

The Eternal 521

Chapter 521-willing to accept defeat

The last few moves of Yunxiao's illusive waves heavenly Sutra technique were as fast as lightning, so fast that Jin Xuan and the others could not even catch his afterimages. Finally, the pill was formed. A round pill spun in the air, emitting a surging pill fragrance and a warm light, making people want to swallow it.

Mo Huayuan was dumbfounded. Even he could not have done Yunxiao's last few moves in one go. It was a divine skill!

The entire room was abnormally quiet, not a single sound could be heard.

Yuan gaohan's voice rang out in the divine realm tablet, and he sighed, "So it's you. You're not dead, Gu Feiyang!"

Yunxiao's body trembled, and he knew that the other party must have seen through something. He smiled awkwardly and said, "Old Yuan, what nonsense are you spouting?"

Yuan gaohan didn't care about his cover-up and continued, that explains it. No wonder I always felt that you were unfathomable when I met you in the outer realm. From the age of your human cauldron, it seems that you are only ten years old. If you really have such an achievement, then countless geniuses since ancient times will feel ashamed of themselves.

He thought Yunxiao had seized another person's body.

why are you so sure that I'm gu Feiyang?" Yunxiao smiled. I'm gu Feiyang.

Yuan gaohan said, "the basic technique of the twelve styles of flying flower and falling snow. Even if my main body were here, I wouldn't be able to perform it better than you just now. Also, I've tried the final few moves of the illusive waves heaven's scroll art, but I couldn't do it in one go. However, you've displayed them in such a marvelous way. Don't you think it's very similar to the sentence he said when he was forging the sword to cut the stars in the sea of soul formation?"

Yunxiao smiled wryly. He could not think of so many flaws. After all, the other party was also an extraordinary person, and it was indeed difficult not to be seen through after a long time of interaction, so he simply admitted it. He smiled and said, "Now that you've exposed my identity, aren't you afraid that you'll never be able to leave this place?"

Yuan gaohan's expression was full of bitterness. I finally understand now. You said that you would let me go after recovering your strength, but it turns out that you want to recover to the peak of the nine Heavens. Even if I didn't expose your identity, how could you let me go with the great secret of the divine realm tablet? "Only when you return to the peak of the martial Supreme realm, with this Saint weapon in hand, will there be no more worries in the world. That will be the time when I regain my freedom."

"Haha, old Yuan, don't be so sad. Anyway, you're cultivating in the starry sky outside the universe, and you're also cultivating in my divine realm tablet. Besides, it's good for everyone to have more exchanges."

don't you want to participate in the restoration of the divine realm tablet? " Yunxiao encouraged. do you want to give up? "

Yuan gaohan was silent for a moment before he said, " actually, if you go to the sacred zone and find my main body and let me return to my main body, I'll be willing to repair the divine realm tablet with you. After all, this kind of opportunity doesn't come by in any era. You don't have to worry about anything. Furthermore, my main body is here, so I'll have a greater chance."

but I still hope it's safe, " Yunxiao said with a smile. I'd like to play it safe. The Holy region was a place where one might not be able to return. With the two of us, it's not difficult to repair the divine realm tablet. After all, I have the great realm divine technique. There are hundreds of ancient scriptures in a Divine Art. Don't you want to comprehend them? Don't even think about going back. I won't let you go before I return to the peak of the martial sovereign realm."

Yuan gaohan's heart trembled. When he thought of the great realm divine technique, his heart burned with passion. however, Qianqian, your body was taken over. The lifespan you can use is very limited. It's impossible for you to return to the peak of the Martial Emperor realm. You should be very clear about this.

don't worry, " Yunxiao said. I didn't possess this body. It's my own.

“What?”

Yuan gaohan raised his head in shock, his eyes filled with shock and confusion.

Yunxiao shook his head. I don't really understand this myself. Let's put it aside for the time being. We'll talk about it after I've dealt with your disciple. His soul-form disappeared from the divine realm tablet and returned to his body.

Yuan gaohan fell silent, his face still filled with shock, unable to accept the current situation.

Yunxiao grabbed the pill in the air and held it in his palm as he looked at mo Huayuan, who was dumbfounded. “Master mo, which of the two pills is higher in quality?”

Hanxuan and Xiao Xuanzi were extremely nervous at this moment. They discovered that these two four revolution true pills were actually Supreme-grade existences, and their appearance and fragrance were almost identical!

All three of them, including Wu Chen, found it very difficult to understand how Yunxiao could refine a pill of the same quality as mo Huayuan.

Mo Huayuan, on the other hand, was dumbfounded. Hanxuan and the other two could not tell, but he knew very well that the quality of his four-revolution true pill was slightly inferior to Yunxiao's. With his strength, he could have refined a stronger quality, but due to his lack of combat experience, he had made mistakes one after another. If Yunxiao had not reminded him in the middle, he would have lost even more miserably.

Although he was unwilling to accept this match, he was sincerely convinced.

“You've won, I've lost,” he said bitterly.

Mo Huayuan had lost? Hanxuan and the other two were instantly petrified, as if they had lost their consciousness. They couldn't accept this fact!

master, how can you lose?" little Xuanzi said anxiously, " the quality of these two pills is about the same! His heart was filled with anxiety. Mo Huayuan's admission of defeat would be a great blow to his reputation.

Mo Huayuan shook his head. in terms of quality, this master's is indeed superior. If it wasn't for this master's reminder during the entire process, I'm afraid I would have lost completely. A strange look flashed in his eyes as he raised his hands over his head and bowed to Yunxiao, saying respectfully, " mo Huayuan is willing to accept his loss. After witnessing master's amazing skills today, he finally realized that he's just a frog at the bottom of a well. He's a laughingstock!

His bow made Hanxuan and the other two even more uncomfortable, and they felt extremely uncomfortable and awkward.

Yuan gaohan was silent, instead nodding with a smile of relief. Giving him a blow after reaching the eighth step would be extremely beneficial to his future growth. Moreover, this person's identity was actually Gu Feiyang, so he was worthy of his bow.

Yunxiao naturally accepted the bow and said, " Hehe, it's just that I've been single for so many years, so my hand speed is fast."

Hanxuan asked Wu Chen in surprise, " What does being single have to do with fast hand speed?"

Wu Chen's face was slightly red. He said awkwardly, " this ... This Wanwan. I'm not very sure. His forehead was covered in cold sweat.

Mo Huayuan lifted his body, his face filled with desolation as he laughed bitterly, " but ... a golden light suddenly flashed in his hand, and the cold Pearl dagger on the table appeared in his hand, and he swiped it across his neck!

"Bang!"

Yunxiao flicked a finger and knocked the dagger away. A look of surprise flashed across his face as he said with a smile, " You know I'm fast, but you still want to commit suicide in front of me?"

“Master!” Little Xuan was shocked, and hurriedly ran forward to pick up the cold Pearl Gu that had fallen to the ground and hid it, “Master, what are you doing?”

Hanxuan and Wu Chen were also shocked. They looked at each other and didn’t know what was going on. Could it be that he couldn’t accept the outcome of just one win?

Yuan gaohan was also stunned, and then anger appeared on his face.

Mo Huayuan raised his head in shame and anger as he glared at Yunxiao and said, “I lost to you, so I have to follow your orders. However, I can’t violate the agreement between me and the thunderwind Chamber of Commerce. Therefore, the only option is death!”

“Master mo, with your status and your master’s status in the Holy region, is there anything in the thunderwind Chamber of Commerce that can threaten you?” Hanxuan was shocked and cried out. You would rather die than help me?”

Her heart continued to sink.

“Don’t ask anymore,” mo Huayuan said dejectedly. just kill me,” he said to Yunxiao. I can’t help The Purple Cloud trade union.

Yunxiao frowned slightly. After pondering for a moment, he sneered and said, “You can’t even beat me, so how can you help The Purple Cloud trade union? you don’t have to worry about this. I have something else I need you to do.”

“Other things? You really don’t want me to help The Purple Cloud trade union?”

Mo Huayuan was in disbelief. Suddenly, as if he had thought of something, his expression darkened. “I also don’t know anything about my big brother!”

Yunxiao had a headache. This was one of the things he had planned to ask, but when he saw mo Huayuan's look, he gave up and said, "If it wasn't for Yuan gaohan, I really wanted to beat you to death with my hammer. Forget about all this, you just have to help me teleport to Yufeng city."

"You know my master?"

Mo Huayuan sized Yunxiao up in disbelief. Although he could not believe it, he was also a little suspicious. After all, an Alchemist who could cultivate such an outstanding talent could not be a nameless person, so it was very likely that he had met his master.

At the thought of this, his attitude toward Yunxiao softened. "To get to Yufeng city, we have to go through the long distance teleportation formation of the thunderwind Chamber of Commerce or the Big Dipper sect. It's not a difficult task for me. I promise you, when are you leaving?"

At this moment, he could not wait for Yunxiao to leave as soon as possible, so that the bet would be completely invalid.

Yunxiao pondered for a moment. When he saw the anxiety on Hanxuan's face, he said, "In a few days. There's no hurry anyway. Reporter, other than those two matters, as long as I'm in Southfire city, you must listen to me on everything else."

of course! mo Huayuan nodded. I, mo Huayuan, am not a man of my word!

After saying that, he looked at Yunxiao's mocking eyes and blushed. "It's because I've promised the thunderwind Chamber of Commerce. I can't do anything."

Yunxiao did not bother to argue with him, but he could tell that The Purple Cloud Chamber of Commerce was indeed in a very dangerous situation. The thunderwind Chamber of Commerce had made up their mind to eliminate them, and they had thought of all possible situations and cut off their retreat.

Judging from mo Huayuan's situation, The Purple Cloud trade union seemed to be in greater danger than she had imagined. Hanxuan's face darkened.

Chapter 522-three days

The three of them left Mo Huayuan's residence in silence.

Hanxuan and Wu Chen's faces turned even uglier, and they were no longer as casual as before. There seemed to be an additional layer of estrangement between them, making them look very reserved. This was perhaps the only thing that the two women were happy about. With Yunxiao's skill, he would definitely be invincible in the alchemy competition held by the Chamber of Commerce.

"Hanxuan, don't show such a bitter face, or you'll get old easily."

"We are friends after all," Yunxiao said with a smile. "I'm not used to you being like this."

Hanxuan forced a smile and said bitterly, "It seems that this disaster is inevitable. I only hope that young master Yun can show his power in Songyue City and keep Tianyuan Trading Company's position. In this way, The Purple Cloud Trading Company will have a chance to survive."

"She said to Wu Yan, 'Immediately pass down the order to gather all the businesses of the Chamber of Commerce and cut off all the losses. Try to recover as much capital as possible.' This time, we're doomed to lose. We'll try our best to preserve our strength and hope that Dong Mountain can rise again with the help of Tianyuan Trading Company."

Wu Chen shed two streams of tears and said, "Guild leader, it's all my fault for being useless. I made a mess of Southfire City's Affairs and didn't even have a friend who was willing to help us."

"The world has always been like this," Hanxuan sighed. "There are many who are willing to add flowers to the brocade, but there are few who are willing to send charcoal in the snow."

A sorrowful atmosphere lingered in the hearts of the two, and they could not help but shed tears.

Yunxiao could not stand it anymore, so he said with a smile, "Do the two of you need to be so sad? Bring me all the recipes of the Chamber of Commerce's products, and I'll help you improve them within three days. I'll definitely beat the new shop."

“All the recipes in three days?”

in three days,” Wu Yan said, “if we can get more recipes for our core products than the ones for the sky crane trading company, we can still survive for a while until the situation at Tianyuan trading company stabilizes.

“The sky crane merchant Association? The name of the new Chamber of Commerce? Don’t worry, it’s just a sockpuppet that the thunderwind Chamber of Commerce has put forward.”

all you need to do is provide me with a large number of Starlight stones and primordial stones,” Yunxiao said with a disdainful smile. I’ll get it done in three days.

“Starlight Stone?” Hanxuan asked in surprise. What did young master Yun want that thing for? It’s not a precious material.”

the more the better,” Yunxiao said with a smile. give me as much as you can.

Yuan gaohan’s voice came over, carrying a trace of displeasure as he angrily said, “Gu Feiyang, don’t tell me you want me to do the hard work and improve dozens of recipes for them in three days?”

they’re all low-level recipes,” Yunxiao said through voice transmission. you can change them with a few casual glances. Don’t you need Starlight stones? You can see that I’m very poor. If I don’t help, how can I help you?”

Yuan gaohan’s face turned red with anger, but he had nothing to say. People under the eaves had no choice but to do hard work.

All of a sudden, little Xuan caught up to her from a distance, took out a storage bag, and handed it to Hanxuan. He kept bowing and apologizing, “sister Hanxuan, little Xuan was insensible before. Please be magnanimous and don’t lower yourself to my level.

After apologizing, the kid ran away without waiting for Hanxuan to say anything.

After Yunxiao defeated mo Huayuan, he did not dare to take Hanxuan's things anymore. They were like hot potatoes, so he finally made up his mind to return them to her.

Wu Yan was annoyed. this kid is too slippery. He's so snobbish at this age!

Yunxiao smiled meaningfully. he is Yuan gaohan's grand-disciple, and this is passed down from generation to generation. Perhaps Yuan gaohan likes this kind of thing.

"Bullshit!"

"The first thing I'm going to do after I get out of here is to get Huayuan to kill this brat!" Yuan gaohan said angrily. This kind of scum can't be left in this world!"

Little Xuanzi's life and death were decided by Yunxiao's teasing words.

Hanxuan also felt helpless. Shaking her head, she took out three Golden Jade slips from her ring, and after a little hesitation, she handed them to Yunxiao. A golden light rose from the Jade slips and then dissipated."These are the recipes for all the products of The Purple Cloud trade union. They are very detailed. It was originally a priceless treasure, but now it's equivalent to trash."

Every Chamber of Commerce had its own main products, which had been carefully studied and improved by countless generations of alchemists. They were the most confidential and precious treasures of any Chamber of Commerce. Hanxuan had also added a spirit sense mark on the three Golden Jade slips, which could be destroyed with a thought.

yes, don't worry. We'll get the results in three days.

go and prepare," Yunxiao said. give me Starlight stones and primordial stones in three days. As many as you can. Just do your best and don't affect your normal operations. I still have some things to do, so I'll take my leave first."

His long robe fluttered as he strode away.

Looking at Yunxiao's departing figure, Wu Chen was a little worried and said, "President, is this person really reliable? such an important alchemy recipe, even if it can't be compared to the sky crane business Council now, it can still be sold for a sky-high price if it's spread."

"With his strength that can defeat master mo, why would he need to covet our recipes?" Hanxuan shook her head with a bitter smile. She had no other way now, so she could only trust Yunxiao. However, she did not believe that he could develop all the improved recipes in three days. She only hoped that he could improve the core products so that The Purple Cloud trade union could last a little longer.

After the two of them left, Yunxiao handed the three Golden Jade slips to Yuan gaohan.

Although Yuan gaohan was extremely reluctant, he knew that he was already in the same boat as Yunxiao. Only by helping him with all his might could he have a chance to get out of here as soon as possible. Furthermore, all the cultivation resources from now on-the Starlight stones-could only be provided by him.

Yunxiao was now the richest pauper, with a body full of shocking treasures, but he could not even take out a few primordial stones.

He soon returned to the inn where Mei Dong 'er was staying, only to find that the place was empty. There was only a piece of paper left on the table, on which he wrote that he had returned to the Big Dipper sect and that he would definitely fight for the opportunity to use the teleportation array, so Yunxiao could wait with ease.

Yunxiao pondered for a moment, and the note burned under his gaze, turning into ashes.

Then, a green light flashed in his hand and a strange stone appeared. It was the green nether stone that he had extorted from Liang Kuan.

The quality of the stone was indeed not very good. After observing it for a while, Yunxiao held it in his hand and gently shook it with his primordial energy. Immediately, countless cracks appeared and began to peel off layer by layer.

Soon, after nearly two-thirds of it was peeled off, another color, like brass, was finally revealed.

Yunxiao's pupils constricted as he immediately saw the material of the yellow core. It was by no means brass, but copper and gold, which were more precious than netherstone.

After the entire copper and gold was stripped off, it turned out to be a doll the size of half a palm.

Yunxiao was taken aback. He did not expect that there would be such a thing inside. When he scanned the green Hellstone with his spiritual sense, he felt that it was strange. This doll was obviously placed there by someone and was definitely not created by heaven and earth.

He studied it for a while and seemed to have discovered something, but he was unable to grasp the main point.

After some thought, he directly threw it to Yuan gaohan, while he sat down and started cultivating. Yuan gaohan was now his personal Alchemist, so he did not need to be polite.

The next day, Yunxiao opened his eyes and disappeared from the room in a flash, heading in the direction of the Big Dipper sect.

The Big Dipper sect's inter-sect competition was an extremely grand event in the entire Southfire city. At the same time, various forces were invited to watch. It was also an opportunity to prove the strength of the sect, allowing some outstanding disciples to gradually appear in front of the large sects.

In addition to the invited major forces, there were also many martial artists who took the initiative to visit, which was also a good opportunity to exchange insights.

Yunxiao met many Warriors along the way, and soon, he was traveling with a few people.

the Big Dipper sect and the heavenly Scorpion sect have a competition every two years. There's also the thunderwind Chamber of Commerce's auction. It's the biggest event in nanhuo city and attracts countless people's attention.

A stubbled man dressed in a tiger-type demonic beast's fur coat spoke with great interest.

There were a total of five people in their group. The other four seemed to be foreigners, so he was like a guide, satisfying his mouth.

The strength of the five of them hovered around the low-level martial arts Grandmaster. Birds of a Feather also gathered together. The gap in cultivation caused an extremely strict ranking. Those who were stronger disdained to be associated with them. And those who were not strong enough were not worthy of their attention.

"The competition in the Big Dipper sect is extremely brutal. The top ten disciples in every great competition can become the sect master's direct disciples. There would also be a competition among the many personal disciples of the sect master, and the last ten would be eliminated. It is precisely because of this cruel environment that the Big Dipper sect was able to produce so many talents and maintain its position as the number one power in Southfire city for several thousand years."

The man's eyes were filled with envy as he said, "As the sect master's direct disciple, there are no restrictions on the supply of vitality stones for cultivation. As for the various medicinal pills and spiritual herbs, they are also ten times more than ordinary elders' disciples. If I had such resources, I would have reached the Martial Emperor realm long ago. I wouldn't have been stuck in the five Element realm for more than ten years."

in that case, why don't you join the Big Dipper sect?" Yunxiao asked. with your strength, it's very likely that you'll make it into the top ten in the tournament.

Mei Dong'er was only a six-stars martial Grandmaster, yet she was so confident. He could roughly estimate the overall strength of the Big Dipper sect. Such a force was definitely one of the top existences in the southern region. However, in the other three regions, it was still possible to be a local snake, but it would be very difficult to mingle with the world.

"You think I'll join just because you say so?" the man smiled bitterly. Not to mention that my age has long exceeded the range of their disciples, and the Big Dipper sect and the heavenly Scorpion sect are very cautious in recruiting people. They must investigate your family background thoroughly. Even so, with my current situation, I can only join their guard team, and the resources I receive are very limited."

Sealing cultivation

guards? ” Yunxiao asked. guards? ”

The man sighed. that’s right. They specifically recruit scattered martial artists like us. It’s similar to a job interview. The monthly stipend is about the same as their ordinary disciples.

The man’s name was Shou Wei and he was a local rogue cultivator. There were some special places in South Fire City and other places. Because it was located near the Li fire golden crystal mine, a large number of itinerant martial artists came to mine all year round. These martial artists did not belong to any power and were sandwiched between the local power and the power of the Chamber of Commerce in order to survive. Therefore, they often formed groups and stayed together for warmth.

Shou Wei was a senior rogue cultivator. Before he came to nanhuo city, he was only a peak martial King. After staying here for more than ten years, he had already broken through to the six-stars martial Grandmaster realm. Moreover, he had been stuck at this realm for three years. He was afraid that he would be stuck at this realm for the rest of his life. He also planned to mine for a few more years, then find a small sect and become an elder of some kind to retire and nurture his descendants.

As for the other three, one of them was short and fat, like a big meatball, giving people a greasy feeling. He didn’t want to reveal his real name, either, and was very fat. There was also an old man with a goatee. He was dressed in a sloppy red robe and looked very wretched. The last person was actually a woman. She was dressed in simple Palace clothes and had some charm, but she always had a cold face and did not smile.

The three of them had been in nanhuo city for some time, but they had never seen the Grand competition between the Big Dipper sect and the heavenly Scorpion sect, so they came here to witness it.

Soon, they entered the territory of the Big Dipper sect’s Mountain range. Not long after, they encountered the great mountain-protecting formation. It was difficult for them to fly, so the five of them directly landed and advanced on foot.

A quiet stone path meandered up, surrounded by spiritual energy.

The Big Dipper sect was one of the most powerful local forces in Southfire city and occupied the best Feng Shui lines. Moreover, there were traces of fire element in the spiritual energy. It was obvious that this area of the earth vein contained li fire golden crystals, which were a great wealth of resources.

The five of them went up and soon saw a Long Pavilion. Several members of the Big Dipper sect were standing there, checking the identities of the people who passed by.

Shou Wei walked up first and said respectfully, "So it's elder Lu who is personally guarding this place."

A white-bearded old man with an extraordinary appearance was resting on a pear chair inlaid with gold and wrapped in Jade with his eyes closed and his expression lazy. He turned a deaf ear to Shou Wei's words and crossed his fingers in front of his body, still looking calm.

Shou Wei knew that his rank was not high enough and was not worthy of elder Lu's personal reception. He had experienced such things many times and didn't find it strange.

Yunxiao gently swept his divine sense over the old man and found that he was only a one-star martial Supreme. However, in front of martial arts grandmasters like them, he did have the right to put on airs.

"So it's shouwei, go in."

A middle-aged man in a yellow shirt beside the old man waved his hand, indicating that he had passed.

Shou Wei passed right in front of them, followed by Yunxiao and the other three. But suddenly, they were stopped by an invisible force, and their faces changed slightly.

"Who are the four of you?" the middle-aged man in the yellow shirt asked coldly.

Shou Wei hurriedly turned around and explained, "This Lord, these four people came with me to watch the competition."

“Since he’s here with you, and you’re an unfamiliar face, you should know the rules,” the middle-aged man in yellow said coldly.

“Of course I know,” Shou Wei replied. “Anyone who can’t prove their identity must have their cultivation sealed by the Big Dipper sect’s master before they can enter,” he said to the four of them.

When he saw the faces of Yunxiao and the other three change, he said in a hurry, “Don’t worry, this seal will only last for three days at most. The Big Dipper sect’s inter-sect competition will also end in three days. During this time, there will be a Big Dipper sect master in charge of your safety, so you can rest assured.” “I was also sealed every time in the past,” he added.

The yellow-robed middle-aged man said coldly, “Shou Wei is quite famous in Southfire city, so he can be granted the title.” As for you unknown rogue cultivators, you must be sealed. Otherwise, you can return the way you came.”

As he spoke, his aura pressed down invisibly. He was a three-stars Martial Emperor, and his words immediately made the faces of several people change.

Yunxiao was speechless, but in order not to get into trouble, he also showed a panicked look like the others. However, no matter how he looked at it, he felt uncomfortable.

“Alright, since the rules are like this and everyone is the same, I have nothing to say,” the round-faced rich kid sighed.

The middle-aged man in the yellow shirt nodded and drew a few symbols in the air. Then, he struck the symbols into the Fat Boy’s body. The fat ball had a look of panic on its face, but it quickly returned to normal. The aura of a martial arts Grandmaster on its body was extinguished in an instant. It had indeed been sealed, and not a single trace of Yuan Qi could be squeezed out of its dantian.

The other goateed man and the cold-faced woman were extremely unwilling, but they still walked over and had the yellow-robed middle-aged man seal them.

Finally, it was Yunxiao’s turn, and everyone’s eyes fell on him.

“If you don’t want to seal it, then go back,” the middle-aged man in yellow said coldly.

Yunxiao sighed and said to himself, “Let’s try.”

What troubled him was that the yellow-robed middle-aged man’s sealing technique was very low-level. Even if he suppressed his power, the other party might not be able to seal him. After all, he had cultivated the tyrant body tempering technique and the bright moon body, so he could automatically resist ordinary external forces.

If he wasn’t sealed, he would probably be in trouble.

The middle-aged man in the yellow shirt consoled him instead, saying, “There’s no need to be afraid. Our Big Dipper sect’s unique technique is extremely advanced. It won’t leave any side effects.”

Yunxiao, I’m a little nervous,” Yunxiao said. I’m afraid I won’t be able to resist. Can you put more strength into it?”

The middle-aged man in the yellow shirt was stunned for a moment before he sneered, “No matter how you resist, it’s useless.” He also drew a few symbols and slapped them directly on Yunxiao’s body.

Yunxiao felt a strange force penetrate his body, which was immediately blocked by his physical strength and was about to be devoured. He hurriedly suppressed the power of his physical body and allowed the power to flow along his meridians to his dantian. It turned into a thin layer of paper-like seal and covered it. His aura of a five-stars martial Grandmaster gradually disappeared.

The middle-aged man in the yellow shirt was very satisfied. He waved his hand and said, “You can go in now, Shou Wei knows the way, let him lead you in.”

Yunxiao followed the four of them into the mountain range. Suddenly, he was slightly taken aback. He clearly sensed that elder Lu seemed to have opened his eyes, and his divine sense swept over him a few times, only dissipating when it found nothing.

After the group had gone far away, the yellow-robed middle-aged man in the pavilion looked at the old man who had opened his eyes in surprise and hurriedly stepped forward, "Martial uncle Lü, what's wrong?"

Elder Lu's long white eyebrows furrowed as he said, " the young man just now is indeed not even twenty years old, but he is actually a five-stars martial Grandmaster. Even in the Big Dipper sect, I'm afraid only Mei Dong 'er can compare to such a talent.

The middle-aged man in the yellow shirt was shocked and said, " "Not even twenty? I thought he had changed his appearance and didn't check carefully. I heard that Junior Sister Dong 'er has already reached six-star?"

Elder Lu said slowly, " after that girl was taken away, she came back on her own. She didn't say a word and didn't want to see anyone. She went directly into seclusion and waited for the great competition to begin today.

The middle-aged man's face turned dark, " "Could Junior Sister Dong 'er have already been violated by someone?"

Elder Lu raised his head and glanced at him, causing the yellow-robed middle-aged man to hurriedly lower his head. "No," elder Lu said, "how can a Virgin hide from the eyes of us?" The only thing that everyone found strange was why she had stepped into the six-star realm after just one trip. Something must have happened. However, since she is not willing to say, then forget it. It is good that she is fine."

Elder Lu looked in the direction where Yunxiao and the others had disappeared and said, " "Go and find out about the background of the youth just now. If it's clean, then try to take him into my Big Dipper sect. If such a genius can't join us, then let him die." He pondered for a moment and then casually said, "if he's a genius, then he'll die." "Then let him stay at the five-stars martial Grandmaster level forever."

"Yes!"

The yellow-robed man's heart trembled as he hurriedly replied, a sharp look flashing through his eyes.

Yunxiao and the other five soon crossed a mountain, and suddenly, the fat man said, "Shouwei, you've been in Southfire city for so many years. Have you ever heard of the northern scorpion sect?"

Everyone was taken aback, and Yunxiao frowned as he thought, 'I'm going to kill him. The North Scorpion sect? what a strange name.

Shou Wei was stunned. After pondering for a while, he said, I've heard of this before. It seems that the Big Dipper sect and the heavenly Scorpion sect used to be one sect, called the North Scorpion sect. Later, they separated into two sects. "Why are you suddenly asking about this?" he asked curiously.

The fat and round guy smiled wretchedly and said mysteriously, " then have you ever heard of the treasures left behind by the North Scorpion sect and why they split up? "

"Everyone knows about the North Scorpion sect's treasure," Shou Wei said."It's no secret. It was said that the Big Dipper sect and the heavenly Scorpion sect had split up because of this treasure. However, this treasure has always been hidden in the mountains, and no one has ever seen it. "

you're right at the beginning, but the last part is a joke. Hehe, if we didn't open the treasure, do you think the Big Dipper sect and the heavenly Scorpion sect can compete with the thunderwind Chamber of Commerce? " the fat and round fellow laughed.

Everyone was shocked, even Shou Wei's expression changed drastically. He shouted,"Shut up! If he wanted to live, he should know what to say and what not to say. I don't know what you mean by that, but I don't want to hear another word from you. If you continue, please don't come with us!"

Shou Wei had been in Southfire city for the longest time, so there was naturally some reason for him to be able to live until now. He had seen too many people suffer from unexpected disasters, so he naturally knew some things about survival. One of the most important rules was not to say things that shouldn't be said, and not to interfere in things that shouldn't be interfered with.

Seeing his intense reaction, the fat and round boy laughed a few times in embarrassment and no longer said anything.

Chapter 523

?

523 Sealing cultivation

guards? ” Yunxiao asked. guards? ”

The man sighed. that’s right. They specifically recruit scattered martial artists like us. It’s similar to a job interview. The monthly stipend is about the same as their ordinary disciples.

The man’s name was Shou Wei and he was a local rogue cultivator. There were some special places in South Fire City and other places. Because it was located near the Li fire golden crystal mine, a large number of itinerant martial artists came to mine all year round. These martial artists did not belong to any power and were sandwiched between the local power and the power of the Chamber of Commerce in order to survive. Therefore, they often formed groups and stayed together for warmth.

Shou Wei was a senior rogue cultivator. Before he came to nanhuo city, he was only a peak martial King. After staying here for more than ten years, he had already broken through to the six-stars martial Grandmaster realm. Moreover, he had been stuck at this realm for three years. He was afraid that he would be stuck at this realm for the rest of his life. He also planned to mine for a few more years, then find a small sect and become an elder of some kind to retire and nurture his descendants.

As for the other three, one of them was short and fat, like a big meatball, giving people a greasy feeling. He didn’t want to reveal his real name, either, and was very fat. There was also an old man with a goatee. He was dressed in a sloppy red robe and looked very wretched. The last person was actually a woman. She was dressed in simple Palace clothes and had some charm, but she always had a cold face and did not smile.

The three of them had been in nanhuo city for some time, but they had never seen the Grand competition between the Big Dipper sect and the heavenly Scorpion sect, so they came here to witness it.

Soon, they entered the territory of the Big Dipper sect’s Mountain range. Not long after, they encountered the great mountain-protecting formation. It was difficult for them to fly, so the five of them directly landed and advanced on foot.

A quiet stone path meandered up, surrounded by spiritual energy.

The Big Dipper sect was one of the most powerful local forces in Southfire city and occupied the best Feng Shui lines. Moreover, there were traces of fire element in the spiritual energy. It was obvious that this area of the earth vein contained li fire golden crystals, which were a great wealth of resources.

The five of them went up and soon saw a Long Pavilion. Several members of the Big Dipper sect were standing there, checking the identities of the people who passed by.

Shou Wei walked up first and said respectfully, "So it's elder Lu who is personally guarding this place."

A white-bearded old man with an extraordinary appearance was resting on a pear chair inlaid with gold and wrapped in Jade with his eyes closed and his expression lazy. He turned a deaf ear to Shou Wei's words and crossed his fingers in front of his body, still looking calm.

Shou Wei knew that his rank was not high enough and was not worthy of elder Lu's personal reception. He had experienced such things many times and didn't find it strange.

Yunxiao gently swept his divine sense over the old man and found that he was only a one-star martial Supreme. However, in front of martial arts grandmasters like them, he did have the right to put on airs.

"So it's shouwei, go in."

A middle-aged man in a yellow shirt beside the old man waved his hand, indicating that he had passed.

Shou Wei passed right in front of them, followed by Yunxiao and the other three. But suddenly, they were stopped by an invisible force, and their faces changed slightly.

"Who are the four of you?" the middle-aged man in the yellow shirt asked coldly.

Shou Wei hurriedly turned around and explained, "This Lord, these four people came with me to watch the competition."

“Since he’s here with you, and you’re an unfamiliar face, you should know the rules,” the middle-aged man in yellow said coldly.

“Of course I know,” Shou Wei replied. “Anyone who can’t prove their identity must have their cultivation sealed by the Big Dipper sect’s master before they can enter,” he said to the four of them.

When he saw the faces of Yunxiao and the other three change, he said in a hurry, “Don’t worry, this seal will only last for three days at most. The Big Dipper sect’s inter-sect competition will also end in three days. During this time, there will be a Big Dipper sect master in charge of your safety, so you can rest assured.” “I was also sealed every time in the past,” he added.

The yellow-robed middle-aged man said coldly, “Shou Wei is quite famous in Southfire city, so he can be granted the title.” As for you unknown rogue cultivators, you must be sealed. Otherwise, you can return the way you came.”

As he spoke, his aura pressed down invisibly. He was a three-stars Martial Emperor, and his words immediately made the faces of several people change.

Yunxiao was speechless, but in order not to get into trouble, he also showed a panicked look like the others. However, no matter how he looked at it, he felt uncomfortable.

“Alright, since the rules are like this and everyone is the same, I have nothing to say,” the round-faced rich kid sighed.

The middle-aged man in the yellow shirt nodded and drew a few symbols in the air. Then, he struck the symbols into the Fat Boy’s body. The fat ball had a look of panic on its face, but it quickly returned to normal. The aura of a martial arts Grandmaster on its body was extinguished in an instant. It had indeed been sealed, and not a single trace of Yuan Qi could be squeezed out of its dantian.

The other goateed man and the cold-faced woman were extremely unwilling, but they still walked over and had the yellow-robed middle-aged man seal them.

Finally, it was Yunxiao’s turn, and everyone’s eyes fell on him.

“If you don’t want to seal it, then go back,” the middle-aged man in yellow said coldly.

Yunxiao sighed and said to himself, “Let’s try.”

What troubled him was that the yellow-robed middle-aged man’s sealing technique was very low-level. Even if he suppressed his power, the other party might not be able to seal him. After all, he had cultivated the tyrant body tempering technique and the bright moon body, so he could automatically resist ordinary external forces.

If he wasn’t sealed, he would probably be in trouble.

The middle-aged man in the yellow shirt consoled him instead, saying, “There’s no need to be afraid. Our Big Dipper sect’s unique technique is extremely advanced. It won’t leave any side effects.”

Yunxiao, I’m a little nervous, ” Yunxiao said. I’m afraid I won’t be able to resist. Can you put more strength into it? ”

The middle-aged man in the yellow shirt was stunned for a moment before he sneered, “No matter how you resist, it’s useless.” He also drew a few symbols and slapped them directly on Yunxiao’s body.

Yunxiao felt a strange force penetrate his body, which was immediately blocked by his physical strength and was about to be devoured. He hurriedly suppressed the power of his physical body and allowed the power to flow along his meridians to his dantian. It turned into a thin layer of paper-like seal and covered it. His aura of a five-stars martial Grandmaster gradually disappeared.

The middle-aged man in the yellow shirt was very satisfied. He waved his hand and said, “You can go in now, Shou Wei knows the way, let him lead you in.”

Yunxiao followed the four of them into the mountain range. Suddenly, he was slightly taken aback. He clearly sensed that elder Lu seemed to have opened his eyes, and his divine sense swept over him a few times, only dissipating when it found nothing.

After the group had gone far away, the yellow-robed middle-aged man in the pavilion looked at the old man who had opened his eyes in surprise and hurriedly stepped forward, "Martial uncle Lü, what's wrong?"

Elder Lu's long white eyebrows furrowed as he said, " the young man just now is indeed not even twenty years old, but he is actually a five-stars martial Grandmaster. Even in the Big Dipper sect, I'm afraid only Mei Dong 'er can compare to such a talent.

The middle-aged man in the yellow shirt was shocked and said, " "Not even twenty? I thought he had changed his appearance and didn't check carefully. I heard that Junior Sister Dong 'er has already reached six-star?"

Elder Lu said slowly, " after that girl was taken away, she came back on her own. She didn't say a word and didn't want to see anyone. She went directly into seclusion and waited for the great competition to begin today.

The middle-aged man's face turned dark, " "Could Junior Sister Dong 'er have already been violated by someone?"

Elder Lu raised his head and glanced at him, causing the yellow-robed middle-aged man to hurriedly lower his head. "No," elder Lu said, "how can a Virgin hide from the eyes of us?" The only thing that everyone found strange was why she had stepped into the six-star realm after just one trip. Something must have happened. However, since she is not willing to say, then forget it. It is good that she is fine."

Elder Lu looked in the direction where Yunxiao and the others had disappeared and said, " "Go and find out about the background of the youth just now. If it's clean, then try to take him into my Big Dipper sect. If such a genius can't join us, then let him die." He pondered for a moment and then casually said, "if he's a genius, then he'll die.""Then let him stay at the five-stars martial Grandmaster level forever."

"Yes!"

The yellow-robed man's heart trembled as he hurriedly replied, a sharp look flashing through his eyes.

Yunxiao and the other five soon crossed a mountain, and suddenly, the fat man said, "Shouwei, you've been in Southfire city for so many years. Have you ever heard of the northern scorpion sect?"

Everyone was taken aback, and Yunxiao frowned as he thought, 'I'm going to kill him. The North Scorpion sect? what a strange name.

Shou Wei was stunned. After pondering for a while, he said, I've heard of this before. It seems that the Big Dipper sect and the heavenly Scorpion sect used to be one sect, called the North Scorpion sect. Later, they separated into two sects. "Why are you suddenly asking about this?" he asked curiously.

The fat and round guy smiled wretchedly and said mysteriously, " then have you ever heard of the treasures left behind by the North Scorpion sect and why they split up? "

"Everyone knows about the North Scorpion sect's treasure," Shou Wei said."It's no secret. It was said that the Big Dipper sect and the heavenly Scorpion sect had split up because of this treasure. However, this treasure has always been hidden in the mountains, and no one has ever seen it. "

you're right at the beginning, but the last part is a joke. Hehe, if we didn't open the treasure, do you think the Big Dipper sect and the heavenly Scorpion sect can compete with the thunderwind Chamber of Commerce? " the fat and round fellow laughed.

Everyone was shocked, even Shou Wei's expression changed drastically. He shouted,"Shut up! If he wanted to live, he should know what to say and what not to say. I don't know what you mean by that, but I don't want to hear another word from you. If you continue, please don't come with us!"

Shou Wei had been in Southfire city for the longest time, so there was naturally some reason for him to be able to live until now. He had seen too many people suffer from unexpected disasters, so he naturally knew some things about survival. One of the most important rules was not to say things that shouldn't be said, and not to interfere in things that shouldn't be interfered with.

Seeing his intense reaction, the fat and round boy laughed a few times in embarrassment and no longer said anything.

Chapter 524-disturbance

“I’m doing this for your own good, and for everyone’s good,” Shou Wei said with a gloomy face.

The other people also glanced at the Fat Boy and continued to walk forward in silence.

The cyclone in Yunxiao’s dantian stirred, and the seal disappeared like a bubble. A strange look gradually appeared on his face, because he found that, apart from himself, two of the four people who had been sealed had also opened their seals.

One was fat and round, the other was a cold-faced woman in Palace clothes. Only the wretched man with the goatee was the most ordinary, and no aura could be detected at all.

The fat and round girl and the woman in the palace dress didn’t know that they had been exposed. They pretended to be sealed and the five of them quickly moved forward in the mountain.

Soon, he saw a row of small courtyards. There were already many people living inside. There were also a few people who looked like big Dipper sect disciples guarding outside.

“We’ll be staying here today,” Shou Wei explained.

Yunxiao frowned. live here? ” Isn’t the competition starting today?”

Shou Wei smiled. indeed, but today is only the most basic drawing of lots and qualification assessment. There’s still the top 50 outer tournament. Because there are more people, it’s more chaotic. So, there won’t be any visitors on the first day. Tomorrow would be the advancement of 50 to 20, and the last day would be the most exciting advancement of 20 to 10. At the same time, all the local forces and major Chamber of Commerces would be invited to watch. At that time, all the influential figures in Southfire city will appear.”

Yunxiao was not interested in watching these disciples compete. He just wanted to see if Mei Dong ‘er could squeeze into the top three. In that case, it would be good for him to find a place to settle down and cultivate quietly. He would go and watch on the third day.

Shou Wei had already greeted the Big Dipper sect disciple who was maintaining order and safety at the entrance. The Big Dipper sect disciple pointed inside, which seemed to be a corner of the row of small courtyards.

Shou Wei led the four of them straight to a small courtyard in the corner. Along the way, they passed by a few corridors where many cultivators were chatting and laughing inside, looking at the four of them with interest. It was discovered that almost half of the people inside had their cultivation sealed. They were basically silent, afraid that they would be at a disadvantage if they caused trouble. As for those who weren't sealed, each and every one of them was extraordinarily proud, showing that they had received special treatment.

try to keep a low profile here. Otherwise, your cultivation will be sealed, and it's very likely that you'll lose your lives. Shou Wei carefully warned.

The goateed man's expression changed, and he said, "Aren't there people from the Big Dipper sect maintaining order? Who would dare to make a move here?"

"You guys saw it too. The only ones maintaining order are the few Wu Zong disciples at the entrance. Their abilities are limited, so you have to be careful," Shou Wei said in a low voice.

"This is an ..."

The goateed man was stunned. He seemed to feel extremely uncomfortable. When he thought about how his cultivation was sealed and how he was surrounded by cold gazes, he couldn't help but feel like a sheep walking into a Tiger's mouth.

The fat and round earth and the cold-faced woman in Palace attire didn't have much expression. The two of them had long since been unsealed.

"This should be the place."

Shou Wei took a look at the entrance of the courtyard. It was indeed a little old and broken. In this place, he couldn't care much and walked straight in.

As soon as he stepped in, his expression changed drastically. A strong wind shot out from inside and turned into a sharp palm shadow that slapped down directly, accompanied by a cold shout, "Who are you? get lost!"

Shou Wei was shocked and hurriedly struck out with his right palm. Powerful Yuan Qi condensed into a palm in the air and kept compressing.

"BOOM!"

Two palm shadows, one big and one small, collided in the air. The strong wind was sent flying in all directions. Some of the trees in the courtyard were instantly shattered, and even the courtyard gate was completely blown off.

Shou Wei didn't gain the upper hand from that palm and was actually at a slight disadvantage, which made him feel uncertain. He was a peak six-stars martial Grandmaster, while the other party's cultivation was at least seven-stars, or even higher!

The huge tremor immediately attracted the surrounding martial artists. Dozens of light beams shot over and all of them stood in the air not far away, watching the show with ridicule. As for those who were sealed, they wanted to come forward to take a look, but they were afraid of bringing disaster to themselves, so they hesitated for a moment.

Shou Wei's face was full of anger as he shouted, "Who are you? this courtyard was given to us by the Big Dipper sect."

A faint voice came from inside, "Oh? We thought that no one was living there, but since we're already living there, you guys can move."

"What? You're going too far!"

Shou Wei was furious. Although he didn't want to cause trouble, the other party didn't give him any face at all. In front of so many cultivators, he was considered a respected man in Southfire city, how could he pull down his face?

At this time, the Big Dipper sect disciples were also alarmed and flew over from a distance. The young man in the lead shouted, what's the matter? how dare you attack in the Big Dipper sect!

After Shou Wei explained the whole story, the disciple shouted into the courtyard, "Who are you? why aren't you staying at the designated place?"

A voice came from inside, "the designated place is too small for so many of us, so we found another room." You can ask them to find another place."

The surrounding people were all stunned and secretly guessed who these people were. They actually dared to order the disciples of the Big Dipper sect to do things. They were truly extremely arrogant.

One had to know that those who were arranged to stay in these places were basically itinerant cultivators. Those who had sects backing them were all in other delicate and elegant places. They were all very respectful to the Big Dipper sect and didn't dare to disobey. Not only did these people snatch their territory, but they also asked them to leave. They were truly audacious.

The disciple's expression changed slightly as he exclaimed, " "It's you guys!" He suddenly revealed a difficult expression.

Shou Wei's heart clenched as well. He seemed to have sensed something amiss when he saw the Big Dipper sect disciple's expression.

As expected, the disciple quickly regained his composure. He looked coldly at Shou Wei and the other four and said, "We're all here to watch the Big Dipper sect's competition. Be modest to each other and don't cause trouble, understand?"

Without waiting for Shou Wei's reply, he gave a look to the other disciples and left with a wave of his hand.

"This bi an ..."

All of a sudden, everyone was stunned. How could there be such a way to solve the problem? this was equivalent to not solving it. Once they left, they would continue to fight.

Shou Wei was also dumbfounded. He stood there and looked into the small courtyard. He began to ponder, as if he was a little afraid of the identity of the person inside.

The goateed perverted man saw that he was surrounded by people and looked at him from afar. He felt uncomfortable and said, "Let's go to another place."

exchange?" Yunxiao said coldly. Now that everyone thinks we're easy to bully, where should we go? I'm afraid I can't change anywhere. If you show weakness, everyone will step on your head and shit on it!"

Shou Wei's heart trembled as he gave Yunxiao a surprised look. His eyes flickered as he cracked his knuckles and said in a deep voice, "Not bad! If you take a step back, you won't be able to move forward!"

At this moment, he suddenly had a realization. The shackles of the six-stars martial Grandmaster seemed to be shaking.

Shou Wei was shocked. He didn't think that he would feel like breaking through just because of a sentence from this kid! He suddenly took out an elixir that exuded an extremely strong spiritual Qi and swallowed it in one gulp under the watchful eyes of the crowd. Suddenly, the bottleneck that had been holding him back for several years was finally broken through in one breath.

The light of advancement was faintly emitted from his body, causing the people around him to exclaim in surprise and reveal looks of envy, jealousy, and hatred.

Shou Wei finally understood. After struggling in Southfire city for so many years, he had become more and more protective of his life. His fighting spirit had long been worn away. No wonder he had been doing nothing all these years!

If he were to back down now, he would be stuck at the six-stars martial Grandmaster level for the rest of his life. After he rushed into the seven-star realm, he suddenly felt that the front was flat, and the wide road of martial arts opened up.

since the disciples of the Big Dipper sect don't care, don't blame me for being impolite!

Shou Wei shouted into the courtyard. His personality had completely changed. He didn't even address the people of the Big Dipper sect as respectfully as he did before.

A sneer came from the small courtyard, "You've just broken through to one-star and you're already overestimating yourself. On account of your ignorance, you better leave now, or you'll lose your life for nothing."

A cold smile flashed across Shou Wei's face as he strode into the courtyard.

"You're looking for death!"

The people in the courtyard were instantly enraged when they saw that he did not listen to their advice. With a loud shout, the door was smashed open with a "bang". A gray figure rose into the air, and vital Qi churned around his body. Then, he struck down with his palm like a tsunami!

A peak seven-stars martial Grandmaster!

Yunxiao narrowed his eyes as he saw through the man's strength. He naturally didn't care about this level of cultivation, but Shou Wei had just broken through to seven stars. It was still a little difficult for him to receive this palm.

When Shou Wei felt the wave-like pressure, he immediately understood that this person's cultivation was above his. His face turned ashen and he hurriedly gathered all his Yuan Qi under his palms. Immediately, his palms were like red Hot iron, causing the surrounding air to be heated to the point of white smoke.

"Red meteorite iron Palm!"

Two large red palm imprints slapped out in front of him, and the four palms immediately collided. The strong wind was suppressed to the point that it let out an ear-piercing sound, like countless birds being strangled and crying miserably.

An invisible Yuan Qi spirit pressure was formed, pressing down on Shou Wei's Iron Palm until it gradually lost its red color and turned green.

Shou Wei's legs were directly jolted into the ground, sinking into his knees. The current situation was like riding a Tiger and not getting off. He could not escape even if he wanted to. He could only struggle to hold on. However, he had just entered the seven-star realm. There was still a big gap between him and the other party's seven-star expert. He did not know how long he could hold on for. The outcome was very bad.

Moreover, there seemed to be more than one person in the small courtyard. There seemed to be an accomplice. The center of Shou Wei's palm began to crack, and many of his acupuncture points also began to bleed.

If there was no other way to resolve it, he could only be shaken to death by the other party!

The grey-robed man who struck down from the sky had already circulated his Yuan Qi to the extreme. He was only half a star stronger than Shou Wei. Although he had the upper hand, it wasn't easy for him either. His forehead was full of sweat, and his eyes were filled with cruelty!

Chapter 525-forcing people to make a move

Yunxiao's expression did not change. He could tell that Shou Wei could not hold on any longer, and he would explode and die if this went on. A fire cloud gradually appeared between his eyebrows and flashed by.

The gray-robed man, who was circulating his vital Qi with all his might to suppress the pressure, suddenly let out a blood-curdling screech. His entire body rapidly turned black, and the power on his palms disintegrated in an instant. Shou Wei's iron palms suddenly exploded, and the air that was originally compressed to the extreme exploded, sending him flying in an instant.

Everyone saw the gray-robed man's body suddenly turn black, and then blood sprinkled down from the air. He was shaken back into the small courtyard, and he screamed repeatedly.

Shou Wei was overjoyed that he was saved, but he felt strange inside. He didn't understand why the other would suddenly go crazy. Was it the backlash of the cultivation method?

The man in the gray robe was rolling around in the courtyard. There were more and more black burns on his body, as if he had been burned dry. He was in great pain.

At this moment, three more people flew out of the room. One of the men helped the gray-robed man up and fed him a pill. He said in surprise, "What a powerful fire elemental power!" He took out a piece of ice soul and put it into the gray-robed man's hand.

What made them feel a chill was that the moment the ice soul touched their hands, it turned into a pool of boiling water and gave off hot air.

this is the ice soul from the ten-thousand-year-old ice at the bottom of the East Sea!

One of them was extremely shocked and his eyes were filled with disbelief.

The man in gray's body melted as soon as it touched his hand, but his injuries gradually stabilized. Most of his body had been carbonized. At this time, the elixir also began to take effect, and the pain gradually subsided.

One of the men turned around and stared at Shou Wei's hands coldly. He said, "What a vicious martial skill, it's really hidden."

Shou Wei was stunned for a moment and immediately understood that this person had misunderstood. He was also very curious as to who had saved him so silently that no one seemed to have noticed. But he naturally wouldn't expose her, and only coldly snorted, "You asked for it!"

The man's expression changed slightly, but he seemed to be afraid, "Since that's the case, then I'd like to see your Excellency's brilliant moves!"

He took a step forward and arrived in front of Shou Wei. The other two men followed suit. The three of them formed a formation of three talents and surrounded Shou Wei. The aura they exuded was above that of Shou Wei, but they were afraid and didn't dare to make a move.

Shou Wei's heart clenched and he immediately broke out in cold sweat. He thought that if that expert had not acted, he would have been finished. His face was still filled with anger as he shouted, "Do you want to join forces?"

It seemed that this group of people would not stop until a few of them were killed. Just now, he had only condensed an illusionary image of the true Phoenix Fire and burned it lightly. If he had condensed real fire, with the power of the gray-robed man's seven-stars martial Grandmaster, he would have been turned into ashes in an instant. There was no possibility of survival.

He was thinking about what he should do now. If he were to make a move, it would be too conspicuous. His eyes immediately fell on the fat and round girl and the cold-faced woman. The two of them had been watching coldly and calmly. Even when Shou Wei couldn't hold on any longer, he didn't take any action. They were too cold. A smile appeared in his eyes as he had an idea.

"I want to see what kind of existence that hidden fire element of yours is."

"If your strength can be recognized by me, I won't hold you accountable for your previous crimes. Perhaps I can even give you a chance to join us," the man said in a deep voice.

As soon as he finished speaking, he flipped his right hand over, and a Dragon-shaped yellow sand rolled up and circled around his body. The area became larger and larger, and the yellow sand filled the sky. His body actually became a little dazed.

This person had also mastered the power of elements, and he had been suppressing his cultivation to the best of his ability. He did not want to reveal it under such circumstances.

The yellow sand gradually spread and condensed, forming a dozen small snakes in the air. They flicked their tongues at Shou Wei, looking very intelligent.

Yunxiao was surprised. He did not expect this man to have such a trick. Each of the snakes had the strength of a nine-stars martial Grandmaster, and they completely suppressed Shou Wei.

Shou Wei lost all color in an instant. He had originally wanted to fight to the death, but now, the little snakes that the other party had transformed into were definitely suppressing him. It was like hitting a rock with an egg, with no chance of winning.

The other cultivators who were watching from afar also revealed shocked and solemn expressions. This man's strength clearly exceeded their expectations. From this move alone, he was at least a Martial Emperor.

No matter how strong Shou Wei was, he couldn't challenge someone one realm above him.

"Don't worry, just use your elemental power. As long as you can enter my eyes, you will be fine. Otherwise, Wuwu ..."

The man suddenly stopped talking. Obviously, those who didn't catch his eyes were finished. He raised his hand high and his five fingers clawed down. At this moment, the little snake suddenly straightened up, and a fierce light burst out from its eyes.

"Go!"

The man said as he pointed his five fingers.

"Whoosh!"

More than ten earth and Sand Snakes flew down one after another. Each of them was equivalent to a nine-stars martial Grandmaster. Shou Wei's eyes were filled with despair and bitterness. He didn't expect that he would die so tragically here after breaking through the shackles that he had been stuck in for so many years.

Suddenly, Yunxiao's eyes narrowed as he said, "Form shift!"

A powerful energy shot out from his eyes, and the space distorted. The fat ball and the cold-faced woman were suddenly sucked into the distorted space, appearing in front of Shou Wei in the next moment.

“This is an ...”

The round-faced man and the cold-faced woman in the palace dress were watching the fight in the air with full attention. Suddenly, they felt a strong mental power fluctuation. Before they could react, they only felt a wave of dizziness. They immediately saw more than ten Sand Snakes coming down from the air. Each of them was a ninth-rank martial Grandmaster!

“?!”

The two of them were scared out of their wits at the same time. They didn't care what was going on and exploded their vital Qi. Two powerful forces spread out from their bodies and attacked at the same time from the left and right of Shou Wei.

This time, not only the two of them were baffled, but everyone's eyes were wide open. No one actually saw how they came over!

The man's pupils suddenly shrank and he revealed a shocked expression. He cried out, “form shifting?!”

The other two companions were also shocked. They hurriedly made preparations to attack and were completely on guard.

A few glass-like balls appeared in the fat ball's hand. He held them between his fingers, and they emitted the power of thunder and lightning. He waved his fists and threw them out, one faster than the other. The lightning balls were shot out one by one, and the power of thunder and lightning connected each other. Soon, a powerful electric net was formed, and it was thrown at the Sand Snakes.

“Bang Bang Bang!”

The earth-Sand Snakes that hit the electric net exploded one by one, turning into yellow sand. The power of the electric net gradually weakened.

The cold-faced woman immediately calmed down after her panic. She took out an exquisite jade-green folding fan and gently opened it. Immediately, a green aura gushed out. With a soft cry, the folding fan immediately unsealed and turned into a huge fan nearly two meters long. She grabbed it with both hands and fanned it with all her might.

An invisible gust of wind swept out from the fan, and the earth snakes exploded like firecrackers.

The woman coldly snorted and waved her long fan again, blowing away all the sand in the sky.

While everyone was in shock, the two of them stood quietly on the left and right of Shou Wei, just like his guards. Shou Wei was stunned for a moment, then he was overjoyed. He cupped his fists and said, "So the two of you were hiding your true strength. Thank you for saving my life. And thank you for that attack earlier!"

The fat and round earth man and the cold-faced woman in the palace dress looked at each other and saw the bitterness and helplessness in each other's eyes, as well as a trace of fear and dread.

The two of them sneaked a glance behind them, where Yunxiao and the goateed man were standing. The two of them were certain that one of them had teleported them up here!

This kind of form-shifting technique could only be performed by those unattainable great alchemists.

Their bewildered gazes were mostly focused on the goateed wretched man, because he was the biggest suspect. As for the goateed man, he mumbled to himself in fear, " what's going on? didn't they seal their powers? "

no wonder you dare to challenge us. Who are you? what are you doing in the Big Dipper sect? "

The man who had used the earth element martial skill shouted with a gloomy face. These two men were able to break his martial skill so easily, which meant that they were at least martial emperors.

At this time, the fat guy had no choice but to step forward and snorted coldly, " "Since you've come to the Big Dipper sect, you're naturally here to watch the sect competition. Are you not?"

The man was stunned for a moment, then he sneered, " of course we are, but it's very suspicious if you are.

The cold-faced woman also said in a cold voice, "Why are you talking so much nonsense? take your people and get lost! Otherwise, don't blame us for being impolite!"

The man's face turned ugly. With their current strength, they couldn't gain any advantage, and his people had left for the time being. If they continued to fight, they would suffer a big loss. He immediately snorted, "Good! I'll let you have this place for the time being. Let's see if you have the ability to stay here!"

He was obviously the leader of these people. With a wave of his hand, the other two people looked at each other and then landed in the small courtyard to help their companion who had been more than half carbonized. Under the watchful eyes of the crowd, they left dejectedly.

The entire courtyard was very wide, and the four of them could be seen landing in a huge house in the distance.

Shou Wei's eyes revealed a look of worry. Although the people gathered here were all rogue cultivators, they were treated differently. The place where the few of them had landed was the largest courtyard in the area. There had even been a martial Supreme level rogue cultivator who had lived there.

However, he couldn't care less about this now. He hurriedly stepped forward and bowed deeply to the fat and cold-faced woman in the palace dress, thanking them, " "Thank you for your help!"

After he exposed Hanxuan's photo today, the general reaction was to like it very much. However, there were also a few who said that they were not good-looking. In all honesty, they had no makeup or Photoshop on their faces. Then, let's not talk about the ugly fruits. You guys can go to Baidu and search for Bingbing and Feifei's photos without makeup and Photoshop to see who is more beautiful. 'And today is Hanxuan's birthday. I didn't know about it.' The day before yesterday, she asked me why I chose

today to post the photo. I said it was any time, but I didn't expect it to be so coincidental. Here, Zhu tongxuan is getting prettier and prettier. I'll find a boyfriend and get married soon, hehe!

Chapter 526-refining again

The fat and round guy felt an indescribable bitterness and cursed in his heart. I don't want to save you! However, there were still a few lumps of fat on his face. He smiled and said, " "You're welcome, you're welcome."

The woman's face was still cold, but she looked at Yunxiao and the goateed man from time to time with great fear.

"Since we've driven away those evil people, let's go down," Shou Wei said. I'll find an opportunity to report this matter to the Big Dipper sect's elder, and there won't be any more problems."

Although he said this, he could not hide the worry in his eyes.

After the commotion, the people in the distance dispersed one after another. The five of them entered the small courtyard one after another. The main door had long been destroyed, but it did not affect their stay for a few nights.

There were six small rooms in the courtyard. Shou Wei was very polite to the two and allowed them to choose two rooms to stay in. Then, he let Yunxiao and the goatee pick first, but the goatee was very timid and did not dare to pick first.

Yunxiao, on the other hand, did not care. He randomly chose a room in the corner and went straight in.

It was very small inside, and the decoration was also very simple. There was only a bed and a table, but it was very clean. It was obvious that it had been cleaned to entertain the guests.

Yunxiao sat cross-legged on the bed and began to meditate quietly.

In the divine realm tablet, Yuan gaohan's soul-form appeared beside him. Looking at the large pile of materials for the gourd little Vajra, he said, " "Old Yuan, how's the research going?"

Yuan gaohan glanced at him and nodded, "We can try. This heavenly dance revolving purple cauldron was refined by me to begin with, and its profoundness is dependent on one's heart. In addition, you were the one who refined this gourd Little King Kong, and you are Gu Feiyang. With you here, I'm full of confidence!"

I'll be proud if you say that," Yunxiao said with a smile. I'll be proud. You should know that you're Tian zhaozi's disciple, an outstanding Alchemist of the young generation in the Holy region."

Yuan gaohan stared at him and seriously said, "I, Yuan gaohan, have not admired many people in my life, and you are one of them!"

In addition to respect, there was also a trace of complex emotions in his eyes. He felt a little bitter in his heart and said in a self-deprecating manner, "even the most beautiful woman in the world, Qu Hongyan, has fallen in love with you. All men in the world are envious of you.

Yunxiao was taken aback for a moment, then he scolded with a smile, "stop being so sentimental. Hurry up and refine my gourd Little King Kong.

A desolate look flashed across Yuan gaohan's face as he let out a long sigh, lifting his spirits, "Yes, I've prepared all the materials. However, he hesitated for a moment before saying, "I think we can add in a piece of Northern heaven frigid Star Iron. With the strength of the two of us, we might be able to refine it into a peak eighth rank half-beast half-tool.

Yunxiao shook his head. we do have a chance, but we are both too weak now. The probability of failure is still very high. Besides, I have great use for the northern heaven frigid Star Iron."

Yuan gaohan's expression turned cold as a bad premonition welled up in his heart, quickly reminding, "You only have three."

Yunxiao flashed his white teeth and said with a smile as bright as the sun, "Don't joke around. You're all mine. I have use for all seven pieces of Northern heaven frigid Star Iron."

As expected!

“If you dare touch my Northern heavens frigid Star Iron, I’ll burn you to death!” Yuan gaohan roared with rage. He had released the great demon because he was greedy for this material, and now he was trapped in the divine realm tablet.

don’t get so excited, ” Yunxiao said with a smile. I was just saying.

Yuan gaohan was extremely vexed. In this divine realm tablet, the other party had ten thousand ways to deal with him. He was afraid that he would not be able to keep the four pieces of Northern heaven cold star Iron.

although I can’t put the northern heaven frigid Star Iron in it, ” Yunxiao said, ” I have something else I can add in. He flipped a hand over, and a golden light flashed as an ancient bronze statue appeared before him.

Yuan gaohan shrank back in pain as he stared at the bronze statue, his face revealing shock. In a few breaths, his expression changed drastically. He walked up to touch the bronze statue and suddenly cried out, ” “Heavenly shine Imperial Gold! This is actually a whole piece of Tenshou metal!”

His eyes burst with light as he hugged the bronze statue with both hands, as if he was afraid that it would be taken away.

Yunxiao’s face twitched as he said, ” “Aren’t your actions a little too vulgar? Take a closer look, this skyshine metal seems a bit strange, my current soul power is too low, it’s very difficult to see through it.”

Yuan gaohan affectionately held the bronze statue and stroked it for a while before gradually calming down. His heart was very unbalanced as he muttered, even if I’m in the sanctuary and enjoy the most abundant resources in the world, I still feel like I’m dying of poverty compared to you.

His gaze then began to size up the shape and craftsmanship of the bronze statue. Suddenly, he was shocked and said, ” what’s wrong with this bronze statue? it can even Capture one’s mind? ”

I found this bronze statue in the Galaxy of outer space," Yunxiao said solemnly. It seems to contain something, but I'm too weak to find out what it is.

Yuan gaohan stared at it for a while and pondered, "To be able to make a bronze statue with heavenly shine que gold, it's definitely not an ordinary item. You mean Yingluo?"

'Use your purple cauldron and try to refine it,' Yunxiao said. This is just a piece of the most primitive tianzhao que gold mine. By purifying it, we can naturally extract the things inside."

Yuan gaohan shook his head. This is the heavenly shine que gold, one of the hardest ores in the world. Only ninth-tier alchemists can refine it. "If it's just a small piece, maybe I can," he said hesitantly.

Yunxiao reached out his hand, and a flame condensed at the tip of his finger. It was the Phoenix divine fire, which turned into a fiery blade of light and cut at the corner of the foundation that the bronze statue was standing on.

The flames hissed and left a black mark, but it couldn't cut it off.

Yuan gaohan's brows also furrowed. It seemed that the hardness was still above his knowledge. Even he had never come into contact with this material before. It had always been one of the top materials on the continent, and its value was on par with the northern heaven frigid Star Iron.

Yunxiao was also stunned. Although the power of the divine realm tablet was very weak, he could still use it all, and the flaming saber he condensed was extremely powerful. Even an ordinary person might not dare to take it head-on, but it could not even leave a mark on the bronze statue.

He immediately sat down cross-legged and said, "Old Yuan, you open the cauldron and forge the weapon. I'll cut this skyshine que gold. Otherwise, even if I cut it, I'm afraid your cauldron won't be able to refine it."

Yuan gaohan immediately understood. Such a hard metal could only be calcined by Yunxiao's Phoenix divine fire, and he only needed to fuse it with the metal. Yes," he replied and began to cast a spell into the heaven dancing wheel violet-gold cauldron. The upper body of the violet cauldron spun non-stop and shot out rays of violet light.

Yunxiao, on the other hand, exercised the great expansion divine technique and raised his soul power to a perfect level. Then, he condensed a dagger-like flaming divine saber and began to carefully cut the corner of the statue.

The two of them each had their own duties. Rays of light shot out from Mount Fangcun, and purple Qi soared into the sky.

All kinds of raw materials surrounded the purple-gold cauldron, which Yuan gaohan threw into the purple cauldron one by one. He dissolved a kind of raw material that was neither gold nor Jade, and carefully wrapped the beating Red heart of stone in layers, for fear of damage during the refining.

At this moment, the purple cauldron had already grown to a height of several meters. In addition to the purple Qi illuminating the sky, it also emitted a five-colored light, which was extremely auspicious.

Yunxiao performed an incantation gesture with one hand and had been silently circulating the Phoenix divine flame. Although it was in a tiny form, it still made him feel very strained. Finally, after an hour, a corner of the statue's base was cut off. A triangle the size of half a fist flew out. It seemed to contain a spirit, and it circled around Mount inch, then actually wanted to break through the air and fly away.

Yunxiao's heart jolted. He had seen many natural treasures that contained intelligence, but he had never seen one that could fly on its own after being cut into pieces. He flipped his hand and slapped down.

Suddenly, a small piece of the Earth's breathing earth appeared in the air and pressed down on the heavenly shine que gold, immediately fixing it in place and making it unable to move.

Yunxiao changed his incantation gesture, and three tadpole-like characters gradually rose from his palm and pressed down on the small piece of skyshine que gold. Then, the flames turned into a prison and trapped him inside. The flames started to burn.

On the other side, Yuan gaohan was also secretly surprised. If it wasn't for the Phoenix divine flame, he wouldn't be able to refine it for several days and nights.

"Gu Feiyang, how is it?" He asked worriedly.

no problem, " Yunxiao said in a deep voice. how are you? " Can you merge them now?"

"I was just waiting for you," Yuan gaohan said with a smile.

"En!"

yes, " Yunxiao replied. As he circulated the energy in his dantian, the Phoenix Fire in the air suddenly became fierce, and the small piece of skyshine metal inside finally melted, falling into the purple cauldron under the control of his soul power!

The flames around the purple cauldron immediately scattered, as if they were extremely afraid of the Phoenix Flames around the heavenly shine que metal. The entire cauldron buzzed as if it was trembling.

Yuan gaohan's expression changed as he also conjured a golden tadpole-like character in his hand. It was the same character that mo Huayuan had used during the previous match. After slapping it on the cauldron, purple spurted out again, and the huge vibration gradually stabilized.

Soon after, he quickly formed hand seals, and his figure constantly rotated around the cauldron. One by one, he slapped the hand seals into the cauldron, and purple clouds surrounded the entire mountain peak. There seemed to be the image of a goddess flying in the sky. It was the three naked women who carried the spinning purple-gold cauldron.

"BOOM!"

All of a sudden, the entire mountain peak trembled, and all the sounds immediately fell silent. The goddess's image gradually disappeared, and the confused purple clouds also dissipated. The gem-like light on the purple cauldron flickered.

Yuan gaohan's face was covered in sweat and he was panting heavily, staring at the purple cauldron without blinking.

Yunxiao also stood up and walked forward. "How is it?"

Yuan gaohan revealed a strange expression and said, "I don't know," He slapped his palm on the purple cauldron, and a five-colored light shot out. The lid of the cauldron opened after it spun, and an extremely strong fluctuation of weapon rhythm spread out.

Although this weapon rhythm was not as terrifying as the peak of the eighth rank, it was still much stronger than before.

Chapter 527-meditation

The two of them were overjoyed and hurriedly jumped into the purple cauldron to look inside.

The lingering purple gas gradually dispersed, and a chubby metal block was sitting inside. Its body was emitting a pale yellow luster, and it was actually meditating with its legs crossed!

"?!"

The two of them sucked in a breath of cold air and looked at each other in shock. Yuan gaohan wiped his cold sweat and said awkwardly, "What's going on? It, it's meditating and cultivating?"

Yunxiao also swallowed his saliva to moisten his dry throat, then said with difficulty, "I don't know. It's too strange. Even if it's a demonic beast, if it wants to develop intelligence, it must at least reach the peak of the nine Heavens."

"That's right, Yao Jinliang's year burier beast has intelligence comparable to humans," Yuan gaohan said. But, Pi Xiu, even if the demonic beast has intelligence, it can't meditate, right?"

hehe, " Yunxiao said. is there a problem with the piece of skyshine que gold that we added? "

He couldn't explain it. The phenomenon in front of them was beyond the understanding of the two ninth-tier alchemists.

"Hey, do you understand what I'm saying?"

Yuan gaohan shouted a few words into the room, but the meditating metal block did not respond. He then turned to Yunxiao and said, " try it. After all, this thing is your demonic beast profound level weapon.

Yunxiao nodded, but he was not very confident. "Come out!"

The metal block's round head twisted slightly, then it raised its head and opened its eyes. Its eyes, which were still purple and green, shot out, and its whole body shot up with a whoosh, standing in the air above the purple cauldron and looking at Yunxiao expressionlessly.

you ... Yunxiao licked his lips and said, " do you have wisdom? "

The round piece of metal was still expressionless. It just stood there quietly, as if waiting for the next order.

Yuan gaohan observed for a while and said,"it seems that it's still half-beast and half-tool, and it hasn't activated its intelligence. It's just meditating in the Kasaya."

give me a full-strength punch! Yunxiao ordered. let me see!

The purple and green in the round metal block's eyes suddenly lit up, and its body assumed a very cute posture. It threw a punch, and the space in front of it was distorted by the power of its fist. Spatial cracks appeared, and it let out a rumbling sound as it burst out for a thousand meters.

It was the rank eight martial Honor's power!

In the battle with Heyu, he had experienced the lightning tribulation and directly advanced from the seventh step to the eighth step. However, it had been completely scrapped back then. Now that it had been repaired, it could be stabilized at the eighth-rank.

Yuan gaohan was shocked and said in horror,"The Suan NI's Vajra fist just now? It knows martial arts?"

Yunxiao was very satisfied with the power of the punch. "Yes, I taught it. It seemed he hadn't forgotten after re-refining it. I'm really curious now. Does this kind of half-beast half-tool have the combat power of a martial Supreme if a part of it is refined to the ninth-tier with ninth-tier materials?"

Yuan gaohan was stunned for a moment, and then fell into deep thought. If that was the case, it would be too terrifying. As long as he caught more stone heads, wouldn't the ninth-tier great Alchemist be surrounded by these obedient martial sovereign guards?

He thought for a moment and shook his head, "you should know this better than I do." Martial sovereigns had to comprehend the rules of heaven and earth and form the Emperor weapon of the nine Heavens. As for ninth tier profound armaments, their grades had only reached the level where they could withstand Emperor Qi. Although the punch just now had the power of an eighth rank martial venerable, it was more of a profound level weapon's power. The beast part should still be at the seven-stars Martial Emperor level."

stone beasts can only advance to the peak of Martial Emperor realm at most, " Yunxiao said after pondering for a moment. this is determined by their bloodline. If you want to go further, you'll have to go through a mutation or a mutation."

His face revealed a shocked expression, as if he also found it hard to believe what he had thought of. He said softly, "I'll train!"

Yuan gaohan's heart also trembled, and he said in surprise, you mean, it meditated on its own to cultivate so that a part of the beast could break through to the eighth rank of the martial honor? "

Yunxiao looked at the expressionless Calabash King Kong, who was standing in the air, with a complicated look in his eyes. this is the first time something like this has happened. Since it can learn the Vajra punch, it should be able to learn meditation as well, right? "

Yuan gaohan also felt extremely speechless and at a loss.

continue meditating, " Yunxiao ordered.

The calabash Little King Kong's expression was dull, and the purple and green lights in his eyes kept flashing. He slowly sat down cross-legged in the air and really began to meditate.

Yuan gaohan only felt a burst of powerlessness and said, I wonder what the famous Martial Emperor Zi Qing would think if he knew that you've cultivated his dual swords to such an extent? "

Yunxiao took out a few primordial stones and scattered them. Then, with a grab of one hand, they immediately turned into a gust of wind that blew at the calabash and wrapped him up.

"What are you doing?" Yuan gaohan was stunned. You're not really letting him absorb vital energy, are you?"

Yunxiao nodded. I just want to try and see if he is absorbing the primordial Qi of heaven and earth like us. If he can't do it, wouldn't he be just wasting his time? "

"But, Yingluo, this is too hard to accept!"

Yuan gaohan only felt that the whole world was going to be in chaos. The power of demonic beasts was limited by their bloodline, and their so-called cultivation was only to stimulate the power of their bloodline. The more power they could exert, the higher their cultivation base would be, but there must be a limit.

For example, the stone beast. This type of demonic beast was born as a third-tier existence, but there were also second-tier and fourth-tier ones, and the difference wasn't very big. The king of the stone heads could only evolve to the level of a seven constellations Martial Emperor. Anything higher than that would be abnormal, unless it had undergone a mutation, just like the gourd Little King Kong.

This kind of mutation and improvement to allow demon beasts to advance was understandable. Yuan gaohan himself had also tried this kind of refinement. Injecting the blood of a high-level demonic beast into a low-level demonic beast was the most common method. As long as the low-level demonic beast could withstand it and not die, it could basically improve its cultivation greatly. However, there was a limit to this kind of evolution. It was impossible for a second or third-level existence to evolve to the seventh or eighth level, or even the ninth level.

However, if demonic beasts could absorb the Qi of heaven and earth from the outside world through self-cultivation to increase their level, then this upper limit would be infinitely relaxed. Then they would no longer be demonic beasts, but demons!

Yunxiao had also thought of this situation. Although the stone beast was a half-beast, half-tool existence, and meditating and cultivating were all very unusual, even coincidental, if it could succeed, it meant that there must be such a way to make demon beasts evolve greatly, and the result would be very shocking.

The two of them quietly observed the primordial Qi around the gourd Little King Kong. It floated around him like smoke and fog. After the time it took to brew a cup of tea, it all turned into smoke and dissipated into the divine realm tablet.

Yunxiao sighed, looking a little dejected. "As expected, it's just an empty shell."

Yuan gaohan didn't know why, but he only felt relieved in his heart. If the gourd Little King Kong had really absorbed the primordial Qi just now, he really didn't know what kind of mood and thoughts he would have at this moment.

"Normal, normal. How did you teach him the Vajra fist?"

Yunxiao was taken aback. He frowned slightly and said, "Is it because you didn't teach him, so he doesn't know how to?"

His eyes immediately turned into blood-red crescents, and the purple-blue eyes of the calabash King Kong in front of him suddenly lit up. They were captured by Yunxiao's divine sense in an instant, and he immediately imprinted a set of cultivation incantations on it.

The purple-green eyes burst out with a powerful light like stars, flashing in the sky. The gourd Little King Kong's face showed a painful expression, as if it had suffered a great attack.

After a few breaths, Yunxiao's eyes returned to normal. The calabash Little King Kong, on the other hand, maintained its pained appearance, but it was slowly easing and soon calmed down.

I just printed the simplest method of absorbing primordial Qi, " Yunxiao said slowly. I don't know if it's effective. He took out another primeval stone, crushed it, and blew it over, shouting, " meditate, absorb, breathe in and out!

The gourd Little King Kong sat down clumsily. What shocked Yuan gaohan was that one of his hands actually formed a seal while the other hand was placed on his dantian. It was the simplest breathing technique.

The vital Qi of the vital stone was blown away by the breeze, and the body of the calabash Little King Kong suddenly glowed. Then, he suddenly opened his mouth slightly, took a deep breath, and sucked all the vital Qi into his stomach!

"Ah?"

Yuan gaohan was completely dumbfounded, and he said awkwardly,"This ... Is this considered being sucked in?"

"Hu hu!"

Suddenly, the calabash Little King Kong spat out the ball of vital Qi again, and then sucked it in again, and this continued.

it doesn't seem to have any effect, " Yuan gaohan said. he doesn't seem to be able to really absorb and digest the primordial Qi into his meridians.

Yunxiao's eyes narrowed slightly, turning into the color of the Blood Moon as he stared unblinkingly at the gourd-shaped Little King Kong. "You're wrong, the vital Qi He spits out every time is less than before!" Even though the amount of vital Qi He inhales with each breath is extremely small, he is indeed absorbing it!"

Yuan gaohan was taken aback. He fixed his eyes on the stone and found that it was just as Yunxiao had said. At this speed, it would take him about thirty to forty breaths to inhale a mid-grade primordial stone. "With this speed, he'll have to be immortal if he wants to advance to the eighth step," he said with a strange tone.

Yunxiao smiled and said, " it's not important whether I can advance or not. What's important is that it works, at least theoretically. This is an amazing discovery.

He casually crushed a hundred or so vital stones and sealed them in a small space, letting the gourd Little King Kong quietly cultivate in it. It was better than nothing.

Yunxiao's eyes suddenly turned cold as he said with a faint sneer, " you really won't die if you don't seek death. There's trouble outside.

"That fat and round guy and that woman in Palace clothes seem to have some background," Yuan gaohan said with a frown,"I can't remember where I've seen their martial arts skills before."

Hmph! Yunxiao said coldly, " a bunch of ants. I don't have time to play with them, so I'll just send someone out to kill them."

Chapter 528-remaining evil

"It just so happens that this stone beast has just been refined, so we can let him test its power," Yuan gaohan said with a smile.

those ants are not worthy of the calabash King Kong, " Yunxiao snorted coldly. they're not worthy of me.

With a point of his finger, a bolt of lightning condensed in the air. With a loud roar, DarkThunder emerged, stepping on lightning.

go, " Yunxiao said softly. just send away those minions. Don't let anyone find you." He pointed his finger, and the DarkThunder disappeared into the divine realm tablet.

"Where did you get so many strange species?" Yuan gaohan forced a smile and said,"I think the DarkThunder is also a mutant, right?"

yes," Yunxiao replied. it does have the bloodline of an ancient demon beast in its body, but it's very thin. He took out a storage bag and threw it to Yuan gaohan, saying, " old Yuan, these are the materials I got from The Purple Cloud Chamber of Commerce. There are also some Starlight stones and vital stones. Help me forge a few swords.

Yuan gaohan took it and looked at it, slightly frowning. Although there were many things inside, they were still very rare for him. He snorted,"If I don't have the Starlight Stone, my soul will be tortured to death by you sooner or later."

Yunxiao grinned and said, " we are indeed in short of resources now. This city is owned by the southern Fire gold crystal mine, so the local major forces must be very rich. I plan to borrow some primordial stones from them one by one.

Yuan gaohan's brow twitched as he coldly snorted, with your current strength, don't lose it. That would be a huge joke!

Yunxiao smiled and said nothing. old Yuan, watch carefully. The sword I need is not an ordinary ninth tier profound armament. Have you heard of the heavenly Sword illustration?"

Yuan gaohan was shocked and exclaimed,'the divine cloud Palace's Heavenly Sword picture? Palace Master qu even gave you such a treasure?"

Yunxiao smiled. the divine map of Heavenly Sword is one of the divine treasures of shenxiao Palace. How can it be given to others so easily? but I'm lucky to have a look. The entire sword picture was made up of 81 divine swords and was divided into seven levels, corresponding to the seven stages of a warrior from the Tri-elements realm to the nine Heavens realm. With my current strength, I can control thirty-six divine swords. As for the seven pieces of Northern heaven frigid star metal, help me forge forty-one to forty-six swords."

"?! Sixteen divine swords made of Northern heaven frigid Star Iron? Do you think that Star Iron is wood that you can manipulate as you please?"

"Let's not even talk about the fact that four of them are mine. Even if my true body were here, it's impossible to refine so much Northern heaven frigid Star Iron in such a short time!" Yuan gaohan said

angrily. You also saw that Tenshou metal just now, and even your level ten divine fire was so difficult to refine!”

Yunxiao sighed. ah, forget it then. I was going to teach you how to control the true Phoenix Fire, but I didn't want to.”

“What? Y-you're willing to give me the true Phoenix Flame?”

Yuan gaohan rushed over and grabbed Yunxiao's hand, his eyes full of excitement.

“Get lost!”

Yunxiao shook off his arm and said angrily, “Even if it's a complete Heavenly Sword illustration, it's not worth more than my true Phoenix Fire. I'm just allowing you to control the divine fire as you wish in the divine realm tablet. Think about the benefits you'll get from this.”

“I knew there wouldn't be such a good thing,” Yuan gaohan wailed. You want me to help you refine sixteen ninth tier profound armaments just to experience the use of the divine flame. This monastic robe, isn't the price too high!”

it's not high at all, ” Yunxiao said with a smile. even if you refine one hundred and sixty of them, you might not be able to improve much in your understanding of the Dao of alchemy. but this level ten divine fire is different, you know. Besides, isn't it your duty to help me recover to my peak?”

A bitter expression appeared on Yuan gaohan's face. If he could sense and control the power of a tenth-tier divine fire, it would definitely be of great help to his comprehension of the power of tenth-tier, and if he missed this opportunity, there would definitely be no next stop.

“Alright, I'll try. After all, I'm only an eighth-order Starlight spirit body. Even if I have the Phoenix divine flame, I might not be able to refine a ninth-order profound armament, let alone the northern heaven cold star Iron.”

just do your best," Yunxiao said. I'll ask Gu Yuesheng to help you. That boy is quite talented, and he is a talent worth training.

Then, the two sat opposite each other. Yunxiao directly imprinted part of the divine realm tablet's power of rules into Yuan gaohan's sea of consciousness through his divine sense. After all, Yuan gaohan was a pure soul, so it was not difficult for him to receive it, and he soon entered a self-comprehension state.

Yunxiao did not want to disturb him, so he turned and went to another place. Under his feet, he felt a slight wind throbbing.

His divine thoughts moved, and a gust of biting cold astral wind suddenly gushed out from the crack in the ground in front of him. It was trapped in front of him by his rule force, and it fluttered loudly.

It was the violent and restless immemorial astral wind power. Back then, it had surged into the stele too much and was suppressed by the true Phoenix Fire and the earth.

With a flip of his right hand, Yunxiao took out the broken primordial heavenly eye. He wrapped it in Phoenix Fire and threw it into the primordial astral wind, then cried out, "Refine!"

A few hand seals flew out from his hands and entered the immemorial astral wind at the same time. He cast a spell in the air and directly used the astral wind and true fire to refine the immemorial heaven's eye.

This kind of Mystic artifact or physical body tempering technique was common on the continent, but it was not as abnormal as Yunxiao's.

The profound level of the primordial heavenly eye he had refined was not high, and it could be easily repaired with sufficient materials. But, Yunxiao suddenly had an idea to fuse the power of the two elements directly. If he succeeded, the power of the primordial heavenly eye would be greatly improved.

In the Big Dipper sect, the sky above the small courtyard where the itinerant martial artists lived was already dark and quiet.

More than a dozen cultivators had gathered above in a small circle, seemingly discussing something, their eyes as cold as ice as they glanced down from time to time.

One of them was a man in a gray robe. He was obviously taller than the others, and his exposed hands were yellow like dead branches. Thick black blood seemed to be flowing in his protruding blood vessels.

This person seemed to be the leader of the group. His arms were crossed in front of his chest, and his five long fingers were constantly flicking on his arms, as if he was in deep thought.

shifting position and control of fire element ... From what you've said, it does sound like the ability of a senior Alchemist, especially that shifting position. It's impossible to achieve without a seventh-tier cultivation in alchemy!

The man in front of him, the one who had controlled the earth-Sand Snake, said in surprise, "Leader, is there a great Alchemist among these people?"

The skinny man said in a hoarse voice, "I can't say for sure if there are any great alchemists, but I remember the weapons of the fat girl and the woman in the palace dress you mentioned earlier. They were the Thunder gathering Pearl and the hundred Jade fan, which used to be the famous profound level weapons of the North Scorpion sect. When the North Scorpion sect was split into the Big Dipper sect and the heavenly Scorpion sect, a small group of people left nanhuo city and entered the divine Wind sect in Yufeng city."

The dozen or so martial artists all revealed shocked gazes. The man controlling the earth-Sand Snake was even more shocked as he said, "So these people are from the Holy Wind sect? The divine Wind sect could call the wind and summon the rain in Yufeng city, so why had they come to nanhuo city to plot against them? Could it be that they're coveting?"

"Not bad!"

The skinny man's eyes became cold and he said, "Their purpose should be the same as ours, which is to get the treasure of the North Scorpion sect! In this group of five, that Shou Wei should not have a problem. As for the remaining two, that young man should not have a problem. The key is that wretched man with the goatee. He's most likely a great Alchemist."

He looked down coldly and said, "Either he's extremely confident in his own strength, or he has helpers hidden in the dark. No matter what it was, they couldn't be allowed to live so freely. Kill those that can be killed, capture those that can't. Oh, by the way, it's better to capture those two from the North Scorpion sect alive. Let's see if there's any information that we've missed. It might be useful!"

"Yes!"

More than ten cultivators acknowledged the order and instantly turned into more than ten rays of light and rushed down from the sky, heading towards the small courtyard.

The expressions of the Big Dipper sect disciples guarding the small courtyard changed drastically. "Not good, there's an enemy!" One of them exclaimed.

The pupils of the other man, who was slightly stronger, shrank. He grabbed the man's neck and said angrily, "Shut up, you idiot! Don't you see who these people are? They're all the people that elder Sima brought back that day. Do you want to die?"

The disciple's face turned red as he nodded repeatedly. The stronger disciple released his hand and said coldly, "It's all peaceful, nothing happened. Tomorrow morning, go to South Fire City and find some craftsmen to repair the damaged courtyard."

Several Big Dipper sect disciples sat down cross-legged and used their vital Qi to seal their senses. They began to cultivate quietly, turning a deaf ear to the outside world.

Who are you?!

Shou Wei was the first to exclaim and he flew out of the room. However, he soon met the first martial artist who had fallen. With just a palm, he was sent flying back into the house. The house was directly penetrated and he flew dozens of meters away.

In the other two rooms, the fat and round man and the woman in the palace dress also rushed out. The two had their backs against each other and were on full alert. They were surrounded by more than ten people in an instant, and the atmosphere was extremely tense.

“Are the two of you the remnants of the northern scorpion sect from the Holy Wind sect?” one of the men asked.

“Who are you people?” the fat, round boy was shocked and shouted.

He and the woman in palatial attire were both extremely shocked. After revealing their strength in the day, they felt that trouble would come, but they didn’t think that it would come so quickly, and that they would reveal their identities as soon as they opened their mouths.

“As expected, capture him!”

The man saw their expressions and immediately confirmed it. He waved his hand and shouted.

The auras of more than a dozen martial artists exploded all at once. As they squeezed against each other, they actually formed a faint muffled Thunder roar, causing the space in the entire courtyard to shake.

The Rogue cultivators near the courtyard were shocked and many of them flew into the air. However, after feeling the powerful pressure, they immediately fled far away and no one dared to come forward to cause trouble.

Another two men rushed into the rooms of the goateed man and Yunxiao, respectively. Suddenly, a scream came out of Yunxiao’s room, followed by the warrior’s miserable cry.

I recommend a new book by a friend, ” Supreme from the nine Heavens.

Chapter 529-repelling the enemy

“Roar!”

Following the demonic beast’s roar, the door was suddenly smashed open. The martial artist’s body was charred black and left a long mark on the ground. He was already dead!

A bolt of lightning gathered at the door, and the DarkThunder's figure slowly appeared. Crackling arcs of electricity flickered around its body, making it look majestic like a divine beast guarding the mountain.

"A demonic beast! Why would a demonic beast suddenly appear?"

The dozen or so martial artists were all confused when they saw DarkThunder's strength.

a demonic beast at the Martial Emperor realm? what's going on?!

and it's a monster beast that can control the lightning element!

In everyone's shock, they saw DarkThunder step on lightning and soar into the sky. The lightning around its body was like a layer of water covering it. After it dove down, it bloomed like a lightning bomb and exploded.

A ball of lightning that looked like a Porcupine turned into countless tiny lightning bolts and shot out in all directions. Everyone scattered behind them in shock.

The fat and round earth man and the woman in the court dress were also shocked. They hurriedly flew away and spread out. The lightning attacked indiscriminately, and the two of them were also shrouded in the lightning.

The fat round guy was even more shocked. He himself also cultivated lightning cultivation techniques, so he immediately became greedy for the DarkThunder. If he could get such a demonic beast, it would be very beneficial to his cultivation. As he flashed lightning attacks, his eyes quickly turned.

After a brief moment of panic, the martial artists immediately regained their composure. After all, most of them were martial emperors, and there was nothing to be afraid of when they gathered their strength.

The man who was playing with the earth Snake cupped his hands, and an earth element flew out from behind him. It was like a huge Python twisting its body, and the yellow sand flew in the air as it rushed

straight ahead. The sand and dust exploded like fried beans in the lightning, and the tiny bits stirred up hurt his ears.

There were more than a dozen other attacks, palm winds and sword lights, which broke through the DarkThunder's Lightning defense and landed on its body. Although it was not seriously injured, it was suppressed and could not resist.

The DarkThunder roared again and again, but there was nothing it could do.

Seeing that the situation wasn't going well, the round and fat man and the woman in the court dress also rushed into the battle. Although they didn't know where the DarkThunder came from, it would at least be of great help. If it was killed so easily, then it would be their turn next.

As soon as they joined the battle, the DarkThunder immediately broke free and chased after a few of them in a rage. The entire courtyard was in chaos.

The skinny man's eyes turned cold as he looked down from the sky. Although he wasn't afraid of causing a big commotion, he didn't want to cause unnecessary trouble. This was especially true at such a sensitive time like the sect competition. All the major powers of Southfire city had already entered the mountain range. If they were discovered, it would be troublesome.

His withered yellow hands began to glow with a faint black light. In a flash, he disappeared from the sky and swooped down rapidly.

In a small room at the side, Yunxiao slowly opened his eyes and spread out his divine sense. He immediately knew everything about the nearby area. He frowned slightly and muttered to himself, "that's strange. That wretched man with the goatee has actually disappeared?"

He got down from the bed and directly broke a big hole in the wall. Next to him was the goat-bearded perverted man. The decoration inside was exactly the same as his room, but there was a dead body on the ground. It was the group of people outside. The goat-bearded perverted man had long disappeared.

Yunxiao's heart lurched, and he became a little vigilant. The man with the goatee had been acting submissively, which made Yunxiao suspicious several times, but he did not find anything strange. Someone who could play tricks under his eyes was definitely not an ordinary person.

He examined the corpse of the warrior on the ground. He had the cultivation of a nine-stars martial Grandmaster, and he had died from his dantian being crushed by a kick. Not only did the force of that kick shatter the martial artist's dantian, but the remaining force also spread along the meridians to the hundreds of bones in his body, causing all the meridians in his body to be broken, and he was completely dead.

But from the outside, there was not a single wound. In other words, that person's strength was controlled so exquisitely that there wasn't any excess power.

The demon Dragon also sensed the outside with Yunxiao's divine sense, and it said in horror, " what a cruel method! What fine control!

Yunxiao rolled his eyes and said, " it's all killing. They're all killed with one move. There's no such thing as being cruel. However, this kind of fine control is not something that an ordinary person can do. I think I can do it too, but I definitely wouldn't be able to control my power like this. It can be seen that this person is someone who cherishes his elemental energy very much, and has developed this kind of striking habit."

what's more terrifying is that he can hide his strength under our eyes, " the demon Dragon said. could he be a top-tier assassin? "

Yuwen Xun appeared in Yunxiao's mind. He immediately shook his head and said, " "Who knows? As long as he doesn't provoke me, he'll be dead even if he's the God of heaven." A vicious aura appeared on his body as he sneered, " "There's someone outside who doesn't have eyes and is coming down!"

Suddenly, a blue lightning bolt rushed in, followed by DarkThunder, who was roaring and pressing its body against Yunxiao's leg, looking very aggrieved.

"Don't let it escape, chase it!"

Then, three figures rushed in, all with the strength of martial emperors. Their pupils constricted when they saw Yunxiao, and they launched cold and fierce attacks at him, trying to suppress the man and the Beast.

A cold look appeared on Yunxiao's face. With a light step, he dodged the sword and punched the Martial Emperor's dantian. The fist glowed with a faint yellow light. The force of the physical body shook into the man's dantian and immediately made a muffled sound. The man's pupils suddenly became lax, the long sword fell out of his hand, and his whole body went limp.

The two of them were shocked. Before they could react, they saw a blur in front of their eyes. Then, their dantian also felt a heavy love. In an instant, their souls scattered and their vitality was extinguished.

Yunxiao checked the three men's bodies and said, "that's right. The man with the goatee should have attacked like this. The way he died is exactly the same.

With a wave of his hand, the four corpses on the ground were immediately rolled up and sent flying.

After a few "Bang Bang" sounds, the originally noisy outside immediately quieted down.

The fat and round earth and the woman in the court dress suddenly caught everyone off guard. After exchanging a glance, they turned into two rays of light and flew off in different directions.

The skinny man waved his hand and stopped the cultivators who were about to give chase, saying in a cold voice, "There's no need to chase them. I already know the strength of these two people. They won't be able to cause any big waves." His eyes grew colder as he moved his gaze away from the four corpses and looked into the small house.

"His meridians are all broken, what a vicious method. It's not a good idea to stay in the house, so let's come out and see."

The skinny man waved his hand, and all the martial artists immediately surrounded the room. They were scattered around the room, ready to attack at any time.

For a long time, there was no reaction from the room.

The scrawny man frowned and a malicious look flashed in his eyes. He said in a cold voice, " what arrogance! Since that's the case, let me invite you out!

He strode forward and entered the house. The surrounding cultivators' hearts tightened as they prepared to attack, waiting for the man to rush out of the house and attack with all their might.

A huge wave of power came out of the small house, making a few soft sounds, and then it became quiet.

After waiting for a long time, there was still no movement. Just when everyone was confused, The Thin Man walked out from inside.

"Has it been resolved?"

That was what everyone thought, and they gradually relaxed their vigilance. However, the skinny man immediately made a move that made everyone faint.

The emaciated man's eyes were no longer as calm and cold as before. Instead, they were full of shock. He stood at the door and bowed deeply. He respectfully said in a low voice, " "Then, my Lord, you should rest early. I dare not disturb you any longer."

"This is an ..."

All the martial artists were instantly confused, and big question marks flashed in their minds.

The skinny man didn't even dare to stand up straight. He bowed and took three steps back, then waved at the Warriors scattered around and immediately retreated.

The group of martial artists were not fools. They immediately understood that they had encountered someone they could not afford to offend. Each of them was drenched in cold sweat. Looking at the

corpses in the courtyard, they had died in vain. However, all of them had already seen through life and death, and they all chased after the skinny man.

The demonic Dragon's voice came from the small house. "Why don't you kill him? If you reveal your strength, I'm afraid you'll cause unnecessary trouble."

Yunxiao's face was a little pale as he said, "I only used my spiritual pressure to intimidate him just now. With his strength of a nine-stars Martial Emperor, it would be quite difficult for him to kill me. Moreover, it seems that they are of great value to us."

"You mean the treasure of the North Scorpion sect?" the demon Dragon asked. I don't think it's reliable."

who cares?" Yunxiao laughed. even if it's fake, we won't lose anything. Besides, he couldn't have lied under my spiritual pressure. Even if there's no treasure, I won't suffer any loss."

He dashed out of the room and found Shou Wei a few dozen meters away.

Shou Wei's expression was extremely ugly. He was currently circulating his energy to heal himself, and his body was covered in cold sweat. He was sent flying by the other party at the first moment and almost lost his life. It was not that the other party was being merciful. It was just that he had just advanced to one-star and his abilities were much higher than before. It seemed that the person who attacked him had a certain understanding of his abilities.

Yunxiao took out a medicinal pill and fed it to the man, then injected a few incantation seals into his acupoints, and the injury immediately stopped.

Shou Wei was shocked and found that his efforts to resist the spread of the injury were in vain. He was stopped by the other party with a few casual moves. Moreover, he didn't know what kind of pill it was, but just from the surging medicinal power it emitted, it was at least a sixth-tier medicinal pill. The injuries on his body were actually healing at a visible speed.

Chapter 530

?

“This Yingluo, you Yingluo”

Shou Wei didn't know what to say. He suddenly became depressed. He had originally thought that he was the only one out of the five who had not been sealed and had retained his combat strength. He didn't expect to be the weakest one, and the remaining four were each more mysterious than the last.

This was especially so for the young man in front of him. Even now, he was unable to sense his elemental energy fluctuations. However, he had clearly seen the reaction of the skinny man in the distance.

Yunxiao looked at his dejected face and said with a smile, “Don't be depressed. Everyone has their own goals and doesn't want to expose themselves. I can see that they don't have any ill intentions.”

“Thank you for saving my life, my Lord!” Shou Wei smiled bitterly.

you don't have to be so distant, ” Yunxiao said with a smile. I'm still very grateful to you. Your injuries should be fine now, let's talk inside.”

Shou Wei was shocked. He was on the verge of death and he didn't know if he could survive it. He didn't think that he would be saved in just a few breaths. His heart was filled with great shock and respect as he carefully followed Yunxiao into the room.

on the way here just now, ” Yunxiao said, ” that fat guy was talking about the treasure of the northern scorpion sect. Do you know anything about it? ”

“Sir, did you also come for this?” Shou Wei was shocked. “Don't even think about the treasure, or else you Yiyi's words suddenly stopped. Looking at Yunxiao's clear and smiling eyes, he smiled wryly and said, ” “I'm just trying to persuade you out of good intentions. This information is just rumors, I don't know if it's true or false.”

yes! Yunxiao nodded and said, ” just tell me what you know.

Shou Wei responded and thought for a moment before saying, "Sir, you are from outside, so I will start from the beginning."

"Back then, the Big Dipper sect and the sky Scorpion sect were one family. They could be considered one of the top existences in the entire Eastern Region. However, as the sect grew bigger, the problems would accumulate and eventually lead to an internal conflict, splitting into two factions. And the core of the contradiction lies in that extremely elusive treasure."

"It's said that the first sect master who established the northern scorpion sect was not only powerful, but also had the entire Southern Fire golden crystal Mountain range and was extremely rich. On his deathbed, he considered that the cultivation of his disciples was far from his, and it would be difficult to maintain the foundation of the sect for a long time. As such, we planned far ahead and buried all of the sect's resources, so that in the future, when the sect's experts rise, they'll be able to obtain them."

"As expected, thousands of years after the death of the first sect master, the North Scorpion sect faced its first disaster. The decline of the North Scorpion sect had always been a rule of history. At that time, the potential enemies of the North Scorpion sect had been growing stronger and stronger, and finally, they had an opportunity to attack the North Scorpion sect, trying to wipe out the existence of this sect in one fell swoop. It's said that hundreds of Martial Emperor powerhouses were mobilized at that time."

Yunxiao frowned slightly and said in disbelief, "you're exaggerating. Even the seven superpowers can't produce more than a hundred martial sovereigns."

Suddenly, Yuan gaohan's voice came from the divine realm tablet sect, "I'm not exaggerating at all. I remember now. It was no wonder that the battle technique of the fat and round man and the woman in the palace dress seemed familiar. Although the North Scorpion sect had declined at that time, it was still an existence that was not weaker than the seven superpowers now. Its enemies failed in the end and eventually sought refuge with another force in the Eastern Region, which is the Jiang family of the current Red Moon City."

"What?"

Yunxiao was shocked, and he sent a voice transmission in, "The Jiang family of the red moon City? With their strength, it should be as easy as turning their hands to exterminate the Big Dipper sect and the heavenly Scorpion sect. How could they allow them to survive until now?"

“I don’t know about that,” Yuan gaohan shook his head. The Holy region recorded the evolution and changes of various powers on the continent. I had only casually flipped through it. After all, I wasn’t too interested in these things. Perhaps it’s been too long, and the Jiang family has forgotten about that grudge.”

He revealed a strange expression and said, “Ever since you turned the red moon City upside down, the ruan family, which was originally one of the three major surnames, is now gradually declining and can no longer be compared with the other two families. The Redmoon city had already become a situation where the ning family and the Jiang family dominated. Without the support of the ruan family, although the red moon City is still among the seven major forces, it is already at the bottom of the existence.”

The power distribution in the realm of heavenly martial arts was extremely uneven. Among the seven super forces, the southern region was not close to them. In the Eastern Region, there was only one red Moon City, which was composed of many complicated forces. Among them, the most powerful were the ning family and the Jiang family. Decades ago, the ruan family was originally one of the three major families, but after most of their Masters were killed by Gu Feiyang, they fell and no longer had the prestige they had in the past.

There were two forces in the Western Region, the Soul Eater clan and the myriad Stars Valley.

The truly powerful existences all dominated the North Region.

This was also caused by the uneven distribution of spiritual energy in the heavenly martial arts realm. The spiritual energy of heaven and earth in the North Region was the richest, and any random place would have spiritual mountains and great rivers, much better than the remote South Region. This also caused the North Region to be the most competitive place. Even the headquarters of the merchant Union, songyue city, was in the North.

Shou Wei’s words pulled Yunxiao back from the shock. He shook his head and said, “who knows? anyway, that’s what everyone says. Maybe it’s a lot of exaggeration, but it’s enough to show how powerful the North Scorpion sect was at that time.

at that time, the entire North Scorpion sect was in a precarious situation. It was said that the sect master at that time opened the treasure left by the first generation, which saved the fate of the sect and repelled the powerful enemies. However, from that time on, it further intensified the decline of the

sect's strength. It wasn't until hundreds of years ago that the Big Dipper and sky Scorpion families finally split. Even so, these two clans are still the greatest powers in Southfire city."

according to what you're saying, the treasure has long been taken away," Yunxiao said.

"Rumor has it that the treasure was opened back then, but only a small portion was taken. The rest was still sealed by the sect master of that generation. Hundreds of years ago, the thunderwind Chamber of Commerce had forcibly interfered in the many disputes in nanhuo city, wiping out all the local forces in one fell swoop. The Big Dipper sect and the heavenly Scorpion sect had almost been exterminated. However, they suddenly counterattacked and eventually reached a balance with the Thunder wind Chamber of Commerce and other forces. That's why everyone is guessing that the first generation treasure has been opened again."

'This is ridiculous,' Yunxiao said with a frown. Just based on this, you can tell that the treasure has been opened?"

"But there's one thing I'm sure of. The northern Dipper sect and the heavenly Scorpion sect had obtained a lot of resources in the end, which was why they could compete with the Thunder wind Chamber of Commerce. When the Chamber of Commerce forces had forcefully inserted themselves, they had immediately sealed off the supplies of the two forces in all aspects. In the constant fighting, the original resources had long been exhausted. This was also the reason why they were ultimately defeated. Later on, without a strong helper, it was impossible to form the current balance."

that seems to make sense," Yunxiao said. Moreover, according to what the man had said just now, the fat and round-faced man and the woman in the palace dress seemed to be the remnants of the former North Scorpion sect, and even they were lured here. It was at least 30% credible. Hehe, I'm very interested to see what the treasure is."

"Sir, you must be careful." Shou Wei said hesitantly. I know that person just now, he's called Luo Xin ran and is also one of the Rogue cultivators of Southfire city. Because of his strength, he is very famous. He didn't know why, but he actually had so many subordinates. He's a vengeful person, and he's used all sorts of methods to kill anyone who offended him."

Yunxiao did not mind at all. If Luo Xinran did not know what was good for him, he would not be polite next time. He smiled and said, "Thank you for the reminder. On the contrary, brother Shou should be more careful."

“I don’t plan on watching the sect competition tomorrow either. I’ll just go back home and leave Southfire city. I’ll find an ordinary force to become an elder or a Guardian to rest in.” Shou Wei smiled bitterly.

“Hmm, that’s good. You and I can be considered to be fated, so I’ll pass on a set of cultivation techniques to you. As long as you persist in cultivating them, you’ll definitely be able to break through to the seven constellations realm within five years.”

Yunxiao said unhurriedly as he took out a Jade slip and placed it on his forehead, then imprinted a cultivation technique incantation on it and handed it over.

Shou Wei was taken aback and smiled bitterly in his heart. He would be satisfied if he could break through to the seven constellations realm in this life, let alone five years. He did not take Yunxiao’s words seriously, but he did not dare to show it on his face. He still took the Jade slip respectfully.

His expression could not escape Yunxiao’s eyes, so he smiled faintly.

Shou Wei scanned his divine sense into the Jade slip, and a technique immediately appeared in his mind. His expression changed drastically. He had never heard of this cultivation technique before, and it gave him a feeling of extreme power. He immediately understood that it was true that he would be able to break through to the seven constellations realm in five years.

He suddenly came back to his senses, only to find that Yunxiao was no longer in the room.

Shou Wei knew that he had met a true expert. Fortunately, he had been polite along the way and didn’t offend this person. Moreover, from the fact that he saved her and even gave her a cultivation technique, it seemed that he had a good impression of her.

He held the Jade slip tightly in his hand, as precious as his life.

He had already sensed that the atmosphere of the Big Dipper sect’s competition wasn’t right. It wasn’t a place for a small character like him to visit. He didn’t dare to stay in this small courtyard any longer. He hurriedly went down the mountain before the sun rose.

After leaving the courtyard, Yunxiao sensed for a moment, then flew in one direction.

He had already secretly left a mark on the Fat Boy and was now chasing after him. He was slightly regretful that he didn't leave a mark on the goateed man. Otherwise, he could have investigated the goateed man's background.

What he lacked the most now was all kinds of cultivation resources. He had originally planned to 'borrow' some metastones from the local forces. Now that he heard that there was a treasure, he naturally would not let it go.
