

Temptation 951

Chapter 951

After Chen Tangshou finished speaking, Su Fan still said, "If other doctors can't find a solution for the time being, I can take a look."

He didn't have any favorable or unfavorable impressions of Chen Tangshou and Chen Mengfei for now.

As for Chen Shouren, he didn't take him seriously.

Although the other party is a Martial Arts Grandmaster, he's not a Traditional Chinese Medicine Grandmaster; in terms of medicine, Chen Shouren is completely clueless.

Chen Mengfei didn't express any opinion earlier, as she generally wouldn't speak on matters she's unfamiliar with.

She doesn't understand the field of medicine.

But as the head of the Chen family, it's a matter she needs to make a decision on.

Even though she wouldn't express her own views, she can make the correct decision.

"Since Dr. Su has relevant medical experience, let's rely on him."

"Dr. Su, please follow us to the medical room over there."

Su Fan stood up and followed behind Chen Mengfei and the others to the medical room.

In the medical room, Chen Zitong's condition was already very dangerous.

The faces of many doctors were very grim.

Dr. Zhang Zaixing from the capital had been contacted not long ago.

But after Zhang Zaixing asked a few questions, he refused to come to Qin Province to save the patient.

It's not that he didn't want to save the child, but that there was not enough time; Chen Zitong wouldn't last until then.

As for Tang Yannian from Sichuan, he has yet to be contacted.

While everyone was at their wit's end, a young doctor appeared in front of everyone.

Some people saw Su Fan's profile and realized that the young man following Chen Mengfei and the others was Su Fan.

Others didn't know who Su Fan was.

Amidst the differing thoughts of the crowd, Su Fan arrived at Chen Zitong's bedside.

After checking Chen Zitong's pulse, he started performing massage on him.

Chen Zitong was too weak to be directly given Acupuncture Technique.

Although Acupuncture Technique is a relatively gentle treatment method, it's still inappropriate for such a young infant just over a hundred days old.

Seeing that Su Fan actually started treating Chen Zitong, a Chinese medicine doctor couldn't help but shake his head, "Truly fearless like a newborn calf."

This person is not an unknown figure, but one of the four Divine Doctors of Yu City, Yue Donglin.

After Yue Donglin spoke, Chen Mengfei's fourth uncle quietly asked, "Divine Doctor Yue, what's the situation now?"

Chen Fourth Master has a good relationship with Yue Donglin; if someone else asked this question, Yue Donglin wouldn't say much more.

But since it was Chen Fourth Master asking, he could say a few words.

After being asked by Chen Fourth Master, Yue Donglin lightly said, "The most crucial thing now for young Master Chen is detoxification."

"If we can't detoxify, any other treatment methods are useless."

There was another sentence that Yue Donglin didn't say, even to Chen Fourth Master.

That is, if something happens to Chen Zitong and the news leaks out.

Most likely, the Chen family would claim it was a medical accident, rather than the child of the new generation being poisoned.

That's why, even though there are many doctors here, and some people have some relatively risky methods, they don't dare to try them easily.

At this moment, no matter how high Su Fan's medical skills are, stepping forward is definitely asking for trouble.

After hearing Yue Donglin, Chen Fourth Master couldn't help but ask anxiously, "So, young Zitong can't be saved?"

This time, Yue Donglin did not speak but nodded.

Chen Fourth Master is also a shrewd person; knowing that Chen Zitong couldn't be saved, he did not stop Su Fan.

However, not all members of the Chen family are that smart.

Chen Sixth Master straightforwardly voiced, "Young man, if you're not completely confident, you better not."

"Many experts have already said that young Zitong's condition is beyond saving."

"If you're not completely confident and mess around with the treatment, it could lead to trouble."

Chapter 952

Old Master Chen's words were quite tactful.

Frankly, what he meant was that Su Fan should not mess around if he wasn't confident.

Su Fan completely ignored Old Master Chen's words.

At the moment, he was channeling True Qi through Chen Zitong's meridian pathways.

Initially, there seemed to be no effect, but after nearly twenty minutes, Chen Zitong's complexion improved significantly.

Not only that, his feeble heartbeat was also returning to normal.

The previously noisy treatment room suddenly fell into dead silence!

Everyone around seemed to be muted at this moment.

After Chen Zitong gradually recovered from his weak state, Su Fan still took out silver needles.

He intended to use the silver needles to infuse his toxin-resistant precious blood into Chen Zitong.

No matter what poison Chen Zitong was afflicted with, his precious blood could save him.

During the acupuncture, he used very few needles.

Altogether, he applied only seven needles, utilizing the Seven Star Needle technique from the Divine Doctor's medical manual.

In just a few moments, Chen Zitong's condition further improved.

Su Fan's precious blood was neutralizing the toxins in his body.

After another twenty minutes, the sound of crying emerged in the treatment room.

At this moment, no one had anything frivolous to say!

Actions speak louder than words! Regardless of others' titles or their past achievements.

Their performance in this emergency was unimpressive, exceeding expectations in the worst way!

Especially Yue Donglin, who now wished he could disappear into the ground.

He had previously sworn that Chen Zitong was beyond saving.

Who would have thought the slap in the face would come so abruptly, with Su Fan saving Chen Zitong in about forty minutes?

Many people now looked at him mockingly or sarcastically.

Yue Donglin's complexion changed from pale to flushed, fluctuating constantly.

He couldn't have dreamed such an unbelievable scene would occur.

Not only him, but other doctors who had drawn conclusions earlier now had very unpleasant expressions.

Compared to them, the Chen family members were thrilled.

They had originally prepared for the worst and were ready to handle the aftermath.

Unexpectedly, in this situation, Su Fan managed to save Chen Zitong!

This event might not make Su Fan famous throughout Qin Province, but the Chen family, as the province's premier household, had taken notice of this young man.

Although Chen Mengfei's expression remained calm, she was extremely grateful to Su Fan.

At this moment, she walked to Su Fan's side and extended her hand: "Divine Doctor Su, thanks to you this time."

Su Fan was overjoyed and extended his hand to shake hers.

After shaking hands with Chen Mengfei, he couldn't help but feel even happier.

His judgment was correct; Chen Mengfei indeed had an extremely Yin constitution and was still untouched.

However, Chen Mengfei also had an issue; for some unknown reason, she seemed to have been taking medication to suppress primal desires for a long time.

As a result, she had no desire for such matters, cold as ice.

Su Fan didn't know why Chen Mengfei had done this.

Regardless of the reason, since Chen Mengfei had been doing this for a long time, it undoubtedly made it more difficult for him to win over this cold and alluring sister.

At this moment, Chen Mengfei was thinking about going back to thoroughly investigate Su Fan's background.

Although everyone's strengths and weaknesses are different, this was likely Su Fan's area of expertise.

But the fact that he could resolve the problem when other doctors were helpless was enough to prove his extraordinary ability.

Chen Mengfei certainly wouldn't have thought that her brother who was several years younger than her was now considering how to get closer to her.

Chapter 953

When Su Fan came to the Ancient Yew Courtyard, he was just an ordinary guest of the Chen family.

After helping the Chen family solve a problem this time, he had become a distinguished guest of the family.

Amidst the envious gazes of many renowned doctors and Divine Doctors around, Chen Mengfei said warmly:

"Divine Doctor Su, could you come to my study to discuss some matters?"

Everyone knew what this meant.

This meant that this legendary woman was personally inviting Su Fan to join the Chen family.

Of course, Su Fan would agree to talk with Chen Mengfei in the study, but he would not agree to her invitation to join the Chen family.

In the future, his Eastern Medicine would be the top group in Qin Province.

If the Chen family's Gu Yew Capital was not his friend in the future, then they could only be competitors.

Previously, Chen Mengfei met with Su Fan in the reception hall.

This time, it was held in the study, which showed that Su Fan's position among the Chen family's guests had significantly risen.

Chen Shouren, as Chen Mengfei's bodyguard, was mostly by her side.

This made it more difficult for Su Fan to approach Chen Mengfei.

Chen Tangshou did not come this time and was instead providing follow-up treatment to Chen Zitong.

Upon entering the study, Chen Mengfei motioned Su Fan to take a seat on the sofa nearby.

"Divine Doctor Su, please sit."

Su Fan sat casually on the sofa, waiting for Chen Mengfei to continue the conversation.

He had many thoughts about Chen Mengfei, but this woman was indeed too difficult to deal with.

This made him consider whether to look for another woman with an Extreme Yin Body in advance.

Once he found another woman with an Extreme Yin Body, he could become a Martial Arts Grandmaster.

If he courted Chen Mengfei with the status of the youngest Martial Arts Grandmaster in China, he would certainly be qualified.

At this point, Chen Mengfei walked behind the desk, slowly sat down, and then crossed her legs.

Her long legs were strikingly beautiful, and from Su Fan's current angle, he could take a full view of the beautiful legs wrapped in black silk.

After sitting down, Chen Mengfei directly said to Su Fan:

"Divine Doctor Su, the Chen family has private hospitals, pharmaceutical companies, and research centers in cooperation with universities."

"With Divine Doctor Su's medical skills, coupled with the empowerment of the Chen family's resources, you can achieve greater accomplishments quickly."

"Is Divine Doctor Su interested in working for the Chen family's enterprises?"

Su Fan knew that the next response was quite crucial.

If he agreed, he would have more opportunities to contact Chen Mengfei.

If he refused, Chen Mengfei would probably exchange a few polite words with him but wouldn't continue to invite him.

He might find it difficult to encounter sudden incidents like the one with Chen Zitong again.

It would become quite challenging for him to engage with Chen Mengfei.

Therefore, this was a test of his wisdom.

Su Fan, of course, wouldn't be stumped. After thinking for a while, he calmly said:

"I have a great affection for the city of Yang City."

This statement left Chen Mengfei and Chen Shouren puzzled.

Because his words seemed irrelevant to the question.

But Su Fan's words were obviously not finished.

So, he quickly continued, "I grew up in the mountains; I'm a child of the mountains."

"Before coming to Yang City, I practiced martial arts and studied medicine with my grandfather in the mountains."

"After coming to Yang City, my aunt treated me very well, and it was in this city where my self-worth was continuously realized."

"When I worked at the Yangcheng Medical University Affiliated Hospital, there originally was no Traditional Chinese Medicine department, but they established one for me."

"During the preliminary rounds of the famous doctor's competition, the dean's wife even provided special assistance for my living."

"In Yang City, I founded a pharmaceutical company that disrupted industry norms, using traditional Chinese medicine to replace all Western medicine."

"It was a very risky decision, but it was also a great success in Yang City."

At this point in Su Fan's words, Chen Mengfei and Chen Shouren somewhat understood his stance.

That is, he would continue to stay in Yang City to develop or, in other words, lead the development of Yang City.

Chapter 954

Chen Mengfei felt not a trace of regret.

Even though Su Fan's current medical skills and martial arts prowess are quite impressive.

But to Chen Mengfei, he has not yet reached the level of being irreplaceable.

However, before Chen Mengfei could speak, Su Fan continued:

"Even though I won't be joining the Chen family's enterprise for now, I still hope Oriental Medicine can cooperate with the Chen family enterprises to the fullest extent."

"The Chen family has channels both domestically and internationally, while I have products that can be sold globally."

Su Fan's words naturally piqued Chen Mengfei's interest.

Enterprises are categorized as city-level, provincial-level, national, and global enterprises.

Real big businesses are engaged in global world trade.

Being the number one noble family in Qin Province, the Chen family's business is of course spread worldwide.

However, the money the Chen family earns is hard-earned; they don't have any formidable flagship products, merely serving as "porters."

Chen Mengfei grew interested in Su Fan's words.

Chen Shouren, on the other hand, sneered openly, his disdain for Su Fan evident.

It's not that this old man targets Su Fan; he's like this with everyone.

If it weren't for him being a Martial Arts Grandmaster of the Xuanqi realm, Chen Mengfei would have definitely kicked him out.

Su Fan showed no emotion towards Chen Shouren.

This old fellow had just been humiliated by him not long ago, yet hadn't learned his lesson.

Even Chen Mengfei cast a meaningful glance at Chen Shouren this time.

The Chen family's female head did not speak, but the meaning was clear — a warning to Chen Shouren not to stir up trouble.

Though arrogant and overbearing, Chen Shouren knows how to distinguish the big from the small.

Immediately, he watched his nose, watched his heart, not uttering another word.

This scene was naturally caught by Su Fan, and he too realized the competence of the formidable woman before him.

Even a Martial Arts Grandmaster was subdued obediently by her.

Chen Shouren's reason for being so compliant is of course evident.

Both Chen Mengfei's grandfather and her grandfather in the distant southern capital are Martial Arts Grandmasters.

Chen Mengfei's voice once again emerged from the study: "Divine Doctor Su, is Oriental Medicine's product really so remarkable?"

Su Fan nodded with absolute certainty: "Oriental Medicine's traditional Chinese medicine has numerous advantages."

"In terms of price, most products outperform western medicine."

"In terms of efficacy, even if it doesn't outperform western medicine, the efficacy is at least comparable."

"In terms of health, most Chinese medicines have no side effects, or minimal side effects."

"When it comes to complex illnesses, many incurable diseases by western medicine can be treated by Oriental Medicine's Chinese medicines."

After Su Fan listed these four advantages of Oriental Medicine's products, Chen Mengfei's eyes immediately lit up.

She had heard of Oriental Medicine before but hadn't looked into it carefully.

Now, hearing Su Fan's explanation, she suddenly became interested.

If what Su Fan said is true, then obviously the Chen family could consider acquiring Oriental Medicine!

That's right, Chen Mengfei did not plan to cooperate with Oriental Medicine but intended to acquire it.

The Chen family is now running errands for other giants, cooperating with Oriental Medicine would mean running errands for Su Fan, wouldn't it?

However, just as Su Fan thought getting close to Chen Mengfei was extremely difficult.

For Chen Mengfei to purchase Su Fan's company is also very difficult, if not impossible.

Contemplating for a moment, Chen Mengfei looked earnestly at Su Fan and said:

"Was what Divine Doctor Su said just now entirely truthful, or was there a bit of exaggeration?"

Su Fan replied with absolute certainty: "It's all true without a trace of exaggeration."

"The Family Head can visit Oriental Medicine at any time and bring some products for testing."

Seeing his confidence, Chen Mengfei was already somewhat convinced.

Moreover, she truly intended to visit Oriental Medicine in Yang City.

A businessperson of her level visiting Yang City might even be welcomed by the mayor personally.

Chen Mengfei immediately said: "My schedule for the next two weeks is already fixed; how about I visit Oriental Medicine two weeks from now?"

Chapter 955

Su Fan nodded slightly. For him, it didn't matter when Chen Mengfei would visit Dongfang Medicine.

He simply wanted to have more interactions with Chen Mengfei to heat up their relationship faster.

As for this matter, it could be considered temporarily concluded.

Su Fan's trip to Yu City yielded many gains for him.

He confirmed that Chen Mengfei had an extremely yin physique and was still chaste.

He also learned about the profound heritage of the Chen family, the top family in Qin Province.

Moreover, due to the incident with Chen Zitong, he left a good first impression on Chen Mengfei and some of the high-ranking members of the Chen family.

Su Fan didn't care about the attitudes of the other high-ranking members of the Chen family, but he cared very much about Chen Mengfei's attitude.

Now, having confirmed Chen Mengfei's constitution, the next issue was how to approach this cold and elegant lady.

On this issue, Su Fan had no good solutions, and could only take it one step at a time.

Even at his current level, dealing with Chen Mengfei was not an easy task.

After the banquet ended, Su Fan returned to Yang City together with Ning Haiping.

If everything went as expected, he would only need to prepare for the city-level competition of the famous Chinese doctor contest.

The city-level competition was not just against doctors from the same city; a division required at least one hundred doctors to compete.

Hence, the city-level competition of the famous doctor contest was also known as a one-in-a-hundred chance.

Doctors who passed the preliminary selection usually had some real skills.

The one-in-a-hundred winner among these doctors could be considered a Divine Doctor locally.

If they stood out in the subsequent provincial competition as well, they could become a renowned doctor throughout the province.

Of course, before participating in the city-level competition of the famous doctor contest, he still had to host Chen Mengfei.

If his company could reach a cooperation with the Chen family,

then he and Chen Mengfei would have more opportunities to interact.

When Su Fan returned to the affiliated hospital of the Medical University, the doctors' gazes toward him were filled with more esteem and admiration.

His colleagues at the hospital were evidently aware that he had taken leave to attend the Chen family's banquet in Yu City.

As Su Fan passed through a corridor, two young doctors were quietly discussing.

The first to speak was Gao Bin from the department of Chinese medicine.

With some excitement, he looked at Su Fan's back and said, "Did you hear? Director Su was amazing in Yu City this time!"

The doctor opposite Gao Bin was Liu Jinyang from the emergency department.

Although Liu Jinyang knew that Su Fan had gone to the Chen family in Yu City, he was unaware of Su Fan's great feats.

So he could only shake his head and say, "Isn't there Chen Tangshou, the Divine Hand, in the Chen family of Yu City?"

"No matter how powerful Director Su is, he can't be more formidable than the Divine Hand, right?"

The title of National Medicine Hand is the highest honor for Chinese medicine practitioners, with only a few achieving it.

While Gao Bin and Liu Jinyang were speaking, Su Fan's assistant Lu Wenwen happened to come by.

Hearing the two discussing Su Fan, she stopped out of curiosity to listen.

After Liu Jinyang inquired, Gao Bin smugly remarked:

"You're spot on; from the insider information I've gathered, Director Su this time is indeed more formidable than the Divine Hand!"

Both Lu Wenwen and Liu Jinyang knew that Gao Bin wasn't one to boast idly.

If he said so, he must have verified the source of the information.

But this matter was still too shocking!

Although they didn't know the details, both realized that in the Chen family of Yu City, Su Fan had beaten Chen Tangshou once!

It's a pity that the Chen family had blocked the news, so no one outside the parties involved knew more details.

Even so, Su Fan once again made a name for himself.

His medical skills had always been a topic of interest, but this time was different from any previous occasion; this time, he defeated a National Medicine Hand!

Chapter 956

The discussions and praises from the people in the hospital had reached Su Fan's ears.

However, he was uncertain about the exact level of medical skills both he and Chen Tangshou possessed.

He wasn't concerned about this matter right now; instead, he was seriously contemplating how to advance further with Chen Mengfei.

After defeating Danba of the Tantra School, neither the Tantra School's Kutuola Temple, England's Palleya Castle, nor Japan's Liu Sheng family had made any moves.

This granted him a brief period of peace in his life.

But this peace was only temporary because the Stick King of the Philippines, Iludi, had challenged him on the dark web.

Su Fan learned about this through Chen Hanqing.

While browsing through medical books in his office, he received a call from Chen Hanqing.

"Mr. Su, the Stick King of the Philippines, Iludi, has issued you a challenge on the dark web."

Upon hearing this news, Su Fan felt somewhat baffled.

He didn't know the Stick King of the Philippines, nor did he have any interest in accepting the challenge.

However, Su Fan still asked, "Have you investigated this person's basic information?"

Chen Hanqing promptly replied confidently, "Yes, the person is a martial artist at the mid-to-late stage of the Gang Qi Realm."

"His challenge to Mr. Su this time seems to be related to the Liu Sheng family in Japan."

With Chen Hanqing's explanation, Su Fan wasn't surprised anymore.

He had no interaction with Iludi, but since the Liu Sheng family had approached Iludi, this person was very likely hired to cause trouble for others.

Su Fan immediately continued inquiring, "Did he mention anything else offensive, or was it just a straightforward challenge?"

Chen Hanqing did not conceal anything and seriously responded, "He was very clear on the dark web that if Mr. Su does not accept his challenge, he will find any means to make Mr. Su accept it."

Su Fan understood; Iludi was threatening him.

If he dared not accept the challenge, Iludi would take some measures!

Su Fan thought for a moment and said to Chen Hanqing, "Send me all the information on this matter."

He was somewhat inclined to go directly to Iludi's turf and take him down.

Otherwise, even though many masters were now in Yang City, having to be constantly on guard against Iludi was a headache.

After he spoke, Chen Hanqing immediately complied, and before long, the intelligence on Iludi was in Su Fan's hands.

Upon thoroughly reviewing the intelligence, Su Fan realized that he was facing an enemy more formidable than any previous opponents.

Iludi was someone who had clawed his way up from the bottom, becoming an influential figure through arduous struggles.

For the sake of money, this person would do anything.

Becoming Iludi's enemy was undoubtedly a painful experience.

Because all previous enemies of Iludi had met tragic ends.

These people had their skulls shattered by Iludi using the Philippines' demon stick.

Although Iludi was an extremely troublesome enemy, Su Fan still chose to accept the challenge.

If he didn't accept Iludi's challenge, it would lead to even greater troubles.

From the information on the dark web, it was clear that Iludi would resort to targeting one's family if his objectives weren't met.

However, while Su Fan agreed to the duel with Iludi, he wasn't planning to fight him on the cruise ship.

Iludi had proposed they duel not in Yang City, but on a cruise ship.

He planned to first accept the duel invitation while secretly scheming with Ning Zhengde and Ning Tianhe to eliminate Iludi.

Since the opponent intended to go against him, they were his enemy.

In such a situation, there was no need to adhere to any rules with the opponent.

This was Su Fan's line of thinking, and it was also his course of action.

Soon, he arrived at Villa No. 4 in the Bai Yulan Villa District and found Ning Zhengde and Ning Tianhe.

Chapter 957

Under Su Fan's treatment, both Ning Zhengde and his son recovered quite well.

The fact that Eludi issued a challenge to Su Fan on the dark web was also known to Ning Zhengde and his son.

Seeing Su Fan, Ning Zhengde got straight to the point and said, "Divine Doctor Su, how are you planning to handle this situation?"

Su Fan didn't hesitate and directly shared his thoughts, "I plan to take the initiative!"

Ning Zhengde was a bit surprised but still nodded, "Tian He and I have both been recovering well, we can join you in action."

"But after dealing with Eludi, could Divine Doctor Su help us resolve some Ning family affairs?"

Though Ning Zhengde hadn't mentioned it lately, the conflict between the Ning family's first and second branches was obviously still ongoing.

Faced with immense profit, what was once a united front had become sworn enemies.

Su Fan nodded, "No problem, this time I'll call Zhao Lao and Xia Lao as well; the five of us will go together."

He intends for the five of them to practice in real combat a few times to increase their synergy.

After all, they will have to face enemies like the Liu Sheng family of Japan and the Parea Castle of England in the future.

This time they'll start by practicing with Eludi and Ning Qi Yun and the others.

Once the time is right, they will take direct action against the Liu Sheng family of Japan and the Parea Castle of England.

A disguised group led by Eludi was already en route to China on a passenger ship from the Philippines.

Although Su Fan agreed to duel Eludi on a cruise ship on the high seas,

Eludi never genuinely intended to duel Su Fan on a high seas cruise; it was just to mislead him.

In this case, both Su Fan and Eludi had the same idea.

Agreeing to Eludi's duel invitation was just a temporary strategy; he planned to gather forces in secret to eliminate Eludi.

When Eludi set out, Su Fan also set out.

Eludi wasn't surprised that Su Fan set out at that time.

Because Su Fan leaving Yang City at that time was obviously to go duel him on the high seas.

But unfortunately, he wasn't planning to wait for Su Fan on the high seas. Instead, he intended to kill Su Fan in a coastal city in Southeast China!

Only Eludi wouldn't have anticipated that Su Fan was not coming alone, not even with just two people, but assembling seven people.

Initially, Su Fan planned to go with only Ning Zhengde, Ning Tianhe, Zhao Chunqiu, and Xia Zhaonan.

But during the operation, Ning Miaoqi and Zhen Bingyu also joined the team.

This gave them two Gang Qi Realm fighters and five peak-phase Martial Artists.

Such a martial strength was already very formidable.

Even breaking into Eludi's lair was more than enough.

Eludi was unaware that Su Fan was bringing so many experts to deal with him.

Most of his attention at that moment was still on Liu Sheng Qingyin.

In a cabin room on the passenger ship, Liu Sheng Qingyin let out a painful scream.

During this time, she spent most of her time under Eludi's tutelage.

In a luxurious, comfortable cabin, Liu Sheng Qingyin, wearing only ultra-thin black silk, was bound hand and foot.

She was kneeling in front of Eludi in extreme humiliation.

"Smack!"

Eludi raised his hand and slapped her full, rounded breast.

There were many nerves here; even squeezing it hard would cause significant pain.

This slap by Eludi, though not using True Qi, was delivered with force.

The slap almost made Liu Sheng Qingyin cry out on the spot.

Her body trembled uncontrollably with fear.

Eludi didn't care about that; he only cared about how much pleasure he could derive from it.

"Smack!"

Without any hesitation, Eludi swiftly delivered another slap on Liu Sheng Qingyin's tender peaks.

Chapter 958

Liu Sheng Qingyin could only silently weep, silently endure.

She dared not dodge, because if she did, she would face a more terrifying punishment.

Iludi carried many tools, including a sewing needle.

The sewing needle is very similar to the silver needle, but they are completely different.

In Su Fan's hands, the silver needle wouldn't cause any pain; even if a layman pricked it into Sufeng, as long as it didn't go deep, the harm was limited.

The sewing needle is different; it is a very frightening torture instrument.

After being pricked a few times, even if it caused her excruciating pain, Liu Sheng Qingyin dared not dodge anymore.

As Iludi's slap fell, and another slap followed, her heart was filled only with hatred.

Deep in her heart, she swore in secret: "As long as I live, I will make Iludi and the Liu Sheng family all die terribly!"

Having experienced betrayal and torture, the once pure girl had become cold and ruthless.

Soon Liu Sheng Qingyin would understand one truth: When you are at the mercy of others, there are no rules at all.

Even though she did not dodge from Iludi's beating, Iludi decided to do something terrible to her tonight.

At the same time, in Hangzhou, the Ning family.

It was no secret that the Ning family had split into two.

Because Ning Zhengde and others were caught off guard by Ning Qi Yun and his group back then, the second house of the Ning family now held the advantage.

Ning Qi Yun understood that although they currently had the advantage, as long as Ning Zhengde and others were alive, they couldn't live peacefully.

In a bedroom of the Ning family's villa, Ning Qi Yun sat face to face with a woman.

Ning Qi Yun was a warrior, and opposite him, Ning Yaqing was the brain of the second house.

Ning Yaqing was Ning Qi Yun's niece, and among the second house members, she was the most insightful and visionary.

Long ago, she had told the upper echelons of the second house that unity with the first house benefits both; division causes mutual defeat, and there's no need to crush the first house.

But unfortunately, the second house members insisted on going their own way, which led to the current situation.

Ning Qi Yun stood up and poured a glass of red wine for both himself and Ning Yaqing.

Originally, he had lost the ability to reproduce due to an accident.

But after mingling with this intelligent, charming, and incredibly alluring niece, he miraculously recovered.

He didn't care much about power or fame; he only cared about personal enjoyment.

Therefore, he had even planned for the worst, which was to take the beautiful niece in front of him and leave if necessary.

He was a Gang Qi Realm expert; the world is vast, where couldn't he go?

Ning Yaqing seemed to understand her uncle's thoughts, so she directly said:

"Uncle, if you want to give up directly and walk away, I advise you to abandon that thought."

Ning Qi Yun said somewhat unhappily: "Ning Zhengde and Ning Tianhe are not easy to deal with, and now they are mixed up with Su Fan."

"I tell you the truth, when I was young, I went to Tibet and fought with an esoteric monk named Danba."

"Although he wasn't my match, he was no ordinary person either."

"Su Fan being able to kill Danba, his strength must be extraordinary."

"Continuing to fight them will only lead to no good outcome."

Ning Yaqing shook her head: "Uncle, Su Fan has enemies all over the world, there's no need to fear him so much."

"England's Parya Castle, Japan's Liu Sheng family, and Esoteric's Kutu Temple all want him dead."

"Even the Filipino stick king Iludi has challenged him to a duel this time."

"Earlier, during the rescue of Ning Tianhe, he killed people from our second house, and this time..."

Ning Yaqing couldn't continue speaking because Ning Qi Yun had already pinned her down.

After being a eunuch for so many years and finally regaining his virility, with such a beautiful niece in front of him, Ning Qi Yun was in no mood to waste time.

Chapter 959

Ning Yaqing couldn't muster any resistance, her delicate peaks were toyed with by Ning Qi Yun.

Though she didn't fiercely resist, deep in her eyes lurked profound disgust.

Were it not for her grand ambitions, she would never allow Ning Qi Yun to toy with her so wantonly.

Ning Qi Yun had strength but no brains or ambition, while she was exceptionally clever but lacked the strength to match her ambition.

"Second Uncle, let me up first. Let's finish discussing business, then you can do whatever you want."

In her heart, Ning Yaqing felt an increasing disdain towards Ning Qi Yun.

But when the day comes that she either gains power or finds a better pawn, she will ruthlessly discard Ning Qi Yun!

After Ning Yaqing spoke, Ning Qi Yun shook his head: "Spend some time with me first. Once I'm satisfied, we can discuss business."

Hearing this, Ning Yaqing felt even more contempt for the man before her.

With so little self-control, what great things could he accomplish?

Of course, Ning Qi Yun didn't know Ning Yaqing's true thoughts, and even if he did, he wouldn't care.

He was already charging forward, developing Ning Yaqing once more.

Meanwhile, Su Fan and his group entered Yang City.

They were there to wait for Chen Hanqing's intelligence before taking their next step.

Chen Hanqing didn't keep Su Fan waiting long and soon called him.

"Mr. Su, Iludi and his group have left the Philippines."

"But upon careful investigation, it turns out they didn't really head for the open seas but came to China."

"If nothing unexpected occurs, they will soon come to Yang City too."

Su Fan was initially stunned but then understood.

Just like him, Iludi wasn't planning to follow the rules and intended to play dirty.

He had a group of experts preparing to raid Iludi's stronghold.

Iludi also brought a group of experts, aiming to assassinate him in Yang City.

Only someone as straightforward as Danba Monk would honestly fight him in a direct challenge.

After pondering for a while, Su Fan seriously asked, "Hanqing, do you know when Iludi and his group will arrive in Yang City?"

Chen Hanqing didn't answer immediately but meticulously checked his data.

He then said to Su Fan: "The passenger ship they're on will first go to Qing Port."

"If they disembark at Qing Port, I won't know if they'll come to Yang City."

"But if they don't disembark at Qing Port, they might appear in Yang City in about half a day."

Su Fan continued to ask, "After they arrive in Yang City, can their positions be tracked?"

"Furthermore, how many of them are there, and how many Gang Qi Realm experts are among them?"

Chen Hanqing replied, "We can track their positions, but I don't know how many experts they have."

Though he's able to uncover a lot of information, he can't control all intelligence.

While Su Fan felt a bit regretful in his heart,

as long as Chen Hanqing could determine their position once Iludi and his group reached Yang City, it would suffice.

He immediately said: "If Iludi's group disembarks at Qing Port, keep a close eye on their movements."

"If they don't disembark at Qing Port and come to Yang City instead."

"Provide me with their coordinates as they enter Yang City."

Chen Hanqing noted down Su Fan's instructions and said, "No problem, Mr. Su."

This time, both Su Fan and Iludi were planning a similar course of action.

The only difference was that Su Fan had someone like Chen Hanqing, a world-class hacker, by his side.

Iludi's intelligence was all obtained from the dark web.

While there are also world-class hackers at his service on the dark web, top-notch hackers aren't at his constant beck and call.

Chapter 960

Iludi never imagined that Su Fan could have the same idea as him, or even go to the Philippines to deal with him.

But this time he was mistaken, Su Fan took this opponent very seriously.

So much so that Su Fan was not ready to face him openly, but opted for underhanded tactics.

However, no matter what happens next, the night is already deep.

No matter what happens next, everyone still has a wonderful night.

The moon is high, all is silent.

Ning Zhengde and the others sleep soundly, but Zhen Bingyu found it difficult to sleep.

In Yang City, she felt very secure.

That city was far from Palia Castle, but this time in Jiang City, she felt somewhat dazed.

She seemed to have returned to the past; those terrifying events never truly left her.

In the hotel room, Su Fan was sitting cross-legged in rest.

But upon hearing movement at Zhen Bingyu's door, he followed her out.

He trusted Zhen Bingyu and did not think she would betray him.

Zhen Bingyu currently had no reason to betray him, both were on the same boat, cooperation was the only way forward for both.

After leaving the room, Zhen Bingyu headed to the hotel's rooftop.

Su Fan discreetly followed behind Zhen Bingyu.

When there was movement in Zhen Bingyu's room, Ning Tianhe also opened his eyes.

But after Su Fan left, he continued sleeping.

Su Fan followed Zhen Bingyu to the hotel rooftop.

The view here was wide and expansive, capturing the whole city at a glance.

Zhen Bingyu came to the rooftop, not to do anything in particular.

She took out a box of ladies' cigarettes, lit one, and smoked casually.

While she was smoking, Su Fan's voice came from nearby: "Got something on your mind?"

Upon hearing Su Fan's voice, Zhen Bingyu was not surprised.

Experts like Su Fan and Ning Tianhe in the Gang Qi Realm have strong perception abilities even in their sleep.

Discovering her leaving the room was entirely normal.

After Su Fan asked, Zhen Bingyu nodded.

She came to this place indeed with things on her mind.

Su Fan smiled and said: "What's up?"

Zhen Bingyu thought for a moment and chose to speak truthfully: "Back when we were in Yang City, I felt very safe."

"On this trip, I can't help but feel scared, it seems like I've returned to the days of fleeing everywhere."

After speaking, she couldn't help but say: "You are on Palia Castle's kill list, aren't you afraid at all?"

Zhen Bingyu, Ning Miaoqi, and others grew up in the Palia Castle Life Science Academy, always shrouded by Palia Castle's shadow.

This caused them to be very fearful of Palia Castle.

Because before meeting Su Fan, their life and death were merely a word from Palia Castle.

To Zhen Bingyu's question, Su Fan gave a genuine reply: "Even when I was much weaker, I had already provoked Palia Castle."

"I have always treated Palia Castle as a serious enemy, never with fear."

Su Fan had another thought, which was that fear never solved any problems.

Instead of being worried, it's better to improve oneself and find a way to eliminate Palia Castle!

That's how he thought, and that's how he acted.

Many of Palia Castle's experts have already fallen at his hands.

Zhen Bingyu nodded slightly, she believed Su Fan's words.

She and Ning Miaoqi had been with Su Fan for some time.

She quite understood the man in front of her, he was not one to speak without reason.

Zhen Bingyu soon asked another question: "Can we really defeat Palia Castle?"

Su Fan smiled at her words: "We have to fight, even if we declared surrender, they wouldn't let us go."
