

Temptation 971

Chapter 971

Su Fan had already decided to make this beauty water directly into Longjing tea flavor.

With him providing the formula and production guidance, the rest would be left to Wang Xiaoxiao and the others.

After handing over this matter, he could finally relax a bit.

Next, all he had to do was wait for Chen Mengfei to visit Dongfang Pharmaceuticals at the agreed time.

He continued to go to work at the hospital, honing his medical skills, preparing for the national competition of the Hua Xia Famous Doctors Contest.

Before the Famous Doctors Contest concluded, Zhou Jie was basically always in Su Fan's office.

Of course, Su Fan wouldn't miss such a rare opportunity, making the most of his proximity.

Time passed quickly, and only one day was left until Chen Mengfei's visit to Dongfang Pharmaceuticals.

Everyone at Dongfang Pharmaceuticals took this matter very seriously.

Compared to everyone else, although Su Fan also valued this matter, he wasn't as nervous.

In the director's office of the Traditional Chinese Medicine Department at the Medical University Affiliated Hospital.

After Zhou Jie poured him tea, Su Fan immediately pulled Zhou Jie into his arms.

Zhou Jie struggled to get up and said, "What are you doing?"

Su Fan didn't answer, instead showing Zhou Jie what he intended to do through action.

Zhou Jie's cherry lips were quickly kissed by him.

Then he quite aggressively pried open Zhou Jie's beguiling lips, beginning to take greedily.

Inside Zhou Jie's mouth, only a series of "mmm" sounds could be heard, clearly indicating she wanted to say something but couldn't.

Su Fan held Zhou Jie and kissed her for a long time before letting her go, somewhat reluctantly.

Once she could speak, Zhou Jie immediately said, "Xiao Fan, don't mess around."

"The Municipal Competition of the Famous Doctors Contest is starting soon."

"You've been taking leaves or fooling around during work time instead of properly preparing."

Upon hearing this, Su Fan chuckled and said, "Sister-in-law, do I still need to prepare?"

Zhou Jie was at a loss for words since, in her view, Su Fan was sure to win the municipal and provincial competitions.

Yet, thinking it over, Zhou Jie still said, "Even if you don't need to prepare for the upcoming municipal competition, you would still need to prepare for the national competition, right?"

This time, Su Fan nodded, "I indeed need to prepare for the national competition of the Famous Doctors Contest."

"It's just..."

He didn't finish his sentence but directly pinned Zhou Jie onto the sofa, lifting her skirt.

Zhou Jie was wearing a seamless pair of white pantyhose on her legs.

If Zhang Haitao were twenty years younger, this Director Zhang would have been quite fortunate.

Every night, he could have clung to his beautiful and charming young wife.

Unfortunately, Zhang Haitao wasn't a Martial Artist, unable to defy the laws of nature.

Even if he kept her hidden in a golden house, he couldn't enjoy it, leaving the benefits to Su Fan.

Su Fan, practiced and experienced, quickly launched an attack on Zhou Jie.

Zhou Jie could only stretch out her hands to push Su Fan: "Close the window!"

Although generally, no one in the building opposite looks this way, Zhou Jie was still worried about being seen.

Upon hearing this, Su Fan simply picked Zhou Jie up directly.

A sense of fullness quickly filled Zhou Jie's heart.

Her pretty face turned a shade of red, and she could only reach out to hug Su Fan to prevent him from dropping her.

Zhou Jie initially thought that Su Fan just wanted to carry her over to close the window and draw the curtains.

However, standing by the window, Zhou Jie was utterly dumbfounded!

Because Su Fan had brought her over not to close the window or draw the curtains, but to deliver a vigorous surprise next to the window.

"Xiao Fan, draw the curtains..."

Su Fan's audacity almost made Zhou Jie's heart leap out.

The intense stimulation only made her convulse more.

She could only cling closer to Su Fan.

"Sister-in-law, don't worry. Normally, there's no one in the house opposite during the day."

"Even if there were someone, they wouldn't see anything from this distance."

Despite Su Fan's assurances, Zhou Jie still reached to pull up one side of the curtain.

But she couldn't quite reach the other side of the curtain.

Then again, it didn't matter so much. As long as she was restrained, Su Fan could do as he pleased.

This time, Su Fan intended to have a thoroughly wild time with Zhou Jie.

Unexpectedly, just as they started, Zhang Haitao arrived!

"Xiao Fan, are you in?"

Chapter 972

Su Fan pondered for a moment, steadied himself, and said, "Director, what's the matter?"

Zhang Haitao heard Su Fan's voice and didn't think much about what Su Fan was doing, just continued outside the door, "Let's go to the meeting room for a meeting later."

Hearing this, Su Fan immediately breathed a sigh of relief, "Alright, I'll be there shortly."

For a meeting of the hospital's management, it certainly wasn't necessary for Zhang Haitao to personally notify anyone.

He just happened to pass by Su Fan's office and took the opportunity to inform him.

After Zhang Haitao left, Zhou Jie was scared to death.

If Zhang Haitao had insisted that Su Fan open the door just now, she would have been in big trouble.

The blush on her cheeks, even if Zhang Haitao was clueless, he would instantly know what was going on.

Although Zhang Haitao doesn't know yet, she has been played by Su Fan before, and it happens quite often.

But if Zhang Haitao found out about this, there would definitely be no good outcome for her.

After Zhang Haitao left, Zhou Jie immediately wanted to speak.

Su Fan made a gesture for her to be quiet; Zhang Haitao wasn't so easily fooled and had his ear to the door outside.

Su Fan temporarily released Zhou Jie.

Then he walked over to his desk and spoke:

"Sister-in-law, you don't need to bring me lunch later."

"I don't know how long this meeting will last."

Zhou Jie, of course, didn't need Su Fan to teach her what to say at this moment.

She steadied herself and said, "Alright, then I won't bring you lunch."

Outside the office, hearing their conversation, Zhang Haitao had no doubts.

He would conduct surprise inspections on Su Fan every now and then, and it turned out that Su Fan devoted all his energy to medicine.

He had no interest in the female doctors and nurses around him whatsoever.

It was normal; if it wasn't like this, how could Su Fan's medical skills be so remarkable?

What Zhang Haitao didn't know was that the real situation was exactly the opposite.

The time Su Fan spent studying medicine was the least of all.

Zhou Jie thought she had finally escaped a disaster this time.

But she obviously overthought; after Zhang Haitao truly left, Su Fan quickly approached her.

This time, Su Fan pinned Zhou Jie against the wall, and without further ado, began a whirlwind storm of an attack.

He intended to let Zhou Jie experience the firepower of two to three hours within twenty minutes, then go to the meeting.

In the hospital, after being notified of an impromptu meeting, it usually took about twenty minutes for everyone to gather.

So this was tough on Zhou Jie; facing the relentless, terrifying onslaught, she could barely hold back her tears.

After twenty minutes of intense aggression and having fully released himself, Su Fan quickly tidied up and prepared to head to the meeting room.

But this meeting obviously couldn't happen.

A short while ago, the mayor of the city and other major figures of Yang City finished touring an eco-friendly construction material company and were leaving.

A runaway truck crashed onto the sidewalk, injuring all of them to various degrees.

Among them, the mayor was the most severely injured and had already fallen into a coma. He was immediately taken to the affiliated hospital of Medical University for emergency treatment.

Faced with such an unexpected situation, Zhang Haitao obviously couldn't organize a hospital leadership meeting.

All the doctors in the hospital were thrown into urgent medical tasks.

Su Fan was called by Zhang Haitao not long after he left his office.

"Director Su, come to the emergency room quickly. There was an accident just now, and the mayor is injured."

While hurrying to the emergency room with Zhang Haitao, Su Fan casually asked,

"What happened to the mayor? What kind of accident occurred?"

Although he was quite tempted by Jiang Gao's wife, he wasn't wishing for Jiang Gao to get into trouble now.

Chapter 973

The cause and effect of Jiang Gao's accident was quickly investigated.

It wasn't a conspiracy at all; it was simply the result of the city mayor's streak of bad luck.

He and several city staff were on the sidewalk when they happened to encounter the out-of-control truck.

Jiang Gao was very unlucky, but he wasn't the unluckiest.

This sudden accident caused two deaths and four injuries, with two people dying in the line of duty right at the scene.

However, Jiang Gao's luck wasn't that much better, otherwise he wouldn't have needed to be rushed to the hospital.

When Su Fan saw Jiang Gao, many experts at the affiliated hospital had already given Jiang Gao some treatment.

When Su Fan arrived, everyone made way for him, of course.

If the city mayor could be saved, a strong friendship with him could be established.

But if they failed to save him, it would cost their career.

Faced with such a high-risk situation, naturally, everyone was unwilling to take the chance.

Su Fan, however, didn't think too much about it and directly went to check on Jiang Gao's condition.

Jiang Gao was quite unfortunate, being in the midst of a rising career, only for this to happen.

Within three to five months, Jiang Gao wouldn't be able to recover.

In the emergency room, Su Fan treated Jiang Gao with great composure.

Director Zhang and other doctors were worried.

Although Su Fan's medical skills were very impressive, this patient was of a special status, leaving no room for mistakes.

Otherwise, not only would Su Fan be in trouble, the hospital would also face issues.

Fortunately, Su Fan's medical skills were always reliable, and this time was no exception.

After more than an hour of busy work, the city mayor was initially out of danger.

Seeing the readings on all the life-monitoring devices around him returning to normal, everyone breathed a long sigh of relief.

The city mayor's life was indeed saved by Su Fan.

After all of this, Su Fan told a few doctors responsible for the follow-up treatment, "Continue with the subsequent treatment."

"Once the city mayor recovers a bit, I will perform rehabilitation therapy to help him better recover."

Su Fan did not want Yang City's leadership to change hands. Even if it had to change, it shouldn't be now, but when Jiang Gao moved to the province.

However, the next three to five months, Jiang Gao evidently wouldn't be able to work.

Unexpectedly, someone would likely need to temporarily take over his duties.

After talking with a few doctors, Su Fan went outside the emergency room with Zhang Haitao.

As soon as they stepped outside, Zhang Haitao asked seriously, "Xiao Fan, how is the city mayor's situation?"

Su Fan casually replied, "There's not much of a problem now, but it will take three to five months to recover."

Upon hearing this, Zhang Haitao sighed in relief, "It's good there's not much of a problem; otherwise, it would be troublesome for our hospital."

"You must pay extra attention to the city mayor's condition and ensure nothing goes wrong."

Su Fan nodded; he didn't want anything to happen to Jiang Gao either.

The events that followed were almost as Su Fan expected.

Someone from the province came to temporarily take over Jiang Gao's duties.

Su Fan only knew that a woman came but didn't know her identity.

The affiliated hospital's treatment of Jiang Gao was also very smooth, with no incidents occurring.

Once Jiang Gao was fine, Su Fan began preparing for Chen Mengfei's visit.

The time passed quickly, and the agreed time between Su Fan and Chen Mengfei soon arrived.

Chen Mengfei and various executives from Gu Yu Capital arrived as agreed.

Su Fan received them at a production base of Dongfang Medicine.

This time, accompanying Chen Mengfei was Chen's family's Martial Arts Grandmaster, Chen Shouren.

After suffering a loss to Su Fan before, Chen Shouren was more cautious this time.

No matter what his opinions of Su Fan were, he did not show them on his face.

Chapter 974

Chen Mengfei, upon seeing Su Fan, approached warmly and said, "I heard, Divine Doctor Su has prepared a product that will greatly surprise me?"

After Chen Mengfei asked, Su Fan nodded, "Yes."

His response was very certain, and he was fully confident that he could impress Chen Mengfei with the skincare water.

Other executives of Gu Yu Capital had varied reactions upon hearing Su Fan's words.

Some remained calm, some gave Su Fan an intrigued glance, and others unabashedly showed a look of ridicule.

It's not surprising they reacted this way, as the world is full of people who boast and talk grand.

Gu Yu Capital has invested in numerous startups, all carefully selected by them.

Even in such circumstances, many projects still run into significant difficulties.

Su Fan's words just now caused these seasoned veteran businessmen to mentally tag him as a boaster.

Compared to others, Chen Mengfei's exquisite face showed a rare look of anticipation.

During this period, she had closely investigated Su Fan.

It can be said that Su Fan is by no means a braggart, and he never fights battles he isn't confident about.

Everything he has done has been successful.

Chen Mengfei immediately made a gesture to invite him and said, "Then let Divine Doctor Su introduce us to this outstanding product from Eastern Pharmaceuticals."

Among the many executives of Gu Yu Capital, those who shared Chen Mengfei's anticipation were indeed a very rare few.

The true thoughts of most people were waiting to see Su Fan make a fool of himself.

However, their hope to see Su Fan embarrassed was undoubtedly very challenging.

Su Fan smiled and told Chen Mengfei and everyone at Gu Yu Capital, "Everyone, please follow me."

Once he finished speaking, Chen Mengfei and the group followed him into the production base.

The production workshop of Eastern Pharmaceuticals was very clean and tidy, and the pharmaceutical equipment they used was all top of the line internationally.

Of course, to Chen Mengfei and the people at Gu Yu Capital, these were all things they had seen many times.

Therefore, what interested everyone the most was the product Su Fan was about to recommend to them.

Chen Mengfei and a few others were genuinely interested in the product Su Fan recommended.

But more executives at Gu Yu Capital were waiting to see Su Fan's joke.

They were not entirely ignorant about Su Fan's background.

Su Fan was first a doctor, secondly a martial artist, and lastly a businessman.

Knowledge comes at different times, and there is specialization in every field.

He had made significant achievements in both medicine and martial arts.

This naturally meant he did not have much time to spend on business learning and thinking.

They wouldn't even need to find fault with his product, just using some simple business insights would turn Su Fan's earlier product statement into a joke.

By common reasoning, their thoughts were essentially correct.

However, unfortunately for them, Su Fan was never one to follow common reasoning.

The product he was about to present had no equivalent in the market.

When there is a large demand, the market will produce products to meet these needs.

When such products sell well and earn substantial profits, competing products will appear to rival them.

This could be by performance updates or simple price wars.

Unless a product has no competitors, achieving success is very difficult.

As everyone harbored different thoughts, they finally saw the product Su Fan had prepared.

It was a product very similar to skincare products, named Skincare Water.

Upon seeing this product, Chen Mengfei did not brighten up but instead felt somewhat disappointed.

Chapter 975

Skincare products, in essence, belong to the mid-range and mid-to-high-end market.

Moreover, this field has long become a blood-drenched battleground.

Even if Su Fan's product has some highlights, it is still very difficult to become a winner.

Whether domestically or internationally, there are countless resilient competitors.

Chen Mengfei could only feel somewhat helpless in her heart.

Without a doubt, Su Fan is a master in medicine, a master in martial arts, but he is definitely not a master in business.

The vice president of Ancient Elm Capital is named Lu Zhigang.

After Su Fan showcased the Beauty Water product, Lu Zhigang spoke with a hint of mockery.

"Divine Doctor Su, before coming, we conducted some research on Eastern Medicine Company."

"From the information we gathered, Eastern Medicine Company is a company with great potential."

"The previous progress path of Eastern Medicine was indeed very correct and impressive."

"But this time, the carefully prepared product by Eastern Medicine might be one of the biggest blunders in your company's production and operation process."

"For Eastern Medicine, the skincare product industry is certainly not a good track to be on."

"Entering the skincare product field at this time offers no first-mover advantage, nor any advantages in channels or funding for Eastern Medicine."

"Even though saying this might not please Divine Doctor Su, I can say very responsibly that this is a product with worrying prospects."

Lu Zhigang's words, in the end, did give Su Fan some face.

If he were reprimanding his own subordinates, he would certainly not be so subtle.

In the views of Lu Zhigang and others, the Beauty Water product is like someone making money by setting up a street stall, and then many others start to imitate.

After a period, the surroundings are full of similar stalls.

In this scenario, of course, no one can make money.

And Eastern Medicine is jumping into this moment when everyone finds it hard to profit, setting up another stall.

After Lu Zhigang, several other high-level executives of Ancient Elm Capital also spoke, echoing Lu Zhigang's sentiments.

Only Chen Mengfei remained silent.

Though she felt disappointed by the Beauty Water, she still had high hopes for Su Fan and Eastern Medicine.

Both Su Fan and Eastern Medicine Company are quite youthful and still have the opportunity to make mistakes.

In the face of everyone's criticism, Su Fan was not eager to argue back.

He waited until everyone finished their remarks before he calmly smiled and spoke.

"Everyone misunderstood one thing, and that is, Beauty Water is not skincare."

"Its more accurate definition is a health-promoting tea that adjusts the body."

"Not only can women use it, but men can use it as well."

"Its operating principle is completely different from skincare products."

"Beauty Water doesn't just do surface work, it nourishes and regulates the human body."

"It helps people move from a sub-health state to a nearly completely healthy state."

At this point, Su Fan paused briefly before continuing:

"When a person is completely healthy, it is harder to experience great pressure or anxiety."

"Whether it's diet or sleep, there would be no problem."

"Even if there are some bodily issues, this tea can nourish, repair, and regulate them."

"In such a state, a person's complexion will continuously improve, and the skin will become more smooth, delicate, and fair."

The crowd that previously didn't take it seriously now showed changed expressions.

If what Su Fan said is false, then of course there is no need for further discussion.

If what Su Fan said is true, then this product is truly remarkable.

Moreover, this is not a godly water or a skincare lotion.

It is not meant for application or cleansing, but for drinking!

Chapter 976

Before others could speak, Chen Mengfei looked at Su Fan and asked, "Does this product have a safety certification?"

Su Fan nodded and promptly produced five safety inspection reports from different institutions.

Wang Xiaoxiao and the others had done an excellent job with these matters.

Chen Mengfei glanced over the five safety reports quickly and then spoke again:

"May I have a taste?"

Su Fan nodded, of course.

After saying that, he opened the packaging and took out the product inside.

These beauty-preserving waters were all contained in glass bottles, which looked very high-end.

Su Fan poured himself a cup and drank it down in one go.

He then poured another cup for Chen Mengfei and handed it to her.

In fact, with the safety inspection reports, no one was worried about any safety issues with this product.

Moreover, Su Fan didn't have just one institution's safety report, but five.

Subsequently, many executives from Guyu Capital tried the product.

Since it was their first time drinking the beauty-preserving water, the effects were very noticeable!

Everyone felt a sense of bodily comfort and overall relaxation.

Their long-term sub-optimal health was being gradually restored at that moment.

As time went on, they felt even better.

Even those suffering from hidden chronic injuries and conditions were feeling much more comfortable now.

This miraculous herbal tea, rather than merely a beauty-preserving water, could be considered a health-preserving tea.

Lu Zhigang, vice president of Guyu Capital, immediately approached Su Fan with a somewhat flushed face to solemnly apologize.

"Divine Doctor Su, I must apologize to you."

"I was short-sighted and didn't expect this product developed by Eastern Medicine to be more magical than I imagined."

Su Fan shook his head indifferently, "Ignorance is no crime."

No matter what Lu Zhigang's intentions were for coming over to apologize.

Since the other party had taken the initiative to apologize, he could give him a way to save face.

Chen Mengfei hadn't spoken earlier, and the main reason was her concern about this kind of reversal happening.

This is also why she became the president, while Lu Zhigang was only a vice president.

Chen Mengfei quickly said, "Divine Doctor Su, the name 'Beauty-Preserving Water' does not well reflect the magic of this herbal tea, and calling it 'Health-Preserving Water' seems a bit too common."

"How about we name this product 'Guyu Water'?"

Su Fan certainly didn't expect that Chen Mengfei would take such an interest in the product's name.

After a brief consideration, he agreed with a nod.

Compared to 'Beauty-Preserving Water' or 'Health-Preserving Water,' 'Guyu Water' undoubtedly conveyed a sense of sophistication.

Chen Mengfei, by proactively discussing the product name with Su Fan, was clearly invested in it.

Guyu Capital is a giant in Qin Province, and even across China, Guyu Capital is a commendable company.

Yet, the development of Guyu Capital has hit a bottleneck.

Guyu Capital is investing on multiple fronts while also acquiring small and medium enterprises that have room for further growth.

Their current scale is completely built on a foundation of numerous small streams merging together.

Therefore, Chen Mengfei often said, Guyu Capital and the Chen family are doing the heavy lifting.

But Su Fan, Eastern Medicine, and the product Su Fan presented this time allowed Chen Mengfei to see a vast commercial prospect.

Although Su Fan had previously rejected Guyu Capital's acquisition proposal for Eastern Medicine.

Chen Mengfei believed that, in business, all problems are just a matter of money.

As long as the price is right, Su Fan couldn't refuse their acquisition of Eastern Medicine.

Under normal circumstances, that would indeed be the case.

But this time, Chen Mengfei was to be disappointed because Su Fan had no intention of selling Eastern Medicine.

Chapter 977

Next, Su Fan led Chen Mengfei and the others into a reception room.

Once everyone was seated, Chen Mengfei got straight to the point and said:

"Divine Doctor Su, we are very interested in Eastern Medicine and its products."

"According to our understanding, you excel in both medicine and martial arts."

"The fields of medicine and martial arts are where Divine Doctor Su's talents can truly shine."

"We are willing to acquire Eastern Medicine with the utmost sincerity."

"Divine Doctor Su, feel free to name your price. As long as it's within the range that Guyu Capital can bear, we are willing to accept."

This time, Chen Mengfei was very earnest.

The potential of Eastern Medicine Company made it worth her effort.

Su Fan has invested roughly five hundred million into Eastern Medicine.

But even if he quoted fifty billion now, Chen Mengfei would agree to the acquisition.

Unfortunately, Su Fan currently is not in need of money, although most of his money is in a darknet account.

Yet that money is indeed real and usable.

On the darknet, it can be used directly, and if one is not afraid of the risk, it can even be transferred directly into an account in China.

Of course, there are many financial tools available to easily launder the money, so he's not short of cash now.

After Chen Mengfei again brought up the topic of acquiring Eastern Medicine, Su Fan refused without a second thought.

"Family Head Chen, I will not sell Eastern Medicine."

"However, if Guyu Capital is willing to cooperate with Eastern Medicine, I am open to that."

Had Su Fan not had solid products, talking like this could have ended all negotiations.

But having witnessed the effectiveness of the Beauty Water, and even suggesting renaming it Guyu Water,

Chen Mengfei and Lu Zhigang had no qualms with Su Fan.

Eastern Medicine has too many technological barriers, forming a deep and unbridgeable moat.

In such circumstances, they wouldn't lack partners, let alone fear competition from other companies.

Chen Mengfei is reluctant to give up the idea of acquiring Eastern Medicine; it's an opportunity for the Chen family to advance further.

For business people, making the right crucial decisions a few times in a lifetime can lead to unstoppable success.

Chen Mengfei firmly believes that acquiring Eastern Medicine is such a crucial decision for her.

But Su Fan's attitude also made her realize that acquiring Eastern Medicine was almost impossible.

Although unwilling to give up, she could only temporarily step back.

Business activities are often not a hundred-meter dash, not even a marathon, but an integration of all types of sports.

She immediately said, "In that case, the Chen family is willing to collaborate sincerely with Eastern Medicine."

"Additionally, we hope to have a meeting with Eastern Medicine's top management at least once a month."

For such a request, Su Fan naturally agreed, and even sought it.

His collaboration with Guyu Capital was partly for business development, but more importantly, to have more opportunities to interact with Chen Mengfei, the female CEO.

For Chen Mengfei to acquire Eastern Medicine is very difficult.

For him to win over Chen Mengfei seems equally distant.

But the development trends are positive.

To Chen Mengfei's earlier request, Su Fan nodded and said, "Family Head Chen, I agree to your request."

Although Chen Mengfei and Guyu Capital haven't achieved their ultimate goal, establishing cooperation with Eastern Medicine is still quite good.

Seizing the momentum, Chen Mengfei asked, "In which areas is Divine Doctor Su planning to collaborate with Guyu Capital?"

Su Fan answered with a question: "Family Head Chen, in which areas do you plan to collaborate with Eastern Medicine?"

Chapter 978

Chen Mengfei didn't immediately answer the question but instead fell into thought.

After thinking for a while, she said, "Gu Yu Capital can collaborate with Dongfang Pharmaceuticals on sales."

"Dongfang Pharmaceuticals is responsible for research and production, while Gu Yu Capital's Gu Yu International Trading Company and other companies handle transportation and sales."

After speaking, she added, "At the same time, we hope to hold a portion of Dongfang Pharmaceuticals' shares or sign a long-term cooperation agreement."

Su Fan was very strict about Dongfang Pharmaceuticals' shares.

He himself held 67% of the shares, while other individuals and collectives held at most 1%.

Since Dongfang Pharmaceuticals has no need to go public, everything naturally must be based on internal agreements.

After Chen Mengfei spoke, Su Fan thought for a moment and said, "We can sign two five-year cooperation agreements."

"Starting from the third agreement, we'll sign each for five years, how about that?"

This time, Chen Mengfei looked at Lu Zhigang and the other executives.

Their reaction was also very swift.

Among the five people Chen Mengfei looked at, three nodded and two shook their heads, while Chen Mengfei herself agreed.

That made it four people in favor and two against, so the matter was settled.

This time, during Chen Mengfei's trip to Yang City, both she and Su Fan gained something.

But for Su Fan, the most important thing was progressing slowly.

Chen Mengfei controlled the top family in Qin Province; she lacked neither wealth nor resources.

She had Chen Tangshou as a national medical master and Chen Shouren as a Gang Qi Realm Martial Arts Grandmaster.

It was a full 360-degree all-around defense, leaving him no chance to make a move.

In the face of such circumstances, all Su Fan could do was wait.

When there's no opportunity and no way to create one, waiting is necessary.

After the discussions ended, he personally escorted Chen Mengfei and her group as they left.

On the return trip to Yu City, Chen Mengfei and her secretary Zhang Xuanya were in the same car.

Not only was Zhang Xuanya Chen Mengfei's secretary, but also her bodyguard and driver.

Although Zhang Xuanya wasn't a Martial Arts Grandmaster, like Su Fan, she was a Gang Qi Realm expert.

While driving, Zhang Xuanya said to Chen Mengfei, "President Chen, you've met a match this time."

Chen Mengfei chuckled, "Why do you say that?"

With a smile, Zhang Xuanya said, "Though I'm not very knowledgeable about business, having followed you for so long, I can still discern some of your thoughts."

"President Chen really wanted to acquire Dongfang Pharmaceuticals this time, but it seems Su Fan has no intention of selling the company."

"President Chen seems to have no way to deal with Su Fan."

Chen Mengfei nodded but still said, "You're probably only half right."

"Though I don't know why, Su Fan has intentions toward me."

If someone else heard this, they'd definitely be shocked.

However, the relationship between Chen Mengfei and Zhang Xuanya is very good, so Zhang Xuanya can know some things that others can't.

"Ah?" As expected, Zhang Xuanya was extremely surprised at this moment.

She quickly pursued, "President Chen, how do you know Divine Doctor Su has intentions towards you?"

Chen Mengfei didn't hide it, "I deduced it from observing Su Fan's micro-expressions. From the first meeting, I noticed something was off."

"At that time, I just thought he admired and liked me normally."

"During this negotiation, from his inadvertent words and actions, I discovered he might have special thoughts about me."

Zhang Xuanya laughed, "President Chen, you are the head of the top family in Qin Province, young and beautiful, rumored to be the province's number one beauty, a living flower of wealth."

"Divine Doctor Su is young and talented, it's quite normal for him to have thoughts about a beautiful female CEO like yourself, isn't it?"

Chapter 979

Chen Mengfei shook her head, "Although I don't understand the reasons, his motives should not be purely romantic."

"The medical skills of the Divine Doctor are almost on par with Grandpa Chen's, and he's even capable of defeating Danba in martial arts. He lacks nothing in wealth either."

"Such a man surely wouldn't lack women, so I really can't fathom what other special intentions he might have towards me besides physical attraction."

Su Fan would never have thought that his subtle expressions and inadvertent actions would reveal so much to Chen Mengfei.

This further proves that Chen Mengfei becoming the Family Head of the Chen family was definitely not due to luck or bloodline, but because she earned her position.

The connection between Eastern Pharmaceuticals and the Chen family made Su Fan's days very comfortable.

His comfortable days, of course, made life very uncomfortable for the Liusang family.

The Liusang family members didn't care about the life or death of Liu Sheng Kiin.

They only cared about Su Fan's fate, more precisely, how to kill Su Fan.

The Liusang family has never underestimated Su Fan.

Every time they acted, on paper, they always had an absolute advantage.

The first time it was Yagami Takuji with three people, and the second was Irudi.

Under normal circumstances, killing Su Fan should have been more than sufficient.

But reality was that Yagami and his trio failed, and Irudi also failed.

The Liusang family members understood they had at most one more chance.

If they can't kill Su Fan this time, they might have to consider how not to be killed by Su Fan.

In Japan, inside the Liusang family conference room.

The atmosphere in the conference room was extremely tense.

The expressions of the numerous high-level members of the Liusang family were exceptionally grim.

Once everyone was present, the family head, Yagami Takuji, spoke first.

"Everyone, Irudi is likely dead."

"This is truly unexpected news; either Su Fan has been hiding his strength all along, or his growth rate is astonishingly fast."

"But regardless of the reason, the time left for the Liusang family is running short."

"Against Su Fan, we may have only one last chance."

"If we can't kill Su Fan this time, we'll have no choice but to enter a state of strict defense."

"To prevent what we did to the Zhao family years ago from happening to us."

Everyone knew what they had done to the Zhao family years ago.

That was, kill everyone regardless of age or gender!

Only by completely exterminating them can they truly be safe.

After Yagami Takuji finished speaking, others started to speak.

"Family Head, should we consider inviting a Martial Arts Grandmaster to enter China to assassinate Su Fan?"

This suggestion was undoubtedly a very good one.

At least there's no evidence to suggest that Su Fan is already a Martial Arts Grandmaster.

If a Martial Arts Grandmaster could be persuaded to attack Su Fan, Su Fan would undoubtedly face a dead end.

But the problem is, the Liusang family can only invite two Martial Arts Grandmasters, both of whom are registered in China.

If they went to China, they wouldn't even see Su Fan before being targeted by Chinese Martial Arts Grandmasters.

Moreover, things haven't reached a point where a Martial Arts Grandmaster absolutely must get involved.

Even so, Yagami Takuji still decided to appoint a heavyweight figure from the Liusang family to handle this matter.

After thinking for a while, Yagami Takuji said, "Inviting a Martial Arts Grandmaster to enter China is too difficult."

"The Martial Arts Grandmasters who are friendly with our Liusang family find it very difficult to enter China."

"Other Martial Arts Grandmasters might take the benefits without acting, or might even be unwilling to demean themselves by attacking a Gang Qi Realm Martial Artist."

"This time, I plan to ask Uncle Masahito to personally go to China and handle this matter."

Chapter 980

The "Uncle Zhengren" that Yagami Takuji mentioned refers to Yagyu Zhengren, but this person is anything but upright.

The only responsibility he has in the Yagami family is assassination.

Moreover, Yagyu Zhengren is a late-stage Gang Qi Realm martial artist, stronger than Irudi and others.

However, Yagyu Zhengren also has a flaw: he desires to become the Family Head.

When Yagami Takuji ascended to power, the factions they represented clashed several times.

Even now, their relationship is not very good.

But with the Yagami family now facing a life-or-death crisis, if Su Fan were to come for revenge, he clearly wouldn't care whether Yagyu Zhengren has a grudge against Yagami Takuji.

Another reason is that if Yagyu Zhengren could kill Su Fan, it would be ideal.

If Yagyu Zhengren were to die at Su Fan's hand, that would also be good.

Without Yagyu Zhengren, there would be no internal opposition in the Yagami family, and everyone could unite to face this crisis.

It can be said that Yagami Takuji is also a formidable enemy.

Moreover, this enemy's judgment has always been very accurate.

Once he identified Su Fan as an enemy, he didn't give Su Fan the slightest chance to breathe.

This has always been the Yagami family's style of conduct: either do nothing, or do it absolutely!

With such an enemy, it's no wonder that the Zhao family, once on par with the Yagami family, eventually faced a devastating massacre.

Far away in Yang City, Su Fan was unaware that the Yagami family was preparing to send a heavyweight figure to deal with him.

But he never let his guard down against the Yagami family or any of his enemies.

He has never stopped improving his own strength, nor has he ever slackened.

Not only is he striving to improve himself, but he's also providing the best treatment and support to those around him so they can also quickly advance.

Although his life has returned to tranquility during this time.

He's always been aware of the tumultuous and surging undercurrents beneath that calm surface.

Yang City, Affiliated Hospital of the Medical University.

No matter how many troubles there are, life must go on.

Researching medicine and martial arts in the hospital remains the main theme of Su Fan's life.

Su Fan's office was currently occupied by him alone.

Zhou Jie had a family member who passed away, so she's on leave for the time being.

Without Zhou Jie, Su Fan could, of course, seek out Bai Man or Liu Qing.

But before he could go to them, Bai Man had already arrived.

As soon as Bai Man saw Su Fan, she said irritably, "Did you forget to check on Mayor Jiang?"

With her reminder, Su Fan immediately remembered that he indeed had forgotten about it.

"Sister Man, let's head over now."

Bai Man nodded in response.

Su Fan hadn't been bothering her at the hospital recently, so she was relieved.

However, she still needed to remind Su Fan about the follow-up check-up he had forgotten.

The two of them quickly made their way to Jiang Gao's hospital room.

Here, Su Fan did not see Jiang Gao's wife, Nalan Xue.

It wasn't that Nalan Xue didn't come to care for him; in fact, she came every day, but just hadn't arrived yet today.

Though Jiang Gao had had some bad luck, his recovery was going well.

As Su Fan entered the room, Jiang Gao greeted him with a smile and a nod.

Su Fan nodded slightly, saying, "Mayor Jiang, I'm here to do a follow-up check-up."

Jiang Gao expressed his gratitude, "Thank you for your hard work."

Su Fan shook his head with a smile, "It's my duty."

As he spoke, he completed Jiang Gao's examination.

After finishing the check-up, he immediately congratulated him, "Mayor Jiang, your recovery is going exceptionally well."

"In about two and a half months, you should be fully recovered."

Jiang Gao was understandably delighted to hear this, "This is all thanks to the initial emergency care by Divine Doctor Su, and the ongoing treatment during this time."
