

Temptation 931

Chapter 931

After Su Fan demonstrated the 108 vital points to Zhou Jie.

He started to withdraw the needles, and said, "Sister-in-law, let's stop here for today."

Zhou Jie opened her mouth in some surprise, "Just this little bit?"

Su Fan had just explained the vital points to her, and even let her personally experience the wonder of them.

In Zhou Jie's view, with her learning ability, she could learn more.

After Zhou Jie inquired, Su Fan nodded, "Sister-in-law, there's a long road ahead, learn a bit each day."

"Mastering these essential medical techniques, in a few years, you'll be a doctor with pretty good skills."

After he finished speaking, he pulled Zhou Jie into his embrace.

Since the teaching was over, of course, it was time to get down to some real business.

Being held by Su Fan, Zhou Jie could only say, "Let's do this at night, it's still work time now."

She previously wondered how Su Fan had changed his usual behavior.

Now it seemed, truly, a person's nature was as hard to change as a river's path, and a cat will steal fish if it's in its nature.

Su Fan held Zhou Jie in his arms, only feeling her entire being soft and smooth, giving him a very comfortable feeling.

When he went to kiss Zhou Jie, she began to evade.

But being held tightly by him, Zhou Jie had no way to escape, she could only let him kiss and nibble on her.

Perhaps because it was still daytime, Zhou Jie wasn't as easily swayed and continued to plead.

"Doctor Su, this isn't good, let's stop."

Her breathing, already a bit rapid.

Being held in Su Fan's arms, she was completely defenseless at all three levels of her body.

Her pearly white teeth and red lips were pried open savagely by Su Fan, who then greedily took what he wanted, with licks and suction.

Her tender peaks were also toyed with by Su Fan, endlessly flattened and rounded.

The proud red plum on the snowy peaks was kneaded again and again by Su Fan.

The gateways to her secret garden were likewise continually tugged and rubbed by Su Fan.

When Su Fan spread her open with two fingers, it became like 'the path had never been swept for guests, the humble door now opens for you.'

Zhou Jie, who was initially struggling, had to give up at this moment.

She was already somewhat overwhelmed and could never break free from Su Fan's hold.

In fact, if it were nighttime when no one was around, Su Fan could do whatever he wanted with her.

After all, nighttime was supposed to be their loving time, with no other matters to attend to.

But for Su Fan to do this during the day, it made Zhou Jie a bit scared and also a little bit worried.

What if someone came looking for Su Fan at this time?

Su Fan was now a very busy and popular person in the hospital, and in Yang City.

Even some important people from other cities and provinces would seek Su Fan for medical help.

It was very likely someone could come looking for Su Fan at this time.

Of course, Su Fan also knew there was a possibility someone might come, so he planned to have a quick session with Zhou Jie this time.

Zhou Jie, whose mind was still racing a moment ago, suddenly found herself unable to keep thinking.

Even while covering her mouth with her hand, she couldn't help but scream out.

Su Fan was already well-endowed, and after undergoing several transformations, he had become increasingly formidable.

When the roaring furious dragon fully exerted itself, Zhou Jie couldn't bear it.

Su Fan hadn't even advanced much when he was completely jammed.

Zhou Jie's beautiful eyes, glistening like water, welled up with tears from the pain.

She could only whisper in Su Fan's ear, "Stop for a moment, let me adjust."

Su Fan thought for a moment and said, "It's okay, we've done this before."

Zhou Jie frowned slightly and said, "But, I'm a little scared."

She didn't understand why this was happening either.

Logically, she could accommodate Su Fan, but she felt as if Su Fan had grown again.

Chapter 932

From the perspective of Zhou Jie's knowledge, such a thing is impossible.

Zhou Jie's thoughts were interrupted once again because Su Fan had further explored with her.

At the same time, across the ocean, in the Philippines.

Philippine Stick King, Iludi, began his routine practice.

Every Martial Artist needs arduous training.

Many Martial Artists spend most of their day in strenuous training, hoping to achieve greater accomplishments in martial arts.

A Martial Artist like Su Fan, who possesses multiple training methods, is extremely rare. He might even be unique globally.

Iludi's sparring partners are three Gang Qi Realm Martial Artists.

Generally, having one Gang Qi Realm Martial Artist is already quite extraordinary.

But he himself is a Gang Qi Realm Martial Artist, and having three Gang Qi Realm sparring experts shows how much influence he has.

Iludi's weapon is called the Philippine Demon Stick, typically made of rubber wood.

However, Iludi's dual sticks are not made of rubber wood; they are made of aerospace materials.

The strength of aerospace materials is very high. After an American aircraft exploded, a small piece of metal fell onto a small town.

The town's blacksmith picked it up and prepared to forge it into a dagger.

He pounded it for half a month, but the piece of metal showed no change, demonstrating the strength of the material.

Iludi's dual sticks are forged with such material, and their power is naturally very frightening.

If his sparring partners weren't all Gang Qi Realm Martial Artists, he would probably kill a few during each practice session.

Iludi's bedroom is on the second floor of the villa.

Liu Sheng Qingyin hobbled from the bed to the window.

She glanced at the bright red plum petals on the sheet and then looked down at Iludi with venomous eyes.

Not long ago, she experienced despair in this room, undergoing the transformation from a girl to a woman.

At this moment, not only did she feel a burning pain beneath her, but even her tender peaks ached to the extent that she wanted to cut them off completely.

This Iludi is absolutely a bastard.

He wasn't merely enjoying her company; he was abusing her.

Her left tender peak had been slapped at least fifty times by Iludi, turning it bruised and swollen.

The other side fared no better, bearing a clear bite mark and some traces of blood where this madman violently bit her peak.

As for her immensely delicate secret garden, it had been scorched by Iludi with a lit cigar.

Liu Sheng Qingyin still couldn't comprehend that the person who threw her into this hell was her father, her family.

She wanted to end her life, but she was unwilling.

Yet continuing to live miserably, she didn't know how much longer this hellish life would persist.

Given Iludi's strength, she might not have the chance to exact revenge in this lifetime.

Liu Sheng Qingyin was unaware that her suffering had only just begun.

Among Iludi's many women, some went insane, while others chose to end their lives.

Obviously, those women became like that due to inhuman treatment.

Before embarking on his eastern journey, Iludi wanted to elevate his strength by another small realm.

This means that Liu Sheng Qingyin would be tormented by this devil for a short period.

No one knows Liu Sheng Qingyin's tragic ordeal, and no one cares.

Compared to the diligent and martial-focused Iludi, Su Fan spends relatively less time on martial arts and practice.

Yet his strength is also improving day and night.

After engaging yin and yang with Zhou Jie this moment, his strength achieved a certain enhancement.

Though this improvement was not much, the focus was on accumulation.

Zhou Jie was completely sprawled on the sofa, unwilling to move at all.

Chapter 933

Zhou Jie had already dressed, and like always, Su Fan had thoroughly satisfied both of her little lips.

Though her hopes were slim, Zhou Jie still said to Su Fan, "Can we not do this during the day? I'm too exhausted to work now."

Upon hearing this, Su Fan lifted Zhou Jie and then rubbed his cheek against her pretty face, saying, "Alright, from now on, I'll try not to bully my sister-in-law during the day."

He didn't promise fully, because he had a good impression of Zhou Jie, and their deep yet superficial soul exchanges seemed never enough.

Of course, Zhou Jie understood that Su Fan was hoodwinking her, but she had no choice.

Being in the same office with Su Fan was akin to sending her into a wolf den.

While Su Fan and Zhou Jie indulged in tender moments, a middle-aged man emerged from the Tibetan land.

He was a monk from Tibetan Tantrism, named Danba.

Though Tantrism is a branch of Buddhism, it venerates a multitude of demons and spirits, with many bloody and brutal bizarre customs.

In the old society, it persecuted countless innocent young girls.

These innocent girls were called Bright Concubines, tools for the high monks and masters of Tantrism, tortured until their deaths.

There are many ways the Bright Concubines could die, and each one was exceedingly tragic.

With the onset of the new era, though Tantrism is well-managed, some of its legacy continues to develop according to outdated customs and superstitions.

These Tantrisms are referred to as ancient Tantrism sects.

Danba was a monk of such an ancient Tantrism sect.

He possessed many Bright Concubines, or rather, their entire sect had many Bright Concubines.

This time, he left Tibet to kill.

According to them, it was to eliminate demons.

The demon he was meant to eliminate was none other than Su Fan.

Beside Danba was an empty-eyed, pretty girl.

The pretty girl was one of the Bright Concubines of Kuto Temple, having recently completed the ritual of the Vajra Pestle.

The so-called Vajra Pestle was where a hundred and eight high monks and masters of Tantrism united with a girl in Yin-Yang harmony.

Originally, there were crueller things awaiting the girl.

However, because Danba was going out, she avoided one disaster.

Otherwise, she would have undergone Lotus Flower Cutting at the hands of Tantrism's high monks and masters.

It's a terrifying Tantrism ritual, where those masters would take a part from Gesang Shuinai's body to make a Magic Artifact of Tantrism.

Gesang Shuinai would quickly die afterward.

Then she would undergo 'the enlightenment,' whereby mercury is infused into her body.

This wasn't to turn Gesang Shuinai into a mummy but something far more frightening.

Almost every part of Gesang Shuinai's body would become materials for creating Tantrism Magic Artifacts.

Gesang Shuinai's narrow escape was not a result of goodwill from Danba or other high monks and masters of Tantrism.

She escaped on her own, yet ultimately couldn't get away and ended up in Danba's hands.

Danba needed a woman for the long journey to Yang City.

Thus, he didn't send Gesang Shuinai back to complete the subsequent rites necessary for Bright Concubines.

In fact, Danba didn't quite understand some strange rules of Tantrism.

Such as killing a Bright Concubine and turning a beautiful girl into bizarre objects, it perplexed him.

But rules are rules; he wasn't the supreme guru of Tantrism, and these matters weren't something he could change.

All he could do was let Gesang Shuinai, in her final days, spend as much time with him as possible, to feel the ultimate happiness of the human world.

Upon reaching the roadside to wait for the vehicle, Danba asked indifferently, "Why did you escape?"

Chapter 934

Gesang Xuenei had already given up, and she was not afraid to anger Damba, directly speaking with extreme anger, "Because I want to stay away from you demons!"

She knew just how cruel these monks could be.

These esoteric monks were beasts dressed in human skins!

Her mother, her elder sister, and her younger sister were all so-called consorts.

And in their prime, they each died at the hands of these esoteric monks, becoming materials for their cultivation.

Upon hearing Gesang Xuenei's words, Damba raised his hand and slapped her delicate face with a backhand.

At the same time, he said with extreme indifference, "You have already been tainted by the devil; being a consort is a great honor. You should not misinterpret the divine will."

After finishing, he continued, "If you dare to desecrate the monks again, I will send you back first, and then proceed with exorcising the devil."

Hearing the words "send back," Gesang Xuenei was almost scared into unconsciousness.

She dared not express any emotion instantly, and could only follow Damba like a puppet.

Yang City, Affiliated Hospital of the Medical University.

Su Fan did not know that an eminent monk of the esoteric sect had accepted the bounty from Palya Castle and was coming for him.

Five hundred million US dollars still held some attraction for many Gang Qi Realm experts.

Like this time, Damba wanted Su Fan's life for the five hundred million US dollars!

It was already after working hours; having tidied up everything in the office, Su Fan locked the door and then left the hospital.

After leaving the hospital, he first took a trip to the company.

Nothing happened at the company. After surveying the place, he went to Zhao Chunqiu's forging workshop.

This place had many alloy materials.

These alloy materials were quite special; the whole forging process basically required True Qi participation.

Upon arriving here, Su Fan saw Zhao Chunqiu.

Seeing Zhao Chunqiu, he casually picked up a steel bar and asked, "Old Zhao, what's this thing?"

Zhao Chunqiu casually replied, "This is a sword bar, used for forging long swords."

While talking to Su Fan, Zhao Chunqiu also took out a Tai Chi Sword that Su Fan needed.

The Zhao family had been swordsmiths for generations, and the Tai Chi Sword forged by Zhao Chunqiu was of exceptional quality.

Though the Tai Chi Sword looked like a steel sword, it wasn't made of steel but a special alloy material known as Yangxuan Iron.

"Clang!"

Su Fan casually tested the sword, and a sound of sword ringing immediately resonated.

Then he found that this sword was very suitable in weight and length.

Immediately, he said to Zhao Chunqiu, "Old Zhao, this sword is forged very well; I'll practice swordsmanship with this sword from now on."

Zhao Chunqiu nodded, "If in the future you can destroy the Liu Sheng's family, using Yin-Yang Xuan Iron to forge swords, the resultant artifacts will be true divine weapons."

Su Fan said sincerely, "There will be such a day, Old Zhao, continue to improve your cultivation."

"It won't be long before we go to Japan to settle the score with Liu Sheng's family."

Zhao Chunqiu nodded slightly; his progress in recent times had been swift.

Under Su Fan's treatment, his health was also very good.

As Su Fan mentioned, it won't be long before he could enter the Gang Qi Realm.

By then, they could go to settle the final account with Liu Sheng's family!

After retrieving the Tai Chi Sword from the company, Su Fan returned to his Number Five villa in the Bai Yulan villa district.

Currently, only Ning Miaoqi and two others were there.

These three beauties, naturally, were quite enticing.

But since Yin Qianyu also lived in the Bai Yulan villa district, he mostly went to see Yin Qianyu.

Every time he visited Yin Qianyu's villa, he came without a trace and went without a sign, and this time was no exception.

When Su Fan arrived at Yin Qianyu's villa, he found her asleep on the sofa.

Chapter 935

Su Fan immediately reached out and patted Yin Qianyu, who was drowsing in sleep, quickly waking her up.

Su Fan casually asked, "Why did you fall asleep in the living room?"

Yin Qianyu lazily stretched and replied, "Because the stuff at the company is just too exhausting."

She is now already managing quite a few businesses of the Yin family, and these need her to handle.

In the future, all the Yin family businesses will gradually be handed over to her.

Despite Yin Qianyue being terribly worn out, under her management, the various enterprises of the Yin family develop orderly.

Compared to her ancestors, Yin Qianyue is clearly much more outstanding in business.

Su Fan came to Yin Qianyue's villa not to discuss business with her, of course.

Yin Qianyue wants to experience joy when she's with Su Fan.

So not long ago lying on the sofa, Yin Qianyue had already gotten up voluntarily and approached Su Fan.

To this outwardly cold and noble lady, privately a contrasting submissive puppy, Su Fan of course would not be polite.

Yin Qianyue was directly embraced by him, followed by wild and greedy fervent desires.

If it were other women treated like this by Su Fan, they might be frightened.

Maybe only Bai Jiajia and Wang Xiaoxiao would be slightly curious.

But Yin Qianyue was not frightened; she liked this wild and rough manner.

The two didn't stay kissing in the villa's living room; kissing wasn't all they did.

Su Fan kissed Yin Qianyue passionately while heading to her bedroom.

During the process of going to the bedroom, he and Yin Qianyue gradually completed their fusion.

This was something Yin Qianyue had never experienced, though she had been invaded by Su Fan more than once.

Wanting to be invaded by Su Fan during movement like this was the first time.

Moreover, as Su Fan's physical strength increased, she, like Zhou Jie, slightly accommodated him while holding him firmly.

Yin Qianyue's exquisite and beautiful face involuntarily showed some expressions of pain.

Yet Su Fan had no intention to stop, continuing to invade.

"Hiss—"

Yin Qianyue reluctantly gasped in pain.

This feeling was like stretching a rubber band.

Once stretched to a certain extent, it shouldn't continue; otherwise, the rubber band would break.

But Su Fan's choice was to continue advancing barbarically.

This gave Yin Qianyue a unique experience of being developed and explored for the first time.

Her mouth kept open, her eyes grew increasingly blurred.

Su Fan slowly went upstairs with Yin Qianyue like this.

Upon reaching the stairs, their contact became even tighter, almost seamless.

At the same time, Danba and Gesang Xuena also sat on the high-speed train.

For Danba, with his wealth, flying on a plane is not a matter.

However, he has some aversion to planes, even though planes are among the safest means of transport; he still finds them unsafe.

In one of the compartments of the high-speed train, only Danba and Gesang Xuena were present.

Danba had purchased all the tickets for this compartment.

Danba casually sat on the bed, while Gesang Xuena was stark naked being held in his arms.

The two sat face to face; Danba's expression remained cold as usual, while Gesang Xuena, though invaded by Danba, resembled a puppet, with no change in expression.

She didn't know whether her nightmare would ever end, or when it would end.

She didn't even know how much longer she could live.

Perhaps, once Danba kills that person named Su Fan, her life would begin the countdown.

She doesn't want to die and wants to seek revenge against these tantric demons!

But as a weak woman, she evidently can do nothing.

Chapter 936

Her only option seemed to be to plead for mercy: "Master Damba, can you spare my life?"

Her pleading was met with a loud slap from Damba: "Your life does not belong to you, it belongs to the Divine Buddha."

"You are not dying; you are offering yourself to the Divine Buddha."

Although Damba spoke with great conviction, he couldn't help but feel a bit unsettled after killing so many Ming concubines.

But the Divine Buddha makes no mistakes. He has followed the guidance of the Divine Buddha step by step over the years.

The speed of the high-speed rail was swift. Damba and Gesang Xuenai were approaching their destination at a rapid pace.

With one more transfer, they could reach Yang City.

Damba did not know Su Fan and had no personal grievance with him.

But since killing Su Fan would earn him a five hundred million US Dollar reward, Su Fan was a demon.

Throughout this journey, Damba frequently joined with Gesang Xuenai.

The Ming concubine was meant for their enjoyment and play, which was also part of their cultivation.

Looking at Gesang Xuenai before him, Damba couldn't help but envision two women.

They were Gesang Xuenai's mother and aunt, both of whom had been offered to the Divine Buddha.

Compared to those two women, Gesang Xuenai made him feel more comfortable.

Yet he couldn't allow Gesang Xuenai to escape; he could only ensure that she died without pain.

As time swiftly passed, Damba and Gesang Xuenai departed from the Tibetan lands and, without much delay, arrived in Yang City.

His arrival in Yang City signaled the end of Su Fan!

Damba did not approach to assassinate Su Fan but rather prepared to duel with him!

Soon, news of Damba, an expert from the secret sect, challenging the president of the Yang City Martial Arts Association exploded in the Yang City martial arts community and the city's high society!

Various bigwigs in Yang City and numerous martial artists within the city's martial arts community received the news!

Given Su Fan's current status and strength, it was unnecessary for him to participate in ordinary martial arts competitions.

Such competitions were not meant for Gang Qi Realm experts.

But when a martial artist arrives at the Yang City Martial Arts Association with a battle challenge for him, he must respond.

As soon as the news spread, Ning Zhengde and Ning Tianhe were the first to find Su Fan.

At Ning Zhengde's invitation, Su Fan went to the Ning family villa.

The moment Ning Zhengde saw Su Fan, he spoke gravely:

"Su Divine Doctor, you don't have to stoop to the level of these secret sect monks."

"As long as you don't accept the challenge, they absolutely can't do anything to you in Yang City!"

Ning Tianhe, who had partially recovered, nodded in agreement.

"None of the secret sect monks are any good."

"Though they are a branch of Buddhism, they are more like a cult."

"This person is likely a skilled fighter brought in by the Japanese Liu Sheng family or Paleya Fortress."

"We don't have to engage him in a duel; instead, all masters should gang up and beat him to death!"

Having been severely injured previously, Ning Tianhe's character changed somewhat.

In the past, he would have never mentioned ganging up on other martial artists.

Now it's different; since the opponent is an enemy, there's no need to adhere to any principles.

Both he and Su Fan are in the Gang Qi Realm, while Zhao Chunqiu, his father, Ning Miaoqi, and Zhen Bingyu are at the peak of the Qi Transformation Realm.

Logically, Ning Tianhe's proposal is quite good.

Even though everyone is a martial artist, there's no need to accept challenges from just any martial artist who emerges from some obscure corner.

However, Su Fan cannot refuse this challenge.

The reason is simple: he is the president of the Yang City Martial Arts Association.

Damba's challenge was directly sent to the Yang City Martial Arts Association.

If Su Fan dares not fight back, it would essentially mean that the entire Yang City martial arts community fears Damba.

Chapter 937

If the gap in power between the two sides is really huge, then sometimes playing humble is acceptable.

But both are mid-stage Gang Qi Realm, so it's not easy for Su Fan to avoid battle.

Su Fan could only internally acknowledge Ning Zhengde and Ning Tianhe's goodwill.

He said to Ning Zhengde and Ning Tianhe: "Mr. Ning, this Danba is very likely an expert hired by Palaia Castle or the Liu Sheng family from the East to target me."

"If we don't deal with this person now, there will only be more trouble in the future."

Ning Zhengde could understand Su Fan's words.

If Su Fan doesn't confront them directly, these people would probably resort to underhanded tactics.

Open attacks are easy to dodge, but secret ones are harder to defend.

Rather than that, it's better to directly take Danba down!

Though Danba is no good person, he approaches openly, which earns him some respect.

So naturally, Su Fan directly accepted the challenge from Esoteric expert Danba to the Yang City Martial Arts Association President.

It was agreed that in three days, the two sides will settle it once and for all at the Yang City Martial Arts Association Martial Arts Hall!

This matter quickly spread throughout Yang City's high society.

Although Su Fan has been running around recently, fighting from south to north.

But his influence in Yang City has not diminished in the slightest.

His status in Yang City is definitely among the top five.

After the news of Su Fan and Danba's upcoming duel at the Yang City Martial Arts Association Martial Arts Hall spread.

Almost all representatives from Yang City either went personally or sent assistants.

Some were well-informed and others were a bit clueless.

All they knew was that Su Fan had improved since his last few public appearances.

But how strong Su Fan is now, no one knows.

At the same time, many big shots began to inquire about Danba's background.

After spending some money on the dark web to buy information about Danba, many started to worry about Su Fan.

This Esoteric monk is definitely no benevolent soul.

The information purchased from the dark web showed Danba has killed nine martial artists in the ring!

Others enter the ring to determine who is superior; he enters the ring to determine life or death with his opponent!

Knowing Danba's prowess, many had called Su Fan of Yang City.

Su Fan, after answering a few calls, had to temporarily turn off his phone.

This duel is one where the challenge has been brought to his door, so he can't ignore it.

Given this, he naturally has to fight.

The three-day period almost flew by.

The day of the duel quickly arrived.

Yang City Martial Arts Association, Association Martial Arts Hall.

Yang City's elite were almost all present, and martial artists from all around Yang City came as well.

The top figures of Yang City, even if they didn't personally come, generally sent relatives.

Like mayor Jiang Gao, who, due to being busy with work and physical reasons, did not come personally.

But Jiang Gao's beloved daughter Jiang Yuan and his wife Nalan Xue were present.

Moreover, Ning Zhengde, Ning Tianhe, Yin Qianyue and others were all there.

Even Yan Henglong from Xijing arrived on time upon hearing the news.

When the viewing seats were filled to the brim, today's two main characters also arrived together.

Everyone was very familiar with Su Fan.

Today Su Fan was dressed in a suit and tie, looking more like a business elite than a martial artist.

Across from him, Danba was a monk with hair, dressed in a crimson robe and wearing prayer beads around his neck.

After Danba appeared on the ring, he gave Su Fan a cold glance, but said nothing.

He said nothing, but Su Fan casually asked, "Did Palaia Castle send you?"

It was a casual question, but it was spot on.

Perhaps thinking Su Fan would soon be dead, Danba didn't conceal it and nodded, "Yes."

After he nodded and admitted, Su Fan had no more questions.

His relationship with Palaia Castle was like water and fire, irreconcilable.

Since the opponent was sent by Palaia Castle, he had no intention of letting them leave alive.

Danba was also unwilling to say more to a dead man, and quickly posed in the Esoteric style.

Such vile creatures like Esoteric monks are evidently capable of outstanding martial prowess.

Otherwise, given all their evil deeds, they would have long been exterminated.

Su Fan loosened the collar of his suit, stretched his neck, then took the Tai Chi Boxing stance to confront Danba!

Chapter 938

Facing Danba, the expert of Esoteric Buddhism, Su Fan appeared completely at ease.

Yet, apart from him, almost no one else in Yang City felt relaxed.

Many people secretly worried for him.

In the eyes of many social elites in Yang City, Su Fan is primarily recognized as the Divine Doctor.

Even though his martial arts skills are notable, at the core he is still a doctor.

What worries everyone the most is this, Su Fan's medical skills are exceptionally brilliant, and if they ever face a misfortune, they can seek Su Fan's help.

What if Su Fan meets some mishap at Danba's hands this time, who will they turn to for help in the future?

Su Fan's combat record, though not bad.

Yet it clearly pales in comparison to Danba, this Esoteric Buddhist expert doesn't usually strike, but once he does, someone is bound to die!

"Ha—"

Danba exhaled and voiced loudly, initiating the offensive first.

Esoteric Buddhism emphasizes simultaneous use of fists and feet.

As he stepped forward, a jab also forcefully came towards Su Fan.

Su Fan used his right hand to parry, shaking off Danba's fist.

Then his left palm struck fiercely at Danba.

Danba's reaction was unbelievably quick; after all, he's been in the mid-stage of the Gang Qi Realm for a long time, having more foundation than Su Fan.

Moreover, during his time at Kuta Temple, he sparred daily against other Esoteric Buddhist masters.

He is battle-hardened, with much more combat experience than Su Fan.

"Bang—"

Su Fan's palm collided hard with Danba's punch, producing a resounding clash.

It's clear once experts make their move whether they are skilled or not!

After two rounds of fighting, Su Fan's expression turned earnest.

The Esoteric Buddhism expert in front of him is formidable not only with fist and foot skills but also being an expert in iron body training!

Earlier, although he successfully blocked the opponent's attack with his open-hand parrying.

Yet his arm still felt sore afterwards. And the palm strike was no different.

The opponent clearly emphasizes physical and mental fortitude in martial arts training.

While Su Fan was amazed, Danba was utterly shocked within.

Esoteric Buddhist monks must practice the Great Diamond Sutra. The Great Diamond Sutra expands and refines the Diamond Sutra.

The Great Diamond Sutra focuses on tempering physique.

Under nearly brutal training, their bodies are even stronger than the physiques of Ancient Muay Thai masters.

By logic, Su Fan should have suffered disadvantages just now.

Yet except for the minor soreness in the arm, Su Fan was unharmed.

This scene was truly bizarre for Danba!

The audience all around was unaware of the actual status between Su Fan and Danba.

But everyone could already tell, Su Fan clearly encountered a worthy opponent today.

He could no longer topple Danba with three fists and two kicks like usual.

This Esoteric Buddhism expert's power was indeed terrifying.

In the audience seat, Nalan Xue and Jiang Yuan sat together.

Jiang Yuan said worriedly, "What do we do now? It seems Divine Doctor Su is no match for this person."

She concluded this because Su Fan seemed completely relaxed at first.

After they started exchanging blows, Su Fan's expression turned solemn.

This clearly indicates that even Su Fan finds it challenging.

After Jiang Yuan spoke, Nalan Xue could only shake her head, "I'm worried sick too; Divine Doctor Su shouldn't have accepted these challenges!"

Besides them, many others around also showed solemn expressions.

This Esoteric Buddhism expert was absolutely a tough opponent.

Those who had investigated the information on the dark web knew that experts like Zheng Chaoxi, Old Zheng Monster had died at Su Fan's hands.

Moreover Zheng Chaoxi was easily crushed by Su Fan, indicating Su Fan's strong capability.

Now Danba appeared extremely relaxed, fighting Su Fan to a draw, how could everyone not be worried.

Chapter 939

As everyone was filled with anxiety, Su Fan and Danba engaged in battle once again.

"Bang—"

Su Fan unleashed a palm strike, which Danba met with a palm of his own.

After this explosive sound echoed, the two ended up evenly matched again.

Danba's physical body, tempered through countless trials, was extremely formidable.

Meanwhile, Su Fan, while dispelling the fire poison within, continued to transform his physical body.

Although his physical body wasn't as strong as Danba's, it was just slightly weaker.

He had an advantage in True Qi, which Danba did not possess.

His True Qi was thick, pure, and enduring, flowing endlessly and continuously!

Both had certain advantages and were in the mid-Gang Qi Realm.

This led to them battling for twenty to thirty rounds, still evenly matched.

The audience in the martial arts hall was packed, yet everyone held their breath, intently watching this battle.

The intense standoff was extremely nerve-wracking.

For in the next moment, it was possible for Su Fan to unleash his might and kill Danba.

It was also possible for Danba to unleash his might and kill Su Fan on the spot.

Compared to others, Gesang Xuenei, who came to the martial arts hall with Danba, fervently hoped Su Fan could kill Danba!

Even though if Danba died, she might be captured by the people of Tantra, she could at least live a little longer.

However, it wasn't easy for Su Fan to kill Danba.

Danba's record on the dark web was nine fights and nine victories, with a one hundred percent win rate!

Such a top expert was not easy to deal with.

Su Fan had broken into the Gang Qi Realm for less than three months.

Danba, on the other hand, had been in the mid-Gang Qi Realm, honing his skills for three years, so his foundation was extremely solid.

After the initial probing, Danba started to launch a fierce attack on Su Fan.

Today, he had only one goal, which was to kill Su Fan!

"Boom!"

He punched through the air, creating a fierce gust!

Su Fan sidestepped, and Danba's punch immediately swept across.

Su Fan quickly raised his palm to block, stopping Danba's sweeping arm.

However, Danba's attack was not that simple.

He suddenly thrust his foot forward, aiming at the weak point of Su Fan's knee.

If this kick landed, Su Fan's lower leg would likely break instantly.

This kick, infused with True Qi, could not even be stopped by ordinary steel plates.

Facing Danba's kick, Su Fan seized Danba's arm, leaping into the air and landing behind Danba.

Danba's foot had just thrust forward with explosive force, all his power used for forward momentum.

Su Fan not only positioned himself behind Danba but also held one of his arms.

Therefore, Su Fan suddenly pulled back, causing Danba's body to crash heavily onto the hard ground.

Danba was falling backward, and the back of the head is an extremely weak spot of the human body.

Even though Danba is a martial artist in the Gang Qi Realm, the strength of his back of the head isn't titanium alloy level.

Such a strong impact would turn the back of his head into tofu brain on the spot.

This is why during street fights, many people, despite being ordinary, seem to turn into martial arts masters in an instant.

Just tripping and throwing the opponent can lead to death.

In most cases, the back of the head hits the ground, causing severe brain damage, leading to death.

For Su Fan to kill Danba this way was, of course, impossible.

As Danba suddenly plunged toward the ground, he unexpectedly performed a counter-seizing technique.

The arm seized by Su Fan pressed against Su Fan's shoulder in turn, pulling both of them down heavily onto the ground!

"Bang—"

A violent crash resounded, leaving Su Fan and Danba unharmed, but shocking the onlookers greatly.

The sound of the crash was even louder than a large iron hammer striking hard rock.

The hard cement floor was directly cracked by these two human-shaped beasts.

Chapter 940

Su Fan was protected by Taiji True Qi, completely unharmed.

Danba was even more straightforward, relying directly on his tempered body to withstand the attacks.

This might have been the most intense battle Su Fan had ever experienced since his debut, and also the one where he progressed the fastest.

All his thoughts and learning rapidly fused and elevated in this battle.

To defeat his opponent, he could only force himself to improve.

Danba was equally excited, sensing the signs of an impending breakthrough.

If he could kill Su Fan, he was highly likely to achieve a breakthrough!

Su Fan, who had landed heavily on the ground, sprang up with the motion of winding a dragon around a pillar.

Danba slammed his palm on the ground, and his whole body bounced back up.

His figure leaped with the momentum and performed a series of kicks in mid-air.

"Bang! Bang! Bang!"

Every kick Danba executed sent explosive sounds through the air.

He missed with all three kicks.

When his third kick ended, Su Fan seized the opportunity, lifted his hand to grab Danba's right leg, and slammed him abruptly towards the ground.

"Bang!"

This strike was full of force, and Danba had no choice but to use his protective Qi gang to resist.

So even though the cement ground was smashed with gravel flying everywhere, he wasn't severely injured.

"Bang!"

Su Fan didn't wait for Danba to stand up and directly kicked at his chest.

This kick was reminiscent of the 'world wave' from football, but it wasn't a football flying out but Danba's entire body.

The audience erupted upon witnessing this scene.

Yan Henglong clapped and laughed, saying, "Good!"

Many Martial Artists in Yang City and famous figures breathed a sigh of relief.

They had vaguely realized that at the beginning, there was some gap between Su Fan and Danba.

But as time progressed, Su Fan continuously improved during the battle.

Now, Su Fan had subtly gained some advantages.

With such a rapid progression, it wouldn't take long for Danba not to be his match.

This was something even the audience could think of, so naturally, Danba wouldn't be oblivious to it.

He leaped down from the ring, came to Gesang Xuenai's side, and took out a crescent blade from his bag!

This crescent blade was about the length of Danba's forearm, in the shape of a crescent moon.

Seeing this, Zhao Chunqiu below the ring didn't hesitate and raised his hand to toss.

"President Su, catch the sword!"

Danba had previously used the crescent blade during a fight, so Su Fan also brought his Tai Chi Sword.

"Clang!"

The sound of a sword echoed as Su Fan's Tai Chi Sword instantly emerged from the scabbard.

The bare-handed fight earlier was already terrifying.

Now that both wielded weapons, the fight grew even more terrifying!

Danba wielded the crescent blade and swung it wildly towards Su Fan!

Su Fan met the assault head-on with his Tai Chi Sword!

"Ding!"

This collision clearly saw Su Fan gaining the upper hand.

The Taiji True Qi on the Tai Chi Sword made Danba's arm tremble.

But without hesitation, he continued to swing the blade in a rapid offensive!

"Swish! Swish! Swish!"

"Clang! Clang!"

This exchange between Su Fan and Danba became more fierce and terrifying.

Both moved so fast that others couldn't see clearly, only witnessing the shadows of blades and swords dancing.

The sound of metal clashing lingered, ceaselessly resonating.

In this brief moment, who knows how many moves the two had exchanged!

"Slash!"

Su Fan pierced Danba's shoulder with a sword, while his arm was also cut open by Danba's crescent blade.

Instantly, he retreated swiftly, and Danba did the same.

Su Fan's advantage became apparent once again.

Both were Martial Artists of the Gang Qi Realm, yet he had a unique constitution, possessing precious blood.

After getting injured, his recovery speed was exceptionally fast.
