

The Doctor 1901

Chapter 1901 Don't Want to Live!

He nodded lightly. "The people from the Black Sword Sect must all be eliminated and none left behind."

His voice was the usual icy nonchalance.

"Yes!" That person acknowledged the order. We have been waiting in ambush for so long, just for today. We won't let you down."

Yan Qing's brows moved slightly. "In the beginning, it was His Highness who chose you, so you're naturally dependable."

!!

That person laughed. "Originally, we had to wait for a while longer. We didn't expect His Highness and the princess consort to come over so quickly. It's all thanks to Boss San."

If San San didn't start a business here and had taken the initiative to write to Cen Yi and the rest, they probably still had to wait.

Yan Qing paused for a moment. "Do the people in Yue Manor know you?"

"I don't think so. We spend most of our time scattered in Peach Blossom Dock. Even when taking action against the Black Sword Sect this time, we are taking action separately. Even the Black Sword Sect people didn't notice it, so Yue Manor naturally won't know."

That person chuckled. "Don't worry. When we came here previously, His Highness had instructed that if the princess consort's people appeared, we wouldn't have to be there. In the end, Boss San came and quickly started his business, so we didn't join in."

If it weren't to settle the Black Sword Sect, they wouldn't even see Yan Qing.

"Originally, we still thought that Boss San came here alone and wouldn't have support, so we wanted to assist him secretly. We didn't expect Boss San to be so capable. He didn't need us at all, and he set up Yue Manor in such a short period of time."

He showed a thumbs-up. "He's indeed the princess consort's person. Very amazing."

Upon hearing this, Yan Qing squinted his eyes slightly, and a domineering figure appeared in his mind.

He then raised his brows slightly. "The Thirteen Yue Guard... is indeed different."

That person didn't notice the slight change in expression in Yan Qing's eyes and continued to ask, "Lord, we've already controlled most of it on the Black Sword Sect's side. His Highness and Princess Consort's side... Do you think we should send someone—"

"There's no need." Before he could finish his sentence, Yan Qing directly denied his suggestion. "Cen Yi and the rest have already gone over, and His Highness and Princess Consort did this on purpose. Therefore, there's no need to worry."

That person looked up hesitantly. "But... Lord, look at the commotion there. It's going to spread to the city..."

Do we really not need to help?

Yan Qing looked up slightly at the sky.

Dark clouds gathered, and the winds howled.

The void collapsed, and large patches of darkness spread across like a huge fiend that was going to swallow everything!

Peach Blossom Dock's barrier trembled intensely as if it would collapse at any point!

A bright and sparkling silver-red God Realm surged up like a clear river!

A woman straightened her back and floated in midair! She held a shield with her left hand and her sword with her right, looking like a god of war that just descended!

Yan Qing's heart shook slightly, and he softly muttered, "We don't know who needs help..."

...

Boom!

A bright lightning bolt suddenly struck!

Chu Liuyue looked up, and there was a cold gleam in her eyes.

She had already shifted her position and was rather far from Blue Peak. However, the Black Sword Sect pursued relentlessly, controlling the Blood Tribute Formation and triggering the lightning to land here!

The wind howled in one's ears.

The space silently collapsed everywhere.

From afar, Peach Blossom Dock's barrier faltered.

Chu Liuyue felt that a boundless amount of force in the surroundings was crazily pulling her. It was as if she were being shredded!

A thought appeared in her mind, and the gold armor quickly covered her body!

"Are you done playing!?" she reprimanded as her gaze turned cold. Even if Mo Yun and the others aren't annoyed, I have lost my patience!

Hearing her voice, Mo Yun was dazed at first. Then, his face turned cold as he snorted, "What, you don't want to escape anymore?"

Even if she escaped, she had to waste a large amount of force and energy.

Chu Liuyue clearly looked like she wanted to fight with them to the end. She stopped in the blink of an eye and asked such a question; she most likely couldn't hold it any longer.

The two parties were a distance away. However, Chu Liuyue could still hear the arrogance in Mo Yun's voice.

She couldn't help but sneer in her heart. "Yeah, I don't want to waste time with you anymore."

If Peach Blossom Dock completely collapsed, even she didn't dare to predict what the situation would be. Hence, she could not waste time with these people any longer.

Mo Yun loudly said, "It's too late! Shangguan Yue, Rong Xiu, if you had kneeled down and surrendered from the very beginning, we might be able to leave a whole corpse for you! But now... it's impossible!"

In order to pursue these two people, the Black Sword Sect paid a huge price.

Even though Mo Yun didn't care about those people's survival, he cared about the Black Sword Sect's reputation. He had to take revenge on the two of them for the grudge of being slapped!

The corner of Chu Liuyue's lips suddenly curled up into a smile. Her smile was extremely cold and did not reach her eyes. "Very good. That's what I was thinking too."

As she spoke, she slowly held the Chi Xiao Sword in her hands tightly.

Rong Xiu—who wasn't far away—saw her current expression, and his heart tingled.

Thirteen asked uneasily. "Big Brother, why do I feel that Master is planning on doing something..."

Yu Jiu nodded and softly said, "I think so too..."

They had followed Chu Liuyue for many years and knew her temperament very well. Master rarely revealed such an expression.

Cen Yi suddenly said, "Everyone, prepare yourselves and watch for your safety. If there's a need, we'll evacuate immediately."

The meat on San San's cheeks trembled. "Big Brother, you... Are you saying it too seriously?"

It sounds really scary, okay!

...

Cen Yi glanced at him nonchalantly. "I almost forgot. You can stay here stably. After all, you have that small space. If Master needs anything, you mustn't drag her down, understand?"

This was not a question but a command!

San San's face instantly collapsed. I didn't forget! I remembered it the whole while!

"Yes."

Thirteen struggled to ask, "Big Brother, you mean... You really want to let Master take action herself? I think that the few people from the Black Sword Sect aren't easy to deal with..."

Shi Fang patted his shoulders emotionally. "You're a kid and are still young. Later on, you'll know that the one who is truly not easy to handle isn't the Black Sword Sect but our master!"

When Master wants to unleash her anger, it is without any hesitation or care. If we retreat early, it will ensure our safety.

Thirteen nodded in a seemingly understanding manner. Even Tenth Brother has said that, then... Perhaps I can relax?

At this point, the lightning had struck heavily!

Chu Liuyue squinted slightly and went on her toes, rushing to the lightning!

At the same time, a sword aura landed ferociously!

...

“Chi Xiao Sword!”

The rainbow light was bright and stunning!

Luo Yan and the rest—who were spectating from afar—looked shocked when they saw this scene.

“Is she endangering herself? Even a legendary warrior has to be careful of that lightning. Does she not want to live anymore?”

Chapter 1902 Something Happened

The second phase of the Blood Tribute Formation had already been activated. Other than the attacking area that kept expanding, the lightning it activated had also become stronger. This was also why they eventually chose to stay and watch temporarily, even though they wanted to go over.

Who knew whether Chu Liuyue and the others would directly settle the lightning or not. However, Chu Liuyue’s method had far exceeded their expectations.

Luo Yan stood with two hands behind his back and did not speak.

He had personally seen the combat skills executed by Chu Liuyue in the God-Killing Tumulus. He knew very clearly that this woman... would never do things she was not confident of. If she dares to do this, it proves that she is confident. But... the Black Sword Sect is bent on killing her this time, so they have used all of their forces with no reservations! Can she really handle it?

Also, there is Rong Xiu—Luo Yan’s gaze turned to the white and tall figure beside Chu Liuyue. Rong Xiu did not move, and it seems like he plans on letting her do whatever she wants...

Luo Yan felt uneasy for some reason. At this point of time, these people still look so calm and collected. Could it be... they have some trump card they didn’t pull out...

“Let’s wait and see,” commanded Luo Yan.

Upon hearing this, the few elders nodded.

Perhaps this battle would end soon...

...

Rumble!

The shocking thunder sounded!

The terrifying sword aura and the lightning force hit each other harshly!

Silver force spread toward the surroundings, and Chu Liuyue's figure had long been swallowed by the sharp light!

Mo Yun laughed coldly and spat out a mouthful of blood. "You don't know your limits!"

He knew that perhaps Chu Liuyue was rather capable, but the second phase of the Blood Tribute Formation was already activated.

It was formidable! Even if she had all the abilities in the world, it would be hard for her to escape this!

First, I will kill Chu Liuyue. Then, Rong Xiu next! If I can get rid of both of them here... Not only can I redeem myself, but I can even receive a substantial reward from the sect master. This thought made Mo Yun faintly excited.

He didn't control the Blue Peak incident well and caused the entire Peach Blossom Dock to be in chaos. This was undoubtedly a death penalty!

Now, only Rong Xiu and Chu Liuyue could help him out of the dead end! Hence, he was willing to bet the entire Black Sword Sect!

No matter how many died or were injured, nothing else mattered if he could achieve the results he wanted!

But just when Mo Yun was waiting for Chu Liuyue's soul to be destroyed, a figure suddenly flew out from the lightning in the sky!

She stood upright with a slim and curvy figure—it was Chu Liuyue!

Sword aura rushed to the sky, and it slashed the ball of shining white light from the middle!

"H-how is that possible?!" Mo Yun widened his eyes, which were filled with shock!

Just as his lips curled up in delight, they suddenly stiffened.

He looked very awkward, but he couldn't care so much at this point. There was only one thought left in his mind: Chu Liuyue actually slashed that lightning?! Isn't she a true god? Why would she have such formidable combat power?!

Before he could even think through it, he saw a figure riding on the lightning! It rushed toward the overwhelming dark clouds in the sky!

Countless people gasped. Those clouds have many lightning bolts accumulated in them. Isn't she courting death by going over?

To the average person, Chu Liuyue doing this was akin to being tired of living. Who could survive after rushing into the sea of lightning?

But when Mo Yun saw the figure going over without hesitation... Not only was he not relieved, but he became even more nervous.

Ever since they made up their minds to kill them both, Chu Liuyue's series of actions exceeded their previous expectations and caused them to have their eyes wide open and mouths agape.

Every time they thought that she was bound to die, she could survive peacefully again.

This time, will she—

As Mo Yun thought, he suddenly felt that something was amiss. Following this, he looked over and saw a lightning bolt suddenly striking.

Boom!

The loud sound spread far and wide, and it was deafening!

Lightning striking wasn't anything shocking, but the key was: this lightning bolt actually flew toward Mo Yun and the rest!

When he first saw it, Mo Yun was still in disbelief. It was only until the lightning bolt approached rapidly and the terrifying suppression crushed the space bit by bit that the Black Sword Sect crowd finally realize the danger.

Chu Liuyue used some method to cause these lightning bolts to turn around and attack them!

The shock and disbelief in Mo Yun's heart quickly turned into shock and anger! What the hell! We are clearly the ones who triggered the lightning bolts, so why did they attack us instead? What exactly is Chu Liuyue doing!?

"Quick! Urge the Blood Tribute Formation's defense!" urged Mo Yun hurriedly.

The lightning was very shocking. There was no need to mention it when he was in his prime, but the key was that the Blood Tribute Formation exhausted one's force and energy a lot! After the previous series of torture, he could no longer unleash all his strength.

The only way was to activate the Blood Tribute Formation!

But once he said this, a painful moan came. "Ah—"

This sound was hurried and brief, appearing for only a moment before disappearing quickly.

Mo Yun's heart skipped a beat, and he hurriedly turned around to look.

Beside the Blood Tribute Formation, one of the Black Sword Sect's guards suddenly spat out a mouthful of blood and collapsed because he couldn't take it anymore.

But before he even landed, force suddenly gushed out from the Blood Tribute Formation and swallowed him!

That person detected something amiss and immediately wanted to escape and break free. But at this point, all the force in his body had been exhausted, and he didn't even have the strength to lift his arm, so how could he escape from the Blood Tribute Formation?

In the blink of an eye, his figure completely disappeared!

Everyone fell silent, and they looked panicked. They knew clearly that this person's outcome had to be the same as Mo Lin!

At this point, another slight shattering sound came from the Blood Tribute Formation.

Mo Yun immediately looked over and saw a crack in the gigantic Blood Tribute Formation! His heart immediately sank. The Blood Tribute Formation doesn't have enough force!

...

One had to continuously provide force to maintain the Blood Tribute Formation's circulation.

After this period of stress, the people present had basically exhausted their force, and they were just maintaining it forcefully.

Now that someone suddenly died, the entire Blood Tribute Formation was affected

"Why haven't they come yet?" Mo Yun couldn't help but scold angrily.

Before I came, I had already sent out a summon. Logically speaking, the people in charge of support in the Black Sword Sect should already be here! However... nobody is here!

Mo Yun looked toward the city.

It was empty and had no commotion.

Suddenly, realization struck him, and he narrowed his eyes. The Black Sword Sect is in trouble!

Chapter 1903 Dead End

The Black Sword Sect had always been very strict. After receiving the command, their members wouldn't disobey it for no rhyme or reason.

Such a long time had passed, but nobody came. This could confirm that something must've happened in the city.

There seemed to be a fire intensely burning in Mo Yun's chest!

He clenched his fists tightly and crushed his metal teeth. One just has to think to know who would take action against the Black Sword Sect at this point!

He suddenly turned around and stared at Chu Liuyue and Rong Xiu!

As if detecting his gaze, Rong Xiu—who was watching Chu Liuyue the whole time—suddenly turned his gaze and looked over.

The two of them stared at each other from afar.

From this glance, Mo Yun saw the unconcealable mockery and nonchalance in Rong Xiu's eyes.

There seemed to be something harshly slamming Mo Yun's heart! It really is them!

At that time, countless thoughts flashed across his mind. There are many people in the Black Sword Sect, and they aren't weak. Even if a portion of them are injured or died, the combined combat skills of the remaining ones are still optimistic. No matter what, there should be at least one person here!

This situation can only prove... that the entire Black Sword Sect is in a dire situation! But... how did Rong Xiu do it?

In the entire Peach Blossom Dock, the Black Sword Sect dominates everyone. Even Yue Manor can't be compared to us at all. There is no reason for the Black Sword Sect to lose!

Mo Yun couldn't understand it at all.

All along, he thought that the Black Sword Sect had already controlled more than half of the entire Peach Blossom Dock. However, he didn't expect such a thing to happen at such a crucial juncture!

If nobody came to support them in the end, this Blood Tribute Formation wouldn't last for long!

"Ah!" Just as Mo Yun was thinking about these things, another guard exhausted his force and was rolled into the Blood Tribute Formation, unable to handle it!

In the blink of an eye, he turned into a bag of bones.

The Blood Tribute Formation's force started to become faintly chaotic.

Mo Yun also started to worry. If this goes on, we will fail on our own before Chu Liuyue dies!

At this point, he had already hated Rong Xiu and Chu Liuyue to the core. These two people are indeed very cunning and scheming!

Thinking back about the many things beforehand, he realized something was amiss.

Chu Liuyue running toward the outside of the city from the very start was also planned! However, it is clearly too late to think of these things now!

Boom!

Another lightning bolt struck harshly toward the Black Sword Sect's people!

...

"Isn't that Chu Liuyue very odd?" When the few Nan family elders saw this scene, their expressions became shocked and solemn.

Originally, they thought that Chu Liuyue was bound to die. In the end... Not only was she fine, but she even retaliated?!

They had never seen someone who could control the lightning at will! Even a legendary warrior like them could not do it!

Luo Yan furrowed his brows tightly.

He had long expected that Chu Liuyue wouldn't surrender easily, but everything before him still caught him by surprise.

It wasn't easy to say who would win or lose the battle with the Black Sword Sect.

At this point, a loud whirl came from the skies!

A large amount of force started surging around crazily, as though they were agitated!

"Oh no! Peach Blossom Dock's barrier is about to collapse!" An elder gasped in shock.

The barrier glowing with faint light from the skies started shattering!

The space started squeezing!

Heaven and Earth Force erupted!

"Retreat quickly!" Luo Yan was decisive. We have many chances to kill Chu Liuyue, but if we die here, we will have none left!

Almost at the same time, large patches of black suddenly appeared in the sky—the black hole that formed due to the collapsing void!

The ground shook intensely.

Even the many mountains started collapsing!

Countless cracks spread, and the gullies crossed each other! At the same time, the ground collapsed like it was the end of the world!

Chapter 1904 Burning the Sky

Luo Yan and the rest planned to escape in the chaos, but they had to rush back quickly due to the crazily surging force!

Watching the sky that was collapsing inch by inch and the constant shattering noises coming from the ground, Luo Yan felt that his body was being shredded by a huge amount of force!

He hurriedly urged his force and set up the barrier around him! However, the terrifying impact from the force was still frightening!

They even had to circulate all the force in their body to stand on the ground forcefully and not be blown by all the force.

Luo Yan clenched his fists tightly, and his heart beat quickly, almost jumping out of his chest! Peach Blossom Dock's barrier has completely collapsed, and we have no way of escaping! The Black Sword Sect and Chu Liuyue want to bury us too!

...

At the same time, the crowd in the city had also detected that something was amiss, and they looked up.

"Oh no! Peach Blossom Dock's barrier is about to collapse!"

Once this was said, countless people rushed toward the outside of Peach Blossom Dock in panic. However, the Heaven and Earth Force had already lost control completely!

Those who were stronger could still forcefully stand stably. Those who were weak already showed all sorts of reactions.

Faces were pale, and breathing was intense. Some of them couldn't tolerate the squeezing from the rapidly collapsing space and kept vomiting blood.

All in all, the situation was very terrible.

Corpses were spread all over in the Black Sword Sect's territory.

The crowd that previously gathered in the city all rushed over and surrounded the Black Sword Sect. The two parties battled intensely.

Many were dead or injured.

An intensely suffocating bloody aura permeated the air.

"The Black Sword Sect wants all of us to die!" Duan Qingquan reacted first and shouted.

The crowd hurriedly reacted. Yeah! If the Black Sword Sect didn't pursue Rong Xiu and Chu Liuyue, if they didn't unleash the terrifying and strange Xuan formation, if they didn't trigger the shocking lightning bolts without a care... Why would Peach Blossom Dock's barrier collapse!?

Everyone wouldn't be in such a dangerous situation!

Intense anger and vengeance filled everyone's hearts!

The Black Sword Sect's people—who were originally on the brink of death—detected the nervous and icy cold atmosphere, and they couldn't help but feel fear.

At this point, they had already understood that Mo Yun and the others had no plans of coming back to help them. They didn't even care about their survival!

"The barrier has collapsed, and we're trapped in here!"

The people who reacted first and tried to escape from Peach Blossom Dock were all stopped by the intersecting space. There were also some people who were heartlessly swallowed by the collapsing space and did not come out.

Hearing the painful moans of those people before they died, the people behind were horrified.

"It's over... Peach Blossom Dock is over! We're all going to die here today!" someone muttered with a pale face, his eyes filled with hopelessness.

"Even if I die here today, I have to bring someone from the Black Sword Sect with me!" someone suddenly yelled this harshly in the dead crowd.

This sentence was like a landing meteorite that instantly burned with thick flames!

The situation between the two parties became even more intense!

The people from the Black Sword Sect were already disadvantaged. Now that the flames were fanned, they were in an even worse situation!

...

It wasn't only the Black Sword Sect. At this point, the entire Peach Blossom Dock had already entered complete chaos.

On the streets, countless people ran for their lives.

All sorts of stampedes, pushing, killing... happened continuously.

When they realized that Peach Blossom Dock was on the brink of destruction, nobody could keep calm.

In the beginning, there were still many people who tried to escape from the collapsing barrier. But after the batch that died in the beginning, the people behind didn't dare to take action impulsively.

They escaped to survive, not to die!

More people had already hopelessly chosen to give up.

...

Inside the Black Sword Sect courtyard, Duan Qingquan slashed his sword.

The Black Sword Sect people's corpses were all lying on the ground.

There were many sounds of killing in the surroundings. It was like living hell.

"Brother Duan, the barrier is broken. Should we think of a way to retreat?" someone asked nervously.

Quite a few people heard this and looked over.

After this incident, many people had instinctively taken Duan Qingquan as their core. Hence, after this happened, they instinctively asked for Duan Qingquan's opinion.

Duan Qingquan held the sword and killed someone from the Black Sword Sect who wanted to escape.

Warm blood spurted on his face.

He raised his arm and used his sleeves to wipe the bloodstains. "Retreat? How? To where?"

His voice was very calm.

Those who had stayed in Peach Blossom Dock for long enough would know how terrible the current situation was.

Even though he had been at the Black Sword Sect's side the whole time, he knew a thing or two about the situation outside.

Those people who tried to retreat all failed. Quite a few of them were strong warriors.

Everything was proving that it would be a dream to escape from this place!

"T-then, are we just going to wait for our death here?"

...

“Yeah! There can’t be no way at all, right? There’s so many people in Peach Blossom Dock...”

“Why don’t we join hands? Perhaps we’ll have some chance?”

Seeing that Duan Qingquan’s attitude was not optimistic, many people panicked.

At this time, the crowd partook in heated discussions. Even though some were already prepared to die, most of them still hoped that they could survive safely.

Duan Qingquan suddenly looked up at the sky. “If... someone can repair Peach Blossom Dock’s barrier, perhaps we’ll have a chance of survival.”

The crowd fell into dead silence.

How could they not think of this? But the key was... This was as hard as ascending the skies!

Peach Blossom Dock’s barrier wasn’t man-made; it existed naturally! For the past thousands of years, Peach Blossom Dock hadn’t been occupied by anyone because this barrier existed!

Now, the barrier collapsed, and the void was ruined. The entire Peach Blossom Dock sunk into chaos.

Who could repair the barrier?

Everyone was just a fly at this point, and even their struggles were weak. Who could save them?

...

The sky was still collapsing, and the ground was still shaking intensely.

The air kept squeezing toward the inside.

The crowd inside had mostly felt the suffocating suppression.

More and more people could not endure the pressure and fell.

Most of the Black Sword Sect’s people were killed, but what use did that have? Peach Blossom Dock was ruined, and all of them had to die here!

Duan Qingquan held the longsword tightly and pressed his lips against each other. He looked at the distant sky as if he were waiting for something.

...

Rumble!

A loud sound was suddenly heard! Following that, a dark-blue fire rushed to the skies!

However, a spark of fire suddenly emerged from the collapsing mountains!

Mo Yun and the rest had seen such a scene too many times, so they didn’t really take it to heart. But before they could react, countless fires erupted from the mountains with many trudges like cannonballs!

Hong hong hong!

The sinister and crazy fire overwhelmed the entire area!

Chapter 1905 Million Fire Summon

Everyone was stunned. This fire... is too much!

Mountains, forests, gullies—there was fire rushing out of every corner of the city!

The entire Peach Blossom Dock sank into an ocean of fire! The originally dark and gloomy sky was illuminated by endless fire!

The dark-blue fire jumped around and burned countless people's hearts!

"Why is it like this... Why is it like this?"

"There's actually such a hidden danger under Peach Blossom Dock?"

"What exactly is this fire?"

Countless doubts overwhelmed the crowd and made them panic.

This fire's aura was very strong and formidable!

Peach Blossom Dock's barrier had already collapsed, and they couldn't leave. Once the fire completely spread, they could not even escape!

The discussions gradually became quieter.

Someone whimpered softly.

The crowd from all areas of the city seemed to have sunken into complete desolation. Can we only wait for death now...

Whoosh!

A ray of light suddenly flew out from the fire. It drew a straight line in midair and went for Chu Liuyue!

Quite a few people saw this scene. "What's that?"

"I don't know... I didn't see it clearly..."

"This doesn't seem to be her first time doing this. Previously, there were also things that flew over from the fire that erupted in the many mountains... She seems to be looking for something in the fire?!"

"I remember! The Black Sword Sect's people were guarding Blue Peak previously, and they also seemed to be searching for something?"

The people in Peach Blossom Dock basically knew everything about what happened during this period of time. Hence, when someone reminded them, many people immediately connected the dots.

With so many pairs of eyes looking, this guess would basically be verified!

But... what exactly is the thing flying out of the fire?

Countless pairs of eyes looked toward Chu Liuyue.

...

Of course, Chu Liuyue knew what it was.

When the ray of light flew down, she held her breath, focused, and held the black shield tightly.

Ka!

A familiar cracking sound came! Following that, a piece of rust peeled from the shield!

The mysterious text at the corner was gradually revealed.

Whir!

That ray of light reached Chu Liuyue.

A dark-blue thin crystal lightly covered the position where the rust peeled.

The crystal light gradually covered it.

The shield in her hands became increasingly heavier! However, this was only the beginning.

Whoosh!

Ear-piercing sounds came from all directions!

Chu Liuyue stood in midair and looked over.

In the large Peach Blossom Dock, countless fires burned! Thin crystals that contained light flew out from within!

The black shield seemed to have felt the summoning of a certain force, and it started to tremble slightly!

Chu Liuyue's hand had already become numb. As she used too much force, her knuckles became white. However, she still used all her force to hold the black shield tightly!

A crisp cracking sound was heard!

Pieces of rust gradually fell. At the same time, a scarily strong and heavy suppression gradually spread from within!

Shoo!

The blood in Chu Liuyue's body surged out, and her force was overwhelmed!

She suddenly spat out a mouthful of blood, and her face became paler than ever!

Bright red stains appeared at the corner of her lips, making her look increasingly frail.

Her slightly trembling body showed that she was undergoing huge amounts of pressure at the moment! However, her dark eyes were cold and gloomy as they turned and shone with composure!

Harsh combat intent burned in her eyes!

Countless rays of light rushed over from all sides of Peach Blossom Dock!

Peng!

The golden armor on Chu Liuyue's body suddenly broke under the impact of the terrifying turbulence!

Chapter 1906 Flying Cloud Painting

Rong Xiu's gaze focused, and cold intent flashed across his eyes!

He bent his long legs slightly. Just as he was about to go forward, he saw that Chu Liuyue was covered by the glowing black shield.

With that, he stopped in his tracks. Nobody can go over at this point. She can only rely on herself for everything!

When the Thirteen Yue Guard saw this situation, they all looked worried. "Master!"

Cen Yi raised his palm to calm them down.

"Big Brother?" This time, not only Thirteen and the rest, but even San San was quite hesitant. Master's situation doesn't look optimistic...

However, Cen Yi looked calm and composed and didn't let anyone refute him.

Although the few of them were anxious, they could only stand obediently.

"Si—" San San wanted to say something more when he suddenly furrowed his brows.

"Third Brother, what's wrong with you?" Thirteen hurriedly asked.

San San waved his hands, and his chubby face scrunched up. "Nothing, nothing. It's just... that the small space is about to break!"

Whoosh!

Just as he said this, a ray of light flew over from the direction of Clear Water Cliff!

The piece of thin dark-blue actually contained scorching fire, and it landed where the rust had just peeled off.

Boom!

As if detecting the pressure from the surrounding turbulence, Clear Water Cliff also started collapsing!

Large pieces of rock fell from the mountain, making loud sounds!

San San's eyelids twitched harshly, and he felt terribly hurt. "M-my treasures!"

If that small space is ruined, my losses are unimaginable! Just thinking of this, his heart ached profusely!

But at this moment, Chu Liuyue—who was standing in midair—suddenly raised her hand!

A silver and red God Realm flew out, looking like a heavenly river landing! In the blink of an eye, it covered Clear Water Cliff.

The shards of light shone quietly. Under this chaos, it was especially eye-catching!

San San's eyes instantly lit up! Master actually took action personally to protect my space!

“Master is too good! Wuwuwu!” Tears welled up in San San’s eyes. First, it was desperation, then hope. The great changes in emotion are too overwhelming. My heart can’t take it, alright?

Cen Yi glanced at him lightly and raised his brows slightly, not speaking. So many mountains were ruined previously, but Master did not do anything at all. Yet, once Clear Water Cliff moved, Master chose to take action without hesitation. This can only prove that Master is very reluctant to part with that small space.

But seeing San San’s emotions, Cen Yi was kind for once and did not expose her.

“Master’s God Realm... seems stronger than before?” Wu Yao stared at the God Realm that looked like a waterfall that was slowly falling and softly muttered.

“Fifth Brother, you feel it too?”

Yu Jiu nodded in agreement. “I think so too...”

Even though they were still a distance away from Chu Liuyue... Standing here, they could still feel the shocking suppression exuding from the God Realm when it landed.

It wasn’t their first time seeing their master unleash her God Realm, but this time... its aura and suppression was the strongest!

“A God Realm can become stronger?” Thirteen had a face of confusion. “I thought a true god’s God Realm can only have a chance of strengthening after they break through to become a legendary warrior?”

He was still a stage-seven warrior and was far from becoming a true god. Hence, he only heard a lot of his knowledge about true gods from Cen Yi and the rest.

“It is so for an average person, but our master is different!” Shi Fang sighed, looking aggrieved. “What a pity to my garden... It’s about to be ruined...”

On the first day he came to Peach Blossom Dock, he excitedly planted vegetables in the courtyard. Originally, he thought that everything would be smooth, but who knew such a thing would happen?

Great. I can’t eat the vegetables that I grew with much difficulty! Thinking of the happenings recently, Shi Fang’s heart ached. With a rough calculation, I haven’t eaten a proper meal in a long, long while...

The few of them looked at him from the corner of their eyes. What time is it? The people of Peach Blossom Dock are fearing for their own lives. Only Shi Fang is thinking about those vegetables...

However, those few people quickly retracted their gazes. They were long used to Shi Fang behaving like this.

They all looked at Chu Liuyue, wondering if their master could really handle the current situation alone this time...

...

“This Shangguan Yue is really problematic!”

When the few Nan family elders saw the fires burning everywhere, they became more anxious.

“If Peach Blossom Dock is completely ruined, does she think that she can survive herself?”

The Black Sword Sect’s people were already crazy enough, but they didn’t expect her to be worse! They were dragging everyone down with them!

Luo Yan had a dark face, and he suddenly took out a red scroll.

The red scroll had a faint layer of light covering it. A heavy suppression exuded from it.

When the people at the side saw this scroll, they were taken aback. “Flying Cloud Painting?”

This Flying Cloud Painting was a supreme Yuan instrument and the Nan family’s treasure!

Different from other Yuan instruments that were used to kill and attack or had combat power, this treasure only had one use—no matter who held it, they could forcefully force open the void and send the holder somewhere else in an extremely short amount of time!

To put it more plainly, this was a convenient transportation formation.

Hearing this, most people might think that this item was ordinary and nothing special. However, those who truly understood its power would know how strong this item was!

When one normally fought, this Flying Cloud Painting might not be used. However, it could be used to save lives at crucial moments—like now!

The void in Peach Blossom Dock kept collapsing, and the barrier had fallen, causing the Heaven and Earth Force to completely lose control.

Luo Yan and the rest had previously tried to leave, but they failed. Now, their only hope was this Flying Cloud Painting!

...

“But at the start, wasn’t this thing with Eldest Young...” An elder spoke in confusion. When he spoke halfway, he suddenly felt that he had said something wrong as he quickly kept quiet and glanced at Luo Yan nervously.

Luo Yan did not have much of an expression. “Before we left, Eldest Young Master specifically gave me this thing to protect it. Originally, we wanted to use it directly to return to the Nan family after we killed Rong Xiu and Shangguan Yue...”

The few elders all kept quiet. They knew what was going on.

Actually, they didn’t believe Luo Yan’s words.

The Flying Cloud Painting had a high status in the Nan family, and the master always kept it.

This time, it was probably Master who secretly gave the item to Eldest Young Master, for him to use just in case... Even if he couldn’t win, he could escape!

Nan Yuxing would know the importance of the treasure, so why would he suddenly pass it to Luo Yan? He could clearly use it with him, and it could even protect his life!

But at this point, these questions had no answers.

Swoosh!

Luo Yan flicked his wrist, and the Flying Cloud Painting expanded!

...

Chapter 1907 Relationship

A sparkling bright light flew out of the red Flying Cloud Painting. Following that, the ray of light slowly expanded.

Everywhere it went, the space froze.

The light was like a ripple that silently broke through to the other empty void. From afar, it looked like a door with rays of light in it as it floated quietly.

Luo Yan made up his mind and walked forward. As long as we can use the Flying Cloud Painting, everything can be talked about!

He was very fast. Once he stepped out, he walked into the shaking ripple.

The surrounding turbulence seemed to be separated at this moment.

Luo Yan pressed his lips against each other, and he felt more secure.

When the few elders standing behind him saw this, they faintly became emotional. The Flying Cloud Painting does live up to its name! It seems like we can really use this item to leave this place!

But at that moment, a sword aura suddenly pierced through the sky!

Luo Yan felt that something was amiss and dodge it! Half his feet that just stepped into the Flying Cloud Painting was forced to retreat.

Swoosh!

The sharp and cold aura rapidly flashed across in front of him!

Before Luo Yan could even set up a barrier before him, a deep blood wound was cut on his face.

Excruciating pain was felt.

Luo Yan's heart beat intensely and almost jumped out of his chest! If I were a moment slower, this sword aura might've directly sliced off my forehead!

After the shock came overwhelming anger!

He looked up in hatred at Chu Liuyue. She can't even protect herself, yet she still wants to attack us!

"Shangguan Yue, if you want to die, nobody is stopping you! Don't drag everyone down with you!" hollered Luo Yan deeply.

His low voice spread far and wide in the sky!

Chu Liuyue's lips curled up at an extremely cold angle. "Luo Yan, I can't agree with you on this. From start to end, I never wanted to die. I just... don't want to see the people who harmed me living properly."

"You!" Luo Yan was infuriated and was about to retaliate when he heard a strange sound by his ear.

He turned around and instantly widened his eyes in shock!

At some point, a layer of red-golden fire had covered the Flying Cloud Painting, and it was burning!

Being affected by the fire, the light that spread around dimmed gradually. The void that connected to the outside was slowly being sealed!

Luo Yan could not catch his breath. This woman... is harsh! She caused the current situation and doesn't allow anyone to leave! She is insane!

But at the same time, a deeper doubt suddenly surfaced in his heart. The Flying Cloud Painting is a true supreme Yuan instrument! Logically speaking, based on Chu Liuyue's own force, she definitely can't do any serious damage to it...

"What's that?" the elder behind suddenly saw something and said in shock.

Luo Yan followed his gaze and saw that the burning red-golden fire had a transparent fire within it!

The two suppressions overlapped, and the forces exceeded their imagination!

"This... is the Heavenly Square Cauldron's karmic fire?!" Luo Yan was very experienced and quickly recognized the origin of that transparent fire.

Thinking of this, his heart harshly sank. The Flying Cloud Painting is actually one of the ten holy weapons! But compared to the Heavenly Square Cauldron, it still pales in comparison. After all, it isn't used for battle.

To be more direct, it was a trump card to escape and save one's life. However, the Heavenly Square Cauldron was different.

At this point, when the two forces fought, the difference could instantly be seen!

"What exactly does she want to do?!" Luo Yan felt hatred in his heart.

...

However, Chu Liuyue's attention didn't seem to be here.

She put away the Chi Xiao Sword in her hands and changed to hold the black shield tightly.

More than half of the rust on it had peeled off, and the heavy suppression suffocated her slightly.

Covered by a faint layer of light, the mysterious text carved on it could vaguely be seen.

Its weight seemed to increase at an unimaginable speed, such that Chu Liuyue couldn't hold it with one hand and had to use two.

Vigorous force kept coming out of her dantian and rushed to her limbs, and the force burned crazily.

Tiny beads of sweat kept appearing on her full and smooth forehead.

Her face became increasingly pale, and only her pair of dark eyes seemed to have fire burning!

The sky almost completely collapsed, but the gullies crossed everywhere, and there was fire burning crazily! At first glance, it was like hell.

Chu Liuyue took a deep breath in and focused.

The whirl of the black shield kept sounding in her ear, causing her force to surge!

...

On the opposite side, the Black Sword Sect crowd was in a terrible condition.

When Chu Liuyue forcefully circulated the lightning bolts to attack previously, every one of them was lethal. The people from the Black Sword Sect originally had their force and energy exhausted from maintaining the Blood Tribute Formation, so how could they resist such a terrifying attack?

After a series of explosions, the Black Sword Sect's people were half dead or injured.

The giant Blood Tribute Formation started to surge intensely! It was breaking inch by inch!

Mo Yun had no strength to make a comeback as his body trembled with indignance and hatred.

Rumble!

Finally, the Blood Tribute Formation cracked!

...

The Black Sword Sect people standing at the edges couldn't escape in time and were swallowed by the violent blood aura and force.

Mo Yun was also affected by the great impact, and his body flew backward. Finally, his pair of eyes was completely bloodshot.

Just when the crowd thought that he was also over, they suddenly saw him stabilize himself forcefully. The next moment, he looked at Chu Liuyue!

"Shangguan Yue, you forced me this time!" His deep voice contained crazily sinister murderous intent. At the same time, a totem suddenly flashed across his brows!

Chu Liuyue looked up, and a thick layer of frost covered her eyes. I know that totem too well—Black Demon Hole! The so-called Black Sword Sect is actually Black Demon Hole, and they have a very intimate relationship!

"Black Demon Hole sent you over?!" This was just asked.

Mo Yun sneered but didn't reply as he rapidly rushed toward Chu Liuyue!

The surrounding Heaven and Earth Force suddenly gathered toward him crazily! In a few short breaths, his strength returned to that of a peak legendary warrior!

Chapter 1908 Don't Delay My Yue'er

After completely letting go of the last bottom line, Mo Yun no longer had any scruples. He crazily devoured the surrounding energy and forcefully increased his strength! The Black Sword Sect is no longer reliable. I can only rely on myself! Even though the sect master has repeatedly instructed me to be careful and not expose my identity unless it is absolutely necessary, I have no other choice now! If this continues, only death awaits me!

Today, even if I die, I will definitely drag these people down with me!

...

But before he could reach Chu Liuyue, he was stopped.

A tall figure tore through the air and stopped him in the blink of an eye—it was Rong Xiu!

Seeing that noble and demonic face, Mo Yun's heart was filled with hatred. At this point, this man's expression is still so calm! It's as if nothing in this world will make him nervous and terrified!

The more Rong Xiu acted like this, the stronger the emotions in Mo Yun's heart! How could he?! Why is it that after this battle, our Black Sword Sect is either dead or injured, but these people are almost unaffected?

"Rong Xiu, you're not my match!" Mo Yun shouted sternly.

At this point, Mo Yun could already tell that Peach Blossom Dock was about to be completely destroyed. Everything that they had spent a lot of manpower and countless resources to prepare in the past two years would be gone in the future!

Even the countless cultivators here would have to pay with their lives!

Of course, Mo Yun didn't care about the lives of those people; he cared about himself!

At this moment, he had already used a secret technique to forcefully recover and increase his strength. But facing the collapsed void around him and the wild turbulence, he still felt a little powerless.

All of this is Chu Liuyue's fault! If she hadn't summoned so many flames, if she hadn't forced control of those lightning bolts, if she hadn't...

At this moment, Mo Yun had forgotten that the first to attack were actually the Nan family and their Black Sword Sect. If they hadn't insisted on chasing after them and paid a huge price for it, things wouldn't have ended up like this.

However, a person like him would never reflect on himself. So now, he still vented all his hatred on Rong Xiu and Chu Liuyue!

Rong Xiu raised his sharp brows slightly. "Oh? It seems that Black Demon Hole hasn't had enough?"

His tone was light and indifferent, and there was even a faint smile on his lips that made him look gentle and elegant.

However, Mo Yun looked into those deep eyes and suddenly shivered.

He suddenly recalled a rumor from a few years ago. It wasn't accurate to say that it was a rumor because that incident had really happened. However, he hadn't personally experienced it and had only heard it from other sources.

It was said that a few years ago, Rong Xiu had once gone to Black Demon Hole alone and directly destroyed their nest!

In that battle, Black Demon Hole suffered heavy losses. Black Demon Hole even chose to hide from the world not long after this matter.

Although Mo Yun knew that the sect master's choice wasn't entirely because of Rong Xiu, he had to admit that these things still affected each other. Especially since... Rong Xiu had indeed killed many people from Black Demon Hole at that time!

There was no lack of powerful people among them!

Mo Yun happened to be out at that time and avoided this fierce battle. Therefore, he had heard many details about that battle from his fellow members.

This matter was almost taboo in Black Demon Hole.

Many people were still afraid when they mentioned the scene of that man killing his way into Black Demon Hole alone.

Mo Yun had never seen Rong Xiu with his own eyes. Otherwise, he wouldn't have only found out about their identities after the Nan family came to interrogate him.

Because he had never experienced it personally, he had always maintained some doubts about these claims. In fact, after knowing Rong Xiu's identity, his first thought was to kill him!

Until now—

He faced Rong Xiu and met the man's cold and indifferent gaze. Only then did he suddenly remember everything he had heard before.

Rong Xiu... was really very powerful!

Mo Yun's throat tightened.

He wasn't stupid. On the contrary, in most cases, he was very smart. Otherwise, it wouldn't have been possible for the higher-ups to send him here to establish the Black Sword Sect and be in charge of many matters here.

He instinctively felt fatal danger, and this danger... came from Rong Xiu!

Swoosh!

Rong Xiu raised his wrist slightly, and a cluster of golden flames surged out of his palm! At the same time, the originally wild energy around him actually began to surge obediently into his flames!

Even the power that was surging toward Mo Yun was forcefully snatched away halfway!

Mo Yun's face was ashen, but he felt even more uneasy. Just this move alone shows that Rong Xiu's strength isn't inferior to mine but even greater! I can't afford to fight Rong Xiu head-on!

Mo Yun made a prompt decision. He took one step, planning to bypass Rong Xiu and attack Chu Liuyue first!

However, why would Rong Xiu give him this chance?

Swoosh!

His slender fingers waved gently.

The incomparably dazzling golden flames transformed into a long whip that headed straight for Mo Yun!

Before Mo Yun could escape, he felt a golden light flash in front of him! Then, a burning pain came from his ankle!

He looked down in panic and saw that one of his calves was already tightly bound by the flames!

The hot flames burned violently. In the blink of an eye, his pants had turned to dust!

The intense burning pain quickly spread!

Mo Yun's face turned pale!

He was a legendary warrior, and ordinary flames couldn't get close to him at all. But Rong Xiu's fire was also very powerful!

Forget about the flames wrapping around his ankle, what shocked Mo Yun the most was that after the flames wrapped around him, the force in his body seemed to be suppressed and sealed by some other force! He couldn't mobilize it at all!

Without the use of his force, no matter how powerful a cultivator was, they wouldn't be able to unleash their strength.

Mo Yun was shocked and furious. Isn't Rong Xiu a legendary warrior like me? How could there be such a huge difference in our strengths? In comparison, Rong Xiu crushed me almost effortlessly!

Just as Mo Yun was thinking about this question, Rong Xiu had already lashed out with his whip!

Slap!

...

Mo Yun's body flew out uncontrollably and landed heavily on a mountain peak!

Thump!

Boom!

With these two sounds, the mountain collapsed after receiving the powerful impact!

Countless boulders rolled down!

Mo Yun's body was quickly buried!

Rong Xiu's eyes were cold. "Don't delay my Yue'er. Violators—this is the outcome!"

Chapter 1909 God-Destroying Tribulation

A cold and low voice spread through the world and clearly entered everyone's ears!

The Black Sword Sect's people were basically all dead, and when the few people from the Nan family heard this, they felt that it was very ear-piercing!

These words were clearly meant for them to hear!

It was fine if Rong Xiu didn't attack, but once he did, he directly used his killing move!

He was making an example out of them!

Luo Yan was filled with anger as he looked at the burning Flying Cloud Painting in front of him.

The Flying Cloud Painting was a holy weapon and wouldn't be easily damaged, so he wasn't worried that Chu Liuyue's flames would destroy it. However, he knew very well that they would definitely not be able to use the Flying Cloud Painting to leave this place after being disturbed like this.

The space in all directions was compressing crazily toward the middle. If this continued, it wouldn't be long before the entire Peach Blossom Dock collapsed!

"I'm afraid we can't get out..." The elders' expressions turned very ugly.

Before they came, they had never expected things to develop to this extent! Not to mention that Nan Yuxing was dead, even all of them would probably die here!

"Even Mo Yun isn't Rong Xiu's match, so let's—"

This didn't mean that they weren't as strong as Mo Yun. But when Mo Yun attacked just now, the strength he displayed was already extremely good.

Moreover, he had gone with great determination at that time. It was almost like he was going all-out!

But even so, he had only made one move on Rong Xiu!

Then, how good could the situation be for the remaining people?

"I think Rong Xiu's strength has clearly long surpassed ordinary legendary warriors!" an elder gritted his teeth and said.

"...But his aura is indeed that of a legendary warrior..." Another elder spoke hesitantly. "Perhaps... he borrowed some external power?"

The elders had different opinions. However, they also knew that it was useless to know this at this moment.

Luo Yan suddenly looked up at the sky.

It collapsed inch by inch, and large black holes spread. It was as if a huge beast had opened its bloody mouth and wanted to devour everything!

Countless surging dark clouds had already been swallowed. Only a few bolts of lightning were still swimming around.

It was the lightning summoned by the Blood Tribute Formation.

Before all of them landed, the Blood Tribute Formation had already collapsed, leaving only these lightning bolts wandering in the sky uncontrollably.

At this moment, as if affected by the spatial compression, these lightning bolts actually began to gather in the middle.

More amazingly, they seemed to be fusing with each other.

Most importantly, they were gathered above Chu Liuyue's head!

Seeing this scene, Luo Yan suddenly muttered, "...So what if he's a legendary warrior? Can he compete with the Heavenly Dao?"

The elders were stunned. Heavenly Dao? What does that mean?

The few of them looked at each other and then subconsciously followed Luo Yan's gaze.

The wind howled, and energy raged.

Nothing looked any different. However... the lightning in the sky was gathering and fusing.

A gorgeous light suddenly surged out!

The elders gasped in unison. That's...

"God-Destroying Tribulation!?"

...

As the name suggested, the so-called God-Destroying Tribulation was the heavenly tribulation to eliminate legendary warriors.

It was rumored that the colorful God-Destroying Tribulation was born from the Heavenly Dao and was infinitely powerful! As long as it descended, it would be a calamity that would destroy the world!

However, the God-Destroying Tribulation was extremely rare. In the God Residence Realm, there might not be anyone who could summon it in a thousand years.

Therefore, most people had only heard a word or two from rumors, but they didn't know much about it.

In their opinion, this was indeed a phenomenon that only existed in ancient books. Therefore, when this God-Destroying Tribulation appeared, even Luo Yan took a long time to confirm it.

This was the legendary God-Destroying Tribulation! Moreover, it was clearly heading for Chu Liuyue!

“It’s really the God-Destroying Tribulation!”

The elders were all stunned.

“But... that’s not right! Isn’t the God-Destroying Tribulation only summoned by legendary warriors? Shangguan Yue is only a true god. How—”

“Could this have been attracted by Rong Xiu?”

“No, it’s Shangguan Yue! Can’t you see that the God-Destroying Tribulation is gathering above her head now?!”

“Heavens... Is the God-Destroying Tribulation really attracted by her? How can a mere true god—”

“Could it be because of these fires?”

...

It wasn’t only the Nan family who were puzzled by this. At this moment, countless cultivators in Peach Blossom Dock who were paying attention to the situation were also stunned!

Among them, there was no lack of sharp-eyed people who recognized at a glance that it was the God-Destroying Tribulation!

The news quickly spread through the crowd.

Everyone stood rooted to the ground.

They never expected Chu Liuyue to summon a God-Destroying Tribulation at such a critical moment! This was really adding insult to injury!

...

“It’s over... It’s completely over this time...”

Countless people’s eyes were filled with despair, and they had already given up.

...

Mo Yun struggled out of the piled boulders, his body already covered in wounds.

He didn’t have time to resent anyone. He looked up at the sky and saw the God-Destroying Tribulation that was gathering and circling!

His eyes suddenly widened, and he trembled.

Once the God-Destroying Tribulation descends, all of us will probably die!

He gritted his teeth, and determination flashed in his eyes. Then, a ball of black fog suddenly spread from his body!

The totem between his eyebrows became even more colorful and strange!

...

A vast pressure descended from the sky!

...

Chu Liuyue looked over.

The gorgeous lightning was still gathering power and could descend at any moment to judge her!

She clenched the black shield in her hand. What is this? It actually triggered the God-Destroying Tribulation!?

Boom!

Just as this thought flashed through her mind, the God-Destroying Tribulation had already descended!

The cold aura instantly cut countless wounds on Chu Liuyue's body.

But at this moment, a zither note sounded from her body!

Chapter 1910 Deal!

She felt that there were two forces crazily intertwining and fighting inside and outside her body, and her body was the battlefield!

As the zither sounded, endless turbulent force surged out and quickly poured into her limbs and bones, nourishing her injuries.

Those bloody wounds began to recover and scatter at an astonishing speed!

But as the pressure of the God-Destroying Tribulation increased, some bloody wounds cracked.

One side was destroying, and the other was repairing.

Chu Liuyue's body quickly became covered in blood as she endured these two forces at the same time.

She was wearing a red dress. Dark-red blood gushed out of her body as her clothes were quickly obliterated. If one didn't look carefully, one wouldn't be able to tell anything. Only her increasingly pale face showed what kind of terrifying torture she was suffering!

Her hands were already numb. At this moment, she was only relying on her last bit of willpower to barely hold on.

She held the black shield in her hand tightly.

The rust on it had almost completely peeled off, and countless blue crystals covered it.

A faint light almost enveloped the entire shield. The secret text engraved on it was faintly discernible!

...

Sensing this commotion, Rong Xiu looked up.

When he saw the gorgeous and brilliant God-Destroying Tribulation appear, he narrowed his eyes in deep thought. It actually... directly summoned the God-Destroying Tribulation...

He put one hand behind his back and clenched it gently, but his feet didn't move. From the looks of it, he was planning to wait and see.

"Big Brother, is that the God-Destroying Tribulation?" San San widened his eyes in shock and asked in disbelief.

Cen Yi nodded. Although this was the first time he had seen it, this appearance and state showed that it was definitely the God-Destroying Tribulation.

"Si—" Seeing his affirmative nod, San San gasped. "But isn't Master just a true god now?! How could she trigger the God-Destroying Tribulation?!"

Wu Yao and the others also looked over nervously. Previously, Big Brother had told us to wait in peace, and we all did as we were told. But now, we really can't calm down!

That is the God-Destroying Tribulation! This is the Heavenly Dao sensing a threat and wanting to kill!

It doesn't take a genius to figure out how terrifying this is! No matter how powerful Master was, her cultivation realm is obvious.

"It's rumored that only 10 to 20% of the legendary warriors can safely survive a God-Destroying Tribulation! Master is a true god... What should we do?"

Cen Yi frowned quickly but quickly relaxed. He then paused for a moment before saying, "The God-Destroying Tribulation is indeed dangerous, but those who can pass it will become mighty figures in the world! This is an opportunity that thousands of cultivators can't obtain in their lives. Master is still a true god, but she summoned the God-Destroying Tribulation. It can be seen how strong her potential is! We should be happy for Master to encounter such an opportunity."

The remaining people smiled bitterly.

Of course, they understood what Cen Yi was saying. But the key was—what if Master couldn't survive it?

One had to know that even the top legendary warriors might not be able to successfully survive the God-Destroying Tribulation, let alone their master. It wasn't that they didn't believe in their master's strength, but... This matter was just too ridiculous!

Even the Thirteen Yue Guard, who had always thought highly of their master, was panicking. They really didn't dare to make this bet.

Xiao Ba suddenly stretched. "Since Big Brother has said so, let's not worry about it. Besides, if Master really can't resist, we can just follow him. What's there to be conflicted about?"

Anyway, she was very open-minded.

Her life belonged to her master. As long as her master was around, she was around.

If anything happened to her master... she would follow her without hesitation.

These words were actually not very pleasant to hear and could even be said to be very dejected. But miraculously, after hearing Xiao Ba's words, the remaining people were instantly less nervous.

That makes sense! The worst outcome is nothing more than this. It isn't like we haven't experienced it before, right? There is nothing to be afraid of if the same thing happens again.

Besides, Master has many trump cards. Perhaps... she can really survive?

...

Chu Liuyue didn't know what everyone was thinking. At this moment, all her attention was on the black shield in front of her and the God-Destroying Tribulation above.

Under the pincer attack of both sides, she felt as if she was being torn apart.

Terrifying energy surged back and forth.

The pressure of the God-Destroying Tribulation became heavier, and the sound of the zither in her body became more desolate!

Her ears were ringing, and she could no longer hear anything from the outside world.

A faint light kept flickering in front of her eyes.

The weight on her hands was increasing. She could only grit her teeth and stare!

Ka!

Finally, the last piece of rust on the black shield peeled off! Then, the last blue crystal flew out from below!

It gently covered that spot!

At this moment, the entire Peach Blossom Dock was in a mess.

Countless blue flames burned everywhere in Peach Blossom Dock. The entire city had almost turned into a sea of fire!

Standing in midair, Chu Liuyue could even feel the burning aura in the air!

When the last piece of crystal flew over and perfectly covered the shield, she clearly heard a chant that seemed to come from ancient times.

Her heart skipped a beat!

Immediately after, the secret words on the entire black armor finally appeared! At the same time, all the lightning in the sky finished gathering, condensing into an incomparably gorgeous God-Destroying Tribulation!

When the lustrous light on the black shield gradually dissipated, the God-Destroying Tribulation also descended!

The target was Chu Liuyue!

...
