

The Eternal 1001

Chapter 1001

1001 The explosive star clan

Chen Zhongwei's mind, which had just calmed down, was filled with fear again. He kept waving his hands as if starfish were crawling all over his body.

Yunxiao's pupils constricted, and a faint spiritual power spread out from his eyes. Chen Zhongwei immediately stopped moving his limbs and calmed down again.

He took a deep breath and said, "I'm sorry, I've lost my composure." When we arrived at Haitian town, the war had not started yet. I heard from the people in the city that the two races had talked for a long time and tried to attack each other a few times. I was afraid that the war was about to start. It was true that the first large-scale attack began on the third day of our arrival."

"They're using starfish as weapons?" elder Yan asked.

The rest of the people felt that it was a little funny, and many of them smiled.

Chen Zhongwei looked at them and his face darkened, but he didn't mind. He continued, " the sea Race used a secret technique to direct the waves, flooding Haitian town. The waves carried a large number of aggressive creatures. The red jellyfish as large as a mountain spewed Black Poison gas and lightning, the fish monster with two hairy hands could even punch, and the most terrifying ones were the green starfish, each of them had a human face and teeth. They were swept up by the waves and rushed to the defensive formation, biting the power of the defensive barrier with their teeth, eating away at it bit by bit."

Everyone's hair stood on end when they heard this. No one laughed anymore, and their faces were all solemn.

Chen Zhongwei continued to speak and almost cried, " "At that time, the defensive formation was not broken and was still holding on. We just felt disgusted and incredulous when we saw it. After all, it was the first time we came into contact with the sea Race. At that time, our team leader even joked that he didn't know how these things would taste like when they were cooked, which made everyone laugh."

“In just the time it took to brew a cup of tea, the defense of such a huge city was suddenly destroyed. I will never forget that moment. Strange creatures that covered the sky and earth rushed towards us. These creatures were not high level. Those starfish were all third and fourth level existences. The most powerful red jellyfish was only sixth level. There were about 34 of them. How could these things be important to us?”

Chen Zhongwei stopped for a second and said with tears in his eyes, “At that time, the Lord from Red Moon City, Lord Liao yangbing who was originally from Haitian town, and some martial Supreme powerhouses gave the order to attack. The morale of the seven hundred plus people in the city was high. They felt that they should give these sea beasts a taste of their power, so they bravely charged forward.”

who knew that the killing would be endless?” Yunxiao said calmly. I’ve exhausted all your primordial energy, and you can’t even see the end of it even when your limbs are weak.

Chen Zhongwei calmed down and said in surprise, “How did you know?”

I know a lot about these sea clans,” Yunxiao said. this man-eating starfish belongs to the explosive star clan, and their reproductive ability is amazing. They like to live in groups in the sea, and can be seen in many places. A group of explosive stars can be as small as a million, and as large as ten billion. Even the Royal clans of the four Seas will have a headache when they encounter a group of hundreds of millions of explosive stars. That’s why the sea tribe has always been monitoring the supernova clan. If they grow too strong, they’ll find ways to cause two groups of supernova to kill and devour each other to reduce their threat.”

Everyone became curious as it was their first time hearing about such things. Guan Xingyang couldn’t help but ask, “Don’t tell me these explosive stars will kill their own kind?”

there are several levels of star explosion,” Yunxiao explained. green is the most common, and most of them are at the third or fourth tier. Other than that, there were red, yellow, and mutated blue ones. The highest level among them was the type 8 Black exploding star, which was also known as the exploding star King. There could only be one star destruction King in each tribe. If two of them met, they would definitely fight to the death. The sea tribe took advantage of this and tried to control the star explosion tribe that they knew.”

Chen Zhongwei shook his head with a bitter smile and said, " if you were in Haitian town at that time, perhaps such a tragic thing wouldn't have happened.

Everyone was silent, and their hearts were cold. Thinking of the millions, or even hundreds of millions of man-eating starfish rushing over, it was as if they were in that situation, and cold sweat kept coming out of their foreheads.

When Yunxiao said that they might be attacked by more than a hundred thousand sea Warriors, they thought it was an exaggeration, but now it seemed that it was not the case at all.

Chen Zhongwei felt much better after spitting out the fear in his heart. He had been suppressing it all these days and he was almost going crazy.

He continued,"I don't remember how long that battle lasted. It was true that my vital Qi was exhausted, and my limbs were weak." The people in the same team fell one by one, and the despair spread from the bottom of their hearts. Surrounded by starfish, it felt like you were fighting alone in the vast sea of starfish. "Finally, the Martial Emperor powerhouses realized that something was wrong. At this time, they also had their own differences. Some of them decided to stay, while the others insisted on retreating."

"The Lord warrior from Red Moon City insisted on staying, while the Lord of Ocean Sky town, Lord Liao Yang Bing, insisted on retreating. This dispute wasted a lot of precious time and caused many of our comrades to die under the mouths of the starfish. In the end, the Lord of the red moon City finally understood that they could no longer fight, so they fought their way out of the siege under the leadership of their martial sovereigns."

who's the one who supports the battle in Red Moon City? " Yunxiao asked with a frown.

"Michael!"

Chen Zhongwei spat out the words as if they were his enemies.

Yunxiao seemed to have heard the name before, but he did not have any impression of it. It was most likely an unknown figure from Red Moon City or the four extremes sect. In the beginning, no one had expected the situation to develop like this. Tang Qing had probably only sent a Lackey to deal with it.

“What happened after that?” elder Yan asked. Since you understood the power of the supernova, why did so many people die?”

“After we broke out of the encirclement, there were less than 100 people left from the 700. We retreated more than 30 miles. Michaux immediately reported the situation to Red Moon City. The order from Red Moon City was to take back Haitian town because it was the first barrier of the continent. If we can’t take back the teleportation formation, we can’t send a large number of powerhouses over in a short time. Everyone thought that we should find an opportunity to fight our way back.”

Yunxiao frowned. the teleportation array in Haitian town is built on the sea. I’m afraid it was destroyed at the beginning of the war. How did you come up with such a low-level decision? ”

it’s impossible to take back the teleportation formation that is suspended above the sea. Lord Liao yangbing said that there is a huge secret room under the mayor’s mansion. They have also set up a medium-distance teleportation formation that can reach the nearby cities. Chen Zhongwei smiled bitterly.

‘Old fox,’ Yunxiao cursed inwardly. It was true that a cunning rabbit had Three Burrows.

“After the decision was made, a Lord of the beiming family went to investigate the situation,” Chen Zhongwei said.

“Wait, beiming family?” Yunxiao’s eyes flickered.

The rest of the people were also surprised and happy. Guan Xingyang said, “ I didn’t think that the beiming family would also come all the way here. As expected of one of the seven superpowers, this sense of responsibility is unparalleled.”

The wrinkles on elder Yan's face also relaxed a little. He said, "that's right. With two superpowers working together, we'll be much safer."

Chen Zhongwei also nodded and said, "Fortunately, the Beiming family has a few martial sovereigns in charge. Otherwise, the consequences would be unimaginable. The martial sovereign from the Beiming family and Lord Liao Yangbing sneaked back to Haitian town and found the teleportation formation. They started to send Warriors over."

When they returned, the sea Race should have already retreated, right?" Yunxiao asked.

"How did you know?" Chen Zhongwei was stunned. He suddenly realized that the young man in front of him seemed to be able to predict things like a god.

The other members of the battle blade team were also looking at Yunxiao curiously, finding that they could not see through the vice-captain more and more. But, the more impressive Yunxiao's performance was, the happier they were.

Of course not! Yunxiao laughed. How can the people of the sea know how to defend a city? I don't know which stupid bird in the Redmoon city came up with the idea to defend the first line of defense of Haitian town to the death. If they had retreated to blazing light City and the nearby small cities, the casualties would have been greatly reduced."

Chen Zhongwei fell into deep thought. He did not know if Yunxiao was right, but at least it was an indisputable fact that their previous strategy had suffered heavy losses. Fortunately, a large number of mortals were sent away due to the tension of the war. After receiving the support of a large number of martial artists from all over the world, we re-established the defense of Haitian town. This time, everyone is full of confidence because there are more than 30 martial Supreme powerhouses and two array Masters presiding over the array formation. It is basically impregnable.

"What happened after that?"

After waiting for a while, Guan Xingyang couldn't help but ask when Chen Zhongwei didn't say anything.

you're such a big idiot," elder Yan said. of course, we lost the city. Otherwise, we wouldn't be in this giant city created by a profound level weapon.

Guan Xinyang was not convinced. He wanted to refute, but he found it was true. He said helplessly, "How was he defeated? With such a powerful defense, those explosive stars shouldn't be able to break in, right?"

as long as there are enough people," Yunxiao said, "there is no city that can't be conquered. Since the oceanic species had used the explosive star clan, no seaside city would be able to stop them. Even if the sea of soul formation and the Saint domain came, the result would be the same."

brother," Chen Zhongwei looked at Yunxiao and said, "it would be great if you could become one of the main battle decision-makers. You can definitely save many people's lives.

Yunxiao shook his head and said, "the key is that human beings know too little about the sea tribe, and Tang Qing is just a businessman who only knows how to play with power. He knows nothing about the pros and cons of war. He only knows how to show off and establish his power.

Chapter 1002-enemy situation

Everyone's expression changed drastically, and they were all shocked. Regardless of whether these words were right or wrong, who would dare to say these words in public? if they were heard by the people of Red Moon City, they would definitely be killed.

Chen Zhongwei also said, "Little brother, you have extraordinary strength and wisdom. Your future is bright, and you will definitely become a great figure in the future. However, you must remember that trouble comes from the mouth!"

Yunxiao did not take it seriously, but he knew that the man was doing it for his own good, so he smiled.

The members of the battle blade team also fell silent, each of them seemingly deep in thought.

everyone knows what happened after that. A large number of powerhouses died, but the starfish were still endless. At that time, everyone finally realized that they could not defend to the death, so they began to retreat. And the saddest thing is that throughout the entire process, other than a few martial

sovereigns who rushed out to kill some of the sea race's powerhouses who controlled the tide, the sea Race was completely unharmed."

"Dammit! The person who supports the battle has to take full responsibility!"

Guan Xinyang angrily punched in the air, which made a slight noise and attracted many eyes.

so, the war has been going on for so long, but you haven't really fought with the sea Race?" Yunxiao asked.

"Not really," Chen Zhongwei said with embarrassment, "we were chased by the sea tribe for more than 10 miles on the day we retreated. After that, we set up camp thirty miles away and began to set up the teleportation formation. However, we were once again ambushed by the oceanic species 'experts, and the entire human race was defeated. Thus, we retreated into this huge city."

Everyone's mood suddenly became extremely heavy. Originally, when they saw the mighty team, they thought that victory was just a piece of cake. Now, it turned out that they had been defeated again and again, and almost all of them had collapsed!

An indescribable depression emerged in everyone's heart, and their faces were all gloomy.

Yunxiao, on the other hand, looked as calm as ever. He had guessed that they would be defeated all the way, but he did not expect it to be so miserable and miserable, and that the sea Race had almost come out of it without shedding a drop of blood."Who provided this giant city?"

The city that was derived from a profound level weapon was very high-end. Obviously, it was not something that ordinary people could take out. There should be strong people in the city.

Judging from the previous war, Tang Qing was probably restless in the red moon City. If the front line collapsed, it would be difficult for him to sit firmly in the position of the city Lord of the red moon City.

"I'm just a small fry, I don't know much about this." Chen Zhongwei shook his head and smiled bitterly.

damn it, this is such a trap. Aren't we here to die? "

"I'm not going to participate in this war anymore," teshida said angrily.

The rest of the people were also restless. The situation was so bad, who would still work hard? They were only after the money, they had no intention of throwing their lives away!

"Hehe, you're not participating?"

"Do you think you can leave after coming here?" Chen Zhongwei said sarcastically. If I could choose not to participate, would I still be here?"

"What do you mean?" elder Yan asked. Don't tell me we're not allowed to withdraw halfway?"

Chen Zhongwei's eyes were filled with hatred and said, " "Anyone who escapes in the middle of the journey will be hunted down and killed!"

This time, everyone's expression changed drastically, and even the air they breathed in felt cold.

"What? do you think you've been tricked?" Chen Zhongwei sneered. Haha, these people won't reason with you. If you're obedient, you might be able to live, but if you don't listen to your orders, you'll die without a doubt!"

When Yunxiao saw that everyone was filled with anger, he could not help but say, " I agree with this point. Everyone is here to help in the war. No matter what your purpose is, since you're here, you have to do a good job. If you can gain something from it, then stay. If you can't gain anything, then leave. How can we fight this war? "

Even though that was the truth, everyone still couldn't suppress their anger and pessimism.

"My friend, I can see that your views and analysis are very original. What do you think about this war?" Chen Zhongwei asked. Do we have any hope of winning?"

I can't make a judgment on this matter for the time being," Yunxiao said thoughtfully. unless the higher-ups of the two races come forward to negotiate and mediate, I'm afraid there will be a long stalemate.

Now that Xiao Hong had fused with his aegirine, it was impossible for her to hand it over. Thus, it had to be someone from the sea Race who gave up. The difficulty of this could be imagined.

Chen Zhongwei looked disappointed and sighed, "I wonder if I can survive until the moment I leave." He looked at Yunxiao and said, "I don't have a team now. I'm afraid I will soon be assigned to another team. Friend, can your team accept me?"

isn't the maximum number of people to be teleported to the team?" Yunxiao asked. there are only twenty people in the team, right?" Otherwise, wouldn't we have to split up during the teleportation?"

we don't need to teleport anymore. As long as we are willing to do so and submit the request to the higher-ups, we can form new teams. The higher-ups won't care as long as we don't run away or resist orders. Chen Zhongwei smiled bitterly.

alright," Yunxiao nodded and said, "in that case. The battle blade Squad welcomes you!"

Chen Zhongwei's face lit up. He did not know why, but he felt that Yunxiao was very reliable, and his chances of survival would be much higher if he followed such a man.

He took out the Supreme-grade primordial stones he had taken earlier and was about to return them to Yunxiao, but Yunxiao refused to accept them. Everyone felt that the cost of the hundred thousand Supreme-grade primordial stones was worth it, so they abandoned their fantasies and became even more vigilant.

"Bang! Bang!"

Suddenly, two war drums sounded in the air, one green and one yellow, two rings of light vibrated.

"Not good, there's an enemy!"

“Sound the war drum twice. All the captains and vice-captains are to go to the city wall to fight the enemy,” Chen Zhongwei said.

As expected, there were many people rising up from the square and flying towards the city wall.

A beam of yellow light landed in front of the Warblade team. Liang Yuanji appeared and said anxiously, “There’s a war going on. Li Feiyang, come with me!” After he finished speaking, he turned into a ray of light and flew towards the city wall.

you stay here,” Yunxiao said solemnly. don’t go anywhere. Every team leader is to maintain order! After he finished speaking, he also chased after them and directly landed on the city wall.

The city wall was more than thirty meters wide, enough to fight on it. It was also the last barrier for the enemy to break through the defense line. If the city wall fell, it would be the end of everything.

Yunxiao stood directly beside Liang Yuanji and looked ahead like everyone else. He saw a large number of shadows of the sea tribe appearing in the distance, coming toward them with a murderous aura. All kinds of flags were raised high, painted with all kinds of strange creatures, more than a hundred of them.

Yunxiao’s heart grew heavy. Although there were many races of the sea Race, only a limited number of them were suitable for fighting on land. Now, more than a hundred of them had gathered, which proved that the other party must have come prepared.

The atmosphere on the city wall gradually grew tense, and many people’s faces flickered with excitement. They were all Warriors who had come with Yunxiao, and they had no idea how fierce the war was.

Yunxiao looked up at the tower of the main city, and sure enough, there were many martial sovereigns gathered there.

Suddenly, his spiritual sense froze slightly, as if it had hit an invisible wall, unable to move forward.

He was taken aback, and his pupils constricted. The only person who could block his divine sense was a ninth-tier Alchemist on the City Tower!

“Eh?”

The third floor of the main city Tower was the place where all the experts gathered. They were all nervously looking at the approaching Sea Race team.

An old man was sitting on a luxurious chair, wearing a huge skull ring on his hand. Suddenly, he gave a soft cry of surprise, and his brows furrowed as he glanced in Yunxiao’s direction.

When Yunxiao’s divine sense touched the invisible wall, it rippled like a calm lake, and a surging force chased in the direction of his divine sense. The other party had discovered his existence and was trying to find out who it was!

...

“Hmph!”

Yunxiao snorted coldly. His spiritual power began to spin rapidly in the distance, turning into an invisible vortex that sucked in the tracking power. Then, he made a hand seal, and a red light flashed in his eyes. He immediately cut off the traces of his divine sense!

By the time the tracking force came out of the dissipating vortex, it had already lost its target. It could only rush in the direction it had come from for a few hundred meters, checking everyone on the city wall one by one, and finally returning without any results.

Apart from Yunxiao, the Warriors on the city wall naturally did not know that all their details had been clearly scanned by the powerful divine sense just now.

“How is that possible?”

The old man with the huge skull ring on the main city Tower was shocked and stood up from his chair.

“Master Luo Tian, what’s wrong?”

Ning Huaishu, a Councilman of the red moon City, was sitting in the main seat in the center. He looked at Luo Tian, a ninth-tier great Alchemist, with a heavy look in his eyes.

Everyone turned their eyes away from the front and looked at the world-renowned great Alchemist.

“Master, did you discover something?”

An old man said slowly. He was Fu Yichun, who had been chasing Yunxiao before, and he had also come to help with five Hall Masters.

...

As Yunxiao had expected, Tang Qing could no longer sit still after the defeat in the battle between the sea and the sky. After losing three thousand Warriors, he could not even figure out the strength of the sea tribe, which almost drove him crazy!

The entire front line was almost in a state of collapse. He could no longer care about scheming and scheming. He had sent all his trusted aides to the battlefield. At this moment, the number of high-level martial sovereigns above tier 7 in the giant city had reached as many as twelve!

At this moment, everyone’s idea was to suppress the war at all costs and never expand it to the Inland. However, in the face of the sea race’s unparalleled numerical advantage, it was useless no matter how many high-level martial sovereigns there were. There must be enough martial artists to participate in the fight together. Therefore, the deployment of logistics was getting tighter and tighter. The promises made to the individual martial artists were getting higher and higher, and the mobilization orders to the various sects of the Eastern Region were getting more urgent.

Luo Tian was a world-renowned great Alchemist in the sea of soul formation, and he would never frown even if Mount Tai collapsed in front of him. But now, he had stood up in such a disgraceful manner, which made everyone's heart tighten.

After a moment of shock, Luo Tian regained his calm expression and sat back in his chair. He asked, "Are there any other ninth-tier alchemists in this city?"

Chapter 1003-surprise attack

only master Luo Tian and master Zhuang Sheng. ning Huaishu was taken aback for a moment before he said, "there are no more ninth-tier alchemists.

Zhuang Sheng was a ninth-tier Alchemist of Red Moon City, and he had also been dispatched to help.

Zhuang Sheng also felt very strange. He looked at Luo Tian in confusion and said, "Brother Luo Tian, why do you ask?"

Luo Tian pointed in Yunxiao's direction and said, "Just now, someone used their soul to investigate in that direction and I caught it. Just as I was about to track the source of that soul, he actually created a large mental storm that sucked in my soul. By the time I came out, that person had already disappeared."

"What?"

This time, everyone was greatly shocked. They all looked at each other in disbelief.

"Brother Luo Tian, are you mistaken?" Zhuang Sheng asked.

As a ninth-tier Alchemist, it was impossible for him to make such a mistake, but what Luo Tian said was so unbelievable that he could not help but ask.

As for the others, although they also had the same idea, no one dared to ask, for it was disrespectful to an alchemy master.

“What do you think, brother Zhuang Sheng?” Luo Tian smiled indifferently.

Zhuang Sheng shook his head repeatedly, knowing that he had been a little rude.

The other expert from the red moon City, ning Kangjin, could not help but say, “It’s not unusual for a strong man to hide his cultivation in the crowd. Last time, there was a martial Supreme who only revealed his strength during the fight. He was a three-star martial Supreme. But, it’s hard to believe that a ninth-tier Alchemist is mixed in the crowd.”

Ning Huaishu frowned, afraid that Luo Tian would be unhappy. since master Luo Tian has said so, then it’s naturally not wrong. No matter what this person’s purpose is, at least it’s beneficial to us.

Everyone nodded, but they still didn’t believe it.

“Regarding the invasion of the Sea Race this time, did the two masters Notice any clues?” ning Huaishu asked.

Zhuang Sheng said, “ I’ve taken a rough look. There are as many as eight high-level martial sovereigns in the sea tribe. In addition, there are more than 40 martial sovereigns in the nine Heavens. Their strength is definitely not below ours.

Hmph! As long as we don’t have those boundless low-level sea beasts, we don’t have to be afraid of a battle!

One of the Martial Emperor powerhouses said angrily. He looked as if he was gritting his teeth.

It was mi Gaoyang, who had been the main fighter, and Liao yangbing was beside him with a worried face.

“If that’s all we have,” Luo Tian said, “we don’t have to worry since we’re far from the sea and we have the skyscraping city. It’s just that I don’t think the sea Race is planning to attack the city. Instead, they’re planning to settle down.”

Ning Huaishu raised his eyebrows and said, "Oh?" Anza? Could it be that they want to go against us?"

"I don't know," Luo Tian said. "Although they're coming in a menacing manner, they don't have much killing intent, and their speed is getting slower and slower. It's harmful for them to settle down here, so they must have some backup plan."

Ning Huaishu said worriedly, "their current strength is enough to fight us, if they still have a backup plan ... Hehe." He asked the person behind him worriedly, "what's the matter?" "Why don't I see young master Leifeng here?"

"Young master beiming Laifeng has already made it clear that they won't participate in the war, but they can help in times of danger," the man behind him quickly replied.

Ning Huaishu nodded and said, " young master Lai Feng is the most outstanding junior of the beiming family. We are indeed unable to dispatch him. However, if the skyscraping city is in a state of emergency, we will definitely not give up. With the addition of the experts of the beiming family, we still have the upper hand.

Zhuang Sheng frowned, "those people from the beiming family seem to be plotting something. They're not fighting, but they're not leaving either. I don't know what they're thinking." Lord Huai Shu should consider them as little as possible to avoid overestimating our strength."

"You're right," ning Huaishu said. In the current situation, do you think we should continue to wait and see, or take the initiative to attack? If we take the initiative to attack, we can mess up the enemy's deployment, but we will lose the defensive advantage of the sky-Rising City. If we continue to observe, I'm afraid the situation will not be good."

Everyone hesitated, unable to make a decision.

Luo Tian chuckled. this matter is simple. We just have to keep sending people to launch surprise attacks. First, we can disturb their arrangements. Second, we can test their strength.

"Not bad, this is a good plan!"

“Who’s willing to lead a flying raid?” ning Huaishu was overjoyed.

The people in the hall looked at each other, but no one said a word.

Ning Huaishu looked displeased, and said, “ how about this? master mi Gaoyang and Liao yangbing, you two will have to do the hard work. You two are the ones who know the most about the sea tribe, so you two are the most suitable to go. You can also take revenge.

Their expressions changed slightly. They wanted to refuse but didn’t dare to.

Ning Huaishu waved his hand and said, “ the two of you will lead four groups of level two teams, a total of 80 people. We will go out through the teleportation array and catch them off guard. It would be best if we can lead those Sea Race people to the city. We will open the restrictions of the giant city and kill them!

“We will follow your orders, my Lord!”

The two of them had already cursed ning Huaishu a hundred times in their hearts.

it’s best to choose the new forces,” Zhuang Sheng said. I can see that they’re all full of fighting spirit.

The two of them naturally understood. They looked at each other and left to receive the order.

master Luo Tian, ” ning Huaishu said, ” not only are your techniques shocking, but you’re also extremely intelligent. If you can stay and help me, you’ll definitely be able to force these sea people to retreat.

“I’m only here to follow Lord Lu congzi’s orders to set up the skyscraping city,” Luo Tian said indifferently.”This is also a deal between city Lord Tang and my sea of soul formation. Now that I’ve accomplished my mission, I’ll be leaving tomorrow.”

Ning Huaishu said unwillingly,”after all, this is a war between two races. Lord allheaven, please!”

Luo Tian immediately raised his hand and interrupted, "I still have important matters to attend to, and Lord Huai Shu is enough here."

Ning Huaishu secretly sighed in pity. He knew that he could not force her to stay, so he did not mention it again.

On the city wall, all the team leaders were watching and discussing. It was the first time for most of them to come into contact with so many members of the sea Race, so they were very curious and excited.

The huge team was lined up in front of them, as if they were divided according to their races. They were in various camps, spreading out on the ground in a radius of a hundred miles, taking up everyone's sight.

"Brother Feiyang, what makes you think that the Marine race is going to set up camp on the spot and not attack them directly?" Liang Yuanji asked in disbelief.

Yunxiao smiled faintly but did not explain.

Liang Yuanji laughed bitterly in his heart. He knew that this person was extremely intelligent and capable. Since he was unwilling to say, there was nothing he could do about it. Furthermore, these were matters of the higher-ups, and there was nothing he could do even if he knew. He could only change the topic and ask, "If that's the case, what should we do?"

Yunxiao narrowed his eyes and said, "It's obviously inappropriate to give up the giant city and take the initiative to fight. But, if we let the sea Race finish their preparations, I'm afraid it will be troublesome. If I were Ning Huaishu, I would definitely send small teams to attack continuously and disrupt their plans. Then, I would wait for an opportunity to strike."

Liang Yuanji nodded his head as he listened. He felt that it made sense.

Suddenly, the sounds of fighting could be heard from the left side of the sea race's team. It seemed to have fallen into chaos.

“Eh?”

...

Yunxiao looked surprised. His divine sense was strong enough to penetrate the enemy's camp, and he found the source of the chaos in the camp at once, as well as Liao yangbing, who was trapped in it.

“It seems like ning Huaishu has some intelligence,” he laughed involuntarily.

“What's wrong?”

Liang Yuanji asked. His divine sense wasn't enough to discover the cause of the change in front of him. With just a glance, he could see a flash of light on the left side. It seemed like a fight had started.

He waited for a while, but Yunxiao did not answer. He suddenly felt bored and angry, so he stopped asking and began to watch carefully.

At this moment, there was a commotion on the city walls as everyone began to discuss this. They had all guessed that it was their own side that had attacked, and their eyes shone with excitement.

Soon, the attackers began to retreat after a round of fighting.

They had chosen the weaker races to teleport over and caught their opponents off guard. One of the sea Race martial sovereigns was even killed on the spot.

The disadvantage of the sea Race was that they lacked alchemists, and no one had the powerful divine sense that could directly investigate the giant city. This was also one of the reasons why they did not dare to attack.

Moreover, there were too many soldiers of the sea Race, and they were all in their own positions. They lacked an effective unified management, and the front line was extremely long. It was only after Liao

yangbing and the others had killed a bunch of them that the central camp discovered it, and they immediately sent out a large number of experts to chase after them.

“Bang!”

...

A man with a cold expression in the main camp of the sea Race tribe directly smashed the table into pieces. He said in shock and anger, “ more than half of the leg-stepping turtle tribe was killed by more than a hundred humans, and you even let them escape. Do you all eat shit?!”

There were two rows of different-looking marine race experts standing below. The fat one was like a big round meatball, and the short one only reached the knee of an ordinary human. Everyone had a solemn expression and didn’t dare to make a sound.

“Lord Guangcheng, please calm down. I’ve already ordered my clansmen to pursue them.”

A blue-and-white Sea tribe member with a pointy head and two tentacles at the corner of his mouth said, “ Our sea tribe’s Warriors are too large, and they will inevitably find a loophole. It’s better to directly attack the city.”

Guangcheng looked at him with a gloomy face and said coldly, “ Directly attack the city? That city is formed from an astonishing profound weapon. Just the city walls alone are comparable to the defense of a seventh tier profound weapon. It’s still unknown how many strong practitioners there are in the city, so tell me how we should attack it by force?”

“We, the strength whale clan, have never been afraid of death,” the man said unhappily.

Guangcheng said coldly, “ commander strength whale, I understand what you mean. Everyone here is an expert of the sea tribe. Who is afraid of death? ” But he couldn’t die in vain! Previously, under the scheme of that runxiang of the North Sea, I used the star explosion clan to attack the city and won. Now that he’s gone, if I suffer a great defeat next, where will I, Guangcheng, have my face? Where would the face of the East Ocean be?”

The short commander of the ugly fish clan said, Lord Guangcheng is right. We're far away from the East Sea now, and we don't have enough supplies behind us. We must open the space Channel and mobilize those overbearing giant beasts to open the way for us. This way, we can minimize the losses of victory.

Guangcheng nodded and said, " although this method is similar to runxiang's, it is extremely effective. We must play to our strengths and avoid our weaknesses. What the sea tribe lacks are alchemists and profound level weapons, but what they have in abundance are countless sea beasts!

Chapter 1004

1004 Chasing after him

The ugly fish tribe's commander proposed a plan, " since our main focus is to mobilize the deep-sea Giant beasts, then we don't have to worry about low-level existences like the foot turtle tribe. However, it's always a disgrace to be constantly ambushed by humans. Why don't we send them to attack the city by force? first, they can die with honor, so that they won't die from being ambushed. Second, we can investigate the true strength of this giant city, and third, we can cover up our true goal. What does Lord Guangcheng think? "

Guangcheng's eyes lit up and he laughed, " "Haha, that's right! Commander ugly fish is indeed unparalleled in wisdom and courage!" He immediately gave the order, "gather all tribes below grade B and attack the city!" This matter would be the responsibility of the three commanders of the ugly fish, the strength whale, and the devil otters! The rest of you, cooperate with the opening of the space Channel!"

"Yes!"

Everyone replied in a deep voice, and a stern expression flashed across their faces. Most of the sea Race were warlike and cruel existences. The laws of survival in the sea were much crueler than on the continent, and every expert had fought their way out from countless blood.

In the sea tribe's division, those below Class B did not have a Martial Emperor in their ranks. They were basically cannon fodder.

This time, more than a hundred races suitable for land combat were temporarily mobilized, and most of them were below B class. After the order was passed down, they began to move on a large scale.

Liao Yang Bing and the other eighty people attacked the foot turtle tribe and quickly fled towards the giant city. It took a while for the sea Race to react, and the first to pursue them were the sea anemone and conch race. The two races had thousands of people, and they directly rushed out from the long battle line.

After running for a few thousand meters, the sea tribe caught up with the weakest of them. They looked back from time to time and saw a large group of people. Some of them were covered in long hair like flowers, but when they looked closely, they had tentacles as thick as needles. There was also a group with a shell on their back and a head that looked like a parrot.

Their strange appearances were secondary. What really frightened them was that the two Sea Race experts at the front were actually Nine Heavens martial sovereigns.

The last few people broke out in a cold sweat and ran for their lives, but the distance between them was still getting smaller and smaller. Finally, they began to cry for help, and their cries could be heard from the front.

Michaux furrowed his brows and pretended not to hear him as he continued to run.

Liao Yang Bing's face was also gloomy. He was not willing to take the risk to save people, but at this moment, there were countless experts in the giant city watching, so it was not good to play dead.

He took the time to look back and saw that they were already far away from the sea tribe Army. Although the pursuing troops were mighty, the two strongest among them were only low-level martial sovereigns.

He thought for a while and finally said loudly, "Don't panic, you guys run, I'll Cover You!"

He suddenly stopped, and the dozens of people from the two teams flew past him one by one. They all had grateful expressions.

"Lord Yang Bing, thank you, please take care!"

The last few martial artists were so touched that they almost cried. They thanked him repeatedly, but they didn't slow down at all. Instead, they sped up. They would be safe as long as they surpassed Liao yangbing.

it's fine, " Liao yangbing said righteously. hurry back to the city. I'll take care of this!

He took a step forward, and a snow-white saber suddenly fell out of his hand. A white light flashed in the air, and he slashed at the thousands of soldiers.

The sea anemone commander at the front was shocked and hurriedly stopped in its tracks. Its body flew in the air, and countless tentacles danced with it. The blade light swept across and broke dozens of them.

A flash of panic appeared in the eyes of the conch commander. He turned around and the blade light struck the conch shell on his body with a " bang ". A crack immediately appeared and the shell shattered.

After the two commanders suffered a loss, they were both furious. One of them stepped forward in the air, and the tentacles on his body stabbed in all directions like steel needles. The air was filled with the " Swish Swish Swish " sound of wind breaking. The other turned around after resisting the saber Light. A silver steel fork appeared in his hand, and he pierced through the air.

Liao yangbing snorted coldly. The snow blade in his hand slashed out three moves in a row, and he slowly retreated in the air.

"Bang! Bang! Bang! Bang!"

The three blade glints all struck the steel needles that filled the sky, and they all broke.

Liao yangbing was different from the other martial artists. He lived in Haitian town all year round, so he knew a little about the sea Race. These two low-level martial sovereigns were not his match to begin with, let alone out to the sea, so his strength would be even more reduced.

He didn't panic as he once again moved his blade forward and directly blocked the conch commander's Silver steel fork.

"Bang!"

A light spark appeared. The impact of the other's attack was extremely strong, forcing him to retreat in the air.

The conch commander's sharp eyes looked as if it wanted to swallow the other party. The essence force fluctuations on its body continued to increase. The two of them were almost stuck together as they turned into a beam of light and rushed towards the giant city.

Liao yangbing's expression was cold and he revealed a mocking expression, but he was secretly happy.

He didn't really want to fight to the death with these two people. He just wanted to complete the task of bringing up the rear. Moreover, the closer he was to the towering Sky City, the safer he would be. Therefore, he showed weakness under the saber and forced the other party to use all their strength to send him on his way.

Suddenly, a soft voice that seemed to come from far away entered his ears, "Let's go, an expert is coming!"

Liao yangbing's body trembled, and his face fell. He knew that the voice belonged to Yunxiao as soon as he heard it!

Was Yunxiao in the city?

He immediately recalled what master Luo Tian had said about a ninth-tier Alchemist among those teams. Could he be the one?

A series of question marks appeared in his mind. At the same time, he raised his head and looked behind the conch commander. Only the sea anemone commander was in hot pursuit. The thousands of soldiers behind him were far behind.

But, Yunxiao was on his side, so there was no need for him to lie to him. Besides, he had always been a cautious man.

“One cold blade!”

“Bang!”

The snow blade suddenly glowed with white light. A violent essence force exploded and directly sent the conch commander flying into the sky. He borrowed the force of the rebound and rushed more than ten meters. Then, he displayed his body technique and turned into several afterimages in the sky as he flew towards the giant city.

The moment the afterimage appeared, a black circle appeared in the sky, crackling with lightning. A bolt of lightning struck where Liao yangbing had been standing.

“BOOM!”

The lightning flashed and swept across the sky, destroying several afterimages.

Liao yangbing only felt a terrifying force rolling into his body. His body was numbed by the electricity, and he lost all feeling.

A black snake-like creature slowly appeared where the lightning fell. Its body twisted a few times and turned into a human. It extended its right hand, and a Black Lightning shot out from the palm of its hand.

Liao yangbing was scared out of his wits when he lost all feeling in his body. He bit the tip of his tongue so hard that a few of his teeth were broken. Only then did he regain control of his body and turn to escape.

“Bang! Bang!”

The black Lightning ball exploded behind him, forming a Black Lightning Vortex in the air, devouring everything around it. Even the conch and the sea anemone commander, who were carefully watching from the side, had a change in expression as they hurriedly resisted the devouring power.

As soon as Liao yangbing turned into a ray of light, he was stopped by the suction of the lightning.

In his shock, he hurriedly cast a few incantations into the treasured saber. The snow-white saber suddenly turned red. He waved his hand and slashed behind him. The pulling force was broken at once. He did not dare to turn back and turned into a light to escape. The snow saber was held in front of him, cutting through the air.

“Hmph! You bastard!”

The black Marine race expert flashed and disappeared in the air. The next moment, he appeared above Liao Yang Bing and shot out another black Thunderbolt.

...

Liao yangbing’s face turned pale with fear. The snow blade turned red again, and the blade suddenly became huge as it slashed in the air.

“Bang! Bang! Bang! Bang!”

The red blade kept making explosions under the lightning and was dyed black. The power of the lightning hit Liao yangbing’s body and sent him flying back dozens of meters. He spat out a mouthful of blood.

Before his body could stop, he turned around and fled with his saber.

Hmph, are all humans so cowardly and useless?!

A sneer and cruel sneer appeared on the face of the black Marine race expert. His figure flashed, leaving behind a few arcs of lightning as he disappeared into the sky. If one looked closely, they would discover a black light as thin as a strand of hair shuttling through the sky. It was so fast that it was difficult to recognize it.

Just as the black Lightning was about to catch up with Liao yangbing, another lightning bolt came and hit the black Lightning!

“Boom boom boom!”

The two colors of lightning intertwined with each other, like the yin and yang fish of Tai Chi. The entire sky was swept up by these two forces, and the clouds changed color, turning dark and gloomy.

“BOOM!”

With another clap of thunder, the two bolts of lightning turned into a dense net that spread out in the sky and devoured each other.

...

The two colors of lightning corroded each other for a while, and suddenly, human figures appeared, each of them making a move!

The body of the black-clad marine race expert was abnormally weak. He was twisted like a fried dough twist, and lightning flashed on his body. He let out a strange cry and slapped down with his palm. Five small thunderballs condensed on his five fingers. They were connected together and slashed out with the wind from his palm.

Within the green lightning, a man in a long robe had a serious expression on his face. He crossed his hands in front of him, and suddenly, two bolts of lightning turned into sharp blades. They jumped like flames and went forward to meet the attack.

“Bang! Bang!”

As if Heavenly Thunder was rumbling, the two-colored lightning collided and shook each other. The sky turned into two distinct colors, and it gradually disappeared after a long time. There was no upper or lower.

“Human, What is your name?”

The black-robed oceanic species ‘expert stared at the long-robed man for a while before he slowly said, ” “You have the right to make me remember your name.”

“Jiang Taotao,” the long-robed man replied indifferently.

“Alright, I’ll remember that. I am the commander of the ghost eel clan, and I will take your life today!”

The ghost eel clan’s commander’s eyes were filled with killing intent. Black Lightning bolts started to push around him, and his aura became stronger than before.

Jiang Taotao frowned and said coldly, ” “I’m not interested,”

He turned around and turned into a bolt of lightning, flying toward the city. Liao yangbing was already under the city, so he was 100% safe. There was no need for him to waste time with this ugly thing.

As for the classification of the sea tribe, he had previously used the word ‘saber’. Now, he felt that it was somewhat inappropriate, but since it had already been defined in this way, he could only continue to use it.

Chapter 1005-curse

As soon as Jiang Taotao left, the ghost eel commander was immediately angered, and it turned into a black light and chased after him.

The conch and the sea anemone clan followed closely behind, but the difference in speed was too great, and the distance was widened in an instant.

After seeing Liao yangbing enter the city, Jiang Taotao immediately rushed up to the city wall.

Soon after, a sharp golden light shot out from the main building and slashed at the black light.

“Swish!”

The golden light directly cut the black Lightning into two halves. The lightning suddenly stopped, and the two black lights gathered again, slowly revealing the true body of the ghost eel commander. However, its face was full of anger, and it looked at the main building of the giant city with some fear.

“Lord Huai Shu, can you send me down to kill this eel?”

A burly man in armor stood in the main building with a huge sword in front of him. He was the one who had attacked just now, Ren zhanxiong, one of the five Hall Masters of the four extremes sect.

Everyone was leaning against the building, looking down with cold expressions.

Liao yangbing, in particular, had yet to come back to his senses and was filled with fear. However, everyone’s attitude towards him changed from cold to full of admiration, while they looked at Michaux with disdain.

This made Michael extremely angry. He had risked his life to launch a sneak attack and achieved a miraculous effect. Not only did he not receive recognition, but he also received all kinds of disdainful looks. However, these were all big shots, so he didn’t dare to show his anger. He could only suppress it in his heart.

Liao yangbing, on the other hand, was different. As soon as he came back, he was immediately treated by great Alchemist Zhuang Sheng, and the concern of all the Lords. He was even given a ninth-tier medicinal pill that could increase his essence force.

But what he did not know was that Liao yangbing had sworn a thousand times in his heart that he would never be such a hero again. If Yunxiao had not sent him a voice transmission in time, he would have been killed on the front line, and he was very grateful to Yunxiao.

Jiang Taotao said, "this person's Thunderbolt magical power is not to be underestimated. His cultivation is half a level lower than mine, but he can actually fight me to a draw. Moreover, it's in the sky. It seems that not all the sea race's strength will be reduced after leaving the sea."

Luo Tian observed for a while and said, "this Sea Race is born with Thunder-type magical powers. Lord Taotao has cultivated it after birth. Naturally, he can't compare to them. This person is afraid of him now, but Lord Zhan Xiong acted too early and didn't manage to lure him to the city. It's a pity."

Ren zhanxiong's face showed a hint of displeasure. master Luo Tian, you're wrong. Even if you send me down now, I can still keep him here! His large hand gripped the huge sword, and a wave of origin power fluctuation shook it away.

Luo Tian smiled and said, "it's not this person's problem." My plan is to lure this person and the two sea tribe tribes behind him to the city. Then, all the martial artists in the city will attack and instantly annihilate them!"

Ning Huaishu was shocked, "all the martial artists in the city are attacking?" If we just wanted to destroy these scums, we could've just triggered the defense mechanism of the sky-Rising City. Why would we need to go through so much trouble and expose the strength of our clan?"

"No." Luo Tian shook his head and said, "the real thing and the fake thing are the only things that can make the other party lose track of the direction. More importantly, a city-wide attack can give all cultivators a great boost in morale and confidence, sweeping away the dispirited feelings of successive defeats. I believe that this is more important than killing the thousand people in front of us."

Ren zhanxiong looked a little ashamed and said, "So that's how it is. It seems that I've really ruined things."

Luo Tian smiled. it doesn't matter. The people of the sea tribe have more courage than intelligence. As long as we let them curse together, they will definitely not be able to hold back and charge over.

Soon, the order was passed down, and all the martial artists on the city wall began to curse.

At the same time, the order to prepare for battle was also passed down. As long as the members of the sea Race were within 10000 meters of the city, the entire city would charge down and kill them.

trash, come at me if you have the guts. If you don't, then go back to your mother's womb!

"Man, they don't have a mother's womb, most of them are oviparous."

"Then go back to your mother's egg! All of you are so weird. I've seen ugly people, but I've never seen anyone as ugly as you!"

that's right. It looks ugly at first glance, but it's even uglier when you look closely.

In the distance, the members of the sea tribe stopped behind the ghost eel commander and began to scream. The experts of the sea anemone tribe straightened their tentacles, while the snail tribe made a strange, sharp cry with their sharp mouths, expressing their extreme anger.

The commander of the sea anemone race stepped forward and said, "commander ghost eel, shall we kill our way over?" These human martial artists have gone too far! They even cursed my father, who died more than a hundred years ago!"

The ghost eel commander's face was dark, and no expression could be seen. However, the power fluctuations that were constantly emitted from his body showed that it was extremely difficult for him to calm down.

The commander of the snail race was also trembling with anger. He gritted his teeth and said, " these humans dare to call us parrots. I'm going to tear their mouths apart!"

this is the humans 'way of goading you, " the ghost eel commander said slowly. they're deliberately scolding you so that you'll rush to your deaths.

“Even if I have to die, I’ll tear their mouths apart!” The conch commander was furious.

The ghost eel commander looked up at him and said, “The brave can be fearless, and the wise can be calm. You all lack that calmness. You all need to grow some brains, don’t fall for the Suan ni.”

“I really admire your mother for giving birth to that black eel. Why didn’t I close my legs when I just gave birth to a head and squeeze you to death, so that you wouldn’t have to come here to harm others?”

A clear and hearty curse exploded in the sky. That person had obviously used a sound wave martial technique. His voice reverberated for ten thousand miles, and everyone could hear it clearly.

The people on the city wall went silent for a moment. Everyone was stunned by the curse and turned to look at the handsome young man. Liang Yuanji was also stunned as he looked at Yunxiao in shock. He had not expected him to curse so viciously.

All the Martial Emperor powerhouses in the main building were stunned. Then, the entire skyscraping city burst into laughter.

“Hahaha! Hahaha!”

“Hahahaha!”

The sky was filled with endless ridicule. The dark face of the ghost eel commander suddenly turned green, and its facial features were all twisted. The black lightning on its body directly soared into the sky, and it roared, “Kill! Kill! Kill! Kill all of these human scum!”

“Kill! Charge!”

The morale of the sea anemones and the conch race was immediately boosted. Their anger soared to the sky as they all flew up. Like a Black plague of locusts, they charged towards the City Tower!

Luo Tian smiled and praised, "Beautifully scolded! I saw that the ghost eel commander didn't seem to be moved, so I was worried that this goading method wouldn't work. Everyone, just focus on the three martial sovereigns. As for the rest of the minions, let our martial artists vent their depression from before."

Ning Huaishu also stroked his beard and laughed."This group of Little Rascals, their strength is not good enough, but their curses are ruthless enough."

Liao yangbing's face twitched. Although the sound and color of the curse had been deliberately changed, he could still tell that it was Yunxiao. It seemed that Yunxiao was indeed on the city gate tower, and he could not help but be overjoyed.

all the Warriors in the city are ready. The sea Race has already arrived at the city. Let's kill our way out of the city together!

Ning Huaishu's voice reverberated throughout the entire skyscraping city. The war drum was struck three times, and three rays of green, yellow, and red light bloomed one by one.

All the team leaders stood guard on the city wall, while the Vice-leaders led the teams out of the city to kill the enemies.

Yunxiao flew back to the team in a flash and said, "Follow me out of the city to kill the enemy!"

The members of the battle blade team were shocked. Chen Zhongwei even trembled and said in fear, "They ... They're coming?"

The rest of the people were also afraid. After all, they had heard about the situation of the previous battle. They had been defeated again and again, and every time they fought, they would die.

don't worry," Yunxiao said with a smile. this is just an appetizer.

...

“What’s an appetizer?” Chen Zhongwei was still trembling in fear.

Yunxiao glanced at the crowd and said, “ don’t worry, I won’t harm anyone. But since I’m here, I have to contribute to the war between the two races. He looked at the martial artists that were soaring into the sky and said, “ “If we’re late, we’ll be invincible and can be killed.”

“Hmph, they’re just ignorant and fearless. But that’s good, I don’t have to be afraid if I die.”

Yunxiao’s face flickered, and two sharp beams of light shot out of his eyes toward Chen Zhongwei, scaring him so much that he backed off and knocked into the city wall.

It was as if he was being stared at by a ferocious beast that could easily take his life at any time. His entire body trembled as he said in fear, “ “You, what are you doing? Fighting is forbidden here, or no one can save you!”

the battle blade team doesn’t need trash,” Yunxiao said word by word. if you stay here, you might be able to keep your life. But what you’ve lost is your martial Dao and your heart of a strong man!”

“Those who are not trash, follow me!”

let’s go! Yunxiao cried out as he turned into a beam of light and shot out of the city.

The expressions of the members of the battle blade team changed, as if they had been triggered by something. The team leaders exchanged glances with each other before nodding firmly.

“Group Five, follow me!” Guan Xingyang shouted.

The red-haired man also followed closely and shouted, “ “Group six, follow me!”

...

The rest of the groups also followed. Elder Yan looked at Chen Zhongwei, stretched his back lazily, put away his pipe, and flew away.

All 18 of them left in an instant. At the same time, the entire city was almost empty. Only a few of them seemed to be unmoved. They were wandering around the city. They had also experienced the previous battle and were too afraid to go out.

Chen Zhongwei's face turned pale. He trembled as he looked at the few wily old foxes who were hiding in the city.

Yunxiao's words kept echoing in his ears, and each word pierced his heart, making it difficult for him to calm down.

my martial arts, my heart of the strong, is full of pride. Without the heart of the strong, what's the point of keeping my life? ”

“Wait for me, Lord Feiyang!” He suddenly shouted. He turned into a ray of light and chased after it.

Chapter 1006

1006 The earth Jade sword

Outside the sky towering city, the battle cries were deafening. The two races soon collided with each other. The entire sky and land were in chaos, with all kinds of battle cries and rumbles.

The scene was too shocking, and it was the first time for most of the people to experience it. In addition, the war drums on the city gate tower thundered, and the earth shook. Their blood was immediately set on fire.

The entire sky was filled with the tentacles of the anemone race. They were in clusters, each tensed up. From a distance, it looked like a field of cotton. A large number of tentacles had been cut off and scattered in the sky. It was a hazy scene.

Yunxiao took out a bronze beast mask and put it on his face, controlling his strength to be at the level of an eight-stars martial Supreme. At the same time, he took out an eighth-grade saber and followed Liang Yuanji to fight.

Liang Yuanji was stunned for a moment and asked in surprise, "Brother Feiyang, what's with your mask?"

"I'm too handsome," Yunxiao said. "I don't have any killing intent, so I'm wearing this." He retracted his saber and touched his hair.

tsk tsk, Lord Feiyang is indeed a fair-faced young man. He's much fiercer now.

Elder Yan also brought two men and rushed in, he praised.

Although the whole scene was chaotic, there was order in the chaos. The humans were all in small teams and small groups to take care of each other, but the sea Race was really in a mess. They quickly gained an overwhelming advantage.

Out of the corner of his eye, Yunxiao saw Chen Zhongwei come in and fight. Then, he glanced at the top of the main city Tower, intentionally or unintentionally, and smiled in his heart as he continued to kill his enemies.

The speed of his blade was extremely fierce. It was wide and without any pattern. Every time it hit the shell of the snail tribe, the blade light would break through the shell.

This was a firm and fierce fighting style, and it looked like the control of strength was very unstable, sometimes weak and sometimes strong, all in one breath.

As the experts on the main city Tower watched the battle, they were all overjoyed and wished they could go down and kill as well.

Although the scene below was chaotic, the powerhouses could see everyone's condition with a sweep of their divine senses.

Yunxiao's beast-faced mask attracted a lot of people's attention at first, but when they looked at him carefully, they found that although his saber techniques were fierce, he lacked the precise grasp of strength. This could only mean that this man's comprehension of strength was extremely poor, and he was not an expert.

On the other hand, Luo Tian frowned after looking at it for a while, as if he was thinking about something.

Only Liao yangbing's eyes were filled with surprise and joy. He was sure that the masked man was Yunxiao, and only Yunxiao had the courage to show up so brazenly in front of everyone when the whole world was still hunting him down.

Naturally, he would not expose him. He just watched quietly and found that he could not see through the other party's cultivation at all. If he did not know the face under the mask, he would have thought that this was just an eight-star martial Supreme like the others.

He knew that Yunxiao's purpose in coming here must be for the trip to the East Sea. At this moment, beiming Laifeng was also in the giant city, but the entire coastline had been blocked for an unknown distance, so he did not know when he would have the chance to go out to sea.

The sea Race was losing ground in an instant. They abandoned their weapons and armor, and more than half of them were either dead or injured. The three martial sovereign commanders were trapped by the human martial sovereigns at the beginning of the battle, and it was extremely difficult to kill them.

The ghost eel commander was shocked and angry. A huge sword was placed directly above him, emitting a powerful sword will, covering the space like a net. No matter how he used his Thunderbolt divine power, he could not get out.

The giant sword was jade-green in color and was definitely not made of ordinary metal. It was extremely effective against his lightning, and each time the lightning struck the sword Qi, it would immediately be weakened by more than half.

"Aren't you very arrogant? Why are you like a stray dog in front of me now?"

Ren zhanxiong's eyes flickered with mockery as his cold voice sounded. It was as if he was looking at a beast in a cage, and there was a hint of pity in his voice.

The ghost eel commander roared, "despicable!" What kind of skill is relying on the might of a profound level weapon? if you have the guts, fight me with your own strength!"

Ren zhanxiong scornfully mocked, " compared to the demon race, our physical bodies are nothing. Compared to the sea Race, our numbers are nothing. However, our race has wisdom that you can't match. A gentleman's life is not different. We are just good at pretending.

As soon as he finished speaking, green light flew out of his five fingers and directly into the giant sword. The sword spun in the air and slowly pressed down. Green sword Qi shot out, constantly penetrating the lightning around the ghost eel commander.

Not far away, Yunxiao was secretly surprised. The sword was actually made of a legendary item that could suppress lightning, and it was born to restrain all lightning items. Except for the Supreme divine Thunder of destruction, it could probably restrain all lightning-type divine abilities.

The faces of the people of the Jiang family on the main city wall also turned ugly. The body turning into lightning was their secret technique that they would not pass on, especially the Thunder escape technique, which was one of the fastest escape techniques in the world. If they were to encounter this sword, they would only be able to get beaten.

Luo Tian's eyes revealed a look of admiration and he said, everything in the world is complementary to each other. Thunder is the power of the heavens, and I didn't expect that the earth Jade could restrain it. This sword made of earth Jade is a real treasure!

When the people of the Jiang family heard this, their faces turned even gloomier.

Now that the internal strife in Red Moon City was intense, and the four extremes sect was gradually growing stronger, the existence of this kun Jade sword was truly a disaster.

As the giant sword of earth continued to press down, the ghost eel commander finally panicked. It tried to break through a few times, but not only did it fail, but it also hurt itself. It was full of regret and blamed itself for being too impulsive.

human, don't be too extreme. Otherwise, I'll destroy your sword even if I have to die!

The ghost eel commander, who was on the verge of death, finally began to go berserk and threatened.

Ren zhanxiong didn't care and sneered, "This sword has existed for thousands of years. I'd like to see how you're going to destroy it."

"Damn it!"

The ghost eel commander shouted angrily. Although the sea tribe was also afraid of death, they were more courageous than humans. They would not beg for mercy too much. Seeing that the negotiations could not be settled, he immediately activated his Yuan power. Red dots began to appear on his dark and weak body.

Those red dots were located on the acupoints of the human body. All kinds of red and green meridians also appeared, connecting all the red dots together. The lightning could be clearly seen circulating in the meridians. Then, runes began to appear on each red aperture.

"A natural formation body!"

Yunxiao was taken aback. Some people's body structure contained some kind of array law, which was originally called an innate array body.

He sighed inwardly. The human race had obtained supreme wisdom, and their physical bodies were indeed much weaker than the alien races. This kind of natural formation body was rare in the human race, and once it appeared, it would definitely be a treasure. The sect would do its best to cultivate it.

And among the sea Race, he was just a minor character that didn't matter and could be discarded at any time.

As the patterns on the aperture appeared, the body of the ghost eel commander began to twist in all kinds of positions. The array formation also changed constantly. Black lights appeared around its body, condensed and not scattered, but became stronger and stronger!

Ren zhanxiong suddenly realized that something was wrong. The kun Jade sword's momentum was stopped, and it couldn't descend any further!

He changed his hand seals several times and shot out a few Thunder-breaking sword Qi. Although they shot into the body of the ghost eel commander, it was like a stone sinking into the ocean. There was no ripple at all!

"Not good!"

He was shocked and hurriedly used a sword technique to retrieve the earth Jade sword.

Suddenly, the ghost eel commander's eyes also burst into a red light, and it spat out some obscure and strange notes. The lightning condensed around its body surged, like a slow river, gradually becoming turbulent.

"BOOM!" BOOM! BOOM!"

The ghost eel commander didn't make any move, but a few thunderclaps sounded in the air, as if the world was about to change!

"BOOM!"

Just as everyone was looking around in shock, the kun sword suddenly released a dazzling green light and collided with the black light that was rushing up from below.

...

Ren zhanxiong was extremely anxious. He wasn't the one who created this sword light. Instead, the earth Jade sword seemed to have met a powerful enemy and its power was stimulated by itself. It was completely out of his control!

The two lights collided with each other, and it seemed like neither of them had won.

Suddenly, the sky changed color. A black Thunderbolt descended from the ninth heaven and struck the huge green light.

“Bang!”

The earth Jade sword was quickly corroded by the black Lightning, turning black and escaping into Ren zhanxiong's body.

The ghost eel commander was struck by the heavenly lightning, and its power instantly swelled up, turning into a huge fatty. Its eyes were red, and it was bursting with endless anger as it roared, “If you force me to reveal this state, you'll have to die!”

He opened his mouth and spewed out a black ray of light. It was actually a mixture of Thunder and fire, and it charged directly at Ren zhanxiong.

At this moment, the sea tribe Army was almost completely annihilated. Everyone was looking at the battle over here and immediately retreated in shock, leaving a large open space.

Some of the martialists who had escaped too late were touched by the residual light of the lightning and immediately turned into ashes.

Ren zhanxiong's expression changed drastically. The corrosion of the earth Jade sword had directly affected his state of mind, and his meridians had also suffered minor injuries. Seeing the sky full of Thunder and fire approaching, he panicked and hurriedly poured all his origin power into his palm. He opened his right fist and directly punched forward.

This palm looked ordinary, but in the middle of the palm, it suddenly turned into afterimages. One became two, two became four, layer by layer, and in an instant, it turned into thirty-two palms. All the power was compressed to the extreme!

...

“BOOM!”

It was as if a spring had suddenly burst open, and the power of the thirty-two palms was instantly released, slapping out in the air.

The power of Thunder and fire suddenly retreated and burst out from the surrounding of the palm. Some nearby cultivators were horrified and hurriedly waved their swords to block, but they were injured one after another. Two people couldn't resist it and screamed on the spot before turning into black charcoal.

Ren zhanxiong didn't even have the time to catch his breath after his palm strike succeeded. The Thunder fire that had been blasted away condensed again and came crashing down.

He was so angry that his brows furrowed and his eyes bulged. With a loud roar, he also went crazy. His hair stood up, and his left hand turned several times in a row. His right palm repeatedly slapped down as if it was playing with his life!

“Bang! Bang! Bang! Bang! Bang! Bang!”

He used all his strength in each palm and finally scattered the Thunder fire.

He even slapped the ghost eel commander in the air, causing its swollen body to shrivel. He spat out a mouthful of blood and was sent flying.

“I've been unable to get the girl I like,” the young man asked the Zen master. “What should I do?” The Zen master opened his eyes and threw out a book, “Supreme of all ages. Zen Master,” the young man suddenly realized, “are you saying that as long as one perseveres like Yunxiao and never returns, one

day, he will become the Supreme figure of all ages and be embraced by all the beauties?" The Zen master glared at him. second fool,"

Chapter 1007-jealous

The ghost eel commander was sent flying by the force of the palm. It flew away in an arc like a leaking leather ball.

All the human ancient martial art practitioners stepped back to make way for the ghost eel commander, for fear that it would bump into them. After all, everyone had seen his terrifying combat power. Even if they guessed that he was an arrow at the end of its flight, no one dared to stop him.

Ren zhanxiong's aura was also greatly weakened, and he seemed to have aged a lot. The chaotic battle palm technique just now was a martial technique that stimulated one's potential, and his entire body was empty after using it.

Suddenly, a figure stepped out in the air and caught up with the ghost eel commander in a few steps. The blade turned into a giant blade and slashed down directly!

"Pfft!"

The ghost eel commander was in a semi-conscious state, so it couldn't withstand the man's saber. Its dantian was pierced on the spot, and blood flowed out of its seven orifices. It was dead.

After that, the man took another step, picked up the ghost eel commander's body, and put it into the storage Mystic artifact. Then, he flew back.

Everyone was dumbfounded and couldn't react in time.

The man was naturally Yunxiao. He walked straight up to Ren zhanxiong and said with a smile, "my Lord, I have killed the ghost eel commander for you. Please give me the useless corpse.

Ren zhanxiong's face was pale as he circulated his Qi to regulate his breathing. He glanced at the man and didn't say anything, only nodding slightly.

Anyone could tell that the corpse was a treasure, but it was not important to him. Moreover, under such circumstances, as a high-level martial Supreme, how could he have the nerve to say no and ask for something from a martial Supreme? Moreover, the ghost eel commander had been killed by the other party with one strike.

It was only then that everyone came to their senses and gave Yunxiao a strange look, thinking that this man was really bold. But as the saying went, those who were bold enough would get a treasure all of a sudden, which was definitely more precious than the corpse of a ninth-tier demon beast.

“Bang! Bang!”

The war drums sounded on the city wall, and everyone cheered. They flew back to the city, leaving behind the corpses of the sea tribe.

This battle was a complete victory. There were less than 20 casualties, but they had directly annihilated nearly 1000 sea tribe powerhouses. There was also a high-level martial Supreme and two ordinary martial Supremes. This made ning Huaishu smile from ear to ear.

Everyone’s harvest was also quite rich. The bodies of these Sea Race members were the same as ordinary sea beasts, with inner cores. The shell of the snail clan was also a rare item. Many people collected it, and after the war, they could find alchemists to refine armor and clothes.

The entire sky-towering city was in a sea of cheers. Everyone was so excited that they didn’t sleep the whole night, talking with fervor and assurance.

The battle report was quickly sent to the central camp of the sea tribe. All the experts of the sea tribe had calm expressions. They didn’t have any expressions on their faces. It was as if they had expected this.

Guangcheng just kept knocking on the table with his fingers and said indifferently, “ since the commander of the ghost eel clan has died in battle, the ghost eel clan should also be incorporated into the attacking team.

The rest of the commanders nodded their heads in agreement.

After Yunxiao put on the beast-faced mask, he could not take it off, so he returned to a corner of the city with the battle blade team to rest.

No one in the team was injured. Chen Zhongwei seemed to have gotten out of his gloomy state and was in a good mood.

don't get too excited, " Yunxiao said. sit down and regulate your breathing. He had to maintain his condition at its peak at all times so that he could deal with any sudden difficulties. The Marine race suffered such a huge loss, yet they didn't make any moves. It's obvious that they have a deeper plan. I'm afraid it won't be so simple next time."

Everyone was now full of admiration for him and listened to his words. One by one, they sat on the ground and slowly regulated their breathing.

Suddenly, a few powerful auras approached them. The entire team opened their eyes and looked over vigilantly. They saw a row of martial artists standing in front of them. There were more than ten people in total. They were obviously from another team.

Liang Yuanji's face darkened. He recognized their Captain and said, " "Gan wuqin, what's the matter?"

The other party's Captain, gan wuqin, grinned, " "It's nothing, I just came over to say hello. Brothers, you did well today. Tsk tsk, a small team of twenty people, everyone's numbers are decreasing as they fight, how come you have one more person?"

The rest of the people had cold expressions on their faces as they gathered around. With one look, one could tell that they were not friendly.

The members of the battle blade team also pulled a long face. They could tell at a glance that the other party was here to make trouble. They were not good scumbags, so they were not afraid of causing trouble. One by one, they stood up, but Yunxiao remained sitting cross-legged, seemingly unmoved.

“What does our team’s business have to do with you?” Liang Yuanji roared, his face full of anger.

Gan wuqin’s smile was still on his face, but it was getting colder and colder as he said, “it was nothing much at first. Everyone was very happy about this great victory, but one of our brothers died in battle!

Liang Yuanji was baffled and laughed, “Why are you telling me that your brothers have died? Don’t tell me you want to poach one of us?”

“Hahaha!”

“Hahaha!”

The members of the battle blade team burst into laughter, their faces filled with mockery.

“It’s not impossible to poach people,” the green-faced man sneered, “but we won’t stop anyone who’s willing to go with you.”

“Hmph! All of you, shut your f * cking mouths!”

Gan wuqin suddenly roared out, causing everyone to fall silent. Not only that, it also attracted the attention of the other teams, and they all looked over curiously.

“Shut your sister! This is the Warblade’s territory, all of you f * ck off!”

Not willing to fall behind, taishida charged forward and shouted.

Everyone knew that fighting was not allowed in the city, or they would die without a doubt. So there was nothing to be afraid of. Even if they could fight, they were not afraid.

The faces of the people in gan wuqin’s group changed drastically. Their eyes were filled with killing intent as they stared at teshida. Yuan energy was constantly exploding around their bodies.

Not only was taishida not afraid, but he was also proud of himself. He stretched his head over and provoked, " "What, you're unhappy? If you're unhappy, come and hit me. Hit me? If you have the ability, come and hit me!"

His head was swaying left and right, and his face looked like he was asking for a beating. The members of the GaN wuqin unit were all furious, and their chests were about to explode.

Gan wuqin's face turned ashen. He was afraid that if this continued, his side would really make a move, and they would definitely be killed on the spot by the people of the red moon City.

He immediately got straight to the point and said, " "I'll cut to the chase. One of our brothers died in this battle, but we didn't get any benefits. You're all safe and sound, but you've obtained the corpse of a high-level martial sovereign of the sea tribe. I hope that the brother wearing the ghost mask can share some of the benefits with everyone as a sacrifice to my brother's soul in heaven!"

It turned out that he was jealous and wanted some benefits.

So that's what happened. The Warriors from the other teams all showed a look of disdain, but they were also happy that someone would stir up trouble. They could watch the fun and save themselves from being bored in this giant city.

Everyone's eyes fell on Yunxiao at once, and the people around him admired his courage to fight on the battlefield.

But, even after a long time, Yunxiao still did not move, as if he had entered a meditative state.

Liang Yuanji coughed twice before sneering, "It's your business that your brothers died, and it's our business that we get the benefits. Why should we compensate you?"

Gan wuqin snorted. brother Yuan Ji, I don't like what you're saying. What is the point of everyone risking their lives together? " Don't tell me you're Martial Emperor Lei Feng's successor and you're only trying to benefit others without even looking out for yourself."

Liang Yuanji replied, " of course not. However, my brother's benefits were obtained through his own wisdom and strength. He also took a great risk. Under such circumstances, who would dare to go forward and kill the ghost eel commander? "

...

Everyone nodded slightly in agreement. At that time, there were many people who had the opportunity to kill the ghost eel commander, but no one dared to make a move.

"Does that mean my brother died in vain?" gan wuqin snorted coldly.

At this moment, Yunxiao finally opened his eyes and looked puzzled. "I've said so much, but I still don't understand. What does your brother's death have to do with me? besides, even if there's compensation, it should be for your brother's family. What do you mean by compensation?"

"Yeah, what's the point of compensating you? Even if there are benefits, I shouldn't have given them to you!"

The people around them started to shout. Everyone was a temporary team and they were not related to each other.

Gan wuqin's face reddened as he snorted angrily, " "We're all brothers, we're family!"

Yunxiao did not refute, but nodded and said, " "I understand. But shouldn't you go to the Lord of the red moon City and propose compensation? I believe that the Lord of the red moon City will definitely compensate you generously."

"Bah! Counting on them? They're all misers, the only thing they know is how to trick people into working for them!"

Gan wuqin cursed. He had experienced a few battles and was filled with anger towards the red moon City.

what's the matter? what are you all doing here? ”

Suddenly, a loud shout was heard, and a wave of Emperor Qi of the nine Heavens came down from the sky, pressing down on everyone. Everyone's expression changed drastically, and they didn't dare to answer.

...

A man in a long robe appeared in front of everyone. His cold eyes swept across everyone and he said in a cold voice, ” “Are you guys causing trouble?”

“No, I didn't!”

Gan wuqin was shocked and quickly shook his head in denial.

Hmph! the man snorted heavily. don't let me find out that you're causing trouble, or you know the consequences!

“Absolutely not, absolutely not!”

Gan wuqin revealed an unsightly smile, his forehead covered in cold sweat.

don't worry, Sir. We're only here to discuss some matters, not to cause trouble.

Yunxiao suddenly said, his voice extremely sincere.

The man glanced at him, and his eyes swept over the beast-headed mask. He naturally recognized that this man was the one who had killed the ghost eel commander. He gave a soft ” Oh ” and asked casually, ” “Discuss what?”

Yunxiao said, " let's discuss the matter of Red Moon City. This Lord gan wuqin just said that all the Lords in Red Moon City are misers, and that the second elder is a stingy ghost who only knows how to trick others into working for him. I'm new here, so I wonder if it is true? " In short, after I heard it, the morale has already fallen to the bottom."

Chapter 1008-Thunder art complete

Silence. The entire place was instantly filled with silence.

"Nonsense!" Gan wuqin raged,"this is all nonsense!" My Lord, please don't believe him!"

Bean-sized beads of cold sweat broke out on his forehead. Not only him, but all the other members of the team felt cold all over and were drenched in sweat in an instant.

Yunxiao was surprised. eh? Lord wuqin, didn't you just say that? There are hundreds of people here who heard it. "

The man raised his head and looked around, only to see everyone nodding, which proved that Yunxiao was telling the truth.

All the hair on gan wuqin's body stood up. He felt the world spinning around him, and his body began to tremble. m-misunderstanding, it's definitely a misunderstanding. My Lord, please listen, please let me explain.

The man looked at him coldly and said, " "Come with me to the main building to explain to the Lords."

"Ah?"

Gan wuqin was completely dumbfounded. He was so scared that he almost couldn't stand straight. Sir, please do us a favor. It's really a misunderstanding. There won't be a next time! He hurriedly took out a storage bag and stuffed it over.

The man's expression changed and he said angrily,"who do you think I am?" Do you really think that I'm that kind of thing that grows on your head?"

With a furious roar, he slapped out with his palm and sent gan wuqin flying, causing him to spit out a mouthful of blood into the sky.

The man's figure flickered, and he grabbed gan wuqin, who was still in the air, and headed toward the City Tower.

The people below the city walls were all breaking out in cold sweat. Gan wuqin would definitely be skinned alive if he didn't die this time.

They all glanced at Yunxiao with fear in their hearts, thinking that this man was really vicious, as he could kill without spilling blood.

"Ha, haha!"

The red-haired man was the first to burst into laughter. He gave the GaN wuqin team a thumbs-up and praised, " amazing, your Captain is really amazing. He even dares to scold the people of the red moon City. I'm impressed!

The members of gan wuqin's team all turned pale and glared at him.

The green-faced man sneered. I hope Lord gan wuqin can still maintain his demeanor in the main city Tower and curse again in front of Lord ning Huaishu. Haha!

"You guys have balls, just you wait!"

The vice-captain of gan wuqin's team had a layer of ice on his face. He pointed at everyone and angrily left.

The farce ended just like that, but everyone was now a little wary of Yunxiao. This man was both brave and smart, so it was best not to provoke him.

After they left, Yunxiao closed his eyes and continued to regulate his breathing, as if nothing had happened.

Liang Yuanji and the other members of the battle blade team were full of admiration for him. They all gathered around him and started cultivating.

In the divine realm tablet, one of his souls appeared.

The corpse of the ghost eel commander was floating in the air. Although it was lifeless, there were still Thunderbolts flowing on it. Through its black skin, Yunxiao could clearly see the array operating on the bright red acupuncture points in its body, with black Thunderbolts shuttling back and forth.

His entire body was like a formation tool that could operate on its own and provide powerful lightning energy.

Yunxiao first recorded the operation diagram of the array in his mind. Every kind of natural array was a product of the laws of heaven and earth, and it could use the simplest array to present its power, which was the existence closest to the Dao of arrays.

“This is a Kasaya.”

PU Jinshan suddenly felt his body move, and then he was next to Yunxiao.

It had been a long time since he had figured out where he was, and he had not seen a single person all day long. He was about to go crazy. When he suddenly saw Yunxiao, he was surprised and delighted, but soon his attention was attracted by the corpse in front of him.

“?! A natural formation body?”

what? ” he suddenly shouted in disbelief, his eyes wide open.

that's right, " Yunxiao said. it's an innate array body. I asked you to come here so that you can record it, because I'm going to destroy this body soon. You are the true array master, so I have the duty to let you have a look."

"What? You ... You want to destroy him?"

PU Jinshan was shocked and hurriedly said, " "My Lord, this thing is very valuable."

"The time it takes to brew a cup of tea."

I'll give you the time it takes to finish a cup of tea, " Yunxiao said indifferently. it's up to you whether you want to talk nonsense with me or quickly record it down.

master Yunxiao! PU Jinshan was extremely anxious and said, " Lord Yunxiao, this thing is a peerless treasure that only appears once in ten thousand years! The operation of the formation inside represents the simplest laws of the world, almost the evolution of the formation Dao. Its value is difficult to estimate!"

Yunxiao was still sitting there quietly with his legs crossed, motionless.

"Gulp!"

PU Jinshan swallowed hard. He knew that he could no longer communicate with this person in front of him. He would really destroy this treasure in ten minutes.

He quickly calmed down and began to carefully observe the body of the ghost eel commander, comprehending and recording it one by one.

After the time it took to finish a cup of tea, Yunxiao opened his eyes on time and said, " "You've remembered everything?"

PU Jinshan's face was solemn. He wiped his sweat and nodded. With a reluctant expression, he begged, "Lord Yunxiao, can't you make him stay? This is Yingluo!"

Without waiting for him to finish, Yunxiao raised his hand and swung it down in the air. His hand movements were unusually fast, and in an instant, the body was cut into pieces in a regular pattern. Black Lightning poured out of the body like water, crackling and flashing.

PU Jinshan's mouth was wide open, and he couldn't speak anymore. He then sighed deeply and stopped talking.

Then, Yunxiao stretched out his five fingers and grabbed at the corpse. With a few bangs, all the bodies exploded, and a Thunderbolt array appeared in the air. The pattern on the array was similar to the Maha ancient characters in the hammer.

PU Jinshan's eyes suddenly widened. He was actually able to directly extract the formation from the natural formation body?

This kind of unbelievable thing, not to mention seeing it with their own eyes, even the ancient books had never recorded it!

He went crazy and pulled his hair desperately. It was too outrageous and strange!

Yunxiao stared at the operation of the array, which was exactly the same as what he had recorded before. Then, a bolt of lightning emerged from his fingertip and began to disintegrate his soul and body, gradually turning into an electric arc and shooting up.

"Pi pa Pi pa!"

When the blue lightning, which was transformed from Yunxiao's soul, fell on the array, it immediately aroused the repulsion of the black Lightning and bounced off the blue light.

...

The green Thunderbolt spun in the sky for a while and dispersed, forming the ancient Maha character in the air and falling down.

“Pa la pa la!”

The lightning was powerful, but where the Maha ancient character fell, the black Lightning was not as strong as it was before, even though it still had a sense of rejection. It began to merge.

Although PU Jinshan did not know what Yunxiao was trying to do, the scene in front of him was amazing. The black array was gradually changing shape under the blue lightning, as if it was about to take another form!

His eyes were wide open, and he didn't even dare to blink. An innate formation body was already the closest existence to the Dao of formations, so how could it possibly transform and evolve?

In fact, the array in the ghost eel commander's body described the law of Thunder, and Yunxiao's Maha ancient character also described the law of Thunder. It was just a kind of nomological Dao, expressed in different ways. At this moment, it was also the fusion of the Dao, driving the two kinds of Thunder Power to gradually become one.

“Pa! Pa! Pa! Pa! Pa! Pa!”

The two kinds of lightning gradually merged into one color. During the process, various images kept emerging. There was the dark Thunder, the demon rabbit, and the shadow of the ghost eel commander. They kept appearing in the process of fusion. Sometimes, they turned into a Thunder formation, and sometimes, they turned into the Word "Thunder", showing a colorful scene.

The main color of it gradually turned white, and all kinds of lightning flashed and jumped as if there was no end to it.

After an unknown amount of time, the Maha ancient character disappeared, and so did the formation. All that was left was a white ring floating in the air. On it, White Lightning was constantly jumping, and the energy was getting stronger and stronger.

This ring was the best form to gather the power of Thunder. It was learned from the demon rabbit that had lived for an eternity. It could store the power of Thunder to the maximum extent.

...

The white ring of lightning finally stabilized and flickered, then slowly turned into Yunxiao's figure.

"Gulp!"

PU Jinshan swallowed his saliva, his face filled with shock and disbelief. He had too many questions in his heart, but he didn't dare to ask.

And Yunxiao did not give him a chance to speak. After he revealed himself, he disappeared from where he was, as if he had never been there.

PU Jinshan couldn't help but smile bitterly. He knew that his time of loneliness had begun again. However, through this incident, he at least knew that he hadn't been exiled or abandoned, and his heart was at ease.

In addition, he had just obtained the lightning array diagram, so he was full of joy. He put aside all the unhappy things and went to study it by himself.

As soon as the soul returned to Yunxiao's body, it slowly opened its eyes, and a white Thunderbolt flashed in them.

A strange expression suddenly appeared on his face, and he smiled bitterly.

After refining the black Lightning, his Thunder art was basically completed. However, he had been affected by the Thunder hammer and the Maha ancient text. At this moment, his Thunder art divine power was very different from the one Lu Jianbo gave him, but it was definitely stronger.

However, after the lightning on his body turned white, it had directly increased his Origin Energy cultivation base by a large margin. At this critical moment, he had actually touched the threshold of advancement and could break through to the two-stars martial sovereign realm!

However, in the city, if he were to level up, he would be discovered by the people in the main city Tower.

Yunxiao smiled wryly. He had no choice but to suppress his cultivation base and wait for the right time to make a plan.

It was already the second day, and the city had been quiet the whole time. All the Warriors had calmed down from the excitement of the victory and began to cultivate in peace. The whole square was quiet.

Above the main city Tower, Ning Huaishu was reluctant to let Luo Tian stay, but the latter had already made up his mind.

“Without Sir Luo Tian in charge of this city, its strength has been reduced by at least half!” Ning Huaishu sighed.

Luo Tian naturally knew that he was just being polite. He smiled indifferently and said, “Lord Huaishu, you flatter me too much. As long as I’m careful, the sea Race will never be able to break through this sky-high city.”

He had met an old classmate today and had chatted with her for a long time, so he was a little late.

Chapter 1009-old acquaintance

Ning Huaishu said, “yesterday, the sea Race suffered a setback, but they did not take any revenge. Instead, they are constantly mobilizing troops. I’m afraid they are about to make a big move. It really makes me uneasy.

“As long as you do your best and have a clear conscience,” Luo Tian said with a smile.

Ning Huaishu knew that it would be difficult to keep him, so he said, "On the day the foreign tribes are expelled, the red moon City will invite you to celebrate."

Luo Tian waved his hand and said, "that day won't be long." Everyone, there's no need to send us off in case there are any changes in the enemy's situation."

Everyone bowed to send him off.

Luo Tian nodded and left under the protection of the two Martial Emperor powerhouses.

After getting off the City Tower, Luo Tian looked around and headed straight to a corner of the square.

The two Martial Emperor powerhouses behind him looked at him strangely. That was not where the teleportation formation was. However, they did not ask anything and followed closely behind him.

Yunxiao's heart skipped a beat. He opened his eyes and immediately saw an old man in a long robe looking at him with a smile.

Luo Tian, a ninth-tier great Alchemist? "

"You recognize me?"

Luo Tian was slightly surprised.

The cultivators around him all looked over in shock, each and every one of them revealing a look of disbelief.

Everyone had noticed that the old man was by no means an ordinary man, because they could not see through the two guards behind him at all. But they could not imagine that he was the world-renowned ninth-tier Alchemist, Luo Tian!

All of them were dumbfounded and stood there at a loss. Although Luo Tian didn't even look at them, they still felt extremely nervous.

who in the world doesn't know you? " Yunxiao smiled. who doesn't know you? "

"Little friend, you're very interesting. Would you like to get to know me?" Luo Tian laughed.

"What?"

The people around them were shocked and could not believe their ears. Luo Tian, a ninth-tier great Alchemist, had taken the initiative to get to know him?

Jealousy and envy immediately spread in the surrounding area. Even the martial artists nearby could no longer remain calm, let alone the members of the battle blade team.

master, my name is ant Xinran. I'm the team leader of the sky high section!

"Master, I am Geng Hetong, your loyal admirer. Please accept me as your guard!"

master, master, my name is Chen Haonan. I beg you, master, please let me carry your shoes!

"Master's Pixiu"

The corner of the city wall suddenly became noisy. The crowd swarmed, loudly announcing their names, crying and shouting to pick up the soap.

A Martial Emperor behind Luo Tian smiled bitterly. This was a very common situation. He released a trace of his aura, and it was as if winter had descended. Everyone sucked in a breath of cold air and closed their mouths, not daring to make a sound. However, the fanatical flames in their eyes could not be extinguished as they tried their best to squeeze in.

The Martial Emperor sighed, then raised his hand and pointed at the sky. A ring of light fell from the sky and pushed everyone more than ten meters away except Luo Tian and Yunxiao.

Yunxiao looked at Luo Tian, his good friend from the past, whose hair was now gray. Although his eyes were bright, they could not hide the traces of time. He sighed slightly in his heart and said, "We'll get to know each other sooner or later,"

"Huala!

His answer immediately caused the crowd to boil over, and all kinds of curses were hurled at him.

"Dammit! Master Luo Tian wanted to get to know him personally, but he actually refused?"

"Motherf * cker, you don't know what's good for you! Give me the chance! Master Luo Tian, my name is Shuai Shuai!"

this kid is definitely the top ten pretentious people in the realm of heavenly martial arts this year. He must be killed!

Everyone was filled with righteous indignation, even more so than when they had scolded the sea tribe people earlier. Some even kept punching the Halo, trying to rush in and hack Yunxiao to death.

Luo Tian was also stunned for a moment. This answer was completely out of his expectations. The two martial Supremes behind him were even more shocked. The two of them looked at each other with a dazed expression. They had been guards for decades, but this was the first time they had seen someone who could reject master Luo Tian's hospitality.

Luo Tian was, after all, an important figure. He quickly regained his senses and chuckled. "Even so, I'm looking forward to it."

After he finished speaking, he turned around and left.

Luo Tian had wanted to ask for the body of the natural array, but at this moment, all the thoughts were gone, and he was only more curious about Yunxiao.

As the three of them walked further and further away, one of the Martial Emperor's guards finally could not hold it in anymore and said, "Master Luo Tian, that kid doesn't know what's good for him. I really want to beat him up!"

A smile appeared on Luo Tian's face as he said, "To be honest, I also want to beat him up, but I'm more curious."

"since grandmaster is so curious about him, why don't you capture him and ask him for a detailed explanation?"

the other martial emperor powerhouse asked.

"There's no need for that," Luo Tian replied indifferently. "If he's really like what I think, we'll meet again one day." A glint flashed in his eyes as he said with a smile, "At that time, he might be at the peak of martial arts."

"Shock!"

The two martial sovereigns were shocked and looked at each other in horror. They had followed Luo Tian for decades and had never seen him judge someone like this.

Yunxiao looked at the distant background of Luo Tian and thought, "It seemed that this giant city was undoubtedly brought by the sea of soul formation. However, he did not know what conditions the sea of soul formation had negotiated with the red moon City, and which side Luo Tian was on at this moment?"

Yu Shengfeng had obtained Yu Yixian's body, so he must have found a place to cultivate in seclusion. If he could completely integrate with it, he would have enough power to compete with his disciple Lu congzi!

Seeing Luo Tian leave, the people around him immediately gathered around and glared at Yunxiao with bloodshot eyes.

Yunxiao frowned and said, " what? do you all want to hit me? " You guys want to see gan wuqin?"

Only then did the crowd remember how he had dealt with gan wuqin. They held back the urge to kill him and left in anger.

Liang Yuanji wiped his cold sweat and smiled bitterly."Lord Feiyang, you're too good at provoking everyone's hearts. Now that you've made master Luo Tian unhappy, let's see how you're going to end this."

The other members of the battle blade team also looked at him with strange expressions. The scene just now was like an illusion. If they had not seen it with their own eyes, they would never believe that master Luo Tian would ask to get to know a junior, and that junior had actually rejected him.

Elder Yan shook his head and said, " "If I had the chance to carry master Luo Tian's shoes, I would have been a high-level martial Supreme long ago! Why would they risk their lives for such a small amount of money?"

...

The other members of the team also sighed in their hearts, sighing at the injustice of fate. The gap between people was too big.

Yunxiao ignored them and was about to continue his cultivation when a green light suddenly bloomed in the sky, followed by the sound of drums!

"Bang! Bang!"

The entire city trembled. Everyone looked up at the sky, and cold smiles began to appear on their faces.

“Are those sea beasts here again? Hehe, it just so happens that I don’t have enough inner cores!”

tsk, tsk. This time, I’ll have to pick up a ninth-rank sea beast’s corpse to make up for my losses!

These were basically all newly added teams, and they had no idea about the previous consecutive losses. After the great victory, their morale was high, and they couldn’t help but want to go out and kill the enemy.

However, there was a defensive formation on the city. No one could leave the city without opening it.

it’s two drumbeats, ” Liang Yuanji said. Lord Feiyang, let’s go to the city wall!

Dozens of beams of light flew up to the city wall. Yunxiao looked ahead and saw that the mighty army of the sea tribe seemed to have finished gathering and was beginning to push toward the giant city.

“?! Why are there so many of them?”

...

Liang Yuanji was shocked. Even if he just stood there and let them kill him, they would kill him for days and nights!

The faces of the captains of the other small teams also turned pale. They were shocked by the scene in front of them. There were at least 100000 members of the sea tribe that were densely packed together!

Due to the suddenness of the war, Guangcheng was unable to gather any powerful races in the region adjacent to the East Sea. Therefore, he ordered all those who could fight on land to gather and screen those below B class. Just like that, there were over 100000 people.

In the air above the central main camp of the sea Race, all the core members were looking down with smiles on their faces.

A round-shaped leader of the giant slab tribe mumbled, "Lord Guangcheng, I'm afraid that we don't need to mobilize the deep-sea Giant beasts. These dregs alone are enough to swallow the entire skyscraping city,"

A commander of the Loach race with a pointy head snorted and said, "what can they do? if they attack the city, we'll have come for nothing.

Guangcheng's eyes flickered with coldness as he said, "the structure of this giant city is extremely strong. It's an amazing array Mystic weapon even among the humans. It's not so easy to conquer. However, as long as we can take down this city, the entire human Battlefield in the Eastern Region will basically collapse. I don't believe that they won't hand Over the Rainbow stones!"

in my opinion, it's better for the four Seas to join forces and annihilate the entire human race," the jiaoha tribe leader said. these damn humans often come to the sea area to hunt sea beasts and retrieve the resources that used to belong to us.

The Loach commander snorted coldly and said,"what an idiot!" To conquer the continent and let you stay on the shore to rule?"

we can make the humans our vassals," the jiaoha tribe leader said, unconvinced. they can rule themselves, but they must offer a large number of Tributes every set number of years. Isn't that great? "

"Alright, stop dreaming."

"Although the human race is much fewer in number than us, they're publicly acknowledged as the smartest race," Guangcheng said coldly."Their comprehension of the heavenly Dao in cultivation far exceeds that of the other races. This also determines that the number of high-level powerhouses in the human race is no less than that of the sea Race. Even if we can gain the upper hand in the past conflicts, when it comes to the life and death of our race, those countless experts will appear one by one. Even the sea Race will find it difficult to gain an advantage."

A leader of the ancient lizard clan, a member of the sea tribe who had two pairs of huge teeth on his back, couldn't help but ask, "Lord Guangcheng, what exactly is that rainbow stone? it actually caused a large scale war between two races. This subordinate is truly curious."

Guangcheng's face darkened. that's not something you need to know, " he said coldly. there's a saying among humans,'curiosity killed the cat.' You don't want to be that stupid cat, do you? "

The ancient lizard clan's commander shivered. He didn't dare to do that.

Hmph! Guangcheng snorted coldly. speed up the opening and stabilization of the passageway. When the deep-sea Giant beast descends, the entire Battlefield of the human race in the Eastern Region will be completely defeated!

Chapter 1010-siege

All the commanders had a serious expression on their faces as they followed Guangcheng and flew down into a barrier.

The barrier blocked all the power from the outside world. There was only a huge formation operating inside. A razor clam with a shell on his back and tentacles on his head was constantly setting up the barrier. He looked very tired.

Around the formation, there were four commanders of the sea tribe, who were constantly pouring their power into the formation. Above the formation, a small black ball was constantly flashing with a terrifying aura. It was getting bigger and bigger. The black ball was swallowing all the divine sense, and no aura could be detected.

"How's the situation, master priest?" Guangcheng asked in a low voice.

The razor clam was a great Alchemist of the sea Race, and his status was even higher than that of human alchemists. In a place with a strict hierarchy like the sea Race, even the experts of the royal family had to be polite to him.

Without raising his head, priest said after a while, the main array has been set up. It will take about five days for the space to be fully opened. The power required to summon the deep-sea Giant beasts is too great. The sea crystals contributed by the hundreds of races will probably only be used a few times.

"There's no need to worry about Jingshi at all. We'll leave it to you, master," Guangcheng said with a happy expression.

“If it’s a deep-sea monster of that level, summoning a few of them would be enough to solve all problems. Don’t damage the human’s city too much, I want to take it back and study it. ”

“Definitely. We’ll try our best to keep the original appearance of the giant city.”

“Mm, that’s good!”

After saying that, priest waved his hand, signaling Guangcheng to leave. Only the commanders of the sea tribe were left behind. They had to use their strength to stabilize the spatial passage.

Three high-level martial Supreme powerhouses were hidden among the mighty siege team. They looked coldly at the huge city in front of them as they got closer and closer.

A trace of bloodthirsty cruelty flashed across the commander’s face. He licked his lower lips and said, ” “If the three of us take down the megacity directly and Lord Guangcheng’s summon is in vain, what do you think his expression will be?”

“Hahaha! If you don’t give Lord Guangcheng a chance to show off, he’ll definitely tear you apart!”

The commander of the devil otters tribe laughed out loud. With 100000 elite soldiers, the city in front of them seemed to be within his reach.

The commander of the strength whale glanced at the ugly Fishman beside him, and a cold look flashed across his face. He snorted, ” “Ugly fish, I didn’t see you make a sound on the way here. Could it be that you think you’re better than the two of us and don’t want to talk to us?”

The commander of the devil Otter tribe was also displeased, and his eyes were filled with hostility.

The ugly fish clan’s commander looked at the two of them coldly, and snorted, ” “How could I dare to underestimate the two lords? it’s just that I can’t agree with the unrealistic fantasies of the two of you. Our mission is only to restrain the human race and not let them ruin our plan. As for breaking through the city, I’ve never even thought about it.”

“Hmph, what if it’s broken?”

The commander of the power whale clan said, “ even if they have more high-level martial sovereigns than us, who can stop this endless attack? Can you block it?” He waved his hand and pointed at the ugly fish commander.

The ugly fish clan’s commander smiled, and said, “ Of course I can’t, but I don’t know if this giant city can.”

The strength whale commander snorted in disdain and said, “ If that’s the case, then we’ll attack the city with all our might and try to break through in one go!”

The ugly fish clan’s commander’s expression changed, and he said, “ Lord Guangcheng’s order is to contain the humans. If we mobilize all our forces from the beginning, how can the three of us bear the responsibility if something goes wrong? I suggest that we attack the city in batches, with probing as the priority and planning to delay for ten days. This way, it’s better to be prepared.”

“Ten days? Hahaha!”

“Give me three days and I’ll be able to conquer this city!” Commander mo ting laughed.

The ugly fish commander’s expression turned slightly cold, and he said, “our mission is to pin them down, not to cause trouble.”

“Alright, I’m done!”

The strength whale commander looked at him with contempt and said, “ mo ting and I have already decided to take down this city with all our might. If you think it’s inappropriate, then please get lost.

The ugly fish clan’s commander’s expression changed drastically, and he said in shock and anger, “Are you going to disobey Lord Guangcheng’s order?”

“What do you mean by disobeying orders?”

“We’ll take down the giant city. There’s no rush for Lord Guangcheng to be happy,” the commander of the devil Otter tribe sneered.

The ugly fish clan’s commander glared and frowned, shouting, “If that’s the case, I’ll take one-third of these 100 tribes with me. I can’t let you all suffer losses. If we can’t restrain the human tribe, it will affect Lord Guangcheng’s plan, and the three of us will be wiped out!”

“Hmph, what a joke! How are we going to attack the city with one-third less?”

The commander was extremely dissatisfied and shouted, “If you want to get lost, you can get lost alone. Don’t even think about taking a single soldier away from here!”

The ugly fish commander’s expression was extremely unsightly, and he said angrily, “I won’t let you guys mess around!”

The atmosphere between the two suddenly became stiff, and it seemed like they were about to fight.

Commander mo otang’s expression darkened. “Ugly fish, we understand what you’re thinking, but Lord Guangcheng wants us to attack the city together. It would be better to divide the troops into three groups of two, three, and five to attack separately, extending the time difference. This way, even if they couldn’t take down the giant city, they could delay for a few more days. We have to keep attacking to keep the human race occupied.”

Only then did the ugly fish’s expression turn for the better. He knew that he couldn’t fight against the two of them alone, so he could only compromise.

The 100,000 men stopped 10,000 meters away from the city and began to be divided into three batches.

At this moment, everyone in the skyscraping city was extremely nervous. They looked at the sea tribe members who were constantly setting up formations in front of them. They felt indescribably depressed, as if a storm was brewing.

On the main city Tower, the Martial Emperor powerhouses looked solemn. There was a hint of excitement in their nervousness.

it seems like the sea Race is determined to attack the city this time, " ning Huaishu said. how do you all think we should deal with this? "

Killing intent flashed in Ren zhanxiong's eyes as he said, " how else can we deal with them? we'll deal with them as they come. Why don't we form an ambush team again and disrupt their arrangements? we'll catch them off guard!

Ning Huaishu nodded and said,"that's right, this plan is feasible." I wonder if anyone has any other ideas?"

Zhuang Sheng said with a solemn expression, " I don't think it's appropriate. There are too many people this time. They're a hundred times more than the Warriors of our tribe. Although we can't see any martial sovereigns in the ninth heaven, we can't rule out the possibility that the sea tribe has deliberately hidden their strength. I think we should focus on defense. When they rush to the city, we'll open the restriction of the towering Sky City and kill them!

Ning Huaishu smiled and said,"that's right, master Zhuang Sheng's words are exactly what I want." However, in this way, the power of the huge Sky City would be exposed!"

"There are several extremely powerful restrictions in this city," Zhuang Sheng said."We only need to activate one or two of them. Moreover, these restrictions are meant to deal with this situation."

yes! ning Huaishu nodded continuously and said happily, " since that's the case, we'll do as you say. We'll rely on you to control the restriction of the sky-towering city!

Zhuang Sheng nodded solemnly, turned around, and left the main city Tower to the control hub of the skyscraping city.

After several hours of suppressed waiting, three war drums were finally sounded on the city gate tower. Three-colored lights spread across the city.

All the martial artists in the square were on high alert. The order they had received was to wait for orders and no one was allowed to act without permission. Although there were many people in the square, it was unusually quiet.

The captains on the city wall were slightly restless. The sea tribe Army that covered the sky and the earth began to slowly advance. Their speed became faster and faster, and soon, the sounds of battle could be heard from afar, shaking the world.

“Has no one received the order to attack?”

...

One of the team leaders couldn't hold it in any longer. His hand was covered in sweat as he clutched his sword hilt. He was extremely nervous.

The sea clan's people had already rushed within a thousand meters. They were densely packed in the air like a locust plague. Moreover, they had all kinds of strange appearances, which made people shiver.

Moreover, all kinds of violent forces began to spread out from the sea Race. Blade auras and fist forces, those who were slightly stronger, had already begun to bombard the city from a distance!

Yunxiao gave him a look and chuckled. “Calm down. The higher-ups have their own plans. I'm afraid they are going to open the defense mechanism of this huge city.”

As soon as he finished speaking, a gray light suddenly appeared above the giant city. It opened up like an umbrella, directly blocking the various attacks from the distance. It was like fireworks blooming in the sky, beautiful beyond belief.

Immediately after, a large number of strange symbols appeared outside the city out of nowhere and gathered outside the city. They grouped together in threes, threes, fives, and fives and kept rising into the sky. When they reached a certain height, they started to burn on their own.

In the light of the fire, the runes from before gathered more and more, and the combination became larger and larger. Slowly, they condensed into a large formation with a radius of more than 100 meters, floating in the air outside the city.

The array glowed with a golden light, and the flames in the surroundings suddenly soared into the sky and spread. It was as if the gates of the fire hell had been opened, and the raging flames poured out, roaring toward the locust-like sea tribe warriors.

“Pfft! Pfft!”

The sea tribe warriors who were at the forefront of the group were burned to ashes by the flames.

The members of the sea Race spent most of their time in the water. Other than a few specific races, they were all afraid of fire. They immediately panicked. The entire sea of fire was filled with miserable screams as they desperately fled to the back.

...

Everyone on the main city Tower was overjoyed, and their faces were unusually excited under the illumination of the fire.

Ning Huaishu was in a good mood. I didn't expect master Zhuang Sheng to use the most powerful fire origin array in one go. Moreover, it's only in the initial state. This skyscraping city is indeed a treasure! he said.

Everyone in the city looked at the sky in shock. The sky was completely red, as if the might of the heavens was surging, and the god of fire had descended.

Under this extremely terrifying power, everyone pursed their lips and stared blankly.

The entire sea tribe's charge was immediately dispersed by the flames, but there were also many powerful ones who directly withstood the sea of fire and furiously charged into the city.

Some of the races had extremely strong water attributes. Although they were afraid of fire, they also had a strong resistance to fire. A layer of white film appeared around their bodies, directly isolating them from the fire. They were not afraid of fire.

At this moment, an order came from the city wall, "Everyone, attack together and kill the remaining evildoers who have crossed the sea of fire!"

A long, long time ago, there was an ancient kingdom. There was a Princess with snow-white skin, bright red lips, and black hair. In the kingdom, there was a coquettish and jealous Empress who would look at a mirror every day and ask,
