

The Eternal 451

Chapter 451

?

451 The sorrow of autumn

Shan yangze, are you sure this is the unaging mountain of a martial Sovereign King? ”

Tang Jie’s eyes were filled with shock and excitement, and his breathing became very rapid. The unaging mountain was one of the few ninth-grade profound level weapons on the continent. As the eldest young master of the Tang family of the four extremes sect, he had naturally heard of it.

Behind him, Shan yangze hesitated for a moment before he confirmed with certainty, ” its appearance is exactly the same as what the sect master once described. Also, it is said that the heaven and earth Chess Game Set up by the throne was comprehended from this unaging mountain.

“Heaven and earth chessboard, Kasaya.”

Tang Jie could no longer hold back the excitement in his heart and said ecstatically, ” “If we can solve the heaven and earth chessboard, we can directly obtain the throne’s inheritance and inherit his 800 formations! At that time, who among the younger generation in the realm of heavenly martial arts can compete with me?”

I’ll also take this unaging mountain, ” dan yangze said respectfully. this is a ninth-tier superb-grade Mystic artifact. Even martial emperors won’t dare to go against you, not to mention the younger generation of the heavenly martial realm.

Tang Jie’s expression turned cold as he squinted at Shan yangze. The passion he had earlier was all gone.”Are you really stupid or are you just pretending? Do you think I have the ability to collect a ninth tier top quality profound armament?”

Shan yangze shuddered and felt a chill run down his spine under his cold gaze. He took a cold breath and said, ” “Eldest young master, in addition to strength, luck and opportunity are also a great factor in

obtaining profound level weapons. In terms of strength, how many people in the heavenly martial arts realm had the ability to take the unaging mountain? Since the king level expert placed this item here, I think it should be waiting for someone who has the Fortune to obtain it. The young master is destined to rule the four extremes sect, unify the merchant Union, and deter the rest of the world in the future. Perhaps he will have this opportunity.”

He felt very aggrieved after his boot-licking. He was a dignified seven-stars martial Supreme, a powerhouse of his generation. How could he be so humble and show such a warm face to a young boy without moral integrity? However, the situation was stronger than the person. Who asked him to stand on the wrong side earlier, and now his life and death were in the hands of others?

After hearing this, Tang Jie’s expression improved a little and said, ” “I don’t dare to think about taking the unaging mountain, but it’s indeed a great opportunity to comprehend the heaven and earth chess game! If you can gain something today, you will definitely become my trusted aide!”

“Thank you for your support, eldest young master!” Shan yangze was overjoyed.

“En!”

Tang Jie’s eyes were fixed on the mountain, and he also showed a worried look. “Let’s go in and take a look first. And that li, he can’t die. Otherwise, the seven evils sealed Kasaya ... When he thought of this, his face turned pale.

Shan yangze shuddered as well, his eyes filled with fear.

“Let’s go!”

More than a dozen people flew toward the unaging mountain.

.....

“Hiss!”

A crack suddenly appeared in the space, and Yunxiao's body was torn in half in an instant. However, both of them turned into faint shadows and disappeared in the air.

The attacker muttered an "en" in disbelief as he slowly revealed himself. It was Zhang shaotian and two other Soul Eater disciples. They appeared in the autumn territory at the same time.

The people from the sacred fire Hall were shocked. They scattered immediately and were on high alert.

With Zhang shaotian's identity as a nine-star martial venerable, he didn't expect that he would sneak attack. He was really shameless! What made everyone terrified was that they didn't even notice when they launched a sneak attack.

the rhythm of autumn here is flowing smoothly. I can feel even the slightest fluctuation.

Yunxiao's figure gradually materialized in the air as he stared coldly at the three men, as if he did not care about their sneak attack.

"Oh? Little brat, Who are you? you're quite something."

Zhang shaotian was not in a hurry to make a move. In his opinion, these people were all turtles in a jar, and he could easily capture them. The most important thing for him now was to figure out the situation, get Yunxiao's treasures, and collect these people's souls.

you don't need to know who I am. Put away your little thoughts and I can give you a chance to cooperate.

Yunxiao said slowly, his eyes as calm as water.

"A chance to work together?"

Zhang shaotian was taken aback, and the other two men's mouths were wide open. They found it extremely funny, but Yunxiao did not look like he was joking.

One of the junior brothers looked around and confirmed that there was no one else around. He was indeed talking to them. He couldn't help but laugh."Is there something wrong with your brain?"

Yunxiao smiled faintly as he pointed a finger forward and said, " "You'll know when you see it."

"The sorrow of autumn is without wind, rain, or clear skies."

The junior Brother was stunned for a moment. He immediately felt an inexplicable force wrap around him from all directions. All his strength and energy were being drained away bit by bit, and an unspeakable sense of desolation and sorrow welled up in his heart.

He was horrified and hurriedly spread out his domain in an attempt to push back that force, but he found that it was useless. He was actually suppressed by the other party!

It would have been fine if it had only been a suppression of power, but under this power, he was rapidly weakened. Not only his power and energy, but his life seemed to be flowing away at an accelerated rate, and his vitality was gradually fading away.

"?! The rule of earth-autumn!"

Zhang shaotian's face changed and he said in shock, " how can you condense the rules?! This time, even he felt a chill in his heart. Only martial sovereigns of the ninth heaven could condense rules and use them for their own use. This was common knowledge that everyone in the world knew!

Yunxiao snorted as he stretched out his right hand and said, " "Sword, come!"

Layers of light poured in from all directions and gathered in his hand, slowly condensing into a tangible sword. It exuded a terrifying sense of desolation and bleakness, perfectly integrating with the surrounding scenery.

The endless autumn leaves rustled down.

When the sword took shape, fear flashed in Zhang shaotian's eyes and he unconsciously took a step back.

That was the sword of rules of autumn!

In fact, the rule of autumn that Yunxiao could use was very limited, but this move was enough to shock all the experts under the Martial Emperor realm!

"Sword Art-star destruction!"

A cold voice came out of his mouth. The sword of autumn in his hand turned into sword Qi and shone like a star. While everyone was dumbfounded and caught off guard, it cut through the sky and landed on the junior Brother.

"Eldest senior brother, save me!"

The junior brother's face was filled with fear as he frantically cried for help.

"Stop!"

Zhang shaotian came back to his senses and threw out a move with a roar. The soul-devouring banner flew out of his body and swept toward the sword of autumn. The banner spread out, and a cold aura spread out, directly interrupting Yunxiao's rule of autumn!

Zhang shaotian was stunned for a moment before being overjoyed. Originally, he didn't know if the soul devouring flag would be effective. After all, the opponent's sword was a refined sword. He didn't have any confidence in this thing, but he didn't expect to succeed in one move.

After his great joy, his expression immediately turned to shock and anger.

The junior Brother had already been cut by the sword technique, and there were no wounds on his body. The autumn sword had directly pierced through his body. As he struggled to get closer to him, his life aura was instantly converted into nothingness. His skin suddenly wrinkled, and his face aged and shriveled in a few breaths. In despair, he turned into a trembling old man. Finally, even his body gradually disappeared, turning into ashes.

The visual impact of this Junior brother's body, as well as the desire to live in his eyes before death, made Zhang shaotian's heart feel extremely shocked and blocked, but he was even more angry.

The other Shidi was already scared out of his wits. He directly stuck to Zhang shaotian's back, his teeth chattering. Just now, he also wanted to say something sarcastic, but his companion beat him to it, and he managed to keep his life.

"Eh? Don't you soul devourers treat souls as blood and want to lick them? How could this martial venerable's soul be wasted like this?"

He was not being sarcastic, but he knew the nature of the people of the soul Devourer sect. It wasn't uncommon for fellow disciples to plot against each other and extract their souls. He said in a strange tone, "Don't tell me you guys are gay friends and have feelings for each other?"

Zhang shaotian's face was extremely pale and cold. He held the soul devouring banner in his hand as if he wanted to attack at any time, but he was extremely worried. He wasn't a hot-headed person. On the contrary, the soul devourers lived in the dark and liked to do things sneakily. It was difficult for them to become impetuous and hot-blooded after cultivating their personalities.

Moreover, they had never even thought of taking revenge for their fellow sect members.

Yunxiao gave an honest smile, his white teeth reflecting the light as he said, "Now, can we cooperate properly?"

"What kind of cooperation?" Zhang shaotian asked coldly.

Yunxiao quickly gave a brief description of the surrounding environment, including the situation of the enchantment, the power of the four extremes sect, and the possible ways to break out.

it's simple," he said. we'll deal with enemies other than ourselves. We'll take the unaging mountain and escape from the enchantment!

Zhang shaotian and the junior Brother were dumbfounded. They had long known that this place was set up by Teng Guang, but they didn't expect there to be such a treasure inside. Otherwise, the sect would have sent Masters to snatch it.

Zhang shaotian's face was unusually heavy. "You mean we'll probably be trapped here forever? The members of the demon clan that you mentioned are not a threat, but there seem to be two martial sovereigns from the myriad Stars Valley among the figures that rushed into the unaging mountain just now. Any one of them could kill us all!"

He focused his gaze and recited, "the only thing we can do now is for you to tell me the secret technique to condense the rules of heaven and earth. With my strength as a ninth-rank martial venerable, this ninth-rank soul devouring banner, and the rules of heaven and earth, we can fight against those two martial sovereigns. Only then will we have a chance to obtain the unaging mountain!"

A hint of excitement flashed through his eyes. He would be lying if he said he wasn't tempted by the unaging mountain.

In his mind, he wanted to kill these people in front of him directly, take Yunxiao's treasures, and extract their souls. Even if the benefits he would get were not as good as what he would get from the immortal mountain, they would not be too different.

But, Yunxiao's strength was mysterious and unpredictable, which made him wary. Furthermore, there was a method to condense the laws. This kind of secret method was even more tempting than the ninth grade profound armament!

Chapter 452

?

452 Condensing Emperor Qi

Condensing regulations and becoming a martial Supreme was the biggest threshold in the martial Dao. Many geniuses had been stopped at this threshold.

Some people had reached the peak of the martial honor realm for hundreds of years, but they were unable to take another step forward.

Zhang shaotian was already a nine-stars martial Supreme, and the biggest challenge he was facing now was to advance to the rank of martial Supreme. In his opinion, Yunxiao's Secret technique of condensing rules was even more important than getting the ageless mountain!

Yunxiao laughed and said perfunctorily, "As long as we can escape from this formation, everything will be fine. If we don't have to be trapped here for the rest of our lives, so what if you can advance to the martial Supreme realm? As for the two experts from the myriad Stars Valley, it would be enough to avoid them as much as possible. The unaging mountain is so huge that it's not easy to run into it."

A flash of anger appeared on Zhang shaotian's face. He knew that Yunxiao was deliberately avoiding it, but when he thought that it was not easy to learn that kind of secret technique, he gritted his teeth and said, "Alright, I'll cooperate with you! However, if we successfully escape this place, you must teach me the secret technique!"

"Yes, I will!"

Yunxiao said with a smile, his eyes narrowed. His comprehension of rule force had already reached the peak. This place was condensed from the rules of the Four Seasons, so it was very common for him to use it casually. When the time came, he wouldn't be lying to Zhang shaotian. This hope could also suppress his conflicting emotions. Otherwise, once he left the spring, summer, autumn, and winter territories, he would lose the power to compete with Zhang shaotian.

then let's go. I also really want to see what kind of existence this ninth tier top quality profound armament is!

Zhang shaotian collected his thoughts and casually grabbed the storage Ring of the Dead Junior Brother and broke it with brute force.

A long gray banner appeared in the air. A green face had just appeared in the banner when it was pulled out by his five fingers.

The blue face was in pain and screamed in pain. It was useless as Zhang shaotian pulled it out. With a flash of blue light, it was put into the black ring on his middle finger.

The streamer lost its main soul, and its light immediately dimmed. The huge resentment and death Qi quickly dispersed, which were casually thrown away by him.

The eyes of the junior Brother behind him flickered. It was hard to tell what he was thinking, but he felt a sense of sympathy for the Fox, but even more so, he felt envy.

Everyone in the temple of Holy Fire felt their scalps tingle. Although they had reached a verbal agreement, they still listed these two as the most dangerous people.

.....

“Is this the rule of spring? Spring has returned to the earth, flowers bloom, and everything is thriving.”

In a unique space, haolian shaohuang could feel the flowing power. He seemed to have gained enlightenment. As he waved his hand, a little power appeared on his fingertips. He gently pushed out with his palm, and the green color of spring gradually appeared in the surroundings. It condensed into a ball and slowly rotated in his palm.

I can already condense the power of the natural order, but why hasn't the Emperor Qi of the nine Heavens appeared yet? the power in my body is no different from before!

His face was full of confusion, and he couldn't figure it out no matter how much he thought.

Wisps of purple-gray gas appeared in the surrounding spring green. It was not very eye-catching, but it spread extremely quickly. After it appeared, it surrounded young Emperor hao lian in a few breaths and began to corrode his body.

“Miasma? Ouyang Qi?”

Hmph! young Emperor haolian snorted and saw Ouyang Qi’s figure appear in the air. His body was surrounded by purple-gray miasma. He took a step forward and stepped on the frequency of the space’s vibration. The wind from his fist flickered as it came down.

“Let’s see where you’re going to run now!”

“Purple Frost miasma!”

The miasma that filled the sky formed a small tornado, whistling and pushing over, growing larger and larger.

Young Emperor hao lian’s long robe fluttered in the strong wind. A ball of spring green appeared in his hand and spread out in his palm. He lightly rebuked, the rhythm of spring, all living things are revived!

The ball of spring green spread out like a wave, and the purple miasma scattered wherever it passed. The entire space was filled with the scene of spring, like the Willow flowers blooming and the birds singing and dancing.

“The power of laws!”

Ouyang Qi was shocked and his body turned cold. His face was filled with fear and he cried out, “You’ve advanced to the rank of a martial Supreme?”

“Steady! He’s only comprehended a little rule force. He’s still far from being a martial Supreme!”

Chen chuanjiu’s voice resounded. A crack was torn in the space and a huge vibration could be heard. It was as if the space was about to shatter. A huge sword as wide as a washboard swept across, cutting through the sky.

“Heavenly ancient bronze sword, break!”

As he shouted, sword Qi filled the sky. The green color of spring quickly dissipated, and the entire space was filled with sword Qi.

The eighth-grade heavenly ancient bronze sword was just right for Chen chuanjiu's bold and unrestrained sword aura. With a slash, the overbearing and unparalleled origin power stimulated an endless sword might that rumbled down like a Thunderbolt. The rules of spring that were surrounding young Emperor hao lian were all shattered. The sword might was enough to topple mountains and overturn seas, and it traversed the vast sky!

Chen chuanjiu's power was surging. Although they were both peak nine-stars martial Venerables, his vital Qi accumulation was far stronger than that of hao lian shaohuang. However, he had basically given up on the idea of becoming a martial Supreme after failing to do so for so many years. He no longer harbored any hope. That was why he couldn't allow others to advance, let alone a strong opponent!

"Young Emperor hao lian, I must kill you today!"

His face was filled with ruthlessness as he looked at the rules of spring around shaohuang hao lian. The despair he had felt after many years of trying to advance to the next level without any results condensed into an extremely strong jealousy and hatred at this moment. He was determined to kill!

Hmph! young Emperor haolian snorted coldly. He remained fearless in the face of the sword gleams and miasma. The law of spring condensed once again under his guidance, like a Green Spark in spring. It danced joyfully in his palm, reflecting a calm expression on his face. There was not the slightest trace of panic or emotion.

"Using the empty finger to punch in the palm of the bi an"

"It's all about the diamond body, commanding the wind and clouds, being indestructible, and being invincible in the fist consciousness."

A voice appeared in young Emperor haolian's mind. It was the first time he had learned boxing. Gu Feiyang had guided him and taught him with great care.

“Is that so?”

He got into position and slowly pushed out a punch. It was simple and unadorned, as if this punch had been like this since ancient times. It was neither humble nor overbearing, neither increasing nor decreasing.

The green qi in the surroundings quickly gathered and fused into his fist. The entire space began to distort rapidly. Not only was the spring coming back to life, but there was also the scorching summer, the desolation of autumn, and the silence of winter. Four powers of different colors appeared and surrounded his fist before fusing together.

the rules of heaven and earth and the power of the Four Seasons have been integrated into his fist wind?!

Chen chuanjiu’s eyes suddenly widened as he gasped in shock. Shaohuang hao lian’s talent for comprehension seemed to be above his expectations. If this person did not die today, he would no longer have a place in mercenary city!

“Boom boom boom!”

The Four Seasons Vajra fist shattered the space and engulfed everything!

&Nbsp; the three energies clashed together, and the entire space shattered. A black hole appeared between the three of them and began to suck in all energy. The devouring power spread out.

“Not good! Guild leader, save me!”

Ouyang Qi was the first to be sucked in by the devouring power. Unable to break free, he cried out for help in fear.

Chen chuanjiu gritted his teeth and tried his best to resist the force. He was too busy taking care of himself, how could he have the time to save others? They could only watch helplessly as their companions were swept into the spatial turbulence in despair, with almost no chance of survival.

Shaohuang haolian was also resisting the devouring with all his might. He gathered the regulations of heaven and earth in front of Chen chuanjiu with all his might. The regulations appeared around his body bit by bit, slowly negating the devouring force. It was actually becoming easier and easier for him. Chen chuanjiu was getting anxious as he watched.

“Is this the Imperial Qi of the nine Heavens?”

Young Emperor haolian was pleasantly surprised to see the changes in his body. A feeling he had never felt before rose in his heart. It was as if he was becoming one with the world. He had never felt so familiar with his surroundings before. The essence energy in his dantian was also slowly changing at this moment. The energy in his meridians became extremely powerful. It was not a simple accumulation, but a qualitative change!

“Nine Heavens Emperor Qi!”

In an extremely well-hidden place within the spatial zone, Qing’s pupils also contracted. Its eyes revealed a look of great joy as it muttered excitedly, “That’s great, the speed is far faster than I expected! However, he has just condensed it, and the process will take some time. The Emperor Qi will become denser as time passes, and that will be the time for me to snatch it!”

“BOOM!”

Suddenly, there was a huge tremor in the space. The suction force of the black hole suddenly slowed down, and an extremely strong pressure came from the sky, almost squeezing the entire space to explode!

The trace of Emperor Qi that young Emperor hao lian had just condensed dissipated as well. His entire body was suppressed and bound by an extremely overbearing force. He looked around in shock, but he could not see anyone. He tried to condense energy grid lines again, but it was to no avail. The force was like a mountain, pressing down on his heart and not budging in the slightest!

Chen chuanjiu was also extremely shocked, but at the same time, he heaved a sigh of relief. Under this force, even the black hole that devoured everything lost its color and gradually disappeared. Although he was restrained by this power, he at least avoided the pain of being devoured.

As he watched the Emperor aura that had just gathered on young Emperor hao lian's body start to dissipate, he laughed gloatingly.

"The unaging mountain! The power of the unaging mountain has been activated in advance!"

In a hidden corner of the space, Qing Zhu's face turned pale with shock. Its face was so dark that it was about to drip water. It felt cold all over, from head to toe.

The battle between shaohuang haolian and Chen chuanjiu had triggered the power of the unaging mountain in advance, which had suppressed the black hole that had burst out.

Not only that, the entire Four Seasons barrier started to change due to the activation of this power.

Qing's face paled once more. To its shock, it discovered that although the Four Seasons territory was made up of its main body, it was unable to put up any resistance at all. The Four Seasons began to take turns in its mist.

Chapter 453

?

453 Soul-searching technique

After shaohuang haolian and Chen chuanjiu activated the power of the unaging mountain, the scorching sun on the peak of the mountain began to gradually fade away. The frozen snow at the foot of the mountain also slowly melted, forming small rivers that flowed around the mountain. The withered branches and withered leaves on the trees all began to sprout.

The four time territories surrounding the heavenly immortal mountain also began to change. The border became more and more blurred, and the water and milk merged into one. The entire formation turned into spring. All things recovered and flowers bloomed. It was filled with the joy of spring returning to the earth, making people feel warm.

Yunxiao and the others, who were flying toward the immortal mountain, were all shocked by the changes in spring. They could feel the endless changes of the laws of heaven and earth, and their hearts were filled with infinite yearning.

“My life has a limit, but martial arts is boundless.”

Yunxiao sighed with emotion as he felt the world changing.

Everyone’s heart skipped a beat, feeling tiny and insignificant.

“Hmph!”

Zhang shaotian said disdainfully, “people of my generation should become martial sovereigns and rule the world!” What boundless, it’s all bullshit!”

“Rule the world?”

in your opinion,” Yunxiao chuckled, “ you think that you can rule the world as a martial sovereign? It should be known that there was no lack of martial sovereigns in the heavenly martial realm, but since the ancient times, who dared to say that one was in charge of the world? I think only ye Nantian dared to call me that all these years, but he was just a speck of dust in the end.”

Zhang shaotian was also silent. He felt the vastness of the world and the insignificance of his own power. At this moment, he actually had some understanding.

He came back to his senses in shock. Just now, his body seemed to have undergone some minor changes, but the changes were wonderful like never before. It was different from the integration of heaven and earth during cultivation. Instead, it seemed to have been sublimated to an extremely high realm and a qualitative change had occurred.

“That was Yingluo just now.”

He was a little uncertain, and it was difficult for him to suppress the excitement in his heart. What made him even more vexed was that he had come out of that realm in just a moment, and he had only comprehended it slightly. Even so, the benefits he had obtained were incalculable.

Yunxiao's eyes were filled with surprise. He was very sure that Zhang shaotian had just sensed the heaven and earth by chance and showed signs of condensing Emperor Qi.

Compared to the accumulation of vital Qi, opportunities were more important in becoming a martial Supreme.

Zhang shaotian's great talent surprised Yunxiao, but it was normal when he thought about it. How could anyone in the soul Devourer race who could become a nine-stars martial Supreme without having their soul extracted be an ordinary person? Among the seven superpowers, the probability of a nine-star martial Supreme advancing to the martial Supreme realm was very high.

Zhang shaotian also seemed to have guessed what had happened to his body. He was completely stunned, followed by incomparable regret and annoyance. He beat his chest and stomped his feet, almost vomiting blood.

The people of the temple of Holy Fire saw his face turn pale and then gloomy. He beat his chest continuously. They were dumbfounded and thought he was sick.

hehe, kid, don't be sad. Just look on the bright side.

Yunxiao comforted him like a senior.

Zhang shaotian was so angry he spat out blood. He gritted his teeth and said, "You little brat, you know nothing! "Aaah!" How could I be so stupid to not cherish it! Do you know how much of an opportunity I've lost?"

"Hehe, there's still a chance. Furthermore, you've managed to catch a glimpse of an opportunity, which will greatly increase your chances of breaking through in the future!"

Zhang shaotian was stunned. He was surprised that this kid had discovered the changes in his body. Moreover, he had suddenly gained some enlightenment during the conversation with him just now. When he thought of Yunxiao's previous performance, he suddenly became a little afraid of him, and his face turned dark and uncertain.

After that, the group flew into the unaging mountain without a word.

It was full of spring inside, full of vitality everywhere, giving people a very comfortable and pleasant feeling of striving to improve.

"This mountain is so big, how can we retrieve the profound level weapon and open the boundary?" Zhang shaotian couldn't help but ask.

After entering the mountain, they discovered that it was much larger than what they saw on the outside. They couldn't see up or down from inside, only endless trees and mountain flowers that were tender and brilliant. Other than the rich spiritual Qi, it was not much different from an ordinary mountain. They had no idea where to start.

Yunxiao smiled at him and said, " just because we can't do it doesn't mean that others can't. Let's see what the others are doing first. In any case, we can only rely on luck to break through this immortal mountain. We can't rush it.

big brother Yunxiao, " Ye Fan said, " the unaging mountain is so big. You're like an ant inside. How can we find others? "

He was also a little anxious, not for the unaging mountain, but for the Noah's ship. Ever since he had entered the Four Seasons barrier, that feeling had been faintly discernible. He didn't know how Tang Jie and the others were doing, or if they had found the location.

we'll have to rely on the two experts of the soul Devourer clan, " Yunxiao said with a smile. they have their own way of searching for living souls. Even if those people are dead, they have a way to find their souls. Yunxiao looked at Zhang shaotian and said with a smile, " "Am I right?"

Both of them were taken aback. Yunxiao was talking about the soul-searching technique, a secret technique of their race that was not passed down!

This secret skill could only be cultivated by the experts who were at the rank of martial honor and above. It was a secret skill used to search for powerful souls in the surroundings. Not only could it detect the location and strength of a living soul, but it could also detect the location and strength of a dead soul. Even within the soul Devourer race, this secret technique was an extremely secretive existence. Ordinary disciples had no way of knowing about it.

“Alright, since you also know about this technique, there’s no need for me to hide it. However, I’ll say it once more. If we can leave this place safely, you must pass on the secret technique to condense the laws to me!”

Zhang shaotian once again mentioned this matter seriously. The instant condensation of Emperor Qi just now made him have infinite enthusiasm and expectations for the promotion to Martial Emperor. Now, even if Noah’s ship appeared in front of him, he couldn’t resist the temptation of promotion to Martial Emperor.

“Yes, yes, don’t worry. At our level, our words carry enormous weight. Who would go back on their words and give birth to inner demons that would hinder their cultivation?”

“That’s good!”

When Zhang shaotian heard him mention his heart’s demon, his expression changed slightly and he was relieved. The later a martial artist cultivated, the more they paid attention to their nature. There were no other things in their heart. If a heart demon was born, it would be difficult to resist it unless one had an extremely high temperament, and it would be difficult to advance in the cultivation path. No one would joke about this kind of thing.

He took out his soul-devouring banner and unfolded it in the air. A cold and gloomy aura isolated the vitality of spring in the surroundings, forming a terrifying space of resentment. The Golden Soul slave slowly emerged from it, stretching its body. Its green eyes kept sizing up the people outside, looking very intelligent.

A green light flashed in Zhang shaotian's ring and a twisted green face was caught in his hand. He threw it over and said, "Eat it,"

The Golden Soul slave's eyes lit up with a green light. It opened its mouth and drooled as it excitedly pounced on the green face.

The blue face struggled in fear, but it was devoured by the Golden Soul slave in a few gulps. For some reason, the golden light on its body became even more dazzling.

Zhang shaotian frowned slightly, seemingly dissatisfied. He muttered, "such powerful soul power, yet there's only this tiny bit of change. How am I supposed to raise it in the future?"

When the people of the temple of Holy Fire saw this terrifying scene, they broke out in a cold sweat and kept moving out. They only felt a little warmer after leaving this gloomy and cold space.

Yunxiao's pupils constricted as he said, "Golden Soul slaves are divided into four grades: heaven, earth, black, and yellow. Every advancement requires tens of millions of dead bones and vengeful souls. This profound artifact refining method is too damaging to the harmony of the heavens. Sooner or later, they will be punished by the heavens.

The junior Brother behind him looked at the Golden Soul slave with envy, but when he heard Yunxiao's words, he was stunned. Clearly, even he did not know the level of the Golden Soul slave.

Zhang shaotian's body trembled as he stared at Yunxiao in horror and said, "the secret of the Golden Soul slave is only known to the elders in our sect. How did you know about it?"

"Hehe, would you believe me if I told you that I've seen Huangfu BI's Sky Gold soul slave?" Yunxiao smiled and pretended to be mysterious, which made the two look surprised.

Zhang shaotian didn't know what level their sect master's soul slave was. He only knew that there were four levels of Golden Soul slaves. This was something he had inadvertently heard from an elder. However, since he was the sect master, he should naturally be of the highest heavenly gold rank. But, he would never believe that Yunxiao had seen it before. He snorted coldly, "Tsk, you've seen it before?"

Everyone in this world who has seen the soul slave of the sect master has become a part of the soul slave of the sect master.”

He only felt that Yunxiao was becoming more and more unfathomable, and he was getting more and more frightened.

After he calmed down, he sat down cross-legged and began to use the soul-searching technique.

After the Golden Soul slave ate the cyan face, it showed a satisfied expression. As Zhang shaotian sat down cross-legged, it also sat cross-legged and moved with Zhang shaotian’s hand gestures. Its movements were exactly the same as Zhang shaotian’s, but they were a bit slower.

Soon, the Golden Soul slave made a strange seal with his hands, and a red light emitted from his hands. His eyes kept rolling on his face as if he could see through the vegetation, the forest, and the layers of space, staring into the distance.

Everyone tensed up as they watched the soul slave’s expression and observed the changes in his expression.

The soul slave’s eyes rolled around slowly without any expression. The people around felt a chill as if something had swept through their souls. Even in this spring, they could not resist the cold air.

Suddenly, the soul slave retracted his gaze and turned his eyes to stare at Yunxiao. A dark green light burst out of his eyes, and his saliva poured down like a waterfall. He really wanted to eat it.

“?!”

Yunxiao was so frightened by the soul slave’s appearance that he sucked in a cold breath and took a few steps back, his face turning a little white. His eyes flashed with anger as he shouted, ” Zhang shaotian, what do you mean by this?!

Chapter 454

?

454 Meeting Tang Jie again

A strange and surprised look appeared on Zhang shaotian's face. Looking at the Golden Soul slave's extremely eager expression, he turned to Yunxiao in shock, looked him up and down, and then slowly said, "the soul slaves have already searched the area. There are more than ten powerful souls moving around within a thousand miles. But the strongest soul among them is still you!"

His eyes flickered as he stared coldly at Yunxiao, as if he wanted to see through the latter!

Yunxiao felt that his throat was a little dry. He swallowed a mouthful of saliva and calmed himself down. With a sneer on his face, he said, "Hurry up and tell your soul slave to turn his head away. This young master's hair is standing on end under his gaze. Believe it or not, I'll make sure it's consigned to eternal damnation and never to reincarnation."

No matter how strong his heart was, being stared at by that strange thing so greedily, anyone would feel numb in their heart. If he had the strength of his previous life, he would probably annihilate these people on the spot with a sword.

Zhang shaotian revealed a cold smile and said, "haha, if I'm not wrong, you should be an Alchemist, and at least a sixth-tier one at that. Otherwise, my soul slave would never show such a greedy look. He gently made a hand seal, and the Golden Soul slave revealed an unwilling expression as it was pulled back into the soul devouring flag.

Yunxiao's eyes turned cold as he said, "If you have any ideas about me, that will be the most regretful thing in your life."

Zhang shaotian's heart trembled. He didn't know why, but even with his Dao heart and martial essence, he felt a chill in his heart and body when he heard these words. Even some of the Martial Emperor elders in the sect had never experienced such a feeling before.

He suppressed the fear in his heart and forced himself to put on an arrogant and unyielding look. Hmph! He's just a sixth-tier Alchemist. I'm not interested in him. "Those ten or so souls aren't very strong, and they don't seem to be from the demon clan that you mentioned." However, there are two powerful souls together. One of them is extremely violent and seems to be a high level demonic beast, while the other is much calmer."

Everyone in the temple of Holy Fire was shocked. They could even sense the nature of the soul. The cultivation method of the soul Devourer clan was truly terrifying, extremely terrifying!

The seven super forces were indeed extraordinary and well-deserved!

Yunxiao pondered for a moment and said, "they should be Shen Feng, the leader of the skeleton mercenaries, and the nine-winged spirit snake bird. The other souls should be from the four extremes sect. Where are the two martial sovereigns and the demon clan members?"

Zhang shaotian's eyes narrowed and he hesitated, "There's rule force around a martial sovereign. My soul slave's level isn't high enough, so I can't detect it. In addition, there are several places in the bulao mountain that have restrictive spells, and we can't check the situation inside. I think those great demons might be in those restrictive spells."

Everyone's head was a little dizzy from hearing this, and Feng Zhu couldn't help but complain, "this King level master is really f * cking abnormal. Not to mention that there's a formation within a formation, even the formation core has a restriction. How the f * ck are we supposed to survive?"

the key must be in those restrictive spells," Yunxiao said with a frown. I'm afraid the demons are one step ahead of us. The four extremes sect has lost the protection of the great demon. Let's capture Tang Jie first."

"Tang Jie? The eldest young master of the Tang family of the four extremes sect?"

Zhang shaotian had also heard of this person's name and frowned. "He's one of them? Why did you capture him?"

Yunxiao smiled. you don't have to ask about that. It will be of great use to you. Lead the way, dear.

Zhang shaotian didn't ask any more questions. The dozen or so people from the four extremes sect were indeed the ones they were most confident in taking down. He could replenish his Golden Soul slaves, so he naturally wouldn't resist.

He took the lead and flew in front while the others followed closely behind.

The size of the unaging mountain was still within their visual estimation. After flying for the time it took to brew a cup of tea, they saw many figures flashing about, as if searching the mountain for something.

While they were flying, the season in the mountains changed again, from spring to summer. The sun was shining brightly in the sky, and the temperature rose sharply.

who's there?!

Shan yangze was the first to notice their presence. With a loud shout that reverberated in a radius of a few miles, all the members of the four extremes sect quickly gathered in the center.

Tang Jie's pupils constricted as he immediately discovered Yunxiao and the others in the air. What made him even more afraid was Zhang shaotian, who he could not sense the slightest aura from, so there was only one possibility-his strength was far higher than his.

"Young master Tang, I haven't seen you for a while."

Yunxiao stepped forward from the void and greeted them with a smile.

Tang Jie's expression changed drastically. Without those demons, Shan yangze, who was the strongest among them, would not be able to restrain them. His heart grew heavy as he said, " Li Yunxiao, although we have some grudges between us, we have no grudges against each other in general. Why don't we turn from enemies into friends and deal with the difficulties before us together? "

it's a good suggestion, " Yunxiao shook his head and said, " but how can I turn a man who goes back on his word like young master Tang into a friend? " Don't forget what you promised me. You haven't fulfilled your promise to eat the netherworld battleship."

Tang Jie's eyes flashed with anger. After he entered the light song woodland, if this person had not been against him all the way, he would not have ended up in this situation. Perhaps he would have already

obtained the yin key and Noah's ship. Now, not only was he trapped in the enchantment of the throne, but even Yin Key's whereabouts were also unknown. All of this was caused by the person in front of him. If it wasn't for the fact that he couldn't defeat him now, he would definitely kill him at the first moment.

there are no eternal enemies in the world. Young master Yunxiao, with my status, I'm definitely worthy of being your friend.

Tang Jie swallowed his anger and tried to please the other party, saying, "The talk about eating battleships that day was just a joke. You and I can be considered friends if we don't fight. If we continue to fight, it won't be good for either of us. Don't you agree?"

child's play?" Yunxiao was stunned. If one day you suddenly say that befriending me is just child's play, then what should I do?"

Zhang shaotian didn't seem to have any trouble and coldly said, "Why are you talking so much nonsense? This tribulation of the Tang Dynasty is yours, the rest is mine!"

As soon as he finished speaking, he did not wait for Yunxiao's reply. He spread out the soul devouring flag in his hand and let it flutter in the wind. A cold and gloomy air spread out, covering the sky and the sun. Although it was a hot summer, a cold wind and chilly air began to appear all over the mountain.

The members of the four extremes sect felt as if they had fallen into an ice cellar. Even the seven stars martial Supreme, Shan yangze, felt a chill run down his spine as he cried out in shock, "Yingluo, Who are you?"

"I'll be the owner of your soul soon!" Zhang shaotian sneered.

He made a gesture with his hand, and the Golden Soul slave slowly crawled out of the soul devouring flag. It drooled and rushed down to the people below. Its eyes were full of green light, and it let out an excited cry.

"?!"

The people from the four extremes sect were all scared out of their wits and turned to escape.

don't run! Swear your loyalty to the eldest young master!

die! Shan yangze roared as he unleashed all his strength. He knew that this was the moment of life and death. If he couldn't win, he wouldn't be able to escape either. Moreover, this was the best time to show his loyalty. As long as he could survive this, he would return to the four extremes sect in the future and be Tang Jie's trusted aide. He would not have to risk his life like this anymore.

The power of a seven-stars martial Supreme burst out all of a sudden, and the cold Qi that filled the sky was immediately pushed up. It warmed the hearts of all the martial artists, and their morale was greatly boosted!

“Boom boom boom!”

The dozen or so martial artists attacked at the same time, creating a spectacular scene. They bombarded the Golden Soul slave, preventing it from coming down.

Tang Jie also took out his Vermilion Bird saber and slashed down with the great void slash. The space directly split into a cross, and its power was not below that of a martial venerable.

Zhang shaotian's pupils shrank slightly as he stared at the Vermillion Bird saber in Tang Jie's hand, revealing a surprised expression.

The moment the Vermilion Bird saber appeared, the power of the weapon almost suppressed his soul devouring banner. Even the Golden Soul slave revealed a look of fear.

Ninth-tier Mystic artifacts were absolutely rare on the continent. There were only three kinds of people in the soul-devouring tribe who could be promoted to an elder and enjoy all kinds of offerings. The first was when their cultivation had advanced to the martial sovereign realm. The second was when the soul-devouring banner that was connected to them had advanced to the ninth-tier, and the third was to completely refine a ninth-tier Mystic artifact.

It was impossible to completely refine a ninth tier profound weapon without the cultivation of a Martial Emperor. Even a Martial Emperor would find it difficult to completely refine a ninth tier profound weapon, unless he reached the peak of the Martial Emperor realm.

Therefore, the third situation was very rare in the soul Devourer clan. Most of the elders only had one profound level weapon, which was the soul devouring banner that they had refined with great care.

The soul devouring banner was refined from the lowest grade, and it was advanced layer by layer. Every disciple of the soul devouring sect used the rank one soul devouring banner at the beginning. The primary soul inside was also very weak. Only in this way could they be connected to their minds and completely integrate with themselves. When the soul devouring banner continued to advance, its power would gradually be reflected.

However, the soul devouring banner was not quite the same as ordinary profound level weapons. It relied on the level of the main soul and was much weaker than other profound level weapons of the same level. The only advantage was that after a long period of refining, it had long been completely connected with the mind and could exert one hundred percent of its power.

After Zhang shaotian's soul devouring banner advanced to a ninth-tier quality Golden Soul slave, the full power it displayed was only equivalent to less than one-third of a ninth-tier profound weapon. But even so, it was still a very terrifying power!

This advantage also made the disciples of the soul Devourer clan much stronger than those of the same rank. In the heavenly martial realm, no one dared to provoke the soul Devourer clan of the same rank.

Just as Yunxiao had said, Golden Soul slaves were divided into four levels: heaven, earth, Mystic, and yellow. It was said that only earth-grade Golden Soul slaves could match the power of a ninth-tier Mystic artifact with a hundred percent certainty. No one knew how strong a heaven-grade soul slave was. Even Zhang shaotian didn't know if they really existed in the soul Devourer race.

Therefore, when Yunxiao said that Huangfu BI's soul slave was a heaven-grade Golden Soul slave, he was extremely shocked and suspicious.

Now that the Vermillion Bird saber in Tang Jie's hand had appeared, it directly suppressed his soul devouring banner in terms of weapon accumulation level, which made Zhang shaotian very tempted. If

one possessed a ninth grade soul devouring banner and refined a ninth grade profound armament at the same time, one's combat power would be multiplied.

His mind raced as he cast his gaze toward the Vermillion Bird saber!

Chapter 455-wantonly extracting souls

In Tang Jie's hands, the Vermillion Bird saber could not even display 5% of its power. It was like a child holding a big ingot. There were no adults around, so how could the surrounding people not be moved?

The Golden Soul slave in the sky was overwhelmed by the attacks and was forced to retreat. The morale of the four extremes sect's people was getting higher and higher, and they became more and more courageous as the battle progressed.

big brother Yunxiao, haha!

Ye Fan frowned and shouted, asking if he should help.

Yunxiao's face was as calm as usual. He shook his head and sighed, "The human soul is the most powerful when it has seven emotions and six desires. The people of the four extremes trading company below have infinite courage from the seven emotions. The soul devourers call this process of stimulating the soul power of the other party "pouring water.""

"Flood?" Ye Fan was stunned and asked in confusion.

some black-hearted vendors put a lot of water into the meat when they slaughtered pigs and sheep to increase the weight of the meat and sell it for more," Yunxiao said. It's the same as the perverts from the soul Devourer clan. Before taking the soul, stimulate the seven emotions and six desires of the other party, and the power of the absorption will be stronger."

This explanation made Ye fan's scalp tingle. Looking at Zhang shaotian's indifferent and proud eyes, his heart was filled with disgust.

"The water is almost done, we can kill him now."

Zhang shaotian gently smiled and sent a seal into the soul devouring flag. The Golden Soul slave suddenly showed a happy expression. All the attacks were pushed away and couldn't advance any further. The Golden Soul slave opened its mouth wide, and a large amount of saliva flowed down. It let out a strange "Keke" sound and suddenly rushed down. Gusts of cold wind swept down from the sky.

All of the four extremes sect's attacks were instantly destroyed. Even dan zeyang was shocked to find that they could not put up any resistance against the terrifying laughter of his soul slave. He was so frightened that he fled in a hurry.

"Whoosh!"

The long banner danced in the air. A large number of Warriors screamed in horror and fell to the ground without any symptoms. Their souls were directly sucked into the Golden Soul slave's mouth and devoured. The terrifying atmosphere spread.

Shan yangze's body turned cold as well. After struggling to hold on for a moment, he felt a chill in his soul. In his shock, he roared repeatedly, wanting to self-destruct to hurt the enemy.

Zhang shaotian's brows furrowed as he conjured a hand seal. The Golden Soul slave followed suit and sent a seal into Shan yangze's body. The violent Yuan Qi was instantly suppressed, and Shan yangze felt as if he had fallen into an ice cellar. His soul was extracted and swallowed by the Golden Soul slave.

"Argh! Help, help!"

When Tang Jie saw this terrifying scene, he was so scared that his legs went weak and he fled backward like crazy. Killing someone was as easy as nodding one's head on the ground. Since he was able to reach the seven constellations realm, he should have long been aware of his life and death. However, who had ever seen such a thing as eating a human soul alive? their minds collapsed at once.

"Keke!"

After the Golden Soul slave devoured Shan yangze's soul, it looked extremely satisfied. It ignored the others who had escaped and ran toward Tang Jie.

don't hurt him! Yunxiao's face darkened as he shouted. don't hurt him!

Zhang shaotian revealed a cold smile and said, "I know what I'm doing!" He changed the spell in his hand, and the Golden Soul slave seemed to be suppressed. It looked unhappy, but it was still extremely obedient. It stretched out a faintly discernible hand and grabbed Tang Jie.

Tang Jie was so frightened that he fell to the ground. His legs were trembling so badly that he did not even have the strength to run. Shan yangze's soul had been drawn out by such a grab.

"Beep!"

A strange cry came from the sky, and a ray of light cut down from the distance. It was a dagger, which directly cut the sky open, and its target was the soul slave's glabella.

The soul slave's face turned blank. He quickly retracted his hand and retreated to avoid the dagger's attack. The dagger disappeared into the mountain in a flash. It was extremely sharp.

Immediately after, a figure appeared in front of Tang Jie. The wind from his palm condensed and slapped toward the soul slave. The surrounding forces gathered and shook the cold air away, suppressing the Golden Soul slave.

This person was Shen Feng. The power of a nine-stars martial Supreme on his body pressed down, and the soul devouring banner was suppressed by the domain in the air, rapidly shrinking.

"S-Sir Shen, save me, wuwuwu ~"

Tang Jie had just returned from the gates of hell. He was so scared that his entire body went weak. He crawled over and hugged Shen Feng's thigh as he started crying. This time, he was really scared out of his wits as his face was covered in tears and snot.

Shen Feng frowned as he saw Tang Jie wiping his snot on his leg. A look of disgust flashed across his face. He gently pushed Tang Jie away with his foot and said, "Young master Tang, everything is fine now. With this senior here, no one can hurt you."

Only then did Tang Jie nod his head, his gratitude overflowing in words.

"Hmph, no one can hurt him? Do you think you're a martial Supreme?"

Zhang shaotian's face turned cold. He grabbed the soul devouring banner in the air and flew down to Shen Feng. The entire sky turned cold as he flew.

"The soul Devourer clan?"

Shen Feng suddenly let out a long howl towards the sky, his voice reaching the nine Heavens.

A surge of demonic power approached from far and the shadow of the nine-winged spirit snake bird continued to expand. In a few moments, it came down from the sky and reached out its sharp claws to grab Zhang shaotian.

Zhang shaotian felt the space around him tighten as he was locked in the air. The majestic demonic power of the eighth-order monster beast was no less than his!

He spun the streamer in his hand a few times and released the Golden Soul slaves. They turned into ghosts and bit at the demonic Qi. The gloomy and cold Qi field immediately swallowed the demonic Qi.

The nine-winged spirit snake bird sensed the danger and changed its direction in the air, circling to the right. Zhang shaotian's face turned cold and the seal in his hand changed. The soul slave seemed to have identified the monster beast and chased after it, chasing it everywhere in the air.

Shen Feng's expression darkened. He had spent a great deal of effort to tame this nine-winged spirit snake bird, and he was well aware of its strength. However, he did not expect that it would be suppressed by the soul devouring banner. He also soared into the sky and sent a palm strike toward Zhang shaotian.

Zhang shaotian's eyes flashed with a cold light. He directly regarded Shen Feng as a tonic. He sneered and pointed his finger. The strong wind made a sharp " Chi Chi " sound, trying to break his Palm Power.

Both of them were nine-star martial Supremes, and they had used all their strength in this attack. Shen Feng's palm force was extremely yang and firm, and it had actually devoured the other party's finger force directly. Without losing any momentum, it pressed down layer by layer like a surging River. The power was endless, and each wave was stronger than the previous!

Zhang shaotian was shocked. The soul devouring clan had spent a lot of time and effort on refining the soul devouring banner, so their own strength was inferior to those of the same rank. Now that the soul devouring banner was being held back by the nine-winged spirit snake bird, he was no match for Shen Feng at all. After being destroyed by a finger, he had the intention to retreat.

li Yunxiao, what are you waiting for? are you just standing there and watching? "

Zhang shaotian angrily shouted at the people in the distance. He flashed a few phantoms in the air, retrieved the soul devouring banner, and retreated.

After the nine-winged spirit snake bird shook off the soul-devouring banner, it circled around for a few moments before returning to Shen Feng's side. The man and the demon, both peak martial Venerables, stood side by side, staring at Yunxiao and the others.

Yunxiao smiled wryly. Although he could control part of the rules of spring, it was still very limited. He could kill a one-star martial Supreme by surprise, but it was not enough to deal with Shen Feng and the nine-winged spirit snake bird. There was no need to mention the people from the temple of Holy Fire. With two two-star martial Venerables, it would be a miracle if they could defeat a three-star martial venerable if they joined forces. The remaining martial emperors were just cannon fodder.

In other words, among them, the only one who could be brought out was Zhang shaotian.

Everyone found that the situation had suddenly reversed.

Tang Jie also discovered the change in the situation and hurriedly rushed to the sky. He stood behind Shen Feng and said, "Sir Shen, quickly kill them! Now is the best chance, or else there will be endless trouble!"

Shen Feng furrowed his brows and looked troubled. It was not impossible for him to kill these people with his strength, but he would be severely injured. The environment was mysterious and unpredictable, and the more strength he had left, the more chances he had of getting out.

"Cough cough!"

Yunxiao coughed twice, then stood up and said, "this must be Sir Shen Feng from the skeleton mercenary group. It's an honor to meet you. I admire you. Why the hell are you getting involved in the matter between us and the four extremes sect?"

Shen Feng was taken aback, thinking that Yunxiao was begging to spare Lao Ai. His eyes narrowed slightly. The man in front of him was someone Mr. Yu wanted to kill at the cost of his life. Although he could not see any threat from Yunxiao, he had always respected Mr. Yu's words. His eyes began to show a strong killing intent.

"Hmph, you're not qualified to kill me!"

Yunxiao seemed to have seen through his killing intent as he shouted coldly. He could not show weakness now, or Shen Feng would really attack him. He had to suppress his aura, so that the other party would not give up after weighing the pros and cons.

"Even if it's Yu, he was defeated by me. How much stronger can you be than him? If it wasn't for the fact that this place is too dangerous and I don't want to waste my energy with you, the two of you and this beast would have died here!"

A hint of hesitation flashed in Shen Feng's eyes, but he eventually gave up and said, "The more afraid you are, the more you like to boost your courage. I don't like to be tricked by you, but you're right. This place is too dangerous, and I don't want to waste my energy with you. Let's talk about it after we leave this barrier."

“Shen Daren Lang Lang.”

Tang Jie was extremely anxious. He wanted to persuade Shen Feng, but when he saw the determination and unhappiness on the other party's face, he immediately shut up. If the other party was unhappy and left him alone, then he would really be dead. As long as they could get out of here, they could mobilize the experts of the four extremes sect, and they could kill Yunxiao.

Yunxiao had been put on his must-kill list, and Zhang shaotian had been forgotten by him.

The main reason was that Zhang shaotian was a member of the soul Devourer clan, and even the four extremes sect could not afford to offend him. So, they could only use the hatred transfer technique to shift all the hatred onto Yunxiao. Killing him alone would be enough to vent their hatred.

Yunxiao smiled, ignoring Tang Jie's murderous look. He turned to Shen Feng and said, "Sir Shen has entered the unaging mountain for a long time, did you discover anything?"

Chapter 456

?

456 A strange space

Shen Feng hesitated for a moment before he told her everything he knew, "I've just circled around the unaging mountain. It's full of life, but there's no sign of any primates. Mr. Yu and the others seem to have disappeared completely. There are also a few places that are very strange, and I don't dare to enter rashly. It's very likely that Mr. Yu and the others have gone in."

He did not have any conflict of interest with Yunxiao and the others, and the reason he helped Mr. Yu was to use his strength to break through the shackles of martial honor. However, the environment here was giving him an increasingly unsafe feeling, and an indescribable sense of crisis was spreading in his heart. He could not explain the reason, but it felt so real.

After he finished speaking, his eyes fell on Zhang shaotian. He thought that this group of people would definitely be led by Zhang shaotian. Moreover, the soul Devourer race was the Overlord of the Western

Region and had a high prestige in the hearts of the Western Region's martial artists. They would definitely have a way to deal with it.

However, Zhang shaotian was looking at Yunxiao, as if waiting for his answer. Shen Feng was taken aback by this.

Sir Shen, " Yunxiao said thoughtfully, " since you have circled more than half of the unaging mountain and have not found anything, there will be no result even if you continue. Rain and the others aren't people who are reckless. Since they've already entered the restriction, they must have their reasons. This is our only hope of breaking through."

Shen Feng also felt the same way. After a brief discussion, they all headed towards the restricted areas.

The nearest unexplored land turned out to be a steep cliff. It looked no different from an ordinary cliff. It was rugged and made of mountain rocks. There were also some vines, wild grass, and wildflowers on it, which were slightly hot under the scorching sun.

However, as soon as their divine senses swept up, they were immediately swallowed up. It was like a suction cup. Not only could it absorb divine senses, but when everyone tried to attack, they all disappeared on the mountain wall without leaving any traces.

"Strange, it can only absorb spiritual sense and vital Qi?"

Yunxiao gently touched it with his hand and found nothing unusual. "What if I do this?"

Waves of vital Qi were emitted from his body, wrapping him into a ball of light and slamming him into the stone wall.

"Whoosh!"

He only felt that the space around him had changed, and everything in front of him turned pitch black. It was as if he had entered a strange place. Rays of light began to appear under his feet, crisscrossing in the space and forming squares that spread out in all directions.

He was standing on one of the nodes, and the entire space extended infinitely. It should be some kind of restricted space, but the grid under his feet was very limited, forming a square plate floating in the void.

Yunxiao looked at the crisscrossing and orderly lines under his feet and found them very familiar. Moreover, the parallel Space formed by the lines was constantly rotating with the central line as the axis, and it seemed to be unstable.

“Is this place really Suan ni?”

Just as he was feeling surprised, the figures of Ye Fan and the others also began to appear one by one, followed by Shen Feng and the nine-winged spirit serpent bird, and finally, Tang Jie. He felt a little uneasy staying outside alone, so he gritted his teeth and rushed in.

Ye Fan looked around in shock, “big brother Yunxiao, what’s going on here?”

As the crowd appeared, the rotation of the parallel Space began to slow down. “Look at the lines under your feet. Don’t you think it looks like something?”

“Like what?”

Everyone was frowning and thinking hard, as if they couldn’t remember.

“Go!” Tang Jie’s eyes widened as he shouted, “go! This Parallel Space is like a chessboard!”

It was only then that everyone realized that there were indeed 19 lines in both horizontal and vertical, making a total of 361 intersection points. It was really a huge chessboard, lying horizontally in the void, vast and mighty.

this is the king level martial sovereign’s profound level weapon, the unaging mountain. What does he mean by placing a chessboard in his profound level weapon?”

Zhang shaotian walked on it. There didn't seem to be anything special about it. He could move freely and there was no strange force restricting him.

All of a sudden, light began to appear on the other side of the chessboard. Under everyone's astonished gazes, it was Shang and the others, li included, who seemed to be fine.

The four of them also widened their eyes and looked at Yunxiao and the others in shock.

"Lord Shang!"

Tang Jie's heart was filled with joy, as if he had seen his Savior. He hurriedly ran over and said with wild joy, "I finally get to see you, Lord Shang!"

Shen Feng also stepped on the nine-winged spirit snake bird and flew over.

"Haha, that's great!"

Tang Jie was overjoyed, and with a ferocious look on his face, he stared at Yunxiao and the others and said, "Lord Shang, it's time to settle the score with these people!"

Ye Fan and the others were shocked and became alert. The difference in strength was too great, they were in danger.

Even Yunxiao's face changed drastically. In this strange space, he could not feel any power of the Four Seasons, which meant that he could not condense rules at all and could only exert the power of a four-stars martial Grandmaster. In addition, the divine realm tablet had run out of spiritual energy, and Little King Kong gourd was seriously injured. He was afraid that he could not even defeat Tang Jie.

The smile remained on Shang's face, but the coldness in his eyes gradually grew stronger. you're li Yunxiao, right? what a small world. I didn't expect to see you again so soon. I suddenly feel very happy. I wonder if you're happy?"

Zhang shaotian didn't know how powerful the big monster was. He only saw a few more martial grandmasters and didn't put them in his eyes. He snorted, "Are these the demon clan members you were talking about?" In his eyes, these people were not even qualified for his soul slaves to devour.

Yunxiao smiled awkwardly and said, "as the saying goes, no discord, no Concord. It's better to have one less enemy than one more friend. Peace is the most important thing in all things. It's better to get rid of an enemy than to keep one alive. Let's go through thick and thin together.

"Bullshit!"

Tang Jie roared, his face extremely ferocious. He gritted his teeth and said, "Lord Shang, this kid is extremely shameless and dangerous! Also, the man in white with a dark face next to him was a martial honor expert of the soul Devourer race. He had to be careful too! It's better to get rid of these people as soon as possible to avoid any more trouble!"

"That's right," Yu said. The others are fine, but we must get rid of this li Yunxiao as soon as possible. I have a feeling that he will become a major threat to our demon race!"

Although Shang did not take Yu's words seriously, he could not forget Yunxiao's two Saint artifacts, and he was greatly afraid of him.

A cold glint flashed in his eyes as he raised his hand and chopped down. He said softly, "Kill!"

The atmosphere on the chessboard instantly turned cold. The eyes of the big monsters were filled with killing intent and a light purple aura filled the air. Even Zhang shaotian was surprised. The killing intent made his heart palpitate.

Shen Feng, I'll leave that person from the soul Devourer clan to you.

Mr. Yu said to Shen Feng. They had a close relationship and always spoke their mind.

"Don't worry,"

Shen Feng's answer was also extremely simple. Zhang shaotian had fought with him before, and as long as the nine-winged spirit snake bird restrained the soul devouring banner, he would be able to suppress Zhang shaotian.

Zhang shaotian's face changed slightly. li Yunxiao, " he said, " I can't beat that beast. Help me! As for the rest, throw them to your companions!"

Those great demons were all martial grandmasters, and they looked about the same as Yunxiao. Although their killing intent was a little frightening, their cultivation bases were still there. In his opinion, with three martial Venerables on his side, he could easily annihilate them all.

The people of the temple of Holy Fire all felt bitter in their hearts. Among those great demons, Guang Yu could wipe them out by herself. If they were to fight, they would probably be completely annihilated in a few rounds.

Tang Jie's face was filled with viciousness as he said with killing intent, " Leave that li Yunxiao to me. I'll cut him into pieces with my own hands!

The Vermilion Bird saber appeared in his hand, and the fiery red saber Qi jumped and flashed. It stepped down on the chessboard step by step, and its aura kept rising, ready to explode at any time.

how dare you provoke me and go against me at every turn? I am the eldest young master of the Tang family of the four extremes sect. Those who go against me never have a good ending. Today, I will give you an unforgettable lesson!

Tang Jie circulated his vital Qi to its peak and poured it into the Vermilion Bird saber. The weapon spirit also sensed it and gave out a cheerful hum, as if it was eager to drink blood.

"Great void slash, slash through everything!"

He roared and raised his saber high, then suddenly slashed down. The entire space suddenly fell silent.

When Tang Jie's saber struck just now, only a ray of light appeared on the blade and then disappeared. There was no Saber Light or primordial Qi, and there was no change in the space, as if he had deliberately done it.

"This is an ..."

Everyone's pupils contracted in shock. Could it be that this space also had a restriction on vital Qi?

Tang Jie slashed a few more times with all his might, but there was no reaction. No matter how abundant the yuan Qi in his body was, he could not release it!

Ye Fan also tried to send out a few punches, but he was also restricted, they were ordinary and had no power.

"His origin power is suppressed as expected!"

Overjoyed, Yunxiao laughed wildly and said, "Haha, Tang Jie, aren't you very good at this? Chop me, come and chop me!" A vicious look appeared on his face as he sneered and strode forward. He clenched his fingers tightly, making a crackling sound.

"Hmph!" Tang Jie was startled and coldly snorted, "since you've suppressed your Origin Energy, do you still want to hit me? I'm going to Cut You Down, what can you do? Hit me, hit me, hit me!"

He held the Vermilion Bird saber in his hand and started to provoke the other party crazily. His eyes were filled with contempt.

"Bang!"

Yunxiao stomped on the ground and shot out like a cannonball. Suddenly, he threw a punch so fast that it was hard for the eyes to catch it. He saw Tang Jie being hit by the punch, and a terrible line of blood shot out like a fountain. Like a kite with a broken string, his body drifted away.

Yunxiao's faint voice rang out, " it's good. My strength isn't suppressed.

As soon as he finished speaking, the crowd saw drops of blood dripping from his fist. The big demons' hearts suddenly tightened!

Chapter 457-hand to hand combat

When Tang Jie was sent flying, an armor on his body automatically appeared to protect him, but his defense was still destroyed by the wind from Yunxiao's fist, and he was seriously injured.

With just the strength of his physical body, he actually dared to destroy the defense of the battle armor with one punch!

All the great demons' hearts tightened. This kind of fist force strength was something that very few of them from the demon clan could achieve. Only those demons who specialized in cultivating their physical bodies could use their bodies as weapons and break the enemy's armor!

"I can't let him die!"

Shang's face darkened as he looked at Tang Jie, who had collapsed in the distance.

Li immediately rushed forward. She was the best at healing. However, he realized that he couldn't use any of his vital Qi and could only run on the grid line of the chessboard.

"Hmph!"

Yunxiao snorted coldly as he kicked his legs in Tang Jie's direction and leaped more than ten meters high, then flew down like a big Bird.

"Be careful, li!"

The sound of rain rang out as his taillight sword flew out of his hand and was thrown at Yunxiao at an extremely fast speed, like a dagger. He himself let out a loud roar and his entire body swelled up, revealing his powerful physical body. He also leaped up and charged forward while roaring.

In terms of the strength of his physical body, he was no weaker than Yunxiao, and after forming the ancestral bloodline, he was far stronger than the latter!

This strange space actually suppressed essence force, so he could only fight with his physical body!

“Whoosh!”

Although the tail-light sword was sharp, it was just an ordinary weapon after its weapon charm was suppressed. With a sneer, Yunxiao grabbed it with his palm. His mighty body had been cultivated to the peak, and no weapon in the world could hurt it. So, he grabbed the sword in his hand and laughed.

“Haha, rain, thank you for your sword. It feels pretty good!”

Yunxiao grabbed the taillight sword and thrust it at the incoming rain with great enthusiasm. Although there were no sword gleams or primordial Qi, Yunxiao’s sword intent was far superior to these people. The seemingly ordinary strike seemed to cover all the acupuncture points in Yu’s body, making it impossible to avoid!

Yu was taken aback. This li Yunxiao was indeed an abnormal monster, and he could not stay here any longer today!

His eyes were filled with killing intent as he threw a punch at the sword radiance. No matter how high the other party’s sword intent was, it was just a profound level weapon without any weapon rhythm. It was impossible to hurt him just by relying on the sharpness of the blade.

“Hiss!”

Just as rain thought that he would be able to suppress his opponent, he felt a sharp pain in his hand. His fist had been pierced by the sword by half an inch!

“How did this happen?”

Yu endured the intense pain, but his heart was filled with shock! His body was so strong that even if Yunxiao’s primordial Qi was not suppressed, and he was a four-stars martial Grandmaster, he might not be able to hurt him even if he used a ninth-tier Mystic weapon, let alone the fact that the other party could not use his primordial Qi at all!

Following Yu’s scream, the great demons’ pupils all shrank and they looked over in horror. Their thoughts were exactly the same as Rain’s, and they didn’t know what was going on.

At this time, Li had already run to Tang Jie’s side and checked his injury. After finding out that he was fine, he heaved a sigh of relief, picked up the Vermillion Bird saber beside him, and threw it to the rain, shouting, “Rain, catch!”

Yu endured the severe pain as he held the saber in his left hand, his eyes bloodshot, and roared as he slashed at Yunxiao.

With the Vermillion Bird saber in his hand and his strength, he could definitely kill Yunxiao! Even if the other party was holding his own ninth tier profound armament, he could not be stingy and used all his strength to slash down.

“Hmph, you think I can’t kill you just because you can’t use your vital Qi?”

With a sneer, Yunxiao waved the tail light sword in a strange posture in the air. It looked very disharmonious, but a strange force flowed out with every movement of the sword.

“Bang!”

As the two ninth tier armaments collided, Yu felt a powerful force from the Vermillion Bird saber, forcing him to retreat. Moreover, there was a cut on the Vermillion Bird saber!

“This isn’t just physical strength!” He cried out in horror. What kind of power did you use?”

“Sacred skill!”

In the distance, Ye Fan was shocked, he shouted in joy: “So sacred skills can still be used!”

What Yunxiao used was the law condensation technique of the hall of Holy Fire. Although Yuan Qi could not be used here, the law of heaven and earth was a higher existence than pure power. After he used ye Nantian’s Secret technique, every move still contained a certain law, so po Yu’s pure physical defense was as easy as flipping his hand!

Ye Fan was overjoyed: “ since sacred skills can be used, everyone, let’s attack together! Kill all these monsters!

He shouted as he took out a sword and rushed forward.

Ever since they entered the demon land, the people of the temple of Holy Fire had always felt extremely vexed. They could not help in all kinds of battles, big or small. At most, they could only be substitutes. They had long been holding a breath of grievance in their hearts.

Now that they discovered that their sect’s sacred skill was shining brightly, and that it could still be used under the situation where everyone’s power was suppressed, gathering the power of the heavens and earth, all of them were so excited that their blood boiled. Their morale was suddenly high, and they rushed forward with a roar.

Each of them performed the same strange action, and in an instant, a strange power began to flow. Shang and the others looked serious. They were no strangers to the power of rules, but they did not understand how these ant-like existences could condense rules. The only consolation was that the rule force was extremely weak. If it was under normal circumstances, they would be able to break it with a casual move, but at this moment, the monastic robe had become a fatal advantage!

When Yunxiao saw that the rain was badly injured, his eyes flickered with killing intent. He suddenly kicked his legs and shot out like a sharp arrow, the tail light sword in his hand cutting through the sky with a sharp edge.

Mr. Yu was also on his kill list, and both of them were determined to kill each other!

Mr. Yu's eyes were very serious, but he did not panic. He stomped on the chessboard with both feet and stabilized his body with a thousand pounds falling technique. His physical strength was above Yunxiao's, and even if Yunxiao could condense a trace of the rules of heaven and earth, it was impossible for him to suppress him. As long as he calmed down, he could still turn the tide and kill his opponent.

"Bang!"

The Vermillion Bird saber met the taillight sword and once again collided with it. Rain's left hand suddenly swelled up again, and faint red blood vessels appeared on the arm, giving off a feeling of surging power.

This time, it was Yunxiao who trembled. He was suppressed by Mr. Yu's strength and kept retreating.

Yunxiao's face was dark as he flicked his wrist and thrust the sword directly at Mr. Yu's eyes. His advantage was his understanding of rules and sword Dao. Mr. Yu's advantage was his superior body and strength. He raised his Vermillion Bird saber to block the attack, and sparks flew again.

The two of them were both people with strong hearts. After one move, they once again fought. The two ninth tier profound armaments were constantly chipped, but neither of them felt any heartache. In their eyes, there was only the determination to kill the other.

The seven from the temple of Holy Fire charged at Shang and the others in different directions.

Yuwen Xun, who had been in the talisman General's hand all this time, fell to the ground. He took out his battle-axe and stepped forward. He was also a strength-type demon. Although these people in front of him could also condense rules, they seemed to be much weaker than Yunxiao, and their bodies were vulnerable in his eyes.

"A Xuan flower axe!"

The axe shadow directly swept out, bringing with it an overbearing wind as it cut into the crowd, wanting to kill a lot.

“Ha!”

The earthen jar took out a huge hammer from somewhere and smashed it against the axe.

“Bang!”

The huge force from the axe directly shook his hammer away, and his hands went numb. However, what made him feel encouraged was that he had actually blocked it!

After he had used his sacred skill, he had actually managed to withstand the attack of the opponent’s ninth tier profound weapon. Although the situation was different now, it had given him endless confidence and joy. He roared as he raised his copper hammer and smashed it over.

Fu’s expression was extremely unsightly. He realized that he had still underestimated these people’s sacred skills. Although the power of rules was weak, it still greatly suppressed his own Qi.

Seeing that the earthen jar alone could fight the talisman, the rest of the people charged towards the house.

Shen Feng’s expression changed slightly. He muttered a string of strange bird language as if he was conversing with the nine-winged spirit snake bird.

The nine-winged spirit snake bird let out a few shrieks and circled in the air for a while before flying up and grabbing at the people from the temple of Holy Fire.

It was an eighth-tier demon beast, and its physical strength was even stronger than Yunxiao and Rain’s. Its claws were as sharp as profound artifacts, enough to split mountains and split stones. With a single blow, the profound weapons in the hands of a disciple of the hall of Holy Fire were immediately broken, and he was sent flying while coughing up blood.

In the distance, Yunxiao's face darkened as he suddenly said, "Zhang shaotian, let's see if you can release your soul slave!"

Although the soul devouring banner was a profound level weapon, the soul slave was a type of soul body. It was a strange power and might not be shackled.

At the moment, Zhang shaotian and Yunxiao were in the same boat. Without saying a word, he raised the soul devouring flag high and unfolded it in the air. The cold air inside seemed to be suppressed, but the Golden Soul slave slowly flew out with a greedy look on its face.

"Sure enough, it works!"

Zhang shaotian was also overjoyed. He coldly commanded his soul slaves to rush forward and grab the most troublesome nine-winged spirit snake bird.

The nine-winged spirit snake bird quickly flapped its wings and retreated. It was no match for the soul slave when it was at its peak, let alone now that its demonic aura was suppressed and only its physical strength was left. If it fought with the soul slave, its soul would be directly extracted by the soul slave. Demonic beasts at his level would have a certain level of intelligence and know how to avoid harm.

"Keke!"

The soul slave was flying happily in the air, chasing after the nine-winged spirit snake bird. He was drooling non-stop, like a dam with its gates opened.

On the grid line of the entire chessboard, everyone was in a mess and fighting each other.

At this moment, two unfamiliar figures suddenly appeared in the space without a sound. However, the terrifying aura from their bodies suddenly pressed down on everyone's hearts, causing them to stop in their tracks.

The other two also appeared out of nowhere. They seemed to be very surprised, looking at everything with astonishment.

Zhang shaotian's face changed and he cried out, "People from the myriad Stars Valley!"

They were Che Xuyao and Feng Yi. As soon as they entered the space, everyone was alerted and stopped fighting.

Chapter 458

?

458 Heaven and earth chess game

The aura on these two people made everyone feel a kind of terrifying feeling, and they didn't even dare to look at them directly.

Zhang shaotian was covered in cold sweat. He was afraid that the two would suddenly kill him. He quickly recalled his soul slave.

As the two superpowers of the Western Region, Myriad Stars Valley and the Soul Devourer clan coexisted peacefully on the surface. However, they had been fighting in secret for many years. They had killed countless disciples of the other party, but they controlled it in the dark to avoid large-scale conflicts that no one could bear.

"Eh, so many pieces of trash are here?"

Che Xuyao's eyes were cold as he looked around. His gaze lingered on Zhang shaotian and his Junior Brother for a few seconds, making the two shiver.

"Hmph, except for the Sun Fish Boat, everyone seems to be here."

The Fief Lord looked around and asked suspiciously, "What's with this space? I feel like there's some sort of restriction that's suppressing our Origin Energy."

“Oh?” Che xuyao’s expression changed and he said in a serious tone, “That’s right, it’s being suppressed. However, the power of regulation is still present, and it can be condensed.”

Feng Yi said, “the power of laws is the power of this world. As long as it exists in this world, it will exist. No array formation can suppress the laws of heaven and earth. He looked down with an arrogant expression and said proudly, “Do you know what this place is?”

Everyone’s faces were solemn and silent. No one made a sound.

All of a sudden, the entire space began to change, and everyone’s hearts trembled.

The grid lines on the chessboard emitted a bright green light, and stars began to appear in the sky, as if they were in the universe.

The stars grew brighter and brighter, slowly approaching from far away, and actually falling towards the chessboard!

Everyone was shocked. The two martial sovereigns from the ten thousand stars Valley had an even uglier expression. They suddenly realized that they were completely bound, and they couldn’t even condense the rules of heaven and earth. The entire chessboard was filled with a strange power that made them unable to resist at all.

The stars falling from the sky were getting closer and closer. At this time, they were shocked to find that they were not stars, but chess pieces!

The chess pieces were black and white in color, falling like stars. Every piece fell on the grid line of the chessboard, shaking out the power of the stars.

The entire chessboard was like a vast starry sky, and everyone felt as if they were in the Milky Way of the universe. At this moment, only a wisp of consciousness was left, and they were so dizzy that they didn’t know what to think.

Soon, the sky returned to darkness, and hundreds of black and white chess pieces of various sizes appeared on the glowing chessboard, arranged in a certain pattern.

At this moment, everyone realized that they were surrounded by a green light, slowly rising into the sky and floating in the air. They could not use any strength. Even che xuyao and his fief were the same.

“This go arrangement is a Kasaya.”

Tang Jie, who had been knocked out by Yunxiao’s punch, woke up and looked at the chess game below. “The heaven and earth chessboard! The heaven and earth Chess Game Set up by the throne!”

Everyone looked down in surprise. Many of them had never seen the heaven and earth chessboard before, but at least they had heard of it. This was because as long as one could solve this chess game, they would be accepted as a disciple by the king level master and learn the 800 formations.

As the eldest young master of the Tang family, Tang Jie had long been connected to various chess masters, but he had not found anything after studying them for a long time.

Yunxiao’s eyes were also filled with surprise. He was quite proficient in arrays, and the chess game below him was strange. It seemed that he could strike at any point, but at the same time, he could not strike at any point.

“Why haven’t I heard him mention this go arrangement before? could it be something new?” Yunxiao frowned and thought hard, only to find that his divine sense had fallen into it. He suddenly came back to his senses and broke out in a cold sweat.

At this moment, everyone’s body slowly fell to the ground.

There were a total of 20 nodes on the chessboard that emitted a bright light, which was where they had landed. They were divided into black and white formations.

Yunxiao, the two soul devourers, and the seven from the temple of Holy Fire made ten people in total.

On the other side, the four great demons, Tang Jie, Shen Feng, Che Xuyao, his fief, Yuwen Xun, and the nine-winged spirit serpent bird were also enveloped by ten rays of light and descended. Furthermore, Yuwen Xun had actually woken up at this moment, his eyes filled with extreme confusion.

“This is Lao Ai being a chess piece!”

Yunxiao was horrified. He found that where the twenty people had fallen were the twenty most powerful formation eyes, which connected the entire chess game and the entire formation. Any mistake of any one of them could lead to an earth-shaking change in the entire chess game.

“Don’t move!”

After Yunxiao’s move, they represented the White pieces. Afraid that someone would make a rash move, he suddenly shouted.

On the other side, the ten people didn’t dare to move after they landed. Che Xuyao tried to gather his rule force and found that he couldn’t sense anything. At this moment, he was no different from an ordinary person, which made him feel extremely insecure.

big brother Yunxiao, what’s going on? ”

Even though Ye Fan did not understand the chess game, he could feel that the chess pieces were not normal. When they were linked together, they gave off a shocking aura, it was as if any small change would cause them to turn into dust.

don’t move, everyone, ” Yunxiao said. I don’t know the situation here, but I’m sure that if we take one step forward and cause the game to change, we’ll all be dead!

“Li, what did you see?” Shang asked.

Li looked at the chess pieces, his eyes still filled with unconcealed shock. “These chess pieces are actually made of Star Iron from outer space. No wonder they can set up such a celestial chess game. The killing intent in this situation was extremely heavy. It was as if every step was a dead game, and it was difficult

to see any chance of survival. It'll be difficult for us to escape if we're trapped in it. Unless you can find the key to the game and solve it. "

Tang Jie's face was ashen as he said, "crack it?" Do you know how long this go arrangement has been circulating on the continent? No one has ever managed to crack it. "

The fief Lord's eyes turned serious and he said in shock, "Is this the heaven and earth chessboard? I've only heard of it, but I've never heard of the killing intent hidden in this chess game. If you can't break out of this situation, it's hard to guarantee that you won't be annihilated in the end!"

but go is divided into two colors, "che xuyao said. if we break the game, what are they going to do?" He pointed at Yunxiao and the others with a puzzled look.

"I understand," li Dao said, "this is not just a dilemma, but a double-kill situation. The key to solving this should be to kill all of them. Otherwise, if you trigger the killing intent, the final result is likely to be all ashes and smoke!"

The fief Lord looked at li with a strange look and seemed to be very interested in her origin. He nodded and said, "You're right, this is a double-kill game. Besides, we've lost all our strength, so we can only rely on our chess skills to kill them. There should be a chance of survival."

"Look carefully before you move," Li said with a frown.

They were basically in the same boat as the two martial Supremes now. The chess pieces were closely linked to one another. Any movement of Qi would directly affect the key to victory and defeat, so they had to be extremely careful!

"A game of chess to decide life and death?" Zhang shaotian's face was extremely ugly. He didn't know anything about these things, but he could still feel the vast power of the stars and the killing intent. He stood there, not daring to move.

The atmosphere on the entire chessboard suddenly became strange. No one dared to make a sound, let alone move. Those who knew the go manual began to think.

Tang Jie, on the other hand, had a look of despair on his face. He had found many chess Kings and Masters for this heaven and earth chess game, and a few of them had even died from being possessed by the devil, but they had not been able to solve it.

a fief? ” che xuyao asked. you’ve done a lot of research on these things. It shouldn’t be a problem to kill them all, right? ”

The fief Lord looked worried and smiled bitterly, ”if it was a new game of chess, these pieces of trash would die even if they were ten times more powerful.” But this is an Endgame, and the variables are difficult to predict. I’ve been watching for so long, but I haven’t understood anything. I’m afraid that if I make a move, I’ll die first!”

that’s right, ” Li said. this chess game is too murderous. The one who moves first dies first. But since it’s a trap, there must be a way to break it. ”

“The first to move will die? Zhang shaotian’s face was gloomy: Li Yunxiao, how confident are you in solving this chess game? ”

He found that his side was at an absolute disadvantage. Not only was the fief of myriad Stars Valley a world-famous Beast Tamer, but it was also a master of arrays, and the few great demons seemed to be well-informed. On the other hand, except for Yunxiao, who was a little mysterious, the rest of the people on his side seemed to be small characters. His heart sank to the bottom.

Yunxiao looked around. In addition to the killing intent in each step, the game was also full of changes. He had deduced dozens of moves in his mind, but each move gave rise to endless changes, and he could not see the future at all!

if I’m given a year or so to study it, I might have some results, ” Yunxiao said honestly. but I’m not sure if I can break it in a short time.

Zhang shaotian’s face sank, but he knew that he was telling the truth. If it was so easy to break, would it still be the heavenly game of countless chess Kings on the continent?

“However, Yingluo”

of course! Yunxiao suddenly smiled and said, " I'm very confident that I can kill them with the help of the chess formation!

As soon as his voice fell, the entire chess game fell silent, and a strong killing intent began to spread across the board, the source of which was Yunxiao. He raised his middle finger and raised his hand high in the air to mock the others.

"You're 100% confident that you can kill us? Hahahaha, who is this kid? It's interesting to talk!"

The Fiend couldn't help but laugh, "Does this kid really know how to play chess?" His eyes turned from mockery to coldness as he said, " Anyone with a bit of chess cultivation knows that this is a sure-kill game where the one who moves first dies! Unless you can find the only correct path!"

"The first to move will die first?"

Yunxiao smiled, but his face instantly turned serious. He pointed his finger forward and said, " Nine out of thirteen-fly!"

Chapter 459-competing with intelligence

"Nine out of thirteen-fly!"

Yunxiao raised his hand and pointed his finger. A star suddenly gathered in the sky and fell down with a whistling sound, turning into a white chess piece and falling on the spot he pointed at, emitting a dazzling light!

As he placed this piece, the entire chess board's aura underwent an earth-shattering change. The space on the chess board that was originally parallel suddenly expanded upwards and downwards, forming a three-dimensional starry sky pattern. The 19-horizontal and vertical grid lines also criss-crossed and derived infinitely. It was as if the entire universe space had completely turned into a chess game!

As the chessboard changed, the killing intent in the game also changed. At times, it was like a small bridge and flowing water, cool and refreshing, or like thousands of soldiers and horses, pressing down

on them and making it difficult to breathe. Waves of chill enveloped everyone's hearts, as if they would completely disappear with a single movement!

"?! Didn't they say that the one who moved first would die first? H-how are they fine?"

Che xuyao looked at the change of the game in horror. He felt as if his side had fallen into a great killing intent. Even he, who was a martial Supreme, felt a chill in his heart. It had been a long time since he felt so powerless and at the mercy of others.

Fief Lord and Li's faces also changed drastically. Yunxiao's small flying corner seemed to be boring, dispensable, and had no effect on the battle, but the situation of the entire chess game had undergone a tremendous change. It was like a trigger that drew endless killing intent to the ten of them.

Zhang shaotian's reaction was the complete opposite of theirs. He only felt that the pressure had been lifted and his body relaxed. The people of the hall of Holy Fire also felt relieved and looked at this huge change in surprise.

"How is it? Can we kill them now?"

Zhang shaotian hurriedly said. Staying in this place for a minute longer made him feel cold.

not so fast," Yunxiao shook his head and said. it all depends on how fast they play. He was only afraid that they would refuse to move. He didn't know if there was a time limit in this space. If they refused to move for ten thousand years, they would be in deep trouble. However, Yingluo, from their expressions, the situation doesn't look good."

The people in the black pieces were indeed starting to get nervous. The killing intent in the chess game was getting stronger and stronger. The cultivation of the great demons was the weakest, and their faces were starting to turn pale.

"No, we can't!" Li Zhen was startled,"if we don't make a move now, we'll be attacked by this killing intent and die in the chess game!" She also raised her right hand high, her face full of panic and hesitation.

“Stop! Don’t move!”

The fief Lord looked at Li’s appearance and was shocked. He suddenly shouted, “One wrong step and you’ll be doomed eternally! We must be extremely careful!”

Li looked at him coldly and said, “ you have the cultivation of a martial Supreme so you can still hold on for an hour. However, the few of us are only martial grandmasters of the six directions realm. I’m afraid we will be annihilated in the time it takes to brew a cup of tea. Instead of that, why don’t we have a son!

The fief Lord’s pupils shrank, and his eyes were filled with killing intent. However, his cultivation was suppressed here, and he did not dare to move at all. He could only threaten loudly, “ Hold on for as long as you can, or else I’ll kill you all even if I leave this place!”

no one is allowed to move! che xuyao also shouted, “ follow our orders!

Li’s face changed slightly. She was not confident in her next move, so she turned to ask Shang for his opinion.

Shang’s face was calm, as if he was unmoved by the death trap before him. “When it’s time to go down, just treat these two dogs” barking as farts,”

“You coward!”

The fief Lord was furious, but when he saw Li’s finger about to point out, he trembled in fear and suddenly said, “ Stop! Even if you really want to go down, we can discuss where you plan to land.”

Li’s hand stopped in mid-air and he hesitated. “Sixteen out of seven.”

She couldn’t make up her mind. If the situation didn’t force her, she wouldn’t have made a move.

“Sixteen of the seven.”

A look of surprise flickered in The Fiend's eyes. Although this chess piece could not reverse the situation, it could resolve most of the killing intent brought by Yunxiao's small corner. It was indeed a good move.

"Let's go with the 20th of 11, maybe it'll be better."

Tang Jie, who had not spoken for a long time, suddenly spoke. Many of his bones had been broken by Yunxiao's punch. Although Li had helped him, his injuries had not recovered, and his face was pale.

"2nd of 11, Suan ni"

Feng Yi and Li were both shocked at the same time and read it out. Their faces were filled with surprise and joy. If this move was played, it would be much more brilliant than what Li had thought. Not only could it dissolve the killing intent, but it could also turn defense into attack!

"Boy, Who are you?" The Fiend was overjoyed. Are you an expert in go?"

To be able to come up with such a move in such a short time, it was definitely not an ordinary person! He seemed to have seen the hope of escaping.

Tang Jie cupped his fists and said respectfully, "Lord Fief, I am Tang Jie from the Tang family of the four extremes sect. I have also studied chess. However, compared to you, how can the candlelight compete with the bright moon?"

He knew the identity of these two people and had the intention of befriending them. If he could establish a connection with Myriad Stars Valley, it would be of great help to him in his fight for the position of sect master of the four extremes sect.

"Tang Jie of the Tang family of the four extremes sect?"

"I seem to have a tiny bit of an impression," The Fiend frowned and said. He laughed. You're not bad, kid. You're of a high status and are full of talent. You can also be humble and polite. If you can help everyone get out of this predicament, I'll definitely remember this favor.

“Not bad!” “You and I can be friends!” Che xuyao added.

Tang Jie was full of joy and repeatedly agreed. It was like a huge windfall for him to gain the favor of two martial sovereigns at once. However, he had to get out of this place alive first.

He didn't have the slightest confidence in breaking this heaven and earth chess game, but if he just struggled to take a few steps forward and force his opponent into a dead end, he was still very confident!

Seeing that no one had any objections, li finally pointed his finger and shouted, “The second of eleven-charge!”

A star condensed directly in the space of the chess game, emitting a crystal-like light, and fell in the direction of her fingertip, turning into a black chess piece that exuded a powerful pressure that shook the hearts of Yunxiao and the others. The relaxed atmosphere suddenly became somber.

The situation on the go board was reversed in an instant. That biting cold Qi had completely transformed in an instant. The White pieces seemed to have fallen into endless killing intent, layer by layer, and would die with a single move!

The three martial Royal realm experts from the temple of Holy Fire, who had lower cultivation, began to shiver under this murderous intent. The cold air penetrated straight to their bones!

“Hmph, brat, no matter how powerful your trump card is, no matter how strong your body is, this chess game is all about intelligence. Can your intelligence compare to mine? Hahahaha!”

Looking at Yunxiao's pale face, Tang Jie could not help but burst into laughter with a smug look on his face.

Zhang shaotian gritted his teeth and regretted not killing this person first. He knew that the situation was not good, so he did not dare to disturb Yunxiao's thoughts. He just waited quietly. Moreover, his cultivation was the highest among them, so he would be the one to last.

“It’s a good move indeed!”

Yunxiao’s eyes were filled with surprise and solemnity. He knocked his head a few times with a finger and muttered to himself, “This doesn’t seem like a move that you can make with your intelligence. I have three ways to break your move, but which one can I use to force you into a desperate situation? So conflicted!”

Tang Jie’s expression changed. He snorted in disbelief, “What’s the use of trying to argue? Can it save your life? If you have the ability, then come out and show this young master!” His face was full of sarcasm.

This move had been researched and developed by countless chess masters, but it still failed to break the heaven and earth chess game in the end. It was undoubtedly a great regret, but Tang Jie’s understanding of the chess game was above everyone else present.

“Seven, nine, ten Luan Luan”

Yunxiao frowned as he kept deducing all kinds of changes in his mind, but he felt that it was endless and impossible to count them all. He even had a splitting headache and a sense of powerlessness.

He sighed. I don’t care anymore. We’ll take one step at a time. Let’s see who dies first!

He raised his hand and pointed forward, shouting, “Three out of nine-double!”

A white chess piece was condensed in the space of the chess game. It emitted the power of stars and fell toward the grid nodes in the space. It drew a long tail in the air and was very beautiful.

“Boom boom boom!”

There was a slight vibration in space as if this piece had triggered some kind of rule. The chess game changed greatly once more. The formation cores that were originally isolated seemed to be connected by this piece, creating a cycle with no beginning or end!

this Xuanji is so chaotic. What's going on? ”

Li was shocked and looked at the changes of the formation chess in front of him. He had a feeling of being overwhelmed and dazed.

“How could there be such a huge change? Just now, he was clearly about to force the other party to death, but with just one move, the order was reversed, and the universe was reversed.”

The fief Lord was even more dumbfounded. He was also a formation master, and he had never seen such a transformation before. He didn't even dare to think about it, but it was displayed in front of him one by one. It was completely beyond his common sense of formations.

Tang Jie's mouth was also wide open, and he was a little at a loss. However, when the murderous intent that penetrated the heaven and earth rose in all directions, he shivered all over and hurriedly scratched his head, cold sweat oozing from his forehead.

This time, it was the white stone's turn to breathe a sigh of relief. Yunxiao smiled lightly and said, “What's wrong? Did he not have enough intelligence? You seem to be in a hurry, do you want me to give you some hints?”

don't gloat! Tang Jie's face turned red as he scolded, “ would you be so kind as to tell us how to get there? ”

not necessarily, ” Yunxiao said with a smile. I don't think so. His eyes were filled with curiosity as he said, “ I'm now very interested in this heaven and earth go arrangement. Your move just now was very wonderful, and I really want to see what your next move is. This change in the go arrangement is called 'Earth Fire clear barbarian'. I wonder if you've heard of it?”

Everyone was stunned. In this life-and-death battle, he actually started to do research!

Chapter 460-insufficient fire and water

The people on the black side were stunned. Che xuyao felt the killing intent and said angrily, “ Hmph! You're trying to confuse us! Do you think we're three-year-old kids?”

Feng Yi's brows were tightly furrowed, and he fell into deep thought.

Li's eyes lit up as he gave Yunxiao a look. A strange light flashed in his eyes as he said, "this game is indeed the 'brilliance of earth and fire'. It is a game of light and darkness, but it is only a corner of the entire heaven and earth chess game. I will use 73% of it. What do you think?"

Like che xuyao, the White chess team thought that it was Yunxiao's trick to create chaos, but after hearing Li's words, they were stunned. Zhang shaotian was even more exasperated as he roared, "Li Yunxiao! What's going on with you?"

it's alright," Yunxiao said with a faint smile. I just want to see how they can get there. This chess game contains the ultimate truth of heaven and earth. The universe changes. If you can solve it, it will be of great benefit to your understanding of heaven and earth."

Zhang shaoyan was so angry that he almost vomited blood. He almost roared, "I don't want great benefits, just kill them quickly!"

Yunxiao made a 'stop' gesture and said with a smile, "Let's take a look first."

The White team was dizzy. Even under such circumstances, he was still in the mood to play. Even the people from the temple of Holy Fire wanted to rush up and beat him up, not to mention the two soul devourers. They swore in their hearts that they would skin Yunxiao alive when they got out of here!

Yunxiao's carefreeness made hei Zi's side's hearts sink. Since the other party dared to tell him about the changes in the chess game, it was obvious that they had great confidence that they could defeat him. Each of their faces was extremely gloomy and ugly!

"73% is indeed good, but it can't completely resolve the changes brought by the earth Fire," Feng Yi said. If we can't reverse the situation with one move, we'll be in a passive position when he makes another move."

Li's forehead was almost twisted into a knot. She also understood what the fief's words meant, but the situation formed by the opponent's piece was a small game in the big game. If one looked carefully, a

new game would be derived from the big game. There were layers of changes and endless changes. It was already very difficult to keep from being obliterated, not to mention turning defeat into victory!

The Fiend pondered for a moment and said, " back then, the king level martial sovereign left a prologue. Have you all heard of the phrase 'heart like spider silk wandering in the sky, body like armor turning into a withered branch'?"

Li was stunned. She had no idea who a King level martial sovereign was. However, when he heard this, he felt that it was extremely profound and mysterious, as if it had pointed out some key point. However, he could not grasp it for a moment, and his heart was a little itchy and anxious.

Tang Jie only felt a flash of inspiration in his mind as he said happily, " "Yes, there is such a sentence! Then the next move should be to shed his cocoon and become a silkworm to resolve this situation! The best position should be nine out of nine!"

"Not bad!"

The Fiend's eyes revealed a sharp glint as he said with a murderous aura, " "I don't believe that with the combined wisdom of the three of us, we can't defeat this little brat!" "Nine out of nine-vanish!" He shouted as he pointed his finger.

As the black chess piece landed, the predicament caused by the earthly fire bright brilliance was immediately dissolved. The entire situation became a new one. It was as if a brand new situation had appeared in the battle between the black and white chess pieces, and countless changes were derived once again.

Feng Yi's face revealed a proud expression. He was a Grandmaster of arrays, and after he pressed the stone, he immediately regained the demeanor and bearing of a Grandmaster. He proudly said, "You are Li Yunxiao, right? I'll remember this name, but it's a pity that you're going to die Here today."

The expressions of the White chess pieces changed drastically, as if they had sensed that the situation was not good. All of them became nervous.

Zhang shaotian's face was so gloomy that water was about to drip out. His head was swollen with anger as he roared at Yunxiao, "If you die Here today, I won't let you off even if I become a ghost!"

Yunxiao ignored Zhang shaotian's roar, but smiled at the fief and said, "Grandmaster Feng, you only managed to escape a calamity under my guidance, how did you become so pretentious? I don't like the way you're acting. It's better to keep a low profile."

He raised his hand, and a star condensed in the air. He muttered to himself, "Should the next step be 'the wind is stronger', or the whole' fire heaven is stronger'?" His face revealed a look of hesitation.

When the people from the fief heard this, they were all shocked. Looking at the stars in the sky, they quickly deduced the situation of 'Great Swamp and strong wind' and 'Great Fire' in their minds. The more they thought about it, the more shocked they became!

"Forget it. No matter where I go, I can only play with you guys. It's of no use to break the entire chess game. I'll just use the 'heavenly lightning and earthly fire' and directly kill you guys."

The dispirited look on Yunxiao's face made everyone want to vomit blood.

"Fifteen out of seven-cross!"

A hint of killing intent flashed in his eyes. The stars condensed and fell onto the grid line. The entire chess game began to change when the White piece streaked across the sky. It stacked layer by layer, and the deduction was endless.

"Boom boom boom!"

That piece was fixed on the fifteenth position of the seventh, and the entire space trembled with it. A killing intent that seemed to have substance was born in the array, crazily surging towards hei Zi and the other ten people, wanting to devour everything!

"Heavenly lightning and earthly fire! What a strong killing trap!"

Even the nine Heavens martial sovereigns of their fief felt a chill down their spine and cried out in horror, "What do we do? what's our next step?"

The killing intent came too quickly, and the endless changes in the chess game overwhelmed him. His mind was almost muddled.

Tang Jie gasped and said in a panic, "How about six out of seven? It can dissolve the power of that step!"

The fief Lord shook his head. no, the loophole is too big. If he puts one more stone in the town, we'll be completely dead!

Tang Jie's body was attacked by the killing intent. His whole body shivered and he said, "If that Suan ni still doesn't leave, he'll really die!"

Li's eyes were also filled with shock as he said, "70% to 90% is still a dead end. What's going on? Is there no way to break it?"

The Fiend patted his head continuously as he racked his brains and said, "What's going on? Don't tell me that I, a Grandmaster of arrays, can't beat a young kid? How could he break out of this trap of heavenly lightning and earthly fire? How do we break it?"

He quickly thought through all the chess games in his mind, but he couldn't find any way to break them!

"Pfft!"

He spat out a mouthful of blood and his eyes revealed a look of despair and dejection. At this moment, his entire spirit suddenly withered, as if someone had sucked him dry.

It wasn't just the killing intent from the chess game, but also the frustration of being defeated. The other party's age and calm appearance showed that there was a huge gap between the two of them in the field of arrays, which was difficult for him, a famous array master, to accept!

“?! I can’t take it anymore, I’m going to die soon. You bunch of trash, just walk around, I’m really going to die!”

Yuwen Xun suddenly let out a wild cry. His cultivation base was above Tang Jie’s, but after his blood essence was extracted by Yu, he was still seriously injured. He couldn’t resist the killing intent that was pouring into his body, and it felt like he was going to be annihilated at any moment. He roared and pointed his finger at the sky, saying, “Fall, break for me!”

“Don’t!”

Li and Tang Jie screamed in horror at the same time as they looked at the stars in the sky!

It was too late.

As Yuwen Xun’s finger pointed down, the star directly turned into a black chess piece and fell from the sky, crashing down on the grid lines.

Yunxiao’s face flickered. He seemed to have seen where the chess piece was placed, and a thought suddenly flashed through his mind. At that moment, countless chess games began to play out in his mind.

“That’s Yingluo.”

Li looked at the landing point in shock. He seemed to have noticed something and was shocked.

In that position, where the chess piece was placed, all deductions became invalid. The changes in the chess game seemed to have reached the end, and the future could not be seen at all!

“Boom boom boom!”

The black chess piece fell into it, and the entire space trembled. At this moment, all the chess pieces emitted a green light, as if they were responding to the black chess piece.

Green light also appeared on the bodies of the 20 people. They could feel the power in the chess game. It seemed to be connected to an infinite distance, an infinite time, and it penetrated the heaven and earth!

“This chess piece is lacking in both fire and water!”

Yunxiao’s eyes were filled with shock as he stared at the black chess piece, unable to calm down for a long time.

Not only him, but Li, Tang Jie, and Feng Yi were also completely stunned.

The entire space of the chess board underwent a huge change again at this moment. The star chess pieces gradually disappeared, and they appeared in the same way that they did when they appeared, deducing the entire chess game from the back to the front.

They could feel the power of the formation. It was as if they could see the distant past and the endless future. Time and space seemed to shrink into a node at this moment. It had been fixed since ancient times and would never change.

Tang Jie swallowed his saliva and licked his dry lips. He muttered to himself, “The Kasaya is broken just like that? So this is how the entire heaven and earth chess game evolved. It’s so incredible.”

At this moment, the entire three-dimensional chess game space that spanned across the universe continued to degenerate and disappear at this moment. Along with it, endless power also disappeared. The entire world turned pitch-black once again, and there was no longer any light.

Everyone was still immersed in the evolution of the array Dao, and it took a long time for them to come back to their senses, as if they had all benefited a lot.

“Has the broken Kasaya been broken? I actually broke the heaven and earth chessboard?”

Yuwen Xun was the first to react. He himself was completely dumbfounded. He was completely clueless about the Dao of formations. Earlier, he had only felt the aura of death and was making a last-ditch struggle, not willing to wait for death. He didn't expect that he would actually falter.

“Hahaha!”

Shang laughed out loud, “As expected of a human who possesses the power of my monster race's mother. Hehe, it seems that keeping you is really useful!”

“Phew, are we finally safe?”

Che xuyao heaved a sigh of relief. He realized that he was sticky all over. He was so nervous that he broke out in a cold sweat. He felt uncomfortable.
