

## The Eternal 441

### Chapter 441-soul slave

Ye Fan closed his eyes and faced the wind on the demon plain. He seemed to smell an unusual aura and said, "Big brother cloudsky, Noah's ship must be in front. The feeling of the key is getting stronger and stronger. If Tang Jie has the Yang key, I'm afraid he would have felt it."

"Then what are we waiting for? Tang Jie will definitely be at the place where Noah's ship will appear, waiting for the people with the yin key to appear. With them opening the way in front, we can save a lot of trouble."

Yunxiao smacked the Tigerking chariot with his palm, and it turned into a beam of light and sped away.

.....

At this moment, the netherworld battleship, which had just separated from the group, flew in the air for the time it took to brew a cup of tea. Its speed became slower and slower, and finally, it came to a stop, quietly floating in the air.

It was quiet on the battleship, and a kind of terrifying and cold aura spread out. He actually couldn't feel the life of a living person.

At the entrance of the stairs leading to the inside of the battleship, there was a flickering green light.

In the large control room, the ground was covered with corpses. These corpses all had frightened expressions, but they were all clean and had no scars. Only Qing Luo was covered in blood. She looked at the five men standing in the middle of the corpses in despair. They were all dressed in the same light blue jacket and looked a little strange.

A terrifying green face was devouring all kinds of struggling souls in the sky above the control room. The souls' faces were extremely distorted and afraid, but they were all sucked in by the green face one by one. A few souls were slightly tougher. If one looked carefully, they could be recognized as the three martial honors from the Empyrean one Pavilion. However, they were all swallowed in just a few breaths.

The green-faced man's big mouth was still chewing, and his empty eyes gradually showed some color. He looked at the people below and glowed green.

The man in the lead was Zhang shaotian. He snorted and laughed, " how greedy. I've replenished so much at once. How far am I from level nine? "

He walked straight to Qing Luo and smacked her forehead in despair. Her head immediately burst open like a watermelon, and her brain matter splattered all over the wall.

The green face's eyes glowed with an intense green light. It sucked with all its might, and a pale yellow light was directly sucked into its mouth, which it began to chew.

At this moment, his face also began to change. Golden spots appeared within the light green light, and the quality of his face continued to increase.

eldest senior brother seems to be advancing to tier 9!

A Junior Brother looked at the golden light in the face in shock. It was the sign of their soul slave breaking through to the ninth rank.

Zhang shaotian was also very surprised. He was pleasantly surprised and a little nervous. The four junior brothers all looked envious.

It must be known that the soul Devourer sect was extremely strict in the management of Soul Absorption, and the competition was extremely cruel. Among the disciples below the rank of martial Supreme, there were very few whose soul slaves could advance to the ninth rank. The reason was that there was a huge restriction on the absorption of souls. It was also to prevent the sect from becoming the target of public criticism on the continent.

Zhang shaotian didn't expect to get such a huge benefit from coming out. The other four Shidi also began to prepare their own thoughts. They had not yet obtained any benefits.

“Eh? The evolution has ended. It seems like it’s still lacking a little. It’s not enough!”

Zhang shaotian’s mouth was wide open and his face was full of disappointment. He watched as the change was about to end. The golden light on the green face also began to retreat.

A Junior brother’s eyes flashed with jealousy as he said, “ eldest senior brother, don’t worry. There are still so many strong people in the demon Plains. If we catch two more martial honors and throw them in, we will definitely advance.

“Yes.”

Zhang shaotian looked at the ceiling and his face returned to normal. “Indeed, if there are two more martial Venerables, it will definitely not be a problem. Am I right, Junior Brother?”

The junior Brother was stunned and felt that Zhang shaotian’s words were wrong. He raised his head and saw a pair of eyes filled with killing intent.

“Eldest senior brother, what are you doing!”

He screamed in horror and felt a pain in his neck. Zhang shaotian’s finger had already been inserted. With lightning speed, it struck at the throat of another Junior Brother. The junior Brother was also stunned and directly suffered a fatal blow.

“?!”

The remaining two people instantly felt a chill run down their spines. They hurriedly took a few steps back and became alert. The person on the left shouted in shock and anger, “ eldest senior brother, what are you doing?!”

Zhang shaotian sighed and said, “ Don’t be afraid, my two junior brothers. It’s enough.” He cast an incantation seal into the green face on the ceiling. The green light in the eyes of the face glowed again, and the souls of the two junior brothers were sucked in.

Zhang shaotian said, "this soul slave is about to successfully evolve. I really can't wait any longer." My two junior martial brothers, I'll leave the items and soul slaves on them to you. I'm sure you two don't have a good memory from what happened just now."

The two junior brothers "faces paled. Looking at their companions who had been fighting with them just now, they felt a chill run down their spines.

However, they were the best of the best who had survived the brutal training of the Soul Eater race. After a short moment of grief, they immediately regained their cold expressions.

my two junior brothers are very talented and have a bright future ahead of them, " the man on the left sighed. I didn't expect that they would die at the hands of the enemy on their first mission.

The man on the right also said regretfully, "everyone is bound to die. My two junior brothers have died a worthy death." Let's not be sad. We should turn our grief into strength and complete the mission under the leadership of eldest senior brother."

After the two of them finished speaking, they rushed to the left and right and plundered everything from the two corpses. If his own soul slave were to be devoured, the effect would be much stronger than that of a devouring expert.

Zhang shaotian looked at them coldly and snorted. He then focused on the soul slave on the ceiling evolving.

After devouring the two martial Supremes, the green face changed again. The golden light spots that were about to dissipate reappeared and filled the sky like Starlight. The face continued to wail in pain, and it gradually turned golden. Its green eyes also became sharp and turned golden.

"Haha, you've advanced as expected. Hahahaha!"

Zhang shaotian couldn't suppress his ecstasy and laughed out loud.

After the face turned golden, there was a cold light in its eyes. It stared at Zhang shaotian for a moment and opened its mouth as if it wanted to devour its master.

Zhang shaotian didn't mind and continued to smile happily. He repeatedly praised, "Not bad, you're at the ninth rank as expected. Once a soul slave advances to the ninth step, it will develop its own intelligence. The higher the intelligence, the more powerful it is. I like your ferocious look." His voice suddenly turned cold. however, a soul slave will always be a soul slave, " he snorted. since you're a slave, you have to do your part!

Zhang shaotian didn't move at all. With just a thought, the Golden Soul slave's pupils suddenly twisted and it screamed in front of him, begging for mercy.

"Hmph, Do you understand now?"

Zhang shaotian took out the soul devouring flag and swept it over the soul slave. The soul slave screamed in pain and was sucked into the house.

congratulations eldest senior brother for successfully refining a ninth-rank soul slave. When you return to the sect, you will be promoted to an elder!

The two junior brothers stepped forward to flatter him.

Zhang shaotian was in a good mood and said, "just focus on following me in the future. I won't mistreat you!" This soul slave had just advanced to the ninth rank and was still very weak. It also needed a large amount of supplements to nourish itself. This demon land was simply heaven! Hahaha!"

The other two junior brothers swore their allegiance, but they were extremely depressed in their hearts.

He had thought that it would be his turn to enjoy himself now that he was a rank-9 soul slave. In the end, he still said that he was weak and needed a lot of nourishment. It seemed that if she followed this person, she wouldn't be able to eat big fish and meat. She could only pick up the leftovers. However, the two of them had also benefited a lot from the soul slaves of their two junior brothers, so they had nothing to complain about.

“Eldest senior brother, should we go after money sect or those few fish that escaped from the netherworld battleship?” one of the junior brothers asked.

When Zhang shaotian heard this, a cold light flashed in his eyes and he said, ” “Catch the fish that escaped the net! That kid has too many treasures on him, especially that purple cauldron. It has already exceeded my understanding of ninth tier profound armaments. It is at least a peak ninth tier profound armament!”

“?! The peak of the ninth step!”

The other two people were both shocked and looked at each other in horror.

On the entire continent, apart from Noah’s ship, the most powerful profound level weapon was the peak of the ninth level, and the number was extremely small. The soul Devourer race had one in their sect master’s hands, and existences of their level had only heard of it.

Zhang shaotian’s face became colder and colder. He excitedly said, ” “In addition to the purple cauldron, you can see that there are many ninth-ranked treasures. Those are all yours. As long as you follow me loyally, I will definitely not mistreat you!”

“Many thanks, eldest senior brother!”

The two of them hurriedly thanked him with great joy.

Zhang shaotian took out a small round ball and threw it into the air. He threw a few seals into it.

Rays of light shot out from the small ball, and various scenes appeared in the surroundings. They continued to spread and expand, and it turned out to be a kind of full reality projection.

although the demon Plains is vast and boundless, there’s nothing in the Western regions that my Soul Eater race can’t control.

Zhang shaotian kept spinning the small ball, and the entire demon land flashed in front of them. In the light projection, a white mist appeared. The spiritual energy was pressing, which was very different from other places.

He pointed at the misty area and said, " this should be the water Moon Mirror flower created by the ancient evergreen tree. That treasure boy must have followed the people of the four extremes sect to this place. after we get the treasure, I'll absorb all the people from the four extremes sect. When we return to the sect, I'll be able to have a seat among the elders. Your soul slaves can also be refined to the peak of the eighth rank. They'll serve me better!

With a wave of his hand, the small ball was kept into his bag.

The three of them turned into rays of light and flew toward the water Moon Mirror flower. The netherworld battleship, which was worth cities, was abandoned there, and it fell when its vital stones were used up.

Chapter 442

?

442 Flower in the water Moon Mirror

Yunxiao's Tigerking chariot sped through the air, and he saw all kinds of corpses and wreckage of battleships along the way. It seemed that in addition to the merchant Union, many forces in the Western Region had also entered the demon land, but most of them had already fallen.

Moreover, there were very few corpses of five elements spirit devouring rats on the road, and those deaths were all caused by humans.

Very quickly, as they advanced, the spirit Qi became more and more concentrated. It was as if there were spirit mountains, great rivers, or spirit veins that were exposed to the earth in front of them. Spirit Qi was constantly overflowing.

what is this place in front of us? this level of spiritual Qi is enough for a big force to set up their own sect.

The earthen jar was shocked. The spiritual Qi that was coming at them was so dense that it was even denser than the sacred fire temple's hidden place.

Yunxiao's expression was grave. This place seems illusory, and the spirit Qi is faintly discernible. It seems to be a place where the real and the illusory are combined. Places like this are often protected by extremely strong arrays and restrictive spells. Everyone, be alert.

Ye Fan was shocked, he started to be extremely careful.

Yunxiao, on the other hand, had another thought in his mind. He materialized in the divine realm tablet and reached out his hand, grabbing Lil Wu, who was about to escape. A baby about three or four months old was struggling in his hand, his eyes full of hatred.

"Haha, stop it."

Yunxiao ruthlessly patted his young head and laughed. "How many years have you been an old monster? Why are you still acting so cute? You won't suffer if you follow me. It's just extracting some soul power, I'll compensate you sooner or later."

Lil Wu's face was filled with disbelief and he was still peeved.

"How many benefits have you gained from this divine realm tablet?" Yunxiao comforted him. "Without my true Phoenix Fire and breathing earth, you wouldn't have been able to transform even after thousands of years. Everyone was in the same boat, so they would all suffer together and rise together. Hurry up and tell me, is this place created by the ancient evergreen tree?"

Only then did Lil Wu stammer, but his voice was still as tender as a baby's. He said, "It should be. His aura is everywhere here. Is his main body about to die?" His voice was filled with shock.

"It's such a huge existence," Yunxiao said. "Even if it were to die, it would take thousands of years to do so."

After he confirmed it, he disappeared from the divine realm tablet and his divine sense returned to the Tigerking chariot. He felt the spiritual Qi in the sky and carefully absorbed it.

Everyone in the temple of Holy Fire was speechless when they saw him. He told others to be careful, but he started to cultivate as if there was no one else around. This kid really knew how to make use of time!

Yunxiao, on the other hand, had a complicated feeling in his heart. Even divine trees like Xiaowu and Xiaoqing, who had been standing on the earth since the beginning of the world, could not escape the fate of falling in the end. Since ancient times, who could be immortal?

How many peerless geniuses had pounced forward, wave after wave, to the end of the martial Dao, the path of the divine Dao, but how many of them had ultimately become gods?

At this moment, he was somewhat dispirited.

The aura on his body also withered along with his mood, as if he had a kind of unstable state of mind.

“Stay calm!”

The demonic Dragon suddenly let out a loud roar from the depths of his soul. His originally pure soul was tainted with a faint black gas. The Dragon Qi on the demonic Dragon’s body burst out in his spiritual sense and expelled all the black gas.

Yunxiao’s body trembled as he suddenly woke up, his eyes filled with horror.

“What’s going on?” His heart trembled. He had actually been in a trance at that moment. This was absolutely impossible for a martial artist, especially one with a firm heart like him!

The demonic Dragon’s face was also very serious.”It seems to be the birth of an inner demon!”

“Inner demons?”

Yunxiao's eyebrows rose as he looked incredulous and said, "Isn't that the mental demon barrier? How could there be a physical form of demonic Qi?"

The demonic dragon's eyes were also filled with confusion. "Could it be related to your demonic sky armor? After all, I've never heard of a profound level weapon refined from demonic Qi. And that armor is one of the five profound level weapons used to suppress di Jia. Di Jia looks like a 'demon' in the rumors!"

Yunxiao spread out his palm, and the demonic sky armor appeared in its miniature form, emitting rings of fine demonic energy.

This kind of demonic Qi was not strong. It was very different from the one that appeared on di Jia and the one he had seen in the tiandang mountains in his previous life. The former seemed to be of a lower level and was just a type of power, while the demonic Qi of the latter seemed to be able to erode everything and make one fall into eternal damnation.

don't underestimate the inner demon," the demon Dragon said. besides, the signs that appeared just now made me feel that something was wrong. It's best to use the devil Sky armor as little as possible.

Yunxiao put away the demonic sky armor and began to ponder.

He had Donghai's moon Pearl on him, so he should not have been affected by his inner demons. Moreover, he had the bright moon divine body, which could purify all negative energy. The demonic Qi was so powerful that it could be seen.

The surrounding spiritual energy was getting thicker and thicker. Ordinary people would definitely not be able to see their fingers when they stretched out their hands. Even for martial artists, their vision had also narrowed by a lot.

Ye Fan suddenly said: " does everyone notice? we seem to be walking in the same place? "

Yunxiao's heart skipped a beat. how can that be? Why would you have such a thought?"

Even with the sharpness of his spiritual sense, he did not find any problems, and the others also revealed puzzled expressions.

Ye Fan looked around, frowning: " "Along the way, the connection between Noah's ship and me has been getting stronger and stronger, but it's dense here, and that connection has always maintained a certain distance. As we continue to move forward, it hasn't changed!"

His words immediately attracted everyone's attention, and they began to observe the surroundings.

However, the entire demon land was a boundless grassland. There was not even a single point of reference, and he had no idea where he was.

Yunxiao was also standing at the front of the chariot, spreading out his divine sense to the maximum, but he did not find anything unusual. However, Ye fan's senses could not be wrong, so he had to pay attention to it.

After a long time, they still couldn't see anything, and everyone couldn't sit still.

we are indeed walking in circles," Yunxiao suddenly said. we're in trouble now.

"How did you find out?" Feng Zhu was shocked. Have you found a reference?"

Yunxiao's face was calm as he shook his head and said, " "There's no reference. you can feel that the spiritual Qi is getting thicker and thicker on the way here, but it's been so long, and the density of the spiritual Qi is indeed uniform. Only when we reach the core of the spirit vein would it spread out so evenly, but this is clearly not the case. Also, there were so many corpses along the way, but after entering this area, he didn't see a single one. In other words, we've fallen into an illusory formation."

The jar took a look at the flying formation on the Tigerking, pointed at it, and said, " but the vitality stones have been worn out, which proves that we have been flying for a long time. If it is an illusion formation, the chariot should be staying in the same place, and the vitality stones won't be worn out, right? "

we are indeed using primordial stones to fly, " Yunxiao said with a headache. and we are indeed in the same place. This was an illusory formation that combined reality and illusion. This kind of illusory formation was not something an ordinary person could set up. Even the seven superpowers might not have one. This is because this kind of formation has its own spirit!"

"Self-formed spirituality? What do you mean by that?"

"You mean the formation has a spirit?" the jar was stunned.

everything has a spirit, " Yunxiao said. formations are also one of the things in the world. As long as the Dao of evolution reaches a certain level, it can produce a spirit. However, this is not the case here. This formation is most likely formed from the true form of the ancient evergreen tree."

The people of the temple of Holy Fire all felt it was ridiculous. Ye Fan also said in disbelief, " "How is this possible?"

Yunxiao seemed to remember something, and his eyes dimmed as he recited, " "Nothing is impossible. And I finally remember that the martial sovereign, Teng Guang, once said proudly that he had set up seven beautiful and wonderful formations in the realm of heavenly martial arts. I remember one of them was called 'Water Moon Mirror flower'! "

"You, how did you know?" Ye Fan was shocked, he said in surprise, 'this means that this formation was set up by the martial sovereign, Teng Guang? This Kasaya, how do we break it?"

don't panic, " Yunxiao said. the array he has set up may not be powerful.

Everyone's face was filled with black lines, and pottery said with a crying face, " "A formation set up by a martial Sovereign King level expert might not be powerful? Don't tell me you're more powerful than him."

Yunxiao stopped the chariot and began to look around as he explained, " "He's purely interested in the study of formations. It's not that the more powerful it is, the more interesting it is. This Water Moon Mirror flower is definitely one of those interesting but not very powerful ones."

"I hope so," terrine replied. We don't know anything about formations, so we're counting on you."

All the people of the temple of Holy Fire looked dejected as they stared at Yunxiao. However, after hearing that this formation was set up by a martial Sovereign King, they seemed to have lost all hope.

Sure enough, after observing for a while, Yunxiao said, "I can't see any clues from this formation, I can't break it."

what?" Ye Fan also felt dizzy. big brother Yunxiao, what should we do now?"

don't panic," Yunxiao said. just sit down and cultivate with peace of mind. Now, we can only wait."

"Wait?"

Everyone's eyes bulged, and Feng Zhu said, "Will the formation break by itself if we wait?"

Yunxiao smiled. of course not. Don't forget, everyone. We're not the only ones here. We're waiting for them to break the formation! Although Teng Guang's formation is an array within an array, all of the arrays linked together but also independent, as long as a flaw appears in the entire formation, I can definitely find it and break it!"

His very calm appearance made everyone more or less put down their worries.

Feng Zhu couldn't help but ask,"you're so sure that others can break it?" If we can't even break it, are we going to be trapped here until we die?"

Yunxiao gave him a look and said, " don't worry. If you can't break it, just stay here and cultivate. The spiritual Qi here is pretty good. When everyone breaks through to the peak of the martial Supreme realm, one move will be able to break through ten thousand techniques. Any formation will be turned to dust."

Chapter 443

?

#### 443 The rhythm of spring

Hearing what he said, everyone's face suddenly darkened, and their hearts, which had just calmed down a little, were in suspense again.

Ye Fan was also vexed and said, "big brother Yunxiao is right. There's no use in panicking. The spiritual Qi here is better than in our temple of Holy Fire, so you should hurry up and cultivate." Although he said so, he couldn't calm down at all. The aura was constantly calling him, and he felt extremely irritated.

Yunxiao gave him a glance, smiled, then closed his eyes and began to cultivate.

Teng Guang's formation skills were so high that if he got serious, ants like them wouldn't even be able to touch him. They could only hope that this place was one that was more of a novelty and did not have much power. Otherwise, everyone would have to bear the consequences.

.....

"What is going on here? He was getting more and more lost! In the beginning, there was still a direction, but now there's no direction!"

"Oh no, could this be the legendary ghost realm?"

the illusionary realm that we can never get out of? "

"I've often heard of people who can't get out of this situation, but after a certain period of time, they can get out by themselves. After this theory became common, that place was called the ghost realm. Did we really encounter it?"

"I originally thought that it was an illusion or a natural illusionary formation caused by the weather and that it would dissipate with the change in weather. It seems that this is not the case. This place should be an extremely powerful formation!"

The two members of the rainstorm mercenary group followed young Emperor haolian. They felt that their target was becoming more and more absent-minded. His aura was faintly discernible, and he was about to disappear from their sight. The more they walked, the more suspicious they became.

Chen chuanjiu's expression was extremely ugly. It was right next to his own force. He thought that he knew the demon Plains very well, but he did not expect that there was such a magical place.

For so many years, there had been no such information. There were only some insignificant rumors with different rhetoric, and they had never been taken seriously.

Now, it seemed that this place was not simple.

"No matter what kind of formation it is, since it has existed here for a long time, there's nothing to be afraid of," he said in a deep voice. If we can't get out, that kid can't get out either. Just don't lose him!"

Their goal was to kill young Emperor hao lian. They didn't care about anything else as long as it didn't threaten them.

Their figures kept flashing in the illusion, locking on to the aura in front of them, not daring to relax.

Young Emperor hao lian's doubts grew. Although the people behind him couldn't catch up, he felt that something was wrong. It was as if they couldn't reach the end.

He finally stopped, and a bright light flashed in his eyes. He shouted into the air, "Who is it? Since you've lured me here, could it be that you're going to trap me with a formation?"

His voice was extremely loud and spread far and wide, but the two people following closely behind him acted as if they didn't hear him.

In the center of the formation, Xiao Qing's sword-like eyebrows twitched slightly, and a knowing smile appeared on her face. She said, rat Emperor, your seduction is too clumsy. He has already seen through it.

The rat Emperor's voice came from the air, " "So what? isn't he coming over?"

"En, that's a daoheart that's fearless. He's wandering around the peak of the eight desolation realm. If he doesn't dare to come forward because of fear, he'll never be able to break through!"

With a single thought from little Qing, the entire formation began to change.

The fog around young Emperor hao lian suddenly parted like a curtain, revealing a Green Mountain and clear water. There were birds in the forest, and a stream flowed with a "ding-dong" sound. Flowers bloomed all over the mountain, and immortal music lingered in the air. It was a sacred place.

Moreover, the sound of water flowing in the forest spring made a splash of water vapor, which hit his face.

Young Emperor haolian reached out his hand and felt it. Tiny dewdrops appeared on his palm, and his skin felt cool and refreshing.

His face became serious. There was no such place in the demon Plains. The place in front of him was 100% an illusion, but it was so real, as if he was in it. In a situation where he knew it was fake, he couldn't distinguish any flaws.

The person who set up the formation had a profound technique that far exceeded his imagination.

But since the other party had guided him here, he would not have any ill intentions. Otherwise, he only needed to activate the formation to stop him and let Chen chuanjiu and the other two catch up to him. Then, he would be in danger.

Thinking of this, he stepped into the green Mountains and clear waters.

The two people behind him also noticed the change in the scenery in front of them and quickly rushed up in shock. After stepping into the green Mountains and clear waters, hao lian shaohuang's figure began to become absent-minded, as if he would disappear at any moment.

squeak, squeak, squeak ~”

All of a sudden, a large number of flying squirrels appeared out of nowhere and filled up the space, attacking the two of them.

Moreover, an extremely powerful force seemed to have come from the sky. No one could find its source. It appeared out of thin air and fell on Chen chuanjiu’s head.

“What’s going on?”

In his shock and anger, Chen chuanjiu expanded the domain on his body. All the flying squirrels around him froze in the air. The wings of light on his body flapped continuously, but they were unable to get close.

“Explode!”

die! he shouted angrily, and all the flying squirrels within a ten-meter radius exploded into a mist of blood. Then, he grabbed at the air and destroyed the attack that was coming from above!

it’s demonic Qi! The one who attacked is a demon!

He frowned and suddenly raised his head, shouting, ” “Not good, quickly chase!”

Shaohuang haolian had already turned into a faint figure. Not only that, but the Green Mountains and clear waters also became hazy, and the misty sky was pulled down.

“You dare to trick me! Heavenly ancient bronze sword, break!”

Chen chuanjiu was extremely furious. The broadsword in his hand, which was as wide as a washboard, slashed down from the sky. The entire sky screen was stunned, and it seemed to be retreating. Ouyang Qi immediately attacked as well. He threw a punch at the sky and finally collapsed it!

The scenery in front of him shattered like glass, turning into fragments. A Green Mountain and clear water appeared.

Young Emperor haolian's figure was slowly walking on the mountain path.

"Chase!"

The two of them turned into rays of light and rushed over.

Qing Zhu's eyes were completely open, revealing a clear look. It snorted, the mirror flower of the water Moon contains the power of spring, summer, autumn, and winter.

He stood up, and flowers bloomed in the warm spring.

Jiang Liushi doesn't turn, the rhythm of spring!

Qing Zhu gently pointed its finger forward, and the green of spring immediately flew up, filling the sky with flowers.

Spring came. The plants sprouted, the willow trees spread their branches, the plum flowers bloomed, and the peaches bloomed.

Chen chuanjiu's face was as gloomy as water as he looked at the changing scenery in front of him. The broadsword in his hand slashed down with great force, trying to split the sky apart!

As he swung his sword again and again, the green world in the spring-filled sky began to fade away.

With the power of a peak martial honor, he could already use the rules to change the world.

The spring green color around little Qing also began to decrease, but he didn't care at all. He smiled lightly and the seals in his hands began to change.

Suddenly, the rat Emperor's flustered and exasperated voice came from the sky, "Little Qing, quickly open the Four Seasons barrier and let aqua blue in!"

The space in front of him dimmed, and the huge body of the rat Emperor appeared in front of him.

Qing Zhu frowned slightly and sensed the situation outside the enchantment.

Somewhere in the rhythm of spring, the sky full of green had long been replaced by blood, and the screams of the five elements spirit-devouring rats could be heard everywhere.

The two men walked steadily on the Green Mountains and clear waters. A golden defensive barrier appeared around them, and the spirit rats immediately turned into a mist of blood upon contact. However, they were still like moths to a flame, constantly crashing into it.

Among the many spirit rats, there was a larger aqua-blue Spirit rat with blue eyes. It stared at the two people's footsteps and kept retreating. Its light blue fur was actually filled with pure blue blood. It was like paint, covering its entire body.

A large number of spirit rats protected it in the center like stars surrounding the moon, retreating towards the depths of the watermoon mirror flower.

The two men looked cold and their faces were pale.

The two of them were not good people, and their pale faces were not because they had exhausted too much of their vitality. Instead, he had slaughtered countless five elements spirit devouring rats along the way, so much so that he was starting to shiver.

"Che xuyao, how long are you going to keep killing like this? I'm a little scared!"

“We have to kill him even if he’s scared, or else what? If the ancient evergreen tree doesn’t open up a passage to the watermoon mirror flower, we won’t be able to break it.”

“Hmph, I don’t believe that we can’t break it if we combine our strength!”

“Of course, you can destroy this formation by force. However, don’t forget that this is an illusory formation set up by a martial Sovereign King using the true body of the ancient evergreen tree. If you and I forcefully destroy it and the king level expert finds out about it, he will be unhappy. Hmph, can you bear the responsibility?”

“Damn, what a headache. So many of its own kind had died, and the last Rat King was right in front of them. Would the Rat King really be able to stand it? Why didn’t you open the passage at this time?”

“Let’s kill for a while more. Didn’t the mist just dissipate? It’s just that the illusion here is more realistic, and even we can’t see the real situation. If we really can’t do it, we’ll first capture this water type Rat King and refine the five elements beast taming ring!”

One of them flicked his finger, and a large number of spirit rats that rushed above the defensive barrier exploded into a mist of blood. The two of them walked step by step toward the Water-type Rat King.

“Little Qing, quickly open the barrier!”

The rat Emperor hobbled toward Qing Zhu and roared. The hair on its body stood up, and it looked very fierce.

The seals in little Qing’s hands became stronger and stronger, but her face remained indifferent. She said, “Rat Emperor, don’t panic. The two of them were martial sovereigns of the ninth heaven. If he had wanted to capture Shui LAN, he would have done so long ago. If I’m not wrong, their target is either you or me. If the Four Seasons barrier is broken and a large number of cultivators rush in, you and I will both be in danger!”

“I don’t care, the five Element Rat King is only left with Shui LAN, we have to save him no matter what!”

The rat Emperor's aura pressed toward Qing Zhu, and it said with hostility, "Open or not?"

Chapter 444

?

444 The encounter of martial Supremes

Qing frowned and said, "rat Emperor, you've lived for thousands of years. Why are you still acting on impulse?" The two of them didn't capture Shui LAN because they wanted to force us to open the barrier. If we let them go around the Four Seasons barrier, do you think we can stop two martial Supremes with just the two of us? At that time, not only will Shui LAN be captured, but you will also be under the control of the nightmare beast. At that time, your billions of children in the demon plain will become sharp weapons in the hands of others."

The rat Emperor calmed down at once, but he still said angrily, "Then what do you think we should do? And let them kill my children?"

Qing said, "we can only sacrifice aqua blue to stop your children from attacking. This will reduce the number of unnecessary casualties." I'll absorb the rule force and Emperor Qi of the nine Heavens when young Emperor Lilian advances to a martial sovereign. Not only will I be able to recover from my injuries, but I'll also be able to advance to the next level. When the time comes, you'll have the capital to fight them with me in the water Moon Mirror flower!"

The rat Emperor squeaked for a long time, as if it couldn't accept this. However, he was also an existence with intelligence, so he knew that little Qing's words were the correct method. He finally suppressed his temper and passed down the order.

A large number of flying squirrels in the rhythm of spring suddenly scattered in all directions. Some even retracted their wings and burrowed into the ground.

In the blink of an eye, only the blue rat King was left. It stood there alone, staring at the two people in front of it, its eyes full of hatred.

"What's going on with Yingluo?"

The two of them were stunned. One of them said in a deep voice, " "Could it be that they really gave up?"

Che xuyao's face turned even colder, he said, " "It's highly possible. The Rat King isn't an idiot. With the two of us working together, it won't be able to escape. He's abandoning his men to protect himself."

"In that case, let's refine this Water Rat King first."

The other person revealed a trace of ridicule and said, " "The worst case scenario is to break this illusory formation. We're just carrying out our mission. Even if the king level master is angry, the sect will bear the consequences. What does it have to do with us?"

He reached out to grab the aqua-blue rat King, and the space around him was sealed, making it unable to move.

The blue water Rat King's eyes were filled with fear, but the space around it had been locked, and it couldn't even shake. A look of despair appeared in its eyes, and it saw a copper ring falling toward it.

The Five Bells on the copper ring jingled, leaving only one empty ring that enlarged in the air, turning into a cage.

"Little goody, go in."

The man smiled coldly, and the Aqua blue rat King felt a suction force pulling it in.

At that moment, five different colors appeared on the beast enslavement bracelet and gave off light in the air. They reflected each other and only these five colors could be seen in the sky. They complemented each other and spread out in all directions. The illusion of spring also retreated.

.....

Just as the two experts of the myriad Star Valley were refining the five elements beast taming ring, a man in luxurious clothes was also walking through the water-Moon Mirror flower a few miles behind them. The surprise on his face was getting more and more intense. There was a huge Pearl on his belt, which made him look very generous.

Suddenly, a five-colored light appeared in front of him and shot up into the sky. Under the impact of the light, the surrounding illusion became unreal.

He suddenly stopped and his pupils shrank. He raised his head to look at the flashing light in the distance and muttered, "This light is so bright that it looks down on a ninth tier profound armament? Could it be that someone was forging here? But how many people in this world can refine ninth tier profound armaments?"

His heart was filled with shock, and with a flash, he used spatial bending and crossed several miles in an instant.

"Who's there!"

Che xuyao instantly sensed that someone was peeking at him. His eyes darkened, and he threw a punch with his right hand. Whether it was a human or a ghost, he had no interest in knowing. He would just directly explode.

As soon as the man in luxurious clothes spread out his divine sense, he felt a fierce Qi coming at him. He retreated in horror and said, "Bzzzz, Emperor Qi of the nine Heavens!"

Although he was shocked, he didn't panic. He also closed his five fingers together and slashed down like a knife!

A sharp golden blade slashed out from his hand and headed towards the fist radiance.

"BOOM!"

As the two gusts of wind collided, the sky changed color. The surrounding plants and peach flowers were all destroyed. Golden light bloomed on the demon land like the sun, shining in all directions.

“Martial Emperor!”

Che xuyao’s heart twitched and he shouted in shock. He was extremely alert. He took a step forward and stood beside his companion. He stared at the front and shouted, “Who is it? Report your name!”

His companion was sitting cross-legged on the ground. With him as the center, a circular formation spread out. Strange symbols kept flowing out from it, turning into white Qi and dissipating in the sky.

His face also sank as he looked at the five elements beast taming ring in the sky, revealing a dignified expression.

Now was the crucial period of the refinement, and he could not afford to be distracted. Thinking of his companion’s strength, he calmed down a little and continued to devote himself to the refinement.

I’m just here to be a bystander. Please don’t fight. Peace breeds wealth!

The man in luxurious clothes revealed himself from the void with a smile. A serious look flashed in his eyes and he said with a smile, “I’m sun Boat fish. What’s your name, Big Brothers? where do you work?”

Che xuyao’s heart moved and he blurted out, “Myriad treasures store’s sun fish boat? What are you doing here?” A strange expression appeared on his face, as if he had come to a sudden realization. He said, “You’re here for Noah’s ship!”

“Haha, you two must be joking.”

Sun fish boat laughed and said, “How can Noah’s ship be here? I don’t know which wicked person released this fake news. I’m just here to be a bystander and didn’t expect to meet the two of you who are in such a good mood to actually refine ninth tier profound armaments. Tsk tsk, what a great deal, I have never even seen an eighth tier profound armament being refined in my life. It was a feast for the

eyes today. To be able to spend so much money and not dress so strangely, the two of you must be the big Brothers of the myriad Star Valley, right?"

Che xuyao chuckled and said, "It's indeed boring news. I'm che xuyao from the myriad Star Valley, and this is my companion's fief. We're here to do a small thing, please give us some face."

Sun Boat fish rolled his eyes and laughed, "I've long heard of your great name. In particular, this brother Fengyi was known as the number one Beast Tamer below the divine control martial sovereign realm. After seeing him today, he realized that his reputation was indeed well-deserved. Even refining a ninth tier profound armament is a small matter, tsk tsk, how are we poor ghosts going to live?"

brother Yu, you must be joking," che xuyao said. I'm afraid you're just making things up. Moreover, myriad treasures store is the world's number one Chamber of Commerce. If you are also poor, then we really have no way to live."

Sun Boat fish chuckled and began to wrangle with him. The two of them talked nonsense for more than an hour.

The fief Lord sat there with an increasingly irritable face. He was constantly on guard, making it impossible for him to continue with his refinement. Moreover, he had already guessed that the other party must have done it on purpose.

Refining the five elements beast slave ring was not the Orthodox way of refining a ninth-tier profound armament, but using the five elements Rat King as a catalyst to condense the power of the five elements, so that its power could be comparable to the ninth-tier level. Although its attack could not be compared with a real ninth-tier profound armament, it could control ninth-tier demonic beasts and become a great help.

As for the sun fish boat, it continued to wrangle, occasionally shouting a few words, causing the fief to become more and more terrible, and the frustration in its heart to grow.

Che xuyao was also secretly anxious. He tried to drive the other party away a few times, but he was cleverly turned back. Finally, he could not help but pull a long face and said, "Brother Yu, it's not convenient today, but I'll definitely have a drink and chat with you when I come to the myriad Stars Valley in the future. Brother Yu, if there's anything you need, please go ahead."

“Hehe, I’m fine. You guys do what you need to do, don’t mind me.”

“This Suan ni isn’t good. The refining of the beast taming ring in the fief can’t be disturbed at all, so it’s inconvenient for us to talk here.”

“That’s fine. Why don’t we go somewhere else and have a good talk?”

“Brother Yu, let’s not talk anymore. Please give me face and leave immediately!”

“I want to, but what kind of place is this? I feel strange no matter how I walk. I’m afraid I’ll get lost. By the way, this is the territory of the Western Region. Could it be a forbidden area set up by your myriad Stars Valley?”

“Hehe, how can our myriad Stars Valley be so boring? This was an illusionary formation that combined illusion and reality that was set up by the martial sovereign, Teng Guang, back then. It was called the water Moon Mirror flower. Brother Yu, just find a place to stay and it won’t take long for this formation to be broken.”

“Oh?”

Sun fish boat’s heart skipped a beat. After hearing such a strange thing, it was even more reluctant to leave, “It was actually set up by the king level master. Why do you say that it will be broken soon? are you two planning to break the formation?”

Che xuyao’s face immediately turned ugly. If this person knew that they were going to break the formation and spread the news, Teng Guang would come to find trouble with them.

He coughed a few times and said, ‘who dares to say that they can break the formation set up by a King level martial sovereign? We’ve lived in the Western regions for a long time, so we have some understanding of this place. I’m sure they’ll disperse soon, so please leave, brother Yu.’

“I’m really curious. Why did it disperse on its own? Brother che, please elaborate.”

sun fish boat, are you really going to fall out with us?!

Che xuyao finally couldn't take it anymore and shouted.

"Why do you say that?"

The sun fish boat put on an innocent look and said sincerely, "I'm sincerely asking for your advice, brother che. If you agree, I'll leave immediately without any delay!"

"Pfft!"

The fief Lord finally couldn't take it anymore. At this moment, he was filled with irritation and the power of the formation backfired, causing him to spit out a mouthful of blood. His eyes were filled with cold killing intent as he stared at the sun fish boat and shouted, "Argh! I'll f \* ck your whole family, procrastinating your sister! Since you don't want to leave, then don't leave. Stay here!"

He made a move in the air, and the incomplete five elements beast taming ring instantly became bigger and made a loud "ding dang" sound. It was like his state of mind, and it smashed towards the sun fish boat!

Chapter 445

?

445 Barrier of Four Seasons

The beast taming ring flickered with five types of light, and there were five spirit rat kings running around the ring. They were very cute, but their demonic power was sky-piercing and abnormally terrifying.

brother Feng Yi! sun fish boat cried out in panic, "why are you fighting for no reason?!"

However, his eyes were as still as water, without the slightest hint of panic. His hands moved like wheels, forming a seal in front of him, and then covered the sky. The falling momentum of the beast taming ring stagnated, as if it was suspended in the air, unable to fall. The light and shadow of the five rats ran faster and faster, appearing very impatient.

Che xuyao moved as well. He leaned forward and threw a punch at the sun fish boat's face.

Martial sovereigns were usually very careful when they fought. One careless move could lead to death. His punch was mediocre. It was merely a condensation of Emperor Qi and a breakthrough of Dao with force. When the sun fish boat's hands blocked the beast taming hoop, it had no time to receive the attack.

When the two of them joined forces, they didn't need to use their full strength. As long as they could attack and defend, they would be more than enough.

"BOOM!"

The punch landed on Sun boat's face, and che xuyao's pupils contracted. Sun Boat didn't Dodge, and his body was twisted by his punch. He even smiled and disappeared.

The five elements beast taming ring in the sky suddenly lost its resistance and suddenly fell.

The fief Lord was shocked and hurriedly waved his hand, summoning the beast taming ring back and holding it in his hand.

Both of them were extremely shocked and became alert with their backs to each other. Their divine senses covered the entire area within a radius of several miles, guarding against the slightest movement.

The sun fish boat could actually escape from their eyes, which made their faces very ugly.

"Haha, you two are too mean. Since you don't welcome me, then I'll go play by myself. This place is getting more and more interesting."

The sun fish boat's voice came from the sky, and after a few rises and falls, it disappeared from their sight.

The fief Lord's face was gloomy, revealing killing intent. He said hatefully, "We can't let this person live. Otherwise, he will bring us great trouble!"

Che xuyao relaxed his Yuan Qi and said in a deep voice, "You saw it just now. His strength might be above you and me, so how did you kill him? For now, let's first find a place to complete your Five Element beast controlling ring, then we'll have a greater chance of killing him."

"Hmph, I didn't expect that a piece of news would attract a martial Supreme. I originally thought that you and I were the only ones in the demon Plains."

"Hmm, since the sun fish boat can come, there might be other experts. Let's go to another place first. This illusion is too big, no one should be able to find us in any place."

Hmph, when I finish refining the five elements beast taming ring, I'll break this illusion and capture the rat Emperor!

With a thought, the two of them disappeared.

The sun fish boat had already appeared a few miles away, and looking at the endless Spring space, he couldn't help but look excited as he muttered to himself, "this is the power of spring. If it was set up by the king level master, then it's very likely that he used that thing as the eye of the array!

He spread out his divine sense and searched the entire illusionary realm carefully.

.....

big brother Yunxiao, did you find any flaws? "

Somewhere within the water Moon Mirror flower enchantment, as the sky shattered and the scenery changed, everyone from the hall of Holy Fire rejoiced. However, they quickly discovered that the illusion in front of them was not any better than before, and seemed to be much more serious.

Ye Fan could sense that Noah's ship was right in front of him, but he couldn't find the right direction.

Standing on the chariot, Yunxiao looked around, and the look in his eyes grew more and more serious. "Don't worry, I already have some clues. At least I now know the layout of the formation. It's one barrier over another, layer by layer, and I'm sure. Even if the mountains and rivers disappear, there will still be other illusionary realms."

"I've heard of this formation before. It's like a box being placed on top of another box, and the deeper you go, the more powerful it becomes. However, this arrangement was extremely exquisite. If there was a slight negligence, all the previous efforts would be wasted. If it's this kind of barrier, it'll be amazing if you can put on three of them."

"So, if we break this one and another one, we'll be able to get in?" Feng Zhu's eyes lit up.

The earthen jar wasn't sure, so he said conservatively, "I'm talking about ordinary formation Masters. However, Teng Guang is known as the number one formation master, a martial sovereign on the king level. He's much more powerful than them. He might be able to trap five or seven of them."

Feng Zhu's face immediately darkened as he turned to Yunxiao and said, "You seem to have some understanding of soaring light. How many do you think he can put on at most?"

Yunxiao was observing carefully when his thoughts were interrupted by the two. "If Teng Guang were to focus on this kind of interlocking barrier arrangement, it wouldn't be a problem to create about 108000 of them."

"Haha, 108000!" Feng Zhu was stunned for a moment before he laughed. "Do you think he's a God Realm expert? Even if it's the God Realm, there's still a limit!"

Yunxiao gave him a cold look and said, "As long as you grasp the essence of this formation within a formation, you can set it into an infinite number of formations. However, Teng Guang wasn't so bored."

Since this formation was something he was so proud of, there must be something special about it. If I'm not wrong, this should be four environments connected together, a repeated cycle with no beginning or end."

"A repeated cycle with no beginning and no end?"

"What does this mean?" Feng Zhu was shocked. Can't we get out?"

Yunxiao was also a little vexed. "Look at the surroundings, the vegetation is in spring, and the scenery is full of life. This should be the rule of the earth-spring. If I'm not wrong, this is the power of the Four Seasons. It's the four great enchantments, and spring goes and autumn comes, summer falls and winter rises. It's endless! This is in line with his aesthetic!"

"Then what do we do?"

When Ye Fan heard this, his head started to throb, this was already beyond his understanding. The rest of the people were also confused, as if they were listening to a heavenly book.

there are only two ways," Yunxiao said. one is to break the formation by force. We can't count on it. We don't know if there are any other experts trapped in it. Only by breaking the laws of the spring, summer, autumn, and winter earth could he escape. The second is to comprehend the power of the Four Seasons and use the laws of the earth for my own use. I'll be able to transcend and directly walk out of the illusion."

He saw that everyone was still at a loss, so he reached out and patted the chariot lightly. "For example, this is the rule of the earth-spring."

The place he had casually patted actually began to sprout, forming a seedling that grew vigorously. After a few breaths of time, a small flower bloomed, and then it stopped.

"Ah!"

The people of the temple of Holy Fire all had their mouths wide open, looking at the flower in disbelief. Feng Zhu even went up and took it off. He looked at it in his hand and even sniffed it a few times. He said in shock, "What's with Yingluo? You've already mastered the power of spring?"

'I've mastered it before,' Yunxiao said. The reason why I can do it now is because this illusory realm is formed by the power of spring, and I'm just using it casually. Normally, one would have to condense their own nomological rules to do so. How could it be so casual and simple? Besides, even if I have that kind of enlightenment, I'm too weak to compete with the person controlling the illusion. Unless my cultivation is higher than his and I can control the eye of the formation, I can take control of the formation."

Had he mastered it before?

Everyone was stunned and didn't quite understand. However, there were too many things that they didn't understand, so they didn't think about it carefully.

At this moment, little Qing, who was in the center of the array, was greatly shocked. Yunxiao's grab of the power of laws just now was so casual and easy, just like the controller of the array.

Then there was only one possibility, and that was that he had already comprehended the rules of the Four Seasons, which was why he could use them.

At the thought of this, he was completely dumbfounded. The power of the Four Seasons was the law of the earth. If his original body was not the array's eye, he would not be able to control it with his strength!

His confidence that everything was under his control began to waver. Their wariness of Yunxiao even surpassed that of the other martial sovereigns.

"You've said so much, have you found a way out?" Feng Zhu asked.

"No, I didn't!"

Yunxiao shook his head and said, " "But it's not impossible. I've thought of the best way to break the formation!"

"What's the best method?" Ye Fan asked.

Yunxiao stared at him and smiled, but he did not answer. Instead, he began to think.

The war chariot quieted down. No one dared to disturb him. The environment here was no longer something they could deal with, so they had placed all their hopes on Yunxiao.

"What is the best method?"

An extremely impatient voice suddenly asked. The entire Tigerking fell silent, and the atmosphere became tense and heavy.

Because the question just now was not asked by anyone on the chariot!

Feng Zhu's expression changed, and he reached out to grab the space. The space shook and a shadow flickered, gently landing on the chariot. Fluctuations also appeared in two other places, and two figures appeared one after another.

The three of them were wearing light blue Jackets. They were from the soul Devourer clan. Their faces were cold and arrogant. They looked at them from the corner of their eyes as if they were receiving great kindness.

"The soul Devourer clan!"

Yunxiao's eyes flickered. He recognized the outfit at once, and he was shocked.

The soul Devourer clan was extremely mysterious and strange, and the cultivation techniques they cultivated were even more evil. His soul battle techniques were learned from the soul Devourer clan,

and the three people in front of him had suppressed everyone's aura as soon as they appeared. Their strength was evident!

The people of the temple of Holy Fire also retreated instantly and surrounded the three. Everyone was on guard as if they were facing a great enemy. The aura these three people gave them was too cold and powerful. Especially Zhang shaotian, even Feng Zhu and qiguang, the two martial Venerables, felt extremely depressed.

"Hmm, you're quite knowledgeable, kid. Tell me how to break this formation. At that time, I can spare your life."

Chapter 446-strength of Xia

Zhang shaotian and the others had long caught up and wanted to make a move, but they found that the surrounding environment wasn't right, so they endured until now. Moreover, there seemed to be some kind of power in this array that made them extremely uncomfortable, and they became a little irritated.

spare my life? " Yunxiao sneered. spare my life? " The three of you must be joking. Don't you soul devourers love to collect and condense living souls? How come I didn't know that you could show great mercy?"

He crossed his arms in front of his chest and made a small gesture.

Ye Fan and the others immediately understood. They knew that they were going to attack. They lowered their auras and prepared for a thunderous strike.

Zhang shaotian was stunned for a moment, then he smiled and said, " it seems like you have some understanding of our Soul Devourer clan. If you're sensible and submit to me, I can be merciful this once.

Yunxiao smiled, and his eyes narrowed slightly as he said, " "Does Huangfu bi know that you're so awesome?"

Huangfu bi was the sect master of the soul Devourer sect. As soon as Yunxiao said his name, Zhang shaotian and the other two were taken aback, somewhat confused.

“Eye technique-restriction!”

Yunxiao’s eyes turned into blood moons in an instant, and an extremely powerful attack rushed out. The surroundings shook, and the spring scenery changed into a black space that spread out.

“Spiritual attack!”

Zhang shaotian’s heart trembled and he immediately realized that he had been hit. However, he snorted and a green light flashed in his hand. He gently drew in the air and broke the black space.

Their greatest ability was to condense their soul, and ordinary spiritual attacks were not worth mentioning.

Just as the black space shattered, the people from the hall of Holy Fire also attacked. Feng Zhu and Qi Guang attacked at the same time. Their targets were Zhang shaotian’s two junior brothers. The two junior brothers were only one-star martial Supremes. They had just been dragged out of the spiritual space, so they panicked and cried for help.

“Trash!”

Zhang shaotian coldly cursed. If he didn’t need some loyal subordinates, he wouldn’t care about the life and death of these two people. He would step out to save them.

“Power of spring, bind!”

go! Yunxiao cried out softly as he slapped his palm into the air. A large number of branches and vines rushed over from all directions and wrapped Zhang shaotian up. Those branches and vines were very ordinary, but a large amount of aura poured out of them and kept seeping into Zhang shaotian’s body.

“This is a Kasaya.”

Zhang shaotian was shocked. That power made him very uncomfortable. It was almost suppressing his own power and constantly eating away at his body.

The soul Devourer sect cultivated the Art of the Dead, and they were naturally contaminated with death energy. This spring life Qi was a natural counter to them, and they were suppressed to the extreme. This was also the reason why he felt uncomfortable the moment he entered the barrier of spring.

“A mere ant dares to attack!”

The vital Qi in his dantian circulated, and all the spring aura retreated from his body. The vines and branches were directly reduced to powder.

The aura of death spread out and the surroundings immediately became cold. Feng Qi and Wang Lin were also affected. Seeing Zhang shaotian step over, they quickly retreated.

The moment Zhang shaotian was released, Yunxiao squatted down and slapped his palm on the chariot, his fingertips quickly drawing symbols. A stream of power quickly spread out from those symbols and rushed out of the chariot.

The entire chariot suddenly fell into a daze, and Yunxiao’s eyes lit up with joy as he said to himself, ‘I’m not going to let you go. As expected!

Zhang shaotian was shocked. He hurriedly sent out a palm strike. The strong wind shot through the air as fast as lightning, but it was still a step too late. It directly passed through the shadow left by the Tigerking chariot and exploded in the distance.

“Senior brother, what happened? They’ve escaped?”

A Junior Brother said with a lingering fear. Just now, under the sudden attack of Feng Qi, he almost died without being able to take a single move. At this moment, his face was extremely pale. The arrogance from before was completely gone.

“It’s all because of you two useless pieces of trash!”

damn it! Zhang shaotian cursed, "if it wasn't to save you, how could they have escaped from me?! However, he revealed a cold expression, and his eyes flickered with a bright light as he said proudly, "I've already left a mark on the chariot. It'll follow them to break this formation! At that time, we'll capture them and extract their souls and treasures!"

Under the effect of Yunxiao's array, the Tigerking chariot disappeared from the barrier of spring. When it reappeared, it was a desert with no one around.

The scorching sun shot down from the sky, and even the Warriors felt their skin prickling.

"This is Wufu."

Ye Fan opened his eyes and felt a sharp pain. He had some guesses but he couldn't help but ask.

I was right, "Yunxiao said with a smile. This is the barrier of summer. This place is really connected by the Four Seasons. This is really troublesome. If we don't break it, the cycle will repeat, and we will never be able to walk out of this illusion."

"Then what should we do? Didn't you say that you have a good way to break the formation?"

Feng Zhu hurriedly asked.

Yunxiao did not answer, but turned to Ye Fan and asked, "How's your sensing?"

Ye Fan closed his eyes, after sensing it, he shook his head: "I'm in a trance, it's a little hard to grasp."

"If that's the case, then we don't have to rush."

He stretched out his hand, and a burning flame danced on his palm. He said, "This place is completely condensed from the laws of earth. Everyone, use your heart to comprehend it. Cultivating here will be of great benefit!"

“Training?”

Feng Zhu’s eyes almost popped out as he cried out, “You’re still in the mood to cultivate at a time like this?”

it’s an opportunity that can’t be missed, ” Yunxiao said with a smile. it’s a lost opportunity. You may not encounter such an illusion a second time in your life. Moreover, Teng Guang wanted to set up this Four Seasons barrier, and I’m afraid he must have given up quite a few treasures as the formation’s eye to be able to condense the regulations of earth into a formation. In the entire heavenly martial realm, he’s the only one with such attainments.”

“Young master Yun, there’s no rush in your cultivation,” said terpot after coughing twice. We can’t just wait here all the time, right? There must be a goal. Is it to wait for the young master’s calling to become stronger?”

Yunxiao did not seem to be in the mood to listen to them. He closed his eyes and slowly sensed the flow of the power of summer, then said casually, “You can say that. Don’t forget that Ye Fan was not the only one who felt it. Now Tang Jie should also be in the Four Seasons barrier. With the help of those big demons, they should be able to find Noah’s ship for us. At that time, we’ll just go and Rob them, so before that, everyone needs to rest well.”

“Robbing the great demon Suan ni”

Everyone had a bitter look on their faces. They only wanted to fish in troubled waters and hope to find a chance to seize Noah’s ship and face those big demons head-on. There was no chance at all.

big brother Yunxiao is right. Let’s all calm down and cultivate. We have nothing to do now anyway, so it’s good to be able to cultivate for a while more.

Although Ye Fan was also mumbling in his heart, Yunxiao’s strength and vision along the way had already won their great admiration. Without Yunxiao, they would have been wiped out a long time ago. So, although he had doubts in his heart, he chose to obey unconditionally and began to comfort the dejected people.

Meanwhile, Yunxiao had already sat down cross-legged, closed his eyes, and began to regulate his breathing.

Upon closer inspection, his body was emitting a layer of heat, and it contained a lot of spiritual energy. It was as if his skin was automatically taking in and releasing the spiritual Qi around him, replacing his nose and mouth to breathe.

Ye Fan was very surprised to see this. He did not know what kind of cultivation technique Yunxiao was using. He thought that Yunxiao was about the same age as him, but he had such profound attainments, which was closely related to his perseverance in improving his cultivation all the time. He could not help but admire him.

Everyone in the temple of Holy Fire looked worried, but they had no choice but to sit down cross-legged as well. Who knew if they were cultivating or not?

At this moment, the one who was the most shocked was little Qing, who was at the center of the formation. With a serious expression, he formed an incantation with one hand and a flame Qi rose from his hand.

In the next moment, a pair of bright eyes as big as lanterns slowly emerged in the sky above the Tigerking chariot, staring at Yunxiao with surprise and bewilderment.

He was no stranger to Yunxiao's cultivation method, and he had been cultivating in this way all this time, which was the law of earth-the power of four Seasons!

However, he was able to do so because the barrier of the Four Seasons was created by the martial sovereign, Teng Guang, using his own body. It was connected to his mind, and that was why he could do as he pleased and cultivate with the help of the formation. However, the young man in front of him was only a martial arts Grandmaster and had nothing to do with the Supreme law of the earth. However, his words and actions contained the law!

His eyes gradually turned sharp.

At this moment, Yunxiao was constantly washing his body and meridians with the power of summer, absorbing the power of laws from all parts of his body and then exhaling them to obtain great benefits.

Soon, the people of the hall of Holy Fire also felt the benefits, and each of them looked shocked and overjoyed, especially Feng Zhu and Qi Guang, the two martial honors. They had a certain understanding of the power of rules, and now that they felt it, they were overjoyed, knowing that Yunxiao was telling the truth.

But, their feeling was completely different from Yunxiao's, who was completely immersed in it.

Except for Teng Guang, there was no second person in the realm of heavenly martial arts who could condense the power of rules into an array. If those super powers were to find out that the formation here was actually formed from the laws of earth, they would have long since turned it into a forbidden area for their own disciples to cultivate in.

After swallowing a large number of martial will Dao fruits and absorbing a vast amount of primordial Qi, Yunxiao broke through to the level of three-stars martial Grandmaster. After that, he swallowed the heavenly soul herb. The powerful soul power nourished his soul, and the spiritual energy contained in the herb was directly absorbed by his dantian. It settled down bit by bit, and he had reached the peak of his cultivation.

If he was an ordinary martial artist, he would have broken through several levels in a row, but only he knew how bitter it was.

At this moment, the large amount of vital Qi that he had accumulated finally stepped into a higher level under the scouring of the rule power of summer. A light of six directions realm glowed faintly on his body. He had stepped into the realm of a four-stars martial Grandmaster!

The pair of lantern-like eyes in the sky could no longer hold back and shot out rays of cold light.

Greenie's face appeared behind those eyes, and its entire body appeared in the sky, looking down coldly.

Chapter 447-deterrence

Yunxiao opened his eyes slightly and said with a smile, " "Since you're here, then come down."

His words shocked everyone in the hall of Holy Fire. They came out of their comprehension and looked up, all on high alert. They didn't know where little Qing had appeared and how long it had been there. Even now that he was seeing it with his own eyes, he only felt that it was hazy and not very real.

"How can you control the power of spring and summer at will?"

With an expressionless face, Qing stared at Yunxiao coldly and went straight to the point, its tone filled with extreme dissatisfaction and hostility.

Yunxiao frowned. He did not like the other party's attitude, so he laughed and stretched his back. "Young man, is this how you talk to your Savior?"

Everyone in the hall of Holy Fire had seen little green before and knew that it was the manifestation of the ancient evergreen tree. Suddenly, sweat broke out on their foreheads. Could there be anyone older than him in the heavenly martial arts realm?

The young man was stunned.

Qing Zhu's face turned cold and it snorted, "young man?" Hmph, did you save me out of good intentions?" "You're also controlling Xiao Wu, right?" he asked coldly.

Yunxiao met his cold eyes and said coldly, " "So I saved you for nothing? Do you think I need to tell you?"

Qing said, "Hmph, since this flower in the water Moon Mirror is here, I don't think he has any good intentions." I'm afraid they're here for my main body."

"Even if he is, so what?"

Yunxiao did not back down at all. The two of them faced each other, and the atmosphere grew colder and colder.

Under the summer sky, there was also a trace of cold air.

Qing Zhu's pupils contracted and killing intent shot out. It coldly said, "Then die!" "Rules of Summer-blazing sun!" He shouted as he pointed his finger down.

A sun formed at his fingertip, becoming more and more dazzling, not the slightest bit inferior to the one in the sky, and slowly descended.

The enormous heat wave rushed towards them, and the people of the hall of Holy Fire were all shocked. They saw that the entire Tigerking chariot was beginning to melt, and they desperately circulated their vital Qi to resist the heat wave. However, their skin was still rapidly losing moisture and began to crack.

Hmph, I like the scorching sun. One Qi of creation, keep!

Yunxiao walked up to the sun, and under the dumbfounded gazes of the crowd, the sun was absorbed into his body. At that moment, his strong body swelled up a little, and his skin was bronze in color, emitting a faint glow.

After the sun was absorbed into his body, his entire body shone with a brilliant light. The light illuminated his bones, muscles, and surging blood. His entire body was almost transparent.

However, in just a breath's time, the light gradually dimmed, as if it was being digested by his body. The aura on his body also rose steadily.

Qing's eyes widened in shock, "Body technique?"

He had discovered that Yunxiao could absorb his sun directly not only because he had mastered the power of summer, which could turn the sun into a tonic, but also because his body was so strong that he could digest the overbearing power.

“It’s none of your business. Now, you have a taste of my scorching sun!”

After absorbing the power of the sun, Yunxiao’s aura rose to the level of a four-stars martial Grandmaster. With a shout, he pointed a finger up into the sky, and a similar sun appeared on his fingertip before it suddenly shot out.

Qing’s brows furrowed. He could clearly feel the power of summer in the surroundings constantly pouring into the sun, growing bigger and bigger like a rolling snowball. Yunxiao’s perception and control of the power of summer were actually above his own!

“Although I don’t know how you did it, I can’t let you live!”

“Open!” Little Qing shouted.

The blazing sun that was charging at him suddenly disintegrated like a blooming firework, its light blinding. He was the one who controlled the formation, and he had the highest authority!

since the rule of the earth, Xia, is ineffective against you, then try my rule of the heavens, lightning!

As his voice fell, the blazing sun in the sky dissipated, and dark clouds appeared, with lightning and thunder!

The people of the temple of Holy Fire were all dumbfounded. In the face of such a duel of rule power, they only felt that they were weak and could not help at all.

Bolts of lightning fell from the sky and gathered on greenie’s palm, gradually becoming stronger.

His face, which was illuminated by the lightning, turned pale green, and he was expressionless.

Yunxiao’s heart trembled. The Thunderbolt was so strong that if he could not withstand it, he was afraid that everyone except him and the two martial Venerables would be turned into ashes.

you want to play big, right? don't think that you're awesome just because you have a light ball in your hands. If you anger me, I'll make sure you're consigned to eternal damnation!

A fire cloud appeared between his brows. After his soul power advanced to the sixth rank, he could finally manifest the true Phoenix Fire. Although it was extremely small, it was a genuine divine fire!

With the appearance of the divine fire, the people of the temple of Holy Fire were all shocked and scattered in all directions. Feeling the terrifying aura, they were all frightened.

"True Phoenix Fire!"

Qing Zhu cried out in shock, its eyes filled with disbelief as it muttered to itself, no wonder Lil 'me followed you. It turns out that you have the divine fire, which is enough to let him be reborn again! He quickly regained his composure and said coldly, "But how much power can you control with this kind of divine fire? If you're not careful, you'll be the first one to be turned into ashes."

Yunxiao's face was filled with ruthlessness, and under the illumination of the flames, he looked a little crazy as he said ferociously, "If you're afraid, just say it. You can try how much power it can unleash."

He formed a few seals with his hands, then slowly separated them after putting them together. He clenched his fists, and a piece of pale yellow dust appeared between his palms. There were Starlight jumping around it. As he struggled to open his hands, the earth gradually formed around the dust, and the space sank as if it was being pulled by the infinite gravity and began to collapse rapidly.

This time, Xiao Qing's expression finally changed. It was even more shocked and aghast than when it saw the true Phoenix Flame. The power of thunder and lightning on its body became extremely unstable, and just like its mood, it flickered non-stop with a "pa pa" sound.

He seemed to have spent a great deal of effort to spit out a few words, and said in a deep voice, "Living earth!"

The moment the breathing earth appeared, little green was truly intimidated. It stood in the sky and didn't move at all. The expression on its face showed that it was struggling.

“You’re quite knowledgeable, even though my cultivation is a few realms lower than yours. However, your physical injuries are too severe. How much have you recovered? With these two treasures, I can destroy you in both body and soul!”

Yunxiao stood proudly, as if he would kill whoever stood in his way.

The people of the temple of Holy Fire were dumbfounded. The two things on Yunxiao only existed in legends, and now they were in the hands of the same person!

No wonder he had always been so awesome!

Ye Fan and the others suddenly had a feeling that they had no choice but to accept this. Along the way, this martial arts Grandmaster youth had countless trump cards and extraordinary knowledge, allowing them to escape danger step by step. Now, two of these legendary items had appeared at once. Who knew what other things he had on him?

Qing had the same feeling. Although it did not see Yunxiao smash the cauldron of mountain and river that day, the profound artifact that crushed the armillary sphere’s heavenly axis had made it very wary. He was very clear that the armillary sphere was a super-grade Mystic artifact that was no less powerful than Noah’s ship. Although it was almost exhausted after the battle that day, it was not something that ordinary Mystic artifacts could suppress and shatter.

Yunxiao’s face was filled with an arrogant look, as if he was saying, ‘come and hit me! Hit me! Hit me!’

In fact, he was already extremely depressed. After the divine realm tablet had been worn out many times, it was now at its end. He had no choice but to take out the two ultimate treasures that could suppress the territory to boost his confidence. He didn’t have the confidence to use any of them at all, let alone two at the same time. Moreover, it was already very difficult and strenuous for him to maintain such an obvious state.

How could Qing not see Yunxiao’s strong look? but, the genuine Phoenix true fire and the earth breathing earth below still made him extremely afraid.

Furthermore, over the years, he had seen all kinds of geniuses and figures. The aura of the young man in front of him was just like those unparalleled experts, unruly and disdainful!

“You’re really not spying on my true form?”

Xiao Qing finally decided to call a truce and asked with a frown.

A contemptuous look appeared in Yunxiao’s eyes as he snorted and said, “Although your original body is not bad, how is it compared to the true Phoenix Fire and the breathing earth? Other than Noah’s ship, do you think there’s anything else here that’s worth my attention?”

The lightning on greenie’s body gradually disappeared, and the dark clouds in the sky also dispersed. The scorching sun rose into the sky, and the hot weather was once again restored.

I hope you’re telling the truth, ” he said coldly to Yunxiao. otherwise, you’ll be the first one I kill!

Yunxiao breathed a sigh of relief and hurriedly put away the true Phoenix Flame and the earth breathing earth. He had almost exhausted all the yuan Qi in his body, and large beads of sweat had seeped into his forehead. But, he still pretended to be fine and said, “You’re thinking too highly of yourself! However, I do need your help with something!”

“What’s the matter?”

Qing said indifferently.

Yunxiao put away his frivolous look and said in a serious voice, “I want to go to the ancient Barrens!”

Qing Zhu’s pupils shrank. It glanced at him and turned around to leave. It said indifferently, “We’ll talk about it later. If there’s a chance, I can help you. Consider it as returning the favor.”

“Hmph, you still know that I saved your life!”

if you're taken by those great demons," Yunxiao said disdainfully, "you'll really be doomed.

Qing Zhu's face flashed with a trace of fierceness, and its figure gradually disappeared in the air.

As if he suddenly remembered something, Yunxiao shouted at the sky, "Wait! Is Noah's ship really here? Where is it?"

"No comment!"

Qing Zhu's figure completely disappeared into the sky, leaving behind only these four words that reverberated in the sky.

Chapter 448-false eyes

After Qing Zhu's figure disappeared, the people from the temple of Holy Fire were still in a daze.

There was a strange look in Feng Zhu's eyes, and he said nervously, "Kid, are those two things real?"

Yunxiao gave him a glance and said, "It seems that Noah's ship is really here. Otherwise, little green wouldn't have to hide it and would've just denied it. He also knew about the existence of Noah's ship but he couldn't take it out."

Feng Zhu and the others looked at each other, all drenched in cold sweat. They could deduce so much information with just a "no comment"?

"Let's continue waiting."

Yunxiao sat down cross-legged again and said, "I finally understand the purpose of the monster race. They probably want to take the true body of the ancient evergreen tree. As for its purpose, it's probably to repair Shang's profound level weapon. If Noah's ship appeared, they would never let it go. Little green hasn't been able to take out Noah's ship for so many years, so the importance of the key can be seen. This way, we don't have to panic. Let's wait for them to make a fuss first."

He was in a good state of mind. After sitting down cross-legged, he took out the 100 million mid-grade primordial stones that Qian Wudi had given him and started cultivating. He generously exploded a large number of vitality stones, and with the flow of the power of summer's laws, an excellent cultivation environment was formed on the Tigerking chariot.

you're welcome. There are so many primeval stones, I can't use them all by myself. We should share the good things.

Feng Zhu was also in awe. It seemed that this kid's current achievements were not by chance. He was also an expert himself, so he naturally knew that the more effort he put in, the more rewards he would get. He was also quite broad-minded and knew how to win people over.

The people of the temple of Holy Fire also sat down and began to cultivate, but soon they frowned. Although they were deep in the spirit Qi, they could not absorb any primordial Qi around Yunxiao, as all of it had been poured into his body like a river. After the initial shock, they also felt that they were somewhat used to it. They left the chariot one after another and sat cross-legged in the air. Although the spiritual energy was thinner, they could still drink some soup.

Yunxiao's body was like a vortex as batches of primordial stones exploded and were soon sucked dry. The people of the temple of Holy Fire sat further and further away from him, and in the end, they could not even find a single bit of primordial Qi. They were so vexed that they simply began to feel the laws, no longer hoping to share his primordial stones.

“Boom boom boom!”

“Boom boom boom!”

“Boom boom boom!”

Suddenly, there was a constant vibration in the space, and the whole world trembled. It felt like the earth was shaking and the mountains were shaking.

Yunxiao and the others woke up from their cultivation one after another. They looked around and found nothing unusual, but the strong vibration was still coming from a distance, and they could not find the source.

“Someone is trying to break the formation by force!”

After staring at the sky for a while, Yunxiao said resolutely, “Everyone, return quickly. Let’s go to the other three seasons to take a look!”

The people of the temple of Holy Fire immediately returned to the chariot. Yunxiao quickly carved an array, and the chariot was surrounded by beams of light, which gradually disappeared into the summer.

.....

In the spring sky, there was a place where the dark Willows were hidden and the flowers brightened.

The sun fish boat was holding a formation disk in its hand, and it seemed to be trying to find the correct direction. It was pacing back and forth with a sad face, and it kept mumbling to itself, “Three steps to the left, seven steps to the right. No, no, it’s chaotic again!”

He picked up the array board and smacked his head, going crazy.

Beams of golden light shot out from the formation disk, forming complicated lines in the air that constantly crisscrossed and derived from each other. There were also a large number of numbers arranged in a row, which were being calculated.

The sun fish boat’s eyes were constantly reading the changes, and its mind was quickly calculating. Its mouth quickly reported all kinds of numbers, “ nine, six, seventeen, eighteen, three Pixiu ”

The deduction became faster and faster, and the rays of light and words of light were so fast that only afterimages were left. They shone on the sun fish boat’s face, and his brows furrowed even more.

“Nineteen, stop!”

He suddenly shouted as his palm directly grabbed at the array board. All the numbers and lines gathered in the air and slowly fell to the ground. They spread out like a spider web, appearing under his feet and spreading to a distance in front of him.

The sun fish boat counted silently and kept the disk array. It then carefully walked down along the lines.

“56, it should be here!”

He stepped on the grass with one foot, and a thick willow tree blocked his eyes. He looked carefully, and this willow tree was not much different from the others. Its branches and leaves were luxuriant, and under the flow of the power of spring, it grew more and more.

The sun fish boat pointed out a finger, and with just a few fingers, golden symbols and all sorts of lines were carved on the willow tree. The entire willow tree began to shine with a golden light, and it gradually turned into ashes in the light. Following the destruction of the willow tree, three circular formations appeared in the surroundings. They were separated by a distance and expanded infinitely.

I didn’t buy this heaven-developing spell plate for nothing. I finally found it, haha!

He was overjoyed. As he looked at the constantly changing scenery around him, he could not suppress the excitement in his heart. Not only was the precious treasure that he longed for about to appear in front of him, but he also felt a great sense of accomplishment to be able to find the formation eye set up by a martial Sovereign King.

The three formations spread out in parallel on the ground, almost connecting heaven and earth, forming three realms of their own, showing their magnificence.

as expected of a formation set up by a King level expert. I can’t catch up with this kind of formation intent!

The sun fish boat was amazed. It carefully watched the evolution of the array and soon fell into it, becoming a little obsessed.

The deduction of the array intent derived from those three great arrays contained Teng Guang's Supreme comprehension of array Dao. To every array master, this was already the greatest wealth.

After the formation was developed to its extreme, it started to decline. The three infinitely large formations were condensed rapidly and turned into three purest masses of energy that stopped in the air and gradually melted together.

"That's Yingluo."

The sun fish boat's eyes were filled with joy, but it gradually turned into shock, then shock, and finally, its face turned pale.

rule of the heavens-rain!

He roared in shock and said in a panic, " how could this be? this place is actually a trap?!

His entire body suddenly became extremely cold. The ball of energy in the air transformed into the shape of a drop of water and slowly dispersed, sprinkling down.

The drops of rain were like smoke and fog, and they were silent. When they entered the sun fish boat's eyes, they felt as if they had chilled its heart. All kinds of forces around its body dissipated, and its Emperor Qi of the nine Heavens became extremely difficult to circulate. It seemed to be completely suppressed in this rainy day.

Fengyu Qiming, Fengyu Xiaoxiao, Fengyu ruhui!

"King level master, I'll f \* ck your eighteen generations of ancestors!"

The sun fish boat roared in fear, and the aura of death rushed up to its heart. The heaven evoking spell plate in its hand instantly turned into a sharp sword, and in an instant, it shot out tens of thousands of sword rays, turning into a Sea of Swords to protect itself. Everything around it seemed to no longer exist, and only the sound of the rain could be heard.

The sea of sword radiance grew weaker and weaker under the wind and rain, as if it would be annihilated at any moment.

“I’m not willing! I’m just here to be a bystander, am I going to die Here?”

The sun fish boat’s eyes were filled with despair. It gritted its teeth and poured all its power into the Tianyan magic sword, stimulating its weapon reserves to the extreme!

what kind of broken spell plate is this? I spent all my fortune to buy it, but it ended up harming me. Explode, explode, explode!

The Tianyan magic sword emitted a dazzling light and suddenly exploded. The power swept out in all directions, forming a storm that resisted the rule of rain.

Sun fish boat’s eyes lit up as if he had seen a glimmer of hope. All of a sudden, seven or eight high-level profound level weapons appeared around him. He grabbed a handful of high-level medicinal pills and swallowed them like beans. The Emperor Qi of the nine Heavens crazily poured into those profound level weapons, ranging from sixth to eighth level. At this moment, he could not care so much. Not to mention profound level weapons, as long as he could save his life, he would even take out his underwear and explode it!

“Emperor Qi of the nine Heavens, draw!”

The seven or eight profound level weapons lined up and released a huge light at the same time. Bai Zhou’s eyes were blinded. He shouted and the profound level weapon danced in his hand like a long stick, smashing forward.

He himself also turned into a ray of light, and a golden armor appeared on his body. He rushed up and shouted, ” “Explode, explode, explode! Open up a path for me, I don’t want to die!”

“Boom boom boom!”

“Boom boom boom!”

“.....”

The profound level weapons exploded one by one, their powers linking together and stacking together, turning into a mighty dragon that roared and charged towards the sky of rain!

“Boom boom boom!”

The mighty dragon exploded, and the sun fish boat was hit by the impact. Its golden armor was destroyed, and it spat out a mouthful of blood. The space in front of him gradually twisted, and a passage that was made during the day appeared, leading to an unknown outside.

He couldn't care about anything else. He used the last bit of energy in his dantian and instantly rushed out.

The White passage only appeared for a moment, and it gradually submerged after he rushed through it. The entire sky was drizzled.

The spring rain was as precious as oil. The Willows, peach flowers, grass, swallows, and goldfish were growing and playing under the spring rain. It was a huge visual contrast to the previous powerful collision, which was a little difficult to adapt to.

Qing revealed an expression of disbelief as it stood in the center of the barrier. It muttered to itself in shock, “He activated the void eye and the law of rain, yet he still managed to escape?”

The performance of the sun fish boat had shocked him greatly. He had thought that it was a dead end, but he had actually opened a path out of it.

it seems like you're not an ordinary martial sovereign either. Fortunately, you're severely injured. Let me end you.

The scenery in front of little Qing's eyes kept changing, as if it was searching for traces of the sun fish boat. It muttered to itself, "Where did he escape to? Even if a teleportation portal was activated, they couldn't escape the Four Seasons barrier. They must be hiding in one of the seasons. That light of day seems to be winter?"

The entire barrier was under his control, but if the other party used a secret technique to hide himself, he would not be able to catch him in a short time. He extended his soul consciousness into the barrier of winter and began to search. Suddenly, he seemed to have found something. His expression changed drastically, and a murderous intent immediately appeared in his eyes!

Chapter 449

?

449 Breaking the formation

In a land of ice and snow, a thousand miles of land was frozen. More than a dozen people were quietly floating above a plain. The ground was as smooth as a mirror. It was a frozen lake, and waves of cold air were rising.

Li was the only one who was carving something on the surface of the lake. She had carved more than a dozen patterns of various sizes within a thousand-meter radius. In addition to all kinds of strange lines and symbols, there were also some demonic beasts of various shapes and sizes that were vivid and lifelike.

These images seemed to exist alone, but they were connected and resonated with each other. Looking down from above, they were connected into one, like a picture of a fierce beast.

Li Hua's final stroke blew away the ice shards on the lake's surface. He leaped into the air and hovered above the center of the pattern."Everyone, spread out. I've broken this formation core."

When the people from the four extremes sect heard this, they quickly flew above the lake and watched from a distance.

There were only a few monsters left in the sky. Yu was worried and said, "This Four Seasons formation is a never-ending loop with no exit. The strength of the person who set up the formation is unimaginable. Was this really where the eye of the formation was? I'm afraid that he'll set up a void eye and have a 90% chance of survival."

Yi smiled and seemed to be very confident, "You don't have to worry about that. She's the Li of the Jiuli tribe! In the entire demon race, which branch could compare to the Jiuli tribe in terms of secret techniques and special techniques? Right, li?"

Li's indifferent face became unprecedentedly serious at this moment, and a trace of worry that was hard to detect flashed through his eyes.

Shang's smile froze. what's the matter? " he asked, confused. is there a problem? "

"In terms of formation skills, I may not be the best in my era, but I'm still one of the best. However, this Four Seasons formation is unbelievably perfect. I can't find any flaws. I can't believe who set up this formation. Could it be a godly state expert?"

how is that possible? " Shang gasped. not just formations, even rules and martial arts have flaws. As long as it exists, it will be destroyed.

Li's face was filled with respect as he said solemnly, "That's right. That's why the person who set up the formation was far more accomplished than me. That's why I couldn't find the flaws in his formation and could only find the formation's eye to break it open by force. However, in this world of winter, there were at least three virtual eyes that combined reality and illusion, making them unpredictable. The three virtual eyes that appeared before him all contained extremely terrifying power. If he broke them wrongly, he would probably be beyond redemption. So, Yingluo "

Her face was extremely serious as she said, "Everyone, please leave this place, the further the better!"

After li finished speaking, the atmosphere above the lake became extremely heavy. Everyone's expression was depressed and extremely ugly.

“How confident are you?” Shang asked in a deep voice.

“Lord Shang, I don’t want to lie to you,” Li Ping said calmly. I’m at least 80% sure that this formation core is a real eye, but I’m only 50% sure that I can break it. I’m not even 10% sure that I’ll be safe and sound after breaking it. ” She was one of the few existences in the demon race of that era who had uncountable array Dao attainments. Since she had said so, it could be seen that the array eye was extremely terrifying.

She looked around and smiled bitterly. “This Four Seasons barrier is completely condensed from the laws of earth, and the formation’s eye is often the most dangerous place. In other words, the energy contained within is at least the power of laws. Who else below the martial sovereign of the nine Heavens realm could go against the rules of this realm? Therefore, this is a sure-kill trap for those below the martial Supreme realm, unless they have a holy weapon or are like us, able to fully exert the power of a ninth tier profound weapon. So, Lord Shang, you don’t have to worry too much. My Nine Li war drum is more than enough to protect me. ”

She proudly patted the little red drum on her waist, and a full-blooded sound shook out, as if to give herself some confidence.

However, the four people present could tell that she was pretending to be relaxed to comfort everyone, and their hearts became even heavier.

“Let me break this formation,” Yu said.”Li, tell me the method.” With my current physical body, it’s strong enough to withstand anything. If it really doesn’t work, I can instantly teleport with my mental power and escape from danger. I’m more suitable than you to be the one to break the formation.”

Li sneered disdainfully,“can your physical body be stronger than my war drum?” Don’t worry, there’s no formation in this world that I don’t dare to break!” She didn’t let the others say anything and directly shouted, ” “Back off, don’t get in my way!”

“Li!”

“Forget it,” Shang said sternly as he stared at her,“it’s not worth the risk.” I can’t lose any more of you. These four Seasons were also a good place to cultivate. Let’s just wait for someone else to break the formation, or wait for the power of the nine Heavens to be restored before we break out.”

“Lord Shang, don’t lie to yourself,” li Muye said. Without the nourishment of a large number of heavenly treasures, it’s impossible for us to return to the nine Heavens realm with the injuries accumulated on our bodies. Moreover, if I can’t break this formation, then there are only a few people in the world who can.”

Shang’s face was unsightly, and his eyes flickered with a strange light.

“Boom boom boom!”

“Boom boom boom!”

“.....”

All of a sudden, the entire space trembled violently. Everyone swayed. Yi Jing said, “What’s going on? With such a strong vibration, who is fighting?”

Li suddenly revealed a look of great joy and said, “no one is fighting. Someone has triggered the rules. You guys get out of the way. This is the best time to break the formation!”

She couldn’t care about explaining to everyone and hurriedly opened her arms. Rays of light overflowed from her body and converged in front of her body, gradually forming a white ball of light. There was also a soft green light flashing on the outside, and it fell towards the center of the array in the lake.

Then, she took down the small drum from her waist and began to beat it in the air. As she beat the drum, her feet began to take strange steps. With every step, a ray of light would overflow from her feet and fall into the array below.

Shang’s face was serious. He waved at the other two, signaling them to back off. He himself flashed a few times and appeared a thousand meters away, looking at them with a cold face. Yu and Yi Hefu were also very serious. They retreated behind Shang and were worried for li.

The beast-like formation on the lake began to shine. One by one, the demonic beasts formed by the light stood up from the formation and sank into the frozen lake. There seemed to be no end to them. As Li's battle drum beat, the speed at which the light formed became faster and faster.

&Nbsp; after dozens of light beasts had sunk, the surface of the lake began to change. The White ice gradually turned blue and became deeper and deeper, and began to crack.

"Ha, rise!"

Li's eyes narrowed and he shouted. A series of drum beats came down. The huge beast picture on the ice seemed to come alive. It was formed by a large amount of light and stood up with a roar.

"Stop!"

At this time, a horrified roar came from the sky. Qing Zhu's figure suddenly appeared in the sky, looking down with a pale face, its face full of shock and amazement!

At this moment, the entire layer of ice suddenly cracked, producing an earth-shattering sound. A large amount of water vapor rushed into the sky, and as soon as it emerged from the ice, it formed a huge ice tip. The huge beast was directly pierced by the ice tip on the top layer, and it let out a huge roar before it was completely annihilated.

Li was shocked. He couldn't believe his eyes as he watched the beast disappear and the icicles continue to surge up at an unimaginable speed.

Qing Zhu's face turned pale and its eyes were filled with hatred. However, it was helpless and it roared in anger, "We're finished! You guys are in big trouble!"

He stomped his foot and instantly disappeared.

The vast and boundless Lake began to collapse, and countless water vapor turned into ice spikes that surged up from below. As if the sea had changed into mulberry fields, a huge iceberg was formed in an instant, swallowing the dumbfounded li in the air.

A huge tremor began to spread, but it seemed to be just the beginning.

With the rise of the ice Mountain, not only in winter, but the space of the other three seasons also became somewhat unstable. At the same time, it seemed to be in a trance, as if it was about to break.

The people of the four extremes sect were all panicking. The mountain was still rising, and the mountain wall was pressing down on them. Everyone had a look of fear on their faces as they quickly fled into the distance.

Shang and the other three were furious. They flew up into the sky at high speed, trying to rush into the mountain to save li, who was still in a state of crisis. However, the mountain was rising far faster than they could, as if it was going to hold up the sky!

After an unknown amount of time, the mountain's expansion finally stopped. From afar, it looked like a towering mountain that reached the heavens.

The ice and snow on the mountaintop suddenly began to melt. A blazing sun appeared out of nowhere and appeared in the sky, melting half of the ice and snow on the mountaintop rapidly, turning it into a scorching land where not even a blade of grass grew!

However, the grass on the mountainside was full of spring. It was full of vitality and was growing with all its might. It looked very happy. There were also peach flowers that spread out, and their pink color drifted down, covering the mountain and forming a long sea of flowers.

But what was shocking was that the trees in the mountains were bleak and withered. The dead leaves were swaying with the wind, and the dew immediately formed autumn frost when it appeared.

However, the foot of the mountain was covered in ice and snow, and the land that stretched for thousands of miles was frozen!

The colors of the Four Seasons all appeared within a single mountain!

The environment in the far distance also began to change. The Four Seasons enchantment that was originally interlocked with each other appeared at the same time, forming a huge enchantment thousands of miles away from the mountain. The Four Seasons were connected together-spring in the East, summer in the West, autumn in the south, and winter in the North. They formed the boundary of the Four Seasons, looking at each other from a distance!

Inside the winter territory, the sun fish boat was resting on a large rock with a pale face. It was suddenly stunned by the scene in front of it. With an unwilling expression, it shivered with excitement and said, "The immortal mountain really is the Four Seasons immortal mountain! King level martial sovereign Teng Guang has indeed placed this treasure here!"

He was so excited that he seemed to want to stand up from the stone, but he seemed to be extremely powerless. After struggling a few times, he fell down again.

Chapter 450

?

450 The unaging mountain

At this moment, not only did the sun fish boat not have any Xuan artifact on him, but he also didn't have any medicinal pills left. Under the rule of rain, he didn't care about anything else and ate everything that could be eaten without even looking. He even swallowed all the poisons on his body. Now, there were still side effects in his body. His face would turn blue and black from time to time, and he could only look at the ageless mountain in front of him, without any power to fight for it.

The fief and che xuyao in the spring territory were dumbfounded by the scene. They were surrounded by a large number of spirit rat corpses, which piled up like a mountain. The smell of blood was pungent and nauseating.

The rat Emperor tried its best to stop them from refining the five elements beast taming ring. As long as they failed, the five elements Rat King still had a chance to escape. Otherwise, it would completely lose its mind and become a puppet of the beast taming ring.

"What's with this change? Is this mountain the true body of the barrier?" Che xuyao looked at the majestic mountain in shock. Even with his experience as a martial Supreme, he had never heard of such a scene.

The fief Lord was also extremely shocked. He shook his head and said, " "This mountain is definitely not the main body. This formation was set up by a martial Sovereign King. Before he set up the array, there was no such thing in the demon Plains. Furthermore, I find the mountain peak rather familiar. It seems to be very similar to a legendary treasure!"

"Treasure?" che xuyao was shocked. What are you referring to?" In their eyes, there were not many things that could be considered treasures.

The fief Lord stared at the sky-reaching mountain in the center, and the look on his face became more and more shocked, as if he was more and more sure of what he had thought. He exclaimed in horror, " "The unaging mountain! This is a ninth-tier superb grade profound level weapon of a martial Sovereign King-the unaging mountain!"

His voice was filled with extreme shock and excitement. His entire body trembled as he said, " how could this be? how could the Kongtong immortal mountain be here? could it be that the king level master has also given up this thing in order to set up the formation? "

"What's the unaging mountain?" che xuyao was shocked.

Although he didn't know what this mountain peak meant, since it was left behind by the light of the throne, it was definitely not an ordinary item!

The three soul devourers in the summer territory, as well as Yunxiao and the people from the hall of Holy Fire in the autumn territory, were also shocked by the change.

big brother Yunxiao, what's going on? " Ye fan's face was filled with shock as he looked at the changes in the world. The four illusions of spring, summer, autumn and winter merged into one and surrounded the mountain.

Yunxiao was stunned for a moment as he looked at the scene in front of him, but he soon understood. He thought about all the changes before and after, and immediately understood what had happened. this is troublesome. We might all die Here.

Ye Fan, Feng Zhu, and the others were all taken aback as they looked at Yunxiao in horror. They had been in contact with him for so long, and he had always been disdainful of any difficulties they encountered. This was the first time they had heard him say such dispirited words. It could be seen how serious the problem was, and everyone's mood sank to the extreme.

Ye Fan said nervously, "what happened?" Why are we done for?"

Yunxiao pointed at the mountain and said, " "This mountain peak is transformed from a ninth tier top quality profound armament. The so-called ninth tier top quality is already at the peak of the ninth tier, reaching the peak of perfection. One step further and it would be a transcendent grade profound armament! This ninth-tier top-grade profound level weapon was called the unaging mountain. It was the weapon of a martial sovereign at the king level, and its origin could no longer be traced. Back in the battle of the misty snow sacred city, Teng Guang threw this mountain peak out when he was facing his opponent and crushed him to death without even fighting. It was really cool, and the other martial sovereigns were envious of it. "

His spittle flew as he spoke, as if he had returned to those days when his blood was boiling.

The people of the temple of Holy Fire were stunned and couldn't help but be suspicious. Although the ranking battle of the heaven and earth Power List was known to the world, all those who were qualified to watch the battle were overlords and heroes of their respective regions. Yunxiao looked very interested, as if he had seen it with his own eyes or even experienced it himself.

"Cough, cough cough!"

Terpot coughed and interrupted, " "Young master Yun, let's get to the point and talk about the current situation."

"Oh, I'm a little off topic, sorry."

Yunxiao's face flushed slightly as he continued to explain, " "Teng Guang's talent is extremely terrifying. If it wasn't for the fact that he's devoted himself to studying formations and wasted too much of his cultivation time, there really wouldn't be many people in this world who can defeat him. For the sake of array Dao research, he was willing to give up anything. It was precisely this spirit that allowed him to become the number one array master in the world. The Four Seasons formation was formed by using

the ageless mountain as the eye of the formation and the ancient evergreen tree as the body of the formation. Tsk, tsk, what a big move!”

Everyone was shocked, even Ye Fan said in shock: “ In order to set up this array, you don’t even want your own ninth grade profound armament? ”

“Hmph, what’s a ninth grade top quality profound armament? In his eyes, only a perfect formation was his ultimate goal. This Four Seasons formation is endless, and there’s no beginning or end to it. In my opinion, it’s perfect, but its only weakness is the formation’s eye!”

Yunxiao’s eyes flickered with great admiration as he said solemnly, “ For any formation, as long as you can find the formation’s eye and have enough power, you can break the formation with force! Teng Guang must have thought of this point and couldn’t bear to see the Four Seasons array that he had set up to be destroyed. That’s why he had suppressed this ninth level superb grade profound armament, the unaging mountain. I would like to ask, in this world, who can break a ninth level superb grade profound armament?”

The people of the temple of Holy Fire immediately understood. Their faces changed and all turned pale.

“This means that we can’t get out of this formation no matter what?” the earthen jar asked in shock.

Yunxiao looked at the unaging mountain and pondered for a moment, then shook his head and said, “ There are only two ways. One is to take this ageless mountain and break the formation core. However, without a profound level weapon’s ultimate understanding, it was impossible to achieve. What’s more, this unaging mountain used to be Teng Guang’s personal weapon, and had long been refined by him. He didn’t know if he had erased the divine sense on it when he set up this formation. If you don’t, once you collect it, Teng Guang will immediately know. At that time, he will cross regions and come here, and everyone will die.”

“What’s the second method?” Ye Fan asked.

“As for the second method, Yingluo?”

Yunxiao's divine sense began to spread out, as if searching for something. "That's little Qing! This barrier is created by his body. Although I can use the power of the Four Seasons, he's the only one who can control the entire formation. The hope of breaking the formation is on him."

"As expected, we're finished!"

"He's the one who trapped us here, so how could he break the formation by himself?" Feng Zhu said with a dejected expression. "Don't tell me I have to stay here forever?"

.....

Just as everyone was at a loss, in the ageless mountain, where the Four Seasons were alternating, four forces were circulating. Qing Zhu suddenly appeared, its face extremely ugly.

The rat Emperor also appeared in front of him and said in a deep voice, "little Qing, now that the illusionary realm has been broken and the real formation has been revealed, why don't you use the power of the unaging mountain to kill them all?" Too many of his children had been killed by the two people from myriad Stars Valley, and he was already quite angry.

Qing Zhu's face looked even uglier than the rat Emperor's. It gritted its teeth and said, "Water Moon Mirror flower, the combination of reality and illusion. The unaging mountain is the core of the formation, and the Four Seasons barrier created by my body is nothing more than an embellishment. Do you think I can control the unaging mountain? If I had this ability, I would have killed them one by one long ago. Why would I still be alive? Moreover, I still clearly remember the words left behind by the king level martial sovereign, Qianqian!"

if the illusion of the water Moon Flower mirror is broken and the Four Seasons formation is revealed, then the power of the unaging mountain will gradually be activated on its own. At that time, the Four Seasons will change and crush all the lives in the enchantment!

"What do you mean?" the rat Emperor was shocked. "All life within the barrier? Does that include you and me?"

“That’s right, you and I won’t be able to escape this calamity either!” Qing said. But we still have a chance! I don’t know when the power of the unaging mountain will start to move, but I can control the rotation of the Four Seasons as much as possible and stall for time! the key now is to let young Emperor hao lian break through so that I can absorb the nine Heavens Emperor Qi and the power of laws condensed from his breakthrough! As long as my strength improves a little more, I can break through that place again and hide in it!”

The rat Emperor was shocked and said, “you mean there’s a Kasaya below your body?”

“Not bad!”

Qing Zhu’s eyes flashed with a cold light as it said, “even the king level master didn’t notice that there was a sealed space under my main body!” If the power of the unaging mountain is strong enough to rush into that space, we might have a chance to open the seal and take Noah’s ship!”

“Good! That young Emperor Helian has already entered your body, the place where the Four Seasons change, the place with the strongest rule bending power. I will try my best to ensure his safety.”

The rat Emperor’s staggering body moved away step by step.

Qing Zhu looked at his figure and muttered to itself, “Young Emperor hao lian, you must not disappoint me! I’ll condense the power of the Four Seasons to help you. If this still can’t help you break through, then your talent is too trashy!”

He stood in the unaging mountain and looked at the four surrounding territories. This place could already be considered an independent space.

A ninth-tier top-grade profound level weapon and his own body. The two Supreme treasures combined to form a world of their own. It could also be considered a pseudo-transcendent grade profound level weapon, comparable to Gu Feiyang’s star slash sword.

Under little Qing’s divine sense and gaze, figures flickered in the four territories, all flying toward the location of the unaging mountain. Even the fief had suspended the refining of the five elements beast taming ring and rushed away.

“Hmph, a bunch of ants. Don’t tell me that with your strength, you all want to collect this ninth level superb grade profound armament? This is simply a fool’s dream!”

Qing Zhu’s eyes revealed a disdainful look as it coldly muttered to itself, when the power of the Four Seasons changes, it will be the time for everything to be annihilated. I should enjoy the last moments of my life.

His eyes were filled with pity as he disappeared into the mountains.
