Chapter 5191: Long time no see (3)

Master Cheng sized up sister Hong and then smiled gently. “it’s not a big deal to give it to you. do you want to follow me?”

Everyone in the news agency was stunned by his words.

Heavens! he gave away hundreds of millions just to accompany master cheng.

The female colleagues all secretly looked at master Cheng. In fact, master Cheng was very handsome and in good health. He had a fierce and manly aura. The female colleagues secretly blushed and wished that they were the ones who had made such an inappropriate request.

However, master Cheng’s taste was also high. Even if he had spent hundreds of millions, he only wanted the one that he wanted, the most expensive one that was not convinced by him. Other than reporter Liu, he didn’t look at any other woman, especially when du Meili started to show off her body, intentionally or otherwise. Master Cheng directly said,”transfer this woman over to clean the toilets. she’s an eyesore.”

Du Meili’s face turned pale. She couldn’t believe that master Cheng would treat her like this.

...

What’s so good about that old woman, Liu Hong, that master Cheng sees her in a different light!

master cheng glanced at her and snorted coldly. then, he looked at sister hong eagerly.”what do you think?”

Sister Hong looked at him, then at the employees around her. She said calmly, ” “Don’t get off work yet, I have something to announce later.”

at this moment, everyone clearly understood that sister hong had lowered her head to money. however, everyone also knew that sister hong had lowered her head so that everyone's wanwan wouldn't be fired.

Because for master Cheng, if he could use a few hundred million Yuan to chase a woman, he would not even blink even if he ruined the news agency overnight.

master cheng stared at her with a particularly eager look in his eyes. then, he entered the office with her, feeling a little proud. when the door was closed, zhang fucai cried out, "liu hong! you're crazy!"

this was a sincere voice. they had been through their youth and had their share of bad times, but now they were very good friends. sister hong was very passionate and zhang fucai knew that he was not good enough for her. however, if liu hong was going to get married one day, he hoped that it would be a good man, not a rough man like cheng zheng who was a nouveau riche and a rough man!

his words made master cheng very angry, and he wanted to teach zhang fucai a lesson. this damn fatty had deceived so many young girls just because he could read a few words, and he still had the nerve to shout here?

however, he had only taken a step when sister hong said indifferently, "Didn't you say that you'll give this place to me? Zhang fucai is one of my men, so it's natural for me to deal with him,"

Master Cheng smiled and didn't rush to go in. He leaned against the door and asked with interest, "baby, how do you plan to deal with him?"

"i'll clean the toilet with du meili for a week," sister hong said, lowering her eyes.

everyone laughed, but they didn't dare to laugh. however, in their hearts, they felt that sister hong's idea was good, especially good. wouldn't editor-in-chief zhang and du meili be able to kiss each other in the bathroom?

zhang fucai's pig-like face was flushed red. he wanted to flare up, but when he saw sister hong's face, he swallowed his anger.

it was his own doing. he knew liu hong very well. she was protecting her, and even du meili. for a moment, he was embarrassed and ashamed.

Master Cheng was also quite happy. He reached out and pinched sister Hong's face."Baby, that's a good idea."

"Show some respect," sister Hong slapped his hand away.

Chapter 5192: long time no see (4)

Master Cheng didn't get angry. He said in a manly manner,"your people will all be mine later. how do you expect me to respect you? tell me the rules, and i'll do whatever you want me to do."

sister hong glared at him and closed the door.

Outside, there was no sound at all. Everyone was guessing what had happened inside.

behind the door, sister hong was pressed against the door by master cheng. she tried to break free but failed. then, she raised her hand and gave master cheng a slap. " are you crazy? why did you come here? "

Master Cheng was furious. He thought he would be in a gentle place after closing the door, but this woman was really impolite. He raised his hand and slapped her again and again.

However, he did not use too much strength. At the very least, he did not hit su zhirou as hard as he did to the other women.

...

this woman was the one who started the fight. if he didn't show off his power, how could he control her? besides, master cheng had always had a plan in his heart, and he could hit his own woman.

if he hit her, it meant that she was his woman.

he thought that he had touched her a little and was already being tender to her. this woman knew when to retreat and when to serve him well, and this matter would be over. who knew that the moment he put down his hand, the other side of his face would be slapped by this woman again.

that force was really fierce.

master cheng's eyes turned fierce. no woman had ever dared to treat him like this.

He pulled her hair with one hand and raised his other hand to slap her. If he didn't subdue this woman today, he wouldn't be master Cheng's Yingluo.

sister hong's eyes were closed, but her face was raised, as if she was waiting for him to hit her.

She looked very brave, but her body was trembling slightly, and she still looked a little scared.

master cheng's big hand, which was like a cattail leaf fan, couldn't fall. he stared at her fiercely for a moment, then put down his hand and gently patted her face. he said in a rough voice, "If you dare to make a scene again, I'll kill you."

after all, he was still unhappy when he let go of her. he sat down on her desk and lit a cigar.

as he slapped her, he squinted at her with an unhappy expression.

Sister Hong slowly opened her eyes. She was surprised that he didn't use violence on her. Didn't he like to hit women?

master cheng probably saw through her thoughts and said in a rough voice, "If you dare to do this again, I'll teach you a lesson over and over again."

Sister Hong walked to his side and took out a cigarette from the table. She lit it up and started smoking. Then, she said softly, "Cheng Zheng, we're not the same. you just want to sleep with a woman you find interesting. i really can't afford a few hundred million."

“you’re willing to give it to me for free?” master cheng stared at her.

sister hong cursed before looking out of the window. I’ve reported a lot of dark news. Cheng Zheng, do you really think that I don’t know what you do for a living? don’t you think it’s ridiculous that we’re together? ”

“Isn’t money a joke?”

He went over, turned her face over, and blew a thick and heavy cigar on her face. He sneered, ” “what’s reputation? I remember the last time you were trapped, it was that pretty boy ye xiangnan who saved you, right? think about how important power is, or you might not have been able to come back. Now think about it, is justice still so important?”

Sister Hong just glared at him, not saying a word.

Master Cheng smiled again. not only can I give you this news agency, but I can also give you other things. As long as you can say it, I will support you.

Chapter 5193: long time no see (5)

Sister Hong pushed his hand away and asked softly, ” “And then? when you’re tired of me, you can kick me away?”

master cheng laughed. ” great reporter liu, why are you still being so coy like a young lady? we’re just getting what we need. isn’t everyone happy? after a long time, we’ll feel that there’s no feeling anymore. isn’t it good to separate? ” or do you want me to love you forever? you can’t be that stupid, right?”

Sister Hong sneered. Cheng Zheng, you’re really a scumbag. It’s obvious.

Master Cheng spat out another mouthful of cigar.”you’re welcome. This is one of my few strengths.”

Sister Hong was furious, but she really couldn't do anything to him. His shamelessness had already penetrated deep into his heart, and he didn't even realize it himself.

"what if i don't?" sister hong turned to look out the window.

...

Master Cheng gritted his white teeth. then I won't make things difficult for you. But I don't know what's going on with the group of people outside.

he wasn't very cultured, but he was very meticulous. he could immediately tell that this woman cared a lot about those trash outside. he really couldn't understand. zhang fucai, that dead pig, had betrayed her and even fought with her. one of them knelt down for her, and the other seemed to want to commit himself to him for the sake of the fat man.

What kind of feelings were these?

were they still in love?

damn it, master cheng instantly felt like he was wearing a big green hat, the green kind. he was so angry that he directly put out the cigar, then came over and pinched her chin, asking, "are you related to that fatty zhang? or do you do your hair from time to time?"

sister hong pushed him away. "are you crazy, cheng zheng?!"

her reaction made him happy instead. he leaned against the desk and smiled triumphantly. "You're not interested in that damn fatty, are you?"

but then, master cheng thought of sister hong's dark history. she used to go to the bar to date young male stars and her hair had always been styled. just thinking about it made him grit his teeth and want to strangle this woman.

It was really too detestable.

master cheng stared at her, as if he wanted to peel off her skin and flesh. his voice was also rough. "If you dare to date another man in the future, try it."

I'm fine. sister Hong held the cigarette between her fingers and took a puff. if you have other women, I can ask other men out.

wasn't that fair?

master cheng took a deep breath. was there a woman who dared to ask him to keep his body like jade?

who did she think she was?

Celestial beauty or what, this was what she looked like!

Sister Hong didn't want to talk to him anymore. if you can't do it, then there's no need to talk about it. You still have to go to the hospital for the physical examination. I'm afraid that you're sick and it won't be good if you pass it to me.

master cheng jumped in anger. "i'm not sick! You're the one who's sick."

"you're not sick, but you're spending hundreds of millions. are you out of your mind?" Sister Hong rolled her eyes at him and said impolitely.

master cheng couldn't say a word. after a long time, he finally said coldly, "if I go for a check-up, you have to go too. Check it now. If there's no problem, you'll be good tonight."

sister hong didn't make a sound and continued to smoke quietly.

master cheng felt that he was at a disadvantage. he came over and put out the cigarette in her hand. his voice was also rough. "why does a woman smoke?"

sister hong laughed. "didn't su zhirou also smoke that thing? cheng zheng, you've really ruined her. that's su mu's sister."

“that’s because she’s wrong,” master cheng said in a cold voice.

Chapter 5194: long time no see (6)

after he finished speaking, sister hong sneered. ” it’s really rare that master cheng knows what three values are. ”

a man who had raised so many women was actually talking about values.

Her disdainful look made master Cheng’s eyes turn red. He pinched her chin and said, ” “You’re always dating men, how good is that?”

“so,” sister hong said as she played with the buttons on his black shirt.”When we’re together, we’re not allowed to have other women or men.”

At this time, master Cheng was still a little sneaky. He was away a lot of time, and she didn’t always watch over him. How would she know if he secretly took a bite or two?

However, this kind of thinking was really dangerous. In any case, when they lived together later on, master Cheng couldn’t even eat outside even if he wanted to. This woman, Liu Hong, was really good at scheming.

...

At this time, master Cheng’s heart was fluttering. This woman was going to be his soon. He was so excited that his eyes were about to turn red. He grabbed her hand and walked out while contacting his subordinates to find a hospital. He asked them to work overtime because he, master Cheng, wanted to have a pre-marital examination!

The hospital cleared the area and took out a million Yuan.

When he walked out and everyone was looking at each other, master Cheng announced calmly, ” ” let reporter liu manage this place from now on. chief editor zhang, you just have to be her assistant. you’d better keep your thoughts to yourself. that du guy should clean the toilet. ”

after giving these instructions, he pulled sister hong along and rushed to the hospital. his excited look was like that of a child who had just gotten his favorite toy.

Sister Hong also knew her position in his heart. She had suffered because of master Cheng, and she knew that if she didn’t accept his novelty, she would suffer because of the people around her. So, she might as well accept him. For a man like Cheng Zheng, the novelty would wear off in no time.

this was her plan, but she did not really take it to heart. she would just treat it as a date with a man. besides, cheng zheng was not bad looking and her body was in good shape.

when they arrived at the hospital, master cheng couldn’t wait to take her for a checkup. he ignored the doctors and nurses ‘frightening looks and got the report in an hour.

Master Cheng proudly threw the list in front of sister Hong. “i told you, i’m not sick. look, i’m doing very well. all my index numbers are super good. i guarantee that you’ll be extremely happy.”

Sister Hong looked at it carefully for a while, and master Cheng’s face was full of pride.

In the end, he even shamelessly pressed against her and said in a warm voice, ” “i didn’t lie to you, did i? come, come, baby, let me see if you’re sick.”

when she took the list and looked at it, she was unhappy.”Liu Hong, you’re the one who’s sick!”

It was written that she was infertile.

Sister Hong’s heart ached, but she maintained a calm expression. is there any difference between us being able to have children or not? Cheng Zheng, do you still want to get married and have children with me? ”

master cheng opened his mouth and suddenly felt a little irritated. he didn’t know what was going on, but he just felt that something was wrong. ran ran shouldn’t be like this.

Why can't this woman have children?

Although he didn't want her to have a child with him, he still felt a little regretful that she couldn't have him. In the end, he said fiercely, "Did you date too many men, so you can't have children?"

"Yup," sister hong flicked her hair and said that on purpose.

Master Cheng was so angry that his eyes turned red. He reached out and grabbed her throat, trying to strangle her.

I was pregnant before," sister Hong suddenly said. I had a miscarriage when Zhang fucai cheated on me. I couldn't get pregnant again after that.

Chapter 5195: i want you now (1)

hearing sister hong's words, master cheng felt like he had lost all his energy and didn't know what to do.

he looked at sister hong hesitantly and only spoke after a while, "Well, why didn't you say so earlier? also, how bad was your taste in women in the past? you found such a bastard who played with women everywhere and even brought them home. you're simply a piece of trash."

In the corridor of the hospital, sister Hong took out a cigarette and lit it up. She smoked quietly and then looked at master Cheng. you're talking as if you don't play with women. If you don't play with women, then find a woman, get married, and live your life honestly. Why are you pestering me? "

Master Cheng laughed, but he felt a little depressed.

he walked over and carried sister hong in his arms without doing anything.

Sister Hong said hello. He didn't move, so she said, "The cigarette burned a hole in your clothes."

...

"I have plenty of money." "don't move," master cheng said in a rough voice. i just want to comfort you now, who asked you to not be able to lay eggs."

Thinking about how this woman couldn't even lay his eggs, he felt suffocated.

Alright!

sister hong didn't say anything. she watched as the cigarette burned through master cheng's clothes. then, master cheng screamed like a pig being slaughtered, " "Woman, are you trying to kill me?"

there was also a burning smell in the air!

he could buy clothes since master cheng had a lot of money, but the skin belonged to him.

Master Cheng was furious. He had been trying to comfort this damned woman, but she had burned a hole in his skin.

Sister Hong continued to smoke in an extremely seductive manner. She even shook her head."didn't you say you didn't care?"

Master Cheng's eyes were red with anxiety. He approached her step by step and said in a rough voice, " "Return with me?"

"where are you going? your villa?" Sister Hong smiled. I'm not going. I'm a little disgusted by those women.

master cheng really wanted to slap this woman to death. this woman was really shameless. if another woman burned a hole in his body, he would definitely kill her. he didn't even care about her, but she still dared to do this to him!!! this kind of request, that kind of request!

Master Cheng lowered his voice. what do you want? tell me the rules. I'm so busy that I don't have time to play with you.

“Come to my place, or stay in a hotel.” Sister Hong flicked her hair and smiled.

It was quite charming.

Master Cheng was suddenly a little lost. His eyes lit up and he thought for a moment. “Your place is too small. If I stay there, I probably won’t have anywhere to turn to. I’m not used to staying in hotels. How about this, I’ll get you a big villa and write your name on it. We’ll stay there from now on.”

As for how long they would be staying there, neither Master Cheng nor Sister Hong had thought about it. Anyway, they would just stay there. If they were tired of each other, they would part ways. She had a newspaper office and a villa, so it wasn’t a loss.

Moreover, she was quite familiar with Cheng Zheng’s temper. She could always push him to the edge of anger, and she would not hurt her if she did something rough to her. This feeling was not bad and it was quite interesting.

Since Master Cheng had agreed, he immediately put his arm around her happily and instructed his men to prepare the villa.

He was especially generous to women and was extremely interested in reporter Liu, so he was really good to her. At least, he was willing to spend money on her.

The villa was in the best part of B city, and the 120 million Yuan villa was given away just like that.

Chapter 5196: I want you now (2)

The villa was in the best location in B city. The 120 million Yuan villa was given away just like that. There were 12 rooms upstairs and downstairs. The clothes were all Chanel and Gucci, as long as they were expensive, and filled the wardrobe. Also, didn’t women like bags? It was Hermes. He wrapped all the styles and colors. As long as Master Cheng’s woman was happy, he bought a set of jewelry of various colors. If it was Dai Yingluo, he would have spent a few hundred million. Even

the news agency had probably spent a billion yuan, which was much more generous than the one he had given su zhiqiao.

Master Cheng said that he and sister Hong were a married couple halfway through their marriage, and everything was done according to the standards of a married couple. Although it was on a whim, he was still quite excited.

he even bought a pigeon's blood ruby. the large one was worn on sister hong's finger. it was very beautiful. coupled with her slightly curly long hair, he felt that this woman seemed to have become more beautiful in an instant.

(The author really likes master Cheng ~~)

Master Cheng even played a romantic song in the villa. He wasn't in a hurry and invited a five-star chef to make a delicious candlelight dinner. Later, he even turned off the lights and danced with sister Hong on the carpet.

when a man and a woman who didn't lack money did all kinds of romantic things together, it would make people suspect that this was love. in short, master cheng felt very happy, and reporter liu was a very flavorful woman.

...

she was quite decent. after she received the money, the villa, and these things, she was extremely obedient to him. however, she also knew his preferences, unlike those women who were like lackeys. they were not women, they were as boring as his lackeys, who only knew how to curry favor.

In the big villa, master Cheng was so happy that he almost felt like he had met his true love, Yingluo.

a week later, master cheng left the villa to take a look at his property. he had long forgotten about the women in his big villa. | light.

sister hong had also been trapped in the villa by him for a week. after finally sending that big buddha away, she got up and went to the bathroom.

She looked at the woman in the mirror, who was obviously a few degrees paler, and she was a little surprised.

It was clearly hard on her, so why did she look so radiant?

“madam, would you like to have breakfast or sleep a little longer?” the servant asked her at the door.

the servants were hired by cheng zheng. cheng zheng liked to be ostentatious, so only the two of them were staying there temporarily. he had hired four servants to take care of them from all over the place. they were also making a scene, so sister hong was a little uncomfortable.

“Make me some breakfast. I’m going out later,” she said after calming herself down.

She was indeed going to the news agency. If she did not go, no one would care. Now that Cheng Zheng had sent her, those people probably did not know what the future of the news agency would be like, so their work was sloppy.

sister hong had special feelings for that news agency and she would not let it go down. that was why she agreed to cheng zheng’s request.

After the servant agreed, sister Hong washed her face and retied her white silk bathrobe before going downstairs. Cheng Zheng had indeed changed. He just liked her wearing this. The moment he came back, he asked her to change into it, saying that she looked good in it.

sister hong ate something, changed her clothes, and went to the news agency.

the moment she left, it was just as she had thought, the place was indeed a little chaotic.

Zhang fucai couldn’t do anything about it. Because of Cheng Zheng, Zhang fucai had lost his prestige in the newspaper. Any Tom, Dick, or Harry could bully him. His work at the newspaper was even more difficult.

Chapter 5197: I want you now (3)

Sister Hong walked over in her high heels, and the light on her face stunned everyone.

They thought that she would be tortured by master Cheng until she was better off dead. Why did she look at least five years younger and more than ten times better looking? What kind of divine medicine had she taken?

Sister Hong's hair was done by a well-known designer, and the fiery red Pigeon egg in her hand was as thick as a finger. She was dressed in Chanel, and even the radiant du Meili paled in comparison to sister Hong.

This was the power of money! (Don't say that sister Hong is a gold digger. Sister Hong's three views are very upright.)

all the women were quite envious and looked at it eagerly. sister hong threw the report in her hand away and pointed out a few names. "you are the founding members of the sun newspaper. if you don't want to work, you can get lost now. haven't you been paid these days? zhang fucai is still your chief editor. if he can't order you, can i?"

the people below didn't dare to say a word. in terms of prestige, sister hong was usually fiercer than zhang fucai. now that she was the boss, of course, her words were different.

...

However, someone still raised a question. Chief editor Liu, we're just afraid that Sun newspaper can't continue its operations.

Sister Hong sneered. with good-for-nothings like you around, of course I have to close the door. Now, if you don't want to work, stand aside. I'll pay your wages. As for those who stay ... When I'm not around, editor-in-chief Zhang will be able to represent me. Do you understand?"

now, everyone knew that even though the former couple had fought for du meili, they were still friends who had gone through life and death together. it was said that chief editor zhang had even

knelt down to master cheng in order to save sister hong. this kind of relationship was one that had gone through life and death together.

at that moment, no one stood up. after all, this was the place where they had worked hard. they would naturally believe sister hong's words.

seeing that they weren't saying anything, sister hong spoke up, " since no one is quitting, then make up for the work that you've lost this week within three days. I don't care if you're drinking with people or with prostitutes, but get your jobs back. If you lose even a little bit of performance, get out of here.

This made everyone think that du Meili was finished.

this time, sister hong would definitely kill her!

but unexpectedly, sister hong released du meili from the toilet and asked her to lead the entertainment group. du meili was pretty and knew how to make sacrifices when necessary. this was how people in this industry worked. if you were too pretentious, you wouldn't be able to survive.

du meili herself was also surprised. then, her eyes became misty. " managing editor, i will definitely pull back the performance of the entertainment industry. i guarantee that it will increase by 20% within a month. i will make a military pledge. "

as he said that, he threw the broom away with a determined expression.

Sister Hong nodded. chief editor DU's attitude is very good. In the future, you will also be in charge of shexin. I think highly of you.

This was a godly twist!

Sister Hong used both kindness and severity. First, she punished them. Then, she got the finance department to give everyone a bonus of 5000 Yuan for this month. All of a sudden, the morale of the newspaper office increased greatly.

zhang fucai's heart was very complicated. when he was alone with sister hong in the office, he sighed."i'm the one who tricked you."

Even though he said that, he still looked at sister Hong, hesitating to speak.

It turned out that it wasn't that she wasn't pretty, but that she had suffered a lot with him, so she was rough. Now, she really looked very different from before.

Chapter 5198: I want you now (4)

Zhang fucai was really feeling inferior and sad. He couldn't describe his feelings. In the end, he could only sigh. Sister Hong patted his shoulder. it's only temporary. I'm not going to be with Cheng Zheng for the rest of my life.

as she spoke, she lit a cigarette and smoked it quietly. the way she looked was really alluring.

zhang fucai looked at him and asked, " " are you happy with him? do you feel much fresher than when you were with us? "

sister hong choked, obviously not expecting him to ask such a question. she coughed lightly, " "he's more handsome than you and richer than you. don't you think that's great?"

"sometimes, money is a good thing," he muttered to himself as he stubbed his cigarette.

just the pigeon's blood in her hand alone was worth more than 10 million yuan. cheng zheng felt that it looked good and suited her, so she bought it without even blinking. all women liked it, and sister hong did not deny that she liked it too.

...

however, she was very clear that she and cheng zheng had no future. they were just taking what they needed. he wanted her to accompany him and she was just afraid that he would cause trouble. the sun newspaper agency was a big family waiting to be supported, how could she be willful? Besides, she didn't want to be sent to the hospital again. It didn't feel good.

however, she was still very happy. when cheng zheng was not angry, she had her ways of pleasing women. the main reason was that she had money, and money could buy a lot of happiness. This was something that sister Hong couldn't deny.

sister hong didn't want to talk too much about cheng zheng with zhang fucai, so she went back to her work. she had a lot of things to do, so she handed the case to du meili. didn't du meili already want to cause a scene in the new society? she would give it all to her. if she was so busy, she probably wouldn't have time to hook up with men.

it was already past noon when sister hong finished her work. she received a call from cheng zheng. when he asked her where she was, she said that she was at the news agency. master cheng grumbled and said that he would pick her up from work in the afternoon. sister hong did not reject him because it was useless to reject him. she knew master cheng's character.

when it was time to get off work in the afternoon, master cheng came over to pick her up in a flashy sports car. fortunately, he didn't wear his sports car this time. otherwise, sister hong would scold him. it was winter now.

When master Cheng came, he even asked his female secretary to find out how to chase a girl and what to do when he picked her up. As a result, in order to please a woman, he had to be good to the woman and the people around her. At that time, master Cheng was angry.

He was squinting. There was also an ex-husband. Other than being good to his woman, he also had to curry favor with his ex-husband. what kind of logic was this? hence, the secretary explained in a trembling voice that it was written in the book.

In the end, master Cheng took a bunch of lilies and asked his men to carry dozens of bags of milk tea and snacks to please them. That was a huge formation.

sister hong felt angry and amused at the same time, but she still asked her assistant to help distribute it. she still had some things to deal with, so she continued to deal with them. master cheng was left in the office by her.

Master Cheng gritted his white teeth. okay, I've come here like this and you're still ignoring me.

I didn't ask you to come over. You can't be expecting me to stay in the villa with you all day without doing anything, right? then what's the difference between me and those women? " Sister Hong said without raising her head.

master cheng laughed, his smile very meaningful. well, of course they're different. They're different everywhere. How can they be compared to you? "

these words are quite shameless, sob sob.

Chapter 5199: i want you now (5)

Usually, sister Hong would ignore master Cheng when he said such shameless things. she continued to do her own things until master cheng stretched his back and walked to her side. he leaned against her and complained, " "Are you done yet? do you really think this is a proper job?"

Sister Hong didn't even raise her head. then tell me. What's a proper job? " "

"of course you're here to accompany me, what else?" master cheng said shamelessly.

He smugly stuck to sister Hong. He didn't feel this way before, but now that he saw this woman, he felt that she was quite beautiful. She was really pretty, and her whole body was glowing.

master cheng felt even prouder when he thought about it. this was all his credit. it was like a magic trick.

master cheng was proud of himself, but at the same time, he started to be a little unruly and touched her. Sister Hong finally raised her head and was willing to pay attention to him."If you continue to act like this, I'll consider throwing you out."

...

"don't," master cheng said. I'm just playing around with you, just playing around."

Sister Hong continued to do her work for two hours. Master Cheng was extremely bored, but he really showed 12% of his patience to accompany her. In the past, Master Cheng wouldn't even think about this. He felt that Sister Hong should be satisfied.

He, Master Cheng, was handsome, rich, in good health, and considerate to women. Where else could she find such a man? He was the kind of man that she would wake up smiling in her dreams.

Sister Hong finished her work and looked up at Master Cheng.

Master Cheng's face was full of praise, which made her feel a little angry, funny, and even a little cute. So she packed up and asked softly, "Where are we going to eat?"

Master Cheng didn't think about it and told her the name of a big restaurant. It was quite expensive, but he didn't lack money. What he wanted was extravagance and his woman's happiness.

Sister Hong didn't say anything. She took her coat and walked out with Master Cheng. Master Cheng walked behind them like an underling, working hard without complaint, shocking everyone.

Master Cheng didn't feel ashamed and even felt particularly glorious. However, Sister Hong thought that he was embarrassing and dragged him away.

As soon as he left, the newspaper office immediately burst into discussions.

Oh my God, is that Master Cheng? He's like a loyal dog. He's actually quite obedient when he's following Sister Hong.

"That's right, that's right. He looked like he was a little afraid of Sister Hong, but he wouldn't say anything once Sister Hong's face turned serious. I thought he was just messing around, but who knew that he really stayed for a few hours. Could it be that Sister Hong is his true love? Now that I look at Sister Hong, I also think that she's really pretty."

Someone nodded. "It's completely possible. I think they might get married."

"You really know how to talk. If you know how to talk, then say more."

.....

downstairs, sister hong got into master cheng's car. master cheng personally closed the car door for her and sat in the car."is this a date?"

"if you say so." sister hong smiled.

master cheng was not very willing,"look at you, you're not even smiling." is it embarrassing to go on a date with me? or do you actually like to eat with pretty boys or dead fatties? i was quite happy when i saw you with fatties last time."

Sister Hong picked up a cigarette and lit it up.

Master Cheng immediately put out the cigarette in her hand. "why does a woman smoke?"

"i won't say anything, okay?"

Chapter 5200: i want you now (6)

he was probably just jealous. men would always have exes who cared about their women. thinking of this, master cheng suggested, " "Why don't I just give Zhang fucai a few million Yuan and tell him to go back home? he can go wherever he wants, so that he won't have to hang around in front of me all day."

Sister Hong lit up another cigarette and took a light puff. he's an old employee of the newspaper. Without him, we won't be able to work here. Don't have any ideas about him. I'm friends with him.

master cheng was driving and he shouted unwillingly, " "Then what about me? I'm your adulterer, right?"

Sister Hong smiled and raised her head. what else? Cheng Zheng, do you want to be with me forever? "

master cheng was stumped by her and couldn't say anything for a long time. after a long time, he said gloomily, " "actually, i didn't say anything. you can keep it if you want. he's a fatty anyway, i don't believe you can eat him."

sister hong frowned. " cheng zheng, don't be so rude. you're always calling me 'fatty'. "

...

"He's not fat?" Master Cheng laughed and asked,"My figure is good, right? I've trained, and my body is full of muscles."

"Isn't su zhirou obsessed with this?" sister Hong couldn't bear to listen any longer.

Master Cheng touched his head and said,"you're right, but I haven't seen that little girl in a long time."| F * ck| the goods are here."

"After dinner, you should go back to see your babies," sister Hong said.

master cheng suddenly felt his hair stand on end. he smiled dryly."how can i? i've long forgotten about them. they can't be compared to you."

sister hong only smiled. did he take her for a fool? he had kept that big villa to raise a large group of women, and he even talked about loyalty with her.

In fact, she knew that master Cheng went back two days ago. She didn't know if anything happened between him and his babies. She didn't care too much, so she pretended not to know if he didn't say anything ...

It wasn't like it would last forever.

at the mention of women, master cheng felt a little guilty and didn't say anything.

it wasn't until dinner time that master cheng lit a cigar and blew out a smoke ring before he said unhappily, " i went back to the villa to do something, not to look for women. documents, do you

think i'm just sitting all day and collecting money? i have to work too. i went back to get the documents. i swear i didn't touch a single hair of those women. "

Sister Hong didn't say anything and just poured him a cup of tea. Master Cheng immediately smiled and said, " you're quite sensible. A big reporter is a big reporter. You've seen the world.

"really?" sister hong smiled.

She didn't ask any more questions, and master Cheng's heart was at ease. Sister Hong was quite generous.

This was good too. He admired magnanimous women.

Master Cheng and sister Hong got along well. He didn't resort to violence and was a very good person. Just like how he often praised himself, he was indeed a good person.

sister hong also felt that there was nothing wrong with it.

The two of them ate quietly. Suddenly, master Cheng asked in a low voice, " "How old are you?"

sister hong was stunned for a moment. " why are you asking this? "

"I'm just asking," master Cheng said in a rough voice,"I'm not going to marry you."

Sister Hong said she was 35.

Master Cheng's eyes were wide open, and he was a little unhappy after a long time."Three years older than me."

it's not like we're getting married. Why do you care so much? if you don't want to go back, then go back to your big villa. sister hong wasn't too polite to him.

master cheng was a little hurt. " i say, woman, other women are trying to curry favor with me, but you? look at you, you don't even say a word of good. "
