

Temptation 991

Chapter 991

Five days is neither long nor short; within that time, there are very few things one can accomplish.

Su Fan has already done his utmost to make thorough preparations.

Initially, he thought that aside from himself, only Ning Tianhe and Zhao Chunqiu were masters in the Gang Qi Realm on his side.

However, at the last moment, Ning Miaoqi unexpectedly crossed into the Gang Qi Realm.

The day of reckoning has finally arrived.

The blood feud of extermination between the Japanese Liu Sheng family and the Zhao family, along with the multiple instances of Liu Sheng sending assassins after Su Fan.

This time, it will all be conclusively resolved.

Su Fan obtained a new Tai Chi Sword from Zhao Chunqiu.

If he didn't know what material this sword was made of,

he might just assume that it was an ordinary fine steel sword.

The special material known as Yin-Yang Dark Gold looks very much like steel and even has similar weight.

The difference, however, is that this material allows True Qi to circulate within the blade, enhancing its power.

The ship traveling to Japan was arranged by Ning Zhengde.

As Weining Shipping is one of the top ten global shipping companies, Ning Zhengde is the professional regarding sea matters.

This time, Su Fan is leading a team to Japan, consisting of eight people.

Su Fan, Ning Zhengde, Ning Tianhe, followed by Zhao Chunqiu and Xia Zhaonan, then Zhen Bingyu and Ning Miaoxi.

Additionally, there's Yagyu Kaori.

Japan, Liu Sheng family.

Yagami Takuji has recently been having poor sleep.

The matter concerning Su Fan and Zhao Chunqiu has left him restless.

If one does no wrong, there's no fear of ghosts knocking at the door.

Most of Yagami Takuji's life has been filled with wrongdoing.

In theory, he has already made very good arrangements and deployments.

Although not carefree, there shouldn't be any problems in the short term.

Yet somehow, he's feeling an ominous premonition.

He regrets the matter with the Zhao family.

Not regretful of wiping out the Zhao family, but regretful of not eliminating everyone back then.

But now, it is too late for regrets; he can only try to remedy the situation.

"Swish!"

While wielding his katana, Yagami Takuji asks Yagyu Takayuki,

"As agreed, Uncle Zhengren should set out for China tomorrow, right?"

Yagyu Takayuki nods, "Yes, according to the intelligence we've received, Uncle Zhengren has made full preparations for the upcoming battle."

Yagyu Zhengren is indeed seriously preparing.

But he's not preparing to kill Su Fan; he's preparing to kill both Yagami Takuji.

Upon hearing Yagyu Takayuki's words, the Liu Sheng family head relaxes a little.

Anyway, by tomorrow, Yagyu Zhengren will head to China for a life-and-death battle with Su Fan.

No matter who dies, it will benefit the Liu Sheng family.

Ideally, if both sides could be deadlocked and mutually destroyed, it would be even better.

On a ship traveling from China to Japan, Su Fan is conserving his energy.

The battle to destroy the Liu Sheng family is destined to be a fierce one, requiring ample rest.

Eliminating the Liu Sheng family would be significantly beneficial for Su Fan.

After all, the Liu Sheng family keeps targeting him, intent on finding ways to kill him.

Once the Liu Sheng family is destroyed, he can stop worrying about this issue.

While resting in the cabin, Yagyu Kaori arrives at Su Fan's room.

Seeing Yagyu Kaori, Su Fan asks, "Is there something you need?"

Yagyu Kaori nods earnestly, "After Lord Su Fan kills Yagami Takuji and Yagyu Zhengren, how do you plan to deal with the Liu Sheng family?"

The Liu Sheng family doesn't have many direct descendants, but they have many direct affiliates and stakeholders.

Su Fan cannot eliminate all of these people.

Therefore, even if Yagami Takuji and others are dead, the Liu Sheng family will still remain, albeit in shell form.

Chapter 992

Yagyu Kaori wanted to ask how Su Fan would handle the shell left behind by the Yagyu family.

Or rather, the related interests left behind after the Yagyu family's downfall.

This question was something Su Fan hadn't thought about.

His plan was to take out his enemies and leave; the matters in Japan were beyond his reach, and he couldn't manage them.

Yagyu Kaori asking this question now had indeed stumped Su Fan.

After thinking for a moment, he could only pass the ball back to Yagyu Kaori: "What do you think should be done?"

So far, Yagyu Kaori and Chen Mengfei should be the two smartest women Su Fan had encountered.

Chen Mengfei was exceptionally capable and had unique insight, while Yagyu Kaori was insidiously cunning.

If Yagyu Kaori were his enemy, she should, of course, be swiftly eliminated.

But if Yagyu Kaori were his woman, she would be a precious asset.

Yagyu Kaori had seriously considered how to handle the business left behind by the Yagyu family.

She looked at Su Fan and said very earnestly, "I can stay in Japan and manage the Yagyu family's business for you."

Her staying in Japan would mean that Su Fan's control over her would significantly weaken.

It depended on how much trust Su Fan had in her and whether he was willing to let her stay in Japan.

Su Fan shook his head: "You can't stay in Japan; you're not a Martial Artist, so you don't have the ability to protect yourself there."

"As for the Yagyu family's business, it's best to find an agent, and you can remotely control them from China."

What Su Fan said made sense, so Yagyu Kaori did not object.

Although she had ways to protect herself, she was ultimately not a Martial Artist.

After the fall of the Yagyu family, continuing to stay in Japan posed certain risks.

Yagyu Kaori sighed, "If you have a way to completely control Yagyu Zhengren."

"Then Yagyu Zhengren could be your spokesperson in Japan."

"He wasn't involved in the Zhao family's extermination."

"He is a late-stage Gang Qi Realm Martial Artist and has received recognition from the Fujimura Sword Saint."

"Among all the people I know, he is the best candidate."

Hearing this, Su Fan fell into deep thought.

Because in the thirteenth volume of the Qihuang Medical Canon he acquired, there were some special prescriptions.

One of the prescriptions was called the Ying Sheng Worm Prescription.

After taking this prescription, Yagyu Zhengren would be under his control.

However, getting Yagyu Zhengren to take the Ying Sheng Worm Prescription wouldn't be easy.

No matter how negligent Yagyu Zhengren was, he wouldn't give him a chance to poison him.

After pondering for a moment, Su Fan decided to bring up the matter of the Ying Sheng Worm Prescription.

"In the Qihuang Medical Canon volume you gave me, there is a prescription called the Ying Sheng Worm Prescription."

"But, Yagyu Zhengren would certainly not give us an opportunity to poison him."

Yagyu Kaori immediately shook her head and said with some excitement, "We have a chance!"

Saying this, she took out her phone and showed a photo to Su Fan.

"He has a chronic illness and needs to take this kind of pill long-term."

"Can that prescription you mentioned be made to look like this type of pill?"

Su Fan looked at the black pill in the photo and then nodded: "Yes, but we need to find a pharmaceutical factory."

Yagyu Kaori smiled and said, "Leave it to me."

Su Fan had no strong opinions about Japan, as his understanding of Japan was very limited.

Now that such a godsend opportunity presented itself, he certainly wouldn't miss it.

He wanted to develop Oriental Medicine into a multinational pharmaceutical giant and have a presence worldwide.

Su Fan quickly realized that Yagyu Kaori was an extremely intelligent, meticulous, and exceedingly careful woman.

Because Yagyu Kaori had already started asking, "Does the Ying Sheng Worm Prescription have a unique smell? Can it be perfectly made into the pill in the photo?"

Chapter 993

Su Fan nodded, "The Echo Balm has no taste at all, and the powder can completely dissolve in water."

With these words, Yagyu Kaori naturally felt at ease.

Yet Yagyu Kaori still asked him a lot of details next.

Not only that, but she vividly painted a picture of everything that the group would experience after arriving in Japan.

These events hadn't happened yet, but in Yagyu Kaori's narrative, they seemed to have occurred countless times, as if she had personally been through them.

Of course, this wasn't any sort of special ability but rather very strong logical reasoning skills and imagination.

Su Fan had already known that this woman was incredibly smart, and now he was even more certain that Yagyu Kaori would be a significant support for him in the future.

Unfortunately, although Yagyu Kaori had an exceedingly yin constitution, she didn't possess any martial talent and could not become a powerful Martial Artist.

After discussing business, Yagyu Kaori proactively approached Su Fan.

Su Fan had initially thought that Yagyu Kaori would sit on his lap.

But he didn't expect that Yagyu Kaori would actually kneel in front of him.

This wasn't Yagyu Kaori having any requests for him, of course.

Rather, it was Yagyu Kaori intending to provide him with the gentlest service.

Su Fan did not refuse; he lovingly reached out to touch Yagyu Kaori's charming face.

Yagyu Kaori had a classic oval face with a pair of beautiful phoenix eyes.

People with phoenix eyes aren't necessarily beauties, but even a man like Su Fan, who is surrounded by beautiful women, had to admit that Yagyu Kaori was very attractive.

Su Fan's little companion was soon released by Yagyu Kaori.

Then she gently opened her cherry lips, offering Su Fan's little companion the greatest tenderness.

The more she genuinely liked Su Fan, the gentler and more wholeheartedly she served him.

Although many women had served Su Fan in this way, most had done so somewhat reluctantly.

Someone as dedicated as Yagyu Kaori was someone Su Fan had encountered for the first time.

He could feel Yagyu Kaori's small, fragrant tongue, earnestly licking as if savoring a lollipop.

After earnestly licking, she would gradually allow Su Fan to advance further.

When reaching her throat, she was already feeling uncomfortable but tried her best to endure.

Her exquisite skill made Su Fan feel a wonderful sensation of electricity coursing through his body.

But this wasn't the end; after a moment of adjustment, Yagyu Kaori began to swallow again.

This time Su Fan had entered her throat, and Yagyu Kaori instinctively felt the pain.

But she knew very well that with every second she persevered, Su Fan's joy increased.

She also clearly understood that with every additional bit she swallowed, the joy Su Fan felt would increase significantly.

So, Yagyu Kaori persisted and strived.

Her delicate face was already full of an expression of pain.

This special sensation of discomfort caused small pearls to start rolling down from her beautiful eyes.

This intense stimulation made Su Fan unable to hold back.

Like a frenzied beast, he held Yagyu Kaori's head and started a vigorous charge.

Yagyu Kaori had never experienced such frightening impacts, experiencing a peculiar sense of pleasure amid the pain.

She was challenging her own limits, and Su Fan seemed to be testing her limits too.

With every thrust, Su Fan went all the way, then abruptly pulled back, only to charge fiercely again.

Within a very short time, Yagyu Kaori had endured at least two or three hundred attacks.

Then she felt Su Fan's body shudder.

The next moment, a continuous flow of life's essence filled Yagyu Kaori's mouth.

A lot more of the life essence also directly flowed down Yagyu Kaori's throat into her stomach, all the way to the stomach.

Chapter 994

Compared to Su Fan and Yagyu Kaori, the others on the cruise were extremely tense.

This time they were heading to an entirely unknown place to face a group of terrifying foes.

Even though each of them was quite formidable martial artists with extensive combat experience, they were still extremely nervous.

Zhao Chunqiu was maintaining a knife, it was a golden-backed ring knife.

After the Zhao family suffered a massacre, he had countless days and nights dreaming of using a knife like this to personally slay his enemies!

He couldn't forget the blood feud of the Zhao family's massacre for even a single day!

The best result, of course, would be for him to annihilate the Yagyu family in Dongying as well.

But that was too difficult, so he had to settle for the next best thing and eliminate all the culprits who invaded the Zhao family back then.

According to the information bought from the dark web, many of the old folks of the Yagyu family had already gone to hell.

Of those culprits from back then, seventeen were still alive!

The other members of the Yagyu family—he would kill if he could, but those seventeen had to die without fail!

"Cough, cough, cough, cough..."

While Zhao Chunqiu was wiping the ring knife, Xia Zhaonan, who was in the same cabin, suddenly started coughing violently.

Xia Zhaonan hadn't suffered a relapse of an old injury; rather, he had failed again at breaking through to the Gang Qi Realm.

But it was no big deal; after taking the prescription given by Su Fan and undergoing his treatment, he was in excellent condition and had plenty of time.

Also attempting to break through to the Gang Qi Realm was Ning Zhengde.

Ning Zhengde was rather helpless in his heart.

Zhao Chunqiu breaking through to the Gang Qi Realm was understandable, but that little girl Ning Miaoxi had also already broken through.

For him, who had long cultivated to the peak of the Transformation Qi Realm but couldn't break through, his old face was somewhat ashamed.

However, breaking through to the Gang Qi Realm requires an opportunity.

Without the right opportunity, it's challenging to forcefully break through.

Given Su Fan's current medical skills, he could only help them consolidate their foundation; he couldn't assist them in overcoming the bottleneck of the Gang Qi Realm.

If it were otherwise, their whole group would be experts in the Gang Qi Realm.

In the cabin where Su Fan was, after getting a full release, he also began to sit quietly and regulate his breath.

He let the True Qi within his body run slowly along his eight extraordinary meridians and twelve regular meridians.

During this process, his strength was also gradually improving.

This process was automatic; it didn't require too much attention, like breathing.

What he was thinking about wasn't cultivation, but rather the Hua Xia famous doctor competition and matters of the Extreme Yin Body.

Ning Miaoqi's sister, Ning Miaoyan, and Yagyu Kaori both had an Extreme Yin Body.

Unfortunately, these two had already been with others before him.

Chen Mengfei also had an Extreme Yin Body, but now Chen Mengfei gave him a feeling of being invulnerable.

As of now, he had hardly any chance of being with Chen Mengfei.

This made Su Fan ponder whether he should look for another Extreme Yin Body.

The Yagyu family wasn't aware of Su Fan and his group's ocean-crossing venture.

Because Yagyu Zhengren was making moves, he didn't know he was about to face disaster and was still dreaming of controlling the Yagyu family.

In a way, he wasn't dreaming.

Because he might indeed control the Yagyu family, just for someone else to control it.

Yagyu Zhengren, at this moment, was soaking in a hot spring.

In his residence, there was not just one woman, Yagyu Kaori.

At this moment, in the warm and comfortable hot spring room, there were as many as eight women.

All eight women were dressed in white shirts, suit skirts, and ultra-thin black stockings.

After performing a dance, they began to undress.

Not long after, the eight of them had nothing left on their bodies except for a pair of black pantyhose each, including no undergarments.

According to Yagyu Zhengren's request, they also used a depilator to make their black forests into a snow-white ground.

Chapter 995

Yagyu Zhengren was drinking, and he laughed heartily, "The dance just now, perform it again."

The eight tall and beautiful women heard this and could only nod in unison, following Yagyu Zhengren's request to perform the dance again.

These eight women were all from the Yagyu household and were also entertainers.

They were not ordinary entertainers but idol entertainers.

The entertainment industry was also an important avenue for the Yagyu family.

However, outsiders obviously wouldn't know that these eight idol goddesses, who were both beautiful and talented, would be brutally taken by Yagyu Zhengren every now and then.

And all eight of them had their purity taken by Yagyu Zhengren.

While the eight of them were still dancing, Yagyu Zhengren suddenly leaped out of the hot spring pool.

Amidst a series of screams, a beautiful entertainer was pressed against the wall by Yagyu Zhengren.

Without any foreplay, he aggressively invaded, launching a fierce assault.

The other seven women had no reason to gloat.

An ordinary man wanting to have his way with eight women at once is an impossible task.

But Yagyu Zhengren was a master of the Gang Qi Realm, making these eight women cry and wail was no problem.

Every time they visited Yagyu Zhengren's residence, they had to brace themselves for being unable to walk normally for the next three to five days.

Traveling from China to Japan, it's neither too far nor too close.

Su Fan and his companions arrived in Japan half a day earlier than scheduled.

Ning Zhengde and others rested at a hotel.

Su Fan followed Yagyu Kaori, sneaked into a pharmaceutical factory to make preparations.

With Yagyu Kaori leading the way, combined with Su Fan's medical skills and prowess, this task was easily completed.

This pharmaceutical factory was unaware that their equipment had been used by Su Fan.

After completing these tasks, Su Fan and Yagyu Kaori went to meet Yagyu Zhengren.

Su Fan was very calm; if Yagyu Zhengren tried to play tricks, he wouldn't hesitate to take him down first.

To his surprise, Yagyu Kaori's psychological resilience was also quite terrifying.

She was just an ordinary person with no self-defense ability, yet Su Fan saw no trace of fear in her.

At the appointed time, Su Fan met Yagyu Zhengren, who was wearing Sword Dao attire.

He was a slender middle-aged man with slightly graying hair.

In terms of appearance alone, he could be considered a handsome middle-aged man.

However, Su Fan had no good feelings towards Yagyu Zhengren.

If he couldn't use the sound control potion to control Yagyu Zhengren, the latter could only end up as a dead man.

Unlike Yagyu Kaori and Yagami Takuji.

Yagyu Zhengren didn't know Chinese, not even simple phrases.

However, that didn't matter, as Yagyu Kaori was there to translate for the two of them.

Su Fan and Yagyu Kaori had already rehearsed on the cruise ship.

At this moment, no mistakes would be made.

Yagyu Zhengren spoke first, "Mr. Su Fan, I've long admired your name. How many people did you bring this time?"

After Yagyu Kaori translated, Su Fan replied:

"I have one person at the late Gang Qi Realm, one at the mid Gang Qi Realm, two at the early Gang Qi Realm, and three at the peak of the Hua Qi Realm."

Su Fan followed the script they rehearsed.

Yagyu Zhengren was indeed a bit surprised, not expecting Su Fan to be so sincere.

He was certain that Su Fan was telling the truth.

His surprise was warranted; Yagyu Kaori, having been by his side for so many years, obviously knew his character and how to handle him.

Yagyu Zhengren felt more at ease with Su Fan now, and he continued to inquire:

"When we make our move, I'll deal with Yagami Takuji. The rest of the Yagyu family will be left to you and your subordinates, okay?"

Su Fan nodded, "No problem."

The most formidable person in the Yagyu family was Yagami Takuji.

Yagyu Zhengren choosing to deal with Yagami Takuji showed a certain sincerity.

Chapter 996

Of course, according to Yagyu Kaori, if Yagyu Zhengren makes such a decision.

It's definitely not because he has sincere intentions, but because he's worried Yagami Takuji might escape, so he feels the need to act personally to be at ease.

However, when Su Fan met Yagyu Zhengren, he also confirmed one thing.

That is, this guy doesn't have any chronic illnesses.

His long-term medication is clearly just a ruse.

When Yagyu Zhengren left, Su Fan hurried to inform Yagyu Kaori about this.

"He doesn't have any illnesses and is very healthy."

"The medicine he's been taking long-term is not for treatment, but to confuse others."

Su Fan's words made Yagyu Kaori break out in a cold sweat.

Because she only found out about this now.

If it weren't for Su Fan and she had acted according to her original plan, today might have been her death day!

Fortunately, in this situation, she had also discussed it with Su Fan on the cruise.

If it was impossible to act, they would play it by ear, and if necessary, they would kill Yagyu Zhengren.

Yagyu Zhengren hadn't been gone for long; he left to get his katana.

After taking his katana, he returned to the hall and sat down.

What followed was silence.

Not only because of the language barrier but also due to the tension.

This time, they were not dealing with one or two individuals, but many ruthless killers.

The rise of the Liu Sheng family is a history marked by blood and tears.

Because the Liu Sheng family fought their way up, and they believe in either not acting or doing so ruthlessly to the end!

They understand the cycle of revenge and thus use any means necessary to annihilate their foes, leaving them without enemies.

There are several families like the Zhao family, which they annihilated entirely.

Yagyu Zhengren was regulating his breath, adjusting his state.

Su Fan was also regulating his breath, waiting for the moment to act.

The time of their action was at two o'clock in the morning.

By that time, most of the Liu Sheng family would be asleep. Many would die painlessly in their dreams.

During the wait, every second seemed prolonged.

But however long the time, it would eventually pass.

Japan, night, two in the morning, outside the Yagyu family's main residence.

At this place, there were now eight figures.

Besides Su Fan and seven others, Yagyu Zhengren was also present.

Not only the eight of them, but Yagyu Kaori had also come, quietly observing everything from a nearby hotel.

The actions of Gang Qi Realm experts and Hua Qi Realm experts are very swift.

The first to enter the residence was Yagyu Zhengren.

After failing to secure the Family Head position, he had thought about doing this.

So when he entered the Yagyu family's main house, he hesitated not at all, immediately slicing through the gut of two hidden security personnel!

A slaughter began at that moment.

The main grounds of the Liu Sheng family were vast, making it hard to describe it simply as a villa or estate.

The scale here was already as large as a mountain villa.

In a small place like Japan, the fact that the Liu Sheng family's main residence could own such a villa indicates their power in Japan.

Yagyu Zhengren was ruthless not only to the enemy but also exceedingly cruel to his own people.

Of course, he might not have considered these people his own.

Along the way, Su Fan didn't even have the chance to take action.

All the security personnel were dealt with by Yagyu Zhengren as if he were slicing through vegetables, without even letting out a warning shout.

To those unaware, they might think he was the one with a blood feud against the Liu Sheng family.

Most of the other top fighters in the Liu Sheng family were also sent to their graves in their sleep.

With Yagyu Kaori and Yagyu Zhengren as insiders, this operation went so smoothly as to seem unreal.

However, not all members of the Liu Sheng family were so slow to respond.

Gang Qi Realm's Yagami Takuji and Yagyu Takayuki quickly sensed something was amiss.

Chapter 997

Yagami Takuji was the first to charge out, and then he witnessed the most incredible scene of his life.

Not far away, Yagyu Zhengren, wielding two swords, was killing the Yagyu family's experts as if he were chopping vegetables!

Yagami Takuji didn't ask Yagyu Zhengren why he was doing this; he just uttered a single word: "Die!"

With that, he charged towards Yagyu Zhengren.

These two warriors of the Yagyu family, aside from the missing Yagyu Jyugong, were the most powerful and quickly engaged in a fierce battle in the darkness.

Under the night sky, blood flowed freely, and the light of swords and blades flashed continuously.

More and more Yagyu family warriors were being taken out one by one.

However, on Su Fan's side, there were also some injured, with gunshot wounds!

When Xia Zhaonan was fighting against the Yagyu family's experts, someone was hidden inside a room, firing sneakshots.

After all, he was not a Martial Artist of the Gang Qi Realm, and without a protective qi shield on the body surface, he couldn't withstand the bullets.

The gunshot left Xia Zhaonan incapacitated, forcing him to seal his vital points and await rescue in the rear.

Although Su Fan was unable to rescue him now, he was still safe.

Because this surprise attack wasn't going to last long.

Under their sweep like a fierce wind scattering the leaves, most of the Yagyu family warriors had already been taken out.

Only a few experts remained, stubbornly resisting.

At this moment, Su Fan was facing the second family head of the Yagyu family, Yagyu Takayuki.

He was the biological father of Yagyu Qingyin, and he was the one who handed Yagyu Qingyin over to Irudi.

To Yagyu Takayuki, of course, this didn't matter much, as he had many women and thus many daughters.

Yagyu Takayuki now looked at Su Fan, extremely angry.

He had already seen a large number of Yagyu family warriors fall under the blades of Su Fan and his companions.

Without any unnecessary words, he drew his katana and charged towards Su Fan.

"Swoosh! Swoosh! Swoosh!"

Although Yagyu Takayuki was despicable and shameless, his strength was not weak.

His situation was similar to Su Fan's, as he had only recently broken into the late stage of the Gang Qi Realm.

Although his strength wasn't as strong as Yagami Takuji's, he was recognized as the first Sword Dao genius of the Yagyu family after Miyamoto Musashi.

The Japanese use katanas, but they generally don't call it Blade Dao, but Sword Dao.

Just like the Sword Saint Miyamoto Musashi, who also used a blade, but wasn't called a Blade Saint.

Su Fan also didn't fight Yagyu Takayuki empty-handed; he held the extremely powerful Tai Chi Sword.

Back then, the yin-yang fish within his dantian transformed into the all-encompassing Tai Chi True Intent.

Contained within that Tai Chi True Intent were many things, including the form and forging method of the Tai Chi Sword.

Therefore, the sword in his hand was the Tai Chi Sword, forged from Ying Yang Mysterious Gold.

"Clang! Clang! Clink! Clink!"

Su Fan and Yagyu Takayuki quickly exchanged several blows.

Yagyu Takayuki initially wanted to use his katana to cut Su Fan and his sword together in half.

But after exchanging a few moves, he was shocked!

He wanted to ask what weapon Su Fan was using.

But in such a life-and-death moment, he had no opportunity to speak.

Not only was he unable to cut down Su Fan and his sword, his katana, forged from Yin Mysterious Gold, instead showed some nicks.

This reminded him of a material called Yin Yang Mysterious Gold.

But he couldn't comprehend how Su Fan could possess a weapon forged from such material.

Su Fan did not give Yagyu Takayuki time to ponder further, as he had no intention of holding back against Yagyu Takayuki.

These despicable Japanese had caused him considerable trouble before.

Now, it was finally time for them to pay the price.

Yagyu Takayuki's swordsmanship was fierce and powerful, exceptionally quick and unpredictable.

If Su Fan hadn't mastered the Tai Chi Swordsmanship, he would definitely suffer when competing in weapons with the opponent.

But now, Su Fan could basically counter every move and seize the opportunity to swiftly deliver a strike.

Chapter 998

"Swish!"

Opportunity comes unexpectedly. After Yagyu Takayuki's sweeping strike, Su Fan suddenly leaned back into an Iron Plate Bridge, easily dodging the attack.

Missing with the first strike, Yagyu Takayuki immediately changed his horizontal slash to a vertical chop!

Su Fan followed with a backward somersault, leaping into the air.

In mid-air, he stabbed downward, forcefully descending!

Yagyu Takayuki was greatly startled, hurriedly swinging his katana to block!

"Clang!"

This time, when sword and blade clashed, it made a huge sound like a great bell ringing.

After this loud noise, Yagyu Takayuki's hand felt a sharp pain; the katana in his hand was split apart by Su Fan's sword.

"Buzz——"

Originally, half of his shoulder was about to be cleaved off by Su Fan's sword.

But being a late-stage master of the Gang Qi Realm, he swiftly employed his protective Qi aura at a critical moment to block Su Fan's sword.

Seizing the moment, Su Fan delivered a powerful side kick, sending Yagyu Takayuki flying backward.

Yagyu Takayuki got up awkwardly, only to face Su Fan's Tai Chi Sword falling again, aiming straight for his throat!

"Clang!"

This time, although Su Fan's attack was once again blocked by Yagyu Takayuki,

there was no doubt that Yagyu Takayuki had completely lost his composure.

Su Fan's sword descended one strike after another, and he could only rely on his protective Qi aura to withstand them.

Though protective Qi aura is formidable, it is merely True Qi forming a protective shield, not an aircraft carrier's armor.

On Su Fan's thirteenth consecutive strike, his protective Qi aura shattered directly.

"Crack!"

"Slash——"

After a crisp sound, came the sound of a blade slicing through a throat.

This second Family Head of the Yagyu family fought fiercely with Su Fan for around ten minutes, only to meet a tragic end!

Theoretically, Su Fan's mission was already completed.

But he soon realized that at least one more life-and-death battle awaited him.

From around the corner, Yagyu Zhengren staggered out.

He propped himself with a katana on the ground, looking utterly miserable.

His face bore a crisscross wound like a slanted cross, and one eye was evidently blind.

His abdomen had an even more horrifying wound, with his intestines spilling out.

Such injuries, even with timely rescue, might spell certain death.

Yagyu Zhengren wanted to call for help, but now he couldn't utter a word as he fell into a pool of blood.

He had over twenty varying degrees of injuries on his body.

Some of these injuries were inflicted by Yagami Takuji, while others were caused by Yagyu Shigetaka.

Su Fan, holding his Tai Chi Sword, arrived at the battlefield where Yagyu Zhengren lay.

Then, he saw Yagami Takuji lying dead in blood and Yagyu Shigetaka standing coldly beside him.

Yagyu Shigetaka was the father of Yagami Takuji and others, and the elder brother of Yagyu Zhengren.

Theoretically, he should already be dead.

But information on the dark web is sometimes unreliable.

Yagyu Shigetaka, who had been declared dead for eight years on the dark web, was still very much alive.

When Su Fan saw Yagyu Shigetaka, Yagyu Shigetaka was also looking at Su Fan.

They exchanged no words; there was no need for words between them.

Because today, only one of them was destined to walk out of the Yagyu family headquarters alive!

"Tap! Tap! Tap! Tap!"

The sound of Yagyu Shigetaka's wooden clogs on the ground resounded like a death knell in the night.

As he approached Su Fan, he leapt up and swung his katana.

Su Fan, wielding his Tai Chi Sword, quickly met his attack.

The fierce duel between them officially commenced at this moment.

"Ding! Ding!"

Su Fan and Yagyu Shigetaka's figures crossed each other in mid-air.

Although there were only two sounds, they actually exchanged four sword strikes.

It's just that two of the sounds merged with the remaining collision sounds to form a single line.

Chapter 999

In these four exchanges, Su Fan and Yagyu Shigetaka ended in a draw.

Su Fan's attacks were entirely neutralized by Yagyu Shigetaka, and Yagyu Shigetaka's attacks were also completely neutralized by Su Fan.

While Su Fan and Yagyu Shigetaka were fighting fiercely, battles elsewhere had already concluded.

However, Zhao Chunqiu and others couldn't come to help here.

The battle between Su Fan and Yagyu Shigetaka was too perilous.

The speed of both was astonishingly fast, and they had been fighting for a long time without a clear winner.

If others were to recklessly enter this battleground, they would undoubtedly meet a swift death!

All they could do was wait.

Wait for Su Fan and Yagyu Shigetaka to determine the victor, or wait for the perfect moment to ambush Yagyu Shigetaka.

The pressure Yagyu Shigetaka brought to Su Fan was immense; he was the most formidable opponent Su Fan had ever encountered.

Su Fan became increasingly serious, not daring to be careless in the slightest.

Opposite him, Yagyu Shigetaka remained outwardly cold and calm.

But by now, he was increasingly terrified, even entertaining thoughts of retreat.

He was at the latter perfection stage of the Gang Qi Realm, while Su Fan was newly entering the Gang Qi Realm.

He had been practicing martial arts for over forty-five years.

Could a kid like Su Fan, barely in his twenties, have trained for fifteen years?

Under such circumstances, he surpassed Su Fan in both realm and combat experience.

Yet the battle results between the two were quite evenly matched, a draw!

How could such an outcome not astonish Yagyu Shigetaka?

"Swish!"

Just as Yagyu Shigetaka was in shock, Su Fan attacked once more.

This time, his Tai Chi Swordsmanship became continuous and relentless.

Now that other battles had ended, he could fight more fiercely without being overly cautious.

If he were cautious in facing the enemy, he and Yagyu Shigetaka might fight for hours without a winner.

After Su Fan changed his fighting style, Yagyu Shigetaka indeed gradually fell into a disadvantage.

There wasn't much of a difference between Su Fan and Yagyu Shigetaka.

The difference was that Yagyu Shigetaka already had retreat in mind, whereas Su Fan was determined to put him to death.

One pursued with unwavering resolve, while the other hesitated, even contemplating escape.

This allowed Su Fan to finally seize an opportunity and strike with his sword!

"Pssch——"

In his panic, although Yagyu Shigetaka managed to raise his protective Qi shield, it was still a step too late.

Su Fan's sword pierced his shoulder before his shield could fully manifest.

This forced Yagyu Shigetaka to quickly retreat and simultaneously tap twice on his shoulder.

Having already considered fleeing, being injured made Yagyu Shigetaka even more wavering.

Even though Zhao Chunqiu and the others didn't make a move, their watchful eyes distracted Yagyu Shigetaka.

Which allowed Su Fan to have another chance to strike.

However, he was not just anyone; Su Fan's next sword attacks, and the few after, were easily blocked by his protective Qi shield.

This shows how formidable Yagyu Shigetaka was, able to contend with Su Fan head-on despite all unfavorable conditions.

But his luck would soon run out.

As Su Fan and Yagyu Shigetaka clashed, Zhao Chunqiu seized the moment!

"Clang!"

His golden-backed ring saber fiercely struck Yagyu Shigetaka's lower back!

This slash didn't significantly harm Yagyu Shigetaka, but it allowed Ning Tianhe to seize the moment and unleash several punches to Yagyu Shigetaka's side.

Su Fan's Tai Chi Sword repeatedly thrust forward, forcing Yagyu Shigetaka to defend desperately.

Ning Miaoxi, taking the opportunity, viciously stabbed Yagyu Shigetaka's ears with her tri-edge military spike.

Though many of these lethal moves were blocked by Yagyu Shigetaka's protective Qi shield.

But such continuous attacks had pushed Yagyu Shigetaka's protective Qi shield to its limit.

Unable to withstand Su Fan's next sword.

"Crack!"

"Pssh! Pssh!"

With incredible speed, Su Fan pierced through Yagyu Shigetaka's protective Qi shield with one sword and then rapidly delivered several more fatal stabs.

These continuous strikes sealed Yagyu Shigetaka's fate, and this top martial artist could only die with regret!

Chapter 1000

The enormous entity of the Yagyu family had reached its downfall.

It could also be said to have welcomed a new beginning.

The executioners in this family had all gone to meet King Yan.

Except for Yagyu Zhengren, who still had one last breath, the surviving members of the Yagyu family were basically insignificant ordinary people.

Of course, there was also the unaccounted presence of Yagyu Jyugong.

However, even Yagami Takuji and the others did not know where Yagyu Jyugong was, so this person could be temporarily disregarded.

Su Fan, after experiencing two epic battles, did not have time to rest.

He needed to quickly save people, saving Xia Zhaonan and Yagyu Zhengren.

Xia Zhaonan had a gunshot wound, but it did not reach the organs and was not fatal.

Yagyu Zhengren was different; he was genuinely at the brink of death.

Su Fan could easily have taken his life then and there, but he still planned to support this puppet to control the Yagyu family.

Yagyu Zhengren originally thought that he was surely going to die.

With such severe injuries, he had no reason not to die.

But he survived, living on as Su Fan's puppet in Japan.

Su Fan previously had no opportunity to use the mystical potion on Yagyu Zhengren, but while treating him, he certainly had ample chances.

Yagyu Zhengren woke up again three days later.

He awoke to see Su Fan facing away from him.

Su Fan knew Yagyu Zhengren had awakened, so his voice came over.

Of course, Yagyu Kaori was still at their side, translating for the two of them.

"Yagyu Zhengren, you now have two choices."

"One choice is to go on your way with the others from the Yagyu family, the other choice is to become my subordinate."

Although Yagyu Zhengren was still extremely weak, he defiantly said, "You might as well kill me."

Su Fan was somewhat surprised that the other party would seek death.

"You don't want to live on?"

Yagyu Zhengren barely managed a smile, "I'm too gravely injured; I have no hope of reaching Martial Arts Grandmaster in this lifetime."

"I wanted to control the Yagyu family just to gain more wealth, enjoy more women, and have more resources."

"Letting me indulge and also strive towards Gang Qi Realm Martial Arts Grandmaster."

"Now I've lost one eye, and my internal organs have suffered varying degrees of damage."

"My level can only remain in the later stages of the Gang Qi Realm, at most."

"Since I am already someone without a future, being a servant to you would be better off dead."

Though heavily injured, Yagyu Zhengren's mind was evidently clear.

But Su Fan's wisdom was no lesser than Yagyu Zhengren's.

If Yagyu Zhengren truly wanted to die, he would not say so much.

The reason he said so much was simply that he did not want to die and instead wanted to negotiate with Su Fan.

Su Fan went straight to the point, "I have controlled you with a drug known as the mystical potion."

"You need to take this potion daily, otherwise, your body will become extremely weak."

"If you don't take the mystical potion within seven days, on the seventh day you'll bleed from all seven orifices and die instantly."

"My medical skills are powerful, aside from your already blinded eye, all your injuries can be healed."

"Although you'll control the Yagyu family as my subordinate, you can still have all your material desires fulfilled."

"As for breaking through to the Gang Qi Realm Martial Arts Grandmaster, it's not impossible in the future."

After Yagyu Kaori translated Su Fan's words verbatim to Yagyu Zhengren,

Yagyu Zhengren fell into deep thought; Su Fan's assessment was correct.

Yagyu Zhengren did not want to die but wanted to negotiate terms with him.

After careful consideration, Yagyu Zhengren proposed an exorbitant demand.
