

The Eternal 251

Chapter 251

251 Tier 4 badge

For so many years, there was only one person in the world who could survive The Alchemist Association's pursuit order-and that was the number one man on the heavenly martial continent-the tyrant martial sovereign, ao changkong!

He didn't dare to be so arrogant that he could compare to ao Changcheng. He was so shocked that cold sweat broke out all over his body. He hurriedly said, "master Baili, don't listen to this man's nonsense. It's a personal grudge, and it has nothing to do with the dignity of alchemists!"

Baili gongjin found it funny as well. Yunxiao had given him a little bit of sunshine, and he had begun to shine. Even he was only qualified to apply for a killing order from The Alchemist Association, and it could only be issued with the approval of an eighth-tier Supreme Alchemist. However, Yue jiulin did not know that. He was so scared that he broke out in a cold sweat.

If an Alchemist's order to hunt him down was issued, there would be no place for him to hide at all!

personal grudge?" Yunxiao snorted coldly. personal grudge?" You and I have no grudges, what personal grudges? It's obvious that they want to capture me and make me their servant because I'm an Alchemist. What the Crown Prince said just now was not only heard by us, but also by master Baili and a few friends who were hiding in the void and refused to show their faces. How could it be nonsense? The dignity of an Alchemist was completely lost today. I hope master Baili can make the decision and restore the dignity of our Alchemist lineage!"

Baili gongjin was taken aback. This was getting more and more serious. He quickly waved his hand and said,"the Xin family's Crown Prince is extremely arrogant. His words are impertinent." 'Since you're young and ignorant, apologize to Yunxiao now, and I'll let this matter go.' Otherwise, Hmph!"

He seemed to be standing up for Yunxiao, but he was actually giving Xin ruyu a way out. If he continued to be dragged into Yunxiao's nonsense, it would only get worse. At that time, in order to protect the face of alchemists, he would have to take action. At that time, he would offend the imperial family, jutian sect, and heavenly jewel sect, and he would not be able to keep a foothold in firecrow Empire.

Xin ruyu's face was livid with anger, while Yue jiulin was anxiously signaling him with his eyes. He also knew that it was impossible to catch Yunxiao today, so he had no choice but to swallow his anger and say hatefully, "Li Yunxiao, you're ruthless! It's my fault today, we'll catch up again when we meet again!"

After throwing out his threat, he turned into a beam of light and flew toward Shangyang city.

Yue jiulin sneaked a glance at Baili gongjin. Seeing that the latter's eyes were closed and he had no attitude, Yue jiulin cupped his hands and left, then chased after Xin ruyu.

Yunxiao smiled, cupped his hands at Baili gongjin, and said, "Thank you for helping me out, President. Yunxiao still has matters to attend to, so we'll take our leave here. I'll definitely visit you to thank you in the future!"

Baili gongjin was stunned. I just saved you, and now you want to leave? young master Yun, you're a member of The Alchemist Association," he said with a smile. that's how you should be! It's a pity that young master Yun has never come to our Alchemist Association since he joined us, and I've always regretted it. Since we just happened to meet today, why don't we have a chat?"

it's my great fortune to be able to talk with Master Baili," Yunxiao said with a smile. I can't ask for more. It's a pity that I'm caught up in worldly affairs. It's really unfortunate, really unfortunate!"

'Unlucky your sister!'

Baili Gongxi exploded in anger.'You're still talking to me?!' He immediately frowned and said,"Oh?" What matter was so urgent that he didn't even have time to make a trip to the Guild? Young master Yun hasn't even given you the badge since you became a fourth-tier Alchemist. If I miss it today, I'm afraid I'll forget it in the future."

His meaning was a warning. If you don't come today, don't even think about getting the Tier 4 badge!

Yunxiao understood what he meant, but he still said quickly, "The badge is just a symbol. It's naturally better to have it, but it's fine if you don't. Young master Yun, you can come and get it another day."

“F * ck you, are you coming with me or not!”

Baili gongjin couldn't hold it in any longer. He cursed and said angrily, “this old man has just saved you. Do you still have a conscience?!”

Yunxiao smiled wryly when he saw the other party fall out with him. “Guild leader Baili, I'm innocent. I'm afraid that if I go to the Guild with you, I'll suffer a greater loss than being captured by Xin ruyu.” He didn't hold back and said it out loud.

Baili gongjin frowned and snorted angrily. “Of course there will be losses, but you'll also have your fair share of benefits! Do you think this old man will take advantage of you? You can feel it yourself. There are many people in the void who are eyeing you covetously. If you don't come with me, I'm afraid you won't be able to leave this world.”

What he said was true. After pondering for a while, Yunxiao said with a wry smile, “well, then I'll take the liberty to disturb you, President Baili. There are many doubts in the path of alchemy, and I'd like to ask you one by one.

Baili gongjin smiled like a flower and said affectionately, “I won't disturb you, I won't disturb you. Young people were quick-witted and eager to learn. It was only right for them to ask more questions. Now that you're a member of The Alchemist Association, the Association is naturally your home. You can come and go at any time, but don't be an outsider.”

At any time, your mother!

Even the DarkThunder let out a few low roars to vent its dissatisfaction. Duan Yue was also embarrassed. In his eyes, a sixth-tier Alchemist was a noble existence, but he had never expected that he would curse at someone so vulgarly.

Yunxiao immediately rode DarkThunder and followed Baili gongjin's Tigerking chariot toward The Alchemist association with Duan Yue.

After the few of them left, there were several places in the space that they were originally in that started to fluctuate. A strange voice snorted, " a fourth-tier Alchemist, Lao Ai, killed a martial Grandmaster with a wave of his hand. Hmph, interesting, interesting, Lao Ai!

After that strange sound, the entire space returned to silence. There was no more sound, and it was obvious that everyone had retreated.

Yunxiao's return to Yanwu immediately attracted the highly sensitive attention of many forces. But after he entered The Alchemist Association, no one dared to check him again.

The Alchemist Association was independent of any force on the continent.

Yunxiao had become famous in one battle, and everyone in the Empire knew him. He was the most eye-catching person behind Baili gongjin, and the people in the Guild put down what they were doing and looked at him. There were also many beautiful women who threw flirtatious looks at him from time to time, but Yunxiao accepted them one by one without any hesitation, making eyes at them.

The few of them walked into a large room. The decorations were extremely simple and Grand, but it did not lack luxury.

Inside, a few men were drinking tea and chatting, each of them with an extraordinary bearing. The crowd stood up respectfully when they saw Baili gongjin.

When one of them saw Yunxiao, he gave him a complicated smile and said, " master Yunxiao, we meet again after a few months.

master Yuan Hao, " Yunxiao reached out his hand and said with a smile, " how have you been? " Thank you for taking care of me that day outside Tianshui."

Yuan Hao smiled, his feelings extremely complicated.

A few months ago, he was just a young man with good talent in his eyes, but now he was on the same level as him in the Dao of alchemy. His martial arts were even more unfathomable, and he could even suppress a martial ancestor realm expert with one move.

it's a coincidence that I met master Yunxiao outside the city, " Baili gongjin said with a smile. it's just a coincidence. It's better to meet by chance than to invite him. Master Yunxiao has something to do, but he insisted on coming to The Alchemist Association to get a fourth-tier badge, so I had to bring him here on the way."

Duan Yue's face darkened when he heard that. 'Who the hell would come if you don't threaten us?' It turned out that all f * cking alchemists were like this.

Yunxiao could not help but nod and say, " I've just reached the fourth step not long ago, but because the Zhou family's bullying is too much, I haven't had the time to come and collect the badge. It's such a coincidence to meet master Bai Li, so I can't let this opportunity go."

"I see," Yuan Hao said with a smile. Master Yunxiao's soul power fluctuations are not the slightest bit below mine. I don't think there's a need to test it, right?"

An old man beside him frowned and said unhappily, " "Not testing and directly giving out badges? Those of lower ranks could naturally do it. However, there has never been such a precedent for reaching the fourth stage monarch level, right?"

Yunxiao looked in the direction of the voice, and Yuan Hao hurriedly explained, " this is master Xin ze. He's also a fourth stage monarch, and he's the uncle of the current Emperor.

Xin ze gave Yunxiao a faint glance and said unhurriedly, " "The path of alchemy is different from the path of martial arts. One needed to have a solid foundation to be convincing. All fourth-tier alchemists had to go through decades or even hundreds of years of dedicated training and comprehension of the heavenly Dao before they could barely reach that level. Even so, there were still thousands of people who were blocked outside the door. Young man, I don't believe you have the strength of a 4th rank."

Yunxiao smiled, walked up casually, and sat down on the sofa. He put his hands on the armrests, crossed his legs, and said leisurely, " "Then how can I make elder ze believe me?"

Yunxiao's rudeness immediately infuriated Xin ze and a few other alchemists present. They believed that they were of noble status, and ordinary people, even the nobles of the Empire, would not dare to sit with them so casually without permission.

Xin ze snorted heavily and said coldly, "Naturally, we'll follow the usual practice and pass the test. If you pass, I'll naturally be convinced. Otherwise, please return to where you came from."

Yuan Hao saw that the atmosphere was a little tense, so he said in a hurry, "I've seen master Yunxiao's strength a few months ago. He is definitely a third-tier Alchemist.

a few months ago, he was at the third level. Even if he managed to rush to the fourth level now, his realm is still unstable. It's not easy to pass the test. if you don't have a year or so to stabilize your realm, "another Alchemist snorted coldly, "Hmph! Young man, this is not your seat!

Baili gongjin smiled from the side. He seemed to be happy to see Yunxiao suffer a loss, and he wanted to see his reaction.

Yunxiao twitched his mouth and grinned. "Since all the grandmasters are not convinced, why don't we make a bet? It just so happens that I didn't earn enough from the competition just now, and since all of you are rich fourth tier existences, I would like to get some primeval stones to spend."

"Haha, arrogant!"

"Bet on what?" Xin ze laughed. You're betting that you'll lose?"

The other fourth-tier alchemists also smiled contemptuously while stroking their beards.

Yunxiao let them laugh, but he kept smiling and said nothing. He glanced coldly at them and said indifferently, "I'll bet with you on alchemy. You three come at me together!

Everyone's expression changed.

Chapter 252-Grand gamble

“What did you say?”

Xin ze almost jumped up from the sofa, and the other two alchemists also glared at him, as if they had been greatly humiliated.

Baili gongjin and Yuan Hao’s faces changed slightly. They did not expect Yunxiao to be so arrogant.

Duan Yue was also shocked. Even Yuan Hao, who was at the peak of the fourth-tier, would not dare to challenge three fourth-tier alchemists at the same time, unless they were fifth-tier alchemists.

master Yunxiao,” Yuan Hao said solemnly, “ you have to think twice. Don’t let your emotions get the better of you.”

For alchemists like them, the humiliation caused by such provocative behavior was much more intense than the shock. Yuan Hao, who was also a fourth-tier existence, was also very unhappy.

“Think thrice?” “As a third-tier Alchemist, you should have the most basic ability to be responsible when you speak,” Xin ze snorted coldly with a frosty face. I wonder how master Yunxiao is going to fight the three of us?”

He deliberately emphasized the words ‘master Yunxiao’, full of mockery and ridicule. The other three people also had frosty and contemptuous expressions.

Yunxiao smiled. He was an honorary elder of The Alchemist Association, so how could he not know these people’s temper? ” “The key is not how to fight, but what to bet on? If your wagers are too low, I won’t have any interest in betting.”

“Haha, master Yunxiao is indeed very brave. This old man will accompany you to the end today!” Xin ze stood up. The Dragon Eye-like ring in his hand flickered with a green light. A ray of light shot out and suspended in the air. Upon closer inspection, one could see that the light was flowing with colorful lights. It was actually a green jade pendant.

this is the void yin-yang Jade," Xin ze said smugly. it's a seventh-tier Jade, and it can greatly enhance the refinement of alchemists. It's an unparalleled treasure, and it's impossible to buy it."

The jade pendant floated in the air, and everyone could feel the warm, nourishing aura within it. They all looked envious.

The other two alchemists pondered for a moment, then took out a small box and a flag respectively.

The flag was badly damaged, but it was carefully protected. The Alchemist hesitated for a moment when he took it out, but in the end, his confidence in his art of alchemy triumphed over his reluctance, and he put it gently beside the void yin-yang Jade.

Baili gongjin's face changed slightly, and he chuckled. Master Lu has even bet on this treasure. It seems like he will win for sure.

Lu HAOCHU, The Alchemist, smiled and said indifferently, "this flag is precious, but it's not complete. I've studied it for so many years, but I've gained nothing. It's useless to keep it, so I might as well take it out for a bet.

The moment the flag appeared, Yunxiao's pupils constricted, and a look of surprise and shock flashed across his face. He carefully studied the lines on it, and his eyes glowed with a fine light.

Duan Yue frowned. There were not many things that could make Yunxiao's expression change, so it seemed that this Broken Flag was indeed extraordinary.

Another Alchemist, GE Xiangqian, said with a smile, "This war banner was only taken out for soo soo. It will still be returned to its original owner later." He gave Yunxiao a contemptuous look, then took out a pair of transparent objects that looked like wood, but were not. He gently put them on the table and said with a smile, "Both of you have taken out your treasures. I can't do anything about it."

Yuan Hao's eyes flickered as he stared at the transparent object and swallowed his saliva. "Master GE, do you want to sell The Purple Cloud centipede's wings?"

GE Xiangqian looked at their envious gazes and laughed, "Haha, Grandmaster yuanchu, this is my precious treasure! You know the value of this thing. It's nothing for a warrior, but it's very precious for us alchemists. It's comparable to the void yin-yang Jade and the tianluo Flaming Flag."

Then, he squinted at Yunxiao triumphantly and snorted, "I wonder if Grandmaster Yunxiao has any good treasures to bet?"

Yunxiao smiled. the treasures you've offered are all good. But, I only want primordial stones. This tianluo flaming war flag can be used as a bet. As for the other two, you can use primordial stones. I'll bid 50 million medial-grade primordial stones for this battle flag. Each of you will bid 50 million medial-grade primordial stones. I'll bet 150 million on the three of you!"

"?!" All the people present were taken aback and gasped. Fifty million mid-grade primordial stones was not a small number for them, and most of them were treasures. They were all alchemists, so how could they have such a huge reserve of primordial stones?

GE Xiangqian snorted in disdain, "I say, Grandmaster Yunxiao, are you deliberately making things difficult for us? All the treasures we have are priceless. You can sell them at any auction for fifty million mid-grade primordial stones without any problem."

yes! Yunxiao nodded gently. I know it's a little difficult for you to get fifty million primordial stones. Grandmaster Yuan, " he turned to Yuan Hao and said, " how much are you willing to pay for this pair of purple cloud centipede wings? " He had also seen Yuan Hao's desire for the wings.

GE Xiangqian's expression changed and he said angrily, "Who said I'm going to sell it?"

Yunxiao ignored him and continued to stare at Yuan Hao.

Yuan Hao frowned and thought for a moment, then said, 'this pair of purple cloud centipede wings is the most perfect fifth-tier demon beast material I've ever seen. Young master Yun, I'm sure you know that we alchemists are dedicated to the Dao, and the cultivation of martial arts is only for the sake of strengthening our bodies and increasing our vitality. Therefore, there were very few experts who could step into the martial ancestor realm. Therefore, many alchemists used demon beast wings as raw materials to refine them into profound artifacts, which allowed them to travel across the sky. The price of a demonic beast's wings is extremely shocking in the market."

that's right," Baili Gongjin said with a smile, "Once, at the firecrow auction held by myriad treasures store, a pair of third-rank devil bird wings was sold for five million mid-grade primordial stones. This pair of purple cloud centipede wings is intact, and its price is hard to estimate."

yes! Yuan Hao thought for a moment and said, "if there is a pair of wings that are exactly the same, I will buy it even if it costs sixty million primordial stones, let alone fifty million!"

Yunxiao narrowed his eyes and smiled. He nodded slightly and said to GE Xiangqian, "You can use your wings as a bet."

Everyone's expression changed slightly. GE Xiangqian was so angry that his face turned green. This was naked contempt. He had already taken the pair of wings as his own.

Yuan Hao's eyes glowed with desire. However, the light immediately dimmed and he smiled bitterly. He knew that Yunxiao could not defeat three fourth-tier alchemists by himself.

Lu HAOCHU said coldly, "master Yunxiao, you're talking big! If you bet with us with one hundred and fifty million primeval stones, what about the primeval stones? It can't be that you're trying to get something for nothing, right?"

I don't have so many Yuan stones with me," Yunxiao said with a smile. but someone will send them to me soon.

The expressions of the three changed. GE Xiangqian said angrily, "So you're playing with us!"

don't be impatient," Yunxiao said with a faint smile. I think that man will be here soon.

Xin ze sneered coldly, "are you saying that someone will send you a hundred million primeval stones immediately?" Which pig-head would be so stupid to be fooled by you?"

Suddenly, a sigh came from outside the door and a wry smile appeared on his face, "Little brother ze, the pig head you're talking about is me."

Xin ze was shocked and quickly turned around.

Baili gongjin frowned slightly. He waved his hand and cast a spiritual spell. The door slowly opened.

Xin Pi stood outside the door with a bitter smile and said helplessly, "I just arrived and I heard someone calling me a pig head."

Xin ze was speechless and stammered, "third brother, you Wan Wan, I Wan Wan"

don't worry," Xin Pi reached out his hand and interrupted him. I'm here to give young master Yun some vitality stones. It was a total of 160 million mid-grade primordial stones. Young master Yun, please check." He threw a storage bag to Yunxiao.

The few alchemists' mouths were wide open in shock, and Xin ze was even more surprised and puzzled. "Third brother, why is this so?"

it's from Lord Pi," Yunxiao said with a smile. I don't need it. He turned to the three alchemists and said, "Now, my bargaining chip is here. The sky Luo flame war flag and The Purple Cloud centipede's wings could suppress it. Master Lu, it's better for you to change your precious Jade into primeval stones."

Lu HAOCHU's face was faintly angry, and he said in a serious voice, "It seems that master Yunxiao doesn't know enough about the effects of my void yin-yang Jade. Wearing this Jade can directly enhance the soul power of an Alchemist, calm their mind, and protect their spirit and body. It's an extraordinary treasure.

I know what you've just said," Yunxiao said with a smile. let's exchange it for primordial stones.

Lu HAOCHU was furious and shouted, "you!" My void yin-yang Jade can be sold for more than this at any auction!"

Yunxiao frowned slightly and said, "Why can't you understand? I only want primeval stones. Do you understand?"

how about this, " Baili gongjin suddenly said. if master Yunxiao wins by luck, I'll buy this void yin-yang Jade for fifty million mid-grade primordial stones. I wonder if you're satisfied with it, master Yunxiao?"

of course I'm satisfied with primordial stones! Yunxiao laughed. I'm happy with primordial stones!

After that, he leisurely stood up and said to Xin Pi, who was stunned, " Please wait for the time it takes to brew a cup of tea."

After the competition, Xin Pi asked the Zhou family for primordial stones, as well as his one hundred million, and came to Yunxiao to discuss something. As soon as he heard from his spy that Yunxiao was in The Alchemist Association, he had rushed over, but he did not expect to run into another competition.

It was an even more ridiculous and unbelievable competition!

Although the competition was not as earth-shaking as Zhou Yushan's battle, it was already destined to be extraordinary when it was mentioned by a fifteen-year-old fourth-tier Alchemist.

Looking at Yunxiao's calm expression, Xin Pi was extremely shocked, and an emotion of disbelief welled up in his heart. Was he so confident? He defeated three famous fourth-tier alchemists by himself?

He didn't dare to believe this conclusion, but he gradually believed it in the depths of his heart. He stood silently at the side and watched quietly.

"Ha, ten minutes. Could it be that master Yunxiao is the instant shooter?" Lu HAOCHU laughed out loud.

yunxiao looked at him indifferently and chuckled. " I hope you can still laugh later."

Lu HAOCHU felt the sharp aura from his body and was instantly shocked, his expression changing slightly. That kind of calmness was not an act, but a natural confidence born from a well-thought-out plan. Lu HAOCHU couldn't believe it. Could this person be so stupid that he really thought he could beat the three of us?

Chapter 253

?

253 The twelve styles of flying flower and falling snow

“How do we compete?” Xin ze’s face darkened. Pill refining, artifact refining, purification, formation, or breaking down materials, you can choose.”

there’s no need to go through so much trouble,” Yunxiao said with a smile. why don’t you just refine primordial stones? I’ve been particularly fond of primordial stones recently.

As soon as he said that, the faces of all the alchemists present changed slightly.

Condensing and refining primeval stones wasn’t difficult. In fact, it was just purifying the primeval stones. Through the formation and soul power, the impurities in primordial stones were constantly broken down and removed, and the purest primordial Qi was condensed into a solid state. Any Alchemist could do it, but it was a test of strength, and there was no room for deception or trickery. It directly tested the alchemist’s ability to decompose materials, control of the loss of primordial Qi, and the strength of his soul power.

“For the sake of fairness, no one is allowed to use the formation. It’s only condensed with soul power.” With a smile in his eyes, Yunxiao glanced at the few people and said, “What do the three of you think?”

The three men were shocked as they looked at Yunxiao in disbelief.

They all thought that Yunxiao would take advantage of the situation, especially when they heard that he was refining primordial stones. They all guessed that he had a powerful array that could help him. Now, he actually suggested using only primordial stones. This was a genuine competition of strength, without any element of luck.

150 million medial-grade primordial stones were placed in front of the three of them, and they dispelled the illusion that this was a joke.

“Ha, how heroic!” Lu HAOCHU finally couldn’t help but say in a deep voice, “Since that’s the case, I would like to ask Lord Bai Li to be the witness and provide four primeval stones of the same quality.”

Baili gongjin nodded slightly. He was also very curious and looking forward to the competition. With a flip of his right hand, a rough raw material of primordial stones appeared in his hand. With a light touch, a light flashed across his hand and instantly divided into four pieces of the same size, placing them on the table one by one.

for the sake of fairness, I’ll use a piece of raw material to cut it into four parts. The purity and size are about the same. Please check it.

“The raw materials provided by Lord Baili naturally don’t need to be inspected,” Xin ze replied indifferently. The other two also nodded in agreement.

Yunxiao tapped his index finger on the table and said in surprise, “Four?”

“What’s wrong?” Baili gongqi asked. Master Yunxiao, what do you think is wrong?”

Yunxiao picked up one of the primordial stones, weighed it in his hand, and then squeezed it hard, turning it into powder.

The pupils of several people contracted, and their faces showed confusion.

master Yunxiao, ” Baili gongjin said in a deep voice, ” do you think there’s a problem with the primordial stones I provided? ”

With a faint smile, Yunxiao gently patted the table. Immediately, another primordial stone flew up and exploded in the air, emitting waves of spirit Qi and dissipating in the air. “Since I’m competing against the three of them, it’s naturally two primeval stones,” he said with a faint smile.

“What?”

Everyone was shocked as they looked at the only two raw materials on the table that were of the same size. They were so shocked that they felt cold.

Yuan Hao wiped his cold sweat and said, 'master Yunxiao, do you mean that the three of them have refined one? Compared to you, who condensed one piece each?'

of course, " Yunxiao said lightly. otherwise, why would I ask them to come at me together? "

"Bang!"

Xin ze flew into a rage as if he had been greatly insulted. He said angrily, " "Li Yunxiao! You're going too far!"

The other two were also furious. As fourth-tier alchemists, they had always been high and mighty, and had never been ridiculed and looked down on like this.

Duan Yue was also drenched in cold sweat as he cursed the kid for not knowing what was good for him. It was a bet of one hundred million and ten million Yuan, not a child's play. How could he increase the difficulty? was he out of his mind?

Only Xin Pi laughed and said, " young master Yun is indeed heroic! We men should be like this!"

Baili gongjin glanced at Xin Pi indifferently and said, " "Lord Pi doesn't know what it means to refine primordial stones. If we were to compete in refining other artifacts, even if master Xin ze and the other two joined forces, it would be impossible to refine a fifth-grade artifact. But it's different when it comes to refining primordial stones. It's almost the complete combination of the soul power and comprehension of the three people, which is enough to compete with an ordinary fifth-tier Alchemist."

It was only then that Xin Pi's face changed drastically. He looked at Yunxiao in disbelief, not knowing where he got such confidence from!

Yunxiao smiled and slapped the table. The raw primordial stone near him immediately floated into the air. He pointed his index finger, and a golden light shot out, wrapping the primordial stone and spinning it in the air.

“Long-winded my ass, I’m coming for a fierce battle!”

His expression turned cold, and he immediately ignored the doubts and questions of the people around him. A stream of soul power gushed out from his glabella and rushed into the raw primordial stones, rapidly breaking down the impurities.

The faces of Xin ze and the other two men were livid, but they were still furious, their chests heaving up and down. They stood there and stared coldly at Yunxiao, none of them moving.

To them, the idea of a competition like this was already the greatest insult.

Soon, Yunxiao was immersed in the refinement, and his mind was focused, no longer distracted. It was a state of emptiness, both physically and mentally. The whole world was only left with that primordial stone, and the Dao of art that had become one with the world was constantly flashing on his body.

It was an extremely high enjoyment, and Yunxiao was very intoxicated by it. After so many years, that kind of natural and smooth, void-like and silent state was once again displayed on his body.

Baili gongjin’s eyes glowed, and he clenched his fists subconsciously.

Among the people present, his cultivation base in alchemy was the highest, so he was surprised to see the state Yunxiao was in at a glance. It was the realm of the unity of man and nature, which was highly respected in both martial arts and sorcery.

This realm was often something that could be encountered but not sought. It required a certain amount of luck and had nothing to do with the level of cultivation. Baili gongjin suddenly had an idea. ‘Can I really win against three of them?’

Gradually, Yuan Hao, Xin ze, and the other three men's pupils constricted as they looked at Yunxiao in shock, their eyes shining.

Although Xin Pi and Duan Yue did not understand the Dao of alchemy, the temperament of a Grandmaster and the way Yunxiao moved were extremely close to the realm of the unity of heaven and man of the great Dao of nature, which was in line with their understanding of martial arts. They were also very surprised to see Yunxiao's natural and unrestrained movements, as if their own realm had also been affected.

it's really the unity of man and nature! Xin ze couldn't help but ask. how did he do it? "

this is ... Lu HAOCHU swallowed his saliva and said, " this kid is really lucky!

"Is it luck?" GE Xiangqian glanced at the raw primordial stone on the table, and the blood in his body seemed to heat up. He clenched his five fingers until they made a "pa pa" sound, but he finally held back. If they attacked, even if they won, they would be laughed at.

"Ha!"

Yunxiao suddenly cried out as his eyes flickered with a bright light. One by one, he cast a spiritual art in front of the primordial stones in a strange way, as if he had gone crazy. Not only was he crazy, but he was also extremely ugly, instantly breaking the beauty of the unity of man and nature.

Baili gongjin's eyes widened in shock. this is the basic refining technique, the twelve styles of flying flower and falling snow!

Yuan Hao's eyes turned serious as he said in disbelief, " "Sixty years ago, there were only thirty-six basic refining techniques, which were the introductory techniques for alchemists. However, Lord Gu Feiyang, with his unparalleled talent, created twelve styles. The headquarters of The Alchemist Association was divided into two factions for this, and after an intense discussion for twenty years, it was officially confirmed that the basic refining method would be expanded to forty-eight styles."

such an ugly move? " Duan Yue could not help but frown. why did you give it such a nice name? "

it was given by Lord Gu Feiyang. Yuan Hao was stunned and shook his head. how would insignificant people like us know? ”

Baili gongjin smiled and said, ” “I’ve heard Lord yang di mention this before. When Lord Gu Feiyang created the twelve basic refining techniques, he also thought that the movements were too ugly. He couldn’t improve it even after thinking for several months. I’ll give you a nice name as compensation.”

Duan Yue,”Yingluo.”

He could not help but curse in his heart,’why is this Gu Feiyang talking nonsense like Yunxiao?

Baili gongjin continued,’the twelve styles of flying flower and falling snow are not something that ordinary alchemists can master and understand. Only rank four existences could see the profoundness within. I’ve seen Yunxiao immersed in the twelve moves for at least decades.”

As soon as he said that, he frowned and looked stunned. The rest of the people also revealed strange expressions.

look at his skillful technique, ” Yuan Hao said with a wry smile. it’s impossible to achieve this without decades of bitter cultivation. However, he suddenly had a feeling of lamentation. He bitterly said, ” “He’s only fifteen! And a few months ago, it was only Grade 3!”

“Bang!”

GE Xiangqian finally could not take it anymore. He slammed the table heavily, and the raw primordial stone finally flew up. With a wave of his hand, a surge of primordial power immediately wrapped around it. The raw primordial stone was pulled by the force and began to dance around his body.

Under the will of Yunxiao’s twelve styles of Flying Flowers and falling snow, he finally could not suppress his fighting will and was the first to make a move.

Surging soul power erupted from GE Xiangqian’s body. It was as if a dormant volcano had suddenly come back to life and erupted with shocking power.

At this moment, he did not dare to underestimate Yunxiao in the slightest. The strength Yunxiao had shown so far was not inferior to his. In particular, the comprehension of the concept and the refinement of the technique gave him a feeling of being left in the dust.

Fight for dignity!

Baili gongjin was slightly touched, and he sighed in his heart. He finally made his move. His gaze fell on Xin ze and Lu HAOCHU. The two men stared at Yunxiao. They no longer had the contempt and anger in their eyes, but only solemnness and shock.

“I also know the 12 styles of flying flower and falling snow!”

break! GE Xiangqian cried out as his body began to transform rapidly, using the exact same technique as Yunxiao’s as he kept casting incantation gestures into the raw primordial stones.

Chapter 254

?

254 The Hakone heart-refining hand

Everyone’s brows furrowed slightly. Although the two people’s techniques were exactly the same, the visual impression they gave people was like heaven and earth. It was as if a teacher was practicing, while a disciple was clumsily imitating. No matter how one looked at it, it didn’t seem to fit in.

Even laymen like Xin Pi and Duan Yue could see the gap between the two.

Yuan Hao sighed slightly. Just by looking at this set of moves, GE Xiangqian had already lost by half.

The twelve styles of flying flower and falling snow was a required technique for fourth-tier alchemists, and they had once discussed and learned it together. Usually, when they saw each other using it, they didn’t think much of it. But now, compared with Yunxiao, he was just imitating Yunxiao. Not only was he ugly, but he was also almost disgusting.

The primordial stone in front of Yunxiao had shrunk by a size. A large number of gray impurities were directly extracted and removed by his basic techniques, leaving behind stones condensed from primordial Qi, and their color was gradually turning pure white.

“Low grade origin stones!”

Duan Yue’s eyes flickered, and he could not help but exclaim. It was the first time he had seen an Alchemist condense primordial stones, so he was a little excited. His greater enthusiasm was when he saw that Yunxiao’s primordial stone was obviously purer than GE Xiangqian’s, and he was eager to see the huge bet.

As for Baili gongjin and the others, they were more interested in the process. Yunxiao’s every move flashed in their eyes, but it left a deep shock in their hearts. Every detail was perfect and could be compared to a textbook.

GE Xiangqian’s expression changed drastically. He had also discovered the difference in their techniques. With a light shout, a vigorous soul power surged out and pressed down on the primordial stone raw material. As for the lack of technique, he made up for it with his soul power. The surging power of a fourth-tier Alchemist was controlled by him exquisitely, and he kept squeezing out the impurities from the primordial stones. Soon, the raw materials began to turn pure white.

“Master Baili, who’s stronger?” Xin Pi was fascinated, but he couldn’t understand it, so he couldn’t help but ask.

master Yunxiao is very powerful in his technique, ” Baili gongjin said with a grave expression. but the twelve styles of Flying Flowers and falling snow requires a strong physical strength. And master GE’s spirit power was extremely vast, but this was difficult to last long. Both of them have their own strengths, so we can’t tell for now. We’ll just have to see who can’t hold on first.”

Both Xin ze and Lu HAOCHU’s faces flickered. Everyone in the city knew that Yunxiao had an extremely strong physical technique. The twelve styles of Flying Flowers and falling snow consumed a lot of their physical strength, but it was nothing to Yunxiao. From his calm look, it could be seen that GE Xiangqian would be in a very bad situation if this continued.

Duan Yue also clenched his fists and found that they were all sweaty. The bet of 150 million Yuan was too scary. Even he, a three-star Martial Emperor, was terrified.

Under the suppression of GE Xiangqian's immense soul power, the primordial stone's impurities were quickly removed, and it became a low-grade primordial stone. However, cold sweat began to appear on his forehead, and he felt that he could not hold on any longer. He sneaked a glance at Yunxiao and found that the latter was still unhurried and unhurried. His heart trembled, and he gritted his teeth and continued to suppress the power.

With his surging soul power, the purity of the primordial stone was almost as high as Yunxiao's. However, Xin ze and Lu HAOCHU's faces were getting uglier and uglier.

"Middle-grade!"

GE Xiangqian shouted and used all his strength to charge forward. The low grade primordial stone almost collapsed under the tremendous force, scattering a large amount of primordial Qi powder. The entire stone shrank by one size, but it became extremely white and clean, full of spiritual Qi. He had forcefully raised it to the middle-grade.

A trace of blood trickled down the corner of his mouth. GE Xiangqian did not feel happy at all because he had advanced to mid-grade, but looked at Yunxiao's primordial stone with a bitter face.

Under the careful refining of the twelve styles of flying flower and falling snow, he was also slowly condensing a middle-grade weapon. From his face, he could tell that Yunxiao was not having an easy time. However, with his meticulous technique, the whole vital stone was not damaged at all. The spiritual Qi was preserved in an extremely good condition, unlike his strong suppression, which had lost a lot of vital Qi.

More importantly, Yunxiao looked like he had an endless supply of energy. And he was already a lamp without oil.

Everyone's heart was extremely shaken. Lu HAOCHU couldn't hold it in any longer, and his face was extremely red. Although it was too embarrassing to take turns to fight, he had already been forced into a corner at this critical moment. If he didn't make a move, he would lose completely.

“Master GE, you can leave. I’ll do it!” Lu HAOCHU couldn’t care less about his face. With a wave of his hand, his majestic soul power immediately lifted the tottering vitality stone. Like a profound level weapon that had been injected with energy, it once again shone brightly and began to spin in the air.

GE Xiangqian’s face was filled with misery as he retreated several steps before sitting down and hurriedly meditating.

This was a battle of pure soul power, and the consumption was the greatest, but it could not be faked.

Yuan Hao’s eyes were wide open as he murmured in a daze, “So he was going to fight one against three, it was actually a real bi an.”

A look of shame appeared on Lu HAOCHU’s face, but he quickly cast aside his distracting thoughts and devoted himself to the condensation. After the primordial stone entered the middle grade, there were almost no impurities left. The next step was to continuously concentrate the essence and increase the grade of the primordial stone. The most important thing was to protect the profound Qi and not let the spiritual Qi dissipate.

He gently opened his hands, and a series of illusionary images appeared, giving people a dreamy and illusionary feeling. They were extremely beautiful.

Baili gongjin smiled and praised, “The technique of the eight disambiguation heart refining secrets is unique and powerful. It is the best technique to refine stones. Master Lu had been immersed in it for dozens of years, and when he performed it, it was natural and smooth, and he did as he pleased. Even I can’t compare to him in terms of understanding this technique.”

Duan Yue’s face was filled with deep worry. Although he knew that Yunxiao’s alchemy skills were extremely powerful, he never expected that he would be so powerful that he could fight two fourth-tier alchemists in a row. However, he was still limited by his age. No matter how monstrous he was, he was only fifteen years old. The other three added together were probably more than two hundred years old. How could talent make up for such a huge gap in age? Besides, any Alchemist who could advance to the fourth-tier was a genius.

“It has also advanced to middle-grade!”

Yuan Hao cried out in surprise, and everyone's eyes immediately fell on Yunxiao. Under his careful carving, the primordial stone had been washed away of dust and turned pure white. It was undoubtedly the purity of mid-grade.

Baili gongjin gasped in surprise and said, "It's truly a work of art. I didn't feel any loss of vital Qi during the entire process. If I didn't see it with my own eyes, I wouldn't have believed it! But what method would he use next? After reaching middle-grade, if he used the twelve basic forms again, the quality of his primeval stones would probably be greatly improved. This, this is a Kasaya?"

Yunxiao took a deep breath, then changed his ugly and strange posture and performed a set of complicated incantation seals in his hands, sending out bursts of frequency fluctuations, as if he were searching for the entrance to this space and trying to merge with heaven and earth again by relying on the power of nature.

"What is this technique? It's actually giving off a powerful vibration. The frequency of this fluctuation is changing so quickly!"

Yuan Hao was taken aback, and his eyes nearly popped out of their sockets. He had never heard of the technique Yunxiao was using. There was only a majestic feeling, and even the space began to become restless, as if it wanted to integrate into his spiritual spell.

"What a profound comprehension!"

Xin Pi's pupils shrank. Although he didn't know the art of Dao, he could still feel the comprehension of the Dao that was gradually merging with the heaven and earth when he used this technique. He was more than one level higher than Lu HAOCHU.

all techniques return to one. No matter if it's the martial path or the art path, they all end up in the same place. They all turn into heaven and earth, the end of the universe, the ultimate of the universe!

Duan Yue was a little dazed as he watched. The Enlightenment of the essence of merging with space touched his heart slightly, and he vaguely felt that his cultivation base had improved.

Xin Pi seemed to have felt the changes in Duan Yue's body. He was slightly shocked and showed an envious look. At their level, it was already extremely difficult for them not to improve by even a little. This kind of improvement under the coincidences was even more difficult to come by.

"Illusive waves heavenly Scripture! This is the illusive waves Scripture!"

Baili gongjin cried out involuntarily. His eyes were filled with uncontrollable shock, and his skin was slightly red from the excessive hesitation and excitement.

Both Yuan Hao and Xin ze were shocked. As a sixth-tier Alchemist, Baili gongjin had always been a steady man, and he rarely lost his composure like this. It was obvious that the technique Yunxiao used was extraordinary, and even a sixth-tier Alchemist could not remain calm.

Yuan Hao could not help but ask, "master Baili, what technique is this illusive waves Scripture?" Why have I never heard of it?"

Baili gongjin did not seem to hear Yuan Hao's words. His face was a little stunned, but his eyes were fixed on Yunxiao's hand movements with a strong desire, as if he wanted to forcibly imprint each move into his mind. But in the end, he failed. The hand movements were too hallucinating and repetitive. He breathed a heavy sigh of disappointment.

when I first saw this technique, I was the same as all of you. I was only a fourth-stage monarch. At that time, I was still cultivating by master's side and living in the sea of soul formation.

Baili gongjin's eyes blurred as he reminisced.

there are only two people who have been granted the honor of an honorary elder in The Alchemist headquarters of the sea of soul formation. I still remember that day when master told us that The Alchemist Association headquarters had another honorary elder, and when he said that, his face was full of admiration.

"At that time, master was already a ninth-tier sovereign Alchemist, and we were all very curious about who else could make master so convinced. Master has told us carefully that the next day will be the

lecture of this man after he has been promoted to an honorary elder of The Alchemist Association, and that we must put everything aside and attend it. ”

later, in order to learn the illusionary waves Scripture, I sneaked into Lord Gu Feiyang’s chamber in The Alchemist Association when no one was paying attention.

Chapter 255-an old friend

“?!”

The crowd gasped in shock at Baili gongjin’s audacity. you saw Lord Gu Feiyang? ” Yuan Hao asked in surprise. did you? ”

“That’s right!” Baili gongjin said respectfully. When I sneaked in, Lord Gu Feiyang was cultivating in his bedroom, sitting cross-legged. I couldn’t describe my excitement at that time. I knelt down and begged Lord Gu Feiyang to teach me the illusive waves technique.”

“And then?”

Duan Yue asked quickly. He was very interested in the legends of the legendary figures on the continent.

I knelt in front of Lord Gu Feiyang all night, ” Baili gongjin said with a bitter smile. he still didn’t move or say a word, as if he didn’t notice my existence. It was only when dawn was about to break that I suddenly realized that Lord Gu Feiyang had already taught me something more important.”

“What is it?” Yuan Hao was curious. He had not spoken for a night, but he had actually comprehended something?

Baili gongjin said in a serious tone, ” “Lord Gu wants to tell me this: The art of cultivation was boundless, but life was boundless. Even if you have an indomitable heart to pursue the Dao, you must be down-to-earth and follow your steps. As long as you are tenacious, you will eventually be able to wait for the day when the rooster crows!”

“I see!” “Lord Gu Feiyang is truly an extraordinary man!” Yuan Hao was also enlightened and sighed.

“Gulp!”

Yunxiao, who was condensing primordial stones on the side, gave a muffled grunt as he swallowed hard and almost coughed up blood.

He did remember that there was such a thing.

After the lecture conference ended, he was framed by a bad friend who said that something good was going to happen. It turned out that he had peeked at Red Lotus Martial Emperor Liu Feiyan bathing. That bad friend quickly slipped away. At that time, he was shocked by Liu Feiyan’s peerless breasts and ran half a step slower. As a result, he was locked on by the other party’s divine sense.

In a hurry, Yunxiao fled back to his chamber and pretended to meditate. As expected, Liu Feiyan caught up in an instant. She was suspicious in the dark and finally decided that he was the murderer. Just as she was about to attack ... A rash and silly boy had sneaked in and knelt in front of him, saying that he was wholeheartedly seeking Dao and wanted to learn the illusive waves heavenly Sutra.

But Liu Feiyan was watching him in the dark. He was afraid of being exposed and didn’t dare to move.

That kid was also very determined. He knelt for the entire night. At dawn, he suddenly said, “thank you, Lord Gu, I understand!” He ran off excitedly, making him feel baffled.

Liu Feiyan also waited for an entire night and finally left impatiently.

So this was what happened!

So this kid is actually an old friend, and he even saved me once!

Yunxiao’s face darkened, and he was so distracted that he almost made a few mistakes in his incantations.

A look of reverence appeared on Baili gongjin's face, and he said in a reverent tone, " "At that time, my master couldn't help but say to me with emotion that Lord Gu Feiyang was an unparalleled genius in alchemy, and that in the future, the branch of alchemy would definitely be continued and developed by him. Let me follow Lord Gu Feiyang's footsteps on the path of alchemy, and walk toward the pinnacle of the Dao of alchemy forever and ever without stopping."

After everyone heard this, they were all silent. In his heart, he had an infinite yearning for that genius who had streaked across the sky like a comet since ancient times.

Xin ze was touched as well. His eyes were filled with complicated emotions. I didn't expect Li Yunxiao's spirit incantation to have such a powerful origin!

Baili gongjin also smiled and said, " it's a pity that Li Yunxiao is extremely talented. If he had not been so arrogant and fought three people alone, he would not have suffered such a great loss today.

master Baili, I don't like what you're saying, " Duan Yue said unhappily with a dark face. so far, it seems that the outcome is unknown, right? "

Baili gongjin smiled and said nothing. When he saw that Yunxiao knew the illusive waves technique, his heart was filled with extreme fanaticism. He had captured Yunxiao for the three great seals of heaven and earth, the world of mortals, and floating life, and now there was also the illusive waves heavenly Sutra that he had been dreaming of. He had to get it this time no matter what.

As long as Yunxiao lost, it would not be a problem for him to buy it with a large number of primordial stones. Even if he had the illusionary waves heaven's scroll, it was impossible for him to fight against three people alone. He secretly sent a signal to his subordinates to start collecting primeval stones.

Lu HAOCHU's Hakone heart refining hand was already at its peak. Every time he swung it, it was like a giant hammer falling on primordial stones, shining brightly.

As soon as Yunxiao performed the illusive waves technique, the primordial stone began to condense on its own, as if it was going to absorb the primordial Qi in the air.

Yuan Hao couldn't help but say, "this illusionary waves Scripture is too amazing. It can actually make the vital Qi condense on its own without dispersing. Instead, it will collapse inward. This is such an advantage!"

"Take advantage of me?" one against three?" Duan Yue snorted coldly and said, "and you're taking advantage of us?"

Yuan Hao immediately shut his mouth, shame flashing across his face.

Baili gongjin looked at the technique in silence. He was even more shocked and excited than he was in the sea of soul formation.

"The highest level of the Hakone heart-refining technique-hundred refining artifact!"

break! Lu HAOCHU shouted, and a hint of red appeared on his face. His hands suddenly shone with golden light, and the shadow of the hammer fell from the sky and gathered from all directions. It suppressed the primordial stone to the extreme and began to advance toward the level of high-grade primordial stones.

The entire room was filled with spiritual energy, emitting a faint Yuan Qi fragrance that was refreshing. However, no one was in the mood to enjoy it. They were all watching the battle nervously.

"The high-grade origin stones are done!"

Lu HAOCHU was overjoyed, and his pale face was filled with excitement. In one go, he continued to use the hundred refinement weapon to bombard the primordial stones, but the effect was getting weaker and weaker.

On the other side, Yunxiao's technique was getting faster and faster, and his primordial stones were also advancing toward high-grade quality. His face was also beginning to turn pale. No matter how exquisite his technique was, the consumption of spirit power was difficult to avoid.

"Can it advance to high-grade?" Everyone's heart skipped a beat as they watched nervously.

At this point, even if he had successfully advanced to high-grade, he would still be defeated without a doubt. After all, the other party still had Xin ze who had yet to make a move.

“Condense!”

break! Yunxiao cried out as a surge of soul power bloomed from his glabella and shot into the primordial stone. The extremely dense primordial Qi was suppressed by his soul power and began to break through to a higher level. The illusive waves Scripture in his hand flickered with golden light as it slowly condensed the vital Qi.

“Such precise control.” Baili gongjin praised in disbelief, “His soul power seems boundless, and he’s just like Lu HAOCHU, tempering and condensing his soul power without caring about the cost. However, in reality, every bit of his soul power is used on the edge of the blade, and there’s not the slightest bit of waste. Heavens, is this level of control really something that a fifteen-year-old boy can do?”

“It’s high-grade!”

Yuan Hao’s pupils constricted as he cried out in shock, “he actually managed to raise the raw materials of vitality stones to the level of upper-grade by himself! Can Lao Ai still hold on?”

On the other side, Lu HAOCHU’s face turned pale. Although Yunxiao’s primordial stones had just entered the upper-grade, which was slightly worse than his, the blow to his self-confidence and dignity was undoubtedly huge. Coupled with the great loss, he almost coughed out a mouthful of blood.

“Master Lu!” Xin ze was shocked and hurried over to help Lu HAOCHU. He said with a livid face, “I’ll do the rest!”

Lu HAOCHU’s face revealed a trace of helplessness. He exchanged a bitter smile with GE Xiangqian beside him. At this stage, even if they won, they would lose face. As for the 150 million primeval stones, they had no face to take it.

Xin ze thought the same as well, but since they had already reached this stage, he had to go up no matter what. If he won, he would lose face, and if he lost, he would be even more ashamed.

“The moon rises from the sea!”

Xin ze shouted as he raised his hands like a wheel, like a bright moon. The primordial stone slowly rose up under his support. The powerful soul power was like a river that burst its banks as it continued to rush into the origin stone and refine it.

After reaching high-grade origin stones, any further advancement would only allow one to reach Supreme-grade. And in this process, the effect of the technique was extremely small. Only with the use of powerful soul power squeezing, could it reach the Supreme grade.

Yunxiao naturally knew this. He sat down cross-legged, and a light flickered between his eyebrows as streams of soul power shot out exquisitely and into the primordial stones. The only thing he could do now was to not waste a single bit of soul power.

“Can master Xin’s soul power push the primordial stones to Supreme-grade?” Yuan Hao asked expectantly.

Baili gongjin frowned and said, “Difficult! It was much harder to charge from high-grade to top-grade than the previous two stages. If there are no accidents, it should stop at the peak grade, or at most, it will become a pseudo peak grade existence.”

since we can’t reach Supreme-grade, I think young master Yun is about there,” Duan Yue said hurriedly. we’ve both stopped at high-grade, so we’re even.

He had found that Yunxiao could not hold on any longer, and Xin ze’s momentum was astonishing as soon as he came on stage, and the victory was almost certain.

Baili gongjin glanced at him indifferently and said, “Even if they’re all high-grade, there’s still a difference in their levels.”

As expected, after it entered high grade, the primordial stone that Xin ze was controlling started to condense at an extremely fast speed. Its vital Qi was so dense that it made people drool. As for the piece in front of Yunxiao, its progress was extremely slow, as if it had reached the end of its life.

Yuan Hao couldn't help but sigh, 'master Yunxiao, it's a glorious defeat. Although there aren't many people in today's battle, it's enough for your name to spread throughout the world!'

Everyone couldn't help but nod slightly. Even Lu HAOCHU and GE Xiangqian lost their temper and kept silent.

Suddenly, a cold voice rang out, "Master Yuan Hao, do you really think I've lost?"

Yunxiao cried out as he changed the incantation gesture in his hand, and a golden tadpole-like character emerged in his palm. The soul-form in the divine realm tablet grew fainter and fainter, and finally disappeared, completely returning to its original body.

The soul power that was about to dry up was suddenly nourished and rapidly strengthened.

The vital stone in front of him suddenly felt a huge pressure and began to spin rapidly. Every spin would condense some vital Qi, and its speed was no less than Xin ze's!

"?! What's going on?"

Everyone sucked in a breath of cold air, abnormally shocked.

Chapter 256-borrowing soul power

"Haha, we're going to win! I just said it was a draw, and you guys didn't agree. Tsk tsk!"

Duan Yue danced with joy. Judging from Yunxiao's aura, he seemed to be even stronger than Xin ze.

Baili gongjin and the others were so shocked that their mouths could even fit watermelons. So far, the soul power Yunxiao had displayed was no less than that of a fifth-tier King Alchemist.

Xin ze's expression changed drastically as well, revealing a look of disbelief. The bright moon Rising from the ocean was an extremely profound soul-refining technique, which could bring out the potential of an Alchemist in a concentrated manner in an instant, thus greatly improving his soul power in a short time.

The process of refining primordial stones from high-grade to Supreme-grade was an extremely difficult thing for fourth-tier alchemists. Moreover, the longer it dragged on, the more losses it would take, so the best way here was to fight it out at all costs with spirit power.

"This kid must know this too, that's why he's throwing out all his trump cards, hoping for the final blow. However, I don't believe that you can still contend with me after fighting against two 4th rank experts!"

Xin ze's heart was filled with a monstrous fighting spirit. He was completely convinced by Yunxiao at this moment, but he could not lose this competition no matter what!

"The moon rises from the sea, the moon shines on the ditch!"

"Boom boom boom!"

A thunderous sound seemed to ring out from within Xin ze's body. A stretch of moonlight emerged and shone on the vitality stone. Under the repeated strange phenomenon, the vitality stone frantically condensed into a ball. The smaller it was, the higher the quality. In contrast, Yunxiao's side began to dry up like a river that had been cut off, after a majestic impact.

"As expected, it's the last radiance of the setting sun."

Baili gongjin stroked his beard and smiled, as if he had seen through her.

Yunxiao was already soaked in sweat, and his face was extremely pale. Golden light glowed on his skin, and tadpole-like characters appeared from time to time. They were the great Yan divine language, which was difficult to understand.

“What is this?” Baili gongjin’s eyes widened as he looked at the Golden tadpole-like characters that kept flashing on Yunxiao’s body. “An ancient golden rune! You’ve actually cultivated the ancient scriptures! Who the hell are you?”

This time, he really couldn’t stay calm. From the three seals of floating life, mortal world, and heaven and earth to the illusive waves heavenly Sutra, and then to this ancient scripture, each time was more shocking than the last!

In particular, no one in the world today could recognize these ancient scriptures. His master was one of the experts who studied these ancient characters in the sea of soul formation, but it was difficult for him to understand the profound meaning within each character. It was unknown where these ancient characters were inherited from, and it was also unknown why they had disappeared in the torrent of history. However, every character contained the rules of the great Dao, and it seemed to be for this reason that they could not exist in the world.

Yunxiao smiled wryly in his heart. If it were any other sixth-tier Alchemist, they would not be able to know the origin of the Golden characters on him. However, Baili gongjin happened to be that person’s disciple, Yingluo.

But at this moment, he was forced into a corner and had no other choice. If he didn’t use the great expansion divine technique, he would definitely lose.

Yunxiao chanted in an obscure voice, and his spiritual ocean glowed with a golden light. The dried spirit spring was watered and erupted again, pouring into the primordial stone.

For a time, the two of them showed strange signs, shining on each other.

The two primordial stones were also collapsing and condensing at an extremely fast speed. They became smaller and smaller, and finally, they shrank to the size of a Dragon’s Eye and stopped.

they’ve already reached their limits. They’ve both stopped before the Supreme grade! Yuan Hao swallowed his saliva and asked in surprise, ‘are they evenly matched? Both of their origin stones are infinitely close to top grade, but they are not.’”

Baili gongjin's pupils constricted and glowed. He stared at the two pseudo Supreme grade primordial stones and finally sighed. He said in disbelief, "Although they're both pseudo Supreme-grade, master Yunxiao's primordial stones are a little bigger. It's obvious that the primordial Qi was well preserved during the refining process and very little was lost. And master Xin's piece had even more severe vitality loss. It should be master Yunxiao's victory."

GE Xiangqian and Lu HAOCHU's faces turned cold as they lowered their heads in silence. Baili gongjin's judgment was absolutely fair. He was not biased.

"Haha, we won, we won!" Duan Yue could not help but jump up in excitement. primordial stones! One hundred and fifty million primordial stones! Haha!

"Hold on!"

Suddenly, Xin ze shouted. His eyes were slightly red as he said sternly, "the competition isn't over yet. Why are you making such a judgment?"

He flipped his right hand and a purple spirit pill appeared in his hand. His eyes were filled with struggle.

Yunxiao's heart trembled as he looked at the purple pill.

This purple pill was made of a seventh-rank beast soul. It was called Purple Air from the East. It was a rare pill to increase soul power. Its value was no less than 50 million mid-grade origin stones!

"Let's go all out!"

Xin ze shouted, closed his eyes, and swallowed the purple Qi from the East. In any case, they had already fought in a tag-team battle and lost all their face, so this one more round was not a big deal.

After swallowing the pill, his pale face suddenly turned purple. His face was glowing, and his dried soul power quickly increased. A bright moon rose into the sky again, pushing the pseudo Supreme grade pill to a higher quality.

“We’re finished! Do you still have any shame? It’s one thing to fight in turns, but to actually have to swallow medicinal pills!”

Duan Yue was trembling with anger, and the primordial stones in his hand were about to fly away.

Xin ze acted as if he didn’t hear anything, his entire body and mind were focused on that primordial stone, not allowing the slightest mistake. GE Xiangqian and Lu HAOCHU’s faces were red. They buried their heads in their necks and did not dare to look up.

“Top-grade!”

Yuan Hao’s pupils contracted as he stared at the yuan stone in front of Xin ze. “He’s really entered the Supreme grade! Now, master Yunxiao is embarrassed.”

Yunxiao was shocked to see the primordial stone gradually pushing into Supreme-grade. At the moment, his soul power was dried up, and he had circulated the great expansion divine technique to its peak, so he could no longer exert any strength.

Everyone’s heart jolted as they turned to look at Yunxiao. He conjured an art with one hand, and his entire body suddenly seemed to enter a meditative state. Only a faint essence force flickered out from the space between his brows, keeping the pseudo origin stone from falling.

“Could it be that he wants to slowly recover his soul power before refining again? Isn’t this too ridiculous? I’m afraid it’ll take several months for him to fully recover after this battle.” That was what Yuan Hao thought.

But, everyone was silent, waiting for Yunxiao to admit defeat. No one urged him, because even though he had lost, it was still a glorious defeat.

Inside the divine realm tablet, a faint shadow of Yunxiao’s soul emerged. He had consumed too much hesitation power, so it was extremely difficult for him to maintain his soul-form at the moment. In a flash, he appeared at the bottom of Mount inch, in the center of the spirit sea.

“Lend me your soul power!” He said.

Without another word, he grabbed the sapling of the Kunwu Divine Tree.

“Whoosh!”

The sapling sensed danger and instantly moved away, hiding far away. A faint shadow appeared on the sapling. It was the appearance of a boy, and he said with a tender voice, “What do you want to do? Don’t you know how important soul power is to me? You actually want to plunder it.”

Yunxiao frowned. The Kunwu Divine Tree was indeed a Supreme treasure of heaven and earth, as it had awakened its spiritual sense so quickly. “I made a bet with someone. Now that I’m like a lamp without oil, I’ll borrow your soul power to nourish it. When the time comes, I’ll return it to you several times over.”

“Tsk, how can I return my soul power? It’ll be a great loss for me if you ask for some now. You’d better think of another way, in any case, I won’t lend you my soul power!” The boy shook his big head and refused.

“Xiu, don’t waste your time talking to me!” Yunxiao said angrily. Now that we’re all in the same boat, we’ll share the shocking Yuan stones that I won. If you continue to nag and cause me to lose the competition, I’ll catch you and burn you like firewood next time!”

The boy blinked his eyes and thought for a while, then said, “I’m the Kunwu Divine Tree, and I’m not even afraid of the true Phoenix Fire. How can the fire of the mortal world burn me? I was born in the five elements of heaven and earth, but I’m beyond the five elements. Water and fire can’t invade me.”

“Don’t invade your sister! Since it was within the five elements, it was restricted by the rules of the five elements. I don’t believe that even the greatest metal Qi in the world, the taihao universe gold, can’t cut you open!” Yunxiao was so weak that he did not even have the strength to speak, and his figure was getting fainter and fainter. there are still a few breaths of time left. If you don’t support me now, you’ll have to eat the sword energy of the taihao universe gold! Don’t even think about escaping from my divine realm tablet for the rest of your life!”

The boy's face was slightly pale, as if he was really afraid. He gritted his teeth and said, "Just a little bit, just a little bit, a little bit!"

"Long-winded, quickly come over!" Yunxiao's face grew anxious as he hurriedly reached out to grab the boy.

At this moment, his real body in The Alchemist Association suddenly opened his eyes, and a sharp light burst out of his eyes. There seemed to be a faint flash of lightning in them, and it shook the pseudo Supreme-grade primordial stone with a bang, almost bursting it.

"Great expansion divine technique, refine!"

With a wave of his hand, golden tadpole-like characters scattered down and vanished in the air. Each character contained a Supreme great Dao, and it instantly wrapped around the pseudo Supreme-grade primordial stone, raising its quality!

His surging soul power seemed to be surging out of his body. The Supreme-grade origin stone that Xin ze was controlling was shaken by the boundless power and was pushed to the side.

Xin ze, who was still trying to increase the quality of his soul power to the maximum, was shocked when he felt the surging Ocean of Soul power. He was so shocked that he spat out a mouthful of blood. He spat it directly on his own Fang Yuan stone and was instantly sent flying. He fell onto the table and spun non-stop.

"?! This Yingluo "

Everyone's minds went blank. Yunxiao's energy seemed to have changed, and he was even stronger than when he was at his peak!

"Top-grade!"

break! Yunxiao scolded. The tadpole-like characters were inserted into the primordial stone, and the quality of the primordial stone was instantly upgraded to Supreme-grade.

He still didn't have the intention to stop and imprinted all kinds of strange spells on it. After the primordial stone advanced to Supreme grade, its quality was still increasing rapidly, as if it was going to break through to the innate Yuan dan!"

Chapter 257

?

257 Innate Yuan dan

Above Supreme-grade primordial stones, there was another kind of Qi of vitality. It was like a stone, but not a stone. It was completely condensed from the purest Qi of vitality in the world. However, if it was swallowed directly, there would be no impurities, and there would not even be any reliance. In this state, there was only one in ten thousand Yuan Qi stones. They were born from the essence of Supreme-grade Yuan stones and were known as innate Yuan dan!

is he trying to break through to the primordial core?!

Baili gongjin's heart trembled, and his eyes flickered with horror. Innate Yuan dan could only be refined by sixth-tier alchemists like him, and its effect was much more powerful than Supreme-grade primordial stones. It was also priceless on the market, because the production was too low. No Alchemist would spend so much soul power to make it, unless it was those great forces that had been passed down for thousands of years. Only they would spare no effort in training their younger disciples.

Innate Yuan dan!

Not only GE Xiangqian and the other alchemists, but Duan Yue and Xin Pi also knew what it was, and they were all taken aback.

After spitting out a mouthful of blood, Xin ze also watched Yunxiao condense it in horror. At this moment, it had already lost in terms of the quality of its vitality stone, and the three of them were completely convinced of their defeat. They did not have any complaints or dissatisfaction.

In the divine realm tablet, under mount inch.

The sapling of the Kunwu Divine Tree was swaying left and right, as if it had shriveled up and its leaves were drooping. A dark and obscure boy's figure flickered among the shadows of the leaves, as if he would be blown away by the wind at any time. The boy's low curses kept ringing out, " we agreed on a little bit, but he actually directly extracted more than half of my soul power. This damn bi an.

Then, the voice became so soft that it couldn't be heard, and it gradually fell into a deep sleep.

At this moment, Yunxiao's entire body was glowing with a golden light, and his eyes were also flickering with golden tadpole-like golden characters. This was the first time he had used the great expansion divine technique so comfortably, and he gradually merged with the profoundness. The Dao accumulation engraved in every character emitted the same frequency as the laws of heaven and earth.

"He's merged with the world again! This Yingluo "

Everyone was stunned. He had experienced this kind of situation twice in such a short time.

These alchemists, in particular, also felt a Supreme Dao accumulation emanating from Yunxiao. To be exact, it was the Golden tadpole-like characters of the great expansion divine technique. The hidden meaning it exuded seemed to contain the Supreme way of alchemy, which was fascinating.

"Innate Yuan dan, form!"

Yunxiao's lips parted slightly as he read out a series of difficult-to-understand Scriptures. Each of his words shook with the laws of heaven and earth, as if he himself represented the laws of this space, and his words followed his Dharmakaya!

The nearly transparent Supreme-grade primordial stone began to soften. Every time a golden character was imprinted on it, it became thinner and softer. Gradually, it lost its solid state and was in between solid and liquid. It was a beautiful sight.

"Is this the innate Yuan dan?"

Apart from Baili gongjin and Xin Pi, it was the first time for the rest of the people to see such a divine object, and they were all amazed.

“The innate Yuan dan has been formed.”

Holding the constantly spinning innate core in one hand, Yunxiao turned around and chuckled. “Three grandmasters, I’ve already formed my primordial core. Can I win?”

Now that he had formed his primordial core, could he win?

He shouted three times in a row before the alchemists recovered from their shock.

Xin ze, GE Xiangqian, and Lu HAOCHU looked at each other. There was no longer any shame on their faces. Instead, they had a calm and respectful expression.

The three of them slowly put their hands in front of their chests and knelt down in unison, saying, “the three of us are convinced. Master Yunxiao, please enlighten us with the Supreme Dao!

Xin Pi and Duan Yue were so startled that they almost bit their tongues. Looking at this unbelievable scene, it was even more shocking than seeing the innate Yuan dan!

What was going on, making three fourth-tier alchemists kneel down and worship him? If word of this got out, this scene would be enough to shock the entire southern region of the realm of heavenly martial arts!

Yunxiao, on the other hand, just smiled faintly, as if he was used to this kind of scene. Baili gongjin was shocked to see his calm demeanor. This was not the calmness that an ordinary disciple of an aristocratic family could show. He was like a natural-born King who was worshipped by all.

“I don’t deserve to be taught. When we have time, let’s have a chat.”

With a smile, Yunxiao put away the primordial core, then walked to the table and put away the tianluo flaming battle flag. At the same time, he pushed The Purple Cloud centipede wings and the void YinYang Jade to Yuan Hao and Baili gongjin respectively, then laughed and said, "Two masters, please pay."

Xin ze and the other two looked at each other before standing up. They stood aside respectfully and didn't dare to speak.

Baili gongjin and Yuan Hao finally came back to their senses. Baili gongjin picked up the void yin-yang Jade and looked at it in disbelief. Then, he sighed and said, "Master Yunxiao, you're a rare genius. Your talent is even stronger than Lord Gu Feiyang's. In the future, he will be the master of the great Dao of alchemy in Seoul, and he will definitely be a master!"

He slowly placed his hands in front of him and actually bowed deeply.

Xin Pi's heart trembled and his eyes were almost Blinded by the Light! This scene made him lose his mind even more than before. Baili gongjin, the number one Alchemist in firecrow Empire and a sixth-tier master alchemist, who was on equal footing with jutian sect's sect master, was bowing to this kid!

Baili gongjin's bow was to the Supreme great Dao. The endless Dao of sorcery he felt from Yunxiao filled him with reverence and awe. In his eyes, Yunxiao was undoubtedly the inheritor of the art.

you're welcome! Yunxiao hurriedly helped him up and said with a smile, "Let's not talk about anything else. Let's pay for the void yin-yang Jade first."

Xin Pi,"bi an."

Baili gongjin hurriedly ordered his servants to collect primordial stones. Soon, 50 million mid-grade primordial stones were placed on the table.

Yuan Hao also gathered sixty million mid-grade primordial stones and took The Purple Cloud centipede wings.

Yunxiao smiled like a flower as he put them all away and said, "If there's a similar competition next time, remember to call me. Whether it's martial arts or sorcery, I'll participate in both."

The crowd looked at his greedy look and was all speechless. This was not the noble look of an Alchemist at all, but a pure nouveau riche.

master Yunxiao, " Baili gongjin hurriedly said, " can you stay for a few days? we can study the art together.

of course you can, " Yunxiao said."But I have to charge by the hour!"

Everyone,"hehe."

"No problem!"

Baili gongjin was overjoyed. As long as Yunxiao was willing to stay, he was willing to pay more primordial stones. He was immediately in a good mood. The other alchemists were also very excited. The various techniques and strength Yunxiao had shown just now had made them admire him very much.

master Yunxiao's strength is astonishing, " Baili gongqi said. I don't think it's appropriate to award him with a fourth-rank badge. I now officially announce that master Yunxiao has been promoted to a fifth-tier Alchemist and will be awarded a fifth-tier badge. Do you have any objections?"

Everyone shook their heads in agreement.

Xin Pi frowned slightly and seemed to be in a difficult position. "Master Baili, master Yunxiao, I have something to discuss with you. I'm afraid you won't be able to stay in the Guild for long," he said.

Baili gongjin's face changed, and he said unhappily, "What could be more important than the research of the Dao of sorcery? Even if the firecrow Empire Falls, master Yunxiao has to stay!"

The rest of the alchemists were also staring at Xin Pi with hostility. Even Xin ze's eyes were filled with anger, which made Xin Pi break out in a cold sweat. These alchemists were all lunatics, and they would ignore everything related to alchemy as if they had taken aphrodisiacs.

Xin Pi wiped the cold sweat on his forehead and explained, "The distribution of the spots for Mount Meru has been decided. Other than the spots taken by the big sects, there are a total of two thousand floating spots for the other families to fight for. According to past years' practice, each of the three great empires would get a thousand slots, and the slots would be distributed internally. But this time, the rules have changed. After a discussion, the three countries have decided to jointly hold a test so that the disciples with strength can obtain the greatest opportunity."

"2000 floating quotas?" Baili gongjin sneered, "you big forces and sects are really generous. You're willing to give one-fifth of the profit! But what does this have to do with master Yunxiao?"

Xin Pi obviously felt Baili gongjin's sarcasm and hostility, so he said with a wry smile, "This matter is not only related to the inheritances of the Empire's scattered forces, but also directly related to the Empire's face. All the forces that had been allocated spots were not allowed to participate. Even so, the sects and families that needed spots were as many as carps crossing the river, and the competition was bound to be extremely fierce. As an independent force in the firecrow Empire, Yanwu doesn't have a quota of its own. Besides, master Yunxiao's strength is unparalleled, hehe!"

The crowd immediately understood what Xin Pi meant. He wanted Yunxiao to snatch as many spots as possible. Without the disciples of those great families and sects, with the strength Yunxiao had shown in the Golden Crow divine ring, he would definitely be able to dominate everything!

Baili gongjin's face changed slightly. He snorted coldly and said, "master Yunxiao is a once-in-a-thousand-years genius in the art of Dao. It's extremely dangerous for him to take this kind of test. Can you bear the responsibility if something happens to him?"

Xin Pi was taken aback, and his face immediately darkened as he looked at Yunxiao with a pleading look.

Yunxiao pondered for a moment, then smiled and said, "It's naturally not a problem for me to go, but I have to distribute the slots I snatch!"

Xin Pi looked bitter and said, 'with master Yunxiao's strength, it won't be a problem to get a few hundred. But he couldn't just give it all to Yanwu, could he? How will the other powers be able to achieve a balance?'

don't worry, " Yunxiao said with a smile. I won't leave a single one in Yanwu. I'll hold an auction and sell all these places for primeval stones!"

"What? Not a single one?"

This time, even the alchemists were surprised, and they found it hard to understand.

those good-for-nothings in Yanwu will be a waste of the spots, " Yunxiao explained. they'll be wasting the spots if they go. So, it's better to distribute them to those who need them."

He couldn't just directly say that he could bring as many people into the divine realm tablet as he wanted. If that happened, the entire southern region would go crazy.

Chapter 258-dead monument

Everyone's faces were black, clearly not believing it. But this was her privacy, so no one asked too much.

I won't ask too much, " Xin Pi said. as long as the seized spots are circulated within firecrow Empire, I won't ask too much. However, in this way, we can't choose the best and whoever has the money can go."

Yunxiao's face turned cold as he said, " "How can there be perfect things in this world? If you want to select the best, why don't you just take 1000 spots from your aristocratic families and distribute them? 'Lord Pi, you can't be too greedy. You have to ensure your vested interests while keeping an eye on the remaining bits of meat.' Of course, there was another way. That is, you can secretly pay primordial stones to support those powerful juniors and buy the spots at a high price."

forget it, " Xin Pi said with a wry smile. with master Yunxiao's help, the number of spots firecrow Empire can compete for will definitely be far higher than the other two countries. However, master Yunxiao, you must be careful as well. It's very likely that there are disciples from other regions among these juniors who are participating in the competition for the spots. You can't underestimate their strength."

His tone was quite serious. Every time Mount Meru opened, there would be juniors from the other three regions who would infiltrate. However, most of the three great empires would provide free spots for them in exchange for greater benefits. However, there were also some forces that were not powerful enough. After entering the southern region, they were not able to obtain the allocated spots, but they were allowed to participate in the fight for the remaining spots.

Yunxiao smiled. Even the juniors of those super forces were not worth mentioning in his eyes, let alone those disciples who did not join the sect.

Seeing his nonchalant look, Xin Pi did not know what to say. After all, the man's strength was obvious. He had killed a martial Grandmaster with a wave of his hand and defeated three fourth-tier alchemists by himself. Even in the entire heavenly martial continent, such strength was rare.

"The contest will be held in seven days, at qionghua Island."

"Qionghua Island?" Yunxiao looked puzzled. Obviously, he had never heard of it.

The others all looked at him with strange expressions, and Duan Yue could not help but say, "I can't believe you're a descendant of an influential family. There's a Lake called the Brightheart lake at the border of the three great empires of the southern mountain range. It's vast and boundless, and it flows directly into the southern sea. There were thousands of islands in the Brightheart Lake, and the largest one was qionghua Island! The contest for the spots is set up there, so it's fair."

en. Xin Pi nodded and said, "the Brightheart Lake isn't under the control of any country. It's already been controlled by a few major powers and they've started to make various arrangements. It's mainly to clear out some of the high-grade demonic beasts and set up all kinds of image stones so that the competition can be held fairly."

that's good! Yunxiao said. that's good! Since it's like this, we'll meet again on qionghua Island in seven days!"

Seeing that he was about to leave, Baili gongjin hurriedly said, "Master Yunxiao, please!"

Yunxiao turned around and smiled as he said, "To learn the floating life seal, mortal world seal, and heaven and earth seal, the cost is 200 million, 500 million, and 800 million mid-grade primordial stones, respectively. To learn the illusive waves Scripture, one billion mid-grade primordial stones. I won't sell those ancient golden characters for any price."

After he placed his bid, he left The Alchemist association with Duan Yue and disappeared into the sky.

Baili gongjin and the others all widened their mouths. They had seen people selling martial techniques with such clear prices, but this was not something a noble Alchemist should do!

However, the crowd quickly became excited. As long as there was a price, they would be able to learn that Supreme technique.

Even Xin Pi's heart was thumping. He was not interested in the one-billion-Yuan illusionary waves heavenly Sutra technique, but he had seen the three major seals with his own eyes. They were infinitely powerful and were far above the unruffled heavenly book of emotion on the emotion severing mountain. The mid-grade primordial stones that were worth hundreds of millions were not expensive at all.

"Vitality stones, vitality stones!"

Baili gongjin no longer had any grace. He roared, "Sell all the alchemy products in the Guild! I want to gather 25 million superior-grade primordial stones in the shortest time possible! If it's not enough, put up a notice that The Alchemist Association will be open to the public for a short time, and all alchemists are to take on tasks!"

Yuan Hao and the other three disappeared from the room. They seemed to be even more anxious than Baili gongjin.

A wider path had opened up before everyone's eyes. As long as they used primordial stones that they didn't care about, they could exchange for it. Who wouldn't be excited?

Xin Pi was also moved and quickly left.

After returning to the sky above the Supreme Palace, Yunxiao looked down at the mountains and rivers below him. They were surrounded by vague spirit energy, which was not satisfactory.

“It seems that the spiritual Qi in the Supreme Palace mountain range is not enough. Where am I supposed to find so much spiritual Qi to fill this space? Unless we steal the Lingchuan vein of a super power and pour it in.”

Yunxiao muttered to himself as he threw the lower realm divine monument into the spirit vein and jumped in with Duan Yue.

“Kid, are you really going to sell the three great mudra skills?”

Duan Yue could not help but ask, “the three mudra skills of yours are so powerful that I’ve never seen them before. I really don’t know if you’re smart or stupid to sell it at such a cheap price.”

With a light step, Yunxiao came to the sky above Mount inch. He looked into the distance.

How big do you think the space inside the divine realm tablet is? ” He asked in a serious tone.

Duan Yue was taken aback, and he answered suspiciously, ” “I don’t know how many tens of thousands of miles it is.”

Yunxiao nodded slightly, then sighed and said, ” “I don’t know who refined this divine realm tablet, but the technique is definitely better than all the experts in the world. Only the ethereal Legends recorded in the history books could be compared with it. Do you know who is the most powerful Alchemist in the world?”

Duan Yue’s heart skipped a beat. He had heard a lot of legends about the peak existences on the continent. Frowning, he said, ” naturally, it should be Lord Lu congzi, the president of The Alchemist Association headquarters.

This was also his natural guess. Since he could lead all the alchemists in the world, he should naturally be the strongest. But when he saw the mocking look on Yunxiao's face, he blushed and said, "Isn't that so?"

Yunxiao smiled and said, "Lu congzi is indeed very strong, but the reason why he is qualified to be the president is not that his art can convince the public, but that he is very popular. He never fights with others, and he can balance the forces of all parties. The strongest person in the art of cultivation is not in the sea of soul formation!"

His eyes flickered as he said word by word, "That person is in Shen 'du!"

Duan Yue's heart trembled. The divine capital of the Holy region was the place where martial arts were the strongest. No one in the world dared to disobey an order. However, how did he know about such a secret?

Yunxiao came back to his senses and sighed. but even that Lord can't refine a divine object like the divine realm tablet. This had already exceeded the category of profound level weapons. Even those legendary Supreme grade profound level weapons could not be compared to it. The ship of Noah's records in the history books were also several levels lower. Only in the ancient times of the heavenly martial continent can you find an existence of the same level in those illusory myths and legends."

young master Yun, do you mean to say hehe? " Duan Yue asked in disbelief.

Yunxiao's face grew serious as he said very seriously, "Those myths are probably true! This divine realm tablet is definitely not something that an ordinary martial artist can possess. Its first master must have been an existence in the ten directions divine realm!"

His eyes were full of fanaticism when he talked about the omnidirectional divine realm.

The God Realm that he sought for in his life was unknown. The appearance of the divine realm tablet made him firmly believe in the existence of that realm. There was also the true Phoenix Fire buried in the depths of his soul, which was also an ancient true spirit, an existence of the ten directions divine realm.

Duan Yue's face was also filled with awe and admiration. The ultimate realm of martial arts, the ten directions divine realm. Since ancient times, countless powerhouses had been pursuing the Supreme great Dao.

The two were silent for a while, then Yunxiao continued, "My understanding of the divine realm tablet is getting deeper and deeper. Although I still can't fully grasp the entire great realm divine technique, I've deduced many things. The divine realm tablet should have been full of vital Qi and formed a space of spiritual Qi. However, for some reason, there was no spiritual energy at all. Perhaps it had passed with the passage of time, or perhaps some accident had happened back then. That is to say, this divine realm tablet is actually a dead tablet!"

"Dead monument!"

Duan Yue's pupils constricted. If a dead monument was already so earth-shattering, what would happen if it was activated?

A fanatical look appeared in Yunxiao's eyes as he said with a little excitement, "if my guess is right, once the spiritual Qi reaches a sufficient level, the divine realm tablet will come to life again. At that time, not only will its power be unpredictable, but as long as there is enough spiritual Qi, this space will expand infinitely and become a world of its own!

Duan Yue was so shocked that he felt a chill run down his spine. It was hard to imagine what kind of existence a world of its own was.

but that's too vague," Yunxiao said with a wry smile. if you want to form your own realm, you may not be able to do it even if you drain all the spirit Qi in the heavenly martial realm. What I want to do now is to activate it. In order to activate the tablet, you must open the four great domains."

"Four great domains?" Duan Yue asked doubtfully.

"Not bad!"

just like the heavenly martial realm is divided into four major territories, East, South, West, and North," Yunxiao said seriously. although this divine realm tablet is small, it has all the necessary organs. It also

has four major territories, which are earth, water, fire, and wind. each realm was supported by a great ancient formation. In the process of cultivating the great realm divine technique, I've gradually been able to sense the location of the four great ancient formations. The only thing we're lacking now is a large amount of spiritual energy."

Duan Yue finally understood why he was so desperate to plunder primordial stones, and he could not help but ask, "Your Three Dharma Seals could have been sold for a higher price. Why did you sell them at a lower price?"

I'm just doing business, " Yunxiao said with a smile. what's there to be afraid of? " The Alchemist Association is worth more than this. Let's build a good relationship with them first." His smile was as bright as the sun, and his white teeth sparkled.

Duan Yue's heart trembled, and a chill ran down his spine, thinking that The Alchemist Association was going to be in trouble this time.

Yunxiao's smile faded as he looked into the distance and said seriously, "Let's go to the fire realm ... I have the true Phoenix Fire ... Perhaps this realm will be the easiest to open."

The two of them disappeared from Mount Innerheart, and in the next moment, they arrived at a barren land thousands of miles away from Mount Innerheart.

As far as the eye could see, it was all desert gravel, without the slightest sign of life. Above the vast expanse, there were wisps of spiritual Qi, which were also absorbed from Supreme Palace, and were almost negligible.

Chapter 259

?

259 The fire Territory

"So, this is the fire realmverse?" Duan Yue frowned. He could not feel anything different. Apart from the wisps of spirit energy floating in the air, there was nothing but dead silence.

Yunxiao closed his eyes slightly, raised one hand, and pressed it against his chest as he whispered, " Suddenly, a golden tadpole-like character appeared. It was the great realm divine technique. His entire body began to flash with golden light, and the phenomenon was exactly the same as when he used the great expansion divine technique.

One after another, obscure words came out of Yunxiao's mouth, making him look solemn and sacred, like a god descending to the world.

Duan Yue was shocked. In this divine realm tablet, Yunxiao was an unrivaled God. As the obscure Scripture was read out, the space began to tremble as if an ancient door was gradually opening, and a dull rumble was heard.

A pattern slowly emerged on the boundless desert gravel. It was unknown how long and wide it was, but it was a magnificent sight, as if an ancient beast was lying dormant under the ground!

When Yunxiao opened his eyes, he was also taken aback by the magnificent array in front of him. Even though he was standing high in the sky and looking down at the earth, he still felt extremely small and unattainable.

"As expected of a formation that can open a territory. It's so magnificent!"

Yunxiao, who had been quite confident, could not help but feel a sense of powerlessness when he saw the true appearance of the array. He touched the hundreds of millions of mid-grade primordial stones he had on him, but it did not seem to be enough to fill the gaps between the teeth of this formation beast.

Duan Yue also felt a little sad, so he asked carefully, " Do you have enough primeval stones?"

it should be enough to fill the gaps between my teeth, " Yunxiao said while wiping his cold sweat.

Duan Yue,"Yingluo."

it's alright," Yunxiao said with a wry smile. I'll activate the array first. With the Phoenix true flame in the eye of the array, it shouldn't be a big problem to just activate it. It'll be troublesome if you want to operate it."

He touched the space between his brows and true fire appeared. It formed a fire Phoenix in the air and flew towards the center of the formation.

Duan Yue felt the scorching temperature, and the bluelotus Earth Fire refined in his dantian actually let out a wail of fear.

Under the divine fire, all fire would submit!

Unfortunately, with Yunxiao's current cultivation base, he could only manifest a divine flame in the divine realm tablet. Otherwise, no one in the entire southern region of the heavenly martial continent would be able to match the divine flame.

The fire Phoenix streaked across the sky like a meteor and fell to the ground. It landed on the array core with a loud bang and caused flames to soar into the sky.

The entire sky was illuminated red, as if it was the end of the world, and they were in a sea of Hellfire.

Yunxiao had already experienced this feeling once, back in the conscious world of the true spirit Phoenix on Phoenix Mountain in Tianshui. It was this kind of Nirvana fire that had allowed him to be reborn after the disaster.

Duan Yue's face had long turned pale under the threat of heaven and earth, and he could not help but want to kneel down and worship.

"Calm down!"

let's go! Yunxiao cried out as he flew down like a ROC with its wings spread out, falling into the flame.

The soft cry rang in Duan Yue's mind like the evening drum and morning bell, pulling him back from the fear. Duan Yue broke out in a cold sweat. He stood in the air and circulated his genuine energy to resist the power of heaven and earth.

As Yunxiao fell into the sea of fire, the flames in the world became a little gentler, no longer as hot and strong.

Yunxiao's body was surrounded by a golden light, and his eyes were also golden, with tadpole-like characters constantly appearing and disappearing. As he struck out the symbols one by one, the square fire gradually became docile. It seemed to be guided by his power and spread out on the array.

When Duan Yue felt the pressure of heaven and earth gradually weaken, he opened his eyes with a lingering fear, only to see a Red sea of fire below, and Yunxiao had long disappeared. He knew Yunxiao's ability, so he was not too worried. At this moment, the bluelotus Earth Fire in his body had begun to adapt to the feeling, and it was slowly burning again, and it was growing.

Duan Yue was overjoyed. Under the nourishment of the Phoenix divine fire, the bluelotus Earth Fire seemed to be showing signs of evolution. He hurriedly concealed his spirit and Qi and began to slowly absorb the fire element in the world into his body, carefully cultivating the bluelotus Earth Fire. This fire was a wondrous fire of heaven and earth, and it had already been refined into one with him. The two of them advanced and retreated together.

Time was infinite in the divine realm tablet, and there was no change of day and night. It seemed that several days had passed.

Duan Yue slowly opened his eyes, which were red with flames and shining with surprise. His bluelotus Earth Fire had actually evolved in the past few days, and its power was far greater than before.

He glanced at the sea of fire below, which was still growing endlessly, and a hint of worry rose in his heart, fearing that Yunxiao would be surprised.

All of a sudden, the flames below began to surge and contract from all directions, converging towards the center of the formation. In the blink of an eye, the ten thousand miles of fire converged into a line and was taken into the palm of a man. It was dancing demonic.

“Young master Yun!”

Yunxiao! Duan Yue cried out in surprise. Yunxiao’s body seemed to have expanded a little, and his muscles bulged, making him look like a big man. It was the Supreme tyrant body of the tyrant body tempering technique.

With a solemn look on his face, Yunxiao slowly dragged the flame in his hand and put it into the eye of the array. In an instant, the entire array turned fiery red, like an ancient beast lying dormant on the ground.

Duan Yue hurriedly flew down and landed next to Yunxiao, then asked nervously, “How is it?”

“I’ve activated the array, but it’s very unstable,” Yunxiao said seriously. “Without the injection of spirit Qi, it will dry up again sooner or later. I’m planning to add a formation technique to stabilize this ancient formation.”

His spiritual will moved, and the air immediately distorted. In an instant, a large number of people appeared in the air. They were the thousands of Warriors cultivating in the divine realm tablet.

Duan Yue was startled by the sudden appearance of thousands of people.

Everyone was also at a loss. They had been cultivating properly, so why did they suddenly appear in this inexplicable place?

“Everyone, quiet down!”

Yunxiao’s voice rang out, and everyone immediately understood what was going on, and they stopped talking.

During this period of time, everyone had gained great benefits, and their cultivation speed was unimaginably fast. They all admired Yunxiao and were sincerely convinced.

Standing in the air, Yunxiao gave off the aura of a Grandmaster as he said slowly, "The spirit Qi in the divine realm tablet is getting thinner and thinner, and I'm afraid it won't be enough for your cultivation. I'm going to build a temporary sea of spiritual energy in this area and direct all the spiritual energy to this place. At the same time, I'll need 3600 people to maintain a formation for me, which will be extremely beneficial to your cultivation. Everyone will take turns playing."

The group of martial artists were all very surprised and confused.

Yunxiao took out a few storage bags from his ring, which contained the hundreds of millions of mid-grade primordial stones, then threw them into the air and threw a punch.

"BOOM!"

The storage bags exploded one after another, and the primordial stones inside were all shattered by the wind from the fist. A huge amount of shocking vital Qi spread out, so dense that it was almost invisible.

"?!"

Everyone was shocked. Such a dense vital Qi had almost washed them away. Just by breathing in a few times, he felt refreshed and his cultivation had increased.

"Haha, this is so satisfying! I actually broke through in an instant!"

damn it, this vital Qi is like water. I feel like I'm full.

Everyone was overjoyed and hurriedly began to absorb. Many martial artists who were stuck at the bottleneck collectively broke through at this moment.

Yunxiao took out another small flag, his eyes shining. It was the tianluo flaming war flag he had won from The Alchemist Association. Although it was badly damaged, it was a genuine ninth-tier artifact!

In GE Xiangqian's hands, this thing only had research value, but Yunxiao could see that the battle flag was not dead. With his means, he naturally had a way to stimulate it. Since it was also a fire attribute formation, it was the most suitable to be added to the fire domain formation.

Golden characters flickered in his eyes and shot through the air, reflected on the tianluo blazing flame war banner, and shot out.

The tattered pattern on the battle flag was covered with a layer of golden light, and then slowly spewed out a fiery red light. The entire battle flag burned in the air, as if it was about to turn into ashes. However, the shocking thing was that not only did the flames not disappear, they grew larger and larger. In the blink of an eye, it turned into a sea of fire, whistling down and enveloping all the martial artists.

At the same time, Yunxiao quickly carved an array in the air. With a flash of his hand, tiny array diagrams condensed in the air and formed a larger pattern, which he then threw into the ocean of spirit Qi.

The formation flew into it and immediately turned into a golden light that spread out. Soon, it enveloped the entire sea of spiritual energy and suppressed the leakage of spiritual energy.

The tianluo blazing flame war banner expanded rapidly, and a sea of fire descended from the sky, covering the ancient formation. In the eye of the array, the avatar of primordial fire that Yunxiao had set up quickly grew stronger under the sea of fire of the battle flag.

I will now teach you the technique to use the banner. Your cultivation is too weak, so you will need the combined strength of 3600 people to use it.

As Yunxiao spoke, one obscure symbol after another condensed in the air and did not dissipate. No sound waves were sent out, but they imprinted in the hearts of every warrior and poured directly into their spiritual seas.

Duan Yue was so shocked by his series of moves that he was speechless. This was not the technique of a warrior, but a God.

Under his guidance, the thousands of cultivators began to cultivate in silence. The entire sea of spiritual energy covered the fire Territory, which was thousands of miles in radius. Soon, the formation on the

tianluo blazing fire battle flag spread out and overlapped with the ancient formation of the fire Territory, nourishing each other.

After doing all that, Yunxiao smiled and said with a very relaxed look, "Hehe, this is going to be interesting. Even if I'm outside, I can directly draw on the power of this tianluo blazing flame war banner. I'm really looking forward to it."

Duan Yue gulped and looked at the sea of fire that reached the sky. If he released it, the power would be unimaginable. "What should we do now?" he asked.

it's almost seven days, right?" Yunxiao smiled. when I advance to one star, I'll go to qionghua Island.

Chapter 260 qionghua Island

"Upgrade by one star?" Duan Yue was taken aback for a moment, and then he suddenly saw Yunxiao reaching out his palm toward the sea of spirit energy. A large amount of spiritual Qi was pulled out by him like marshmallows and swallowed into his body like a whale. His body emitted rays of golden light.

this Taowu ... Duan Yue was completely dumbfounded. It was not absorbing the primordial Qi, but swallowing it directly. And to his surprise, Yunxiao's body began to flash with the light of advancement, and under his eyes, he slowly advanced to the level of five-stars martial Lord.

you're really a five-stars martial Lord now. You can advance whenever you want to. You're so weak!
Duan Yue was completely speechless.

Yunxiao was greatly invigorated. He looked at him with a faint smile and said, "you can't advance just because you want to. After the battle on the divine platform of the Golden Crow ring, I defeated three fourth-tier alchemists, and I activated the ancient formation down there these days. I've already broken through to the level of five-star, but I can't advance because I lack primordial Qi. I'm just mending it now."

"It can still be repaired, Zhenzhen," Duan Yue said.

Yunxiao chuckled and then disappeared, reappearing outside the Supreme Palace. He pointed with one hand, and the divine realm tablet immediately turned into a stream of light and flew into the space between his eyebrows.

A Tigerking chariot whizzed out, carrying him towards the qionghua Island.

The opening of Mount Meru was imminent, and the fight for the spots had already shocked everyone. All the forces without martial emperors could not get allocated spots, and they had to fight for them with their own strength.

In the past few days, almost all of the outstanding disciples of the southern mountain range had gathered at Ming Xin's side, waiting for the brutal competition.

If it weren't for the Masters sent by several major forces to maintain order, it would have already been a mess. However, some small conflicts and friction could not be avoided.

"Brother camel peak, there are so many experts here. I have a bad feeling about this. Some young experts, just their auras are enough to make me feel uneasy."

"Calm down. After all, the hidden houses have all come out, so it's not surprising that they have a few experts."

damn it, why didn't I know that there were so many young experts in the southern region? could it be that there are experts from the other three regions mixed in? "

it's hard to say. Look at that person over there. He has completely concealed his aura. I'm afraid he has already reached the martial ancestor realm.

"?! A Wu Zong below the age of 50? Is there such a freak?"

"Hmph, what's so strange about a Wu Zong under the age of 50? Let me tell you, at the Golden Crow arena in Shangyang city, a 15-year-old youth killed a Wu Zong with a wave of his hand. That was truly shocking!"

“Ah? Haha, brother camel peak, you’re really good at joking. A 15-year-old boy killed a Wu Zong with a wave of his hand. I’m dying of laughter!”

don’t doubt it. Hundreds of thousands of people in the city saw it with their own eyes!

“Haha, this is too funny. Alright, alright, I believe you, haha!”

The other person held his belly and laughed. The hunchback revealed an unhappy expression, snorted coldly, and no longer spoke.

Suddenly, someone patted his shoulder and he was shocked. He quickly turned his head and saw the martial Grandmaster that he had pointed at earlier. He smiled at him and said, “Hello, I’m Luo Qingyun from the Tian Xiang Empire. You just said that a 15-year-old teenager could kill a Wu Zong with a wave of his hand? Hehe, I’m very interested. Tell me about it.”

The Hunchback felt a chill run up his spine. Although Luo Qingyun was smiling, he seemed to be even colder than ice. He quickly told him what he knew.

Such scenes were happening all over the Brightheart Lake. In just a few days, tens of thousands of people had gathered.

Opposite the crowd, on the other side of the Brightheart Lake, there was a temporary building. It had an extraordinary aura, but only the major forces that presided over the competition were qualified to enter.

Compared to the noisy and crowded outside, the inside was much more peaceful and spacious. Facing the vast expanse of water and Lake, it was unspeakably pleasant.

A man in a moon-white Guangling raincoat was currently sipping tea with a calm expression. He suddenly smiled and asked, “It’s said that a young peerless genius appeared in Shangyang city. He’s only 15 years old, but he killed a martial Grandmaster powerhouse without leaving even a corpse. Brother Xin Pi, is there such a thing?”

“Haha, brother Chu Yu, you must be joking. This rumor was extremely exaggerated, how could it be believed? At the age of 15, even if he had started cultivating in his mother’s womb, he would be considered a genius if he could reach the martial King realm. Killing a Wu Zong with a wave of his hand, haha, do you really believe it?”

A man with dark red hair chuckled, his face a little lazy. He talked to Xin Pi, who was thinking, ” “Brother Xin Pi, don’t you think so?”

This man with dark red hair was called Huo Sen, a member of the MU Xu Empire’s royal family. The white-robed man was Chu Yu, a member of the Tian Xiang royal family. In addition to Xin Pi, he was the person in charge of this quota competition.

Xin Pi smiled slightly, but he could not hide the seriousness on his face. He could clearly sense that there were a few extremely powerful existences among the younger generation participating in the competition. What worried him the most was that the competition was about to begin, but Yunxiao had not come yet!

A cold light flashed across Chu Yu’s face. He stood up gently and said, ” that’s not necessarily true. Some of the more talented juniors, with the support of some super martial arts techniques and profound weapons, might be able to kill a martial arts Grandmaster when they are caught off guard. As for what happened that day, we still need brother Xin Pi to tell us so we can understand.”

Xin Pi sneered in his heart and said lightly, ” “It’s not as bizarre as the legends say. It was just a fight between the younger generation. Later, the elders couldn’t stand it anymore and took action. That young man only exchanged one move with a martial Grandmaster.”

“Oh? What was the result?”

Chu Yu seemed to be very concerned and listened attentively.

“The result?” Xin Pi revealed a cold smile and snorted. “What does brother Chu Yu think? What do you think will be the result of a 15-year-old youth exchanging a blow with a martial arts Grandmaster?”

Chu Yu cursed in his heart, but he still laughed and said, "Haha, brother Xin Pi is right."

"Tian Xiang has produced a lot of geniuses in the past few years," Xin Pi squinted his eyes and said with a smile, "I can vaguely feel that there are martial grandmasters among the younger generation outside." Tsk, tsk, I'm really shocked."

Chu Yu laughed, "of course not. There are many powerful juniors out there. It's very likely that he's an expert from the Muxu Empire."

Horson shook his sleeves and stood up lazily. He snorted. "Brother Chu Yu, stop pretending. We're all martial emperors of the seven constellations realm. How can the strength of these juniors outside escape our eyes? That disciple named Luo Qingyun must be at least a three-stars martial Grandmaster, right?"

Chu Yu smiled slightly, and a trace of pride flashed across his face. He then smiled and said, "It's not me who's pretending, it's brother Holson. Your country has at least three martial Grandmaster powerhouses, two one-star and one two-star, is there any mistake? As for brother Xin Pi, that two-stars martial Grandmaster from firecrow Empire is about to reach the three-stars level."

"Hmph, what's the use of having more people?" horson said disapprovingly. At the level of a martial arts Grandmaster, one star was a world of its own. Even if the three of them join forces, they might not be Luo Qingyun's match."

Chu Yu laughed, "we're just looking for a spot this time. It's not like we're fighting. What's the use of being strong?" The key was still luck, right? Hehe."

Luck, your sister!

Both Huo Sen and Xin Pi cursed in their hearts.

Finding a slot indeed required luck, but if one wanted to keep the slot and not lose it, they still needed strength. For this kind of contest for the spots, although the rules stipulated that no one could kill with ill intentions, it was extremely difficult to really implement. Killing and robbing were common.

“By the way, what’s the name of the junior who fought with a martial Grandmaster? But in this crowd?”
Chu Yu asked unhurriedly.

his name is li Yunxiao, ” Xin Pi said with a faint smile. not yet. Maybe he saw too many strong people and got scared.”

Old fox! How could a junior who dared to exchange blows with a Wu Zong be afraid?

The other two cursed in their hearts.

The three of them all had their own thoughts, and not a single word they said was true. They were either perfunctory or wrangling. After wrangling for a long time, they still did not get any substantial content, so they simply stopped talking and each sipped their tea.

.....

Sitting in the Tigerking chariot, Yunxiao flew toward qionghua Island.

Suddenly, a white cloud in the sky suddenly turned black, followed by a bolt of lightning that struck down unexpectedly, bombarding the chariot.

In a flash, Yunxiao took a few steps in the air, spun a few times in the air, and then gently landed on the ground.

The Tigerking chariot was struck directly by the lightning. It put up a protective shield on its own, but it was destroyed in the blink of an eye. It let out a dull sound and fell to the ground.

A figure stood in the air, staring at Yunxiao with an expressionless face.

“Yue jiulin! I’m going to help firecrow Empire fight for the quota, and you dare to stop me? aren’t you afraid that Xin Pi will come to your door and kill you?”

Yunxiao cursed when he saw who it was.

Yue jiulin's face was still expressionless as he said, "Don't make yourself sound so great. You're a person who doesn't get up early without benefits. I've stopped you for a clear purpose. Hand over that demonic beast, frost hook, and Xueming, and you can leave unscathed."

Yunxiao's face was cold as he said angrily, "without the help of that demon beast, how can I defeat the experts from the other three Kingdoms and compete for the spot?! If you delay the important matters, not to mention Xin Pi, I'm afraid even the jutian sect will kill you!"

Only then did Yue jiulin's expression remain unchanged, but it returned to normal in the blink of an eye. He said coldly, "With your strength, even without that demonic beast, who in the younger generation can match you? The competition is about to begin. If you hand over the item, not only will I not make things difficult for you, but I will also send you on your way."

"Many thanks. It's better for me to walk this path on my own. You're really not going to let me?"

Yunxiao's eyes flickered, and his face immediately turned cold.

Yue jiulin's eyes flashed with a hint of embarrassment, and he sighed, "I really don't want to fight you. I hope you can cooperate. You know that you can't escape from me. Unless Lord Baili appears again."

Yunxiao was furious, but his pupils suddenly constricted as he looked behind Yue jiulin and said in horror, "You, you're sect master Qi Feng of the jutian sect!"
