, to punch the opponent's heart out, one must also break through their body protective qi.

Or render them without True Qi to sustain the body protective qi, or simply not give them a chance to deploy body protective qi.

Opposite Su Fan, Ning Miaoqi and Zhen Bingyu were very pleased to see Su Fan's body protective qi.

On this island, the most formidable two are Hofmann and Ning Qifeng.

But they are only experts at the Transformation Qi Realm; with Su Fan, a Gang Qi Realm expert, helping, Ning Qifeng and Hofmann are no match!

Su Fan quickly said to Ning Miaoqi and the others, "Old Master Ning Zhengde of the Ning family also came here with me, and I will tell him about our cooperation."

Ning Miaoqi nodded, "Okay."

Without delay, Su Fan swiftly exited the tent and went to find Ning Zhengde.

In Ning Zhengde's tent, several other sailors had already fainted.

Upon seeing Su Fan arrive, he asked, "Divine Doctor Su, is it time to act now?"

Su Fan nodded, "Yes, but we gained two more helpers."

"Ning Miaoxi and Zhen Bingyu will join our operation."

Ning Zhengde knows his granddaughter is on the island, but from the intelligence he received earlier, Ning Miaoxi had been brainwashed by Paleya Fort and did not recognize them.

He didn't expect Su Fan to have persuaded Ning Miaoxi.

Ning Zhengde asked uncertainly, "Divine Doctor Su, have you cured Miao Xi?"

Su Fan shook his head, "They were controlled and enslaved by Paleya Fort's Life Academy using genetic drugs."

"I have a way to free them from Paleya Fort's control, which led to our cooperation."

"Once everything is over, I plan to take them back to Yang City."

Understanding this, Ning Zhengde immediately said, "Alright, then the four of us will act together."

After gathering Ning Zhengde, Su Fan still followed the original plan, approaching the water prison where Ning Tianhe was held.

In this place, two experts from Ning family's second branch were responsible for guarding Ning Tianhe.

Additionally, there were mercenaries from Paleya Fort lurking around.

The mercenaries raised by Paleya Fort are not ordinary mercenaries but elites among mercenaries.

This time, those ambushing nearby, prepared for an ambush, were all ace snipers.

Among Su Fan's group, three were peak Transformation Qi Realm, and one was a Gang Qi Realm expert.

Handling these people, naturally very easy.

The mercenary snipers around were quietly taken down by Su Fan's group as easily as mowing down grass.

At this moment, Su Fan also entered the place where Ning Tianhe was held.

Ning Zhengde and the other three kept watch outside.

A Transformation Qi Realm expert from Ning family's second branch was dozing off in the room.

The occurrences outside had not disturbed this Transformation Qi Realm expert.

Chapter 894

When Su Fan entered the room, the other person woke up.

"What's the matter?" This person rubbed their slightly sore eyes and asked casually.

Clearly, they hadn't realized that Su Fan was not one of their own, but an outsider.

Su Fan thought quickly and said in English, "I'm here to deliver something."

As he spoke, he had already approached the Qi Realm expert.

In the Castle of Palia, there were already quite a few Asians, and coupled with the fact that he spoke English, it left the Ning family's Qi Realm expert momentarily stunned.

The other person hesitated and said, "Speak Chinese, I don't understand English."

Su Fan nodded but did not speak; the distance was already close enough.

"Swish—"

The Qi Realm expert of the Ning family's second branch witnessed in the next moment the quickest strike of his life.

Su Fan's punch, like a flash of lightning, instantly hit his heart.

The punch was incredibly fierce, incredibly swift.

The mighty Tai Chi True Qi shattered the opponent's heart in an instant.

The Qi Realm expert could only stare wide-eyed, incredulously at Su Fan.

His mouth moved, but he couldn't make a sound.

What he wanted to say was obviously the words "Gang Qi Realm!"

The commotion above wasn't large, but another Qi Realm expert in the water dungeon below still spoke up.

"Third Brother, what's going on?"

Su Fan certainly wouldn't answer this person; he was already headed down the stairs to the water dungeon.

In the center of the water dungeon, Ning Tianhe, drugged by the Castle of Palia, hung his head weakly.

Beside him in the dungeon was a woman.

The person who spoke earlier was her.

This woman was around thirty, though her real age was certainly more.

But as a Qi Realm expert, she didn't appear old.

Men and women in this world can be good or bad, kind or cruel.

The woman guarding Ning Tianhe was exceptionally cruel.

Her name was Ning Xiuying, Ning Tianhe's cousin, and one of Ning family's three geniuses.

However, Ning Tianhe and Ning Qi Yun had both ascended to the Gang Qi Realm.

She, however, couldn't take that final step.

This made her extremely jealous of Ning Tianhe and Ning Qi Yun.

With Ning Tianhe in her hands this time, she tortured him in varying ways every day.

Su Fan glanced at Ning Tianhe and saw the torture instruments in Ning Xiuying's hands, realizing Ning Tianhe was already ruined.

In fact, another genius of the Ning family wasn't faring well either.

Ning Qi Yun was a martial arts prodigy, but even heroes fall at the beauty barrier.

Facing his flirtatious cousin Ning Xiuying, Ning Qi Yun could not withstand her.

As a result, Ning Xiuying ambushed him at a critical moment, injuring Ning Qi Yun's dragon vein.

Ning Qi Yun appeared fine on the surface, but in reality, he was half a eunuch.

Although Ning Tianhe was also terribly dealt with by Ning Xiuying, at least he wasn't turned into half a eunuch.

At this time, Ning Xiuying saw Su Fan but didn't panic; instead, she said casually, "You killed Third Brother?"

Su Fan nodded as he approached Ning Xiuying.

Though this woman was beautiful, he had no qualms about punishing her toxicity.

Before arriving at the water dungeon, Ning Xiuying was doing a rather horrific thing; she had severed Ning Tianhe's tendons in his hands and feet.

Seeing Su Fan approaching, Ning Xiuying showed no fear and grabbed an axe from the side.

Then, without dodging or evading, she approached Su Fan.

As they neared, Ning Xiuying suddenly launched an attack.

Holding the axe, she swung violently at Su Fan.

Facing her strike, Su Fan showed no intention of dodging.

Ning Xiuying didn't know what Su Fan was up to, but she hesitated not a bit, swinging the axe directly at him.

Chapter 895

"Clang——"

The next moment, Su Fan's protective aura suddenly emerged.

A sound like the striking of a large bronze bell echoed, and Ning Xiuying understood why Su Fan didn't dodge.

Because Su Fan simply had no need to dodge; she was just an expert at the Hua Qi Realm, while Su Fan was at the Gang Qi Realm!

"You're at the Gang Qi Realm!" Ning Xiuying screamed, as if she had seen a ghost.

But all she could manage was that one scream, because the next moment, Su Fan's fierce punch shattered her heart on the spot!

"Boom!"

A muffled sound was heard as Ning Xiuying's heart shattered into pieces.

After dealing with Ning Xiuying, Su Fan rescued Ning Tianhe from the water prison.

Ning Tianhe was extremely weak at the moment, but he still managed to express his gratitude, "Thank you for saving my life."

Su Fan nodded slightly and then sealed a few of Ning Tianhe's key meridians.

Ning Xiuying had been very ruthless, and Ning Tianhe couldn't possibly recover in a short time, which would also affect his future martial arts journey.

Old Master Ning Zhengde had originally hoped to rely on Ning Tianhe's martial prowess to break through the encirclement.

Fortunately, he had unexpectedly gained Ning Miaoxi, who broke through to the Gang Qi Realm.

Otherwise, relying on Ning Tianhe, let alone saving people, they might not have been able to escape unscathed.

On the island, Ning Qifeng and Hoffman were very alert.

When Su Fan was preparing to take Ning Tianhe out of the water prison, Ning Qifeng and Hoffman had already led people to surround the water prison.

The three of Ning Zhengde who stayed outside were already in a standoff with Ning Qifeng and Hoffman.

Ning Qifeng was very surprised when he saw Ning Zhengde, "Old Master, how are you alright?"

Ning Zhengde sneered, "How am I alright? What you really wanted to ask was, why am I not dead, right?"

Hearing this, Ning Qifeng laughed, "Indeed, I had such thoughts."

Having said that, he continued, "But the old master really shouldn't have come to this place. Since you've dodged a bullet, you should cherish it."

Ning Zhengde saw that Su Fan hadn't come out yet, so he could only try to buy Su Fan more time.

In his view, as long as Su Fan rescued his second son Ning Tianhe, the situation would be truly settled.

However, Hoffman saw through Ning Zhengde's thoughts and didn't bother to waste words with him.

He angrily glanced at Ning Miaoxi and Zhen Bingyu, cursed them, and immediately took action.

Once Hoffman made a move, Ning Qifeng had no choice but to act as well.

The three with Ning Zhengde did not dawdle and immediately joined the fight.

Both Hoffman and Ning Qifeng were very powerful, managing to gain the upper hand even in a two-against-three fight.

Thankfully, the snipers around had been cleared out in advance.

Otherwise, if the snipers seized the opportunity during their battle, all three of them would be dealt with.

As the two sides fiercely clashed, the door on the side opened as well.

Su Fan, carrying Ning Tianhe, quickly appeared in everyone's sight.

Seeing the barely alive Ning Tianhe, Ning Zhengde's eyes reddened with rage, and he wished he could tear Ning Qifeng and Hoffman apart.

Su Fan placed Ning Tianhe to the side and then joined the battle.

Seeing him appear, Hoffman and Ning Qifeng were both extremely decisive.

The two of them simultaneously fled.

They could handle a two-against-three, but a two-against-four was beyond them.

And with Su Fan appearing here with Ning Tianhe, it meant Ning Xiuying and the others had already been dealt with by Su Fan.

Being able to take down Ning Xiuying and others, his strength was self-evident!

In such a situation, Hoffman and Ning Qifeng had no choice but to run.

Ning Zhengde roared, "Don't let those two bastards get away!"

As the elderly man shouted, he was the first to give chase.

In this regard, Su Fan, Ning Miaoxi, and Zhen Bingyu shared Ning Zhengde's sentiment.

Eliminate one enemy, and there'll be one less enemy.

With such a good opportunity, they couldn't possibly let them escape!

Chapter 896

Hoffman and Ning Qifeng were very much in sync at this moment.

Both of them were running towards the docked yacht, clearly intending to flee by yacht.

Unfortunately, among those pursuing them, there was a Martial Artist of the Gang Qi Realm.

Su Fan quickly appeared in front of them, stopping both of them.

"Bang! Bang!"

At the same time, Su Fan swung two fists in a move called Double Dragons Emerging from the Sea, sending them flying backward.

Feeling Su Fan's terrifying aura, Hoffman and Ning Qifeng were both shocked.

The Su Fan in front of them turned out to be a Martial Artist of the Gang Qi Realm!

Su Fan's punches easily injured Hoffman and Ning Qifeng.

Zhen Bingyu, who arrived from behind, suddenly struck with an elbow, slamming Hoffman to the ground.

Ning Miaoxi didn't hesitate, pulling out a triangular military dagger, piercing Hoffman's heart and throat.

Ning Miaoxi and Zhen Bingyu cooperated seamlessly.

Hoffman didn't have any chance to resist and was eliminated.

Ning Qifeng was scared out of his wits; seeing no hope of escape, he could only kneel and beg for mercy.

"Master, I'm a beast, I'm not human, please give me a chance to repent and start anew!"

Ning Zhengde struck Ning Qifeng's head with his palm.

Ning Zhengde used full force with this strike, and Ning Qifeng's brain was shaken up.

Against such beasts like Ning Qifeng, Ning Zhengde certainly showed no leniency.

With Hoffman and Ning Qifeng dead, the other mercenaries and thugs on the island were mere sitting ducks.

Soon, they were all wiped out.

Apart from Su Fan and the other four, only the crew remained alive on the island.

Su Fan's group did not slaughter these crew members; under Ning Zhengde's arrangement, a yacht quickly arrived at this location.

Ning Zhengde seemed quite experienced at sea, as this time he even carried a satellite phone in his backpack.

Once on the Ning family's yacht, everyone breathed a sigh of relief. They were essentially safe now.

Ning Zhengde could finally check Ning Tianhe's injuries.

"Divine Doctor Su, how is Tianhe's condition?"

Su Fan said solemnly, "He is seriously injured; his tendons in his hands and feet have been severed, and during this period, he was also eroded by the drugs from Parayeah Fortress."

"With treatment, he can recover to the greatest possible health."

"But his martial arts may be limited to the early stage of the Gang Qi Realm."

For ordinary people, cutting off one's livelihood is like killing their parents.

For Martial Artists, cutting off someone's martial path is akin to a vendetta of blood.

The Ning family of Hangzhou city is evidently one of Su Fan's most reliable allies in the future.

Due to the intervention of Parayeah Fortress, half of the experts nurtured by the Ning family over the years have died in internal conflicts.

Among the Ning family's three martial prodigies, one is dead, and one is crippled.

There's also Ning Qi Yun, who, though not irreversibly damaged due to internal conflict, was crippled by his cousin Ning Xiuying.

In comparison, Ning Qi Yun is considered rather unlucky.

Just because he couldn't keep his lower half in check, he gave Ning Xiuying the opportunity to severely damage his dragon vein.

On the return from international waters, Su Fan and the others took the Qinggang route.

After landing via the Qinggang route, they boarded a plane back to Yang City.

Upon returning to Yang City, this rescue operation was considered a complete success.

The next step is to have Ning Tianhe recover quickly and then clean up the scoundrels like Ning Qi Yun.

Shortly after returning to Yang City, Su Fan saw Ning Miaoyan, Ning Miaoqi's sister.

They are twin sisters and look very much alike, although Ning Miaoqi is slightly more beautiful than her sister.

Upon seeing the group, Ning Miaoyan asked Ning Zhengde, "Grandfather, do we go to Divine Doctor Su's place now, or to the villa you had me purchase earlier?"

Chapter 897

Ning Zhengde was very thorough in his considerations.

After offending Palia Castle, he had decided to form a mutual alliance with Su Fan.

In the future, the Ning family's business headquarters would still be in Yang City.

However, the Ning family's residence and its senior members would all relocate to Yang City.

They had now completely fallen out with Palia Castle.

To avoid retaliation from the other side, the best way was to unite and counter Palia Castle together.

After Ning Miaoyan inquired, Ning Zhengde casually said, "Let's go to the villa."

After saying that, he added, "Divine Doctor Su, it's presumptuous of me, but next to the Ning family's villa, we've prepared a villa of the same standard for you."

"Now our Ning family of Yang City and Palia Castle are sworn enemies."

"I hope Divine Doctor Su will not refuse and can join us in mutual aid."

The Ning family's Wenning Shipping, a top global shipping company, certainly wasn't short of money.

For them to buy a villa for Su Fan was akin to ordinary people buying a birthday cake for a friend.

Su Fan thought for a moment and didn't refuse.

When treating Ning Zhengde and Ning Tianhe, he could charge a little less as his treatment fee.

Interestingly, the villa Ning Zhengde bought was in the same villa district as Yin Qianyue's.

This way, visiting that little vixen Yin Qianyue in the future would be very easy for him.

Invited by Ning Zhengde, Su Fan went to the Ning family villa.

This time, it was not only Ning Zhengde and Su Fan; the still weak Ning Tianhe and Ning Miaoyan were also present.

In addition to these four, Ning Miaoqi and Zhen Bingyu were also sitting in the living room.

After everyone took their seats, Ning Zhengde spoke first, "Miaoqi, why don't you explain the situation first."

Hearing this, Ning Miaoqi thought for a while and said, "Palia Castle initially, like other Western universities, was a place for theological studies."

"Later, as natural sciences gradually emerged, Palia Castle became one of the Royal Academies of England."

"Now, Palia Castle is fully named Palia Castle Life Science Academy."

"Their main focus is on developing various conventional drugs and genetic elixirs, followed by live experiments."

"The goal is to maximize human potential."

"Zhen Bingyu and I were forcibly injected with genetic elixirs to rapidly advance to the peak of the Transforming Qi Realm."

"To my knowledge, their current technology can cultivate a peak Transforming Qi Realm martial artist in about five to seven years."

"However, using genetic elixirs is extremely dangerous."

"Most people either die on the spot or easily die in subsequent experiments."

"Even if one is lucky enough to survive, it's easy for them to die young."

"Those who survive will end up like Zhen Bingyu and me, enslaved by them."

After Ning Miaoqi finished, Su Fan and Ning Zhengde had a greater understanding of Palia Castle Life Science Academy.

It was an extremely cruel and vicious organization and a very formidable enemy.

Their research level in life sciences seemed to be ahead of the times.

Su Fan pondered for a while and asked a crucial question, "From the available materials, Palia Castle is known to have two Gang Qi Realm martial artists, is that correct?"

After his inquiry, both Ning Miaoqi and Zhen Bingyu shook their heads.

Ning Miaoqi said seriously, "The senior members of Palia Castle are all Gang Qi Realm, or even above that."

"I've encountered more than five Gang Qi Realm martial artists."

Having been members of Palia Castle Life Science Academy, Ning Miaoqi and Zhen Bingyu evidently understood this vast organization far better than others.

At this moment, Zhen Bingyu also chimed in, "But we don't need to worry too much."

"As long as we don't leave China, Palia Castle's Gang Qi Realm experts will find it difficult to enter the country."

"Even if they do, they'll be quickly monitored."

"To deal with us, they might use their usual tactics and put bounties on us on the dark web, letting other assassins take action."

This is a view Su Fan agreed with.

After all, he was still under a bounty from Palia Castle.

This time, Ning Zhengde gathered everyone here mainly to understand their enemy.

After gaining more insight into Palia Castle Life Science Academy, he let everyone go rest.

Chapter 898

As Su Fan and Ning Zhengde were discussing how to deal with their common enemy, the Parea family was also experiencing some events.

In the numerous countries of the Northern Europe Union, the city of Charva had no presence to speak of.

But this place is certainly not as simple as it appears on the surface.

Because the Parea family, led by John Parea, no longer lived in the Parea Fortress, but resided in the city of Charva.

Here, they remotely controlled the Parea Fortress and influenced the entire world from here.

John Parea was already old. Although he was still the helmsman of this large family, he seldom participated in the family's routine decisions.

Continuing to lead the Parea family now was John's eldest son, Kunlan Parea.

However, Kunlan was a playboy, more interested in women and a life of debauchery.

Kunlan was more easily found on a woman's belly or in the seat of a Bugatti Veyron.

In family meetings, however, the shadow of this family head was barely seen.

Fortunately, John's second son was much more reliable than his elder brother.

So currently, it was actually Ross Parea who was in control of the Parea family.

Ross, at this moment, was eating a piece of extraordinarily well-made filet steak with a dinner knife.

When he ate steak, he liked to first cut it into strips with a dinner knife, and then pick up the steak with a fork to eat.

He didn't need black pepper sauce for his steak, only the simplest sea salt.

Simplicity and simplicity were his persistent pursuits.

No matter what he did, Ross demanded it to be as simple and concise as possible.

While he was enjoying the steak, the Parea family's butler, Vinn, was also reporting to this acting family head.

Yes, Ross was just the acting family head.

His father was the old family head of this enormous family, and his elder brother was the current family head, and he was merely the acting family head.

However, Ross seemed to have no further ambitions and managed this family in the name of the acting family head.

Although Vinn was also getting on in years, his logical ability and language skills remained strong.

He quickly and clearly reported the recent unexpected incident to Ross.

After listening, Ross nodded silently.

Seeing this scene, Vinn did not linger and immediately left the place where Ross was dining.

After Vinn left, only Ross and his personal chef remained in the luxurious hall.

The chef who cooked for Ross was a tall beauty with a pair of lake-blue eyes.

After Ross finished his meal, Evangeline approached him, unbuttoned her clothes, and provided drinks for Ross.

Given the scientific capabilities of Parea Fortress, ensuring that Evangeline could feed Ross with ample nectar and dew without being impregnated was clearly not a difficult task.

Ross soon began to suck the sweet nectar from Evangeline.

He didn't like coffee, nor did he like champagne or red wine, only this special drink.

Ross soon consumed all the nectar contained in the two soft peaks.

Then he couldn't suppress his angry roar, "That Oriental man named Su Fan dared to ruin my plans!"

Although Su Fan and his group did a very clean job, some surveillance footage still returned to the Parea Fortress, and to the city of Charva.

Earlier, Butler Vinn had truthfully told Ross about the events that took place on the deserted island.

For Ross Parea, indirectly controlling the Ning family in Hang City, thereby controlling the Weining Shipping Group, was a very important matter.

This was related to the launch of a series of subsequent plans by Ross, but due to Su Fan's disruption, this matter could no longer proceed.

Evangeline was so frightened by Ross's rage that she didn't dare to breathe loudly.

Chapter 899

Yang City, in the Ning family's villa.

Su Fan, Zhen Bingyu, and Ning Miaoqi left together.

By now, the moon was high in the sky, and it was time to rest.

They had been on a deserted island for work, spent a lot of time, then rushed from international waters to Qinggang, and finally flew back to Yang City.

Not long ago, they had another meeting.

With all that, it was suddenly evening.

Ning Miaoqi could have stayed in the Ning family villa, but she preferred to be with Su Fan.

She and Zhen Bingyu actually trusted Su Fan more.

Su Fan didn't refuse, allowing Ning Miaoqi and Zhen Bingyu to stay in the villa gifted by the Ning family to him.

This villa area is the most prestigious in Yang City, called the Bai Yulan Villa Area.

However, there aren't many Bai Yulan trees; instead, there are plenty of French sycamores.

Su Fan's villa is Villa No. 5, while the Ning family's villa is Villa No. 4.

Because of the high prices, these villas had been left unoccupied, which was convenient for the Ning family.

After letting Ning Miaoqi and Zhen Bingyu rest in the villa, Su Fan went to find Yin Qianyu.

Yin Qianyu usually doesn't stay in her family's estate villa but prefers the Bai Yulan Villa Area.

Her villa is No. 11, though it's No. 11, the price is not low either.

Yin Qianyu is now one of the high-level members of her family, and the security level of her villa is quite high.

However, against a Martial Artist at the Gang Qi Realm, all her many bodyguards and the surveillance equipment around the villa were just for show.

Even though it was late at night, Yin Qianyue was still in her robe, watching TV in the living room.

Not only that, she was munching on spicy crayfish while watching.

Yin Qianyue, the beautiful girl, seemed to never worry about her figure.

As she peeled another crayfish, ready to pop it into her mouth.

The peeled crayfish ended up in someone else's mouth.

That someone else was, of course, Su Fan. So, although Yin Qianyue was quite startled, she was relieved when she saw it was Su Fan.

Yin Qianyue looked at Su Fan, and said with a hint of annoyance: "Why did you just show up at my place without a word?"

Su Fan chuckled, "Wasn't it to give you a surprise?"

Yin Qianyue pouted, "I feel the shock but not the surprise."

After she said that, Su Fan directly pinned her down, removing the disposable gloves from her hands, and asked while pressing her down:

"Do you feel the surprise now?"

Yin Qianyue, unable to move, pushed Su Fan slightly and said, "Get off me, you're going to crush me."

Su Fan laughed and replied, "Crushed already? I planned to keep you pinned all night."

Yin Qianyue snorted softly, "All that time you don't come to me, I wonder how many more new flings you've gotten outside."

Su Fan nonchalantly said, "No matter how many flings outside, I can still satisfy both of your mouths."

This time, Yin Qianyue didn't retort.

Instead, she whispered in Su Fan's ear, "Then tonight, go ahead and destroy your little bitch."

It had been a while since she'd been intimate with Su Fan, and Yin Qianyue was clearly quite lonely.

Unlike other women, she enjoyed Su Fan's domination and being harshly humiliated.

The fervent pursuit Su Fan showed to Bai Man and Wang Fei made them complain incessantly.

But when he showed such a wild storm-like pursuit, Yin Qianyue just felt pleasure.

Without hesitating, Su Fan reached into Yin Qianyue's robe and began to knead hard.

Though the force made Yin Qianyue painfully uncomfortable, she had no intention to call for a stop.

Chapter 900

She seemed to really enjoy this wonderful pleasure accompanied by waves of pain, which made Su Fan even more brazen, continuously squeezing and kneading her full, tender peaks.

Yin Qianyue soon thought of something and immediately blinked her eyes and said to Su Fan, "I have prepared a room."

Su Fan curiously asked, "What kind of room?"

Yin Qianyue replied, "Follow me and you'll find out."

Hearing this, Su Fan let go of Yin Qianyue and allowed her to lead him to that secret room.

The secret room was inside Yin Qianyue's bedroom suite.

The bedroom in the villa was somewhat similar to a large apartment, with a bathroom inside, along with several other rooms.

At this moment, Su Fan followed Yin Qianyue into a room deep inside her bedroom.

The room not only had a password lock but also a chain lock, obviously something special.

Following Yin Qianyue into the room, Su Fan realized its special nature.

This room could be called a training chamber; it had almost all the tools and medications required for training.

Most of the items, Su Fan had seen before while researching the materials Wang Fei gave him.

There were some things he didn't know what they were.

Nevertheless, it didn't matter; he would try them one by one while exploring Yin Qianyue, and he would understand their uses.

Soon, he pushed Yin Qianyue onto a chair, which was no ordinary chair.

It had straps that could bind Yin Qianyue's wrists, arms, legs, and even her body and neck to the chair, completely immobilizing her.

Leaving Yin Qianyue utterly unable to move, she could only let him do whatever he wished.

Just as Su Fan was about to act, Yin Qianyue spoke up, saying, "Would you like me to wear some black silk?"

Su Fan nodded, not refusing.

After rescuing Ning Tianhe with great effort, he deserved a good relaxation.

At the same time, inside his number five villa, Ning Miaoxi and Zhen Bingyu were already hugging each other.

The two were initially just good friends, close girlfriends.

But this island trip allowed their relationship to further evolve.

Originally, Ning Miaoqi planned to have Zhen Bingyu help her complete the transformation from girl to woman, but unexpectedly, Su Fan appeared on the island in time.

Moreover, he proposed to take Ning Miaoqi's first time.

In Zhen Bingyu's view, if a woman's first time is not taken by a man, it somehow seems incomplete.

Now it's good; Ning Miaoqi has become an enchanting temptress, a true woman.

At this moment, Ning Miaoqi was pinned down on the bed by Zhen Bingyu, who held her and showered her with kisses and nibbling.

Her tender peaks also constantly changed shape in Zhen Bingyu's hands.

But Ning Miaoqi still expressed concern, saying, "Are we really safe in Yang City?"

Feeling her worry, Zhen Bingyu lifted Ning Miaoqi up.

She lovingly kissed this dear friend's rosy lips, then said, "Relatively, we are quite safe."

"The Huaxia side won't easily allow martial arts experts from Parleia Castle to enter the territory."

"Those Parleia Castle experts with a criminal record and international assassins will find it very difficult to enter Huaxia."

"As long as there are no Gang Qi Realm experts to deal with us, we are safe."

"If a Gang Qi Realm expert does come, we'll have to seek help from your man."

The man Zhen Bingyu referred to, of course, was Su Fan.

Ning Miaoqi said with some annoyance, "If you keep making fun of me, I'll get mad."

Zhen Bingyu chuckled flirtatiously, "How am I making fun of you? It's normal for things to happen between men and women, isn't it?"

"I don't even know how many men I've been with, so what can I tease you about?"
