

The Eternal 1041

Chapter 1041

1041 Level 9 warship

“?!”

A chill spread in everyone’s heart. Even Liao yangbing and the others couldn’t believe it. The truth kept hitting their eyes and minds.

A high-level martial Supreme had fallen just like that. From his awe-inspiring appearance to his disappearance in the end, every single process had been witnessed clearly. However, it was hard to believe.

Yunxiao raised his eyes and looked at beiming Laifeng as he said coldly, “Young master wind, it’s your turn to die.”

“Shock!”

Beiming Laifeng could not help but shiver, and it was only then that he realized that no one was around him, and that they had all retreated hundreds of meters away. He could not help but step back as well, as if he could not face the pressure from Yunxiao.

Yunxiao gave him a look and felt disinterested. Then, he looked up at the ninth-grade warship and said, “since they’ve used such a huge object, it can’t be just a mere seven-stars Martial Emperor, right?”

Cold sweat broke out on everyone’s foreheads. ‘What a trash of a seven-stars Martial Emperor!’

The battleship was still hovering in the sky without any reaction.

Suddenly, the array on the ship shone with a bright light, and an attack was slowly condensing, its target being Yunxiao.

A spatial binding force came from the ship, imprisoning the sky within a thousand meters. Everyone felt as if their bodies had sunk into a paste, and their movements became abnormally slow. Their movements became slower and slower, making it difficult for them to escape.

Beiming Laifeng's face was filled with surprise, but at the same time, he was also very confused. There shouldn't be any other experts on this ninth-rank warship besides Beiming Ze, so who was commanding the warship?

A thought suddenly flashed through his mind. Could it be that the clan had sent another expert to follow him?

When he thought of this, he was both surprised and delighted. He was happy that he no longer had to fear Yunxiao, but surprised that he was so incompetent in the eyes of the experts in his family. He wondered what effect it would have on him if the news was spread back.

Yunxiao's face flickered. This kind of spatial binding technique was even more difficult to deal with than the one that could directly suppress the space and lock it into an iron bucket. As the saying went, 'the strongest is easily broken, and only the most gentle can last.'

He raised his hand, and the divine realm tablet flew out slowly. It directly turned into a ray of light and broke through the sky, flying ten thousand meters into the air. It kept spinning in a spiral, getting bigger and bigger, and then pressed down on the ninth-rank warship.

"What kind of profound level weapon is that? It can break free from the space bind of the battleship?"

Beiming Laifeng was taken aback. He was well aware of how powerful this spatial restraint was. Even a high-level martial Supreme would find it difficult to break free from it. Even if he used an extremely sharp profound level weapon to cut open a crack, it would be able to close up in an instant. It was a binding technique that was almost impossible to break.

However, the power of the world on the divine realm tablet directly devoured all kinds of forces and was invincible. The space constraint was also easily broken by the power of the world.

The size of the divine realm tablet grew larger and larger, and it fell faster and faster.

“BOOM!”

The white light finally hit the defense of the battleship and kept devouring the defensive power. Moreover, the divine realm tablet was still growing bigger, as if it was not convinced by the size of the battleship.

Beiming Laifeng’s heart skipped a beat, and he was dumbstruck by what he saw. He could only watch helplessly as the starship’s defenses were broken and the stele fell.

At that moment, the ninth-grade battleship began to turn illusory and gradually left this world. It had activated space jump in an attempt to avoid the bombardment of the divine realm tablet.

“Boom boom boom!”

Just as the ninth-grade battleship became illusory, the divine realm tablet finally fell. It didn’t pass through the body of the battleship and fall to the ground as everyone had expected. Instead, it hit the battleship firmly, causing a shocking explosion!

The entire ninth-grade battleship trembled violently in the sky. The illusory body of the battleship solidified again and kept performing space jumps, trying to get rid of the divine realm tablet that was pressing on it. However, it was to no avail. Like a cicada caught by a Mantis, it could not break free no matter what.

How could this be?

Everyone was a little stunned. Although it was the first time for many people to see a ninth-grade battleship, they had heard too many rumors about this ultimate battleship. Not only were its attacks extremely powerful, but its defenses were also astonishing. But now it seemed that it was easily suppressed by a profound level weapon and could not escape. It seemed to be far from the rumors.

“Stop!”

Suddenly, a loud roar came from the battleship, and then a beam of light rushed out. A strong force gathered in front of the tablet and turned into a huge palm, which hit the tablet!

“BOOM! BOOM! BOOM! BOOM!”

Waves of energy shook the sky, and the entire sky was filled with ripples. Everyone felt dizzy, and their internal organs felt extremely uncomfortable.

When beiming Laifeng saw who it was, he was shocked and cried out, “Elder Kang Tian!”

That figure was actually beiming kangtian, the elder who had brought him to the red moon City to participate in the joust for a spouse Festival.

Beiming Laifeng had an indescribable feeling in his heart. The ninth-grade battleship was extremely huge, and there was too much space inside. He didn’t even know who was hiding inside. If everything went smoothly for him, beiming kangtian probably wouldn’t have appeared at all.

At this moment, darknorth kangtian was also extremely depressed. Before, he didn’t take the divine realm tablet seriously at all. He thought that it was just a gravity profound weapon, which was not worth mentioning in front of a ninth-grade warship.

However, after he landed, he realized that he had made a huge mistake. Not only was space jump completely ineffective against this thing, but even with the strength of the battleship, it was gradually unable to hold on. If the gravity of this thing continued to increase, the entire battleship would either be crushed into two or crash. That would be the biggest joke!

Since the birth of the ninth-grade battleship, no one had ever heard of it being crushed by a profound level weapon. If this happened to the beiming family, not only would they become the laughingstock of the world, but as beiming Laifeng’s Secret spy, he would also be unable to escape the blame.

Therefore, at the first moment he found something wrong, he rushed out directly and attacked the divine realm tablet madly. To his horror, the profound level weapon was not damaged at all under his stormy attack! He was a Peak Eight-star Martial Emperor expert, only one step away from the peak of martial Dao, the nine-star realm!

Yunxiao was also shocked, and his pupils constricted.

The moment Darknorth Kangtian appeared, he knew something was wrong. The divine realm tablet was connected to his mind, so it couldn't withstand the storm of attacks at all. He hurriedly made hand seals with one hand, and with a thought, the divine realm tablet immediately flew up and quickly turned into a meteor that flew back into his body.

Yunxiao's face turned pale. He hurriedly adjusted his breathing and stayed alert.

With the departure of the divine realm tablet, the battleship finally stopped shaking and continued to hang quietly above. However, the figures on it flickered and flew here and there, as if they were beginning to repair the damage.

Darknorth Kangtian flew down from the warship and appeared directly in front of Yunxiao, staring at him with cold eyes.

Yunxiao's heart sank, and he could not help but take a few steps back to keep a safe distance from the man.

Killing Beiming Ze had already greatly damaged his vital Qi, so it was impossible for him to fight with Beiming Kangtian again. At this moment, he was in the hands of a Peak Eight-stars Martial Emperor, and it was a problem whether he could escape.

Behind him, Liao Yangbing and the others were all very nervous, especially Liao Yangbing, who secretly regretted that he had placed the wrong bet. With such an expert here, there was no way Yunxiao could make a comeback today.

you're already a two-star martial sovereign.

Darknorth Kangtian stared at him for a long time before he finally spoke.

not at all," Yunxiao said humbly. Compared to elder Kang Tian, who is at the peak of eight-stars, there is still a gap.

"Hmph!"

Darknorth kangtian snorted heavily. Yunxiao's words did not feel good in his ears. He said coldly, "Are you mocking me?"

...

Yunxiao pretended to be horrified and said in a hurry, "How dare you! Elder Kang Tian is someone who stands at the peak of the continent. If I were to mock you, wouldn't I be courting death?"

Darknorth kangtian snorted again and said coldly, "You've killed the people of my Beiming Dark Palace. Do you still want to live?"

I'd be dead if you didn't," Yunxiao said with a faint smile. I'd be dead now.

He also felt a burst of strangeness in his heart. Why was darknorth kangtian so good-tempered and long-winded with him?

Killing intent burst out from darknorth kangtian's eyes as he said in a cold voice, "I don't care how glib your tongue is, but you've killed Beiming Ze. It'll be hard for you to live now."

Very difficult?" Yunxiao asked in surprise. Then how can I survive?"

His mind raced, and all kinds of speculations appeared in his mind.

Darknorth kangtian snorted for the third time. His lips moved slightly, and he actually used Secret Sound transmission.

All the Warriors were greatly disappointed. They were all nervously watching the two people's conversation. They couldn't hear it all of a sudden, and their hearts were very stifled.

Darknorth Laifeng also furrowed his brows, not understanding what darknorth kangtian meant.

Yunxiao had killed beiming ze and damaged the ninth-tier warship, which was an absolute crime punishable by death. How could he live? Besides, with Yunxiao's talent, he could be sentenced to death ten thousand times. Such a monstrous man could not be left in this world!

...

After hearing the voice transmission, Yunxiao's face changed drastically, and his pupils constricted. 'Darknorth kangtian has actually discovered my indestructible golden body!'

When beiming kangtian saw Yunxiao's look, he was also shocked, but he could not hide his surprise and excitement. He was not sure when he saw Yunxiao's transcendence golden body in the battle. After all, it was very different from ao changkong's. So, he immediately got the answer from Yunxiao's expression after a little test.

He swallowed his saliva. If he could obtain the imperishable golden body from this kid, the credit he would get would be unimaginable.

Yunxiao also realized that he had lost his composure, and he felt vexed. The look on beiming kangtian's face also showed that the other party had completely perceived his state of mind. He sighed inwardly and knew that he could no longer hide it, so he could only send a voice transmission, "I'm not too sure about the origin of this body refining technique either, but it's an absolute art after all. It's not too good to hand it over to Lord Kang Tian just like that, right?"

"Your life and death are in my hands now," said darknorth kangtian coldly, "what qualifications do you have to negotiate with me? At most, I'll beat you half to death and directly search your soul."

soul search?" Yunxiao laughed. soul search?" I'm a ninth-tier great Alchemist, are you sure you want to search my soul?"

Darknorth kangtian's face turned pale. It was too dangerous to search the soul of a ninth-tier Alchemist, and he was afraid that the other party would erase his memory directly, which would be troublesome.

Killing Yunxiao was a big deal, but obtaining the tyrant body tempering technique was even more important.

young master Yun, " he finally said in an amiable tone, " I also admire that you're a one-in-a-million genius. I really don't want to kill you just like that.

Chapter 1042

1042 Poaching

Yunxiao sneered in his heart. But, since the other party had a request, he was safe for now. He smiled and said, " in that case, thank you very much, elder Kang Tian. I have something to do for the time being. We'll talk about it in detail next time.

He turned around to leave.

Darknorth kangtian's face darkened, and he said angrily, " Li Yunxiao, don't play dumb in front of me!

He reached out a hand, and the world froze. Yunxiao's figure came to a halt as a large amount of cold air spread out of his palm and swirled toward the old man.

With a flash of golden light, Yunxiao turned around. The cold air condensed into ice beads and gathered on the surface of his skin, unable to penetrate it.

An irrepressible excitement flashed through darknorth kangtian's eyes. Even his breathing became heavy as he said, " "I hate people who act dumb!"

Yunxiao smiled indifferently and retracted the golden light around him. He had achieved his goal, which was to make darknorth kangtian certain that he had the tyrant body tempering technique. Then, he would be able to turn the tables and take control of the opponent.

“The weather is cold and it’s not suitable to talk, shall we find a place to talk?” he said with a smile.

“That’s exactly what I want!” Darknorth kangtian said.

Everyone looked down and saw that it had all turned into ruins. There was no place for them to stand.

“Young master Yun, do you have the courage to talk on the warship?” darknorth kangtian sneered.

why not? ” Yunxiao laughed. why not? ” Besides, I’d like to see what the beiming family’s ninth-order warship looks like.”

The number of ninth-tier warships in the heavenly martial realm was very limited, and each of them had an amazing origin. As a ninth-tier Alchemist, he was more or less confident about them, except for the ones that had been produced in the past decade.

Darknorth kangtian sneered in his heart. At the same time, he glanced at everyone and said, ” “Now that baichong city has been destroyed, all of you can come up as well. There’s a communication formation up there that can send a message back to Redmoon city.”

Everyone looked at each other, and after a moment of worry, they followed.

Jing Yong ye’s face was filled with hesitation as he turned to the people within the sect and said, you guys don’t need to follow me. Just start the battleship and return to the sect.

The rest of the people from the moonbearing sword sect were shocked and said, ” “Elder, what are you doing?”

Jing Yong ye shook his head and interrupted everyone’s words,”My life was saved by young master Yunxiao. I can only rest assured when I see that you are safe. Besides, there’s still one person I haven’t taken care of yet!”

His eyes turned cold as he looked into the distance.

Yan Shushu also seemed to have sensed it, and his expression changed slightly. However, he only snorted heavily. Right now, the Beiming family was the most powerful family. As long as he could hold on to the Beiming family's leg, he didn't have to worry about anything.

Darknorth Laifeng flew to Darknorth Kangtian's side, lowered his head and said, "Elder Kang Tian, Laifeng is incompetent. Please punish me."

"It's not your fault," said Beiming Kangtian. "It's just that Li Yunxiao is too abnormal. Even I have to be a little afraid of him."

Beiming Laifeng's heart trembled with shock. He hurriedly said, "If that's the case, then why did you waste your time?"

"I've thought about it," Darknorth Kangtian interrupted. "Monitor everyone's communication, and you're not allowed to spread the news that Yunxiao is here, or you'll be killed without mercy!"

Beiming Laifeng was stunned. "It's fine if you don't kill Yunxiao, but why are you helping him?"

However, he didn't dare to question Darknorth Kangtian's words. He hurriedly accepted the order and flew onto the warship.

Very quickly, other than a few people from the Moon Sword Sect who left in their own eighth-rank warships, the rest of the people entered the ninth-rank warships. It was the first time for most of them to board a warship like this, so they were filled with curiosity.

It was as big as a moving city, but there was a huge pit on the deck in the center. It was eye-catching, and it was caused by the falling of the divine realm tablet.

Everyone's hearts were beating wildly. Although they couldn't distinguish the material of the deck under their feet, it was definitely not something that could be destroyed with ordinary destructive power, let alone such a large pit.

Beiming Laifeng couldn't help but feel a hint of pride when he saw the shocked expressions on everyone's faces. He smiled and said, welcome to Beiming Dark Palace's ninth-grade battleship, the sinister Voodoo!

Every ninth-grade battleship had its own name, representing its unparalleled power.

Beiming Laifeng laughed. The fact that you're here proves that you're all fated to be here. We've all done our best in the previous battle. Now, please rest in the cabin.

He suddenly regained the demeanor of a King and did not look at Yunxiao at all, as if nothing had happened. This was also because he was trying his best to control himself, for fear that he would not be able to hold back the waves in his heart if he saw Yunxiao.

Yan Shu Shu moved closer to Beiming Lai Feng's side, and carefully whispered, Young master Liefeng, we can't let Li Yunxiao live.

Beiming Laifeng turned around, his face turning as cold as ice. His eyes were spitting fire as he angrily shouted, "Shut up!"

Yan Shu Shu was startled, and his body trembled as he retreated. He didn't understand why Beiming Lai Feng was so angry, but he was tactful and immediately shut up.

As soon as they entered the cabin, Liao Yangbing said with a serious expression, "Young master Yunxiao, what should we do now?"

Yunxiao's eyes were as clear as water as he said indifferently, "Everything's fine, nothing will happen."

Liao Yangbing was taken aback, but when he saw Yunxiao's indifferent look, he sighed in his heart and could not help but admire his indifference.

The cabin was extremely huge, and it didn't feel crowded even when a hundred people were sitting inside.

Soon, both Beiming Kangtian and Beiming Laifeng came in. The former gave Yunxiao a glance, then sat down quietly, as if he was not in a hurry.

Beiming Laifeng swept his gaze over the crowd, regaining his elegant demeanor as a young master, and said, "Now that Baichong City has been destroyed, there's no more danger to defend. What are your plans?"

The crowd fell silent, especially GE Zhengxiang and the other members of Baichong City. Their hearts were filled with endless sorrow.

E Lechi stood up and said, "We're planning to return to the skyscraping city first and listen to further instructions." [I wonder what young master Wind plans to do?] Are you still going to resist the sea clan with us?"

Beiming Laifeng sighed. It's my duty to fight against the sea race. Unfortunately, I have a mission to complete. I can't go with you.

"Oh?" E Lechi asked. I wonder what plans young master has?"

"I'm planning to break through the sea race's line of defense and enter the depths of the East Sea," Beiming Laifeng said with a serious expression.

Everyone was shocked, their faces filled with horror.

E Lechi was also shocked. The entire East coastline has been forcibly sealed off by the sea tribe. Once we enter the sea, we will immediately lose our advantage on land. On the other hand, the enemy only needs some low-level existences, and they can annihilate us in an instant with their numbers. It's extremely dangerous!

Beiming Laifeng's expression was also grave as he said, "I've also thought about this for a long time. The only way is to break through the blockade as quickly as possible and then completely shake off the sea tribe!"

Everyone was silent. With a ninth-grade warship, breaking through the seal of the sea Race was definitely not a problem.

young master wind," Yunxiao suddenly said. do you still remember the deep-sea Giant beast? "

Everyone's hearts trembled, and their expressions changed one after another. The might of the huge-faced beast was still vivid in their minds, making them shudder.

...

A fierce gleam flickered in Beiming Laifeng's eyes as he gave Yunxiao a resentful glance and said coldly, "Of course I remember! Although that beast is powerful, it's not enough to stop me, Xie Tao!"

that's good," Yunxiao said with a faint smile. that's good. I'm very interested in young master Lai Feng going out to sea. I wonder if you can take me with you?"

Beiming Laifeng was taken aback. He did not expect Yunxiao to cooperate with him. He snorted coldly and said, "Of course you can!" "Beiming Dark Palace welcomes all of you, and we'll definitely treat you well!" He looked around and said.

Everyone looked at each other in confusion.

Beiming Laifeng immediately explained the main points of the reason, and at the same time said, "I know that many of you are here for the reward. My Beiming family is willing to pay double the price to invite you all to help. What do you think?"

Anger flashed across Jing Yong ye's face, and he said, "Young master Laifeng, it's a critical time for the war between our two races, and you're trying to poach someone from the United Front? Isn't this a little too immoral?"

Beiming Laifeng's face darkened, and he said in a cold voice, "Morality? I'm only taking the bait if I'm willing, I'm not forcing you, so how is this against morality? This friend, you must think before you speak, don't speak nonsense!"

“That’s right! I’m the first to agree and am willing to stay!”

Yan Shushu hurriedly added. Right now, he had to be together with the beiming family. If he didn’t have the protection of the beiming family, he was afraid that he would be skinned alive by Jing Yong ye.

Only now did a smile appear on beiming Laifeng’s face. He nodded and praised, “Welcome, welcome.”

This time, everyone began to discuss in low voices. Many people were willing to stay. The battle at baichong city had made the mercenaries realize the ferocity of the war. Money was not easy to earn, and it was relatively safer to stay on the ninth-grade warship.

...

However, the expressions of the few people from Red Moon City changed slightly, and they stood up one after another.

E Lechi said, “ since young master Lai Feng is busy, it’s not appropriate for the red moon City to force him. We’ll leave now. We’re in a hurry to go back and report.

“No rush, no rush,” beiming Laifeng laughed. Is there anyone else who wants to leave? you can leave together.”

At this time, several people stood up and followed behind the people of the red moon City.

A strange smile appeared on beiming Laifeng’s face as he said, “Since you don’t want to stay, I won’t force you. Please.”

E Lechi and the others nodded and walked straight out of the cabin after a few polite words.

But a moment later, they returned with ashen faces.

E Lechi's expression turned unsightly. young master Lai Feng, " he said, " this warship is almost at the East Sea!

"Time is of the essence," beiming Laifeng said with a playful smile. We've already entered the sea tribe's line of defense. If you want to leave, you should hurry down now. It'll be troublesome if the sea tribe finds you later."

Everyone's expressions changed drastically. They knew that beiming Lai Feng had done this on purpose.

At this moment, a shout suddenly came from outside, " "Lord Lai Feng, we've discovered a strong enemy of the sea Race!"

Beiming Laifeng's face changed, and he immediately said to the others,"Everyone, calm down. With the evil Gu here, breaking the defense line is easy."

He turned around and walked out of the cabin, saying to e Lechi and the others, " "You guys can leave now. I'm going to fight the sea Race."

The faces of e Lechi and the others all turned pale. Wouldn't they be courting death if they went down now?

Chapter 1043

1043 Peerless talent

"Time is of the essence," beiming Laifeng said with a playful smile. If you guys want to leave, hurry down now. If you're discovered by the sea Race, you won't be able to leave."

A hint of mockery flashed across beiming Laifeng's face. He left the group behind and left, leaving e Lechi and the others behind. They didn't know whether they should leave or stay.

A disciple of the beiming Dark Palace stepped forward and said, " "Milords, please leave with me. The Starship is about to activate its defenses, it won't be easy to leave when that time comes."

Anger and gloominess flashed across E Lechi's eyes as he said coldly, "Please give us a communication device so that I can ask the red moon City to send someone to contact us."

The disciple sneered, "I'm sorry, the sea Race has appeared. We're busy facing the enemy and have no time to serve you. You should leave quickly."

E Lechi and the others were all furious, but they couldn't lose their temper. They snorted heavily and followed the disciple.

A moment later, they saw a large number of sea tribe members appear in front of the battleship. They densely covered the entire sky, and waves swept up and surged into the clouds.

Several extremely powerful and terrifying auras came from the waves, as if some monster was hiding inside.

The disciple sneered. please leave. We'll wait for you to leave so that we can activate the defense.

E Lechi's expression turned extremely unsightly all of a sudden. He said, "I suddenly feel that staying on the battleship and exploring the ruins of the palace with the experts of the beiming family might be an interesting thing."

The disciple snorted in disdain and said, "but now that the two clans are at war, it's time for the Eastern Region to unite. You're all martial Supremes from the red moon City. It's unreasonable not to stay behind to resist, right?"

"Who said that going out to sea isn't a form of resistance?" ruan Xiquan chimed in. Now that whiterush city has been destroyed and there's a gap in the eastern sea defense line, we'll charge over and break through the sea race's defense line. We'll go deep into the inner region of the eastern sea and cause them great trouble. In fact, we'll be actively counterattacking."

The disciple's face twitched. He did not expect a martial sovereign of the ninth heaven to be so shameless. He snorted and said, "Have you really thought it through?"

Ruan Xiquan nodded. we'll attack as a defense and disrupt the rear of the sea tribe. This is also the overall situation of the United Front. We've thought it through. However, I would like to ask this friend from the beiming family to help us find a communication device so that we can send the information of this place back to the red moon City."

The disciple looked as if he had expected this and snorted coldly, "If you want to send a message, just tell me. I can do it for you. If there's nothing else, please return to the cabin."

E Lechi's face was gloomy, and he felt extremely humiliated. However, the situation was more pressing than he could handle, so he could only swallow his anger. He snorted heavily, turned around, and returned to the cabin.

Ruan Xiquan was also very displeased. After a moment of consideration, he wrote down the information about this place and Yunxiao's matter, then asked beiming Dark Palace to send the message.

The disciple picked up the message and glanced at it, then turned around and left.

Soon after, the information fell into beiming Laifeng's hands. After reading through it a few times, he sneered, these people from the red moon City are really cheap. They especially took out their faces for me to slap. Why should I be polite? "

He modified the message and erased everything about Yunxiao, then handed it over to his subordinates to send it back to red Moon City.

Soon, the people in the cabin saw e Lechi and the others return. They sat down with sullen faces, as if no one was around.

With a smile in his eyes, Yunxiao exchanged a glance with Liao yangbing. This was an outcome he had expected.

The corners of darknorth kangtian's mouth also rose slightly as he said with a smile, "Since a few friends from Red Moon City are willing to stay and help, then the possibility of finding my old brother Tianlu will be greatly increased. Darknorth kangtian is truly grateful."

“Elder Kang Tian, you’re too serious!”

Only then did the expressions of the few of them improve slightly, and they hurriedly got up to respond.

After all, darknorth kangtian’s status and strength were clear for all to see. Being able to exchange a few polite words was already giving them some face.

“Since you’re all willing to go out to sea with my beiming Dark Palace,” said darknorth kangtian with a smile, “we’re all partners on the same front. Why don’t you all follow me out of the cabin and see how the sea race’s blockade is doing? if there is any difficulty in breaking through, I will need to rely on your help.”

“Elder Kang Tian is too polite!”

Yan Shushu hurriedly stood up and said, “Since we’re willing to stay, we naturally have to do our part. We can’t just stay here and do nothing.”

Darknorth kangtian narrowed his eyes and smiled as his eyes swept over Yunxiao, intentionally or otherwise.

Everyone left the cabin in groups and came to the observation platform on the deck, which was large enough to accommodate hundreds of people.

At this moment, the starship’s defenses had already been activated, and as Yang Kai’s eyes swept over them, he could see layers of light of various colors spreading out, tightly wrapping up the Starship.

Beiming Laifeng hurriedly turned around and saluted to darknorth kangtian.

Darknorth kangtian said, “ there’s no need for that. You can just treat me as invisible. All the commanding rights are in your hands. If I have any requests, I will definitely ask.”

“Yes!”

Beiming Laifeng bowed and accepted the order. He also knew what beiming kangtian meant. This trip to the sea was a test given to him by his family, and beiming kangtian was only responsible for monitoring and ensuring his safety. If Yunxiao had not appeared, he would not have known that such an expert was on the warship.

Darknorth kangtian beckoned at Yunxiao, then went straight to the front of the spectator stand and leaned against the railing.

Yunxiao smiled faintly. He knew what darknorth kangtian meant. He stepped out of the crowd and walked forward, looking at the sea.

Darknorth kangtian waved his hand, and a barrier immediately spread out, completely enveloping the two of them and isolating all sounds.

His actions immediately caused everyone to speculate. Liao Yang Bing was even more worried, and beiming Lai Feng's expression was also not very good. However, he tried his best to calm himself down and began to prepare for the battle with the sea Race.

Darknorth kangtian looked at the sea Race Army and said indifferently, “Young master Yunxiao, do you think we can make it through?”

elder Kang Tian, you don't care about this at all, ” Yunxiao said with a smile. why do you have to ask? ” Moreover, if you can't, why are you so calm, elder Kang Tian?”

Darknorth kangtian glanced at him and said with a smile, ” “The title of the number one rising star is indeed not for nothing. Not only is your strength shocking, but your intelligence is also amazing. Young master Yunxiao, have you ever thought of joining our beiming Dark Palace?”

I've never thought of it, ” Yunxiao laughed in surprise.

beiming Dark Palace is one of the top forces even among the seven major forces, " said beiming kangtian. they will never insult young master Yunxiao's talent. In a few decades, the heavenly martial arts realm will be the world of you young people. At that time, with young master Yunxiao's ability, he will be qualified to be the great elder of the mysterious Palace!"

Yunxiao's heart jolted. When he saw darknorth kangtian staring at him and observing his reaction, he immediately smiled and said, " the great elder of the beiming Dark Palace is truly a peak existence in the world. Elder Kang Tian is really willing to pay for it. However, the position of great elder isn't something that elder Kang Tian can decide, right? "

Beiming kangtian laughed. it's not something I can decide, of course. But with young master Yunxiao's strength, it's a sure thing. If it weren't for the fact that the position of the palace Master of the mysterious Palace is not passed on to outsiders, I'm afraid young master Yunxiao would have enough power to become the palace Master.

A bright light flashed in his eyes as he said, " I've watched Lai Feng grow up since he was a child. His talent and wisdom are both rare candidates for hegemony. In the past thousand years, no one in beiming Dark Palace has been as talented as him. Originally, I thought that even if Lai Feng's talent wasn't the best in the world, he wasn't far from it.

beiming Laifeng is indeed a genius, " Yunxiao nodded in agreement. given enough time, he will definitely be the world's Overlord in the future.

Darknorth kangtian said, " my eyes were not wrong. Among the two Holy Lands and the seven major forces, only Cheng Haoming of the soul devouring sect can compete with him. However, the cultivation technique of the soul devouring sect is too evil and overbearing. The cultivation progress is extremely fast, and the power is also extremely great. However, the further one goes, the less power he will have. So, Cheng Haoming's victory is only temporary.

His voice suddenly turned cold as he said, " So, among the younger generation in the world today, the only one who can pose a threat to Laifeng is you, li Yunxiao!

thank you for thinking so highly of me, elder Kang Tian, " Yunxiao said with a smile.

“It’s not that I think highly of you, but I’ve always looked down on you!” Darknorth kangtian said in a deep voice. If Lai Feng is a once-in-a-thousand-years Overlord, then you are a once-in-ten-thousand-years peerless Martial Emperor. Thousands of years ago, ye Nantian was probably just like you.”

...

the size of the world is immeasurable, ” Yunxiao said. it’s hard to count the number of geniuses. Elder Kang Tian’s analysis is too serious.

it doesn’t matter if it’s serious or not, ” said darknorth kangtian. if you don’t die, you’ll definitely trample on the entire heavenly martial realm in the future!

elder Kang Tian, why are you telling me this? ” Yunxiao asked with a smile. what do you mean? ”

Darknorth kangtian’s eyes shone with a cold light. “Either you join beiming Dark Palace and never betray us, or I’ll make you lose the ability to threaten the beiming Dark Palace!”

you don’t want the tyrant body tempering technique anymore? ” Yunxiao laughed. do you want it? ”

Darknorth kangtian’s body trembled. After hearing about this peerless cultivation technique, the fluctuations in his emotions became stronger. He said in a cold voice, ” hand over the tyrant body tempering technique, and I’ll only cripple your martial arts Foundation. I’ll spare your life and grant you a lifetime of wealth!

Yunxiao’s face turned cold as he said, ” “Elder Kang Tian, why do I feel so uncomfortable when I hear that someone is trying to deal with me? Besides, I have a bad memory. Maybe I’ll forget a lot of things when I’m scared.”

Darknorth kangtian’s face turned unsightly as he said in a cold voice, ” “Li Yunxiao, you are a smart man, and joining beiming Dark Palace is the best choice for you! Unless you have the confidence to escape from me, don’t even think about living! Even if I don’t want the tyrant body tempering technique, I won’t allow a scourge like you to exist!”

I really don't have any good way to escape now, and you don't have any good way to get the tyrant body tempering technique from me," Yunxiao said with a sneer. we still have time.

Darknorth kangtian's expression was gloomy and cold, and he didn't say anything.

At this moment, among the sea Race, a huge wave crashed against the waves, and a water pillar shot up into the air. Several experts appeared on top of it, and the one in the lead was none other than run Xiang.

...

His expression was the same as usual. He had not used much energy in the previous battle, but his expression was cold as he said, "Damned human, how dare you look down on me!"

He thought that the other party was chasing after him, and the anger of being looked down on spread in his heart. He clenched his fists so hard that the bones in his hands cracked.

Chapter 1044-breaking through the defensive line

At this moment, the waves on the sea were unending, and the color of the sea water was getting darker and darker. All kinds of strange sea creatures were gathering rapidly, spreading out for thousands of miles.

Beiming Laifeng's heart sank as he stared at the surface of the sea."I'm from the beiming Dark Palace, and I need to go to the East Sea. I hope my friends from the sea Race can let me pass."

"Beiming Dark Palace?"

RUO Xiang was taken aback, and his expression darkened as a bad premonition welled up in his heart. Could it be that beiming Dark Palace had also joined the Eastern Region's united front? Could it be that the human race was already fully prepared for war?

He shouted in a deep voice, "Beiming Dark Palace might have some reputation on the heavenly martial continent, but it's nothing in the four Seas!" Do you think you can just let me through? Who Do You Think You Are?"

Beiming Laifeng's expression changed drastically, and he said in a cold voice, runxiang, I lost to li Yunxiao in the battle of Red Moon City, and I fled in defeat in the previous battle. If I'm nothing, what are you? "

even if I lose to li Yunxiao, " run Xiang sneered, " what does it have to do with you? " 'If Yunxiao didn't beat me, how could you feel happy?' If you have the ability, come out and fight with me. If you can win against the spear in my hand, I'll let you pass. Otherwise, get lost!"

Beiming Lai Feng was furious. He was very clear about run Xiang's strength, and he was even stronger than he was back in the red moon City. If he were to go out and fight him one-on-one, he would definitely have no chance of winning. He could only coldly snort, I have no right to make a bet on the sect's important matters. If it's just a personal grudge between you and me, I'm very willing to experience it.

"PAH!"

RUO Xiang spat on the ground and mocked in disdain, " "You're still willing to learn? Do you think you can withstand one of my attacks with your mediocre skills?"

Beiming Laifeng's face alternated between red and white. He gritted his teeth and said angrily, I'm not going to argue with you. Are you going to let me in or not?!

RUO Xiang's expression turned cold as he replied, "do I have to say it again?" Who Do You Think You Are, get lost!"

Beiming Laifeng's face darkened. He raised his hand and clapped, shouting, "Attack! Charge!"

The attack formation on the ninth-grade battleship rumbled as it activated, and ten thousand rays of light shot out from the ship, sweeping through the surroundings. The main attack formation even shot out a pillar of light that was large enough for several people to wrap their arms around, directly charging towards the water curtain platform that Yun Xiang was on.

The battleship then began to move, following the path opened by the pillar of light and accelerating.

RUO Xiang's expression turned cold, and with a thought, the water curtain heavenly platform exploded. He flew up into the sky and shouted, "Stop him!"

"Boom boom boom!"

Dozens of light beams shot out from the warship, scattering a large group of marine race experts.

A large number of attacks came one after another, all of them bombarding the light rings around the battleship, causing ripples to appear, but they were unable to break through.

"Bang! Bang! Bang! Bang! Bang! Bang!"

Suddenly, the sound of water breaking came from the surface of the sea. Countless tiny swordfish jumped out of the sea and actually flew into the sky, crashing toward the warship.

These swordfish were half a meter wide, their eyes were bright red, and the tough part on their heads was shining with a bright light, which was extremely sharp.

"Bang! Bang! Bang! Bang! Bang! Bang!"

Countless swordfish jumped out of the sea and flew in the air. They all hit the protective light of the warship and bounced back.

The entire coastal area was filled with such a strange and astonishing scene that the people on the battleship couldn't see anything, and all they could see were swordfish.

One of the disciples hurriedly ran up to beiming Laifeng and exclaimed, Lord Lai Feng, the primordial stones are being consumed at an extremely fast rate. It's ten times faster than we estimated and is still accelerating. If this continues, I'm afraid it'll reach the limit of the defensive formation!

what? ” beiming Laifeng was startled. don’t worry about the consumption. Continue charging!

“Yes!”

The disciple’s eyes were filled with shock. After responding, he turned into a ray of light and disappeared from the deck.

Darknorth kangtian looked at the strange scene in the sky. This was also his first time fighting against the sea Race. He frowned and said, “Young master Yunxiao, do you think we can make it through this time?”

Yunxiao smiled faintly and said, “this is the second time elder Kang Tian has asked me this. However, you were confident the first time you asked, but you’re not confident this time. Could these low-level fish also cause trouble for the elder?”

Darknorth kangtian stared at him and said, “ you’re indeed very cautious. You’re truly terrifying. You don’t know this, but the destruction of Haitian town was caused by countless of these low-level ocean existences, ants can kill an elephant!”

in my opinion, it’s only a matter of time before we break through the defense, ” Yunxiao said. but I’m afraid we can’t do it this time.

“Oh? Why?”

Darknorth kangtian was stunned and asked in confusion.

“Bang!”

Suddenly, the sound of a collision came from outside the battleship, causing the body of the battleship to shake slightly. Although it was slight, it made everyone’s expression change greatly.

This was a ninth-grade warship. Even a full-force attack from a martial sovereign of the nine Heavens realm would not be able to affect him at all.

At this time, everyone could clearly see that a large number of octopus monsters had landed on the warship. There were as many as seven or eight of them, and they covered the entire defensive barrier.

It must be known that the size of a ninth-grade warship was extremely large, and seven or eight octopus monsters could fill it. It could be seen that these octopuses were all huge creatures!

Countless tentacles as thick as a person's arm wrapped around the entire warship, causing its speed to suddenly slow down.

Beiming Laifeng's expression changed drastically. When these octopus monsters had first appeared, he hadn't taken them to heart. But now, they were directly slowing down the battleship's speed. If they couldn't break through the defensive line in front of them, it would be fatal for them!

"Attack! Attack with all your might! Smash these octopuses to pieces!"

The attack formation on the battleship was activated once again, operating crazily. Beams of light shot out in the air, each of which shattered a large number of tentacles. Those octopus monsters seemed to be unable to withstand a single blow, and they were blasted into pieces in an instant.

After that, a few bright red arrays on the ship were activated and a large amount of flames spurted out. They turned into phoenixes that danced in the air and burned all the swordfish and octopuses around them into ashes.

Beiming Laifeng heaved a sigh of relief and shouted, "Quickly advance! Charge over at all costs!"

"Pa! Pa! Pa! Pa!"

All of a sudden, several more tentacles appeared in front of him. All of a sudden, they all touched the defensive barrier of the battleship and bound the battleship again. The tentacles were even thicker than before.

He saw half of an octopus's head on the surface of the sea. It was a hundred meters wide and seemed to be the king of octopuses.

shut up! beiming Laifeng was furious. activate the main attack formation! Turn this octopus monster into meat paste!

Suddenly, Yunxiao frowned and said, "I'm sorry to trouble you,"

Darknorth kangtian was stunned and asked,"what?" Do you think that this main attack formation can't kill that octopus King?"

Yunxiao shook his head and pointed into the distance as he said, "You see."

...

He saw two hills on the sea in the distance moving over. When they got closer, he realized that they were two giant whales. Half of their heads were above the sea, and their bodies were even bigger than the octopus monster under the ship.

Darknorth kangtian's face darkened, and he asked suspiciously, "it seems to be an ordinary whale. I can't feel any combat power.

it is indeed the most ordinary big blue whale," Yunxiao said. it has no combat power at all, and it usually eats some small shrimps, but it is one of the largest sea creatures. He paused and added,"except for deep-sea Giant beasts."

"If that's the case, then what's the trouble?" beiming kangtian asked, puzzled. Could it be that the blue whale will jump up and eat us?"

those blue whales are huge," Yunxiao said. they are usually used by the sea clan to transport things.

“Boom boom boom!”

At this moment, the main attack formation of the ninth-grade warship was activated again, and a huge beam of light shot down, hitting the head of the octopus King. In an instant, its entire head exploded into minced meat, and it could not be more dead.

The tentacles that were tied to the warship were untied one by one and fell into the sea, freeing the warship.

“Advance!” Beiming Laifeng was overjoyed, and he roared, “advance!” Forward!”

All of a sudden, water shot out from the back of the two blue whales in the distance, straight into the nine Heavens!

Darknorth kangtian was shocked, and his pupils shrank. “That’s Yingluo.”

...

His expression changed drastically, revealing a look of shock. He saw that the blue whales weren’t just spewing out seawater, but countless creatures mixed in with it, and they were falling toward the warship.

“?! Starfish! It’s the supernova that overturned Haitian town!”

Beiming Laifeng immediately recognized the sea of starfish that were falling from the sky. He immediately sucked in a cold breath, and his entire body turned cold.

The starfish covered the sky and the earth, and they were endless. They fell on the defense of the warship, and there seemed to be a certain suction force. They were directly attached to the defense barrier and did not fall down.

“Gulu Gulu!”

“Gulu Gulu!”

Other than the starfish, the Guru beast that had previously overturned White rush City also fell with them. It exploded upon landing on the barrier, and purple light spread in all directions, constantly corroding the barrier.

Having just witnessed the destruction of baichong city, everyone’s faces paled even more, and they were on high alert.

A few martial artists were so frightened that their bodies kept trembling, and an uncontrollable fear spread in their hearts.

Darknorth kangtian was also dumbfounded. Even though he was a top-tier expert, he didn’t know what to do with such an attack. He could only ask in a daze, “What, what should we do?”

this is going to be troublesome,” Yunxiao sighed. Judging from the number of starfish and Gulu beasts that the two blue whales have spewed out, there must be the star burst race and the Gulu race in the nearby Sea area, which is why they can absorb and spit out the water continuously.

“Pa! Pa! Pa! Pa!”

The battleship was filled with the sounds of self-destruction, like firecrackers, continuous and deafening.

The layers of defensive light were constantly being corroded and destroyed, becoming thinner and thinner.

“Activate spatial jump!” Beiming Laifeng gritted his teeth and said.

Only then did everyone calm down and let out a sigh of relief. The space jump of a ninth-grade warship was enough to avoid all attacks and was the strongest way to avoid them.

However, many people recalled that when the divine realm tablet had fought against the ninth-grade battleship, even space jump had been completely ineffective. They thought that it shouldn't be so strange this time.

The entire ninth-grade battleship suddenly became illusory. Everyone realized that the sky around them had suddenly darkened. The entire battleship had already left the space it had been in.

As expected, the starfish and the GRU beasts lost their target all of a sudden. They fell from the sky and crashed into the sea like garbage.

There was going to be an update later.

Chapter 1045

1045 Clash of blows

"Ha, haha! As expected of a ninth-grade warship!"

Yan Shushu immediately began to flatter him, his face full of pride.

Beiming Laifeng also heaved a heavy sigh of relief. If even this spatial skipping technique failed, then he really didn't know what to do.

Although they were in the void, they could still see the shadow of the outside world. It was just like how the outside world looked illusory to them.

"Young master Yunxiao, you seem to have guessed wrong this time," darknorth kangtian said with a smile.

don't be happy too early," Yunxiao said with a faint smile. let's talk about it after we've rushed over.

Darknorth kangtian didn't comment, but when he looked forward again, his expression changed drastically. He saw the huge-faced beast in the outside world floating in the air in front of him. It was like a huge pancake with its mouth open.

A terrifying aura condensed in its mouth and shot out in the direction of the warship.

“BOOM!”

Not only did the black light shatter the outside world, but it also blasted into the void and hit the ninth-grade warship without a doubt.

“Boom boom boom!”

The entire ship trembled, and everyone was shocked. The deep sea Giant beast’s attack could reach the void!

This time, beiming Laifeng was truly panicking. The beast alone was enough to fight an entire battleship, and the attacks of a ninth-rank battleship were of limited threat to the beast.

Darknorth kangtian’s expression was also grave as he said, ” “What is this thing? He’s actually so powerful!”

Yunxiao kept staring at the deep-sea Giant beast and observing it. It had suffered some injuries in whiterush city, and it had been hit by a ninth-tier warship. Although it was still powerful, it was clearly much weaker.

“Boom boom boom!”

The second attack also came, directly shattering several layers of light shields on the battleship. Several defensive formations on the battleship suddenly exploded!

The huge-faced beast was still swaying left and right, making ” clang clang clang ” sounds.

Darknorth kangtian’s pupils constricted as he cried out in horror, ” “The power to break the world? The power that this thing spits out is comparable to a nine-stars Martial Emperor and can break a realm?”

Yunxiao's expression was also solemn as he nodded and said, "this thing's combat strength might not be as strong as a nine-stars Martial Emperor's, but its attack power can indeed break through dimensions. If elder Kang Tian is willing to help, I'm sure we can kill it with the attack of the main array of this ninth-level warship! Moreover, I think there's only one left in the coastal waters. Once this obstacle is removed, we'll definitely be able to break through the defensive line."

Darknorth kangtian's face twitched. He had also observed that although the huge-faced beast's attacks were powerful, its agility was too low. If he were to attack it personally, he would still have a certain degree of confidence in dealing with it.

But then, he thought of something and gave Yunxiao a vigilant look. After that, he opened the wizardry barrier for their secret conversation and gave an order to beiming Laifeng, "Let's retreat back to the land and avoid this beast. We'll think of a plan."

Beiming Laifeng was startled, and he hurriedly gave the order to retreat.

The tail of the entire battleship was too big to fall off, but it still quickly turned around and left. However, it took a few more attacks from the giant beast, and many of its defensive arrays were destroyed. It retreated for more than ten thousand meters before the giant beast stopped chasing after it.

"Boom boom boom!"

The ninth-grade warship descended from the sky and stopped on the ground. From afar, it looked like a city.

Everyone on the battleship was silent, each and every one of them still had a lingering fear.

Beiming Laifeng hurriedly ordered the alchemists on the warship to start repairing the ship, while he flew to the side of beiming kangtian and asked, "Elder Kang Tian, what do we do now?"

Darknorth kangtian glanced at him and said, "You think of a way yourself."

Beiming Laifeng, "hehe."

He felt depressed and even a little vexed, especially when he saw that darknorth kangtian and Yunxiao were so close. Since you want me to think of a way, why did you ask me to retreat?

Beiming Laifeng looked at Yunxiao, who had an indifferent expression on his face, and could not help but clench his teeth and say, "Young master Yun, do you have any good ideas?"

It had already taken him a great deal of courage to ask Yunxiao. He would never do something so embarrassing if he had not run out of ideas.

Yunxiao pondered for a moment and said, "in fact, it's not difficult to break that deep-sea monster. As far as I can see, although it is powerful, its energy recovery speed is extremely slow, and the ninth-grade warship is completely powered by primordial stones. In other words, we can maintain the supply level while they are getting weaker and weaker.

Beiming Laifeng's eyes flashed with a sharp light, but they quickly dimmed again. He smiled wryly, although we brought enough vitality stones with us this time, if we spend all of them on breaking through the defense line, I'm afraid it'll be difficult to maintain the operation after that. The consumption of a ninth-grade warship is unimaginable.

Yunxiao nodded. He knew this better than beiming Laifeng, and he said, "If that's the case, then we can only sustain ourselves through battle."

"Using battle to sustain battle?"

Darknorth Laifeng and darknorth kangtian both frowned, as if this was the first time they had heard of this term.

there are too many races in the East Sea to count, " Yunxiao said. and the abundance of treasures at the bottom of the sea is even more unimaginable. If we don't have enough primordial stones, we can only snatch them all the way.

“This Yingluo, we’ll snatch it all the way Yingluo”

The two of them were stunned on the spot. In their minds, as long as they could break through the defense line, they would quickly leave and avoid the sea race’s territory as much as possible to reduce conflicts. They had never thought that they would take the initiative to find them and snatch their things.

Both of them gave Yunxiao a strange look. Only a monster like him could come up with such a shocking method.

Yunxiao smiled indifferently. don’t worry, you two. The war between the two races has been going on for months, and all the races with a little strength in the coastal area have been summoned to participate in the war. It’s safe for us to go there. It was impossible for the powerhouses of these races to bring a large amount of resources with them when they left the encampment. You must know that the sea tribe is in short supply of profound level weapons, and they also don’t have many storage weapons.”

Darknorth kangtian pondered for a while and said, “ I think this method is feasible. Although there is a certain risk, using battle to sustain battle is enough to solve the problem of not having enough primeval stones.

Beiming Laifeng didn’t have any other good ideas, so he said, since elder Kang Tian agrees, we’ll wait for the ship to recover a little before we drive over and harass the giant-faced monster until it’s completely killed!

Darknorth kangtian’s eyes also flashed with a cold light as he said, “ “When that thing’s strength is exhausted, I will personally tear it apart!”

in fact, ” Yunxiao said with a smile, ” if elder Kang Tian had made a move just now, there was a great possibility that we could have broken through the defense line.

Darknorth kangtian gave him a glance and said coldly, “ “I’m sure I can kill it, but I’m not sure if I can control you after killing it!”

Yunxiao smiled in surprise, while Beiming Laifeng's body trembled, and his face changed several times as he carefully pondered the meaning of the words.

The damage to a few of the formations was not serious. It was just that the attack on the barrier had exceeded the defense that they could bear, so they had exploded on their own. They were quickly repaired.

Beiming Laifeng immediately gave the order to set sail, and the battleship rumbled through the air, once again heading for the coastal area.

This time, no one was as optimistic as before, thinking that they would be safe on the ninth-grade warship. They were all more careful and vigilant, just in case.

The battleship soon arrived in the sky above the coastal area. The front of the battleship had long lost its previous momentum, but soon, all kinds of Sea Race experts broke out of the sea and blocked the front.

...

RUO Xiang was also extremely shocked and angry. He didn't expect that the other party would return after just a short while. He roared, human scum, haven't you had enough of being beaten up?!

The ninth-grade warship did not reply. Instead, it responded with more than ten powerful attacks. Other than the main array, all the attacks were activated and blasted toward the sea tribe.

"Bang! Bang! Bang! Bang!"

Many members of the sea tribe in the sky were unable to react in time and were directly blasted into pieces. It became chaotic all of a sudden.

Run Xiang was so angry that his entire body trembled. He made a hand seal, and a gust of wind and clouds surged on the sea's surface. A huge Whirlpool appeared, and the huge-faced beast slowly rose from it.

Beiming Laifeng's eyes narrowed as he coldly said, "Focus your attacks on the giant face!"

All the formations on the battleship were locked down below, and dozens of attacks were shot out in succession. The huge light beam on the main attack formation was especially shocking.

"Boom boom boom!"

The attacks exploded on the huge-faced beast's face, creating ripples in the air.

The giant-faced beast was so infuriated that it roared loudly. Its face, which had been injured by the five elements barrier, was bleeding again. It roared and spat out black light, constantly bombarding the warship.

All the members of the sea tribe retreated a thousand meters and watched from a distance. A battle of this level was not something they could interfere with. If they went over, they would definitely be turned into scraps.

...

RUO Xiang's heart was filled with shock and anger, and he hurriedly shouted, "Giant whale!"

Not far away, the two giant blue whales began to emerge from the surface of the water, spraying a large number of low-level sea creatures down in torrents.

"Hmph!"

Beiming Laifeng snorted coldly as a sneer appeared on his face, "Spatial jump!"

Now that he had decided to kill this sea beast at all costs, he didn't even consider the consumption of primordial stones.

The warship disappeared into the void, and the low-level sea creatures fell into the sea. The warship could not be seen at all.

The attacks of the giant-faced beasts and the main array of the ninth-grade warship could directly break through the void and blast each other on two different levels.

After seven or eight rounds of attacks, only three or four defensive lights remained on the ninth-grade battleship. Only then did beiming Laifeng give the order to retreat, and they disappeared from the land in an instant, leaving behind only the desolate coastal area.

The huge-faced beast floated quietly in the air, but it was obvious that it was breathing. Every breath was very heavy, and its body was moving up and down with its breathing.

In addition to his face, which had been injured by the barrier's power, there were many more wounds on his body, all of which were left behind by the collision just now.

RUO Xiang's face was extremely gloomy. With the huge-faced beast's current condition, it would take at least ten days to half a month to fully recover. However, who knew when the people from beiming Dark Palace would come again!

"Retreat, rest, and closely monitor that warship!"

RUO Xiang roared in anger and flew into the sea after giving the order. The huge-faced beast also sank slowly until it disappeared.

However, in less than half a day, an urgent order was sent to the sea.

that ninth-grade warship is here again!

Chapter 1046-spent force

"Bang!"

The entire sea exploded into a huge splash, and run Xiang brought a group of Sea Race experts to the surface. Each and every one of them had an extremely ugly expression as they stared at the ninth-grade battleship that was approaching from afar. In a few breaths, it arrived in front of them.

“Dammit! They must have discovered that the giant-faced beast’s recovery speed is extremely slow, so they deliberately attacked it continuously!”

RUO Xiang’s face seemed to be covered in frost. He held Luo hou’s spear in his hand, and circles of power rippled on the spear, as if his state of mind was extremely unfair!

One of the oceanic species ‘experts was frightened as he looked at the approaching battleship and said, “My Lord, what should we do?”

The surging power on Luo hou’s spear stopped all of a sudden, and Yun Xiang’s expression returned to normal as he said, it’s very simple. Then this time, we’ll make sure that they won’t be able to return.

but the enemy’s warship can escape into the void,” the Marine race expert said in surprise. the low-level sea beasts on our side can’t reach it!

RUO Xiang turned his head and looked at him coldly, saying in a cold voice, “Don’t we have high-level sea tribes like you? With your dead bodies, do you think we can’t break a mere warship?”

All of the high-level sea tribe experts ‘expressions changed drastically, and all of them turned pale.

RUO Xiang’s gaze swept across everyone and he said coldly, “What, are you all afraid? How powerful do you think you are in front of a human’s warship?”

Embarrassment flashed across everyone’s faces. One of them stood out and placed his right hand on his left shoulder, saying firmly, “I’ll listen to Sir run Xiang’s orders, even if it costs me ten thousand lives!”

“I’ll die ten thousand times!”

The rest of the Warriors of the sea tribe shouted in unison. They were all excited.

Although even ants craved for survival, the competitive environment of the sea Race was much worse than that of humans. Everyone was used to seeing life and death, and had long become numb to it. Their inner pursuit of dignity and strength was far above life and death.

An extremely strong killing intent burst out from RUO Xiang's eyes as he said in a cold voice, "Good! As expected of my son of the sea! Today, together with all of you, I will teach these humans an unforgettable lesson!"

"Yes! We will listen to Sir Ru Xiang's orders!"

Everyone was extremely excited. Hot blood was burning in their bodies, and streams of origin power couldn't help but be stimulated, rippling on the sea surface with the wind.

"Eh? Why do these sea tribe members look like they've taken aphrodisiacs?"

Yunxiao stood on the deck, watching the battle coldly. He seemed to sense that something was wrong, and his straight brows furrowed slightly.

Darknorth Kangtian's eyes slightly narrowed, and he said with a smile, "Maybe he saw through our strategy, so he's so angry that he's about to explode. Haha!"

The two of them were not separated this time. Instead, they stood together with all the other cultivators. However, the rest of the people scattered far away, not daring to get too close to these experts.

"So what if you know?" Yan Shushu said with a smile. Beiming Dark Palace's battleships and tactics are unparalleled in this world. Even if they know about it, they can only be beaten and beg for mercy, haha!"

His flattery made some of the surrounding experts frown and reveal looks of disdain.

This was especially true for ruan Xiquan. Before beiming Dark Palace appeared, this guy was always like a shadow, taking photos wherever he went. Now, he had to take photos of others. He felt uncomfortable and wanted to give him a few slaps.

Lord Shu Shu, you are a mid-stage Martial Emperor, " Yunxiao said slowly. you are an existence that can run amuck in the world. Don't you know what the word 'shame' means? "

Yan Shushu said coldly, " li Yunxiao, don't speak so sarcastically here. If it weren't for the help of the Lords of beiming Dark Palace, you would have been torn to pieces by these sea people. Not only are you not grateful and worshiping them, but you are also opposing the Lords of beiming Dark Palace in every way you can. How can you have the face to teach me how to write 'shame'? "

Yunxiao's face was full of black lines. He, who had always been eloquent, did not know what to say at this moment.

Everyone's face was also covered in cold sweat. The most despicable person was invincible, and the people of the ancient times were not to be bullied.

Even the faces of the people from beiming Dark Palace turned red. Beiming kangtian coughed a few times in embarrassment and said, " "The enemy is before us, don't have internal strife!"

Everyone then focused their attention on the sea in front of them. A huge Whirlpool appeared in the sea, and the huge-faced beast flew up again.

This time, even an ordinary Martial Emperor powerhouse could tell that the beast was different from before. It did look like an arrow at the end of its flight. The flesh wounds on its face had not fully recovered.

Shua shua shua!

As soon as the giant-faced beast came out of the sea, it began to shake, preparing to attack. Circles of energy spread out from its body.

A look of ridicule flashed in beiming Laifeng's eyes as he shouted, "Spatial jump, attack!"

The ninth-grade battleship immediately became illusory, and the attack formations were all activated. A large number of light beams attacked the huge-faced beast.

"Bang! Bang!"

In the distance, the two big Blue whales spat out seawater, and flowers bloomed in the sky. A large number of low-level sea beasts, with the supernova as their main force, bombarded the attacks.

He was actually using the lives of these low-tier sea beasts as a shield to take the attacks for the huge-faced beast.

"BOOM!"

Wherever the dozens of beams of light passed, a large number of starfish exploded, scattering in the sky like dust.

"Bang! Bang! Bang! Bang!"

The power of the light beam penetrated all the starfish and still hit the huge-faced beast hard, forcing it to move back in the air.

"Roar!"

The huge-faced beast revealed a malevolent expression. Its tiny limbs moved up and down, appearing extremely violent. With a loud roar, it spat out a black light, which also struck the warship!

"Bang!"

The black light exploded on the starship's protective barrier, directly destroying several layers of barrier light. It was even more powerful than the previous attack.

Beiming Laifeng was both surprised and delighted. He could also tell that the beast was at the end of its rope. Although its attacks were more ferocious, it actually meant that the beast was like a lamp at the end of its life. It wouldn't be able to last much longer.

"Attack! Attack with all your might! Operate all the formations to the maximum and spare no expense in resources!"

Beiming Laifeng's face was filled with ruthlessness as he stared at the giant-faced beast with a sharp light in his eyes. The joy of victory spread through his heart, and he couldn't help but feel a little excited.

Darknorth kangtian also showed a comfortable smile and said, "Young master Yunxiao, can you make it this time?"

maybe," Yunxiao said after a moment of contemplation. but it won't be easy.

"Oh?" darknorth kangtian was surprised. Why wouldn't it be easy? Even that huge-faced beast can't hold on much longer. Even if I don't do anything, it will definitely die after seven or eight more hits!"

did you see the figures of those oceanic species experts?" Yunxiao asked. do you see them?"

...

Everyone's hearts trembled. They had been so focused on the clash with the giant-faced beast, and the sky was filled with the debris of supernova's body, that they had neglected the sea Warriors. But after Yunxiao's reminder, they immediately paid attention to them.

There were only a few marine race experts who were in the sky above the coastal line, and they were scattered far away, afraid of being affected.

Ruan Xiquan sneered. although the soldiers of the sea aren't very smart, they aren't fools. If they don't dive into the water, are they going to wait here to be blown to pieces? "

with the temperament of the sea Race, even if they can't win, they won't stay at the bottom of the sea and watch their people fight, " Liao Yang Bing said. they'll most likely be glaring at them from the side.

"So you're saying that there's something strange about the other members of the sea Race?" beiming Laifeng asked.

"BOOM!"

A strong light bloomed in front of him. After the huge-faced beast was attacked again, it was forced back dozens of meters. Its breathing became heavier and heavier, and the black light it spat out gradually weakened.

Yunxiao laughed. I know that there must be something strange about the sea tribe. But, when I see Victory in sight, should I persist or retreat? " What a difficult decision."

Beiming Laifeng's expression was uncertain as he asked, "What's the condition of the warship now?"

master! a disciple hurried forward and said, " three-fifths of the defense has been broken. The remaining vitality stones are enough to attack more than a hundred times.

Everyone's hearts trembled, shocked by the huge consumption of this warship. If all the vitality stones were only enough for a hundred or so attacks, then they would be in trouble once they went out to sea and faced various unknown dangers.

...

If he encountered one or two more of these monsters, he would really die.

Beiming Laifeng's face turned cold as he gritted his teeth, "Continue to attack! This time, we will break through the line of defense and enter the eastern sea!"

"Yes!"

The disciple suddenly replied. Everyone's heart tightened and their palms started to sweat.

The battleship continued to push forward, and all sorts of attacks rained down on the huge-faced beast.

The huge-faced beast's body trembled violently. It took a deep breath and expanded its body. It was about to spit out another mouthful of black light.

At this moment, one of the main attack beams landed on its mouth. With a "boom", the black light was scattered and the entire mouth of the huge-faced beast was blown away, revealing a deep, pitch-black hole under its nose. It was abnormally terrifying.

"Alright!"

Everyone on the battleship cried out in joy. The huge-faced beast's mouth had been blown up in an instant, so they wanted to see how it would shoot out black light.

The huge-faced beast's body was also trembling violently in the air. It let out a muffled whimper that was deep and distant.

prepare for the final strike! beiming Laifeng immediately ordered. the warships will advance at full speed at the same time. We'll charge into the East Sea after we defeat this sea beast!

Yunxiao frowned. young master wind, don't you want to play it safe? I'm afraid such a giant beast will give it a full-force attack before it dies, so it won't be too late to enter the sea after it's completely dead."

I've already considered all that you've said, young master Yun, " beiming Laifeng said coldly. once this sea beast dies, I'm afraid it'll be the time for the Marine race experts to act. Staying here is a risk, and charging forward is also a risk. It's just a matter of weighing the pros and cons. "

Yunxiao nodded and did not say anything else.

RUO Xiang definitely had his own plans. He was also waiting for the giant-faced beast to unleash its last bit of energy. Beiming Laifeng was right. It was just a choice. It was just a matter of which risk he was willing to take.

The battleship rumbled forward in the air, and beams of attack light were nurtured on its body. They were like big mouths holding precious Jade pearls, ready to spit them out at any time, and they were aimed at the huge-faced beast that was already at the end of its road.

In the distance, RUO Xiang's expression also changed slightly. He had also seen through the beiming family's plan. He planned to break through the giant-faced beasts 'line of defense and enter the sea at full speed to get rid of their entanglement.

A smile suddenly appeared on his face as he sneered, " "Are you underestimating the deep-sea Giant beasts? I'm also looking forward to seeing if this huge-faced beast can surprise me. "

Chapter 1047-death of the behemoth

"Full attack!"

Seeing that the giant-faced beast was getting closer and closer, beiming Laifeng's expression became stern, his eyes flashing with a cold light, and his palms sweating.

The battleship suddenly jumped out of the void!

"Clang clang clang!"

The space shattered like a mirror, and the huge ship's body was like a shark breaking out of the sea. It revealed its front end and began to spray attacks.

Beams of light shot down from the sky, and the entire warship trembled in the air due to the maximum power of the attack. The broken Sky was directly crushed into powder, and a large area of darkness appeared.

“BOOM!”

Everyone’s attacks landed on the huge-faced beast’s body and exploded one by one. Its huge round face was instantly riddled with holes, and its flesh was flying everywhere. Its body was also constantly retreating, and it did not even have the strength to resist.

“BOOM!”

“BOOM!”

“Boom boom boom!”

The main array’s attack light beam was fired for the third time. Finally, a loud sound was heard. The entire body of the huge-faced beast was pierced through, and the light beam directly blasted into its face.

“Well done! Get ready to charge!”

Beiming Laifeng was overjoyed, and he excitedly slapped the guardrail repeatedly, his left hand gripping the iron tightly.

Everyone looked excited as they watched the giant being destroyed. The power of fear spread around their bodies, shaking their hearts.

“Aowuu!”

The huge-faced beast was no longer moving, as if its life was gradually fading away. It kept whimpering, as if it was a sound from ancient times that reverberated in the world.

The Starship was still roaring and pushing forward, but everyone was still in a kind of "silence". Listening to the whimpering sound, they suddenly felt a little dazed, as if they had returned to the distant ancient times.

"Not good!"

Yunxiao cried out suddenly. He stretched out his left hand, and the dynasty Bell turned into a golden beam of light and flew out, hovering above the warship as it rang!

"Dang!"

A crisp vibrating sound was heard, directly hitting the spiritual altar and sea of consciousness.

"Clang! Clang!"

Yunxiao rang the bell three times, and the sound waves spread out like waves. Everyone on the warship shivered and woke up from the misty wasteland, their faces changing drastically.

Beiming Laifeng's face turned pale. He gritted his teeth and said, "Dammit! I almost fell for it. I didn't expect this thing to be able to release a sound wave attack before it died!"

Yunxiao's face was still very solemn as he said, "This isn't something that it released on its own accord. Whether it's its body or its spiritual sense, it's constantly collapsing. It's like a natural state before death, but it's just a mist."

His voice stopped, and the light in his eyes was hesitant, as if he was thinking about something.

"But what?" darknorth kangtian asked.

Just now, Yunxiao's bell had awakened the crowd, which made him have a better impression of Yunxiao. At least, he was not the kind of selfish person who did not care about the overall situation and hit someone when they were down.

Yunxiao looked over and said, 'it's just that the natural state of the deep-sea Giant beast before its death seems to be a kind of atavism. It's not that it's atavism, but that the world has passed away with it, and its soul has taken it to the ancient wilderness.'

Everyone was stunned and couldn't understand what was going on.

Darknorth kangtian's pupils contracted as he asked suspiciously, "Are you saying that time is reversing? Ha, how is this possible! Time is also one of the laws of heaven and earth. Even the ten directions divine realm that has mastered the laws of this world can't return to the past."

it's not time," Yunxiao said quietly. everyone will understand soon.

At this moment, the deep sea below the ninth-grade warship seemed to be unaffected by the battle above. It was quiet and cold.

A few groups of guards from the sea tribe were patrolling back and forth, guarding a huge conch.

These guards of the sea tribe were not strong, and the roar that came from within the conch frightened them. A few of the weaker sea tribe guards were killed on the spot by the sound waves when they got close to the conch.

The rest of the people were so scared that their faces changed greatly. They hurriedly retreated a hundred meters away and took turns to guard, not daring to get any closer.

"Runxiang! That damn runxiang! How dare you torture me! I'll kill you, I'll kill you!"

The person who kept roaring from the conch was Guang Yi. His voice was filled with anger, unwillingness, humiliation, hatred. All sorts of emotions were mixed together and it was terrifying.

Suddenly, a seahorse slowly swam over from the distance and pushed the cold water away.

All of the guards immediately became alert. Each of them held a spear in their hands as they stared ahead with a sharp look in their eyes.

The seahorse was definitely not an ordinary race. Its entire body was transparent, but its tail was an extremely deep purple-green, and its head was a bright red like a cockscomb.

“What kind of seahorse is this? Isn’t that too strange?”

The guards all frowned and began to discuss.

“Purple and green tail, red crown, I seem to have heard of the Suan ni.”

look, there’s a car behind the seahorse!

Everyone hurriedly looked over and saw a dark blue Chariot behind the seahorse. It was being dragged along the bottom of the sea, and because its color was the same as the water, they couldn’t recognize it at first.

“Gulp!”

Suddenly, one of the guards swallowed his saliva and his body trembled violently. He said in a trembling voice, “I, I remember now. This, this seahorse is a vicious beast that can step on the clouds. Only the royal families of the East Sea can ride it!

“?!”

The rest of the people were all shocked. Their bodies trembled and they almost knelt down. This was the natural pressure of the level, which came from the soul and was hard to resist.

“Hualala.”

Stepping on Azure clouds gently pushed the water away and stopped in front of the guards.

...

Everyone looked at the body of the carriage in fear. The mark of a Dragon was clearly imprinted on the body of the carriage.

“?!”

Everyone sucked in a breath of cold air and no longer had any doubts. They knelt down with a “plop plop” sound, their bodies constantly trembling.

Suddenly, a white figure appeared in front of the huge conch. He stood with his hands behind his back and said, “Your Highness Yi, are you inside?”

Those guards were all scared half to death. They didn’t even see how this person came out of the chariot. It was just in the blink of an eye. What made them even more frightened was that this person seemed to have come to rescue Sir Guang Yi.

“Y-Your Excellency, L-the person locked inside is, is Lord Guang Yi.”

A guard commander gritted his teeth and his body trembled like a sieve. He said in fear, ” ”

“Runxiang?”

A roar came from the conch. When Guang Yi heard this name, he woke up from his sleep and roared, ”
“Runxiang! Kill him, I’m going to kill him!”

The conch began to shake under his roar, but there were patterns engraved on the conch's body. They flickered continuously, suppressing the shaking force and preventing it from escaping.

The white-robed man's cold face frowned and he said, "What has made His Highness Yi so angry?"

...

"You're feiming, the sword servant of Xuanji's mother!"

Only then did Guang Yi hear the white-robed man's voice. He was overjoyed and laughed wildly, "Haha, you're finally here! I'm dying of waiting, hurry up and save me! Haha, runxiang, your time of death has arrived!"

A wave of extreme resentment came out of the conch. The guards in the distance could feel the cold air entering their bodies. They knelt on the ground and trembled, not daring to make a sound.

The man in white, Fei Ming, nodded his head slightly. He raised his right hand and a sword ray shot out. It was as fast as lightning and directly split the sea conch into two.

"Bang!"

The conch's body suddenly exploded, and a violent force directly blew the conch into pieces.

A bloodied Guang Yi flew out from within. His white robe had been torn into strips and blood stains appeared on his body.

"Your Highness Yi, that Beihai runxiang actually dared to torture you!" Fei Ming's expression changed drastically and he said in shock and anger.

Killing intent appeared on Guang Yi's face and he said coldly, "With Royal father's sea-suppressing token, there's nothing he doesn't dare to do! Even if he were to kill me, he wouldn't even bat an eye!"

His face was covered with a layer of frost, and he said coldly, " "Now, I'm going to get it back with interest! Feiming, come with me to kill runxiang!"

Fei Ming's expression changed. He hesitated. runxiang is the Prince of the North Sea. He also has my King's sea suppressing token. I can't kill him.

A trace of anger flashed across Guang Yi's face as he shouted, " "Feiming! Don't forget your status! You're my mother's sword servant, so you have to listen to her. Since she sent you to save me, she must have you listen to me!"

"Mistress asked me to save His Highness and bring him back safely." At the same time, he warned me not to act rashly and cause trouble."

"Shut up!" Guang Yi roared in anger. When my mother is here, you have to listen to her. When she's not here, you have to listen to me! Now, come out with me and kill RUO Xiang!"

Fei Ming stood there quietly, there were no ripples on his body, as if he was an emotionless person. He said indifferently, " "I am sorry, Your Highness Yi. Feiming can't do it. "

Guang Yi's face turned cold. He knew that he couldn't order the other party anymore. He said coldly,"That's good. I'll go out now to kill Yun Xiang. If I die, I'll see how you'll complete mother's orders and bring me back to the palace."

He turned around and was about to fly towards the sea.

Suddenly, a strange feeling spread out in the sea. This feeling made him feel as if he had experienced many years and the sea had changed into fields.

"This is a Kasaya."

Not only Guang Yi, but even Fei Ming's expression changed slightly. He raised his head in shock and looked towards the sea, as if he wanted to see through space and search for the source of this feeling.

“What’s going on? My body is weak.”

Guang Yi was shocked as he saw his smooth, Jade-like skin begin to turn rough, with countless wrinkles, stacking up in circles, turning dark brown in color.

Fei Ming’s cold face also began to change. The bridge of his nose continued to protrude and become sharp. His dark eyes also turned dark blue. He raised his hand and saw that his five fingers had become strange and rugged, giving off a fierce feeling.

Not only that, but even the guards kneeling on the ground were also undergoing changes one by one. They were degenerating from the sea tribe to the sea beasts.

Chapter 1048

1048 Time flies again

“Feiming, what’s going on?!” Guang Yi exclaimed in shock.

His face was filled with surprise and joy. He was surprised because this series of changes made him at a loss, but he was happy because the power in his body was actually increasing!

Feiming’s expression was much calmer. He said, time has returned to its roots, back to the untainted land. What happened in this Sea area? ”

“Time reversal?” Guang Yi was shocked. Does that mean that the power I’ve just obtained will remain in my body forever?”

Fei Ming shook his head, “once we leave this Sea region, or the atavism of time returns to normal, it will no longer exist ..”

“I’ll do it! Then what’s the use of this!”

f * ck! Guang Yi cursed in rage. At this moment, the surging power in his body was getting stronger and stronger. Not only was the essence energy in his dantian getting stronger, but even his physical body was getting stronger and stronger, developing towards the ancient ancestor.

“Your Highness Yi, please calm down. This will be of great benefit to us. We can comprehend the power of our ancestors and feel the feeling of the peak. It will be of great help to our cultivation and breakthrough in the future.” Fei Ming said.

Guang Yi’s expression changed several times. if my power increases like this, does that mean that runxiang outside can also get stronger? ” he asked.

“As long as runxiang of the northern Sea is also in this time period, it will be the case,” Fei Ming said.

Killing intent shot out from Guang Yi’s face. His hand that had turned into a reddish-brown claw suddenly clenched in the water, immediately creating a vortex that gradually spread out. He growled unwillingly, “If I don’t kill run Xiang, I’m not a human!”

A fierce light flashed in his eyes as he threw out a punch.

“BOOM!”

The whirlpool immediately fell to the bottom of the sea and exploded right in front of Fei Ming, instantly turning the kneeling guards into pieces.

Fei Ming was still standing in the middle of the explosion. However, the corner of his long robe was lifted up by the impact and it fluttered on the seabed.

“If His Highness Yi insists on doing so, feiming will have no choice but to bring His Highness back by force,” he said quietly.

Guang Yi’s expression changed and he said in disbelief, ” “What did you say, slave? You want to attack me?”

A cold glint flashed in Fei Ming's eyes. Although he was not a descendant of the true dragon and did not have a superior bloodline, he was also the sword servant of the eastern sea matriarch. However, he was a martial Supreme powerhouse that could not be underestimated. His strong heart of martial arts made him furious. He said in a cold voice, "Feiming is a swordsman's servant, but the mistress has always loved him and never yelled at him. That's why I've been staying in the palace. I'm indebted to the mistress, so I will let His Highness Yi off this time since you humiliated me just now. There will be no more next time."

Guang Yi's face turned ashen. He had clearly felt the killing intent that burst out from Fei Ming's cold gaze. Even though his strength had increased greatly, he could not help but feel a chill in his heart. If he continued to scold him, he might really die Here.

In the four Seas, in addition to the Royal clans of the four Seas, which were S-Class existences, there were also some mysterious and powerful races. They rarely appeared in front of their fellow members of the sea Race, and most of them were hidden in the deep sea and isolated from the world. They did not listen to the orders of the Royal clans, but they also had S-Class strength.

The family that Feiming was from was such a terrifying existence. Feiming had such a tragic background. He was abandoned and hunted down by his family. It was only when Guang Yi's mother appeared that he was saved. He had been by his side as one of the four guards.

Fei Ming's emotions fluctuated for a moment before he regained his calm expression and said, "Your Highness Yi, don't be naughty. Come with me."

Guang Yi was so angry that smoke seeped out of his seven orifices. The other party was talking to him like he was a child. He was so angry that he was about to explode, but in front of that terrifying strength, even if he was a Royal, he didn't dare to be rash. He immediately transformed into a true dragon Avatar and kicked out with a Dragon wagging tail, causing the entire seabed to surge.

Then, Guang Yi turned into a stream of light and headed towards the surface of the sea.

Fei Ming's expression remained the same, not paying the rolling waves any attention at all. Only a trace of doubt flashed in the depths of his eyes as he stared in the direction that Guang Yi had fled in. The power to reverse time had come from above the sea.

What had happened to produce such a strange effect?

A smile appeared at the corner of Fei Ming's mouth. It was a good opportunity to take a look while Guang Yi was disobedient. It wouldn't be considered going against the mistress's wishes.

His figure flickered and disappeared into the sea.

Treading on Azure cloud raised its head and neighed. The purple and Azure colors on its tail became more vibrant, and it dragged the long chariot toward the sea.

At this moment, the giant-faced beast, which had already lost its life, was floating in the sky. There were large holes in its face, and it had long been blasted beyond recognition.

"BOOM!"

Suddenly, the warship trembled. A huge, pitch-black hole on top of the giant-faced beast seemed to spiral out a force that spread into the world. It began to tear the space continuously, and even the size of the ninth-grade warship was pulled up, driving into the darkness.

Beiming Laifeng's expression suddenly changed as he shouted, "Stop! Stabilize the ship!"

After a few breaths, the battleship stopped in mid-air, and a disciple hurriedly came forward to report, "Lord Lai Feng, the suction force of the black hole is getting stronger and stronger. Should we turn around?"

Beiming Laifeng's face was dark as he looked at the giant-faced beast's body that was gradually splitting apart. The black holes on its face had all connected together, and they were still spreading, tearing the giant-faced beast's body apart even more. A huge black hole had appeared in front of the battleship, blocking their way.

If they retreated, they could only take a huge detour or wait for the black hole to dissipate.

Darknorth kangtian stared at the black hole for a while, then sighed and said, " let's change the topic. This black hole was formed from the energy inside the Dead Sea beast. It's like a star in the sky. I really don't know what's going on with this sea beast.

"BOOM! BOOM! BOOM!"

Suddenly, a large number of attacks came from behind, landing on the defensive barrier one after another, causing a multicolored light to bloom in the sky.

Yunxiao's eyes flickered as he said with a smile, " Runxiang has been enduring for so long, and he finally appeared? How much power could the atavism of time brought by the huge-faced beast's death increase? I'm really curious."

Darknorth kangtian's body trembled and he said in surprise, " The atavism of time you speak of, could it be bi an?"

All of a sudden, an extremely powerful force condensed in the sky and transformed into the shape of a Dragon. It was as if an ancient true dragon had reappeared in the world and roared as it crashed down on the battleship!

"BOOM!"

The entire Starship trembled violently, and several layers of light burst out of the defensive barrier. Then, a large number of sea tribe experts appeared one by one, and they joined forces to break the light barrier layer by layer.

Everyone was shocked, and they looked out of the battleship in disbelief. Those sea clan members who had appeared in the air were all unusually fierce, and even their bodies seemed to have become larger, as if they had entered a berserk state.

"Bang! Bang!"

The defensive barrier was getting weaker and weaker.

“Hold on!” Beiming Laifeng was shocked and shouted. We must hold on!”

“BOOM!”

A hole was blasted in the light, and a large number of oceanic species ‘experts rushed in. In an instant, they pounced toward the crowd, and a fierce and brutal aura spread out from every member of the oceanic species.

It wasn’t just the savage ferocity brought about by the atavism, but also the endless humiliation and hatred from the death of the giant-faced beast. Every member of the sea tribe was so angry that their eyes were about to pop out, and they wanted nothing more than to die together with the enemy.

Beiming Laifeng was stunned for a moment before he roared in shock and anger, “Kill! No one is allowed to retreat! Kill all of these sea tribe members!”

With a sword in hand, he took the lead and rushed over.

...

“Bang!”

The sword radiance swept down and directly chopped off the fist of a sea tribe member with a thick body and a long horn on his head.

The sea tribe member howled in pain and lowered his head. He used the horn on his head to block the attack and used his huge body as a weapon to RAM at all costs.

“Bang!”

The horn collided with beiming Laifeng’s sword, causing his aura to weaken and him to take a step back.

Beiming Laifeng's heart was filled with shock. This sea tribe warrior in front of him only had the strength of a peak martial honor. How could he possibly have the strength to contend against him?

Just as he was feeling shocked, the Marine race expert raised his head and revealed a cruel smile.

"?! Not good!"

Beiming Laifeng was startled. He suddenly shook his sword, and a Sea of Swords spread out from his hand.

"BOOM!"

The powerful warrior of the sea tribe in front of him crushed his dantian and exploded under the pressure of his sword!

...

The powerful force of the explosion slammed into beiming Laifeng's sword. Although it didn't hurt his body, it forced him to retreat several steps before he could dissipate the force of the impact.

these merfolk have all been strengthened. Everyone, be careful!

E Lechi had also discovered that something was very wrong. He couldn't fight back against a sea tribe Martial Emperor who was two stars weaker than him, and he was struggling to hold on.

the atavism of time young master Yunxiao mentioned is actually the return of a large number of Sea Race bloodlines?" beiming kangtian said in horror. How could such a thing happen?"

Yunxiao's eyes focused on the fleeting figure in the sky as he explained, "Although it's strange, it's not impossible. There are signs of time dilation in many places on the heavenly martial continent. I seem to understand what's going on with those deep-sea monsters."

“What’s going on?” darknorth kangtian asked hurriedly.

The deep-sea Giant beast was too terrifying. Its power was enough to compete with a ninth-rank warship. If there were a few more of such existences, the entire East Sea could sweep across the Eastern Region. Although he did not care about this, it involved a powerful force, which was what he was concerned about.

it’s just a guess,” Yunxiao said. I don’t have any evidence, so it’s not convenient to say.

Darknorth kangtian felt a burst of displeasure in his heart, but since the other party wasn’t willing to say anything, he had no choice but to say, “No matter what these monsters are, no one can stop beiming Dark Palace!”

His eyes turned cold as he looked up into the sky.

RUO Xiang didn’t deliberately hide his aura, and the powerhouses all felt the strong enemy in the sky above the warship at the same time.

with elder Kang Tian’s help, that runxiang will die for sure,” Yunxiao said with a smile. I’m relieved.

Chapter 1049

1049 Transformed into a true dragon?

I’ll take care of that man,” said darknorth kangtian coldly. we’ll still have to rely on young master Yunxiao to help us on this warship. Don’t even think about running away, or we won’t be able to get along so happily.

“Bang!”

After saying that, the ground under darknorth kangtian’s feet exploded. The extremely solid deck of the warship caved in under his feet, and he shot toward Yun Xiang with the force of the impact.

“You little brat, you don’t know the immensity of heaven and earth. Do you think that you can fight against my beiming Dark Palace with just a monster? What a big joke! I’ll give you an unforgettable lesson today!”

Darknorth kangtian drew a circle in the air with his palms. Streams of profound ice Qi rose from his arms, and two seals appeared in front of him. Then, he put his palms together and slapped forward with a loud shout.

A force that could break mountains shot out, as if it was not a palm force but an Ice Mountain.

RUO Xiang didn’t seem to be in the right state. He lowered his head as if he was thinking about something. It was only when the cold air pressed down on him that he slowly raised his head. His eyes were filled with anger and murderous intent.

“Luo hou’s attack!”

A ray of light flashed and Luo hou’s war spear appeared on his body. He held it tightly in his hand and pointed it down.

The spear radiance gathered into a line and broke through the surface with a single point.

“BOOM!”

The palm Power that was like an Ice Mountain was hit at its weakest point under the powerful force. In an instant, the palm Power collapsed and collapsed in the sky.

RUO Xiang shot out his spear, and the aura on his body exploded, shaking the space around him.

Both beiming kangtian and Yunxiao’s expressions froze, and they were shocked. At this moment, every move of Yun Xiang was vaguely showing the might of a true dragon, which made their souls tremble!

RUO Xiang's entire body turned into a ray of light and rushed into the sky. Luo hou's long spear turned into a white spine that circled around his body in a spiral and continuously embedded into his body.

His body, which was squeezed by his spine, began to bleed. Drop by drop, the blood turned into red blood stones in the sky and fell into the sea.

"The blood of a true dragon?"

The demon Dragon in Yunxiao's body suddenly cried out in alarm, almost roaring, "this is the blood of a real Dragon. Oh my God, what's going on?!"

Yunxiao's face was also solemn and filled with disbelief.

He grabbed at the air, and the blood rocks that were falling in the distance were caught in his hands. When he spread them out, they were as red as Jade and shone brightly under the sun. There was a faint Dragon shape gathered in them.

Not only that, but Yunxiao's palm also glowed with a golden light, which was the imperishable golden body's automatic protection. The Dragon blood burned his skin with an extremely high temperature, stimulating the imperishable golden body and making it resist on its own.

"Is it really dragon's blood?"

Yunxiao's face was filled with horror. He had seen the Dragon Bloodstone before, which was equivalent to the secret treasure of a true dragon, and its value was immeasurable.

"Gulp!"

The demonic Dragon's swallowing sound came from his soul. It was almost roaring, "Collect, hurry up and collect! These are all priceless treasures, the blood of a true dragon!"

Yunxiao narrowed his eyes and suddenly clenched his fist.

“Bang!”

The beautiful, Jade-like Crimson Blood Stone shattered into pieces in his hand. His hand was covered in red powder, and a Dragon Qi rose from it.

“You’re so silly!”

The demon Dragon said, “ I know you still have some doubts, but this is really dragon’s blood. Time must have returned to the wilderness, and the power of Yun Xiang’s bloodline is extremely strong. That’s why he’s in the Dragon form for a short time. Hurry up and collect the dragon’s blood, this is a once in a lifetime opportunity!”

don’t worry, ” Yunxiao said indifferently. this is not the blood of a true dragon. Even if time is reversed, it is impossible for a true dragon to appear under this sky. The true dragon’s blood Stone is extremely hard and scorching. My half-finished indestructible golden body can’t resist the corrosion of the dragon’s blood, and it’s impossible for me to crush it into powder. However, the concentration of his bloodline is indeed very high, and he is infinitely close to the Son of the Dragon!”

At the end of his speech, Yunxiao’s face turned a little solemn.

Even if he was the son of a Dragon, he was still an existence at the true spirit level!

He raised his head and looked at Yun Xiang, who was continuously increasing his power in the air, and his heart became heavier and heavier. This unparalleled genius of the sea Race was very likely to become the first true spirit to step into the ten directions divine realm in tens of thousands of years!

A hot blood was burning in his body, and Yunxiao had an impulse to fight.

The demonic Dragon sensed his state of mind and said,“The future of the world may be a battle between the two of you.”

Yunxiao's surging blood slowly subsided, and a smile appeared on his lips as he said, "I hope so. Otherwise, if I'm the only one trying to break through to the God Realm, it'll be such a lonely thing."

The battle intent in his eyes flashed and he said softly, "I'm really looking forward to another battle, but it's a pity that it's not now."

Li Yunxiao, what are you doing?"

everyone's fighting with their lives on the line," beiming Laifeng said angrily. you're just watching from the sidelines. Do you have any shame?!

Yunxiao smiled indifferently, then turned and joined the battle.

With his current strength, these minions could not resist him at all. Even some powerful existences with atavism could only exchange a few moves.

He strolled around the battlefield as if he was taking a stroll. With every step he took, he attacked, killing one person with each move.

That leisurely and carefree expression of his caused beiming Laifeng to feel both hatred, jealousy, and fear. A surge of anger poured into the sword in his hand, and he began to kill even more ruthlessly.

Yunxiao seemed to attack at will, but he had made a choice to kill his enemies. One was to protect his friends, and the other was to protect the safety of the warship. The whole warship seemed to be in a mess, but in fact, everything was under his control.

In the sky, the Dragon's spine was directly pressed into Yun Xiang's body. He was in great pain, and his eyes were filled with anger. His entire body was dyed red with dragon blood.

"BOOM!"

As the Last Dragon secret treasure merged into his body, his aura rose to another level. Just the strength of his Qi alone was enough to smash through the air like steel plates, shattering them in front of beiming kangtian.

“Hahaha! Hahaha!”

hahaha ... RUO Xiang's laughter came from the sky. At this moment, his appearance was completely different from before. His face had completely transformed into a Dragon. this power, the five dragon secret treasures, and I've actually perfectly fused them with me while I'm in the strange state of the wilderness. Hahaha!

When he had fused with four Dragon artifacts in the sky above Red Moon City, his body had already been severely damaged by the backlash. Four Dragon artifacts were almost his limit. At that time, he knew that it was impossible to fuse with nine Dragon artifacts and transform into a true dragon. Only by constantly cultivating and strengthening his bloodline and physical strength could he fuse as many artifacts as possible.

Therefore, when he obtained the fifth treasure from the East Ocean Dragon Palace, he wasn't as excited as before. He didn't dare to use it easily, or he would explode and die. However, he didn't expect that he could merge the five treasures perfectly during this period of atavism, and his strength reached an unprecedented peak!

Darknorth kangtian was also shocked, but he still kept a cold expression on his face and said, “No matter how many artificial limbs you put into your body, it still won't change the fact that you're going to be beaten up.”

...

His body flashed in the air, and he appeared dozens of meters away from run Xiang. He confidently held his arms in front of him, and with just a wave of aura, he broke the Dragon Breath that was surrounding run Xiang. Run Xiang was forced to retreat dozens of meters before he could stabilize his body.

RUO Xiang's expression changed drastically, and a cold glint flashed in his eyes as he said in a cold voice, “a nine-stars Martial Emperor?”

A hint of mockery appeared on darknorth kangtian's face as he said in disdain, "Aren't you overestimating yourself? Why would I need a nine-stars Martial Emperor to deal with a piece of trash like you?"

He raised his leg and kicked out in the air. A burst of profound ice power blasted towards the target. It was like the setting sun in the long river, and a beautiful Ice River streaked across the sky.

RUO Xiang had been on guard for a long time. When he heard that the other party did not have the power of a nine-stars Martial Emperor, he immediately heaved a sigh of relief. Otherwise, there would be no need to fight at all. He turned around and left directly.

"You're the one who thinks too highly of yourself!"

RUO Xiang's expression turned cold. He opened his mouth and roared. The Dragon's might shook the sky. Then, he clenched his five fingers into a fist, and his body directly smashed against the ice River.

"Bang! Bang! Bang! Bang! Bang! Bang!"

The entire River was shattered, and the sky was filled with ice crystals exploding. It was extremely dazzling.

"Try my true dragon Avatar!"

After Yun Xiang's punch, he let out a loud roar, and his entire body rose into the air like a dragon soaring in the sky before flying down to attack.

...

Beiming Laifeng's expression changed. The powerful Dragon might not only placed a heavy pressure on his body, but it also struck his soul, causing him to feel a burst of irritation. I've been born to hate insects!

A cold glint flashed in his eyes, and his killing intent immediately rose!

He put down his hands that were crossed in front of him, and he stood in the sky like an immovable Ice Mountain. His aura suddenly converged, and there were no signs of it being released.

RUO Xiang's expression suddenly changed. Although darknorth kangtian didn't do anything and was just standing there, he felt an inexplicable fear. That kind of aura directly broke through his Dragon's might, and a sense of uneasiness welled up in his heart.

"Not good! Even if this man isn't a nine-stars Martial Emperor, I'm afraid he's not far away!"

RUO Xiang was shocked. His true dragon body turned in the air and changed from attack to defense. After a pause, he quickly retreated.

"Hmph, it's too late to run now!"

Darknorth kangtian sneered. He took a step forward and raised his hand. The sky suddenly darkened, and a Nebula vortex appeared, covering the entire world.

The people on the ninth-rank warship also felt the change in the sky. They looked up and their hearts beat wildly. They had seen this move on beiming ze not long ago. It was the extremely powerful three moves from beyond the heavens!

Darknorth Laifeng's heart was also greatly shaken. He had thought that darknorth kangtian's attack would be a matter of minutes, but he didn't expect to receive the three moves from beyond the heavens!

Both he and Yunxiao had doubts in their hearts. Was it possible that runxiang was so powerful that he needed a Peak Eight-stars Martial Emperor to perform such a heaven-defying divine ability?

The moment the Nebula vortex appeared, run Xiang's entire body trembled. He was directly intimidated by the might of the heavens and earth, and he was actually unable to move!

At this moment, in addition to the Nebula phenomenon, there was also the huge black hole left behind by the giant-faced beast not far behind him. Even the devouring power of the black hole became insignificant in the face of this Nebula vortex.

Chapter 1050

1050 Sword Maniac

“Dammit, dammit! What kind of move is this?”

RUO Xiang continued to roar, and his Dragon’s might trembled out. He could only tear open a small piece of space so that his body would not be completely shackled, but it was completely impossible for him to escape under the power of the Nebula!

“Dammit! I’m not willing to accept this!”

RUO Xiang roared, and his ten fingers crossed in front of him. His entire body directly transformed into the shape of a Dragon, and he charged around under the sky locked by the Nebula, becoming more and more violent.

Darknorth kangtian’s eyes were cold. He was also greatly shocked. The true Dragon’s power could penetrate through the heaven and earth, and it could even be broken through the power of the Nebula, which made him feel shocked.

At this moment, the ocean below suddenly began to surge with wind and clouds, and the waves swept up. The torrent poured into the sky, like a hundred rivers merging into the ocean, and constantly impacted the world under the control of the Nebula under the palm of darknorth kangtian.

Darknorth kangtian’s expression was extremely unsightly. If run Xiang managed to break free, then he would really become a joke!

A murderous look flashed in his eyes as he said coldly, ” “Go to hell!”

With a flip of his palm, the Nebula exploded in the air, suppressing the Dragon that was trapped in it. The violent Dragon Breath continued to weaken.

A vast power was born from the explosion, destroying all resistance. It was like a sigh in the endless space.

My life also has a limit, and the Dao also has no limit. With a limit following the No limit, it is already hopeless.

Everyone in the world stopped fighting and looked up in confusion. That sigh passed through the entire space, swept through the sea, and resounded in everyone's heart.

All the Warriors' hearts trembled, as if they could feel the desire and sigh of the peerless genius who created this move in front of the boundless great Dao.

Yunxiao's face was also filled with respect as he looked up at the sky. His eyes crossed time and space, looking at the genius ancestors of Beiming Dark Palace who had walked further and further on the road of martial arts until they finally disappeared at the end.

"What?"

Suddenly, the faces of both Beiming Kangtian and Yunxiao changed slightly, and they turned their eyes in one direction.

"Second form, Sky Splitter!"

Suddenly, a soft sound rang in everyone's ears.

An unparalleled sword essence came from the sky, cutting through the vast sky and slashing towards the Paramita Nebula!

At this moment, the sky was completely torn apart, and the entire sea was also cut in half by the sword Qi. It was as if they were facing an abyss!

The sword Qi shot into the nine Heavens, straight into the clouds, and cut into the flowing Milky Way.

The power of the Nebula was split apart by the sword. Like a dying star, it collapsed toward the center.

An earth-shattering Dragon's might roared, shaking the heavens and earth.

RUO Xiang turned into a Dragon and rushed out of that certain-death realm. Violent power surged out of his body continuously, and his entire body turned bright red. It was a large amount of dragon blood that had solidified outside his body.

As soon as he got out of the predicament, he immediately ran in the direction of the sword Qi.

Although he didn't know who had drawn the sword, since he had saved him, he would definitely save him to the end.

"Feiming, you should die!"

In the distance, Guang Yi suddenly roared, his entire body trembling with anger. He pointed at Feiming and roared, "Not only did you not help me kill him, you even saved him! Damn slave, I'm going to kill you!"

Guang Yi finally fainted from anger. He roared as he punched at Fei Ming's body with both fists. The power of his fists landed on Fei Ming's protective Zhen Yuan, causing ripples but he could not break through.

Fei Ming's eyes were burning with fighting spirit. The hand that was holding the long sword was trembling with excitement. He licked his lips and said leisurely, "Is this the power of the human race?"

"BOOM!"

The sky trembled, and Ru Xiang's figure suddenly appeared in front of him. He had already returned to his human form, but his body was covered in blood, and he was unrecognizable.

He took a look at Guang Yi and then stared coldly at Fei Ming. He said, " East Sea expert? "

"East Sea matriarch's sword attendant Fei Ming greets Your Highness Xiang." Fei Ming bowed slightly.

Run Xiang's pupils contracted slightly and he said,"feiming?" I seem to have heard of your name before. Save me. "

he didn't beat around the bush and asked for help, but his tone was like he was giving an order. He spat out a large mouthful of blood and his entire body trembled due to the heavy injuries.

Guang Yi's face turned cold and revealed a fierce look. He threw a punch over and roared, " Save you? Today is the day you die!"

The fist radiance whistled, and it was also the power of the Dragon's might. It was merciless, and a part of the space was squeezed.

"Pa!"

RUO Xiang raised his right hand and gently grabbed his fist. The Dragon's might was completely dispersed.

"What?"

Guang Yi's expression changed drastically, his pupils filled with horror. The other party was already a remnant of his body, yet he could take his punch so easily?

RUO Xiang didn't even look at him. A force exploded in his palm and directly sent Guang Yi flying. His body trembled violently and he kept coughing out blood. He fell into the air and turned into a dragon's blood Stone before falling into the sea.

Countless marine creatures were fighting to eat the dragon's blood that had fallen from the sky. All of a sudden, the good and the bad were mixed together, attracting a large number of sea beasts.

He flipped his right hand, and a golden token rose up. He said coldly, "this is the sea quelling token given to me by the king of the eastern sea. With this token in hand, I can mobilize all the forces of the sea Race I see. I wonder if I can mobilize you?"

The Golden token had a nine-clawed Golden Dragon on it, symbolizing supreme authority.

Feiming's eyes focused and moved away from the sea quelling token. He said, "Yes, I can!"

RUO Xiang laughed, and his heart relaxed. The nervousness in his entire body disappeared as he said, "I'm now ordering you to kill everyone on this warship!"

Feiming licked his lips and his eyes were burning with battle intent. He smiled and said, "I'm very happy to help!"

He looked forward and his eyes fell directly on darknorth kangtian. The flames of war in his eyes burned brighter and brighter.

Hmph! RUO Xiang snorted coldly and said, "under this calm expression, he's also a battle maniac!"

"The reason I'm so calm is because I rarely encounter opponents that can make me go crazy!" Fei Ming laughed out loud. He raised the sword Qi in his hand and slashed it down in the air. He turned into a beam of light and rushed toward darknorth kangtian.

In the distance, Guang Yi stood there in a daze, his expression extremely ugly. An extreme sense of powerlessness spread in his heart. Before this, he could still measure the gap between him and Yun Xiang, but now, he couldn't even guess how far the gap was between the two.

...

“Bang!”

Darknorth kangtian threw a punch at the incoming sword Qi. His essence force was shattered into countless wisps of cold air and spread out, turning the surroundings cold and gloomy.

Fei Ming’s face was filled with excitement. At this moment, he had already returned to his ancestor’s state and felt an unprecedented amount of power. He was ecstatic as he continuously slashed out with his sword. There was no order to it as he just wanted to vent his excitement.

Darknorth kangtian’s brows furrowed. Under the opponent’s frenzied sword aura, he was fighting and retreating at the same time. He was restrained in every way. the power of a Peak Eight-star? ”

“Isn’t that so? this feels great!” Feiming laughed. In this strange time zone, I, who was a beginner eight-star, suddenly have the peak power. This world is really wonderful!”

Several more sword strikes came down, and the sky was torn into pieces like a piece of cloth.

Darknorth kangtian kept dodging, and soon he was close to the battleship. If he continued to retreat, he would definitely attract danger to the battleship. He frowned and shouted, ” we’re both at the peak of eight stars. It’s hard to determine the winner in a short time. Why don’t we stop here and each take a step back? ”

He really wasn’t in the mood to fight to the death with this crazy sea tribe member in front of him. Moreover, with his eyesight, he could naturally see that feiming was just enjoying the fun of killing without any purpose. The result of fighting would only satisfy the other party’s desire to kill and he wouldn’t get any benefits.

“Haha, human, are you afraid?”

On the other hand, Fei Ming became more and more excited as he slashed. With the return of the blood in his body, the ruthlessness and ferocity buried deep in his blood was constantly released.

“I’m afraid of your sister!”

...

Darknorth kangtian flew into a rage. He couldn't avoid this kind of battle-loving madman even if he wanted to, which gave him a great headache. Judging from the previous sword attack, the two of them were almost equal in strength, and the outcome of the fight would not be decided in a short time.

"We're both eight-stars martial sovereigns. I'll look down on you if you only know how to run," Fei Ming sneered. He glanced at the huge warship and praised, "The Human Alchemy talent is indeed far beyond the reach of my sea tribe. If you don't fight me, I'm going to destroy this warship completely!

He raised his sword, and a sword aura soared into the sky. The entire sky suddenly split open with him as the center.

Darknorth kangtian was shocked. If he was allowed to act recklessly, the ninth-grade warship would really be finished!

"Damn trash!" He roared in rage. This old man will cripple you today, you madman!" He raised his hand and an extremely strong ray of light flew out from his palm, slashing towards Fei Ming!

There was a huge saber in the light that tore through the sky.

Feiming's eyes were filled with joy and he laughed, "Haha, you're finally serious? Bring out the power you used to kill His Highness Xiang. I'm looking forward to it!"

The sword momentum that had been brewing for a long time slashed down from the sky and collided with the saber. Light bloomed in all directions, shattering the sky and dispersing the sea water, revealing a deep pit that reached the bottom of the sea.

Everyone on the ninth-rank warship was shocked. Just the shockwaves from the battle of such peerless powerhouses were so terrifying. They could rush into the void, and even space jumps could not escape.

The two races on the battleship were evenly matched and both suffered heavy casualties. However, the human race had more martial Supreme powerhouses, so the scales of victory kept tilting.

Yunxiao did not show much of an expression as he watched the shocking battle between the two men outside the warship. Instead, there was a hint of worry on his face as he stared at the black hole, which had been expanding and floating in the air after the giant-faced beast's death.

As the black hole expanded, the laws of time were also constantly adjusting. This caused the sea tribe's atavism to gradually disappear.

"That black hole is actually still expanding and not shrinking anymore."

what? " Yunxiao was surprised. could it be that the giant-faced beast's power has not been fully released after its death? "

Suddenly, a disciple of beiming Dark Palace exclaimed, "Lord Lai Feng, bad news! The Starship is once again trapped by the black hole's suction force, unable to break free!"

The situation on the battleship was currently reversed, and beiming Laifeng's killing intent was roused. He shouted angrily, "What do you mean by unable to break free? Activate the power of the battleship to the maximum and rush out of the black hole's suction range!"
