

The Eternal 411

Chapter 411

?

411 Hagglng

Yunxiao knew when to stop. He chuckled and said, "Alright, I'll definitely pass on this matter to big cousin. Is there anything else, lady Qing Luo? If not, then we won't disturb you any further and will take our leave."

Qing Luo took out a storage bag and placed it in front of Yunxiao, saying, "here are 10 million medial-grade primordial stones as a reward for passing on the message. If the matter is successful, there will be more rewards! She also realized that this person was a ruffian. If she didn't give him some benefits, he wouldn't work hard.

Only Shen Li's eyelids twitched. She knew that the ten million mid-grade primordial stones were definitely wasted, but she did not dare to say anything.

Yunxiao was flattered, and his face was filled with greed. However, in Qing Luo's eyes, she was laughing coldly. Shen Li sighed and shook her head. This kid was too good at pretending. If she had not experienced what happened in Chengxi, she would never believe that this teenager could have such a deep mind.

Qing Luo was very satisfied with Yunxiao's expression. She smiled and said, "let's talk about the important matters now. Which direction did the skeleton mercenaries go?"

Yunxiao accepted the primordial stones with joy, then said, "We can provide the location and ensure that we can find it. If the Noah's ship really appears, how will we distribute it?"

Qing Luo laughed and said, "how do we split Noah's ship?" Haha, the Lord of cloud sky City must be joking. Not to mention that the probability of Noah's ship appearing is close to zero, even if a mayfly does appear, she looked at the people of the temple of Holy Fire with disdain and sneered, "Just based on you guys, do you think you can obtain it?"

that's right, " Yunxiao sighed. that's why we, the rookie mercenary group, don't plan to fight for Noah's ship. However, it's fine to help your sect search for it and collect some benefits." He took out a piece of paper and quickly wrote a list. He handed it to Qing Luo and said, " "These materials, just take it as a benefit fee!"

Qing Luo took a quick glance and was shocked. She threw the list of ingredients on the table and slammed it down with her palm, saying angrily, " "Cloud sky City Lord, are you deliberately causing trouble? Don't think that you can do whatever you want just because li Huachi is your cousin! There were all kinds of treasures inside, and there were even 30 low-level martial intent Dao fruits! This is too much!"

She was so angry that her eyes were almost spewing fire. She had completely lost her composure.

The people of the temple of Holy Fire were all shocked and looked at each other in horror. Other treasures aside, these 30 martial will Dao fruits were really amazing.

Yunxiao did not take it seriously, as if he had expected this reaction. He smiled and said, " "Lady Qing Luo, don't be so agitated. Although those low-level martial will Dao fruits are hard to find, your sect definitely has a lot in stock. Compared to Noah's ship, which one is more precious?"

"If you hand over Noah's ship with both hands, I'd be willing to pay a hundred times the price of these materials," Qing Luo laughed in anger. But just pointing out the way and giving such a ridiculous price, do you think that you can do whatever you want just because you have a powerful big cousin?"

Yunxiao looked at her and chuckled. Lady Qing Luo, you can tell this to my cousin personally later.

"What do you mean?" Qing Luo asked with a frown. She was shocked and cried out in horror, " "What? You mean Lord, Lord li Huachi will come to the demon land?"

This shout startled everyone in the room. They were all shocked.

Yunxiao shrugged, spread his hands, and said, " "I don't know. I just told big cousin that Noah's ship might be born and big cousin said he would come and see it when he has time."

Qing Luo's face turned extremely unsightly. Yunxiao's words were vague, and the truth was unclear, but they were extremely important, which made it extremely difficult for her to deal with them.

Yunxiao sneered in his heart and let them make wild guesses. In any case, he had come to a perfect conclusion, and if Li Huachi did not come, it would mean that he was not free.

Qing Luo paced back and forth in the room, deep in thought. Shen Li sighed softly. She was 99% sure that it was fake, but she did not dare to say it out loud. Not to mention that Yunxiao had something on her, she could not bear the responsibility if Li Huachi really came and affected the overall situation.

Qing Luo sat back in front of the oval-shaped table and said cautiously, "Lord of Cloud Sky City, I think we should be honest with each other and have a good talk."

Yunxiao pointed at the list of materials and said, "You have to show your sincerity, there's no proof."

Qing Luo's anger rushed to her head. She was afraid that she wouldn't be able to control herself and would slap the other party to death. She gritted her teeth and said, "Li Yunxiao, you've gone too far! Even if Li Huachi really came, he couldn't have given you so many things!"

Yunxiao's list was full of heavenly materials and earthly treasures that could directly increase one's primordial Qi, and the one thing he did not lack the least was martial arts comprehension. As long as he accumulated enough primordial Qi, he could directly advance. This was the situation after swallowing more than 20 martial will Dao fruits. These lists were all heaven and earth treasures that were relatively easy to find, and they had calculated that Empyrean One Pavilion would be able to provide them, but now it seemed that they had exceeded their bottom line by a lot.

"Rustle, rustle, rustle!"

He picked up a pen and thought for a moment. Then, he crossed out some and pushed it to Qing Luo.

After reading it, Qing Luo tore off more than half of the paper and threw it back to Yunxiao. This is all I can give you. I can't give you any more grass or leaves!

this is not enough to fill the gaps between my teeth, ” Yunxiao said with a frown. it’s not even enough to break through to one-star.

Qing Luo sneered and said, ” you’re only a two-stars martial Grandmaster. After you consume these things, you’ll be able to advance to the four-stars level at least in terms of Yuan Qi. During this period, you only need to try your best to comprehend the martial Dao concept.”

The people from the temple of Holy Fire and Shen Li were stunned. Tearing up more than half of it could actually allow a martial Grandmaster to advance three levels. One could only imagine how heaven-defying the list was! Qing Luo didn’t kill him with a single strike. It seemed like this woman had a very mild temper.

Yunxiao, on the other hand, felt bitter in his heart. The primordial Qi He needed to advance was much more than that of ordinary Warriors. If he swallowed all these natural treasures, it was estimated that they would only be enough for him to advance from peak two-star to three-star. Moreover, it was still useful to consume natural treasures now. However, when he became a Martial Emperor, the vital Qi would not be enough to fill the gaps between his teeth. He didn’t have any confidence in how he would advance in the future.

“Alright, even a mosquito’s leg is meat, deal!”

He knew that he wouldn’t be able to get any more benefits no matter how unreasonable he was. He had already broken Qing Luo’s bottom line.

“Mosquito legs!”

Qing Luo really wanted to slap him to death. She threw the list to Shen Li and said angrily, ” “Can you tell me now? you’ve wasted so much time. If you can’t catch Tang Jie, don’t even think about getting a blade of grass!”

don’t be so impatient, ” Yunxiao chuckled. Tang Jie is now the Apple of everyone’s eye. No matter how big demon plain is, he will be dug out. Other than the Emyrean one Pavilion, I think the other forces in the merchant Union have also come in, right? It might not be a bad thing for us to be slower. Look at the flying frost sect, they were too arrogant, so the ship was destroyed and everyone died.”

He then pointed in the direction Ye Fan sensed Noah's ship and said, "I suggest lady Qing Luo to hide this battleship in the void and move forward slowly.

Qing Luo was also hesitant as she said, "if I hide in the void, not only will I use up hundreds of primordial stones, but my speed will also be extremely slow. If I delay things, I will bear too much responsibility.

but," Yunxiao looked at her and said with a smile, "only God knows how many Oriole are behind the Mantis. The key was to have the last laugh. Of course, I'm just giving you a suggestion out of goodwill."

His real thought was that he didn't want the Empyrean one Pavilion to die so early. Tang Jie was like a cicada now. Who knew how many eyes were on him? If he rushed into the center of the whirlpool at this time, he would undoubtedly be courting death.

Qing Luo wasn't a fool. After thinking for a while, she ordered the entire warship to hide in the void and move forward. Although the cost was huge, it was insignificant compared to the mission this time.

She glanced at Yunxiao and the others and said with a smile, "the demon plain is too dangerous now. Please stay on this Starship. Empyrean one Pavilion can ensure your safety. Shen Li, bring them to the guest room."

Qing Luo's purpose was to imprison them, and she might have some use for them. After all, the rookie mercenary group was not a small force, and if Li Huachi really came to the demon land, he could be a trump card to make friends with.

Everyone in the temple of Holy Fire became cautious, as if they felt something was wrong. If they were under the control of Empyrean one Pavilion, they would have no chance. Yunxiao gave them a look, and only then did everyone feel a little relieved.

Soon, Shen Li brought them to a large guest room, which was specially provided for Warriors. There were no extra furniture such as beds, but the space in the square was enough for cultivation. At their level, they no longer needed to sleep.

Moreover, there was a gravity adjustment device in the cultivation place, and the strongest one could withstand 10000 times the gravity.

There were more than ten thousand high-grade origin stones on both sides, and they emitted thick Origin Energy. They were also for the guests' cultivation.

The cost of each netherworld battleship was terrifying, and the various installations inside were also extremely luxurious. Therefore, even though Xuan Bing was a three star martial Supreme, he could not return to the sect after losing one of his battleships.

After Shen Li sent everyone in, she stood at the door and said, "Cloud sky City Lord, can you return that contract to me?"

Yunxiao stared at her, and his eyes immediately turned cold as he said in a cold voice, "Return it to you? Auntie Shen, you're trying to harm me. Is there something wrong with my brain? I'll return that thing to you?"

"I swear I won't say anything that I shouldn't!" Shen Li gritted her teeth.

"Hehe!"

Yunxiao leaned forward and smiled. Of course, I can't say what I shouldn't say. There may be a lot of things that I need you to say later.

He whispered in Shen Li's ear, and Shen Li's expression changed. She shook her head in horror and said, "No, this won't do. I'll really die without a burial place!"

I won't force you, Auntie Shen," Yunxiao said coldly. But don't even think about taking the contract away. Also, you should be more aware of the current situation in the demon land than I am. Let alone you and me, it's a problem if Qing Luo can even leave this place. I can promise that if my big cousin comes, I will definitely ask him to save your life!"

Chapter 412-eavesdropping

Shen Li felt very dizzy. She said suspiciously, "Don't fool me. I don't dare to say whether Li Huachi is your cousin or not. But he will never come to the demon land.

aunt Shen, you're so smart," Yunxiao teased. "Does lady Qing Luo know that?" "Did sect master Su Lianyi know about this? Do you want me to tell them?"

Shen Li's expression changed slightly. She gritted her teeth and said, "Alright, I'll help you! I hope you can keep your promise and protect me!"

Yunxiao's face returned to its usual calm as he nodded and said, "Don't worry, you won't die if you don't seek death."

Shen Li felt a sense of powerlessness. In front of this handsome young man, she was just a child. From the first time they met in the west of the city, she had been led by the nose by him. Now, it was only their second time meeting, and she had become his puppet. She could not even resist at all, allowing him to do whatever he wanted.

After Shen Li left, everyone in the hall of Holy Fire looked at him with an unusual gaze.

"Is Li Huachi really your eldest cousin?" asked the jar first.

In fact, in terms of seniority, he is my eldest cousin," Yunxiao said with a straight face. "But it's too scary to tell others who I am, so I'd better be humble and announce that he is my cousin."

"Yingluo, this is already scary enough."

Yunxiao found it funny when he saw the solemn and worried looks on the faces of the people from the hall of Holy Fire. "Don't worry, I won't go back on my word."

He suddenly had an idea, as if he had noticed something, and gave everyone a slight look.

Terrine was a smart person. He immediately understood. The temple of Holy Fire had a unique way of contacting each other, so everyone quickly understood the situation.

In an elegant room of the netherworld warship, there was a pear-flower marble floor and a Cold Stone bed carved with gold and Jade. The small room was decorated with four sceneries: spring, summer, autumn, and winter. Qingluo was sitting alone on a futon, and a bright light was spinning on a disk array in front of her. She cast an incantation gesture into it, and a white light immediately rose and spread rapidly in the sky. The influence and voices of Yunxiao and the others were transmitted over.

Yunxiao's face was full of anger as he snorted and said, "The Emyrean one Pavilion is really going too far! They actually dare to put us under house arrest. When my big cousin comes, he will definitely teach them a lesson!"

Ye Fan was extremely excited, "Will your eldest cousin, li Huachi, really come to the demon land?"

Yunxiao raised his head and said proudly, "Of course! I have the best relationship with big cousin. As long as I send a message, big cousin will immediately activate the inter-province transportation formation and come directly across the void. By then, the Emyrean one Pavilion will be destroyed with a wave of his hand! Hmph, that Qing Luo is actually so stingy to me. When the time comes, I'll ask big cousin to take everything on this battleship and give it to me. I'll make her go bankrupt!"

Ye fan's eyes lit up, "This netherworld battleship was also an item with a sky-high price. He would plunder it as well. By that time, my rookie mercenary group will have an eighth-grade warship, and with your relative relationship with li Huachi, the captain will definitely promote you to be the vice-captain!"

Following that, everyone began to immerse themselves in describing the beautiful future, such as how many wives they would have after becoming the Deputy commander, whose daughter was more beautiful, and which they could consider. The ladies of the Emyrean one Pavilion were also not bad, and although Qing Luo and Shen Li were a little older, they still had their charm.

Qing Luo was so angry that smoke was coming out of her seven orifices. With a furious wave of her hand, the array disc shattered into pieces and the image disappeared.

"Shen Li, these damn people, how dare they offend me with their words. Do you think I should kill them?"

Shen Li slowly walked forward and looked at the Furious Qing Luo. She sighed and frowned. Lady Qing Luo, according to their conversation, li Huachi is really Yunxiao's relative, and he may come to the demon land at any time. If you kill them, Lao Ai, "

"Hmph!"

Qing Luo snorted coldly, her face as dark as water. He also knew that this was a serious matter and he couldn't act rashly. However, he had lived like a Prince for so many years. When had he ever been humiliated like this? he was so angry that he felt dizzy.

Shen Li shook her head secretly as she watched. Yunxiao's power in her heart had increased a little. They were obviously trying to anger Qing Luo on purpose, so that she would focus all her emotions on the unbearable words at the end and ignore her analysis of the authenticity of the previous information. She would directly accept the fact that the information was true.

According to common sense, it was impossible for them to know that someone was eavesdropping. If they knew, they would definitely not have dared to offend Qing Luo. Coupled with the fact that she had pushed the boat along, Qing Luo was now a hundred percent convinced that Yunxiao was li Huachi's relative.

"Shen Li, what do you think we should do? I can't kill these people, but I'll be angry if I keep them alive!"

Qing Luo felt that her ability to think was completely blocked, and she looked at Shen Li for further consultation.

Shen Li said, "just pretend you don't know and befriend them." I suggest that Yunxiao give him the materials he needs now if he can. Noah's ship is a big deal, but it's not a small one either. If li Huachi is really willing to cross the border for this person, it means that this person is very important in li Huachi's heart. When the time comes, with him speaking, it will definitely be half the work and twice the effect."

Qing Luo was silent for a moment before gritting her teeth and saying, "we'll do as you say. This bunch of trash will benefit from this temporarily!" Compared to the illusory Noah's ship, that matter was more important! As long as it could be done, it didn't matter how big the price was. But if it couldn't be done well, even if he didn't kill him this time, he would get it back in the future with interest. Now, send all the materials Yunxiao wants!"

“Yes!”

After Shen Li responded, she didn't leave. She frowned and asked, “Lady Qing Luo, is Noah's ship illusory? Aren't the seven merchant alliances already on the move?”

Qing Luo sneered, “so what if the seven merchant alliances have come? if it wasn't for the fact that they're so elusive, do you think the sect would send a nobody like me?” If there's a certain level of confidence, at least the sect master will come personally. I'm afraid that those reclusive elders will also come out of seclusion.”

“The Yang key is in Tang Jie's body. Isn't the yin key already born?” Shen Li was even more confused.

Qing Luo shook her head and sighed, “the problem lies with the yin key.” No one knew who had the yin key. It was said that the descendant of the peerless martial sovereign ye Nantian was in charge of it, but no one knew where he was. Even if he got the two keys, he didn't know how to find them and open Noah's ship. The only hope now was on Tang Jie. Everyone thought that Tang Jie would be able to find the yin key through the Yang key, so the only clue was to follow Tang Jie closely! If the situation changes and we really find traces of Noah's ship, we won't be able to deal with it at our level.”

“I understand, we're just sending an exploratory team.” Shen Li said. After all, there had been many rumors about Noah's ship in the past, but they had all been in vain. That's why all the major powers are skeptical.”

She suddenly thought of something, and her heart twitched!

She had never seen the group of people around Yunxiao in all her years in the light song woodland. [are they the descendants of ye Nantian?]

When she thought of this answer, she suddenly felt that it was more and more possible! This time, other than shock, there was also great fear. Yunxiao was too terrifying. When everyone was still a headless fly, he had already grasped the most crucial thing in his hand, and had sneaked into the Empyrean one Pavilion while pretending to be a pig to eat a Tiger, waiting for an opportunity to make a move.

She only felt a chill in her heart. Yunxiao was playing with fire. He originally thought that he was just an extra on the edge of this vortex, but he suddenly found out that the real core of the vortex was not Tang Jie, but this person!

Qing Luo said, " it's good that you understand. There's no need for us to be too nervous. This vortex can be big or small. Just don't get completely caught up in it. You may leave.

After she finished speaking, she closed her eyes and began to regulate her breathing. The repeated emotional fluctuations had caused some minor injuries in her body, and she needed to adjust her breathing.

Shen Li felt bitter, but she still said not to get caught up in it. Lady Qing Luo, the center of the largest vortex is on our battleship!

She felt weak all over and bowed to leave.

The void was pitch-black, without any concept of time and space. It was filled with all kinds of energy, and ordinary cultivators would die if they were not careful. Even the netherworld warship had to be careful to avoid being hit by the powerful energy. In addition to the energy required to escape into the void, most of the primordial stones were used to open the barrier to avoid the impact of the void energy.

After the netherworld battleship had advanced for an unknown period of time, a ball of green light appeared faintly in the darkness ahead. As the distance between them closed, it turned out to be a ball of green energy. It kept flashing with lightning and electric arcs. It was so powerful that all kinds of negative energy in the surroundings could not rush into it.

What made everyone dumbfounded was that inside the ball of lightning, there was a young man in green sitting upright. He had a calm expression and delicate features. His hands were forming a strange seal, and his entire person was quietly cultivating in seclusion, as if he had not heard anything outside.

All sorts of lightning flashed around his body, but they couldn't do any damage to him. A faint green color appeared on the young man's skin, as if he was absorbing the power of the lightning. His aura had become one with the surrounding environment, as if he was transformed from the lightning.

The strange phenomenon of the young man in front of him immediately attracted the attention of the battleship of the Empyrean one Pavilion. A large number of experts rushed out of the battleship to take a closer look, and each of them revealed a shocked expression.

Qing Luo also stood at the bow of the ship. Her gaze was as cold as ice, and her entire body was on high alert.

To be able to cultivate in the void as if he was strolling in a courtyard, he was definitely not an ordinary person! Furthermore, the lightning in the surroundings was able to isolate the power of the chaotic currents in the void, forming an independent lightning hell. Qing Luo had never heard of such an extraordinary technique before!

Chapter 413

?

413 Xiao Qing

The young man in green seemed to have noticed the existence of the battleship. His delicate eyebrows furrowed slightly and he slowly opened his eyes.

As his eyelids opened and closed, a bolt of green lightning flickered in his eyes. It was as if his eyes were completely formed from lightning. The surrounding lightning hell changed and began to shrink rapidly. It surged toward his body and was directly absorbed.

Soon, the terrifying green lightning prison was devoured by his body like cotton candy, leaving only darkness. If it were not for the green lightning in his eyes, he would not have been able to see the person in front of him.

Qing Luo sucked in a breath of cold air and stood at the bow of the battleship. She shouted, "Who's there?"

Yunxiao and the others from the hall of Holy Fire also rushed out of the warship and looked at the young man in surprise.

The young man turned a deaf ear to Qing Luo's words. Instead, he glanced at Yunxiao in surprise, as if he was looking for something. Electric arcs flickered in his eyes, revealing some kind of emotion, while his figure grew fainter and fainter in the dark void.

"Who are you? Report your name!"

Qing Luo shouted once more. It was already quite troublesome to travel through the void, so she didn't dare to act rashly. However, the entire battleship had entered battle mode, and all kinds of attack formations were activated. As long as she gave the order, she could blast the other party into pieces at any time.

The green-robed youth's expression remained indifferent as he muttered in an almost inaudible voice, "Little Wu?"

He then retracted his gaze and slowly closed his eyes. The green lightning immediately disappeared. The young man retreated from the void and disappeared as if he had never been there.

Qing Luo's face was extremely unsightly. She turned to stare at Yunxiao and said in a serious voice, "You know that person?"

Yunxiao was also baffled, and he shook his head in confusion.

Qing Luo didn't seem to believe him and sized him up suspiciously. However, the confusion on her face didn't seem fake. She said to the experts of the Zhongtian Pavilion, "Everyone, be on high alert. This void doesn't seem to be very safe."

The crowd retreated after receiving the order. Yunxiao and the people from the temple of Holy Fire also returned resentfully.

Yunxiao, in particular, felt very depressed. The young man seemed to know him, but he could not remember such a person.

Suddenly, an idea came to his mind, and an extremely tender voice came from the divine realm tablet, shouting, "Little Qing?"

Yunxiao's soul instantly materialized in the divine realm tablet, hovering above the earth realm. Looking at a small tree below, he said in surprise, "Are you the one talking? You know that person?"

This small tree was the true body of the Kunwu Divine Tree. Under the nourishment of the aura of the Earth's growing soil, it had already grown many times larger than the previous sapling.

A child-like soul appeared outside the small tree. It could actually leave the main body and run. He tilted his head and thought for a while before saying, "It seems to be little Green's aura. Is he calling me?"

"Little Qing?"

Yunxiao's heart skipped a beat as he cried out, "Are you talking about the ancient evergreen tree?"

"Yes, yes!"

The Kunwu Divine Tree nodded repeatedly and said with a nostalgic expression, "How many years has it been? at that time, the world was born, and we were both spirit trees that were born at the same time. In those endless years without any living creatures, only the two of us were each other's companions. Although we couldn't see each other, we could feel each other's auras. Later on, when all sorts of living beings began to appear, many of them set their sights on our Divine Tree, and we gradually lost contact with them. I can't believe I can feel his aura again."

Yunxiao's face darkened. you can sense the aura of the ancient evergreen tree? " he said angrily. you can sense it? " You know that I've been looking for this tree, but you're pretending to be dead? You're only telling me now?"

The Kunwu Divine Tree still looked like a child at the moment, and it said with great grievance, "Didn't I just sense it?"

Yunxiao walked up to him with an unfriendly look and snorted, " I can sense the distance between the North and the South. How far have we come to the gentle song woodland? do you think I'm an idiot? " He revealed a fierce look and lowered his face, staring at the child.

Xiao Wu was shocked. He hurriedly hid behind the small tree and said nervously, " I did sense something earlier, but I wasn't sure if it was him. After all, I've been reborn many times, and he has already evolved into a human form and cultivated to an extremely high level."

"As expected! I'm just casually saying it, I didn't think you would really hide it from me!"

Yunxiao rushed up angrily and grabbed Lil 'Wu, his face ferocious as he said, " "You dare to lie to me? I'll show you what I'm made of!"

He circulated the one Qi creation technique and frantically absorbed the soul power from Lil Wu's body. The surging soul power instantly surged into his sea of consciousness and nourished his spiritual consciousness. Even the demonic Dragon, who had been cultivating in Yunxiao's soul, felt the fresh energy pouring into it and woke up from its cultivation with joy.

ah, stop! Stop!

Lil 'Wu struggled with all his might, and his body kept shrinking. From an eight or nine-year-old child, he slowly became a four or five-year-old child, and the light on his body became weaker and weaker.

When Yunxiao saw that it was enough, he threw him away and said in satisfaction, " "I'll forgive you this time, but next time, I'll suck you dry."

Xiao Wu fell to the ground and saw that his body had turned back into a four or five-year-old child. He rushed up madly and roared, " "Argh! I'll kill you, I'll kill you! How dare you absorb half of my soul power! When will I grow into an adult like this? I don't want to live anymore!"

But, his petite body was no match for Yunxiao, not to mention that they were in the divine realm tablet. Yunxiao's slap knocked him to the ground.

At this moment, the demon dragon's soul also manifested on Yunxiao's right arm. It stared at goo with excitement and greed as it drooled and said, "As expected of the Kunwu Divine Tree, the world's top soul nourishing tree! That little bit of absorption just now was actually equivalent to several decades of my bitter cultivation!"

His originally dull body had also become much more solid, as if he had gained a lot. young master Yun, " he said greedily, " this kid is still four or five years old. Let's just suck him dry for a month or two. Just don't kill him. I think you can directly rush to the seventh step."

Yunxiao gave him a look, and the latter was so frightened that he jumped up from the ground and ran away desperately, trying to stay away from the two dangerous things.

Yunxiao also looked very satisfied, as he had benefited a lot. After he fused with the demonic dragon's soul, he directly broke through to the sixth rank. Now that he had absorbed half of Lil 'Wu's power, he had already broken through to the middle of the sixth rank. However, the higher one's soul power cultivation was, the more accumulation one would need. Even if he absorbed all of Xiao Wu's soul power, he would not be able to break through to the seventh step. Otherwise, he might really have a chance to try.

"Forget it, I'll just take a rest."

how's your recovery going? " Yunxiao smiled with satisfaction. how's your recovery? "

originally, I only had two-tenths of my soul, " the demon Dragon said. I haven't recovered three-tenths even after cultivating for a long time. Just now, with one breath, I've recovered about four-tenths. His eyes glowed with ferocity as he stared at the Kunwu Divine Tree in the distance. He seemed to be unwilling to give up.

Lil 'Wu was so scared that he immediately hid in his main body's small tree, not daring to come out.

don't be too greedy, demonic Dragon, " Yunxiao said with a smile. I'll give you a chance. This kid is also constantly growing, so it wasn't easy for him to accumulate this amount of soul power. If it wasn't for the living earth here, he wouldn't have been able to grow so quickly."

“En!”

The demonic Dragon agreed and said with some regret, “it’s a pity that there wasn’t much of the Earth’s growing soil to begin with. The gourd Little King Kong had absorbed it to a smaller size. If I had known earlier, I would have used it to grow this tree!

Yunxiao tilted his head and thought for a moment, then said, “Indeed. Too much of the breathing earth has been consumed, and the power of the territory here is a little unstable. After we’re done here, I’ll make a trip to the blood God Palace. I remember Cao Yaxing said that their sect has some.”

The Dragon turned into a beam of green light and returned to Yunxiao’s arm. He snorted at the Kunwu Divine Tree and said, “Remember to tell me the coordinates of the ancient evergreen tree at all times. Otherwise, one or two months, Hmph, you know what I mean!”

The Kunwu Divine Tree shook violently, and its leaves rustled, as if it was protesting or fearing.

Yunxiao’s soul-form faded from the divine realm tablet and returned to his body.

The people in the temple of Holy Fire were all talking about the blue-robed youth, their faces grave.

Feng Zhu sighed dejectedly. the world is so big, and there are many capable people. We have been cultivating in seclusion all this time. I’m really starting to look down on the world!

Qi Guang felt the same way. I can’t tell the youth’s age at all. However, even I was terrified by the lightning hell just now. If you’re put in there, you won’t be able to come out alive even if you use a sacred skill. His heart was still palpitating, as if he was still in disbelief of what he had just seen.

not to mention that young man,” terrine shook her head and said, “even young master Yun is an outstanding expert among the younger generation. Even martial emperors like us can’t catch up to him.

Everyone’s eyes fell on Yunxiao. He had not said a word since he came in, as if he was in a daze.

Ye fan's heart skipped a beat. He patted Yunxiao lightly and said softly, "Young master Yun?" When he saw Yunxiao's reaction, he asked, "You really don't know that young man? I think he's staring at you?"

Yunxiao smiled and ran his hand through his hair, looking like he was the only one who could do it. "We're all standing on the battleship. Who do you think that young man will look at if not us?"

"Hmph!"

The people from the temple of Holy Fire looked disdainfully at Yunxiao. They fiddled with their hair and collars, dusted off the dust on their arms, and looked at him coldly with unconvinced looks.

Qing Luo, who was peeking at the conversation from a distance using a formation disk, cursed in anger, "Bah! With your pig-like face, there will be people looking at you!"

She took out a mirror and carefully fixed the heavy makeup on her face.

Shen Li, who was standing behind him, felt dizzy. If the young man really knew Yunxiao, then this li Yunxiao was too terrifying.

Chapter 414-sacred skill

Yunxiao coughed a few times and said, "don't be unconvinced. Some things are innate and can not be changed later on. Do you think that others can't see me in the void? It's no use. Even though I've been keeping a low profile, no matter where I go, I'm like a Firefly in the dark, bright and dazzling. No matter how low-profile you are, you will be discovered!"

He revealed a deep melancholy expression, as if he was having a headache over this.

"Tsk!"

Everyone in the hall of Holy Fire looked at him coldly, proudly touching their hair from the front and back.

young master Yun, " Ye Fan said with a bitter face, " let's get back to the topic. Do you really not know that young man? "

Qing Luo, who was eavesdropping, also put away her mirror and pricked up her ears, staring at Yunxiao in the image.

the heavenly martial realm is so big, " Yunxiao said indifferently. there are countless strange people and strange things in it. That young man could be an old man who is hundreds or even thousands of years old. As long as he doesn't affect us, we don't need to care too much."

Although this answer did not satisfy everyone, it was reasonable.

Qing Luo didn't have much suspicion, but the expression on her face grew even more solemn.

Soon, Shen Li brought some of the materials on the list to Yunxiao, and everyone began to meditate in their rooms.

Yunxiao swallowed all the materials without any difference, and kept accumulating primordial Qi to break through the bottleneck of the two-stars martial Grandmaster. He did not waste the high-grade primordial stones around him. Ignoring the presence of others, he punched out and shattered all the primordial stones. A massive amount of primordial Qi spread throughout the room, and he could not even see his fingers.

The people of the temple of Holy Fire were all shocked by his exaggerated actions, and they all cried out in pain that it was a waste. When they cultivated, they used them carefully one piece at a time. Although the temple of Holy Fire used to be extremely powerful, after so many years, their savings had long been exhausted, and they usually lived frugally. They had never seen Yunxiao use primordial stones without blinking, and they were even high-grade ones!

"One Qi of creation, absorb!"

All the pores on his body opened up as if he was breathing thousands of times at the same time. The massive amount of vital Qi disappeared around him at a speed visible to the naked eye and was all

absorbed into his body. His meridians expanded to their maximum in an instant, unable to withstand the vital Qi anymore.

At this moment, his body became as smooth as Jade, shining with a faint light. After absorbing the excessive Yuan Qi in his meridians, his entire body looked thicker than usual by more than half.

Everyone in the temple of Holy Fire was stunned. They even forgot to absorb the dense vital Qi that was about to liquefy. They all stared at it with wide eyes. Even a martial Supreme would explode and die if he were to absorb such a massive amount of vital Qi. Why was this kid completely fine?

Yunxiao's body opened and closed as if he was breathing, and his primordial Qi flowed through his meridians like rivers and seas, breaking through the barrier.

“Gulp!”

Feng Zhu gulped as he looked at the yuan Qi that was getting thinner and thinner. The amount of Yuan Qi that the kid had just absorbed was enough for him to break through a level!

Qi Guang was also shocked, “after absorbing so much vital Qi, if he's not dead, he should have advanced, right?” Could it be that his comprehension of martial essence isn't enough, and he's stuck?”

it should be,” terrine said in shock, “He has just broken through to the two-stars martial Grandmaster level, and it will take him a long time to do so. If he forcibly breaks through to the three-stars now, I'm afraid he will suffer a backlash. But I don't understand, where did the yuan Qi that was absorbed go?”

“Just a little bit more!”

Yunxiao's sudden opening of his eyes startled everyone. His eyes flickered like stars as he said, “I don't have enough Yuan Qi, just a little bit more!”

“What? You still don't have enough Yuan Qi?”

All of them were dumbfounded and didn't know what to do.

The ring in Yunxiao's hand flickered, and the storage bag Qing Luo had given him just now appeared in his hand. It contained ten million mid-grade primordial stones, and he smashed them with one palm without hesitation. The vital Qi spread out like the sea and washed over his body.

The one Qi of creation technique was activated, and vital Qi was directly injected into his body. His body expanded once again, and his entire body was bulging as if he was about to explode.

Yunxiao gave a loud cry as he brought his left hand to his dantian and raised his right hand slightly, then performed an incantation gesture. Under the two incantation gestures, the primordial Qi around him began to circulate in a certain pattern, spinning around him.

Upon closer inspection, it was actually moving in the opposite direction of the human body's great heavenly circuit.

The people of the temple of Holy Fire were dumbfounded. They had never heard of such a cultivation method.

In Yunxiao's body, the surging rivers, lakes, and seas turned into trickles, gathering bit by bit and constantly washing away the bottleneck.

Soon, he stepped up a brand new step and advanced to a three-stars martial Grandmaster!

Yunxiao opened his eyes slightly with a smile. He changed his hand seals, and the spiritual Qi around him turned into a stream that entered his body, nourishing his limbs and bones. Finally, it entered his dantian.

The whole process lasted for six to six hours, and the people of the temple of Holy Fire had been watching with their eyes and mouths wide open for six to six hours.

"Eh? Why aren't you guys cultivating? There are so many free primordial stones here, don't waste them."

Yunxiao stood up and stretched his body, but he did not show any joy from advancing. In his opinion, these were all insignificant matters. The real headache was where he would find such an exaggerated amount of Yuan Qi for his future cultivation.

At this moment, there were no more primordial stones left in the room. The high-grade primordial stones that were placed around him had all been destroyed by him. He had absorbed all of them.

“Gulp, gulp, gulp!”

Ye Fan swallowed three mouthfuls of saliva and said with difficulty: “Y-young master Yun, Y-y-you absorbed all that vital Qi?”

Everyone in the hall of Holy Fire suddenly recalled what he had said when he was bargaining with Qing Luo. Those heavenly treasures were not enough for him to break through to one star. So it was true!

“I’m a little special,” Yunxiao said with a wry smile. “I’m in a special situation. He suddenly thought of the martial technique that Feng Zhu, Qi Guang, and Xuan Bing used when they fought. Every move was integrated with the rules of heaven and earth. Martial sovereigns could condense the rules, and their moves contained the power of heaven and earth. However, martial honorables could only comprehend the heaven and earth, and could not perform the ultimate move of heaven’s power.

[how did ye Nantian do it?]

He couldn’t help but feel a little itchy in his heart. He grinned and said, “my cousin has taught me quite a few powerful moves. Why don’t we have a friendly match and Exchange some ideas so that we can improve together?”

The people of the temple of Holy Fire were all moved. If li Huachi had taught him the cultivation methods and moves, they would have been extraordinary, and they all looked eager.

&Nbsp; Ye Fan was also happy: “let’s forget about sparring. Let’s discuss it.

The vitality stones in the room were all gone, and everyone was no longer in the mood to cultivate. Instead, they began to discuss cultivation and martial skills.

Their inheritances were the peerless martial sovereign ye Nantian and the peerless martial sovereign Gu Feiyang. The two top masters had extremely strong comprehension in various fields and had almost reached the pinnacle of martial arts. They were only one step away from the ten directions divine realm.

They benefited a lot from this discussion.

In particular, the people of the hall of Holy Fire were all shocked and horrified. Yunxiao's eloquence and understanding of many problems were far beyond their imagination. Many of the various insights and moves that ye Nantian had left behind could be easily solved by Yunxiao after he listened to them. He explained them in the simplest way, making everyone understand them better.

While everyone in the hall of Holy Fire benefited greatly from this, they also felt dejected. He had always considered himself to be the descendant of a Martial Emperor and thought that his cultivation and martial techniques were unparalleled. He didn't expect that even Martial Emperor Tian Qin's martial ancestor level cousin would be inferior to him.

This conversation made all the people of the temple of Holy Fire dejected and disheartened. In the end, they just sat there in a daze, their eyes blank. Their plans of hegemony seemed to have instantly turned into smoke.

Their biggest reliance was the Martial Emperor's descendant, who had peerless cultivation techniques and the yin key, so that they could find Noah's ship one day. Now that Noah's ship was ethereal and hopeless, and the so-called peerless cultivation technique was nothing more than this, this was a huge blow to their confidence.

And the one who gained the most from this exchange was undoubtedly Yunxiao. He was already at the peak of the martial Supreme realm, and now he had learned a lot from ye Nantian. With the two together, he seemed to see a broader path.

'I must read ye Nantian's letter!'

He finally understood the Saint skill. It was a basic skill created by ye Nantian. It could trigger the power of the heaven and earth by following the power of nature. It could be integrated into every move and technique, allowing Warriors below the martial Supreme realm to display this rule force. Although it was very tricky and clumsy, it was already a huge breakthrough.

This was undoubtedly a very shocking thing. Other than the absolute advantage in cultivation base, the most powerful thing about a Nine Heavens martial sovereign was his Nine Heavens Emperor Qi and rule force. A martial Supreme's domain had already touched the edge of the rules, but it was only an imitation and borrowing.

Martial sovereigns, on the other hand, were different. Each of their moves contained the Supreme law. In addition to the Supreme Emperor Qi of the nine Heavens, everyone below the martial sovereign realm was an ant!

As Yunxiao's mind raced, he kept practicing the basic martial techniques in his mind. His understanding was much deeper than that of the people from the hall of Holy Fire, and he was constantly improving them. Soon, he fell into deep thought.

All of a sudden, he raised his hand slightly, clasped two fingers together, and chuckled.

“?!”

Although it was an extremely simple action, it shocked everyone in the temple of Holy Fire, and their eyes were filled with monstrous waves.

Although Yunxiao was just gently picking a flower and smiling, there was an indescribable harmony and nature between his two fingers, as if that was how it should be. The smile seemed to have existed since ancient times, never increasing, never decreasing, never growing, and never dying!

The people of the temple of Holy Fire were all stunned and petrified.

In order to learn this move, all of them had gone through thousands of trials and tribulations, cultivating with great difficulty, before they could have some small success. And the other party had just had a long conversation, and he was already far above them.

The shock on Feng Zhu's face was beyond words. He said with difficulty, "Sacred technique!"

Chapter 415

?

415 Netherworld remains

Yunxiao gently separated his two fingers, and the power of the natural order suddenly dissipated. He himself looked surprised.

He had performed this flower-pinching finger countless times, but the feeling just now was only felt when he performed Sword Art and great wind Cloud Palm. It was the circulation of rule force.

Ye Nantian fell into deep thought. The three sword moves and the wind Cloud Palm were created by gathering the rules of heaven and earth and his own martial will. However, these low-level martial skills were only based on the moves themselves and the warrior's understanding. Their power was limited. Ye Nantian could merge the rules into every martial skill. His understanding of martial arts was even further than Gu Feiyang.

The people of the temple of Holy Fire didn't know what to say. They were all petrified, and their hearts were full of bitterness. They thought they had gained a lot from it, but they didn't expect ye Nantian to understand all of ye Nantian's skills when he explained to them. The most terrifying thing was that he could perform it in an instant. He was beyond the description of a genius or a monster.

Yunxiao felt that he had gained a lot, and he was in a great mood. Looking at everyone's faces, he smiled and said, "Don't look at me like that. I was just lucky."

Feng Zhu's face was uglier than a pig's liver. "Is there such luck?"

They weren't being petty. After all, they had also gained a lot, and they could break through a lot in the future. They were depressed because of the other party's talent, which made them have the thought of not wanting to live anymore.

At this moment, there was a commotion outside. It seemed that something had happened.

Yunxiao frowned. what's going on? This void seems to be even more chaotic than the outside.”

Everyone also came out of their rooms and ran to the deck of the warship to take a look. Dozens of people had already gathered, all of them staring ahead.

Under the light of the netherworld battleship's Green protective shield, they could see white light bursting out from time to time in front of them. Moreover, a large number of various fragments shuttled back and forth in the chaotic space, crashing toward them.

This kind of thing was very common, and it was easy for such a phenomenon to occur when the void was unstable. However, what shocked everyone was that a similarly huge netherworld warship was drifting in the air in tatters. It was being manipulated by various forces and was rapidly rushing in their direction.

Qing Luo stood at the forefront of the ship. Her face was as gloomy as water, and she exuded a cold aura.

Shen Li's pupils suddenly contracted, and she cried out in horror, ” “Lady Qing Luo, this battleship is bi an.”

As the broken netherworld battleship rushed in, the huge symbol on it also came into view. There were still bodies floating everywhere in the battleship. They had all died not long ago. There was not a single complete body, all broken.

Yunxiao's pupils constricted as well, and his face turned solemn. He had also recognized the symbol of this warship.

Qing Luo said in an emotionless tone, ” “That's right, it's the Mando merchant group's warship. And according to the intelligence, the one leading the Mando merchant Association's team this time should be Yi Qing. Their organizing ability is not the slightest bit weaker than ours!”

Her words were like frost, and a layer of ice appeared in everyone's hearts. Since the Mando Chamber of Commerce could be completely destroyed, they would be no exception.

Shen Li's face was filled with horror, "who did this?" The entire battleship was sent flying into the void. Even a martial sovereign can't do that, right?"

The people of Tianyi Chamber of Commerce were all silent, looking at the terrible bodies on the starships in the distance, each of them felt sad for the death of their kind. If he had not been traveling stealthily in the void, but had been flying in the demon land, perhaps those broken corpses in front of him would have been his.

"Lady Qing Luo, the warship in front is about to hit us. Please give the order! Should I shatter it, or should I step into the demon Plains from the void?"

A grey-clothed old woman stepped forward and asked.

Qing Luo's face was filled with hesitation. She pondered and said, "The Mando Chamber of Commerce's battleship should have been destroyed in the demon Plains not far ahead. If we enter the demon Plains now, I'm afraid we'll encounter those enemies. Let's use the netherworld strike to destroy it."

"Yes!"

The old woman accepted the order and left, a hint of relief flashing through her eyes. Everyone's heart sank as they looked at the unsightly corpses on the Mando merchant group's warship. She was really afraid that Qing Luo would order them to go to the demon Plains.

Ye Fan approached Yunxiao and said in a low voice, "they seem to be in cahoots with the people who killed the flying frost sect. They all used such cruel methods.

Although his voice was soft, everyone present was an expert. Instantly, all eyes fell on him, bursting with cold light.

Qing Luo instantly stood in front of him. She glared at him and said sternly, "Do you know who did it?"

Ye Fan was shocked by her aura, he retreated several steps. The people of the temple of Holy Fire hurried forward and protected him behind them.

Yunxiao made a calm gesture and said, "I can't be sure, but the way these corpses died was extremely similar to the flying frost sect. Lady Qing Luo, you've seen those corpses before. If I'm not wrong, it should be the skeleton mercenaries. The Mando Chamber of Commerce should have been annihilated by the skeleton mercenaries in pursuit of Tang Jie."

"The skeleton mercenaries?"

All the experts of Tianyi Chamber of Commerce looked at each other in disbelief. Although the skeleton mercenary group was powerful in the light song woodland, they were just a group of bandits. It was still hard to believe that they could kill the experts of the flying frost sect and the Mando Chamber of Commerce.

Qing Luo also had a look of disbelief on her face as she snorted, "How can a mercenary group have such great ability! The flying frost sect was not a sect to be trifled with, and the Mando Chamber of Commerce was not something they could afford to offend. Let's not even talk about whether they have the strength, do they dare to?"

what if the force behind the skeleton mercenary group is the starry and lunar illusion? " Yunxiao sneered. what if it's the starry and lunar illusion? "

Qing Luo's expression changed drastically, and her face turned extremely unsightly in an instant. Her eyes shot into Yunxiao's body like sharp blades, as if she wanted to see through him and judge whether he was telling the truth or not. But soon, a look of disappointment flashed across her face. No matter how she tried to figure out a way, she could only see a vague fog in front of this young man.

She was shocked,"the place where the demon clan congregates The illusionary realm of stars and moon?" The demon race and humans rarely interacted, so why would they be in contact with the skeleton mercenaries? Are you confident?"

of course! Yunxiao said proudly. Don't forget that I'm the leader of a newbie mercenary group. What information in the gentle song forest would be clearer than mine?"

"Is that so?" Qing Luo turned around and looked at Shen Li.

"Yes, that's true!" Shen Li was shocked and quickly replied. She was very nervous. She did not understand how the skeleton mercenary group had anything to do with the demons, and she did not know whether Yunxiao had real evidence or was just talking nonsense. If it was the latter, she would be killed.

Qing Luo's aura turned cold, and she said in a cold and angry voice, " why didn't I see you report such an important piece of information?!"

Shen Li replied hurriedly, " it's just a recent development. I'm not too sure. I think it's a little ridiculous, so I planned to get to the bottom of it before reporting it. Now that I've heard what the city Lord has said, I'm sure of it. " Her heart was filled with bitterness as she wailed, " Li Yunxiao, you can't kill me!

Qing Luo's face was gloomy and uncertain. She felt that things were getting more and more complicated. Now, even the demon race was involved.

The battleship's attacks were all ready, and it emitted a strong light. A huge green beam of light shot towards the Mando merchant group's battleship wreckage, illuminating the entire void.

"Boom boom boom!"

The huge netherworld battleship was shattered by the attack. It exploded into countless pieces, flying in all directions. The body parts that were not destroyed by the bombardment also turned into dust in the air.

The effect of the entire scene was extremely shocking, and everyone's hearts were unusually heavy.

Due to the huge tremors caused by the explosion, the entire void became extremely unstable. The netherworld battleship began to experience huge jolts as it shuttled back and forth, and its energy shield also became dim and dark.

In the void in front of them, a huge vortex had appeared out of nowhere, and it began to suck in the residual energy in the surroundings. All kinds of spatial turbulence suddenly changed directions and sank into the vortex. The Starship also felt a great pulling force, as if it was going to change its course.

The people of the Empyrean one Pavilion looked at the huge black Vortex in front of them in horror. They activated the main formation of the battleship to its maximum and tried their best to move forward in the original course. If one were to be sucked into this Black Vortex, only God knew where it would lead to.

Suddenly, Lil 'Wu's voice rang out in Yunxiao's spiritual ocean, "I can sense little Green's aura not far away. It's extremely powerful and seems to be fighting!

"Is this the ancient evergreen tree?"

Yunxiao's pupils constricted. It seemed that someone had already found him and made a move!

Apart from wanting to take a look at the structure of Noah's ship, his other main purpose in coming to Yao Yuan was to use the ancient evergreen tree to collect the immemorial astral winds from the outer realm.

the tearing force is too strong. Lady Qing Luo, let's escape into the demon land!

Yunxiao suddenly said, his eyes gleaming.

&Nbsp; under the Black Vortex, the netherworld warship was getting slower and slower, as if it could no longer hold on. Everyone on the warship was extremely nervous. If they couldn't make it, they could only enter the demon's land. Otherwise, their life and death would be in the hands of heaven.

Qing Luo stared coldly at the center of the vortex. Knowing that she couldn't pass, she gritted her teeth and said, "Enter the demon land!"

The order was quickly passed down, and the light on the warship suddenly became bright and sharp. This light seemed to isolate the darkness around it, making the warship as bright as day. The battleship began to drift erratically in the light, and it suddenly disappeared into the void, leaving behind only endless darkness.

At the same time, a bright spot appeared in the sky above the demon Plains. It suddenly became bigger and brighter, and the shadow of a battleship gradually appeared. The light only gradually disappeared when the huge battleship appeared.

The Tianyi Chamber of Commerce, Yunxiao, and the others had returned to the sky above the demon land.

Chapter 416

?

416 An old friend from ten thousand years ago

Somewhere in the sky above the demon Plains, Yi Qing's body was covered in blood. His eyes were empty, and he was only gasping for breath as he stared at the opponent in front of him in shock.

The man was dressed in golden armor, and his eyes were somewhat strange, giving off a ferocious feeling. However, his body was extremely burly and his face was expressionless. He carried the long-handled battle axe on his shoulder, looking majestic and domineering.

The judge, who was not far away, revealed a knowing smile and said, "Fu's appearance has the taste of a great demon."

Li looked regretful and sighed. It's a pity that the four of us have lost too much of our strength. Now, we can only fight with the power of the profound level weapons in our hands. Otherwise, how can we be the opponent of these martial honors? "

it's enough," Shang chuckled. these ninth-tier Mystic weapons have long been connected to you. They're connected to your minds. Unless he's a Nine Heavens realm expert, he's invincible in the eight desolation realm!"

Yi Qing heard this conversation clearly. His eyes were filled with fear as he looked fearfully at the long battle-axe on Fu's shoulder. His mind was completely blank.

Fu you clenched his battle axe tightly and raised it high. His expression was extremely indifferent. He had already lost count of how many times he had chopped his opponent into pieces with his axe. He had long grown tired of seeing the despair in his opponent's eyes.

"A Xuan flower axe!"

Fu spat out these three words and mercilessly chopped down with his axe. The entire sky trembled as if the earth had collapsed.

Yi Qing poured all of his vital Qi into the longsword and slashed out with a roar. At this moment, his eyes became enlightened. He no longer had any intention of surviving. He only wanted to die with the other party.

"Foolish!"

Fu indifferently spat out these two words, and the axe light chopped down!

"BOOM!"

Yi Qing's sword light was completely submerged under the might of that axe. His entire body was also illuminated by the light until it became transparent. As the strong light gradually disappeared, his physical body turned into ashes.

"Bang!"

The sword was of the highest quality. It didn't shatter, but it broke into two and fell down.

Fu put away his axe and turned to walk in the air. He walked to Shang's back, still with a straight face and said nothing, as if nothing had happened.

Chu Weiwei nodded and stood still on the chariot, as if she was waiting for something.

Finally, he smiled and said, "come out, I know you're beside me." How many years had it been? Do you still recognize me?"

Mu Wu and Tang Jie were both shocked. They could not sense anyone around them. Yuwen Xun's eyes also flashed with shock, but he quickly regained his frivolous expression.

After a few breaths, there was a strange movement in the sky. Water-like waves began to ripple, and a green light grew larger and larger, flickering constantly. From within that green light, a thin-faced young man slowly walked out.

It was little Qing.

He stared at Shang in confusion, and thought for a while before saying, "the way you gave it to me looks very familiar. It's as if we've met before, but I can't remember where.

?Mu Wu and the others were all extremely surprised. They could not sense the cultivation level of this youth at all. He couldn't even tell his age. It was as if he was a cloud of fog, and no information could be obtained from his body and appearance.

The referee laughed, his eyes filled with reminiscence, "Do you still remember the little demon that played on you every day-Shang?"

Qing Zhu slowly fell into deep thought. He had lived for countless years, and too many things that had happened to him had long been lost in the long river of history.

His eyes suddenly lit up and he said in surprise, "You're Yingying, Shang? That kid from the calamity tower clan?"

Shang nodded with a smile and said, "I didn't expect you to still remember me. I'm afraid none of my old friends are here."

Qing Zhu's face paled in shock, "I remember that was tens of thousands of years ago. At that time, the huodou clan was the strongest clan among the monster race. It's been tens of thousands of years since I've seen a monster from the huodou clan. How can you live for tens of thousands of years?"

it's a long story, " Shang laughed. I've come to the demon land specifically to find you.

"Looking for me?"

Qing Zhu's face became alert and said in a deep voice, "Why are you looking for me?"

Shang's smile vanished as he fixed his gaze on Qing, " the monster race has a Supreme treasure that has always been in the possession of my clan. It's called the Grand microscopic armillary sphere. Have you heard of it? "

Qing Zhu's expression changed greatly. It shook its head and said sternly, "I've never heard of it! What does your precious treasure have to do with me?"

Yi smiled and said softly, "it seems that you already know my intention." The Grand microscopic armillary sphere is on me. It has been maintaining my life for tens of thousands of years, and it is already close to death. In the realm of heavenly martial arts, the only thing that can help it recover is you, the ancient evergreen tree!"

Mu Wu and the other two were extremely shocked, and their hearts were in turmoil. This mysterious young man was actually the legend of the demon land, the eternal evergreen tree!

No wonder no one had been able to find it for so many years. It turned out that it had transformed and could move at will!

Qing Zhu's face turned cold. Traces of lightning power bloomed from its body, and soon, a lightning prison appeared in the sky. It stood in it and sneered like an old man, "Shang, I can say that I watched you grow up. I don't know how you survived for tens of thousands of years, but I can tell that you are very weak. It's far from enough to seize my main body!"

"I'm indeed very weak right now, so I hope you can fulfill my wish, little Qing." Yi nodded and smiled. You've already taken human form and can exist on your own without your main body. Why would he be so attached to that body? Moreover, in my Supreme microscopic armillary sphere, even your shell can still live well."

"You talk too much nonsense!"

The lightning around Qing Zhu's body grew even brighter. It said coldly, "Once I enter your Grand microscopic armillary sphere, I will completely become your puppet. Although I don't have much connection with my main body now, with my main body, my cultivation can progress at a rapid pace. Otherwise, the entire demon land will wither, and I will lose my home."

there's no such thing as eternal life in this world," Shang laughed. even you can't escape the fate of five decrepit phenomena. Why don't you offer your true body to me, and you can become my loyal subordinate? we can pursue that glory together, isn't that a good choice?"

Qing Zhu's smile became even more demonic as it said, "Follow you? Who Do You Think You Are, a peak martial sovereign of the nine Heavens? If that's the case, I can still consider it. However, your current cultivation level is only at the six directions realm!"

He threw a scornful glance at the four powerful demons beside Yi and sneered, "And you guys, you're just relying on the power of your Mystic weapons. His cultivation base was a complete mess. In front of me, you don't have the right to act wildly!"

As he spoke the last few words, his voice became sharp. He extended his right hand, and a ball of light gathered at the tip of his finger. There were even shocking crackling sounds. As long as he pointed his finger, the entire space would become a hell of lightning!

The four monsters seemed to have felt the power of the prison of Thunder. Their expressions changed and they took out their weapons, which they had been using for tens of thousands of years, to protect Shang in the middle.

Mr. Yu transformed as well. His body doubled in size, and his face was ferocious. He held the tail-light sword tightly, ready to attack at any time.

Mu Wu and the other two rode the Bluewolf chariot and hid far away. They had all their cultivation at the moment, and did not want to get caught in the crossfire. It was impossible for the Bluewolf chariot's defense to protect them.

Shang's eyes were filled with reminiscence, and he laughed casually, "Little Qing, why do you have to make things so awkward? Am I not a friend? In those years, I cultivated by your side every day and would tell you if there was something on my mind. And after tens of thousands of years, you're the only one left."

Hmph! Qing Zhu snorted coldly and said arrogantly, "we could have been friends, but since you want to take my true body, you're my enemy!"

His face darkened, and his entire body seemed to have fused with the lightning. Without any hesitation, he pointed his finger forward.

"????!"

The sky was filled with the crackling light of lightning, as if it was the end of the world. It descended from the sky above Shang and the others, slowly descending.

Qing said coldly, "Shang, change your mind and leave the demon land." I can spare your lives for the sake of our past relationship."

"Thanks, but I'd still like to try," Shang laughed.

At this moment, Li's figure suddenly flickered and appeared beside mu Wu and Yuwen Xun. He struck out a few seals and patted them on the shoulders. In a deep voice, he said, "I'll temporarily release your seals for two hours and help us defeat this person. Then, I'll return your freedom!"

Mu Wu and Yuwen Xun's expressions were dark and uncertain. This was their best chance to escape, but only the heavens knew what was up with that seal. If it could only be undone for two hours, and these people were killed by the ancient evergreen tree, then it would be really embarrassing!

"Hmph, you're so stubborn!"

Qing Zhu's expression became fierce, and it no longer had any reluctance to leave. It pointed its index finger down.

The green prison of Thunder became violent and fell like Heavenly Thunder. It wreaked havoc in the world and trapped Shang and the others.

ripple scamper, spatial transformation!

Yu's face was twisted. His spiritual power gushed out, but his target was not Lei ting, but Shang and the others. With his power of the will, the space around Shang and the other four was distorted, and they were teleported hundreds of meters away.

"BOOM!"

When the lightning hell landed on Yu Yiren, he roared and his body expanded even more. A milky white light appeared on his skin, and he was actually able to withstand the lightning!

Greenie's expression changed slightly. It curled its fingers and a purple-green light flashed on its fingertips. It used a little more strength and the green color of the prison of Thunder turned a little darker, as if it was going to turn purple.

Not only did the color change, but the nature of the lightning also seemed to have become stronger. Yu's body finally couldn't take it anymore and began to be struck by the lightning. Every time the green

lightning fell, it would open a bloody wound on his body. He revealed a painful expression as he struggled to hold on.

“Whoosh!”

Several figures flashed in the sky. Four great demons instantly crossed the vast sky and surrounded little Qing, attacking at the same time.

Chapter 417

?

417 Body turning into lightning

Fu's hatchet chopped down. He no longer had the calmness he had when he killed Yi Qing. Instead, his face revealed a ferocious expression. He waved his hands and roared.

Yi spread his wings, and a small white blade appeared in front of his five fingers. He rushed forward with a cold glint, grabbing his throat with one hand and stabbing his heart with the other.

GE ze's two palms were the size of a futon. He raised a millstone high and smashed it down with a roar. The millstone flickered with green light as it rumbled through the sky, distorting the surrounding space.

Li was the furthest away. She took a decorative flower Drum from her belt and suddenly enlarged it in her hand. It stopped in the air and slammed down with her palm. The sound of the drum shook the sky!

The four great demons were not strong but the weapons in their hands had been 100% refined tens of thousands of years ago. The power of a ninth tier profound armament was something that even a martial sovereign would not dare to underestimate!

Qing Zhu was also slightly moved. It retracted its finger and revealed a cold smile. It didn't Dodge.

In an instant, his body turned into lightning. Except for his head, every part of his body suddenly disappeared. It was all made up of lightning power. The attacks of the four people arrived in an instant, but they suddenly lost their target and rushed into the lightning.

Only Li's invisible drum sounds shook little Qing's eyes, causing it to reveal a fierce look as it stared at her coldly.

"Not good! He actually turned his body into lightning!"

The other three immediately realized that something was wrong when their attacks missed. When they wanted to withdraw, the lightning produced a powerful suction force that slowly pulled them in, making them unable to escape!

"Since you're here, let's enjoy this!"

Greenie's head said coldly in the lightning prison. It conjured a huge hand and wrapped the three of them up."Shaoyin Yimu profound Azure lightning!"

The green light flickered, and the big hand with thunder and lightning clenched in the air. The power of Thunder immediately rushed into the three people's bodies, directly penetrating them. Their entire bodies were charred on the outside and tender on the inside, and they screamed in pain in the Thunder.

Shang, who was far away, was also shocked, " "You've actually managed to cultivate the" body transformation lightning Kasaya "?"

Li's expression changed drastically. The auras of those three people had been completely covered by the lightning. If they hadn't continued to scream in pain, they would have died. The aura on her body skyrocketed, and she madly beat the war drum. Earth-shaking sounds shook the sky, turning into a sharp attack power that rushed into the lightning hell and spread out.

Qing Zhu's face was cold, " it's useless. My body has turned into lightning. Even if you're a ninth tier profound armament, you can't do anything to me. Only the Emperor Qi of the nine Heavens can compete with me. Since you've offended me, you should be prepared to die at any time."

Ren Fu, Yi, and GE used to have the bodies of great demons, but under this kind of lightning, their bodies also gradually collapsed from the electric shock.

All of a sudden, a profound level weapon appeared in the sky and fell towards the Hell of thunder and lightning. The profound level weapon was round in shape and it kept spinning. Rings of Power appeared around it and there were even specks of Starlight that kept on flashing. Its aura spread out and it was as if the sky had fallen, transforming into the universe and the Ganges, placing itself beyond the nine Heavens!

As the Silver River spread out, the stars in the sky flickered. Under the power of the stars, the lightning hell dissipated bit by bit and quickly gathered on little Qing's body.

Greenie's body turned into lightning and disappeared. When it reappeared, its pupils suddenly shrank and it widened its eyes in shock. "The Grand microscopic armillary sphere! Didn't you say that he was already dead?"

Among the stars and the eternal river of the universe, Shang's figure appeared. He sighed and said, "Its spirituality is indeed on the verge of being extinguished. I don't want to use it unless I have no choice. Xiao Qing, you're the only one who can save him. Come after me."

Qing Zhu's expression was extremely ugly. The two of them faced each other in the sky. On one side was the eternal river of the universe, and on the other side was the lightning hell sea. The sky was divided into two different colors.

"Follow you? what a joke! As long as I keep going, I'll be able to comprehend all the rules one day and step into the omnidirectional divine realm. But what about you?"

"You're just one of the countless powerful beings who have existed for hundreds of millions of years," Qing replied with a scornful smile. "You'll be annihilated sooner or later." "What qualifications do you have to make me follow you?"

Shang raised his eyes slightly and said, "Because I'll enter the Ten Worlds realm before you."

Qing shuddered. Under Shang's star-like gaze, it felt like it believed him. However, reason still prevailed, and it sneered, this sentence has been said countless times by countless powerhouses over the past billions of years! He snorted disdainfully. since you can still use the Grand microscopic armillary sphere, it will be a little troublesome for me to kill these minions. Let's forget about today's matter. You're on your own!

He put away the boundless Thunder prison and turned into a bolt of lightning, ready to break through the sky.

the Grand microscopic armillary sphere is being used up every time it's used, " Shang replied indifferently. since I've made my move, I have to make you stay. Otherwise, the next chance will be even slimmer. He stretched out his hand and gently touched a few strange demon race symbols on the armillary sphere. Golden tadpole-like characters overflowed from the symbols and floated in the air before vanishing one by one.

If Yunxiao were here, he would have been shocked. Those golden tadpole-like characters were the same as the ones he had seen in his great realm divine technique, great expansion divine technique, and Mount Meru. However, there were still a large number of rare characters that he had never seen before.

"Zi Wei art, shifting stars!"

Shang chanted softly, and a Galaxy spread out from his hands, covering the entire sky of the demon land. The sky that was originally bright turned into night, with the Galaxy flowing and the sky full of stars.

Little Qing's lightning was actually blocked. It was unable to break through the heavenly cycle stars and escape. Its figure appeared with a serious expression.

this is the boundary derived from the armillary sphere. Under the stars, even the Emperor Qi of the nine Heavens can't break it. Do you still want to escape? " Shang looked at greenie indifferently, but his gaze was getting colder.

An angry expression appeared on Qing Zhu's face, and it sneered,"Hmph, if you're at the peak of the ninth heaven and you can perform the star Cycle and the purple Star technique to the extreme, even a

God Realm expert might not be able to break it. But now, Qianqian, take a look at your own cultivation first!”

Qing shouted and its body turned into a lightning prison that kept expanding. It then shouted, ” besides, I can feel that this armillary sphere is an arrow at the end of its flight. Since you are determined to die, I will let you and this Supreme treasure of the demon race be Buried in the Sky above the boundless demon land!

He raised his hand high and shouted, ” heavenly rule-lightning!

“Boom boom boom!”

In the night sky, there was a thunderous sound. Then, a beam of light broke through the dark sky and fell on little Green’s body. It illuminated its body of lightning and gradually opened up the dark night.

At this moment, in a certain underground cave in the demon Plains, two black-robed men who were walking suddenly stopped in their tracks. They raised their heads in shock, and their eyes were filled with shock.

“This is a mayfly, the fluctuation of rule force?”

hmm, it seems to be the rules of the heavens. Who is that young man? ”

his aura is so demonic. I can’t sense his realm at all, but he can actually condense rules. He must be a Nine Heavens martial sovereign!

“A Martial Emperor? But why is there only rule force, and not even the slightest fluctuation of Emperor Qi?”

“En, it’s a little strange. There were too many capable people in this world. What was the profound level weapon in the hands of that demon race brat? Do you recognize it?”

God knows what it is. Even I feel a slight throb. It should be a top-grade existence among the ninth-rank, right? ”

“Ninth-rank? Is it possible that it’s a Supreme grade profound level weapon?”

“Tsk! Do you think that transcendent grade profound level weapons are cabbages? Other than Noah’s ship, there was no second Supreme grade profound level weapon in the world. Back then, Gu Feiyang’s star slasher was known as a transcendent-grade, but it was actually only a ninth-tier superior-grade technique. That demon race kid’s profound level weapon should be at the same level as the star slasher.”

“Maybe, but I don’t think it’s that simple.”

“Who cares, don’t think too much, there’s more important things to do. The monster race had existed in the realm of heavenly martial arts for a longer time than the human race, so it was natural that they had a few precious treasures. The illusory realm of the stars and moon isn’t something we can casually provoke. Let’s go, the fire Rat King seems to have sensed us.”

The two of them didn’t seem to be moving, but their entire bodies were gradually moving through the cave.

In the sky above the demon Plains, Shang’s expression was extremely serious. Although he had the Grand microscopic armillary sphere, he was confident that he would not lose. However, if he wanted to subdue Xiao Qing, he was afraid that the armillary sphere would be exhausted to a point that he would not be able to bear.

“What’s wrong? You want to subdue me, but you don’t dare to make a move? Do you really want to use your mouth to subdue me?”

A bolt of green lightning appeared in little Green’s hand, forming a sword of lightning. It held it in its hand and stood proudly in the air.

fine, I’ll take you down and find your original body. All the losses will be worth it!

Shang's eyes darkened. He had finally made up his mind. The stars in the sky seemed to be affected by his determination. They brightened up one by one, and the night sky seemed to be darker than ink. The lightning hell seemed to be suppressed and gradually dimmed.

The Grand microscopic armillary sphere was a precious treasure passed down from ancient times in the demon clan. It was worshipped like a divine object. It was said that it contained the secret of ten directions becoming a god. Its quality was even higher than the Noah's ship of the humans, but only some extremely ancient demon clans knew about it.

Qing Zhu's expression finally changed. It naturally knew the power of this profound level weapon, but it did not know to what extent Shang could unleash the armillary sphere's power. Even if it could only unleash one-tenth of its power, Qing Zhu would not be able to win. Fortunately, Shang's strength was only at the Grandmaster level, and the armillary sphere's aura was weak, so he should have a chance of breaking through.

"Take me down first, lightning slash!"

The long sword in Greenie's hand slashed down, and it grew bigger and bigger in the sky. The lightning hell sea was also born, and the green power of lightning split the night in half, slashing towards Shang.

Chapter 418

?

418 World-destroying sacred Thunder

the Starlight that has never been extinguished since the ancient times, fall from the eternal Sky.

Shang's eyes glowed with a silver light as he looked up at the stars. He pointed at the palace in front of him and said softly, "Starfall!"

The stars in the sky trembled and turned into thousands of meteors. They swept across the sky and exploded in the Thunder prison. The power of the stars was enough to destroy the world. Greenie's lightning slash was shattered by the meteors, and the broken night sky regrouped.

“Thousand li ice-sealing Jade heaven lightning, break!”

Qing Zhu’s expression changed instantly. It clenched its hands and stood up. The lightning around its body became violent and gradually turned into a faint purple color, resisting the power of the fallen star. Purple lightning began to gather in front of it. Lightning flickered in its eyes, and it became colder and colder.

Shang’s eyes narrowed as he looked at the purple lightning in the prison of Thunder. He could not believe it. “Little Qing, you’re actually trying to form purple lightning? do you want to die?”

Qing Zhu’s eyes were cold as it said, “I was formed from the Yi wood Qi in the world. Even the purple lightning is just a wisp of my evolution.” As for you, with your trash cultivation base and armillary sphere, can you withstand my great void Jade Purple mansion Brahma divine Thunder? I’m really looking forward to it, Shang!”

Among the five elements, Thunder was wood, and Taiyi wood Qi was the origin of all wood, which could evolve into Thunder.

“Great void Yuqing purple mansion Nirvana world destroying divine Thunder, descend to the world!”

The purple lightning in front of Qing Zhu suddenly dispersed, and a mass of purple condensed in the sky. It frantically absorbed the power in the surroundings, dispersing the dark night.

In the purple light, a thick bolt of lightning flashed and suddenly fell. Everywhere it passed, everything fell into nothingness. The boundary of the armillary sphere suddenly broke open, and the ancient starry sky shattered inch by inch. The Grand microscopic armillary sphere trembled violently, and the Golden tadpole-like characters flashed even faster.

Shang’s face was ashen, and the murderous intent in his eyes was almost tangible. The divine lightning that descended was a mixture of purple and green. It wasn’t the pure great void jade green purple mansion Brahma world destroying divine lightning. Otherwise, even a God Realm expert wouldn’t be able to block it! It should be that little Qing’s cultivation base was limited, and it could only do this much. But even so, it still contained a trace of the true power of the great void jade green purple mansion’s Nirvana world-destroying divine Thunder. That was the power to destroy the world!

At this moment, all the forces, martial artists, and demonic beasts in the demon land looked at the distant sky in horror. The feeling of the end of the world surged in everyone's heart.

Even little Qing's figure was becoming more and more faint as if it would disappear at any moment. This thunderous attack had consumed all of its power.

Shang's face returned to its usual calmness. His hands quickly formed a seal, and lines of golden tadpole-like characters swirled around him like ribbons. With every word that appeared, Shang's aura weakened a little. Under his control, the armillary sphere gradually stabilized. On it, the stars were still flashing and the Milky Way was still flowing.

The stars in the sky began to evolve at this moment. From the chaos, the heavens and earth were born. Dao gave birth to one, one gave birth to two, two gave birth to three, and three gave birth to all things.

"Martial Dao evolution!"

Qing Zhu's pupils shrank as it looked at the power of heaven and earth in horror. It was as if endless space and time were in its sight. Its own divine Thunder Power could destroy thousands of worlds, but it was still the power of the laws of heaven and earth. What the Grand microscopic armillary sphere displayed at this moment was the deduction of martial arts, which was moving towards the extreme.

Among the great demons in the distance, Li's mind suddenly jolted and he said in shock, "GE, what do you want to do?"

GE, who was beside him, took a step forward with an indifferent expression. In an instant, he shrunk the ground into inches and appeared under the stars in the sky.

Shang's expression changed, and he asked the same question as Li, GE, what do you want to do?!

"Lord Shang," GE replied indifferently, "with your current powers and the state of the armillary sphere, you can not reach the pinnacle of martial arts. You won't be able to take the world-destroying sacred Thunder." The aura on his body rose rapidly. A millstone appeared in his palm, which was as big as a futon, and it shone with golden light.

Shang seemed to have understood what he was trying to do, " "GE, get out immediately!"

GE didn't care at all. Instead, he turned to face the great void Jade Purple mansion Brahma divine Thunder that was coming through space and time. He looked at the Golden millstone in his hand with pity and sighed,"Lord Shang, everyone, I'll take my leave first. May I become a star in the sky after I'm born and protect my demon race for all eternity!"

"Don't, GE!"

Li cried out in grief, two streams of tears flowing down his dull face.

The rest of them were also trembling. Yu's face darkened, and his face couldn't be seen clearly.

"Star Iron Golden Demon millstone!"

GE circulated the vital Qi in his body to the peak, but he only had the appearance of an eight-stars martial Grandmaster. The loss of power over tens of thousands of years had made him, who had once stood at the peak of the continent, so weak. However, the gold demon millstone was a genuine ninth-tier Mystic artifact. It had long been one with his mind and soul. In an instant, the power of the mystic artifact was unleashed to the extreme. It was like an eternity exploding in the void. The golden light bloomed like a flower, illuminating the vast sky in the dark night.

"BOOM!"

The great void Jade Purple mansion's Nirvana divine Thunder swept across and struck the millstone directly. Without any suspense or resistance, GE's body and the star Iron Golden Demon millstone were instantly turned into ashes. Even a ninth tier profound artifact would not be able to withstand a single blow from this world destroying divine Thunder!

Within the purple and green lightning, there seemed to be a faint soul floating out. It slowly rose up and floated into the endless night sky. It gradually condensed among the stars in the sky and turned into a huge star that was unusually bright.

The tears on Li's cheeks stopped flowing. The tears in his eyes glistened, and he bit his lips until they bled.

Qing's expression changed. The world destroying sacred Thunder was blocked by GE sheming, and its color instantly changed. The purple Thunder Qi almost disappeared, turning into a light blue lightning, and its power was greatly reduced.

"Martial Dao deduction, Dao transforms all things!"

Shang's eyes were bone-chillingly cold. Circles of energy were released from the armillary sphere. The green lightning attack was suddenly blocked. It was as if an invisible force was resisting it. The space outside the lightning was constantly shattered.

Qing Zhu's expression was extremely ugly. It made a hand seal and said angrily, "Don't think that this level of martial arts deduction can block my power! Dragon of lightning, open!"

"BOOM!"

As if the power had reached a balance, it shattered. Under the guidance of the little green incantation seal, the green lightning suddenly exploded, turning into countless lightning dragons under the starry sky. They shuttled in all directions, trying to blow this world apart!

"Pfft!"

Shang finally spat out a mouthful of blood. He raised his hand, and a strange symbol appeared in his palm. He slapped it on the armillary sphere.

At this moment, the stars in the sky shone brightly. Under the illumination of the power of the stars, the countless lightning dragons were suppressed. No matter how they struggled, they could not escape the dark sky.

The light on Qing Zhu's body grew fainter and fainter, as if it would disappear at any moment. He roared, "Thunder Dragon, explode!"

The countless Thunderbolts transformed into Dragons and instantly grew in radiance. They exploded under the starlight, annihilating all the Starlight in the sky. The entire sky was no longer lit up. A huge black hole formed in the sky, devouring everything around it.

The black hole didn't just appear in the sky of the demon land. It spread across several worlds and spread terrifyingly.

“Little Qing, what other trump cards do you have? If you don't have it, then obediently enter my armillary sphere! Now, I'm not only going to take your original body, but I'm also going to refine you back to the Taiji wood Qi!”

Shang's voice suddenly rang out in the dark night. It was emotionless and cold.

Qing Zhu's body trembled. The light on its body was dim and unstable, and it could no longer summon any strength. He felt his entire body being bound by a force as he flew up into the sky. His destination gradually brightened up. It was the Grand microscopic armillary sphere, emitting a faint light. Shang stood beside him with a cold expression.

The light on the Grand microscopic armillary sphere was also very weak, and it could be seen that it was already an arrow at the end of its flight. But even so, little Qing had no other way. He had exhausted all his energy and could only watch helplessly as he was slaughtered.

In the distance, mu Wu, Yuwen Xun, and Tang Jie were all dumbfounded and completely petrified. The battle just now had completely exceeded the scope of his understanding and cognition. He only felt that he was like a small boat in the ocean, drifting with the current under those Supreme forces, and could capsize at any time.

As greenie was gradually recalled, the various forces in the sky also gradually dispersed. A terrifying battle had finally come to an end.

Shang's face was extremely pale, and his eyes were as cold as ice. On the other hand, Qing Zhu's face was filled with despair.

“Boom boom boom!”

Suddenly, the space fluctuated, and everyone’s hearts thumped. It seemed that some powerful figure had arrived!

Ripples spread across the vast sky, and a netherworld warship slowly sailed out. The people on the warship were all confused, and the majority of them were women.

“This is Qianqian, Tianyi Chamber of Commerce?”

Under everyone’s astonished gazes, the netherworld battleship of the Tianyi Chamber of Commerce made its grand entrance.

“This is a Kasaya.”

The first thing Yunxiao saw was Shang and little Qing. Little Qing’s body was now shrouded in a dim light and looked defeated, while Shang was staring at their warship with a cold face.

“Not good, little Qing is dying. Her aura is so weak!”

Xiao Wu’s voice was heard, and he said in a hurry, “Quickly save him!”

Yunxiao’s heart jolted. At first glance, he recognized Shang as the man in the center of the demon’s sacrificial array. Although he could not see his face clearly at that time, he had recognized him at first glance. Soon, he found that Yu and a few other monsters, as well as mu Wu and the others, were all there.

“Lady Qing Luo, these are the members of the skeleton mercenaries!”

let’s go! Yunxiao cried out as he soared up from the warship and headed toward little Qing.

Qing Luo and the others also discovered Tang Jie's existence, and their eyes revealed great joy. Mu Wu and Yuwen Xun, on the other hand, were looking at Yunxiao with a stunned expression.

Chapter 419-axis of heaven shattered

Qing gave Yunxiao a weak look and said in surprise, "It's really you, Lil Wu?"

Shang's eyes darkened and he snorted coldly. He flicked his index finger on the axis of the armillary sphere, and a beam of Starlight streaked across space and shot down.

In his eyes, Yunxiao was a piece of trash whose cultivation base was not even as good as his, and he could kill him in a second with a snap of his fingers.

In the distance, Yu's heart trembled as he shouted in shock, "Lord Shang, he's the one!"

Shang frowned and could not react for a moment, but he saw Yunxiao twist his body in the air and avoid his lightning-fast killing strike in a strange posture.

Then, a golden light flashed between Yunxiao's eyebrows, and the divine realm tablet suddenly came out. Two streams of territory power spread out and suppressed one side of the sky!

The other party was the demon race within the sacrificial array. Coupled with what had happened to the flying frost sect and the Mando Chamber of Commerce, he did not dare to be the slightest bit careless. He used all his trump cards right from the start.

Shang's eyes fell on the divine realm tablet and felt the power of the territory that had locked the space. His pupils suddenly shrank, and he looked horrified.

Rain had reported to him about this young man's situation. Not only was he extremely powerful, but he also had a profound-level weapon that was no less powerful than the Tai Wei armillary sphere. He didn't react to Rain's shout just now, but now that he felt the pressure of the territory power, he understood.

The armillary sphere's absorption power seemed to have been interrupted by the power of the territory, and little Qing stopped in mid-air.

Yi was extremely anxious. After paying such a huge price, if he couldn't capture little Qing, all his efforts would be in vain. "Brat, get lost!" He said angrily. He slapped his palm on the armillary sphere, and a cluster of stars emerged behind him. But, the range of the stars was limited, and they all came crashing toward Yunxiao.

Yunxiao was also taken aback. A Mystic artifact that could produce such a phenomenon was definitely not an ordinary item. He grabbed the divine realm tablet, circulated his spirit power, and threw it at the armillary sphere like throwing a discus.

As an Alchemist, he was passionate about the study and refinement of profound level weapons. He did not cherish the profound level weapons themselves, and even the divine realm tablet, a Supreme-grade profound level weapon, was like a ball to him.

The golden light on the divine realm tablet shone brightly, and all kinds of symbols flashed one by one. They drew a long golden line in the air and struck the strange phenomenon in the starry sky.

Shang's expression changed drastically. He was now on the brink of death. He barely managed to use the armillary sphere, but how could he withstand the impact of the divine realm tablet's two forces of territory? the phenomenon in the starry sky dissipated at that moment.

Moreover, the divine realm tablet's target was the Grand microscopic armillary sphere, so it crashed into it directly.

"BOOM!"

The two pieces of transcendent grade profound level weapons clashed together and a strange light burst out. It spread out in circles and the two profound level weapons seemed to be stuck together, constantly squeezing each other.

The Grand microscopic armillary sphere was already at its end, and the power that the divine realm tablet could exert was very limited. It had actually formed a delicate balance and was at a stalemate.

A black color started to appear around the two profound level weapons and started to spread outwards. Golden tadpole-like characters also started to rise from their bodies. They flashed into the black Qi and were extremely dazzling. In the end, they disappeared.

Yi's pupils constricted, and his sharp eyes stared at the Golden tadpole-like characters on the divine realm tablet without blinking. His eyes were full of excitement, and his body trembled slightly, as if he was forcing himself to remember it.

Yunxiao's face was also solemn. He had never seen most of the tadpole-like characters on the Tai Wei armillary sphere, so he did not care about them at first. But when he saw Shang's excitement, he began to remember them.

"Boom boom boom!"

Under the pressure of the two profound level weapons, the sky let out a muffled sound and was shattered everywhere.

"Bang!"

All of a sudden, a shattering sound came from the Tai Wei armillary sphere, and a tiny hole appeared on the axis of heaven that was revolving above it.

Although the sound was soft, it was like a thunderclap in Shang's heart. His eyes were hollow from shock, and his mouth was wide open enough to fit a foot in. He looked as ugly as he could be.

"?!"

He instantly came back to his senses and realized that things were bad!

It was just that this armillary sphere had been passed down for countless years and he had never heard of it being damaged. Even if his life force was about to dissipate, he would at most be jolted back, but he didn't expect it to be shattered by the other party's profound weapon!

That was a sacred item passed down from ancient times! It was actually destroyed?

He was so shocked that he felt a chill all over his body. He no longer cared about grabbing Xiao Qing and hurriedly made a hand seal to retrieve the armillary sphere.

After breaking the axis of the armillary sphere, the divine realm tablet had also been greatly consumed. It lost all its light and flew back into Yunxiao's forehead, then floated above his dantian as if it had fallen asleep.

Yunxiao's face was also extremely pale. Under the attack just now, all the spiritual energy he had circulated had been consumed.

However, Shang's situation was even worse. The armillary sphere was connected to his mind, and the damage to the axis had not only depleted the armillary sphere's last bit of life force, but it had also caused him great damage. His body was swaying in the air, as if he was going to fall at any moment.

Qing Zhu felt the binding force on its body suddenly disappear, and it instantly recovered. He was overjoyed. Using the last of his strength, he turned into a bolt of lightning and was about to disappear into the sky.

The great demons were both shocked and furious. They rose into the sky and charged over. However, other than Li, the other three were covered in injuries, especially Yu, who was a bloody mess. He gritted his teeth and slashed with his sword.

The people on the netherworld battleship snorted coldly. Apart from Yu, who was a Martial Emperor, the other three were all martial grandmasters. How could they pay any attention to them? They showed contempt and attacked boldly.

However, as soon as they touched it, the result left everyone dumbfounded. Several martial emperors of the Emyrean one Pavilion were instantly turned into ashes!

Qing Luo's heart jolted and she rushed out in horror. She expanded her domain in an attempt to trap the three of them. However, she was shocked to find that they were not affected at all. Instead, an aura of death enveloped them.

At this moment, a few powerful auras that had been hidden in the battleship also appeared. Three rays of light shot towards Yu and the others.

Yunxiao's face flickered as he looked at the profound level weapons in the hands of the few demons in horror. They were one hundred percent, genuine ninth-tier fluctuations! He immediately reacted. Qing Luo and the three martial Venerables were definitely not able to stop these great demons. Although they were all severely injured, the profound level weapons in their hands were still emitting a soul-shaking aura.

He shouted at mu Wu and Yuwen Xun in the distance, "Hurry up and attack!"

Mu Wu hesitated for a moment, then resolutely stepped into the air and attacked the demons.

Yuwen Xun's eyes narrowed slightly, still wavering.

Yunxiao's face turned cold as he said in a cold voice, "Do you still want to be a woman in this life?"

Yuwen Xun's entire body trembled, and he seemed to have given in. He braced himself and charged at the great demon. In his eyes, becoming a real woman was more important than anything else.

"You guys deal with these scum, I'll go save Lord Shang!" Yu roared, her face filled with rage.

Fu ye's body was covered in blood, and his face could not be seen clearly. He raised his battle axe high and shouted, "All of you, go over there. Leave this trash to me!"

"A Xuan flower axe!"

He let out a loud shout and swept his battle-axe across the sky. The light cut across the sky and covered all four people of the Tianyi Chamber of Commerce. He wanted to kill them in one blow!

"Be careful, everyone!"

A martial honor expert of the Tianyi Chamber of Commerce shot a cold look at her. He raised a small green flag high in the air, and instantly, four large flags appeared around him. They fluttered in the wind and protected Qing Luo and the four of them.

The Xuan Hua axe struck the big flag and with a loud bang, the boundary formed by the four big flags suddenly split open. The small green flag in the hands of the martial honored was also broken with a bang.

The might of a ninth tier profound armament was unstoppable!

If not for little Green's ability to transform its body into lightning, it would have been killed by the attacks of the great demons without even needing the referee to intervene.

Although the talisman could exert 100% of the Axe's power, the consumption was also great. The axe just now had absorbed all the vital Qi in his body, and he was completely pale, almost unable to stand.

Qing Luo and the other three's faces also turned pale. They knew very well how powerful that battle flag was, yet it couldn't even withstand a single blow from the enemy. They instantly felt a chill run down their spines, and their will to fight was completely dispelled. They quickly retreated back to the netherworld warship.

When talisman was released, Yu and Yi had rushed past the people of the Tian Yi merchant Association and headed towards Shang.

Mu Wu took a step in the air, and a cold, rhombus-shaped profound level weapon appeared in her hand. She smashed it down on their heads and shouted coldly, "Stop!"

"You're looking for death!"

break! Yi Sha spat out two words with a strong killing intent. He swiped his claw down and the five sharp blades immediately cut five spatial cracks in the sky. Mu Wu's rhomboid profound level weapon was destroyed with a bang. The spatial cracks were blocked and three of them disappeared immediately. The remaining two grew bigger and bigger, heading towards mu Wu, wanting to cut him into pieces.

“The heart of Spring!”

The sound of stellar energy could be heard. Several green streams of energy shuttled through the air in a strange trajectory, forming a slash in front of mu Wu, ruthlessly clashing with the two spatial cracks.

“BOOM!”

The green and black energy collided and completely disappeared. The shockwaves were extremely strong, shattering mu Wu’s white clothes. His long hair fluttered and he took a few steps back in the air before stabilizing himself.

However, there was no fear in his eyes. Instead, he became more and more excited, and his fighting spirit swelled.

Yuwen Xun appeared from behind him and said gently, “ fortunately, he acted in time. Otherwise, you would have been turned into minced meat. His gaze greedily scanned mu Wu’s body from head to toe. Mu Wu’s white clothes were in tatters, revealing a tight white suit. Her slender figure was extremely good, and when Yuwen Xun’s eyes landed on her, they were filled with splendor.

“Pfft!”

Mu Wu spat out a mouthful of blood. The qi and blood in her body, which had been in turmoil from the aftershock, finally stabilized. Hearing this pervert’s words and his lecherous gaze, he couldn’t suppress it any longer and vomited blood. He gritted his teeth and said, “ “If you look at me again, I’ll kill you first, you pervert!”

Chapter 420-getting back face

Yuwen Xun’s eyes were filled with hidden bitterness as he muttered, “ I know you don’t like me, but when I become a real woman, we can try dating. I won’t let you down.

“Pervert, die!”

Mu Wu couldn't take it any longer. She couldn't care less about the enemy in front of her, and she threw a punch at Yuwen Xun. The force of the punch caused the air to explode, and it shot out like a chain of pearls. He had used 100% of his power in this punch, and it was even more ruthless than when he was dealing with wing. He wanted to blow up this freak with one punch!

"You heartless man."

Yuwen Xun's eyes flashed with a smile. Mu Wu had only just become a two-star martial Supreme not long ago, and was still a far cry from his peak three-star strength. He gently pushed out his palm and blocked the fist force. Then, he suddenly changed his direction and flew towards Yi. He smiled and said, "I don't want to fight with you anymore. If I annoy that kid and he doesn't want his master to become a woman for me, then I'll really be screwed."

Wing's gaze grew colder. He had wanted to push the two aside, but seeing that rain had already taken a step ahead, he turned and slashed at Yuwen Xun, but his hand held back. This Yuwen Xun's physique seemed to be extremely unique, and it might even involve their demon race's mother. They couldn't kill him.

This gave Yuwen Xun an opportunity. His cultivation was much higher than wing's to begin with, and the other party could only easily suppress them with the power of a ninth-tier profound artifact. Now that they were holding back, they were in a very passive position.

Qing's body gradually disappeared in the sky, turning into a faint shadow. It looked at everything coldly and said, "Shang, we'll meet again soon. Stay with me in this demon land forever."

After he coldly said this, his entire form completely disappeared, leaving only a faint wisp of green smoke that rose and drifted in the air.

"Chi, this young master saved you, and you ran away without even saying a word of gratitude. Little Wu, why is your friend so uncultured?"

Yunxiao cursed lightly, but there was a smile on his face. His eyes flickered as he stood in the air and began to think quickly.

Shang's face was extremely pale. Not only was his armillary sphere destroyed, he was also severely injured. Furthermore, even if he wasn't injured, he had lost the armillary sphere. He was only a martial ancestor realm demon and he had no hope of obtaining the eternal evergreen tree.

The duck that was in his mouth finally flew away, and he even got a mouthful of duck feathers. All his efforts were in vain!

"Pfft!"

Shang was so angry that he coughed up another mouthful of blood. He poured all his anger on Yunxiao, and the killing intent in his eyes seemed to have taken form. He gritted his teeth and spat out two words, "damn it!"

He formed a huge demonic rune seal with his hands and rushed over.

Yunxiao stared at him coldly. Instead of retreating, he took a step forward to meet him. The man in front of him had the same cultivation base as him. Among the same level, who could rival him except di Jia, who had been suppressed for countless years?

"Who Do You Think You Are? In the realm of heavenly martial arts, there has never been anyone who can judge my life and death, and there will never be anyone in the future!"

The wind was strong and the clouds were flying!

He took a small step forward and felt the rhythm of the fluctuation of heaven and earth. He gently raised his hand and performed a few strange movements. The power of rules began to gather bit by bit. The power of wind and cloud was all gathered in his palm, and the sky changed color.

The eyes of the people from the hall of Holy Fire who were watching the battle from the netherworld battleship almost fell to the ground. They could not help but want to cry.

Yunxiao's strange movements were the basic movements of their sacred skills, which were used to feel and capture the power of laws. The way he performed them so smoothly was even more satisfying than what they had been practicing for decades.

The wind and clouds rise in the world, and the wind and clouds are all up to me!

Shang's body came to a sudden stop. His eyes were filled with shock. The power of the wind and clouds came roaring, and clouds appeared in the sky around him, sealing the space around him.

Under this wind and cloud Palm, he actually felt an irresistible feeling. This was something that had never happened in tens of thousands of years.

"Be careful!"

Rain roared and rushed up hysterically. He had also felt the power of the palm. With Shang's current cultivation level and injuries, there was no way he could take it.

But he was still a step too slow.

"BOOM!"

The demonic runes in front of Yi were annihilated like paper, and his entire body was thrown far away, spraying a long trail of blood in the sky.

"Lord Shang!"

Li, Fu, Yi, and Yu all roared. Li was the one who had preserved her strength the most. She turned into a beam of light and chased after Shang.

Fu Jian was greatly stimulated by the fact that Shang had been sent flying. His body was empty and had no primordial Qi left, but he suddenly felt a burst of anger and forcibly raised his cultivation level, then roared and rushed at Yunxiao.

On the battleship, Qing Luo's eyes narrowed as she hurriedly ordered, "Face that demon and kill him! My three lords, let's attack together and kill this man!"

Fu's axe strike had scared them out of their wits, and it was only later that they found that the other party was already an arrow at the end of its flight. Now, seeing Yunxiao unleashing his divine might above them, they mustered up their courage again. She also knew very well that if Yunxiao had not attracted everyone's attention, these demons would have killed him and then turned to kill her, and no one would have been able to escape.

Ye Fan also said to Feng and Zhu: "two elders, attack as well!"

Now, they were grasshoppers tied on the same rope as Yunxiao, and it was comfortable to watch the battle. If they didn't make a move after the battle ended, it would be inexcusable and they wouldn't be able to answer to anyone.

Feng and Zhu understood immediately, running toward the wing. Yuwen Xun and mu Wu, who had been able to pin down wing, went on a rampage after Shang was sent flying, forcing the two into a corner.

The netherworld battleship emitted a dazzling light. A netherworld attack suddenly blasted out. At the same time, Qing Luo and the other four martial Supremes attacked Fu together.

Fu Yi was determined to kill Yunxiao. When he saw the powerful force coming at him, he gave an unwilling roar and slashed at the warship with bloodshot eyes.

Mr. Yu, who was the closest to Yunxiao, was also furious. He threw his head back and roared. At that moment, his body had transformed into a demon, gradually leaving his human form and beginning to form a demon body.

His body had been severely injured in little Qing's Thunder hell, and all the hidden dangers that he had suppressed with a secret technique were exposed. He began to lose control of his body and kept transforming into a demon body. Soon, he had turned into a huge demon covered in long gray fur and with two arms as thick as mountains. Roaring furiously, he lunged at Yunxiao.

“Eh, he actually returned to his ancestors?”

Yunxiao sneered, but his face gradually turned cold. The murderous aura around him spread out as he said in a cold voice, “Yu, I lost to you twice. This time, I’m going to get back at you. Don’t say that I’m bullying you because you’re injured!”

Rain’s power after turning into a demon had even exceeded that of her normal human form. However, her mind had fallen into a kind of madness, and her eyes were misty, with only killing intent.

The mountain-like fist smashed down with pure physical strength, giving off a feeling of shaking the heavens and earth!

Yunxiao looked at him coldly, and the fighting will in his body rose to its peak at this moment. He had seen the battle of the physical body and the imperishable golden body, but he had never taken a step back!

He raised his arm slightly, and a Green Dragon pattern appeared. A terrifying demonic Qi spread out. After being nourished in Yunxiao’s soul and obtaining the soul power of the Kunwu Divine Tree, the demon Dragon had recovered about thirty to forty percent of its strength. At this moment, the power of the two combined was enough to break the sky and crack the earth!

soul battle technique-*Dragon-breaking fist!*

The entire sky was filled with demonic aura. Not only the rain, but even Yunxiao seemed to have been demonized. Under the influence of the demonic Dragon, the aura around him became strange, and a terrifying Dragon’s Shadow emerged behind him, opening its mouth and roaring.

The Dragon’s Roar soared into the sky and resounded through the nine Heavens!

Rain’s body trembled. Not only him, but even Yi Hefu felt a huge wave in his heart. A trembling feeling that came from his bloodline surged up in his heart.

The demonic Dragon was the descendant of an ancient true dragon and a great demon. Although it was only a soul, its soul contained a proud Dragon Qi and the pressure of a great demon, which was extremely powerful to the members of the demon clan.

Only by stepping into the nine Heavens realm, condensing the Emperor Qi, and becoming a Nine Heavens martial sovereign could one ignore the pressure and fear of the inheritance in the bloodline.

“BOOM!”

The two fist winds collided, and a terrifying force squeezed on the two fists. The surrounding space was constantly shattered, and a dark hole appeared.

They were actually evenly matched!

But in this stalemate, the advantages and disadvantages were immediately revealed. Yu’s body was slowly losing its support and was showing signs of collapse. Although Yunxiao was also gritting his teeth and his face was pale, he became more and more courageous as the battle progressed. His tyrant body tempering technique directly absorbed part of his opponent’s attack and transformed it into his own strength. After a long time, the winner was obvious!

“BOOM!”

Mr. Yu’s Mountain-like fist shattered, and he howled in pain. His entire arm exploded, and blood splattered everywhere.

“Dong Dong Dong!”

All of a sudden, a series of earth-shattering war drums reverberated. Every beat shook everyone’s heart, like a heavy hammer strike. It made everyone’s qi and blood surge, as if it was about to burst out of their bodies.

Some of the weaker Warriors on the netherworld battleship were knocked unconscious by the sound of the war drums. Some of them even vomited blood and went into a state of madness.

After shattering Yu's arm with a punch, Yunxiao was also exhausted. The demonic Dragon's figure turned extremely dim and returned to his body. The war drums beat, shattering his eardrums and making his body feel like it was about to collapse.

He looked over in shock. In the distance, Li's face was cold. A huge battle drum appeared in the air. Her right hand kept hitting the drum, causing the world to tremble with every hit.

Shang, on the other hand, was being massaged by one of her hands, and his death was unknown.

'But I don't think he's dead.' Yunxiao's eyes flickered. 'If he's dead, he would not be so calm.' A miniature version of the dynasty Bell appeared in his hand, and he began to ring it gently, isolating the sound of the war drums from the surroundings.

"Come back!"

Li shouted softly. As the sound of the drum spread, it still reached everyone's ears clearly.
