

The Eternal 491

Chapter 491

?

491 The immemorial astral wind

Yuan gaohan's old face blushed slightly as he said in embarrassment, "Hmph! What does a kid know!" He raised his head and looked at the three great stars in the distance. His eyes gradually focused and he said, "Soon, get ready!"

Yunxiao looked over as well. The three stars of Feng lang, Jade man, and big dog suddenly became brighter than usual.

The light yellow astral power was like a candle flame that was getting brighter and brighter. From their perspective, the two stars of Feng lang and Yu Fu were completely hidden behind the large dog. The three stars gathered in a line, and it seemed to contain some kind of law. A powerful energy field spread out, and the surrounding was filled with Starlight.

Then, a beam of Starlight shot out from the sealed Wolf planet, which was the farthest place in the sky, connecting with the Jade man and the big dog. It fell in a straight line, heading straight for the ruins where Yunxiao was standing.

what kind of existence is he to use the stars in the sky and the ultimate Universe to set up such a time seal?"

Even Yunxiao had a feeling of looking up at this moment, as if he had seen a bright door slowly opening for him at the peak of martial arts.

That powerful beam of Starlight crossed the star field as if it was passing through layers of space and time. It represented the mighty power of the universe and the end of the world!

Under the powerful shock of the beam of Starlight, both Yunxiao and Yuan gaohan felt that they were extremely insignificant, as if they were just a drop in the ocean!

Under the starlight, the two of them seemed to be in a daze. Their shadows were elongated and reflected on the endless ruins. It was as if the endless night had merged into their thin shadows.

“BOOM!”

Just as the beam of Starlight was about to land on the ancient Barrens, it seemed to be blocked by some force. It blasted into the void and bloomed. The dark night became as bright as day, causing one's eyes to hurt.

At that moment, Yunxiao's eyes instantly turned into Crescent blood moons, distorting the powerful Starlight power and reducing the impact on his body.

Yuan gaohan wasn't shocked, but rather happy. He cultivated the Starlight soul refining technique, and under the circulation of the divine Art, the power of the Starlight was like hundreds of rivers pouring into the sea, enriching his body and making him feel extremely comfortable.

Yunxiao frowned slightly when he sensed Yuan gaohan's joy. The cultivation method of the Starlight soul refining technique flashed in his mind one by one. 'The husband's soul is pure and without impurities, which is called the truth, and the eternal existence of catastrophes is one of them. When the heavens obtain one, the sun, moon, and stars will shine brightly.'

A strange feeling rose within his body, as if the pouring Starlight was no longer a harm, but instead a great tonic. His body surged with desire, eager to absorb the delicious food.

At that moment, Yunxiao's eyes returned to normal. Starlight sprinkled on his body, and he closed his eyes slightly, letting his body feel the power.

The star Force seeped into his body through his skin, through his blood, flesh, and meridians. It actually made his soul feel peaceful and comfortable.

The demonic Dragon also opened its eyes and looked at the falling Starlight in disbelief. It was indescribably happy and muttered to itself, "What an amazing cultivation technique! Gu Feiyang,

you're too damn lucky! All the good things in the entire realm of heavenly martial arts have been taken by you! This Starlight soul refining technique is comparable to your great expansion divine technique!"

Yunxiao was overjoyed as well. Although the two were both soul training techniques, the great expansion divine technique could improve and restore one's soul power through one's own cultivation, which was equivalent to an internal cultivation technique, and could also be used in soul attacks. However, the Starlight soul tampering technique absorbed external forces to replenish soul power, similar to how martial artists absorbed primordial stones.

In the cultivation of the soul, it was recognized that it was the most difficult thing to do, whether it was through one's own cultivation or by borrowing external objects. This was also the main reason why alchemists were rare and respected.

with this technique that can absorb Starlight to replenish soul power, I won't need soul nourishing pills anymore, hehe.

Yunxiao muttered to himself, his face filled with joy.

Beside him, Yuan gaohan's heart jolted, and he snapped out of his enjoyment. He looked at Yunxiao in horror and found that the latter was also devouring the Starlight like him."You, you, how did you learn it so quickly?"

Yunxiao snorted with a contemptuous look on his face, " "Is it fast? It's so-so."

Just so-so.

Yuan gaohan was instantly driven mad, so agitated that he wanted to kill someone. His eyes almost spurted out fire as he roared,"MA, just so-so? Do you, do you know how long it took me to absorb star power for the first time after I learned the Shen methodology?"

Yunxiao shrugged and spread his hands with a smile.

Yuan gaohan really wanted to bite him to death, so he roared, "Ten months, it's been ten months!" He felt a little dizzy as he watched the Starlight seep into Yunxiao's skin. "Moreover, I can only absorb a Little Star power after ten months. How can I swallow it like you? No, this isn't a big gulp, it's a whale gulping!"

He clutched his head and roared, " "Your swallowing speed is as fast as a whale's. You ... You're so weak!"

From the moment he saw Yunxiao, although he had been in all kinds of shock, his shock had reached its peak at this moment! He would not be surprised even if Yunxiao said that he did not have a penis now!

He had been immersed in the Starlight soul tampering technique for most of his life and had a deep understanding of it, which was why he could feel the horror of Yunxiao's performance at this moment. It was no longer something that could be described as a genius. He felt that he should create a word to describe this feeling! If not for the fact that he did not have a physical body, he would have vomited blood from the extreme shock and depression.

"More than you?"

Yunxiao frowned and snorted disdainfully. "Tsk! It means that I'm not as good as you! I thought you were better, but I'm not even as good as you, so why are you so excited?"

"Pfft!"

Although Yuan gaohan didn't have a physical body, he couldn't help but let out a breath, feeling the depressed Qi in his body empty and his soul power greatly damaged.

At this moment, the Starlight in the void dispersed, revealing traces of grayish-white color in the endless black clothes. They circulated continuously, appearing and disappearing at times. The main body seemed to be squeezing in from another space.

Yuan gaohan's expression changed greatly, and he couldn't care about anything else as he shouted, "They're here! The immemorial astral wind has appeared, and anyone who touches it will die and turn everything into dust!"

As his voice fell, a large amount of wind hissed in the vast sky. The originally quiet sky suddenly became violent, and the stars in the sky gradually dimmed and blurred. Although the two of them were over ten thousand meters away, they could still feel the powerful elemental power, especially Yunxiao, whose body was rapidly growing wet.

Yuan gaohan shouted, "quickly circulate your energy and regulate your breathing. You won't die as long as you don't seek death!" It will only wreak havoc in the sky above this ancient Barrens land and will disappear in about an hour!"

Yunxiao's body emitted a bright light that lit up the surroundings as if it were daytime. His skin was as clear as snow and covered with tiny beads of water, which had seeped out of his skin and stayed under the moonlight.

"Divine body!"

what kind of divine body is this? " Yuan gaohan was startled. it can actually resist the power of the ancient astral wind? "

Although divine bodies were extremely precious, as a ninth-tier Alchemist in the Holy region, he had seen all kinds of geniuses and monstrous geniuses. In his eyes, existences with divine bodies were nothing special, but the fact that they could withstand the primordial astral wind was still a surprise to him.

Yunxiao was a little surprised. The body of the moon could purify negative energy, but he did not expect it to be able to resist elemental power as well. However, it was only because they were still ten thousand meters away from the primordial astral wind. Otherwise, only the indestructible golden body could resist it, let alone a divine body!

hehe, I didn't expect this divine body to have some skills. I didn't waste two billion primeval stones! Yunxiao was overjoyed.

"W-what wasn't in vain?" Yuan gaohan didn't quite understand and asked in surprise.

Yunxiao gave him a look and chuckled. my divine body was exchanged for two billion mid-grade origin stones!

a divine body exchanged for primordial stones? ”

Yuan gaohan’s mouth was wide open. Even with his vast knowledge, he only knew that divine bodies could only be inheritances or hidden bloodlines that would be activated in the future. He had never heard of divine bodies being bought. If there was such a good thing, everyone in the world would probably have a divine body.

He could not ask any more questions at this time, and Yunxiao was too lazy to explain. Instead, he turned his eyes to the void above and grinned hideously. Then, he stomped his feet and shot into the sky, turning into a beam of light and shooting toward the primordial astral wind.

“?! You’re crazy, you don’t want to live anymore!”

Yuan gaohan’s eyes nearly popped out of their sockets as he stared at Yunxiao with his mouth wide open. Like an ignited arrow, he rushed toward the terrifying Gale with a brilliant white light.

The surroundings of the ruins were caught in this powerful hurricane that kept spinning. The starry night had completely disappeared, and the world was a blur. Only the whistling sound of the wind could be heard between heaven and earth, and it was so painful that one’s eardrums were torn.

Even though Yuan gaohan’s soul didn’t have a physical body, under the influence of this astral wind, he felt as if he was about to be eroded by the wind and hurriedly circulated his Qi to resist.

When Yunxiao was nearly a hundred kilometers away from the gale, he finally could not hold on any longer. He watched the moisture in his body evaporate from his skin, and from a distance, he looked like he was on fire, only a large cloud of white smoke. A large amount of white smoke came out from the white light of the bright moon godly body. It was all the water vapor from his body.

“I can’t get any closer, let’s stop here!”

The demon Dragon also noticed Yunxiao's strange behavior, so it hurriedly performed its soul skill and gradually fused with his main soul.

The demonic transformation appeared on his body, further strengthening his body on the basis of the Supreme tyrant body. It temporarily stopped the influence of the astral wind power, and the White smoke that was emitted also sharply reduced. Of course, it was also related to the water content in his body. There was not much water left to evaporate.

After the soul Fusion, Yunxiao's soul power instantly reached the peak of the sixth rank. His eyes turned into two curved blood moons, and his spiritual power gushed out of them, isolating him from the wind element around him and forming a vacuum protection zone. Then, a golden light flashed between his eyebrows, and the divine realm tablet was taken out. It flew toward the endless astral wind that connected the heaven and earth.

Chapter 492

492 Collecting

Although the divine realm tablet kept growing in size, it was like a stone sinking into the ocean, silent and unnoticeable, compared to the endless raging primordial astral winds.

"The astral winds are too powerful!" The demonic Dragon exclaimed in shock. "How many years has it taken to form such an endless and almost world-destroying elemental power?!" Will your divine realm tablet work?"

Yunxiao's face was pale as well. He gritted his teeth and said, "Regardless of whether it's useful or not, I can only bite the bullet and do it. Right now, the connection between me and the divine monument is faintly discernible, as if it's about to be cut off!"

His heart was filled with shock, and he hurriedly circulated his spirit energy. The great realm divine technique was formed in his hands, and golden lights flew out from his hands like butterflies, floating in the white light that was shining on the bright moon divine body.

Yuan gaohan suddenly opened his eyes and stared at the sky in horror, full of disbelief!

He tried his best to open his eyes, trying to see the golden light on Yunxiao's handprint clearly. It looked like tadpole-like runes, but the light of the bright moon divine body was too dazzling, and with the strong interference of the wind element, he could not see it clearly.

"Don't tell me those are golden tadpole-like characters? Ha, haha, how can that be? I'm really too suspicious. It must be because we're too far apart and they just look similar, hehe."

Yuan gaohan touched his forehead out of habit, but his eyes couldn't relax at all. Instead, they became more and more serious. He raised his head once again to look at the tiny light, all of his soul power condensed in his eyes, penetrating the layers of wind elements, wanting to see it clearly.

When Yunxiao performed the great realm divine technique in his hand, he immediately sensed the divine realm tablet's existence, which was spinning rapidly in the strong wind.

At this moment, the inside of the divine realm tablet was also affected by the wind. The entire independent space began to weather, and it was desolate and decadent. The few of them surrounded the huge primordial stone block, and their expressions changed.

Yunxiao's soul-form suddenly turned solid as he performed an incantation gesture with his hand, which turned into a golden tadpole-like character. It was one of the few characters he knew in the great realm divine technique. At that moment, the divine realm tablet sensed something, and the real space let out a muffled sound, as if it was struggling.

"Now! Everyone, give me a hand!"

With a loud cry, Yunxiao's entire soul suddenly turned into a beam of light in the sky and began to develop a Divine Art. With the appearance of each character, the light on his body dimmed a little. He had mobilized almost all his soul power, and his entire body shook as if it would disappear completely in the next moment.

The hearts of the seven people below trembled. This was their only chance to leave this place, so they had to fight for it with all their strength.

The seven of them attacked at the same time. Some of them were sitting cross-legged with their hands forming a sword spell, some of them were bending and stepping out with their right palms, and some of them were standing on one leg in the air, making strange movements. The seven of them each had their own style, and their magic arts were also completely different. However, as the seven of them cast their spells, a circular golden spell formation spread out on the plane where the seven of them were, and it emitted a brilliant golden light.

“Boom boom boom!”

The several-hundred-meter-long metastone cube suddenly exploded, and vital Qi poured out as if it were real. However, it did not disperse. Instead, it was affected by the circular golden formation and turned into a stream of vital Qi. It spun rapidly around the seven people, like a chariot rolling past!

Yunxiao’s soul was getting dimmer and dimmer. After casting many incantations, he murmured a strange sound, which grew from a small voice to a loud one, echoing throughout the entire space and knocking on everyone’s heart.

At this moment, wind elements gathered from all directions, as if a deflating balloon had been filled with a large amount of wind. The sky began to become fierce, and a large amount of astral winds whistled, turning into tornadoes that fell from the sky like thousands of Thunderbolts. The territory power that penetrated the divine realm tablet gushed in from the outside!

A small piece of palm-sized mud appeared in the roaring Yuan Qi flow, dispersing the Earth’s pulsating power. It suppressed the entire crazily shattering space, preventing the astral wind from being too strong and causing it to collapse.

Yunxiao’s real body was still in the sky above the ruins of the ancient desolate land. Suddenly, a bright light shot out of his eyes as he stared at the raging astral winds in the sky, as if something had begun to change.

Yuan gaohan looked up, his face full of doubts. He could not figure out what kind of magic art Yunxiao had just used. However, he could feel that the power of the wind element seemed to be gradually weakening.

“Eh? Could it be that the time had come, and the astral winds were going to be sealed again? Why does it feel so short this time?”

Yuan gaohan looked at the sky in all directions with some surprise, only to see that the speed of the astral wind was indeed slowing down. A strange expression suddenly appeared on his face as he muttered to himself, “Could it be that this brat’s magic art just now affected the movement of the astral winds? No, no, it’s impossible!”

He quickly shook his head and laughed at himself, “Why have I become so suspicious? perhaps it’s because the magic arts he just used seemed to be ancient scriptures. Even an ordinary Martial Emperor powerhouse would not dare to block the sharpness of this astral wind power.”

Yuan gaohan looked into the distance and calmed his mood, indifferently saying to himself, “These astral winds have been blowing for countless years and will continue for countless years. Perhaps one year, they will be changed by some powerful person. Hmm? What’s that Kasaya?”

His eyebrows twitched, and his eyes suddenly focused. In the powerful astral wind power, the divine realm tablet emitted a faint golden light and gradually became the eye of the astral wind. All the Hurricanes that were raging in the sky above the ancient Barrens land rushed into it. The golden light was extremely weak, as if it could be extinguished at any time, but it gave people a sense of tenacity and unyielding power.

“That, that’s Yingluo.”

Yuan gaohan’s eyes widened again, his face filled with disbelief.

Although the divine realm tablet seemed to be swaying in the astral wind, it was indeed standing there, unmoved!

One must know that under this kind of astral wind, even a ninth tier profound armament would not be able to withstand it. Unless it was a powerful existence like the king level or martial sovereign’s ageless mountain, which could stabilize space and prevent it from being invaded by external forces!

“Gulp!”

Yuan gaohan swallowed a mouthful of saliva. This time, he saw it clearly again. This immemorial astral wind was definitely not sealed when the time was up, but was swallowed by the Jade monument in the sky!

“?!”

This discovery made him draw in a cold breath, and his whole body turned cold!

What kind of profound weapon in this world could absorb this kind of elemental power that was close to the source?

As a ninth-tier Alchemist, his understanding of these profound level weapons and the power of elements could be said to have reached the peak. Because when it came to ninth tier profound armaments, not only did it require a large amount of various materials, it also required the fusion of various laws of heaven and earth during the refining process, only then could it form a ninth tier profound armament!

The most difficult part was the fusion of these materials with the power of laws, which itself required an extremely large amount of laws to condense. The most common method used by alchemists was to use a furnace to gather the power of elements in the world and upgrade it to forge all kinds of materials. As the profound armament's grade increased, the requirement for the power of the elements became more and more demanding.

After reaching the ninth step, only two types of elemental power could satisfy the forging of ninth step equipment.

The first was an extremely powerful mutation of the element, which could produce an unimaginably powerful force. The second was the elements that were close to the origin. Similar to the power of the astral winds, it could transform almost everything. If an Almighty could collect it, it would be very impressive to use it to refine weapons.

In other words, this immemorial astral wind was an existence that could be used to forge ninth tier profound armaments, so how could a ninth tier profound armament be used to collect it? If any ninth tier profound armament were to be exposed to it, it would not take long for it to be weathered beyond

recognition, losing all of its spiritual energy! Even the king level mountain, the unaging mountain, could only hold on for a little longer.

“What is that Jade tablet Pixiu?”

A huge question mark appeared in Yuan gaohan’s mind, and he didn’t even blink. At this moment, the power of the squall around him was gradually weakening. He hurriedly turned into a ray of light and rushed up, wanting to see more clearly.

Yunxiao put his hands together and remained still.

The spiritual energy in his body was also completely consumed and he started to burn his vital Qi. The consumption rate was extremely fast and he had a faint feeling that he couldn’t hold on any longer.

At this moment, in the divine realm tablet, the violent power of primordial Qi was as thin as the morning mist and as thin as smoke, as if it would be scattered with a blow. The mud-like Earth in the middle had also become smaller again, as if it had been scattered across the entire space to stop the immemorial astral wind. However, its power was getting weaker and weaker!

“No! If this continued, the entire space would shatter! This profound armament of yours will also be finished!”

Gu Yuesheng shouted from below. He was also an Alchemist, and he had long been shocked by the strange scene of the astral wind falling from the sky. As the breathing earth continued to disintegrate, he could still control the power of the astral winds in the beginning to reduce the impact on the space within the stele. But now, the hundreds of millions of primordial stones were all used on the formation. Without the effect of the primordial stones, it was very difficult to separate the earth. The speed of the astral winds was getting faster and faster, and each gust of wind caused a great tremor in the space!

How could Yunxiao not understand that? he was also anxious.

He took out a pill and put it in his mouth, swallowing it. It was none other than the Tianshu soul-nourishing pill that little Qing had obtained. As soon as it entered his stomach, he immediately felt a

cooling sensation spread through his body. His almost dried-up soul power was nourished, and it was restored like a tide. His soul-form became extremely bright!

“Phoenix Flame, rise!”

Yunxiao threw out several golden incantation seals with both hands and gave a loud cry. In the divine realm tablet, his every thought and move were the laws of heaven and earth!

As the Golden incantation seal fell, a huge burning sensation surged from the boundless land in the divine realm tablet. The soil of the entire land began to turn red, and the heat waves rolled up as if they were going to burn the space completely.

The chirping of a true spirit Fire Phoenix came from an unknown distance away, echoing in everyone’s hearts! The divine fire took form from the ground, and a sea of fire slowly rose up into the sky, colliding fiercely with the power of the squall that was falling continuously!

Hello everyone, I’m the author, Taiyi Shengshui. I love everyone, do you love me?

Chapter 493

?

493 The crocodile

The true Phoenix Fire and the immemorial astral wind were both existences that were extremely close to the power of the elemental origin. The two forces intertwined in the divine realm tablet and collided with each other.

It caused the sky to be filled with the power of wind and Fire. Countless tiny tornadoes and astral winds were swallowed by the divine fire, but they were soon sucked in by the powerful astral winds and turned into fire tornadoes. Visually, the situation of the entire space seemed to become more serious, as if it was going to be completely burned.

Originally, Yunxiao was a God in the divine realm tablet. His words followed his Dharmakaya, and his every thought and move were the rules of the realm. However, at this moment, the divine realm tablet

was extremely damaged, and even the power of the inner realm's rule force could not suppress the immemorial astral wind. Instead, it was destroyed and was on the verge of collapse.

oh no, the true Phoenix Fire can't withstand the immemorial astral wind either. What should we do?!

Inside the divine realm tablet, The Phantom of the demon Dragon appeared directly behind Yunxiao. When it sensed the doomsday-like scene, it said in surprise, "Can we stop? If this continues, we'll all be finished!"

Yunxiao's soul-form was a little dazed. He shook his head with a wry smile and said, "I can't stop. Besides, I'm connected to the divine realm tablet, so I know the severity better than you. These immemorial astral winds had been nurtured for far too long, and their elemental powers were far too powerful. I'm really done for this time. Such a Supreme treasure is going to be destroyed in my hands."

He looked around with a look of regret. Although he hadn't possessed it for a long time, the benefits that the divine realm tablet had brought him were incalculable. Now that he suddenly saw it being destroyed, he couldn't help but feel upset. Besides, if the Supreme treasure was destroyed, his body would also be severely damaged.

"Everyone, get ready to run for your lives. This place is going to collapse soon. If you can escape this, you'll be free."

Yunxiao sighed as he looked at the seven people who were at a loss.

Everyone's face was filled with fear. No one had ever experienced the collapse of an independent space before. They had no idea if they could survive.

Duan Yue whistled, and a roar immediately came out. It was the DarkThunder, its body glowing with a golden light as it dodged the tornadoes in the air and came running from a distance.

He flew to Yunxiao's side, turned over, and rode on DarkThunder's back. Then, he suddenly laughed and said, "haha, even a Supreme grade profound level weapon was destroyed by you. Now, I'm truly one hundred percent impressed by you. Haha!"

With a wry smile on his face, Yunxiao said, " my connection with the divine realm tablet is about to be broken. This time, not only the profound level weapon, but also the breathing earth and the Phoenix true flame. I'm afraid I can't keep them. We've worked so hard to collect so many rare treasures."

you're a man with great fortune, " Duan Yue chuckled. even if you lose all these, you'll get better things in the future. And perhaps you won't lose them. Under your heavenly mandate, perhaps these primordial astral winds will stop and obediently bow down to you, haha!"

He had a calm expression on his face, as if he had turned a blind eye to this apocalyptic scene. Compared to the other six people who had white faces and frightened eyes, he had an even more extraordinary aura.

Yunxiao was also a little surprised. He could not tell that Duan Yue had such a strong heart and consciousness.

The Phantom of the demonic Dragon suddenly exclaimed, its lantern-like eyes widening as it said in surprise, " W-why did the astral winds stop?"

This sentence shocked everyone. They hurriedly looked up and around, only to see that the astral winds in the sky had begun to converge and retreat layer by layer. No more new elemental power poured in. Soon, the true Phoenix Fire took the advantage and suppressed all the wind elements, pouring them into the earth and slowly restoring clarity.

The surrounding elemental powers gradually dissipated, as if the clouds had scattered and the sky had split. The space had escaped from the brink of collapse!

"This Suan ni, this Suan ni"

what? " Duan Yue's mouth was wide open as he said in a daze, " this Kasaya works too, Kasaya? "

Yunxiao was also completely dumbfounded. He looked at Duan Yue, wiped his cold sweat, and said awkwardly, " master Duan, you're the one who really has the power of words. Are you possessed by some godly state expert? "

hahaha! Duan Yue laughed with his mouth wide open. if I were an immortal state warrior, I would be the first one to kill you!

The other six people were also filled with the joy of surviving a disaster, and their faces were full of shock and disbelief.

Yunxiao also felt that it was very magical. Suddenly, his face changed as he said in shock, " "Not good!"

Then, his soul-form disappeared from the divine realm tablet and returned to his body.

In the sky above the ancient Barrens, the large amount of astral winds stopped their rampage and slowly began to flow. In the midst of it, something seemed to be shuttling back and forth.

At the same time, the divine realm tablet's absorption force came to a halt. Yunxiao's main body looked over in horror, but he felt a powerful pressure squeezing the divine realm tablet, shaking it out and sending it flying in a beam of light. It was like a nail stuck in a wooden board that was pulled out by hand.

He hurriedly changed his hand seal, and the divine realm tablet spun in the air before flying directly into his glabella and putting it away. Only then did he feel relieved.

The divine realm tablet was on the verge of death, but it was still alive. It had already absorbed enough immemorial astral wind and was suppressed by the true Phoenix Fire and the earth's breathing earth. There was a balance in the space inside the tablet. As long as they left this damn place, they could slowly refine it.

Yuan gaohan rushed up in just a few steps. He was going to check Yunxiao's profound level weapon, but when he suddenly discovered the situation inside the primordial astral wind, he turned his attention to the top and cried out in surprise, " "W-what's that?"

In the strong wind, a shadow was swimming like a fish in water.

Yunxiao was also shocked. Although he did not know what it was, he was sure that it was a living thing! And his divine realm tablet must have also been pulled out by this thing like a nail!

“Gulp!”

The two of them swallowed their saliva at the same time and looked at each other. They were both extremely shocked and aghast. Both of them were ninth-tier alchemists, and they knew how terrifying the primordial astral wind was. Even ninth-tier profound artifacts would be refined in it, so how could there be a living thing in it?

“Shua shua!”

The squall that had stopped started to blow again, but it was still a little different from before. Previously, it was a chaotic and disorderly wreaking havoc, but now it seemed to be under control, and it was flowing in an orderly manner in one direction.

“This bi an ...”

The two of them widened their eyes in shock! “That, that living thing is devouring the immemorial astral wind???” Yuan gaohan was shocked.

Yunxiao also felt his scalp go numb. The living thing in the gale was becoming clearer and clearer, and the gale that filled the sky was constantly gathering on it. In the shadow, he could only feel the creature’s mouth opening and closing as it swallowed. Even a true spirit, none, might not dare to swallow such a thing!

The two of them felt an unprecedented terror and wanted to escape. However, although the power of the astral winds in the sky had weakened a lot, they still existed. They did not dare to pass through the elemental field directly with their physical bodies or souls. They could only swallow medicinal pills with all their might and start to recover and accumulate energy, waiting for all kinds of abnormalities that could appear at any time.

Finally, after the time it took to brew a cup of tea, the living creature’s appearance gradually appeared. It was a behemoth like a crocodile, lying horizontally in the air, opening its mouth and constantly

inhaling and exhaling gang Qi. Every breath it took swallowed a large amount of gang Qi, and its body gradually became more solid.

“Old Yuan, you’ve seen a lot, but have you ever seen such a thing?”

Yunxiao asked nervously, his hair standing on end. The aura of power from the “crocodile” made him shudder.

Yuan gaohan also swallowed his saliva and said, “This, this, isn’t this a crocodile? Don’t tell me you’ve never even seen a crocodile before?”

Yunxiao glanced over and raised his middle finger in disdain. “Since it’s a crocodile, you go and take care of it.”

Yuan gaohan wiped his cold sweat and said awkwardly, “This thing is indeed a crocodile. Just look at its appearance. If it’s only similar, it can’t be exactly the same. It’s very likely that it’s an ancient crocodile’s ancestor, and it might even be an immortal state true spirit.”

Yunxiao frowned slightly, as if he somewhat agreed with this statement.

Not all descendants of true spirits were incomparably powerful. Indeed, many descendants of powerful existences from the ancient times had become extremely ordinary demonic beasts, and even ferocious beasts. For example, the descendants of the true spirit ancestral bird had become chickens raised by humans. It was simply too sad.

“But Yingluo, even a true spirit can’t devour elemental power that’s close to the origin, right?” Yunxiao asked the question in his heart.

Yuan gaohan rolled his eyes at him and said, “who knows!” No one has ever seen how powerful a true spirit is. It only exists in legends.” When he thought of this, his heart suddenly thumped. His eyes widened and he said in horror, “so, we’ve seen an ancient true spirit with our own eyes?”

Yunxiao, on the other hand, was not as surprised as he was. He had seen two true spirits not long ago, but they were definitely not inferior to this true spirit, the crocodile.

“But is Yingluo really a crocodile, Yingluo? why do I still feel strange?”

Yunxiao looked at the ‘crocodile’ and muttered in a low voice.

“I don’t think so either!”

The demonic Dragon’s voice came from the depths of his soul. He was equally shocked as he said, “Even if it’s a true spirit, I believe that it can resist the immemorial astral wind. However, it could still be swallowed into the stomach, unless it was a powerful existence born from the original elements. For example, the true spirit Fire Phoenix, the void Thunder roar, the earth bear, and so on. These true spirits that possessed the power of the elemental origin were famous even in the immortal state. The Truesoul born from the wind element is the Feilian. I’ve never heard of a crocodile.”

Yunxiao’s doubts grew. The demon Dragon was the descendant of the ancient true dragon, and could be considered as a sub-Dragon, so it knew a lot about the history of the true spirit. He didn’t feel any level pressure from the crocodile. It was just a terrifying elemental power.

“This isn’t right. This doesn’t look like a true spirit!”

Yuan gaohan also seemed to feel a bit strange and whispered to himself, “There’s a lot of information recorded in the ancient gales Holy domain, but no one has ever discovered this thing. Moreover, this place was originally dense.”

“?!”

Yuan gaohan’s words came to an abrupt stop as he suddenly sucked in a breath of cold air, his eyes bursting with light as he stared at the crocodile, his entire person becoming extremely unsightly!

Chapter 494-breakthrough

Yunxiao immediately noticed his abnormality and said in a deep voice, “Did you think of something?”

Yuan gaohan opened his mouth wide and moved it a few times, as if he wanted to close it and make a sound, but other than a few " giggle " sounds from his throat, no other sound came out.

Yunxiao smacked him on the head and said, "Hurry up and tell me!"

Yuan gaohan was ruthlessly hit, but he didn't care if it was inappropriate, and said in horror, I just remembered a piece of information. It was the research material of a peak ninth-tier Alchemist ten thousand years ago on this primordial astral wind, but it has never been taken seriously because the theory in it is too absurd. Now it seems to be true!

shut up! Yunxiao cursed angrily. can you cut the crap? " Just tell me the content!"

Only then did Yuan gaohan calm his mind and begin to say,"The peak ninth-tier Alchemist made an incredible guess about the primordial astral wind, believing that the power of time sealed the astral wind to create artificial true spirits. In other words, the interior of the seal was actually a breeding ground, where one wanted to condense a true spirit through the power of elements. However, we don't know if we succeeded in the end. After the tribe was abandoned, no one cared about the seal and the gales. They evolved on their own and became what they are now."

you ... You ... You ... You are saying that this crocodile is a man-made true spirit? "

This time, it was Yunxiao's turn to open his mouth and look at the crocodile in horror. It was still swallowing and spitting, but the surrounding Gale was almost completely devoured by it.

Yuan gaohan looked at him with a bitter smile and said,"isn't it incredible?" True spirits were born from the purest energy in the world, which meant that they were born and raised by the earth. No one would think that they were man-made. It was for this reason that the material was not valued. If it were not for the senior Alchemist's respected status, he would not have kept it in the Holy region. Before I came to the ancient Barrens, I flipped through all the information in order to understand the situation here. At that time, I scoffed at him and thought that the senior was out of his mind. I didn't expect it to be true!"

Yunxiao was completely speechless as he looked at the crocodile. "Does this true spirit have intelligence? After he devours the immemorial astral wind, will he want to devour us?" He only felt that

the situation was worse than the collapse of the divine realm tablet. He was actually facing an existence at the God Realm! Even if he was at his peak in his previous life, he would still be dead!

“This crocodile is not at the immortal state!” The demonic Dragon said in a deep voice. It’s probably because it hasn’t been completed yet and was disturbed by you. That’s why it’s only a half-finished product. He was probably devouring the astral winds wantonly to perfect his body. However, I feel that the Kasaya should be lacking a lot. How can an immortal state be so easy to create!”

“No matter! We’ll run when the astral winds are weaker!”

Yunxiao slowly raised his spirits. He had just taken a large number of medicinal pills and recovered part of his strength, so he was slowly accumulating Yuan Qi. Even if the crocodile was not an immortal state being, it was at least a ninth-grade one since it could breathe in and out astral winds like that. It also had a terrifying elemental body, just like Yi MU’s little green, which could not be suppressed without Emperor Qi!

Yuan gaohan was also prepared to run. His body flickered, and although his expression was ugly, he gradually calmed down and began to circulate some kind of cultivation technique.

Just as the gale became thinner to a certain extent, Yunxiao’s body suddenly burst out with a bright lunar divine light as he rushed into the distance.

Yuan gaohan was both shocked and angry, but he also turned into a ray of light and followed behind.

At this time, whoever was a step late might end up dead. By the time the crocodile reacted, it would definitely be the unlucky one behind it.

Yunxiao had already calculated the degree of the Gale’s attack. His Supreme tyrant body, bright moon divine body, and the broken Devil Sky armor could withstand it for a while. He gritted his teeth and only needed to rush out of the gale zone for several thousand meters, and he would be safe.

Yuan gaohan, on the other hand, was not confident at all, but he knew that he would definitely die if he stayed here alone. Moreover, he was angry that Yunxiao had run ahead of him, so he roared at him from behind, “Kid, you’re too disloyal! You didn’t even say hello and just slipped away!”

haha! Yunxiao laughed. old Yuan, stop pretending in front of me. What you wanted to use just now was a short-distance teleportation, right? but the range of the astral winds is too large, so you need to accumulate energy and go all out. If I use it, I'll be able to leave this damn place in an instant. Will you remember to inform me then?"

Yuan gaohan's heart jolted. How did this brat know everything? there were only a few people who knew about his teleportation secret technique. He shouted in anger, "Of course I'll bring you along! Now that you've made your own decision and ran away, you've disrupted my entire plan. You've harmed both yourself and others! Stop right now and wait for me!"

Yunxiao could not be bothered to pay attention to him. They were all old foxes, and the words that came out of their mouths could only be used to complain and cause trouble.

Yuan gaohan himself knew this, and he was not slow. In just a few moments, he had caught up with Yunxiao, and the two of them rushed into the area of the chaotic wind almost at the same time.

As soon as he stepped into it, he immediately felt the origin power of the wind element, which devoured Yunxiao's bright moon divine light. It had only rushed dozens of meters in before it was almost completely gone.

Although the demonic sky armor was severely damaged, it still appeared around his body. When the bright moon divine light was completely devoured, demonic Qi automatically rushed out and revolved around him. However, it was still unable to effectively resist the erosion of the astral winds.

He could only clench his teeth and rush forward with all his might, hoping to get out of this damn place before his energy ran out.

Yuan gaohan's situation was even worse. He could only circulate his mental energy to open up a vacuum around his body, but this kind of consumption was extremely astonishing. Not long after, his body became dazed, and his face was filled with shock.

not good! Run! That thing is coming!

The Dragon's voice suddenly rang out in his soul. Yunxiao looked in the direction of the voice, and he immediately felt a chill run down his spine.

The crocodile seemed to be made of astral wind. At some point, it had stopped breathing astral Qi and turned into a hurricane as it flew over. Although the surrounding astral Qi was thin, it began to spin under the crocodile's influence, and the resistance suddenly increased, causing Yunxiao and Yuan gaohan to suffer unspeakable pain!

"It's over, I'm really dead this time! Master Duan, I'll have to trouble you to follow your Dharmakaya's words one more time and say a few good words to help me escape this calamity."

Yunxiao smiled wryly and teased him. He felt the power of the gale increase several times in an instant, and he could not even control his own body, let alone rush out.

Duan Yue, who was in the divine realm tablet, also sensed the situation outside, and he hurriedly said, "you're the chosen one. You're the incarnation of a cockroach, an undefeatable legend, a great man from heaven, a golden sun, and a peerless handsome man. You'll definitely be able to rush out of the wind Gap and escape successfully!"

As soon as he said that, Yunxiao lost control of his body and was pulled into the tornado created by the crocodile.

Yuan gaohan wasn't any better off, he was also swept up by the hurricane and roared repeatedly, but it was of no use.

The entire sky above the ancient Barrens turned into a hurricane. It lasted for the time it took to brew a cup of tea before it gradually died down. All the wind collapsed and gathered together, revealing the true body of the crocodile, which stayed in the sky.

The Gator opened his eyes, revealing his bloodshot eyes. He opened his mouth and exhaled, immediately shooting out an overbearing astral wind power. His four legs slowly crawled in the air, and he descended to the ruins.

The entire night sky returned to its clear state, and there was no longer any wind.

At this moment, the three bright stars-Feng lang, the Jade man, and the large dog-finally spread out in a straight line and began to move in their respective trajectories.

The crocodile opened its eyes and crawled on the ruins for a while. Then, it closed its eyes again and fell asleep on the ground. And the places he had crawled past had all turned into fossils, slowly turning into powder.

.....

After being sucked into the tornado, Yunxiao poured all his primordial Qi into the demonic sky armor, hoping to survive for a while longer.

Just as he could no longer hold on and was filled with despair, the power of the astral winds suddenly disappeared. He directly fell from the sky.

“What’s going on?”

The sky was gray, and the world couldn’t be seen clearly. Yunxiao let it fall. He had used up all his strength to resist the attack of the gale earlier, so he could not gather any Yuan Qi at all.

Not long after, another ray of light fell down like him. It was Yuan gaohan, who seemed to have lost his strength and was unable to fly.

Just like that, the two of them fell straight down. After an unknown period of time, they finally landed. With a “boom”, they crashed into the ground, creating two huge pits and filling the sky with yellow sand.

This place was actually a desert!

“PEI, PEI!”

Yunxiao spat out the sand in his mouth with all his might, and his whole body was submerged in it. With great difficulty, he managed to squeeze his head out of the ground, but he felt weak all over and fell asleep in a daze.

He didn't know how much time had passed before he woke up.

The scene in front of him was still gray, and he was indeed in a barren land. Not far away, there was a glimmer of light on the ground. He looked over and saw that it was Yuan gaohan.

Yuan gaohan was different from him. He was a spirit, and if he couldn't continue to absorb external power, he would be unable to recover his strength on his own, which meant that he would only become weaker and weaker.

In this gray mist, there was not even light, much less vital Qi.

Yunxiao had also used up all his medicinal pills earlier, and now he was staggering forward on his own. When he came to Yuan gaohan's side, he found that the man was in an extremely bad condition, and could dissipate at any time.

"Hey, brother Yuan, are you alright?"

Yunxiao went up and kicked him a few times, but when he saw no reaction, he muttered to himself, "He's most likely dead. Since that's the case, we can't let it go to waste. Let's just absorb it into my soul-devouring banner."

"Swish!"

Yuan gaohan's body bounced up from the ground in an instant, and he stared at Yunxiao with an angry face as he roared, "You damn bastard, you actually still want to take me in!"

Chapter 495

?

495 The sky full of yellow sand

Yuan gaohan's face was filled with fear and anger, his eyes spewing fire and the light on his body flickering non-stop. It was indeed a sign of great exhaustion, but when he heard that he was going to be captured, he woke up from fright.

a man's potential is infinite, " Yunxiao said with a smile. it can't be stimulated without some pressure. I'm just afraid that you'll just disappear like smoke."

Yuan gaohan's face was cold, how could he believe him? still vigilantly looking at the soul devouring flag in his hand, he coldly snorted, "Get away from me!"

Yunxiao smiled as he spun the soul devouring banner a few times in his hand and put it away. The soul body was too afraid of the soul Devourer race. He looked around gloomily and said, "old Yuan, let's work together to find a way to leave this damn place. Look where we are .."

Only then did Yuan gaohan look around, and his expression suddenly changed as he cried out, "An independent space?"

Yunxiao nodded and said, " It should be an independent space, but I don't know where it is. There's no Yuan Qi, and there's no moon or stars. It should be a closed independent space."

Yuan gaohan's expression turned ugly. Unless one had the power of a Martial Emperor that could shatter the void, it would be very difficult to get out of this space. If there was the power of Starlight, it would still be fine. He would not mind and could cultivate here in peace. When he broke through to the ninth-rank soul power, he would naturally be able to break through the air and leave. However, the entire sky was dark and lightless. Not to mention Starlight, there was not even a bit of vital energy in it.

"It's a little strange. There's no Yuan Qi in the air at all. Even if it's a dead space, it shouldn't have dissipated so cleanly. Moreover, we were teleported here by the astral winds, so there's obviously an entrance."

Yunxiao was puzzled, so he immediately told Yuan gaohan what he was thinking. Yuan gaohan was also stunned for a moment, but he felt that it made a lot of sense. The two of them pondered for a long time but still couldn't come up with a reason.

In the end, Yunxiao said, "let's go ahead and take a look. When we came in earlier, we didn't feel like we were traveling through space. It seems to be connected to the ancient primordial land.

Yuan gaohan suddenly thought of a possibility and said in horror, "Do you think bi an's place is in the time rule that seals the immemorial astral wind?"

absolutely not! Yunxiao shook his head with a smile. no, I'm not. Seeing Yuan gaohan's puzzled expression, he smiled and explained, "This is a desert. Look at this sand, there are no traces of the strong wind sweeping it. It seems to have been silent for thousands of years. If the immemorial astral winds have always been sealed here, there will definitely be traces on the sand surface."

Yuan gaohan heaved a sigh of relief. If he was sealed by the time law, he wouldn't be able to escape even if he broke through to the ninefold soul body.

Yunxiao took out a Tigerking chariot, and the two of them boarded it. Then, they turned into a beam of light and flew through the space.

Tens of thousands of miles of yellow sand, dark and gloomy, with no end in sight, no exit or hope could be seen.

The atmosphere on the Tigerking chariot was getting heavier and heavier. Both of them had gloomy faces. After flying for several hours, the scenery was still the same. Only the person who created the independent space would know what was going on inside. God knew how vast it was. Moreover, some living independent spaces would continue to expand after losing control and eventually develop into an independent realm, which was boundless.

"Hey, this independent space can't be boundless, right?"

Yuan gaohan finally couldn't help but ask. As a ninth-tier Alchemist, Yunxiao should be the one asking him, but he found that Yunxiao seemed to be more patient than him, so he could not help but speak first.

Yunxiao's face was dark and expressionless. He did not say a word.

"Hey, I'm asking you!"

Yuan gaohan pushed his palm over and angrily said, "Can't you show some respect to your senior?"

Only then did Yunxiao turn his face around and say with a very unsightly expression, "we might really be done for. This place should be an illusion that goes around in circles. Without the strength of a martial Supreme, there's no way out. Why do they all like to do this?" He had just come up from the demon's land, and in the reflection of the moon and the mirror, he was constantly spinning in circles.

an illusion?!

Yuan gaohan's heart suddenly jumped, and he seemed to have thought of this possibility. His eyes focused down and began to observe his surroundings. However, it was all yellow sand without any reference. He couldn't see anything at all. "If it's an illusion, there's no way I can't sense it with my eighth tier Starlight soul body," he said in a deep voice.

Yunxiao stopped the Tigerking chariot and landed it on the yellow sand. Only then did he walk out of the chariot, look up at the dark sky, and say in a serious voice, "It can only mean that the person who set up the formation is extremely skilled. However, this is only my speculation, and it is the best speculation. The worst case scenario was, of course, that the independent space would expand infinitely. If it's an illusion, there's still a chance to break it. If it's an infinitely expanding space, then it's really over!"

Yuan gaohan also understood this principle, and with a heavy expression, he walked over to the Tigerking chariot, sat down cross-legged, and began to use some kind of spell, causing golden light to dance around him like butterflies.

He did not have a source of energy to replenish his energy, and every time he cast a spell, he would suffer a huge loss. However, he had no way out, and it would be worse if he stayed stagnant for a long time.

Yunxiao did not disturb him. He knew that it was a very powerful Soul Art, which allowed the soul to integrate into the surrounding environment and sense all the laws and forces of heaven and earth. The most taboo thing was to be disturbed.

Soon, Yuan gaohan slowly opened his eyes and said, "Sure enough, there is indeed a formation here. I can feel the evil Qi in the surroundings. This yellow sand seems to be an illusion."

"Can you break it?" Yunxiao asked.

Yuan gaohan's soul power was far above his, and if even Yuan gaohan couldn't do anything, then he had even less hope.

Yuan gaohan glanced at him and said, "that formation has been around for thousands of years and is already damaged beyond repair, but it still makes me palpitate." I can't do it alone, I need your help."

help you?" Yunxiao asked suspiciously. "I'll help you?" Big brother, you have an eighth level Starlight soul body. I can't even get close to you when it comes to breaking the formation."

Yuan gaohan said, "you've also seen it. My soul power has not reached the eighth level at all. Did you just take the Tianshu soul-nourishing pill?"

Yunxiao rolled his eyes at him and snorted coldly, "Kid, your eyes are quite sharp. It's a pity that you only have one!"

Yuan gaohan frowned and said, "that's troublesome, unless it's Qianqian." He became a little hesitant, as if it was inconvenient.

just tell me what you have to say," Yunxiao said. at a time like this, unless you want me to pick up the soap, I'll agree to anything you say.

Yuan gaohan shivered and felt a chill down his spine. He looked at him with fear, then revealed a solemn expression and said with some difficulty, " unless you use the Golden Soul slave in the soul devouring flag to cooperate with me. However, if you do that, your Golden Soul slave might be severely injured or even disappear.

The soul slaves were the core of the soul Devourer race's disciples. Basically, they would live with the soul slave, and they would die with the soul slave. If they were to offer their soul slaves, it would be no different from killing them. Therefore, when Yuan gaohan said these words, he was very nervous, afraid that Yunxiao would instantly fall out with him.

As expected, Yunxiao's face turned cold as he said in a cold voice, " do you know how important the soul devouring banner is to me? "

Yuan gaohan felt the chill from his body and immediately said awkwardly,"Of course I know, but at this time, if we don't try, we'll all die."

Yunxiao's face was cold as he said resolutely, " "Losing the soul devouring banner is worse than death!"

Yuan gaohan's eyes flashed with disappointment. Although this result was disappointing, it was not unexpected. He bitterly said,"In this case, if we can't open this illusory formation, we can only wait for death."

"However, Yingluo"

Yunxiao's expression eased a little, and he said with a pained look, " "But I can't just wait for death like this. As a ninth-tier Alchemist of the Holy region, if you can compensate me a little, I'm willing to offer you the soul devouring banner. After all, I can still clearly distinguish which is more important and which is less important."

Yuan gaohan was stunned for a moment before he immediately rejoiced, as long as we can take out the soul devouring banner, we can escape from here. Just tell us what you want!

"Really?" Yunxiao looked at him and asked.

Just as Yuan gaohan was about to agree, he suddenly remembered that this person in front of him didn't seem to be so simple and immediately stopped his impulse, frowning, "Tell me what you want first."

Yunxiao put on a pure smile and said, "Losing the soul devouring flag is almost impossible to make up for my loss, especially when it's a Golden Soul slave. You should be clear about the relationship between the two. So any compensation to me is like a cup of water in a burning cart, right?"

Yuan gaohan frowned and nodded slightly, apparently agreeing with his statement.

"And Yingluo ..."

Yunxiao took a deep breath and sighed. "And even though we haven't known each other for long, you have some misunderstandings about me. Even if I escape from here, I don't dare to go to the Holy region with you to ask for compensation. If I don't, my losses might be even greater, don't you think so?"

Yuan gaohan snorted coldly and said, "what do you mean by misunderstanding? you're such a coward!"

Yunxiao waved his hand and interrupted him, "Alright, alright. It's hard to clear up the misunderstanding in a few words. Anyway, that's the situation. I can't just take out the soul devouring banner for nothing. How about this, you can exchange a hundred or so ancient scriptures for it. "

"?! An ancient scripture? A hundred of them?"

Yuan gaohan sucked in a breath of cold air, his expression changing greatly as he angrily said, "What do you think that ancient scripture is? Do you think it's a Street full of erotic novels? You can write a few hundred to a thousand words!"

"Oh, Yueyue, how much do you want?"

Yunxiao wiped his nose and said in embarrassment, "I've even offered my Golden Soul slave. You're just explaining a few Scriptures, so you won't lose anything. Think about who's at a disadvantage and

who's at a disadvantage! Otherwise, forget it. When your eighth-tier Starlight soul body dissipates, can your true body return to the ninth-tier with a few ancient characters? Can you still stabilize your peak?"

Yuan gaohan's face darkened instantly. Yunxiao's words had hit his soft spot.

The other party was just a small fry of the soul Devourer clan. His death was not a big deal. But he was different. He was a ninth-tier Alchemist of the Holy realm, so how could he die so easily?

Chapter 496-everyone benefits

Yuan gaohan's face alternated between green and white as he was in a state of extreme conflict.

He could not give up his eighth-tier Starlight soul body no matter what. Otherwise, his cultivation base would fall back to the eighth-tier Alchemist forever, which was unacceptable. However, leaking the profound meaning of the ancient scriptures was also a great crime. If it was discovered by the sanctuary, even he would not be able to bear the responsibility.

Yunxiao's heart jolted, as if he had guessed the man's difficulties. "Could it be that there's a rustling above?"

Yuan gaohan's eyes were filled with fear, his heart was extremely heavy, he gritted his teeth and said, "State your other conditions. I can agree to anything else. Even if it's a ninth grade profound artifact, it can still be used."

He suddenly stopped talking as he saw Yunxiao take out a small bell and play with it in his hand. With his eyes, he could naturally tell that it was a ninth-tier Mystic artifact, and not an ordinary one!

"This, this Bell Pixiu"

Yuan gaohan's mouth was wide open, and his eyes were shining.

Yunxiao casually put it away and said, "What Bell? Let's continue to discuss the conditions, why did you mention the ninth tier profound armament earlier?"

Yuan gaohan's throat was dry and thirsty, he shook his head and said dejectedly, "There's no awkwardness." He was silent for a while before finally making up his mind. "I can teach you the profound meaning of a word, but you have to swear that you can't teach it to anyone else!"

"Only one?"

A layer of anger appeared on Yunxiao's face as he snorted and said, "I've even given you my Golden Soul slave, and you're telling me an ancient scripture? do you still have any shame? I don't want to live without my soul slave anyway. Let's all die together!"

Yuan gaohan was stunned speechless. In his opinion, revealing the profound meaning of an ancient scripture was already a major crime, but the other party didn't care. But thinking about it, his words made sense. If a member of the soul Devourer race lost his soul slave, it wouldn't be much different from him falling to the eighth-order.

"Then, Wuwu, those two Wuwu ..."

Yuan gaohan mustered his courage and stretched out two fingers, his arm trembling.

"Twenty!"

Yunxiao blurted out with a determined look on his face, "Not a single one less!"

"T-twenty!"

Yuan gaohan's eyes almost popped out as he roared, "I don't even know 20, you're too much! What do you think this is! The Scriptures passed down from the ancient times all contain rules. If you can study one or two of them in your life, you'll benefit greatly!"

then how many do you know?" Yunxiao asked coldly.

Yuan gaohan was furious and snorted, "it's none of your business how many I know!" No more than three, or we'll die together!"

He was so angry that his body was smoking, and his soul flickered unsteadily as it was being consumed.

Yunxiao could tell that he was almost at his limit, so he said awkwardly, "Alright, three it is. If I wasn't forced into a dead end, I wouldn't have agreed to your request!"

He currently only had a total of seven, and with these three, he only had ten. However, his understanding of these Scriptures should be able to reach new heights.

Yuan gaohan himself had only mastered four and a half, and the fifth one was still a blur. If he knew that Yunxiao had already mastered seven, he would probably burst into a fit of rage and kill.

"Give me a soul slave first!"

As if he was afraid that Yunxiao would go back on his words, Yuan gaohan insisted on getting the soul slave first, and his attitude was extremely firm, unwilling to take a step back.

Yunxiao was not afraid that he would go back on his word, so he gave him the soul-devouring banner and said, "If I lose my soul slave, I won't be able to cultivate this type of cultivation technique in the future. This soul devouring banner is useless, so I'll give it to you."

"Hmph, a ghost wants your soul devouring banner!"

Yuan gaohan took it and examined it with his divine sense. It was indeed a Golden Soul slave, and it was full of soul power, very good. Only then did he relax.

When he saw Yunxiao's calm look, he felt a little strange and could not help but ask, "How do you plan to cultivate after losing the soul devouring flag? Was he going to cultivate the soul Fusion technique? That should be the best choice."

none of your business! Yunxiao said impatiently. it's none of your business! Take the things and teach me three ancient scriptures!"

Yuan gaohan nodded slightly, he was also a man of his word. He carefully put away the soul devouring banner, his face revealing a helpless expression, and after a few long sighs, he began to explain.

"The origin of the ancient scriptures can't be investigated anymore. Because they're shaped like tadpoles and flash with golden light when they emit rule force, they're also called tadpole Golden Texts in many places. The number of Scriptures that exist is very limited, and very few people have the ability to study them."

Yunxiao also knew this basic knowledge, but he did not interrupt him this time. Instead, he let him continue.

Yuan gaohan continued,"in fact, the Holy region and the sea of soul formation have long since begun to do statistics and research on these characters." But it was a pity that even if some alchemists could master some of these words, there was no good way to pass them on. In other words, these words could not exist in this world. Thus, even Saints and soul formation cultivators don't have many who truly control it. "

Suddenly, Yunxiao asked,'how many of these characters are there in total? Do you have the statistics?"

Yuan gaohan frowned and thought for a while before saying,"There might be thousands of them."

"Over a thousand!"

Yunxiao was so startled that he almost jumped up. "How can there be so many?" The power of rules contained in these characters was very powerful, and it was already a great benefit to learn a few of them. If he could master thousands of them, then he would have a huge headache.

He didn't even dare to imagine.

Yuan gaohan also smiled bitterly, seeing through his thoughts and shaking his head, "Don't even think about it. These things shouldn't exist in this world. They're not things that ordinary people like us can peep at."

Yunxiao remained silent. The Scriptures he had learned added up to a few hundred words, and many of them were repeated. It seemed that there should be a large number of other Shen techniques in this world. He didn't know if he would be able to understand them completely in this life.

Yuan gaohan composed himself and said, "I'm going to teach you three ancient scriptures. Watch carefully." I'll only explain the essence once and demonstrate it once. I said I'll teach you, but I didn't guarantee that I'll definitely teach you. With your aptitude, it's very likely that you'll never be able to master it in your lifetime."

When he said that, he was taken aback. At the thought of Yunxiao's talent and aptitude, he could not believe what he had just said.

Yunxiao did not answer. Instead, he raised his mind to the highest state and began to listen to Yuan gaohan's explanation. This was the first time he had heard someone teach him something like this. In the past, he had always comprehended it on his own, so there was still a certain difference between the two.

Yuan gaohan had read a lot of information about his predecessors in the Holy region, so he had great advantages and insights in all aspects. Yunxiao was delighted to hear this, and he kept asking all kinds of questions, which made Yuan gaohan both stunned and shocked.

Many questions that even Yuan gaohan himself had not thought of were raised by Yunxiao, and he fell into deep thought. He explained and listened, and from his single explanation at the beginning, it became a discussion between the two of them.

Yuan gaohan was also shocked at the beginning, but he slowly got used to it, and studied each other like two old friends, both of them benefiting greatly. His initial half-understanding of the five Sutras had also been greatly inspired by the constant dialogue, becoming clear.

Yunxiao's gains were even greater. The three characters seemed to be very common, and they had appeared in several divine arts he had seen before. Immediately, his understanding of these divine arts deepened, and all kinds of doubts he had were cleared up, and his mind gradually became clear.

Although it was only three words, the research derived from it was endless. The two of them sat in the yellow sand, immersed in their own thoughts, talking and comprehending. Finally, after completely understanding the three words of the Scripture, Yuan gaohan was not willing to say anything more, even though he had also obtained great benefits. However, when he thought about how he had recklessly imparted the profound meaning of the ancient scriptures, he was still filled with fear.

Yunxiao only gave up when he found that he could not dig out anything. He sat down cross-legged and began to meditate. After an unknown amount of time, he finally understood everything he had learned.

Yuan gaohan was secretly shocked, especially the look of enlightenment on Yunxiao's face, which terrified him. It had taken him more than ten years to learn these three characters!

He suppressed the fear in his heart and said, "Young man, I don't know your name. But are you willing to join the sanctuary? I can guarantee that as long as you're willing, the resources you'll get will only be several times, dozens of times, or even hundreds of times better than the soul Devourer race!"

Such a monstrous talent, he had the intention to rope him in, even at all costs. Otherwise, this young man would be too terrifying. Perhaps in a few decades, the entire realm of heavenly martial arts would have to bow down to him.

Yunxiao smiled, feeling very satisfied. let's get out of this damn place first. If we can't get out, everything will be in vain.

Yuan gaohan didn't know if he was being perfunctory or what, but he continued,"Besides, your soul devouring banner will be destroyed soon, so you won't be able to cultivate it to the highest level even if you stay in the soul devouring clan. As long as you follow me to the Saint domain, there will definitely be cultivation techniques that are much stronger than soul battle techniques for you to choose from!"

"Yes, I'll seriously consider it. Old Yuan, let's start breaking the formation."

Yunxiao urged, with no look of consideration on his face.

Yuan gaohan sighed slightly. If such a talent couldn't be used by the Holy region, then they couldn't become enemies either. Even at the critical moment, directly wiping him out was a necessary method.

Although the sanctuary ruled the world on the surface, they did all kinds of shady business in the dark.

"I hope you'll consider it," he said regretfully.

After saying that, Yuan gaohan took out the soul devouring banner and his right hand's fingers constantly changed, sending runes into it. Very quickly, the soul devouring flag began to glow brightly. He let out a loud shout and flew into the air, fluttering in the wind.

Yunxiao's pupils constricted slightly. What Yuan gaohan had just used was the method of using the soul devouring banner. It seemed that he had also studied the techniques of the soul devouring clan!

I recommend a hot-blooded novel, " undying revered martial artist ". You can go and search for it.

Chapter 497

?

497 The ancient tower

The soul devouring flag waved in the air, and golden light shot out like the sun, bringing some light to The Dark World, warming one's heart.

A Golden Soul slowly stretched out inside, and its expression became somewhat dull as it looked around in a daze.

"What's going on?" Yuan gaohan frowned. This gold soul slave doesn't seem to have any intelligence?"

Yunxiao knew that it was because Zhang shaotian was dead, and the soul slave had lost its master, which led to the loss of intelligence. "I used a secret technique to advance to the Golden color. Otherwise, do you think I could have refined a rank-9 Golden Soul slave with my strength as a four-stars martial Grandmaster?"

Yuan gaohan thought for a moment and felt that it was true. In the beginning, he had been curious. The other party was only a four-star martial Grandmaster, so how could he have a ninth-rank soul devouring banner? it didn't seem to be very powerful. He began to feel a little regretful for being threatened by the other party and getting so many precious things out of him.

However, now was not the time to think about these things. He shouted and made a strange seal with his hand. A golden tadpole-like character appeared in his palm. He grabbed at the Golden Soul slave.

The Golden tadpole-like characters were one of the three that he had just taught Yunxiao. They represented an extremely strong power of rules, and Yuan gaohan could use them with great ease. Clearly, he was very familiar with them.

The seal entered the soul slave's body, and the golden light instantly melted and spread through his body, turning the faint golden color into a rich gold. The soul slave immediately screamed in pain. The sound was like a crow's bones being crushed. It made people's hair stand on end and they had goosebumps all over.

Yunxiao's eyes were filled with confusion. He did not know what Yuan gaohan wanted to do, but he did not look like a pervert who liked to abuse people.

"You must be very curious about what I want to do, right?"

Yuan gaohan looked smug. He suddenly found that he had a great sense of achievement for being able to make Yunxiao unable to see through his behavior. I'm going to completely obliterate this soul slave and refine it in reverse, turning it into the most primitive soul power!

Yunxiao was taken aback. "Reverse refining? Could it be that the Lord is making a fuss?"

Yuan gaohan's body shivered, and his eyes burst out with light as he shouted, "Shut up! That Lord's name isn't something you can just call out! Since you even know about that Lord, you can't be han Yinshan's biological son, right?" He suddenly felt regret for being so proud that he forgot himself. He closed his mouth and didn't dare to say anything more. If he revealed that Lord's situation, it would really be a great sin that could not be absolved with ten thousand deaths!

"Bang!"

Suddenly, Yuan gaohan felt a sharp pain in his head. He gave a loud cry and looked at Yunxiao angrily as he roared, " what are you doing? you sneaked an attack on me? "

you are han Yinshan's son! Yunxiao said coldly. your whole family is han Yinshan's son!

"You coward!"

Yuan gaohan was speechless for a moment before angrily saying, "Anyway, don't talk to me anymore. Don't disturb me while I'm casting my spell!" After he finished speaking, he focused his mind and body on casting the spell, not daring to be distracted at all.

Yunxiao's face was filled with uncertainty. Sure enough, he did not speak again, but his eyes were much more serious.

The so-called reverse refining was a kind of reverse behavior that reversed the alchemy process. It had always been a difficult problem for the alchemy world. For example, you could refine 18 materials into a sword, but you couldn't return the sword to its original form. That was why the alchemy world had always believed that the process of alchemy was irreversible!

However, in the long river of history, there had never been a lack of peerless geniuses. There were still many alchemists who were very interested in reverse refining, and they had accumulated a lot of information over the long years. Although reverse-refining had not been fully realized so far, it had played an indelible role in the development of alchemy, and many strange techniques and secret Arts had been created.

What Yuan gaohan was doing now was one of them, and he had directly integrated the ancient golden characters into the spell. It could be seen that his achievements in this field were not shallow!

The Golden Soul slave in the air wailed in pain for a long time before its voice gradually weakened. A faint golden light spread out in the soul devouring banner, and the soul slave slowly lost its form, melting into a mass of pure energy.

Yunxiao felt a faint chill in his heart as he watched. Since this reverse refining technique could refine soul slaves back, what about the souls of ordinary people? Could it also be directly refined into a mass of energy? If he could, then what was the difference between the soul nurturing pills of the soul Devourer race? After refining the soul, they would absorb the power within.

When Yuan gaohan saw the ball of energy, his eyes shone with a strange light, "This energy is too impure and not pure. It's not suitable for absorption. However, he couldn't care about that now. He would just make do with it for now! With this ball of energy, I should be able to temporarily break through to the ninefold soul body and break the seal!"

He shouted, jumped up from the ground, and rushed up.

The soul slave that had completely turned into a ball of energy flew towards him, and the two immediately fused together. Yuan gaohan's body was wrapped in a faint golden energy that constantly flowed, like a coat condensed from a water membrane, covering the surface of his body.

"Go further away and watch me break the restrictions here!"

Feeling a large amount of soul power being replenished, Yuan gaohan suddenly let out a heroic roar. After laughing loudly, he flew into the air and saw a golden light shoot into the sky like fireworks. Immediately after, a huge golden light condensed into a palm print above him, paused for half a second, and then began to whistle down.

There was nothing fancy about the palm technique, but it was the most common hollow palm among alchemists.

It was different from the palm force condensed by martial artists 'vital Qi. This kind of hollow palm was completely condensed by mental power. Using mental power to compress and distort space, thereby producing powerful destruction, this palm force itself was not destructive. Many alchemists were not strong, so they liked to use this simple way of attack.

Yunxiao also felt the surrounding space begin to shrink toward the center under the huge Golden Palm print. A powerful spatial force pressed down on him, and his body glowed with a faint yellow light as he retreated.

“Boom boom boom!”

At this moment, the yellow sand that filled the sky was squeezed into the center of the palm print. Everything in the surroundings looked like a hahaha mirror, constantly changing shape. All the space quickly disappeared under the palm, and the surrounding scenery changed.

As the space trembled, seven huge stone pillars rose from where the two of them were standing and continued to grow.

There were all sorts of patterns carved on the stone pillars, and huge chains connected the seven pillars together from head to tail. As they rose, they made clanging sounds.

The two of them were frightened by this change and retreated. What made their eyes widen even more was that in the middle of the seven huge stone pillars, there was a tall tower that rose straight into the sky. The seven stone pillars were huge enough, but in front of the tower, they were just guardrails.

This change happened in just a few breaths, leaving the two completely dumbfounded.

Yunxiao and Yuan gaohan could be considered as experienced and knowledgeable people, but at this moment, the tower and stone pillars still gave them an extremely shocking and magnificent feeling, so much so that they could not even look at them directly!

The two of them were stunned for a while before they slowly came back to their senses.

Yuan gaohan was the first to swallow a mouthful of saliva before saying with difficulty, "What is this? The aura it's emitting is too evil, it makes one's hair stand on end."

Yunxiao was better off, as he had experienced far more than Yuan gaohan. After the shock, he quickly calmed down and flew around the giant tower, then returned to where he was. This illusory realm and even this space might exist to seal this ancient Pagoda.

Yuan gaohan was very shocked and said in horror, "The artifact aura emanating from this ancient Pagoda seems to be at the peak of the ninth rank! Not only this ancient Pagoda, but even these seven Pillars also have a ninth-tier tool rhythm. Moreover, they are connected from head to tail to form a formation. Evil Qi is surging inside, and one will shiver all over when one approaches it a little!"

Yunxiao's face grew even more solemn. He had discovered that wisps of energy were swirling around the ancient tower, and they were growing stronger and stronger. It was none other than the black demonic energy!

"Gulp!"

Yunxiao swallowed and said solemnly, "We might have gotten into big trouble. Let's hurry and see if there's any way out of this place. If I'm not wrong, there must be a very powerful figure being suppressed in this ancient tower! And look at this demonic Qi, it's getting more and more, it seems to be accumulating power!"

"Demonic Qi?"

Yuan gaohan's heart jolted as he stared at the black energy in horror, his face even uglier than Yunxiao's. It's really demonic Qi. How is this possible? How can there be demonic Qi in the heavenly martial realm?"

you know something?" Yunxiao asked. do you know something?"

Yuan gaohan turned around and glanced at him, bitterly saying, "What else do you know?" Demons are a powerful race in ancient times, and they've been annihilated with the passage of time, just like those true spirits. Now, there's no true spirit at all, so don't tell me I'm going to see a 'demon' today."

didn't we see the true spirit crocodile earlier?" Yunxiao asked.

Yuan gaohan asked,"Zhenzhen, could it be that this demon was also created by them?" In the past, the experts here not only wanted to create true spirits, but also demons?" He felt that this idea was extremely absurd, but what he saw in front of him proved something.

it's possible to create that crocodile," Yunxiao said. but this demon is definitely not one. He must have been suppressed here by the experts of this place. Just as you said, not only the ancient Pagoda, even the seven pillars are ninth tier profound armaments!"

Yunxiao stepped forward and carefully examined the patterns on the pillar. Some parts were damaged, revealing the silver color inside, which seemed to be some kind of metal.

He stared at the silver-white light and pondered, as if he wanted to confirm something. He reached out and touched it. A bone-chilling feeling immediately spread through his body, as if his soul was about to be frozen!

Chapter 498

?

498 Northern heaven cold star Iron

"?! Northern heaven frigid Star Iron! It's actually the northern heaven frigid Star Iron!"

When Yunxiao discovered the material of the pillar, the shock in his heart was even greater than freezing his soul. He was so shocked that his eyes almost fell out of his head!

"W-what? This is the northern heaven frigid Star Iron? You're not joking, are you?"

Yuan gaohan was also startled and hurriedly came forward to check it carefully. He immediately sucked in a few breaths of cold air and felt that he couldn't stand steadily.

He looked at these seven towering stone pillars in a daze. They actually contained ninth-tier materials that were extremely difficult to find in the world.

That was something that could be refined into a ninth tier profound armament as long as it was the size of a fist!

Yunxiao, on the other hand, calmed down very quickly. He stared at the stone pillar blankly, his eyes filled with complicated emotions. Although these seven Pillars were only the cores of the pillars, they were already extraordinary. They were even more luxurious than the heavenly shine que gold he had previously encountered.

no wonder the natural treasures in the realm of heavenly martial arts are getting rarer and rarer. It's all because of these ancestors 'unrestrained mining!

Yuan gaohan cursed a few times in a stern voice before revealing a look of wild joy. He surrounded the seven pillars and examined them, if it wasn't for the cold air, he really wanted to go up and bite them.

"What do we do now?" Yunxiao suddenly asked calmly, as if he was not moved by the seven pillars at all.

"What do we do?"

Yuan gaohan was stunned for a moment before he replied, "We'll take one step at a time, but these seven Pillars must be taken away!" His eyes were filled with greed and joy.

Yunxiao sighed slightly and said, "I also want this Northern heaven frigid Star Iron, but Yingluo, these seven Pillars made of Northern heaven frigid Star Iron are clearly the seal formation eyes of this ancient Pagoda. If it's destroyed, the great Devil Inside the ancient tower will come out."

Only then did Yuan gaohan's heart suddenly freeze. He also discovered the seriousness of the problem, and his expression became somewhat unsightly. He stared at the ancient Pagoda in a daze. It was exuding wisps of cold Yin Qi. The black demonic Qi kept coming out of it, but it was blocked by the barrier formed by the seven pillars and could not come out.

As Yunxiao had said, if the seven pillars were destroyed, not only would the demonic aura spread out, but God knew what else was inside the ancient tower.

Something that could be so carefully imprisoned by the ancient Almighty experts was definitely not simple.

Yuan gaohan licked his dry lips and nervously said, "So many years have passed, even if there's something inside, it's already a lamp without oil, right?"

Yunxiao's heart stirred. He immediately thought of di Jia, who was in Mount Meru. He should also be an ancient demon or something like that. He had been suppressed for many years, and now he only had the strength of a martial Grandmaster. The demon suppressed here might also be struggling on his last breath.

Both of them were ninth-tier alchemists, and their resistance to such treasures was almost zero. They were both finding excuses for themselves, even though they knew it was very dangerous.

"How about this. Old Yuan, you first see if this space leads to the starry sky outside. If so, we'll set up a long-distance teleportation formation first, and if there's any danger, we'll leave immediately." Yunxiao said slowly.

Yuan gaohan's eyes lit up and he loudly cheered, "Not bad! It should be like this!" He sat down cross-legged in the air and began to sense his surroundings.

Yunxiao, on the other hand, was staring at the demonic aura around the ancient Pagoda. He could not calm down, not knowing whether it was right or wrong to do so.

"There it is!"

I can sense the power of Starlight in the distance, but it's very weak. It seems to be blocked by something. I don't know if I can break through it. Yuan gaohan was overjoyed.

if we can't clean up the things that are released from inside," Yunxiao said worriedly, " will we be considered to have made a big mistake? "

Yuan gaohan's heart skipped a beat, but he immediately smiled and said, even if the sky falls, there will be someone tall to hold it up. What are you, a mere martial arts Grandmaster, worried about? "

you are from the sacred zone, and the sacred zone is the leader of the world. Don't you have any sense of responsibility? " Yunxiao frowned.

Yuan gaohan was stunned for a moment before his face immediately turned serious,"Of course I have a sense of responsibility! Do you know how many ninth tier profound armaments can be forged from so much Northern heaven frigid Star Iron? It could even raise the strength of the experts of the entire realm of heavenly martial arts to a higher level! I'm taking this Northern heaven frigid Star Iron back to the sacred zone. This is my responsibility! As for if there really is something extraordinary inside, there will naturally be Saint domain experts to come and clean it up!"

'Well, forget it, let's not talk about this,' Yunxiao said. Let's talk about how we're going to split the northern heaven frigid Star Iron."

"What? Distribution?"

Yuan gaohan's eyes bulged as he called out in a strange voice,"Don't tell me you still want this Northern heaven frigid Star Iron?"

Yunxiao's mouth was wide open as he stared at him for a while and said, " "Tsk! There's nothing to talk about, you can play by yourself. I'll be leaving first, bye."

He turned around and was about to leave, looking for an exit alone.

Yuan gaohan hurriedly stepped forward and stopped him,"Wait, weren't you talking about responsibility just now? As a Saint, I now order you to cooperate with me in collecting the northern heaven frigid star metal. It is your duty!"

Yunxiao looked at him as if he were a fool and said with disdain, " Dumbo, dumbass, did you freeze your brain when you saw the northern heaven frigid Star Iron? "

Yuan gaohan flew into a rage. He was really scared to be left here alone. Whether it was to collect the northern heaven cold star Iron or to set up a teleportation escape formation, he needed someone to cooperate with him. He said coldly, now that you don't have the soul devouring banner, your strength is greatly weakened. You still dare to challenge me like this? "

it's useless if it's gone, " Yunxiao said. I picked it up.

Hey, hey, you're not a disciple of the soul Devourer sect? " Yuan gaohan's mouth was wide open, and he felt a little dizzy. Under the tyrannical power of the soul devouring banner, he had been tricked into using the Starlight soul refining technique and the profound meaning of three ancient scriptures. Now, he was actually saying that the soul devouring banner was picked up by someone.

Yunxiao rolled his eyes at him and said, " I'm just a martial Grandmaster. How can I refine a ninth-tier soul devouring banner? and you're a ninth-tier Alchemist?! In the past, I thought you were a fool because you were wise, but now I know you're really stupid."

"Yingluo, which force are you a disciple of?" Yuan gaohan asked.

I'll tell you so that you'll remember it, " Yunxiao said. then, when you go back, you'll come to me with the people from the sacred zone to settle the score with me? "

Yuan gaohan,"hehe."

alright, you can go and get the northern heaven frigid Star Iron yourself. My mother is calling me home for dinner.

Yunxiao waved goodbye to him and flew straight into the distance.

Yuan gaohan was dumbfounded on the spot and hurriedly chased after him,"Don't go! I'll give you one!"

Yunxiao stopped, looked at him coldly, and snorted. "You're giving me one of the seven?"

Yuan gaohan suppressed his anger and gritted his teeth, "Don't tell me you want to split it with me? You have to know that this Northern heaven cold star Iron is the world's wealth, and we can't take it for ourselves!"

"Bye!"

Yunxiao interrupted him and flew away, not bothering to pay him any attention.

Yuan gaohan only felt like vomiting blood, but he was a spirit body and really couldn't do it. His head was a little dizzy, so he gritted his teeth and said, "Good, good! Three-four, three-four!"

Yunxiao stopped and sneered, "Old Yuan, we're all smart people. I hope you won't act dumb in front of me in the future, or I'll look down on you."

"You coward!"

Yuan gaohan was truly quite angry, but he was helpless.

The two of them then separated to a spot a hundred meters away from the ancient tower and began to set up the instant teleportation formation. This kind of formation consumed a lot of primordial stones, and the requirements for the person who set up the formation were extremely high. But for Yuan gaohan, it was naturally not a problem. With his current soul power of an eighth-tier Alchemist and the knowledge of two ninth-tier alchemists, he could quickly complete the arrangement.

This made Yuan gaohan feel an inexplicable panic about Yunxiao's strength. In some details, the other party's observation and technique were even better than his, which made him feel a great sense of frustration. Moreover, he was even more shocked to find out that this was happening to a teenager than to see the ancient Pagoda.

"Yeah, why are you staring at me?"

After the array was set up, Yunxiao looked at Yuan gaohan's embarrassed face.

"It suddenly occurred to me that if this ancient Pagoda were to suppress someone, it should be suppressing a monster like you!" Yuan gaohan said.

Yunxiao, 'hehe'.

The two of them slowly gathered their thoughts and flew back to the surroundings of the ancient tower. They began to carefully observe the seven pieces of Northern heaven frigid Star Iron. Since such a treasure was used as the seal's eye, the seal was definitely not weak. Even if it had experienced countless years, it could not be underestimated.

Yunxiao gently pointed forward, and a beam of light shot out from his fingertip. The patterns on the seven stone pillars flickered, and an invisible defense immediately appeared, blocking him and making him disappear.

"Don't move!" Yuan gaohan angrily shouted. You'll get me killed if you do this!"

there's no need to look at it," Yunxiao said. these seven Pillars form a strange formation. Although it is simple, it is very practical and does not require any primordial Qi, because no matter how much primordial Qi you have, it will be exhausted one day. But, these seven huge pieces of Northern heaven frigid Star Iron can support you for countless years, until the ancient tower and the things inside it are destroyed.

Yuan gaohan was taken aback, and after looking at it carefully for a while, a look of horror appeared on his face. It was known that every Alchemist was a master of arrays, and if he was not as good as this young man in the field of arrays, it would be really terrifying!

But the reality in front of him was just that terrifying!

"Let's begin. Since it's a Zheng Qi formation, it shouldn't be hard to break it."

Yunxiao was fully prepared and said, "Leave immediately after you're done with the seven pillars!"

Yuan gaohan nodded solemnly, and the two of them immediately stood on either side of the ancient Pagoda, raising their strength to the maximum.

“Let’s start!”

Yunxiao gave a loud cry as he circulated his soul power to the maximum and performed the great expansion divine technique in his hand, immediately slapping it on the three Northern heaven cold star Iron next to him!

Yuan gaohan was in front of him and was blocked by the ancient Pagoda, so he naturally couldn’t see his skill. He also used a powerful soul technique to sweep away the four pillars.

Under the combined attack of the two, the seven pieces of Northern heaven cold star Iron finally began to shake violently.

“Demonic Dragon, immediately merge with me!”

Staring at the northern heaven cold star Iron that was slowly being pulled out of the ground, Yunxiao immediately sent a voice transmission to the Dragon, and there seemed to be a hint of urgency in his tone!

Chapter 499-something big happened

The demonic Dragon was cultivating with his eyes closed. He opened his eyes in surprise and asked, “What’s wrong? There’s nothing unusual. Your soul power should be enough to collect these three pieces of Northern heaven frigid Star Iron.”

After all, Soul Fusion was not a good thing. If it happened too many times, it would be more difficult to separate them in the future.

Yunxiao’s eyes flickered as he said anxiously, “ don’t ask so much. I feel that something is very wrong. These seven pieces of Northern heaven frigid Star Iron seem to be contaminated with demonic Qi, which makes me very uneasy!

The demon Dragon was taken aback, but without a word, it immediately merged into Yunxiao's soul and began to demonize him. With the fusion of the souls, he also felt the Restless demonic Qi, and his heart was bewildered.

On the other side, Yuan gaohan did not have much reaction. Because of the ancient tower, he could not see Yunxiao's demonized appearance. Instead, he was concentrating on collecting the four pillars, and he was constantly thinking about how to snatch the three pillars from Yunxiao after they escaped.

Whoosh, whoosh, Whoosh!

The three chains on Yunxiao's side were pulled out in an instant and shot up, causing the chain to clang and sway in the sky.

Yuan gaohan was shocked. How could he be so fast?

The three pillars soared into the sky, pulling the four pillars on his side and shaking them. Yuan gaohan exclaimed, "This chain is also not made of ordinary materials. I'm afraid it's not easy to repair."

"Clang"

Before he could finish, he heard the sound of the chain breaking. Yunxiao had actually broken it by force, and three pieces of Northern heaven frigid Star Iron floated into the sky.

"Why is this Kasaya so easily broken?"

Yuan gaohan was startled, feeling an indescribable strangeness. His eyes fell on the iron chain, and it was indeed a ninth-tier material without a doubt. There was even a black light on it, giving off a kind of cold feeling.

He looked up and saw Yunxiao walking toward the teleportation array with the three pieces of Northern heaven cold star Iron. His pupils constricted as he immediately noticed the Signs of Demonization on

Yunxiao's body. you still dare to lie to me that you're not a disciple of the soul Devourer sect? if this isn't a soul battle technique, what is it? "

Yuan gaohan also casually waved his hand, and the four pillars, which had long been swaying, immediately shot up into the sky with a pull of his powerful soul power. Moreover, the chains binding the four pillars in the middle broke off on their own in the process of shooting up into the sky.

The crisp sound of the chain breaking rang in Yuan gaohan's heart, and suddenly, he understood something. Looking at the broken chain, he suddenly sucked in a breath of cold air and felt a chill run down his spine!

"It's actually corroded by the demonic Qi!"

He suddenly felt as if he had fallen into an ice cellar. He looked up at the ancient Pagoda in horror and saw that the devil Qi that was constantly surging out seemed to have changed and stopped.

However, this was only the calm before the storm!

The demonic Qi stopped for a few seconds, and the ancient Pagoda began to shake violently. Yellow sand was swept up, the earth shook, and the mountains shook. The sky suddenly darkened, and layers of dark clouds gathered and rolled.

"?!"

Yuan gaohan was so frightened that he hurriedly rushed up, using his soul power to wrap around the four pieces of Northern heaven frigid Star Iron and quickly travelling through the air. The demonic Qi that could corrode ninth-tier materials and cause such a huge phenomenon, the thing inside definitely wouldn't be simple. This time, it was really something incredible!

When he saw that Yunxiao had already arrived at the teleportation array, he shouted angrily from a distance, " "Did you already see through it? You didn't even inform me!"

Yunxiao had already put the three pillars into the divine realm tablet and snorted coldly, "Would you give up if I told you? Stop talking nonsense, I don't have time to wait for you, I'll be leaving first!" After he finished speaking, he quickly cast a spell and started to activate the teleportation formation.

Yuan gaohan was shocked and flew with all his might, almost burning his soul to sprint. In a few blinks of the eye, he landed in the teleportation array.

If Yunxiao was teleported away alone, he would be finished. After entering the formation, his eyes were burning with anger.

Yunxiao ignored his emotions and quickly activated the array. The feeling he got from this place was getting worse. The ancient tower in the distance was shaking too hard, and demonic Qi kept rushing out and condensing in the sky. This scene was almost exactly the same as the divine Palace on Mount Meru!

"What's going on?"

Suddenly, Yunxiao's heart jolted as he looked at the formation around him in horror. It had begun to twist, and the golden light was flickering. The space trembled as the ancient Pagoda shook.

not good, the spatial passageway created by the formation is about to collapse. Let's go!

Yuan gaohan let out a roar of shock and quickly formed a seal into the array, increasing its speed! The space here had always been extremely stable. He didn't think that the ancient tower would become so fragile when something happened.

"Boom boom boom!"

The ancient Pagoda shook violently and finally couldn't hold on any longer. It exploded. An extremely powerful force spread out from the ancient tower, and the space shattered inch by inch. It fluttered like paper and was finally annihilated.

With a flash, the array where Yunxiao and Yuan gaohan were located shrank into a spot of light in an instant, then disappeared from the space with the two of them, teleporting into the distance. The place where they had been standing was instantly shattered.

The two of them felt an unusual pressure in the light. The power of teleportation was extremely harmful to their bodies, but it was not to the extent that they could not bear it. Moreover, the two of them had already calculated the distance when they set up the formation, but this time, they clearly felt that it was about to collapse.

“What’s going on? Why is the pressure so great?”

“You’re asking me, but who should I ask? You have an eighth-level Starlight soul body. Did you do anything to the formation?”

“Be your sister! I’m about to break down!”

“If you die, your main body will still be there, but if I die, I’ll be completely dead! Oh no, it’s a spatial storm that’s coming!”

As the two of them communicated with their divine sense, they had already covered a distance of several miles. The impact of the collapse of the ancient Pagoda had caused the entire space to collapse, sweeping in all directions.

At this moment, the crocodile that was sleeping on the ruins suddenly opened its eyes. Its limbs kept shaking, and its head shook. It even raised its head and roared towards the sky. Its eyes were filled with pain, and its body grew rapidly.

“Bang!”

With a huge explosion, its entire body exploded, turning into countless sharp squalls that spread across the ruins.

Within the astral winds, a large amount of black gushed out. It was actually the endless void that was expanding!

A beam of light shot out from the black void. It instantly pierced through the power of the astral winds and shot thousands of meters away. The two figures separated from the light and rolled in the air in a sorry state.

They were Yunxiao and Yuan gaohan. One of them had a pale face and his skin was torn apart, looking terrible. The other one was dim and wavering, like a dying star that was about to fall at any moment.

The two of them looked at the ruins in the distance in horror. They had been completely swept into the astral wind. A large amount of black demonic Qi seeped out of the huge astral wind and slowly condensed into a completely black, faceless human form. It stood quietly on the ground.

“As expected, it’s suppressing a great demon!”

“Looking at his appearance, it seems that he doesn’t have enough strength,” Yuan gaohan said in horror. “He can’t even form his true body in a short time.”

The demonic Qi on the demon’s face was constantly changing. All kinds of faces flashed by, unable to be fixed.

At this time, the violent astral wind gradually shrank and became smaller. It turned back into the crocodile, which lay on the ground and stared at the demon with a fierce look. Its eyes were full of hatred and hostility.

“Gulp!”

Yunxiao suddenly gulped, feeling a dryness in his throat. The demon’s appearance was finally taking shape. What terrified him was that it looked exactly the same as di Jia. The only difference was that this demon was stronger, taller, and the evil aura on its face was even more intense!

“Old Yuan, did the records of the sanctum ever mention that the people of the ‘devil’ race all look the same?”

“Eh? Why did he ask this? I don’t think so, how could there be such a thing?”

then, if you see two demons that look the same, but one is taller and stronger, will they be twins? ”

“I really don’t know. Why are you asking about these strange things?”

Yuan gaohan’s eyes bulged as he looked at the stars around him and worriedly said, “What you should be thinking about now is how to get back. This is the ancient Barrens land, a vast starry sky. Is there a way back?”

No. Yunxiao shook his head and said, “ you didn’t leave a backup plan when you came up, did you? ”

“I’ve already calculated the time,” Yuan gaohan said with a bitter smile, “I’m planning to send some Nine Heavens experts to pick me up once the time is up, and then directly cross the Milky Way and return.”

Yunxiao’s heart went numb when he thought of the terrifying energy wreaking havoc in the Milky Way that spanned the starry sky. Now that he had lost Noah’s ship, he really had no idea how to return to the earth.

The great demon in the distance seemed to have gradually stabilized. He looked around and saw the connected primordial ruins. He was stunned and tilted his head in deep thought.

The crocodile did not move. It stared at him with fear in its eyes.

“How long have I been locked up?”

The demon suddenly asked. His voice was not loud, but it echoed under the starry sky and clearly entered Yunxiao and Yuan gaohan’s ears. The two men’s faces changed, and they quickly retreated in shock.

The demon was stunned for a moment. He didn't expect the two of them to react like this. A sinister smile appeared at the corner of his mouth. He stretched out his hand and grabbed in the air. Suddenly, the space in the sky kept shrinking to inches, like a piece of cloth being pulled. No matter how far Yunxiao and Yuan gaohan flew, they were being pushed back!

"Earth shrinking technique, so close yet worlds apart!"

Yunxiao was horrified as he watched himself being sent flying back to the ruins of the ancient Barrens, his heart sinking.

He was greedy for that ninth-tier material. As expected, something big had happened!

Yuan gaohan had the same thought as him. The two of them were like two small boats in the waves, unable to control themselves, allowing the wind and rain to beat them. Under the demon's grasp, they fell into the ancient desolate land.

"Roar!"

just as the two of them were falling into the ancient desolate land, the crocodile suddenly moved. It roared and charged at the demon.

Chapter 500

?

500 Ancient gods "battlefield

The crocodile's body instantly turned into a strong wind that covered the sky and the earth like a rising tide. It rose from the ruins and swept forward. In an instant, it had covered more than a hundred meters. Everything it passed by turned into dust. It was extremely powerful!

Unmoving like a mountain, but moving like thunder!

It had an elemental body, and it was an overbearing element that was close to the origin of wind, the immemorial astral wind. Even the experts of the nine Heavens realm did not dare to block its edge. With a move, it immediately suppressed the monstrous demonic Qi.

Yunxiao and Yuan gaohan felt the force pulling the space suddenly disappear, and they fell to the ground gently. Taking a deep breath, they hurriedly transformed into two beams of light and fled toward the Milky Way in the distance.

As long as he could cross the Milky Way, he could escape back to the realm of heavenly martial arts. If he was caught by the demon, he would most likely die.

From the looks of it, the space that they had just sealed was inside the crocodile's stomach. The crocodile was not a true spirit that was specially cultivated. It was probably used to seal and guard the ancient tower. This was why he attacked the demon the moment it appeared.

Now, while they were fighting, it was the best time to escape!

“BOOM!”

The crocodile's sudden attack shocked the demon. The true spirit condensed from the elements was extremely powerful. Although the crocodile had not reached the true spirit realm, the demon did not dare to underestimate it. Besides, it had been sealed for God knows how long, and its power had long been depleted.

Although the demon was shocked, he didn't panic.

Under the monstrous astral wind, he formed an incantation gesture with one hand, and a huge demonic shadow appeared behind him. It gave birth to endless demonic Qi, and it actually appeared to have three heads and six arms.

If Yunxiao had not fled, he would have been shocked, because the demon's move was the same as di Jia's. Its six arms seemed to be holding some kind of weapon, but they were only faint shadows and could not condense into a real body.

The demon made a strange seal with both hands. The six arms of the shadow of the demon also performed different techniques at the same time. Circles of demonic Qi shot out from his body, forming a round protective shield with a diameter of more than ten meters. It was extremely sharp.

“BOOM!”

The astral wind came crashing down fiercely. It was as if the Milky Way in the nine Heavens had landed on a huge black Rock, sending up countless flower-like elemental powers.

However, these elemental powers did not disperse. Instead, they were controlled by the crocodile's consciousness and turned into countless tiny tornadoes. They fell on the demonic Qi barrier and attacked the defensive power. They continued to merge with each other and grew bigger and bigger!

The great demon's expression finally changed. The devil form was the strongest power he could use at the moment, but under the attack of the crocodile with the strength of the nine Heavens realm, he couldn't hold on and finally shattered with a bang.

A large amount of black gas exploded, and the entire ruins were filled with a black mist that continued to spread.

After the astral wind broke through the barrier, it landed on the ground and transformed into the shape of a crocodile. It didn't relax at all and was even more serious and vigilant as it looked around.

In the darkness, its vision was not affected. Its eyes were like a pair of searchlights, looking around. It had completely defeated its opponent with that move just now, but the result was that it was trapped in the monstrous demonic Qi.

Rings of subtle astral wind power spun around the crocodile, shaking off the demonic Qi and protecting its body from being eroded.

High in the sky, the demon's face slowly emerged and condensed into a head. It looked into the starry sky and frowned when it saw Yunxiao and Yuan gaohan running away. But, it did not have the time to think about it. Instead, it turned to look at the crocodile in the monstrous demonic aura, its eyes flashing with a fierce light.

“Roar!”

the crocodile raised its head and roared. Its body once again exploded into astral wind, instantly blowing away the demonic energy. It formed a giant crocodile head in the sky and bit towards the demon.

The ruins were filled with two forces intertwining with each other, constantly wreaking havoc and eroding each other.

The demon's expression changed. His demon Qi was supposed to be invulnerable. Even if it was an ordinary wind element, it could directly devour and absorb it. However, this power that was close to the elemental origin was not only devouring, but also constantly eroding his demonic energy.

it's been too long. Am I left with only this little strength? ”

The great demon's face was filled with distress. He suddenly condensed his hands and constantly changed his hand seals, forming a strange symbol on his palms. He condensed the three-headed and six-armed Dharma again. He didn't know where it came from, but it drew a large amount of demonic Qi and became stronger and stronger.

The crocodile also noticed it. Two rays of light shot out of its eyes, and a hurricane suddenly split into two, then two, and then three. It split into countless tiny astral winds, blowing away all the black demonic Qi above the ruins. Even the three-headed and six-armed Dharma form collapsed instantly!

The big demon went berserk. As he roared, the demonic shadow on his body extended an arm. An ancient tower gradually condensed on it and became solid. It was the ancient tower that had suppressed him earlier.

” you actually shattered my ancient gods battlefield and used the core tower to suppress me, but you didn't know that this would give me a chance to recover!

He quickly mumbled something, and the ancient Pagoda flew out of his hand. It shot into the starry sky and condensed into thousands of rays of light.

At this moment, the land floating in the starry sky seemed to be pulled by some kind of force and became restless.

The crocodile looked at the ancient tower in horror. It felt the earth where it was standing exude a powerful force that pushed it away.

Even Yunxiao and Yuan gaohan, who were running away, seemed to have noticed something and turned their heads to look back. They were so stunned that they almost forgot to run away!

Under the guidance of the ancient tower, the pieces of earth gathered from the clouds in the starry sky. They gathered together like a broken puzzle that was being pieced together.

The crocodile was so shocked that it turned into a strong wind and soared into the sky, trying to erode the ancient Pagoda.

The big demon snorted coldly. The three-headed and six-armed Dharma form appeared and rushed toward the astral wind. The two colored powers immediately collided once again, entangling and eroding each other. Although the demonic Qi was repeatedly at a disadvantage, it seemed endless!

The crocodile was unable to get close to the ancient tower and could only roar continuously.

The surrounding land continuously joined together, and a strange spatial power began to spread out as if it was forming a domain of its own. It even released the power of the domain to suppress the crocodile.

The demon's eyes were filled with joy and he laughed, "Haha, the battlefield of the ancient gods. My battlefield of the ancient gods is not an ordinary holy weapon! In the long years, no matter how much it was shattered, it could still repair itself!"

His eyes turned to the direction where Yunxiao and Nangong wuque had fled, the other side of the Milky Way, and he said in a cold voice, "realm of heavenly martial arts, I, di Jia, have returned!"

In the distance, Yunxiao's body suddenly trembled as if he had heard the words. With a shocked expression on his face, he accelerated and arrived at the edge of the Milky Way in the blink of an eye.

"What do we do? Even the Emperor Qi of the nine Heavens can't withstand the various terrifying forces in the Milky Way, let alone us. How did you get up here?"

Yuan gaohan anxiously stomped his feet. The powerful aura emitted from the constant battle between the demonic Qi and the astral winds in the distance made him feel terrified.

Yunxiao's face turned pale as he said, "I was sent here on Noah's ship. Who knew that the outer realm space would be so dangerous? if I had known, I would've told him to wait for me!"

"Noah ... Noah's ship?"

Yuan gaohan's heart trembled and he exclaimed in horror, "Noah's ship appeared? Who has it now?"

Yunxiao stared at him coldly and said, "Is it a question you should be considering who has it? If you can't think of a way to cross the other shore, you'll be devoured by that devil."

Yuan gaohan's face turned green and white, secretly regretting his greed for the northern heaven frigid Star Iron. He didn't expect to release such a powerful fiend. It seemed that even the crocodile with its elemental body was not a match for it.

Yunxiao was also shocked as he watched from a distance. He did not hear it wrong. The demon did say 'I, di Jia', and it looked exactly the same as di Jia in Mount Meru. The three-headed and six-armed Dharma form he used when he was fighting the crocodile was also exactly the same.

He couldn't help but ask, "old Yuan, is" di Jia "a person's name or a form of address in the demon race?"

"Why do you care about this?" Yuan gaohan glared at him and angrily said. It should be a person's name, hurry up and think of a way to cross the Milky Way!"

I have an idea, ” Yunxiao said with a frown. but I don’t know if it will work.

“What? You have a way? Haha, then hurry up and use it! I don’t need to die now, haha!”

Yuan gaohan was just making a casual remark. He did not expect Yunxiao to really have a way, and he was overjoyed.

not only do I need your help, ” Yunxiao snorted coldly as he looked at him. I might have to make you suffer later.

“There’s no problem in helping! It doesn’t matter if I feel wronged. As long as I can get through this, I can accept any grievances!”

Yuan gaohan only wanted to protect his eighth tier Starlight soul body and was willing to give up everything else. Even if he had to offer up four pieces of Northern heaven frigid Star Iron, he would not even frown.

well, that’s good. Then come to my divine realm tablet!

Yunxiao’s face was expressionless, but a golden light flashed between his eyebrows.

Yuan gaohan was taken aback, not knowing what Yunxiao was going to do. He only felt a huge force trying to pull him over, so he naturally resisted it. But then, Yunxiao frowned and shouted at him, ” “Don’t resist, just let this Power Guide you!” Only then did he relax his mind, and it was immediately taken back into Yunxiao’s forehead.

Yunxiao’s eyes grew cold as he muttered to himself, ” “If it wasn’t for the fact that I had no other choice, I wouldn’t have taken you in. However, since you’ve already entered, don’t even think about leaving before I recover to the peak of the martial Supreme realm!”

With a flash between his eyebrows, the divine realm tablet shot out directly and stayed in the air like an ordinary Jade without any light. Then, he disappeared in a flash and entered the Jade tablet.
