

The Eternal 261

Chapter 261-unexpected

“What?”

Yue Jiulin was so shocked that cold sweat broke out on his forehead. He quickly turned his head in horror, and his heart turned cold.

It was empty behind him. Where was the person?

“You dare to trick me? Do you think you can escape like this?”

Yue Jiulin flew into a rage. How dare Yunxiao make fun of him! Even if he was distracted for a moment, how could he, a mere martial Lord, escape?

He turned around in a hurry and saw Yunxiao approaching him instead of running away, the tip of his nose almost touching his face!

“?! What do you want to do?”

Yue Jiulin was shocked and quickly stepped back. A strange smile appeared on Yunxiao’s face, and he was suddenly dumbfounded!

“Not good, it’s a spiritual attack!” He suddenly felt a sharp pain in his sea of consciousness. A large amount of invisible force madly poured in, causing his spiritual sense to be temporarily sealed for a moment.

In just a moment, Yunxiao made a grabbing motion with his hand, and a golden tadpole-like character emerged in his palm, which then shrouded Yue Jiulin.

“What is this?”

After all, Yue Jiulin was a five-stars Martial Emperor. He immediately recovered from the momentary daze. His eyes were clear as he looked at the huge golden light that trapped him. Ancient and profound characters kept appearing in it. He was slightly shocked, but he did not panic. After all, the difference in strength between the two of them was obvious. Xiu must put up a fearless resistance, " he said calmly. I know you have a lot of tricks up your sleeve and a lot of trump cards, but they're all useless in front of me!

Yunxiao's extremely serious expression relaxed in an instant. He smiled and said, "It's nothing. I'll take you to a good place!"

Yue Jiulin's pupils constricted. Just as he was about to circulate his innate Qi to shake the golden light and the characters away, he suddenly saw Yunxiao spit out a simple tune from his mouth. His whole body went numb, and he turned into a beam of light that was sucked into Yunxiao's glabella.

The next moment, he appeared in the divine realm tablet.

"?! What is this place?"

Yue Jiulin's face paled in shock as he saw that the world was red and the temperature was extremely high, as if he was being roasted in a steamer.

He hurriedly spread out his divine sense, only to find that this place was boundless. He said in horror, "Could it be an illusion? What kind of illusion is this? it's so powerful!"

"Hehe!"

A laugh rang out, and Yunxiao's figure gradually appeared in front of him. "This is not an illusion. As for where it is, there is no harm in telling you. Because before I can easily suppress you, don't even think about leaving this place."

He pointed at Yue Jiulin with one hand, and a stream of flame Qi turned into a fire snake and tried to bind Yue Jiulin.

“How arrogant! You’re just a martial Lord. Even if you have a heaven-defying Xuan artifact, do you really think you can suppress me?”

Yue Jiulin’s heart was filled with anger, and he had a bad feeling about this place. Seeing the fire snake coming at him, a trace of killing intent flashed in his eyes. The power of Thunder in his hand crackled and struck out, turning into a few Thunder light mountains that cut through the air.

“Si”

His lightning flash had only extended for a few meters when it disappeared without a sound. It was like a flame meeting water, giving off a hissing sound as it was extinguished.

“?! What’s going on?”

Yue Jiulin’s heart trembled, and his eyes widened like copper bells. He said in horror, “An illusion, this must be an illusion! With the huge difference in strength between you and me, any illusionary technique is useless!”

“Whoosh!”

Just as he was blabbering on and on, the fire snake instantly tied him up and wrapped him up into a ball of fire, struggling in the air.

Yunxiao chuckled and pointed with his index finger. Yue Jiulin immediately felt a gravity tens of thousands of times stronger than before, and he fell toward the endless sky Net flame array.

“It’s rare for a five-stars Martial Emperor to let my subordinates practice their formation techniques. I’ve sent a Martial Emperor here for you to practice on. It’s a good time for you to familiarize yourself with the great formation.”

The fire snake on Yue Jiulin's body suddenly disappeared, and he could move freely again. However, at this moment, a scorching light suddenly erupted from the sea of fire on the ground and swallowed him up.

Hmph, you can be at ease and be a sparring partner here. Don't even think about going out for a long time.

Yunxiao sneered. The figure was a soul-form, so it gradually disappeared.

He was lucky this time. He caught Yue Jiulin off guard and pulled him into the divine realm tablet. Otherwise, he would have no chance of winning at all. In the divine realm tablet, he was a God. Even if a Martial Emperor entered, he would be suppressed.

Yunxiao checked the Tigerking chariot and found that it had not suffered much damage, then he immediately rushed to Qionghua Island.

At the bank of Brightheart Lake, Xin Pi, who had started to feel uneasy, finally breathed a sigh of relief. Looking at the figure approaching from the distance, he showed a rare smile.

The Tigerking chariot was not something an ordinary force could own, so Yunxiao's appearance immediately attracted the attention of everyone present. When they saw who it was, the young disciples who had watched the battle in Shangyang city changed their expressions and fear flashed in their eyes.

"Eh? Who was this ostentatious young man? What a big attitude!"

Chu Yu's eyes flashed with a sharp light. He saw Xin Pi's expression and immediately guessed the identity of this person. He made a slight gesture and a man behind him immediately understood and slowly retreated.

"Hehe, who knows?"

"Almost everyone is here, let's start." Xin Pi smiled.

With Yunxiao here, he was at ease. Although the other party was a three-stars martial Grandmaster, one could not understand how terrifying Yunxiao's earth-shaking strength was without seeing it with their own eyes.

Horson's eyes flickered as he chuckled and said, "Could this be the fifteen-year-old boy who fought with a martial Grandmaster? You look very lively. Didn't you get beaten to death?"

Outside the building, there was also a burst of noise and discussion, all of them with unfriendly expressions.

"How can a mere martial Lord own a Tigerking chariot? He's probably a prodigal son from some reclusive family."

Hmph, these hermit families are rich but stupid. I'll Rob one or two of them some other day.

"Haha, how arrogant." A teenager smiled at a middle-aged man and said, "Senior brother, do you think this man can still keep his Tigerking chariot after he enters qionghua Island? There was really something wrong with his brain. Revealing your wealth like this, aren't you just looking for trouble?"

"?! Shut up!" The middle-aged man directly punched him on the head and glared at him. "Do you want to die? This man is the city Lord of Yanwu, li Yunxiao!"

The middle-aged man's words were like a curse, causing the surrounding people to immediately pale and close their mouths. The junior Brother paled in fright and hurriedly covered his mouth. However, there were still many people from the Tian Xiang Empire and Mu Xu Empire who had looks of ridicule and disdain.

Luo Qingyun, who was in the crowd, narrowed his eyes and looked at Yunxiao. At the same time, there were also a few unfriendly gazes that also flickered with a sharp light.

"Anything in front? In the sacred land of the Brightheart Lake, everyone is walking forward, yet you dare to be so disrespectful to sit in a chariot. Get off!"

A loud and clear roar came from the building, and then a light streaked across the sky. A huge copper hammer the size of a small mountain crashed toward the Tigerking chariot. Standing on top of the hammer was a large man with an awe-inspiring presence. He crossed his arms in front of his chest and stared at the man on the chariot with a cold smile on his face.

Inside the building, a trace of anger flashed across Xin Pi's face. He said coldly, "Chu Yu, what do you mean by this?"

my guards are responsible for the safety of this Brightheart Lake," Chu Yu said with a faint smile. it's too dangerous for this li Yunxiao to drive his chariot around. Tell him to keep an eye."

Horson looked surprised and opened his mouth wide. "Watch out? Brother Chu Yu's guard is a nine-stars martial King, right? Don't spoil that little brother with your looks."

Chu Yu chuckled and said, "brother Huo Sen, you're overthinking it. This little brother has fought against a martial Grandmaster. What's there to be afraid of when he's only a martial King?" Right, brother Xin Pi?"

"Haha, that's true," Huo Sen also laughed, and the two of them echoed each other with a teasing look.

Xin Pi's pupils shrank, and an imperceptible smile appeared on his face. He snorted, "I'm just afraid that li Yunxiao will accidentally kill your guard.

Chu Yu was stunned and then laughed. haha, thank you for your concern, brother Xin Pi. If he accidentally loses his life, it's because he's not as good as you, and he deserves to die!"

He emphasized the last few words, as if they had a profound meaning.

"Hmph!" Xin Pi snorted and stopped talking. He looked coldly outside the building.

Yunxiao stood at the front of the Tigerking chariot and sneered as he looked at the big hammer that was approaching. "A fifth-ranked hammer, you want to see who's tougher, right? Then I'll fulfill your wish!"

He made a few hand seals, and a layer of defense immediately appeared on the chariot. All the formations attached to the chariot were activated, adding to the momentum and slamming against the hammer. It was as if a huge mountain was pressing down on them, forming a black mass!

“What?”

Everyone was taken aback. How could there be such a prodigal? The Tigerking chariot was a fifth-tier war weapon, and it was extremely precious. He actually used it to hit a hammer! Aiya, what a prodigal, what a prodigal!

The pupils of the burly man on the hammer contracted, and he was so scared that he broke out in a cold sweat. He had thought that the other party would save the chariot no matter what to prevent it from being destroyed when he struck with the hammer. Who knew that it would actually collide with him?

Although they were both fifth tier profound armaments, but he wasn't stupid enough to think that his war hammer could go against a war chariot. He hurriedly stomped on it with both his feet and immediately pushed the hammer down, changing his direction to turn around and leave.

since you're here, let your hammer and my car have a good time. Why are you running? ”

With a sneer, Yunxiao cast a spell, and an array on the chariot immediately began to spin, emitting a very strong yellow light that fell on the burly man.

“Whoosh!”

The man who was standing on the hammer suddenly seemed to be pulled by something and fell down violently, fast as lightning.

“?! Gravity array, it's at least ten thousand times gravity array!”

The burly man was taken aback, and his entire body was pulled down by a huge suction force.

However, this was not the most important thing. What scared him even more was that the Tigerking chariot was in hot pursuit. It was right above him, roaring and pressing down, covering the sky and earth. There was no way to avoid it!

Chapter 262

?

262 Get down

stop! Stop!

The burly man was so anxious that his eyes nearly popped out of their sockets. He circulated his true Qi to the peak to resist the pressure of the ten thousand times gravity as he roared at Yunxiao with all his strength.

“Stop? Didn’t you want me to roll down? Now you want to stop after you’ve started rolling, are you kidding me?”

A cold gleam flashed in Yunxiao’s eyes as a ray of light sprinkled down from his hand. A few strange characters were hidden in it, instantly locking the burly man who was about to escape with all his strength, making him unable to move.

“You’re so silly!”

The burly man was accumulating power, planning to jump away the moment he landed. Who knew that under the light, a strange force actually sealed his meridians in an instant, and he couldn’t use any strength. He immediately shouted in fear, “ Lord Chu Yu, save me!

“BOOM!”

The Warhammer struck the ground, and a huge tremor exploded. The surrounding martial artists all retreated.

Then, they saw a horrifying scene. The huge Tigerking chariot also fell down into the deep pit. The chariot was still glowing with a strange light.

“Boom boom boom!”

The moment the chariot landed on the ground, Yunxiao shot out dozens of meters high and watched it fall in coldly. He performed an incantation gesture with one hand and said expressionlessly, “Explode!”

“BOOM!”

There was no sound, and everyone could only see the ground being lifted up like a carpet. A huge mushroom of light bloomed on the ground and spread in all directions. The faces of some of the Warriors who were standing closest to him instantly turned pale. The aura of death surged from the bottom of their hearts, and they were filled with despair.

The moment the Tigerking chariot exploded, a figure shot out from the building and landed gently near the mushroom of light.

It was Xin Pi. He stretched out his hand with a calm face. In an instant, a defensive barrier condensed in his palm and shot out. With him as the center, it spread out in a circle and actually sealed the mushroom-shaped explosive energy.

“Boom boom boom!”

Everyone was horrified to hear the explosion of energy within the defense. Then, the light continued to bloom for a while before it gradually extinguished and turned into nothingness.

Xin Pi took a deep breath. A green light flashed and the defense was opened instantly. A huge black pit with a diameter of over twenty meters appeared on the ground. It was so deep that the bottom couldn't be seen. The burly man standing on the hammer had disappeared without a trace. Let alone a corpse, even the piece of armor on the fifth-grade hammer was probably gone.

“It’s enough to teach him a lesson, is there a need to make such a big move?”

Xin Pi looked at Yunxiao, who was slowly descending from the sky, with a hint of blame, but there was a smile on his face, and he was obviously very happy.

“Brat, you’re so vicious!” Chu Yu appeared in the air with a gloomy face and said coldly, “this is not firecrow Empire. You can’t be so presumptuous here!

Yunxiao was not afraid of Chu Yu’s Martial Emperor aura at all. He spread his hands helplessly, shook his head, and said, “He told me to roll down, so I rolled down for him. It’s precisely because I’m not in firecrow Empire that I’m always careful in everything I do, and I’ll do whatever others tell me to do.” He paused, and a cold smile gradually appeared on his face. “However, I’ve never seen such a perverted request in my life, hehe.”

“You coward!”

Chu Yu was furious. As a member of the royal family and a Martial Emperor, he had always been arrogant and domineering. He had never been ridiculed like this before.

“You’re looking for death!”

He made his move in an instant. An arc of light shot out of his fingertip, making a sharp piercing sound as it shot toward Yunxiao’s forehead.

“Bang!”

Xin Pi’s figure flashed and his fist directly hit the arc of light. The two forces exploded in the air, as beautiful as the blooming and withering of flowers.

“Brother Chu Yu, your lustrous arc finger has improved quite a bit. I would really like to spar with you again.” Xin Pi stared at Chu Yu with a sneer on his face. Looking at the other party’s gloomy expression, he felt an unspeakable sense of comfort in his heart.

The martial artists below, who were already crowded, instantly distanced themselves, not daring to come close.

When the immortals fought, the mortals suffered.

If Xin Pi hadn't attacked just now, most of them would have been dead. Now that there were two martial Royal realm experts facing each other, they were even more frightened and avoided it.

"Haha, aren't you two afraid of being laughed at by these juniors?"

Horson appeared between the two of them with a smile on his face and said, "If you want to spar, you should find a good day, right? It's getting late, so let's get things done as soon as possible. If we delay the contest, none of us will be able to bear the responsibility."

you're right, brother Huo Sen, " Xin Pi sneered. but I'm afraid brother Chu Yu's hands are itching for a fight and can't help it.

Chu Yu's face was livid as he stared at Yunxiao and said, "I hope you can always have such good luck and walk out of qionghua Island alive."

Yunxiao picked his ears in disdain and said with a sneer, "Why do I feel so uncomfortable hearing that? Did you eat shit when you woke up this morning?"

"?!"

Everyone was shocked and gasped. How dare he talk to a martial Royal realm expert like that? The disciples in the distance tried their best to squeeze further away. They seemed to have felt Chu Yu's shocking anger and were afraid of suffering.

"You! You're really looking for death!"

Chu Yu was so angry that his chest was about to explode, and smoke was coming out of his head. But, when he saw Xin Pi standing vigilantly in front of Yunxiao, he immediately took a few deep breaths and forced himself to hold back while gritting his teeth.

Cold sweat also broke out on horson's forehead. He gave Yunxiao a look of admiration and said with an embarrassed smile, "This kid is interesting, he has guts! I don't know if it's because he's tough enough."

"I'm in charge of my own life," said Xin Pi coldly. If someone doesn't know what's good for them and tries to play tricks in the dark, hehe, there are a few thousand people here, enough for me to kill for a while."

He was afraid that Chu Yu would use underhanded means, so he had said those harsh words first. If he was killed by his peers on qionghua Island, it would be his death. However, if there were any experts who were secretly waiting for an opportunity to strike, he would definitely kill all the thousands of people from Tian Xiang who were participating in the competition.

Chu Yu's expression changed greatly. He understood the meaning of Xin Pi's words. If that was the case, it would definitely turn into a war between two countries, and not just a war between mortals. All the major forces would definitely get involved, and it was even very likely that the sanctuary would take action in the end.

"Haha, brother Xin Pi, you're overthinking. The experts of the three major forces are guarding qionghua Island, who would dare to do anything sneaky?"

Seeing that the situation had turned stiff, horson hurriedly came out to smooth things over. "There's no time to waste, let's start."

Only then did the two of them step back. They faced each other coldly and no longer spoke.

However, Chu Yu's face was gloomy and uncertain. The scene from a few days ago flashed through his mind.

The Zhou family, one of the four great families of firecrow Empire, had secretly sent someone to the court, offering a bargaining chip that even he was tempted to use. They wanted to kill Yunxiao in the quota competition with the help of the skyfragrance Empire. In addition, he had collected all kinds of information about Yunxiao and sent them to them.

When he first saw it, he was shocked for a long time. At one point, he even suspected that the information was wrong. He had sent people to infiltrate Shangyang city again to investigate, and only then was he able to confirm it. In particular, during the battle on the Golden Crow divine ring, he had killed a Wu Zong with a wave of his hand. Although there was some luck involved, tens of thousands of people had witnessed it.

Chu Yu came back to his senses and looked at Luo Qingyun in the distance. He nodded slightly, full of killing intent.

Luo Qingyun was an outer region disciple, and even he didn't know his identity. Originally, he wouldn't have been given this opportunity, but the Zhou family had sent him too much. To play it safe, he had added Luo Qingyun into the list of candidates for the quota competition. This was because he had tested Luo Qingyun's strength before. It was not as simple as a three-stars martial Grandmaster!

If Luo Qingyun made a move, Yunxiao would die without a doubt!

The killing intent on Chu Yu's face was seen by the tens of thousands of disciples. They all broke out in cold sweat, knowing that qionghua Island would not be peaceful.

Xin Pi, on the other hand, sneered as he looked Luo Qingyun up and down. Although he felt that Luo Qingyun was a little strange and could not be seen through, he was still very confident in Yunxiao. Perhaps it was because he had witnessed Yunxiao's amazing record of fighting against three alchemists alone in The Alchemist Association that he had great confidence in him.

"Everyone, quiet down!"

Horson took a few steps in the air and coldly said to the disciples who were cowering in the distance, "I won't say any nonsense! There are a total of 2000 slots and 10000 participants. The time limit is three days!"

He took out a square-shaped crystal and raised it high. It slowly glowed in the sunlight.

The four corners of the crystal were inlaid with gold, and in the middle, an ancient symbol was constantly rotating, full of spiritual Qi.

Huo Sen explained, "there are a total of 2000 of these crystals on qionghua Island. Each of them represents a place to enter Mount Meru." Everyone could collect as much as they could! The rules are very simple. You can use any means except for killing with ill intent."

the island is being closely monitored by the experts of the elusive world Valley, the jutian sect, and the thousand crane Pavilion. If someone's life is in danger, you can shout 'I admit defeat', and the experts will immediately come to save you and take you away from the qionghua Island. However, you have to hand over the quota crystal and put it back on the island.

"If there are crystals that haven't been discovered after three days, then on the last day, these undiscovered crystals will be jolted into the sky by the formation and all appear. At that time, we'll rely on our own means and the capable will occupy it!"

In fact, everyone already knew these rules, and horson was just announcing them again as a routine.

"Now, we'll start the teleportation."

He pointed a finger downwards, and a ray of light shot into the ground. It began to spread, and wherever it passed, array runes appeared in a radius of 100 meters.

The array was inlaid with thousands of primordial stones full of primordial Qi. Under Huo Sen's activation, the primordial stones emitted an amazing amount of primordial Qi and gathered in the center of the array. Soon, a warm light rushed out from the array, condensed in the air, and slowly opened.

"This is a short distance teleportation gate that leads directly to qionghua Island. Moreover, it was a random teleportation, and everyone would land in a different place after entering. If there are disciples from the same sect, they will have to gather by their own means."

A smile appeared on Huo Sen's face, and his eyes gradually focused. He said, "Now, everyone, go in!"

Chapter 263-first day

The teleportation gate opened, and it was the first time for most of the disciples to see the teleportation formation. They were all very enthusiastic and rushed in, hoping to find the quota primordial stones first.

After walking for a full 15 minutes, only a few people remained and walked in unhurriedly.

One of them, a man in a dark blue brocade robe, walked past Yunxiao and gave him a cold look before walking into the teleportation array. He was followed by many companions, all of whom were looking at Yunxiao with mocking eyes as they followed him in.

Luo Qingyun had been staring at Yunxiao. When the crowd was ridiculing him, and only the two of them were left, he suddenly made an inviting gesture and said with a smile, "After you, please."

Yunxiao gave him a look, then walked in without any courtesy and replied indifferently, "Thanks." He had been in the limelight just now and seemed to have become the target of public criticism.

As soon as he walked into the teleportation array, the scenery in front of him changed. He had already entered a different space and arrived in a forest.

When he heard the sound of waves in the distance, Yunxiao knew that he had arrived at Qionghua Island. He closed his eyes slightly and spread out his divine sense in an instant, trying to explore the island. But, he suddenly frowned. He had just spread it out for hundreds of meters when he was blocked by an invisible force, making it difficult for him to spread it any further.

"En, he actually set up a spirit-sealing formation." "Forget it. If I use the great expansion divine technique to force my way through the formation's restrictions, I'm afraid it will cause a commotion. Let's try our luck first," he muttered to himself.

His figure flashed and disappeared into the forest.

Somewhere on the qionghua Island, the blue-robed man was holding a quota crystal in his hand. He was very lucky. After being teleported in, he found a crystal on a tree branch and took it down.

“This should be some kind of strange stone with a mark carved inside.” The man held it in his hand and examined it carefully. A strange symbol flickered in the crystal, giving off a strong sense of power.

“Quota crystal!”

A voice suddenly cried out from above him. Immediately, two figures descended, one in front and one behind, surrounding him in a triangular formation. Their eyes were shining as they stared at the crystal and said with joy, “Haha, luck! As soon as we came to qionghua Island, we had our second brother meet up, and then we found Jingshi. Kid, if you know what’s good for you, hand it over and I’ll spare your life!”

The blue-robed man glanced at the two of them from the corner of his eyes before carefully putting away the crystals. He then slowly said, “You don’t have any Jingshi on you. Go and dig up more, and I’ll come find you guys later.”

“What? Haha, senior brother, did you hear what he said?” The junior Brother couldn’t help but laugh.

That senior brother also had a sneer on his face as he said, “Since he doesn’t know what’s good for him, then I’ll teach him a lesson. Kid, don’t call it admitting defeat later.”

The two of them took a strange step and quickly circled around the man in blue brocade clothes. All kinds of illusions kept appearing around them, but their real bodies were hidden and difficult to distinguish.

“Haha, kid, are you stunned? When the two of us join hands, our footwork can match reality and illusion, making it difficult to break through!”

“Junior Brother, why are you talking nonsense with him? Do it!”

“Whoosh! Whoosh! Whoosh!”

Several attacks that broke through the air were emitted from the dozen or so phantoms almost at the same time. They covered the sky and the earth, attacking the blue brocade-robed man from all directions without any blind spots. It was impossible to Dodge.

“Bang!”

The man in blue snorted coldly. He didn't Dodge, but threw a punch. As if there was an infinite power, the space was slightly distorted under his punch. The overwhelming attack was immediately drawn into the distorted space, twisted into a ball by his fist wind, and rapidly compressed.

“What?”

The two men cried out in shock, their steps slowing down as their true bodies were revealed.

The blue-robed man threw out a punch, and the distorted and compressed space immediately bounced back and instantly returned to normal. All the attacks that had been curled up also bloomed out, twisting into a ball and blasting toward one of the men.

“BOOM!”

The man couldn't Dodge in time and directly exploded under the wind of the fist. His entire body exploded into pieces, and broken limbs and flesh scattered all over the ground.

“Ah?”

The other man's mouth was wide open. He was completely dumbfounded, and his mind was blank. His own senior brother, this Wufu, died just like that?

In the world of martial artists, those under the age of fifty were considered extremely young. Many of them had always been cultivating in seclusion in their sects and had never gone out to experience actual combat. Even if there were a few battles, they would basically stop there. At this age, there were very few people who had experienced life and death battles, and this man was one of them. Seeing his senior brother instantly explode to death, his mind was completely dazed, and he stood in place in a daze.

“Hmph!” A cruel sneer appeared in the blue-robed man’s eyes. He flicked his finger, and a strong wind directly broke through the air, hitting the man’s head.

“Ah? Don’t! “I ... I ... I admit defeat!” The man was awakened by the sound of the air breaking. The fear of death instantly hit his head, and he was scared out of his wits. He hurriedly begged for mercy.

“Bang!”

Unfortunately, he was still one step too late. His head was instantly pierced by the Qi, and a bloody hole was blasted out. His entire body fell backward, completely dead.

what a vicious method. The rules of the competition state that no one is allowed to kill with ill intentions. Have you forgotten? ”

A man frowned and gradually appeared in front of the man in blue. He was wearing a large red robe. He was the person in charge of the quota competition on qionghua Island.

“Malicious killing?” The blue-robed man said disdainfully, “my Lord, didn’t you see that they were the ones who wanted to kill me first?” Could it be that my self-defense is considered as malicious killing?”

The red-robed man’s face was gloomy. The two people who had just died were the disciples of the aristocratic families of his firecrow Empire. He said in an extremely fierce tone, “Hmph, self-defense?” You’re good, kid. Are you from the Muxu Empire?”

The man in blue was not afraid at all. He raised his head proudly and snorted, “ “I’m Leng Quan from the sky-shaking sect of the Muxu Empire. What can I do for you, my Lord?”

When the red-robed man saw his unruly appearance, he wanted to slap him to death. He was so angry that he disappeared on the spot after leaving a cold sentence. you have guts, kid. Don’t fall into my hands!

Leng Quan snorted coldly, not taking it to heart.

He took out a round profound level weapon, which seemed to be carved with something, and looked at it with rapt attention.

“Three miles to the East, there’s a fellow disciple. Hmm, he’s approaching me.”

This was an array tool used to contact fellow disciples. Every disciple of the xxx sect carried one with them and it could display the information within a hundred miles. Many of the sect disciples who entered qionghua Island had this item.

“A total of 2000 spots. Hmph, Hmph, I want at least half of it!”

His eyes glowed and he revealed a confident smile. Then, he strode into the forest.

The first day passed by quickly.

There were very few conflicts that day. After all, everyone had just entered the island and maintained an unusually careful attitude towards others. Moreover, everyone had a starting point, and almost no one had Jingshi. It was not worth taking the risk to attack. Apart from the two firecrow Empire disciples who were killed by Leng Quan, no other people were killed.

On the lakeside of Brightheart Lake, Xin Pi and the other two were leisurely sitting in a building and looking at a huge water screen.

This was the effect of the formation from the qionghua Island, but it recorded the situation of all kinds of quota crystals. On the map of the entire qionghua Island, the 2000 crystals were distributed. As the first day passed, more and more crystals were gathered together. It was obvious that someone had collected them.

“It’s only been one day, and someone has already collected thirty-two pieces. I wonder whose disciple he is?”

Horson quietly looked at the distribution and movement of the crystals and frowned. "This person seems to be able to detect the crystals. Look, the 32 crystals are moving to the next one."

"How is that possible? there's a formation on the island that blocks out spiritual sense. Even a fourth-tier Alchemist can't perceive more than a hundred meters in radius." Chu Yu shook his head in disbelief, his eyes flashing. "Moreover, the two of you are very clear about the source of this batch of quota crystals. Even if the island doesn't block the divine sense, I don't think anyone can sense it."

Xin Pi's heart skipped a beat as he suddenly thought of Yunxiao.

Baili gongjin had personally issued the badge of a fifth-tier Alchemist to the boy, making him a genuine fifth-tier Alchemist. Could he be the one who gathered the thirty-two crystals? This batch of Jingshi had come from an extraordinary place, but since there was someone who could do it, and also crack it, it was impossible. When he thought of this, his heart burned with passion. At this rate, it would not be a problem to collect hundreds of them.

Huo Sen and Chu Yu's faces flickered with uncertainty, both hoping that the man was a descendant of their own empire.

After strolling around the island for a while on the first day, Yunxiao got to know the terrain better. This Island was several hundred li in radius, and even if there were ten thousand people on it, they would only be a few scattered dots.

His luck was average and he didn't find a single spot crystal. However, there were tens of thousands of people, and there were only two thousand dollars in total. The probability of finding it by himself was only one in five.

In his annoyance, he did not care about arousing suspicion. He formed a seal with one hand and carefully used the great expansion divine technique. His spiritual sense instantly expanded and radiated in all directions. The terrain of qionghua Island gradually appeared in his spiritual sense.

"What?"

He frowned slightly, but a smile soon appeared on his face. He retracted his divine sense and flew in a direction.

Yunxiao stepped hard on a huge rock with a smile on his face. Immediately, a force spread out under his feet, and the entire rock cracked from top to bottom, turning into stones that flew everywhere.

“Swish!”

A figure instantly shot out from the rock and quickly fled in one direction.

“Haha, you want to leave?”

Yunxiao leaped into the air and instantly closed in on the man. He grabbed at the air with his five fingers and immediately locked the man on the ground, then suppressed him with a pressure that rendered him immobile.

“Who is it? Who was it? We don’t have any grudges, why did you capture me?”

The man struggled non-stop, his face full of fear. He cried out, “He’s standing in the air? You are a Wu Zong?”

Chapter 264

?

264 Snatching

Yunxiao landed with a smile and said, “I’m not a Wu Zong, I just used a secret technique. If you hand over the quota crystal, I’ll let you go.”

“Quota crystal? I didn’t!” The man breathed a sigh of relief when he heard that Yunxiao was not a martial Grandmaster, but when he saw Yunxiao’s face clearly, he screamed again, “you’re li Yunxiao!”

Yunxiao was surprised, 'huh? You know me? I can't believe I'm A Celebrity now."

"I'm a descendant of the firecrow Empire," the man said with a wry smile. everyone in the country knows that young master Yun killed a martial Grandmaster with a wave of his hand in that earth-shattering battle. "Meeting you is worse than meeting a Wu Zong. City Lord, please let me go. I really don't have any quota crystal stones on me."

Yunxiao's face immediately turned cold as he snorted, " "No quota crystal? Hmph, if you don't have it, why are you hiding in the rock and not moving?"

The man rolled his eyes and hurriedly said, " "I'm training. I'm training in an earth-type cultivation technique, so I need to train in rocks. If young master Yun doesn't believe me, I can show you."

forget it! Yunxiao waved his hand and said, " since you don't know what's good for you, I'll have to kill you and look for it myself. A ray of light flashed in his hand and gradually turned into a sharp blade. He was about to slash forward.

The disciple was scared out of his wits and hurriedly said, " "Young master Yun, please spare me! Since we are all disciples of firecrow Empire, please spare my life! I'm willing to hand over the quota crystal!"

"Hmph, you're so cheap!" Yunxiao put away the blade of light in his hand, kicked him hard, and scolded, " "I have to take a few hits from you before I feel comfortable!"

The disciple suffered a heavy blow and immediately broke a few bones. With a muffled groan and a bitter smile, he didn't dare to say anything more. He hurriedly took out a quota crystal and offered it with both hands.

After taking it, Yunxiao found that it was exactly the same as the quota crystal shown by horson. It was emitting a soft light, and a symbol was flashing constantly inside, full of power.

"Eh? Why aren't you getting lost?" Yunxiao looked at the disciple and shouted.

The disciple's face was bitter, and he said submissively, "City Lord, can you tell me how you found me? I had found a crystal and planned to hide in the rock until the end of the competition. But who knew that Zhenzhen "

His strength was only at the level of a peak great Martial Master, and he just wanted to try his luck. Who knew that he would be so lucky and pick up a piece on the first day. Immediately, he followed his previous plan and exercised the earth-elemental cultivation technique he had been cultivating and hid himself in the rock. He thought that he would be safe, but it did not take long for Yunxiao to find him.

"This doesn't make sense, isn't this Island blocked from divine sense?" The disciple felt extremely wronged.

Yunxiao found it funny, but he put on a straight face and shouted, "If you don't get lost, you'll die!"

The disciple was shocked. His body trembled and he quickly ran away.

Yunxiao chuckled as he took the crystal in his hand and carefully observed it, frowning from time to time.

"Strange, this crystal is indeed made of thousand steel stone, but what is this restriction on it? The structure is so tight. Did you order it from the sea of soul formation?"

He suddenly thought of this possibility. With the opening of Mount Meru, even the sea of soul formation would not be able to sit still. They would definitely send disciples to the southern region to carry out various trades.

Yunxiao pointed his index finger at the crystal, and a golden light immediately bloomed. His fingertip kept falling on the crystal, and every touch was accompanied by golden specks. Wherever his finger passed, the crystal became more and more transparent, as if it was about to reveal its entire internal structure.

"Hmph, I don't believe that I can't find the key even if I break you open!" A trace of ruthlessness flashed across his face. He suddenly increased the strength of his fingertips and pointed down.

Creak! Creak!

A cracking sound came from the crystal, and suddenly, it was covered with cracks. It burst open with a crash, and a ray of light shot out from the crystal, trying to break through the sky.

“Hmph, you want to escape? Fix it for me!”

With a casual wave of his hand, dozens of golden tadpole-like characters flew out of his palm and snatched the light beam away, flashing in the air. Upon closer inspection, it was actually the strange symbol in the crystal, and there was a faint restless aura spreading.

He then cast a few more spiritual arts, constantly hitting the strange symbol, and finally dissolved the Restless energy. The symbol gradually fell and floated above his palm.

He stared at the strange symbol, and his expression became more and more serious. Then, he pointed his finger, and a golden tadpole-like character rushed up and collided with the symbol. The two symbols instantly annihilated each other, and a spiritual storm formed in his palm, shaking out in all directions.

Yunxiao’s pupils constricted. The force had actually penetrated his spiritual sea. Fortunately, his soul power was extremely strong, or he would have been seriously injured.

After the symbol disappeared, a faint black Qi seeped out of his palm. It gradually rose and was about to spread out.

“As expected! But why would such a thing appear?”

Yunxiao had a complicated look on his face. He clenched his fist, and the black mist immediately turned into a plume of green smoke, shooting into a glass vessel before he put it away.

Then, he placed the glass container in front of him and began to penetrate it with his spiritual sense to analyze it in detail.

After a long time, he heaved a long sigh of relief. The knot between his brows opened, and he put the vessel into his ring.

Just as he stood up and was about to leave, a loud shout suddenly came from behind.

“Stop!”

Then, a few figures rushed up and surrounded Yunxiao in a few flashes, each of them with a murderous aura.

The leader of the group, a middle-aged man, shouted with a dark face, “His words were suddenly stuck in his throat, and his eyes widened as he said in shock, “You’re Yingluo, you’re Yingluo!”

The young man beside him also changed his expression and said, “Senior brother, he’s Li Yunxiao!”

“Not good, quickly run!”

The middle-aged man who was the leader of the group immediately shot backward and shouted, run in all directions. Don’t go in one direction!

The crowd immediately scattered like birds and beasts, so fast that Yunxiao did not even have time to react. However, he smiled coldly and closed his eyes to sense. He muttered to himself in an almost inaudible voice, “Four auras. That middle-aged man has four crystals. The others don’t have it.”

He stomped his foot lightly and immediately shot forward like an arrow.

Through his research of the black gas, he could already distinguish the existence of this aura in his divine sense.

The middle-aged man sprinted through the forest at full speed. There was a burst of light under his feet as he shuttled through the forest like lightning.

His speed was so fast that many of the other disciples they met on the way became alarmed. However, the middle-aged man's speed increased and his expression became uglier. This was because a spiritual awareness was looming behind him and had directly locked on to him. No matter how he ran, he could not escape the pursuit of that spiritual awareness.

"Motherf * cker, what's going on? Wasn't the divine sense blocked off on this Island? Don't tell me that kid can cheat?"

The middle-aged man gritted his teeth and ran desperately. He was from a reclusive sect in firecrow Empire. He had watched the entire match in the arena in Shangyang city that day, not missing a single detail. With his strength as an eight-stars martial King, he would definitely die if he encountered Yunxiao. He was immediately filled with regret. Why did he keep all four crystals with him? it would have been great if he and his junior brothers had each brought one.

"Swish!"

Suddenly, an arc of light shot over from the distance, aiming for the middle-aged man's vital points. The speed was so fast that it broke the air with a sound. It was precise, accurate, and ruthless!

"True inheritance slash!"

The middle-aged man was given a big fright and hurriedly flew up into the air. He put his hands together in the air and a ray of light shot out from his palms, transforming into the power of vacuum and slashing towards the arc of light.

"BOOM!"

The two forces collided, and a few large trees collapsed. Several figures shuttled through the leaves and quickly surrounded the middle-aged man.

"Hehe, isn't this He Xin from the Vermilion Bird residence of the firecrow Empire? Why are you running around like a stray dog?"

There were a total of five people surrounding He Xin. They were the disciples of the blazing sun Valley of the Muxu Empire. The one with the highest cultivation base among them was a nine-stars martial King. He was staring at He Xin coldly with a mocking expression.

He Xin's face turned pale, not because he was surrounded by these people, but because he had sensed that Yunxiao was nearby, and that he could not escape no matter what.

"Yo, tsk tsk, why is brother He Xin's face so ugly? Brother He Xin is very famous in the Vermilion Bird residence. I remember the year before last, your sect master brought brother He Xin to my blazing sun Valley to show off his power. There's no need to be afraid now, we won't bully you with numbers."

The leading nine-stars martial King sneered. He strode forward and pointed with his finger, sneering, "As long as brother He Xin wriggled through this little brother's crotch and leaves behind the crystal stones on your body. This little brother can spare brother He Xin's dog life."

He Xin heaved a sorrowful sigh and shouted towards the forest, "City Lord of cloud sky City, I know that I can't escape, but on account that we are both from firecrow Empire, please let me leave one crystal. I'm willing to give the remaining three to you with both hands. Otherwise, I can just shout 'I admit defeat' and safely leave the island, but the city Lord won't be able to obtain any of the four crystals."

The scorching sun Valley disciples' expressions changed.

"He has four pieces of Jingshi? Be careful, this kid might just admit defeat!"

"What? There was someone in the forest? Who was lying in ambush? Get out here!"

The nine-stars martial King's expression changed slightly as well. He scanned the forest with his eyes, but found nothing. This place blocked his divine sense, so his divine sense's range didn't exceed ten meters. It was as good as nothing.

"He Xin, give me the three crystals and I'll let you leave safely! Otherwise, don't even think about leaving a single piece behind!" He shouted at He Xin with a dark face. He was also deeply afraid that the other party would directly admit defeat. Then, the experts of the three major sects would appear and take him away, and the four pieces of crystal stones would all return to the island.

He Xin turned his head and looked at him contemptuously. He snorted in disdain. If it wasn't for the cloud sky City Lord chasing after me, do you think you can stop me?"

Chapter 265-mutual augmentation

The nine-stars martial King flew into a rage. A bright light burst out from his body and rushed toward He Xin. He shouted angrily, "Since you're looking for death, I'll fulfill your wish!"

He Xin's expression changed slightly and he hurriedly retreated into the forest behind him. He waved his fists and transformed all his strength into waves of true Qi. He did not spare any effort to blast out. His opponent's strength was definitely stronger than his, so he did not dare to be careless.

"Alright, it's a deal!"

At that moment, Yunxiao's faint voice came from the woods.

The nine-stars martial King felt a chill run down his spine, and his heart skipped a beat. He wasn't clear about the other party's strength, but a person who could force He Xin to escape was definitely not simple. Therefore, he hurriedly withdrew his fist and retreated, standing in the forest vigilantly. The other four disciples of the scorching sun Valley also came forward and drew their weapons.

"City Lord of cloud sky City!" When he Xin saw Yunxiao walking out slowly, he hurried up to him, took out three crystals, and offered them to him with both hands. "I hope that city Lord can help me escape this calamity."

Yunxiao took the crystals without any hesitation, then nodded and said, "Alright, you can go."

He Xin was overjoyed and was about to leave. The nine-stars martial King moved and immediately blocked his way. He grinned hideously and said, "You want to leave? Did you ask me? I thought it was some expert, but it turns out to be you, kid! hehe, how can a mere five-stars martial Lord be so arrogant! Haha, He Xin, you must have been frightened by his imposing manner when he came. Hahaha!"

haha! the other four disciples of the scorching sun Valley also burst into laughter. you're just a small fry who survived by self-destructing the Tigerking chariot, yet you think you're so powerful? " Hahaha!"

He Xin remained silent and only looked at them with a mocking expression, waiting for a good show.

The nine-stars martial King felt very uncomfortable under his gaze, as if he was looking at a fool. A sense of irritation welled up in his heart, and he immediately said angrily, " Laugh? I'm laughing at your sister, go to hell!"

He flicked his fingers and five small curved light balls shot out. They drew a long curve in the air and were controlled at his fingertips like puppets as they shot toward He Xin.

"Cloud sky City Lord, save me!" He Xin hurriedly stepped back and leaned toward Yunxiao.

Yunxiao chuckled and flicked his fingers as well, sending out five small balls that wrapped around his fingertips and crashed toward the nine-stars martial King like puppets. What was different was that these five small balls were five different colors and belonged to the five elements.

"Hey, how do you know this martial skill? It was actually the power of the five elements? You're only a martial Lord of the four symbols realm. How can you exert the power of the five elements?"

The nine-stars martial King was startled. This was one of the unique skills of the scorching sun Valley, and it had never been taught to outsiders.

Hmph, 10000 techniques return to one. This is child's play. I'm only interested in playing it because I saw you play with it. Do you think I care? f * ck!

Yunxiao's eyes turned cold as he clenched his fist. In an instant, the five small balls gathered together and gave off a strong light before exploding with a boom.

The nine-stars martial King's expression changed drastically. He hurriedly retracted the small ball he was controlling, and it spun in a circle to block in front of him. However, the power of the explosion was endless and stacked on top of each other. The power of the five elements enhanced and enhanced each

other. From a strong light, it grew bigger and bigger, and in the blink of an eye, it swallowed the nine-stars martial King.

“Boom boom boom!”

A large number of trees were turned into ashes, and a huge force spread far and wide. The disciples in the distance all stood up and looked at each other in horror.

After the light ball was destroyed, a huge pit appeared in the forest. The nine-stars martial King’s whole body was charred black, and he was stuck in the soil. His eyes were full of horror.

“Hehe, a nine-stars martial King, not bad. I’m just one step away from entering the martial ancestor realm.” Yunxiao looked at the man and chuckled. “Get up. Although the power of the five elements is strong, my cultivation level is too low. I can’t cause you any real harm.”

“Senior brother, senior brother!”

The remaining four disciples recovered from their shock and hurriedly ran over, wanting to drag the man out of the pit.

“Bang!”

The nine-stars martial King shot out by himself and stood on the opposite side of the pit. His whole body was charred black, and his skin and flesh had been split open, with blood dripping out. He looked at Yunxiao in horror and felt a chill in his heart.

“You also have four crystals. Hand them over and I’ll let you go.” Yunxiao said with a smile.

“Who Do You Think You Are? you merely won against senior brother by a stroke of luck, and you actually dare to boast shamelessly!” A disciple of the scorching sun Valley was furious and shouted, “Everyone, let’s kill these two kids!”

The four of them were all furious and wanted to rush forward.

There was a hint of fear in the nine-stars martial King's eyes, and he suddenly shouted, "Everyone, stop!" His breathing was extremely heavy, and there was a flash of struggle in his eyes. However, it only took a moment for him to regain his calm. He said, "Give him all the Jingshi."

"What? senior brother! one of the disciples was shocked and looked at the nine-stars martial King in disbelief.

The nine-stars martial King's face immediately turned angry, and he almost roared, "I said give him all the Jingshi, are you deaf?!"

The disciple was shocked, and cold sweat appeared on his face. He quickly took out four crystals from his storage ring and threw them far away. A thread of fear rose in his heart. He knew this Shixiong's strength and temper. If it wasn't for the fact that he really had no hope, he would never hand over the Jingshi.

Yunxiao put it away with a smile, then nodded and said, "Not bad, you're very smart. If you continue, you'll have to admit defeat. At that time, you won't have any chance."

The muscles on the nine-stars martial King's face twitched. He turned around expressionlessly and said, "Let's go!"

Time was of the essence. They had to hurry and find more Jingshi. The five of them quickly disappeared into the forest.

He Xin sighed with emotion inwardly as he hurriedly bowed and gave his thanks. "Many thanks, city Lord!"

He lowered his head and waited for a long time, but there was no response. When he raised his head slightly, he saw that Yunxiao had long disappeared. He was shocked for a moment, and then his face turned ashen. He only had one piece of crystal left on him, and he had no way to explain to his junior brothers. He hurriedly ran away.

A moment later, two figures appeared beside the huge pit. They stared at the pit and observed it carefully, their faces solemn.

it's indeed the power of the five elements. The five elements reinforce and reinforce each other. That's why a casual attack can stack up and spread continuously, causing such a huge destructive force.

One of them said in shock, "Even a martial artist at the peak of the martial King realm can't control the five elements so well. How did that kid do it?"

The other person's pupils constricted and he said with a gloomy face, "Not to mention such fine control of the five elements, he's only a martial Lord. How can he use the power of the five elements? One must know that the four symbols turning into five elements required the power of the four symbols to evolve to the extreme. Only then could one comprehend the five elements in heaven and earth and advance to the five elements realm martial King. If he could control the power of the five elements so well, how could he only have the cultivation base of a martial Lord? These are all illogical things!"

The first person was startled and said in surprise, "could it be that he's concealing his cultivation?" Even you and I can't see through it, so he must have a profound level weapon that can suppress his cultivation!"

"That's right, that's how it should be. Otherwise, it would not make sense no matter what. Looking at his control over the five elements, that kid is most likely a martial arts Grandmaster."

"Wu Zong??! You must be joking! No matter how we look at him, he looks like he's only 15 or 16 years old. You have to know that a person's bone age can't be faked. We can tell at a glance. A 15-year-old Wu Zong, haha, this is too much!"

"Hmph, I also hope it's nonsense! But what was this pit? You saw the situation with your own eyes!"

The man fell silent for a while before he said, "If it's really as I've guessed, then it's too terrifying! When he grows up, I'm afraid that the martial honored realm won't be his final destination. It's very likely that he'll become a Nine Heavens martial sovereign!"

Another person mumbled, " a martial sovereign of the nine Heavens is bi an. How many years has it been since a martial sovereign has appeared in the southern region? Is the balance between the three empires going to be broken?"

"This kid seems to be from the firecrow Empire. Should I teach him a lesson?" a fierce look flashed in the eyes of the first man, and he said coldly, " "If we don't kill him now, he'll definitely be the number one person in the entire Southern domain!"

"Don't act rashly! This brat's background was unknown, and he might not be from the southern mountain range. If you kill him rashly, you'll be in deep trouble." The other person was shocked and hurriedly stopped him, " "Moreover, we are now on qionghua Island. If we are exposed, the consequences will be unimaginable!"

The ancestor said, " since that's the case, we'll observe for now. We'll report it to the sect after this. It's not our turn to worry about how to deal with it.

The two of them remained silent for a while, their expressions unable to be dispelled. Their figures flickered and disappeared from the spot.

At this moment, in the building by the Brightheart Lake, the faces of Xin Pi and the other two also became extremely serious as they stared at the water curtain.

Horson's face was extremely ugly as he said, " "There must be someone who knows the way to collect crystals! The strongest one had already gathered nearly 200 pieces, and this person was extremely powerful. All the crystals he encountered were swallowed! The rest are only 40 pieces!"

Luo Qingyun's face suddenly appeared in Chu Yu's mind. That young man, whom even he could not see through, seemed to have said something when he was given the chance to participate in the competition, but he had forgotten about it for a moment. He only felt that the person who had collected more than 200 crystals was very likely to be Luo Qingyun, but he didn't know why he had this feeling.

Li Yunxiao? " he asked. Xin Pi, on the other hand, was thinking about Yunxiao as he muttered to himself, " "Is it really him? With more than 200, at this rate, it was very likely that he would level up to a thousand before the end. That's half the quota!"

When he thought of this, his heart suddenly burned with passion. Mount Meru was of great benefit to the improvement of a warrior's strength. If a large number of outstanding disciples could enter Firecrow Empire, their overall strength would steadily surpass that of the other two kingdoms in the next few decades.

Huo Sen and Chu Yu also knew the implications of this. Their faces became serious as they looked at the distribution of crystals on the water screen. It was hard for them to calm down.

Chapter 266-siege

Yunxiao suspended the seven quota crystals he had obtained in the air and carefully observed them. Apart from the slightly different structure, the symbols inside were exactly the same, giving off a feeling of power.

After a long time, he sighed. With a wave of his hand, he immediately kept all seven crystals into his ring. Then, a smile appeared on his face and he said indifferently, "All of you, come out. After watching for so long, it's time to take action."

He waited for a while and found that there was no movement.

"Hehe, I thought I wasn't talking about myself. Two behind the tree 43 meters in front, five at 86 meters, one behind the rock 72 meters to the left, and the 11 hiding behind me. All of you, come out." The one on the left, "Yunxiao said with a faint smile. I'm talking about you. Don't look around. There's no one here except you.

The surroundings were silent, so quiet that it was a little cold. The cold wind blew, and there was a sense of desolation.

Whoosh, whoosh, Whoosh!

The sound of people darting around came from all directions, and soon Yunxiao was surrounded by a group of nineteen people, exactly the same number as he had said.

"Kid, How did you find us? You must know that this Island can block divine sense!"

One of the short and muscular men said in a deep voice. He had been lying in ambush on the side and had also noticed that there seemed to be others around, but he had not expected there to be so many. What was even more unexpected was that it was already in this person's control.

The rest of the people were also confused. On qionghua Island, their perception couldn't see as far as their eyes.

Not to mention the young disciples, even the people in charge of the three major forces who were hiding in the sky perked up their ears to listen. They also wanted to know. In order to be responsible for the safety of the disciples on qionghua Island, all of them were equipped with a profound level weapon that could enhance their spiritual sense, which could easily break the restrictions on the island, so that they could know the situation of the entire Island like the back of their hands.

Yunxiao looked at the short man and chuckled. "In any case, you're going to admit defeat and leave the island. Even if you know, you won't be able to use it."

"Hmph!" "You're indeed very strong, and you're very arrogant," the other man said disdainfully. There were also some rumors that said that you could kill a martial arts Grandmaster with a wave of your hand. Haha, I want to see how you can do that today. We have a total of 19 people. Unless you really have the strength of a martial ancestor, I advise you to be more tactful."

I only have seven quota crystals," Yunxiao said. you saw it just now. How are you going to split the nineteen of you?"

"Don't try to drive a wedge between us," the man's expression changed slightly and he snorted. "How we split it is our own business." Hand over the Jingshi first. Besides, how do we know if you really only have seven?"

Yunxiao smiled and slowly raised his hand. A beam of light gradually condensed at the tip of his finger as he said softly, "Since that's the case, then Qianqian ..."

"Hold on!"

Suddenly, a young man's face turned pale and he said, "Lord of cloud sky City, I don't want to take the crystals. Can you let me go?" The man was also a disciple of firecrow Empire, and he knew how powerful Yunxiao was. Moreover, his strength was very limited, so even if he really defeated Yunxiao, he would not get any points, so he wisely chose to withdraw.

Yunxiao's eyes were smiling as he nodded and said, "Of course you can."

The young man immediately heaved a sigh of relief and cupped his fists. "Many thanks, city Lord!" He hurriedly turned around and flew away.

The remaining 18 people looked at each other with anger on their faces. However, it was fortunate that the people who left were not strong, and they would not be of much use even if they stayed.

"Lord of cloud sky City, I also want to withdraw." Two more people walked up, and one of them said, "We two brothers also have no interest in city Lord's crystal, so we will part ways here."

The two of them cupped their fists and were about to leave.

At this moment, one of the remaining sixteen people couldn't hold it in any longer and shouted, "Take care, you two! All of you are also descendants of the Tian Xiang Empire, right? if we work together to take down this person, we can split the seven crystal stones between the two of you!"

The man who spoke was the most powerful one among them, an eight-stars martial King. Moreover, the five of them were all eight-stars martial Kings. Therefore, he was extremely calm. But, the rumors about Yunxiao were a little exaggerated, and he had seen him kill the burly man with the copper hammer in a second by Brightheart Lake, so he did not dare to underestimate him.

The two men who were about to leave were also five-stars martial Kings, and they would definitely be a great help. "With the number and strength of the two of you, if we capture this person, we will at least get a piece of crystal. No one here will have any objections," he promised.

The rest of the people nodded in agreement. Although Yunxiao's cultivation base was not high, he gave them an indescribable sense of taboo.

The two of them were quite tempted, and their eyes flickered with struggle. "I'm sorry, but we don't want this crystal," one of them finally said. Everyone, I wish you all good luck!"

Everyone's face darkened, and anger flashed. They all cursed these two people for not knowing what was good for them.

"Hold on!"

A leisurely voice rang out. Yunxiao looked at the two with a smile in his eyes, then shook his head and said, "You can't leave."

"Why?" Their expressions changed, and one of them said angrily, "That person could leave at the beginning, so why can't we? Cloud sky City Lord, don't go too far!"

don't misunderstand me," Yunxiao said with a smile. I don't have any prejudice against you. It was because the person from before didn't have any Jingshi on him, so he could naturally leave. As for the two of you, you have a placing crystal on you."

The man's expression changed drastically, and he said, "What? How did you know?"

He immediately realized that he had lost his composure and quickly shut his mouth. However, it was already too late. The other 16 people also focused their gazes on the two of them, and many of them had cold and sharp expressions.

"That's too much," the man said angrily, "we didn't want to get involved in this matter. You really think you're a martial arts Grandmaster? you actually want to challenge the eighteen of us! Everyone, let's go together and see how capable he is!"

The two knew that there was no way to end this peacefully, so they decided to make the first move. On the contrary, the first of the eighteen people to make a move, one on the left and one on the right.

everyone, attack together! Even if he really has the strength of a martial arts Grandmaster, he will still die!

The rest of the people did not dare to be negligent. They took out their Mystic weapons one after another, and in an instant, more than a dozen beams of light rose into the air and slashed at Yunxiao. Most of these people were martial King realm experts. If they joined forces, even a real martial Grandmaster would have to escape.

Yunxiao chuckled. He really did not take these small fries seriously. If it were not for the people of the three major forces monitoring him from above, he really wanted to release some of the experts from the divine realm tablet so that he would not have to do anything.

“Whoosh!”

He stomped on the ground, and his body turned into a flash of lightning as he shuttled through all kinds of attacks. He was not only extremely fast, but also extremely agile. In an instant, he had appeared in front of the two Tian Xiang Empire disciples. His left and right hands pointed out at the same time, and two finger lights shot out, breaking through the air and pointing down.

“?! How could he be so fast?”

The two of them turned pale with fright and hurriedly retreated while fighting. One of them threw a right punch, while the other turned his left palm into a blade and chopped down.

“Bang! Bang!”

Two loud bangs resounded, and a huge force shook the area. The two of them were hit by the force at the same time, and they fell back unsteadily. Suddenly, one of them turned pale with fright. Yunxiao’s speed was so fast that he was almost touching his nose without being noticed. He even said with a smile, “The crystal is on you.”

“?!”The man was terrified. He quickly closed his eyes and punched out with both fists, but none of them missed. The next moment, she felt a chill on her neck as someone had grabbed her tightly.

The entire process happened in an instant. The surrounding trees were cut down in all sorts of ways, but they had yet to fall. Then, dozens of trees collapsed, but everyone looked at Yunxiao in shock and horror.

With his strange pace and speed, if he wanted to escape, no one would be able to stop him.

“Hurry up, do you want your life or Jingshi? Even if you want to admit defeat, your throat will be broken before you can even shout. After you give me the crystals, you two can leave.” Although Yunxiao’s voice was flat, it was bone-chilling to the man’s ears.

He was tactful and no longer struggled as he took out a quota crystal from his ring.

Yunxiao put it away with a smile, then threw the man far away and said to the others, “It’s your turn, those without crystals can leave. If there are, don’t let a single one leave.”

There were 16 people left, and many of them subconsciously took a step back. He was able to capture a five-stars martial King with ease even when he was besieged by more than a dozen people. None of them were confident that they could escape from such an unpredictable speed and pace.

“Don’t be too arrogant! Even if you have a strange martial arts technique, do you have the strength to snatch the Jingshi from us?”

The five eight-stars martial Kings were from the same sect, and they had the most crystals among the crowd. They had the illusion that Yunxiao knew the existence and number of crystals on them, but they could not believe it rationally.

“Hehe, you’re so stubborn!”

Yunxiao’s smile faded, and his body began to gradually float up into the air. His body shone with a golden light, and circles of light bloomed from his body, forming all kinds of spiritual incantations around him. Then, he formed a seal with his hands, and a huge seal of heaven and earth gradually appeared behind him, shining like a scorching sun.

“?! What kind of battle technique was this? It actually has the power to shatter the heavens and split the earth!”

The sixteen of them looked at the huge seal and shivered. The seal actually covered a radius of hundreds of miles, making it impossible to avoid it.

Lord Cloudsky, we don't have any crystals on us. Can you show mercy and let the three of us leave? ”

One of them couldn't help but shiver. The three of them were from the same sect, and indeed, they hadn't found a single crystal yet. They didn't think it was worth taking the risk here.

“You want to leave now? Did he eat shit long ago? Leave some memories!” Yunxiao's eyes turned cold as he silently ignored the pleas of the few people, then he formed a seal with both hands and suddenly smashed it down.

The seal shone in all directions, and the sun was like a wheel!

Chapter 267-easy victory

“Boundless heaven and earth, six paths reincarnation!”

Yunxiao's body glowed with a golden light, as if a God had descended to the world. He formed a seal with both hands, and a few strange symbols formed a circle and pressed down. The huge golden seal behind him covered the surroundings and fell down with a loud bang. Everything within a radius of several hundred meters fell into it.

The 16 of them were so shocked that they were drenched in cold sweat. The power of this seal was actually comparable to a martial arts Grandmaster's attack, and it had completely suppressed them.

let's go all out! Everyone, attack together! Don't hold back!

“Hide your sister! At this time, who dares to hold back? use 100% of your power, or we'll all die together!”

“Thousand tenacity palm!”

“Whirlwind sacred spear!”

“Seven Emperor finger!”

“.....”

For a time, roars of anger could be heard continuously. All kinds of lights bloomed out as everyone displayed their strongest moves. Under this attack that was comparable to a martial arts Grandmaster’s, no one dared to hide their strength. All of them unleashed 100% of their power.

The heaven and earth seal seemed to have encountered a powerful obstacle and stopped in the air for a moment, but the pressure of the landslide instantly shattered all the obstacles and fell without any suspense.

“Boom boom boom!”

A Golden Ocean appeared on the ground, and a large number of trees were turned into powder, turning into ashes. Under the impact of the energy, the area within a thousand meters turned into a vacuum.

“This bi an ...”

The personnel in charge of monitoring the island thousands of meters above the sky had their huge red robes fluttering in the strong wind. The man clenched his fists and looked down, his eyes full of shock and fear.

“What martial skill is this? He’s actually using the power of heaven and earth!” His eyes glowed with greed and excitement.

“A mere martial Lord can actually reach the martial Grandmaster realm! If I can learn this martial skill, I can easily kill a Martial Emperor!”

Yunxiao stood in the air with his hands behind his back and sneered in his heart. The emotional fluctuations of the person in charge in the sky were also caught by his divine sense. However, none of those who had designs on him had a good ending.

His eyes focused on a stone and he snorted, “You want to escape?”

A finger light flashed across the sky and directly shot into the soil.

“Pfft!”

There was a muffled groan, and soon the soil and stone were dyed red with blood. A man struggled to crawl out from inside, his eyes filled with fear as he repeatedly shouted, “Don’t, don’t kill me, I’m not running!”

Yunxiao’s eyes swept over the empty ground as he said coldly, “All of you, come out! Do you think you can escape by hiding below?” He raised his finger and pointed. A ray of golden light condensed and dispersed in the air, turning into thousands of finger radiances that penetrated into the ground. It was like a machine gun firing, and a cloud of dust flew up.

“Bang! Bang! Bang! Bang!”

More than a dozen figures instantly flew up from the ground and displayed their unique skills to resist. The power of the finger radiance was not strong, but it was extremely fast and had a strong penetrating power. Many people tried to block it with their fists, but their fist bones exploded or their palms were pierced through.

These 16 people were all covered in blood and looked extremely miserable. It was only then that they realized Yunxiao’s power. Their faces turned livid, and they no longer dared to be stubborn. Instead, they stood aside obediently, waiting for his punishment.

all of you are cheap," Yunxiao snorted coldly. you'll only feel comfortable after a beating. Now, leave behind all your crystals and storage rings, and you can leave."

"A storage ring?" Everyone was stunned, and they looked at each other.

of course," Yunxiao said. I'll take the storage ring as well. This is robbery, who said you can only Rob Jingshi?"

An eight-stars martial King couldn't help but say,"my Lord, please let us leave behind a piece of crystal." Otherwise, we can just directly admit defeat and keep our lives, but you won't get a single piece!"

Everyone nodded one after another. This was also the unspoken rule of fighting for Jingshi on qionghua Island. If the other party wanted to snatch all of them, then they might as well just admit defeat. After all, they didn't have a single piece left, so the other party couldn't even think about getting it.

I'll only say it once," Yunxiao snorted coldly. you can leave after you leave all your crystals and storage rings behind. Otherwise, you'll die. If anyone wants to admit defeat, do as you please."

"This Tao Wu!" Everyone was anxious. Someone shouted, "Daren is forcing us like this, then we really have to admit defeat. All the crystal stones will be returned to the island by the person in charge. Why bother with such an empty match, isn't it better to ask for an ending that everyone can accept?"

With a disdainful look on his face, Yunxiao said coldly, "On the last day, all the crystal stones will be sent into the sky by the formation. I'll just collect them then. Wouldn't it still be mine if I put it back on the island?"

"You're so silly!"

Everyone was furious, and one of them said angrily, "You're too arrogant. Don't say that you have the attack power of a Wu Zong. There were true martial arts grandmasters on this Island! By then, the crystals will shake the sky, and how many do you think you can get?"

These people were really unwilling to admit defeat. It was impossible for them to shout that they would admit defeat. Because once they admitted defeat, they would completely lose the chance to get more Jingshi. As long as they stayed on the island, at least they would have a chance.

“Bang!”

The man’s vision blurred, and he was sent flying by Yunxiao’s palm, leaving a trail of blood in the air. He landed on the ground far away and rolled more than ten meters away. It was unknown whether he was Dead or Alive.

Yunxiao made a grabbing motion in the air, and the man’s storage ring and a crystal immediately flew into his hand. “You’re so long-winded! Within three breaths, don’t leave if you don’t want to!”

“One!”

The remaining 15 people’s faces were all ashen. They knew that they would not be able to escape this. They took out their storage rings and the crystals they had obtained, carefully placed them on the ground, and then ran away like smoke.

There were a total of eight quota crystals. After he put them away, he looked at the storage ring on the ground and grabbed it in the air. The divine sense in his eyes rushed up and shook off all the restrictions inside. A large number of various materials and primordial stones were put into his own ring, and he left with satisfaction.

A day and a half had passed, but he was not in a hurry. It was naturally impossible to collect all the Jingshi. When the time came, as long as he robbed all the martial arts grandmasters, the amount would naturally be more or less. He was now leisurely catching some random fish to snatch, giving those Wu Zongs more time.

In the building by the Brightheart Lake, Xin Pi and the other two were slightly unable to keep their cool.

Horson’s face was cold as he said, “this is too suspicious!” There are actually more than five hundred crystals gathered together. Someone must have cheated. I suggest we investigate it thoroughly!”

Chu Yu looked at his flustered and exasperated appearance and was overjoyed. It seemed that the person who had gathered more than 500 crystals was definitely not from their Muxu Empire. It was very likely that it was Luo Qingyun, or Li Yunxiao from Firecrow Empire.

He sneaked a glance at Xin Pi, trying to find some flaws in his expression. However, Xin Pi's face was as calm as water, as if he was asleep.

Chu Yu cursed the old fox in his heart, then said, "These crystals were all transported from the sea of soul formation, and that Lord made a promise that this batch of crystals can't be replicated. The experts of the three great factions have secretly tested it a few times, but they can't find any clues. Who would have the ability to cheat?"

"Oh?" "Then may I ask why these 500 crystals were obtained by one person?" asked Horson coldly. He looked over and said with an ashen face, "Could it be that brother Chu Yu knows something? Perhaps this person is from the Tian Xiang Empire?"

Chu Yu laughed and said, "Brother Huo Sen, you must be joking. The situation on the island is only known to the people in charge sent by the three forces. I'm the same as brother Huo Sen, I can only watch the distribution and gathering of the crystals. Besides, if we want to investigate it thoroughly, it's not something we can decide. It had to be discussed by the higher-ups of the three great forces before a decision could be made. You're worrying too much, brother Hosen." He deliberately looked at Xin Pi and said, "Brother Xin Pi, what do you think?"

Only then did Xin Pi withdraw his eyes from the water curtain and said indifferently, "There are strong and weak, and there are good and bad luck. The ownership of these crystals is the fate of the younger generation. We just have to watch.

His gaze suddenly turned sharp as he exclaimed, "Then the person with ninety-seven crystal stones will have to meet the person with forty-five crystal stones!"

The other two felt a chill in their hearts and hurriedly looked at the water screen. These two people had also been in the scope of their attention the whole time. They were almost invincible. On the water screen, it was shown that they had been swallowed by the crystals they encountered. There was no doubt that they were two strong opponents. As expected, they were about to meet, and it was unknown who would be able to eat the other.

Yunxiao was flying aimlessly in the woods, but he attracted everyone's greedy and frightened eyes. This was because he didn't hide all the crystals he had collected. Instead, they were wrapped in Qi and flew behind him like a long tail. There were dozens of them.

In order to show the effect, the true energy, which included the crystals, appeared to be a faint golden color, like a golden tail wagging behind it, making everyone drool.

It was also this method that attracted many cultivators to take the initiative to send Jingshi.

Later on, more and more people knew how powerful he was, and no one dared to come forward. As soon as they saw a golden light moving over, they quickly ran away, so he didn't meet anyone who came forward to die for a long time.

"What?"

Yunxiao landed on a big tree and looked up at the sky with a slight frown. The sky above the forest was originally clear and cloudless. All of a sudden, it became covered with dark clouds. The entire forest was dark and lightless. All the sunlight had disappeared, and it seemed like it was going to rain.

"Boom boom boom!"

The clouds in the sky collided with each other, and several flashes of lightning burst out. Immediately after, bean-sized raindrops started to fall. Then, the rain poured down and hit the trees, making pitter-patter sounds.

With a wave of his hand, the dozens of crystals flew into his glabella and were put away. A trace of surprise flickered in his eyes as he looked at the rain in the sky with a rare solemn expression.

Chapter 268

?

268 Barrier of rain

The heavy rain poured down, but it could not wet even an inch of his clothes. It was all blocked by his genuine Qi. The leaves and branches of the nearby trees were directly pierced through by the rain. A large number of trees in the visible range were directly shot through and collapsed.

This rain was like a sharp sword!

“Hehe, you’re quite something, kid. I realized something was wrong long ago!” A faint voice came from the forest, full of sneer.

Yunxiao’s face was as calm as water as he said indifferently, “The dark clouds in the sky are not rain clouds, but formed from vital Qi. The five elements give birth to water, so this should be a Water-type barrier of rain.”

In the forest, several figures gradually emerged from the mist that had been washed away by the rain. The person in the lead was wearing a blue brocade robe. He had a surprised expression and exclaimed, “The city Lord of Yanwu really lives up to his reputation. You can even recognize the long-lost Ward of rain. I now truly believe the rumors that you killed a Wu Zong with a wave of your hand on the Golden Crow divine ring!”

Yunxiao fixed his eyes on the man. He was Leng Quan from the sky-shaking sect, the man who had given him a cold look when he entered Qionghua Island.

“The barrier of rain is one of the seven strongest elemental barriers. It can gather the essence of water in the world and turn it into an attack. It is one of the few strongest formations passed down from ancient times.”

Yunxiao’s eyes flickered as he said, “In the past, I had an old friend who wanted to collect the seven elemental barriers and combine them into one. Unfortunately, many of them were incomplete, and he didn’t know if there was any progress in these years. With the cultivation of martial arts grandmasters and martial Kings, it is impossible for you to set up such a barrier. The only explanation is that you have the complete map of the ward of rain! Today, not only do you have to hand over the Jingshi, but I also want the formation diagram for the barrier of rain!”

Leng Quan’s expression changed as he said in shock and anger, “what big words!” Combining the seven strongest elemental barriers into one. F * ck, do you think your old friend is the number one formation

master in the world, the martial Sovereign King level expert, Teng Guang? If any one of the seven strongest elemental barriers can be fully exerted, even a Martial Emperor would have to surrender!”

Yunxiao smiled. The man he was talking about was Teng Guang.

He chuckled and said, “how about we make a bet?” In this barrier of rain, even the divine senses of the three major factions “representatives couldn’t penetrate it. Thus, no one could save him from the battle to the death. If you lose, hand over the crystals and the barrier of rain, and I’ll spare your lives.”

Leng Quan’s eyes flashed with anger, and he sneered arrogantly, “The cloud sky City Lord is indeed arrogant! Even if you once suppressed a Wu Zong, so what? Since you know that this is a water barrier, you should naturally know about it as well. Within this barrier, those who cultivate water attribute cultivation techniques will be much more powerful. Not only is your true Qi restricted, but you also have to use a part of your true Qi to resist the rain swords. If you can exert half of its power, you’re already very talented. Can you still be so confident in this situation?”

“How would you know if you don’t try?”

Yunxiao chuckled and immediately put away his frivolous attitude.

This Ward of rain was indeed like the legends. There was actually a kind of power that wanted to seal his true energy and gradually seeped into his body. Moreover, the rain of swords was abnormally sharp, each one of them at least a great Martial master’s attack. There were so many of them that it was extremely difficult to block. The other party, on the other hand, was strolling leisurely and enjoying the feeling of being in the rain. When the raindrops fell on his body, they seeped into his body and turned into a nourishing force, replenishing his dantian.

Duan Yue’s voice suddenly rang out in Yunxiao’s spiritual ocean. what a Bullsh * t barrier! Since those law-enforcement officers can’t investigate this place with their divine senses, let me go out and instantly exterminate these little ghosts to save the trouble!”

‘No need,’ Yunxiao said with a voice transmission, ‘I’ll just have to experience the power of this barrier. Besides, I must get this array map. It’s the perfect time to open the divine realm tablet’s water territory!’

In the four territories of earth, water, fire, and wind in the divine realm tablet, each formation was far beyond his knowledge. He couldn't activate it with his own power. Even if he restored himself to the peak of the nine Heavens realm in his previous life, he might not have a way and had to find another way. Activating and breaking arrays with arrays was a kind of array Dao that the martial sovereign, Teng Guang, had once explained to him.

He had used the true Phoenix Fire and the Skynet flame formation to activate the fire Territory. The barrier of rain was no weaker than the sky Net flame formation, but he still had to find something that could rival the true Phoenix Fire to be the eye of the water domain.

"Let me see what kind of strength a person who can kill a Wu Zong with a wave of his hand has!"

Leng Quan's words instantly changed Yunxiao's mind. Several disciples behind Leng Quan spread out in an instant, and their figures were so strange that they hid directly in the rain and were difficult to detect. They were the controllers of the ward of rain, and were ready to attack together with Leng Quan at any time.

Although they had not seen Yunxiao kill a martial Grandmaster with a wave of his hand in firecrow Empire, they would rather believe it. Coupled with Yunxiao's arrogant performance on qionghua Island, he was almost invincible, and those who tried to Rob the crystals were robbed instead. This was why Leng Quan had set up such a large formation in order to ensure that nothing would go wrong.

"Rise!"

One of the disciples hidden in the rain suddenly shouted and took the lead. His figure emerged from the rain, then he performed an incantation gesture with one hand and pointed at the ground. Immediately, the accumulated rainwater on the ground quickly gathered and gradually condensed into a huge man in The Shape of Water, who walked toward Yunxiao step by step with two fists the size of claypot.

At this moment, another disciple showed up on the other side. He quickly performed an incantation gesture with both hands, and the water on the ground quickly condensed into a water-shaped Python, which slithered forward on the ground and opened its mouth to bite Yunxiao.

"Interesting!"

Yunxiao leaped into the air and dodged the water Python's attack. The tree, which had been riddled with holes by the rain of swords, collapsed with a loud bang, and his figure flew into the air.

The water-shaped burly man let out a roar as he swung his pot-sized fists at Yunxiao. His two fists left his body and turned into two large water balls that shot out.

Yunxiao was secretly surprised. This Ward of rain was indeed unpredictable, as it had such a strange attack method. He didn't dare to be careless and hurriedly punched out with both fists. It hit the water ball, trying to shake it away.

However, to his surprise, the water ball was soft and his fists sank into it. The ball of water immediately dissolved and flowed up his arms, completely wrapping them up. The water vapor was about to penetrate into his skin.

At this moment, the water python on the ground also rose into the air and wrapped around Yunxiao in an instant, strangling him so tightly that he could not move. Its huge snake head flicked its tongue and stared at him coldly.

At this moment, Leng Quan was still standing in the distance without moving. He laughed involuntarily, "City Lord, don't tell me that's all you've got? If you're just an undeserved reputation, then you'll be in deep trouble today."

He said it with a relaxed expression, but his heart was actually very heavy. These two water transformation techniques were very easy to use, but they were actually the most powerful killing moves in the ward of rain. Even if he had the strength of a martial arts Grandmaster, he would definitely die if he was trapped like this!

Yunxiao was unable to move because of the water snake's strangling, and a large amount of water vapor seeped into his body, turning into streams of ice power that were about to seal all his meridians. At that moment, his body temperature began to drop sharply, and his entire body turned a light blue color.

Yunxiao raised his head slightly and said solemnly, "What a powerful formation. It's so powerful even when it's set up by four martial Kings. If the people who set up the formation were four martial sovereigns, it would be hard to imagine. As expected of one of the seven strongest elemental barriers. In my current state, even a normal Wu Zong would die."

“The Lord of cloud sky City is not a martial Grandmaster. I’m afraid he won’t be able to stop you,” Leng Quan’s eyes narrowed and he sneered.

Yunxiao chuckled, and all his muscles instantly swelled up. With a bang, his body expanded a little, and his muscles bulged one after another. A powerful force instantly shook off the water vapor that had seeped into his skin, forming a faint stream of light outside his body and completely isolating him from the water vapor.

“This is a Kasaya.”

Leng Quan was taken aback as he saw Yunxiao’s body begin to twist in an extremely strange posture, and it was getting faster and faster, as if he was not bound by the water snake.

“Bang!”

The water snake’s huge body was finally shattered, turning into a pool of water vapor that fell down.

Yunxiao’s eyes flickered with a golden light as he stomped in the air and rushed in one direction, throwing out a punch and locking the space in that direction.

“Not good!”

die! Leng Quan shouted as he turned transparent in an instant and disappeared from where he was. In the next moment, he reappeared in front of Yunxiao, his cold eyes sweeping over him as he threw out a punch as well. The two fist beams collided and were knocked back.

Yunxiao’s cultivation base was far weaker than the cold spring’s, and now, under the influence of the barrier, he only had three or four-tenths of his true Qi left, while the cold spring’s power was doubled. Under this situation, Yunxiao’s meridians were damaged, and a mouthful of blood from his internal organs gushed into his throat. His entire body was sent flying.

Although Leng Quan's genuine Qi had the upper hand, he felt a huge force pressing on his fist. It was not the pressure of genuine Qi, but the real strength of his physical body. There was no trickery at all.

Creak! Creak!

The bones of his fist actually cracked, and fresh blood seeped out of the tip of his fist. His entire body was forced to take a few steps back by this punch. Behind him, a panicked figure appeared. It was one of the disciples who had set up the formation.

Yunxiao had actually discovered the disciple's hiding place and wanted to break it one by one. If Leng Quan had not reacted in time, the barrier would have been in danger.

He looked at the bleeding fist in his hand, and his eyes were even colder than the frost and snow. He said coldly, "How did you find him?"

Apart from the attack power and the additional status, the barrier of the seven major elements had one more thing that gave the opponent the most headache. The person who set up the barrier was extremely secretive. Unless the barrier was broken by force, it was impossible to catch the person who set up the barrier.

Chapter 269

?

269 Breaking an array with an array

Yunxiao was badly shaken by Leng Quan's punch. If not for his mighty body, which protected him from the rain enchantment, he would have been killed.

what a powerful barrier! Apart from the water element Zhen Qi, everything else is greatly reduced!

"Hmph!" Leng Quan snorted coldly and said arrogantly, "it's good that you know. You really didn't let me down. If I hadn't acted carefully and set up this barrier, it would have been difficult to capture you."

“Could it be that you can easily take me down now?” Yunxiao smiled coldly as he wiped the blood from the corner of his mouth.

“Oh? Do you still have a way to save your life? I’m looking forward to it. Otherwise, it would be too boring to end the game like this.” Leng Quan coldly said.

“I also know Water-type techniques!”

Yunxiao put his palms together, and streams of blue gas flowed out of his body and slowly condensed in the sky, turning into a huge dragon’s head, its eyes emitting a chilling aura.

Leng Quan turned pale with fright and said in shock, “You’re a coward, you’re a coward, you’re also a Water-type martial artist? How is that possible?”

Yunxiao sneered. all techniques return to one. It’s just a conversion of five elements. This time, the barrier was fair to everyone. Try my move, water dragon roar, BOOM!”

The Water-type true dragon suddenly whizzed out, letting out a huge dragon roar as it rushed towards the cold Spring. Its strength was not any weaker than that of a martial arts Grandmaster.

As expected, Yunxiao’s primordial Qi had also been enhanced after being converted to water element. It was a pity that he didn’t know any Water-type martial arts techniques. Fortunately, all techniques were connected, and any move he casually made was also extremely powerful. The Water Dragon roar was created when he saw the water snake.

As a martial sovereign who was once at the peak of the nine Heavens realm, he could basically learn everything with a single glance, except for some rare super powers.

“F * ck, I’ve seen a ghost!”

f * ck! Leng Quan was so shocked that he cursed. He suddenly rose into the air and several incantation seals appeared on his palm. Blue light bloomed. It was a Water-type palm technique.

“Blue tyrant palm!”

A huge palm print condensed in the air and pressed down fiercely, directly hitting the head of the Water Dragon, directly shattering the Water Dragon’s transformation.

At this moment, the four disciples hidden in the rain began to cast incantations. All kinds of Water-type mimicry objects rose from the ground. There was a burly man, a sky-devouring Python, a strange tree, and finally, it was actually a millstone.

Leng Quan opened his hands, and a light spread out in his palms, gradually forming a long spear. With a cold intent like ice and snow, he stood behind. He fell from the sky and stepped on the Python’s head. Staring coldly at Yunxiao, he said proudly, “So what if you know Water-type martial skills? Each of these four water-elemental objects had the combat power of a martial arts Grandmaster. With me, you will have to face five Wu Zongs. If you still win, then why not give you the array diagram of the ward of rain!”

Yunxiao’s pupils constricted as he said, “After today’s battle, I believe that you can go even further on the road of martial Dao!”

“Ha, how arrogant! Do you think you’re a martial arts Grandmaster? how dare you speak to me in such a tone? today, I’ll give you an unforgettable lesson!”

“Go!” Leng Quan stomped his foot and shouted.

The Python immediately flew up, and the other three transformed creatures also moved quickly, but their speed was slightly slower. Leng Quan stepped on the snake’s head. He raised the tip of his spear, creating a large splash. It was as thin as a blade, and he ruthlessly cut it.

Yunxiao did not dare to be careless, and he quickly retreated. At this moment, he did not dare to hide his strength. Fortunately, the barrier of rain could shield him from the divine sense outside. There was a flash of golden light between his eyebrows, and the divine realm tablet broke out of his body and went to suppress the blade-like spray of water.

“Pfft! Pfft! Pfft!”

The large amount of water hit the divine realm tablet and splashed like waves, but it did not cause any damage. The divine realm tablet suddenly enlarged in the air, emitting a Jade-like light that pressed down on Leng Quan.

what kind of profound level weapon is this?!

Leng Quan was shocked. His casual attack was actually so fragile. Moreover, the ancient Qi from the divine realm tablet made him feel that he could not resist it.

“Swish!”

At this time, the big tree suddenly grew a large number of branches and frantically tried to bind the divine realm tablet in all directions. Soon, the branches made of water element tied the divine realm tablet tightly and stopped it in the air.

Leng Quan breathed a sigh of relief, and his eyes shone with a cold light. Every move of Yunxiao’s was beyond his expectations. There seemed to be an endless number of trump cards after his trump cards, which was really dangerous. He could not suppress the killing intent in his eyes.

The Python suddenly raised its head and was about to rush into the sky with the cold Spring water.

Yunxiao sneered as he waved his hands. Rings of golden light burst out of his body, filled with the ancient tadpole-like characters that were hard to understand, and began to dance in the air.

“Great realm divine technique!”

Golden light suddenly bloomed from the divine realm tablet, piercing through the binding of the transformed tree in an instant. The Golden tablet God broke free and pressed directly onto the cold Spring.

“What?”

Leng Quan was shocked. An unparalleled mighty force locked him down, and the feeling of being unable to resist surged in his heart.

He was shocked. He stomped on the ground lightly, and the Python immediately soared into the sky, turning into a huge water column and heading toward the divine realm tablet.

“Bang!”

The falling speed of the divine realm tablet was immediately stopped, but the water column was squeezed out and became weaker and weaker.

Leng Quan’s long spear thrust upwards, and the thousands of ice mirrors on the ground were lifted up and thrust upwards with his long spear.

The water-shaped burly man also jumped over, and two big fists smashed over. There was also the stone plate, which kept spinning in the air, exuding a shocking pressure, pressing down on the divine realm tablet.

“Boom boom boom!”

Finally, the Golden divine realm tablet lost all its light and flew back to Yunxiao’s hand under the joint attack of several parties.

“Take his life while he’s sick!”

die! Leng Quan shouted as he swept his spear across the air. The cold air brought up by the tip of the spear almost cut the space in half as it flew toward Yunxiao. The threat that the divine realm tablet gave him was too great. He wanted to kill it in one fell swoop while the profound level weapon was restrained.

Originally, victory was already in the bag, but to actually be thrown into such a sorry state by a mysterious profound armament, she had long been holding in a stomach full of anger.

The four men hiding in the rain also quickly performed incantation gestures. The burly man, the Python, the giant tree, and the millstone rushed up one after another, taking advantage of the fact that the divine realm tablet had just been damaged, which was the best time to kill Yunxiao.

Yunxiao's eyes narrowed slightly as he spat out a few words. A few golden words immediately emerged on the divine realm tablet in his hand, and a circle of flames shot out of it, instantly turning into a sea of fire that spread out in all directions.

"Tianluo flaming battle formation, open!"

A mini battle flag appeared on the divine realm tablet, and the tianluo flaming battle formation charged forward in an overbearing manner. The rain that filled the sky was actually forced to flow backward.

Using an array to break an array!

Although the ward of rain was not any weaker than the tianluo flaming battle formation, it had only been set up by four martial King realm experts. On the other hand, Yunxiao's tianluo flaming battle formation had 3600 Warriors, and with the addition of the tianluo flaming battle flag, a ninth-tier Mystic artifact, although the main power of the formation was to maintain the fire Territory, only a part of its power was diverted, and it was not something that the simple rain barrier could withstand.

"BOOM!"

The flames spread out without restraint, and all the raindrops in its path were quickly sucked into the air. The ground was set ablaze, turning the place into a fiery hell.

"F * ck, what's going on!"

The surrounding temperature suddenly rose and became extremely hot, but Leng Quan felt a bone-chilling chill rush up his spine. In the sea of fire that shrouded the sky, he clearly felt a huge and unparalleled force suppressing him, and he could be burned to ashes at any time.

The four disciples of the sky-shaking sect who were hiding in the rain also showed themselves one after another. They no longer felt calm and relaxed. They all circulated their genuine Qi in horror to resist the attack of the flame.

At this moment, in the sky above the barrier of rain, three law enforcers were gathered together, frowning as they discussed the situation below.

“It’s already been more than an hour, but the Water-type formation has yet to be activated. Is that li Yunxiao still alive?”

It’s said that this man killed a martial great master with ease. If he really has such strength, it will be a tough battle for Leng Quan to meet him.

“I don’t think so. He has four other junior brothers who are all martial Kings. Moreover, this formation is extremely strange. It can even block our divine sense. One must know that even the spirit restricting formation on this Island is unable to do so.”

“Not bad, this formation gives me a very powerful feeling. Even if I were in it, I’m afraid I’d be in danger.”

“I think that li Yunxiao is probably dead. I’ve been in charge of keeping an eye on this Cold Spring. I’m afraid only Luo Qingyun, who is on the other side of the island, can fight him.”

“The Luo Qingyun who collected more than 600 crystal stones? There’s definitely something wrong with that kid!”

“Look, there’s a change in the formation! Are the results out yet?”

The trio's expressions turned cold as they hurriedly looked down. Suddenly, a mass of red appeared on the ground, breaking through the dense dark clouds and spreading towards the surroundings.

Billowing flames soared into the sky, and the ancient pressure forced the surrounding space to retreat three feet. Even the three law-enforcement officers felt a shocking pressure. They flew several hundred meters up from their original position in horror. Only then did they feel a trace of security. They looked over in shock and disbelief.

Everyone's mind was filled with a huge question mark. What was going on?

But what made them go crazy was that this sea of fire also had the effect of blocking divine sense, and they couldn't see.

Yunxiao slowly walked forward in the sea of fire. Looking at the five people who were struggling to resist, he said, "Do you still have the strength to fight?"

The faces of the five people were pale, especially the four martial Kings. They were gradually unable to hold on. Furthermore, they knew that under such circumstances, even if they were to admit defeat, the person in charge of the law enforcement would not have the ability to save them. They were instantly terrified.

Leng Quan's eyes flashed with unwillingness as he gritted his teeth and said, "We admit defeat and we'll give you all the Jingshi!"

He was not willing to accept this. This flame came out of nowhere. The situation that was originally a sure win was actually turned around by that strange profound level weapon in an instant. But now that he was being suppressed by the other party, he had no choice but to admit defeat!

Chapter 270

?

270 Luo Qingyun

"We admit defeat. We'll give you all the crystals!"

Leng Quan gritted his teeth, his heart filled with unwillingness. He took out several dozen crystals and a Jade slip. On it was the diagram of the barrier of rain. He threw it over without even looking at it.

“Hmph, you admit defeat so reluctantly.” you’re not convinced, ” Yunxiao sneered. I bet you’re not. He took out five crystals and threw them back, saying, ” “I don’t have time to waste with you. If you don’t agree, I’ll wait for you in Mount Meru.”

Yunxiao performed an incantation gesture with one hand, and the divine realm tablet went back into his glabella. The sea of fire lost its source and gradually dissipated. The sky returned to its cloudless state.

“Are the results out yet? Who won?”

Thousands of meters in the air, the law enforcement officers looked down in horror as they saw Yunxiao fly away, leaving Leng Quan and the other four behind.

“Li Yunxiao is not dead? Leng Quan didn’t die? Who won?”

“Hurry up and check the direction of the crystals!”

One of them hurriedly made a hand seal, and a water curtain formed in front of him, gradually pulling open. It clearly showed that more than 100 crystals were leaving quickly, leaving only five crystals in place.

“?! It’s Li Yunxiao who won! How can this be?”

one against five, and in such a strange formation. What on earth happened? ”

The three of them were shocked and in disbelief.

“You guys, quickly look!”

One of them pointed at the water screen, his pupils suddenly widening. The other two's eyes also narrowed as they said in horror, "Hurry up and leave!"

The three of them immediately turned into beams of light and shot in Yunxiao's direction.

Leng Quan and the others below also left quickly, leaving behind a desolate area with a radius of a thousand meters.

At this moment, thousands of meters above the ground, more than ten law enforcement officers had gathered together and were looking down.

"Why are you guys here?"

"I'm afraid I can't control the situation, so I came over to take a look."

.....

After flying for a while, Yunxiao landed on a huge rock, sat down cross-legged, and began to regulate his breathing.

Just as he sat cross-legged, a beam of strong light fell from the sky like a Thunderbolt from the nine Heavens. It had the power to destroy the world and covered a radius of a thousand meters!

"Hmph!"

Yunxiao snorted lightly as he pointed a finger at the stone and began to carve. The moment he sat cross-legged, he had quickly carved out a complicated array that glowed with a golden light. A circle of runes broke free from the formation and began to spin around him, forming a cage that protected his entire body.

"BOOM!"

The strong light fell and bombarded the Golden symbols. The circles of golden symbols were illuminated by the strong light until they were transparent white, and faint cracks appeared.

“BOOM!”

The light bloomed like a huge water lotus flower, blinding and burning. Yunxiao was instantly drowned in the strong light.

“The world is a fantasy, and the universe is desolate. Art of universe-

A vigorous voice rang out in the air, as if his words followed his Dharmakaya. The sky in all directions seemed to collapse, and it compressed towards the place where the water lotus had bloomed. The entire Island began to shake slightly from this attack.

All the disciples and law-enforcement officers on the entire qionghua Island felt this shaking. They raised their heads in horror and looked at the huge pressure forming in the air and pressing down fiercely. The earth-shaking power shocked everyone.

Leng Quan’s heart trembled as he stared at the sky in a daze. He muttered, “ that direction, could it be Wufu? ” his face changed, and he instantly changed direction, flying down from the sky.

what kind of martial technique is this? it’s actually drawing upon the power of heaven and earth!

An old man suddenly appeared in the sky. At the same time, two other people appeared in two other directions. They all looked down in shock. These three people were the top people in charge of qionghua Island. They were Fang de from jutian sect, tu Lei from thousand crane sect, and Huang Xiaolong from elusive world Valley.

“Greetings to the three lords!”

The dozen or so law-enforcement officers stepped forward to pay their respects. These law-enforcement officers were all from the three top sects of the southern mountain range.

“Who’s doing this? It actually drew in such a powerful force of the world that it startled the three of us out of the void.” Fang de looked down in shock.

One of the representatives from firecrow Empire said, “Elder Fangde, it was Luo Qingyun of the skyfragrance Empire. He seems to want to kill Li Yunxiao of the firecrow Empire in one fell swoop.

“What?”

Fang de and the other two were shocked and looked over in horror. Li Yunxiao? “Fang de was even more shocked. He’s the one who destroyed the Xingyang family and killed Zhou Yushan?”

“It’s this person!” “We’ve just snatched 97 crystals from Leng Quan of the Muxu Empire,” the person in charge replied, “and he has 156 crystals in total. Luo Qingyun has seven hundred and forty-two crystals.”

“What?”

The three of them were shocked, but their expressions were different.

Tu Lei was obviously overjoyed, and his smile was so wide that his face cracked. On the other hand, Huang Xiaolong’s face was as gloomy as water. Leng Quan also knew that he was the strongest junior in the Muxu Empire this time. He heard that he had extraordinary strength, but he was actually robbed by others. Now that nearly a thousand crystals were gathered here, no matter who won or lost, it had nothing to do with their Muxu Empire. How could he not be angry?

Fang de, on the other hand, looked worried. With such a powerful force, no matter how optimistic he was about Yunxiao, he could not help but feel uneasy.

As soon as the three of them entered the island, they immediately fled into the void and began cultivating. He did not care about the situation on the island at all. At this moment, he was shocked by the powerful power of the heavens and the earth. He did not expect that other than the disciples of the great aristocratic families, these small sects also had such powerful juniors.

“Such a powerful martial skill can’t be unknown. What is the background of this Luo Qingyun?” Tu Lei was overjoyed, but he couldn’t help but doubt.

While everyone was exclaiming in admiration, the space below seemed to be extremely distorted. It was completely squeezing towards the place where the strong light bloomed, wanting to crush everything.

At this moment, a ray of sword light shot up into the sky, cutting the light that was blooming like a water lotus. At this moment, the entire sky seemed to have the feeling of the first light of dawn and the clouds had dispersed. Even the twisted void came to a stop under this sword and began to bounce back gradually.

“Sword Art-star destruction!”

Yunxiao’s voice resounded through the sky. With a long sword in his hand, he shot up into the sky, leaving a trail of frost in his wake as he slashed at a certain spot in the void. Wherever the sword ray passed, the sky would be split open.

“That’s right!” Fang de’s pupils shrank and he said in shock, “frost hook!” Leng xingbo’s sword is indeed in his hands!”

There seemed to be faint traces of tearing on the spatial node. Half of Luo Qingyun’s body suddenly jumped out. He was horrified to see the sword coming down. He quickly crossed his hands together, and the two copper rings on his wrists suddenly unsealed and combined into one, forming a huge copper ring. It flew out and met the sword light.

“Bang!”

Sparks flew from the bronze ring as it was struck by the sword ray. It vibrated in the air and gave off a soul-shaking buzzing sound that lasted for a long time.

Luo Qingyun took back the bronze ring with one hand and stepped out of the void. He stood in the air and looked at Yunxiao in the distance with a serious look in his eyes, but then he chuckled and said, “Li Yunxiao, you really surprised me.

After the attack, Yunxiao stepped back onto the ground and stood up with the sword in his hand. "Surprised my ass, is it fun to sneak attack? I almost lost my life for you!"

Luo Qingyun held the bronze ring with one hand and kept spinning it in his palm. It was obviously a very powerful profound level weapon. He said indifferently, "Aren't you as lively as a Dragon and a Tiger now?" A serious expression flashed across his face, and he said, "I originally thought that even if the barrier of rain couldn't deal with you, it could at least heavily injure you. But I didn't expect you to be completely unscathed. I'm really curious how you did it."

you can go in and give it a try if you have the chance," Yunxiao sneered. it'll be fun.

Luo Qingyun laughed out loud and said,"although that barrier of rain can't trap me, it'll still take a lot of effort to get out." I definitely wouldn't be as relaxed as you are."

I'm very curious," Yunxiao said. how did you collect so many crystals? It's impossible that you can sense it with your divine sense, right?"

Luo Qingyun was honest and said without any scruples,"These crystals are all made of thousand steel rock. I have a gold-eating rat with me, so I can sense the existence of the thousand steel rock."

Yunxiao nodded and said, "So that's how it is. Although the gold swallowing mouse isn't a precious demonic beast, it's still very rare."

The people in charge of law enforcement in the sky suddenly realized why Luo Qingyun could collect so many.

The two of them exchanged a few words and then fell silent. The entire space became very oppressive, as if a storm was coming. Even the lake outside qionghua Island began to ripple.

Finally, Luo Qingyun couldn't help but move first.

After all, he was only a young man in his twenties. However, how could he be compared to Gu Feiyang in terms of temperament?

“Spirit heaven ring, great change dance technique!”

That copper ring was also an extremely powerful profound level weapon, and it was unscathed from the slash of frost hook. ding! the sound of the copper rings rang out, and the entire sky was silent. Luo Qingyun’s body danced in the air along with the music of the bronze ring. It was beautiful and pleasing to the eye.

Ding-Ling, ding-Ling!

All the young disciples on the qionghua Island were dazed by the sound of the bell.

is this a spiritual attack?! Fang de’s heart skipped a beat. The sound of the bell had even made some of the law enforcement officers’ eyes begin to blur, but it was not enough for him, so he was not affected. He was most worried about Yunxiao. When he looked over, he saw that Yunxiao was also gradually losing his mind, and he immediately grew anxious!

Hmph, spiritual attacks are the most powerful martial techniques, and ordinary Warriors can’t resist them at all. Even if you’re at the same level as me, you won’t be able to resist them, let alone a martial Lord!

A trace of pride flashed across Luo Qingyun’s face as he slowly descended from the sky. Each step was extremely rhythmic, and complemented the sound of the bronze rings.
