

Temptation 941

Chapter 941

Su Fan's wounds had already started to slowly heal, while Danba could only seal the constantly bleeding wound on his shoulder by blocking his meridian and acupoint.

In this way, one weakened and the other strengthened, the outcome was clear!

The injuries he inflicted on Su Fan could be quickly recovered.

The injuries Su Fan inflicted on him, Danba could only endure.

When the two clashed again, Danba's movements were no longer as swift as before.

The sword wound on his shoulder clearly had a significant impact on him.

What puzzled him was that although Su Fan had indeed been slashed once, for some reason, Su Fan seemed perfectly fine!

Thus, after battling for another twenty rounds, Su Fan seized the opportunity and pierced Danba's abdomen with a direct thrust.

Danba dared not exchange injuries with Su Fan and instead chose to swiftly retreat while sealing his meridian and acupoint.

At this point in the battle, the outcome was evidently decided.

But Danba was not convinced, he wanted to make one last attempt.

"Swish!"

Wielding a scimitar, Danba launched another charge.

Su Fan didn't hesitate, directly confronting him head-on, charging towards Danba.

"Clang!"

The clash of blade and sword flashed continuously as they crossed paths.

With a single sword stroke, Su Fan cut a gash on Danba's right waist.

Danba attempted to slash Su Fan's throat, but missed significantly.

He could only attempt a final strike with a backhanded slash; however, Su Fan effortlessly pierced his left waist with another sword thrust.

Suffering four sword wounds seemed to completely strip Danba of his sanity.

In the ensuing fight, although he became more ferocious, he was without any strategy.

This chaotic blade technique would greatly intimidate an average person.

But for a top master like Su Fan, it had no effect.

Danba's erratic swings actually feigned weakness to mislead his opponent, trying to lure Su Fan into a trap.

But Su Fan never struck easily, only launching a sudden sword attack after precisely timing it.

This method was tormenting for Danba.

He quickly acquired eight sword wounds on his body, making him reluctant to linger any longer.

Even though five billion US dollars sounded tempting, it was clearly beyond his grasp!

Danba soon leaped off the platform.

"Where do you think you're going!"

At this stage of the fight, Su Fan wasn't going to let Danba escape.

Moreover, for martial artists like them, it was understood that they had signed a life-and-death pact for such duels.

Seeing Su Fan pursue him, Danba had no hesitation and swung his curved sword at Gesang Xuenei.

He knew that he probably wouldn't survive this time.

He had suffered five minor wounds and three major ones, leaving him with only one path—death.

But Gesang Xuenei was the Bright Consort, devoted to serving the Holy Buddha, and couldn't be defiled by outsiders.

"Pshhh—"

Unfortunately, the Tai Chi Sword in Su Fan's hand flew out, directly piercing Danba's heart.

This caused Danba's curved sword to lose precision, only injuring Gesang Xuenei rather than killing her with one strike.

Su Fan swiftly caught up, delivering a powerful palm strike to the back of Danba's head, turning his brain to mush!

Witnessing this scene, the surrounding crowd did not fear but instead applauded joyfully.

Su Fan had killed Danba, eliminating a major threat!

Someone so ruthless as to even kill their own companions wouldn't care about other lives.

Fortunately, this person was eliminated on the spot by Su Fan, thoroughly preventing any future trouble.

Su Fan also found Danba's Dark Web Crystal Card within the backpack he carried.

Without Su Fan having to instruct, Zhao Chunqiu arrived at the scene.

Evidently, the aftermath needed him to handle.

Su Fan's gaze then turned to Gesang Xuenei, asking, "Who are you? Why did he want to kill you?"

Chapter 942

Gesang Xuenai was slashed by Danba before he died, and the wound is still bleeding now.

But she thanked Su Fan first, "Thank you for avenging me, these demons are all my enemies."

Hearing her say this, Su Fan somewhat understood why Danba wanted to kill Gesang Xuenai before he died.

He immediately said, "Since that's the case, you should leave."

Gesang Xuenai directly knelt down to Su Fan this time and said, "I beg you to take me in, or those people will kill me."

Su Fan frowned, "Get up first, let's go for treatment together, and talk about things slowly."

He didn't immediately agree to take Gesang Xuenai in.

If what the other party said was true, he could certainly help.

But if the other party wasn't honest and had other ulterior motives, it would be troublesome for him to take others in.

Gesang Xuenai nodded happily. If she could get Su Fan's protection, she would obviously be able to live a little longer.

After resolving the issue with Gesang Xuenai, Su Fan looked at the audience and said:

"Thank you everyone for your care and support."

"I got injured during the fight just now, I need to go down and deal with the wounds first."

"From here on, Chen Tai from the Yang City Martial Arts Association and Wang Xiaoxiao from Eastern Medicine will take over."

"If you don't have urgent matters, you can have a meal at the Yang City Martial Arts Association restaurant before you leave."

After Su Fan finished speaking, the crowd began to speak one by one.

"President Su, you should go deal with your injuries first, we'll visit Eastern Medicine another day."

"Yes, President Su, go deal with your injuries quickly."

This time the people from Yang City were much more polite to Su Fan.

Despite the long fight between Su Fan and Danba ended with Danba's defeat.

Su Fan could defeat Danba, which had already indicated his strength was very formidable.

If Su Fan was just one of the top five bosses in Yang City before,

then now he had almost indisputable qualification to be on par with Mayor Jiang Gao.

The news of this contest was rapidly spreading everywhere.

Soon more and more people knew about this extremely shocking result.

For martial artists, the Gang Qi Realm is a huge watershed.

The deterrence power held by a martial artist in the Gang Qi Realm is incredibly terrifying.

Even big bosses like Mayor Jiang Gao don't have martial artists at the Gang Qi Realm level as bodyguards.

If a Gang Qi Realm martial artist commits a crime in Yang City, it usually requires dispatching the special squad to use anti-material sniper rifles to eliminate, while seeking aid from the province.

Ordinarily, anti-material sniper rifles are not allowed to be used against people.

The power of such weapons is too great, using them against people is extremely inhumane.

Even so, agreements like this exist in life-or-death battlefield environments, illustrating the power of such weapons.

However, even the special squad carrying anti-material sniper rifles would have difficulty eliminating a martial artist at the Gang Qi Realm.

Someone like Su Fan, who is both a top-notch Gang Qi Realm expert and a righteous individual, is naturally a hot commodity.

His matter of defeating Danba quickly spread throughout the province.

Many big bosses from Qin Province started paying attention to him.

Top ten elite businessmen in the province threw olive branches at Su Fan, hoping he would join their enterprises.

More precisely, they wished for Su Fan to become their bodyguard.

Su Fan completely rejected these kind offers.

He was already taking Gesang Xuenai to the treatment room in Eastern Medicine for treatment.

After a hearty and thorough battle with Danba, Su Fan's strength reached mid-late stage of the Gang Qi Realm, barely a step away from late stage.

While treating Gesang Xuenai, Su Fan also learned from her about the group of Secretive monks.

This somewhat dimmed the joy of his growing strength.

Chapter 943

These Esoteric Monks are basically demons in human skin.

After the English Pallia Castle and the Japanese Liu Sheng family, he now has a third enemy: the Esoteric Monk's Kuta Temple.

With Danba's death, the Esoteric ones probably won't let this go easily.

However, he is not weak like clay either, and afterward, he plans to invite all the masters in Yang City for a Martial Arts Conference.

If it's a normal martial arts exchange in the future, that's fine.

But if there are assassins coming to Yang City to kill, there's no need to talk rules with them; with any number of masters available, everyone will directly charge together!

Su Fan's injuries are recovering quickly.

Gesang Xuennai's injuries are also not very severe.

For this pitiful girl, Su Fan can only temporarily arrange for her to stay in Villa No. 5 in the Bai Yulan residential area.

As the enemies increase, Su Fan feels more urgent in finding the sixth woman with the Yin Physique.

If he can dissolve the sixth fire poison within him, he can at least elevate to the peak of the Gang Qi Realm.

There's even a great possibility of advancing further, becoming a top-tier master beyond the Gang Qi Realm.

When a Martial Artist cultivates to the Gang Qi Realm, their power is already quite astonishing.

Continuing cultivation further, the Martial Artist's power grows ever stronger.

As long as his own strength reaches the fifth level of the Profound Qi Realm, Su Fan won't be afraid of his current enemies anymore.

Martial artists at the Profound Qi Realm are already proficient in martial arts, hence also called Grandmasters!

These Martial Arts Grandmasters are extremely rare.

They're not one in a hundred, nor one in a thousand, not even one in ten thousand.

Under normal circumstances, from one million people, at most one can become a Martial Arts Grandmaster.

Take Qin Province for instance, over the years, there are only a few Martial Arts Grandmasters in the entire Qin Province.

If one can step into the sixth level in martial arts, that's something extraordinary.

According to what Su Fan knows, there are Grandmasters of the fifth level in Qin Province, but whether there are Great Grandmasters of the sixth level, he doesn't know.

Currently, he is still at the fourth level of the Gang Qi Realm, pondering these things is premature.

After Ning Miaoxi, he has no clue about the sixth woman with the Yin Physique.

The Yin Physique requires him to be relatively close to the other person, and even needs contact for him to sense it.

Usually, women with the Yin Physique have little difference from ordinary women.

If Ning Miaoqi's sister Ning Miaoyan hasn't been with someone, breaking the Yin Physique.

Then after securing Ning Miaoyan, he could indeed become a Martial Arts Grandmaster.

The day after Su Fan's duel with Danba, he gathered all martial artists in Yang City for a Martial Arts Conference.

Yang City, Martial Arts Association Auditorium.

This auditorium was where Su Fan first took office as the chairman of the Martial Arts Association.

This time, under his call, all the martial artists in Yang City came.

Everyone who came to the auditorium looked at Su Fan with full admiration.

Years ago, Su Fan had already become a Martial Artist in the Gang Qi Realm, with a likelihood to become a Martial Arts Grandmaster, or even a Great Grandmaster!

Once everyone was gathered, Su Fan straightforwardly said: "I called everyone here today mainly for two things."

After he started speaking, everyone perked up their ears to listen.

Since becoming the chairman of the Martial Arts Association, this was the first time Su Fan hosted a meeting.

While everyone focused intently on listening, Su Fan's voice continued.

"The first thing, I propose that all martial arts forces of Yang City, all martial artists, bring their unused martial resources to the Martial Arts Association for exchange."

"This way, they can trade things they can't use for resources that are useful to them."

"The Martial Arts Association, acting as the intermediary, will charge a small fee but will ensure fairness and justice in the exchange."

Chapter 944

As Su Fan's words fell, the crowd below immediately began to whisper among themselves.

Su Fan's proposal was very good.

Many martial artists and many martial arts forces cannot trade items well due to the lack of a guarantor.

In this report hall, almost all the martial artists have goods.

But for various reasons, they previously couldn't trade martial arts items well.

Ning Zhengde and Ning Tianhe were also sitting in the report hall now.

Before anyone else could speak, Ning Tianhe stated, "The Ning family agrees with President Su's proposal and is willing to follow his lead."

After Ning Tianhe agreed, of course, there was no one in the report hall who disagreed.

Currently, there are only two martial artists in Yang City who are in the Gang Qi Realm: one is Su Fan, and the other is Ning Tianhe.

Since both of them agreed to this matter, others had no choice but to comply.

With no opposition to the matter, Su Fan quickly continued to speak.

"The second thing I want to talk about today is related to the Internet assassins."

"In the future, any Internet assassin who enters Yang City to cause trouble will not be indulged."

"No matter what background they have, as long as they are Internet assassins causing trouble in Yang City, they shall be attacked collectively immediately!"

After Su Fan finished speaking, Ning Tianhe was again the first to rush to speak.

"The Ning family fully supports President Su's proposal."

Following Ning Tianhe, Yang City's two prominent families, the Yin family and the Liu family, also expressed their support.

Su Fan is the top martial artist in Yang City, with the potential to become a Martial Arts Grandmaster.

The Ning family is a mighty force from Hang City, even though they have split into two, they remain a colossal power.

The Liu family and the Yin family are the dominant forces in Yang City, with an incredibly secure status.

At this moment, many people subtly became aware of a problem.

That is, Yang City is no longer under Jiang Gao's control; it is under Su Fan's control.

Even Jiang Gao, the mayor, wouldn't dare oppose Su Fan.

Jiang Gao's wife, Nalan Xue, is Su Fan's sworn sister, and Jiang Gao himself is a long-term patient under Su Fan's care.

Anyone with well-connected information should understand.

From the moment Su Fan defeated Danba, he became the true spokesperson of Yang City.

This matter is known not only by everyone present but also by Jiang Gao.

However, Jiang Gao doesn't intend to go against Su Fan because after investigating Su Fan, he realized.

Su Fan and he do not have any conflicts; they are even mutual allies.

Since this is the case, of course, he needs to schedule a time to have a good talk with Su Fan, but there's no need to oppose Su Fan.

Su Fan actually wants to have a conversation with Jiang Gao as well, after all, Jiang Gao and others play an enormous role in Yang City's development.

Su Fan's killing of Danba also made him a minor sensation on the Internet.

In the Gang Qi Realm, Danba was evidently not the top master.

But his winning record was impressive — nine battles, nine victories, zero losses.

Originally, many people believed that Danba would achieve ten victories when he came out this time, but he ended up losing his life.

As Su Fan initially thought, Danba's death indeed enraged the monks of Mi Temple.

They have always been the ones doing the killing, but this time, one of their monks was killed. How could they not be furious?

Nevertheless, for the time being, Mi Temple has no energy to spare against Su Fan; they have more important matters to attend to.

After resolving the matter with Danba, Su Fan's life seemingly returned to peace once more.

Yet beneath the calm surface, currents surged constantly.

Su Fan also knew that this tranquility was only temporary.

The world's opportunities are limited, and each new emergence cuts into the domain of the established powers.

As he continues to cultivate and grow, he will surely encounter more troubles.

Chapter 945

The only way to solve the endless troubles is to enhance one's own strength.

So he summarized the characteristics of Liu Qing, Su Ya, Jiang Yuan, Han Xinying, and Ning Miaoqi.

Although the Yin body doesn't seem to have any special traits.

But the five of them, Liu Qing included, do have some similarities in their pulse.

With just this clue, finding a sixth woman with the Yin body is very difficult.

Even so, Su Fan entrusted this daunting task to Chen Hanqing.

He asked Chen Hanqing to hack into various medical institutions and check medical records.

Searching like this might lead to finding a sixth woman with the Yin body.

This method is quite unreliable.

Because not all traditional Chinese doctors record their patients' pulse.

Moreover, people nowadays first opt for Western medicine and only turn to Chinese medicine when Western options fail.

Although Su Fan assigned this task to Chen Hanqing, he didn't have much hope himself.

However, Chen Hanqing, this talented individual, seemed unlikely to disappoint him.

The day after Su Fan gave the instruction, Chen Hanqing found a suitable candidate in the database of the Qin Province Chinese Medicine Hospital.

In the database, there was a patient named Chen Mengfei whose pulse was very similar to that of Su Ya and the others.

After discovering this, Chen Hanqing further investigated Chen Mengfei.

He sent all the related information to Su Fan.

The first thing Su Fan looked at was Chen Mengfei's medical record at the Qin Province Chinese Medicine Hospital.

The medical record showed the doctor's notes on her pulse.

After reading the pulse record, Su Fan was immediately overjoyed!

Chen Mengfei's pulse had the same details as those of Liu Qing, Su Ya, Jiang Yuan, and the others.

He impatiently started to look through the information about Chen Mengfei.

After skimming through, Su Fan was stunned.

The reason being, the Chen family was a top-tier superfamily in Qin Province!

The Chen family was involved in business, politics, military, and martial arts in Qin Province, and had two of the province's five Martial Arts Grandmasters.

Moreover, the Chen family's business empire spanned both domestically and internationally.

This Chen Mengfei, rather than being just the Miss of the Chen family, was actually the Sect Leader of the family.

At twenty-nine years old, she was a postdoctoral scholar in business studies.

Even if Chen Mengfei was just the Miss of the Chen family, Su Fan wouldn't dare target her.

Turns out Chen Mengfei was not just the Miss of the Chen family, but the current Family Head.

Not to mention whether she was still a virgin, having any contact with her would be difficult, let alone any further involvement.

Su Fan saw a photo in the information provided by Chen Hanqing.

In the photo, a sexy and commanding Chen Mengfei stood in the center.

Yan Henglong, a major figure in the business world of Xi'an, had to stand in the corner in that photo.

This was normal, as politics, military, business, and martial arts are the four pillars of a towering edifice.

True prestigious families advance equally in all four areas.

Even if one area doesn't develop smoothly, they compensate through marriage alliances.

Yan Henglong only held one pillar, so, in such a group photo, he naturally had to stand aside.

Su Fan wasn't in the mood to mock Yan Henglong now; he was more worried about how to contact Chen Mengfei.

He needed to see whether she indeed had the Yin body and whether she was still pure.

Logically speaking, at twenty-nine, Chen Mengfei couldn't possibly have never slept with a man.

However, given the difficulty of sleeping with Chen Mengfei, it's quite possible she remained untouched.

After racking his brain, Su Fan suddenly remembered that several bigwigs in Qin Province had extended an olive branch to him recently.

Remembering this, he quickly began checking his messages and emails.

After a brief search, he indeed found an invitation to a hundred-day banquet.

Chen Mengfei's little nephew was celebrating his hundredth day, and the Chen family had invited some people to the Chen family manor in Yu City for the banquet.

Having recently gained fame from defeating a master from a foreign sect, Damba, he had received an invitation from the Chen family.

If he hadn't known that Chen Mengfei was likely a woman with a Yin body, Su Fan wouldn't have considered going.

But now, he had to make the trip.

He called the number listed in the email to contact the person in charge.

The call was quickly connected, and the person on the other end politely asked, "Hello, is this Mr. Su Fan?"

Su Fan wasn't surprised that they had his number.

So he got straight to the point and said, "I previously received an invitation email for a party at the Yu City Chen family manor. How can I attend the party?"

Chapter 946

Su Fan already held significant influence in Yang City, but in Qin Province, he was still considered a novice.

However, the Chen Family in Yu City was extremely polite and courteous to every guest.

After Su Fan called to inquire, the staff immediately made arrangements for him.

"Mr. Su, once you arrive at any place in Yu City, we will arrange for staff to pick you up."

"Of course, you can also come directly to the Chen Family's Ancient Yew Courtyard to attend this banquet."

"Additionally, there are some precautions I'll briefly explain to you..."

The Chen Family headquarters in Qin Province was not a Western-style manor but a refined and luxurious Chinese courtyard.

After learning how to attend the banquet, Su Fan prepared to go there to have a look.

Finding nine individuals with an extreme Yin constitution to neutralize the nine fire poisons in his body was a matter of life and death for him.

Moreover, after neutralizing the sixth fire poison in his body, he could become a Martial Arts Grandmaster.

A Martial Arts Grandmaster possesses a very strong deterrent power.

Whether it is the Palea Castle in England, the Liu Sheng family in the East, or the Esoteric Monks of the Kutuo Temple in Tibet.

It wouldn't be so easy for those people to deal with him anymore.

They couldn't just post a bounty on the dark web, and then a large number of international assassins from all over the world would come to Yang City to trouble him.

But for Su Fan to break through to the profound energy state of a Martial Arts Grandmaster was not easy.

Firstly, he needed to ascertain if Chen Mengfei was indeed someone with an extreme Yin constitution, and whether her extreme Yin constitution remained intact.

Secondly, upon confirming that she had an extreme Yin constitution and was still a chaste body, how could he interact with her?

Chen Mengfei was the head of the first powerful family in Qin Province, the Chen Family in Yu City, with a high position and renowned status.

She almost never had anything requiring anyone's help other than his.

Even knowing it was difficult to approach Chen Mengfei, Su Fan still set out after preparing himself.

In this world, the vast majority of people with eminent and illustrious status were not simple.

While among them there were some prodigal second-generation rich, once they were removed, almost every one of them was at the peak of human intelligence.

Without an exceptional mind, one could not remain in that position, standing unwaveringly.

That Chen Mengfei could read through from her bachelor's to her doctorate at the age of twenty-nine and have postdoctoral work experience, shows how smart she really is.

Perhaps it is also this reason she could break through in the talent-packed first powerful family of Qin Province and ascend to the position of Family Head in the Chen Family.

To the Chen Family's members, Chen Mengfei was a cold person.

No matter what happened, she remained as calm and rational as a piece of ice.

It was as if she had few facial expressions; no one had ever seen her laugh heartily, at most a cold smile.

As for the expression of worry, it never appeared on her face.

In the vast land of Qin Province, there wasn't just one powerful family.

But the other families understood that the future of Qin Province would be dominated by one family, and their successors were not on the same level as Chen Mengfei.

On the way to Yu City, Su Fan was constantly reviewing information about this legendary woman.

This time to Yu City, Su Fan was not traveling there alone but was accompanied by a Ning family expert with a profound energy state.

Su Fan had met this person before; when Ning Zhengde was poisoned, there were three experts with profound energy state guarding near Ning Zhengde, and this person was one of them.

The person's name was Ning Haiping, possessing peak-level profound energy state strength.

For Su Fan's journey to Yu City this time, he was Su Fan's driver and assistant.

After finishing reading the information on Chen Mengfei, Su Fan asked Ning Haiping a question: "Haiping, have you heard of the legendary female CEO of Ancient Elm Capital?"

Chapter 947

The Ning family's main lineage originally developed in the Coastal City.

However, after settling in Yang City, they began to understand Yang City and Qin Province.

Ning Haiping was no stranger to Chen Mengfei of Ancient Yew Capital.

Ning Haiping answered seriously while driving:

"It is said that Ms. Chen Mengfei began participating in the family business at the age of seventeen."

"Within two years, she was involved in business activities while attending school, and quickly transitioned from an ordinary employee to mid-level management."

"From that time, she was an important member of the Chen family's video conferences."

"At twenty-one, she qualified to participate in the Chen family's high-level video meetings, becoming one of the high-level members."

"Before taking over the Chen family in Yu City, she had already been a senior executive for eight years."

"Strictly speaking, she has thirteen years of work experience at Ancient Yew Capital in the Chen Group."

Ning Haiping was able to become Su Fan's assistant and driver, evidently not without reason.

He was able to detail these matters as if they were personal anecdotes, clearly having done his homework privately.

After Ning Haiping finished speaking, Su Fan nodded slightly.

He had originally thought Yin Qianyue was quite impressive, but after learning about Chen Mengfei, he realized there are always more outstanding individuals in the world.

Su Fan didn't know how much he could accomplish on this trip to Yu City.

In terms of martial arts, the Chen family had two Martial Arts Grandmasters, and his Gang Qi Realm level wasn't noteworthy.

Regarding medical skills, the preliminary round of the China Famous Doctors Competition had taken place earlier.

He was the best in Yang City, and he previously had no relationship with the Chen family in Yu City.

However, many winners from other regions' preliminary rounds were cultivated by the Chen family or tied to their interests.

Moreover, the Chen family had a previous competitor who was a top ten saint physician in the China Famous Doctors Competition.

Among all the extreme yin physiques Su Fan has encountered, Chen Mengfei was by far the most inaccessible and seemingly impossible to deal with.

Yu City, Ancient Yew Courtyard, Chen family headquarters.

The Chen family had recently welcomed a newborn boy, bringing joy to the entire family.

Chen Mengfei is the leading figure of the young generation of the Chen family, yet this strong woman seemed uninterested in marriage.

At twenty-nine, she not only hasn't married, but hasn't dated a boyfriend for more than three months.

Now as the female CEO of Ancient Yew Capital, she barely has time for romance.

By conventional standards, her behavior is certainly incorrect.

Fortunately, this is the new era, and feudal etiquettes are merely amusing to Chen Mengfei.

From Yang City to Yu City, the distance wasn't very far.

Su Fan and Ning Haiping arrived directly at the Ancient Yew Courtyard.

As soon as they arrived, staff warmly guided them to park.

At the Ancient Yew Courtyard, the Chen family makes everyone feel the meaning of true hospitality.

After parking, they were led by a host into the Ancient Yew Courtyard.

This was a spacious, luxurious, majestic Chinese-style courtyard.

After a brief inquiry, Su Fan and Ning Haiping were quickly invited to a seat.

There was roughly ten minutes before the banquet started.

The banquet hall was already crowded.

When the banquet officially began, Su Fan finally saw the Chen family's numerous high-level members in Yu City.

These individuals held important positions throughout Qin Province.

Alongside the Chen family executives were their friends.

They were significant figures or representatives from the political, military, business, and martial arts sectors of Qin Province.

Of course, the woman walking at the center was the legendary figure of Qin Province's business world and Su Fan's target for this trip.

This person was none other than the young Family Head of the Chen family, Chen Mengfei.

Chapter 948

Most family businesses, because the second and third generations are not promising, are managed by professional managers.

The Chen family is different. Chen Mengfei's ability is outstanding, far surpassing professional managers, so she personally manages the Chen family's family business.

When Chen Mengfei appeared, Su Fan was looking for an opportunity to interact with this businesswoman.

However, although he has made a big name for himself in Yang City, he has had little interaction with the Chen family in the past.

Now he wants to connect with Chen Mengfei, but it's really not an easy task.

While Su Fan was contemplating these matters, Chen Mengfei gracefully ascended the stage.

As everyone focused their attention on her, her pleasant and melodious voice followed.

"Distinguished guests, I am Chen Mengfei."

"On behalf of the Yu City Chen family, I welcome you all to this event."

"Today is the hundred-day banquet of Chen Zitong, the first child of the seventeenth generation of the Yu City Chen family."

"His birth signifies that the old generation of the Yu City Chen family can gracefully retire and marks a new beginning for the new generation."

"The core of the Yu City Chen family's business is Ancient Elm Capital."

"In the future, Ancient Elm Capital and all enterprises under the Chen family will continue to collaborate deeply and support each other with all of you."

"I believe that with our joint efforts, the future of Yu City and even Qin Province will be brighter."

When Chen Mengfei finished speaking, everyone began to applaud.

Although she didn't say much, she touched on all the key points.

The main reason everyone came here today was to gain the friendship of the Chen family.

Although coming here does not necessarily mean acquiring the friendship of the Yu City Chen family, at least they now have the opportunity to become friends with the Chen family.

This banquet, though just a hundred-day celebration, such banquets do not frequently occur.

The male infant named Chen Zitong is the first of the eighteenth generation of the Chen family, so the hundred-day banquet was held for him.

The next hundred-day banquet for the Chen family might take place twenty years later when Chen Zitong or other children are born.

In the banquet hall, Su Fan had not found an opportunity to interact with Chen Mengfei.

But he was not in a hurry, as he currently had no particularly urgent matters to address.

Even if he couldn't meet Chen Mengfei this time, he could find other opportunities.

Even directly toasting Chen Mengfei was not feasible, as he had seen that many people trying to toast her were blocked by bodyguards.

Not to mention toasting Chen Mengfei, it was not easy to toast the senior members of the Chen family.

Su Fan originally thought he might come in high spirits only to leave disappointed.

However, he suddenly discovered a problem, which was that the main figure of the hundred-day banquet, Chen Zitong, had been sleeping all along.

It's normal for a baby to sleep; at this stage, children spend most of their day sleeping.

The only abnormal thing is that in such a noisy venue, the baby was still so quiet.

He had observed several times and found the baby quietly sleeping each time.

After contemplating for a moment, Su Fan said to a nearby staff member, "I'm Su Fan from Oriental Medicine; there seems to be a slight problem with the Chen family baby. It might be best to have the medical staff look into it."

Such a major issue is beyond what the attendants could handle, so they had to report it level by level.

The attendant found the manager, the manager found the supervisor, and the supervisor went to find a superior.

After passing through five or six people, one finally approached Chen Mengfei and said to her:

"President Chen, Doctor Su from Oriental Medicine said that Chen Zitong seems to have some issues. He suggests that we have the medical staff check him."

Upon hearing this, Chen Mengfei nodded.

Although nothing usually happens in such situations,

but she had heard of Su, the Divine Doctor, from Oriental Medicine a few times before.

Under such a renowned name, the person shouldn't be making unfounded claims.

Chapter 949

It didn't take long for Chen Mengfei to realize that Su Fan not only didn't make baseless accusations but also helped the Chen family greatly.

In such a lively banquet, no one would normally pay attention to a baby sleeping soundly.

The nanny responsible for caring for Chen Zitong saw the little young master sleeping so soundly, she certainly wouldn't think anything was wrong.

As a result, the family doctor of the Chen family, upon examining Chen Zitong, broke out in a cold sweat on the spot.

Chen Zitong's breathing was very weak.

He wasn't just sleeping; he was in a coma!

Thankfully Su Fan noticed something was wrong, or the consequences would have been unimaginable.

If Chen Zitong were to die on his hundred-day banquet, the impact on the Chen family's reputation would be enormous!

Soon, Chen Zitong was sent to the treatment room at Ancient Yew Courtyard.

Chen Mengfei and several high-ranking members of the Chen family also stood up at this moment.

Although Su Fan raised the alarm in the first moment, Chen Zitong's issue was still difficult to resolve.

When the tree stands tall, it catches the wind! As the Chen family grew to become the top family in Qin Province, it not only attracted envy but also jealousy.

Moreover, during the development of the Chen family in Yu City, they offended quite a few people.

The better the Qin family develops, the more the interests of other forces are harmed.

In such a situation, there are always those who are scheming to make the Qin family suffer!

In the treatment room at Ancient Yew Courtyard, all medical staff were busy.

While they were busy, they were also at a loss.

This incident was troublesome, and it was incredibly troublesome!

Chen Zitong had been poisoned in a mysterious way, and the Chen family had no idea how he got poisoned.

Moreover, because he was just a baby barely a hundred days old, detoxifying him wasn't easy.

The Chen family had a master physician, but this master physician specialized in herbal medicine, not pediatrics.

Even more unfortunate, the master physician, Chen Tangshou, was least skilled in pediatrics.

This time, after diagnosing Chen Zitong, Chen Tangshou could only say:

"As far as I know, unless Zhang Zaixing from the capital or Tang Yannian from Sichuan intervenes."

"Otherwise, little Zitong won't make it through this time."

"But no matter if it's Zhang Zaixing from the capital or Tang Yannian from Sichuan, they won't be able to come anytime soon."

At this point, Chen Tangshou could only look at Chen Mengfei and say, "Prepare for the worst."

Every craftsman has his shortcoming; every measure has its defect; specialized skills have their domain.

Chen Tangshou and the Zhang Zaixing and Tang Yannian he mentioned were all top ten doctors from the last Chinese Medical Competition.

The ten of them are also known as master physicians of China.

These master physicians don't appear every four years in multiples of ten; their term is only four years.

When a new Chinese Medical Competition starts, these old ones have to participate as well.

They might continue to retain the title of master physician or be replaced by other seniors or newcomers.

Chen Tangshou didn't say Chen Zitong couldn't be treated, only that he was difficult to save.

Other Western medicine experts, as well as other Chinese medicine experts, were even more pessimistic than Chen Tangshou.

They were all at a loss with Chen Zitong's situation.

It's not that they are incompetent, but treating a young infant is indeed difficult.

At this stage, infants are inherently very fragile, and their previous clinical experience cannot be directly applied to infants.

Even as pediatric experts began arriving, there was still no good solution.

Up to now, they still didn't know how Chen Zitong got poisoned, or even what poison he had.

Not knowing these two reasons, along with Chen Zitong being just a hundred-day-old baby.

It made treating Chen Zitong extremely difficult.

Many experts look at each other, angering the numerous high-ranking members of the Chen family immensely.

Chapter 950

To say these people are useless, well, there are a few among them who have cases of bringing people back from the brink of death.

To call them each highly skilled Divine Doctors, yet everyone is at a loss when they arrive.

As everyone was quite anxious, Chen Mengfei, the Family Head of the Chen family, also made arrangements at that moment.

She, unworried and composed, said to those around her:

"First, contain the news, don't let it spread, handle it discreetly, this matter is up to Uncle."

"Second, contact renowned doctors in Qin Province and nearby to consult on the matter and see who has a solution, this is Uncle Second's duty."

"Third, connect with Divine Doctor Zhang Zaixing in the capital and Divine Doctor Tang Yannian from Shu, to request their help in saving the person, this task goes to Uncle Fourth."

"Fourth, cooperate with relevant departments to investigate who poisoned, this is Uncle Fifth's responsibility."

"Fifth, handle and execute the above four tasks flexibly."

After Chen Mengfei finished speaking, everyone immediately started to carry out her instructions.

She herself then arranged a meeting with Su Fan.

Because Su Fan was the one who first discovered this matter.

Ancient Yew Courtyard, reception hall.

Su Fan did not expect to have close contact with Chen Mengfei in this manner.

To say close contact is not entirely accurate.

Because, at this distance, he still couldn't determine whether Chen Mengfei was indeed of the Extreme Yin constitution.

Beside Chen Mengfei were two people.

The one on the left was the Chen family's National Medicine Sage, Chen Tangshou.

The one on the right was the Chen family's Martial Arts Grandmaster, Chen Shouren.

While Su Fan was observing Chen Mengfei, she was also scrutinizing Su Fan.

Although she showed no reaction on her face, she was indeed a bit surprised in her heart.

She originally thought that for Su Fan to make such a big name in the field of medicine, he should be a man in his sixties or seventies.

Unexpectedly, Su Fan turned out to look just a little over twenty.

"Doctor Su, thanks to your timely warning this time, you did the Chen family a great favor, and the Chen family will present you with a gift later."

"However, this matter concerns the reputation of the Chen family, and I hope Doctor Su will not disclose too much information to outsiders."

Su Fan wasn't particularly concerned about the Chen family's gratitude gift.

Instead, he caught a key piece of information from Chen Mengfei's words.

Which is, for some reason, the Chen family seems prepared to handle this matter discreetly.

Clearly, there's more to this.

Su Fan immediately asked, "Family Head Chen, if I may ask, how is the baby doing now?"

"If the situation isn't good, perhaps I can help."

Upon hearing this, Martial Arts Grandmaster Chen Shouren couldn't help but sneer.

A Martial Arts Grandmaster is an acknowledgment of his martial prowess, not his morality.

Chen Shouren is a Martial Arts Grandmaster, but not a moral grandmaster.

Hence, his sneer just now was a mockery of Su Fan's overestimation of his capabilities.

As for National Medicine Sage Chen Tangshou, he did not sneer at Su Fan.

He shook his head and said, "Young Su, it's not possible."

"To be honest, our young one has been poisoned by a villain."

"We still don't know who poisoned him, nor do we know what method was used."

"We also don't have a clear diagnosis of the poison."

"And since he's just a hundred-day-old infant, many treatment methods are unusable."

"Apart from Divine Doctor Zhang Zaixing in the capital and Divine Doctor Tang Yannian from Shu, other doctors would find it hard to handle such a sudden incident."

Su Fan had learned about this Chen Tangshou.

This person is the top expert in herbal medicine in the country and not someone who gained fame without merit.

However, Chen Tangshou's strengths lie in herbal medicine, with emergency care being his weak point.

His judgment might not be entirely off the mark, but it must have some issues.
