

The Eternal 481

Chapter 481

?

481 Immortal God fist

Young Emperor hao lian's thoughts returned to the present. The White figure in front of him descended from the sky and gradually became clear in front of his eyes. It turned out to be a sixteen or seventeen-year-old youth in white. He revealed a look of disappointment, but his eyes flashed with surprise. He didn't know why, but this young man overlapped with that stalwart figure, and his every move was so familiar.

The young man was Yunxiao. He swooped down just in time to see the scene of the nine Heavens will collapsing. Staring at the desolation on shaohuang haolian's face, he sighed and said, "Your name and body will be destroyed, but the river will flow through the ages."

Young Emperor haolian's body trembled, and his pupils suddenly contracted as if an electric current had passed through them. It was as if a Thunderbolt had struck him. His spiritual sense moved like lightning, and time seemed to have passed for a moment, but it felt as if ten thousand years had passed.

He smiled, and two lines of tears filled his eyes, flowing down his cheeks. He choked and muttered, "I understand now. So master had already told me about this opportunity fifty years ago."

He threw his head back and laughed out loud. The crumbling of his body suddenly stopped at this moment. The scattered will of the nine Heavens seemed to be attracted by a force and madly gathered into his body. Not only did it repair his body, but it also brought with it endless power. He suddenly stood up from the ground, raised his right hand to the sky, and pointed down, saying, "the rule of the heavens-Starlight! His left hand pointed at the ground and shouted, "The law of the earth-pulse!"

Two rule forces suddenly emerged, and the wind and clouds surged in all directions, beginning to condense his broken body.

"What?"

Feng Yi and Chen chuanjiu were shocked. They were forced back by the power of heaven and earth, and their eyes were filled with fear. How could the nine Heavens will, which had already collapsed, be condensed again?

However, the two of them didn't have time to think about this. The emperor's Qi of the nine Heavens and the laws of heaven and earth emanating from young Emperor hao lian's body had already frightened them, and they immediately ran away in horror!

If the fief was in its peak state, he would not be afraid. But now, not only did he lose an arm, but his body was also in a mess. He was basically hanging on with one breath. At this moment, he was extremely regretful. Why did he have to meddle in other people's business? he should have just snatched a few profound armaments and left!

Young Emperor hao lian stood up, his Emperor's Qi surging. He stared at the escaping fief and Chen chuanjiu, and finally revealed a sinister smile. He raised his fist and smashed it down.

Vajra fist!

A black void appeared under his fist force, and the laws of heaven and earth condensed into a fist. His feet shattered the earth, and his fist broke through the void. The end of the endless universe, the end of the endless universe, the immortal Emperor of the nine Heavens and nine earths!

"Martial will of the nine Heavens, immortal fist! Break the sky, break the earth, and break the world!"

The ultimate power of martial Dao-Emperor Qi of the nine Heavens!

The fief Lord was shocked as he felt the power coming at him. He shouted, "One move to break all techniques! That was impossible! He's only just advanced to the rank of a martial Supreme. How could he have such terrifying power?"

Even if he was at his peak, he would not be able to withstand the power of this punch, let alone his current sickly appearance!

He and Chen chuanjiu were not the only ones who were shocked. Even the big demon, little green, and the rat Emperor in the sky were extremely shocked! The strength of this kind of fist intent completely exceeded the scope of their understanding!

&Nbsp; young Emperor hao lian had only studied this one fist technique in his life. When he became a Martial Emperor and comprehended heaven and earth, his understanding of the fist technique had already reached the peak of martial arts. Even a titled Martial Emperor or a Grandmaster might not be able to surpass him in the understanding of fist intent.

The punch finally achieved the effect that Yunxiao had envisioned, which was to achieve the immortal fist intent and break all techniques with one move!

Yunxiao's eyes shone with wild joy. The achievement of this punch was enough to give haolian, a newly promoted Martial Emperor, a good status in the world of the nine Heavens realm.

Li Yunxiao, it'll be too late if you don't leave now. Little Qing was also stunned by the power of young Emperor hao lian's punch. However, it had used up a lot of the divine tree's essence energy in its body. Moreover, it was shaken by the power of young Emperor hao lian's punch, so it was on the verge of collapsing.

At this moment, the eternal evergreen tree was already towering into the starry sky. Above it, a Silver River could be seen. Within the river, the stars revolved, seemingly undying.

the ancient Barrens land is on the other side of the Milky Way. I only have one chance to send you there.

Yunxiao gave haolian shaohuang a look, then flew into the sky with a wry smile while cursing, " you really know how to pick the right time. It's not easy for me to meet my disciple, and I haven't even had a sip of tea.

Qing frowned as if it had thought of something. It didn't say anything and only sneered,"If I didn't owe you my life, I wouldn't even bother to talk to you. I've already helped you open the path to the starry sky, but I don't care if you can cross the Milky Way. I've also returned the favor of saving my life, and I don't owe you anything anymore!"

Yunxiao did not bother to talk to him. He flew straight up along the path to heaven opened by the ancient evergreen tree. The branch went straight through the Milky Way and reached the other side of the endless starry sky. In the Milky Way, the powerful force of the universe filled it, giving off colorful and beautiful colors. It was a pleasing sight, but it was also a destructive existence. If one was not careful, they would be in danger of dying. However, the ancient evergreen tree seemed to be very neutral, and it was safe and sound under that force.

Under the tree of God, the fief felt that the space had been completely locked down by the laws, and there was no way to escape. In his panic, he also went berserk and roared, "If you want to kill me, I'll make sure you die a horrible death!" He desperately poured his power into the five elements beast taming ring, intending to self-detonate his Xuan artifact to break through the suppression of Emperor Qi and rules, and fight for a chance of survival.

The eyes of the rat Emperor, who was standing in the air, narrowed. Countless five elements spirit-devouring rats drilled out of the ground and rushed towards the fief, biting and tearing it.

"Damn animal, get lost!"

The fief Lord was shocked. He shook his body and all the spirit rats around him exploded. However, there were so many of them that they broke the power of his profound level weapon and could not self-destruct.

"Boom boom boom!"

Young Emperor hao lian's immortal fist rumbled down. Even the Starlight in the entire world dimmed under this punch. In an instant, the fief and Chen chuanjiu were swallowed up and spread rapidly in all directions. The power was so strong that it shook people's hearts!

The weapon spirit of Chen chuanjiu's heavenly Fury ancient bronze sword had also been shattered by this punch. It had completely turned into a piece of refined iron raw material and was inserted into the ground. It was like his tombstone, desolate and lonely.

The five elements beast taming ring also burst open, and the ring axis collapsed. Five different colored lights shot out in five directions. It was the five rat kings who were sent flying by the force when the beast taming ring exploded.

The rat Emperor was overjoyed. He could feel the life force of the five rat kings. Although they were weak, they were still alive. They disappeared in the air.

After the punch, young Emperor haolian looked up and saw the figure disappearing into the sky. He muttered to himself, "Master?" His face suddenly sank, and he turned into a golden light and chased after him. At this moment, he had a big question in his heart. He must catch up to that person and ask him!

.....

Standing on the tip of the ancient evergreen tree, Yunxiao stared at the opposite side of the starry sky. He was surrounded by the energy turbulence in the universe, and he could be annihilated if he was not careful. Fortunately, the divine tree's burning essence energy had turned into a weak energy that could actually repel the power of the turbulent flow.

Just as he was walking carefully, the tree trunk in front of him suddenly began to disappear at a speed visible to the naked eye. A huge shadow appeared in the starry sky, causing him to open his mouth in shock and be instantly stunned!

"Your sister! You can't play like this!"

Yunxiao's heart suddenly sank. The shadow that was slowly moving through the starry sky turned out to be the ancient true spirit, Wu, who had appeared in the sky of the demon land not long ago! True spirit was currently doing something that made him go crazy-devouring the ancient evergreen tree!

Although the devouring speed was very slow, Wu's body was very large. With just a few bites, he had already bitten a thousand meters away. The tunnel disappeared in front of him little by little. It was impossible to reach the other side!

"Your sister!"

Yunxiao cursed in anger. The starry passage was about to be destroyed, and it was impossible to cross the eternal Milky Way. So, he could only return without any success!

At this moment, a shadow appeared beside him and said softly, "big brother Yunxiao, don't be anxious. I'll help you."

Yunxiao was taken aback. He looked at the figure and said, "Are you Ye Fan or ye Nantian?" He knew ye Nantian would never call him brother.

That person was Ye Fan, he smiled bitterly: "It should be Xuanji Ye Fan. The ancestor left behind a large amount of information in my sea of consciousness, which made me a little confused. But I am still me... Ye Fan, this is not wrong."

so, the last half of ye Nantian's divine sense taught you the control method of Noah's ship?" Yunxiao asked.

Ye Fan nodded and said bitterly, "unfortunately, I am too stupid. I can't master it at all. I can only control it roughly. I don't know if I can help big brother Yunxiao."

forget it if you're not confident," Yunxiao said. this void turbulence is too dangerous. If you're not careful, you'll end up dead. You'd better take it easy. He didn't have to go to the ancient desolate land. He only wanted the immemorial astral wind, which could open the divine realm tablet's wind territory.

Ye fan's hands formed a seal, he said: "I will try."

The speed at which he formed the hand seals was very slow and very out of practice. However, golden tadpole-like characters could be seen on the seal. The seal on his chest shot out a golden light and projected not far away. A small Golden Boat sailed out from it like the moon. The moonlight flowed and reflected on the small boat, making it bright and clean. It didn't look like an invincible weapon in the legends, but rather like a crescent-shaped precious Jade, emitting a warm light.

A ray of light rose from the small boat and slowly unfurled. It turned out to be a sail formed by light. After it was unfurled, the boat became full of spirituality. It strode over and quietly stood in front of the two people, flowing lights rotating.

Chapter 482

?

482 Who are you?

The ship was only four or five meters long, and Yunxiao knew that it was only a shrunken form. When a Mystic artifact reached this level, it could be turned into a mountain or reduced to dust. He stepped in first, Ye Fan followed behind. As his hands formed seals, Noah's ship turned into a beam of light and left from the end of the ancient evergreen tree, entering the Milky Way.

"Boom boom boom!"

When little Qing saw this, it finally retracted its power. The passage opened by the tree of God suddenly collapsed. Young Emperor haolian was only halfway there when he saw that the path in front of him had completely disappeared. He grew anxious and pointed out a finger. The power of the stars condensed and transformed into a light armor around him. He was about to charge into the void turbulence.

"?!"

A cloud of inconspicuous gray dust floated over in the void, and his body accidentally came into contact with it. The power of the stars was rapidly corroded, and in an instant, there was not much left.

Young Emperor haolian turned pale with fright and hurriedly retreated from the void with a few flashes. At the same time, he condensed his Emperor Qi to shake off the stellar energy around him. The Starlight armor that had left his body was quickly corroded into a ball of light before completely disappearing.

Cold sweat broke out on young Emperor haolian's forehead as he watched. The various unknown energies in this universe were too terrifying. He watched helplessly as the small boat sailed away with the wind. The two sides of the boat seemed to be sailing on the surface of water. It drew ripples and spread out to both sides, gradually turning into a small golden dot that was about to disappear into the starry sky.

He was extremely anxious and took a deep breath. He condensed a powerful force and shot it out from his mouth, sending a sound wave far away. He only said four simple words, "Who are you?"

Just when he thought that he would not get a reply and his face was filled with desolation, a melodious bell sound came from an endless distance, bringing with it the chuckling voice of a young man. The green blood and red Heart turns into an iron cloak. The plum blossoms at the foot of the high firmament peak are thin.

Young Emperor hao lian's body trembled, and two streams of tears flowed down uncontrollably. His vision was blurred, and he couldn't see anything clearly. Standing in the sky, he suddenly flung his long robe behind him and knelt down in the air, bowing deeply toward the distant starry sky.

His action immediately shocked the people below, especially Tang Jie. His head was buzzing and he could not understand what was going on. He was a martial sovereign of the nine Heavens. Besides heaven and earth, who else could make them kneel?

Shang, on the other hand, was deep in thought.

Qing's eyes narrowed slightly as it recalled Yunxiao's words. It seemed to come to a sudden realization, but there was an undisguisable shock in its eyes.

The huge trees in the sky lost their profound Qi and broke into pieces, falling from the sky. The surrounding trees and leaves also gradually withered at this moment, rapidly shrinking until they withered and died, turning into spring mud. The whole process was very fast. The forest-like tree body collapsed and disappeared, returning to the boundless demon land.

The whole scene was very shocking, but during this period of time, everyone had experienced too many shocking things, and those who could survive were already crazy. They watched the tree of God die without any expression.

"Boom boom boom!"

A loud boom came from the distance. A green light flew over at high speed. It was a netherworld warship. In a few moments, it had arrived in front of them.

Several figures on the battleship directly soared into the sky and scattered in all directions.

“Mu Wu, where’s Yunxiao?” one of them asked anxiously.

These people were the reinforcements sent by the rookie mercenary group. Before entering the Four Seasons barrier, mu Wu’s strength had been sealed by li, so it was too dangerous to follow them, so Yunxiao had sent him back to report the situation. Hai beifei immediately gathered all the experts and rushed over at the fastest speed. However, he did not expect that everything had already ended.

Mu Wu’s eyes turned cold as she stared at Shang and the others, ” “I’ll have to ask these demon race people!” He paid more attention to li. The seal in his body had not been broken yet. The feeling of going from a martial honor to someone who could not even truss a chicken was extremely uncomfortable.

In an instant, all the members of the newbie mercenary group surrounded the demons and Tang Jie. There were actually four martial honors among them. The domains on their bodies were activated, suppressing Shang and the rest.

There was also Tao can and Qi Guang. They were originally protecting Ye Fan, but Ye Fan suddenly turned into a ray of light and disappeared. They were so frightened that they had to search for him repeatedly before running over. When they saw the newbie mercenary group, they immediately went up to greet them.

where’s Li Yunxiao? ” Ding Ling ‘er stepped forward and said angrily.

Both her and yunshang’s faces were extremely unsightly. They were the only living people around them, and Yuwen Xun, who was not far away, was on the verge of death. There were also some signs of life. Other than that, there were no other survivors. Moreover, the ground was full of scars, clearly left behind by the battle. The damage caused by haohuang’s punch was especially shocking.

Both of their hearts tightened. They gritted their teeth and red lips, and their palms were sweating.

A look of panic flashed across Tang Jie’s face. He had just broken through to the rank of martial honor and was full of joy. He did not expect to encounter such a powerful enemy. With the current condition of this small demon, he simply did not have the strength to fight with others. everyone, ” he said immediately in a deep voice, ” li Yunxiao has gone to the ancient Barrens. We are not enemies.

“Not an enemy?”

Mu Wu stared at him coldly, causing Tang Jie’s hair to stand on end. He then sneered, don’t believe him. Capture them all and interrogate them properly. Otherwise, none of them will speak the truth!

Tang Jie was anxious. Just as he was about to struggle, a voice suddenly came from the high school, “he’s right. Li Yingying’s master has already gone to the ancient desolate land on the other side of the starry sky.”

Young Emperor hao lian’s burly figure descended from the sky. His eyes were slightly red, but he could not hide the joy on his face as he landed on the ground.

“Guild leader!”

All the members of the mercenary group were shocked. Then, they looked at young Emperor hao lian in shock. The aura that he was currently emitting was completely different from before. They could not fathom it at all. Even his appearance seemed to have become more handsome, making him more masculine.

There was only one possibility for this change, and that was that all the members of the rookie mercenary group were overjoyed and excited.

Hai beifei was so excited that he couldn’t help but say, “Regimental commander, you’re already dead, you’re really dead!”

“En!”

Young Emperor haolian, on the other hand, was much calmer. He only responded softly, then his eyes fell on Ding Ling ‘er and Luo yunshang. A hint of surprise flashed through his eyes, and he smiled knowingly. “Where did these two girls come from? It seems that you’ve put in a lot of effort in your work while I was away.”

Hai beifei's excited mood immediately turned cold. Seeing the lecherous look on young Emperor hao lian's face, he quickly stepped forward and said, " Captain, these two are li Yunxiao's friends, and Li Yunxiao is our friend. You ... You can't be afraid!

"Pa!"

A crisp slap was heard, and everyone was dumbfounded. Their mouths were wide open, big enough to fit a shoe.

Young Emperor haolian slapped his own mouth and strode over to Ding Ling 'er and Luo yunshang. With a nervous look on his face, he cupped his hands respectfully and stammered, " "Madam li, please excuse me. I'm just a person with a cheap mouth. I hope you don't blame me."

This time, everyone felt dizzy, especially the martial artists of the rookie mercenary group. They all looked at each other and were all dumbfounded.

Their leader had always been good at picking up girls. He convinced people with his domineering aura and appearance. If his flirting skills were ranked in the continent, he would definitely be one of the top ten Casanova titles. None of the women he had his eyes on had ever escaped. Why did she suddenly become like a kitten?

Tang Jie and the two men from the hall of Holy Fire were also scared silly. They did not know about hao lian shaohuang's flirting skills. When they saw a martial Supreme slap them, their hearts twitched violently on the spot. They felt that what was happening in front of them was very unreal.

Ding Ling 'er and Luo yunshang blushed, but they did not blame him. Instead, they looked happy and shy. They were also smart people. From haolian's words, they could tell that he had learned Yunxiao's identity.

don't talk nonsense," Luo yunshang said. we're just friends with young master Yun. Did he go to the other side of the starry sky alone?" She raised her head and looked up at the sky, revealing a deeply worried expression.

Terpot and Qi Guang also perked up their ears. They were also very worried about Ye fan's comfort.

“Yes, I went with a boy who was rowing a boat.”

“Don’t worry,” young Emperor haolian said, “with that Lord’s abilities, he won’t be in any danger.” Luo yunshang and Ding Ling ‘er’s expressions fell into his eyes. With his experience in the field of love, he immediately understood the subtle relationship between the three. why don’t you two ladies stay in my light song forest for a while? that Lord will be back soon.

He hadn’t seen his master for so long, and it was the joy of being resurrected. He immediately decided to please these two master’s wives first.

Ding Ling ‘er pondered for a moment and said, “That’s good too. Let’s capture these people first.” She pointed at Shang and the others, and Tang Jie’s expression changed immediately.

Shang suddenly lifted his head and looked up at greenie, who was coldly watching from the sky like an outsider, “Little Qing, I’m in trouble. Help me.”

Qing Zhu was stunned for a moment, then its face turned cold and it sneered, “Shang, you’re joking, right? I don’t think you like to talk nonsense.”

don’t you know me? ” Shang smiled wryly. if you help us leave, I’ll help you perform a simulation of the heavenly cycle of stars, the pinnacle of martial arts.

Qing Zhu’s body trembled in shock, but it quickly calmed down and sneered, your armillary sphere has been destroyed. How are you going to deduce the stars in the sky? ”

“It’s just a damaged axis, it’s not difficult to repair it,” Yi said. Besides, I’ve also taken quite a bit of your body’s profound Qi, so it’ll be very easy for you to recover. You should also understand how beneficial it is for you to derive the peak of the martial Dao.”

Chapter 483-giving face

Shang’s words were half true and half false. No one in the realm of heavenly martial arts could repair a damaged holy weapon, but he had said it so casually as if it was not a big deal.

Qing Zhu hesitated for a moment. It was very clear that the demon clan's holy artifact, the armillary sphere, was not just a simple offensive profound artifact. It contained all of the martial arts conception in it. If it was deduced to the extreme, it could even be the secret of the immortal state!

"Isn't it up to me to decide whether you can leave or not?"

Young Emperor haolian's indifferent voice sounded. He coldly looked at little Qing and snorted. "The two young ladies have already said that they will take you back. Don't even think about leaving." He didn't have a strong presence, but the atmosphere became heavy as he spoke.

Qing's brows furrowed, she was already moved by Shang's words, "Young Emperor haolian, give me some face and let them go. How about it?"

"Hmph, give you face?"

Young Emperor haolian's face was full of disdain, and his gaze gradually turned cold. He stared at little Qing and mocked, "Who Do You Think You Are?"

Qing Zhu's expression changed. It was about to get angry, but it held back and said in a deep voice, "I'm a part of the reason why you're able to break through to the martial Supreme realm."

"That's right, if it wasn't for you guiding me all the way into the divine tree's space and the insights I gained along the way, I wouldn't have advanced so easily. However, Yingluo "

Young Emperor haolian didn't deny it, but he changed the topic and said coldly, "You want to help me break through, but you don't have good intentions, do you?"

Qing's eyelids twitched. no matter what, " she said, " at least I helped you and didn't do you any harm, right? "

"Who said that?" young Emperor haolian sneered. "Aren't you trying to harm me now?"

The two of them were at loggerheads, and the atmosphere became more and more intense. Not only the surroundings of the two of them, but even the sky suddenly changed color at this moment, as if it was a sign before a storm.

Although both of them had broken through to the martial Supreme realm at the same time, they were not ordinary people.

Little green was a spiritual body and had a strong affinity with the rules of heaven and earth. When it was still a martial honor, it could draw a clone of the great void jade green purple mansion's Brahma divine Thunder of destruction. Even so, it was not something that an ordinary Martial Emperor could take on. Moreover, now that he had advanced to the martial sovereign realm, if he were to condense the Zifu world destroying sacred Thunder, the power would be even more unimaginable.

On the other hand, young Emperor haolian's fist intent was unrivaled, and his punch was immortal.

"Is there any use in saying so much? The fist is the most important thing!"

die! young Emperor haolian couldn't be bothered to say anything more. His figure flashed, and he appeared in the air. He threw a punch at little Qing's face. The space twisted under the force of the punch and collapsed. Countless forces of gravity pressed down on it.

"Bang!"

A small black hole was immediately blasted open on Qing Zhu's face. The hole was filled with endless black void, giving off a chilling feeling.

Lightning flickered on his body, and the blasted face immediately recovered. With a gloomy face, he slowly condensed a ball of lightning in his hand. The electric arcs crackled and flashed for hundreds of meters. The color gradually darkened, and the radiation range grew larger and larger. Everything within a few miles was under the pressure of the lightning.

Everyone present looked at the lightning and thunder in horror. Not to mention the Thunder, just the pressure made them palpitate with fear, and they felt that it was difficult to resist.

Shaohuang haolian's expression also changed. The might of his Emperor Qi spread out from his body, repelling the lightning and protecting his subordinates below. His five fingers were tightly clenched, and a strange force was constantly flowing around his fist. Once he made a move, it would definitely be heaven-shattering and earth-shattering!

"Do you think your immortal fist intent can block my world-destroying sacred Thunder?" Qing Zhu seemed to be extremely unwilling to fight. "Even if you can resist the power of the world's destruction and not die, what about your subordinates? Without Emperor's Qi or a ninth tier profound armament to protect you, you will be annihilated in an instant!"

Young Emperor hao lian's heart tightened. Little Qing was telling the truth. Looking at the situation in front of them, the divine tree's transformation was even more powerful than they had imagined. However, he still refused to admit defeat and coldly snorted, "What, are you afraid of saying so much nonsense?"

"It's not that I'm afraid," said Qing. "You're not my opponent at all. However, once we fight, Shang and the rest will be annihilated as well, and then there's no point in me fighting you."

"Hmph!"

Hmph! young Emperor haolian snorted coldly and stopped talking. He retracted his aura and slowly landed on the ground.

His actions had already made his stand clear. He pointed at Qing Zhu and said, "I gave you face, but it wasn't you who helped me. It was you who helped that Lord open the path to the stars."

Little Qing also knew when to stop. It dispersed the lightning in its hand, and the entire sky immediately returned to its previous brightness. The pressure in everyone's hearts was swept away, but their eyes were filled with fear as they looked at little Qing.

The judge smiled. He was finally safe. "Little Qing, are you coming with us?"

Qing Zhu looked at him coldly and said, "I don't know when you will be able to repair the armillary sphere. I will come and find you when the time comes." As he spoke, he turned into a bolt of lightning and flew away. It was obvious that he didn't want to stay here any longer.

Tang Jie's face revealed a look of disappointment. If he could take little Qing in one fell swoop, it would be a great help. Even if he lost the Vermillion Bird saber, it would be enough to make up for it.

Hai beifei looked at Shang and the rest and shouted, "Hurry up and get lost. Our leader might change his mind later!"

Rain snorted and looked at him, then said slowly, "Although young Emperor haolian isn't an upright gentleman, his words carry enormous weight,"

"Bang!"

Just as Yu finished speaking, his body was sent flying by haohuang's punch, and blood splattered in the air. It was a shocking sight.

"I said I'll let you go, but I didn't say I won't beat you up." Young Emperor hao lian chuckled. One more time and I'll cut off your balls!"

Everyone's expression changed. Looking at shaohuang hao lian, it seemed like he was capable of anything. Yi's face darkened, and he waved his hand to leave. Wing moved, not forgetting about Yuwen Xun in the distance. After being sent flying by his fief, Yuwen Xun sprawled on the ground and vomited blood, but he managed to keep his life.

"Wait!" Mu Wu suddenly shouted. The seal on my body!"

Li looked at him tiredly. She didn't have much energy left in her body. She sent a few spells into mu Wu's body, but it was as if she had used up all her strength. She couldn't stand still and was supported by Fu.

Mu Wu's body glowed with a green light, and soon, a round mark appeared on his chest. As it rotated, it disappeared. Immediately after, a surge of power surged from his dantian, circulating along the Qi circulation, nourishing his body and meridians. He suddenly laughed loudly.

Tang Jie, on the other hand, carefully walked to the side. There was a touch of red in the grass.

"What are you doing?" Hai beifei stepped forward to stop him.

Tang Jie's face was a little pale as he carefully said, "My, my blade ..."

"Whoosh!"

The red color was the Vermilion Bird saber. With a wave of shaohuang hao lian's hand, the saber landed in his hand. He slashed out a few saber beams in the air, and a look of admiration appeared on his face. "It's indeed a good weapon. It seems that you've already refined some of it? Do I have to kill you to erase the mark?"

His eyes fell on Tang Jie, and a murderous intent flashed in his eyes.

Tang Jie's body turned cold, as if he had fallen into an ice cellar. He did not dare to ask for the saber again, and ran desperately behind Shang and the others.

Soon, only the newbie mercenary group was left in the demon Plains.

Hai beifei looked at the Vermilion Bird saber with great joy and said, "congratulations to Captain for breaking through to the martial Supreme realm and obtaining such a divine weapon. The Vermilion Bird saber is also an extremely famous existence among ninth tier profound armaments.

Young Emperor haolian smiled indifferently and brandished his knife a few times. He sighed. "It's a good saber, but I'm too used to using my fists to use it." He looked at Ding Ling 'er and Luo yunshen and said, "Are the two young ladies interested in playing with a saber?" He held the Vermilion Bird saber in his hand and presented it to the two of them.

The members of the newbie mercenary group were all shocked. Even Martial Emperor powerhouses would fight for a ninth-tier profound artifact until they bled. It was fine if hao lian shaohuang did not use a saber, but how could he give it away so easily?

Ding Ling 'er was about to refuse, but she suddenly had an idea. She took it with a smile, turned into a red light, and put it into her ring. "Then I'll have to thank you, Captain."

There was no trace of heartache on young Emperor haolian's face. On the contrary, he was very happy. "It's good that young lady likes it."

Hai beifei's face was bitter as he said, "Captain, this ... Aren't you being a little too generous for the sake of picking up girls?" The brothers were all scared witless when they saw that. That's a ninth tier profound armament!"

Young Emperor hao lian rolled his eyes at him and said, so what if it's a ninth tier profound armament? don't tell me that these two young ladies are not worthy of a ninth tier profound armament? "

When the members of the newbie mercenary group heard this, they all had a headache. He had heard that there were people who spent all their wealth to pick up girls, but he had never heard of people giving away ninth tier profound armaments. If there was such a betrothal gift, even the proud daughters of the seven great sects would be able to marry him.

"Captain," hai beifei said, "now that Chen chuanjiu is dead and Shen Feng's whereabouts are unknown, it's a good time for us to unify the gentle song woodland. We should immediately return to the city and clear out all the factions!" His eyes shone with excitement, and the rest of the members were overjoyed as well. All of them were filled with battle intent. With a martial sovereign in charge, it would be easy to unify the gentle song forest.

"There's no hurry. There's something I need to do before we go back," young Emperor haolian said. The killing intent in his eyes gradually condensed, almost tangible.

The space around them froze, and all the members of the group felt a slight chill. They looked around in shock, not knowing what young Emperor hao lian was doing.

“What is it?” hai beifei could not help but ask.

Young Emperor haolian’s gaze was fixed on a certain spot in the sky as he coldly said, when I was breaking through in the boundary of the nine Heavens will, it was impossible to break the boundary with the power of my fief and Chen chuanjiu. However, someone secretly launched a sneak attack and used a good method. Now it’s time to settle the score, right? ”

The space there trembled slightly, and a ripple spread out. Soon, a figure with a bitter face and a look of fear was revealed.

“Regiment commander hao lian, it’s a misunderstanding, it’s really a misunderstanding!”

The man was drenched in cold sweat. He walked down from the sky and said, ” “I originally wanted to give you a hand and sneak attack the fief and the others, but who knew that a freak combination of factors would cause me to be scared silly. Fortunately, the heavens had eyes and did not cause a great disaster! I’m the sun fish boat of the myriad treasures store, and I’ve met your senior brother Hua qianshu several times. We can be considered as family.”

Chapter 484-statue

After he finished speaking, the atmosphere immediately turned cold and there was no sound.

Young Emperor haolian’s cold gaze made his hair stand on end. If he was at his peak state, he would have a way to save his life even if his opponent’s fist intent was powerful. However, he was almost disabled by ye Nantian’s palm. Even a peak martial honor could kill him easily.

After a few minutes of silence, the sun fish boat kept wiping the cold sweat from its forehead and swore that it had made things worse, and that it was not trying to set them up.

Young Emperor haolian stared at him for a while before suddenly clapping his hands.”By the way, it’s good to seal you and keep you by my side as a helper. Otherwise, it’d be a pity if a martial Supreme were to be slapped to death.”

“What do you mean? Seal? You’re going to seal me?”

The sun fish boat was so scared that it retreated.

However, haolian shaohuang had already made his move. Three air-piercing sounds rang out in succession, and an intense pain as if he was being burned came from his chest. Following that, the circulation of Yuan Qi in his body was abruptly cut off. The vigorous feeling in his dantian completely disappeared, and his aura suddenly dropped sharply. Not only that, but his comprehension of the laws of heaven and earth had also disappeared. His cultivation had fallen from the great emperor realm and returned to the peak of the martial honored realm!

Sun Boat fish's expression changed drastically, and he tore his clothes apart in shock. He saw three small black dots on his chest biting each other like tadpoles. They formed a circle and gradually disappeared into his flesh.

One must know that a Martial Emperor was so powerful that his every move was in line with the heavenly Dao. Even if an existence several stars higher than him wanted to seal him, it would be almost impossible. However, shaohuang hao lian had just advanced to the martial Supreme realm, yet he had sealed him and caused his cultivation to drop by a major realm. The effect was too shocking and he could not react in time.

"Hehe, you should be honest now. If you work well under me, maybe I'll unseal you when I'm in a good mood."

hehe. young Emperor haolian sneered. if you're disloyal and want to escape back to myriad treasures store, that's fine. "Just let me know if you want to leave, I'll send you off," he said with a generous smile. At the same time, they spread the news that the martial intent of the sun fish boat had been sealed and that it only had the cultivation of a martial honor. There must be a lot of people who don't like you since you've become a martial Supreme, right? Now that their cultivation has fallen, they'll definitely be more than willing to meet you and reminisce about the past."

The sun fish boat's face instantly turned as red as a pig's liver.

Every martial Supreme had made their way up by stepping on the bones of many losers, and they would definitely have a lot of enemies.

Hai beifei sneered, "you should be content that you're able to work for the Guild leader." Then there was no need to think about the myriad Treasure Tower. Anyway, it doesn't matter if the number one Chamber of Commerce in the world has you as a martial Supreme or not."

Everyone laughed, and only the sun fish boat had a bitter expression.

Tao can and Qi Guang didn't want to go back to the city with the others, they insisted on waiting for Ye Fan. Their temple of Holy Fire only had Ye Fan as the backbone. If something happened to him, it was almost the same as being completely annihilated.

Shaohuang haolian didn't stay any longer and led everyone back to the city.

.....

High up in the sky, within the Milky Way, all kinds of terrifying energy were flowing. A small Golden Boat gently pushed away the flowing energy, slowly moving forward. It seemed very gentle.

Ye Fan sat quietly in the center of Noah's ship, he conjured a seal with one hand, his eyes were closed, his body was emitting a weak light. This could minimize the loss of power and support the crossing of the starry sky.

Yunxiao's eyes kept sweeping around outside the ship, seeing all kinds of energy flows and a large number of meteorites flying around. He muttered to himself in disbelief, "each of these things is enough for us to die countless times. This Noah's ship is really not an ordinary profound level weapon. It's actually fine?"

"Yes, that's Yingluo."

Yunxiao was suddenly taken aback. A huge broken bronze statue had appeared in front of them, floating in the air and floating toward them.

The bronze statue was already in tatters, and its face could not be seen clearly. The edges and corners of its body had been smoothed out, and it was just floating in the void.

Ye Fan also opened his eyes and revealed a shocked expression, he didn't expect there to be such a thing in the starry sky, " "This bronze statue should be very old. I don't know why it wasn't destroyed in the starry sky, but I can still see its rough outline."

Yunxiao did not respond, but kept his eyes fixed on the bronze statue. At first, he was full of doubts, but in the end, it turned into great shock. His whole body trembled as he pointed at the bronze statue and said anxiously, " "Can you take that thing in? This is a rare level nine divine ore-heavenly shine metal!"

His voice trembled with shock, and he said, " "God damn it, who turned so much skyshine metal into a statue? Your sister, who has such a big face? This is just a fist-sized piece and it can be used to refine ninth tier profound armaments. It is a divine ore that has already gone extinct in the continent!"

Ye Fan was taken aback. Although he did not know what the heavenly shine que gold was, he knew it was extraordinary from Yunxiao's words. He frowned and said, " I'll try. After all, it's already a little difficult to drive this small boat.

Yunxiao was so excited that he could hardly control himself. "I must try! After seeing such a rare treasure, if we let it go, we won't be able to die in peace!" As a ninth-tier Alchemist, he was very eager for those rare materials, but there were only a few precious materials that could catch his eye.

Ye Fan clumsily used a technique, turning the boat around and heading towards the statue, but the statue was being washed away by the various energies in the Galaxy, moving further and further away in an irregular trajectory.

big brother Yunxiao, I'm afraid we can't do it anymore. This statue ...

Ye Fan felt a wave of powerlessness. He could only control Noah's ship simply, and the mental connection was not that strong. It was barely visible. It would be difficult for him to cross the other shore. As soon as he opened his mouth, his mouth fell open and could not close.

Yunxiao rushed out of the boat without a care for his life. The black gas of the demonic sky armor spread out of his body and flew directly toward the bronze statue.

Seeing that the monstrous fiend energy had been suppressed to an extremely weak state in just a few breaths, Yunxiao took out the dynasty Bell and shook it, creating a distorted space around him. Then, he gathered his primordial Qi and used spatial bending in the air to reach dozens of meters away from the statue in a few moments.

At this time, a lot of violent forces directly penetrated his demonic Qi and shook the body of his armor, making an ear-piercing sound and sparks.

Yunxiao's eyes turned blood-red as he twisted the surrounding space with a stream of spiritual power. The Golden statue of the heavenly reflection court was instantly shifted over by him, and with a flash of golden light between his eyebrows, it was taken into the divine realm tablet.

Ye Fan, who was watching from a distance, was terrified. At the moment, Yunxiao's body looked like it was covered with firecrackers, crackling under all kinds of violent energies, and sparks and electric arcs were everywhere. If it were not for the demonic sky armor, he would have been dead a long time ago.

After getting the statue, Yunxiao was overjoyed. Even in such a dangerous environment, he did not forget to laugh heartily. Feeling proud of himself, a few energy beams shot through his thigh. Only then did he flee back to the boat with cold sweat all over his body.

Ye Fan looked at the demonic sky armor on his body in shock, the dark demonic Qi had completely disappeared, the armor was also covered in scratches, and many parts had caved in.

He had worn this armor before, so he naturally knew how strong its defensive power was. However, it was actually damaged to such an extent in just a few moments. At this moment, he was also extremely shocked by the magic of Noah's ship, which was unimpeded in such a harsh environment.

Frowning, Yunxiao reached out his hand, and the demonic sky armor appeared in his palm. It had indeed suffered a great deal of damage.

He suddenly frowned and gently stretched out his hand to touch the armor. A faint purple light rose from inside and was carefully caught in his left palm. The purple light was crystal clear and extremely sticky. It was condensed and did not dissipate.

big brother Yunxiao, What's this? " Ye Fan was also surprised, he felt that it was very beautiful.

Yunxiao chuckled and said, " I didn't expect to see the purple Aurora. No wonder mo tiangkai couldn't stop it. Have you ever heard of the light of the original color? "

Ye Fan furrowed his brows and thought for a while, he said in surprise: " "Could it be red, orange, yellow, green, cyan, blue, and purple, the seven original colors of light?" Although Ye fan's strength was ordinary, as the disciple of the unparalleled Martial Emperor, he was very knowledgeable.

that's right, " Yunxiao praised. it's the purple Aurora in the seven-colored light source. It's also a type of World Energy, not only extremely powerful, but also has endless uses." He frowned and smiled bitterly. however, there's not enough purple auroras. It seems like there are many good things in this Milky Way. I'll have to come back if I have the chance in the future.

Carefully, Yunxiao took the purple light directly into his glabella and let it float above his dantian, quietly standing there.

He then kept the devil Sky armor. Although the armor was damaged, he did not feel any heartache. In his previous life, he had been able to make an armor of this level. As long as he could recover his strength as soon as possible, any profound armament would be easy to refine.

Ye Fan smiled bitterly. big brother Yunxiao is so talented. I'm afraid you're the only one in history. I don't dare to come to a place like this again.

Yunxiao smiled. you've received ye Nantian's inheritance, and you've become a martial sovereign. It's only a matter of time before you reach the peak of martial arts. At that time, this place will just be a walk in the park.

Although the Galaxy was extremely dangerous, it was a treasure land for powerhouses at the peak of the martial Dao. Not only could he borrow the power of the stars in the Milky Way to cultivate, but he could also encounter many treasures from time to time. Most of the top grade blacksmithing materials on the continent came from this outer space. The realm of heavenly martial arts had existed for countless years, and many rare treasures had disappeared.

After putting away the armor and the purple Aurora, Yunxiao carefully took out the huge statue from the divine realm tablet. The statue was slightly shorter than Yunxiao and had a slender figure. It was a statue of a woman. Although it had long been unrecognizable, one could still see the peerless charm of the past from its body shape.

Chapter 485-next time we meet

who is so influential to use such a large piece of skyshine Imperial Gold? even if it was used as the main material, it could be used to refine more than twenty ninth tier profound armaments. To actually use it to cast a statue of a woman.

Yunxiao was not a man who had never seen the world, but he was still shocked by this big gesture. He carefully observed the various parts of the statue and quickly discovered some shocking situations.

First of all, this statue was actually chiseled from a complete piece of the heavenly reflection court's Golden Eagle!

Although the quality of this large piece of heavenshine que gold was extremely good, if one were to carefully probe it with their spiritual sense, they would discover that it still contained many simple impurities. It could be seen that it had never been tempered before and was a complete natural divine mine! As a ninth-tier Alchemist, he had never even heard of such a huge natural sky illumination metal, let alone seen it.

it should be the location of the essence elemental mine of a skyshine que gold mine. It must be the work of a giant sect from a long time ago.

Secondly, although the appearance of the woman in the statue was completely unrecognizable, her elegant demeanor and body shape alone gave people a feeling of shock. She was sacred, pure, and inviolable. Holding the statue with both hands, Yunxiao felt an inexplicable fear of punishment, as if touching it with his hands was the greatest blasphemy against the goddess.

“How could this be? Even if it's a work of art, condensed with the power of laws, under the erosion of time and void energy, it should have dissipated long ago!”

Yunxiao's temperament was firm, and his soul power was vast. Naturally, he would not be shaken by the divine aura emanating from the statue. The energy inside this ninth-tier material was so enormous that

it was extremely difficult for ordinary alchemists to probe it with their soul power. Even with Yunxiao's current sixth-tier soul power, he could only observe a very shallow part of it and found nothing unusual.

"Could it be that there's something strange inside? However, this is a complete Tian Zhao que gold ore mine, and there are no signs of damage. Who would be able to do something strange inside?"

Yunxiao thought for a long time, but he could not figure it out. "I don't care. When I recover to the ninth-rank, I'll refine you directly. I'll know what's going on."

Ye Fan suddenly frowned and said: "big brother Yunxiao, this statue gives me a very bad feeling. It's making it difficult for my mind to calm down. He stared at the statue solemnly, and the incantation gesture in his hand became somewhat unstable.

Yunxiao put the statue directly into the divine realm tablet and said, "It's indeed a little strange. Don't be distracted."

At this time, they had already reached the other side of the Milky Way. The various terrifying energies in the void turbulence were getting less and less. Many man-made traces began to appear around the small boat, like some damaged profound level weapons, and there were also palace ruins that were suspected to be man-made. There were even large patches of soil sacks.

Ye Fan said in surprise, "it's said that the ancient desolate land was originally part of the heavenly martial realm. I don't know why it was abandoned by the ancient mighty people to the end of the starry sky. It seems that it's true!

Yunxiao was also shocked. A large piece of land appeared in the void in front of him, which looked very strange. Furthermore, to throw a continent from below to the end of the starry sky, what kind of unbelievable power was this!

"Ye Fan, send me off here."

The small boat was quietly anchored on a piece of land. The surrounding space was silent and dark, only the stars in the distance flickered with a little light.

Ye Fan was also tired, his hand seals stopped. The pale golden light on Noah's ship immediately disappeared, and Yunxiao gently stepped on the ground. As far as the eye could see, there were pieces of soil bags, floating in the void like lotus leaves in a pond.

"This place looks quite interesting."

Yunxiao looked at a small white jade bottle on the ground in the distance. He reached out to grab it and sucked it into his palm. Then, he opened the bottle and sniffed it with his nose, and a strange look appeared on his face.

"What's wrong?" Ye Fan asked. Big brother Yunxiao."

Yunxiao looked around carefully and said, "This Jade bottle is empty, but it exudes the medicinal fragrance of an eighth-tier medicinal pill. Although the White-fat glass Jade bottle is the best container for storing pills, the fragrance will only last for a hundred years at most. This means that this Jade bottle was left behind at least a hundred years ago, otherwise the medicinal Qi would have dissipated long ago."

A hundred years wasn't a long time for peak martial artists like them.

Ye Fan was shocked,"you mean someone has been here?" But isn't the ancient evergreen tree the only way to the boundless star region?"

Yunxiao threw away the Jade bottle as if it were garbage and snorted, "Who knows? There were many monsters hidden in the realm of heavenly martial arts, and they had all kinds of tricks. Moreover, the floating soil was by no means ordinary soil. It had its own gravity, as if walking in the realm of heavenly martial arts. The outer realm starry sky seems to be very interesting!"

Ye Fan swallowed his saliva and smiled bitterly: " only big brother Yunxiao would be interested in such a strange place.

are you interested in going with me? " Yunxiao laughed.

Ye Fan shook his head: "no, ancestor left too many things in my mind. I don't know when I will be able to digest them all. I'll immediately go find a place with no one to seclude myself in and only come out after I've made some progress in my cultivation."

Yunxiao nodded with a solemn expression and said, "that's right. The news of you obtaining Noah's ship will soon spread throughout the continent. At that time, not only will the seven major forces search for you, but even the sanctuary will search for you. You must be careful."

Ye Fan said, "don't worry. I already have a place in my heart. The sacred zone and the seven forces will not be able to find me. After I come out of seclusion, I'll definitely lend this Noah's ship to big brother Yunxiao for research."

thank you! Yunxiao smiled. you're so thoughtful. Goodbye, Ye Fan."

With a wave of his hand, he headed towards the endless land.

"Yun Qianqian, big brother Yun Xiao!"

Ye Fan suddenly called out, a determined look appeared on his face, he clenched his fist: "I've always admired big brother Yunxiao! However, the next time we meet, I will definitely surpass you!"

Yunxiao turned his head slightly and looked at Ye Fan, who was a little nervous, and said with a chuckle, "You want to surpass me? Hehe, I hope you'll be at the peak of martial Dao the next time we meet!"

He turned around and stepped into the ruins without looking back, turning into a faint light and disappearing from Ye fan's sight.

"The peak of martial arts?"

Ye Fan felt his blood boiling, he said firmly: "We definitely will!" Looking at Yunxiao, who had disappeared before his eyes, he saluted deeply.

The stars flickered in the distance, and a bright moon hung in the sky.

A faint figure appeared under the moonlight, Ye Fan was on The Golden Boat, slowly moving towards the endless continent.

.....

Yunxiao ran quickly across the starry sky on land alone. The ancient desolate land was a desolate land of death, surrounded by primordial gales. Under the power of the strongest elements, any living creature would instantly turn into a dried corpse, never to rot.

The soil under the starry sky should be the periphery of the ancient Barrens.

Although the surroundings looked vast and boundless, it was actually very easy to identify directions. As long as one used the stars as coordinates, they would definitely not go wrong.

Yunxiao ran for a while, and suddenly, a faint light appeared in front of him, illuminating the area, and then dimmed again, leaving only darkness.

Yunxiao stopped and looked ahead in surprise. His eyes were filled with doubt as he muttered to himself, "Strange, why is there a convergence of star power in front?" He looked into the distance and saw a faint Starlight emitting from the land several miles away. It was like a star in the void, sometimes dark and sometimes bright.

"Could it be that the stars have fallen here and have yet to completely die out?"

that's not right. This soil bag is so thin. How can it withstand the fall of the stars? could it be that a rare treasure was abandoned here?"

When they thought of this possibility, they were instantly overjoyed.

This was a battlefield from ancient times, and countless powerful warriors had died here. The Golden statue of the Tenshou imperial court that he had obtained earlier should have been a product of that time. It was also very likely that some other Supreme treasures had been left behind.

He quickly rushed toward the land of Starlight and soon saw a large area of golden light. It was definitely not the fall of stars, but the Starlight absorbed directly from the surrounding stars not far away. All of it was gathered to produce such a powerful Star Force that covered a diameter of several hundred meters.

Yunxiao's heart twitched violently as he looked at the Starlight in shock. There was a huge array operating in the Starlight, and in the center of it was an old man in a yellow robe, sitting cross-legged and meditating with his eyes closed. The endless Starlight fell on him and was completely absorbed.

“?!”

Yunxiao gasped and cried out in horror, “Someone is actually absorbing stellar energy to cultivate! This Tao Wu!”

The scene in front of him was too overwhelming. Not only did he not have any rare treasures, but he also encountered a person!

His shout immediately startled the old man who was cultivating. He suddenly opened his eyes, and golden light flashed like lightning.

The old man was also shocked beyond words. He never thought that his cultivation would be disturbed. His eyes widened in shock for a moment before he muttered to himself, “What’s going on? we’re in outer space, how can there be people here? No, no, it’s impossible. It must be the karmic barrier of my inner demon! Oh no, why did the heart demon appear?”

The yellow-robed old man hurriedly closed his eyes and used a clear heart technique in an attempt to get rid of all kinds of distracting thoughts. He began to meditate and regulate his breath again, trying to get rid of the demonic barrier.

However, after a few breaths, he suddenly felt that something was wrong. He opened his eyes and rubbed his eyes desperately with his hands. Only then did he realize that he was not mistaken. It was not his inner demon. It had indeed barged in!

The old man instantly sprang up from the ground and took a few steps back in fear. He shouted with vigilance, "You, Who are you? How did you get here?"

Yunxiao was also on high alert. He licked his dry lips. Anyone who could cultivate in this starry sky was definitely not weak.

He stared at the yellow-robed old man for a while and suddenly revealed an expression of extreme shock. Then, his pupils also widened. He actually gradually recognized the person in front of him. It was actually an old acquaintance of his. He cried out in shock, "You, you are Yuan gaohan? Starlight soul body-level eight!"

Chapter 486

?

486 Starlight soul refining technique

The yellow-robed old man was taken aback, and his face was filled with shock. When he saw Yunxiao, he looked as if he had seen a Ghost as he screamed, "Who the hell are you? How did you recognize me? You even know about my Starlight soul body!"

Yunxiao suppressed the shock in his heart and began to calculate quickly in his mind.

This Yuan gaohan's background wasn't small, he was a great figure with a heaven-shaking background! He was an elder of the soul formation realm and held a certain position in the Holy region. Even a few of the seven superpowers had hired him as an honorary elder.

The so-called honorary elder was just a title. Every year, they would receive a large amount of benefits for free. At critical moments, they would move their lips or give one or two pointers. In his previous life, Yunxiao was also an honorary elder of the sea of soul formation for the convenience of many things, so he and Yuan gaohan could be considered old acquaintances.

Moreover, these were not Yuan gaohan's greatest trump cards, which even Yunxiao did not dare to provoke in his previous life.

"It's indeed a Starlight soul body, tsk tsk!"

Yunxiao quickly came up with a plan. His eyes rolled evilly, and a smile appeared on his face as he snorted coldly, "I naturally know you're Yuan gaohan. Otherwise, I wouldn't have come all the way here to look for you."

"W-what Yingluo? you're here for me? What do you want from me?"

Yuan gaohan's shock came wave after wave, and his heart was filled with uneasiness. Although the other party seemed to only have the cultivation of a four-stars martial Grandmaster, how could such a weak strength come to the outer realm starry sky?

"What do I need you for? Hehehe!"

Yunxiao's laughter made Yuan gaohan's hair stand on end, and he said with a scowl, "of course it's because of your Starlight soul-refining technique, Mr. Yuan gaohan, a ninth-tier Alchemist master!"

"Starlight soul refining technique! How dare you!"

Even Yuan gaohan, who was extremely afraid of him, was furious when he heard this request. His face instantly turned cold and he shouted, "I don't care who you are, get out of my sight now! It's impossible for you to obtain my soul refining technique! It's not too late for you to leave now. If I find out who you are, you'll be in trouble!"

With an angry look on his face, the temperament of a ninth-tier Alchemist Grandmaster was exuded from him, and he had a calm composure in the face of danger. He continued, "since you know me, you should know where this Starlight soul refining technique is from. Who in the world would dare to do such a thing?"

Yunxiao smiled contemptuously and said in a cold voice, "I'm aware of your background, but since I've come all the way here, I'm naturally prepared. Do you treasure your soul cultivation technique or your Starlight soul body?"

His ring glowed, and a long streamer appeared in his hand. He spun it a few times and said with a cold smile, "Do you recognize this?"

"?!"

This time, Yuan gaohan was really scared out of his wits, and he screamed, "Soul devouring banner? And it was a ninth-grade soul devouring banner! You're from the Soul Eater clan!"

Yunxiao laughed in his heart, but he still put on a ferocious look and said coldly, "It's good that you know. I'll give you three breaths to make your choice."

He was also very nervous, and the palm of his hand holding the soul devouring banner was covered in sweat.

At this moment, the yuan gaohan in front of him was not Yuan gaohan himself, but an avatar! It was a Supreme Soul refining technique that was purely composed of souls. By absorbing the power of the stars, one could condense their second soul and achieve dual cultivation, which was equivalent to two alchemists cultivating at the same time. The effect was conceivable.

This Starlight soul tampering technique was known as the number one soul tampering technique on the continent!

And now, this so-called eighth-tier Starlight soul was equivalent to the soul-form of an eighth-tier Alchemist. Even if Yunxiao were to fight, he would never be a match for Yuan gaohan's Starlight soul.

His current strategy was to scare the other party with the soul devouring banner. After all, All Souls were most afraid of the soul devouring clan, especially some senior alchemists, whose souls were so powerful that even the experts of the soul devouring clan drooled with desire.

As expected.

After Yuan gaohan saw the soul devouring banner, he couldn't remain calm. His body trembled under the starlight and he almost roared, "Even Huangfu bi would not dare to treat me like this! If you dare to take my Starlight soul body, I'll turn your Soul Devourer clan into ashes even if you're one of the seven superpowers!"

"Tsk! You?"

Yunxiao's face was full of sarcasm as he waved his hand impatiently and said, "Don't talk nonsense. If I take this Starlight soul body of yours, it'll be a difficult problem for you to maintain your true body at the ninth-rank, and if you fall back to the eighth-rank, how much influence do you think you'll have? Why would the beiming Dark Palace hire you as an honorary elder?"

He poured his vital Qi into the soul devouring flag, and a strange power overflowed from it, emitting a faint golden light. He said coldly, "Hurry up and choose. After taking your soul, my soul devouring banner might be able to advance to the earth Gold rank. Hehe, I'm looking forward to it!"

Yunxiao licked his lips ferociously, which made Yuan gaohan's heart tremble with fear. He felt a chill all over his body, and his eyes were filled with hatred.

Yuan gaohan gritted his teeth and said, "you know my identity, yet you still dare to treat me like this! You really deserve to die!"

Yunxiao's face darkened as he took a few steps forward with the soul devouring flag in his hand. A cold aura emanated from his body, as if it were tangible. "This is your last chance. Are you going to give me the soul cultivation technique or just give me this soul body? After three breaths, I'll directly take back the soul!"

"One!"

Yunxiao enunciated the word 'one' long and hard, pressing Yuan gaohan's heart like a huge rock weighing ten thousand kilograms. His face grew uglier and uglier, almost twisted into a hideous mess.

“Two!”

As the word “two” was shouted, Yuan gaohan’s body trembled. He raised his head, his eyes filled with resentment, and gritted his teeth, “How would I know that you wouldn’t take my eighth level Starlight soul body after I taught you the soul refining technique? You’re cultivating the soul devouring banner, so my soul should be more attractive to you, right?”

Yunxiao was overjoyed. It was obvious that the other party had compromised.

If Yuan gaohan’s Starlight soul body made a move, he could suppress Yunxiao with his strength as an eighth-tier Alchemist. However, when he saw the ninth-rank soul devouring banner, he was already terrified and couldn’t even have the slightest bit of battle intent. Although the strength that the other party had revealed was very weak, without powerful means, how could he have entered the outer space, how could he have possessed the ninth-grade soul devouring flag, and how could he have recognized him?

If this soul was taken away and refined into a soul slave, or even worse, turned into a nourishment for the soul slave, Yuan gaohan’s body would definitely be badly wounded. Just as Yunxiao had said, it was unknown whether he could even maintain his ninth-tier cultivation. Furthermore, it would be impossible for him to recover his current strength or even advance to the next level.

The consequences were too severe, and he did not dare to take the risk!

How could anyone enter the outer realm starry sky? he was filled with hatred. If he had known this earlier, he would have easily found a few martial Supremes to protect him. He would not have to suffer such humiliation!

However, it was too late. Who would want to destroy their many years of cultivation so easily?

Yunxiao suppressed the boundless joy in his heart and snorted coldly. “You don’t have to worry about that. I, Zhang shaotian, always keep my word! If I take your cultivation method, I’ll at most create some grudges, but if I take your soul body, it’ll be a life-and-death feud! You should always leave a way out for yourself. Otherwise, if you go to the soul Devourer clan with your original body and cause trouble, I won’t be able to explain it to the sect master.”

“Hmph!”

Yuan gaohan snorted heavily, his face turning purple from anger as he angrily said, “So you know the severity of this! However, my soul cultivation technique is unparalleled!”

“Your sister, you’re still so long-winded! Three!”

Yunxiao’s face immediately darkened when he saw that the man was going to waste more time. He shouted ‘three’ and made the soul devouring banner in his hand look like it was about to spread.

After Zhang shaotian was killed by ye Nantian, the soul devouring banner had fallen into Yunxiao’s hands. Although it wasn’t of much use usually, but it was after all a quasi-ninth tier profound armament, so it would be good to sell it. Who would have thought that it would play such a big role at this time.

Yuan gaohan’s Starlight soul body was most afraid of the soul Devourer race’s perverted cultivation techniques. If not for that, even if the person in front of him was a martial venerable, he would still dare to fight with his eighth tier Starlight soul body. But when this ninth-grade soul devouring banner was taken out, Yuan gaohan was scared silly on the spot, where would he find the courage to fight?

“Don’t, don’t accept me!”

Yuan gaohan was so frightened that he no longer had any grace and quickly retreated, hurriedly begging for mercy, I’ll teach you the Starlight soul refining technique. Stop!

He was really scared out of his wits. His soul power had regressed by one level, which was unbearable for any Alchemist, not to mention a man who was already standing at the peak of alchemy. He would rather die than do that!

Yuan gaohan compromised in an instant, his face filled with pain. Then, he stared at Yunxiao expressionlessly, trying to remember this face so that when he returned, he could issue an order to hunt this man down to the ends of the earth.

Yunxiao knew what he was thinking, but he did not care. It wasn't the first time he had been hunted down, so he was already a wily old fox.

“The husband’s soul is pure and without impurities. It is called true. The heavens obtain one with the sun, moon, and stars, and the earth obtain one with the clouds.”

Yuan gaohan was forced into an extremely helpless situation and began to teach the essence of the Starlight soul refining technique, deliberately making some of the key points difficult to understand. But, Yunxiao did not look puzzled as he had expected. He only frowned slightly in some places, but his brows would soon relax, as if he had completely absorbed it.

Yuan gaohan was stunned for a moment, but then he sneered in his heart. The Starlight soul-refining technique was a first-class godly technique. Even when he was learning it in the past, it took him a lot of effort to fully understand it. Many key points were only fully grasped after continuous practice in the future.

Judging from Yunxiao’s expression, he was planning to forcibly memorize it first and then slowly figure it out in the future.

However, such a divine technique was not something that ordinary alchemists could figure out at all!

Chapter 487

?

487 The innocent han Yinshan

This was because the essence itself contained endless laws. Even if he remembered it now, it would gradually dissipate in his mind over time. He could see through Yunxiao’s soul power cultivation base at a glance. It was only at the sixth-tier, and it would take him at most three days to forget the Starlight soul tampering technique.

He laughed coldly in his heart, and even felt a little proud. He really wanted to see what kind of expression the other party would have when he realized that all the tips had disappeared from his mind in a few days. However, even if the other party forgets about it, I must hunt him down to the ends of the

earth! The dignity of a ninth-tier Alchemist could not be violated! He would definitely make the other party pay a hundred times the price!

After the time it took to finish a cup of tea, Yuan gaohan finally finished his story and looked at Yunxiao coldly, his eyes filled with undisguised contempt.

Yunxiao turned a blind eye to his expression. Instead, he frowned and began to think hard, as if there were many things he could not understand.

The two of them just sat there quietly, looking at each other.

After a long time, Yuan gaohan finally couldn't bear it anymore and stood up, saying in a deep voice, "I've finished explaining the entire chapter. Can I leave now?"

He was afraid that Yunxiao would begin to forget it now and find out the situation. That would be terrible, and he would definitely be forced to repeat it a few more times, or even record it in other ways.

And many powerful cultivation techniques could not exist in the world. They could not be recorded in the language they used and could only be passed down by word of mouth. Once they were recorded in words, they would immediately be destroyed in the world. Unless they used The Mysterious Tadpole writing that contained rules, but few people in the entire realm of heavenly martial arts could recognize those writing styles. Furthermore, when Yuan gaohan had learned the Starlight soul refining technique, he had heard that this heaven-defying soul refining technique had been converted from that mysterious tadpole-like text.

"Wait!" Yunxiao said.

Yuan gaohan's expression changed and he angrily said, "What else do you want? Are you going to break your promise?" His vigilance immediately rose to the extreme. Could it be that the other party wanted to take his soul body after deceiving him of his cultivation technique? If that was the case, he would not let the other party succeed even if he had to be turned into ashes!

Yunxiao found his look funny and said, " don't be nervous. I just don't understand a few things, and I want you to explain them to me.

“Hmph!”

Hmph! Yuan gaohan snorted coldly, “ you only have sixth-rank soul power, so it’s normal that you don’t understand. I’ve already explained it in detail.

Yunxiao said with a wry smile, “ but there are three things that I still have some doubts about. For example, the sentence ‘the most serene is unable to observe, but the light is bright, and the most tranquil is able to appreciate things in a good way’ seems to contain three meanings. I wonder what you think, master Yuan? ”

Yuan gaohan’s heart trembled violently, his eyes almost popping out as he said in horror, you, you can actually understand its true meaning?!

I don’t understand, ” Yunxiao said. that’s why I asked for advice. There are two other places, bi an.”

Yunxiao pointed out the three most difficult and ambiguous points and asked for advice very sincerely.

Yuan gaohan was completely dumbfounded. To be able to point out these three points and explain the root of the doubt, it completely proved that the other party understood. Not only did he understand, but he also understood it extremely thoroughly. There was also the Wufu. In these three places, he had never understood Wufu.

Yuan gaohan wiped the cold sweat off his forehead out of habit, but he was a spirit body, so how could there be beads of sweat?

For a moment, he was stunned and didn’t know what to say. What Yunxiao said next shocked him so much that his heart almost jumped out of his chest!

“This Starlight soul tampering technique should have been translated from the Golden tadpole text, right? that’s why there are so many parts that can’t be expressed or have ambiguous meanings. However, to be able to translate those words containing the laws into oral esoteric rules, that person’s cultivation is indeed shocking!”

There was admiration in Yunxiao's eyes. Obviously, he respected the translator very much.

"Y-y-you're

After Yuan gaohan said the word "you" three times in a row, he didn't know what to say at all. His mind was short-circuited; when he first learned this Starlight soul refining technique, it took him five years to master it, but when he found that these three places were ambiguous, it took him ten years, and the other party was stunned.

tell me what you think. Let's study it together. If you can figure it out, you might be able to attain the ninth tier Starlight soul body very soon!

Yunxiao narrowed his eyes and smiled. you've been immersed in it for so many years. You must have found your own way to explain the three problems. Otherwise, you would never have been able to cultivate your Starlight soul body to the eighth level.

Yuan gaohan licked his dry lips and felt that his throat was stuck, unable to speak at all. A teenager actually said that he wanted to study the Starlight soul-refining technique with him.

"Are you an Alchemist? The best Alchemist of the soul Devourer race should be han Yinshan. I know him, but I don't think he's as talented as you. Are you his disciple?"

Yuan gaohan's throat was stuck for a while before he slowly calmed down and asked tentatively.

He thought of one possibility, which was that the other party must have had a certain understanding of the Starlight soul-refining technique, and must have a ninth-tier great Alchemist behind him. The more he thought about it, the more likely it was. Otherwise, with just a little kid like him, not to mention understanding the Starlight soul tampering technique, it would be impossible for him to even reach the outer realm starry sky.

With that thought in mind, all his doubts were suddenly cleared up. Moreover, there were only a few people in the soul Devourer clan who had such an alchemy cultivation base, and the most suspicious one among them was han Yinshan, the number one Alchemist of the soul Devourer clan.

Yunxiao sneered in his heart. Yuan gaohan was clearly trying to get information out of him, and his method was so childish. These alchemists spent all their time refining and did not understand the ways of the world at all. "It's none of your business! One more word and I'll take you in!" He picked up the soul devouring banner and waved it.

Yuan gaohan's face flashed with fear and he retreated a few steps, his expression becoming gloomy. The more he looked at him, the more he felt that han Yinshan was the one behind this young man.

His heart was filled with boundless anger as he gritted his teeth and said, " Han Yinshan, how dare you spy on my Starlight soul tampering technique? it seems like you've already planned this all along. I'll definitely not let you off when I return!

Yunxiao did not know what he was thinking, but he urged him, " "Hurry up and tell me. If you're not satisfied with the explanation, don't blame me for not being able to control the soul devouring flag in my hand and releasing it on its own. The Golden Soul slave inside hasn't tasted a fresh soul for a long time."

Yuan gaohan gritted his teeth in hatred, but at the same time, he also relaxed, knowing that the other party wouldn't really take him. After all, han Yinshan was only seeking the essence of the divine Art. When the two met, they could deny it and argue with each other. This was also the reason why he had specially sent this young man up. He could even hand this young man over directly and cut all ties with him.

However, if he were to take in this Starlight soul body, the nature would be completely different. It would definitely be a situation where he would not rest until he died. At that time, he wouldn't care if he admitted it or not, he would fight to the death.

After thinking this through, he felt that he was at least safe. As long as he cooperated obediently, the other party would not do anything extreme.

Thus, under the extremely resentful gaze, Yuan gaohan explained his understanding of those doubts one by one. After knowing that the person behind the other party was han Yinshan, he no longer had the intention of deliberately hiding it. After all, han Yinshan's existence was not inferior to his, so he could tell whether there was a problem with just one word.

Yunxiao's eyes were filled with surprise, and he could not help but cheer. A moment later, he looked completely satisfied. Obviously, he had mastered the whole chapter.

"Hehe, I really couldn't tell, master Yuan. I used to think that you were an idiot who only managed to cultivate to the ninth step by relying on a heaven defying cultivation technique. Now it seems that you do have some comprehension ability. At least these few parts of your explanation were very interesting."

Yunxiao laughed and clapped his hands, but no one knew if he was praising or mocking him. Yuan gaohan was so angry that smoke was rising from his head, and this debt was firmly placed on han Yinshan. How could a young brat have such an opinion of him? han Yinshan must have mentioned it frequently, and this brat must have heard it, so he said it out loud.

"Can I leave now?"

Yuan gaohan couldn't wait to return to his main body immediately and gather his men to rush to the soul Devourer sect to kill!

His eighth-level soul body was too far away from his main body, so his main body couldn't sense anything that was happening. Unless this soul body died, his main body could only receive all the information from the soul body at the moment of death. This was also the reason why Yuan gaohan was worried that han Yinshan wouldn't dare to kill him.

The pitiful han Yinshan had inexplicably created a huge problem.

"Yes, let's wait a little longer."

Yunxiao smiled and looked around.

Yuan gaohan suddenly became furious. In the future, if the other party went back on his words, he trembled with anger, "You, you're really good! I'm going to kill my way to the soul Devourer sect and kill all of you!"

Yunxiao rolled his eyes at him and said with a sneer, "Don't get too excited, I'll let you go. I just have some other questions to ask. How long have you been cultivating in the outer realm? How did you come from the continent?"

Yuan gaohan looked at Yunxiao's clear eyes and saw that he was not lying to him. He was a soul, so he was the most sensitive to emotions and auras. Only then did he breathe a sigh of relief and say, "In the Holy region, there's a domain-teleporting formation that leads directly to the outer realm. This soul of mine is no different from my main body. It was directly transported here, and I've been cultivating for another ten years."

"A direct teleportation? Ten years?"

no wonder! Yunxiao was surprised. no wonder! No wonder your soul has reached the eighth realm. You're not far from the ninth realm, are you? At that time, you'll be able to reach the peak of the Dao of magic!"

At the same time, he started to worry. He had never thought that a Saint could be directly teleported here.

Yuan gaohan was startled. It seemed that han Yinshan was very familiar with the Starlight soul body. At the same time, when he thought of how he had been bullied by han Yinshan's disciple, he was so angry that his whole body trembled. He secretly swore in his heart that he would definitely get back at han Yinshan!

Yunxiao chuckled and continued to ask, "Then you must be very familiar with this area. I want to know where the ancient astral winds are?"

"What? Why are you asking this?"

Yuan gaohan's expression changed, a look of fear flashing across his face.

Chapter 488

?

488 Ancient ruins

Yunxiao was overjoyed. He stared at him and said, "So you do know. Tell me!"

Yuan gaohan was stunned for a moment before revealing an indifferent look, "This isn't a secret. The immemorial astral wind is a thousand miles away. If you follow the direction of the sealed Wolf star, you'll naturally encounter it. That place is an ancient battlefield and it's extremely desolate. The immemorial astral winds have a certain pattern and once they appear, they form their own region that envelops the entire ancient battlefield. Once living beings touch it, they will immediately turn into mummies without any exception."

"Yes, I understand."

I have another question, " Yunxiao said. how are you going to go back from here? I've seen the entire area and there's no inter-domain teleportation formation. The teleportation formation in the Holy region should be a one-way teleportation, right?"

although my main body can't sense what's happening to me right now, there's still a coordinate connection between the two, " Yuan gaohan said. as long as I perform a space shuttle technique, I can return in an extremely short time.

"An extremely short time?"

so, I can't let you go so soon? " Yunxiao frowned. you mean I can't release you so soon? "

"What? Why?"

Yuan gaohan was startled, not knowing what he was up to.

if I let you go, your real body will immediately know what has happened here, and then you will open the domain-teleportation array and send a large number of experts here, " Yunxiao said. wouldn't I be dead by then? "

“You ... Then what do you want in order to let me go?” Yuan gaohan angrily said.

Yunxiao chuckled. I’m going to the gale land in the ancient times. Come with me. I’ll let you go when you come back.”

Yuan gaohan’s expression changed greatly, and he said in horror, “No! No way! That’s the elemental realmverse! Death is the only thing there!”

you’re a shapeshifter, ” Yunxiao said. what are you afraid of? ”

Yuan gaohan looked at him coldly and said, “What do you know? Even if it was a shapeshifting body, it could not resist the erosion of elemental power. I’m not that stupid to send you to your death!”

Yunxiao frowned. is it really that terrifying? ” he asked. I’ll need you to lead the way.”

Yuan gaohan was shocked and roared, “don’t go too far!” Otherwise, since I’m going to die anyway, I might as well kill you even if I have to risk my life!” His body emitted a violent aura, and the suppressed anger also exploded at this moment. The surrounding space was distorted to the extreme, and a large amount of Starlight was devoured. It was abnormally powerful!

In fact, with his strength, he could easily blow up Yunxiao.

Yunxiao could only smile wryly in his heart. He did not have the strength to fight with his opponent, so he could only hold the soul devouring banner in his hand and scare them. His face immediately darkened as he licked his lips and threatened, ” “Hehe, such powerful soul power, I like it. Even my Golden Soul slave can’t eat that much. I can still make a few soul nurturing pills.”

Yuan gaohan’s face was extremely pale. The soul nurturing pill was a type of pill exclusive to the soul Devourer race. As the name suggested, it was used to feed soul slaves, but it was refined from the soul of living creatures.

Due to his fear, the distorted space around him also shook with his trembling body. He shouted, "You untrustworthy animal! As soon as something happens to me, my main body will immediately sense it. Not only will it immediately open the teleportation array and come to take your life, but it will also exterminate the soul Devourer clan!"

Yunxiao looked at him coldly and said, "I'm going to die in the immemorial astral wind anyway, so what's there to be afraid of? As for the soul devourers, I'm already dead. What does the sect have to do with me?"

"Y-you're

Yuan gaohan was anxious. He had never seen such a ruffian before. He had always had a noble status. Unless it was someone of the same level, who would dare to speak to him like this? he was immediately rendered speechless, not knowing what to say.

Yunxiao's face immediately turned red when he saw the man's anxiety, and he said in a kind voice, "master Yuan, on one hand, you will be completely demoted to an eighth-tier Alchemist, and on the other hand, you will take a risk with me. Besides, this ancient desolate land is a battlefield of ancient Almighty Warriors, and there have always been many rare treasures. Are you not tempted at all?"

Yuan gaohan's heart also throbbed with excitement. The first year he had come up to this foreign starry sky, he had already discovered that it was very strange and had picked up many good things, but it was also extremely dangerous. If he had not gone into seclusion to cultivate, he would have gone back and combined with his main body before bringing the experts back.

"Hmph, so what if I'm tempted? even if there are good things, do you think you'll share them with me? I'll thank the heavens if you don't extort me! Put away your threatening gaze, I know you don't dare to kill me!"

Yuan gaohan grumbled to the extreme. His last sentence was a test and also to boost his courage. Unless it was the last resort, he was not willing to give up his current soul body no matter what. It had taken him more than 50 years to reach the eighth level from the time his primary soul had been divided into two. If this soul were to fall, the main body would definitely be severely injured, and his life would basically be over.

Yunxiao laughed in his heart and said, " who said so? I can swear on this soul devouring banner that as long as you accompany me to the land of astral wind in the ancient times, all the benefits will belong to whoever gets them, and I will let you go after the matter is done. Otherwise, the Golden Soul in this soul devouring banner will die and no longer listen to my command!

Yuan gaohan's expression changed. He knew that the soul devouring tribe's oath to the soul devouring banner was the most serious oath they could make. The importance of the soul slave in the soul devouring banner was the same as his Starlight soul body. They were both refined from a low level, and it was extremely difficult to get a second one.

"Good! I promise you, but on this journey, we must be treated as equals. You can't threaten me!" Yuan gaohan felt that being so overbearing by a junior was very hurtful.

Yunxiao was overjoyed. Not only had he obtained the Supreme Starlight soul refining technique, but he had also found a powerful guide. He nodded and said, " "Of course! You're a senior in the art of cultivation, the Big Dipper Mount Tai, and I can't even wait to respect you!"

Looking at Yunxiao's sincere and respectful eyes, Yuan gaohan rubbed his eyes. After a moment of surprise, he wished he could punch Yunxiao's face flat!

After the two of them finished their discussion, they rushed in the direction of the sealed Wolf star.

In fact, Yuan gaohan was also very curious about the outer realm starry sky, but the more important thing was to break through to the ninth-layer soul body, so he had been delayed and did not explore it.

Soon, a large number of man-made traces appeared in front of them. There were huge rocks and all kinds of murals. It turned out to be the ruins of a huge Palace. There were many rusty broken weapons on the ground, and even some dried corpses that looked like dead wood.

On the main beams of the palace ruins, there were all kinds of patterns engraved on them. The knife technique was vigorous and powerful, and just the knife carvings gave people a feeling that it was not simple.

There were also a large number of birds, animals, immortal *Zoysia*, and spiritual herbs. They had long gone extinct in the realm of heavenly martial arts and only existed in the descriptions of various ancient texts.

Yunxiao looked over bit by bit, not wanting to miss any details. Suddenly, his pupils constricted as he found that many of the boulders nearby had traces of man-made damage, but they were not the original damage. Clearly, someone had forcibly erased some of the chisels with force, not wanting people to see the contents on them, and many of the boulders had cracked as a result.

“These are Kasaya.”

Yunxiao turned to Yuan gaohan and asked, “What was originally recorded in this?”

Yuan gaohan’s heart skipped a beat and he quickly said, “How would I know!” But, how could his panicked look escape Yunxiao’s eyes?

“Hehe, master Yuan, since we’ve come to an agreement to explore the secrets of the outer realm, we shouldn’t keep anything to ourselves,”

Yunxiao said unhurriedly as he walked back and forth among the gravel.

Yuan gaohan snorted angrily and said, “Hmph, I didn’t want to. You forced me.” Besides, I’ve only been here for ten years. Look at the damage, it’s been at least a hundred years!”

Yunxiao picked up a crushed stone and weighed it in his hand, as if he was thinking about its composition. Then, he snorted coldly and threw it behind his head, saying, “Don’t take me for a fool! In this ancient desolate land, only the Holy region has the teleportation array, right? only the ancient evergreen tree in the demon Plains can open the space passage. Even if it was wiped away a hundred years ago, it must be the work of the Holy region! Don’t tell me you don’t know. If our cooperation is to be so guarded against each other and hide things from each other, then I can only painfully break my own oath!”

Yuan gaohan was startled. Although he was a spirit, he still felt a chill all over his body. How could this young man’s thinking be so sharp? It felt like talking to him was like talking to a Grandmaster of the

same level. Whether it was his observation skills or his words, they were not something an ordinary teenager could have. Moreover, he had an eighth-tier soul body, so he could tell at a glance that this young man's condition was very normal. It was definitely not some spiritual will possession or something of the sort.

Could it be that the soul Devourer race had produced such a genius?

In the entire continent of the realm of heavenly martial arts, there were countless people in the younger generation who had the strength and soul power of the sixth step. But few had both. In addition to this kind of vision and wisdom, it was almost unique! After a few decades, how terrifying would that be!

His fear of the soul Devourer race deepened. 'No wonder Han Yinshan would take the risk of offending me to nurture this young man!'

Master Yuan, are you really going to force me to break my oath?!

Yunxiao's cold words startled him out of his thoughts.

Yuan Gaohan licked his lips and swallowed hard before saying, "Alright, you are indeed very smart. The imprints on these huge rocks were indeed destroyed by people of the sanctuary. As for the contents, you already know."

"What?" Yunxiao's brows furrowed as he asked in confusion, "What do you mean?"

"These huge rocks were originally engraved with the 'Starlight soul refining technique!'" Yuan Gaohan said with a bitter smile.

Yunxiao was taken aback as he looked at the destroyed boulders around him in shock and muttered to himself, "So the Starlight soul refining technique was taken from here. The composition of these boulders is not simple, and it doesn't seem to be natural. This Starlight soul refining technique must have been an extremely powerful cultivation technique back in the ancient times."

"Hmph!"

Yuan gaohan's heart ached at the thought of the Starlight soul refining technique, and he snorted angrily, "That goes without saying! These Scriptures recorded in tadpole script are all Supreme divine arts!"

Chapter 489

?

489 Law seal

Yunxiao gently jumped onto a big rock and sat down cross-legged, then beckoned to Yuan gaohan and said, "Old Yuan, come and sit down. Let's talk about the Golden tadpole-like characters. You've been in the Holy region for so many years, so you should have a lot of information, right?"

Old Yuan:

Yuan gaohan's mouth was wide open. Yunxiao looked like an old friend, calling him around and chatting at will. And the strangest thing was that he did not feel uncomfortable, but felt very easy-going.

This was a situation that had never happened before among any of the younger generation. Even the true geniuses of the continent would always be submissive and respectful when they saw him. If he didn't open his mouth, he wouldn't dare to say a word.

Not to mention calling him 'old Yuan' and using the soul devouring banner to threaten and bribe him.

Yuan gaohan wanted to get angry, he wanted to throw a tantrum, but for some reason, he couldn't get angry. There was no sense of disharmony, as if he should have walked over and had a good talk with her.

He suppressed his curiosity and snorted, "Since Han Yinshan values you so much, I'm sure he must have told you a lot about this."

“Yes, I’ve seen some of them before, but my knowledge is very limited. Han Qianqian said that in the realm of heavenly martial arts, the ones who studied these things the most were the Holy region and the sea of soul formation.”

Yunxiao stammered for a moment. He felt a little aggrieved to be asked to call han Yinshan master, so he snorted coldly in his heart and said to himself, ‘master han, you’re too kind. Han Yinshan, I’ll let you take advantage of me first, but I’ll get back at you with interest next time.

The pitiful han Yinshan had made a great enemy of Yuan gaohan for no reason, and was even hated by the instigator. He was really innocent.

As expected, he was han Yinshan’s disciple!

Having made up his mind, Yuan gaohan then revealed a lofty attitude and explained, “The language we use now is only used to exchange information. In ancient times, there was a language that could not only exchange information but also condense the laws of the world. These tadpole-like writing styles contain a certain amount of information and also represent a certain amount of laws of the world.”

Yunxiao’s heart was a little stifled, so he interrupted, “ I already know the basics, so let’s talk about the more profound things. Has anyone counted the total number of the origins and meanings of these words? how many words have the Saints deciphered in this area?”

Yuan gaohan was stunned and pondered, “there’s no conclusion as to where these words came from.” However, it’s certain that it’s related to the ancient godly state experts. Some people even speculate that these words contain the secrets of the ten directions divine realm.”

“Ten directions divine realm!”

Yunxiao’s heart skipped a beat. He had the same thought. Although he had known of the existence of this language a long time ago, he had never deliberately studied it.

In the sea of soul formation, there was a ninth-tier Alchemist who was immersed in this kind of research all day long, and he was none other than dan Jing-the master of Baili gongjin-the president of the

firecrow Empire's Alchemist Association-He must have gained a lot of knowledge, and he would definitely pay a visit to The Alchemist someday.

Yuan gaohan revealed a regretful expression and sighed, yes, the ten directions divine realm is extremely powerful. In the past tens of thousands of years, only a few legendary existences have reached this realm. I don't know if it's true or not, as there are no records left on the continent. His eyes were filled with endless reverence and yearning.

Yunxiao's heart jolted as he recalled that he had just met a wisp of the Nantian's divine sense, which had been sealed for thousands of years. Unfortunately, time was of the essence, and that wisp of divine sense didn't have the extra energy to tell him too much.

"Then how many of these words are recorded in the Holy region? How many did you guys crack?"

Yunxiao's pupils constricted as he asked the question that he wanted to know the most.

Yuan gaohan's heart trembled. He gave Yunxiao a look and said, "These are top secrets. Even I don't know." "How many more did Han Yinshan crack?" he asked coldly.

How about this?" Yunxiao smiled and said, "How about we exchange?"

Yuan gaohan's expression changed greatly, his eyes darkening as he angrily said, "I don't know this kind of writing!"

Yunxiao smiled wryly in his heart when he saw the man's intense reaction. The man must not believe that he knew a few of these words, and was afraid that he would get it empty-handed if he was threatened or tempted. Well, it was indeed not a good time for him to reveal these things now. Otherwise, the Holy region would order to capture him alive just because of these golden tadpole-like characters.

"Hahaha!"

Yunxiao laughed as he jumped off the Boulder and walked toward the ruins. "Let's go. There will be more chances in the future."

Yuan gaohan snorted coldly, a hint of fear in his heart. The value of these golden tadpole-like characters was even higher than that of the Starlight soul tampering technique. Deciphering each character was a great fortune that could not be bought with even ten thousand gold.

After that, Yunxiao did not mention the tadpole-like text again, but began to rummage through the ruins.

This place had already been carefully cleaned up by the sanctum's people, so there was absolutely nothing good left behind. Sure enough, apart from the murals, nothing was found. The murals were intermittent and could not be pieced together into a complete story. They were probably telling some things about the sacrifice.

The entire ruins were extremely vast, and what they saw was an endless land. On it were the remains of buildings of the same style, which had not weathered in the starry sky and retained a great deal of their original appearance. In ancient times, it should have been the residence of some sect or clan, but for some reason, it had become a battlefield and was even abandoned in the outer space.

although these buildings have suffered heavy losses, they should have been destroyed in one go back then. They haven't suffered any further damage over the countless years, which means that there are no immemorial astral winds here!

Yunxiao turned around and stared at Yuan gaohan, waiting for him to explain.

Yuan gaohan was secretly shocked by his careful observation and said, "The sanctuary has investigated these places many times. There's a special scroll of the desolate ancient land in the library, which records several conjectures about the formation of these outer-realm ruins as well as the situation of the immemorial astral winds. One of the most credible theories was that when this ancient desolate land was abandoned in the outer space, a large amount of violent power was still wreaking havoc on it. When these powers reached a balance, they formed the most primitive wind. The strong wind destroyed all the buildings on the land. At this time, one or several powerful people couldn't bear to see this piece of land destroyed, so they worked together to open up a space and imprisoned the wind. Over countless years, it slowly evolved into the omnipresent astral wind!"

“Imprison?”

Yunxiao frowned and said, ‘which idiot made this speculation? If the ordinary wind had the ability to imprison it, it would have been destroyed. If it was to protect the ruins, why would it need to imprison it? wouldn’t it be better to just destroy it? Let’s not care about that. Where is the astral wind being imprisoned?’

Yuan gaohan was taken aback, but then he realized that it made sense. He looked at Yunxiao strangely as he pointed to the sky and said, “Just above.”

Yunxiao followed his finger and looked over. The void was filled with Starlight, and meteors streaked across the sky from time to time. It was extremely quiet, without any wind. “It’s sealed by rule force?”

The surprise in Yuan gaohan’s heart was getting more and more intense. He had casually pointed out something, but the other party was able to see through it. This kind of experience and analytical ability was simply too shocking. A trace of doubt appeared in his heart, and he asked, “Can you tell what kind of rule force it is?”

With a hesitant look on his face, Yunxiao looked around under the starry sky and said with a frown, “It’s definitely not Starlight. Could it be the power of the night? Sealing the astral winds in the endless night was not a bad choice. My soul power is too low, so I can’t sense it at all. I can only guess.”

“It’s not the night, but it’s really rare for you to think of this,” Yuan gaohan said with a smile.

“Not night? That’s really strange, Yingluo.”

Yunxiao made a shushing gesture and began to guess with great interest. His eyes kept observing the starry sky, trying to find some clues.

it’s neither the stars nor the night sky. Under this starry sky, what kind of power of laws can hide the elemental power of the immemorial astral wind without a trace? ”

Yunxiao’s face suddenly changed as he cried out in shock, “ could it be the power of time?!

This time, it was Yuan gaohan's turn to be shocked. A huge wave was set off in his heart, and he was a little stunned. He looked at Yunxiao in a daze and muttered to himself, "How did you guess it? Even han Yinshan doesn't know about the laws of time."

"As expected!"

Yunxiao's eyes flickered as he looked at the Starlight in horror and said, "It's actually the most difficult power of time to figure out. The person who sealed this wind must be a God Realm existence! With such power, even the immemorial astral wind can be annihilated. Why is there a need to seal it?"

Yuan gaohan was also taken aback. He had never thought about such a question, and now that Yunxiao had pointed it out, he also felt that something was wrong. Moreover, his previous speculation seemed even more nonsensical now.

"Then how do we break it?"

Yunxiao looked at Yuan gaohan and asked. He was just curious about those questions, but it didn't matter. Even if there were any questions, they would have been buried after so many years.

It was only then that Yuan gaohan came back to his senses. He no longer dared to underestimate Yunxiao, and even regarded him as an equal. "It can't be broken. The power of time is very simple and can only seal the astral wind within 24 hours. As long as the sealed Wolf star, Jade husband star, and big dog Star form a line, Starlight will shoot down and open up the astral wind, allowing it to transform into everything!"

He seemed to have seen the power of the immemorial astral wind before, and his face turned pale.

Yunxiao looked at the three planets and saw that the wolf sealing planet and the Daquan planet were already in the same line, while the Jade husband planet was on the left in a straight line, and it would take some time for it to arrive.

He stared at the three vast stars and asked, "Three stars in one line, it should be within the Zi period. This means that the immemorial astral wind will appear once every twenty-four hours?"

Chapter 490-preparations

“Yes, but it didn’t appear for a long time because only when the three stars form a line and shoot down the power of the stars can the Law of Time be opened a line. I’m very curious, why do you want to find that astral wind? Anything, even if it’s a soul like me that can take human form, will be directly eroded away. If you want to cultivate with the help of the wind, I advise you to give up on that idea, lest you die.”

Although Yuan gaohan did not have a good impression of Yunxiao, he still cherished his talent, so he could not help but try to persuade him.

Yunxiao was not very confident either. The point was that the divine realm tablet had run out of spirit Qi. Even if he had the breathing earth, it was still unknown whether it could resist the primordial astral wind and collect it.

“En, I won’t do something I’m not confident in. Since it will appear every 24 hours, there’s no need to rush. Let’s observe first.”

He walked to a broken pillar and sat down cross-legged, waiting quietly.

Yuan gaohan became more and more curious about Yunxiao. Even he could not keep such a calm mind. And as they gradually got to know each other, Yunxiao kept giving him a familiar feeling, but he could not remember what it was.

What surprised him even more was that as soon as Yunxiao sat down under the stone pillar, he became silent and blended into the surrounding environment, reaching a state of natural Dao and the unity of man and nature!

All of this was hard for Yuan gaohan to understand and accept! The words and actions of the young man in front of him were the same as those old monsters who had lived for hundreds of years. However, under the divine sense of his eighth-layered soul, the other party was definitely not possessed by any spiritual sense and was definitely not even twenty years old.

he's actually so bold as to cultivate without worry. Isn't he afraid that I'll take the opportunity to kill him?"

Yuan gaohan found it hard to understand. Even if the other party had a ninth-rank soul devouring flag in his hand, in this kind of environment, his eighth-rank soul Power's full-power attack was almost a hundred percent able to take his life. What made him so bold? Could it be that there's a hidden card that I can't detect?

Yuan gaohan couldn't help but want to make a move a few times, but he eventually restrained himself. He didn't know what was going on. Was it out of fear or admiration for this young man? After a violent struggle in his heart, he finally endured it and sat down cross-legged.

After Yunxiao sat down, he went straight into the divine realm tablet. The world inside was getting darker and darker, like a deflating balloon. All the mountains, rivers, and plants were withered, as if it was the end of the world.

His brows were tightly furrowed. The situation was worse than he had expected. This was probably the situation. Although he had broken the armillary sphere's axis, he had also fallen into a desperate situation, as if it was the end of the world.

With a wave of his hand, Yunxiao threw a large number of primordial stones into the air, all of which he had extorted from Qing Luo and Qian Wudi. They piled up in the air and formed a huge cube, floating in the air like a small mountain. Even if all of the ore veins that had insufficient spiritual energy were refined, they might not have so much.

He began to carve out a formation around the vast amount of primordial stones. Every stroke was very careful and all of them were suspended around the primordial stones. Golden light flashed and spread out in all directions, causing the sky to be filled with golden light.

After doing all that, Yunxiao willed a few beams of light to land beside him. They were the people in the divine realm tablet, all of whom were martial emperors.

Duan Yue, Yue jiu lin, the three people from the palace of Holy Fire, and even situ Heng and Gu Yuesheng were summoned by him. They were baffled at first, but then their eyes lit up when they saw the shocking Yuan stone.

“Haha, you really have a way! If you don’t get some primeval stones, I’m going to be a dried up man!”

Duan Yue laughed and rushed forward. The astonishing Yuan Qi that was emanating from the beast made him want to take a few bites of it. After a few breaths, he felt refreshed. But, before he could take a few steps, he was stopped by Yunxiao. He blew his beard and glared at him as he said, “Why? Isn’t this primeval stone for everyone to split?”

The rest of the people were also confused, but they were more concerned about when they would be released. Except for Duan Yue, everyone else had been captured by him. Although there was no lack of cultivation resources here, what was the point of cultivating if he had to stay in this damn place for the rest of his life? Even Gu Yuesheng, who had always been unruly, could not help but feel a little scared during this long period of time, and he was really afraid that Yunxiao would lock him up for a lifetime.

Yunxiao’s eyes swept across everyone’s faces like a Dragonfly skimming the surface of the water. “There’s something wrong with the divine realm tablet this time. I’ll need everyone to work together to help me absorb the immemorial astral wind. These primordial stones will be used to maintain the operation of the divine realm tablet. I’ll teach you how to operate this formation now.”

Everyone was stunned and didn’t understand. Only Gu Yuesheng’s expression changed drastically. He took a deep breath and said in horror, “Immemorial astral wind? That all-conquering wind elements The immemorial astral wind?”

Yunxiao’s face was expressionless as he nodded and said, “That’s right, it’s the immemorial astral wind. Although the divine realm tablet has lost all its spiritual Qi, I have the Earth’s breathing earth, which can fix everything. With everyone’s help, there’s still a certain degree of confidence in absorbing the immemorial astral winds.”

Gu Yuesheng was shocked and mumbled, “Breathing earth Suan ni, why should we help you? When are you going to let us out?” He asked the question that everyone was most concerned about, and all of them looked at Yunxiao with pitiful expressions. No one dared to be arrogant again.

it depends on your performance,” Yunxiao said with a smile. If the absorption of the immemorial astral wind goes smoothly, I can let you all leave. However, Qianqian, if you fail, you can rest assured and break through to the peak of the martial Supreme realm here. You can break through the void and leave

on your own.” His cold voice resounded in everyone’s hearts. Then, they heard the sound of people gulping.

“Really?”

Gu Yuesheng did not believe that Yunxiao would let them go so easily.

I always keep my word, ” Yunxiao snorted. I’m just afraid that you won’t leave!

It was a vast starry sky outside. Even if he let them all out, they wouldn’t be able to return to the realm of heavenly martial arts. At that time, they would still follow him obediently, and he wouldn’t be breaking his promise.

“Good! You said it yourself!”

Gu Yuesheng was overjoyed. Although the risk of absorbing the immemorial astral wind was extremely high, there was at least a glimmer of hope. Being locked up here and only having time to pass every day was simply driving him crazy. how are we going to cooperate with you? tell us clearly, don’t make any mistakes.

This time, he was even more serious and anxious than Yunxiao.

The rest of the people were also listening carefully. This was their only hope of obtaining freedom.

It was much easier than he had imagined to teach them the formation. In the end, he took out some vitality stones and medicinal pills, allowing everyone to recover to their best condition and wait for orders.

Meanwhile, Yunxiao returned to his body, took out some primordial stones, and slowly absorbed them while chatting with Yuan gaohan. He had been reincarnated for 15 years and knew nothing about the changes in the peak of the continent’s experts. He immediately got a lot of information from Yuan gaohan.

Yuan gaohan did not hide any secrets from Yunxiao, and he told him everything he knew. He also found it very strange that he talked to Yunxiao like he was talking to an old friend, without any barriers of age, cultivation base, or status. At the same time, what shocked him was Yunxiao's speed of absorbing primordial energy. The primordial stones he took out were all mid-grade primordial stones, and they would turn into a pile of powder without any primordial energy when he held them in his hand.

The shining white primeval stones were like large pieces of fat meat, being swallowed by his palm.

Yunxiao was just bored, so he seized every minute to cultivate. Otherwise, if thousands of primeval stones exploded and were absorbed in one breath, his jaw would drop even more. But even so, Yuan gaohan was still shocked. The primordial stone powder scattered on the ground, and when he swept his divine sense over it, he could sense that there was almost no primordial Qi left!

The speed and cleanliness of the absorption of elemental energy made him shocked. He said in a deep voice, "You, what method did you use to be able to absorb a vitality stone so quickly and quickly?"

Yunxiao had just absorbed half of a primordial stone when he was stunned for a moment, then he smiled and said, "Is there any way to do this? Isn't it just absorbing it into the meridians, circulating it around the body, and returning it to the dantian?"

Yuan gaohan frowned as he stared at Yunxiao's right hand and said slowly, "This method of yours seems to be extremely similar to a cultivation technique."

Yunxiao's heart skipped a beat as he asked carefully, "What cultivation technique?"

Yuan gaohan raised his head and stared at Yunxiao's eyes for a while. They were as clear as crystal, without the slightest ripple. He was slightly startled. If this young man could still pretend under the gaze of his eighth-tier soul body, then he was really a monster of the ages. It seemed that he really didn't know, or maybe he was overthinking. "One Qi of creation technique!"

"Ha, haha, how could that be!"

Yunxiao gave a dry laugh, then said with a calm face, " I've heard of this cultivation method before. It's said that by cultivating this method, the speed of absorbing vital Qi is several times faster than that of ordinary Warriors, but it has long been lost.

Yuan gaohan licked his lips, seemingly envious of that kind of cultivation technique,"It's not lost. This cultivation technique was first cultivated by the Army shattering martial sovereign, Gu Feiyang. After Gu Feiyang died fifteen years ago, at least a few of his disciples still managed to master this cultivation technique."

Yunxiao's eyes flickered as he said with a smile, " since this technique is so powerful and Gu Feiyang is dead, won't the Holy region try to get his disciples to benefit everyone? "

Yuan gaohan's expression changed slightly, a barely perceptible light flashing through his eyes as he said with a straight face,"Hmph! The holy city of misty snow is the Holy Land supported by all martial artists in the world, gathering the righteousness of the world, punishing evil and promoting good. How could they do such a despicable thing as you said?"

Yunxiao's face darkened, and he snorted coldly with an undisguisable look of contempt. "Do you dare to guarantee what you just said? As long as you say 'dare', I will remember it in my heart and believe you."
