Chapter 4181: let's get a divorce (3)

“There’s no need to think about it,” I don’t want to wait anymore, ” Qin mo muttered. dad, I don’t think I can wait any longer.

He didn’t know that he had once been able to obtain it, but he had missed it.

when he turned around, he huan was long gone.

even after he had waited for her, every time she thought of that scene, she still couldn’t be the same as before. they had missed each other too much, which led them to where they were now.

uncle kie had told her not to regret it if she were to get a divorce. he huan would not turn back. as her parents, they did not agree to it. of course, he knew about qin mo.

so, he had thought about it for so many years, but he didn’t expect that it would still be like this.

...

All he wanted was a promise to never see Rong Yue again. Everyone knew that Rong Yue was his bottom line, but he Huan didn’t.

or perhaps, he pretended not to know.

because she didn’t love him or care about him, she didn’t know or want to know when he was in pain.

so, he made her feel pain.

however, when she was in pain, he was in even more pain.

he didn't want to feel bad for her anymore, so he decided to divorce her.

qin mo smiled bitterly and closed his eyes.

they're finally getting a divorce, yingluo.

He and he Huan had known each other for many years. Now that he thought about her, he could only remember her looking at him in bed with a face full of fear. Her body was covered in scars.

Qin mo covered his hand, not willing to think about it.

He couldn't accept it more than anyone else that he was the one who hurt her. He used to hold her in his hands.

because of the relationship between the two families, the news of qin mo's family breaking up with he huan had died down. yi huan had been well protected and lived in the qin family's old mansion, while su cheng took care of he huan. they were just waiting for he huan to be discharged from the hospital to talk about divorce.

After that, Qin mo never came again.

He lived alone in the apartment. He didn't sleep on the bed. As long as he saw it, he would be reminded of the violence he had done to he Huan.

he started to lose sleep and drove to the hospital in the middle of the night. he didn't go in to see her and only sat at the door.

su cheng saw him once, but she didn't say anything and just walked past him.

How could a mother not feel resentful?

He Huan's injuries would take at least half a month to recover. Which mother wouldn't be heartbroken?

qin mo's lips moved and he called out 'auntie'.

Su Cheng stood still and turned around without any expression. "you're here to see he huan?"

"how is she?" qin mo asked.

"not very good. he still needs to be hospitalized for another week." "She always has a fever," su Cheng said in a low voice.

As for why she had a fever, Qin mo should know.

Qin Mo's eyes focused. it's my fault.

Su Cheng didn't criticize him and just said, " " i heard from your uncle he that you've decided to get a divorce. since you've decided, you shouldn't be hung up on it. don't worry, i'll take care of su cheng. if you want to talk about anything else, wait until she's better. it's too cruel to talk about divorce now. don't you think so, qin mo? "

these words also made qin mo speechless. he could only lower his eyes, unable to say anything.

Su Cheng did not make things difficult for him and pushed the door open.

in the middle of the night, he huan woke up and quietly leaned against the bed, thinking about something.

Su Cheng closed the door. you heard that? "

He Huan looked up and said in a low voice, " "Yes, I heard you."

su cheng sat beside her and peeled a fruit for her. " "What do you think?"

He Huan did not answer directly. Instead, she asked her mother, " "Mom, if it were you and dad, would you not divorce because of me?"

Chapter 4182: let's get a divorce (4)

"I don't know," su Cheng shook her head. He Huan, no one can make a decision for you. Do you only want to be happy?"

He Huan shook his head.

Then, she hugged her knees. Her small face had lost a lot of weight. She blinked her eyes gently. "mom, my marriage with qin mo isn't his fault alone. when i married him, i didn't love him, but i liked him later on. i don't know how things ended up like this. when i returned to the country, i thought about living like this too, for yihuan, but i'm probably too stubborn. i don't want to follow his arrangements, and he cares too much about my past. mom, maybe it's good for us to break up, so let's just leave it at that. "

This was the first time su Cheng had heard he Huan say something like that.

She was a little shocked.

she had always thought that he huan had never liked qin mo, but now, it was the case.

...

"do you want to reconsider?" she couldn't help asking.

He Huan shook her head. no, he's already asked for a divorce. Besides, I won't give up on something that I've persisted on for so long just for one person. I don't want to become another person.

why would she go and beg qin mo not to divorce her? after he hit her and said that he wanted to divorce her.

he appeared now probably because, like her, he was sad that they had ended so badly. actually, a few years ago, they could have broken up very decently, hanhan.

he huan didn't eat any fruits and placed them neatly on the bed. after a long time, she said, " mom, let him leave. Just say that I don't hate him.

It was the price he had to pay for waiting for her all these years.

su cheng sighed and went out.

Qin mo was probably smoking in the corridor. When he saw su Cheng coming over, he immediately put out the cigarette."how is she?"

Su Cheng walked up to him. She used to be very satisfied with Qin mo because he was Qin Anlan and ye Liangqiu's child. He was like half a son to her. However, things were different now.

She felt a little complicated and only asked after a while, " "qin mo, will you regret this?"

Qin Mo's fingers clenched tightly. what did she say? does she not want a divorce?"

no, " su Cheng shook her head and said softly, " he Huan asked you to go back. She said she doesn't hate you.

Qin mo was stunned for a moment.

This was how it was.

why did he feel even more dejected when she said she didn't hate him?

Su Cheng sighed again. Qin mo, you can't be too greedy. It's already very honorable for you two to separate like this. Don't come again. I don't know what to say to you. You were just doing well, so I'll just pretend that you're not fated with he Huan. Find a girl and live a good life with her.

she turned around to leave.

"aunty su, are you not going to let he huan go on a blind date?" qin mo suddenly asked.

su cheng stood there for a long time before she said, ” ” let’s see what she wants. it’s best if she has someone she likes. if she doesn’t, her family will make arrangements for her. she can’t possibly be naked with qin mo for the rest of her life. people have to look forward, don’t you think? ”

Qin mo knew what she meant. She was saying that he would not be single and that his family would have arrangements. There would even be many women sticking close to him. How could King Entertainment’s CEO lack women? there were many women who wanted to be promoted.

su cheng went in and never came out again.

Now, Qin mo felt that there was no reason for him to stay any longer, so he drove off.

Her mind was filled with su Cheng’s words about why she was looking for a blind date. His fingers gripped the steering wheel tightly. He and he Huan were legally married and even had the same household register. Her family had already thought of a way out.

Wasn’t that normal? he was the one who said he wanted a divorce, so wasn’t that a normal reaction?

At this moment, he realized that uncle Kime’s words about him wanting to turn back would not be agreed by his parents. After the domestic violence, he had a chance to be forgiven by the elders, but he did not want it.

In the future, he Huan might be Rong Yue’s wife or someone else’s wife.

However, she would never be his wife again.

Chapter 4183: let’s get a divorce!5

when qin mo and he huan were going through a divorce, the kang family was doing well. teacher kang’s surgery was very successful and she recovered well in a week. this was also because of her comfort. when a person’s mood was good, they would have hope. it was better than eating any tonic.

qin chen examined teacher kang and smiled. ” “It’s a miracle that the old lady has recovered so well.”

Kang Qiao thanked him.

for a person like kang qiao, success and fame meant that he didn’t lack anything in his life, especially since he had a wife. the only regret he had was that he let his mother down. now that teacher kang could live a few more years, kang qiao’s heart was extremely comforted.

He went to Qin Chen’s office on purpose and didn’t give him money. In fact, Qin Chen liked tacky money the most.

Kang Qiao served him the best coffee, he knew that Qin Chen liked to drink this.

...

qin chen didn’t stand on ceremony. he knew it was the best quality after taking it down and smelling it, so he raised his eyebrows.”thanks.”

then, he served kang qiao a cup of coffee that he brewed himself. everyone was familiar with each other, so they started chatting, I heard that my second sister-in-law, he Huan, asked you to act in a movie called ‘twin’. Did you turn down the offer? ”

kang qiao nodded,”yes, due to various reasons, we still rejected it.”

he had heard about boss qin’s family affairs, so he asked with concern, ” “I heard that director he is sick. How is he now?”

qin chen took a sip of coffee, then looked up at kang qiao silently. he said slowly,”my second brother might divorce her. It’ll probably be done in a few days.”

kang qiao was stunned and didn’t know what to say.

qin chen smiled faintly. " their personalities might really not be suitable. he huan is very independent, and qin mo wants a little wife to be raised at home. it might be good for them to separate. "

After she finished, Kang Qiao continued, " "I'll go visit director he when I have time."

"Don't! He Huan's quite headstrong. She'll probably contact you later. I think she'll continue filming that film after she leaves my second brother." Qin Chen laughed. actually, I also think that my second brother is overreacting.

misunderstandings and conflicts between husband and wife are inevitable. perhaps qin mo was too deeply in love and didn't know how to get along with he huan, hanhan.

kang qiao was a little emotional after qin chen finished, but he couldn't say too much about qin chen's family matters.

The reason why Qin Chen revealed this to him was so that he could make a choice between King Entertainment and he Huan. This could be considered a favor from Qin Chen.

When Kang Qiao returned to the ward, Xu Mo took care of teacher Kang until she was asleep. Seeing him return, he asked in a low voice,"what's wrong? you don't look too good."

Kang Qiao walked to the side with her and said in a low voice, " "President Qin and he Huan might be going their separate ways soon. Qin Chen told me just now to ask me to consider working with director he."

Now that Xu Mo was married to Kang Qiao, of course, she wasn't interested in Kang Qiao's career at all. Moreover, she used to be an agent, so she was very familiar with this field. She bit her lip and said, " "what do you think?"

Kang Qiao was a little happy. you're concerned about me? "

how can you not care? mom and I are counting on you to support us. We also need money for milk powder for the babies in the future. "mr. kang, you're still under a lot of pressure." xu mo placed his hand on his leg.

“I thought I could do whatever I want with my current assets!” Kang Qiao smiled.

Chapter 4184: let's get a divorce (6)

He knew that although the House of Love had to spend some money from time to time, they didn't have to subsidize a lot since they were famous. Xu Mo and his mother weren't people who spent money extravagantly.

He leaned over and pressed his forehead against hers, lowering his voice. are you really willing to give birth to my children? how many are you prepared to have? I guarantee that every one of them will be white and chubby.”

xu mo licked his lower lip. ” when mom's condition stabilizes, let's have a baby, okay? ”

Kang Qiao smiled and said, ” “alright,” he said.

He held her and did nothing but lean on Xu Mo's head.

he and xu mo both came from ordinary families, and xu mo had a broken past, so once he made up his mind, he would never change. he and xu mo would never be like president qin and director he.

...

actually, feelings were very simple. love or not love.

if they couldn't figure it out, they would often have to take many detours, just like what they had done before.

kang qiao pursed his lips and sighed.

a few days later, teacher kang was discharged from the hospital. kang qiao took her and xu mo home. she also opened the villa next door that ye mu gave her. the decoration was pretty good, but teacher kang insisted on living alone.

kang qiao also acquiesced. in addition to the original aunt, there was another aunt. xu mo complained, ” “mom’s health isn’t good. why did you let her live alone?”

kang qiao took off his jacket and pulled xu mo to sit beside him. he reached out to stroke her hair and smiled, ” my mother is used to it. Besides, you can just walk for a minute next door. You can stay there during the day, and we can just come back at night to sleep. It’s no different from living together. Besides, my mother will be more comfortable this way.

As he said this, he pinched her face. do you think that you can be especially comfortable with her? after all, we’re from two different generations. I can’t always be calm and steady. There will always be times when we’re intimate. If we bump into each other, it will be uncomfortable.

Xu Mo just looked at him and didn’t say anything else.

Kang Qiao patted her hand and said,”wait a minute.”

she looked at him, not understanding what he was going to do.

Kang Qiao walked over to the bookcase and opened a door. Inside was a safe. He entered a set of codes and the inside opened. He took out a booklet and placed it in Xu Mo’s hand. these are my savings from the past few years. I’ve also invested some in the company and stocks. These won’t be touched. There are also some houses that I’ve collected rent from, and they’re managed by my financial advisor. The rent is about ten to twenty million a year. You take care of this one in your hand.

xu mo looked at him, then opened the memorial again. after reading it, his eyes blurred.

there were many zeros.

She counted and found that it was more than four billion.

kang qiao squatted beside her and muttered,"with the stocks and real estate in hand, it's about seven billion. it might not be a rich family, but it should be enough to support a family."

Xu Mo looked at the notebook and then at him."you really want me to manage all of this? aren't you afraid that i'll be completely defeated?"

"i won't," He laughed. you're not that stupid. Look at how much you've spent and how much you've fished back. Don't you think you're stupid? "

xu mo thought about it and realized that he was quite smart. he couldn't help but laugh and raised the memorial in his hand."I'll be a little rich lady in the future."

Kang Qiao wrapped her hand in his. then can I not sign a new contract with King Entertainment and do what I like? "

xu mo looked at him.

he smiled. " i want to do something that i like. i really want to act in this film. i had no choice before. do you object? "

Chapter 4185: let's get a divorce (7)

at that moment, xu mo knew why he showed her these and was a little touched.

kang qiao only told her that he had already earned enough for his living expenses. even if he didn't earn money in the future, she and her child would still be able to live without worry.

She reached out to hug him, her voice hoarse. "kang qiao, you are a good husband and a good father."

"does this count as an agreement?" he leaned his head close to her ear and asked.

Xu Mo didn't say anything and just nodded silently.

kang qiao caressed her head and pressed his face against hers.

...

after a while, he asked her softly, "are we having a child now?"

"kang qiao, can you be more serious?" xu mo stared at him.

"This is a serious matter. Look, I'm almost 40. Mom is in good health and has someone to take care of her. She will be happy if you have a child soon. Once she is happy, she will live to a hundred years old. Don't you want mom to live to a hundred years old?"

Kang Qiao said as he carried Xu Mo to the big bed and kissed her. Xu Mo helplessly accepted his kiss and said in a low voice, "you're simply being unreasonable. Where's your twisted logic?"

Kang Qiao chuckled and kissed her while touching her face in a manly way, "That's the logic in my bed."

after all, he hadn't been here for many days and had just reconciled, so he pressed her down and kissed her a few times.

He had always been shameless, and Xu Mo really couldn't do anything to him, so he didn't say much and didn't ask for contraception, so he didn't use any protection.

The words he said about her health were like farts.

it would be a miracle to believe a man's words!

however, kang qiao was extremely good to her and teacher kang. they didn't have a wedding ceremony for the time being after they got their marriage certificate. they just lived together and were beautiful in all aspects.

kang qiao officially proposed to terminate the contract with KING entertainment, which would be carried out in about two months. when the contract was up, they would go their separate ways. however, since they were still friends, kang qiao didn't do it too heartlessly and returned some of the resources to KING entertainment.

Qin mo knew what he meant and called him over to have a good talk with him. In the end, he couldn't make him stay.

they were the boss and the artiste, and they could be considered friends. they sat on the sofa and smoked a few cigarettes together.

After a while, Qin mo asked in a low voice, "qin chen told you the news, so you decided to do it?"

"President Qin, you're really observant," Kang Qiao smiled bitterly.

it's not that I'm being observant, I just know that you really want this role. Qin mo raised his head and smiled. "i just didn't expect you to be willing to put in so much effort. you know that if you stay at KING entertainment, you can just lie down and count the money. you have dozens of endorsements on you. "

"yes, i can earn money, but i just want ran ran to do something that she likes," kang qiao smiled.

"something you like?" "is it really that important?" qin mo muttered to himself.

Kang Qiao knew what he meant and said softly, "i've discussed it with xu mo. she's supportive. "

Qin mo stared at her for a long time before he suddenly laughed. it's good that she agreed.

as he said that, he felt a little guilty.

was he huan also so eager to do what she liked?

he didn't object to it. as long as she didn't act in rong yue's script, she could do whatever she wanted, even if she was abroad.

he couldn't stand her meeting with Rong Yue because when they met, he would remember how she married him and how she woke up calling Rong Yue's name on their wedding night.

Chapter 4186: Let's get a divorce 8

He was a little sick, so sick that Qin Chen even changed his son's name to LAN Yue.

He had no other choice but to let he Huan go.

Qin Mo didn't make things difficult for Kang Qiao. After all, he had been KING Entertainment's money tree for many years. Everyone should part on good terms. Moreover, Kang Qiao had never done anything wrong to the company.

"The company will be holding a party to send you off," he said.

Kang Qiao didn't reject him. They were both adults and they might work together in the future. If he started a company, he might have a connection with King Entertainment.

Kang Qiao said a few words of thanks and considered it an end.

...

"I understand," Qin Mo patted his shoulder.

They didn't talk about he Huan. They both knew that Kang Qiao left KING Entertainment because of that film. If he had to film it, Qin Mo would rather it be Kang Qiao.

That was because Kang Qiao would never be intimate with he Huan.

He couldn't stand the fact that he Huan was involved with a man like Ji Rongyue during the filming, even if they were about to divorce.

After Kang Qiao left, Qin mo sat in the office alone for a long time.

He had not visited he Huan for more than a week. He heard that she had been taken back to the he family. When he went to the Qin residence, Yi Huan would ask him where his mother had gone. He told Yi Huan that his mother had gone to the United States, just like before.

Yi Huan's expression was very disappointed. At that moment, he wondered if he had made a mistake.

was he being too selfish? he only cared about his own feelings and did not leave yi huan a way out.

however, the words had already been said. regardless of whether it was between them or between the two families, the divorce was already set in stone. even if qin mo wanted to go back on his word, it would not work. besides, he had no intention of doing so.

As he was thinking, his phone rang. He picked it up and glanced at it casually, then his body tensed up.

it was he huan.

he probably knew why she was calling, so he didn't say anything for a long time.

"Qin mo, I want to talk to you," he Huan said in a calm voice.

Qin Mo's hand that was holding the phone was tightly clenched, and his voice was extremely hoarse. "Are you talking about divorce?"

Her silence could be considered a silent agreement.

" i'm going to United States next week, " she said softly after a while. " i want to get things done in the next few days. "

"Yihuan has been asking about you for the past two days," Qin mo suddenly said.

He Huan was stunned, and then her heart ached. She said anxiously, ” “shall we meet and talk?”

He knew that she was anxious because of Yi Huan. He actually didn't want to help her. He felt a little guilty towards her, but he probably hated her more.

he hated that she didn't love him, hated that she met Rong Yue so easily, and hated that she had to film the love story written by Rong Yue.

That story was very similar to her and Rong Yue.

everything that she had done made Qin Mo look like a fool.

“come to my office tomorrow. i'll get a lawyer. you can hire one too.”

no need, ” her voice was very soft, ” “i don't have many requests.”

He interrupted her. it's best to hire one. Divorce is not as simple as you think, especially when it comes to visiting children. I think you've been abroad for a long time and don't understand the situation in the country.

he Huan was stunned for a moment, then agreed.

however, the next morning, she still came alone. when she passed by the front desk, the front desk lady spread rumors, ” “I heard that she's going to get a divorce with President Qin. It's because Ran Ran has an affair. President Qin can't take it anymore.”

Chapter 4187: let's get a divorce 8

“no way. president Qin is so handsome, and he's not satisfied?” The other one was shocked.

“who knows? maybe he has a special hobby. everyone has a different taste. i heard that he’s a writer. he has a good temperament and is quite good-looking. he looks 80% like president qin, but his temperament is different. he’s especially elegant.”

“shouldn’t writers be bald? How can you compare him to our President Qin? President Qin is handsome and rich, and his nose is especially sharp. Didn’t you notice?”

“What if the author’s nose is even more prominent?”

he huan didn’t hear what they said when she entered the elevator. she didn’t care much about this.

when she reached the top floor, qin mo’s secretary was waiting for her at the elevator. ” madam, president qin has been waiting for you for a long time. ”

...

“just call me he huan.” he huan paused.

the secretary merely smiled and did not say anything. he led he huan into qin mo’s office.

In the office, other than Qin mo, there was another lawyer that he Huan knew. She nodded and sat down on the sofa. The Secretary served some fruit tea and thoughtfully closed the door.

Qin mo stood by the window and turned to look at he Huan. “You’re here, why didn’t you bring your lawyer?”

His tone was particularly normal, as if nothing had happened, and it was more like they were just working together.

He Huan shook her head. it’s not that complicated. There’s no need for it.

Qin mo glanced at her and took a document from the lawyer. “take a look and if there’s no problem, we’ll sign it.”

He Huan lowered his head and looked at it silently.

Qin mo was very generous with her financial compensation. About two billion Yuan was his personal property.

on the other hand, he was more strict and unreasonable when it came to yi huan's visits. he had stated that she was not allowed to bring yi huan out of the country or anywhere outside of B city. the visiting hours could not exceed eight hours, she could not stay overnight, and she could not be visited more than four times a month.

He Huan heaved a long sigh of relief and looked up at Qin mo.

qin mo continued, " if you can't accept it, we can file a lawsuit and let the court decide. however, based on the time you've spent taking care of the child, the judge will be more inclined to let me take care of her. "

He Huan also understood in her heart that with Qin Mo's power, it was useless for her to file a lawsuit.

However, her heart ached a little.

If her freedom was built on giving up, she would never be at ease in her life.

However, she was indeed going to get a divorce.

she didn't have the habit of begging others, let alone a man who had laid his hands on her.

After he Huan finished reading the document, she flipped to the last page, where she needed to sign.

she looked at it silently for a long time.

A pen was placed in front of her.

she looked up.

It was Qin mo.

qin mo's voice was hoarse. " i'm not that unreasonable. he huan, if you want to see yihuan, you can come to my parents 'house anytime. just don't take her away. "

"What if you remarry?" he Huan suddenly asked.

qin mo leaned against the back of the chair and said in a low voice, " yihuan is your child too. you can see her if you want to. "

He didn't say anything else, and he was even more unwilling to talk about remarrying with her.

This was because he remembered that uncle Kime had said that after their divorce, both parties would have to look for their own people.

he didn't have any ideas at the moment, but he huan had a candidate in mind.

Chapter 4188: let's get a divorce (10)

He looked at her and asked, " what about you? will you still remember that you had a daughter after you got married? "

He Huan's temper wasn't very good either. The expression on her face wasn't good, and they almost started quarreling.

the lawyer saw that the wind was blowing against him and went out. there were only the two of them in the large office.

there was no one around, so he huan did not have to worry anymore. " qin mo, you don't have to say that. aren't you just talking about me and rong yue? "

qin mo's eyes narrowed.

he huan picked up a pen and said in a low voice,"yes, i'll be with him immediately after we get divorced."

...

She was probably too angry, so she quickly signed her name.

the force of the brush was so strong that it almost cut the paper. qin mo was watching from the side, his fingers clenched tightly.

you must have missed the last one, " he said coldly. for the sake of yihuan's growth, she is not allowed to remarry before she is ten years old.

he huan was stunned. then, she saw a line of small words. as expected, it was written like this.

in fact, she didn't care if she remarried or not. she also didn't have any thoughts of getting back together with rong yue. the past was the past.

However, some people just couldn't let it go and wanted to find trouble with her.

He Huan laughed in a low voice, and it was a mocking laugh."qin mo, what do you think this can restrict? there's a kind of relationship between a man and a woman called cohabitation, and a man like you can be a mistress. is there any meaning in writing this now? you just don't want me to marry rong yue, right? you just can't let go of your self-esteem. you just care about being used by me once, don't you?"

qin mo stared at her. " you've finally said what's in your heart. "

he stood up and pulled her to his side. " you want to live with rongyue? "

He Huan fell into his arms. When she looked up, there was a touch of fear on her face.

qin mo felt a sharp pain in his heart. he knew that she had not forgotten about that night.

she didn't forget, and neither did he. he couldn't let it go either.

qin mo let go of her dejectedly and let her sit where she was. he continued to stand by the french window.

" qin mo, i'll leave after you sign the papers. i don't need your money either. " he huan's voice sounded tired. " let's just let each other go, alright? "

He continued to stand there, ignoring her at first.

he just stood there for a long time before he said in a low voice, " "you hate me, right?"

yes, " he Huan admitted directly. I'm afraid of you too.

qin mo let out a long breath. " actually, i hate you too. he huan. "

As he spoke, he suddenly turned around and stared at her.

his eyes were red and bloodshot.

he huan also looked at him.

the air was also silent.

it was as if it had frozen.

After a long time, he finally walked over slowly and sat down opposite her. He picked up the pen on the table and signed his name. After signing the last stroke, he said in a low and hoarse voice, " "in our marriage, i've never loved anyone else. i've only hated you."

he leaned back gently and covered his eyes with his hands. miss he, you can leave now. It will take a week to get the certificate. I'll get my Secretary to send it to you by then. As for the transfer of assets, I'll let the company's finance department handle it with you.

He Huan's throat seemed to be stuck, and he couldn't describe the feeling.

She actually really hated him, but now that they were separated like this, neither of them would have a good time.

she wanted to say something, but he raised his hand. " you don't have to say anything. i'm tired of hearing words that hate me. there's no need to apologize. you're sorry because you don't love me. "

Chapter 4189: let's get a divorce (11)

he huan looked at him and stood up silently. she walked to the door and suddenly said, " "No, it's not."

He lay down and did not make a sound.

Her voice was bitter. I should have liked you before, but for a very short time, after Hanhan saw you and her in the hospital, she couldn't like you anymore. Qin mo, we just missed each other. When I liked you, you already didn't like me anymore. When you liked me again, I couldn't love you anymore. We always missed each other.

qin mo closed his eyes slightly. " is that so? "

She didn't say anything and just opened the door to leave.

as soon as he left, a violent sound came from the office behind him. the desk was flipped over, and so was the sofa. it was a mess. the only thing that was well-preserved in the stylish office was probably the divorce agreement.

...

the secretary and he huan exchanged glances at the door. he huan said softly, ” “Goodbye.”

She left without hesitation. The Secretary sighed, but she couldn't leave President Qin alone.

ah, she's clearly reluctant to lose her temper. why do you still want a divorce?

Now that they were getting a divorce, it was a moment of joy. In the future, they would probably have to cry and kneel.

The Secretary opened the door carefully. Qin mo was leaning against the bookcase in a sorry state. He had thrown his coat on the floor, his tie was loose, and his hair was in a mess. He looked extremely dispirited. This was the first time the Secretary had seen President Qin like this.

divorcing and losing love!

The Secretary thought that it was a good word.

“president qin, miss he has already left.” the secretary reported in fear.

so no matter how angry you are, you will only damage the company's finances and your own hand will hurt. miss he won't be distressed.

qin mo glanced at her. ” she's still my wife. ”

“yes, it's madam.” the secretary played along.

“She's not going to be my wife anymore.” Qin mo was furious.

the secretary was put in a difficult position. after a while, she said, ” “Then I'll be called director he!”

When she heard that Qin mo was even more popular and that he was going to direct Rong Yue's work, she knew that they had gotten a divorce because of this.

the secretary said softly, " actually, it's not worth it to get a divorce. you can support director he's filming and visit him on set. you can go out and visit him in pairs every day and stay in the same hotel. after the filming, she'll still be your wife. no one can take her away, right? "

Qin mo kicked the sofa and found a place to sit down. "Why didn't you mention this before?"

"I didn't dare to in the past," the Secretary replied honestly.

qin mo lit a cigarette and took a deep puff. after a while, he said in a low voice, " "it's impossible between us. i hit her and i was the one who initiated the divorce."

he huan was such a proud person. she would not turn back, and he did not want to.

Perhaps he was impulsive, but he really couldn't go on anymore.

The Secretary didn't make a sound. She didn't dare to make a sound.

she didn't expect that a man like president qin would hit his wife and even ask for a divorce first.

Qin mo suddenly smiled bitterly. I just don't know how to face her. I'm afraid that I'll hurt her again.

"boss, you're not paranoid, are you?" the secretary asked, trembling.

Qin mo glanced over and the Secretary did not dare to say anything.

" call lawyer li in to process this document. bring it to me after he's done. "

he said in a low voice.

The Secretary didn't need to look to know what it was. She was a little crestfallen, but it had come to this.

three days later, the secretary brought the things over. qin mo looked at the two green books and was stunned for a long time.

Chapter 4190: let's get a divorce (12)

Three days later, the Secretary brought the things over. Qin mo looked at the two green Books and was stunned for a long time.

His office had been replaced with new tables and chairs. Even the sofa had been replaced.

at this time, he was sitting in front of his desk, quietly looking at the two notebooks. he reached out for his phone and wanted to call he huan, but he hung up after a short call. he still did not dial.

he would give it to her later.

He sat in his office for the entire afternoon.

He knew that he Huan had already started preparing for "twin". Kang Qiao had signed a letter of intent with her because he hadn't received the contract yet.

...

Qin mo sat there until six O'clock in the evening before he remembered that Yi Huan had asked him to go back and have dinner with her.

today was yihuan's birthday. he and he huan were supposed to be at a warm age, but they had divorced.

he didn't tell the child about this. he would tell him later.

He took his coat and slowly walked out of the office. He met ruan Yun in the elevator.

ruan yun seemed to have something to discuss with him, but qin mo was not in the mood. his mind was on he huan, even though they were divorced.

however, she just couldn't let it go.

Perhaps it was just as uncle Kime had said, he would regret it. He regretted it now.

what he regretted was not the divorce, but the violence he had done to he huan that night. he should not have treated her like that.

He listened to ruan Yun absent-mindedly, and when the elevator door opened, he only replied indifferently, "everyone has their own aspirations. If Kang Qiao doesn't want to sign, King Entertainment has already given him the best resources and treatment. There's no point in continuing the discussion. You should be thinking about how to develop new artistes. Oh right, let someone else manage the one you're managing. His qualifications can't be compared to Kang Qiao's, and he's not younger than Bai jingxuan. He can't compete with him at all. Ruan Yun, I believe you have good taste. Don't let your personal feelings affect your work. Oh right, Kang Qiao is married, you should let go. Otherwise, King Entertainment might not be suitable for you.

After he finished speaking, ruan Yun was stunned. She really didn't expect Kang Qiao to be married.

She knew that he and Xu Mo were together, living together, or even cohabiting.

however, he shouldn't be that stupid to get married. his net worth was far from xu mo's, and xu mo had a loving family. how could he be willing to get married?

Oh right, he had asked Xu Mo to sign the prenuptial agreement. The Kang Qiao she knew was this kind of person, and he should be this kind of person.

She didn't believe that he would be assimilated by Xu Mo, and she didn't believe that he would fall in love with Xu Mo.

It must be because he wanted to get married, so Xu Mo was only an occasional thing.

Ruan Yun tried her best to convince herself, but she knew in her heart that Kang Qiao had truly fallen in love with Xu Mo. So, he gave up everything, gave up King Entertainment, gave up his past, and just wanted to give that woman a new beginning.

What about her? she had been with him for so many years, but in the end, it was just a work relationship.

she was the one who had single-handedly raised him up. she was unwilling to accept this and wanted to find kang qiao to clarify things. she also wanted to tell him that after he left her, ruan yun, and KING entertainment, he might be nothing.

she was very scared and couldn't wait to let him know yingluo.

When Qin mo arrived at the parking lot, he went to buy a gift and went to his parents 'house. He did not expect he Huan to be there.

so when he saw he huan's car, he sat in the car in a daze for a while. his heart beat wildly a few times, like a poor teenager.

only he huan would make him like this.
