

The Eternal 461

Chapter 461-controlling people

As the infinite chess game space disappeared, everyone's suppressed power gradually recovered.

A cold gleam flickered in The Fiend's eyes as he stared at the three people in the field-Yunxiao, Tang Jie, and Li!

The four of them had seen the solution to the heaven and earth chess game just now, and this chess game was related to the array Dao inheritance of a martial sovereign on the throne. Even as a martial sovereign, he could not help but be tempted!

Tang Jie felt the killing intent in his fief's eyes and immediately took a deep breath. He retreated with a cold body and said, "Lord fief, I'll definitely forget about the deduction of the formation just now. I hope that you can spare my life!"

He felt as if he had fallen into an ice cellar. The other party was a revered Martial Emperor. If he really wanted to kill him, no one present would be able to protect him!

Che xuyao seemed to have understood something as well. A cruel smile appeared on his face and he said, "Brother Feng, do you want to release or kill these scums? who will be released and who will be killed? give me an answer."

Everyone's heart sank when they heard this, and their faces turned ugly. With the power of these two, no one present could escape.

Suddenly, Yu performed an incantation gesture with one hand, and the tail light sword in Yunxiao's hand flew out, turning into a white light and flying back into his hand.

The tail-light sword was full of chips of various sizes, which were the result of the fight with him earlier. At that time, he did not think much of it, but now, he felt a heartache as he stared at Yunxiao with anger in his eyes.

ninth tier profound armament?!

Che xuyao was shocked. He looked at the taillight sword in Yu's hand and the Vermillion Bird saber. The fluctuations of the weapon rhythm from the two profound level weapons made him hold his breath!

Although he was a martial Supreme, he didn't have a ninth tier profound armament. Now that he had seen two at once, a look of shock and ecstasy immediately appeared on his face as he laughed.

"Haha, the heavens are helping me! Brother Feng, your five elements beast taming ring hasn't been refined yet and I'm going to get two ninth tier profound armaments first! Haha, I've worn out my iron shoes in a long search, but I found it without any effort!"

Che xuyao's eyes were filled with desire as he stared at the two weapons in Yu's hands.

Tang Jie hurriedly said, " my Lords, that red Vermillion Bird saber is my weapon. Take it as a meeting gift to you. Please spare my life. The four extremes sect will definitely thank you in the future!

we can't let this brat from the four extremes sect live, " che xuyao said coldly. if he gets out alive, the four extremes sect will come after us.

Tang Jie's face turned pale. I won't. I swear to the heavens that I won't hold a grudge against you for what happened today. Please show mercy!

"I do admire you. How about this, I'll spare your life." The fief Lord sighed.

Tang Jie was overjoyed, as if he had found a life-saving straw. He hurriedly thanked him, " "Thank you! Thank you for your mercy! Tang Jie will forever be grateful for today's matter and will never repay kindness with resentment!"

yes, " Feng Yi said. I believe everything you said. But just to be safe, I'm going to scatter your divine sense and intelligence."

w-what?!

Tang Jie's heart sank to the bottom again. As if he had been played, anger welled up in his heart. He roared, "Fief, you've gone too far!"

Che xuyao's eyes flashed with contempt and he said sarcastically, "Don't be so greedy. I'm already giving you face by letting you live in your body. Otherwise, you'll end up like them, completely annihilated!"

The aura on his body spread out, and the entire space seemed to freeze. Everyone was completely shackled by this force, unable to move at all.

The Emperor Qi of the nine Heavens suppressed everything!

Che xuyao walked towards Yu step by step, his eyes filled with excitement and said, "as expected of one of the seven great Chambers of Commerce, rich people are all idiots. This kind of trash cultivation is actually equipped with a ninth tier profound armament!"

He grabbed out with his palm, and a huge Golden Palm condensed in the air and whizzed down, illuminating the entire space with unstoppable momentum!

Under this immense pressure, Yu's expression was extremely serious, but his eyes were filled with anger and battle. His body exploded, and blood-red meridians appeared under his skin. He wasn't going to give in to the Emperor Qi of the nine Skies!

clear sky sword technique-eleven!

A shocking sword Qi exploded, and the tail light sword flickered with an incandescent sword light, cutting apart the surrounding darkness and slashing towards the giant palm!

Although Yu only had the cultivation of a Martial Emperor, the power of the taillight sword's full-force slash was not weaker than a martial Supreme's move. However, the Emperor Qi of the nine Heavens

suppressed everything, and che xuyao's move contained infinite rules. The moment the 11th sword touched the handprint, it disintegrated.

"Boom boom boom!"

The giant handprint annihilated the sword technique and pressed down directly. There was no one who could resist it in the space!

Rain's pupils contracted, and ripples appeared around him. He forcefully used his spiritual power to break open the space, turned into a Phantom, and disappeared.

"What a strong spiritual fluctuation!"

The Fiend's eyes were filled with shock. He had also caught the frequency of the fluctuations and said in surprise, "che xuyao, you have to be careful. This kid is a little weird. Do you need my help?"

The rain appeared in the space above che xuyao and he shouted, "Clear sky technique-

A powerful ninth-tier artifact aura spread out, and the heaven-shaking might of the sword broke through the layers of darkness. It flowed down like mercury, sweeping across the world!

Che xuyao was also shocked, but he quickly sneered and said, "Fief? this joke is not funny at all! I'm dealing with a mere Martial Emperor. Do I need your help? Just stand there and watch!"

"An ant should act like an ant. If you think an ant can bite an elephant to death, then I'll show my might and turn you into a speck of dust in this world!"

Che xuyao's cold face looked even colder under the golden light in his hand. A golden power appeared in his palm, spiralling up and erupting with a shocking aura.

"Soul Break kill!"

With a loud roar, he blasted towards the sword ray that was slanting down. It was like a scorching sun rising into the sky, illuminating everything!

Just as he attacked, a few figures moved in the light and surrounded Che Xuyao. Their powerful auras rose and they attacked.

Xuan Hua axe-turtle shell!

“Finger sword-Hong Yuan!”

Shen Feng also raised his power to the peak. An Ice Dragon was formed from his Cold Moon saber and it whizzed forward.

The nine-winged spirit snake bird screeched and circled in the air for a while before fiercely charging down. The compressed air around it burned with raging flames, and its eyes revealed its wild nature and ferocity!

“What?”

Che Xuyao was shocked by the combined power of the four attacks! Each of these four powers was not weaker than Rain's sword ray!

“What's going on with these ants? How could he have such a domineering attack power with such a low cultivation? If it wasn't for the fact that his Origin Energy level is too low, he might even be on par with a martial Supreme!”

The Fief Lord's eyes were also wide open, and he revealed a look of disbelief. “Ninth tier profound armament! It was actually another two ninth tier profound armaments! Who are you people?”

Even the four extremes Chamber of Commerce would not be so generous as to produce four ninth tier profound armaments at once. Even a martial Supreme would go crazy over this!

“BOOM!”

Yu's clear sky sword 13 was annihilated by che xuyao's attack, but the Emperor Qi of the ninth heaven did not lose its momentum. After destroying the sword light, it continued to rush up. Yu was shocked and hurriedly twisted the space, but the surrounding space was already locked by a rule force. There was no way to avoid it, and it was swallowed by the fist light in an instant.

Che xuyao quickly turned around and threw out a few punches with his left hand. The robe on his arm was blown up like butterflies. Every punch was accompanied by ripples, creating a shadow in the surroundings.

“Boom boom boom!”

The four of them had joined hands, but he had actually received it with one hand!

“Foolish! No matter how many ants there are, they're still ants. The nine Heavens realm is a chasm that you'll never be able to cross!”

After che xuyao's punch landed, his momentum grew and he tore the light ball in front of him apart with his bare hands. Just as he stretched out half of his body, his head was bitten off by a Golden Shadow that pounced at him.

“What is it?”

In his panic, he threw a punch, but the Golden Shadow bit his arm. In an instant, a chill came from the depths of his soul. Only then did he see that the Golden Shadow was a ferocious face!

a Golden Soul slave?!

Che xuyao's heart skipped a beat. He immediately recognized what this thing was. He shivered in fear and felt his soul slowly leaving his arm. The big mouth that bit his arm was dripping with saliva. It was terrifying!

“Damn it, you dare to devour my soul? you’re beyond redemption! Annihilate! Exterminate!”

He shouted in horror. His left hand formed a sword finger and pointed out more than a dozen strong winds in the void. They all turned into Emperor Qi of the nine Heavens and pierced through the soul slave with an ear-piercing sound!

“Ah ~”

The soul slave opened its mouth in pain and spat out che xuyao’s arm. It wailed in the air and ran toward Zhang shaotian.

The soul slave was connected to its master’s mind. After being pierced by the Emperor Qi of the nine Heavens, its golden light was greatly reduced. Zhang shaotian also suffered a backlash and spat out a mouthful of blood. His eyes were filled with sharp intent and despair!

Although the soul Devourer clan and the myriad Stars Valley seemed to co-exist peacefully on the surface, they would secretly be in a life-and-death situation as long as there was an opportunity. If these great demons were killed, he would be the next one to die. Otherwise, he would not dare to challenge the martial Supreme’s might even if there was a slight chance of survival.

“Soul Devourer clan scum, I’ll annihilate you first!”

Che xuyao’s right hand was in excruciating pain, and it seemed like he couldn’t even exert any strength. The Golden Soul slave bit him and devoured part of his soul. He was in great pain.

He didn’t care about those great demons and ninth tier profound weapons and directly crossed over in two steps. His face was full of malevolence and anger. He wanted to take Zhang shaotian’s life!

“Fire-like glass-Scarlet Flame!”

Suddenly, an extremely high heat wave came from the air and passed between him and Zhang shaotian. The burning power of the flames made even him, a martial sovereign of the nine Heavens, feel a burst of horror!

Chapter 462

?

462 Taking action with the fief

“?! What kind of flame is this?”

Che xuyao was shocked. The flame turned into a line and wrapped around his body. It even burned away the Emperor Qi of the nine Heavens that protected him. He could even smell death!

This had completely overturned his understanding. One must know that the Emperor Qi of the nine Heavens was formed by condensing the rules. It was the greatest in the world and could suppress everything!

He was not the only one. Everyone present was shocked. As soon as the divine flame appeared, all the other forces lost their color!

Zhang shaotian quickly retreated after a short moment of daze. If it wasn't for the flames that saved his life, he would have died under che xuyao's hands.

He looked to his side gratefully and saw Yunxiao's face pale and his body struggling.

Although the power of the flame was strong, it was not burning brightly. It was faintly discernible, as if it was going to be extinguished at any time, as if it was lacking in strength. Che xuyao also noticed this and shouted. Golden light appeared around his body and rushed toward the godly fire like waves.

Yunxiao's heart trembled. The Phoenix true flame he had now could only be used to scare people, but it was not enough to fight on the battlefield. It could not withstand che xuyao's sea of Emperor aura. He hurriedly pointed in the air, and the flame was extinguished in an instant before it was retracted back into his glabella. Only then did his face turn slightly better.

“So it's your doing!”

Che xuyao's face was filled with killing intent, he gritted his teeth and said, " you've been very strong since the chess game space. Let's see if you're really that strong after I break your balls!

He turned around and bent his back, his legs slightly bent, and his body began to emit circles of Golden Emperor Qi. He stared at Yunxiao and Zhang shaotian, ready to rush up.

"Beep!"

The nine-winged spirit snake bird flew across the sky and clawed at che xuyao. Its previous attack was blocked by che xuyao's left fist, causing it to lose a lot of its feathers. It became wild and attacked again. A white ball of light appeared on its two claws, cutting the surrounding space.

"Bastard, go to hell!"

Che xuyao was a little mad. He should have been able to suppress everyone with one move, but now he was in such a bad situation. His soul was damaged and his right hand was in pain. His heart of the Emperor of the nine Heavens was greatly humiliated. He punched out a ray of light with his left hand, which was about to penetrate the nine-winged spirit snake bird.

"Cold Frost Ice Dragon Saber!"

Shen Feng roared and appeared beside the nine-winged spirit snake bird. The blade light slashed out an Ice Dragon, and the nine-winged spirit snake bird also pushed out the white light ball in its claws. It kept spinning in the air, giving off an ear-piercing sound of cutting through the air. Tornadoes kept forming and whistling down. The two of them joined forces to resist the fist force!

"Boom boom boom!"

The combined attack of the two martial Venerables was directly penetrated by the Martial Emperor's fist force and exploded above them. The terrifying aura sent the two of them flying, and blood sprayed in the air.

Che xuyao's face turned cold and suddenly, the sound of a war drum was heard. It was like the sound of an Iron Horse, it turned into sound waves and entered his ears, attacking his sea of consciousness!

"Sound wave combat technique!"

He was suddenly shocked. In the distance, the nine Li battle drum appeared in front of li in the air. He kept hitting it with both hands, and the battle drum vibrated in the air. However, the surroundings were as calm as water. Only a sound wave formed a line and directly attacked him.

"Argh! You should die!"

Che xuyao's eardrums were in great pain, and two streams of blood flowed out from his ears. His head was buzzing, and he had a splitting headache! Originally, this sound wave combat skill could not have hurt him at all. However, after his soul was bitten off by the soul slave, his mental state became extremely unstable.

"Keke!"

Zhang shaotian threw out the soul devouring banner again. The Golden Soul slave laughed and rushed out. It opened its mouth and wanted to bite again. Although it was pierced by the monarch Qi and its strength was greatly reduced, it devoured che xuyao's arm and recovered quickly. It bit again.

"Ah!"

The Golden Soul slave took advantage of the moment when che xuyao lost control of his mind and suddenly grew to a few feet tall. It opened its mouth and bit down on the upper half of che xuyao's body, swallowing it down.

"

Che xuyao's pained screams were heard. He roared crazily and wisps of Golden Emperor Qi shot out from his body, piercing through the soul slave's body. He was surrounded by the Emperor Qi, opened the soul slave's mouth, and escaped.

However, his entire upper body was covered in blood, and his hair was disheveled. He held his head in his hands and roared non-stop. Just now, another part of his soul had been bitten off, and Li's battle drums were getting more and more intense. Not only were they attacking his sea of consciousness, but they were also starting to stir up the qi and blood in his body, as if they were about to break out of his body.

"Fief! Attack! Quickly kill these people!"

He held his head and howled in pain in the air. He had finally put down his dignity as a martial Supreme and cried for help!

The fief Lord had been frowning for a long time, but considering his companion's face, he still held back and crossed his arms in front of his chest. Now that his hands were down, his long robe fluttered in the wind.

Everyone's expression changed.

It was not easy to suppress a martial Supreme with all his skills, and it was all due to luck. If che xuyao had not been arrogant and underestimated his opponent, he would not have ended up in such a humiliating state.

As the saying goes, you won't die if you don't seek death!

Feng Yi was much calmer. He didn't rush to attack. Instead, he took a step to che xuyao's side and began to check on his injuries. Then, he took out a pill and fed it to him. He let him sit in the air and recuperate.

Then, he reached out his right hand, and a large amount of Emperor Qi surged out and surrounded che xuyao, forming a defensive space that protected him from being affected.

Although his movements were extremely normal, Yunxiao's heart sank when he saw them. The act of bestowing a fief directly reflected his calm and heavy character. Every move he made was done carefully, proving that this person must be an expert in battle!

Even if there was another arrogant che xuyao, they would not be able to handle him, let alone a more terrifying Martial Emperor. It was as if a heavy stone was pressing down on everyone's heart, and their mood became extremely depressed.

The Fiend's gaze swept over everyone and finally landed on Zhang shaotian. He revealed a fierce look and nodded, "Your Yingluo is very good!"

Being stared at by him, Zhang shaotian's whole body became cold. He shivered and hurriedly took a few steps back. He released his Golden Soul slave to block in front of him, his face full of panic.

The rest of the people became nervous as well. It was already difficult to breathe under the pressure of the martial sovereign, but they were all determined to fight to the death, so they felt a little more relaxed.

Killing someone was just a nod, so what if he was a martial Supreme? Don't tell me you can kill me twice!

it seems like they're all prepared. I'm going to make my move!

The Fiend's face sank and his expression turned cold. He raised his hand and pointed at Zhang shaotian. He was judged to be the most dangerous person among all of them, so he had to kill first!

Zhang shaotian instantly gasped. Before he could react, the finger force broke through the air and pierced through the Golden Soul slave. It was about to shoot into his head.

"Bang!"

All of a sudden, a mini bell appeared in front of his head and blocked the power of the finger. However, the finger force was too strong and directly sent the small bell flying. Rings of sound waves spread in the air along with the sound of the bell. After being blocked, the finger force burst into countless strong winds that shot in all directions.

“Whoosh, whoosh, Whoosh!”

Junior Brother Zhang shaotian, who was the closest, and the people of the hall of Holy Fire all tried to block it in fear. The cultivation of a martial honor was still good, but the three martial emperors of the hall of Holy Fire were directly penetrated by the strong wind. They all spat out blood and their lives were in danger!

Ye Fan also dodged in a panic, but his arm was pierced by a burst of energy, blood flowed out, he quickly hit a few vital acupuncture points.

The remnant power of a martial sovereign’s finger was so terrifying!

Terrine’s face turned pale, and he hurriedly went to treat his three severely injured companions. Feng Zhu and Qi Guang stood in front of Ye Fan, afraid that he would be in trouble.

The dynasty Bell kept flying back and forth in the air, letting out a buzzing sound and producing countless concentric sound waves. Finally, it made a circle and flew back into Yunxiao’s hand.

When the dynasty Bell was shot by the finger, he had also suffered a great mental backlash, which directly damaged his heart meridian and caused him to spit out a large mouthful of blood. At this moment, his face was extremely pale, but he was still unyielding and his battle intent had not diminished!

Zhang shaotian was the strongest person among them. If he was killed by a single finger, then there was no need to fight. It would directly become a one-sided slaughter. That was why he risked his life to save Zhang shaotian.

ninth tier profound armament? ”

The fief Lord was stunned. Looking at the miniature Bell in Yunxiao’s hand, his mind seemed to have short-circuited.

In order to refine the ninth-rank five elements beast taming ring, he had killed many creatures, but it was still a semi-finished product! And the dregs in this space actually each had a ninth tier profound armament! Even he, who had always been calm and steady, had a dark expression on his face. Was there any justice in this world?

Could it be that after staying in the sect for so many years, the continent's ninth tier profound armaments could already be mass-produced? Or had some freakish great Alchemist invented a method to mass-produce ninth-tier profound artifacts? Otherwise, it didn't make any sense!

"You guys really surprised me!"

The fief Lord said in a serious voice, "however, no matter how much he struggles, he can't escape the path of fate!" From the moment I appeared, your fate had already been decided. As for the profound armaments on you, I will not be polite and accept them!"

His face turned cold, and light gathered in his hand. The five elements beast taming ring, which was connected to his mind, emerged, emitting five-colored divine light and constantly growing in the air. The five mini rat King phantoms kept running on the ring axis. They looked cute and cute, which was very popular with girls.

But at this moment, no one liked it.

Chapter 463-impending disaster

Although the five elements beast taming ring was only a semi-finished product, it was still considered a quasi-ninth tier profound artifact. Moreover, in the hands of a Martial Emperor, the power it displayed was absolutely a world of difference!

The face of the fief was abnormally calm under the illumination of the five-colored light. However, the more calm it was, the more depressed it seemed. The next attack would be earth-shattering, the attack that would end this battle!

Shang had not made a move since the beginning. After his Grand microscopic armillary sphere was damaged, he had lost the ability to fight against these powerful beings. He suddenly spoke, "Li Yunxiao, where's your Saint artifact? Take it out and let everyone hide inside. We'll owe you a favor."

Yunxiao's face was also very unsightly. The divine realm tablet had lost all its spirit Qi, and it was almost an empty shell. He was not sure if it could withstand the attack of a Martial Emperor using a ninth-tier Mystic weapon. you still have the face to tell me this? if it weren't for your armillary sphere, my divine realm tablet wouldn't have lost all its spiritual Qi. Now, I'm in a dilemma!

"You've only lost all your spiritual essence," Shang laughed bitterly,"but mine has been completely crushed by you!" Don't worry, he's only a one-star Martial Emperor. With this half-finished ninth-tier profound artifact, it's impossible for him to break open your Saint artifact space. If I manage to escape today, I'll definitely return this favor."

"Return? After entering my profound weapon space, your life and death will be completely up to me. Do you think I'll let you go?"

Yunxiao's eyes turned cold, and they flickered.

there are no eternal enemies in this world," Shang laughed. I think we can turn from enemies to friends.

Yunxiao's heart jolted. He had never thought about turning enemies into friends, but after entering the divine realm tablet, the life and death of these great demons would be under his control. At that time, he could decide how to deal with them. At the thought of this, he sneered and said, "If you have the guts, you can come in."

He conjured an art with one hand, and light began to appear between his brows.

The fief Lord was very curious. Under the suppression of his powerful aura, these people in front of him could still talk and laugh, as if they didn't put him in their eyes at all. He also didn't know what the Saint artifact the other party mentioned was, but he was very curious about what other means these people had to resist his five elements beast controlling ring.

"Stop!"

Just as Yunxiao was about to summon the divine realm tablet, a cold cry suddenly came from the sky.

Under the five-colored light of the five elements beast taming ring, the space kept shrinking. A flash of lightning came, and gradually a faint figure emerged. It was Qing Zhu. Its cold eyes swept across everyone.

“You’re about to die, and you’re still in the mood for infighting?” he said with a grave expression.

“You are the spiritual body of the divine Tree?” The Fiend frowned.

Qing Zhu’s entire body flickered with electric arcs, as if it had consumed a great deal of energy to come in from the outside. It coldly said, “You activated the heaven and earth chessboard, so I couldn’t get in. Although I don’t know how you broke the go arrangement, now that disaster is imminent, you’re still showing off your power here!”

“What do you mean?” The Fiend asked coldly.

He had seen little Green’s cultivation level. Even if it joined the battle, it would not be his match. However, he was experienced and steady, so he was not in a hurry to attack.

Qing Zhu’s face was full of worry. the power of the throne, the immortal mountain, has already started to activate. The Four Seasons are rotating under its control. It’s already late autumn outside. If it’s winter, then the law of winter-Quietus-will kill all living beings in the formation!

what are you acting like? ” The Fiend frowned and snorted. aren’t you in charge of this formation? ”

Qing Zhu’s eyes were cold as it said, “If I could control the power of the formation, do you think you would still be alive?”

The fief Lord was startled and immediately fell silent. Thinking about it, the power of the formation had far exceeded his expectations. If the other party could really control it, they would have been killed in seconds.

you mean, after the power of the unaging mountain is activated, there will only be one season, and it will no longer enter a cycle? ” Yunxiao asked in surprise.

“Not bad!”

Little Qing said in a deep voice, ” this is the most powerful killing move that the king level master set up in the past. It was to maintain the perfection of his formation. Once someone destroys it, the unaging mountain will gather all its power and trigger the rule of the earth-winter has arrived. Unless someone can resist the power of the rule, they will die without a doubt!

Yunxiao’s face flickered, and he lost his previous calm. Even when the five elements beast taming ring appeared, he did not have such an ugly look on his face.

Rule force could be large or small.

For example, when a sacred skill was used, the rules that could be added to the martial skill were very limited. When a martial sovereign condensed it, it would be earth-shattering, enough to overturn rivers and seas, and change stars.

The higher one’s cultivation was, the stronger the power of regulation one could use. However, if one were to use a ninth-tier top-grade profound level weapon in addition to the Four Seasons boundary array, even a peak martial Supreme would find it difficult to escape from such a powerful array that could draw out the laws of earth!

The fief Lord seemed to have realized the seriousness of the problem, and his face turned extremely ugly. ”According to what you said, we’re dead for sure?”

The great demons who were listening quietly at the side were also shocked. They were all existences at the peak of the martial Supreme realm in the past. Naturally, they knew the severity of the situation.

Shang, on the other hand, gave Yunxiao a complicated look and frowned.

Yunxiao understood what he meant and shook his head slightly. Shang was obviously asking him if the divine realm tablet could withstand the crushing power of the rule of earth. He himself thought it was unlikely.

Yunxiao was completely sure that he could not stop it, unless the divine realm tablet was completely activated at this moment, and the four major territories were fully opened. Then, it would be a combination no weaker than the Four Seasons enchantment and the unaging mountain, and there would be no need to worry about hiding in it. In the current situation, the divine realm tablet could only be destroyed along with the descent of the rules!

“There’s still a chance of survival,” Qing Zhu said coldly, “but I’m not sure if I can survive. But if I don’t fight for it, there’s no hope at all!”

He looked at the fief, and his eyes fell on the five elements beast collar in the sky. A trace of anger flashed through his eyes.

Although he was not a rat Emperor, he had gotten along very well with these spiritual rats over the countless years. At this moment, seeing the familiar figures being controlled by others, he was also extremely angry. If he didn’t need to borrow the power of his fief, he would have turned hostile and killed him on the spot.

The Fiend also seemed to have noticed something and with a casual point, he put away the five elements beast taming ring and stood with his hands behind his back, “Tell me, what do you mean by vitality? If the situation is really as you say, I can’t think of any way to survive.”

“Everyone, please follow me,” Qing said. He performed a hand seal in the air, and a passage appeared in the space in front of him. The light from the outside shot in.

The crowd followed him out. The fief was neither servile nor overbearing, and these people could not escape his hands no matter what. They had to understand the current situation first.

He pointed out his finger and dispelled the Emperor Qi of the nine Heavens around che xuyao.

Che xuyao opened his eyes. He had heard everything just now. His face was extremely cold and he followed the crowd out without saying a word.

Bulao mountain was a land of decay. The autumn wind swept past, and the yellow leaves flew in the sky. Endless fallen trees rustled down, revealing the mournfulness of the entire mountain.

When everyone arrived at the peak of the mountain, Qing Zhu began to cast all kinds of spells into the sky. The dark clouds gradually dispersed, and the sky began to change. However, no matter how the sky changed, the autumn in the mountain became more and more intense, as if it was going to be winter soon.

“This is the seal of the Suan ni?”

Yunxiao’s eyes were filled with surprise as he looked at the symbols and all kinds of stripes that were gradually appearing in the sky. They looked like a blanket with a complicated pattern, quietly floating above him, swaying up and down. If it were not for little Qing’s Qi, they would have disappeared in a flash.

Qing Zhu finally revealed a smile, but it was still ugly. “That’s right, it’s a spatial seal. In addition, when Wuzi was setting up the barrier here, he didn’t even discover it. ”

“How is that possible?” the fief Lord was shocked and cried out. Could it be an ancient seal? In this world, who can hide from the king level master’s seal?”

“It’s not an ancient seal, but it’s been there for thousands of years,” Qing said.

Ye fan’s expression changed drastically. At this moment, a strange power seemed to come down from the seal, calling him. That faintly discernible Qi activity response became extremely intense at this moment!

big brother Yunxiao!

Ye Fan called out nervously, his eyes filled with panic.

Yunxiao's face changed drastically, and his heart was filled with shock. He had understood what Ye Fan wanted to convey.

Noah's ship was in this seal!

Yunxiao turned his face slightly and gave Tang Jie a sidelong glance. He saw that Tang Jie also had an unusually terrified look on his face, and his body seemed to be trembling slightly, trying to hide his nervousness.

thousands of years old.

"That era is not too far away from now. Are there any peerless figures?" the fief Lord frowned. Suddenly, he seemed to have thought of something and his expression changed drastically. However, he could not believe it and shook his head with a bitter smile.

Qing Zhu glanced at him and said indifferently, "Since you've already thought of it, why don't you dare to believe it?"

"What?"

The fief Lord's face changed again, revealing an extremely shocked expression. He said in fear, "You know what I'm thinking? Could this place really be a Kasaya?"

"A fief? what are you thinking about?" che xuyao frowned. He's actually so moved?"

"Gulp!"

Feng Yi felt his throat become extremely dry. He swallowed a mouthful of saliva and looked at Xiao Qing's expression of certainty. He was completely stunned and his mind went blank.

This made che xuyao frown even more and he said, " for thousands of years, there hasn't been any great figures except for ye Nantian and Gu Qingqing.

"Not bad!"

Qing Zhu glanced at him, its eyes cold as it spat out, " this is the space seal that ye Nantian set up!

Chapter 464-all present

this is the space seal that ye Nantian set up!

Qing Zhu's words were like thunder, instantly ringing in everyone's ears! Even though Yunxiao already knew about it, he was still shocked, and the look in his eyes grew even more solemn.

Apart from a few great demons who only frowned slightly, the rest of the people all had their mouths wide open, not knowing what was going on.

Ye Wanwan, ye Nantian's space seal!

Che xuyao felt that his brain had stopped working. He stammered and his mouth was so wide open that a watermelon could be stuffed in.

The fief Lord felt his breathing become a little rapid, and he said, " "Then what does this mean? Could it be that there's a bi an inside?"

Qing nodded. that's right, " she said indifferently. the Supreme-grade Mystic artifact, Noah's ship, is sealed in here.

"?!"

Although they had already guessed it, it still made everyone suck in a breath of cold air. It was difficult for them to calm down. They only felt the blood flowing faster in their bodies, and they were so excited that they could not control themselves.

“You have such a big secret, why are you telling us?”

Even his fief, which had always been steady, became somewhat incoherent, only feeling disbelief. They had spread false news, but they didn't expect it to become true in the end. This made them feel that it was too dramatic and unacceptable.

On the contrary, Yunxiao gradually regained his calm after the shock. He had two Supreme grade profound level weapons. Although he did not mind having too many of them, it was not as strong as the others.

Qing Zhu looked at him coldly and said, “Now that the barrier is about to activate the laws of earth, you won't even be able to keep your life, so what are you so excited about?”

This immediately made everyone calm down. They could feel the desolated power of the yellow leaves in the sky, as if the world was about to change.

The fief that was still doubtful at first, after knowing that you sealed Noah's ship, no longer had any doubts about the Four Seasons of the unaging mountain. “What did you mean when you said there was a glimmer of hope?”

Everyone perked up their ears to listen, as this was a matter of life and death for everyone.

Little Qing raised her head and looked at the giant seal that was flashing in the sky. Her eyes were filled with respect as she said, “Behind this seal is a mysterious space. As long as we can break it together and hide in it, we should be able to escape this disaster.”

Yunxiao sensed the magnificent power of the array and said with a frown, “If this space was set up by ye Nantian, its defensive power is even stronger than the Four Seasons ageless mountain. If he has the power to break the seal, we won't have to be afraid of the Four Seasons barrier!”

“That's right,” Qing said, “the seal's power is stronger than the Four Seasons barrier. However, I've discovered a pattern over the past thousands of years. Every day, the seal is at its weakest at the hour of Yin within twenty-four hours, and there will still be artifact accumulations vibrating out.”

“Yin hour?” “We can’t tell the time within the Four Seasons barrier. God knows how long we have left!”
The fief Lord frowned.

“Based on the time from last time, there’s still about two hours left,” Qing said. He was silent for a moment before he said, “and I’m also relying on the tool accumulation that has been spreading out over the past thousands of years to be able to take form.” &Nbsp;

His eyes were full of respect. Apparently, he was very grateful to ye Nantian.

Everyone’s heart trembled, and they fell silent. The unparalleled expert’s peerless elegance was worthy of the admiration of every person who pursued the martial Dao tirelessly.

Ye fan’s blood was boiling in his body. The people of the temple of Holy Fire clenched their fists and their bodies trembled. The prestige left behind by their ancestors had intimidated an entire era, but their unfilial descendants had not even made a name for themselves on the continent.

Suddenly, a brutal aura came over. The rat Emperor’s huge body gradually appeared on the peak of the mountain. His whole body was filled with monstrous killing intent. He stared at the fief, and the fierce light in his eyes seemed to have materialized.

The fief Lord’s eyes lit up. He looked at the rat Emperor greedily and licked his lips. The aura on his body spread out faintly, as if he wanted to capture it.

“Don’t make a move!”

Qing Zhu’s eyes flashed with a stern look as it shouted, “If we interfere with the breaking of the seal, no one will be able to live! If someone wants to make a move now, I’ll show him what I’m capable of!”

The fief Lord’s body froze. He naturally didn’t care about little Qing’s threat, but the Four Seasons of the unaging mountain were indeed a matter of life and death. One more person meant one more hope. As long as he could hide in the space, who would be able to escape from his palm?

Thinking of this, he calmed down and stared at the rat Emperor coldly. He showed a contemptuous and disdainful look towards the killing intent of the rat Emperor.

Qing Zhu frowned, but it had to borrow the power of its fief, otherwise it would not be able to break the seal.

“Rat Emperor, how are the two of them?”

no,” the rat Emperor said. it’s still locked in that space and suppressed by the power of the unaging mountain. It can’t get out at all!

“It’s a pity,” Qing sighed, “the chances of success would’ve been higher if they’d joined. In that case, we can only let them stay there and wait for them to be annihilated.”

Everyone’s hearts moved. They didn’t know what was going on, but they thought that it was probably someone else who had intruded, so they didn’t think too much about it.

“Take a look at these pills and see which ones are useful. Try to recover your strength in the shortest time possible!”

Qing Zhu took out all kinds of bottles and jars, opened them, and threw them to the crowd. A large amount of pill fragrance came out from them. These were no ordinary high-grade pills.

Yu’s nose suddenly sniffed a few times, revealing a look of surprise. One of the small bottles was actually an eighth-ranked pill. The surging medicinal power shook his qi and blood, and his face was full of joy.

Qing Zhu couldn’t care less. If it couldn’t escape this calamity, then no treasure would be of any use. It threw out all the good things it had.

Just as he was about to grab the small blue Bottle, a figure suddenly moved as fast as lightning and grabbed it before he could. The figure laughed and said, “it’s the Tianshu soul restoring pill! Good treasure, I want it!

Yu Yi was startled. It was indeed the pill he had guessed. In a great rage, he turned his palm into a claw and grabbed at Yunxiao. At the same time, he performed a sword incantation with his left hand, and the tail light sword shot out beams of cold light, about to cut Yunxiao into pieces!

The Tianshu soul restoring pill was an eighth-tier divine pill that could nourish soul power. Not only could it replenish soul power at an amazing speed, but it could also replenish it at an extremely fast speed. Alchemists below the eighth-tier could almost fully replenish their soul power in an instant. Even for someone of Rain's level, it could recover half of his strength.

"Hmph, eye technique-form displacement transposition!"

Yunxiao's eyes flickered with spiritual power, and he disappeared from where he was, avoiding the few sword beams.

Yu's face was full of anger. Just as he was about to rush forward, he saw a bolt of lightning strike down. He hurriedly turned around and retreated. The lightning exploded at the place where he had been standing just a moment ago, emitting light in all directions.

"You really took my words for wind! Shang, do you really want to die now?"

Qing Zhu's face was cold. The lightning around its body expanded and it directly turned into lightning. It appeared in The Sky Above the Rain, and the majestic power of lightning made the autumn colors on the mountain peak Retreat in all directions. It seemed like it was going to attack all out!

He had the most access to the laws of heaven and earth here, so killing Shang and the others would be a piece of cake. If it wasn't for the fact that he had to consider opening the sealed boundary, he would have killed them long ago!

Furthermore, his intention was to deal with Shang immediately after this!

When Feng Yi and che xuyao saw Qing Zhu's lightning power, their faces turned serious. They looked at each other and immediately started searching the bottles.

Shang's expression darkened. "This time, we were in the wrong. I promise there won't be a next time."

He also knew that it was Yu's impulsiveness. At this moment, even if he could win against little Qing, he had to consider the big picture! After entering the sealed space, they would have the Yang key. Perhaps there would be unexpected changes. They would settle the matter at that time.

Rain also realized that he had lost his composure. He gritted his teeth and said coldly, "That's right, I was too impulsive, sorry!" But, there was no apology in his eyes. Instead, they were filled with cold killing intent as he stared at Yunxiao.

Yunxiao checked the pill and found that it was indeed the Tianshu soul restoring pill. He was in a good mood and said with a smile, "it's fine, it's fine. Just don't be so cocky in the future. Otherwise, it's easy to get into trouble.

Yu was so angry that he was grinding his teeth. Shang, on the other hand, was calm as he picked out many things from the bottles and swallowed them.

Qing Zhu retracted its lightning and stood in the air. It looked at everyone coldly and said, "If anyone else makes a move, kill them all without mercy!"

He sat cross-legged in the air, closed his eyes, and began to regulate his breathing, waiting for time to pass.

After taking the Tianshu soul restoring pill and snatching a lot of good things, Yunxiao slowly calmed his mind and began to regulate his breathing.

Everyone in the temple of Holy Fire and Tang Jie were too excited to calm down. They could only half-close their eyes and breathe quietly.

Suddenly, a powerful presence flew over from afar and landed on the mountain peak in everyone's shock. After sweeping his gaze over the crowd, he said, "Is everyone here?"

"Sun fish boat!"

The Fiend's expression changed, and a faint killing intent appeared on his body. For some reason, he couldn't help but want to kill this person the moment he saw him! If it wasn't for his mischief, his Five Element beast taming ring would have been successfully refined long ago.

This person was Sun Boat fish. His face was still pale, but he smiled teasingly. However, his smile was a little bitter. I'm just here to be a bystander, but I've actually fallen into a life and death situation. Why is my life so bitter!

"How's your recovery going?" Qing Zhu opened its eyes.

The sun fish boat said bitterly, " about 20 – 30%. Also, all of my profound level weapons have been destroyed. I don't have any decent ones. Someone can give me one at the last minute.

I've never used profound level weapons, " Qing said indifferently. if any of you have an extra one, you can give it to him.

"Myriad treasures store?" Yunxiao gave him a look and said, " He looks a little familiar, but I can't recall who he is. If you don't mind, I have a few that you don't need."

Sun Boat fish rolled his eyes at him and said, " "Trash that even Wu Zongs can't use, are you going to give me this Kasaya?"

His voice suddenly stopped, and his mouth slowly opened in shock.

Chapter 465

?

465 Sealed space

The sun fish boat's voice suddenly stopped, and its mouth was wide open, and its eyes were almost popping out.

A delicate ancient Bell appeared in Yunxiao's hand. It was small and cute, and the artifact aura it exuded shocked him. He immediately recognized that it was a ninth-tier Mystic artifact!

this ancient Bell is ringing. he was extremely excited and stepped forward to take it.

With a flip of his hand, Yunxiao put it back into his body. Rolling his eyes, he said, "What are you doing? Who are you? Do I know you well?"

The sun fish boat was stunned for a moment before it smiled apologetically and said, "Little brother, I'm the sun fish boat of the myriad treasures store. Where did you get that ancient Bell? Show it to me, it might be worth a lot."

Everyone's face was black, and they were all drenched in cold sweat.

Was the sun fish boat really a martial sovereign of the nine Heavens? How could he be so shameless?

Yunxiao gave him a sidelong glance and snorted, "It's none of your business whether it's valuable or not. Also, you dare to call me big brother in front of me? you must be tired of living!" His tone was cold, as if he really wanted to take the other's life.

The sun fish boat was stunned. A martial arts Grandmaster said that he was tired of living, which made him unable to react in time. He even suspected that he had heard wrongly. He dug his ears and said, "What did you just say?"

Yunxiao took a step forward, pointed his middle finger at the man's nose, and said loudly, "I said you're tired of living, don't you understand? I'll give you a profound level weapon and you can just use it. Do you think you can use a ninth-tier profound level weapon with your trashy cultivation of a one-star Martial Emperor?"

A light flashed in his hand, and a shining sword stabbed into the ground. It was a rank seven sword, the one he had found among the remains of the flying frost sect. He said coldly, "It's up to you to use it or not!"

“You’re so silly!”

The sun fish boat looked at the seventh-grade sword and was a little confused. It said awkwardly, “Qianqian, you know I’m a martial Supreme and you still dare to talk to me like this?”

“Hahaha!”

The fief Lord couldn’t help but laugh. He was happy to see the sun fish boat being defeated, but his eyes were cold as he said, “this kid’s name is li Yunxiao, and he’s always been very strong. When I break the seal and escape this disaster, I’ll see why he’s so strong!”

Li Yunxiao?!

The sun fish boat’s expression suddenly changed, and it said in shock, “the city Lord of Yanwu, li Yunxiao?”

“The city Lord of Yanwu?”

The Fiend’s eyes also flashed with surprise, “the place where the spiritual energy leaked out of Mount Meru? the city of Yanwu that Tianqin li Huachi personally guaranteed?”

The leakage of spiritual energy from Mount Meru, and the simultaneous arrival of li Huachi and Yao Jinliang in Yanwu, had caused a sensation all over the world, and the news had long spread across the continent!

As soon as Yunxiao’s identity was exposed, it immediately aroused the speculations of the crowd, and they all frowned.

big brother Yunxiao!

Ye Fan suddenly cried out, his eyes filled with shock as he looked up into the sky. The sealing formation suddenly became clear, and the light on it began to flash like a rainbow, a vast will was emitted.

“Yin Shi! It’s now!”

Greenie shot up and flew under the sealing formation. Feeling the vastness of the aura, its eyes were filled with solemnness and confusion. It was precisely this power that was released for two hours a day that allowed him to have the opportunity to leave his body and cultivate to his current realm.

The sun fish boat grabbed the seventh-grade sword stuck in the ground and flew up. It said seriously, “How is it now? Should we start breaking the seal?”

“Let’s not delay any further. Let’s do it together!” Qing Zhu said. With so many people working together, they’ll definitely be able to break the seal and enter!”

Everyone tensed up and took out their own profound weapons to unseal, planning to make their strongest attack. Their life and death all depended on this one move!

“It’s impossible to gather power with such a sky full of attacks. I do have an idea, but I wonder if everyone is willing to try it?” Li suddenly spoke.

“Just tell me what it is,” Qing said. “We’ve gathered everyone here to work together to avoid the disaster of the Four Seasons.”

Everyone’s eyes fell on her, and Li’s performance had always been admirable. She said, “I know of a formation that can absorb a cultivator’s energy, fuse it together, and condense it into a physical form. Then, one attack from it will definitely be stronger than everyone’s scattered attacks.”

The fief Lord was shocked, “are you talking about the formation that can gather energy and transform it?” That’s a formation that only existed in ancient times and has been lost for a long time. How did you learn it?”

Although little Qing didn’t understand, it felt that it should be very powerful. It said happily, then let’s hurry up and set it up. How long will it take? ”

“The time it takes to brew a cup of tea will do,” Li replied.

She opened her hands and golden energy shot out from her ten fingers, continuously drawing out various formations.

The fief Lord was also an array master. His face was full of shock and horror. Although this kind of void array was not a great method, it was able to be so vivid and smooth. Moreover, every talisman was condensed without any delay, and the Golden talisman lines were also unobstructed. All of this required a very strong deduction and calculation ability, which was not something that ordinary array Masters could do.

Yunxiao’s eyes were also filled with a pleasant look as he praised.

Soon, a small, exquisite golden formation was formed above the group, standing parallel to the huge Green Seal formation.

Qing was aware of the background of Shang and the others, and knew that they were all extraordinary. Seeing Li’s injured state, she said, “Do you want to rest for a while?”

Li shook his head. there’s no need. Everyone, just use all your strength. Don’t resist the suction of the formation. She took out the elixir that she had just chosen and swallowed it. Then, she slowly circulated her essence force to dissolve it.

“Do it, we can’t wait any longer!” Qing said.

The sky was filled with the bleakness of autumn. There were no more falling leaves, and snowflakes began to fall from the sky. A terrifying aura of the extinction of all living things spread in everyone’s heart, and they were all greatly shocked!

“Ha, rise!”

Fu Xianyi roared. He clutched the axe tightly in one hand, and his aura rose rapidly. Power gushed out of his body and the profound level weapon, and was constantly absorbed into the Golden array.

With him taking the lead, everyone began to follow suit. More than twenty powerful auras erupted at this moment, and the power was astonishing. The surrounding law of winter stagnated, isolating the snowflakes and forming a space of energy.

The Golden formation above them glowed brightly as tangible power continued to pour in. Everyone was shocked at how quickly their power was being drained. In just a few seconds, they had almost run out of energy.

At this time, the array began to absorb everyone's power and began to emit an extremely strong light. Gradually, a figure slowly stood up from the surface of the array. He had wide arms, and his whole body was composed of golden light. His eyes were empty. He formed a human figure and slowly flew towards the sealing array.

"What a powerful force!"

Qing Zhu's face was filled with shock and doubt, but it was more of a happy expression. It muttered, "Is this the existence that has gathered everyone's power?"

When the Golden figure appeared, everyone felt a wave of pressure spreading in the air. The martial emperors' faces turned pale, and they could hardly stand still. They looked at the figure with longing in their eyes and remained motionless.

The Golden human figure got closer and closer to the sealing formation. He slowly raised his arm, opened his mouth, and roared. Without making any sound, he punched the symbol in the center of the formation.

The fist directly hit the center of the array, and a golden light burst out. The Golden figure's expression was very ferocious. Half of his body rushed into the array, trying to tear the entire array apart, and then he went in!

"This is an ..."

As the Golden human figure entered the array, it was as if it had been swallowed. Even its powerful aura had completely disappeared. Everyone's eyes were wide open and they were completely stunned.

Just as everyone was still in a state of confusion, a golden light suddenly shot out from the center of the sealing array, forcibly opening the array and revealing a dark passage. That golden light was the last burst of power from the Golden figure, seeking a chance of survival for everyone!

"Let's go!"

Li was the first to react. He quickly rushed into the black tunnel, followed by Shang and the other monsters. They disappeared in front of everyone.

Only then did everyone return to their senses and rush up, finally entering the passage before it closed.

The great sealing formation seemed to have a certain self-healing ability. It slowly closed up, and the passageway finally disappeared from the pressure.

"This is Wufu."

Everyone was shocked by the scene in front of them. In this sealed space, there were fist-sized balls floating in the air. On top of each ball, there were two long rods that extended out, connecting to the other small balls. Just like that, the densely packed rods extended into the distance.

All of these small balls emitted a faint light and were constantly spinning, as if there was some kind of subtle connection between them.

As soon as they entered this space, everyone felt extremely unnatural, as if they were greatly suppressed!

"Where's Noah's ship? Isn't there Noah's ship here?"

The fief Lord shouted. There seemed to be no gravity here, and he could fly at will. His divine sense quickly spread out in all directions. Other than those balls of various sizes connected together, it seemed to extend to an infinite space, and there was nothing else.

Yunxiao's eyes were wide open as he looked at the endless little balls. They extended to an infinite distance, and he seemed to feel an inexplicable throbbing, but he could not catch it.

Yu's face was also filled with shock. He reached out and wiped his hand on one of the balls, but he was immediately knocked out by a powerful force. He let out a scream and was sent flying.

Just as the force rushed out of the small ball, Tang Jie's face suddenly changed, as if he had noticed something. He took out something and held it tightly in his hand, for fear of being discovered.

After seeing the rain being sent flying, Li also looked at the balls in shock and asked, "Is this the structure of the universe?"

Chapter 466

?

466 The structure of everything

Yunxiao's body trembled as he said in a deep voice, "It really is the structure of everything? I wasn't sure at first, but it seems like it's very likely to be true! If this Infinity is a structure, then how big is this Noah's ship?"

"What? You said this is Noah's ship!"

The fief rushed out quickly and said with a cold face, "What's going on?" His spiritual sense could still see an endless three-dimensional structure.

For a moment, everyone's eyes fell on Yunxiao and Li, and their gazes were filled with strong killing intent. Now that they had entered the sealed space, everyone's emotions were slowly becoming impetuous.

Yunxiao's face was extremely serious as he spread out his divine sense infinitely, but he could not find the end of these small balls.

"Kid, I'm asking you a question!"

The fief was filled with irritation and anxiety. With a clench of his hand, Yunxiao was instantly sucked into the Emperor aura of the nine Heavens. He clutched his throat with one hand and said in a cold voice, "I really hate that stinky face of yours. I really want to blow it up with one palm! He raised his left hand and said coldly, "if you make me unhappy again, your face will really explode!"

Che xuyao's eyes were cold. The wounds on his body had not recovered yet, and a part of his soul had been taken away, which could not be cured by ordinary pills. He shouted, "A fief, just kill him, what's the point of being so long-winded!"

Hmph! the fief Lord snorted. he might be of some use. Tell me, what do these things have to do with Noah's ship? "

Yunxiao was unable to move under the pressure of the other party's aura. His eyes grew cold as he said, "If you want to know, then let go. Otherwise, if I'm not happy, don't even think about knowing anything!"

"You coward!"

The fief flew into a rage, and his heart was a little frightened by the other party's cold stare. He could not help but be shocked. He was a martial sovereign of the nine Heavens, a Supreme existence. How could a martial Grandmaster child have such a creepy gaze?

A chill rose in his heart, which strengthened his killing intent! But, his desire for Noah's ship made him suppress his anger. He loosened his fingers and let go of Yunxiao, then said expressionlessly, "Hurry up and tell me!"

Yunxiao's cold eyes swept over his face and he said, "The so-called structure is what the great alchemists in ancient times called the combination of all things. It says that everything in the world,

including humans, is made up of many tiny substances. Those substances are spherical like the one in front of you, and they are known as the structure of all things.”

“That’s f * cking nonsense. You mean these things are actually Noah’s ship?”

The Fiend cursed in disbelief. His eyes flickered as he said, ” “And all living things are formed by these small balls? Ha, that’s ridiculous!”

Li Dao said, ” it’s also recorded in the ancient books of the demon race. The structure of all things is that they have no history, no history, no height, no weight, no exterior, no interior, no exterior, no interior, no person, no self, no self, no anger.

“What nonsense are you talking about? shut up!”

The Fiend felt a wave of irritation and shouted, ” “I just want to know how to get this Noah’s ship. If no one finds out, you’ll all die!”

The hostility on his body grew stronger and stronger. In the face of such a precious treasure, the higher one’s cultivation level, the more they would be unable to remain calm. Because at their level, it was very difficult to make any further progress, and the benefits Noah’s ship would bring them were also greater.

Yunxiao turned his head and his eyes fell on Tang Jie, who looked nervous. “Young master Tang, what are you holding in your hand? Let’s show it to everyone.”

Tang Jie’s heart tightened, and he could not help but take a step back. However, everyone’s eyes were focused on his hand, and he suddenly clenched it even tighter!

“This is the key? Take it out and let everyone study it. I’m sure you don’t know how to use it. ” Yunxiao’s voice was very calm, and no expression could be seen on his face.

You have the key? ”

The Fiend was shocked and struck out with his palm. Tang Jie was instantly suppressed by him, and the thing in his hand was directly ejected and flew into his hand.

“You!”

Tang Jie was suppressed by a huge force and spat out a mouthful of blood. His eyes were filled with extreme unwillingness.

Everyone looked over and saw that The Fiend was holding a diamond-shaped crystal in his hand. It looked extremely ordinary and did not seem to be any different.

“Tell me, how do I use this key? How can I open Noah’s ship?”

The fief suddenly grabbed, and Tang Jie’s body immediately froze in the air, completely under his control! At this moment, his cultivation was the highest among all of them, and he was determined to get Noah’s ship!

Tang Jie’s eyes were filled with hatred as he gritted his teeth and said, “The key is divided into yin and yang. I only have the Yang key. I can’t open Noah’s ship unless I find the yin key.”

The Fiend’s eyes were filled with ferocity as he shouted, “What about the yin key?”

Tang Jie knew that his chances of survival were not high, so he became stubborn and sneered, “God knows where it is!”

“You’re looking for death!”

Fengyi pointed his finger and directly pierced Tang Jie’s shoulder blade. He grimaced in pain and wished he was dead.

“Give me the Yang key, the yin key is with me, only I can open it!”

Suddenly, Ye Fan said calmly. There were no fluctuations in his tone, but everyone was shocked as they stared at him in shock.

“You think you’re from the temple of Holy Fire?” Tang Jie was shocked.

Ye Fan lightly nodded, his gaze landing on the rhombus-shaped crystal in the fief Lord’s hand as he revealed a look of desire, “Give it to me. I can open it and find Noah’s ship!”

The Fiend frowned and sneered, “You can just bring the yin key over.”

No. Ye Fan shook his head, “I can’t.

“What?”

Everyone was stunned and seemed to be in deep thought. The space suddenly became extremely quiet. Everyone was making their own plans, but the one with the highest chance of winning was undoubtedly the fief and little Qing.

Qing Zhu’s expression was calm, but its eyes were flickering with a cold light as it watched everything. If he could really find Noah’s ship, he would never give up.

Ye Fan slowly took off his shirt, revealing his muscular upper body. His skin was bronze and there was a palm-sized birthmark on his chest. That birthmark was exactly the same as the diamond-shaped crystal in Feng Yi’s hand!

this is Jian Jia! everyone was dumbfounded.

Ye Fan pointed at the birthmark and said, “the so-called Yin key is the mark that has been passed down from generation to generation in the temple of Holy Fire! Give me the Yang key, only I can open Noah’s ship!”

The Fiend sneered and threw Tang Jie far away. He then pulled Ye Fan over and grinned, "If I really can't open it, it won't be too late to let you try!"

The diamond-shaped crystal in his left hand was placed on the mark on Ye fan's chest, as if he wanted to see if he could sense anything.

Sure enough, the two identical things fit perfectly together.

At this moment, a red light shot out from the imprint on Ye fan's body, shining directly on the diamond-shaped crystal. The crystal gave off a warm light that gradually spread in all directions, getting stronger and stronger. Wherever the light passed, all forces retreated.

The fief was also touched by the light and felt a great pain. It hurriedly let go and retreated. Ye Fan was overjoyed, he stretched out his hand to grab the crystal, but it seemed like he was also pushed out. He screamed and was sent flying, leaving only the crystal shining in the air, becoming stronger and stronger.

The crystal was as clear as a mirror. It was so smooth that it reflected everyone's appearance, and the endless structure was also reflected in it!

"What's going on? We're about to receive news about these things!"

The fief Lord looked in shock at the structure of everything that filled the entire space. One by one, they turned into light and rapidly surged into the crystal. It was like a river pouring into the sea, surging violently!

In the diamond-shaped crystal, the shadow of a small boat emerged. As the structures continued to pour in, it became more and more clear. Not only that, but a powerful weapon reserve power was emitted from the crystal at this moment, filling the entire space and shocking everyone!

"?! Noah's ship, it's really Noah's ship!"

The fief was so excited that they didn't know what to do. The rest of the people also widened their eyes in shock as they watched the small boat in the crystal continue to appear. Moreover, this powerful

artifact energy was getting stronger and stronger, suppressing everything in the entire space. It was getting harder and harder for them to circulate their Yuan power!

“Noah’s ship is mine!”

The fief Lord roared and could no longer remain calm. He rushed over in an instant, trying to seize the crystal.

The rhombus-shaped crystal was still absorbing the structure and emitting a clear light. Everyone knew that it was very dangerous at this time, but with the huge temptation in front of them, they could not care about it.

Just as the fief was about to make its move, little Qing also moved. A bolt of lightning energy was extremely fast, directly catching up to the fief and blasting it. The lightning energy spread out in the air, turning into a sea of lightning that covered the fief!

Feng Yi’s face was filled with anger as he threw out a punch. Suddenly, his expression changed drastically. He was shocked to find that his Emperor Qi of the nine Heavens was also constantly suppressed by the weapon accumulation coming from the crystal, getting weaker and weaker.

Greenie was in the same situation. The lightning hell had just expanded when it suddenly began to shrink. The fist of the fief blasted into it and exploded the prison of Thunder, which seemed to be disappearing.

As the two of them fought, the others didn’t dare to fall behind and took action one by one.

“Sun fish boat, stay here!”

Che xuyao endured the extreme discomfort in his body, took a few steps in the air, and blocked the sun fish boat. He then swept his leg across the boat.

Sun fish boat dodged it easily, and the sword in its hand created countless sword flowers in the air, flying toward che xuyao's vital parts. These sword lights actually broke through his layers of Emperor Qi and cut his body.

Che xuyao was shocked. Under normal circumstances, a sword light like the sun fish boat would not be able to cause him any harm, but it did!

Chapter 467

?

467 Suppression by tool accumulations

“What’s going on? Why isn’t his cultivation being suppressed?”

Che xuyao's feet quickly tapped on the ground, and his entire body hurriedly retreated. He couldn't figure it out at all, and his face was filled with shock and confusion.

The sun fish boat also felt strange. Its power was obviously suppressed, and the Emperor Qi was getting weaker and weaker as the crystal emitted a powerful weapon essence. However, the sword in its hand could easily exert a great power, which even made it feel surprised.

“Could it be that this sword has some profound secrets? It definitely was! That li Yunxiao's background is extremely mysterious, and the sword he gave must be extraordinary!”

The sun fish boat was overjoyed, and its eyes were filled with killing intent. It raised its long sword again and its body shot forward like a cannonball, slashing at che xuyao! One more person died meant one more chance to get Noah's ship!

Che xuyao's steps were extremely profound, and after dodging a few times, he couldn't withstand the sun fish boat's frenzied attacks. His left hand flashed, and he grabbed a battle spear to meet the attack.

“Bang!”

The sword and the spear collided with each other, and a huge force gushed out, forming a pressure that spread out, directly sending the two of them flying.

“What’s going on? How can he have such great strength!”

Che xuyao looked at the battle spear in his hand in shock. This spear was a level 8 weapon. Even in normal times, it couldn’t exert 100% of its power. However, the casual attack just now seemed to have exerted a huge force.

The sun fish boat was also shocked. It found that its sword was completely suppressed by the spear!

The collision of the two profound armaments immediately attracted everyone’s attention. Everyone’s strength was getting weaker and weaker. The power of the profound armament that had just burst out seemed a little unbelievable!

After a moment of surprise, The Fiend came back to his senses and pointed at the prison of Thunder. With a whooshing sound, a passage was cut open, splitting the sea of thunder and lightning into two. He turned into a beam of light and flew through the middle.

Even though the two of them were greatly suppressed, he was still far stronger than little green.

Suddenly, a figure appeared in front of him. It was Tang Jie, who had already reached out to grab the diamond-shaped crystal.

“Bastard, stop! Noah’s ship is mine!”

The fief Lord was shocked and furious. He gathered all the energy in his body into his fist and smashed it out, sending a fist light across the sky.

To be able to perform such a domineering punch in such a suppressed environment, everyone’s heart trembled, feeling an extremely great deterrence.

Tang Jie's expression changed in horror. Let alone releasing his vital Qi, even condensing some vital Qi to circulate within his body had become extremely difficult. He hurriedly retreated, not daring to take out the diamond-shaped crystal. He even pointed out a few spells and shouted, "Saber!"

A ray of red light flashed on his fingertip.

The Vermilion Bird saber was connected to his mind. Although it was taken by rain, he could still sense it from afar and could attack with one move.

After the Vermilion Bird saber fell into his hand, Tang Jie's expression changed slightly. He felt an unprecedented surge of power on the blade. At this moment, he felt that his connection with the blade had become closer. After a shock, he was overjoyed. His eyes burst out with a strong killing intent as he stared at the fief heading towards the diamond-shaped crystal and slashed down!

"Go to hell! Great cross void slash!"

A bright red Firebird appeared from the blade, chirping happily in the air. It released a soul-shaking pressure and flew away.

"Artifact Spirit transformation!"

Everyone's eyes widened in shock!

Even Tang Jie himself was shocked. He was so shocked that he couldn't believe it. He looked at the Vermilion Bird saber in his hand and the Firebird that had transformed from the saber in horror. He was somewhat dumbfounded.

"?!"

The Fiend sucked in a breath of cold air and his face turned pale on the spot! Under the transformation of the saber's gleam, he could only feel a wave of killing intent passing through his body. His entire body was in the danger of death and all the pores on his body opened up because of the chill. Ever since he had advanced to the martial Supreme realm, he had never been in such a dangerous situation!

“Swimming Dragon Shadow slanted cover!”

Under the will of death, the potential in his body burst out and broke through the suppression for a short time. The Emperor Qi of the nine Heavens gathered around his body and turned into a golden light as fast as lightning. He broke through the pressure of the Vermillion Bird saber and escaped!

“Pfft!”

Although he managed to Dodge the might of the saber, the suppressive force of the surrounding environment was even more powerful. His essence, Qi, and spirit were emptied, and he spat out a mouthful of blood.

In the entire space, other than the diamond-shaped crystal that was continuously absorbing the structure of all things, everyone was dumbfounded in shock, unable to understand the scene before them!

He had almost killed a Martial Emperor with one slash!

After Tang Jie’s slash, not only did the aura on the blade not decrease, but it also became stronger and stronger. It emitted an extremely strong weapon accumulation that densely covered the surrounding space, as if it had formed its own territory!

“What’s going on? The Vermillion Bird saber’s power seemed to have been fully unleashed, but how could Tao Wu do it? Even if it’s an ordinary Martial Emperor, it’s impossible for him to fully unleash the power of a ninth tier profound weapon!”

Yu looked at the saber barrier around Tang Jie in shock, as if he would be completely shattered by the peerless Saber Light if he was in it.

“Don’t tell me it’s Qianqian?”

Li's eyes flashed with a hint of understanding. She took the small drum from her waist and patted it gently.

“Bang!”

It was just an ordinary beating, but the sound of the drum shook the entire space. It was as if the endless world was about to collapse. Everyone felt as if a huge stone had struck their hearts, and their expressions changed drastically! The martial Royal realm experts of the Holy Fire Palace, who had lower cultivation, instantly spat out a mouthful of blood. Their faces were pale and they were terrified.

The area around Li also started to change due to the appearance of the battle drum. Just like the Vermillion Bird saber, it formed its own territory!

“I see!”

Yunxiao's eyes flickered as he said, “I understand! Under the suppression of Noah's ship, this was actually a space constructed by the rhythm of the mystic artifact! As Noah's ship gradually appeared, the power of all living creatures was constantly suppressed, and the profound level weapon was constantly strengthened under the influence of this power!”

At some point, Yunxiao's figure had appeared beside the diamond-shaped crystal, and a miniature Bell kept conjuring in his palm, emitting a powerful artifact aura that almost suppressed the entire area. Just sensing the power of the bell was enough to make one's hair stand on end!

The same Bell domain appeared around him, exuding an ancient charm.

He glanced at the people in the air and his eyes landed on Che Xuyao and his fief. His eyes were cold and he said, “martial sovereigns, you guys were really cool at the start!”

“?!”

The Fiend was taken aback as he stared at the miniature Bell in Yunxiao's hand in horror. He sensed a power that was even more powerful than the Vermilion Bird saber. He hurriedly took out his five

elements beast taming ring. Although it was an incomplete ninth tier profound artifact, it still emitted a barrier to protect him. Feeling the protection of the surging power, his heart calmed down a little.

The xuyao hurriedly took out a few parts of a rod and formed a spear in front of him. The minute traces of the eighth-grade profound artifact also spread out continuously. Although it couldn't form its own territory, it was still extremely powerful.

As for the rest of the people who did not have powerful profound level weapons, their expressions changed drastically, and their bodies turned cold. In this battlefield, they had undoubtedly been excluded. Noah's ship was completely hopeless, and their lives were in the hands of others at any time.

The most miserable ones were little Qing, the rat Emperor and the nine-winged spirit snake bird. They didn't even have a first tier profound level weapon, let alone a high tier one.

Lord martial sovereigns, didn't you say you wanted to see why I'm so awesome?"

A cold smile flashed across Yunxiao's face as he said in a cold voice, "I seem to remember someone saying that he wanted to crush my balls to see?"

The ancient Bell in his hand grew rapidly, and the bell territory expanded, making everyone's faces change color. The fief Lord and the xuyao's faces turned grave, and they couldn't hide their fear.

"The dynasty Bell, one dynasty is a century!"

The dynasty Bell was slapped by him, and the tremendous power of sound waves pushed the space in all directions. Everyone saw the space shake. What was even more terrifying was that the power of the sound waves vibrated through his body, almost destroying his physical body and meridians one by one. His entire person almost collapsed!

Especially the few martial emperors from the palace of Holy Fire. Under this sound wave, they completely lost their combat power and their bodies were on the verge of collapse!

The fief Lord's pupils shrank. He had also discovered that the ancient Bell was a genuine ninth-tier profound artifact. He hurriedly threw out the five elements beast taming ring. Five huge rats appeared around him, letting out "squeak squeak" sounds, as if they still had intelligence.

In the distance, the rat Emperor's eyes were red and he was grimacing in pain. But at this moment, he was completely disabled. Not to mention saving others, even his own life and death were not in his control.

"BOOM!"

The huge Bell domain directly collided with the five elements beast taming ring. Under the collision of the two domains, the five elements beast taming ring was obviously much weaker. As soon as it touched the ring, it was pushed back and showed signs of collapse. The five rat kings were also affected and screamed in pain.

"World's pride spear!"

Che xuyao roared and the spear in his hand shot out towards the dynasty Bell.

At this moment, he and his fief were both in an unprecedented danger. If they could not work together to suppress each other, this sealed space would be the last stop in their lives.

"Dang!"

The dynasty Bell was pierced by the spear rhythm and let out a sound that seemed to have been passed down for a long time. It rang in space, time, and even in everyone's soul. Everything in the world, including the universe's time and space, seemed to be stopped at this moment and entered an extreme "silence".

Yunxiao's eyes flickered, and his face was filled with shock as he muttered to himself, "Is this the full power of the dynasty Bell? That Bell can actually travel back and forth between the past and the present, shaking the entire universe!"

Chapter 468-profound level weapons

The five elements beast taming ring and the proud spear began to crack under the sound of the bell, and they were about to turn into ashes at any time!

big brother Yunxiao, stop taking pictures!

Ye Fan suddenly screamed in horror. The disciples of the hall of Holy Fire took out their profound level weapons to block the attack, but blood still began to flow out of their seven orifices, and they were on the verge of death. In the distance, little green was also in a daze. Under the sound of the bell, it almost lost its spiritual intelligence and was reduced to nothingness.

But what was strange was that although Ye Fan also had the cultivation base of a Martial Emperor, he did not seem to be affected by the power of the vessel. Neither Li's Nine Li war drum nor Yunxiao's dynasty Bell had any effect on him.

Yunxiao frowned. With his cultivation base, he could not control the dynasty bell at all. He could not gather the sound waves into a line and launch a single attack like li. Every time he shook the dynasty Bell, the sound waves would spread out indiscriminately. As a result, the first ones to be destroyed would be little Qing, the rat Emperor, and the people of the hall of Holy Fire.

In the distance, the big demons were all calm. Other than Shang, everyone else had ninth-tier Mystic artifacts in their hands. They also exuded a powerful artifact aura, which dissipated the power of the sound wave.

For some reason, Shang was not affected by the Soundwave either.

let's go! Yunxiao cried out softly as he took the dynasty Bell back and gently rotated it in his palm, looking exquisite and small.

Both the fief Lord and che xuyao spat out a mouthful of blood. They grabbed the remaining Xuan artifacts and escaped with their lives. In this situation, there was basically no hope of snatching Noah's ship. Leaving or being able to do so seemed to be an extravagant hope!

At this moment, only Yunxiao, Zhang shaotian, Ye Fan, Tang Jie, and a few great demons were left in the space around the diamond-shaped crystal, facing each other.

For a moment, all the ninth tier profound armaments in this space exuded a strong weapon accumulation. Each of them seemed to suppress a part of the space, repelling each other.

Zhang shaotian's soul devouring flag and his fief's five elements beast controlling ring were slightly inferior, but they were also quasi-ninth rank existences. They both opened up their own space, but their momentum was much weaker.

The rest of the people all had extremely ugly expressions. As the weapon's pressure from the crystal continued to grow, their power was suppressed to an extremely weak level. Shen Feng and the nine-winged spirit snake bird were originally powerful existences, but now they were only left with an eighth-rank battle saber. They were much weaker than the others.

The most miserable ones were little Qing, the rat Emperor, the sun fish boat, and the people from the hall of Holy Fire. They either had no profound level weapons at all and became completely useless, or they only had seventh-tier profound level weapons at most, which was not even worth mentioning! These people had already tried their best to stay away from the diamond-shaped crystal and avoid the battlefield to avoid being implicated.

The balance of power in the entire arena immediately tilted. There were five fourth and ninth tier profound armaments among the great demons, plus Tang Jie's Vermillion Bird saber. They shone on each other and were extremely powerful!

"Haha, good fortune has come, I'm the one with the destiny! Even the heavens are helping me!"

"Brother he, help me seize Noah's ship. I will definitely use all the power of the four extremes sect to help you recover to your peak!" Tang Jie was extremely excited.

Shang's gaze fell on the diamond-shaped crystal, and he recited, "A Saint artifact? To be able to possess a Saint artifact was indeed the will of the heavens. But does that Saint artifact really belong to you?"

Tang Jie frowned, and an unhappy look flashed across his face. The situation is one-sided. As long as brother he is willing to help me, I can't think of anyone who is qualified to compete with me!

The referee's face was expressionless as he nodded slightly, "Alright, I'll help you! This is your human's Saint weapon, it doesn't belong to my monster race. However, no matter if we succeed or not, you must do your best to help us recover our strength!"

"No problem!"

Tang Jie was overjoyed and agreed on the spot. The light in his eyes flickered constantly, and he was so excited that he could hardly control himself!

Li Yunxiao, I know that you have a ninth-tier Mystic artifact in addition to this Bell, but do you think you can fight against the five of us alone?" "If you don't know what's good for you, I don't mind sending you to the West first." Tang Jie grinned.

The Vermillion Bird saber in his hand became redder and redder, and tool essence continuously spread out, causing the surrounding space to tremble!

Yunxiao looked at him as if he were a fool and sneered, "Many times, I hate stupid people. This is the space of profound armaments, we are competing on the quality of the profound armaments and not the quantity. My dynasty Bell is at least a ninth level upper grade existence, so don't bring out your trashy ninth level profound armaments to embarrass yourselves!"

With a Pat, the dynasty Bell immediately let out a deep bell sound that reverberated in the entire space. Its size became incomparably huge, and it blasted rapidly towards the space suppressed by the Vermillion Bird saber. The two overbearing weapon accumulations continued to press against each other, and they buzzed at the same time.

Tang Jie was shocked. He could feel the Vermillion Bird saber in his hand tremble slightly, as if it was afraid of the suppression of the big bell!

"Is it really as he said, that the bell is a high-grade weapon, and my Vermillion Bird saber is a low-grade weapon?"

He didn't have the time to think about it anymore. The dynasty Bell was constantly pressing down on him, and the space created by the Vermillion Bird saber was about to be crushed!

"Brother he, help me!" Tang Jie hurriedly cried for help in horror.

"Boom boom boom!"

The nine Li war drum rushed over and hit the dynasty Bell.

The two were both sound wave profound level weapons, and they both exuded a terrifying ancient charm around them. They released an extremely strong spiritual pressure that spread out in all directions, and it seemed that they were neck and neck! The space opened up by Tang Jie's Vermillion Bird saber was being compressed and shrunk under the spiritual power of the two profound level weapons, as if it was about to withdraw from the battlefield!

Profound armament quality and grade, the difference was immediately determined!

The dynasty Bell was one of the fifth-tier profound armaments used to suppress the great demon. Naturally, it had an extraordinary origin. The Jiuli war drum was a sacred item passed down from ancient times. It was also very powerful.

Shang's expression changed as he exclaimed, "that ancient Bell can resist the nine Li war drum?! His eyes were filled with disbelief. It was obvious that he had high expectations for the nine Li battle drum. He was in disbelief!

An astonishing sword beam suddenly appeared, and Yu man's eyes were filled with killing intent. The tail light sword shot out a powerful sword beam in the darkness, which bloomed in the sky like fireworks. It was as fast as lightning, and it was about to completely kill Yunxiao!

Zhang shaotian's face flickered. He was originally on Yunxiao's side, but in this situation, if he stood on Yunxiao's side, he was very likely to die. With a thought, he picked up the soul devouring banner and retreated far away, wanting to leave this battlefield.

He wasn't greedy about Noah's ship. It was naturally good to get it, but saving his life was his first priority.

"Fuck!"

Yunxiao could not help but curse when he saw him Dodge. Although it was within his expectations, he pointed his finger at the man with a sword incantation. A large amount of black demonic energy rolled out and formed a powerful defense around him, and then an exquisite and domineering black armor appeared in the air.

As soon as the demonic sky armor appeared, the weapon accumulation Ward appeared as well.

"BOOM!"

The taillight sword's sword light slashed onto the barrier of the armor, and a monstrous sword light burst forth and scattered in all directions, unable to break it in the slightest!

Yu frowned, her face turning ugly. At this moment, everyone's profound armaments were displaying 100% of their power, and his taillight sword was actually unable to break through the opponent's demonic armor. Then there was only one possibility, and that was that the quality of his taillight sword was not as good as the opponent's!

"They're all high-grade items. Where did this kid get so many good things? Could it be that you dug up the grave of some ancient Almighty?"

Shang was also shocked. Although he knew that Yunxiao had many profound level weapons, he did not expect them to be of such high quality. What worried him even more was the purple cauldron, which seemed to be a Saint weapon as well. However, even godly state experts might not be able to unleash one hundred percent of the Saint artifact's power.

Besides, this space was only a unique existence formed by the suppression of Noah's ship. If another sacred artifact appeared and broke the enchantment, the suppression force of Noah's ship might disappear. At that time, Yunxiao would be the one at a disadvantage.

Yunxiao seemed to have thought of this as well, which was why he had been holding back and did not dare to throw out the cauldron of mountain and river. He could still suppress martial sovereigns and fight against great demons with the help of the dynasty Bell and the devil-sky silk. If the cauldron of mountain and river broke the suppression, then the fief and che xuyao would be the first to kill him!

let's attack together. I don't believe that he can fight against all of us together!

&Nbsp; wing moved his fingers, and light shone from them. Ten shining finger daggers spread out like a spider web.

Fuya raised his battle-axe with both hands and slightly twisted his body, preparing to attack. Rings of weapon essence were activated around his body, and they were extremely sharp.

The rain once again stirred up the taillight sword, and the sword spirit let out a cheerful sound, as if it wanted to drink blood.

The three great demons used their three ninth tier profound artifacts to the extreme. Their artifact accumulations and barriers shone on each other, ready to launch that earth-shaking attack at any time.

I'm looking forward to it," said Shang with a smile. how are you going to defend yourself in this situation?"

Yunxiao's eyes were very solemn. No matter how heaven-defying the demonic sky armor was, it could not withstand the joint attack of the three. On the other side, the dynasty Bell and the Jiuli war drum were at a stalemate. They were completely restricted.

Ye Fan," he turned around and said in a deep voice, "I'll hold these people back. Do you have the confidence to get Noah's ship?"

Ye fan's heart twitched, looking at the rhombus-shaped crystal that was absorbing the structure of everything in the world, a small Golden Boat was getting brighter and brighter inside the crystal, as if it had been silent for a thousand years, waiting for his arrival.

His entire body suddenly trembled. At this moment, he felt his blood begin to boil and surge, as if he had been inspired by his ancestor.

Initially, he didn't know how to collect it, but now, he nodded firmly and said, "Yes! This Noah's ship was originally waiting for me!"

Looking at him, Yunxiao was stunned for a moment, then he smiled and made a gesture of understanding. "Then hurry up, I don't know how long I can hold on."

thank you, brother Yunxiao! Ye Fan said gratefully.

He strode toward the diamond-shaped crystal.

Chapter 469

?

469 White world

Everyone's eyes were focused on Ye Fan, his upper body was bare, the diamond-shaped crystal-like mark on his chest was giving off a weak light, it seemed to have some kind of reaction.

Tang Jie was shocked. He suddenly took back his Vermillion Bird saber and rushed over, angrily shouting, "Noah's ship is mine, get lost!" His blade slashed down, the Vermilion Bird flew out from the blade towards Ye fan's back.

Yunxiao's pupils constricted as he pointed out his finger. The demonic sky armor on his body turned into a mini-form and shot out. A monstrous demonic aura shrouded Ye Fan, and the armor turned into a solid body that covered his body, looking majestic as if a Demon God had descended.

Ye Fan was extremely grateful, he punched out with his right hand, the demonic Qi formed a barrier around him.

The Vermilion Bird struck the magic armor territory and instantly died.

The grade of the two profound armaments was immediately determined!

With the protection of the demon sky silk, no one could hurt him in this space. Ye Fan walked towards the crystal.

“Brother he, help me!” Tang Jie hurriedly said.

Yi nodded, he looked at Ye Fan: ” “Fu, Yi, you guys break his armor. Yu, you killed li Yunxiao!”

“Yes!”

Three cold voices rang out. Terrifying territory power spread out in the space. Three powerful beams of light pierced through the sky and earth. The power of the weapon rhythm shook everyone’s heart, making them feel as if they were infinitely small.

It wasn’t just the people who couldn’t join the battle in the distance, even rain and the others who had used the three attacks were shocked.

Under the attack of such a powerful weapon rhythm, everyone felt like a small boat in the ocean that could capsize at any time. It was not a power that human strength could resist!

Even Yunxiao’s breathing stopped, and his blood seemed to have frozen in his veins, unable to flow. Rain’s sword ray was one hundred percent of a ninth tier profound armament’s power. Even in his past life, when he was at his peak, he would not have encountered it more than three times!

I can only take a gamble. Life and death are up to the heavens!

Yunxiao’s eyes grew colder as he said in a cold voice, ” “Shang, you’re forcing me! If the cauldron of mountain and river could suppress all profound level weapons, I would definitely kill all of you, leaving no one alive!”

He clasped his hands together and shouted in his heart, "Demonic Dragon, merge with my soul!"

In the depths of Yunxiao's soul, the demon Dragon opened its eyes from a deep sleep, coiled its body in a strange posture, and began to gradually merge into his soul.

A magnificent soul power suddenly spread out from his body, forming a faint field of energy around him. At the same time, his body began to change as Dragon scales emerged on his skin and he began to demonize!

"This is the Suan Ni's soul battle technique!"

Zhang shaotian was taken aback. The martial technique Yunxiao had just used was a secret technique of the soul Devourer race. Although it was not very profound and powerful, it was very rare.

The main reason was that there were fewer and fewer cultivators, and it was very difficult to find a soul that one was satisfied with. It was better to focus on cultivating the soul devouring flag. As long as there was enough "Food" to supplement it, it could evolve infinitely.

His Junior Brother also turned pale with fright, and said, "What kind of soul is this? It's so powerful that even its body has begun to transform into a demon. And why does this demon transformation look like a Suan ni, like a Suan ni?"

He stammered, as if he was not sure.

Zhang shaotian's face was gloomy. He gritted his teeth and said, "It looks like an ancient true dragon!"

"?!"

The disciple sucked in a breath of cold air and said in surprise, "Ancient true dragon? Senior brother, is there really such a thing in this world?"

“Of course not,” Zhang shaotian replied. “The true dragon is rumored to be the true spirit of the ten directions divine realm.” The demonic soul that he fused with should be the descendant of an ancient true dragon. To be able to manifest the form of a Dragon, he should be a very powerful descendant of a true dragon!”

His eyes flickered with greed.

To the disciples of the soul Devourer race, there was nothing more important than collecting powerful souls. If he could find the soul of a true Dragon’s descendant for him to fuse with and cultivate soul battle techniques, in addition to the ninth-rank soul devouring flag, then he would also become a powerful existence in the sect in a single leap.

After Yunxiao’s appearance had changed a little, he had become a little demonic. A purple light shadow appeared between his eyebrows and transformed into the cauldron of mountain and river. It flew out gradually.

The cauldron was surrounded by a dense purple spiritual pressure. As the body of the cauldron changed, it continued to expand, illuminating the surroundings. Under the illumination of various lights in the entire space, the purple cauldron seemed a little pale and unremarkable, but no one dared to underestimate it!

At the same time, Yunxiao was shrouded in the dense purple mist, and he could not feel the pressure of the taillight sword at all. Overjoyed, he pushed the cauldron of mountain and river with both hands and flew it toward Ye Fan.

Yu’s expression changed. He had a bad feeling. Even a peak martial Supreme would be affected by that kind of power and could not move freely. He changed the direction of his sword, forcibly twisting the sword beam of his taillight sword in the air and chasing after Yunxiao.

Tang Jie looked at all of this in shock. Suddenly, he came back to his senses and ran towards the diamond-shaped crystal with a fanatical expression. With the Vermillion Bird saber protecting him, all the pressure was cut off. When he was ten meters away from the diamond-shaped crystal, the Vermillion Bird saber’s blade domain dispersed.

At that moment, three earth-shaking profound level weapons arrived. Yunxiao stood in front of Ye Fan and said, " don't let anyone get on Noah's ship. I don't want to waste my time. Don't forget that you are ye Nantian's descendant!

Ye fan's heart shook and his blood started to boil again. For the first time in thousands of years, the temple of Holy Fire was so close to Noah's ship. If they lost this opportunity, they would never be able to return to this position!

Ye fan's eyes flashed with the determination to give up everything, to sacrifice everything, he shouted as he used demonic Qi to break through the layers of pressure, charging towards the diamond-shaped crystal.

The incantation gestures in Yunxiao's hands changed rapidly, condensing into three golden tadpole-like characters that lined up in front of him. He struck them three times with his palms and sent them into the cauldron of mountain and river. "Whether you live or die is all up to you. As long as you get through this, this young master will provide you with good wine and meat in the future. Cauldron of mountain and river, cauldron suppressing the mountain and river!"

"Bang! Bang! Bang! Bang!"

The three characters made a crisp sound as they were slapped into the cauldron. Yunxiao's soul power was extracted by the cauldron, and it emitted a colorful light."I've succeeded!"

The nine-colored light shone out and circled around the purple cauldron. Then, it disappeared and returned to its purple state. Other than its huge size, there was no other change.

"This bi an ..."

Yunxiao's eyes widened as he kicked the purple cauldron angrily and roared, " "Your sister! You dropped the ball at such a critical time! As long as I don't die today, I'll definitely refine you into a ball in the future!"

"Empty empty empty!"

He kicked a few times in anger, but there was no response other than the sound of empty air.

The three shocking auras fell, illuminating the surroundings with a pale white light. Just like Yunxiao's mood at the moment, the white light was as bright as day, completely devouring him and the huge purple cauldron.

“Boom boom boom!”

The huge attack landed on the cauldron of mountain and river and gave off a powerful light. It was as if the sun had suddenly exploded. The light radiated in all directions and everything in the space was absorbed by the sunlight.

Time seemed to have stopped at this moment. Even the diamond-shaped crystal that was constantly devouring the structures of all things had slowed down. The structures of all things were continuously being absorbed at an extremely slow speed.

The light from The Golden Boat in the diamond-shaped crystal grew stronger and stronger, turning the entire crystal into a transparent gold. The endless structure of all things began to appear!

Other than that, everyone else was in a state of extreme silence.

“What?”

Yunxiao opened his eyes and looked around in a daze. After checking his body, he asked in surprise, “I'm not dead? Where is this place?”

At first glance, it was as bright as day. When he spread out his divine sense, he couldn't detect anything, as if it was a hazy space.

He flew forward in surprise, but there was no change. It was all white like a sea of clouds. He couldn't see clearly or feel anything.

“Pfft!”

Yunxiao coughed out a mouthful of blood as he counted in his heart. I’ve learned another twelve Pixiu.

He raised his head in shock. The Golden tadpole-like characters slowly melted and condensed into the image of a meditating martial artist in the air. There was also a square pill cauldron in front of the martial artist. The whole picture was very vivid even though there were only a few strokes.

Chapter 470

?

470 Ming King seal

“This person is the owner of the cauldron of mountain and river?”

Yunxiao guessed in his heart. Suddenly, the figure drawn by the faint black ink moved.

His pupils violently twitched as he saw the hand seal of the meditating martial artist suddenly change. From an ordinary Vajra seal, it began to slowly split apart. With one hand above and one hand below, the two hands formed different seals on the left and right sides!

Following the appearance of the mark, tadpole-like characters appeared on the cauldron of mountain and river in front of the cultivator.

After the first change, the second and third changes quickly followed. All kinds of complicated incantation seals appeared one by one in his hands. The tadpole-like characters on the cauldron of mountain and river also changed along with the appearance of these seals. The two were shining on each other.

Yunxiao’s heart trembled, and he immediately understood the importance of these seals and tadpole-like characters. He stared at each handprint and the words that appeared, trying to memorize them by force. However, what made him anxious was that these wonderful techniques were like clouds and smoke in front of him. He would forget them with one look.

The shape of the cauldron of mountain and river changed according to the incantation seals in the warrior's hands. It seemed to be explaining the way to use the purple cauldron. Although it was just a few simple strokes, it displayed an extremely beautiful picture. However, the more anxious he was, the faster he would forget.

"If this goes on, we'll be drawing water with a wicker basket, and we'll learn nothing."

Yunxiao was also a man who had experienced countless storms and waves, so he made a decision in an instant. He closed his eyes slightly and relaxed his body and mind, clearing his spirit ocean and eliminating all distracting thoughts and emotions.

With his level of enlightenment, he soon entered the state of the integration of heaven and man. His entire person seemed to be one with the White world around him. There was no longer any distinction, no longer himself, and no distracting thoughts. At this time, he slowly opened his eyes and saw that the martial artist's hands were like swords, and the other three fingers of his left hand were holding his right hand.

In response, three new tadpole-like characters appeared on the cauldron.

"Now!"

Yunxiao's eyes narrowed, and his pupils turned into full moons, emitting a demonic blue light.

The handprint appeared in his eyes, and he couldn't see anything else. The three tadpole-like characters appeared in his sea of consciousness, turned golden, and imprinted on his spiritual altar.

His idea was very simple. Instead of learning nothing, it was better to take a scoop of the weak water.

He focused all his energy and adjusted his condition to the best state, integrating with the surrounding heaven and earth. Only then did he manage to memorize this move from the countless complicated hand seals in a hurry!

After this hasty glance, he closed his eyes again to avoid being disturbed by the other hand seals of the warrior.

As he focused on memorizing and inscribing, the handprint and the three golden tadpole-like characters were finally fixed in his mind. At this moment, he suddenly understood the meaning of the three golden tadpole-like characters that he had never seen before.

“So this hand seal is called ‘bright King seal’!”

After reaching intent, his essence, energy, and spirit suddenly rose to a whole new state. He seemed to have gained a further understanding of the rules contained in the Golden tadpole-like characters. A strange feeling spread throughout his body.

“This feeling is the power of the Spirit!”

Yunxiao was taken aback. After slightly comprehending the three golden tadpole-like characters, the tiny energy in his dantian seemed to have been nourished, and it began to move slowly along his meridians, as if it were very happy.

that’s strange. Could it be that this pure power also has emotions? ”

The joy exuded by the energy made Yunxiao feel indescribably comfortable, but at the same time, he felt very puzzled. He knew that this kind of power was the same as those golden tadpole-like characters, and it was beyond his understanding. He simply emptied his mind and didn’t think too much, allowing the spiritual energy to flow in his body, nourishing his body and meridians.

That feeling was very comfortable. After an unknown amount of time, the spiritual energy stopped circulating and returned to his dantian. It seemed to be even more vigorous than before.

Not only that, but Yunxiao’s physical body and meridians had also been significantly strengthened. The toughness and width of his meridians had been greatly improved, but the only thing that troubled him was that his Yuan Qi was far from sufficient, which became his greatest shackle!

After his spiritual energy stopped, he slowly opened his eyes from his meditation. The evolution of the cultivator and the cauldron of mountain and river had already ended. As his gaze fell, the black ink that separated the two also faded. It rose in spirals in the White smoke and disappeared without a trace.

“What a pity! It’s such a wondrous set of spells, but I only learned the next move. How sad!”

Yunxiao sighed in his heart, but there was nothing he could do. He did not know when he would have such an opportunity again.

“Ming King seal? haha!”

He recalled the hand seal he had learned and couldn’t help but imitate it. He put his hands together and performed it.

All of a sudden, a beam of golden light shot out from the seal on his fingertip. The three golden tadpole-like characters suddenly appeared around the seal, flickering and emitting a strange power of natural order around his fingertip.

The spiritual energy in his body was also stimulated and began to move around his meridians. It gushed out from the seal and emitted a golden light. The White world around him began to change dramatically under this seal!

“This is indeed the inner space of the cauldron of mountain and river. There’s already a reaction from the seal!”

He didn’t dare to move his hands. He clenched the king fangming seal tightly and let the void around him change. The White mist seemed to dissipate in an instant and finally came out of the purple cauldron. A forbidden night appeared in front of him and he felt extreme silence!

“This is the tool charm space. I’m out!”

Yunxiao looked around with great joy. In this extreme 'silence', everyone was frozen. Even the three unparalleled forces of ninth-tier Mystic artifacts still crossed the sky and fell on the cauldron of mountain and river, but strangely, they seemed to have frozen.

Between the three powers and the cauldron of mountain and river, they were separated by the dense purple clouds. Although they were very close, they seemed to be far away from endless space and time.

The only thing that was " Moving " in the entire space was the diamond-shaped crystal that was still absorbing the structure of all things. Under the radiation of his divine sense, it still showed the end point, as if it was about to end. The golden light of the small boat in the crystal was getting stronger and stronger.

All of a sudden, the extreme 'silence' collapsed without any warning. Time flowed smoothly again in this instant, and the entire world instantly 'moved'!

"?!"

Yunxiao was taken aback. The moment the extreme silence disappeared, he felt the three domineering power fluctuations sweep him in like waves, and he was about to be destroyed!

"Damn it, you didn't even give me any time to prepare, you just said you'd come!"

He cursed in his heart. He no longer had any thoughts. The aura of death penetrated into every pore of his body. He had never felt so close to death before!

"Ming King seal!"

Yunxiao roared. At this most dangerous moment, he could not care less and slapped a seal he had just learned on the cauldron of mountain and river.

His spiritual energy gushed out of his body, and three golden tadpole-like characters emerged one by one. In an instant, thousands of beams of light in nine colors shot out of the dense purple mist, like a

dreamlike world of glaze. With the cauldron of mountain and river as the center, they spread out and enveloped Yunxiao.

“Boom boom boom!”

The three attacks exploded completely. The huge energy wreaked havoc in the entire weapon rune space. The entire space turned into an incandescent color that was blinding to the eyes!

Little Qing and the others, who were far away, also ran back in horror. Once this kind of power was affected, even if they were at their peak, they would still die, let alone when their strength was completely suppressed!

That was the full power of three pieces of ninth tier profound armaments!

Standing in the nine-colored glass, Yunxiao looked out in surprise. The powerful force that had rushed in was all devoured by the nine-colored glass. He could not sense any power fluctuations, nor was there any danger.

big brother Yunxiao!

Ye fan's cry of grief could be heard from outside, under such a violent power, he would definitely die! His eyes were bloodshot, and the corners of his mouth were bleeding from biting. Yunxiao was dead, and he had died for him. He must get Noah's ship and avenge Yunxiao!

Ye Fan turned around and grabbed at the Golden crystal, he was the closest to it!

“Haha, that li Yunxiao is finally dead! Now it's your turn. You dare to snatch Noah's ship from me, you must die!”

Tang Jie's ferocious voice rang out. Under that earth-shattering power, he had dodged the attack with the Vermillion Bird saber's saber domain. At this moment, he slashed out with his saber and a fiery red saber Qi descended from the sky, directly suppressing the demonic Qi around Ye fan's Devil Sky silk. His entire body turned into a ray of light and rushed to the side of the diamond-shaped crystal.

The structure of the myriad existences rapidly shrank. In the midst of the battle between the two, they finally finished absorbing everything!

At this moment, everyone's eyes widened as they held their breath and stared at the Golden crystal, waiting for the next change. And the next change seemed to be in everyone's mind. Perhaps the Noah's ship that touched everyone's heartstrings was about to appear!

"Noah's ship is mine!"

Tang Jie was so excited that his entire body trembled as he frantically grabbed the Golden crystal. Ye Fan was forced back by more than ten meters, unable to get close, he could only watch as he was grabbed, he was very anxious.

"Clang"

Just as Tang Jie's right hand was half a foot away from the Golden crystal, an ear-piercing sound came from the crystal. The force of the sound wave directly penetrated Tang Jie's palm and hit his body.

A sharp pain came from Tang Jie's right hand, and his whole body turned pale with fright. He hurriedly raised the Vermillion Bird saber in front of him to protect the vital parts of his body, but the blade was still hit by a huge impact and was sent flying dozens of meters away with a bang, rolling in the air.
