

The Eternal 471

Chapter 471-destiny

Everyone looked at the Golden crystal in shock. An exquisite mini-boat was slowly spinning in the crystal, exuding a soul-shaking power. At this moment, it was not only the profound level weapon's pressure, but also rays of dazzling golden light. They were extremely dazzling and formed a Golden Ocean around them.

Zhang shaotian suddenly shouted in horror, " you, you're actually not dead?!"

Just as everyone's eyes were focused on the Golden crystal, the aftermath of the explosion of the three ultimate profound artifacts not far away gradually dissipated. In the light of the day, Yunxiao's figure gradually appeared, standing in the glazed light of the cauldron of mountain and river.

Apart from Yi, who seemed to have expected this, everyone else was shocked and in disbelief. She really couldn't figure out how he had managed to survive that earth-shattering explosion. The purple cauldron behind him spun slowly, and the nine-colored glazed light formed an extremely small space, just like the xuanqi territory.

Each of them had a huge question in their mind. Their faces were gloomy. They felt that there were more and more variables in this space, and they were completely out of control.

At this time, the light from the Golden crystal became stronger and stronger, as if a sun had exploded, forming a Golden World in the surroundings. It began to expand in all directions, shining on everyone.

As the golden light spread out, a Holy and solemn aura also spread. At this moment, all the profound level weapons dimmed and the territories disappeared. Everything returned to normal and became gentle and tamed under the golden light. No one could feel any power from them.

Even the demonic sky armor on Ye fan's body lost all of its demonic Qi and became the most ordinary armor on his body, without any light.

The Golden Ocean continued to expand and soon collided with the nine-colored glass world of the cauldron of mountain and river. It was greatly hindered and stopped in front of the glass world!

“What’s wrong with this Yingluo, Yingluo?”

Everyone was shocked and widened their eyes! What was that purple cauldron next to Yunxiao? It could actually compete with the vessel rhythm of Noah’s ship?

The Golden Ocean and the glass world started to squeeze together. Under everyone’s shocked gazes, a terrifying spiritual pressure burst forth and crushed the entire space. A huge spatial crack appeared and spread into the distance.

The collision of the two powers was not very brutal. Instead, they were quietly pressing against each other. After the spatial crack exploded, it also slowly gathered together, forming two distinct worlds. One was a Golden Ocean with the crystal as the center, and the other was a glass world with the cauldron of mountain and river as the center!

it’s indeed a Saint tool. How lucky is he to be able to monopolize two Saint tools? ”

Shang’s face was filled with complicated emotions. It was at this moment that he truly feared Yunxiao. What they were afraid of was not his power or the Holy weapon, but that kind of fate that was hidden in the dark! No matter how strong one’s strength was, there would always be a time when one would be defeated. However, luck was the heavenly fortune, and one would not dare to compete with it!

To be able to possess two Saint weapons in this era, he must be someone who inherited the heavenly fate!

The appearance of two different worlds made everyone unable to react in time. But, at this time, even a fool knew that the purple cauldron in front of Yunxiao, which was emitting a nine-colored glaze light, was actually a Supreme-grade Mystic artifact!

Wasn’t there only one transcendent grade profound level weapon?

Everyone’s mind was filled with question marks. They had never heard of the purple cauldron.

Tang Jie was also stunned. After taking a deep breath, he suddenly rushed towards the Golden crystal. Why was there a second Super Grade profound level weapon? he didn't care so much, but Noah's boat was right in front of him. As long as he could get it, he could lead the four extremes sect, unify the merchant Union, and conquer the world!

Ye Fan was overjoyed to see that Yunxiao was not dead. He gave a light cry and chased after Tang Jie. Suddenly, the demonic sky armor on his body lost its luster and could not be activated no matter what.

Tang Jie also discovered this phenomenon. The Vermilion Bird saber in his hand was also like a dead man. No matter how much he poured his primordial Qi into it, it was useless. Correspondingly, his own strength gradually recovered at this moment.

"Go to hell, you dare to compete with me!"

Tang Jie turned around and shouted as he raised his saber and slashed down. Although the Vermilion Bird saber did not have any weapon aura under the deterrence of Noah's ship, Tang Jie himself was an existence at the peak of the Martial Emperor realm. As his primordial Qi poured into the saber, it turned into a Saber Light that left his body and slashed down in The Golden Ocean of weapon aura.

Ye Fan was shocked. With a flash of green light, a sword appeared in his hand and he used a sacred skill. A faint rule force appeared on the sword and he used it to block in front of him.

"Clang"

The weapons clashed, producing a buzzing sound and an endless vibration. The two of them once again used various martial skills to battle.

Although there was a huge gap between the profound level weapons in their hands, at this moment, it was completely a competition of individual cultivation. Tang Jie was far stronger than Ye Fan, and in a few moves, he had forced Ye Fan to retreat.

"Great cross-shaped void slash!"

Tang Jie felt a burst of frustration in his heart. He gathered all his strength on the long saber and slashed it down ruthlessly.

“Bang!”

Although there was no beautiful blade rhythm, it still broke Ye fan’s sword and the blade light continued towards his head.

That blade light directly slashed on the devil Sky silk, but it didn’t leave a mark. However, the huge force sent Ye Fan flying dozens of meters before he stopped.

A cold glint flashed in Tang Jie’s eyes. It was not possible to kill Ye Fan in a short time and he found that it was not only the two of them, everyone was in the same situation. The profound level weapon had lost all its power and their Yuan power was slowly recovering!

This was definitely a bad sign!

The fief Lord, little Qing, and the others in the distance were all overjoyed, and their eyes were filled with killing intent!

Tang Jie was shocked. He no longer cared about killing Ye Fan and directly flew to grab the Golden crystal.

With a crack, the entire golden space seemed to tremble, and everyone’s nerves tightened.

In particular, the fief in the distance, little Qing, and the others, after sensing that their strength was gradually recovering, were gathering their strength bit by bit, ready to attack at any time.

Since the appearance of the xuanqi realmverse, these people had been holding back their grievances and wanted to cry. They were already full of resentment. At this moment, their whole body was burning with anger and anger. However, the power of the Golden crystal was too strong, so they did not dare to be reckless. One by one, they stared at Tang Jie, waiting for the right time.

After Tang Jie grabbed the Golden crystal in his hand, The Golden Ocean illuminated his body so much that he couldn't be seen clearly. Only an excited voice could be heard, trembling with excitement as he muttered, "Power, this is power! I can feel all the power I've ever felt before! This is Noah's ship? It's mine!"

"Too much nonsense! If there are no other variables, you can go die!"

Suddenly, Xiao Qing's voice came from the sky. He had recovered more than half of his strength. No one could catch up with his speed as he transformed into lightning. He instantly appeared behind Tang Jie with a cold face.

"?!"

Tang Jie was taken aback. He hurriedly turned around and swept his saber horizontally. Xiao Qing's powerful thunder and lightning power made his hair stand on end.

The Vermillion Bird saber brought with it a blade light as it slashed into little Qing's body. It didn't encounter much resistance, and it directly swept through. Lightning crackled on the surface of the blade, and it was as bright as day amidst the golden light.

"You're so silly!"

Tang Jie's heart suddenly sank. The other party's body had turned into thunder and lightning. Without the Emperor Qi of the nine Heavens, he could not hurt him at all!

"Noah's ship, hand it over!"

Qing Zhu didn't force him. It only stretched out its hand with a grave expression and said, this is not something you should have. Give it to me and you can keep your life.

"If it's not mine, then it's yours?" Tang Jie's face suddenly changed and he roared. This Noah's ship can only be occupied by the capable. No one is more qualified than me here!" He directly stretched out the

Golden crystal and shouted, " Noah's ship, a Supreme grade profound artifact. Unleash your power and kill this man in front of you!

Qing Zhu's expression changed. It quickly retreated dozens of meters and put up its guard.

However, the Golden crystal continued to flash with golden light and didn't make any more movements. It didn't give him any face at all.

"Noah's ship, go crazy! Kill him, kill them all!"

Tang Jie's face was pale, and his forehead was full of sweat. He kept swinging the Golden crystal in his hand, but there was still silence and no reaction.

"Thunder, blast!"

Xiao Qing pointed to the sky, and a bolt of lightning gathered at its fingertip. It flickered continuously as it pointed at Tang Jie. The Thunderbolt suddenly rumbled and shot out at an extremely fast speed. Its power was shocking.

Tang Jie immediately felt as if he had fallen into an ice cellar. His body turned cold under the power of the lightning, but his mind immediately sobered up. He hurriedly threw the Golden crystal at the lightning, while shouting, " brother Shang, save me! He rushed towards Shang.

If he continued to be stubborn, he would really be dead.

"BOOM!"

When the lightning struck the Golden crystal, everyone was shocked. The crystal didn't break. Instead, it was sent flying by the huge force and rolled in the space. At this time, many people couldn't help but start to attack.

The fief Lord immediately took out the five elements beast taming ring, stepped on it, and quickly rushed into the battlefield.

Che xuyao, sun fish boat, and Zhang shaotian also flew over. In addition to having great strength, luck was also an extremely important factor in obtaining Noah's ship, so it might end up in his hands.

At this time, if he still did not dare to try, he would regret it for the rest of his life!

Shen Feng also waved his hand and flew along with the nine-winged spirit snake bird.

"Pa!"

A figure appeared near the Golden crystal and caught it with a palm. He held it in front of him and looked at it quietly.

At this moment, The Golden Ocean seemed to have stopped moving. The golden light that illuminated half of the space was suddenly retracted. It was only the size of a palm. The entire world dimmed, leaving only the nine-colored glass world of the cauldron of mountain and river.

The man's upper body was bare, and the mark on his chest was emitting a faint golden light, responding to the Golden crystal in his hand!

Chapter 472

?

472 Immortal golden body

Ye Fan felt a burning sensation from the mark on his chest, he could not help but place the Golden crystal on it.

In an instant, the fist-sized golden light spread out from his chest. With the mark as the center, it radiated to every part of his body along his meridians. In the blink of an eye, his entire body turned golden, like a Golden God of War.

His body convulsed for a moment before he lost all feeling. His limbs were spread out in the air.

This change immediately shocked everyone. Ye fan's face was expressionless, even his eyes gradually became unfocused. He slightly opened his mouth and quietly floated there. Other than the golden light around his body, there was nothing else.

it looked like it was dead but not dead. there was no sign of life, but it was full of spiritual energy.

The crystal was embedded on his body, it was flawless, as if it had always been there. At this moment, it finally came back, Ye fan's entire body was like a golden art piece, perfect and perfect.

"Young master!"

Feng Zhu and the others were shocked and worried about Ye fan's safety. The six of them rushed up together.

"Ants, it's too noisy!"

The fief Lord stood a few hundred meters away from Ye Fan, quietly watching, not daring to move. Looking at the six people rushing up, he felt a burst of irritation for no reason. He raised his arm and waved it, a light shot out from the five elements beast collar ring, spreading out in the air in a half-moon shape, and slashed down.

"Not good! Quickly retreat!"

Emperor Qi! Feng Zhu cried out in terror. That attack gave off a suppressing Emperor Qi, and even though it was not very powerful, it was enough to suppress all of their power! He wanted everyone to run away, but he found that he couldn't use any of his strength at this moment. He was completely stunned by the powerful moon-shaped slash!

Although the power of the fief had not been fully restored, the martial sovereign of the ninth heaven was as tall as a mountain. He was not someone they could fight against.

“Elder Feng, what are you doing!”

Terrorizing jar suddenly looked at Feng Zhu in horror. The latter had used some kind of secret technique that caused his body to suddenly become several times larger. Not only was his gray robe torn apart, but it was also burning in the air. His entire person turned into a meteor and crashed toward the moon slash.

retreat quickly. You can't fight against this man. I'll leave the young master to you!

These were Feng Zhu's last words. Under the attack of the fief, he could only use a secret technique to detonate himself in order to fight for a chance of survival for his companion. After understanding the situation, he did not hesitate at all.

“Elder Feng!”

The people of the temple of Holy Fire all cried out in grief as they watched Feng Zhu collide with the moon slash. A powerful light burst out and was instantly destroyed like a star!

After Feng Zhu self-destructed, he still couldn't completely block the attack. There was still a strong force that penetrated the place where he died and flew down.

Qi Guang let out a roar of grief and indignation. He madly slashed out dozens of times with the saber in his hand, forming a flash of Saber Light in front of everyone. However, it was still unable to block the power of the aftermath of the attack. After the saber Light was extinguished, the five of them tried their best to block it, but they still spat out a large mouthful of blood and were sent flying. It was unknown whether they were still alive or dead.

In the face of absolute power, they seemed too weak and could only become cannon fodder.

After the fief attack, he seemed to have done something insignificant, as if he had gently wiped away a spider's web. His gaze swept across the battlefield, pointing at Ye fan's body, he said: " "Who can tell us what's going on with him?"

The entire space was extremely quiet, and no one spoke. Not to mention that no one knew what was going on, even if they did, they wouldn't say anything.

it seems that no one knows. Then I'll kill them one by one. I'll definitely meet someone who knows!

The Fiend's eyes turned cold as he searched for his target. In his heart, he had already sentenced this man to death. Even the xuyao couldn't be kept alive. Otherwise, it would be too unsafe to get so many treasures.

But before he got Noah's ship, he didn't dare to kill. Yunxiao's purple cauldron had also become his exclusive property.

At this moment, the xuyao and the fish Sun Boat were the most annoyed. They were as powerful as the ones from their fiefs, but they were both severely injured, so they were no match for him. The life and death of everyone in this space were in his hands. Not to mention Noah's ship, those ninth tier profound armaments from the profound armament battle were already an astonishing amount of wealth!

"If you want to know what's going on, why don't you go up and try it yourself?"

Yunxiao said coldly as he stood in the glazed world. When the fief was being used, he wanted to go over and save Feng Zhu. However, he tried his best to use the cauldron of mountain and river, but he realized that he couldn't move the power of the cauldron at all. He could only watch as Feng Zhu died.

His heart was filled with anger. Although he did not get along well with Feng Zhu along the way, they had developed some friendship along the way. He regretted not killing this man first.

The fief Lord stared at him with fire in his eyes. He was still frightened when he thought about how he had almost died in Yunxiao's hands, and he was also afraid of the glazed world emitted by the purple cauldron around him, so he did not dare to attack now.

Yunxiao had also guessed the other party's concerns, but he could only feel bitter in his heart. Apart from the Ming King seal, he did not know the second incantation to control the purple cauldron, so he

could only intimidate others with his intimidating power. Once he walked out of the glazed world, he would probably be killed on the spot by his fief.

Yunxiao is right," Qing suddenly said. this man seems to be fusing with the Crystal's power. I'm afraid it won't be long before Noah's ship is really taken by him.

The Fiend frowned and was a little hesitant. The key was that his strength had been suppressed earlier, and he had almost become a cripple. This made him extremely terrified, afraid that there would be some kind of change that would suppress him again. If that happened, he might really lose his life.

"Hmph, you want to take Noah's ship with your cowardly and indecisive attitude? Tsk!"

Qing Zhu laughed coldly, its face full of contempt. It was just short of giving him the middle finger. He had his own concerns, so he kept provoking them with words, hoping to find someone to lead the charge.

The Fiend's face flashed with anger and killing intent burst out. His aura pressed down on Qing Zhu and he coldly said,"When did I need you to tell me what to do?"

Qing Zhu's body moved and turned into a bolt of lightning in the air. It revealed a huge shadow and sneered, "A fief? others might be afraid of you, but do you think I'll be afraid of you?" He was certain that the fief was injured and would not attack him at this time, so there was nothing to be afraid of.

Sure enough, the fief Lord's eyes flashed. Before he really got Noah's ship, he had to store as much power as possible.

"Since you don't dare to try, I'm very interested in being the first!" Qing said. He raised his hand, an arc of lightning flickered at his fingertips, forming a ball that shot out. That ball of lightning flickered in the air and landed on Ye fan's body.

"Pi pa Pi pa!"

The electric arc bomb hit his chest and immediately turned into electric currents that spread across his body. Then, it disappeared, as if there was no reaction.

“Could he be dead?” Qing Zhu was stunned and found it hard to believe. After all, Ye fan’s body was full of spirituality, he did not look like he was dead at all.

Yunxiao’s pupils constricted as well, and a look of worry flashed in his eyes. Although the lightning ball little Qing had just used was extremely small, the energy contained in it was very powerful. If there was no reaction even after being hit by it, even if ye Fan was not dead, he would at least be unconscious.

“He’s really dead?”

The fief Lord was also stunned. When the lightning ball exploded on Ye fan’s body, he had gathered a breath of Yuan Qi to prepare for any unexpected situations. He did not expect to worry for nothing.

“Swish!”

Qing didn’t believe it and pointed again. This time, the dark blue lightning turned into a laser and exploded on Ye fan’s throat, causing him to roll in the air. However, he was still golden and didn’t suffer any damage.

Yunxiao’s pupils constricted as he looked at Ye fan’s body in horror. As if he had thought of something, he looked extremely shocked and cried out, “The imperishable golden body! This Tao Wu actually has an imperishable golden body!”

Everyone’s expression changed as they looked at him in confusion.

“What do you know?” the fief Lord’s face turned ugly. What was the imperishable golden body? Could it be that he can’t be killed?”

Yunxiao’s eyes widened, and it took him a long time to recover from Ye fan’s body. With a reminiscing look on his face, as if he was recalling something, he gave the fief a contemptuous look and snorted, “

the imperishable golden body isn't indestructible. It's just that you can't break it with your strength. Do you know why ao changkong was given the title of Overlord? "

"The tyrant martial sovereign, ao changkong? The inextinguishable golden body?"

Tang Jie suddenly exclaimed and looked at Ye Fan in shock. His eyes were filled with jealousy and hatred as he growled in a hoarse voice, "How is that possible? If he got the crystal, not only would he get Noah's ship, but he would also get the immortal golden body! Why did it turn out like this? Those things were clearly mine!"

The fire of jealousy was almost burning on his face, and smoke was coming out of the top of his head.

"?! Lord Ao changkong's indestructible golden body?"

The fief Lord's expression changed. Although many martial artists knew that ao changkong was powerful, they did not know how he was powerful. As a Martial Emperor powerhouse from one of the seven superpowers, he naturally knew about ao changkong's indestructible golden body.

"Are you sure this is the imperishable golden body?!" He cried out in horror. Beads of cold sweat rolled down his forehead, and he felt a chill all over his body. If ye Fan really had the inextinguishable golden body, how could he survive when he awakens!

Yunxiao's eyes were also filled with doubt. He stared at it for a long time before he nodded and said, "It's indeed the imperishable golden body. However, Qianqian seems to be many levels lower than ao changkong. Could it be that the imperishable golden body is also divided into levels?" His brows furrowed as he fell into deep thought.

During the battle of the sanctuary, he had been suppressed by the imperishable golden body. Now that he had also cultivated the tyrant body tempering technique, he naturally knew all of this like the back of his hand.

The fief Lord's heart twitched, and his whole body shivered. For some reason, Yunxiao's words 'seems to be many levels lower than ao changkong' sent a chill down his spine. He turned to look at Yunxiao, feeling as if a stone had been placed on his heart!

Chapter 473

?

473 The power of Nirvana

Little Qing's brows were also tightly furrowed, but he was much more free and easy. He snorted coldly and said, "What imperishable golden body? there's no such thing in this world as eternal indestructibility. Yunxiao did not say much. The reason it was not destroyed was because of the lack of power. I don't believe that this mere mortal body can't be broken!"

He turned into a bolt of lightning and rushed up, stopping in front of Ye Fan. He spread out his body like a screen, lighting up the surroundings with a deep blue light, he shouted: "Shaoyin Yimu profound Azure lightning!"

Greenie raised its fists high above its head, gathered the lightning into a big club, and smashed it down.

"BOOM!"

The huge lightning struck Ye fan's body, the lightning moved around every inch of his skin, the powerful lightning flickered in the air, shining on little Qing's shocked face.

"?!"

Little Qing took in a deep breath of cold air, it kept the lightning and stopped in front of Ye Fan, saying in shock: "Is this not enough? Could it be that this indestructible golden body can only be broken by the world destroying sacred Thunder?"

"I'll try!"

The fief flew over with a gloomy face. Seeing that little Qing had attacked so many times and nothing had happened to it, the worries in his heart lessened. He put the five elements beast taming ring in his palm, and the power of the five elements gathered on his fingertips, dense and powerful.

“Try my five elements Saint claw!”

With a “ Peng ” sound, the five fingers directly stabbed into Ye fan’s head, the five different powers were blocked by the golden light, traces of spiritual pressure appeared on his head and spread out in all directions, showing a five colored light.

Everyone was shocked. If there was no reaction to little Green’s attack, it meant that it was completely ineffective. Now that the fief was used, the golden light resisted it, it proved that this move was already threatening Ye fan’s body.

The fief also understood this point and was overjoyed. He poured more power into the five elements beast taming ring in his palm. For a moment, the power of the five elements increased and evolved on Ye fan’s head. It continued to eat away at the golden light. Ye fan’s face began to show an expression of pain.

Yunxiao was shocked. If the fief was broken through the Golden body, Ye Fan would be completely finished. He suddenly pushed the cauldron of mountain and river, and it rumbled in the air. He continuously used his hands to hit the body of the cauldron, wanting to suppress the fief. He had used up all his spiritual energy and could not use the Ming King seal at all. He could only try his best.

Qing instantly turned into a ray of light and blocked his way. She said expressionlessly, “You can’t go there.”

don’t forget that you still owe me a favor, ” Yunxiao said, his eyes cold.

Qing Zhu frowned and said, “even if I let you go, there will be others who will stop you.” Noah’s ship wasn’t something your friend could get. Everyone present was eyeing him covetously. Taking Noah’s ship out of his body had actually saved him. I owe you a favor, so I can try my best to keep him alive. Consider it as me returning the favor, how about it?”

Yunxiao snorted disdainfully and said with a sneer, “Look at him. If his inextinguishable golden body is broken, do you think he can still live?”

Little Qing looked back at Ye Fan, the pain on Ye fan's face became even more intense, the fief's fingers were already in the golden light and could Pierce into his head at any time. At that time, he would definitely die and not be able to escape.

"I'll return the favor I owe you in the future," Qing Zhu said guiltily.

I'll pay you back, your sister! Yunxiao cried out in anger. He slapped the dynasty Bell with one hand, and it let out an endless buzzing sound. It kept growing bigger and covered little Qing's body, trying to trap it inside.

Qing let out a sigh and lightly punched out. A bolt of lightning struck the bell and sent it flying back. it's no use. Although your Xuan artifact is heaven-defying, your cultivation is too low. You have no chance of winning against me.

Little Qing was telling the truth. At this time, not to mention controlling the dynasty Bell, even the cauldron of mountain and river began to gradually return to its miniature form and flew back to Yunxiao's forehead. He had almost used up all of his strength, and his expression was extremely ugly. He took out a large number of pills from his ring and poured them into his mouth like beans. They were all the pills he had picked up from little green earlier.

Qing ignored him. As long as Yunxiao did not cause trouble, it would not care. Now, everyone's attention was focused on Ye Fan and the fief. They were waiting for Noah's ship to appear and snatch it.

However, Shang and the other demons were unusually calm. They all looked on coldly, as if they had no intention of getting involved.

Tang Jie flew to Shang's side and whispered, "Brother he, help me!" His eyes were full of determination, as if he would only be satisfied if he got Noah's ship.

"All Saint artifacts contain heavenly fate," the referee said. "It's not something a human can do. What's yours is yours, what's not yours can't be forced, but if you force it, you'll be killed!"

Tang Jie's face changed and he was unwilling to give up. He held the Vermillion Bird saber tightly and watched from the side. If he had the chance, he would not just stand by and watch.

Suddenly, the entire space trembled, interrupting everyone's concentration. They looked around in surprise, but they didn't find anything unusual.

"Boom boom boom!"

Another wave of vibration came, and it began to rumble one after another. The entire space became extremely unstable, as if it was going to collapse at any time. Not far away, spatial cracks began to appear, spreading out bit by bit.

"Is the space about to shatter?" Qing Zhu was shocked and looked at the cracks, muttering to itself, "Is there a problem with Noah's ship?" he asked. He looked at Ye fan's body in shock, he was still covered in golden light, his face showed pain, but there was nothing else.

"Boom boom boom!"

The quaking continued, and there was a huge problem with the space. Other than cracks, all kinds of abnormal energy began to appear and radiate aimlessly in all directions. An extremely cold wind blew in from somewhere, and the temperature in the entire space plummeted, as if winter had arrived in the twelfth lunar month.

"Senior brother, this Feng Lingling seems to have a strange Suan ni."

The soul Devourer clan disciple looked at the cold air that was blowing in his face. He frowned and reached out to touch it. A warm light protected his palm, but as soon as it came into contact with the cold air, it froze without any warning.

Before he could react, the cold wind blew into his body and his body instantly turned into ice crystals. He had no power to resist at all. The expression on his face was still frowning and he looked very careful. He was like a very vivid piece of art, floating in the air.

"?! This Yingluo "

Everyone was shocked as they looked at the ice statue in horror. That was a martial Supreme level expert, and he had died in an instant? This kind of visual conflict was too hard to accept!

Zhang shaotian's mouth was wide open in shock. He clearly felt that not only was this disciple's body frozen, but even his soul power had disappeared. In other words, even his soul had been frozen!

Suddenly, a strange energy burst out in the air and shot toward the disciple's body. With a crisp "crack" sound, the disciple's body directly cracked and shattered into countless ice shards, scattering in all directions. A perfectly fine person had just turned into countless ice shards and dust, leaving nothing behind.

"?!"

Everyone felt a chill in their hearts. They felt a chill down their spine and their hands and feet were cold. The spatial crack was getting bigger and bigger, and the terrifying cold wind kept blowing in. More and more of it came in, and the "Swish Swish" sound was like a death talisman to everyone's ears, making them shiver.

"Ah!"

A shrill scream suddenly stopped. A martial Royal realm expert of the palace of Holy Fire was blown by the cold wind and instantly turned into ice crystals. Then, it shattered with a crack, and the soul Devourer clan's disciple's fate was no more.

The entire space was like a house with holes on all sides, and cold wind kept blowing in. It was like the arrival of winter, and everything was cold!

'Oh no!' Yunxiao cried out in shock. This is the rule of winter ... Nirvana!"

Everyone was shocked and immediately understood. It turned out that the rotation of the Four Seasons in the outside world had already crossed the winter solstice, and this space was beginning to shatter under the power of Nirvana.

Qing Zhu's face turned pale, and it said unwillingly, could it be that even the sealed space can't block the law of winter of the unaging mountain, and we're destined to die? "

Noah's ship's power seems to have been sealed, " Li said with a serious expression. that's why the space is unstable. If we can open a territory with a sacred artifact, we should be able to avoid this disaster. She turned her eyes to Yunxiao, the meaning in her eyes self-evident.

Shua shua shua!

Everyone's eyes turned to the purple cauldron beside him.

Yunxiao's face flickered slightly. He patted the cauldron of mountain and river and put it away, then said lazily, " although this profound level weapon of mine is somewhat profound, it's definitely not some Saint weapon you guys are talking about, let alone be able to contend against the throne, the unaging mountain.

li Yunxiao, " Qing said with a gloomy face, " we're all going to die if we don't work together at this time!

Yunxiao's eyes shone with a cold light as he looked at Qing Zhu and said with a sneer, " "United? My friend is about to be played to death by you, and you still want to talk about working together with me? If I had the strength now, the first thing I would do would be to slap you to death!"

Little Qing's face turned white, it turned around and looked at the fief and Ye Fan. The power of the five elements had already penetrated deep into the golden light and was about to Pierce into the top of his head. With a crazed look on his face, he turned to look at little Qing and Yunxiao and said in a cold voice, " "Hehe, at this time, Noah's ship will soon be mine. No one can save him!"

The Fiend's face was ferocious, and the Emperor Qi of the nine Heavens around him was getting stronger and stronger. He had completely recovered his peak power, and now everyone's life was in his hands. No one could resist him.

He turned around and suddenly trembled. The power of the five elements Saint claw scattered due to the violent tremble, as if it was being shaken out by the golden light. The fief Lord's eyes widened in

shock as he stared at Ye Fan. He felt his body turn cold, as if he was even colder than the winter destructive force.

Chapter 474

?

474 The barrier crumbled

Ye fan's eyes had opened, he was staring at him expressionlessly. His eyes were as deep as the ocean, devoid of any human emotions. It was as if he was born naturally and eternity would be there. In his eyes, there was actually a Silver River that was decorated with stars.

"You, you, you, you, you, you, you ..."

The fief Lord felt a huge chill in his heart. Although he couldn't sense the slightest power from the other party, just those eyes made him tremble all over, and he couldn't help but feel like kneeling down and worshiping.

"How could it be like this? I'm a martial sovereign of the nine Heavens, and my sovereign Qi can suppress all forces. Why is there such a terrifying tremor?"

The fief Lord's heart grew colder and colder, and his body trembled extremely badly. His five fingers had long been taken out of the golden light and stopped in the air. He did not know how to withdraw them, but his forehead was already covered in cold sweat. He desperately circulated his Emperor Qi, but no matter what, he could not drive away the chill in his heart.

Ye Fan still stood there quietly, not moving at all, but the golden light around him gradually dimmed and gathered towards the crystal in front of his chest. The shape of Noah's ship became clearer and clearer.

This sudden change caused everyone's hearts to tighten. They were all gathering their strength, waiting for changes to appear so that they could seize the opportunity. But now, it seemed that there was no hope. Looking at the fief, it seemed that it was going to be finished. And an even greater danger had already appeared in front of them, and that was the Nirvana of winter of the unaging mountain. It had already seeped into the sealed space, and could collapse at any time.

“Boom boom boom!”

The more one was worried about something, the faster it would come. Just as everyone’s mind was about to move, a black space suddenly shattered as if it had been hit by a hammer a few times. It turned into tiny black fragments that continuously shattered and dissipated. A pure white world appeared in front of everyone.

The world was as bright as day. All living things were destroyed and everything returned to the void!

The throne, the ageless mountain, appeared in front of everyone, emitting an extreme white light. It was like a rolling heavenly might that pressed down on everyone’s heart. Everyone’s face turned pale, and they couldn’t breathe.

“Ah!”

“Ah!”

Two more screams were heard. The Martial Emperor disciples of the hall of Holy Fire could not withstand the power of Quietus. The two of them were turned into dust crystals without even being frozen.

Tao can’s eyes were red. Starting from Feng Zhu, four people had died, leaving only him and Qi Guang. They were also struggling and could be destroyed at any time. The temple of Holy Fire had been passed down for thousands of years and was gradually declining. They might be completely annihilated today. “Young master, young master!” He cried out in agony. If you don’t wake up, everyone will leave you. We’re not afraid of death, but we’re afraid that we won’t be able to see the day when the temple of Holy Fire regains its glory!”

“Pfft!”

The earthen jar was mentally and physically exhausted. He spat out a mouthful of blood and his face turned extremely pale. He could no longer resist the power of Nirvana.

Suddenly, a force surged to his side. Qi Guang held a treasured saber in his hand and helped him create a defense. He struggled to hold on and gritted his teeth. "Terrine, you can't die! The young master still needs your help! If you want to die, it should be me, this old man, who should die first!"

"Elder Qi, I'm afraid I can't hold on any longer. So what if I can hold on for a little longer?" Don't waste your energy. You're the only martial Supreme in the sacred fire Hall now. Elder Qi, please hold back your power." He slapped the treasured saber with his palm in an attempt to shake it off. He did not want Qi Guang to waste his energy in order to protect himself.

Qi Guang was furious and shouted, "dolia, don't mess around!" You can't fall no matter what!" The Qi in his hand sank and pushed away the power of the jar's palm. He refused to let go of his defense no matter what.

"He will never fall!"

A Silent Voice suddenly rang out, as if it came from an extremely distant place. It was so unreal, but it was also extremely solemn and sacred. It gave people endless power, giving birth to warmth and an infinite hope for survival in their hearts.

"You're the young master of Xuanji!"

Qi Guang was shocked to see that Ye Fan had already woken up and seemed to have regained consciousness. He formed a symbol in the air with one hand and landed on the two of them.

That symbol was none other than a golden tadpole-like character. It landed in the middle of Qi Guang and Ye Fan and emitted a golden light, repelling the surrounding winter rule force and forming a small piece of its own world.

"?!"

Everyone looked at each other in shock. At this moment, they could not see through Ye Fan at all. Not only could they not see through his power, even his expression and gaze seemed to be drifting. No matter how they looked, they could not see his true appearance.

“Whoosh!”

Greenie instantly turned into a bolt of lightning and charged into the golden light as fast as it could. It immediately felt warm, and the coldness of winter was no longer present. He heaved a sigh of relief, but he only dared to stand at the edge of the golden light, he looked at Ye Fan warily, revealing a deep fear.

“Young master, you’re too weak!”

Tao can was also overjoyed, looking at Ye fan’s transformation, that feeling of being unable to look up to him, he was so excited that tears flowed down his face, but Ye Fan was very calm at this moment, he did not have any emotions, other than deep thoughts in his eyes, there was also a trace of confusion, he just muttered to himself: “The edicts of winter ... Nirvana?”

he is not Ye Fan!

Suddenly, a voice rang out as Yunxiao rushed into the golden light and hid himself. His eyes were filled with deep shock, as if he could not believe it.

Ye Fan turned his head slightly and gave him a rare smile. Then, he nodded at Yunxiao, strode out of the golden light, and stepped into the destructive power.

As soon as he walked out of the Golden Circle of light, whooshing sounds could be heard in the air. Everyone instantly flew over and poured into the shelter, which was not big to begin with. It suddenly became crowded, and even the fief rushed in. Qi Guanghe stared at him with hatred in his eyes.

The fief Lord’s expression changed slightly. He silently stood at the edge of the golden light and secretly regulated his origin power.

Shang, on the other hand, looked at the Golden tadpole between the jar and Qi Guang with a serious gaze, not saying a word.

Yunxiao was also shocked. The Golden tadpole-like character exuded a unique power of rules, which could actually compete with the rule of earth-don. Ye Fan had casually formed this character, it showed that he had a complete grasp of these characters.

“Boom boom boom!”

Heaven and earth suddenly trembled, and the golden light was hit by a huge force. It became dazed, and the fief Lord’s face changed greatly. He hurriedly ran from the edge to the center.

The entire enchantment was reduced to nothingness, leaving only this small Golden World. The powerful destructive power continued to compress over, and the golden light became smaller and smaller.

The unaging mountain seemed to have sensed the unique power of the golden light, and it began to change gradually. Its heaven-reaching power kept collapsing, and in a few breaths, it had become a miniature mountain that exuded extremely powerful nomological power in the air. A powerful white territory came out from it, flying in their direction and fiercely crashing down!

A shadow loomed over everyone’s heart as they felt the destructive rule force and Mystic artifact territory. All of their faces turned pale and they were terrified.

what a powerful force. Are these the experts of this era? ”

Ye Fan mumbled to himself, his eyes serious. He stepped above the Golden Circle of light and made seals with his hands. The crystal in front of his chest projected an image in the air, which slowly turned into a small boat. After making a seal, it flew into Ye fan’s hands.

He slowly opened his palms, and the small Golden Boat changed with it. It shot out rays of golden light that turned his body into a Golden Ocean. The small boat suddenly became bigger in his hands, and it crashed toward the unaging mountain.

“Boom boom boom!”

The world turned into two poles, one gold and one white. The White world pressed down fiercely, and a black crack appeared in the vacuum between the two colors. The stars in the crack turned into a Galaxy!

There was no one in charge of the unaging mountain. It only operated automatically according to the program that Teng Guang had set up in the past. It absorbed the power of the Four Seasons enchantment formed by the ancient evergreen tree and the pressure of its own profound level weapon to condense the strongest law of the earth-Nirvana, crush all things, and return everything to the void!

Ye fan's hands continued to form seals, sending them into the small boat, forcefully resisting the pressure of the unaging mountain, it seemed like he was having a hard time.

The people in the Golden Circle of light below were shocked beyond words. They would die the moment they touched the destructive power, let alone resist it. Everyone held their breath as they felt the collision of the worlds in the sky. They were like a withered leaf in the wind and rain, ready to collapse at any time.

this won't do. This power is too strong. It's already at the peak of the laws. If I don't use all my spiritual will, I won't be able to withstand it.

A trace of hesitation flashed across Ye fan's face, but he made up his mind. He put his hands together and a weird seal changed in his hands, creating many golden tadpole-like characters that flew into The Golden Boat. It was as if time and space were passing by rapidly, passing through thousands of rocks, creating waves that crossed the other shore!

At this moment, the unaging mountain was enveloped by thousands of golden lights. It let out a rumbling sound and was forced to retreat. The Galaxy between the two worlds disappeared in an instant, and thousands of rays of light shot into the sky. The silent winter disintegrated at this moment, and the golden light covered the earth. The power of the unaging mountain was greatly reduced. It forcibly broke through the space and tried to escape.

Ye Fan frowned, he wanted to block it but his pupils suddenly opened, there was a dazed look in his eyes, the power around his body started to weaken, it was about to disappear. He suddenly shook his head, revealed a serious expression, and muttered to himself, "There's no time!" He then pointed with his hand and the small Golden Boat flew into the seal on his chest. He put his hands together in the air and sat down cross-legged, entering a meditative state as if no one was around.

The golden light in the surroundings gradually disappeared as he entered a meditative state, and only a huge crack appeared in the sky. The unaging mountain had long since disappeared, and the entire sky began to shine and change.

With the disappearance of the unaging mountain, the entire enchantment was instantly shattered. All the illusions disappeared one by one. In the original four Seasons space, a powerful life force spread out, turning the surroundings into a green color. In a radius of several li, countless branches and leaves appeared, as if they had directly drilled out of another space.

475 Ye Nantian

Shang looked at the changes around him and his heart skipped a beat. He was ecstatic, " "The ancient evergreen tree!"

This dense forest of leaves and branches was actually little Green's main body. It stretched out for several li, and its height reached the clouds.

Qing Zhu's expression became quite unsightly. With its true body here, there were as many experts as there were clouds, and it was not confident that it could protect the young man. However, the biggest problem right now was what had happened to that young man, and it was completely confused.

He lightly landed on his main body, looking at Ye Fan who was floating among the branches.

There was no light around Ye Fan, he retracted all of his aura and made a hand seal. A golden tadpole-like rune appeared in his palm, emitting a faint light as he remained motionless. The power he had displayed just now made everyone feel apprehensive, and they didn't dare to make a move.

The entire tree was silent, not a single sound could be heard, the sunlight shone through the leaves, not even the chirping of birds or insects could be heard, everyone was looking at Ye Fan meditating, not knowing what to do.

Yi squinted at the Golden tadpole-like characters in Ye fan's hand and said, " I understand now. He's receiving the inheritance of the sacred weapon. He then put on a respectful expression and said, " I am Shang of the demon race. It is no different from going against you. I only want to take this ancient evergreen tree. Please allow me to pass.

Ye Fan did not react at all, he did not seem to care.

Shang pondered for a moment and smiled, " "Then I'll take it that you've agreed." He slowly flew forward and passed by Ye Fan. Yu and the rest followed closely behind. Fu was even holding Yuwen Xun and Tang Jie in one hand. After an intense struggle, he finally chose to follow these people.

Without Shang and the others 'help, staying behind would not only be advantageous, it would be hard to say if they could even keep their lives. "Mr. Yu, please leave first, we'll meet again in the future!" Shen Feng said in a low voice. He felt that he and the nine-winged spirit snake bird were enough to get a share of the loot.

Yu Chao nodded slightly,"Take care!"

The seven of them quickly left the place and flew into the distance, beginning to look for the main trunk of the tree.

Qing Zhu's expression changed drastically, and it was boiling with anger. It snorted,"You want to take my main body? you're really looking for death!" He turned into a bolt of lightning and chased after it. The green lightning swept through the branches like a carpet, but none of the branches and green leaves were hurt. The power of the lightning was getting stronger and stronger.

The remaining people surrounded Ye Fan, each of them had their own thoughts, they did not dare to attack or leave.

Yunxiao did not think for long. Just as he was about to leave, he suddenly felt a chill in his heart, as he sensed a strong killing intent. A few figures surrounded him in an instant, including three martial emperors, Zhang shaotian, Shen Feng, and the nine-winged spirit snake bird. Except for Tao can and Qi Guang, who were guarding Ye Fan worriedly, the rest of the people had surrounded Yunxiao several times, and several powerful divine senses had locked onto him.

“What’s wrong? Didn’t you want to steal Noah’s ship? Why are you surrounding me?” Yunxiao asked coldly.

“Hmph, stop playing dumb!”

The Fiend snorted and took a step forward with a gloomy face, “Hand over the purple cauldron and the ancient Bell, and I’ll spare your life!”

As expected!

Yunxiao was prepared for this. His body began to transform into a demon, and his soul merged with the demon Dragon again. In the face of so many experts, there was no way for him to escape, so he had to break out of the cauldron of mountain and river and escape into it. With a calm look in his eyes, he looked at everyone and sneered, “there are only two profound level weapons. There are so many of you, how are you going to split them?”

don’t try to goad me into action! the fief Lord sneered. as long as you hand it over, it doesn’t matter how we split it! Which one of them wasn’t an old fox? who would be easily provoked by him?

“If you want to use soul battle techniques, stop struggling!”

Zhang shaotian’s cold voice rang out. He had sensed Yunxiao’s soul fluctuation directly, so he threw out the soul devouring flag and released the Golden Soul slave. The soul slave opened its mouth and spat out a cloud of mist, which actually suppressed Yunxiao’s Soul Fusion. The demonic Dragon felt a great obstacle in its soul, and it could not fuse with it!

this soul summoning technique is a secret technique of my Soul Devourer clan. You still want to show off in front of me?”

Zhang shaotian’s face was cold. With a few hand seals, the mist that the Golden Soul slave spat out turned grayish-white, and Yunxiao felt that not only was his soul power suppressed, but the demonic Dragon was also about to be extracted.

He was shocked, and his eyes shone with a sharp light as he stared at Zhang shaotian. His heart turned cold, but he still braced himself. There were many experts here, and Yunxiao would not be able to escape this time. He would die without a doubt, so he had nothing to be afraid of.

The fief Lord revealed a depressed expression. He looked at Zhang shaotian and praised, "Not bad, you've done well. His soul will be yours later, you can take it as you wish."

Zhang shaotian snorted coldly. Yunxiao was only a martial Grandmaster, so he did not care about his soul. What he cared about was the soul of the true Dragon's descendant in his soul! Che xuyao's face was also cold. If Zhang shaotian hadn't devoured a part of his soul, he wouldn't have been injured to this point. He could only watch as the benefits were all taken by his fief.

"Since you're so stubborn, I'll have to personally tire you out."

A mocking killing intent flashed in The Fiend's eyes. He held the beast taming ring in his palm and struck out with the five elements Saint claw.

The emperor's Qi was overwhelming, suppressing everything!

Although Zhang shaotian, Shen Feng, and the others were at the peak of the martial venerable realm, they still felt extremely uncomfortable and their suppressed expressions were very ugly.

"You want to touch him? have you asked me?"

A cold voice rang out. Ye Fan, who had been meditating, suddenly opened his eyes. As he blinked, a flash of lightning flashed across his eyes, and he suddenly appeared next to Yunxiao. Then, he pointed his finger at Yunxiao, and tadpole-like characters flickered on the tip of his finger, looking extremely gorgeous.

The fief Lord was shocked. He was shocked to find that his arm was suppressed by a force, and he could not move!

“How could this be? The Emperor Qi of the nine Heavens can suppress everything. How can there be a force that can suppress my Emperor Qi?”

Fear appeared on the fief Lord’s face, an unknown fear that subverted his common sense attacked him. Ye fan’s finger landed and blood spurted out as his hand flew away.

“Ah!”

The Fiend let out a blood-curdling screech, his forehead dripping with cold sweat. He hurriedly used his left hand to recall the five elements beast taming ring, and did not dare to stay any longer, and was about to fly away.

The rest of the people saw that the situation wasn’t good and wanted to escape.

“Since you’ve drawn my attention, you can all stay here!”

A cold light flashed in Ye fan’s eyes, his voice was deep and steady, completely different from before. Even the aura he gave off was abnormally sharp, making it hard for people to get close.

“Void forms of all laws, divine palm of wisdom!”

A palm print condensed in the air and suddenly transformed into a golden light barrier that spread out with Ye Fan as the center. Everywhere the Golden Palm passed by, it was like a single thought could turn into countless DAOs and everything in the world would become his palm!

Yunxiao’s pupils constricted. The power of this palm was comparable to his great wind and cloud Palm!

In the distance, Qi Guanghe and terrine’s eyes widened as they cried out in shock, “The Prajna palm! It’s the long-lost Prajna divine palm!” The horror in the hearts of the two could not be any greater!

“Bang! Bang! Bang! Bang!”

Thousands of palm prints exploded towards the surrounding cultivators. Everyone was shocked, and one by one, they used their life-saving skills to escape in all directions. Che xuyao and the fish Sun Boat were the closest, and their Emperor Qi defense was broken. The palm print hit their chests, and their internal organs were crushed.

Che xuyao's body fell on the tree and died.

The sun fish boat was also sent flying far away, and it spat out a large mouthful of blood. It was unknown what life-saving technique it had used, but it actually managed to catch its last breath, and with a burst of genuine Qi, it fled as if it was flying.

As the fief had run away early, although it was also affected by the divine palm and had a large number of bones broken, its internal organs were not injured, so it was the least injured.

Zhang shaotian, Shen Feng, and the nine-winged spirit snake bird were not so lucky. They were directly blown up by the God's palm and died on the spot before they could even struggle.

Ye Fan retracted his palm, frowning: " "two tao wus actually managed to escape." he seemed to be extremely dissatisfied with his palm.

His display of power had made Qi Guang and Tao can break out in cold sweat. He had killed three peak martial Venerables and one martial Supreme in one move, and two martial Supremes had escaped with serious injuries. Even a fool would know that this man was not Ye Fan.

"Who the hell are you?!" Terrorized doorknob. What happened to the young master?"

Ye Fan looked at him, he did not say anything, his brows were tightly locked.

yunxiao gulped and said in a serious voice, " " if i'm not wrong, he must be the unparalleled martial sovereign, ye nantian! "

These three words were like a sudden clap of thunder that exploded among the luxuriant branches and leaves, causing the birds in the forest to fly away with a "PU PU PU" sound. It was abnormally quiet.

“Ye Wanwan, Lord ye Nantian!”

The earthen jar and Qi Guang both trembled, and they immediately knelt down in the air. Although they found it hard to believe for a moment, for some reason, they believed Yunxiao’s words!

Ye Fan stared at Yunxiao indifferently, as if he wanted to see through all the layers.

Yunxiao’s heart skipped a beat. Without the slightest fear, he circulated the great expansion divine technique and blocked the other party’s spying and probing, making it impossible for him to advance an inch.

“Eh?”

Ye Fan was surprised, he smiled: “It seems like you’re also a person with secrets.”

Yunxiao’s eyes shone with a fierce light as he said in a deep voice, “I don’t care who you are, ye Nantian or any other powerful cultivator. I just want to know how Ye Fan is doing. How long are you going to take over his body?”

Ye Fan smiled, “it seems like you care about him. I didn’t save the wrong person. Back then, I left three divine senses in Noah’s ship to help my descendants inherit this sacred artifact.”

Although he knew the other party’s identity, Yunxiao was not afraid at all. He sneered and said, “It’s a game that’s been around for ages, and it’s actually a scam. Other than your ye family’s descendants, without the yin key mark, it’s impossible to obtain Noah’s ship.”

Chapter 476

?

476 Taiji heaven-sealing seal

“Not bad!”

Ye Fan nodded. this Noah's ship was made by me. Naturally, I will leave it to my descendants. The rest of you are greedy. You deserve to die!

He seemed to be extremely disdainful of the countless experts who had died trying to get this boat over the past thousands of years. He continued, " these three divine thoughts were originally for him to inherit all of my martial intent and essence, but I've consumed two divine thoughts to shatter the powerful earth rule, and half of my divine thoughts were consumed by the Prajna divine palm just now. Now, I'm only left with half of my divine thoughts. It's really vexing.

As if asking for Yunxiao's opinion, he asked, " Should I let him partially merge with Noah's ship, or should I let him inherit part of my martial intent? No matter which one it is, it's far from enough. These three divine senses of mine have been dormant for thousands of years, but I didn't expect that only half of them could be used when they came out, and their power is much weaker than it was thousands of years ago."

Yunxiao laughed in surprise. this is an important matter related to the inheritance of your temple of Holy Fire. Why are you asking me? " he asked. As long as you know that Ye Fan is fine, you can think about it slowly, I won't be accompanying you any longer." Just as he was about to fly away, he suddenly thought of something and turned around to look at Ye Fan, opening his mouth to say something.

Ye Fan smiled, interrupting: " Are you going to ask me about the God Realm? Four words-no comment!"

"F * ck!"

Yunxiao gave him the middle finger contemptuously, then flew away without looking back.

Ye Fan stared at his back until he disappeared. Then, he turned to Tao can and Qi Guang and said, " This person has heavenly fate on him, so you must not become his enemy!" After he finished speaking, he landed on a large tree branch and sat cross-legged in meditation.

Tao can and Qi Guang were shocked, they quickly agreed and stood beside Ye Fan, protecting him.

The two of them looked at each other and saw the shock and disbelief in each other's eyes. The change in such a short time made them feel a little uncomfortable. It was too weird and unacceptable to say that Ye Fan was ye Nantian. But that temperament and strength, if not so, there was no other explanation.

And with their strength, what was the point of protecting them? if something really happened, they would just wait for Ye Fan to save them.

Yunxiao shuttled through the luxuriant branches and leaves at a high speed. The true form of the ancient evergreen tree was comparable to the Kunwu Divine Tree, which was as huge as a forest.

He followed the trail of little Green's lightning. Shang's goal was to collect the huge tree to nourish the armillary sphere, and his divine realm tablet could do the same. If it could absorb the infinite life force, its power would be infinite.

The three martial sovereigns were either dead or injured. The only ones who could threaten him were little Qing and the big demon. Little Qing owed him a favor, and he had fought with the big demon many times, so there was nothing to be afraid of.

Yunxiao kept recalling the scene just now. Every move ye Nantian made, as well as the Prajna palm, were gradually replayed in his mind. Suddenly, he smiled and said to himself, "God Realm? I'll reach it in the end."

"Boom boom boom!"

A huge tremor suddenly came from the front, and the whole forest began to shake. The leaves around them rustled, making one's ears ring.

A huge black shadow stood up from the forest in the distance, roaring and erupting with astonishing power. The surrounding sky was filled with lightning and thunder. It was little Green's figure, and they were fighting.

Yunxiao was stunned for a moment, and then a solemn look appeared on his face. He looked over and saw two silver horns on the huge figure's forehead, and its eyes were shining with a golden light. The

two silver horns flashed with a powerful force that could directly break through little Qing's lightning and hurt its body.

The figure had a Golden Jade bracelet hanging on his left ear. It was Shang's bracelet. At this moment, circles of light fell on the figure, as if the moonlight was washing it. The figure was illuminated with a bronze color.

"Is this Shang's true form?"

Yunxiao was taken aback. Usually, demons were forced to reveal their true forms, because they would suffer a great loss of vitality and enter an extremely weak period after that. No one would reveal themselves unless they had no other choice. Now that Shang's true form had appeared, it meant that he was going all out, and was making his last attempt.

"That must be the core of the eternal evergreen tree!"

Yunxiao swallowed a handful of medicinal pills and adjusted his condition to its peak, then flew away.

Around Shang's true form, Yu and the other three stood far away, their faces filled with anxiety. Only the ninth heaven Emperor Qi could suppress the lightning that greenie had transformed into, and they could not help at all. The Shang was one of the most ancient races in the demon race-the huodou clan. They were born with silver horns and golden eyes. They had unparalleled demonic power that was no less powerful than the Emperor Qi!

"This is where Qing's true body is," Li said worriedly, "he can absorb life force at any time, the longer we drag this out, the worse it'll be for Lord Shang." You guys use the three talents formation to open up the core, I'll go and help Lord Shang!"

She took out the battle drum and stepped on it, rushing into little Qing's lightning domain. Her body also began to turn demonic. Three bone blades appeared on her slender arms, and her face gradually became demonic. Her long hair fluttered behind her back, and her feet moved according to a certain rhythm, tearing open a path. The sound of the drum was like a golden spear and iron Horse, carrying boundless killing intent as it rolled over. It was as if they had entered an ancient battlefield, and everywhere was desolate.

Greenie was busy fighting with Shang when suddenly, the power in its body began to stir restlessly, and its mood became agitated. Every beat of the drum was like a hammer hitting its heart, and due to a few moments of carelessness, it was almost suppressed by Shang.

A few golden beams shot out from Shang's eyes and into the lightning, piercing through greenie's body. The two silver horns on his forehead glowed brightly, and two silver energy balls appeared in his hands. He took a big step forward and threw them towards greenie's lightning prison. He then shouted, "Li, get out! Collect the main body of the tree of God!"

Qing Zhu was hit by the two silver light balls, and its whole body turned silver. It screamed in pain and retreated into the air. After gathering all the lightning, it stopped in the air. Its eyes were full of anger. It looked down and saw that Yu and the others were already setting up a formation to dig out its Foundation. It rushed down in anger.

Although he had already left his original body, he was still transformed from his original body. It was like watching his own placenta being eaten by someone. Who could bear it? Little Qing was almost going crazy.

"Stay in the air!"

Shang roared. His fists and horns glowed with a silver light. His hands formed a strange seal, and the golden light in his eyes shot into it. The gold and silver colors fused together, forming a Tai Chi pattern under the changes of his hand seals.

As soon as the picture appeared, a strange power radiated out, freezing the surrounding space. Even Shang himself could not move.

Little Qing's lightning body also appeared, but it was stopped by the Golden Power. Every movement it made was extremely difficult. It said in shock, the innate divine power of the calamity tower race-the Taiji Heaven Seal?!

just stay here and enjoy the scenery with me, " said Shang, his face twisted. I'll let you go after my subordinates have taken your body!

Qing Zhu was furious. It desperately gathered energy and said coldly, "Are you really going to force me to form the Zifu apocalyptic sacred lightning? Your armillary sphere is already broken. Do you think that this level of sky-sealing seal can suppress the power of the world?"

The referee's heart twitched. The destruction of the armillary sphere and the death of Yao GE were all thanks to little Qing. Now that it was mentioned, it aroused his monstrous anger and he shouted, "Why don't you try to form your divine lightning? at most, you can kill one of my people under my heaven sealing seal! Do you think you can escape with your human form?"

Qing's face darkened. He knew that Shang was telling the truth. The Taiji sky-sealing seal was an innate ability that could only be inherited by the bloodline of the huodou clan's King. It was known as the strongest seal in the realm of heavenly martial arts. If not for the fact that Shang was too weak, his purple lightning would not have been able to break through it. Furthermore, once the purple lightning was formed, it would definitely die if its power was exhausted.

The two of them faced each other in the air. A golden and silver Tai Chi pattern seemed to form a world of its own. It flowed around them like a river of Stars, splitting the sky into two. The Tai Chi pattern was faintly discernible in it.

Below, the three of them formed the three talents formation. The three ninth tier profound armaments formed a triangular pattern, two by two, crossing each other and radiating golden light in all directions. Although it was simple, it was able to gather all the power on one point.

"Boom boom boom!"

The point where the power of the three profound level weapons had gathered suddenly exploded. A round golden energy ball formed in the air and continued to expand. In the energy ball, a huge tree that reached the sky was reflected, full of spiritual energy.

"This is the place!"

Yu shouted in a deep voice. He used his left hand to perform a few hand seals, and runes swam down from the taillight sword and shot into the ball of light.

At this moment, the energy ball suddenly exploded. There was not much energy fluctuation, but a black space appeared, as if some seal had been broken. The two spaces connected at this moment, and there was a slight collision. Hundreds and thousands of black cracks appeared with a " crack ".

"Main body space!"

Yu was overjoyed, his face filled with excitement. Qing Zhu watched all of this from above, and its face was so gloomy that it was about to drip water.

At the core of the eternal evergreen tree, all of its life essence was condensed, and a mini Divine Tree slowly emerged from the strange space.

"Quickly seal the core of the tree of God, don't let it fall!"

once the tree core lands on the ground, its power will be lost from the earth! Shang roared. it's impossible to collect it all! Sweat began to pour down his forehead like rain. He was already an arrow at the end of its flight. The Taiji heaven-sealing print was also in a trance and showed signs of disappearing at any moment.

The three great demons hurriedly formed hand seals and immediately set up a barrier together. They sealed the space that had appeared, making it difficult for the core of the tree of God to escape.

Yuwen Xun, who had been watching from a distance, suddenly revealed a cold expression. He suddenly attacked Tang Jie, who was not far away, and the power of his martial honor domain rolled over.

After a long period of rest and recuperation, his strength had long since fully recovered, and he had been waiting for an opportunity to make a move!

Chapter 477

?

477 Snatching the profound level weapon

“What are you doing?”

Tang Jie was shocked and instantly took out his Vermillion Bird saber to block in front of him. The sharpness of the blade broke the domain, and at the same time, his body shrank, both offensive and defensive.

However, Yuwen Xun was a top-tier assassin, and every time he made a move, it would be like a Thunderbolt. His figure flickered, and he completely disappeared, concealing himself in the air.

Tang Jie’s face turned pale with fright as he brandished his Vermillion Bird saber, sending out a series of saber rays that formed a line around his body to guard against Yuwen Xun’s sneak attack.

“Hey, it’s no use!”

Yuwen Xun’s sneer came from behind him. Tang Jie turned around in shock and slashed out with his saber. However, he felt a finger on his joint and his entire arm went numb on the spot. The Vermillion Bird saber fell from his hand.

hehe, to be able to obtain a ninth tier profound armament, this trip wasn’t in vain. The lost profound Qi can also be considered as getting quite a big return!

Tang Jie’s eyes blurred in shock. He could only see a few afterimages in the air before Yuwen Xun fled with his Vermillion Bird saber. The whole process only took a few breaths, and he couldn’t even see the other party’s movements before he threw away his treasured saber.

Death god Palace was indeed worthy of being the number one assassin organization in the world.

Tang Jie’s face turned pale in an instant. Losing the Vermillion Bird saber was undoubtedly a huge blow to his strength. At this moment, the three great demons were sealing the core space of the tree of God and did not have the time to bother with him.

In the distance, Yuwen Xun's figure quickly turned into a small dot and was about to disappear from his sight. However, to Tang Jie's surprise, not only did the small dot not disappear, it became larger and larger.

"What's going on? He's back?"

Tang Jie was stunned as he saw Yuwen Xun's body uncontrollably fly in the air. His eyes were filled with fear and anger as he fell to the ground with heavy injuries. A figure with an ice-cold expression appeared. He held the Vermillion Bird saber in his hand and walked over step by step. There was nothing under his right shoulder.

"A fief!"

Tang Jie cried out in horror. He looked at the place where his arm was cut off and couldn't figure out who else could cut off his arm.

The fief Lord ignored Yuwen Xun, who was on the ground, and stared coldly at the three of them. He walked over in a few flashes and said coldly, "How can I return empty-handed after entering the treasure Mountain? Even if I can't get Noah's ship, it's still good to get a few ninth tier profound armaments!" With a flash of light, the Vermillion Bird saber was put away. He looked greedily at the three's ninth-tier armaments, which were glowing in the air.

Under everyone's shock, he rose into the air and turned into a ray of light as he rushed towards the three ninth tier profound armaments. He stretched out his hand and grabbed them.

what do you want to do?!

Yu's eyes were filled with ferocity as she glared at her fief. A wave of mind power rippled from her body, and she disappeared from the spot. She teleported in front of her fief and punched it.

The three of them only had the strength of a martial arts Grandmaster. They had completely relied on the power of a profound level weapon to seal the core space of the tree of God. If the core of the tree of God was taken away, it would definitely break the seal and break out. At that time, all their efforts would be in vain.

“You want to stop me with your ant-like strength?”

The Fiend laughed contemptuously as he condensed Emperor Qi in his palm and struck out. The overbearing power directly shook Shatterrain's fist force and hit his body, sending him flying. Although he was injured, he was not someone a mere Wu Zong could fight against. If it wasn't for Yu's strong physical body, he would have been turned into ashes by this palm.

Even so, his body was still heavily injured, and he fell to the ground far away, vomiting blood.

Li flew down from the sky, his five fingers beating on the war drum repeatedly. Sound waves broke through the air and shot down towards the fief. At this moment, her demonic form was getting stronger and stronger, and her body size had already increased by several times. With a flick of her finger, she also had great power.

The Fiend frowned. The five elements beast taming ring flew out of his hand and formed a big circle in the air. The five rat kings ran around the big circle, and the power of the five elements spread out, forming a defense to block the sound wave.

Li's expression changed. The drum suddenly expanded infinitely, as huge as a mountain, and pressed down ruthlessly. Instantly, the sun and moon lost their light.

At this critical moment, she couldn't care about anything else. Even if she had to risk her life and destroy all her profound level weapons, she had to ensure that she could obtain the core power of the ancient evergreen tree.

The fief was finally moved. The nine Li war drum's profound level weapon's power pressed down on his five elements beast taming ring. The five rat kings began to show pain on their faces, and their running speed gradually slowed down. His five elements beast taming ring was only a quasi-ninth tier profound artifact. If he were to forcefully collide with it, he was afraid it would be completely damaged.

Feng Yi clenched his fist, and the Beast taming bracelet shrank rapidly, turning into a bracelet and falling into his left wrist. Then, he clenched his five fingers and clenched his palm into a fist. A stream of energy spread out from the tip of his fist in a circular shape like a water wave. He gathered all his power and blasted it towards the big drum that was pressing down.

The might of the Emperor Qi of the nine Heavens was unparalleled!

“Boom boom boom!”

The Jiuli war drum gave out a huge vibration. The muffled sound waves suddenly spread in an irregular frequency, one long and one short. It pierced everyone’s eardrums and caused them to bleed. Their ears were temporarily deafened. The space was also distorted by the powerful sound waves.

“Pfft!”

The fief was under the war drum and was the closest to it, so it suffered the strongest backlash from the sound wave. He spat out a mouthful of blood on the spot, and his injuries worsened. He gradually felt that he could not hold on.

Fortunately, li had used up a lot of his strength when he was fighting little Qing. He was also at the end of his rope when controlling the nine Li war drum. He was sent flying by the backlash of the Emperor Qi penetrating the drum. Although he was only in human form, he was still sent flying by the punch and fell to the ground like rain. The mountain-like war drum also lost her control and quickly became smaller.

The Fiend panicked and reached out to grab the war drum, but he was still a step too late. The war drum seemed to be extremely spiritual. After losing control, it instantly turned into a ray of light and returned to Li’s waist.

Li’s body was injured and he gradually returned to his human form. However, his body was pale and he had lost all his vital Qi. He had no strength left.

“Hmph, I’ll take you in later!”

The fief Lord snorted coldly. He was not afraid of running away from a cooked duck, so he directly grabbed the three profound level weapons in the three talents formation. That war drum was a sound wave profound level weapon after all, so it was not as attractive to him as these three real weapons.

“Whoosh!”

The taillight swords on the three talents formation had lost control of the rain for a long time. Finally, they flew out of the formation and automatically rushed toward the rain.

kill! wing roared, his eyes bursting with endless killing intent.”Fu, hold on for a few breaths. I’ll kill this person first!” His ten fingers moved, and the finger sword flew back. His ten fingers exuded a strong killing intent. He couldn’t care much about the follow-up. All the power was gathered in the profound level weapon and exploded in an instant.

The space was directly torn apart, and countless random slashes appeared, flying towards the sky.

The fief Lord was shocked. He knew that each of these great demons had their own strangeness. Their cultivation was trash, but their combat strength was super strong. He clenched his left fist and the five elements beast taming ring came out of his body. A five-colored enchantment enveloped him, blocking the overwhelming space cracks and constantly tearing the surrounding space. The enchantment was also being torn by the spiritual pressure, and it was about to break at any time.

The moment wing made his move, Fu Yi was the only one left to support the seal. He poured all his power into the clamoring axe, trying to suppress the core space. However, he felt immense pressure. Waves of fluctuations came from the battle axe, indicating that the seal was about to break!

“?! There’s actually someone in this space!”

Fu was shocked. He felt an overbearing force rush out of the core space. No matter how hard he tried, he couldn’t withstand it. His battle axe was sent flying. He was also affected by the powerful force and was sent flying dozens of meters away, spitting out blood.

“Haha, I’m finally out!”

After the seal was broken, a loud laugh was heard, followed by a figure flying out. Although he was in a sorry state, his face was full of joy after surviving a disaster.

As he rushed out, an extremely powerful fist wind followed, breaking through the layers of air and making a powerful explosion sound, trying to kill him.

The man turned around, and the broad sword in his hand, which was as wide as a washboard, casually slashed down. The sword Qi struck the fist force, and a huge energy exploded and spread. Even wing and his fief felt the fluctuation, and they were both sent flying more than ten meters away.

“The peak of martial honor!”

The fief Lord was shocked as he looked at the man standing in the air. He immediately recognized him as the leader of the storm mercenary group in the qingge forest, Chen chuanjiu!

Now that he was seriously injured, even the power of a peak martial venerable would not be able to resist it. Therefore, he was wary and stood in the air, not daring to move.

In the sky, Shang’s expression changed. His eyes flickered with golden light and his huge body trembled. Qing Zhu was still looking down coldly, without any emotion.

After Chen chuanjiu struck out with his sword, he immediately laughed and said, “Haha, young Emperor hao lian, although I can’t kill you today, I’ll stop you from condensing your rules and gathering your Emperor Qi. If you fail this time, then your inner demons will be born, and it will be as difficult as ascending to the heavens for you to advance in the future!”

The fief Lord’s heart twitched and he was extremely shocked. Young Emperor hao lian was actually condensing Emperor Qi in this core space. However, it seemed like he was interrupted by Chen chuanjiu. That’s good, otherwise, even if I meet him, I’ll have to suppress him. It’s better to have one less person in the nine Heavens realm than one more.

There was no sound coming from the space, only the darkness gradually spread out. The two spaces completely fused together, and a mini sapling of the tree of God appeared and fell to the ground.

The great demons’ eyes were filled with unwillingness and resentment. However, other than wing, all of them were seriously injured. They did not have the energy to seal the seal.

The sapling landed on the ground and immediately took root. The surrounding lush branches and leaves suddenly became full of spiritual energy, as if the entire forest had been renewed. The sapling was also growing at a terrifying speed that could be seen with the naked eye, constantly growing stronger.

Everyone felt a refreshing feeling in their hearts, and every breath they took brought great benefits. All kinds of injuries and power losses were gradually recovered at this moment.

At this moment, a burly figure appeared beside the tree of God. He ignored everything in front of him and sat down in the air. He formed a Vajra seal with his hands, forming a defensive barrier around him, and then entered a meditative state.

Chapter 478

?

478 The essence of the divine Tree

Chen chuanjiu's pupils shrank and he said in a deep voice, "Young Emperor haolian, you're still thinking of breaking through at this point? stop dreaming!"

He raised his large sword high, flew down, and slashed.

The two of them had been suppressed by the power of the unaging mountain in the core space and had been unable to move. When the law of winter had appeared, they had almost died. If ye Fan had not sent the unaging mountain flying, he would have died. After that, he was extremely weak and couldn't rush out. Only after he recovered his strength did he find an opportunity to escape.

"Bang!"

Chen chuanjiu's large sword directly slashed at the barrier around shaohuang hao lian. A powerful spiritual pressure burst forth, but it could not advance in the slightest.

"What's going on? What kind of barrier was this? How can you still have such a powerful defense?"

Chen chuanjiu's eyes widened in shock and disbelief as he asked repeatedly.

Young Emperor haolian formed a seal with one hand and used the one Qi creation skill. The spiritual essence of the divine Tree around him began to be absorbed into his body. His other hand formed the Vajra seal, which emitted a green light. Not only was the defensive barrier not destroyed by the sword, but it also became stronger.

The fief Lord's pupils shrank and he said coldly, " what a smart kid. He extracted the essence of the divine Tree directly. Part of it was for his own use, and the other part was used to form seals to set up a defense. Chen chuanjiu, you can't break this Vajra barrier without fully recovering your power."

"Moreover, it seems that hao lian's comprehension of the rules is still not enough. He wants to use the spiritual tree's essence to supplement it and break through the threshold of a martial Supreme in one fell swoop before supplementing his martial essence. However, Yingluo "

The fief Lord's face turned cold as he walked down from the sky and came to the Vajra barrier. He grinned and said,"However, when the laws are condensed and the Emperor Qi is born, it will benefit me. Young Emperor hao lian, thank you for the Emperor Qi of the nine Heavens!"

Five different colored lights of the five elements shot out from his five fingers and landed on the Vajra barrier. He slowly inserted his five fingers into it.

The golden light of Emperor Qi on young Emperor hao lian's body gradually left his body and was absorbed into his fief.

"Damn it!"

Hmph! young Emperor haolian snorted angrily. His left hand, which had formed a seal, changed its form and clenched his five fingers into a fist, punching toward the claw.

He changed his hand seal, and the Vajra barrier immediately disappeared. The fief Lord was shocked when he felt the power of that punch. The laws around him condensed, and there was a golden light shining on it. He retreated in shock and said in fear,"This Kasaya is the Vajra fist Kasaya."

The surrounding power gathered under the wind of the fist, and the fist broke through the void!

“Boom boom boom!”

Although the fief retreated very quickly, its internal organs were still shaken by the power of the punch. It said in horror, “Chen chuanjiu is about to advance. It’ll be too late if we don’t suppress him!”

Chen chuanjiu also saw that the situation was not good. With a loud shout, he raised his sword and slashed.

His heavenly ancient bronze sword was also an eighth tier profound weapon, so when it was used, it was full of vigor and might. It moved in a wide and open manner, taking the same path as the Vajra fist, which was unparalleled in its ferocity. Once the sword Qi rose, it immediately suppressed the fist light.

In a few breaths, the two of them had made countless moves, and they were fiercely fighting.

The fief Lord shouted in surprise, “his power is already at a critical point. You must suppress his martial arts domain. Don’t let him have time to absorb the spiritual essence of the tree of God or comprehend the rules. Otherwise, he may break through at any time. You will no longer be his opponent!”

Chen chuanjiu was shocked. A fief was a Martial Emperor’s existence, so he naturally understood the key to advancing. Upon hearing this, he unleashed all his trump cards and firmly suppressed shaohuang hao lian, not giving him any chance to escape.

Shaohuang hao lian was also shocked and furious. He could feel that he was about to break through, but he could not grasp the main point. He had originally wanted to rely on the spiritual tree’s essence energy to force a breakthrough, but now it seemed that there was no hope.

Although the two of them were both unparalleled and domineering, there was a huge difference in their moves. Chen chuanjiu’s swordsmanship was ever-changing. Each of his moves was wide and open, giving him the aura of a Grandmaster.

On the other hand, shaohuang haolian made people not know whether to laugh or cry. He only used the Vajra fist. No matter how you changed, he would respond to all changes with the same technique. He would never get tired of using it.

The fief Lord did not pay much attention to it at first, but the more he watched, the more shocked he became. He found that the martial essence contained in haolian shaohuang's Vajra punch was far stronger than that of Chen chuanjiu's. Sometimes, even he could not see through the power in the punch. It was the same move, but it contained all the changes!

“One move breaks all techniques!”

The fief Lord's heart suddenly sank. In martial arts, there was only the saying of one power defeating ten. However, he had also heard that when one reached the peak of martial arts, or when one's comprehension of martial essence reached an extremely high level, any move that was performed would contain the Supreme martial essence.

Every frown, every smile, every action, and every movement were filled with the regulations of heaven and earth. At that time, all martial arts techniques in the world would pale in comparison, unable to compare to a casual punch or palm. This realm was called breaking all techniques with one move.

Of course, it was impossible for young Emperor hao lian to have that kind of strength. However, the situation in front of him was extremely similar to the legendary “one move breaks all techniques.” This made him extremely nervous. When he thought about how this person's master was also an extraordinary existence, he became even more uncertain. He secretly made up his mind to suppress this person and wait until both sides were injured before he made a move.

At this moment, the divine Tree had already grown to a height of a thousand feet and was still growing. The world Energy it exuded was so dense that it was unbelievable. Everyone's injuries were recovering at an extremely fast speed. Even Chen chuanjiu and haolian shaohuang felt full of energy after fighting to the death. The energy that they had lost was quickly replenished.

Beside the tree, Shang's Taiji sky-sealing mark had also finally run out of energy and disappeared. Shang's eyes and the two corners of his forehead returned to their normal gray color. His body shrunk rapidly, as if all his energy had been sucked out of him. He fell from the sky.

Not only was his power completely depleted, but the divine Tree had also inserted itself into the ground to grow. All the spiritual Qi had started to leak out, which was a huge blow to him.

“Lord Shang!”

Wing rushed up and held Shang, gently landing on the ground.

Shang grabbed wing’s arm and said with a pale face, “hurry up and snatch the spiritual Tree Essence, Qianqian! Don’t worry about me! After saying that, he quickly sat down cross-legged and began to regulate his breathing. He also began to absorb the spirit Qi of the divine Tree.

The period of weakness after demonic transformation was extremely long, and he wouldn’t be able to use his vital Qi for a few months. However, at this moment, storing more power would allow him to recover faster.

Li was as paralyzed as him. He staggered over from a distance and sat beside Shang, adjusting their breathing together.

Wing shouted at Yu Hefu, who was not far away, “You guys protect Lord Shang and Li, I’ll go get the essence of the tree of God!”

He spread his bat-like wings, and his agile body flickered a few times, and he rushed thousands of feet high. He slashed in the air with his finger sword, cutting the big tree that was still growing. His five fingers directly stabbed into the tree’s arms, tearing it apart.

The divine tree’s energy essence had already traveled to every part of the big tree’s meridians, and as it continued to grow, it had become very thin. Wing did not have a better idea, so he could only tear the tree apart in large chunks and store them in his storage ring. He would refine them in the future.

After being sealed by the Taiji sky-sealing seal, the yuan Qi in Qing’s body was still in a frozen state. He stood on a huge tree branch with an ashen face and looked at everything coldly, speeding up the recovery of his energy.

“Yu, you go and collect the divine Tree as well. Leave this to me!”

Fu gripped his hatchet tightly and looked at the fief in the distance with fear. He said, “ the spiritual tree’s essence is of utmost importance to us. Every bit of it counts!

Rain also didn’t hesitate. Having just recovered a lot of strength, he also scuttled into the air and began to use his taillight sword to cut open the big tree and grab a large amount of it. There was also Tang Jie. Although he had lost the Vermilion Bird saber, under this shocking spiritual energy, not only did his injuries all recover, but he also seemed to have advanced to a higher level.

He was overjoyed, and quickly sat down cross-legged near Shang, taking the opportunity to break through the martial honor threshold! If he could break through this major realm, he would have made up for the losses he had suffered in the demon plain. Although he would be heavily punished if he lost the Vermilion Bird saber, the four level Chamber of Commerce had money, so he placed more importance on improving his cultivation.

“How can I miss out on something good!”

A familiar voice rang out in the air. It was Yunxiao. He was overjoyed to see the tree’s essence. He mimicked the rain, took out a weapon, and slashed at the tree.

“Bang!”

The sixth tier profound weapon in his hand had actually broken into two upon contact with the light from the divine Tree!

“This bi an ...”

Yunxiao was taken aback. He did not expect the divine Tree to be so hard when he saw rain and wing easily cut the tree open and put it into their pockets!

“Hmph!”

Qing Zhu snorted and looked at him coldly, " a mere sixth tier profound armament wants to cut open my main body's core? overestimating your own ability!

Yunxiao narrowed his eyes and pointed his middle finger at her. "Your original body has already been snatched away, and you still have the face to mock me? You have a good attitude, I admire you!"

"You coward!"

Qing Zhu was so angry that it almost couldn't recover. Its face turned purple, and it snorted heavily before turning its head away, ignoring him. Now that the main body had appeared and was destroyed to such an extent, it could no longer be preserved.

There was no such thing as an eternal existence in this world. Even for someone like him who had lived for countless years, at this moment, as he watched his original self being gradually taken away, those familiar body parts suddenly became a little dazed. The heart that was originally extremely reluctant to part with him also gradually calmed down.

"Li Yunxiao! What are you doing!"

Suddenly, the roar of the rain came. Yunxiao was holding a large piece of Divine Tree and putting it into his ring. When he found that he could not cut the divine Tree open at all, he had the idea of snatching it and stealing the fruit of the Rain's labor.

"Go to hell! The 11th sword!" Furious, Yu da thrust his sword at Yunxiao.

"Hahaha!"

Yunxiao laughed as he stepped on the divine Tree and kept dodging. He didn't have a ninth tier profound armament in his hands, so if he didn't snatch it, there was no other way. Otherwise, in his current condition, he wouldn't take the initiative to attract the rain.

Chapter 479

?

479 Life is like a mist and a dream

The rain had chased Yunxiao for most of the day, but it was to no avail. The divine tree's main body had been split open by him, which was exactly what Yunxiao wanted. Although he didn't want to provoke the rain, he wasn't afraid of it. Besides, it was related to the divine tree's essence, which would be of great benefit to both the divine realm tablet and his own cultivation.

After chasing for a while, Yu Xiu's eyes were filled with anger and hatred.

On this trip to the demon land, the members of the demon clan had suffered heavy losses. Not only did the demon spear die in battle, the armillary sphere was damaged, and everyone was seriously injured. Now, they finally had a little bit of sweetness, which they had fought for with their lives, but Yunxiao had caused trouble for them. If it wasn't for the fact that it was difficult to kill him under the current circumstances, he would have killed him even if he had to give up the essence of the tree of God!

"Mr. Yu, I've known you for so long, but this is the first time you've helped me so much. Thank you!"

Yunxiao cupped his hands and thanked him from a distance, then laughed and punched at the broken branches. The branches cracked under his fist, and soon, he collected large pieces of divine trees with great joy.

Mr. Yu gritted his teeth in anger and quickly collected them himself.

As the divine Tree continued to grow, the profound Qi spread faster and faster, and the amount of profound Qi contained in each unit of the divine Tree became less and less.

After collecting all the cracked branches, Yunxiao was vexed again, as he could not cut new divine trees. Meanwhile, rain was already on high alert. It was no longer realistic to sneak attack or Rob. After thinking hard for a moment, Yunxiao suddenly had an idea. With a flash of light, the purple cauldron of mountain and river appeared in his hand.

The first time he had used this purple cauldron was when he had fought with rain. He had been chased by rain, so he had helplessly thrown it out. As a result, it had absorbed all of Rain's sword light.

“This thing seems to be able to directly absorb attacks. Perhaps it can also absorb the pure profound Qi. Why don’t I try using the Chi Chi?”

With the idea of trying it out, Yunxiao made a desperate attempt. He cast a few incantations that were exactly the same as the first time he used them on the cauldron, and the little bit of energy he had just recovered was drained again.

The cauldron of mountain and river was sent flying out of Yunxiao’s hand with a series of rumbling sounds, spinning up and down around the divine Tree. Then, it began to emit a dense purple mist, which turned into nine-colored light and spread out.

The nine-colored light was very intelligent. When it shone on the trunk of the tree of God, it seemed to penetrate through. From the light came the sound of bubbles. Green bubbles of all sizes slowly overflowed from the trunk that was illuminated. They kept overflowing from the big branch and flew into the cauldron of mountain and river.

In the beginning, the speed at which the bubbles emerged was very slow. It was as if it was to his liking after tasting it. The nine-colored light continued to grow brighter. Then, waves of bubbles surged out continuously and were rapidly absorbed.

The cauldron of mountain and river immediately gathered a large amount of essence of the tree of God to the branches near the purple cauldron. The growth of the tree became extremely slow.

“Sure enough, it works!”

Yunxiao was overjoyed. While the cauldron of mountain and river was absorbing the divine tree’s essence, a large number of inscriptions were flashing on its body, each of which had a condensed rule, giving people a feeling of great power and intelligence.

f * ck you, you came back to life when there’s good food. You usually play dead!

Yunxiao cursed a few times, his face full of joy as he stood aside and watched.

Suddenly, an ice-cold killing intent broke through the air and arrived, making an ear-piercing whistling sound.

Yu man's face was filled with anger as he swung his sword down and said, "So it was you! The profound Qi in the entire tree of God is being drained. Stop the purple cauldron immediately!"

Under the sword beam, Yunxiao's face flickered with a cold light. He could have dodged it, but if he did, the state of the cauldron of mountain and river would definitely be destroyed. Seeing a large amount of the divine tree's essence being seized by him, stopping for even a second would be a great loss!

He made up his mind and slapped out the dynasty Bell to resist the clear sky sword skill!

"Dang!"

The sword light struck the bell, and the bell trembled for a moment before being repelled. The sound waves from the collision of the two profound level weapons spread out, turning into sharp attacks that rushed towards the rain.

All the muscles in Yunxiao's body bulged as he circulated his tyrant body to its peak, then he thrust out a palm and blocked the Bell's backlash. He then formed a seal with his hands and raised the dynasty Bell above his head, spinning it continuously. As for himself, he began to merge with the demonic dragon's soul. Dragon scales began to grow on his body, and he became demonic.

Yunxiao was in peak condition, ready to fight at any time. He was confident that he was no match for the rain. However, as long as he could hold on for a few more moments, the cauldron of mountain and river would absorb more essence energy. The benefits he would obtain would be immeasurable.

"Yu, I'll help you. Kill this kid first!"

With a flash of light in the sky, wing's figure suddenly appeared. The ten-fingered sword slashed out a dense space that covered a large area, trying to cut Yunxiao into pieces!

Yunxiao's face flickered. The devil-sky silk was still on Ye fan's body, and his Supreme tyrant body did not dare to take such an attack head-on. He hurriedly cast a spell into the dynasty Bell, which expanded to several times its original size and covered him in it.

"Pi Li pa la!"

The bell made a sound like frying beans when it was struck by the countless attacks. Yunxiao, who was inside the ancient Bell, was stimulated by the sound and felt that his ears were about to burst. He hurriedly cut off his hearing with his divine sense.

"I'll handle this place. You should go and grab as many divine trees as you can! Ripple scamper!"

The rain roared and retreated. He made a strange seal with one hand, and an extremely strong spiritual power shot out from his body and surged toward the cauldron of mountain and river. The cauldron was a Saint-tier weapon, so he didn't dare to attack it rashly. He could only use his spiritual power to stop its operation.

It was effective. The nine-colored light began to dim under the interference of his spiritual power.

"This works too?"

Yu was overjoyed and muttered to himself, looks like that brat's control over this Saint artifact is extremely weak. I'll try and see if I can take it!

An unbelievable thought flashed across his mind. He continuously sent out a few secret techniques of the demon race into the cauldron of mountain and river. The cauldron of mountain and river didn't seem to reject him. It didn't show any signs of resistance either. This made Yu even more happy. She increased the speed of her casting.

Yunxiao was taken aback as he felt the divine sense connection between him and the cauldron of mountain and river being forcibly cut off by a powerful force. His expression changed drastically. He immediately put away the dynasty Bell and appeared outside. He was shocked as he ran towards the cauldron of mountain and river.

“You want to take my purple cauldron? who allowed you to be so arrogant?”

Yunxiao felt that the connection was getting weaker and weaker, and in his horror, he could not care less about absorbing the divine tree’s essence. It would be a real disaster if he lost the cauldron of mountain and river. Suddenly, he formed the brightjade seal with both hands. Three golden tadpole-like characters emerged around the seal, then he slapped it hard on the purple cauldron.

“BOOM!”

The purple cauldron was shaken by the seal and immediately shone brightly. A glass space appeared around it and Rain’s spiritual control was cut off!

Yunxiao breathed a sigh of relief, and his eyes burst with killing intent. He kept bombarding the cauldron with both hands, pushing it toward the rain. The glazed space suddenly grew larger and began to squeeze everything around it.

Rain’s expression changed. The moment her spirit power was cut off, she sighed in her heart. Now that she saw the glass world coming towards her, she quickly spread out her spirit power and teleported away.

The glass world was an existence that could compete with Noah’s ship’s Golden Ocean. He didn’t have the courage to compete with it.

“Let’s see where you can run to!”

Yunxiao’s face was livid as he pushed the glazed world down toward the rain.

The divine Tree was thousands of feet tall and countless meters wide. The speed at which Yunxiao pushed the cauldron of mountain and river was limited, and after a few breaths, he felt that his soul power had been exhausted, and he could no longer support it. Meanwhile, Mr. Yu had also disappeared from his sight.

.....

Suddenly, Qing Zhu's body flashed with lightning. The sealed Yuan Qi in its body was finally released. Its eyes flashed with ruthlessness as it looked down at Shang through the layers of leaves, its expression changing constantly.

Shang seemed to have sensed something. He raised his head and looked at her. He smiled bitterly. "I failed in the end. Tens of thousands of years ago, just like now, I've been sitting under you and cultivating, day after day. I didn't expect that it would be like this after tens of thousands of years."

Qing Zhu's pupils suddenly widened, and a look of confusion flashed through them.

His heart was touched by Shang's words. After his true form was revealed, the connection between him and his original body was gradually cut off. He was no longer the eternal evergreen tree, he was only little Qing who had all the memories of the eternal evergreen tree. Scenes flashed through his mind. Over the countless years, he had witnessed countless changes in life, and in the end, he had obtained a new life.

"So what if we win, so what if we lose?"

Qing Zhu suddenly said these inexplicable words. Looking at the devastated body of the tree of God, its face was filled with boundless desolation, as if it had suddenly lost interest in everything and no longer had the slightest desire to kill.

"Life is like a mist or a dream, fate is born and fate is destroyed, and we are still at ease. In the future, I will no longer be bound by my original body. The world is so big that I can soar freely."

At this moment, his heart was suddenly enlightened. All the haze was swept away, and the sky was clear for thousands of miles in front of him. A strange feeling began to change in his body. The light green color on his body gradually became darker, and the will of the natural order surged in his body as if he had obtained some kind of powerful power!

Shang's face stiffened, and he smiled. "Congratulations, little Qing. You've stepped into the last gate of the martial Dao!"

“Emperor realm?”

Qing Zhu looked at its own body in disbelief. The power of laws was flowing in its body, and the power of thunder and lightning began to flash with Golden Emperor Qi of the ninth heaven.

He was originally a shapeshifted body, an existence similar to a soul, possessing the purest energy. It was much easier for him to communicate with heaven and earth than humans or monsters, so he was different from everyone else when he advanced to great emperor. He only felt that his body was much more honest than before, and the power was so strong that it seemed that he could communicate with heaven and earth and display infinite power with a raise of his hand!

Chapter 480

?

480 Don't waste the river flow through the ages

His smile was a little ugly and forced, but it also revealed his true feelings and satisfaction. everyone has their own martial arts. As long as you find the path that belongs to you, you will be able to reach the final door. He was slightly stunned as he looked at young Emperor hao lian, who was still struggling in the distance. He shook his head and said, " it's because he can't enter his own door, that's why he's always missing that one little bit. Success or failure is unpredictable.

little Qing, congratulations on finally advancing to the nine Heavens realm!

With a muffled voice, the rat Emperor appeared and said, " "I hope you can help me save the five rat emperors!"

Since escaping from the sealed space, the rat Emperor had been hiding in the tree of God, recovering his strength while watching the fief. He was ready to take action. Seeing Qing Zhu's unexpected breakthrough, he immediately appeared and begged.

Qing Zhu was also shocked by its own sudden advancement, but it quickly calmed down and said, " "Don't worry, I'll definitely help you save the Rat King. However, my main body is damaged, so I can no longer provide enough spiritual Qi for your descendants to absorb. I'm afraid your life in the demon Plains won't be as comfortable as it is now."

The rat Emperor was overjoyed and said, "thank you!" I'll think of a way to deal with it in the future!"

Qing nodded and said, "but before I help you, there's something I need to do."

His feet gently left the branch and floated in the air. He formed several hand seals and began to display a set of exquisite techniques, constantly sending them into the tree of God's body while silently chanting something.

Under his influence, the tree of God seemed to have burned all of its life essence. It suddenly burst out with a powerful force and grew rapidly. The entire sky was instantly pierced by the violent force, and a huge hole appeared. The originally clear sky was instantly shrouded in darkness. The Milky Way flowed and stars dotted the sky.

Everyone's heart trembled as they looked up at the sky. They suddenly realized that they were so close to the sky, as if the stars and the moon were just around them.

Rain and wings stopped snatching the sacred tree and quickly landed beside Shang, looking at the sky in shock.

"Is this the passage to the ancient Barrens?" Shang mumbled to himself. It was rumored that the eternal evergreen tree was the closest place to the stars. It was indeed true. It's just that the opening of the starry sky path is a bit difficult."

"That's right, opening the starry sky path requires a large amount of my profound Qi. Over the course of countless years, it had been opened 11 times, and each time, it had been forced open by a peerless master. Only this time did I open it myself, because I owe him my life!"

Qing's eyes fell on Yunxiao as it cried out, "Li Yunxiao, I'm returning the favor I owe you now. I've already opened this starry sky path for you, so hurry up and go. I'm afraid I can't hold on for long!"

Yunxiao, on the other hand, turned a deaf ear to Qing Zhu's words. It was as if he did not even notice that the sky had turned dark and night had fallen.

Yunxiao's body trembled slightly, because he finally saw a familiar figure.

.....

Under Chen chuanjiu's suppression, young Emperor hao lian had already launched countless punches. Although he didn't have any time to rest or think, he felt as if he had comprehended something from the wind created by the punches. Each punch became more and more smooth and powerful, and the strength in his body seemed to be constantly increasing.

With a few punches, Chen chuanjiu was knocked away. Martial arts concepts began to appear in the surroundings. He was about to break through!

"Not good!"

Two voices cried out at the same time. Other than Chen chuanjiu, the other person was a fief Lord.

He couldn't care about this anymore. He directly took out his Five Element beast taming ring and pressed it on shaohuang hao lian's body. He had never thought that the other party would be able to break through the pressure and advance to the martial Supreme realm under such circumstances.

"BOOM!"

The five-element beast-taming ring struck a ray of light around young Emperor hao lian's body, but it was blocked and could not be suppressed.

Young Emperor haolian himself was also surprised and overjoyed. He looked at the power around him with ecstasy. It was the nine Heavens will, which contained the power of the laws of heaven and earth and the nine Heavens Emperor Qi. It slowly condensed around him and kept surging into his body.

hurry up and attack! If the integration of wills is completed, he'll break through to the martial Supreme realm and we'll all be finished!

The fief Lord shouted in shock, which woke up the stunned Chen chuanjiu. He hurriedly picked up his big sword and slashed down with all his might.

Two overbearing forces continuously bombarded the barrier formed by the nine Heavens will. Inside, shaohuang haolian frowned. Although the barrier was constantly trembling, it seemed to be able to hold on. Moreover, the nine Heavens will continued to rush into his body, allowing his martial intent comprehension to enter a whole new realm!

“Is Tao Wu really going to break through?”

Chen chuanjiu revealed a look of extreme hatred and shock. He had spent so much effort to chase after him, but he could still break through under such conditions. He had been stuck at the peak of the martial honor realm for so many years, but he had not comprehended anything at all. This difference made him so jealous that his body was almost on fire.

“Break!”

Suddenly, an almost inaudible voice rang out. The three of them were shocked and opened their eyes in shock. However, they had three completely different feelings.

A force that seemed to be the last straw that broke the balance came from nowhere. It gently hit the wizardry barrier that was set up by the nine Heavens will. With a “ crack “, the wizardry barrier actually cracked!

“This bi an ...”

Young Emperor haolian’s pupils suddenly contracted, and his heart violently twitched. The moment the barrier collapsed, he felt the nine Heavens martial intent in his body begin to flow away. And it wasn’t just his martial intent that was lost, it also took away his power and profound Qi! Even his physical body gradually collapsed as the intent realm disappeared!

f * ck you! I’m just trying to break through to the martial Supreme realm. Why is it so aggro-inducing? ”

He laughed bitterly at himself. The nine Heavens realm was the last hurdle in martial arts. If he succeeded, he would become an Emperor, and if he failed, he would become a Bandit.

If he lost, not only would he fall back to the peak of martial honor, but he would also die.

Under such circumstances, Chen chuanjiu and his fief would never let him go. In the same way, if he successfully advanced, he would not let these two off either.

But now, huhu

All of the nine Heavens will that he had condensed began to collapse. They shattered inch by inch and floated toward the endless void. A hint of desolation flashed across young Emperor haolian's face. He looked up at the endless martial path, his eyes burning with passion and pain.

"I'm still stuck at this threshold."

He laughed bitterly and sighed, "Master, fellow disciples, I'll be leaving first."

At this moment, his body began to dissipate along with the crumbling martial intent. His eyes gradually became unfocused. In a daze, his vision became blurry. A white figure rushed down from the sky, causing him to be slightly stunned. This figure overlapped with the imposing figure in his mind.

At this moment, he suddenly became very calm. His thoughts seemed to go back to fifty years ago, in the plum forest at the foot of the Lingxiao peak.

The plum blossoms were brightly lit, and an eleven or twelve-year-old young man in green clothes was standing in the snow, practicing the most basic Vajra fist over and over again.

Every time the young man threw a punch, a plum blossom would float down. It bloomed and withered under his fist intent, turning into bits of pink snow mud.

“Nine hundred and ninety-eight punches!”

“Nine hundred and ninety-nine punches!”

“1000 punches!”

“Hu!”

The young man let out a huge breath, wiped the sweat off his forehead, and lay down on the snow. The strange thing was that as soon as he fell, the White snow and mud around him immediately melted, and the area within a radius of more than ten meters became dry.

“Master, when can you teach me the second martial skill?”

Two figures appeared beside the young man. He jumped up happily and ran to the middle-aged man, begging.

“Hmph, with your stupid aptitude, you should be satisfied that you can learn the Vajra fist in this life!”

A slightly older youth beside the middle-aged man sneered and snorted, “I’ve been training for three years, but I still haven’t reached the Wu Zong stage. How would master have the time to teach a piece of trash like you!”

The young man was furious. He raised his fist and rushed over, roaring, “Jun ruyun, I want to duel you!”

Jun ruyun laughed contemptuously. You? We’ll talk about the duel again when you’re able to take one of my moves. Hehe, you’d better save some time to practice your promising Vajra fist, haha!”

The young man rushed up angrily but was stopped by the middle-aged man. The middle-aged man smiled and said, “Jun ruyun is right. You should be content that you can learn the Vajra fist in this lifetime.

The young man's face was ashen as he said dejectedly, "If even master says so, it seems that my aptitude is truly terrible. Master, do I really have the talent to practice martial arts?"

The middle-aged man bent down and patted the young man's hair with his broad palm. He chuckled and said, "Do you like to practice martial arts?"

"Do you like it, Yingluo?"

The young man's eyes were wide open and clear as he muttered to himself, "Even though it's very boring and tiring to train like this every day, day after day, year after year ... But Yingluo, I really like it. I really like the feeling of being filled with power. Every time I punch, I feel like this world belongs to me. Under the power of my fist, I dominate everything!"

"Master, I beg you to take me to the end of the endless martial Dao!"

The teenager knelt down. Two lines of tears fell into the snow and mud, forming crystal clear ice beads.

"Tsk!"

Jun ruyun revealed a disdainful expression and turned his head to the side.

The middle-aged man chuckled and said, "shaohuang, I don't know if you have the talent for martial arts." However, I know that you have a talent that no one else has, and that is an unyielding will, an indomitable courage, and a heart of a true powerhouse!"

The teenager stopped crying and opened his eyes wide. "Really? Then when will master teach me the second martial skill?"

The middle-aged man's eyes flashed with a sharp light. He raised his head with a smile, looked at the endless sky, and said indifferently, "Your name and body will be destroyed, but the river will flow through the ages!"
