

## **The Eternal 901**

### Chapter 901-beast fight

Deng Yufeng did not notice the strange tone in Yunxiao's voice, but he was staring into the distance vigilantly.

Soon, the figures of dozens of Warriors appeared in their line of sight. They were running away madly, and the wailing Ghost Wolf was chasing them. Every time it hit them, they would shiver. Some of the weaker ones fell directly from the sky, and it was unknown whether they were Dead or Alive.

"BOOM!"

"BOOM!"

The sound of the huge earthquake was getting closer and closer, and they finally saw the true face!

A white shadow moved behind them like a mountain. It was a huge rabbit with red eyes. It didn't look cute at all. Instead, it looked like a ferocious beast that ate meat.

The rabbit didn't jump. Instead, it took a few steps forward, creating a huge tremor. On its two upright ears, blue lightning crackled, causing a strange phenomenon in the sky.

The sound came from the rabbit's mouth, and it shook the air. A strong wind started to blow on the sea, and countless fish and shrimp were killed by the sound waves. They rolled out of the sea and slowly covered the sea.

Deng Yufeng's expression changed and he said with a serious face, "It's a ninth-rank demonic beast. Should we run or a Suan ni?"

At this moment, the group of cultivators had already flown into the sea. Their faces immediately relaxed. Many of them let out a long breath as if they had escaped a disaster. However, they still did not dare to be careless and quickly flew into the sea. They bet that since the rabbit was a demonic beast, it should not dare to go into the sea.

At the same time, the voices of a few Warriors came over and went straight into Yunxiao and Yunxiao's ears.

you two idiots. You're still standing there like idiots. Don't you know how to run? "

"Hehe, maybe he thinks he has the strength to deal with that huge rabbit."

"Hmph, tell me a joke! Who cares, they're right behind us and can help us block for a while. I hope they're not too weak!"

At this moment, the rabbit had already rushed to the seaside. As expected, it did not dare to come down and just stood there in a daze. However, the power of Thunder in its ears was getting stronger and stronger, and the hair on its whole body was standing up. It seemed to be about to attack.

"BOOM!"

A wave-like explosion was heard. Before the rabbit could even move, several shocking water pillars broke through the sea surface and shot into the sky. Several Warriors were killed by the water pillars before they could even scream. Their bodies fell into the sea, and hundreds of strange small fish instantly emerged, devouring them in the blink of an eye.

Those cultivators were all terrified and became extremely alert in the waves, dodging here and there, not daring to continue moving forward. However, retreating was not an option either, so they could only stay in large numbers between the sea and the sky, waiting for the situation to change.

The shocking waves pushed the sea water away, and a huge fish head was revealed. It was actually a huge replica of the hundreds and thousands of strange small fish. It was tens of thousands of times larger, and a fish head was almost larger than the rabbit.

The fish's eyes turned around and finally fell on the rabbit. The silver scales of the strange fish were painful to the eye under the sun, and they were extremely sharp and hard. They were natural armor.

The rabbit seemed to recognize the big strange fish, and it became vigilant as it stood on the shore. Its fat legs slightly squatted down, and its red eyes focused on it. Its two ears constantly swayed, and the power of thunder and lightning on them crackled.

The two giant beasts were in a deadlock, as if they were still. However, the two surging demonic powers formed a Qi field that pressed against each other, producing an extremely strong spiritual pressure between the sea and the land. The entire sea and the clouds in the sky were constantly changing shape at an extremely fast speed.

There was movement in the silence, and there was silence in the movement. In this silence and movement, the cultivators who were caught in the middle were the most miserable. Their faces turned pale, and it could be said that they had no way out.

Even Yunxiao and Deng Yufeng felt extremely uncomfortable in the face of the two forces. They only felt a little relieved after circulating their Origin Energy to resist the force.

The rabbit finally couldn't help but move. Its two ears suddenly straightened, and suddenly a Thunderbolt appeared and blasted towards the giant fish. The entire sky and earth were illuminated with a deep blue, and all the cultivators "faces turned pale in an instant.

"Boom boom boom!"

The lightning streaked across the sky, and the martial artists dodged with all their might. Many of them were directly hit, and they were electrocuted black on the spot before falling into the sea and being eaten by the small monster fish.

The huge fish didn't do anything. It closed its eyes and its entire head began to shrink into its body like a Porcupine. When the shocking lightning landed on its scales, it was directly blasted away in all directions, unable to hurt it in the slightest!

This time, the cultivators caught in the middle were completely in trouble. Some of them had managed to Dodge the rabbit's attack with great difficulty, but they were immediately bounced back by the endless backlash. The power of lightning without any pattern struck them here and there, and another group died.

“Bang!”

Yunxiao’s Tigerking chariot was not spared from the backlash of the Thunderbolt, and it was destroyed in an instant. Two beams of light rushed out of the explosion, but they were not injured at all, and their faces were solemn.

At this moment, everyone could see that the two of them were extraordinary. One of the Warriors hurriedly shouted, “Milords, please use your divine abilities to drive away these two demonic beasts and save our lives!”

“Chase away these two demonic beasts? You guys must be joking!”

Deng Yufeng’s face was cold. He had only recovered half of his strength, and his injuries had not fully recovered. Under the hostility of these two demonic beasts, he could only protect himself.

After the scales of the strange fish reflected the lightning, it had already stretched its head out and spat out white foam. Suddenly, a gurgling sound came from the sea. The small strange fish had actually learned to spit as well, and a large amount of white foam rose to the surface of the sea.

“Gulp!”

The giant monstrous fish spat out the bubble in its mouth, and it suddenly flew across the sea, sweeping up the surrounding seawater. The countless tiny bubbles flew into the air, and the giant bubble’s speed became faster and faster. It rushed towards the shore, and the moment it left the sea, it turned into a white light that swept across the entire coastline, illuminating it with a pale white color.

The countless tiny bubbles that were swept into the air suddenly dissolved in an instant and turned into white light that contained a strange power. Many martial artists were unable to resist it and were touched by the white light. They immediately screamed and burned in the air, turning into ashes in an instant!

“It’s actually demonic fire!”

Yunxiao was taken aback. The two giant beasts were both divine abilities of the element attribute. He and Deng Yufeng were also able to resist the white light without much effort.

The rabbit on the shore seemed to show a trace of fear. It closed its feet and jumped up, not daring to touch the White demonic flame. Its huge body directly leaped back, jumping over a hundred meters in one go, and landing on the ground with a huge tremor.

The White flames spread out in all directions and gradually extinguished after a while. However, most of the coastline had turned white after the flames had burned.

After the two giant beasts attacked each other to test the waters, they did not move again. The lightning in the rabbit's ears had weakened a lot, as if it was accumulating energy, while the strange fish was making "Gugu" sounds from its mouth, but no one knew what it was doing.

The most miserable ones were the martial artists who were caught in the middle. Seven or eight out of ten had already died, leaving only five people. Four of them were martial Supremes, and one was a peak martial honor. They had only managed to survive by relying on their strong strength. The rest of the people had completely died.

Even the remaining five people's faces turned pale. They didn't know what was going to happen next. This was a realistic portrayal of a fight between Immortals and the suffering of mortals.

After the two giant beasts were locked in a stalemate for a while, the strange fish's eyes rolled a few times. As if it felt bored, it turned around and swam away.

The remaining five people heaved a heavy sigh of relief. They nervously flew toward the surface of the sea for a while, trying to get as far away from the rabbit as possible.

Seeing that the enemy was gone, the rabbit looked around with its small eyes, and its red eyes immediately fell on the humans in front of it, who it thought were insignificant. The lightning in its ears began to intensify.

Deng Yufeng's expression changed and he said in a deep voice, "Young master Yun, what should we do? Kill or run?"

This rabbit was only at the beginning of the ninth rank, which was much weaker than iron tears. However, with their current strength, they might not be able to win even if they joined forces. It was a pity that all his treasures had been destroyed, and he was injured. He only had a battle saber with him now. Otherwise, with his strength as a five-star martial sovereign, he could have gone up and fought alone.

its Thunderbolt attack covers a large area," Yunxiao said in a deep voice. I'm afraid it can't run away for a while. I think it'll be more dangerous if it returns to the sea.

The five Warriors quickly retreated into the sea. At this moment, the big strange fish that had disappeared in the sea suddenly stretched out its head again. The five Warriors were so scared that they quickly flew back to the shore and surrounded Deng Yufeng.

Because Deng Yufeng was the most powerful among them, she felt more secure around him.

...

"In that case, it's killing!"

A cold look flashed in Deng Yufeng's eyes. His saber suddenly appeared on his shoulder and he held it with one hand. This treasured saber was his last asset, and even his battle armor had been completely shattered by iron tears' attack.

"Let's just beat him back and return to the shore first. God knows what else will appear in the sea! If we can kill the rabbit, that would be the best!"

Yunxiao had a lingering fear of this Sea area. With a wave of his hand, nine Northern heaven cold star swords appeared in front of him and took the shape of swords.

Seeing that someone had taken the lead, the other five cultivators' morale was greatly boosted as well. They took out their profound level weapons one after another and poured their Yuan Qi into them. The buzzing sounds of the profound level weapons spread out one by one.

When the rabbit saw this, it seemed to be stunned for a moment. Only then did it realize that aside from the two of them, the cultivation of the others was not below its own. Instead, it began to hesitate.

if he doesn't want to fight, we'll fight! Yunxiao shouted coldly. attack!

He pointed with one hand, and the nine sword-shaped swords suddenly slashed out, crossing the sky.

Without any hesitation, Deng Feiyu followed up with a saber beam. His killing saber was so cold that it tore the space apart and caught up with Yunxiao's Nine Swords, falling almost at the same time.

Chapter 902-Starlink

The big rabbit sensed the danger and flicked its ears. The power of lightning gathered on its body, forming an oval ball of lightning in front of it to defend!

“BOOM!”

The sword Qi and saber radiance instantly broke through its Lightning Shield and split apart the lightning defense. They struck the rabbit's body and forced it to retreat.

The rabbit already understood that it was no match for him, so it used the momentum of its retreat to hurriedly leap up and escape to the back. A shrill wail came out of its mouth, making people's ears hurt and their qi and blood boil.

Everyone hurriedly circulated their essence force to seal off their five senses and six Senses. At the same time, they felt their morale greatly boosted. They had a feeling of exaltation and were almost about to cheer. The roles of knife and fish had instantly switched.

this is a ninth-rank demonic beast! one of them said excitedly, his eyes shining. the vitality stones we get from killing it are enough for a lifetime of cultivation!

The other person snorted disdainfully and said, "Hmph, only a fool would exchange them for primordial stones. They're all treasures! As a Martial Emperor powerhouse, he might not have good equipment, but at least he would not be lacking in metastones for cultivation.

"What are you waiting for? Chase!"

The third person could not help but chase after the rabbit first. Only then did the others follow closely behind him. Yunxiao and Deng Yufeng exchanged a look and then followed.

Deng Yufeng was broke at the moment, and he wanted to get something good, but Yunxiao would not let the rabbit go. Although the mutated Thunderbolt was only a demonic Thunder, it was still very beneficial to his cultivation of the Thunder art.

Although the rabbit's body was huge, it was still extremely fast. It leaped forward in the air, and its feet did not land on the ground. With a few leaps, it was already thousands of meters away. It was not inferior to everyone's escape technique.

"Hmph! Now you know how to escape? Just now, when you were chasing after us, you were so satisfied!"

A three-star Martial Emperor expert's face was filled with gloom. He shot out an arrow-like profound level weapon with both hands. It broke through the air with a whoosh and exploded violently in front of him. It turned into a huge green light net and covered the area.

The rabbit jumped violently just in time for the green net to fall. The lightning on its ears flickered, and a layer of blue lightning immediately struck out, pushing the net away.

Yunxiao immediately took out the sunset Cloud Mirror and shone the mirror light over, locking the space in place. The rabbit's body and the power of Thunder suddenly came to a halt, and then it was immediately covered by the blue light net and fell from the sky.

"boom!" he landed heavily on the ground. a huge shock wave spread out and razed the surrounding area to the ground.

Everyone was overjoyed and hurriedly flew over. When they saw the rabbit struggling in the net from a distance, they immediately used all kinds of unique skills to take revenge. Suddenly, the light shook the sky and hit the rabbit until it cried out ghostly. Its two ears directly drooped down and stuck to its face, as if it was in a defensive state. Although everyone's moves were ruthless, it was very difficult to hurt it.

"My Lord, please help! This demonic rabbit's defense is too strong. Our attacks can't even penetrate it!"

The three-star Martial Emperor immediately asked Deng Yufeng for help. He was the strongest among the five of them, but he could not break the demonic rabbit's defense. Moreover, it seemed like the rabbit was still accumulating power and preparing to counterattack.

this rabbit skin is comparable to a ninth-tier battle suit," Yunxiao said. moreover, its defensive power has doubled under its lightning power. It's indeed not something an ordinary martial sovereign can break.

Deng Yufeng nodded. please protect me, young master Yun. My injuries have yet to recover. It's going to be tough for me to fight this demon rabbit.

The five men all wore strange looks. Yunxiao was the weakest among them, but he was asked to protect them. Was there something special about this?

Two of them stared at Yunxiao for a while, and it was only then that they seemed to recognize his identity. But even so, they still felt that it was a little exaggerated. The Lord beside them was a five-star Martial Emperor!

go ahead, brother Feather Wind. Yunxiao nodded and said, "I'll watch from the side.

Just as he was speaking, a "shua shua shua" sound came from the rabbit's body. The green net of light on its body became fainter and fainter, turning into green smoke and dissipating.

The three-star Martial Emperor's face changed drastically, and he said in horror, "Retreat!"

"Bang! Bang! Bang! Bang!"

With three consecutive explosions, the three experts who were attacking the rabbit were inexplicably hit by a huge force. The force directly penetrated their bodies, and they burst into clouds of blood mist, flying out.

Two of the martial sovereigns' lives were hanging by a thread. They hurriedly took out all kinds of secret pills and swallowed them. One of the experts at the peak of the martial honored realm exploded into a pile of meat and died completely.

This sudden change immediately caused everyone to turn pale with fright. Rabbit's eyes seemed to become even redder, and with a "bang," his huge body flew into the air, blocking the Blood Moon. It actually blocked out the light of the moon.

The remaining four people's expressions changed drastically. The rabbit seemed to have entered a frenzied state, and the aura on its body was extremely violent. The entire space became extremely sensitive, and crackling sounds of electric arcs could be heard everywhere. Bolts of lightning appeared everywhere like earthworms.

The rabbit's body was also filled with electricity. Under the influence of the power of lightning, its entire body gradually turned light blue.

The four of them were shocked to discover that they were also affected by this extremely powerful Lightning Field. There were electric arcs jumping out from time to time outside their Yuan Qi protection, and the yuan Qi around them began to be consumed at an extremely fast speed. Their strength seemed to be suppressed.

The only one who was not affected was Yunxiao. The electric arcs flashing near him were sucked directly into his body as if they were being sucked in by a force, and the aura emanating from his body grew stronger and stronger.

Deng Feiyu was shocked and immediately understood. She said with envy, "young master Yun, is the cultivation method you're using now the Thunder art that Lu Jianbo taught you?"

"Yes," Yunxiao said. At first, I was worried that there would be problems with this Lightning Art. Now that I've tried it out, it feels good."

Deng Feiyu smiled bitterly. one side is weaker than the other. Our power is suppressed by the Thunderbolt field. I'm afraid it'll be a tough battle to win this rabbit. He grabbed the saber with both hands and got into a fighting stance, ready to fight.

The other two also held profound weapons in their hands and became extremely vigilant. The rabbit suspended in the air without moving, but the color of its fur was indeed getting bluer and bluer. It was obvious that it was accumulating power.

Finally, the rabbit moved. Its head looked down, and its two eyes were like precious stones and red jade, so beautiful that it was somewhat devilish. A blue ring of light appeared around the rabbit's body, like a ring of stars. Circles of lightning patterns appeared on its ears, containing laws. The entire scene in the sky was too beautiful to look at.

The rabbit's mouth continued to whisper, and the Blue Star Ring began to rotate. The lightning energy in the entire world was affected, and the star Ring suddenly pressed down. A storm of Thunder formed within it, and the entire world was completely deformed by the might of Thunder!

"How can he be so strong?"

Deng Feiyu was shocked. He kept striking out his saber radiance, forming a huge saber talisman in front of him and shooting it out.

The Thunder Star Ring landed on the saber talisman, and the two shocking forces were equally matched. The sky was completely compressed into two colors, and the saber Qi and Thunder continued to disintegrate. The entire sky was destroyed.

The other two men's faces turned pale. Under such a powerful attack, they could only barely protect themselves. The three-star Martial Emperor was not so bad. The sword in his hand swept across the sky and absorbed all the spiritual energy in the surroundings. It formed a light green light shield around his body and shot out a sword light toward the ring of stars.

Yunxiao pulled out the thousand-year blade and touched it with his left hand. The tear of the true dragon immediately woke up the corpse puppet and sent it flying into the sky.

He had an extremely strong affinity with lightning, but at this moment, he also felt that something was not right. The rabbit's Lightning Field energy did not seem to be its own power, and it felt endless.

“Bang!”

The saber talisman was finally crushed into pieces and turned into a shocking Saber Light that scattered in all directions. The sword light of the three-star martial sovereign instantly disappeared. Then, the great corpse puppet rushed into the Star Ring and finally tore the blue sea of lightning apart!

“BOOM!”

The star Ring shattered and condensed into a huge Thunderbolt, directly shaking the giant corpse puppet down and blasting it into the ground!

The entire ground instantly turned into ashes and smoke. The lightning entered it and began to disintegrate the earth inch by inch. The power extended to the sea, rolling up towering waves and pushing forward.

The two one-star martial sovereigns who had been injured by the rabbit earlier were recuperating hard below. They were horrified to see the aftermath of the Thunderbolt sweeping over and the entire ground being overturned and destroyed. They could no longer care about their injuries and forcibly took a breath to escape.

However, it was already too late. The moment the two of them rose into the air, they were directly swept up by the power of the aftermath of the lightning, and they were turned into fragments that filled the sky along with the ground.

...

Yunxiao and the other three were also shocked and put up a defense, but they were all sent flying hundreds of meters away. Although they did not suffer any internal injuries, their qi and blood were tumbling in their bodies, and they felt an extreme pressure on their chests.

After the rabbit had used this terrifying attack, it jumped into the distance from the sky.

“BOOM! BOOM! BOOM!”

He jumped a few times in a row, his feet not taking up any space. He rose into the air, shaking the sky so much that it trembled violently, getting further and further away.

The few of them looked at the rabbit’s back and were all shocked, not daring to chase it anymore.

Yunxiao’s face darkened. He performed a hand incantation gesture in the air and cast a runic seal into the ground. Suddenly, a cold beam shot out and fell into his hand. It was the thousand-year blade.

At this moment, the spirit Qi on the blade had been completely lost. It was still covered with a layer of faint blue light, and the power of Thunder was seeping out.

Yunxiao’s heart trembled. The thousand-year tyrannical saber was a top-tier ninth-tier Mystic artifact, but it was completely suppressed by the electric field. This was definitely not something that could be done by the Thunder element of an ordinary ninth-tier demon beast.

“Phew! He’s finally gone. It’s too terrifying!”

Blood began to return to the three-star Martial Emperor’s pale face, and he heaved a heavy sigh of relief.

The other two also had a lingering fear, especially Deng Feiyu, who had a feeling of despair. Even if he was in his peak state and used all his cards, the ring of lightning just now was nothing more than that.

...

He was a five-star Martial Emperor, and this was just a ninth-rank beginner demonic beast in this world. This blow made him even less interested in exploring. He only wanted to find a safe place as soon as possible and wait until he got out.

Chapter 903-refining lightning

The other two martial sovereigns had the same idea as Deng Feiyu. After the rabbit jumped away, they immediately thanked the rabbit and left. They turned into two rays of light and went in another direction.

young master Yun, " Deng Feiyu said, " the combat strength of the demon beasts here is far higher than those of the same level. It's too dangerous. You'd better not explore it.

Yunxiao pondered for a moment, then put away the thousand-year saber and returned to his normal look. "It's fine. Brother flying feather, you can find a place to cultivate. Goodbye." His eyes were fixed in the direction that the rabbit had escaped. He seemed to be deep in thought as he turned into a ray of light and flew away.

Deng Feiyu seemed to have read Yunxiao's mind. He was taken aback, but he quickly caught up with him and said, " "Young master Yun, you're not thinking of chasing after that rabbit, are you?"

Yunxiao chuckled and said, " yes. Brother Feiyu, you should know that the lightning Art Lu Jianbo gave me requires at least five types of lightning. The lightning power that this rabbit just displayed is definitely enough!"

Although he had already guessed it, Deng Feiyu was still shocked. He said in horror, " "The lightning is good, but you have to be alive to take it!"

I have my own ways, " Yunxiao said with a faint smile. I have my own ways.

Deng Feiyu's face was gloomy and uncertain. He gritted his teeth and said, " In that case, I'll risk my life to accompany you, to repay young master Yun for saving my life!

Yunxiao was surprised that this man still valued friendship so much, but he still refused, " "No need, I have a secret technique to subdue that rabbit. With you by my side, it's inconvenient for me to use it."

Yunxiao's words were very direct, which meant that it was not convenient for him to show his secret technique in front of outsiders.

Deng Feiyu was stunned for a moment, then immediately understood. He had always been curious about how Yunxiao had survived from iron tears and Lu Jianbo, and from the situation at that time, it seemed that he had driven them away. He had kept this question in his heart and was too embarrassed to ask it.

He immediately understood, but he was also extremely shocked. The secret technique was actually so powerful.

"In that case, be careful!"

"When you're out of here, you must come to my Tianyu Building as a guest. I'll treat you with great hospitality to thank you for saving my life," Deng Feiyu said.

I will if I have time," Yunxiao said with a smile. I will.

The two of them immediately split up in the sky, turning into two rays of light and flying off in different directions.

After leaving Deng Feiyu, Yunxiao transformed into a bolt of lightning and quickly caught up with the rabbit. Only then did he reveal himself and follow closely behind it, trying to find out what was going on.

As for the rabbits, they were running out of them. After jumping around in the air for a long time, they continued to jump lower and lower. Finally, they landed in front of a huge mountain, where they began to walk slowly.

The mountain was so tall that it reached the clouds. It was so deep that the rabbit's huge body could not be seen after entering it.

Yunxiao frowned slightly, then turned into a beam of light and flew in as well. Inside were terrifyingly large trees, each of which seemed to have grown for countless years, and each one was so large that it would take a hundred people to wrap their arms around it.

Moreover, a lot of powerful auras were faintly exuding from the peak, which made Yunxiao extremely vigilant. Although he had the lunar eye, only God knew what kind of monsters were lurking in this ancient place. It would be a big joke if he were to die here by accident.

He quickly caught up to the rabbit's trail and "hopped" all the way to the top of the mountain at an extremely fast speed. What was surprising was that jumping within the mountain peak did not cause any tremors.

Yunxiao's divine sense quickly identified the nature of the mountain. It turned out to be made of an extremely strong earth element, and its grade was at the seventh-tier!

Such a huge mountain was actually a seventh-tier raw material!

This discovery gave Yunxiao a fright, and he crazily thought of moving the entire mountain away. If he could do that, he would instantly become the richest man in the world.

However, the powerful aura he felt from time to time in the mountain made him give up on this idea. Even the rabbit in front of him was extremely careful when jumping in the mountain, not daring to make a big fuss.

After a while, the rabbit finally reached the top. It was already above the sea of clouds. The sky was vast, and the huge Blood Moon stood there as if it had been there since ancient times.

Yunxiao quietly hid behind the rabbit. With the strength of his soul power, it was very easy for him to not be discovered by the rabbit.

Now, looking at the emptiness above the sea of clouds and the eternity of the Blood Moon, he suddenly felt a sense of melancholy as if he was in the eternal Sky and the moon. A faint power rolled in his eyes and influenced the Blood Moon in the sky.

“Bang!”

The rabbit leaped into the air and jumped forward, stirring up some dust on the ground. Its huge body seemed to be flying in the air with the strength of its jump, and it landed on a cloud.

“Pa La La!”

When the rabbit jumped into the sea of clouds, it actually caused tens of thousands of lightning bolts to shoot into the sky and dye it blue.

The White cloud turned into a blue sea of lightning in an instant. It spread out and absorbed all the clouds in the surroundings. It turned into a series of blue thunderclouds that flickered continuously.

The rabbit lay there quietly, and electric rings flickered in its ears as if it was being charged.

Yunxiao’s face flickered under the blue light. He immediately spread out his divine sense, covering the entire sea of thunderclouds and detecting all the movements in it.

as expected, it’s this kind of lightning energy!

Yunxiao was overjoyed. The Thunder energy here was not inferior to the heavenly Tribulation he had absorbed, and it had a vague feeling of being as clear as water. It was water Thunder.

However, this thundercloud was too large and was not as fierce and pure as the Tribulation lightning. It had to be refined.

He pondered for a moment, then flew directly above the sea of Thunder and began to operate the Thunder method of taking Thunder. Dozens of hand seals were struck out, hitting on a thundercloud. Suddenly, blue light was emitted, and the thundercloud quickly shrank, turning into a beautiful blue symbol, and then ascended.

Yunxiao was overjoyed. He took a few quick steps forward, transformed into a Thunderbolt, and absorbed the Thunder rune into his body.

The two completely different powers of thunder and lightning clashed for a moment before they quickly fused together. Yunxiao's body of Thunder seemed to have changed color slightly.

As soon as he saw that it worked, Yunxiao immediately began to refine the thunderclouds, turning them into powerful Thunder runes that he directly absorbed and refined.

In just half a day, he had devoured a small part of the thunderclouds, and the energy field above the sea of clouds had been weakened significantly.

Just as Yunxiao was happily absorbing the energy, his divine sense moved slightly and instantly transformed into a bolt of lightning. A blue Thunderbolt struck the place where he had been standing, scattering the entire thundercloud and filling the sky with flashing arcs.

The rabbit that had recovered its energy finally woke up and found that its Treasury was being robbed. It was about to explode in anger. After missing its attack, it suddenly jumped over, raised its two fists high, and smashed down.

Yunxiao snorted coldly and took a step forward. His body instantly turned into an indestructible golden body, and he threw out his fists as well. A strong wind blew away the thunderclouds around him, opening up a passage.

“BOOM!”

The four Fists collided and burst out with an extremely strong electric arc light, as if there were thousands of birds chirping. The blue light shone on the face of the man and beast, one was shocked, the other was sneering.

Yunxiao took the rabbit's fists with his own body, but he did not take a step back. However, his qi and blood were tumbling violently, and a trace of blood was left at the corner of his mouth. But, he was more excited.

Although the rabbit's advantage wasn't in strength, it was still a ninth-rank monstrous beast, after all. It could rely on its physical body to fight against humans of the same rank. The rabbit also seemed to be stunned by the scene in front of it. Its short and fat hands were held tightly by Yunxiao, and it could even feel the pain.

"Ah!"

Yunxiao roared, his face turning a little ferocious. He pulled forward, lifted the rabbit up, and threw it out.

...

The rabbit's huge body was flying on the thundercloud like a stone hitting the surface of the water.

Yunxiao took a step forward, then transformed into a Thunderbolt and traveled hundreds of meters in a flash, coming directly in front of the rabbit. With an excited look on his face, he said, "Don't you know how to play with lightning? Let's see if you're stronger or I'm stronger!"

He suddenly jumped up and flew in the air, revealing his three-headed and six-armed transcendence golden body. His six arms made hand seals at the same time, and the speed of the hand seals was three times faster than usual. All kinds of hand seals were launched, and the surrounding thunderclouds were refined into Thunder runes, sublimating and being absorbed into his body.

The rabbit stood up from the thundercloud and seemed to have realized something. It opened its hands, and the lightning rings on its ears flickered. A light blue lightning Star Ring began to form around its body, becoming more and more solid.

Yunxiao watched coldly as the power of the thunderclouds around him was absorbed by the rabbit. At the same time, an extremely strong electric field energy generated by the gathering of a large number of Thunderbolts on the mountain peak began to move to the rabbit, as if it was being used by it.

"As expected of a lightning attribute demonic beast. Its ability to comprehend this kind of heaven and earth energy is even above that of a lightning technique."

As Yunxiao quickly condensed and absorbed the lightning talismans, he carefully observed the changes in the lightning around the rabbit, sensing the frequency fluctuations of the lightning Star Ring and memorizing them one by one.

The sea of thunderclouds around them was emptied by tens of thousands of square meters as they absorbed it crazily.

At that moment, Yunxiao's two arms stopped, and a ball of Thunder began to gather on one of his hands, which was constantly pouring power into it. His other arm took out the Maha ancient hammer and hit the ball of lightning, making a series of banging sounds.

With every knock, one of the ancient Maha characters would enter the ball of lightning and slowly disappear. Under the constant hammering, the ball of lightning's color became darker and darker, showing signs of turning black.

Meanwhile, his other four arms were still refining and absorbing the lightning talismans without stopping.

...

At this moment, the lightning Star Ring around the rabbit's body was also becoming more and more blue, gradually reaching a saturated state. The rabbit raised its head, and its face was filled with anger and ferocity. Its body seemed to have swelled up a bit, and its two ears stood up high. Because the lightning was too full, the circles of lightning patterns became brighter.

Chapter 904

904 The wilderness

Both of them had great divine abilities of the Thunder element, and the ring of stars emitted the same field energy as the entire thundercloud. Meanwhile, Yunxiao's Thunder Ball was constantly condensing and compressing the Thunderbolts while imitating the frequency of the ring of stars. It spun rapidly in his palm, reaching the limit of his control.

The rabbit mustered its energy, and the star Ring suddenly flew out. Bolts of lightning connected below it, and with infinite field energy, a sea of Thunderbolts blasted toward Yunxiao.

As for the rabbit's slightly inflated body, after being jolted out of the ring of stars, it immediately shriveled up a few times, turning into a bag of bones. All of its strength had been drained in an instant.

Yunxiao's body trembled slightly, and the ball of Thunder in his hand began to go out of control. Every time the hammer hit the ball, the Thunder talisman would be shattered outside the ball, turning into earthworm-like Thunderbolts that swam away, no longer able to be further compressed and refined.

"Have you reached your limit?"

Feeling the shocking power in his hand, Yunxiao smiled hideously and threw the ball of lightning at the ring of stars. An ancient Maha character emerged on the ball of lightning, growing brighter and brighter.

The electric field energy above the entire sea of clouds had been completely disrupted by the interference of this man and beast. The sky and earth had turned blue. When the star Ring and the ball of lightning collided with each other, a huge vortex appeared with the two as the center, sweeping the entire sea of clouds in.

"Boom boom boom!"

The peak of the mountain that reached into the clouds suddenly crumbled and fell down inch by inch. The dust was also swept into the vortex. The demonic power in the mountain was in a riot and they began to flee down the mountain.

Only a few powerful demonic Qi still fluctuated around the mountain peak, but their auras had also become abnormally violent, shooting into the sky with fierce light.

Yunxiao and the rabbit were not having a good time in the lightning Vortex either. Both of them were covered in wounds from the lightning while they struggled to resist the suction of the vortex. Finally, the rabbit could not hold on any longer and was swept up, spinning in the sky.

At this moment, Yunxiao had already transformed into a three-headed and six-armed man. He performed several incantation seals and nailed his body into the sky like a steel nail. Lightning kept breaking the golden light on his body, and suddenly, a huge shadow emerged above his head.

“What?”

Yunxiao was taken aback. It turned out that when the rabbit was spinning beside him, it had jumped with all its might and pounced on him.

“Bang!”

The huge body smashed into Yunxiao, who was already swaying in the wind and rain. How could he withstand the rabbit’s pounce? he immediately lost his composure and was swept up by the vortex of Thunder, and the two figures were swallowed together.

The lightning and electricity that had accumulated over the years above the mountain peak were instantly obliterated.

The lightning Vortex continued to sweep for several days until a figure landed.

the aura disappeared here. Did the lightning open the space passage? ”

That figure appeared in the lightning Whirlpool. His delicate face was as calm as water. It was Murong Zhu, who had appeared in the dungeon of Red Moon City. The violent lightning turned into lightning dragons and blasted towards his body. However, within a few feet of him, the dragons turned into snakes and slowly disappeared.

The lightning in the sky did not dare to touch his clothes.

Murong Zhu’s eyes stared at the eye of the vortex. A dark green light flashed between her eyebrows, as if she wanted to see through the space on the other side.

I can’t see it anymore. Such a powerful Thunderbolt has scattered all the aura left behind. I’m going to lose contact with it for a while.

A few wrinkles appeared on Murong Zhu's face. She raised her head to look at the Blood Moon in the sky and muttered to herself, "The moon pupil is indeed on this person. How many years has it been?"

In the next moment, he grabbed at the air, and all the lightning in the sky gathered in his palm at a lightning speed, forming a ball of lightning. There was a faint purple color on it, and it was extremely terrifying.

A force dragged the ball of lightning into the vortex, bringing with it the power of endless lightning.

"BOOM!"

An earth-shattering explosion was heard. The lightning was like fireworks, blooming into thousands of Thunder Dragons that spread in all directions. A large number of Thunderbolts fell on the ground, directly smashing countless terrifying potholes. The peak of the mountain was directly wiped off hundreds of meters in height. A few unusually powerful demonic Qi were desperately running down.

After a while, the rain of lightning dragons gradually stopped. The sky that had been shrouded in lightning for several days finally regained its clarity. However, the peak of the mountain that was in the clouds had been cut down by a line. Those powerful demon beasts in the mountain had all hidden at the foot of the mountain, not daring to go up for several months.

After Murong Zhu threw the ball of lightning, she didn't care about the situation and disappeared.

.....

After being sucked into the Eye of the Vortex, Yunxiao's body was severely injured. Fortunately, he was constantly absorbing Thunderbolts to repair his body. After a moment of dizziness, he finally saw the light and fell down.

The place where he had landed was a wilderness, a vast expanse of white land, large areas of saline-alkali Silicon pools, which looked like mottled bald sores, and sparse weeds and shrubs. The wilderness was covered in black spots.

At first glance, it was obvious that this place was too humid, which made it seem a little bleak and cold.

As far as he could see, there was a huge bone armor that was thirty to forty meters tall scattered on the ground. Its body was like jade, and it emitted dense spiritual Qi. It was enough to show how powerful this demon beast had been before it died. It was at least a ninth-grade existence.

Yunxiao spread out his divine sense. After making sure that there was no danger nearby, he immediately began to regulate his breathing. His body had suffered a great deal of damage after the attack with the rabbit, but fortunately, his body was abnormal enough to be comparable to a ninth-tier demon beast.

After several days of regulating his breath, he finally returned to his peak state. He made a hand seal and a golden light covered his body. His whole body was shining, and the strength of his physical body was steadily improving.

Then, he changed his hand gesture and formed a few strange seals. Bolts of lightning broke out of his body and spun around him.

Yunxiao performed the incantation very slowly, but every time he did, the Thunderbolt would change. A moment later, a ring of stars was formed in front of him, and the electric field spread out.

The withered grass in the surrounding wasteland immediately sensed it and became as hard as thorns, standing straight up. There was also a layer of faint blue energy covering the surface of the leaves. The coarse salt in the pothole-filled saline pool was also distributed, forming circles of lightning patterns.

Yunxiao frowned and began to think. Then, he opened his immemorial heavenly eye and shot out a bolt of tribulation lightning, striking it directly into the ring of stars. The entire Lightning Field was thrown into chaos in an instant, and lightning kept bursting out of the ring, beginning to go out of control. The lightning runes formed by the crude salts in the pool also became messy and out of shape.

Yunxiao had foreseen all this, so he calmly inserted all kinds of runes into the ring. With every thrust, the energy of the ring of stars became stable.

Time passed by slowly. After a few days, everything was finally under control.

Due to the effect of the lightning, the imprint of the law of Thunder appeared on the ground, and a huge Maha ancient text was printed on the ground.

Yunxiao put away the Thunderbolts and frowned slightly.

He had more or less mastered the two types of lightning power and the star Ring, but there was still a certain distance from the requirements of the Thunder art, which required him to do as he pleased. It would take a long time to hone and accumulate, and it would be very difficult to make any substantial progress in the short term.

The direct reason why he stopped cultivating was that he felt someone coming. They were a few miles away and had stepped into the wilderness. He also sensed a familiar aura.

With a wave of his hand, a strong wind blew out and wiped away the Thunder Law mark on the ground. Then, he teleported to the huge demon beast skeleton and studied it carefully. After that, he slapped the skeleton with his palm and put it into the divine realm tablet, then turned it into a beam of light and flew toward the man.

A few miles away, seven people were flying at a low altitude in the wilderness.

Suddenly, all seven of them stopped and looked in shock at the furry existence in front of them. Their expressions changed greatly and they became vigilant.

They had also encountered the demonic beasts in this ancient world, which were more powerful than the ones in the heavenly martial realm. Some people had died because of them, so they were all afraid.

“That demonic beast was covered in blood, and there was no sign of life. It should be dead.”

After a while, one of the old men said with a deep voice, and a strange light shone in his eyes.

...

Although he couldn't determine the level of this monster beast at the moment, he could judge from his experience that it was very likely a ninth-rank existence. The value of a ninth-rank monster beast's corpse was difficult to estimate, not to mention that it was a monster beast that had lived for so long that it was probably one of a kind on the continent.

A young man immediately rushed up and activated his defensive mode. He carefully landed on the body of the huge demonic beast. After examining it for a while, he heaved a sigh of relief and said, he's dead, as expected. We've picked up a big bargain this time.

The other six people were also overjoyed and flew over one after another, landing around the monster beast and began to examine it.

A young woman extended her hand and gently stroked the demonic beast's fur. She sighed, "What a pity, such a cute Blue Rabbit, how did it die? Master, can you tell the level of this demonic beast?"

A woman in a court dress also shot a beam of light at the rabbit, which was immediately extinguished by a blue arc of lightning.

"A ninth-order monster beast with the lightning attribute!"

"Elder mi, we've gained a lot this time," the beautiful woman said in surprise.

The old leader, elder mi, also stroked his beard and laughed, "What's even rarer is that the corpse is so complete. Not even the fur is broken. It seems that a powerful force directly entered the body and shattered the internal organs. This complete rabbit is enough to be the finale item of a top-tier auction."

The young man who had come over first looked around vigilantly and said, to be able to kill such a powerful demonic beast, it's clear how terrifying the opponent is. This wilderness is not safe either!

"Feiyu is right. We can't stay here for long," elder mi nodded. Just as he was about to take the rabbit, a bolt of lightning suddenly streaked across the sky.

The lightning gathered above the rabbit and did not disperse. Under everyone's shock, it revealed a delicate and pretty figure and said indifferently, "This rabbit is mine."

...

Chapter 905

905 Proof

"Li Yunxiao!"

The young man was taken aback, but he immediately calmed down and said, "what a coincidence! I can't believe I'm able to meet young master Yun here.

When the others heard this, their expressions changed slightly. This name had been like the sun in the sky recently, and it could be said that there was no one in the world who did not know it.

Yunxiao gave the young man a look, then nodded gently and said, "So it's brother Feiyu from the ten thousand treasures building. I've missed you since I left songyue in the city."

you are li Yunxiao?" elder mi was moved. you are li Yunxiao?" The new generation is catching up with the old."

The others all looked at Yunxiao with great curiosity, wanting to see what this famous young genius looked like.

"There's no need to be nervous, everyone. Young master Yun is an acquaintance, a friend," li Feiyu said with a smile.

indeed," Yunxiao nodded. but, I know you well, but this rabbit is mine.

The few of them were stunned. They had clearly discovered the rabbit first, yet the other party was so rude.

Elder mi was also slightly displeased and snorted, " "You think it's yours just because you say so? Do you have any evidence?"

Yunxiao was also having a headache. No one would believe him if he said that he had killed the rabbit, and he could not find any evidence to explain it. So, he had to say again, " "I don't have any evidence, but it's indeed mine."

"Hmph, don't tell me you're going to say that you killed this rabbit!"

The woman in the court dress was also a little angry and said sarcastically, "It's good for young people to be a little arrogant, but one must be down-to-earth as a person. Moreover, our myriad treasures store isn't some soft persimmon that can be bullied. On the contrary, it's very likely to be a Hedgehog!"

"Don't get angry, everyone. Let's talk this out," Li Feiyu hurriedly said. For some reason, Yunxiao always gave him a feeling of secrecy, and he did not want to be his enemy.

He looked at Yunxiao and said awkwardly, " young master Yun, it's true that we found this rabbit first. How can we believe you when you say you have no evidence? " If it was an ordinary monster beast, you could take it, but this is a rare ninth-order lightning attribute monster beast, and it's of a very unique species. It's very likely that it's a unique existence, so its value is difficult to estimate. It's really making things difficult for us."

I understand, " Yunxiao said with a wry smile. but I did kill this rabbit. How about this, I only need its inner core and you can take the rest."

This demon rabbit's inner core was also a ninth grade lightning attribute treasure. If he took it to refine medicine and swallow it, it would be of great benefit to his lightning Arts divine arts. It was something that he had to obtain.

Li Feiyu was greatly shocked. He knew Yunxiao's character well. Although he was arrogant and unruly, and sometimes did things in an unrestrained manner, he was extremely proud and would never lie for a rabbit.

Such a person was extremely arrogant. Not only would he not lie, but he would also be too lazy to explain anything to others.

In that case, Yunxiao's strength was really great.

Li Feiyu's heart was in turmoil as he looked at Yunxiao in shock and was suddenly stunned.

"The inner core is the most valuable part of a demonic beast. If you take the inner core, this rabbit's value will drop by at least two-thirds."

A silver bell-like voice rang out. It was the young woman in the crowd. After saying this, she found that everyone was looking at her and hurriedly hid behind the woman in Palace Clothing.

The woman protected her with one hand as she said, "Qiuling is right. It's impossible to ask for the inner core before you can prove that the rabbit belongs to you. As for the rabbit you killed, haha, aren't you afraid of being laughed at?"

The woman's face was filled with unconcealed contempt and ridicule.

Although Yunxiao was said to be the best in the world among the younger generation, he was only a martial honor, and it was already his limit to restrain a one-star or two-star low-level Martial Emperor. It was impossible for him to win against a ninth-rank demon beast, not to mention that the demon beasts in this ancient world were much stronger than those in the heavenly martial realm.

Yunxiao was not angry, but said indifferently, "Then how can I prove it?"

"It's simple, unless you can beat me," said the woman with a sneer. "Although I'm not talented, I'm still a genuine four-star martial sovereign. I don't have the guts to boast that I can kill this rabbit. If you can't even defeat me, then you should just go back to where you came from."

Li Feiyu was anxious and wanted to stop him, but an emotion made him silent. Although he believed Yunxiao's words, he still did not dare, and was not willing to believe in his strength.

He would rather believe that Yunxiao had some powerful trump card than his real combat strength. So, he also wanted to see how strong this potential opponent was!

Elder mi frowned and recited, "Lu Nan, you can't bully the weak. Our myriad treasures store has always had a good relationship with young master Yun, so we can't hurt our relationship because of a rabbit. It's better to talk about the ownership of this rabbit after we leave for the end of time, and I'll keep it safe for now."

"Yes, elder mi, you can make the decision," the woman in the court dress quickly said.

wait," Yunxiao said. let's fight. It won't take long. I'm in a hurry to get this rabbit's inner core, and I still have important matters to attend to. I can't delay for too long, so let's end this quickly."

The seven men's faces changed drastically. On one hand, they were shocked by Yunxiao's words. He had described the battle with a four-star Martial Emperor so casually, and on the other hand, they were also hurt by his words. He had completely underestimated myriad treasures store.

The woman laughed out of anger and said, "Haha, a quick battle, what a quick battle! Elder mi, our ten thousand treasures tower's heart shines like the moon, but they don't give us face!"

Elder MI's anger also surged as he snorted, "since that's the case, Lu Nan, you should make your move. Experience the strength of this number one rising star and let him clearly distinguish the difference between the number one rising star and the number one in the world!

"Yes, yes, yes!"

The woman sneered,"if I don't teach him a lesson, he'll really think he's the best in the world." In my opinion, he might not even be as strong as Feiyu. I really don't know how he got this title!"

don't show any mercy," Yunxiao said. I don't want you to find an excuse to say that you didn't use your full strength after losing. It will be extremely bad for your future martial cultivation.

The woman almost vomited blood. She gritted her teeth and said, "Thank you for your good intentions! You can die now!"

Her figure moved and turned into a sharp light as she rushed forward. A long snake-like whip exuded a bloody smell as she ruthlessly lashed out.

With a flash of red light, the whip hit Yunxiao directly, and with a crack, it shattered him into an afterimage.

Yunxiao's real body had already arrived behind the woman. Then, he pointed out a finger, and a Thunder Dragon emerged.

"So fast!"

The woman was shocked and put away her underestimation. She poured her origin power into the long whip, which was as hard as a sword. With a swish, it scattered the lightning Dragon and exploded in all directions.

Yunxiao had already transformed into a Thunderbolt. Hovering in the sky, he performed an incantation gesture with his left hand and brought the hammer down with his right hand. A Thunderbolt, like a Heavenly Tribulation, streaked across a thousand meters in an instant and fell on the woman.

Everyone's hearts trembled. No wonder Yunxiao insisted on taking the demon rabbit's inner core. It turned out that his Thunderbolt divine ability was so powerful!

Li Feiyu was even more shocked. Back in songyue yang city, although Yunxiao had also used the ability to transform his body into lightning, it was not his main divine ability. But, judging from the current situation, this lightning divine ability was actually so powerful!

The woman's expression froze. Although she was not afraid of the might of the Thunderbolt, there was no need to resist it. She suddenly took a set of steps and turned into a gust of wind, disappearing from where she was and sweeping toward Yunxiao.

A cold voice came from the wind, "No matter how powerful a divine ability is, it's nothing more than a secret art. The Emperor Qi of the nine Heavens is the righteous path of heaven and earth, and it can suppress all ghosts and monsters!"

"Is that so?"

let's go," Yunxiao said softly, but his hands did not stop. The ring of stars condensed in front of him and flew out.

The gust of wind seemed to have noticed something and immediately stopped moving forward, revealing the figure of the beautiful woman in Palace dress. She looked at the field energy filled with thunder and lightning in horror. It could actually resist her Emperor Qi!

...

"Damn it!"

The woman's long whip was instantly released. A black light turned into a long snake with fins on its back and it flew toward the ring of stars.

The star Ring was like the sky, pressing down fiercely!

A shrill wail rang out between heaven and earth as arcs of lightning flickered from the snake's body. There were also explosive sounds, as if its spine had exploded one by one.

The woman's face changed greatly, and her eyes were full of disbelief. The long whip was connected to her mind, so she naturally knew that it had been injured. She quickly withdrew it and turned into a whirlwind again, trying to escape the pressure of the star Ring.

Everyone was shocked. They had never thought that the woman in the palace dress would actually be at a disadvantage!

Yunxiao's face was calm as he kept performing incantation gestures with one hand. The ring of stars changed at will, growing larger and larger until it covered an area. Under the sky, it was impossible to avoid it as it quickly flew toward the woman.

"Earth Dragon reversal!"

The woman saw that she couldn't avoid it, so she also exerted her strength. The long whip was held horizontally in front of her body and directly rose against the sky, opening the blue lightning space. The black Qi and blue light intertwined, forming a strange scene in the sky.

"BOOM!"

The two forces finally collided and exploded. The moment the star Ring exploded, the Maha ancient text appeared, and the power of thunder and lightning swept in all directions.

...

The Black Earth Dragon's whip broke through the blue lightning world like a bamboo shoot after the rain, rising up like a dragon.

Everyone in the ten thousand treasures tower was already completely stunned. Under the battle between the two people, it actually showed the momentum of a draw, and looking at the face of the woman in Palace Clothing, it seemed that she was even at a disadvantage.

Li Feiyu was even more dumbfounded. Only he knew that Yunxiao still had a lot of means that he had not used. If he showed them one by one, Lord Lu Nan would not have any chance of winning.

"Stop!"

Elder mi finally couldn't sit still and shouted in a deep voice.

Chapter 906

906 The monster core

After the celestial ring was broken, Yunxiao was about to use the sword diagram, but he stopped when he heard elder MI's shout.

He also did not want to fall out with the myriad Treasure Tower. After all, in his previous life and this life, he had had pleasant experiences of getting along.

The woman's face had already turned blue and purple. Shock, shame, anger, embarrassment, and all kinds of other emotions appeared on her face. She also knew that if she continued to fight, the possibility of her defeat was extremely high.

"The battle just now has broadened my horizons," elder mi said. Young master Yun, you truly live up to your name."

Yunxiao restrained his aura and flew down from the sky as he said indifferently, "Elder mi, you flatter me. Can I take the demon rabbit's inner core now?"

"Of course!"

Elder mi suddenly became magnanimous. He made a casual gesture and smiled, "young master Yun, you've already proven that you killed this rabbit, so everything here is Naturally Yours. How can we take the other parts?"

to tell you the truth," Yunxiao said, "I opened a space tunnel when I fought this demon rabbit, and I was teleported here directly. I was also seriously injured and had just recovered in this wasteland. I didn't expect you to enter."

Everyone's hearts trembled. Li Feiyu suddenly felt a sense of powerlessness. The gap between the two of them was getting bigger and bigger, as if they would never cross paths again. He could only look at the back of the other as they walked further and further away.

Elder mi suppressed the shock in his heart and forced a smile, "I see. If young master Yun were to reveal his strength, it would indeed be very difficult to believe! Now that it's been confirmed, there's no more misunderstanding. Young master Yun, you can take all of this rabbit."

Yunxiao did not stand on ceremony. He was not as rich as myriad treasures store, and he would need a lot of resources in the future. He patted the rabbit on the forehead and immediately put it into the divine realm tablet.

The myriad Treasure Tower's people all felt their hearts ache unceasingly when they saw this. Although the sect was rich, it did not mean that they were all rich.

Yunxiao put the rabbit away and said, "The misunderstanding has been resolved. I still have important matters to attend to, so I'll take my leave first."

young master Yun, please wait! elder mi said hurriedly. this old man has something to ask you!

are you talking about songyue yang city? " Yunxiao turned around and asked. what happened to her? "

"It is!"

Elder MI's face was solemn as he said sternly, "Songyue city was the city of the merchant Union, but it was destroyed in one day, shocking the world. What's even more unbearable is that the murderer has yet to be found, and the whereabouts of our sect's elders are also very worrying."

Yunxiao sneered. after brother Feiyu left that day, I also opened a passage and fled. I don't know anything about what happened after that. I would like to know what happened after that. With the power of the merchant Union, how could they not find any clues? Or did they not investigate at all?"

Elder MI's expression changed slightly, and he said in a serious tone, " young master Yun, you're thinking too much. The four extremes sect, the main culprit of this incident, has already been deserted. Those few demons are also wanted all over the world, but there are no clues at all.

if we really want to investigate, what can't we find out? " Yunxiao said disdainfully. I'm afraid that the merchant Union is busy dividing the interests left by the four extremes sect, right? "

Elder mi said, " of course, we have to split the profits. There's nothing to hide, but the murderer has been investigating this whole time. Since young master Yun can't provide any more clues, I won't disturb you any further.

Yunxiao suddenly thought of something and asked, "Elder mi, have you ever heard of a person called Lu Jianbo?"

"Lu Jianbo?"

Elder mi furrowed his brows and thought for a moment before shaking his head. "I've never heard of it. What were the characteristics of this person? If young master Yun wants to find someone, you can entrust it to our myriad treasures store, and we'll definitely have news."

Yunxiao sneered. your home in the merchant Union has been destroyed, and you can't even find the murderer. How can you help me find him? " he said. Goodbye!"

He saw that elder mi didn't seem to be pretending, so Lu Jianbo most likely wasn't from the Chamber of Commerce. He didn't say anything more, turned around, and left in a flash of lightning.

The remaining people of myriad treasures store looked at each other, not knowing what to say.

"Hmph, this li Yunxiao is too unreasonable. We were kind enough to help him find the person, yet he's mocking us." The woman called Cong Ling pouted and said unhappily.

"Although it's unpleasant to hear, he's right." Li Feiyu forced a smile. We can't even find the murderer, how can we have the nerve to talk about helping him find someone?"

Elder MI's expression was dark and uncertain as he said, "Lu Nan, if we had continued to fight, would you have had a chance of winning?"

Everyone was shocked and turned to look at the woman.

After that battle, the woman's face had been ashen and she had not said a word. Now that elder mi had asked, she immediately gritted her teeth and said, "No chance of winning." "Most likely," she added after a while.

The young disciples were all shocked. Even with their cultivation, they had only seen the two fight to a draw, and they had guessed that the woman in the palace dress had not used her full strength. They had not expected the truth to be reversed.

Elder MI's face turned cold, "If you and I join forces, are you 100% sure we can take him down?"

"?!"

The disciples were even more shocked. Elder mi was a five-star Martial Emperor. One star was a world's difference. Even a four-star Martial Emperor would not be able to escape from him. He actually asked about joining forces!

"Elder mi, what's that li Yunxiao doing?" li Feiyu was also greatly shocked.

Elder mi extended his hand and interrupted him. Instead, he looked at the woman in the court dress with a grave expression.

The woman's face also changed several times. She gritted her teeth and said, "Elder mi, I, I really don't know! But, I have a feeling in my heart that Yunxiao's true strength is enough to compete with you. Perhaps I'm overthinking it."

Everyone was dumbstruck, including li Feiyu, who had a look of disbelief on his face.

Elder MI's face also twitched a few times. With his hands behind his back, he slowly said, "just now, fortunately, I suppressed the killing intent in my heart. Otherwise, I would have been in trouble!"

Everyone's hearts trembled, and cold sweat broke out on their backs.

.....

After leaving the myriad treasures store, Yunxiao continued to head toward the southeast with Blood Moon as his target.

A few days later, they stopped above a mountain range and landed on a flat mountain. After taking out the divine realm tablet, they flew in directly.

The rabbit's corpse was suspended in the sky, and the DarkThunder had appeared beside the rabbit at some point. It flew up and down around the rabbit, seemingly very interested.

Yunxiao snorted and said, 'huh? I've forgotten that this thing is also a lightning attribute demonic beast. It's just that it's too weak, and its lightning power is of no use to me. "

The DarkThunder was also an eighth-tier martial venerable at the moment, but it was not enough to withstand Yunxiao's kick. It seemed to understand Yunxiao's words, as it lay on the ground in grievance and kept making 'clang' sounds, as if it was protesting.

"Get lost!"

Yunxiao kicked the DarkThunder in the air, and it jumped up in horror, trying to Dodge. But, it was too late, and was sent flying thousands of meters away by Yunxiao's kick. Only then did it stand in the air far away, not daring to come close.

Only then did Yunxiao turn his eyes to the rabbit. With a sweep of his divine sense, he immediately located the rabbit's inner core, then gently pointed his finger at it.

With a poof, a bloody hole was opened in the rabbit's chest, from which a thin stream of blood gushed out. Then, a blue light slowly spilled out and flew into Yunxiao's hand, emitting a surging energy.

"It would be a waste to swallow this bead directly, but I don't have enough materials and strength to refine it at the moment."

...

Yunxiao stared at the blue, crystal-like inner core for a while, then sighed regretfully and was about to swallow it.

Suddenly, a loud roar rang out. The DarkThunder suddenly rushed up, and its eyes emitted a golden light. Its mouth was extremely huge, and it swooped down, wanting to bite the rabbit's inner core.

Yunxiao raised his foot and stepped on its face as he shouted, "You dare to snatch my things, are you looking for death!"

"Roar Roar Roar!"

The DarkThunder struggled with all its might, unwilling to give up. Its desire for the inner core was extremely strong.

Golden arcs of electricity shot out of DarkThunder's body and struck Yunxiao's feet, causing them to glow with a golden light.

"You have a lot of treasures anyway, so just let it eat this."

A human figure appeared in the sky. It was Yue jiulin. He also cultivated Thunder-type techniques, and he got along well with the DarkThunder. He could not bear to see it so eager to be rejected.

DarkThunder also had a pleading look on its face, but its eyes never left the demon core.

Yunxiao had also thought about extracting the Thunder from DarkThunder. Since it had become a martial honor, its power of thunder and lightning had also undergone a certain change, turning golden. However, it was not strong enough, so although the Thunder was quite powerful, it was not of much use to him.

Unless DarkThunder could be trained to the level of a martial sovereign of the nine Heavens, but this was something that had never happened before. Even if he became a martial venerable, he was a one in a million exception.

...

“Forget it, I’ll give it to you, you animal!”

Yunxiao flicked his finger, and the blue inner core turned into an arc and shot directly into the DarkThunder’s mouth.

The DarkThunder’s fur stood on end as it roared into the sky. Its golden fur suddenly turned light blue, and bolts of blue lightning shot out from its body, flashing in the air.

Both Yunxiao and Yue jiulin were taken aback. They did not expect such a big reaction. However, the rabbit’s inner core was ninth-tier, so it would probably have to suffer for a while if the DarkThunder wanted to absorb it all.

other than the inner core, this rabbit’s blood is also a rare item. When this animal has recovered, let it consume some rabbit blood. It can transform its body to a certain extent.

Yunxiao ordered Yue jiulin. Then, he pointed a finger in the air, and a few holes immediately burst open in the rabbit’s major acupuncture points, from which a large amount of blood gushed out like a fountain. Under his control, he gathered the blood into a few glass containers and handed one bottle to Yue jiulin.

After the rabbit lost its inner core and its blood was drained, its entire body shriveled up. It lay on the ground, skin and bones, without any light.

At this moment, the value of its body was the light blue fur and bone armor.

Chapter 907

907 The desert

After giving his instructions, Yunxiao came out of the divine realm tablet. Looking at the continuous mountain range, he hesitated.

The ruins that Deng Feiyu had given him were tens of thousands of miles North of this mountain range.

Calculating the time, he had already spent more than half a month in this ancient land. If he went to the ruins again, he would not have time to obtain Tian si.

He wasn't worried that someone else would obtain Tian si, because from the inheritance he had obtained on the throne, in order to activate Tian si, one must have the power of the moon pupil. In other words, he was the only one who had the chance to obtain Tian si.

However, there were exceptions to everything, such as Jiang Churan!

Jiang Churan was a peak nine-stars Martial Emperor expert, one of the few experts in the world. Perhaps she could use her strength to forcefully obtain Tian si.

After weighing the pros and cons and making up his mind, Yunxiao decided to give up on the location of the ruins provided by Deng Feiyu, and instead fled Southeast with all his might.

After a few days, they finally arrived at the edge of a swamp and began to enter the desert Southeast of the Blood Moon.

As soon as they stepped into the desert, they felt a strong Yuan power vibration. There were people fighting in front of them. They were not very strong and were basically martial Supremes.

More than ten people surrounded a stone-like monster beast and attacked it. The color of the monster beast's body was almost the same as the sand in the desert. From time to time, it would burrow into the ground and come and go without a trace.

don't be discouraged, everyone. This demonic beast is already an arrow at the end of its flight. Let's join forces and kill it. At least we didn't waste our time coming here!

One of the nine-stars martial Supremes, who was wearing a long green robe, shouted in a deep voice. His strength was considered to be among the top among the crowd, and he had become the leader of the crowd.

There were only three high-level revered martial artists among the ten people. The rest of them had average strength, but they had the advantage in numbers. Their cooperation was very good, and there were no casualties.

Hidden in the void, Yunxiao swept his divine sense into the gravel, and a strange look appeared on his face.

The stone-like demonic beast was actually the same type as his gourd Little King Kong. It seemed to be a variant of the stone beast, but its strength was definitely a level higher than the stone head.

“Bang!”

“Be careful!”

The stone beast suddenly burst out of the gravel and directly pushed a martial honor into the sky. Fortunately, the martial honor was prepared. Although he was hit by a huge force and spat out a few mouthfuls of blood on the spot, his life was not in danger.

However, the stone beast did not stop. Instead, it shot up like a rocket and pushed the martial Supreme a thousand meters into the air.

“Pa!”

A chilling voice came from the sky. The stone beast grabbed the martial honor and tore him in half! Two pieces of a corpse and internal organs fell to the ground. The scene was bloody and terrifying.

“What? You should die!”

The green-robed nine-stars martial Supreme was shocked and furious. He shouted, " "This is a good opportunity! No matter what, don't let it fall into the sand. Kill it in the air!"

A ray of sword light flew up first. The green-robed man and his sword became one as he slashed forward!

His strategy was very correct. The power of the stone beast would at least be halved in the air.

"Bang!"

The green-robed man was overjoyed. The stone beast's fist was destroyed by the sword light. The green-robed man was overjoyed. The stone beast's strength was indeed much weaker. His other hand hurriedly formed a seal and sent out several powerful fist lights.

"Bang! Bang! Bang! Bang!"

The stone beast's body exploded one after another like a pile of sand, exploding beyond recognition.

When the people below saw this, they were also overjoyed and rushed up to the sky one after another, joining forces to attack, constantly smashing the stone beast's body, taking the upper hand.

"Dang!"

Suddenly, the sound of a bell rang out of thin air. It was melodious and clear, as if it came from the endless end. It also seemed to ring in their hearts. Everyone was instantly dazed.

"Dang!"

The second bell chimed immediately after, but this time, it was not as comfortable. Instead, it was like a sledgehammer suddenly smashing down from the sky, shaking everyone's chest!

“Pfft!”

Everyone spat out a mouthful of blood on the spot, and their faces were filled with horror. Even the man in green spat out a large mouthful of blood from the shock of the bell. He could no longer care about the stone beast and was extremely frightened and on guard.

The stone beast was relieved for a moment, and the remaining incomplete body fell directly into the gravel below and disappeared again.

“Who are you? Which Lord is it?”

The Azure-robed man suppressed the fear and uneasiness in his heart and asked carefully. If the other party was hostile, it would be difficult for everyone present to escape death.

“You guys can leave. I want this demonic beast.” Yunxiao’s voice came faintly.

The green-robed man’s expression softened and he heaved a sigh of relief. He could tell that the other party’s tone had no ill intentions.

“You want it just because you say so? Do you know how much effort we’ve spent to kill this demonic beast and how many comrades we’ve lost?”

A seven-stars martial venerable couldn’t take it anymore. He said angrily, “You’re good, you want to take it away just because you want it, how can there be such a cheap thing in the world! And now that the stone beast has returned to the earth, it will be extremely difficult to find it again!”

The green-robed man’s expression changed drastically, and he hurriedly shouted, “Idiot, shut up!”

He was so anxious that he broke out in a cold sweat. He was afraid that the person in the void would get angry and kill them all in one move.

Although the rest of the people were also furious, they didn’t dare to make a sound.

There was a moment of silence in the air, then Yunxiao's voice came again, "Oh? You're very unconvinced."

A wave of pressure suddenly appeared and instantly fell on the seven-stars martial venerable like a mountain, causing his face to turn pale. His heart was filled with endless fear as he hurriedly shouted with all his might, "I'm convinced, I'm convinced, I'm convinced! My Lord, please spare my life, I know I was wrong!"

"Hmph!"

Yunxiao's cold voice rang out as he retracted his aura and said, "Is there anyone else who is unconvinced?"

At this moment, no one dared to make a sound, and they were all silent like cicadas in winter.

The nine-stars martial Supreme in green robes felt bitter in his heart. His many days of hard work had turned into bubbles in front of his eyes. However, this was how the world was. The strong were respected. He had no choice but to be unconvinced. He said carefully, "We naturally have no objections to Milord wanting this stone beast, but now that it has already escaped back into the earth, I'm afraid it will be difficult to find it again."

you don't have to worry about that," Yunxiao's voice came.

...

All of a sudden, the color of heaven and earth changed slightly. A bolt of lightning fell from the sky and struck the ground directly. With the landing point as the center, an extremely powerful Lightning Field began to spread out, instantly turning the ground green.

"Bang!"

There was an explosion somewhere, followed by a flash of green light. The stone beast's body was directly shaken out. Its whole body was wrapped in green lightning, and it was roaring in a low voice.

Just as everyone was still in shock, a bolt of lightning streaked across the sky and shot directly at the stone beast.

In the blink of an eye, the stone beast disappeared. The lightning flashed again, and it flew towards the center of the desert, disappearing from everyone's sight.

More than ten people stood in the sky in a daze. All of them had a dull expression on their faces, and they didn't dare to make a sound.

After a while, someone asked in a soft voice, "Did that person leave?"

"He should have left, right?" a person beside him replied carefully. He even looked around a few times, afraid that the person would suddenly jump out again.

"Did any of you see his real face?" someone suddenly asked.

Everyone was silent, but at the same time, they were shocked.

A martial artist had snatched their spoils of war in front of their eyes, but they didn't even know what the other party looked like. It was really frustrating.

...

One had to know that they were at least revered martial artists of the eight barren mirror. Any one of them was at least a pillar of support in their own sect, and had never suffered such humiliation.

"Hmph! If I find out who did it, I'll definitely teach him a lesson when we're out of here!"

The one who spoke was the warrior who had refused to accept the challenge and begged for mercy.

Everyone looked at him with disdain. He had already left, so what was there to say? many people had mocking looks on their faces.

The warrior's face was slightly red as he stared at a warrior who was weaker than him. The murderous aura on his body rushed over and he said angrily, "What, you don't believe me? What's that expression on your face?"

The martial artist's expression changed drastically as he coldly said, "I believe you, I believe you, okay?"

The man in the long green robe was also irritated. He shouted, "Don't quarrel, is there really no one who can see who it is? I felt that the voice was familiar. Song Nan, the psychic magic eyes passed down in the song family for generations have an extremely powerful peeking ability. Didn't you notice?"

A short middle-aged man's face was pale. He bit his lips tightly and seemed to be extremely hesitant.

In the end, he chose to remain silent. He shook his head and said, "I didn't see clearly."

The green-robed man was shocked. He didn't believe that. At least, the expression on man song's face had already betrayed his inner thoughts. However, he nodded his head slightly and didn't want to ask any more questions.

Song Nan's choice proved that he didn't dare to offend that person, so he didn't dare to reveal his identity. If he chased after him, he would be in trouble.

Although they had lost the stone beast this time, they had also gained a lot of experience. Everyone consoled themselves in this way, and their mood slowly improved. They directly left the desert in groups.

They didn't dare to go deep into the center of the desert.

After obtaining the stone beast, Yunxiao threw it directly into the divine realm tablet and asked Yuan gaohan to study it. He had no time to pay attention to it now, so he continued flying toward the center of the desert.

After flying for a few miles, he felt the heat in the world getting higher and higher, as if he had entered a huge furnace. The deeper he went, the more intense the feeling became.

Not only was the environment getting worse, but there was also a strange aura coming from the gravel below, as if many extremely terrifying existences were hidden there. Even the occasional aura that leaked out made Yunxiao's face turn extremely serious.

He unconsciously flew a little higher. He would rather suffer from the scorching heat than disturb the terrifying aura.

But, even though he was so careful, he was still targeted by a powerful existence. A sense of extreme danger spread in his heart. Yunxiao looked around with a solemn expression, but he could not see anything.

Chapter 908-face

Although this desert didn't have a barrier to divine sense, the scorching energy was like an extremely powerful sun that seemed to distort the field energy here, making it impossible for divine sense to detect everything.

It was the first time Yunxiao had encountered such a situation, and he was greatly shocked.

The immemorial heaven's eye on his forehead suddenly opened, and a bright light spread out. Everything in front of him gradually became clear, and the flow of all kinds of energy also appeared in front of him. In front of him, there was a curved space crack, and a pitch-black demonic beast was hiding there. Its eyes were flashing with a fierce light, and it was quietly waiting for an opportunity.

The pupil in the immemorial heaven's eye contracted slightly, immediately alarming the demonic beast. A ghostly cry pierced through the sky, and the demonic beast arrived in the blink of an eye. It was actually a huge mutated Vulture. Its back was covered with all kinds of scales, and it had three claws that clawed down from the sky!

Yunxiao was taken aback. The Vulture was extremely fast, and by the time it discovered the other party, it was already in front of him, and there was no time for it to attack!

A ring of red appeared in his immemorial heaven's eye, and the divine fire transformed into a Phoenix that rushed toward the Vulture.

The Vulture was also shocked. Whether it was the Phoenix's form or the burning power of the divine fire, both made it feel apprehensive. It let out a sharp cry, and rays of green light appeared on its three claws, forming sharp blades that shot down.

The Phoenix form was immediately shattered, and the sharp blade of green light cut the sky into pieces, trying to cut Yunxiao into pieces.

Nine long swords materialized in the air, forming a sword rain that flew against the wind.

"Ping, ping, Pang!"

With a series of clattering sounds, the nine Northern heaven Frigid Stars cut down all the green blades. Then, under the control of Yunxiao's hand seals, they turned into a sword array and trapped the bald eagle. A huge sword took shape and slashed down from the sky!

The Vulture screeched continuously and flapped its wings desperately. Its feathers were like blades. As the huge wings flapped down, the light from the feathers bloomed and shattered the sword formation. It flapped its wings again and rushed out of the sword formation.

Although this kind of Vulture had extraordinary strength, it was born to hide and sneak attack its prey. Now that it saw Yunxiao's extraordinary strength, it did not like to fight. It flew straight into the sky and disappeared in an instant.

With a wave of his hand, Yunxiao recalled the nine Swords. He did not pursue them, but after regulating his breath for a while, he continued to head southeast.

He didn't know how big this desert was, but after flying for three days, he finally felt that something was wrong.

The demonic beasts they encountered along the way gradually decreased, but their strength became stronger and stronger. They had just escaped from the hands of a terrifying kangaroo-like demonic beast, so they had used up a lot of their origin power.

Not only that, but even he felt that it was a little difficult to resist the scorching heat of the environment. His entire body was filled with extremely strong scorching sun Power, which required an extremely large amount of Yuan power to resist. If it was an ordinary nine-stars martial venerable, he would have died on the spot if the extreme yang light shot down.

After flying for another half a day, they finally saw some scattered buildings in front of them, and there seemed to be human figures flashing.

In the middle of the ruins, there were a few people scattered around. They seemed to be searching for something. A bolt of lightning came from afar, immediately attracting their attention and great vigilance. All of them looked over.

“Li Yunxiao!”

lightning! one of them exclaimed when the lightning revealed its true form. His face immediately turned gloomy.

Yunxiao looked around and laughed in surprise. I didn't expect so many of us to be familiar with each other. Why are we all gathered here? did they receive some guidance? ”

Most of the people present were actually from the seven superpowers. Beiming Laifeng, Cheng Hao Miao, Chen Feng, and some other martial artists with strange attires were obviously from the myriad Star Valley.

Moreover, everyone's strength was at the level of a Nine Heavens martial sovereign. Otherwise, it would have been difficult for them to resist the terrifying power of extreme yang in the surroundings.

“Hmph, you’re asking the obvious. Why did you come here?” Beiming Laifeng sneered coldly.

he is li Yunxiao? ”

A middle-aged man beside Chen Feng glared at him with a cold look.

Chen Feng’s eyes were filled with complicated emotions. When song Yueyang was defeated by this man outside the city, she went back to cultivate in seclusion and finally broke through to the rank of a Nine Heavens martial sovereign. She thought that she would surely defeat Yunxiao, but on the day she came out of seclusion, she heard that Yunxiao had been conferred the title of the number one rising star by the city Lord of Red Moon City.

At first, he was still very unconvinced, but who knew that his father, Chen duantian, would say, ” “I know Jiang Churan well, she’s always mature and prudent in her words and actions. She would never speak aimlessly or boast without thinking. Even if that li Yunxiao isn’t the number one rising star, he’s not much weaker than you. You’re no match for him.”

Chen Feng did not believe in Jiang Churan, but he trusted his father very much. He had never doubted his father’s words. At this moment, a complicated look slowly appeared in his eyes as he looked at Yunxiao and said, ” Fifth uncle, he is li Yunxiao.

Chen Wen snorted coldly and a look of disdain appeared on his face. He said arrogantly, ” I heard that you’re very awesome and even beat up my blade sect’s people? ”

Yunxiao ignored him and did not even look at him. Instead, he smiled at beiming Laifeng and said, ” “Could it be the mysterious Tian si?”

Now that the seven superpowers had sent representatives here, it proved that the news had long since been leaked. There was no point in him acting anymore.

“That’s right, you also know Tian si. It seems that it must have been the red moon City who told you.”

Beiming Laifeng's expression turned serious, and he said in a strange tone, "That's strange. If your news came to Red Moon City, why didn't the people of Red Moon City take you with them? But if not, where did your information come from?"

"Impudent!"

Chen Wen's lazy and proud appearance instantly disappeared. His face was red and purple, and his eyes were filled with anger.

Everyone present was a well-known expert in the world. He felt extremely humiliated when he looked down on him in front of everyone. His aura instantly rose to the peak of the four-star Peak Martial Emperor realm, and the space trembled faintly. He said in a cold voice, "you're so arrogant. Today, I'll teach you a lesson on behalf of your family's elders!"

Chen Wen raised his hand and a finger radiance shot out. It immediately condensed into a sword light in the air and slashed down!

Everyone frowned, thinking that Chen Wen was asking for humiliation. Who could he blame? but they were all from the seven major forces, and they kept each other in check, so they were happy to see the blade sect cause Yunxiao trouble.

An old man beside Chen Wen had his eyes half-closed the entire time, as if he was dozing off. It was only at this moment that he raised his eyes slightly. His eyes were turbid, and he closed them again after taking a light glance, as if he was completely uninterested.

"I haven't spoken a word to you since I arrived, nor have I looked you in the eye. You want me to kill you for no reason? is this how Chen duantian taught you to be a man? The one who should be taught a lesson is you!"

Yunxiao's eyes turned cold, and a faint anger welled up in his heart. 'This is really an unexpected disaster! I can't even offend someone without doing anything!' He thought to himself. Speechless, he casually formed a sword and slashed at the man!

"Bang!"

The two sword beams were scattered in the air, and Chen Wen had a slight upper hand. The sword Qi continued to shake around Yunxiao, blowing up the corners of his clothes and making them flutter.

“What?”

Everyone was shocked. Although Chen Wen had pointed casually, he was a peak four-star Martial Emperor after all. Moreover, as a core member of the blade sect, his sword Qi cultivation was far above his peers. However, he only had a slight advantage!

Beiming Laifeng and Cheng haomiao were even more shocked. They had seen the battle between Yunxiao and Yun Xiang, and he was not this strong!

What was going on?

Wasn't his martial arts Foundation destroyed, and it would be difficult for him to advance any further?

The two of them looked at each other and saw the shock and confusion in each other's eyes, as well as the deep solemnness!

“Eh?”

The old man next to Chen Feng also let out a soft gasp of surprise, feeling somewhat incredulous. He slightly raised his eyes, and the turbid Qi in his eyes dissipated a lot.

...

When Chen Wen heard everyone's surprise, he became even more angry from embarrassment. He had originally thought that his finger would make the other party look miserable and even cripple him. He did not expect that it would only blow up the corner of his clothes, making him so angry that smoke was rising.

“You don’t know what’s good for you!”

Chen Wen shouted coldly and pointed out a sword finger. Immediately, a long sword appeared above him.

“Noiseless first form!”

He unsheathed his longsword and his entire body became one with the sword form as he slashed out. The longsword tore through the sky at an extremely fast speed with astonishing power!

Yunxiao did not dare to use the heavenly Sword picture in front of the crowd. Although it had not appeared in the world for thousands of years, it was still the treasure of shenxiao temple, and all the people present were the elites of the seven major sects, so it was difficult to guarantee that no one would recognize it.

“A Thousand Autumns like snow, a half Xi like a dream, one blade to suppress the soul!”

The thousand Autumns tyrannical saber immediately transformed into the corpse puppet’s true form. Saber radiance spread out like an ocean and soared into the sky. Its might was actually on par with Chen Wen’s silent form, splitting the sky into two!

Chen Wen’s heart trembled and a look of horror flashed through his eyes. Only then did he become extremely serious!

shapeless! he changed the sword spell in his hand and shouted, ” second move, shapeless!

The long sword suddenly dispersed and disappeared. The power of the sword Qi rose steadily, forcing the giant corpse puppet to retreat inch by inch.

...

A cold gleam flickered across Yunxiao's face as he transformed into a three-headed and six-armed man. A thunder hammer formed in his right hand as he struck forward. The ancient Maha characters of the law of Thunder emerged, and his left hand formed a sword incantation gesture before him. Meanwhile, his other four arms quickly changed incantations, causing Thunder patterns to appear around him and gradually gather into a Thunder celestial ring!

The giant corpse puppet in the sky finally couldn't hold on any longer. It was pushed back into the saber form and turned into a stream of light as it fell.

At that moment, Yunxiao looked like the God of Thunder. With three heads and six arms, he held a big hammer, and a ring of stars appeared around him. He raised the hammer high and smashed it down with a roar!

"Boom boom boom!"

The sky trembled violently, and the star Ring flew out immediately. The electric field spread, and with Chen Wen as the center, it turned into a sea of Thunder and a hell of lightning. The star Ring was like a heavenly punishment of judgment, crashing down!

Chen Wen's heart was set off. Under this Thunder spell, he actually felt death coming from the bottom of his heart!

"That's impossible! Three moves, shadowless!"

"BOOM!"

A muffled sound came from Chen Wen's body. He held the longsword in his hand and pointed to the sky with three moves. Sword Qi gathered together, splitting the sea of Thunder and hell of lightning and meeting the power of the star Ring!

Chapter 909-that person

"Enough!"

Just as the two terrifying forces were about to collide, the old man's eyes lit up. He took a step forward and his figure appeared in the middle of the two forces. He opened his hands slightly in front of him and directly tore the space apart. A black hole that could devour everything appeared and suddenly expanded!

“BOOM!”

Although the two forces created a deafening sound, they did not collide with each other. Instead, they were completely devoured by the black hole.

At this moment, the old man was no longer in his previous languid state. Instead, his eyes were shining with a brilliant light, and his face was slightly flushed with blood. It was obvious that this attack had also caused him to waste a lot of origin power. Chen Wen, you're too careless. If you destroy this place, all the clues will be cut off! he said as he looked down.

“Yes, Lord Kai Hong, I was too careless!”

The shock and cold sweat on Chen Wen's face could not be wiped away. If they had exchanged two moves just now, he was not confident that he could win. If he lost, he would have lost all his face.

It was only at this moment that he had a deep fear of Yunxiao.

The people from the other seven forces were also shocked. They had their own thoughts in their eyes, but they were all extremely serious.

Yunxiao retracted his three heads and six arms Dharma idol, and all the thunder and lightning around him disappeared. He had also used all his strength in the attack just now. Although the Thunder incantation was powerful, it also consumed a lot of energy, so he hurriedly circulated it to regulate his breath.

The people here were not good people. He had to be vigilant and at his peak at all times. Otherwise, he might die if he was not careful. If Chen Wen had not gone too far, he would not have attacked.

“The number one rising star is indeed worthy of his reputation. Your combat strength has already reached the level of a mid-stage Martial Emperor, but your cultivation base is only at the level of a nine-stars martial Supreme. It’s simply shocking.”

Chen Kai Hong slowly said, “I heard that your dantian was damaged and your martial arts Foundation was destroyed. Is that true?”

Yunxiao was on high alert. Chen kaihong’s words had attracted everyone’s attention, and more than a dozen eyes fell on him like wolves staring at their prey, which made him feel very uncomfortable.

“Hehe, what does it have to do with your blade sect whether it’s true or not? You’re full, right?”

Yunxiao snorted coldly and retorted without fear.

In his eyes, Chen kaihong’s strength should be similar to the blood God’s. He was only a six-star Martial Emperor. Other than the person from the beiming family who had a strength that he was slightly afraid of, there were no other high-level martial Supremes present.

The so-called high-level martial Supreme was above seven stars. This was also the first major dividing line in the martial Supreme realm. Above seven stars, one could be said to be all-powerful and could dominate the world.

The second watershed was the ninth star of the Martial Emperor realm. Once one stepped into the realm of a nine-star Martial Emperor, he would be at the top of the continent and could look down on the world. Among the seven great sect Masters and ten great martial emperors, fan Tao was also here.

The last watershed was the peak of nine-stars, which was almost the end of martial arts, and only a few people in the world had heard of it. And Yunxiao’s previous life, Gu Feiyang, was an unparalleled expert above the peak of nine-stars, before the end of martial arts!

As long as there were no high-level martial sovereigns like Lu Jianbo among the people in front of him, Yunxiao did not have to worry too much. Even if they joined forces to kill him and he had the moon eye, he would at least have the power to save his life in this hometown of the moon eye.

Chen Kai Hong was stunned, and a trace of anger appeared on his old face. The other party actually dared to talk back to him, which was completely unexpected.

Even the rest of the people were stunned. They did not expect Yunxiao to be so arrogant.

Beiming Laifeng was secretly overjoyed, and he chuckled, young master Yun, you haven't lost any of your elegance after we parted at Haitian town. Not only do you not care about the sea Race, but you also don't care about the blade sect, one of the top sects in the North Region. I'm truly impressed!

His words were deliberately provocative, hoping that Chen Kai Hong would get angry and kill Yunxiao on the spot. Then, all troubles would be over, and everything would be over.

However, when Chen Kai Hong heard this, the faint anger in his body was swept away, and a smile appeared on his face. He nodded and said, you're indeed a formidable person in the future. Since young master Yunxiao can't reveal it, I'm not interested in it either.

After he finished speaking, he turned around and walked back to Chen Feng and the others. He closed his eyes and fell asleep again.

Beiming Laifeng's heart clenched, and he inwardly cursed the old fox.

Many of the old men were laughing in their hearts. Chen Kai Hong was an old fox who had lived for over a hundred years. How could he be so impulsive after being attacked by the words of a young man? Beiming Laifeng's provocation had the opposite effect, and it had actually calmed Chen Kai Hong down.

Naturally, Yunxiao had also seen through it. He sneered in his heart, but he kept a straight face and said, "although I'm alone, I'm not a soft persimmon that can be pinched at will. If anyone still wants to bite me, I'll definitely break a few of his teeth. If you don't believe me, you can try. I'll make it clear now that whoever provokes me will be in a situation where I won't rest until they die!

Yunxiao's words were just to intimidate these people a little, so that they would not be provoked by any random cat or dog. He did not have the time to deal with them.

His words immediately caused everyone's expressions to change slightly. However, there were still a few experts who remained unmoved, as if they didn't take it to heart at all. However, they were much more restrained when it came to juniors and low-ranked martial sovereigns like Beiming Laifeng. Naturally, that peak expert wouldn't find trouble with him for no reason. If he really did, he would definitely kill him.

hehe, young master Yun, you must be joking. We're all friends, and we can't wait to care for each other. Who would take the initiative to find trouble with you? the few friends from the saber sword sect earlier were just mistaken.

Beiming Laifeng immediately tried to smooth things over. Ever since the Beiming family had appointed him as their successor, he had become much more talkative on various occasions. He could train himself while also highlighting his own weight.

that's good," Yunxiao said. that's good.

Now that the 'misunderstanding' had been resolved, it was time to get back to business. Yunxiao asked in surprise, "So many of you have been here for several days and you still haven't found the entrance to the ruins?"

"That's right!" Beiming Laifeng said with a straight face. But we haven't seen anyone from the red moon City, so it's very likely that city Lord Jiang and the others have already entered the ruins. Young master Yun, didn't you hear about Tian si from the red moon City?"

Yunxiao's heart stirred as he asked, "Everyone's origin is from Bi An again."

Everyone exchanged a glance before Beiming Laifeng finally said, in fact, this isn't a secret. We don't know who revealed it, but that person seemed to only tell us about the seven major sects, and only the people from the seven major sects are here. Could it be that young master Yun was also informed by 'that person'?"

Who was that person?

Everyone had the same question in their hearts. Yunxiao immediately thought of ning keyue, but he immediately rejected it. Ning keyue would never do such a thing. "The person who informed me was someone else, and it's definitely not the 'person' you guys are talking about. It's rare that with your strength, you guys couldn't even see through the person who informed me?"

Everyone's faces seemed to be a little ashamed. Chen kaihong hesitated for a moment before he slowly opened his mouth and said, "That person's strength isn't below mine, and that's why I chose to believe him."

The experts from the other sects also nodded. The leader of the myriad Stars Valley, Luo yuankai, also said, "I chased after that person for a thousand li, but he still managed to escape, and he did so with ease."

Yunxiao suddenly felt that the whole thing was very inappropriate, as if he had fallen into some conspiracy or trap. The people of the seven major sects also had the same feeling.

However, who could resist the temptation when the treasure was right in front of them?

the 'man' you're talking about must be a high-level martial sovereign," Yunxiao said seriously. but I don't know if he's also in the end of the world. If he is, he might be watching our every move from somewhere. In addition, even if he isn't here, he must have a purpose for telling everyone about Tian Si's whereabouts, so we must be careful."

Chen kaihong replied, "that's only natural. Everyone in the world would not do anything without benefits. However, as long as we can get some substantial benefits, it doesn't matter even if he has ulterior motives. The most important thing now was, did that Tian si really exist? I wonder if the channel from which young master Yunxiao received the news could provide more details?"

Everyone immediately perked up their ears. This was what they were most concerned about.

let's not talk about this for now," Yunxiao said with a faint smile. do you really know what tiansi is? "

Beiming Laifeng muttered, " this is the first time we've heard of this thing as well. According to 'that person', the heaven's thoughts is an extremely powerful item, even comparable to Gu Feiyang's moon eye. I don't know the details. Young master Yun, do you know the exact details? "

Yunxiao nodded slightly. He had nothing to hide, so he said directly, " "That tiansi is indeed on the same level as Yue Tong, but how much do you guys know about Yue Tong?"

Cheng haomiao couldn't help but ask anxiously, young master Yun, you'd better finish your words at once. You're going to suffocate us like this.

a martial artist values his heart the most, " Yunxiao said with a smile. brother haomiao, you are so impatient that it's easy for you to make mistakes in your training. He pointed at the ruins of the buildings around them and said, " "Look at the carvings on the pillars, what do you think?"

...

Everyone looked around. They had studied the carvings on these ruins. At first, they thought that there would be some kind of cultivation technique or a mechanism to enter the ruins, but they were disappointed. The carvings on them were pure patterns that seemed to have records, but they were badly damaged, so it was difficult to see any clues. There were monsters, people, birds, and so on, but all of them had bright eyes, as if they were emitting a certain demonic aura.

"Their eyes are exactly the same!" Beiming Laifeng suddenly exclaimed in shock.

In those pictures, no matter if it was a person, a beast, a sea beast, a bird, or some other things that he didn't recognize, the shape, appearance, and race were all different, but the eyes were exactly the same!

Chapter 910-eye race

no wonder I've always felt that something was strange, but I couldn't tell what was wrong. Now that you've said it, it's true!

Cheng Haobo revealed a look of realization and said with a strange expression, "Could it be that the eyes of these things are the so-called moon pupils?"

“No, no, the statues here are completely wrong.”

Beiming Laifeng suddenly overturned his own judgment. He walked over to a pillar that was stuck in the sand, wiped off a layer of dust, and pointed at the monsters on it, saying, look, their eyes are different from the previous ones. Although they're still bright and full of energy, they don't have that heart-palpitating demonic feeling.

Everyone looked over and saw that the sculpture was of a group of creatures standing together in an orderly manner. They were also of no race or type. Although their eyes were different from before, they had the same expression.

Not only this pillar, but there were also many other patterns. The eyes were different, but they seemed to be classified based on the eyes.

the so-called moon pupil is not an eye, but a race, ” Yunxiao explained. in ancient times, they were called the pupil clan, similar to the demons and humans of today. The moon pupil is just one of the branches of the pupil clan, and it is also the most powerful one.

“Eye clan? What kind of form do they exist in?”

huh? ” Chen kaihong was shocked, ” the pictures on these murals seem to be of different races gathered together. Could it be that the eye race lives by occupying their bodies? ”

Yunxiao nodded. even if they are all from the pupil clan, they are very different. A very small number of them have their own physical form, but most of them rely on parasites to continue their existence.

A beam of light suddenly flashed between his brows, and the immemorial heaven's eye suddenly opened, giving everyone a huge shock.

Yunxiao chuckled. don't panic. This is just an ancient heavenly eye, and it's just one of the eye clan. The will of this heavenly eye has died long ago, and what's left is just a shell with the power of eye techniques.

The pupil of the immemorial heavenly eye rolled a few times, and then a smile appeared on its face. It was Yunxiao's expression.

The expert from the beiming family, beiming Tongfang, suddenly spoke, I've seen this immemorial heaven's eye before, and it's quite powerful. It's quite a stroke of good fortune for young master Yun to be able to obtain one.

Yunxiao's heart fluttered as he asked, 'Oh? May I ask where you met him, Sir?'

Beiming Tongfang didn't say anything else, as if he couldn't be bothered to say anything.

Yunxiao thought to himself, 'the immemorial heavenly eye has gone extinct for a long time. It was made by Gu Yuesheng's master, mad man Jie. It is said that he found the tomb of the immemorial heavenly eye. Could it be that mad man Jie is also related to the beiming family?'

But since beiming Tongfang didn't say anything else, he couldn't be bothered to pay him any more attention. He put away his heaven's eye and said, the immemorial heaven's eye is one of the most common forms in the eye race. It is a form where one's physical body is stored. A parasite can have several or even dozens of immemorial heaven's eyes, and one of them will definitely be the king.

Yunxiao pointed at one of the patterns. On it was a huge hippopotamus creature with hundreds of eyes, one of which was the largest and the most vivid.

"If that's the case, does it mean that Gu Feiyang's eyes were an outsider when he had the moon pupil?" Cheng haomin frowned.

the immemorial heavenly eye is the most common way of storing a physical body in the pupil clan, " Yunxiao said with a smile. as the most powerful existence in the pupil clan, the moon eye does not store its physical body, but directly fuses with the host's soul, and they will live and die together with the host! Hence, the moon eye will definitely choose an extremely powerful existence to reside in, such as Gu Feiyang."

"Then how is the moon pupil produced and reproduced?" beiming Tongfang asked again.

No. Yunxiao shook his head and said, " I know that there is a certain chance of passing on the legacy through the reproduction of host bodies, but the probability is not high. As for the creation of the moon pupil, it had to be said that everyone's purpose this time was Tian si! The heavenly thoughts are formless, I don't know what kind of existence it is, but I know that in order to give birth to the moon pupil, there must be the heavenly thoughts, and the heavenly thoughts is the totem of the eye clan!"

His gaze swept across the broken walls and he walked to a broken wall. He pointed at a pattern and said with uncertainty, " Perhaps this is what Tian si is?"

Everyone looked over and saw all kinds of creatures kneeling on the pattern, but above them was a blank space, with only a few strokes of something that looked like a cloud but was not a cloud.

Yunxiao had obtained all this information from the throne inheritance, so he picked out some irrelevant ones and told them about it.

Cheng haomiao couldn't help but ask,"the messenger said that whoever thinks about it will be able to reach the God Realm. Is that true?"

Yunxiao rolled his eyes at him and said, " you're thinking about the immortal state now. It's too far away for you. I've heard from all of you that the Messenger's strength is definitely above everyone's. If there's really something good about the God Realm, would he be so stupid as to come and tell you? Or is it as Lord Kai Hong said, we don't care what the other party's goal is, as long as it can benefit us, it's enough."

"You're right!"

"I've never heard of anyone who has reached the immortal state," beiming Laifeng agreed. If he can get Tian si, he can at least stand at the peak of this continent. If Gu Feiyang didn't have the help of the moon eye, it would be extremely difficult for him to leave his name on the heaven and earth Power chart, let alone the Tong clan's totem, Tian si."

Cheng haomiao replied, " brother Lai Feng, don't think too highly of yourself. You must know that the red moon City Master is also looking for Tian si. Our chances are extremely slim.

“Strength alone isn’t enough to obtain such a peerless treasure. One must also have great luck,” beiming Laifeng said with a chuckle.

“You’re right, but we can’t even find the passage to the ruins. It seems like our luck isn’t that great,” Cheng Haobo said.

Beiming Laifeng frowned and said unhappily, “Why does brother heaven’s expanse like to say such disheartening words all day long?”

Everyone fell silent, as if they were at their wits’ end. They had been here for a few days, and the auras of those people in Red Moon City had indeed disappeared here. They knew that there was another space here, but they couldn’t find it no matter how hard they tried.

“Young master Yun, you know so much. I wonder if you know the way to the ruins?” Chen Kaihong asked.

Yunxiao spread his hands and said helplessly, “I can’t do anything about that. I only know that the ruins are nearby. There are so many powerful cultivators here, can’t you sense the location of the space?”

Chen Kai Hong laughed bitterly. not only can I not sense the space, but I can also sense the auras of the people in Red Moon City. They must have been afraid that someone would track them down, so they erased their traces.

with Jiang Churan’s ability, it’s easy for her to erase her aura, ” Yunxiao said. it’s not realistic to track down the people in Red Moon City. It seems that I have to find a way myself.

He also began to ponder. The inheritance of the throne did not mention the method to enter the ruins. At this moment, the best way was to use the moon pupil. Then, all the traps and arrays would not be able to escape his eyes. However, there were so many people, how could he use the pupil technique?

Yunxiao began to search through the incomplete murals, hoping to find some clues.

However, after half a day, they still found nothing. The murals were too badly damaged, and they had no idea what those records were.

Suddenly, his eyes fell on half of the stone wall. It was a scene of a group of creatures kneeling and worshipping. There were all kinds of creatures, and the object in front of them had been broken. However, the place where this group of people stood was a magnificent building arranged in an oval shape.

“Bang!”

Suddenly, Yunxiao leaped into the air and looked down at the ground, his pupils constricting.

There was no doubt that the place where the group of people knelt on the mural was here. The broken remnants were vaguely oval in shape, in the shape of an eye. And from the direction where they knelt, it should be the Suan ni.

Yunxiao raised his head and looked at the Blood Moon in the sky. It looked like a strange eye, exuding a demonic power.

His entire body trembled, and his eyes instantly turned blood red. The moon-like pupils suddenly appeared, and he was so frightened that he broke out in cold sweat. He hurriedly circulated his Origin Energy to suppress it.

“What’s wrong? Did you find anything?”

Beiming Laifeng flew up and stopped beside Yunxiao. He looked at Yunxiao, who was sweating profusely, and asked suspiciously.

With his eyes closed, Yunxiao shook his head slightly and said, “There’s no progress,”

However, there was a huge wave in his heart. In the moment he formed the Moon pupil, he seemed to have seen something, but he could not confirm it.

“Oh? Then why is young master Yun covered in cold sweat?”

...

Beiming Laifeng said in disbelief, “Although I don’t know why young master Yun has some misunderstandings and prejudices against our beiming family, we are all on the same boat now. Young master Yun and I still have the agreement of the East Sea, and we need a long-term cooperation. I hope that we can establish a certain friendship.”

After saying that, beiming Laifeng suddenly and quickly retreated dozens of meters. He was on full alert as he stared at Yunxiao in horror, because he found that there seemed to be a faint violent aura coming from Yunxiao’s body, and it was unusually demonic and not very friendly. young master Yun, what’s wrong with you? ”

The aura on Yunxiao’s body slowly disappeared, and he finally opened his eyes, which were as clear as water. “I’m fine. I just felt a little unwell. Some old diseases just acted up.”

“An old illness acting up?”

“Could it be an injury from the battle at the Redmoon city?” beiming Laifeng asked, a little suspicious.

you can say that, ” Yunxiao said perfunctorily. I’ve been fighting and killing all year round. Isn’t it normal to have some injuries? ”

Beiming Laifeng felt his throat go dry. He knew that Yunxiao was talking nonsense again. This man always liked to wrangle and be frivolous at critical moments, but there was nothing he could do about it. that’s true. Our beiming family has a lot of good medicine. We can give some to young master Yun as a bridge to our friendship.
