

The Eternal 551

Chapter 551-tip

Hanxuan looked at mo Huayuan in shock. She didn't expect him to be so loyal.

Mo Huayuan laughed bitterly. don't think that I want to die. It's just that my master has taught me many times that there's nothing to fear about death. The sun and moon shine on one's heart. I've never dared to forget this!

young master Yun! Hanxuan was filled with respect and said firmly, " tomorrow, The Purple Cloud Chamber of Commerce will also advance and retreat with young master Yun. We will die together!

After the two left, Yunxiao suddenly opened his eyes in the secret chamber and chuckled. "Old Yuan, your disciple has quite the character."

Yuan gaohan coldly snorted, no one will care if you go and die. If you implicate my disciple, I will be the first to fight you to the death!

Yunxiao smiled without saying a word and continued to cultivate. Mo Huayuan's collection of resources was huge. In addition to the resources provided by The Purple Cloud trade union, it was enough for him to cultivate for a long time. His body was like a black hole that could not be filled, devouring Yuan Qi without restraint.

On the second day, the thunderwind Chamber of Commerce's auction house in nanhuo city was packed with people.

Mo Huayuan and Hanxuan came together with a group of maidservants, as well as Yunxiao, who was disguised as a coachman. He had suppressed his cultivation and looked like a Martial Master, so it would be difficult for him to attract attention.

Under Yunxiao's objection, he did not bring little Xuanzi out. That man was too unreliable.

Mo Huayuan's entrance into the auction house immediately attracted the attention of many forces. The originally noisy interior instantly quieted down, and everyone looked at him with respect.

Many sect Masters, presidents, and the like did not dare to sit down anymore. Wherever Mo Huayuan and the others passed, they stood up one after another, and many of them were excited to be able to meet an eighth-tier alchemy master.

Mo Huayuan was already used to such scenes, so he greeted everyone casually. He only nodded slightly in acknowledgment in front of a few local big shots.

"I didn't expect that the auction of the thunderwind Chamber of Commerce would also startle Master Mo. What if there isn't something that Master Mo needs in this auction?"

A person walked over. He was gentle and elegant. It was the new moon sect's sect leader, Xiao Minghui. He chuckled and said, "This thunderwind Chamber of Commerce is really insensible. They didn't even offer the item that Master Mo needed but brought it here to auction. Could it be that they are so arrogant that they don't even put Master Mo in their eyes? We should really punish them for their disrespect."

Xiao Minghui gave people a sense of gentleness. His actions and words were very elegant, but his words were sharp, which directly attracted hatred from the thunderwind Chamber of Commerce.

"I'm not too sure about the details of this auction," Mo Huayuan replied indifferently. "I'm just here to watch the fun since I'm bored. He naturally understood these little tricks and had seen them many times, so he didn't mind."

Xiao Minghui said, "So Master Mo is here to watch the show. It seems that the thunderwind Chamber of Commerce doesn't know that you're here. They don't even have anyone to welcome you." "If Grandmaster doesn't mind, you can deign to stay in my private room. I wonder if Grandmaster is willing?"

"Very well!" Mo Huayuan replied.

With his status, he should have his own private room. However, because of the teleportation formation, the discussion with the Thunder wind Chamber of Commerce was fruitless, so they didn't notify him in advance. Moreover, he didn't want to meet the people of the thunderwind Chamber of Commerce. It was great that Xiao Minghui had invited him.

It was a great honor to be able to invite master mo. Xiao Minghui was also overjoyed. Under the envious gazes of the crowd, he invited mo Huayuan and the others to his private room.

Vice sect leader Liang Ye and the others immediately stood up and welcomed mo Huayuan to his seat. Hanxuan followed closely behind.

After sitting down, mo Huayuan thought of Yunxiao, who was still standing behind him, and felt very uncomfortable. He turned around and said, "You guys sit down too."

There were only eight seats in the box, and Yunxiao sat down behind Hanxuan. The other maidservants looked at each other and sat down as well. As a result, all the people from the new moon sect had to stand, and they all frowned in displeasure.

Liang Ye's face was also filled with anger as he glared at Yunxiao and the other maidservants, as if he was saying, "don't be ungrateful. This is not a place for you to sit."

But, Yunxiao turned his head and looked up at the sky, his face turning livid with anger.

Xiao Minghui, on the other hand, had a good heart. There was no unhappiness on his face. He smiled and said, "It's fine. Liang Ye, go and ask the people of the thunderwind Chamber of Commerce to send a few more chairs over. Although the place is small, it'll be fine if we can all squeeze together."

Mo Huayuan and the others immediately looked at him in a new light. As the head of a sect, it was indeed not an ordinary person to have such magnanimity.

Xiao Minghui smiled and said, "for us martial artists, it doesn't matter if we stand more." This beauty must be the leader of The Purple Cloud trade union, President Luan Xuan, right?"

Wu Chen coldly snorted. sect leader Xiao, you're so well-informed. I'm afraid you already knew the day President Hanxuan came.

Hanxuan chuckled and replied,"I often hear Wu Chen talk about sect leader Xiao, and he is indeed more powerful than what I heard .."

"Oh? I wonder what President Wu often talks about me? It must be something bad."

Xiao Minghui smiled as his eyes fell on Yunxiao and said, "Eh, this is? The Purple Cloud trade union was made up of only women, when did it have a man? Could he be a new disciple of master mo? Then I must congratulate master mo for finding another talent."

"You're overthinking it, sect master Xiao," Hanxuan said with a smile. The Chamber of Commerce will always have some male subordinates, but they are rarely seen in public."

"I see."

Xiao Minghui nodded and smiled, as if he didn't care.

Soon, the chairs were moved over, and the people of the new moon sect sat down one by one. However, there was some distance between them, so it was a little crowded.

The news of mo Huayuan's arrival at the auction venue quickly spread, and many of the sects and powers that had arrived later came to pay their respects. It was clear that eighth-tier alchemists had an extraordinary influence in Southfire city.

Not long after, the owner of this place, Gui Lin of the thunderwind Chamber of Commerce, finally came to pay a visit to mo Huayuan with his men. He sighed that he had failed to fulfill his duty and insisted on leaving a large private room for mo Huayuan and the others.

"President Qian, you shouldn't waste your time on an idle person like me when you're so busy," mo Huayuan said indifferently. I'm still very comfortable being with sect master Xiao and the others."

His tone was obviously cold, which made Xiao Minghui speculate in his heart. Mo Huayuan's relationship with the Chamber of Commerce had always been better than that of the local powers, but the situation at hand didn't seem to be what the rumors said.

Xiao Minghui did not forget to take advantage of the opportunity to sow discord. He chuckled and said, "President Tong, you should get busy. I'm more than enough to take care of master mo. Moreover, the recent rumors say that The Purple Cloud trade union and the sky crane trade union are at war. At this moment, master mo is with President Luan Xuan, while President Luan is with President Fang Tian He all day long. If master mo goes with you, it would not be good for President Luan Xuan and President Fang Tian He to meet their enemies."

Hanxuan's face darkened when she heard this, and she glared at Gao Lin coldly. Even though she knew that Xiao Minghui was trying to sow discord, she was still furious.

Qiu Lin coughed awkwardly and said with a smile, "It's said that sect master Xiao has a spoon-like mouth and loves to turn heaven and earth upside down. He can't tell right from wrong and instigates dissension, hurting people behind their backs. Although I'm very worried that Grandmaster mo is with you, I'll send a large number of experts to the surrounding area to ensure Grandmaster's safety. If master mo is injured in any way, the thunderwind Chamber of Commerce and your New Moon sect will be irreconcilable!"

"President Qian, please. When have we ever been friends?" Xiao Minghui said with a smile.

As they were talking, another group of people came to pay their respects to mo Huayuan. The announcement was made loudly outside. They were from the Big Dipper sect.

Xiao Minghui was overjoyed. Gao Lin's presence was giving him an invisible, huge pressure. After all, the new moon sect wasn't a weakling in the eyes of the thunderwind Chamber of Commerce yet. If the experts of the Big Dipper sect came, the situation would be completely different. The Big Dipper sect was like the sun in the sky right now, and no one dared to block its edge.

The person who came in shocked everyone. It was tan dijun, who was captured in the Big Dipper sect that day!

Yunxiao's pupils constricted as he immediately understood the whole story. It seemed that Zhang linghua had indeed let bygones be bygones. For the sake of the sect, not only did she let tan dijun go, but she also entrusted him with an important task.

Behind tan dijun, he saw a few familiar faces-ping Yingyi, Shangguan Yuyin, and Mei Dong 'er. However, they were all wearing pink floral dresses, which made them look even more pleasant.

Two elders and several disciples came with them, led by tan dijun.

"This is a Pixiu," jokingly said Gui Lin.

"I'm the new vice sect master of the Big Dipper sect," tan dijun said expressionlessly. "I'm here to attend your auction. Why aren't you welcoming me?"

Once this identity was revealed, everyone immediately understood the current situation.

Tan dijun glanced around the room, and his eyes narrowed when they finally fell on Yunxiao.

Yunxiao was taken aback, wondering if he had found out. Thinking that the other party was proficient in the art of transformation and simulation, and had a deep understanding of the art of disguise, it was possible that he could see through it.

"Haha, congratulations, brother tan!"

Xiao Minghui was the first to react. He quickly cupped his hands and thanked her with a sincere smile.

Chu Lin's face was expressionless. Although Zhang linghua didn't come in person, he was secretly relieved. However, he didn't want to see the two of them getting back together. What he hoped for was to kill until both sides were injured. After all, tan dijun was also a ninth rank martial venerable, which meant that he had a strong enemy!

The flesh on his face twitched as he laughed dryly. "Of course we don't welcome you, but we can't do anything if you're so thick-skinned. After all, it's a Chamber of Commerce, so we have to open our doors to do business and not be picky with any of our customers."

"Well said," tan dijun waved his hand. That's right, I just became the Vice sect leader, I like your words. Come on, give me a tip."

T-gift?

Everyone was taken aback, not knowing what he was up to.

A square tray appeared in ping Yingyi's hand, on which thirty ordinary low-grade primordial stones were neatly placed. He presented it to Ying Lin and said loudly, "Take it, quickly thank the Vice sect leader!"

"You coward!"

Qiu Lin's face turned red with anger. How could the other party humiliate him like this? furthermore, it was in the Chamber of Commerce's home ground. He was so angry that his face turned ashen. He snorted coldly and left with a flick of his sleeves.

Chapter 552-conditions

"Haha, this is great!"

Xiao Minghui laughed and stepped forward, "Sect master tan is indeed incisive, it's rare that you can make this old fogey, Gao Lin, so angry."

Tan dijun stroked his goat beard and chuckled, he's asking for death. I only scolded him a little this time. Next time, I'll just kill him with a slap!

His words shocked Xiao Minghui. He seemed to have sensed something, but he could not grasp it. Zhang linghua's sudden advancement to the rank of a martial Supreme had caused the Big Dipper sect to immediately rise above all the local forces. They had already become the leader of the local forces. A

chasm began to appear between them and the other forces, and they felt as if they were high and mighty.

Tan Dijun had come to visit Mo Huayuan, but at this moment, he seemed to have forgotten his original intention. Instead, he turned his eyes to Yunxiao and said playfully, "This little brother looks familiar, have I seen him before?"

Mo Huayuan and Hanxuan's expressions changed at the same time. Even Xiao Minghui could tell that something was wrong. He fixed his eyes on Yunxiao. He had only been a little confused about the manservant, but he did not expect that he would attract Tan Dijun's attention. Moreover, Tan Dijun always addressed himself as "this sect master" when he was talking to Gao Lin, but he actually addressed this man as "this Tan"!

The atmosphere in the room was so quiet that it was a little strange, and everyone's eyes were focused on Yunxiao.

Yunxiao was sure that Tan Dijun had seen through him, so he didn't care anymore. He was going to use the teleportation array, and his identity would be exposed sooner or later. "It doesn't matter whether I've seen him or not, but shouldn't I fulfill my promised conditions?"

Tan Dijun chuckled. He had finally confirmed that it was Yunxiao, and he was pleasantly surprised. The Big Dipper sect was searching for him with all their might. Not only was the lightning transformation divine technique on him, but the treasure map was also on him. He immediately laughed and said, "If you don't fulfill your promise, how can you fulfill the conditions?"

Yunxiao frowned and said coldly, "What a joke! I only agreed to help you, and I even heavily injured him. How could I not do it? It seems that Mr. Tan's memory has deteriorated after becoming the Vice sect leader."

Ping Yingyi's expression changed drastically. "So it's you!"

Xiao Minghui pondered for a moment and seemed to have thought of something. His eyes revealed a look of horror.

Tan dijun smiled embarrassedly. your memory hasn't changed. It's just that we couldn't find you no matter how hard we tried. It turns out that you're with the great Grandmaster. No wonder.

"Ah!"

As soon as he said this, everyone immediately understood who the person in front of them was. Mei Dong 'er, in particular, was so excited that she couldn't control herself. "You, you, is it really you? You're li Yunxiao?"

She did not know his name until the Big Dipper sect began to track him down.

In order to prevent Yunxiao from falling into the hands of the Big Dipper sect, she had taken the initiative to apply to participate in the search. She had been searching for him day and night, but she had found nothing. However, she had been commended by the sect for her great contribution.

During this period of time, she would have nightmares every night. She dreamed that the figure had escaped with serious injuries, collapsed in some unknown corner, and disappeared. She was scared awake by her dreams every night, and then she cried.

He yingrong saw that her condition was getting worse and worse, so she asked her to come out with tan dijun to attend the auction, as a way to relax.

However, he did not expect that the heavens would not let down the faithful. He finally met that person here and even said his name.

Yunxiao removed the disguise on his face and restored his original appearance. yes, my name is li Yunxiao.

"You, you didn't die, you didn't die, that's really great!"

Mei Dong 'er didn't know what to say for a moment. Big drops of tears rolled down her face. She was afraid that others would see them, so she hurriedly wiped them away.

your performance that day was wonderful," Yunxiao praised. I was in a hurry that day, so I'll add a word of praise.

These words made Mei Dong'er's tears fall like rain. In front of everyone, she wanted to control her tears, but she couldn't do it. Her face was red from shyness, making her look even cuter.

"I don't think you're allowed to hook up with the female disciples of my Big Dipper sect in the conditions I promised you," tan dijun said.

When Mei Dong'er heard the Vice sect leader's words, she turned her head away shyly. However, the tears on her eyelashes flickered with happiness.

I can't help it," Yunxiao sighed. a man like me, no matter where I hide, is like a Firefly in the dark. It's even harder to not be liked than to break through to the martial Supreme realm!

"Hahaha!"

Tan dijun laughed and said,"you really have the guts to say that." Since I've found you, I won't hide anymore. I need you to cooperate with us on two things. You have to cooperate with me on these two matters, whether you want to or not."

'So domineering,' Yunxiao said. Are we cooperating with you or the Big Dipper sect?"

Tan dijun gazed at him and said,"The Big Dipper sect!"

These three words immediately represented his current position. It seemed like tan dijun had been completely convinced by Zhang linghua, and was now wholeheartedly working for the Big Dipper sect.

"Sure!"

but, " Yunxiao said, " pay me what you owe me first, and then we'll talk about cooperation. As for whether I'm willing or not, it'll depend on the chips you offer. Even in the holy city of misty snow, they can't force me to do things I don't want to do, let alone the Big Dipper sect. "

These words were too big, making everyone's faces change greatly.

Tan dijun's eyes flickered. He knew that Yunxiao's background was not simple, but he had no idea what it was. Now that he said such things, he didn't know if he was just bragging or if he had such great confidence.

He was a little hesitant. When he first found Yunxiao, his plan was to bring him back to the big Dipper sect no matter what, even if he had to capture him alive. Now, he had some concerns and said bluntly, "We can settle our conditions. However, you must agree to the two conditions of my Big Dipper sect. Otherwise, I don't intend to give you what I owe you."

Yunxiao could not help but curse, 'what a b * tch! What are your conditions? tell me now, and you'll get some benefits!"

The five billion mid-grade primordial stones that tan dijun had promised him was an astronomical figure, and he needed it very much, so he had to take a step back.

Tan dijun glanced at the other people in the room. Xiao Minghui frowned and said, "If it's inconvenient, my New Moon sect will step aside."

Tan dijun waved his hand and said, " it's okay. It's not a big secret. People will know about it sooner or later. He said to Yunxiao, " the first is to hand over the legacy of the Thunder transformation divine skill. It is the most precious treasure of my Big Dipper sect, and it can't be taught to outsiders. But, since you have learned it, it's fine. I won't pursue the matter on the account that you've found the most precious treasure for the Big Dipper sect. The second thing is to return to me the item I gave you that day!"

Yunxiao thought for a moment and said, " each of these two things is worth twenty billion mid-grade primordial stones. If you want them, give me the primordial stones. Plus what you owe me, it'll be forty-five billion in total. I won't do it if I miss one.

Everyone was so shocked that they broke out in cold sweat.

Hanxuan thought to herself, " even the entire purple cloud trade union can't afford 45 billion medial-grade primordial stones, unless they sell a lot of their assets. Mo Huayuan also wiped his cold sweat. He had always thought that he was rich, but now it seemed that he was still a country bumpkin meeting a rich man.

Xiao Minghui, on the other hand, was much calmer. He had heard of the Thunder transformation divine skill before. It was not expensive at all to be worth twenty billion mid-grade primordial stones. Even if the price was ten times or dozens of times higher, there would still be people who would buy it. If he wasn't afraid of offending the Big Dipper sect, he would've bid higher on the spot.

As for the other thing that they mentioned, they would be very curious. They wondered what other thing could be worth so many metastones other than the peerless cultivation method.

"Hahaha! You really dare to bid!"

Tan dijun sneered. you secretly learned the unique technique of my Big Dipper sect. It's already a great favor that I didn't cripple your cultivation. How dare you ask for a price?! As for the item I gave you that day, you'll have to return it with both hands on the account of such a great bargain. Otherwise, the Big Dipper sect will take back your lightning transformation divine technique!"

His tone became even colder as he openly threatened.

The atmosphere in the box suddenly became tense, and Mei Dong'er was shocked. All the Big Dipper sect disciples present were experts, and if a fight really broke out later, she really did not know what she should do. Should she help Yunxiao?

He definitely had to help!

She said to herself firmly. But how could she help him escape? This innocent little girl had already started to think too much.

Hmph! Yunxiao snorted and said, "tan dijun, I thought you were a smart man. It's tiring to talk to idiots. Even Zhang linghua couldn't make me stay, do you think you can? Didn't you try enough that day? Due to your stupidity, the price has risen to 50 billion."

"You coward!"

Tan dijun was furious, and his face turned livid as he stared at Yunxiao.

But, as Yunxiao had said, even his senior brother, a martial sovereign of the ninth heaven, had failed to keep the man. Furthermore, he was already unable to capture him before he even used the lightning transformation Divine Art. If he used it, he probably wouldn't even be able to catch his shadow.

He did not know that the Thunder transformation skill required a large amount of yi wood Qi to be consumed. The poor Yunxiao had run out of yi wood Qi that he had obtained from the eternal evergreen tree, so he could not use the Thunder transformation skill at the moment.

you're so stupid," Yunxiao sneered coldly. you have to pay tuition.

Tan dijun was so angry that his brocade robe couldn't help but flutter with the true energy in his body. A faint mist appeared around him, as if he was going to attack at any time. What annoyed him the most was that no matter how he attacked, he couldn't hurt his opponent.

"Ha-ha, today is the auction of the thunderwind Chamber of Commerce. If you two want to talk about business, why don't we do it another day? The auction is about to begin, so don't miss out on the good stuff."

The atmosphere in front of Xiao Minghui was awkward. A fight was about to break out, so Xiao Minghui hurriedly came out to smooth things over.

"Alright, we'll talk about it after the auction is over for sect master Xiao's sake." Tan dijun nodded. The aura on his body gradually retracted back into his body, and his state of mind gradually calmed down.

Yunxiao did not bother to continue bickering with him, but he was laughing in his heart. He could already see a large amount of primeval stones rolling in.

Chapter 553-mine

Although the lightning transformation divine technique was extremely wondrous, he didn't mind teaching it to others. Moreover, this thing originally belonged to the Big Dipper sect. As for the treasure map, he still didn't know what was hidden in it. Since it had already been taken by someone before him once, or even twice, there probably wouldn't be anything good left. If it could be exchanged for a large number of primordial stones, he would be very happy to.

50 billion medial-grade primordial stones, together with the ones provided by The Purple Cloud trade union and the ones he had plundered from mo Huayuan, were enough to support his cultivation and break through to the Martial Emperor realm, or even higher.

After a brief silence in the room, the auction finally began.

The crowd looked over and saw an old man with his hands behind his back standing on the ring in front of them. He was in high spirits and looked like an immortal.

This man was the president of the sky crane business Council, Fang Tianhe. Under everyone's gaze, he smiled proudly and said, "I'm sure many people will be surprised by the auction today. I've been entrusted by President Gao Lin to host this auction. The auction item is very simple. There's only one thing, and that's the recording needle!"

"A recording needle?"

The people below immediately became restless, and all kinds of discussions broke out. Everyone was whispering to each other, and everyone was guessing.

Everyone in Yunxiao's box also had a strange look on their faces. Xiao Minghui smiled and said, "this is interesting. I wonder where the needle is pointing to. It actually requires a huge auction.

Everyone had the same thought.

The recording needle was actually a very simple tool. However, it contained spatial power, and once it pointed to a spatial coordinate, no matter where you were, the pointer would point to the established coordinate. It was usually used for marking and had no valuable use.

“What kind of recording needle is worth auctioning? could it be the newly discovered Southern Fire golden crystal mine?” a man couldn’t help but shout.

Another man immediately retorted, “if it’s a mineral, wouldn’t the thunderwind Chamber of Commerce dig it themselves?” What’s the point of slapping it!”

Fang Tianhe smiled and said: “ this friend is right. It is a mine!

“What? Auctioning off the mineral resources?”

This time, everyone was shocked. Mineral resources were basically the gathering point of conflicts between various forces. They were extremely precious. Any mineral resource could only be obtained by sprinkling a large amount of martial artists ‘blood. Who would be so stupid as to take it out for auction?

Tan dijun and Xiao Minghui’s faces changed.

The mountains around Southfire city had long been divided up by the major forces. It would be fine if the ore source that the other party was auctioning was the mining area of the thunderwind Chamber of Commerce. However, if it was the mining area of a local force, it would be a complete war.

everyone, please calm down. This auction is not only about the mineral resources. According to our speculations, there is also a large amount of Southern Fire golden crystal essence!

Fang Tianhe’s words suddenly caused the mood of the entire auction house to completely explode. All of a sudden, everyone stood up in shock.

“Southern Fire golden crystal source? I didn’t hear wrong? Even a Southern Fire golden crystal mine might not be able to contain such a thing!”

“What’s going on? Why didn’t they excavate the mine? Is the Thunderwind Chamber of Commerce that short of money?”

I understand now. Zhang Linghua’s advancement to the rank of a Martial Supreme has put pressure on the Thunderwind Chamber of Commerce. They want to leave Southfire City, so they’ve thrown away all the mineral resources they have!

It can’t be. As one of the seven executive members of the Merchant Union, the Thunderwind Chamber of Commerce must have a Martial Emperor in their headquarters. Why can’t they send one or two here? ”

“Send one or two? Do you think Martial Emperors are cabbages planted by your family, with hundreds of them in one mu of land?”

“Then what’s going on? It can’t be that they’re auctioning off the mineral resources of other forces, right? Isn’t that a sign of war?”

It was already a mess below. In a few big boxes, there were many people from local forces gathered. All of them looked serious and murderous. Everyone seemed to smell the strong smell of gunpowder and began to gradually calm down. The entire auction house was like a bomb, as if it would explode at any time.

The person in charge of the Sky Scorpion sect was the Deputy sect leader, Chu Zhiming. He opened the Jade silk fan in his hand and gently waved it. He pretended to be relaxed, but his expression was extremely serious.

“Vice sect leader, it seems that Fang Tianhe is going to auction our local mine. What should we do?” an elder beside him said in a deep voice.

“No hurry. Let’s check out the Big Dipper sect’s movements first.” Xun Zhiming said with a grave tone. “We don’t need to be the first to take action, we just need to wait for the opportunity.” After Zhang Linghua broke through to the Martial Supreme realm, the local forces had already subconsciously taken the Big Dipper sect as their leader.

Fang Tianhe felt the solemnness of the whole place and said with a smile, "Everyone is thinking too much. The mineral veins around South Fire City have long been divided. No matter how much the thunderwind Chamber of Commerce and my sky crane Chamber of Commerce dare to offend the world, they won't dare to rashly auction off other people's mineral resources. Also, everyone has misunderstood. We're only auctioning the recording needle. That ore source is from an ownerless land."

"Land without an owner? All the ore veins in the surroundings have long been divided up, so there's no land without an owner!"

"The unowned land's bi an, could it be bi an?"

"Ah? Could it be the 'dead land'?"

This time, everyone's expression changed. In the private room, tan dijun suddenly slammed his palm on the table, shattering the nanmu wood into pieces. The wood chips rolled around, and the Qi in his palm was surging. It was obvious that he was extremely shocked.

"Why are you so excited, sect master tan?" Xiao Minghui asked in surprise. That dead land was originally an uninhabited land, and its resources were dried up. It had long been investigated by the major forces, and there was nothing there. That was why it was listed separately when it was divided, and no one wanted it. I've not imagined that thunderwind Chamber of Commerce could find mineral resources in that place. But why don't they excavate it themselves?"

Yunxiao knew why dejun tan was so angry. The place recorded on the treasure map was in the dead land, and dejun tan had once found the source of Southern Fire golden crystal in that place.

Sure enough, Fang Tianhe said, "the source of the mine is inside the 'dead land'!"

"The land of death is extremely dangerous, but it's nothing to the thunderwind Chamber of Commerce," a man said loudly. You have enough power to mine for it, and it's a land without an owner, so you should be mining it in secret. Why do you make it so convenient for others?"

hehe, this is a trade secret. I can't tell you!

Fang Tian He said with a mysterious smile, " we have already confirmed that there is a Southern Fire golden crystal essence in it. However, it's just a mayfly. There is a great risk in it. After discussion with many leaders of our Chamber of Commerce, we feel that it is too risky to mine it. Therefore, we have announced this matter and recorded the auction of the pointer. Anyone with the ability can get it!

"I see. However, even your thunderwind Chamber of Commerce doesn't dare to mine it. If we go there, won't we just be courting death?"

A local martial artist said angrily, " "I'm afraid your goal is to use us as cannon fodder and open up a path for you!"

The rest of the people were awakened by his words and revealed expressions of understanding.

Fang Tianhe said coldly, "if it wasn't too dangerous, would we give up such a good opportunity?" I've given you a chance, but it's up to you to decide if you want it or not. Wealth was obtained from danger, and the greater the risk, the greater the benefits. As for opening the way for us, isn't that a joke? everyone knows the current situation, and everyone's opportunities are equal, so how can you say that they're cannon fodder? Do you want our Chamber of Commerce to pave the way for you and be your cannon fodder? is that reasonable?"

His words immediately made the local forces speechless. It was indeed the case. Everyone had equal opportunities, and no one forced them to go or not.

"Hmph!" The man snorted coldly again, "how would I know the mineral content of your ore source and how dangerous it is? also, who can guarantee that I'll believe what you said?" If it's just a trap to lure everyone over and you kill them, what should we do?"

Fang Tianhe's eyes were full of killing intent as he said angrily, " "The thunderwind Chamber of Commerce and the sky crane Chamber of Commerce have great reputations. When have they ever sold fake news? As for trash like you, it doesn't make much of a difference whether you go or not. Even if the danger level is low, it's still a fatal danger for trash like you."

The cultivator's face was red with shame and anger, and the crowd's hearts calmed down a little. Although the Chamber of Commerce and the local forces were constantly fighting, their reputation was indeed good, and they would never lie to their customers.

Fang Tianhe saw that everyone's doubts were gradually solved, and then he said, "There are a total of 300 recording needles in this auction, and every ten will be sold in a package. There was a natural illusion in the dead land, and one could not leave without a recording needle. Don't dream of having several people using the same needle. After entering the illusionary realm, everyone will be alone, and it's impossible to share the needle."

His words immediately shattered the thoughts of some rogue cultivators who were planning to work together to obtain a few treasures, and many of them began to frown. Three hundred needles. Other than the internal members of the Chamber of Commerce, there were only three hundred places for the outside world. It was estimated that all of them would be divided up by the big sects.

Hanxuan, who was in the private room, had a gloomy face and did not say a word. She didn't know anything about these things, which meant that The Purple Cloud trade union had been completely excluded from these trade unions. Both her and Wu Chen's faces were extremely ugly.

Tan dijun looked at Yunxiao with a profound look, his eyes full of inquiry. He was a little confused now. He didn't know if the mineral source discovered by the Chamber of Commerce was related to the treasure map passed down by the North Scorpion sect. If it was, he would be in big trouble.

Yunxiao shook his head slightly, as he was even more confused. After a moment of silence, he sent a secret voice transmission to dejun tan and said, "Let's take a picture of the needle first. If the direction is exactly the same as the one on the map, we'll make our move early. Even if there is a Southern Fire golden crystal essence, this kind of thing requires several thousand years of nurturing in the southern Fire golden crystal mine to produce a small amount. Even if there is a lot, we will only send a few of us to sneak in and see the situation. If we can't obtain it even with the strength of a few experts, then no matter how many of us there are, we will still be unable to obtain it."

Tan dijun's heart moved, and he said, "Yes, that should be the case!"

He felt a little more at ease, but the look on his face grew more solemn. Yunxiao was both intelligent and powerful, which made him more and more confused. He suddenly felt that dealing with Yunxiao was much more troublesome and difficult than dealing with the treasure.

Chapter 554-taking over the host

Fang Tian He ordered people to push a huge rotating wooden shelf to the center of the auction house. Immediately, a pile of recording needles appeared in front of everyone. There were ten of them in a pile, and all of them pointed to the South.

“These 300 recording needles have all been made to record permanently, so you don’t have to worry about them being changed or the records disappearing. The auction will start now. There are 30 sets in total. The starting price of each set is 100 million medial-grade primordial stones, and each increment must not be less than 10 million medial-grade primordial stones!”

With a wave of his hand, a beautiful maidservant appeared in front of everyone, dragging a set of hands.

“Let the first group of auction begin!” Fang Tianhe said.

“Motherf * cker! 100 million for a stack, why don’t you all just die!”

When many people heard the price, they all started cursing. Not everyone was a nouveau riche like Yunxiao, who could easily offer a price of billions or tens of billions. Most of the martial artists were still stuck at the level where they only had tens of thousands, hundreds of thousands, or even a few million in liquid funds.

Such a high price had almost directly denied the participation of those loser martial artists, and many people began to curse.

Fang Tian He coldly snorted, “the southern Fire golden crystal source is such a valuable item. You want to fight for an opportunity without spending some blood?” In his dreams. This kind of thing is not something that you poor country bumpkins can covet.”

What he said was indeed the truth, and everyone understood that. However, it was still difficult for them to accept it emotionally, and the curses became even more intense.

Fang Tianhe turned a deaf ear and stood alone in the middle proudly, his eyes full of ridicule.

the recording needle that cost only 1000 medial-grade primordial stones was sold at the sky-high price of 10 million each. This money is so easy to earn. I'm so excited that I want to open a Chamber of Commerce.

Xiao Minghui sighed softly and said with a smile. However, there was no smile in his eyes. Instead, they were as clear as water.

Tan dijun said, "this is only the base price. I don't know what the final price will be." The thunderwind Chamber of Commerce is really good at planning. Not only did they gather people to open the way for them, but they also made a fortune without any risk."

I have an idea," Yunxiao said with a smile. I can make them unable to sell a single needle.

"Oh?"

Everyone was curious. Mo Huayuan asked curiously, "What is it?"

I'll need sect master Tan's cooperation," Yunxiao said with a smile. I'll need your cooperation.

Tan dijun didn't know what he was up to, so he just nodded slightly. As long as the Chamber of Commerce could suffer a loss, he would even kill them, let alone cooperate with them.

Yunxiao took a light breath and spat out a mouthful of vital essence. His voice was like a thunderclap that exploded in the horse-riding hall.

"The Big Dipper sect thinks your price is too high. Since it's an ownerless item of nanhuo city, it should belong to everyone. The thunderwind Chamber of Commerce and the sky crane Chamber of Commerce actually used public property to auction it. These three hundred needles will be a token of apology to everyone. As for the punishment, we will decide after the mine is opened!"

"What?"

When this voice rang out, everyone was shocked!

Even Tan Dijun and the other members of the Big Dipper sect in the room were shocked and glared at him. How dare you use the Big Dipper sect's name to stir up trouble! An elder stepped forward and said angrily. You're clearly trying to drag the war between us and the Chamber of Commerce down!

Tan Dijun's face darkened as well. After hearing Yunxiao's words, he could not take it back now, and he would appear weak and afraid of trouble. He could not not not take it back either, because he was obviously going to war with the other party!

Don't panic," Yunxiao chuckled. The Big Dipper sect is now at the peak of its power. Let's wait and see how the Thunder Wind Chamber of Commerce will react.

"Reaction?" the elder asked angrily. What reaction can they have? Of course, they'll rush up and hack us to death!"

Yunxiao looked over with a cold gaze and said, "Be quiet, this is your vice sect leader's decision, it's not your place to make a fuss!"

"You coward!"

The elder was furious. If not for the special environment, he would have gone up and slapped Yunxiao to death.

Tan Dijun held his breath and stopped the elder, I'll leave it to you to handle. But if you screw it up, don't blame me for falling out with you!

Yunxiao smiled faintly and said nothing. At this moment, a Martial Emperor had emerged in the Big Dipper sect, and he was like the sun in the sky.

He was very clear about the fact that everyone under the Emperor Qi of the Nine Heavens was an ant. Other people might not know this, but the Thunder Wind Chamber of Commerce definitely knew it. Therefore, no matter how much pressure they were under, they would never turn against each other

and court death. Not everyone was as freakish as Yunxiao. They would only stand a chance if the headquarters sent a Martial Emperor.

Yunxiao's shout silenced the entire Hall for a moment. Fang Tianhe and the people of the Thunder wind Chamber of Commerce behind the scene all widened their eyes and were dumbfounded. This kind of public provocation had not appeared for many years after the two forces had stopped fighting. For a time, they were stunned and did not know how to deal with it.

Fang Tianhe said angrily, "an atonement item?" As for the punishment? Haha, isn't your Big Dipper sect too arrogant? They don't even put the dozens of Chambers of Commerce in our South Fire City in their eyes!"

Yingluo has never taken you seriously, " Yunxiao said with a smile. and you think you're all that? "

"Hahahaha!"

The entire venue burst into laughter. Originally, there were many people from the local forces, and most of them were some loser level individual martial artists. This time, they followed the jeers, and the strange cries continued. Fang Tianhe's face was livid with anger, and he stood in the middle of the stage with shame and anger!

"Well said! Ownerless things are shared by everyone. You outsiders actually dare to explore and exploit it without permission. What crime should you be punished for?"

"Ah, let's not talk about the crime for now. The Big Dipper sect's Daren has already spoken. First, hand over the recording needle, and we'll determine their crimes after everyone has gone to investigate."

"Not bad, not bad. The Big Dipper sect's Lord is truly wise, worthy of being the leader of our Southfire city!"

I agree with the Big Dipper sect's decision. Hurry up and hand over the recording needle. We'll wait for everyone's judgment!

Shouts rang out one after another. At first, there were only a few scattered martial artists shouting, but later, it became a large number of shouts. All of them were full of righteousness and anger. They firmly believed that the Chamber of Commerce had infringed on everyone's interests and demanded an explanation from the Chamber of Commerce!

Fang Tianhe roared, "good, good, good!" Your Big Dipper sect is really good! Since you didn't hesitate to turn it over, then let's do it. "

Before he could finish, a stern voice interrupted him, "Is this sect leader Zhang's original intention? Is this how he taught you to be human?"

A figure flashed in the air, and there was one more person on the central auction stage. It was Gao Lin, who also had an angry face, but there was a trace of panic in his eyes, not full of anger like Fang Tianhe.

Fang Tian He's words just now seemed to be threatening to start a war, which scared Gao Lin, who was at the back, so much that he couldn't sit still anymore. He hurriedly shouted and interrupted. Moreover, he had to come forward since Fang Tian He had slapped him in the face.

As Yunxiao thought, Fang Tianhe's level was too low, and he had never come into contact with a martial Supreme, so he naturally did not know how terrifying a martial Supreme was. However, Ying Lin was different. He was an expert at the peak of the martial honor realm and was only one step away from the martial Supreme realm. However, that step was like the edge of the world and was a chasm that was difficult to cross.

If a war really broke out, the Chamber of Commerce would definitely be destroyed without any external help. Hence, his eyes could not help but reveal panic. If this was Zhang Ling Hua's deliberate provocation, then the entire situation in Southfire city would be terrible!

As a result, as soon as Gao Lin appeared, he immediately asked who was behind this. If it was just the wishes of these brainless Big Dipper sect members, then there was no need to worry at all.

As for the shouts and the righteous Warriors who demanded an explanation, they were completely ignored by Ying Lin. As long as the Big Dipper sect's attitude was clear, this Motley crowd could be taken care of in minutes.

Yunxiao understood Gao Lin's concern as soon as he heard his words. "Does the Big Dipper sect need you to teach it how to conduct itself? Qianlin, do you also want to teach our sect leader Zhang how to behave?"

Gao Lin's expression changed. Although he really wanted to, he didn't dare to say it out loud. He said angrily, "Who are you? What are you trying to do by destroying the relationship between our Chamber of Commerce and the local forces?"

Yunxiao chuckled. what's my intention? It's your thunderwind Chamber of Commerce who has destroyed the relationship between the two forces. You've exploited the shared resources in private, and now you want to ask for money for directions. You're really despicable. You can ask everyone here whether their hearts are on your thunderwind Chamber of Commerce's side or on our Big Dipper sect's!"

"The Big Dipper sect!"

"The Big Dipper sect! The Big Dipper sect!"

"....."

For a time, the prestige shook the sky. The more people cheered, the more excited they became. That voice completely drowned out Gao Lin and Fang Tian He. The two of them stood on the central auction stage, their faces extremely ugly.

Fang Tianhe secretly transmitted a message: " President Qian, the situation is so bad now. The Big Dipper sect is so aggressive. We must not be weak. Otherwise, it will be more difficult to be strong in the future!

Ying Lin glared at him and angrily said, " Do I need you to say this? But how strong? The enemy's Martial Emperor is here, and he can kill you and me with one palm!"

Zhang linghua? " Fang Tianhe was stunned for a moment and said, " can you report the situation here to the headquarters as soon as possible and send experts to eliminate Zhang linghua? "

Gao Lin shook his head slightly and said, " at this moment, the two meetings are imminent. The experts from the headquarters have all gone to various parts of the continent to hold down the Fort. They have no time to come to a small place like Southfire city. No matter what, we have to endure it for a while. As long as the position of the thunderwind Chamber of Commerce is stable, it will be the time to deal with these dregs. We must endure it now!"

Fang Tianhe's face changed slightly. Since Gao Lin had said so, then he must be a coward. He gritted his teeth and stared at the curtain of the private room with an ashen face, as if he wanted to see through it and see the person who was stirring up trouble inside!

Yunxiao stood up in the box and pressed two fingers between his eyebrows. The space twisted slightly, and he immediately teleported out. In the next moment, he appeared on the spinning shelf full of record pointers and picked up a set.

No one had seen how this person had appeared until he took the recording needle. This caused everyone to be shocked and look over in horror.

Ying Lin and Fang Tianhe were startled, and they exclaimed in unison, "It's you!"

Chapter 555-snatched up

Yunxiao had left a deep impression on everyone when he made a big scene in the Big Dipper sect and retreated with composure. In addition to the recent search in Lian city, he had become the most popular figure in nanhuo city.

As soon as he appeared, not only was Gao Lin and Fang Tian He shocked, but all the martial artists in the field were also silent. The noisy market suddenly became as quiet as a ghost city, without a trace of sound.

After taking off a set of recording needles, Yunxiao suddenly turned around and said with a smile, " Since you're not willing to hand over the needle, we'll have to take it ourselves."

so it's you who's stirring up trouble! yelled Gao Lin angrily. I'm going to kill you!

His figure flickered as the power of a peak martial venerable pressed down from the sky. He suddenly appeared next to Yunxiao and thrust his palm at him. He only wanted to kill the other party in one blow to intimidate the thieves. However, he was afraid that the power would be too great and destroy the entire auction hall, so he used 30% of his Palm Power and estimated that it was enough.

“Tsk! Even Zhang linghua couldn’t stop me, so how can you?”

A beam of light shot out from between Yunxiao’s eyebrows, and a Golden Ball rolled out in the air, revealing its head and limbs. It was none other than the calabash King Kong. It spread its body in the air and threw out a punch.

“What is this? A puppet?”

Ying Lin’s pupils shrank, and he didn’t have time to think anymore. He hit the calabash Little King Kong’s fist with his palm, and a black hole appeared between the two forces.

Ying Lin’s face paled in shock. The wind from his opponent’s attack had actually penetrated his palm, causing his arm to go numb and almost lose all feeling.

The gourd Little King Kong didn’t seem to be affected much. Instead, it took a step forward and passed through the black hole crack directly. The huge tearing force raged on his body, but it only left some faint scratches.

“?! What the hell is this thing?”

Ying Lin’s shock couldn’t be any greater. Even he didn’t dare to resist the tearing force of the black hole with his body! The other party actually crossed over as if he had not heard anything, followed by another punch. Under the power of the fist, all the martial artists in the field felt a great pressure, and their expressions changed one after another.

In his shock, Ying Lin didn’t dare to use his numb right hand. Instead, he used his left hand to perform a sword technique and pointed a finger in the air with 70% of his strength. The space was directly cut open by the finger force and fell from the sky!

“Bang!”

The finger force pierced through the gourd Little King Kong’s Vajra fist and shook the tip of his fist, making a “ Zhi Zhi ” sound. The gourd Little King Kong was directly sent flying back.

As for Gao Lin, he was also sad that the wind from the opponent’s fist had forced him to retreat several steps, and his eyes were filled with horror!

The power of his finger was seventy percent of the power of a martial honor at the peak. Even a seventh tier profound armament would have been destroyed on the spot, let alone a puppet. However, the tip of his opponent’s fist only left a faint scratch.

Just as the calabash Little King Kong forced Gao Lin back, Fang Tianhe suddenly made his move, and his target was Yunxiao. He followed closely behind Yunxiao, his aura expanding to the extreme as he tried to suppress the latter.

Yunxiao smiled contemptuously as he stretched out his right hand and condensed a gust of strong wind above his palm, which spun slowly. Under the control of his soul power, the wind suddenly elongated, then turned into a sword in his hand and slashed out.

“Sword technique-star destruction!”

The sword radiance formed by the immemorial astral wind instantly sliced through the void and howled.

Fang Tianhe was shocked. The overbearing elemental power on the sword light was surging with a terrifying aura, which made him feel weak and afraid to resist.

The sword aura formed by the wind element regarded his territory as a thin piece of paper and easily cut it open.

Fang Tianhe’s heart sank. A yellow light appeared in his hand and condensed into a long spear. He roared and stabbed at the sword light with all his strength. A white light spread on the spear body with amazing power.

“BOOM!”

After all, Yunxiao was too weak, and the sword beam was shattered by the spear. Yunxiao was sent spinning in the air by the great backlash. At that moment, the calabash King Kong had also flown back. He pointed his right hand at it and put it back into his glabella.

Fang Tianhe's face was not good. The sword light was scattered, but the immemorial astral wind rotated around the spear body and did not dissipate. It went down from the spear and sword, like sandpaper grinding, making a teeth-aching sound and blowing away the white light on the spear body.

Fang Tianhe was shocked and hurriedly poured his Yuan Qi into the spear body, struggling to resist the elemental corrosion of the astral wind.

At this moment, everyone in the arena sucked in a cold breath and looked at each other in shock.

Those who had seen Yunxiao fight at the Big Dipper sect that day were fine, but the rest only heard that he had escaped from the hands of a Martial Emperor. At first, they did not believe it and thought it was just a rumor, but now, seeing that he had forced back two famous martial Venerables at the same time, they were shocked and no longer had any doubts!

“Hahaha! Since young master Yun has taken the lead to take a share, my Big Dipper sect can only take the opportunity to benefit from it!”

Tan dijun's laughter rang out as the power of his domain descended between Yunxiao and Ying Lin.

Although Yunxiao's strength was freakish, it was not at the level where he could compete with a martial honor. Tan dijun knew this very well, and he was afraid that the two men would hurt Yunxiao again, so he made his move.

Besides, he was in a very good mood at the moment. Yunxiao had shown up, and if the matter got out of hand, he could push all the blame to Yunxiao. Now, it was the Big Dipper sect who was in the limelight and gathering people's hearts.

The crowd only saw a cloud of mist appear on the auction stage, and then the rotating shelf was smashed by a man with a goatee. More than 20 sets of records were scattered, turning into more than 200 individual records that flew towards the crowd.

“Tan dijun, you’re a coward!”

Gao Lin was extremely furious, but the sky was filled with light, and the needle had already scattered. All of the martial artists immediately began to fight over it, and the entire auction hall was in chaos, but there was still no way to reverse the situation. His face was livid with anger as he glared at tan dijun and Yunxiao and said through gritted teeth, “Is this Zhang linghua’s idea?”

Tan dijun laughed, “it’s just a small matter. My senior brother doesn’t need to do it.” Thank you for pointing the needle, I’m still in a hurry to find the treasure. Young master Yun, let’s go!”

He flew up into the sky and turned into a huge ray of light, piercing a huge hole in the sky of the auction house, and the sun shone down.

Gao Lin trembled in anger, his killing intent rising, but he was helpless. The entire auction house was in chaos. All the martial artists were fighting for the recording needle and had destroyed the entire place. Unless he killed them all now, it was obviously impossible.

The Big Dipper sect’s disciples in the box also followed.

Mei Dong ‘er turned her head in the air and looked at Yunxiao as she said, “Young master Yun, what are you doing?”

you guys go first, ” Yunxiao said with a smile. I’ll be right behind you. He flew into the box, and the people of the new moon sect also went to grab the recording needle, leaving only mo Huayuan and the people from The Purple Cloud Chamber of Commerce.

master Yunxiao, ” mo Huayuan said worriedly, ” you’re really good at causing trouble. You’ve completely offended the thunderwind Chamber of Commerce. If this matter were to be spread to the headquarters, I’m afraid that they would pursue you to the ends of the earth.”

Yunxiao chuckled. I'll say the same thing again. If Zhu qishui has an opinion, I'll go to his door and have a good 'talk' with him some other day.

Mo Huayuan was speechless. He did not know where Yunxiao's arrogance came from.

I'm going to look for the southern Fire golden crystal source mine," Yunxiao said. what do you two think?"

it's not convenient for me to get involved in this matter," mo Huayuan said. master Yunxiao, please be careful. He had the intention to go back, not wanting to be involved in this kind of boring dispute.

"I would like to go with you, young master Yun," Hanxuan said after some thought.

Wu Chen was shocked and said,"President, you can't. It's too dangerous!" The Purple Cloud trade union is in a crisis now, and we'll have to rely on you to make the plans!"

"It's fine," Hanxuan said. With young master Yun's recipes, The Purple Cloud Chamber of Commerce is now invincible."

During this period of time, the recipe had already been sent back to the headquarters through the thousand-mile communication technique. They had also received confirmation that the recipe would be enough to defeat the sky crane trading company in terms of cost and quality.

this trip must be very dangerous," Yunxiao said in surprise. I'm not very strong, but I can still escape.

I may be weak, but I won't be a burden to you, young master Yun," Hanxuan said with a smile. don't worry.

Yunxiao nodded and said," alright. Although you only look like a six-stars Martial Emperor on the surface, I can sense that your true strength is definitely more than this. But be careful."

“Young master Yun will be in charge of everything,” Hanxuan said.

Yunxiao took out a recording needle and threw it to Hanxuan. The two of them immediately turned into beams of light and flew out of the broken Sky, heading south.

At this time, rays of light would fly out from the auction house from time to time. They were all martial artists who had snatched the recording needle. They didn't want to waste time and immediately followed the needle. After all, the attraction of the southern Fire golden crystal source was too great.

&Nbsp; the number of people in the auction was getting smaller and smaller, and the competition was getting more and more intense. Many of the record needles were destroyed.

Fang Tianhe looked at the wolves on the ground and said with a gloomy face, ” “What do we do now?”

Ying Lin's eyes were as clear as water, and his malicious expression flickered. He said coldly, ” “Since the Big Dipper sect is so arrogant, I'll make them fall. Although it won't shake them from the root, it'll undoubtedly be a big blow. As for the others, Hmph, just let them die!”

Fang Tianhe said,”that's right, although I lost some face today.” But his original plan did not change, he would only lose a few billion primeval stones. As long as these people were attacked in one fell swoop, these primeval stones were nothing. We'll let them know very soon that this needle is actually a key to death, haha!” He couldn't help but burst into laughter.

these people deserve to die, ” Gao Lin snorted. it's best if Zhang linghua goes as well. Maybe we can kill him as well! Humph, a mere snake dares to fight with the giant dragon of my thunderwind Chamber of Commerce. It deserves to die! Go and prepare immediately. We can't fall behind too much. Follow these people closely!”

“Yes!”

Fang Tian He responded, his eyes flashed a haze, and then he went down.

Ying Lin looked at the group of martial artists who were still fighting for the remaining needle, and the mockery in his eyes grew even more intense.

Chapter 556

?

556 Strange Lake

The needle continued to point in the direction of the compass, and there was no change even after a long time. It wasn't until a long time after they had left Southfire city and entered the land of death that they began to change slightly.

Hanxuan looked at the unusual needle in her hand and said in surprise, "this land of death is indeed strange. It seems that all kinds of forces are mixed and converged, affecting the normal direction of the needle. What should I do?"

since the thunderwind Chamber of Commerce has bid for this pointer, there must be no problem," Yunxiao said. it's a good thing. Just as you said, this is the place where all kinds of forces converge. It seems that we have to walk. The earth is filled with virtue and can organize the veins of all kinds of power. As long as we walk close to the ground, we should be able to do it."

After the two of them landed, the recording needles in their hands stopped moving and pointed forward in unison.

Hanxuan was secretly shocked.'This kind of knowledge shouldn't appear on a young man. His face is so tender!'

Yunxiao pointed at the ground and said, "judging from these footprints, they should belong to tan dijun and the others. There are nine of them in total. Although they are scattered, there are differences. It's enough to show the difference in cultivation."

The two of them followed the pointer and moved forward. In the messy mountain forest, they turned a few directions and actually walked back and forth a few times.

Hanxuan was shocked, "did I enter an illusion?" I remember Fang Tian He said that there is a natural illusion here."

not necessarily," Yunxiao said. if it's a natural illusion, there must be a huge flow of power that supports the existence of this illusion. I think it's very likely that the Chamber of Commerce has tampered with the compass."

Hanxuan looked at the needle in her hand in shock and said, " "How could the thunderwind Chamber of Commerce do such a thing? they are selling fake goods, disregarding their reputation?" She couldn't believe it. After all, to the Chamber of Commerce, reputation was more important than life.

Yunxiao frowned and said, " not necessarily. Maybe they just want to hide the real route, so they did something to the needle. In the end, they should still be able to go around the mine. No Chamber of Commerce can afford to be accused of auctioning a fake item.

Hanxuan agreed with him, but she found that the more she came into contact with Yunxiao, the more shocked she was. She now had no doubt that Yunxiao could help Tianyuan trading company win both martial arts and martial arts, but she was secretly surprised, wondering where Ding Ling 'er had found such a freak.

"Yes, they're in front!"

Yunxiao suddenly said after walking for a while. With a suspicious look on his face, he quickened his pace. It was because he clearly felt that tan dijun and the others seemed to be in trouble, and they didn't move forward.

The two of them quickly crossed a few bushes and saw tan dijun and the other nine people standing in front of a Lake. The lake was as pure as a mirror, and it was sparkling under the sunlight, giving off a refreshing and calm air.

"Young master Yun!"

As soon as Mei Dong 'er saw Yunxiao, she immediately came up to him with great joy. He greeted Hanxuan politely.

"Kid, you're here," tan dijun said. This was considered a greeting, and he now treated Yunxiao as an equal, so he did not dare to be careless.

Yunxiao nodded, then his eyes fell on the lake. With a surprised look on his face, he said, " what a Strange Lake. The spiritual Qi is so dense, but there are no living creatures.

Tan dijun's eyes twitched, and he said in surprise,"You can tell? Well, I forgot that you're a seventh-tier Alchemist. Did you see anything?"

the light and shadow are swaying, and the lake is clear. It's a good lake, but don't you see anything unusual? "

Yunxiao said lightly, as if he was interrogating everyone.

the spiritual energy on the surface of the lake is overwhelming, " an elder snorted. but there's no living creature in it. Do you think I need you to see? "

The elder was Zhen deyou, a third-tier martial honor, the one who was angry at Yunxiao at the auction. This time, two elders had come out with earth Lord tan. One of them was the mysterious elder Sima. He was wrapped in a black robe, and his expression could not be seen.

no! Yunxiao shook his head and said, " with your IQ, I think you'd better not talk. Vice sect master tan, do you see anything strange?"

"Don't run if you're so capable! Fight me fair and square!" Zhen deyou nearly fainted from anger.

you're challenging me? " Yunxiao said sarcastically. you're two realms higher than me? " You still dare to say you're not a Joker? If you have the ability to cross two major realms and challenge a godly state expert, that would be awesome!"

"You coward! You should die!"

Zhen deyou was exasperated, but he had nothing to say. He turned around angrily and stopped talking to Yunxiao, lest he be angered to death.

Tan dijun knew Yunxiao's character well, and even he could not do anything to him. Besides, Yunxiao seemed to have noticed something at the moment, so he had to rely on a man with extraordinary wisdom like him.

other than the fact that there are no living creatures, I also feel that something is wrong, and it's very strong. I just can't tell what the problem is!

Tan dijun gazed at the lake. He felt more and more strange, but he couldn't say it.

The rest of the people had the same feeling, as if they had overlooked something important.

the lake is quiet, " Yunxiao said with a smile. the mountain should have been reflected in it, but ...

"Ah!"

Mei Dong 'er was the first to call out. She said in shock, "There's no reflection of the forest on the lake!"

Only then did everyone come to their senses. No wonder they felt that something was wrong!

Tan dijun's expression changed. He took a few steps forward and looked at the lake. His expression became even weirder. He found that his own shadow couldn't be reflected in the water. He could only see the stones at the bottom.

"Young master Yun, what's going on?"

Mei Dong 'er jumped to Yunxiao's side and began to ask for advice, her eyes full of admiration.

The rest of the people also had strange expressions on their faces. They felt that this young man was somewhat inconceivable. They all looked at him one by one, waiting for his answer.

I don't know," Yunxiao said. I don't know.

Tan dijun asked,"Zhenzhen, do you have any conditions?" Speak!" He had gotten used to Yunxiao's character, who would not get up early and do anything without benefits.

Yunxiao sweated and said awkwardly,'am I that snobbish and greedy? I really don't know. This is the first time I've seen such a Strange Lake."

Tan dijun looked suspicious, and he asked again, " really? Actually, you can state your conditions. If it's possible, I'll definitely satisfy you."

I really don't know, " Yunxiao said. I really don't. He wiped the cold sweat from his forehead and asked in confusion, " "Don't tell me that you're not going forward just because there are no living beings? what situation did you encounter?"

"You can try it yourself. See if you can get through it," tan dijun smiled mysteriously.

Without saying a word, Yunxiao stepped on the surface of the lake. In this world, other than those terrifying places like the Galaxy, there was no place he did not dare to go.

"Don't!"

Mei Dong 'er panicked and hurriedly stopped him, as if something was wrong.

"Ta!"

But, it was too late. Yunxiao stepped on the water with one foot, causing it to splash, and a circle of waves spread out from under his feet.

All the people on the lakeshore widened their eyes as they saw a beam of light rise from under Yunxiao's feet. Then, in shock, his figure was instantly sucked into the lake by the light.

"Young master Yun!"

Mei Dong 'er and Hanxuan both cried out in alarm as they watched helplessly as they were sucked into the lake without leaving any traces. The surface of the lake was still and clear, as if nothing had happened.

"Sect master tan, what's going on here?" Hanxuan asked in shock.

Tan dijun crossed his arms in front of his chest and said, "There should be another space, so I'll let Yunxiao try. With that kid's ability, he should be fine. If he can't leave, I'm afraid we can't either."

His high evaluation of Yunxiao surprised and shocked everyone.

Although Yunxiao's strength, wisdom, and insight were all impressive, they still subconsciously regarded him as a martial Grandmaster. At most, he was a slightly special martial Grandmaster, who could not be compared with a Martial Emperor or a martial Supreme. However, tan dijun's words had raised everyone's opinion of him by several levels.

Tan dijun glanced at the nervous Hanxuan and Mei Dong 'er and smiled. "Don't worry. Since the needle of the thunderwind Chamber of Commerce is pointing in this direction, we will definitely pass it, but some people will die."

His words made the two women's hearts sink even more, and their expressions became extremely ugly.

"Vice sect leader, didn't you enter this land of death back then? Have you ever encountered this Lake?"

"En, Yingluo."

Tan dijun knocked his head with his finger and said, "It's been a long time, but I don't have any impression of it. It's impossible for such a large lake to appear out of thin air in just a few decades. It's indeed strange."

Hanxuan seemed to have thought of something and hurriedly said, "on the way here, young master Yun said that the route we took was most likely specially arranged by the thunderwind Chamber of Commerce. It will lead us to the final destination, but there will be many dangers along the way. Could this Lake be the work of the thunderwind Chamber of Commerce?"

"Huh? does he think so too?" tan dijun asked. I have the same feeling. In that case, this lake water is very likely a formation set up, but no matter how I look at it, it's so real. It doesn't seem like something someone of Gao Lin's level could have done?"

"Then what should we do?" Hanxuan asked anxiously. Why don't we all join forces and perhaps we can break this formation?"

Tan dijun shook his head and said, " No. Let's not talk about whether it's a formation or not. We don't have such an expert Among Us. We can't tell. Even if we can break the array together, Yunxiao has already gone in, and we can't guarantee that he won't be blown into pieces."

Hanxuan's face flickered. She was too eager to save Yunxiao, and she did not expect that she might hurt him. She lost her mind and stood there blankly, not knowing what to do.

Zhen deyou laughed out loud and said, "haha, it's best if he's blown into pieces, so that the kid won't run away so quickly!" Vice sect leader, I think that President Hanxuan's plan is feasible. Aren't we just worried that we can't Catch That Kid?"

Hanxuan flew into a rage, her eyes burning with rage. Mei Dong 'er also glared at Zhen deyou coldly. Even though he was an elder of the sect, she did not show any mercy.

Chapter 557-Wu Yan's glance at the mirror

Tan dijun waved his hand and said, "you can't. The lightning transformation divine skill is still with this kid." This kid's life and death is not a big deal, but the lightning transformation divine technique is a big deal. We must obtain it. "

“Well, it’s a pity that I missed the opportunity. Then we can only wait for that brat to come out. I’m afraid that he’s going to die in there, and even our sect’s lightning transformation Divine Art will disappear. If that happens, even ten thousand deaths will be hard to absolve.”

Zhen deyou snorted coldly, gloating over Yunxiao’s misfortune.

Under the suction of the light, Yunxiao felt his body sink into a strange space, where water was surging up from all directions, as if he had sunk to the bottom of a Lake.

“Eh, could it really be a pool of water? It’s strange.”

Yunxiao sensed that the pressure of the lake water around him was very normal, and there was nothing special about it. Moreover, the flowing speed was extremely slow, like a normal lake bottom.

However, the spirit Qi in the water was unbelievably dense, as if it had been condensed into liquid!

“What is this place? Is there such a good thing that the people of the thunderwind Chamber of Commerce sent me to the land of spiritual spring? Could it be that they are really Lei Feng who doesn’t benefit themselves and only benefits others?”

Lei Feng was a legendary Martial Emperor who did good deeds without leaving a name. He was only heard of in myths and legends, and no one had ever seen him in reality.

Yunxiao’s divine sense was very powerful, so he did not sense anything wrong. His body was immersed in the lake water, and he felt extremely comfortable. The water of spiritual energy was nourishing his entire body.

wow, it’s almost like the spiritual Qi has turned into liquid. I don’t need to cultivate and the spiritual water will pour into my body by itself, nourishing my meridians. I think I’ll be able to advance automatically after soaking in it for a few years!

Yunxiao was overjoyed. Ignoring the logic, he began to exercise the one Qi of fate incantation and crazily absorbed the spirit Qi in the water. The powerful spirit Qi poured into his body as if it had found an outlet and was pouring in!

At this moment, more and more people began to gather around the lake. Almost all the martial artists who had grabbed the recording needle had gathered. However, the people of the Big Dipper sect were all waiting quietly. They didn't dare to rashly step into the lake.

that li Yunxiao has been sucked into the lake, and there's no sign of him moving. It seems that he's most likely dead.

yes, although that kid's movement technique is extremely fast and he's good at escaping, he's only a martial arts Grandmaster after all. Once he's trapped, he'll only die.

but if he dies, it won't help us solve the problem in front of us. What should we do? "

"Don't you see that the Big Dipper sect's Daren aren't worried? What are you worrying about? We can't go wrong by following the main group."

Hearing their discussion, Mei Dong 'er felt nervous. She mustered up her courage and asked, "Vice sect leader, Will Young master Yun be alright?"

Tan dijun glanced at her and said,"don't worry. If this Lake is really a trap set by the thunderwind Chamber of Commerce, there won't be any problem." They would definitely not set up a trap that would kill everyone, and would definitely leave a way out. If even that kid can't break this game, how many of us can make it?"

Mei Dong 'er's heart calmed down a little after hearing his words.

Zhen deyou frowned. Dong 'er, you're a core disciple of my Big Dipper sect. Don't let that kid steal your soul. You must remember your identity and your position!

Mei Dong'er's face turned red, and a look of embarrassment and anger flashed across her face. She said impolitely, "Elder Zhen, you're thinking too much!"

Zhen deyou snorted coldly and said, "I hope I'm just overthinking it. Otherwise, I can only discipline her disciple on behalf of elder he!"

The sect leader of the northern scorpion sect, Chu Zhiming, was also standing by the lake. He waved the feather fan in his hand and looked at the lake. How long has that Li Yunxiao been in there?

"Almost two hours," Tan Dijun said.

"That long?"

Xun Zhiming furrowed his brows and said, "if we were to break the array, we'll probably be in trouble after enduring for almost two hours." Will Yunxiao be trapped inside and waiting for us to rescue him?

Tan Dijun snorted. I can't rule out that possibility. We can only leave it to fate. It's still early. It's not a big deal to wait a little longer.

Xiao Minghui's eyes flickered as he chuckled, "Sect master Tan, you're good at scheming. None of the people of the Thunder Wind Chamber of Commerce has come so far, which means they think we can't break this formation in two hours. Then, there's a higher chance that Li Yunxiao is still safe and sound."

At this time, in the auction house in the South Fire City, Fang Tianhe quickly gathered more than ten experts, gathered with the Ying forest, and began to head south.

As the auction was being fought over, even the ones who had taken the initiative had become passive because they were not prepared. Some people hurriedly chased after them.

"Have all the arrangements been broken?" Fang Tianhe said worriedly.

“In your dreams,” scoffed Gao Lin teasingly. Just by passing the first stage, even if they weren’t completely annihilated, they would at least be heavily injured.”

Fang Tianhe said, “if they are too seriously injured, then our goal will be ruined.”

“Don’t worry, I’ve planned everything out. It shouldn’t be too far off. I’m guessing that they’re still stuck at the first stage. After all, they’re not fools. They can more or less guess that we’re the ones behind this.”

“So what if they’ve guessed it?” Ying Lin smugly said, “how many people can resist the temptation of the southern Fire golden crystal essence?”

Fang Tianhe replied with an “en” and then said, “Sect Master Yi, did you really place that thing down there? Don’t you feel any heartache?”

Ying Lin glanced at him and said slowly, “you can’t catch a Wolf without giving up a child. That treasure was refined by an Alchemist master of my thunderwind Chamber of Commerce for more than half a year, and he spent a lot of money to buy a drop of hundred rivers primordial water to fuse with it. It’s impossible to say that they don’t feel distressed, but I think they can only get out of here at most, and it’s impossible for them to destroy that treasure.” You must know that it’s an eighth-grade profound level weapon! Wu Yan raised the mirror of the calm lake!”

Fang Tianhe was shocked, “Wu Yan raised the mirror of the calm lake, it’s indeed this treasure!” Just a drop of hundred rivers primordial water, wasn’t it a little too little? Ordinary Warriors might not be able to withstand it, but there are so many martial Venerables on the other side, and that kid named li Yunxiao seems to have mastered an extremely powerful elemental power.”

“Hmph, you know nothing!”

“Even if I’m a martial honor, I’ll still lose a layer of skin if I cross the mirror of calm lake!” Ying Lin said disdainfully. As for Yunxiao’s elemental power, it was even less of a threat. After all, the hundred rivers primordial water was an existence close to the origin of the water element, and even a drop of it was hard to find. No matter how strong the boy’s elemental power was, could he resist the origin elemental power? Even if the hundred rivers primordial water is diluted ten thousand times, it’s still a highly toxic substance that ordinary martial artists can’t withstand.”

Fang Tianhe flattered, "President Qian is right, you really have foresight." So what if Zhang linghua had advanced to the martial Supreme realm? as long as these people had the power of the hundred rivers primordial water in their bodies, their bodies would gradually collapse, their talents would be suppressed, and their cultivation base would slowly drop. It would be difficult for them to advance for the rest of their lives! The most important thing is that this hundred rivers primordial water is colorless and odorless, so no matter how powerful the spiritual sense is, it can't be detected, haha!" At the end of his sentence, he even laughed out loud.

"In order to refine this dancing Jade-like Lake Mirror, the thunderwind Chamber of Commerce even poured all the spirit Qi of an elemental stone mine into it," said Ying Lin, pleased. It's also because I've managed it well in Southfire city that the headquarters gave it to me as the treasure of my branch. It's a pity that I couldn't refine it even after years of refining it. In addition to that, Zhang linghua has advanced to the rank of a martial Supreme, so I had no choice but to use it to ambush everyone. I hope it'll work."

Fang Tian He laughed: " don't worry. Just as the president said, eighth tier profound Weapon Plus Hundred River water, who can easily withstand it? "

Thinking about it, Gao Lin felt that his worries were unnecessary. He revealed a proud smile and flew forward with the others in the direction pointed by the needle.

At the moment, Yunxiao was immersed in the amazing spirit Qi pouring into his body, and his cultivation base was growing. More than two hours later, he had absorbed hundreds of millions of mid-grade primordial stones, and the concentration of spirit Qi in the water had decreased. But at that time, he finally found a problem.

"Hmm, it's a strange feeling. There's clearly nothing wrong with the water, so why is it that as I continue to absorb spiritual energy, I feel that the circulation of vital energy is starting to slow down?"

Yunxiao finally opened his eyes in the water and spat out a few bubbles. He suddenly found that his body had become extremely heavy, and his meridians and flesh had begun to shrink.

"Damn, there's something wrong with this Lake. I knew it, how could those people be the legendary live screw, f * ck!"

Yunxiao could not help but curse, and bubbles kept coming out of his mouth. Now that he knew there was a problem, he could not absorb anymore. Moreover, he also realized that it was not simple. To be able to deceive his divine sense and senses, it must be extremely extraordinary.

He circulated his vital Qi and isolated the surrounding lake water, forming a vacuum space and cutting off the direct connection with the lake water. At this time, he finally found the problem.

The lake water that was isolated by him could even form tiny streams of water, which seeped into the vacuum space and gathered around Yunxiao, who was in the middle.

Yunxiao's pupils constricted as he raised his hand and pointed his finger at the water. Under his power, the lake water that had seeped in gathered toward his fingertip, forming a small ball of water that slowly grew larger.

He spread out his divine sense and scanned into the ball of water.

After a long time, the wrinkles between his eyebrows stood even higher. Under his powerful divine sense, he actually found nothing!

This was almost impossible!

"Old Yuan, help me see what's going on. My body feels like it's filled with lead. It's getting heavier and heavier, and it's getting harder and harder to circulate my vital Qi!" He said.

At this time, Yunxiao asked for help. He sent the ball of water under his fingertip directly into the divine realm tablet and sent it to Yuan gaohan.

After Yuan gaohan had refined the northern heaven frigid Star Iron sword, he had been in seclusion to absorb Starlight stones. His body had become extremely transparent after the refinement, and if he didn't replenish the Starlight, he could be annihilated at any time.

Chapter 558-demonic Qi entering the body

Yuan gaohan was extremely curious and excitedly asked, "There's actually something that you can't analyze? I'd like to see!"

He was suddenly filled with the desire to challenge himself. The small ball of water quickly appeared in front of him. It was no different from ordinary water.

Yuan gaohan directly put his finger in. He was originally a Starlight soul body, so he wasn't afraid of any problems. His finger immediately transformed into Starlight soul power and spread it into the water ball as he analyzed the energy within.

Soon, he also revealed a strange expression and frowned. It's normal. It's just normal water.

My body is getting heavier and heavier," Yunxiao said with a wry smile. This water is definitely not normal. There must be something in it. He suddenly thought of something and muttered to himself, "Could it be that there's so little of that thing that we can't sense it with our soul power?"

That's impossible," Yuan gaohan said. If it's diluted to such an extent and can still wear down your body, then how heaven-defying must this so-called thing be to achieve it?"

After he finished speaking, his expression suddenly changed. He seemed to have thought of something and exclaimed, "Could it be that it's an existence that's similar to the water origin element? Or perhaps it's the original element itself!"

The more he thought about it, the more he felt so. He said in surprise, "If that's the case, then it all makes sense. Because it's the origin of water, we can't detect it at all when it fuses with water. And with the power of the origin elements, even if it's diluted by a hundred thousand or a million times, it will still have a strong effect if you inhale too much!"

Yunxiao thought for a moment and said, "I should be right! It's impossible for it to be the water origin. It should be the same as the three major elements I've collected, only close to the origin. I don't know what kind of abnormal water element it is, but I'm just in need of mutated water elements. I didn't expect someone to send it directly into my body. "The Thunderwind Chamber of Commerce is really a Lei Feng!"

Yuan gaohan said, " this bit of water element power is too little for the water territory in your divine realm tablet. It's really a drop in the bucket. Otherwise, no matter how powerful you are, you would have been completely destroyed by that level of element.

Yunxiao nodded in agreement. Whether it was the Phoenix divine flame or the primordial astral wind, if they were not refined by him and released by an enemy, he would definitely die if he touched even a little bit of them.

He smiled bitterly and said, "then what should I do now?" The diluted elemental power seems to have penetrated into the yuan Qi and has been absorbed into my dantian."

Yuan gaohan rolled his eyes at him and said, " I don't know what to do either. I've never heard of such a situation. He didn't know who had set up such a trap. It was too abnormal. You're on your own."

After saying that, he closed his eyes and continued to absorb the Starlight Stone, no longer paying attention to Yunxiao.

"F * ck, you're disloyal!"

Yunxiao scolded him, but did not disturb him any longer. Instead, he turned into his true form and returned to his body, then began to circulate his primordial Qi. At this time, a lot of water had seeped into the vacuum area. Although it was scarce, it was full of spiritual energy, and it gradually gathered on its own.

"Sigh, what a pity!"

Yunxiao sighed. why did I discover the problem at this point? " he asked. It would've been better if it had been a little later. I was just a little bit away from breaking through to the eight-stars martial Grandmaster level. Now that I know there's a problem, I won't dare to absorb it again even if I'm beaten to death."

In just over two hours, he had absorbed enough spiritual energy to break through to the one star realm into his body. The level of spiritual energy in the entire Lake had plummeted. Although there was only

one drop of hundred rivers primordial water, he had already absorbed more than half of it. Otherwise, with his bright moon body and the Supreme tyrant body, which could purify strange forces, it was impossible for such serious symptoms to appear.

actually, you can still absorb it," the demon Dragon said. you can directly break through to eight-star.

you're not afraid that I'll die?" Yunxiao asked.

I wish! the demon Dragon snorted. it's the same whether you absorb it or not. I have an idea, but I'm not sure if it'll work.

what way?" Yunxiao asked happily. what way?" Speak!"

"Release the suppression of the ancient dynasty Bell and let the demonic Qi enter your body to erode the water element," the demonic Dragon said after a moment of thought.

Yunxiao's face changed drastically as he said in horror, "Drawing demonic Qi into your body? are you crazy? do you really want me to die?"

"Demonic Qi has already entered your body," the demon Dragon said."It's just that it's been suppressed. The demonic Qi could corrode all things, and its strength was no less than the Emperor Qi of the nine Heavens. As long as you guard your spiritual altar and don't let your demonic thoughts live forever, you'll be fine. Other than that, perhaps you can also use your mysterious spiritual energy, but is such a small ball enough to fill the gaps between your teeth?"

The energy in Yunxiao's dantian was even stronger than the Emperor Qi of the ninth heaven and the devil Qi, but it was too little to drive out the intrusion of the water element in his body.

"Besides, isn't your physical body still one step away from the imperishable golden body?" the demon Dragon continued. By drawing in demonic Qi into one's body, it was extremely possible to temper one's body and reach this final stage. And even if the demonic Qi can't wash away the water origin element, if I can break through to the imperishable golden body, I can use the power of the Golden body to force the water element out of my body, or even absorb it."

Yunxiao's heart thumped when he heard that. What the demonic Dragon said was true, but the consequences of the demonic energy entering one's body were very dangerous. If one did not control it well, it was very likely that one would fall into Qi deviation, which would give birth to demonic thoughts and cause one to fall into the demonic state.

you have no other way out. If you've thought it through, continue to absorb this spiritual energy and break through to the eight-stars martial Grandmaster level. Then, let the demonic energy enter your body.

The demonic Dragon closed his eyes and continued to cultivate.

Yunxiao also felt that there was no better way. The power of the water element was like a slow-acting poison, and his body was slowing down more and more.

After thinking it through, he retracted the yuan Qi in his body. The vacuum space immediately disappeared, and the lake water once again submerged him.

Yunxiao continued to cast an incantation gesture and cast the one Qi of fate, then began to absorb spirit Qi crazily and break through the bottleneck of the eighth-tier martial Grandmaster realm.

As time passed by, the spiritual Qi in the lake gradually became thinner. When they were refining the mirror, the thunderwind Chamber of Commerce had poured the spiritual Qi of a small mine into it. Although a lot of it had gradually dissipated, the remaining spiritual Qi was still astonishing. If it had been anyone else, they would have exploded and died.

"One Qi infusion, eight-star realm appears!"

With Yunxiao's cry, the bottleneck was suddenly broken, and the power that had been blocking his body was relieved. It seemed to return to normal in an instant, but it soon became heavy again.

"Dynasty Bell, come out!"

He formed a hand seal with his five fingers and pointed at his dantian several times. A bell sound came out from his body, and then the power of sound waves rippled in the water, directly discharging a vacuum.

A miniature bronze bell the size of a fist gradually emerged from his dantian. It rose into the air and hovered above his head, emitting a melodious sound.

The lake water seemed to be very afraid of the ancient Bell. The calm bottom of the lake began to surge, creating waves that spread into the distance.

let's begin! the demonic Dragon shouted. I'll do my best to protect your spiritual altar and sea of consciousness. If we're doomed, we'll all be doomed together!

With the departure of the dynasty Bell, the demonic Qi that had been suppressed finally found a way to vent. It spread wildly in his body, burrowing into his meridians and flesh wherever it passed, corroding them by force.

At that moment, black stripes began to appear on Yunxiao's skin, which turned out to be circles of strange symbols. With each one appearing on his body, the power of the demonic energy grew stronger, as if it was going to occupy his entire body.

"This Tao Wu!"

Yunxiao was taken aback as he looked at the black patterns on his body in horror. "Demonic Dragon, look at my body. Is this normal?" he asked.

"This is not normal!" The demonic Dragon said in a deep voice.

"What?"

not normal? " Yunxiao cried out. abnormal? " Don't you f * cking get me killed, what the hell is going on? I feel that these patterns seem to complement each other, forming a strange imprint that is derived layer by layer. However, it's pure power, so how can it form a seal by itself?"

The demonic Dragon also felt a headache. He said awkwardly, "I, I've never heard of such a situation before. Is there a difference between the demonic Qi of a great demon and that of an ordinary demon?"

I thought you knew a lot," Yunxiao said angrily. f * ck, I'm going to die because of you! At this time, even if it's sh * t, you have to swallow it!"

A sense of powerlessness welled up in his heart. Since he had already started, he had to persevere to the end. As long as he didn't lose his spiritual altar and sea of consciousness, there wouldn't be much of a problem. Moreover, under the expansion of this demonic Qi, the feeling of the water element poison in his body was gradually disappearing.

He performed the great expansion divine technique with both hands, and golden tadpole-like characters appeared in his sea of consciousness. They were full of power and emitted an auspicious light that shone down, making his spiritual altar clear and peaceful.

Soon, all kinds of black patterns appeared on the surface of his body. Yunxiao found that even if he tried to resist them with his Qi, they would be easily broken. The black gas extended to his neck, then covered his cheeks and spread to his forehead.

The immemorial heaven's eye suddenly opened, and a spiritual light flashed in its eyes. A fist of yellow light spread out, forming a circle of golden light around the heaven's eye. It shimmered and protected the spirit sea of the brows, isolating the demonic Qi outside.

The demon Dragon looked at Yunxiao's body in shock. Except for the area between his eyebrows, Yunxiao was covered in black patterns, which made him look like a great demon. He suppressed the great shock in his heart and said, "It seems to have succeeded? Kid, are you alright?"

He asked several times in a row, but Yunxiao did not say a word.

Suddenly, Yunxiao slowly raised his hands and made a strange hand seal with an unfamiliar movement. Black fiend energy slowly gathered on his hand seals, and a Black Sigil appeared in the air.

"What ... What kind of hand seal is this?" the demonic Dragon asked in shock. You, what are you doing?"

To his horror, he found that Yunxiao had performed an incantation gesture with both hands, and then ruthlessly pressed the strange seal onto his primordial heavenly eye!

Chapter 559-forcing out the elemental water

“What are you doing?” the demonic Dragon asked in horror. Stop!”

He hurriedly broke out of his body and transformed into a demonic Dragon’s Roar that spiraled down from the sky, then roared at the seal in Yunxiao’s hand, trying to shake it apart!

But, it was too late. With a strange and sinister smile on his face, Yunxiao suddenly imprinted the black runic seal on his primordial heavenly eye!

The black rune seal fell and an extremely strong golden light shot out from the immemorial heaven’s eye. It was like a Golden Flower blooming from the bud in an instant. The huge light burst out and blocked the black Qi. It even dispersed it.

“Ah!”

A terrifying voice came out of Yunxiao’s mouth, and the black mist around him quickly receded from his face to below his neck.

The demon Dragon was horrified and panicked. Looking at Yunxiao’s current appearance, he was filled with unspeakable shock and regret. “Are you alright? Say something, f * ck!”

Yunxiao slowly opened his eyes and said, “I’m fine now. It was a close call just now. My spiritual sense was sealed by the demonic Qi in my carelessness. Fortunately, that stupid demon actually tried to break my spiritual altar and sea of consciousness. He deserved to die!”

“What?” the demonic Dragon was shocked. There’s a Devil’s consciousness in this demonic Qi?”

I don't know," Yunxiao said. but I feel that it seems to have intelligence. Hmph, my immemorial heaven's eye contains the power of two elements, and you want to break it with this little bit of demonic Qi? dream on! Now that the power of the water element has been removed, I don't need you anymore. Go back to the ancient clock!"

He raised his hand and pointed.

The fist-sized ancient Bell above his head slowly flew down and directly disappeared into his body, constantly emitting an ancient Bell rhythm. The black patterns around his body no longer expanded as wildly as before, but kept retreating.

Under the demonic Dragon's horrified gaze, all the demonic Qi retreated and was once again suppressed by the dynasty Bell. Yunxiao's face returned to normal, and his eyes flickered with a divine light. It was the fluctuation of an eight-stars martial Grandmaster's primordial energy.

The demon Dragon made a circle in the air, then flew back into the immemorial heaven's eye and continued to cultivate in Yunxiao's soul.

Yunxiao suddenly stretched out his right hand, and wisps of golden power emerged from his palm, forming golden tadpole-like characters in the air. For a moment, the lake was illuminated, and the vacuum zone expanded violently, pushing the lake water out.

A strange look flashed in the demonic dragon's eyes as he said, "Spiritual energy!"

Yunxiao said, 'hmm, not bad. The elemental origin was the structure of the world and the existence of all things in the universe. It was impossible to destroy it. I've already used my spiritual energy to collect the mutated water elements. Look at the middle of this ancient scripture."

The demonic Dragon looked over and saw a drop of water the size of a green bean condensed in the center of the Golden text. It was dark blue in color and kept spinning under the golden light, its shape uncertain.

"What kind of water element is this?" the evil Dragon asked in a deep voice.

if I'm not wrong, it should be the hundred rivers primordial water! Yunxiao said. what a pity, " he said with emotion. there's only so little left. It's not even enough to fill the gaps of my teeth if I use it to open the divine realm tablet.

"Yes, but even though it's a small amount, it's still hard to find. Keep it, maybe you can sell it for a good price in the future." I wonder if I can condense more from the remaining lake water."

No. Yunxiao shook his head. it's meaningless. There is at most one drop of hundred rivers primordial water in this Lake, and I have more than half of it here. The strength of the remaining lake water was too great, and the loss outweighed the gain. In addition, I've absorbed more than half of the spiritual Qi in the water, and I've also figured out a bit about the devilish Qi in my body. This trip to the bottom of the lake was really not in vain."

He flipped his hand and immediately put the half a drop of hundred rivers primordial water into the divine realm tablet. He raised his head and looked at the sky. Outside the vacuum, the lake was extremely clear, but he could not see the sky.

this place is either filled with array restrictions or profound artifacts with their own restrictions. If you want to break it, it seems that you can only break it with force!

A cold gleam flashed in Yunxiao's eyes as he suddenly opened the fingers of his right hand. A little bit of cold air gradually condensed in his palm, as if a weapon from the coldest place of time was about to break through the air!

old Yuan, let me see the might of the ninth level Thunder tribulation of the northern heaven cold star Iron sword that you've forged!

Yunxiao cried out in a low voice. The streams of cold air finally converged into a beam in his hand, and the northern heaven cold star sword, which was as cold as water and came from the outer space to suppress the ancient demon, appeared in his hand.

As soon as the northern heavens cold star sword appeared, the lake water began to surge. The surroundings began to stir restlessly like waves. Through the lake, thunderclouds began to gather in the distant sky!

At this moment, outside the lake, everyone had been waiting for more than two hours. They gradually lost their patience and began to feel a little irritated.

“What’s going on? are we just going to stop here? I didn’t risk my life to get a recording needle just for a walk!”

“Tsk! You’re awesome, go ahead. This Strange Lake water is just waiting for you to break it!”

damn, there are so many experts here, all of them are like wood. If I had the cultivation of a martial honor, I would have split this Lake with one palm. Why would I not move forward? ”

“If you know that you’re not a martial honor, then obediently shut up. If you anger those experts, they’ll hack you to death first!”

Everyone began to complain, but no one dared to step into the strange Lake.

Hanxuan finally couldn’t stand it anymore and said, “ we’ve lost contact with young master Yun for so long. I guess he’s trapped. Let’s work together to break the lake.

Tan dijun didn’t pay attention to her, but turned around and asked, just now, I heard the sound of a bell from the bottom of the lake. I’ve been wondering if I heard it wrong, or did you all hear it too? ”

“Is that true?” Hanxuan was delighted.

But Zhen deyou’s words made her mood drop to the bottom again. Zhen deyou frowned and said,“A Bell? What Bell? I didn’t hear it. ”

Tan dijun looked at elder Sima and asked. Sima was always hidden in a black robe, and no one knew what he was doing. On the day before the rebellion, he had tried to win this man over, but he had failed, so tan dijun could not see through him.

A voice came out from the black robe,“I also vaguely heard a Bell.”

that's right. There is indeed a bell ringing. It must be li Yunxiao who has encountered some difficulties inside.

Xun Zhiming said slowly as he waved his feather fan, "I wonder if you need our help. Although the sound of the bell was intermittent and faint, it wasn't rushed, and it seemed to be at ease."

A trace of shame and anger appeared on Zhen deyou's face. They were all martial honors, but he was the only one who didn't hear it. This was obviously the difference in cultivation level, which made his old face burn.

"Well, let's wait a little longer," tan dijun said. As long as we're not in a hurry, I'm afraid someone will be."

"Oh?"

"Could it be those people from the Chamber of Commerce?" Xiao Minghui chuckled.

"Let's see how long they can last," tan dijun said sarcastically.

As soon as his voice fell, dozens of people came from a distance. They were the forces of the Chamber of Commerce led by the thunderwind Chamber of Commerce. They were in high spirits, and their faces were full of sneers.

"Haha, why are you all so lonely at the lakeside?" Gao Lin laughed from afar. Hahaha!"

Tan dijun sneered, "you must be tired of hiding and watching. Are you finally willing to come out?"

Gao Lin's face turned red and he snorted, "I don't understand what sect master tan means." A mere Lake is enough to stop the Big Dipper sect, heavenly Scorpion sect, New Moon sect, and many of their underlings?"

“Since the real master is here, you can remove the formation and restriction on this Lake. We can go now,” tan dijun said.

Ying Lin folded his arms and looked up at the sky. “I really don’t understand what sect master tan is talking about.”

Hanxuan’s face darkened as she said coldly, “cunning and deceitful! This is the thunderwind Chamber of Commerce. I’m not afraid of being laughed at by the whole world!

Gao Lin’s expression changed, and a cold light flickered in his eyes. He said angrily, “Hanxuan, you can eat whatever you want. If you eat the wrong thing, you’ll only die. You can’t say things carelessly. If you say something wrong, your entire family might die!”

The most important thing for a Chamber of Commerce was their reputation. To say that someone’s reputation was bad was no different from smashing their signboard and destroying their Foundation.

Hanxuan’s heart sank. Kong Lin, “she sneered, “you only know how to pick on the weak. You’re a hero indeed!

Qiu Lin’s face was slightly red as he flew into a rage out of humiliation.

“Who Do You Think You Are? how dare you point fingers at President Junlin!” Fang Tianhe shouted. You’re from a Chamber of Commerce, but you’re actually with these pieces of trash from Southfire city. You traitor, one more word and this old man will send you to the West!”

A cold light flashed in his eyes. The Purple Cloud Chamber of Commerce was already an arrow at the end of its flight, and it would be annexed by him sooner or later. He intended to use this opportunity to get rid of Hanxuan and speed up the process of annexation.

With this in mind, the aura of a martial venerable on his body rose and rolled forward, instantly locking onto Hanxuan. He grinned and said, “Since President Luan Xuan’s heart isn’t with the Chamber of Commerce, then don’t blame us for not showing you any mercy. Today, I, Fang Tian He, will help the merchant Union get rid of this evil and send you to the West. Hehe, for the sake of your pure and beautiful appearance, if you are willing to be my stunner and serve me well, I may spare your life.”

The aura from his body pressed down on Hanxuan, causing her face to turn pale. She gritted her teeth, and her face was completely pale. She couldn't even speak. She circulated her essence force and spat out two words, "Shameless!"

Mei Dong 'er was also very anxious. Although she did not know Hanxuan, she was sure that this person was Yunxiao's friend since she had come with him. His friends were naturally her friends as well. "Vice sect leader!" She hurriedly shouted at tan dijun.

Tan dijun slightly raised his head and said, eh, the weather today is pretty good.

haha, it's indeed not bad. There are no clouds in the sky, and it's clear and bright.

Xun Zhiming also chuckled.

The two of them had already made their attitudes clear. Mei Dong 'er was furious, but she was helpless.

Chapter 560-killing Fang Tianhe

When Fang Tianhe saw their attitude, he suddenly became bolder in his heart and said heroically, "President Qian and all the other presidents, you've all seen it today. President Luan Xuan colluded with others to harm the interests of the merchant Union. She is despicable. I will get rid of this traitor for the merchant Union today!"

it's what we should do. Mr. President Fang is a righteous man. This is a blessing for the Chamber of Commerce!

guild leader Luan Xuan is stubborn and has walked further and further down the evil path. She only has herself to blame for her death today!

"That's right, everyone can be my witness. If there are any disputes in the future, justice will be in everyone's heart!"

The people from the Chamber of Commerce all agreed. Everyone had a cold expression on their faces, as if they were happy to watch the show.

Seeing that the people of the Big Dipper sect didn't interfere and the people of the Chamber of Commerce stood on his side, Fang Tianhe no longer had any concerns. He laughed and took a step forward. The pressure on his body fell down. He laughed proudly, "Those who submit to me will prosper, and those who resist me will die. Hanxuan, the heavens want you to die, so I'll send you to the West."

He looked at Hanxuan, who was gritting her teeth and struggling to resist his pressure, and felt a burst of joy in his heart. Like a cat toying with a mouse, he laughed and said, "Haha, don't be afraid, and don't worry. After your death, I will take good care of The Purple Cloud trade Union's business and beautiful maidservants. Haha, you can die in peace!"

Killing intent flashed on Fang Tianhe's face. Just as he was about to make a move, the clouds in the sky suddenly sped up and the shadow of the clouds passed through everyone.

"Boom boom boom!"

A thunderclap exploded in the sky, and clouds surged from all directions. The clear and bright sky suddenly became covered with dark clouds. Electric arcs flashed between the layers of dark clouds and gathered above the lake.

"What's going on with this Yingluo?"

Everyone was shocked and looked up. The sky had turned into a sea of lightning. The power of the lightning was getting stronger and stronger, turning from light green to dark, and finally to purple!

"?! Heaven and earth changed color, the wind and clouds surged, what, what is going on?"

Fang Tianhe, who was about to make a move, was suddenly stunned on the spot.

Xun Zhiming was stunned, "this, sect master tan, didn't you just say that the weather was good?" Why did the color change?"

Tan dijun rolled his eyes at him, but his eyes were full of solemnity. He stared at the thunderclouds in the sky, and he was terrified.

Everyone was also extremely shocked. They quickly spread out in all directions, afraid that the lightning would suddenly fall and hit them.

Tan dijun looked at Ying Lin in horror and said angrily, "You old fogey, what the hell are you doing? what's with these lightning bolts?"

Ying Lin was also at a loss. He looked at the surface of the lake, which was also beginning to surge with waves. It was no longer as calm as before. Under the might of heaven and earth, it seemed so weak.

"???"

More and more lightning bolts gathered. When they finally reached a certain level, they transformed into a bolt of lightning that shot down from the sky and struck towards Wu Yan's mirror of calm lake. Like a Lightning Dragon, the dragon's head rushed to the surface of the lake, immediately creating a green light in the entire Lake!

"BOOM!"

The huge surface of the water was split open, as if a mirror had suddenly been shattered. The water splashed up into the sky and splashed in all directions, causing it to rain.

Wu Yan was stunned. The lake Mirror was merely an eighth-tier profound artifact, so how could it withstand the ninth-tier lightning tribulation? after experiencing a few bolts of lightning, it exploded with a loud bang and was completely destroyed.

A green figure walked out of the lightning with a sword in his hand!

Everyone was shocked. Their eyes widened as they stared at the familiar figure.

Hanxuan's eyes grew hot, and tears flowed down her face uncontrollably, mixing together with the falling rain.

It was as if the figure was stepping on lightning. With every step, an electric arc condensed under his feet, revealing his true appearance in the mirror of calm lake that Wu Yan raised. An ice-cold voice came out of his mouth, " my ears aren't good. Just now, who was the one who said that he was going to send my friend to the West? can I trouble this expert to step forward? "

"Huala"

The people around Fang Tianhe actually dispersed all of a sudden, leaving Fang Tianhe standing alone.

Fang Tianhe couldn't help but take a step back under his momentum.

Yunxiao's eyes suddenly fell on Fang Tianhe as he said amiably, " Oh? So it's President Fang, please repeat it, I want to hear it more clearly."

Fang Tianhe's whole body trembled. Under his gaze, he felt as if he had been struck by lightning. His whole body became extremely unnatural. He was a seven-stars martial Supreme, but he was actually being stared at by a martial Grandmaster. He could not help but be shocked and retreated.

"Oh, you're not going to say? Forget it, then there's no need to say it in this lifetime."

Yunxiao raised his eyelids slightly. As he blinked, lightning flashed in his eyes, filling the sky with green lightning and illuminating his figure like a god of Thunder descending, dyeing the sky green!

the eternal star that has not been destroyed for hundreds of millions of years, the power of eternal existence, gather on my long sword!

Yunxiao raised the northern heaven cold star sword with one hand and looked down indifferently. The indifference to all living things was like ice that chilled everyone's heart. What kind of experience did one have to go through to have such a gaze that seemed to have experienced the vicissitudes of life?

“Sword technique-Starlight!”

As the sword slashed down, the water-like light on the northern heaven cold star sword condensed into the power of Starlight. It was as if the stars had fallen from the nine Heavens to the world. The power of green lightning that had gathered on the sword was also slashed down by this sword light!

As the sword cut through the sky, everyone held their breath. Time seemed to stop at this moment. There was only that sword left in the world. There was no one or anything else.

The green thunderclouds condensed into the body of the sword, and the Starlight fell from the northern heaven!

“?!”

Fang Tianhe’s whole body was pale. The sword of Starlight was pointed at him, and the people under the starlight could feel the power of the sword. Not only the Starlight fell, but there was also the green Thunder, constantly splitting the layers of space. Even if he was a martial venerable, he felt a sense of powerlessness and despair from the bottom of his heart, and the breath of death spread all over his body.

“No! I’m a seven-stars martial Supreme, an Overlord of a region. How could I die in the hands of a martial Grandmaster?”

He had gone crazy. When the feeling of death surged, it was also filled with an absurd feeling. Although Yunxiao’s aura was astonishing at the moment, it did not exceed the realm of a martial Grandmaster.

“Absurd! Absurd! Absurd!”

Fang Tian He roared three times, his whole aura rose to the peak, the power of the domain shrank rapidly, forming a defense around him, as if it was solid. A long spear appeared in his hand, and he thrust it out with a Dragon’s Roar!

Although he panicked for a moment, he was still a seven-stars martial venerable. He would be a top master anywhere in the heavenly martial realm, and he was strong enough to dominate a region. The perception, keenness, reaction, and other qualities of a martial artist that had been accumulated in his life were all displayed at this moment. He had never felt so close to death before. He was unwilling and felt humiliated.

“BOOM!”

The Starlight of the sword technique fell and shook the tip of Fang Tianhe’s spear. It was like the dazzling light of the day spreading out, sweeping everything around.

The rank 9 tribulation lightning that followed the Starlight like a shadow suddenly landed on the defensive domain. One, two, three, countless bolts of lightning continuously struck down. It was as if a casual finger from the God of Thunder could condense ten thousand bolts of lightning rain, striking people with a dizzying amount of power.

The surrounding Warriors were all shocked and their hearts were extremely cold. That terrifying Thunder Power, they could only watch as Fang Tianhe’s domain defense was broken and then the Thunder directly hit him.

Even though the spear had shattered the Starlight, it couldn’t block the power of the ninth-grade lightning. After struggling for a moment, the lightning finally entered his body, causing him to scream in pain.

The lightning was coming to an end, and Fang Tianhe was in a sorry state. His hair bun had long been undone, and his long hair stood on his head like long needles, making him look terrible.

After the dark clouds in the sky rumbled for a while, they gradually dispersed, revealing the clear sky and returning to the bright sun.

However, the huge Lake on the ground had disappeared, and the ground was filled with potholes from the rain. Everyone was shocked by the heavenly might and felt thirsty.

Fang Tianhe was still standing there with the long spear in his hand. However, after a moment, he suddenly spat out a large mouthful of blood. The breath of his whole person was rapidly weakened, and it was obvious that he had aged by dozens of years.

“Clang”

His long spear was thrust into the ground to support his body. He looked up at Yunxiao, who was walking toward him step by step, and cried out in horror, “No, don’t come over. I admit defeat, I completely admit defeat!”

He used the gun as a crutch and kept retreating. She helplessly looked around the crowd. When she saw the direction of the forest, she hurriedly limped over and shouted, “President Qian, save me. Mr. President, please save me.”

Ying Lin was about to come out and say something, but he suddenly saw Yunxiao’s eyes staring at him. Under those clear eyes, there was a demonic look, as if they were bleeding like the moon, which shocked him greatly.

The water-like sword gleam of the northern heavens cold star sword was reflected in his eyes under the sunlight, scaring him so much that he subconsciously took a step back, not daring to step out of the ranks!

Although his action had shocked everyone present, no one laughed at him or looked down on him. This was because no one would dare to come out and fight against him except for a martial sovereign of the ninth heaven after feeling the heavenly might that he had just displayed!

“Save you? No one in the world can save the person I want to kill!”

The immemorial heavenly eye on Yunxiao’s forehead opened, and a huge amount of soul power began to circulate. Immediately, he forced out an immemorial astral wind, which turned into a wind blade and slashed out.

“No, no, don’t! I beg you, I beg you to let me go!”

At this moment, Fang Tianhe had no essence force. Under the power of the gang wind, he was so scared that he suddenly went limp. Even if he held a long spear, he could not support his body.

“Whoosh!”

With a light cutting sound, Fang Tianhe’s head flew directly into the sky, and blood spurted out from his neck like a fountain, several meters high.

The red was bloody, but it was also bright red, so bright that it sent a chill down everyone’s spine. The image of Yunxiao’s fiend was immediately deeply rooted in everyone’s mind and carved into their bones!
